

## Girls Get Doak Again

by JENNICE MARKS  
Doak Hall will be converted into a women's dorm next year, announced Tech president, E. N. Jones following the recent Board of Directors meeting.

Plans are now underway for complete redecoration of the dormitory to fit girls needs. The addition of another women's dormitory came as a result of the steadily increasing enrollment of women at Tech. Coed enrollment has jumped 497 in the last five years, and increased 279 this past year.

CHANGING DOAK to a women's dorm will not crowd men's facilities, Dr. Jones said, since

the opening of the two new men's dormitories will provide living facilities for 1116 more men than the present system does.

"We are pleased with the necessity of providing more space for young women," Dr. Jones commented about the change.

KNAPP, HORN and Drame will be designated as freshmen dorms, while Doak and Weeks will be open for upperclassmen. Girls living in Horn this year will have to transfer to either Weeks or Doak next year. Signing of room contracts for upperclassmen is scheduled to begin after the Easter holidays.

Doak is one of the oldest dor-

mitories on campus. It was built in 1934 to provide living facilities for women. However, in 1943 the government ordered that Sneed and West halls be cleared for men in the 309th College Training Detachment. At the same time, Doak was cleared for men majoring in engineering, pre-medical courses and pure science and math. It has remained a men's dorm until now.

The dormitory was named for Mrs. Mary Woodward Doak, Tech's first Dean of Women. Her daughter, Mrs. Mary Doak Wilson, is now associated with the horticulture department.

WHEN WEEKS HALL was constructed last year, a wing connecting Doak and Weeks was built. Doak's dining hall was closed down, and residents of the two dorms eat in Weeks.

Doak will be completely remodeled this summer to make it ready for the women residents.

THIS EAGER YOUNG coed is getting in some tennis practice before spring rolls around March 21. It's better to keep moving while playing tennis in this kind of weather, because the air is rather nippy. Wear galoshes, for snow is hard on sneakers.

## When Spring Is Come & Grass Is Riz Tech's Festival Will Be the Biz

by FRANCES TAYLOR  
When winter finally loses its grip on the Tech campus, and fair, sunny weather again returns to Raiderland, Techsians will be looking forward to the first annual Spring Festival, set for April 16-19.

Planned for the entire student body and faculty, Spring Festival will be initiated at Tech this year, after much planning and preparation. The name "Spring Festival" was adopted after a naming contest was held earlier on campus.

THE FESTIVAL will be kicked off by an all-school convocation, and will feature the Willson Lectures, the Varsity Show, the Engineering Show open house, a bicycle race, high school regional track meet, and other events.

Committee chairmen include: bicycle race—David Steinman, Bob Dyer and Donnell Echols; barbecue—Janet Vines and Sandra Shields; Senior Carnival—Dean Rea; election of king and queen—Pat Rainer.

School dance—Hollis Swafford, Ken Talkington and Jerry Storseth; western dance—Interfraternity Council, Panhellenic Council and Student Union; Varsity Show—Student Union; Frantic Fun Fair—Student Union; Engineering and Home Economics Show—Lynn Elliott; Regulations—Jim Thompson; publicity—Jess McIvain.

WAYNE JAMES is the ex-student representative and Dean Lewis Jones is faculty sponsor on

Page 5, FESTIVAL . . .

## Administration Suspends Six Students After Illegal Building Entry for Quizzes

Six Tech students were suspended Tuesday for illegal building entry in search of examination questions. Investigations are continuing by the Discipline Committee and the administration concerning the illegal entry problem at Tech and other aspects of the cheating problem.

The practice of illegal building entry for quizzes has reached alarming proportions, Pres. E. N. Jones said.

"We are very pleased that a 'ring' composed of a small fraction of one per cent of the student body has been broken," Dr. Jones said. "The honest students on campus deserve every protection against practices which subject them to unfair competition for grades."

The students suspended were reported to and investigated by the Discipline Committee. The committee then recommended the action to Dr. Jones.

A faculty committee is working on the general problem of the responsibilities of the faculty concerning cheating on examinations, dishonesty on written work, etc.

The committee, which has been working about two weeks is mainly concerned with the processes of controlling this practice.

### Seniors Meet Today at 5

Senior class will meet in the Tech Union anniversary room at 5 p.m. today.

Location, time and type of senior picnic or banquet will be decided at this meeting. Also a report will be given by the Senior Function Committee. Other business will pertain to the Senior Carnival, billfold size diplomas and BSO retreat report.

### Steinman Elected To TISA Office At TCU Meeting

David Steinman, Tech junior, was elected to the state office of Parliamentarian of the Texas Intercollegiate Student Association, at its recent annual convention at Texas Christian University in Fort Worth.

Steinman is a pre-med major from Abilene, and holds membership in the Student Council, Alpha Epsilon Delta and Phi Eta Sigma. Past president of the sophomore class, Steinman also serves on the Spring Festival Committee and is a member of the Wesley Foundation and the Pre-Med Club. He was recently honored in "Tech Salutes."

The convention was attended by over 300 delegates from 35 Texas colleges, junior colleges and universities to exchange ideas and discuss common problems of student government bodies in the state's institutions of higher learning.

Trinity University of San Antonio was awarded the TISA trophy for the best school project.

The first general session of the convention was addressed by Gov. Price Daniel, who emphasized good student government in college life as an important factor in developing sound citizenship.

The site of the 1959 convention was set at Baylor University in Waco.

### Saddle Tramps Call Meeting

There will be a called meeting of the Saddle Tramps at 5 p.m. today at the regular meeting place.

Purpose of the meeting will be to discuss the All College Recognition Program Sunday, March 16.

## Allen Advocates Less Administrative Control

College and university administrators should do away with paternalistic attitudes toward students, James G. Allen, Texas Tech student life dean, declared in a speech at Stillwater, Okla., Monday.

In the keynote address to the Southwestern Assn. of Student Personnel Administrators, Allen said students should be given every opportunity possible to gain confidence by running organizations and projects themselves.

"A BAD program by students is better than a good program by administrators," Allen continued. "The students will learn more by making mistakes and overcoming them than by following administrative orders."

The ideal situation is for students to ask for help on a project only when they feel it's needed, he added.

The conditions under which student personnel administrators work make them the "college con-

science," he reminded.

IN THESE DAYS of overcrowded campuses, diversity of activities and pressure on students, personnel administrators need to unify their services as much as possible and to see that those services are coordinated with the over-all program of their institution, Allen said.

The annual administrators regional meeting from Texas, Oklahoma, Arkansas, and Louisiana was held Monday and Tuesday at Oklahoma State University.

### Scholarship Open To FTA Members

Any girl interested in a teaching profession, can apply for the Mary W. Doak Scholarship, Miss Sue Rainey, women's physical education department associate professor announced.

The applicant must be of sophomore or junior standing by next fall, be a FTA member, and rank above average scholastically. She must also take an active part in school activities.

The scholarship will provide \$40 per semester and is sponsored by Delta Kappa Gamma.

Applications should be made to Miss Rainey in the women's gym before May 1.

### Explorer Speaks At Union Tonight

Neil Douglas, widely known author and explorer, will present a color movie and lecture on "Denmark, Viking Land of Sunshine" Thursday at 7 p.m. in the Tech Union Ballroom.

The travelogue will show costumes, dances and customs of Denmark. Admission is free to both the lecture and movie