Vol. XXX

Texas Technological College, Lubbock, Thursday, December 16, 1954

No. 12

Shook Is Named Gator Contestant

Sandra Shook, Lubbock junior, has been selected by the Red Raider football team to represent Tech in the Gator Bowl Queen Contest, to be held in Florida late in December.

Miss Shook, a music education major, will leave for Florida in time to be there Dec. 27, when preliminary judging starts. She is a member of Kappa Alpha Theta and Phi Mu Epsilon.

Past participating schools and current neighboring schools are sending representatives to the contest. The queen will be presented at the game between Auburn and Baylor Jan. 1.

Little International Champ Is Bryan

Joe Bryan, sophomore animal husbandry major from Ovalo, was selected grand champion individual of the seventh annual Block and Bridle Little International Livestock show Saturday afternoon. The selection was made on the basis of his showmanship abilities and the manner in which he fitted a Hampshire fat lamb for the show. Bryan also took top honors in the sheep division of the contest.

Reserve champion of the show was Jim Russell, freshman from Merkel, who showed a Hereford steer. He also won the beef cattle championship.

Fred Boren, animal husbandry professor and sponsor of Block and Bridle, animal husbandry division club, stressed that the quality of the animal shown by each student was not considered in the final decision of winners. Instead, the boys entering the contest were judged on their fitting and showing abilities. He explained that the show is patterned after the International Livestock Exposition.

116 Take Part

A total of 116 agriculture students participated in one or more of the contests' five divisions—beef cattle, dairy cattle, swine, sheep and horses. Judging the show was Bill Kimbrough, Crosbyton, assisted by Charles Taylor, Dickens Co.

In a milkmaid contest, Julia Reed, freshman pre-law major from Lubbock, squeezed out a victory over Wanda Jo Williams, Arts and Science junior from Pampa, by only 15 lb. The object of the contest was to see who could get the most milk from a cow in the two minutes allotted. Julia had 4.40 lbs of milk—including the pail.

Griffin Wins

Monte Griffin, sophomore agriculture student from Lamesa, won the greased pig race for boys. He received the pig and a trophy as awards. He was sponsored by the Rodeo Association.

Cecil Ayers, professor of agronomy, beat out Stanley Anderson, animal husbandry professor, and Dr. Bob Black, head of the animal husbandry department, in a faculty horse saddling contest.

Jim Howard, agriculture senior from Pantex, president of Block and Bridle, was in charge of the contest, and Joe LeGendre served as superintendent.

The event was climaxed by a "Days of Forty-Nine" costume dance held in the Rec Hall Saturday evening. Billy Williams, star of "Louisiana Hay Ride" and Columbia records, played for the college-wide dance.

Charlene Williamson has been practicing up on her basketball lately, getting ready for the All-American City Basketball Tournament. The Fort Worth sophomore is Tech's entry in the Queen contest. If her photo is judged winner, she will get to go to Owensboro early in January when Tech plays in the tournament. (Photo by H. A. Tuck)

Christmas Concert Is Planned Sunday; Joint Recital By City and College Groups

Three new Tech musical organizations will make their debut at a Christmas concert at 4 p.m. Sunday in the Student Union Ballroom.

The groups, numbering almost 100 students, include the Girls' Glee Club and Tech Civic Choir, both directed by Robert Elson, and the Tech Orchestra under the baton of Paul R. Ellsworth. Both Elson and Ellsworth are instructors in the music department. The choir and orchestra include townspersons.

Members Listed

Students are:
GLEE CLUB: Lua Allen, Sweetwater; Margaret Barnhill, Canyon; Marion Buckley and Marcia Hoare, Amarillo; Barbara Carthel, Lockney; Louise Crook, Mary Fawvor, and Marianna Key, Snyder; Barbara Jackman, Graham; Pauline Keefe, Bishop; Doshia Lusk, Plains; Frances McCreary, New Deal; George Anna Meadors, Wolforth; Ann O'Neal, Breckenridge; Virginia Peacock, Seymour.

Celia Pember (accompanist), Portales, N. Mex.; Sarabeth Simpson, Levelland; Betty Taylor, McLean; Jimmie Tomlinson, Tulia; Jane Whitfield, Anton; Tommye Wieland and Helen Willis, Dumas; Rita Burleson, Shirley Caldwell, Patricia Christensen, Carol Crisler, Lynn Harrison, Nancy Hays, Lavan Horton, Glenda Keyton, Fern Lewis, Cynthia Loveless, Betty Nickell, Nina Porter, Janet Ramsour, Billie Roark, Joy Robertson, Jennie Thompson and Carole Tolin, Lubbock.

Civic Choir

Civic Choir—Florence Ashcraft, Ranger; James Babb and Jean Collett, Abilene; Dick Baird, Vernon; Charlotte Beck and Anne Campbell, Ralls; Frank Clark, Lipan; Lawrence Cook, Spur;

Frances Copeland, Lockney; Ruth Cummings, Whitewright; Helen Hair, Levelland; Helen Harrison, Andrews; Albert Malacara, Amarillo; Anne Mason, Sweetwater; John Matson and Sue Miller, Fort Worth; Mary McCanne, Pecos; Shirley McGowan and Bobbie Smotherman, Claude; Geneva McLain, Hart;

Kiel Quesenberry, Muleshoe; James Rich, Greenville; Ray Ola Schneider, Jal, N. Mex.; Frank Slattery, Cayuga, Ind.; Emily Slover, Tahoka; Jean Tyrone, Nolan; Richard Watkins, Dallas; Marilyn Webb, Roby; Willida Wells, Fort Stockton; Freddy Wise, Kermit; Ernestine Wood, Lamesa; Larry Dickson, Loving; James Holmes, Talmadge Wright and Leo O'Gorman, Pampa; Dwayne Zeleny, Artesia, N. Mex.; James Schoeld, Carlsbad, N. Mex.; Norman Pierce, Henderson; Eugene Brock, Joanne Dean (accompanist), Alfred Douglass, Joy Downing, Richard Frisbie, Sandra Hitch, Helen James, Martha Judah, Charlotte Love and Arnold Tanner, Lubbock.

Tech Orchestra

Tech Orchestra—Margaret Ammer, Monahans; Dane Wampler, Petersburg; Grady Davis, Amarillo; James Carthel, Lockney; H. A. Sessions, Sundown; Dick Baird, Vernon; Scott Couch and Dwight Pounds, Levelland; Don Burton, Fort Worth; Myron McCarter, Perryton; Fred Maxcey, Earth.

The orchestra, will present "Christmas Festival" and "The Sleigh Ride" by Leroy Anderson. The choir will sing parts of the Messiah, The Girls' Glee Club will give four numbers, "Adoramus Te," by Di Lasso, "Touro-louro," an old French carol; "Good Christian Men Rejoice," an old German carol; "O Holy Night," by Adam.

Petitions Now Available for Mr. and Miss Texas Tech

Only two petitions have been picked up for the nominations of Mr. and Miss Texas Tech, according to Gwen Williams, chairman of the Student Council election committee. Anyone who has a nomination to make may pick up a petition now in the Council office, Ad 165.

A minimum of 310 signatures are required for each candidate. All petitions must be turned in to the Student Council office by Dec. 21.

Election of Mr. and Miss Texas Tech and runoffs for class favorites will be held in a campus election Jan. 11. Results of the elections will be withheld until La Vantana comes out.

Class meetings were to be held at 5 p.m. today to nominate class favorites. Runoffs will be held in a campus-wide election Jan. 11.

Audience Delighted At Speech Play

By DAVID CLARK

Toreador Editor

The farcical "Squaring The Circle" opened to a nearly full house Monday night and burlesqued its way through two hours of broad satire directed at the Soviet Union to the great delight of the audience.

The plot concerns two young roommates who decide to get married without telling each other. Each brings his bride home to live in the tiny apartment, and then the fireworks start.

Freshmen Prominent

Three of the four major roles in the play are handled by freshmen, who give assurance that they will have to be reckoned with in future presentations.

Robert Aycock, a Jerry Lewis type, plays Yasya, an architectural student. His roommate, Abram, is played by James Brown, a funny fellow with face to match.

Shirley Harrison, a senior speech major, takes the role of Ludmilla, one of the girls, and Tonya, the other bride, is played by Barbara Van Horn. Fritz Stanley plays the boisterous poet, Ray Cook is a party official and Robert Miller plays Rabinovitch, the apartment house manager. Not the least of the characters is a bicycle which, though it never appears, is always getting underfoot.

Closes Saturday

Community theater designs by students in the architecture and allied arts department decorate the lobby and walls of the theater. "Squaring The Circle," to close Saturday night, is being produced nightly at 8:15 in the Speech Auditorium. Reservations should be made prior to the performance by calling Ext. 356. Tickets are 75 cents for students and \$1 for adults.

'55 Phone Books Shows Ad Building

A line drawing of the Tech Administration Building adorns the cover of the 1955 telephone directories. The books will be put into use Sunday.

C. R. Styles, Lubbock district manager of the Southwestern Bell Telephone Company, presented the original art work, from which the engraving of the building was made to President E. N. Jones Monday.

The largest ever distributed here, the new telephone book will also contain a drawing showing points of public interest and figures about Lubbock.

Class Favorites Must Have 1-Point

The Texas Tech Supreme Court ruled Tuesday that candidates for class favorites and Mr. and Miss Texas Tech must have a 1-point, grade average to be eligible for these positions, according to Margaret Lee, chief justice.

The court was asked to render a decision on the matter because no eligibility specifications for favorites are found in the college constitution.

The court ruled that the grade average should apply to the case of class favorites and Mr. and Miss Texas Tech because they are representatives of the college. The vote was unanimous.

CHRISTMAS HOLIDAYS BEGIN

Tech is closed officially for the Christmas holidays at 10 p.m., Tuesday, Dec. 21. Classes will be resumed Jan. 3.

The Library and College Bookstore will close Wednesday at 5 p.m. Neither will open over the holidays.

Dorms will officially be closed Wednesday at 10 a.m. The last meal served will be Tuesday night. Dorms will reopen at noon Sunday, Jan. 2, with the first meal Monday morning.

Closing Tuesday at 5 p.m., the Student Union will reopen Sunday afternoon, Jan. 2.

This is the last Toreador to be printed until Thursday, Jan. 6.

District Colleges Hold Debate Meet

Debates within each of the district colleges on some phase of state and federal government in relation to higher learning was the project selected by delegates to the district meeting of the Texas Intercollegiate Student Associations.

Only three schools were represented here Saturday as Tech Student Council was host to the TISA meeting. Out of nine schools in the district, only McMurry, West Texas State and Texas Tech had delegates at the meeting.

The delegates selected the debate subjects, which are to be held separately in each school. They also decided to meet again shortly after the debates have been held. Purpose of this meeting will be to formulate the ideas presented by each school and possibly make a resolution concerning the governmental relationship to higher learning to the state convention. Bill Hunter from West Texas State is chairman of the project.

Ronnie Avery, arts and sciences representative to the Student (See TISH, Page 6)

Clinic Shows How To Dress Up Gifts

By PAT HARKLEROAD
Toreador Staff Writer

Do you lose all thought of Christmas cheer when you try to wrap packages? Many people's fingers become all thumbs at the very thought of tying bows. The Applied Arts Club Gift Wrapping clinic at the Union last week demonstrated methods of quickly turning out beautifully wrapped packages using only materials at hand.

A man's gift looks nice wrapped in brown paper. To dress it up, copper wire can be bent in any desired shape, sprinkled with sequins, glued to the top of the box, and then it is ready to put under the tree.

Bright colored designs can be cut out of construction paper and topped with yarn. Aluminum kitchen foil will make a nice outside wrapping—or it can be cut up in the shape of trees or other designs.

Christmas tree balls look nice tied on a package with yarn. Faces or scenes can be painted on the balls with tempera—or they can carry the person's name. Santa Claus faces cut out of felt and decorated with sequins and cotton will please a child almost as much as the gift inside.

A large box can be decorated to portray a whole scene by using pen-and-ink sketches outlined in gay colored yarn.

There is no limit to the ideas and materials that can be used to give packages a more personalized touch. They are quick, easy and fun to do if you let your imagination run wild.

Cass To Compete In Talent Search

Ross Cass, Plainview sophomore, will travel to Abilene Dec. 18 to compete in the state finals of the talent search contest, sponsored here by KFYO radio station.

Cass, who won the Lubbock finals Dec. 6 with his rendition of "Cara Mia," will be competing with finalists from San Angelo, Amarillo and Abilene districts. The winner will go to Chicago to try winning an engagement at the Chez Paree, plus a contract with Mercury recordings.

Bob Nash, program director of KFYO will accompany Cass to Abilene.

Operetta Tryouts To Start Saturday

Auditions for Gilbert and Sullivan's operetta, "Yeoman of the Guard," will be held at 3 p.m. Saturday in the Music Building, announces Robert Elson, music instructor.

The operetta, to be presented by the music department in February, consists of two acts. The scene is during the Elizabethan period.

The cast calls for 15 solo parts and a chorus of 50. Tryouts will be open to all faculty members and students, said Elson.

Going
GOING

well not entirely

But space on student ships is not held after this month. Those who sign up for the European tour conducted by Mrs. Alan Strout should register now. (The cash deposit may be made after Christmas.)

Science Seniors Hear Geophysicist

Milton B. Dobrin, geophysicist for Magnolia Petroleum Industries, last week talked on geophysical exploration to approximately 75 geology and petroleum majors.

Advantages and limitations of the "reflection" method of geophysical exploration were outlined. Dobrin also pointed out that research on equipment and techniques related to this field offers good positions for graduates of geology, physics and engineering.

Morgan Davis, vice president of Humble Oil Industries, is the next scheduled speaker, with the date to be announced.

Language Club Entertains Foreign Cadets At Party

French and South American cadets were guests at the Foreign Language Inter-Club Christmas party Tuesday night in the Union Building.

Members of Le Cercle Francais, Der Liederkrantz, Sigma Delta Pi, Capa y Espada and the Optimates attended the party.

After the group sang carols in several languages and played games, refreshments were served.

Guests include one South American and six French cadets who are training at Reese AFB.

They were: Mark Audirac, Georges Gauthier, Christian Buchet, Jean Cazalet, Jean Delris, Gerard Fauconnier and Roberto Lam Rodriguez.

Greetings

To our friends and customers:
A bright and joyful holiday to you all!

IT'S A FACT! College smokers prefer Luckies to all other brands—and by a wide margin—according to the latest, greatest coast-to-coast college survey. The No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Now for the Doodle above, titled: Inept smoke ring blown by ept smoker. He's ept, of course, because he smokes Luckies. Be ept yourself and enjoy the better-tasting cigarette . . . Lucky Strike.

Better taste Luckies... LUCKIES TASTE BETTER

Phi Gamma Delta Initiates Kemas

Kemas, men's social fraternity at Tech for the past 22 years, was installed as the 82nd chapter of Phi Gamma Delta last week end. Sixty-one student members were initiated into the national social fraternity.

Kemas, the last of eight men's social clubs to affiliate with national fraternities, was established at Tech in 1932. Phi Gamma Delta was founded at Jefferson College, Cannonsburg, Pa., April 22, 1848.

Newly initiated members of Lambda Tau chapter are: Brad Wilde, Abilene, president; Joe Goodin, Claude, recording secretary; Bill Harpole, Levelland, corresponding secretary; Carl Kennedy, Pampa, treasurer; Eldon Smith, Plainview, historian; Charles Holmquest, Lubbock; Joe Lynch, Lubbock; Bill Summers, Dallas; F. L. Ballard, Crowell; Rodger Line, O'Donnell;

Fred Currie, Greenville; Raymond Lunn, Olney; Bruce Matson, Fort Worth; Roddy Stargel, Memphis; Don Brice, Tahoka; Bob Beckham, Abilene; Dee Clement, Valley View; E. J. Tarbox, Follitt; Tommy Morris, Odessa; Ted Mellinger, Amarillo; Melvin Schlegel, Olney; Bobby Waddle, Cedar Hill; Bob Killian, Fort Worth; Jimmy Ware, Bovina; Roy Smith, Odessa; Ed Wilkes, Lubbock; Bill Burton, Fort Worth; Ellis Bauereis, Houston; George Mallett, Amarillo; and Gerald Russell, Vera.

Other include: Ed Aiken, Newman; Benny Bedford, Midland; Bob Black, Abilene; Jerry Bratcher, Plainview; Walter Bryan, Olney; Vencie Downey, Perryton; John Flewharty, Seymour; Bill Gaither, Phillips; Freeman Cross, Odessa; Van Hall, Amarillo; Jerry Jackson, Breckenridge; Bruce Johnson, Panhandle; Ken Johnson, Cleburne; Ross Jones, Seymour; James Knight, Odessa; David Larson, Lubbock; Dean Lewellen, Panhandle; John Marse, Plainview; Johnny Matson, Fort Worth;

Kappa's Receive 'Best Skit' Award

Kappa Kappa Gamma sorority received an award for the best skit given at annual Panhellenic luncheon Saturday. The trophy was won and presented by the Kappa pledges to their sorority in memory of Betty Hancock, Kappa member who was fatally injured last week in a car accident.

Doris Ellis, president of Panhellenic, welcomed the guests and introduced the president of each sorority, Panhellenic representatives, and special guests. Gwen Williams led the invocation.

Kappa Alpha Theta, Delta Delta Delta, Kappa Kappa Gamma, Zeta Tau Alpha, Pi Beta Phi, Delta Gamma, Alpha Chi Omega, Sigma Kappa, and Alpha Phi sororities and colonies were represented Saturday afternoon in the Union Ballroom.

Following a turkey luncheon, skits were presented by the pledges of each sorority and colony.

Special guests and judges of the skits were: Miss Florence L. Phillips, dean of women; Mrs. Martha H. Hall, assistant dean of women; Miss Jane Matthews, Panhellenic adviser. Faculty sponsors of the sororities also attended.

KAPPA ALPHA THETA

"Toys for Tots" were exchanged at the Kappa Alpha Theta Christmas party Wednesday night. The toys were given to the Toys For Tots drive headed by the Marine Corps Unit.

The S. C. Arnett home, 4903 21st St., was the scene for the party where members and pledges sang Christmas carols and exchanged big-little sister gifts.

Bill Parks, Fort Worth, Tom Parks, Clifton; Jim Rich, Greenville; Dale Roberts, Fort Worth; Ralph Sharp, Lubbock; Wayne Shipley, Garland; Ken Whittington, Amarillo; Bob Williams, Fort Worth; Monte Wise, Quitaque; and Morris Womack, Austin.

Santa Claus To Be Guest of Honor At Phi Delta Theta Christmas Party

Santa Claus will be the guest of honor at the Phi Delta Theta Christmas party tomorrow night. Party time is 8 to 12 p.m., with no announcement as to the place available Wednesday.

Members and dates are: Royal Hagerty, Patsy Hagerty; Marshall Pharr, Ann Standifer; Chuck Luling, Dorise Stone; Hubert Ring, Shirley Chapman; Freddy Briggs, Pat Dryden; Jerry Brown, Annette Tarkenton; Ray Weed, Joyce Tharp; Ray Thornton, Ruth Ann Cummings; Roy Miller, Gladys Bain; Jim Alexander, Jerri Hills; Bill Ramsey, Franky Hadlock; Buddy Moreman, Margaret Ammer;

Frank Wright, Kay Culbreath; Dick Spencer, Kay Lolley; Bowden Cook, Marguerite Paschall; Samuel Gompers Hodge, Mary Cristy; Jack Hooker, Helen Miller; Earl Dietering, Janice Cox; Joe Kirk Fulton, Revis Jordan; Don Sparks, Carol Crisler; Roy Middleton, Joyce Howard; Charlie Whittfield, Mary Alice Brasselton; Sam Camp, Gail Hunt; John Pittman, Suzanne Porter;

ZTA Has Christmas Party For 25 Colored Children

Zeta Tau Alpha played Santa Claus to 25 colored children at a Christmas party Tuesday night. A lighted Christmas tree decorated the Christian Student Center, where the party was held.

Following a get-acquainted period, sorority members played games with the children and sang carols. Saint Nick paid his visit and distributed gifts and candy sticks to the group.

After refreshments of apple cider and doughnuts were served, Nancy McKissack told the story of the "Littlest Angel."

Sylvia Link and Peggy Pittman were in charge of arrangements for the party.

Jameson; Jimmy Sexton, Sue Ann Hunt; George Lemon, Phyllis Emery; Reg Martin, Marilyn Merrill; Larry Byrd, Ann Rathjen; Leo Chase, Mary Jane Miller; Johnny Jones, Doris Ellis; Buddy McGehee, Mary Ann Smith; Bob Peterman, Verna Herrington; Jerry Van Pelt, Darlene Wood; Bill Bunton, Ann Bunton; Jerry Bailes, Carolyn Leftwich; Monty Davenport, Sue Davenport; Ben Wilson, Florence Jensen; Wallace Wilson, Joan Roberts.

Pledges and dates: Bob Cox, Grace Vick; Bobby Dean Smith, Flo Patterson; Sonny Wyatt, Anisse Baynes; Ross Cass, Ann Hogg; Martin Rose, Gladys Crandall; Lynn Elliott, Sandra Shook; Jack Beckner, Mary Jo Cappelman.

Mr. and Mrs. John Harding will chaperone the party.

Judy Edwards, Midland freshman, has been chosen Dream Girl of Pi Kappa Alpha. She will be entered in the national Dream Girl contest along with other sweethearts from other chapters.

New filter cigarette brings flavor back to filter smoking!

WINSTON

Winston tastes good—like a cigarette should!

Now there's a filter smoke college men and women can really enjoy! It's Winston, the new, king-size, filter cigarette with *real* flavor—full, rich, tobacco flavor!

You're bound to enjoy Winston's finer flavor. And you're sure to appreciate Winston's finer filter. This exclusive filter is unique, different, truly superior! It works so effectively—yet doesn't "thin" the taste. Winstons are king-size for extra filtering action. Easy-drawing, too—there's no effort to puff!

Try a pack of Winstons—the filter cigarette that brings *flavor* back to filter smoking!

WINSTON... the easy-drawing filter cigarette!

the toreador

Letters to the Editor

Dear Editor: The following is a poem composed when I heard of the 'Who's Who' selections.

Hip, Hip, Hurray! Hats off to the Who's Who selection committee, We think your selections stink, You've done a fine job of choosing yourselves, So hurry and rinky dink!

That some are deserving we cannot deny, But others are not so keen. Was not one voice in objection raised, To the method of picking the team?

Is there no chance for an honest man To exist at Texas Tech? Or must we all play politics So not to hang by the neck?

So here's to the Who's Who selection committee, You've done a superlative job The student body is nearly subdued, And soon will not even sob. Sincerely, Anonymous

Dear Editor: Does the student body realize that we are getting taken for \$14,316.80 for the month of December alone?

The office of room reservations is charging each occupant of the college dorms \$50.50 for the month of December. They are charging us for 22 days of room rent; yet, we will be here for 21 days. After pulling out our trusty adding machine and slipstick, we find by dividing \$65 (regular room rent) by 31 (days of the month) that room rent is \$2.10 a day. Therefore, multiplying \$2.10 times 21 days we get \$44.10. This amount should be the room rent for December. Subtracting \$44.10 from \$50.50, we get a margin of \$6.40. This is the amount of money each student who lives in the dorms is getting taken for.

There are 2,237 students (excluding athletes) in the college dorms. If each one gets taken for \$6.40, the college devours \$14,316.80. Are we going to let this go by unnoticed? Does \$6.40 mean anything to you?

Tommy D. Guest Wilbur D. Jarrett George E. Scott SNEED HALL

According to H. L. Burgess, supervisor of dorm reservations, your trusty adding machine is not to be trusted. Mr. Burgess says that the extra money will amount to \$3,700, instead of \$14,000, and will be carried over and credited to each student's account in January. This is being done to save

Our Two-Fold Reason

Bette Hancock, junior business administration student, was killed last week when her car collided with another at an intersection. The driver of the other auto was charged with murder with a motor vehicle, driving while intoxicated, and ignoring a stop sign.

Sometimes we, you and I, run a stop sign or break the speed limit unthinkingly. Too often we fail to live . . . and let live. We fail in our responsibility to our fellow man. We rush about in our daily existence never once stopping to meditate and ask ourselves, "What's the hurry? What meeting is important enough that I must run over a child to get there? What dance is important enough that I must injure another person, perhaps permanently?"

We come to college for a purpose . . . to learn to be good citizens . . . to respect the rights of others. There many periods in the lives of human beings, each with its possibilities, happiness and expectations. There are efforts and results and the strength of the effort is the measure of the result.

God help the individual who believes his first duty is to gain wealth and position. Our first duty is to others, to make life sweeter and easier. This is the bond that connects not only man with man, but with everything that exists.

Our part is to recognize the loss, to bear the pain, and to find a deeper and richer life in doing the will of God.

As for those of us who knew Bette Hancock personally, we'll remember her smile, her kindness, and think of her still as the same. We can do more . . . we can drive safely on our way home for the holidays.

—Phyllis Martin

LITTLE MAN ON CAMPUS

By Dick Bibler

time and effort in distributing a cash refund to each dorm student. By your reasoning, the \$6.40 is for one day's rent only. Actually both room and board must be considered. Room rent goes on, just as it does when people living in rented houses take vacations. The food bill, however, constitutes the sum to be credited to each dorm resident.

Low-Coast Tour Of Europe Is Proffered To Students

A low-cost tour of Europe next summer for students is being planned by Mrs. Alan Strout, instructor in English.

For as little as \$1120, a limited number of students can make the trip, says Mrs. Strout. The tour of the continent will take 30 days by private motorcoach and will include stays in Rome, Venice, Nice and Paris. Stopovers will be made at other points, including London.

HOUSING PLAN HEARD

James G. Allen, dean of student life, discussed the proposed housing plan for fraternities and sororities with members of Kappa Alpha Theta, a social sorority last week.

On Campus with Max Shulman

(Author of "Barfoot Boy With Cheek," etc.)

CLOTHES MAKE THE BMOG

A few weeks ago I discussed fashions for coeds. I pointed out then that the only girl who really wanted to go places on campus had to be bold and ingenious when it came to clothes. This is no less true for the male student.

Believe me, men, you'll never get anywhere if you keep skulking around in those old plus-fours. What you need is some dash, some verve, some inventiveness in your apparel. Don't be imprisoned by the traditional conservatism of men's clothing. Brighten up your appearance with a single earring, or a cavalry sabre, or a gold derby.

However, guard against gaudiness. If, for instance, you are wearing a gold derby, do not also wear a cavalry sabre. This is too much. Wear a dagger instead, or, for informal occasions, a Bowie knife. (Speaking of Bowie knives, I wonder how many of you know what a great debt this country—in deed, the whole world—owes to the West Point class of 1836? You all know, of course, that Colonel James Bowie of the Class of 1836 invented the Bowie knife, but do you know of the many other important contributions to cutlery that were made by classmates of Colonel Bowie's? Are you aware, for example, that Colonel Harry Clasp invented the Clasp knife? Or that Colonel Harry Jack invented the Jack knife? Or that Colonel Harry Putty invented the Putty knife? Or that Colonel Harry Cannon invented the towel?)

By a curious coincidence, every member of the graduating class at the U. S. Military Academy in 1836 was named Harry, save for Colonel James Bowie. This coincidence, believed unique in the history of American education, though, of course, quite common in Europe.)

But I digress. We were talking about men's campus fashions. Let us turn now to a persistent rumor that a garment called the "suit" is on the verge of making a comeback. Some of you older students may remember the "suit." It was an ensemble consisting of a jacket and trousers, both of which—this'll kill you—both of which were made out of the same material!

The last "suit" ever seen on an American campus was in 1941—and I ought to know, because I was wearing it. Ah, 1941! Well do I remember that melancholy year. I was an undergraduate then and in love—hopelessly in love, caught in the rip tide of a reckless romance with a beautiful statistics major named Harry Sigafos. (She is one of the two girls I have ever known named Harry. The other one is her sister.)

I loved Harry though she was far too expensive a girl for me. She liked to eat at fancy restaurants and dance at costly ballrooms and ride in high priced cars. But worst of all, she was mad for wishing wells. It was not unusual for her to drop coins into a wishing well for two or three hours on end. My coins.

Bit by bit I sold off my belongings to pursue this insane courtship—first my books, then my clothes, until finally I was left with nothing to wear but a "suit." One night I came calling for her in this garment.

"What is that?" she gasped, her lip curling in horror. "That is a 'suit.'" I mumbled, averting my eyes. "Well, I can't be seen around campus with you in that," said she. "Please, Harry," I begged. "It's all I've got."

"I'm sorry," she said firmly and slammed the door.

I slunk home and lit a Philip Morris and sat down to think. I always light a Philip Morris when I sit down to think, for their mild tobacco is a great aid to cerebration. I always light Philip Morris when I don't sit down to think too, because Philip Morris is my favorite cigarette, and I know it will be yours too once you try that crazy vintage tobacco.

Well sir, smoking and thinking thus, my eye happened to fall on an ad in the campus newspaper. "WIN A COMPLETE WARDROBE" said the ad. "Touhy's Toggery, the campus's leading men's store, announces a contest to pick the best dressed man on campus. The winner of the contest will receive, absolutely free, a blue hound's tooth jacket, a yellow button-down shirt, a black knit tie, a tattersall vest, gray flannel trousers, argyle socks, and white buck shoes with two inch crepe soles."

My mouth watered at the thought of such a splendid wardrobe, but how could anybody possibly pick me as the best dressed man on campus—me in my "suit"? Suddenly an inspiration struck me. I seized pen in hand and wrote a letter to the editor of the campus newspaper:

"Dear Sir, I see by the paper that Touhy's Toggery is going to give a complete wardrobe to the student picked as the best dressed man on campus. What a ridiculous idea!

"Obviously, to be the best dressed man on campus, you must first have a lot of clothes. And if you have a lot of clothes, what do you need with another wardrobe?"

"Touhy's Toggery should give a new wardrobe to the worst dressed man on campus. Me, for instance. I am an eyesore. There isn't a crow in town that will come near me. Three times this month the Salvation Army salvage truck has picked me up. Esquire has cancelled my subscription."

"I submit that a vote for me is a vote for reason, a vote for equity, in short, a vote for the American way."

With a flourish, I signed the letter and sent it off, somehow feeling certain that very soon I would be wearing a complete new wardrobe.

And I was right—because two weeks later I was drafted.

Early American Lamps Shown As Treasure of the Month in Museum

By JAN WEBSTER
Toreador Staff Writer

Are you bothered with goblins? Then you may need a fairy lamp similar to the one in the Museum's Treasure of the Month. The small chartreuse globe with the glass ruffle at the bottom doesn't look a bit imposing or frightening, but its purpose in the 1880's was keeping goblins away from the children's bedside.

The goblin lamp is just one of Mrs. Wayne Boren's collection of early American lamps on display. The Snyder woman's collection was awarded first prize as the most interesting entered at the 63rd annual convention of the General Federation of Women's Clubs which met in Denver, Colo., last June.

Betty Lamp Described

"My collection tells the story of the development of lighting in the American home," Mrs. Boren says in her prize-winning essay. Early American lamps begin with the Betty lamp. Betty or bete was an old English word that meant to make better. The Betty lamp was an improvement over more primitive lamps of its day. It was brought to America from England in the early 1600's.

The Dutch spout lamp, dated 1759, carries the manufacturer's name, Maldechem. The whale oil lamp, a truly American invention, doesn't carry a name, but tradition ascribes its invention to Benjamin Franklin in the early 1800's. The rest of the lamps trace the story of lighting from rag wicks floating in grease to frilly bedside lamps with adjustable wicks that burn kerosene.

Ship Lantern

But not all of the collection is American. A ship lantern sailed the seven seas in the passageway of an English ship in colonial days, and a Japanese candle lantern found its way from the Orient into Mrs. Boren's collection.

Mrs. Boren started her hobby when her mother gave her several antique lamps for her living room.

Her interest was aroused in their historical value, and the collection grew quickly.

The fixtures in her new home will be antiques. Mrs. Boren says that she already has a carriage lamp and an old student lamp that will bring early American lighting to a 20th century home.

Fellowships Open For French Study

Opportunities to study or teach in France are available to American graduate students, it was announced today by Kenneth Holland, president of the Institute of International Education, 1 East 67th Street, New York City.

The French Government is offering thirty university fellowships through the Ministry of Foreign Affairs and forty teaching assistantships through the Ministry of Education. The fellowship awards are for students with definite academic projects or study plans. The assistantships afford language teaching experience and an opportunity to become better acquainted with France.

Closing Date Feb. 1

Nominations of candidates for fellowships and assistantships will be made by a joint committee of French and American educators working in cooperation with the French Cultural Services and the Institute of International Education. Closing date for application is Feb. 1, 1955.

The French Government awards are open to men and women preferably under 30 years of age. Applicants must be U.S. citizens. Other eligibility requirements are: a bachelor's degree from an American college or university by the time of departure; good academic record; good knowledge of French, correct usage of English; good moral character, personality, and adaptability; and good health.

All Fields Open

Recipients of French teaching assistantships will teach conversational English in secondary schools and teacher training institutions in France. These posts are intended for future teachers of French. A few applicants with special training in American literature and some experience in college teaching may be selected for "postes de lecteurs," teaching assignments in French universities. Stipends cover maintenance. Since the number of supplementary travel grants is limited, applicants should be prepared to pay their own travel.

Graduate fellowships are open to students in all fields of study.

Architect Begins Dormitory Plans

Tech architect Nolan E. Barrick has begun drawings for a proposed new men's dormitory that would fill a dual need on the campus.

The proposed dorm would increase on-campus housing for men while providing quarters for the social fraternities, with meeting and dining rooms adaptable to the needs of those groups. Currently, Tech has 611 men students in Greek-letter organizations.

Barrick was authorized to move forward with sketches and schematic drawings for the building at the last meeting of the Board of Directors here in November.

Adaptable Housing

Having decided earlier that the college should keep all student housing under its jurisdiction, the Board recommended dormitory housing adaptable to the particular needs of organized groups.

Similar-type dormitories are currently in use at the Northwestern and Brown University campuses.

This fall's record-breaking enrollment of 6,257 students gave impetus to President E. N. Jones' request that prompt action be taken to prevent critical on-campus housing shortages such as existed in the years immediately following World War II.

A survey of presidents of Texas' 18-state-supported institutions indicated these colleges and universities will face a shortage of housing for almost 15,000 students in the next five years. The presidents estimated they would be short of almost 8,000 housing units by next year.

Further Study

While accommodating all women students satisfactorily, Tech was shy of accommodations for about 500 male students at the beginning of the fall term. More than half of these men have since moved into campus dormitories as space became available.

Further studies will be conducted by Tech officials this winter to analyze the housing needs of the social groups and to consider further the advantages and disadvantages of this specialized type of dormitory housing.

President Jones stated that if this new type of dormitory proved to be satisfactory, the style would be adopted in the construction later of a new girls' dormitory.

In the field of medicine, candidates must have the M.D. degree. Fellows study in French universities and other state institutions. These awards provide tuition and a modest maintenance.

Psychology Profs To Attend Meeting

Dr. Albert Barnett, director of the Tech Testing and Counseling Center, and Dr. James Kuntz, associate professor of psychology, will attend the Southwestern Psychological Association meeting at Oklahoma City Saturday through Sunday.

Dr. Kuntz will deliver a paper on "The Effects of Intensity of Illumination under Two Conditions of Lighting on 'Normal' and 'Subnormal' Visual Acuity."

A paper co-authored by Dr. Sylvan J. Kaplan, head of the Tech psychology department, and Dr. William Melching, assistant professor of psychology at Tech, will be delivered during the meeting by Dr. Jack Reid of the University of Texas. The paper is entitled "Concept Formation and Learning Set in a Discrimination Learning Problem."

Two Firms Give Aluminum Pipe

Joint gifts of 400 feet of aluminum pipe couplings, gated outlets and a pressure-regulating riser were announced today by Dr. George O. Elle, assistant dean of the Division of Agriculture.

The gifts were made by Gifford-Hill-Western, Inc., of Lubbock, and the Aluminum Company of America.

The new equipment will be used to irrigate an eight-acre plot of land provided the department of horticulture by the college for vegetable instruction and research. It will eliminate completely the problem of surface distribution of water which has hampered efforts up to now, Dr. Elle said. The

Tech Dairy Cow Sets Milk Record

Meadow Lodge Mo-Baby, a young Guernsey cow in the Tech dairy herd, has set a new state record for milk production in her age group.

Mo-Baby produced 7,750 pounds of milk over a one-year period with a yield of 432 pounds of butterfat.

Records were compiled by the Herd Improvement Registry Test, operated by Texas A&M College in cooperation with Texas Tech and the American Guernsey Cattle Club.

Milk production by Mo-Baby, who was two-years and five months old when the test started in 1953, is more than double the average annual yield of dairy cows in the U. S.

Dr. W. H. Cloninger, associate professor of animal husbandry, is faculty supervisor of Tech's dairy production. W. T. Haden is herdsman for the dairy cattle, assisted by Martin Fulscher.

GARGOYLE PARTY

The Gargoyle Society Christmas party, scheduled for 7:30 p.m. Saturday in X-2, will include faculty and students of the architecture and allied arts department.

Active in securing the gifts for horticulture by the college for vegetable instruction and research.

It will eliminate completely the problem of surface distribution of water which has hampered efforts up to now, Dr. Elle said. The

Ski Club Reunion Set For Dec. 27

Plans are now underway for the annual Plains Alpine Association ski reunion to be held in Sante Fe, N.M., Dec. 27 through Jan. 1, according to representatives of the association.

Any college student interested in skiing is eligible for membership in the association. Membership entitles the student to hotel and ski equipment reservations for the Santa Fe reunion. Decker McKim speaking for the association, stressed that ability to ski is not a requirement. Lessons will be available at the ski run at a nominal rate.

For advanced skiers, a new lift has been installed from Lookout Point to the top of the Sangre de Cristo mountain run. "The Santa Fe ski basin is greatly improved this year through an electric lift which doubles the chair capacity, and a new tow bar lift for more advanced skiers," said McKim.

In addition to skiing, the skating pond will be open for use.

McKim estimated a minimum cost of \$10 a day for each member of the party. The trip will be made in private cars, and rides will be assured for anyone wishing to go, he said. There were 30 members who made the trip last Christmas.

Further information on the reunion will be posted on dormitory or Student Union Bulletin boards, or can be obtained from Charles Whitfield or McKim.

Early birds catch worms. The birds who sign up this month for the European tour are the birds who get the steamship reservations! Consult Mrs. Strout in Library 111.—Adv.

Tech Power Plant Could Supply Heat To Warm College Twice This Size

By JOHN JONES
Toreador Staff Writer

About this time every year, when temperature begins to drop and more demands for heat are being made, the importance of Tech's Power Plant is at its highest.

"Normally the boilers are heated by natural gas, but during mid-semester exams a few years ago a cold wave forced a switch to fuel oil in order to help alleviate a gas shortage," says Ray Downing, superintendent of Tech Power Plant and utilities.

When Downing became associated with the plant in 1936, heat for campus buildings was supplied by three small boilers with a total capacity of 22,000 pounds of steam an hour.

Boilers Added

Then, due to expansion programs, four automatic controlled boilers were added in 1949, to boost the steam capacity to over 89,000 pounds.

To give an idea of just much heat is involved, the plant now operates at about half its potential, says Downing. Present equipment would be capable of supplying heat for a college nearly twice Tech's present size.

The principle of Tech's heating system is basically simple; explains Downing. From the Power Plant a huge tunnel extends to the Administration Building, from which slightly smaller tributary shafts go to other buildings. Within all shafts is a pipe to carry the steam and another to bring water back to the boilers after the steam condenses.

Never Shut Down

The tunnels also contain cold water mains, telephone cables, electrical wiring, etc. Until they were made inaccessible, girls often used the tunnels for after-hour

Dr. Kaplan To Go To Radiation Talks

Dr. Sylan J. Kaplan, head of the psychology department, is one of about 25 radiation experts throughout the country invited to attend a U. S. Public Health Service conference on that subject in Bethesda, Md., Jan. 5.

The 25 experts invited by the Public Health Service's committee on Radiation Studies include representatives from colleges and universities, the armed forces, and medical and atomic research centers.

Dr. Kaplan is former director of the Primate Laboratory of the U. S. Air Force School of Aviation Medicine. He has written 28 articles on radiation and has specialized in this field for the past five years.

LIBRARY GETS \$30,000

The Board of Directors Saturday granted the Library a total of \$30,000 to be used this year to enrich the doctoral level of graduate education. Most of the money will be used to buy books and periodicals valuable to students studying for the Ph.D.

TISH—

(Continued from Page 1)

Council, was in charge of the arrangements for the meeting, assisted by Joyce Ramsey, Wick Alexander and Jimmie Faye Maxwell.

Schools in the district are: West Texas State, Clarendon Junior, McMurry, Wayland, Frank Phillips, Abilene Christian, and Texas Tech Colleges; and Hardin-Simmons University.

Seven countries in Europe for \$1,120. Fifty days of travel in early summer. Sign up this month with Mrs. Strout.—Adv.

exit from dormitories, says Downing.

He points with pride to the Power Plant's efficiency and safety record. During his 18 years' tenure, the plant has never been forced to shut down operation nor has any employee been injured.

Due to the efficiency of automatic boilers, only four men are required to work full-time. Another employee is used as a part-time alternate.

Former Teacher To Write History

Mrs. Joseph E. Andrews, the former Ruth Horn, daughter of Tech's first president, has been authorized by the Board of Directors to write a history of Texas Tech.

Mrs. Andrews was on the English faculty at Tech from 1933 through 1944. She has taught periodically at New York University since. Mrs. Andrews is scheduled to arrive here early next year to begin work on the project.

French Classes To Use Records

The department of foreign languages has initiated a program to utilize tape recorders in aiding students with their homework.

Beginning French language class can go to the Library, put on a set of earphones and hear the next day's lesson being read in perfect French. By the beginning of the next semester, all lessons for first-year French will be on tape and available to students.

Although this mechanical study aid is being used solely by the language department, similar tapes can be used to teach English, music and many other subjects.

Dr. John H. Dowling, head of the foreign languages department, and William Roberts, foreign languages instructor, are developing the technique.

Present equipment consists of a tape player and eight sets of earphones. Proposed additions include a recorder, to permit students to compare their pronunciation with that of an expert, and listening booths to enable an entire class to drill simultaneously on the day's assignment.

Fencers Win In Weekend Matches

Tech's fencing teams were victorious in matches over the weekend, with the men defeating Abilene's YMCA team, and the women winning over the Dallas YWCA.

The men's team is composed of Don Ferguson, Gene King, Gene Miles and Tommy Neatherlin. Jo Nell West, Pat Randolph and Carmelita Brown are on the women's team.

An intramural fencing tournament will begin Jan. 10. Entries may be made to Coach Jack Carnell Jan. 3-5.

Bids Called For By Tech Board

The Board of Directors Saturday voted to call for bids on construction of the Len and Harriet McClellan Memorial Infirmary. The bids are to be presented at the Feb. 12 meeting of the Board.

The infirmary, to be located between the Student Union and Drane Hall, will contain nine rooms on the second floor. Facilities for four physicians, two cold clinics, and emergency treatment center and X-ray and heat therapy rooms will be located on the first floor.

AWARD RECEIVED

A former Tech graduate from the department of journalism, Marine Cpl. William L. Stucker of Lubbock, received a certificate of award for expert marksmanship last month.

Stucker, who is stationed at Camp Pendleton, Calif., entered the Marine Corps in August of this year and is now serving with the photographic section at the base.

ators of the Center, with assistants Priscilla Bumgardener and Glenn Lewis. In charge of the Sunday night play will be Alton Slagle, director; Delores Owen, assistant director and set designer; and David Rickey, lighting.

Raiders Take Fifth Win; Upset Okla. A&M 49-48

Harry Scaling, sophomore cager from Tech, tossed in two free throws with six seconds remaining in the game to give the Red Raiders a 49-48 upset victory over Oklahoma A&M Monday night in Goodwell, Okla. It was the Raiders' fifth victory of the season in as many starts.

The Techsans gained their second and third wins during the week-end with an 87-41 win over Howard Payne and a 93-75 victory over Centenary to successfully defend their Canyon Reef doubleheaders title.

Robison's Raiders began the game with a zone defense, the same that Illinois used to defeat the Aggies Saturday, but changed to a man-to-man defense in the second quarter after the Aggies had taken a 16-8 first period lead.

The Raiders took advantage of breaks in the second quarter and pulled within a two-point deficit, 22-20 at halftime.

At the start of the third period Jim Reed tossed in a jump shot to knot the score. Then the Aggies scored and the Techsans came bounding back with another tally, and that was the way the action went for the remainder of the game. Neither team was able to hold more than a two-point lead during the second half. The third period ended 36-36.

With six seconds remaining, Scaling was fouled. With the game resting on his shoulders Scaling dropped in the winning charity tosses.

Jim Reed and Carl Ince each scored 14 points for Tech to head the scoring column for the night. Eugene Carpenter, Tech center, did a brilliant job of controlling the rebounds.

Mack Carter tallied 13 points to lead the losers with Carl Shaffer and Babb Adding nine apiece.

APO Pledge Rites Set For Tonight

Formal pledge initiation ceremony of Alpha Phi Omega, national service fraternity, will be held at 7 p.m. tonight in Ag Engineering Auditorium.

Following the initiation, members and pledges will attend the organization's annual fall banquet at Luby's Suburban Cafeteria. Dean of Student Life James G. Allen will be the principal speaker. The honor pledge and honor member will be announced at the banquet.

Disciples Fellowship Plans To Present Play Sunday

The Disciples Student Fellowship, student organization of the First Christian Church, will present a Christmas play entitled, "Peace I Give Unto You," at 7:30 p.m. Sunday in the sanctuary of the First Christian Church.

The cast includes: Jane Prichard, Johnny Matson, Don Elliott, Charles Sanders and Heith Smith. Others participating in the play are Bud Davis, property manager and Jane Breedlove, in charge of costumes and make-up. Mrs. Fred Jobs is directing the play.

Banks Wins Among 26 Entries In Sneed Table Tennis Contest

Ickey Banks is winner among 26 entries in the playoff for Sneed Hall Thundermug table tennis championship. This is an annual singles contest sponsored by the dorm and open to Sneed men only.

Van Hall, last year's winner, was defeated early in the tournament by Randolph Swindle, who in turn met defeat in Jim Manley. Monroe Henderson, last year's runner-up, was defeated in the semi-finals by Ickey Banks. Banks won over Manley in the finals.

Sign now! Pay after Christmas! Steamship space is still open, but after Christmas no berths are held except for four members who have already registered.—Adv.

Tech Ties HSU In Border Meet

Texas Tech and Hardin-Simmons University tied for top honors in the first Border Conference intercollegiate tennis meet held Friday and Saturday in El Paso, Arizona.

Arizona, Texas Western and West Texas State finished in order behind the leaders. Play was round-robin.

David Clark, Tech senior, tied with Ellis Bryant and Bill Herring in the No. 1 singles.

Donnie Campbell, HSU, defeated Billy Edd Gowan of Tech to take top honors in the No. 2 singles.

David Kent downed all opponents in the No. 3 singles to take top honors and Dick Spiers, also of Tech, repeated Kent's feat to win the No. 4 singles.

Kent and Gowan of Tech beat Texas Western and West Texas State but lost to Hardin-Simmons and Arizona to take third place in the No. 1 doubles.

Tech's Clark and Spiers defeated all opponents, with the exception of Arizona, to take the No. 2 spot in the No. 2 doubles.

Red Raiders Face Tough Schedule

Texas Tech will face a tough schedule of nationally known basketball powers this week.

The Techsans will meet Furman, last year's national scoring champion, at Greenville, S.C., Friday night, and then travel to Raleigh, N.C., for a game with North Carolina State on Saturday night. North Carolina State was an Eastern Regional, NCAA quarter-finalist last season.

Polk Robison's cagers will encounter Memphis State in Memphis Monday night to complete their Eastern road trip.

This will be the rubber game between Tech and North Carolina State. The Raiders stopped the Wolfpack 63-62 in 1951, but came out on the short end of an 80-55 score in 1952. The Raiders have not met Furman before.

Overseas Study Plan Is Available

A low-cost year of study and travel in the Scandinavian countries is now available to Texas Tech faculty members, graduate and undergraduate students, through a new program established by the American-Scandinavian Council for Adult Education.

For as little as \$1350, Americans may participate in the international education project. Students choose one of Denmark's famous folk schools for such study projects as adult education, arts and crafts, music and international relations.

Although such studies are not usually given for credit, a program of study for college credit may be arranged. Further details can be obtained from the American-Scandinavian Council for Adult Education, 127 East 73rd Street, New York 21, N. Y.

Paper For Ex-Journalism Students Will Be Revived

An issue of Tech Journalism News for ex-students of the department of journalism will be published in mid-December, according to Dr. William E. Hall, department head.

The News, last published in January, 1941, will resume in response to results of a questionnaire sent out to alumni.

The publication will promote contact between the exes individually and between them and the department. The paper will be sent to high school publications advisors, college and university journalism departments, regional press and editors and publishers of this area.

College Directors Feted At Dinner

Foods and nutrition students served a buffet dinner to the Tech Board of Directors and their wives Saturday in the dining room of the Home Economics Building.

Out-of-town guests included: Robert B. Price, El Paso; Charles C. Thompson, Colorado City; Raymond Pfluger, Eden; C. T. McLaughlin, Snyder; and Thomas F. Abbott Jr., Fort Worth. Those attending from Lubbock were: Mr. and Mrs. George E. Benson, Dr. and Mrs. E. N. Jones, Dr. and Mrs. G. E. Giesecke, Mr. and Mrs. Marshall L. Pennington, Mr. and Mrs. Roy Wells, Mr. and Mrs. William H. Crenshaw, Dean Willa Vaughn Tinsley and Mrs. Jonnie M. Michie.

National Writing Contest Is Opened

College students in United States and Canada may now enter a short story contest sponsored by Christopher Films of New York. First prize will bring the winning author \$1,000 and a portrayal of his story on television. The contest closes March 31.

A choice of four subjects is given for contestants to write about: "Teenagers Can Share The Future," "Improving Labor Relations," "Private Property Is The Right Of All" and "Changing The World Through The Housewife."

Besides the first prize, \$3,000 in cash awards will be made. Interested students may write for details to the Christopher Contest, 18 E. 48th St., New York 17, N. Y.

VARSIITY SHOW

The Varsity Show Committee will name a director and select a script at tonight's meeting, says Roy Smith, this year's show chairman.

Applicants for the directorship are Bayard Foster and Jack Pruitt, both seniors. Scripts under consideration include the musical comedies: "Girl Crazy," "Best Foot Forward" and "Good News."

League Basketball Stops For Xmas

Intramural Basketball will come to a stand-still for the Christmas holidays with six games scheduled for this week's play. Games will resume play on Jan. 5.

Two games are scheduled to-night, with Sneed Hall encountering the Sneed Trotters at 7 p.m. The game will be followed by the Sneed Sneaks and Gordon Hall tussle.

Pi Kappa Alpha will battle Phi Gamma Delta at 7 p.m. Friday, followed by Sigma Alpha Epsilon and Sigma Nu.

Sunday afternoon at 2 p.m., Alpha Tau Omega will meet Phi Kappa Psi and at 3 p.m. Phi Gamma Delta will attack Phi Delta Theta.

Last Week's Results
Pi Kappa Alpha 46, Sigma Nu 25
Phi Gamma Delta 39, Alpha Tau Omega 32
Sigma Alpha Epsilon 51, Phi Kappa Psi 24

LA VENTANA PAGES

Clubs which have not yet reserved a page or pages in the 1955 La Ventana may do so from now until the Christmas holidays begin.

No club reservations will be accepted after the holidays, and all pictures and copy must be turned in before the Christmas vacation.

Sigma Pi Sigma Installation Ends

Dr. William H. Crew told Tech physics students Monday night that they would be among those to "walk along the corridor of time and set up new milestones in physics" in a speech on "Milestones in Physics."

The assistant director of scientific personnel at the Los Alamos Scientific Laboratory spoke in the Museum Monday night. It was the last in a series of events during the installation of Sigma Pi Sigma, national honorary physics society, on the campus.

Formal installation services for 14 charter members were held at 3:30 p.m. in the Student Union Building.

Other activities held by the group Monday in the Union included a luncheon at noon for installing officers and officers-elect of the local chapter, and a dinner at 6 p.m. honoring charter members and their invited guests.

NEW TENNIS COURTS

Two new concrete tennis courts have recently been put into use, announces George Philbrick, tennis team coach. While the courts are reserved for varsity practice, says Philbrick, anyone is welcome to use them when they are open. The courts are located east of the Gym.

Driver Charged In Coed's Death

Murder with a motor vehicle was the charge filed against Wilmont Harris (Swat) Smith following the collision death of Bette Hancock, Tech junior.

The charge against Smith asserts that he was under the influence of alcohol at the time of the collision which drove Miss Hancock's car into a nearby porch.

Smith admitted he was driver of the car and that there was no one with him at the time of the accident. Smith remained in jail overnight before being released on \$3,000 bond.

Police say that Smith also was driving on the wrong side of the street and ran a stop sign at the intersection.

Funeral services were held for Miss Hancock Friday in the Broadway Church of Christ.

The 21 year old Lubbock girl was a business administration student and a member of Kappa Kappa Gamma sorority. She was killed almost instantly shortly after 11 p.m. last Wednesday.

Summer School Abroad Planned

Admission forms are now available for any Tech upper-division or graduate student interested in studying in England or Scotland this summer, according to Dr. G. E. Giesecke, Tech academic vice president.

Special courses will be offered American students at four universities.

A few scholarships are available to cover full or partial tuition, room and board. Expenses for the courses will total approximately \$200 for a six-weeks' study period.

Additional information regarding the British Summer Schools program may be obtained from Dr. Giesecke.

Standard Oil Sets Interviews Friday

An office of the Standard Oil Company of Texas will meet with accounting majors on Friday, Dec. 17.

This organization has openings in various offices in Texas for accounting majors. They wish to interview men regardless of their status with reference to military service.

Men who wish to make appointments should report to the Placement Office. Those not on campus should send a form and letter of application to arrange an interview to: Mr. J. L. Alexander, Standard Oil of Texas, P. O. Box 1249, Houston.

Strout Publishes Article In Journal

A 10-page article by Dr. Alan L. Strout, professor of English, has been published recently in "The Library," Great Britain's most noted bibliographical journal.

Dr. Strout's article, entitled "Writers on German Literature in Blackwood's Magazine," lists chronologically the authors of all works relating to German literature which appeared in that journal between 1817 and 1858.

Dr. Strout has gained international recognition for his work which has been of assistance to scholars throughout the world.

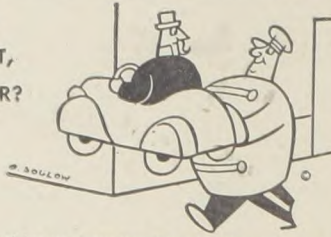

FORMER PROFESSOR

Dr. J. D. Sadler, formerly of the Tech foreign languages department and now a member of the Furman University faculty, is attending Harvard on a Ford Foundation Fellowship, according to word received by friends here. Dr. Sadler, who taught Latin and Greek, left Tech to go to Furman in the fall of 1953.

Drs. Qualia, Gates Articles Published

Two faculty members in the department of foreign languages have had articles published in the same scholarly journal this month. The articles, by Dr. Eunice J. Gates and Dr. Charles B. Qualia, appear in the December edition of "Hispania," publication of The American Association of Teachers of Spanish and Portuguese.
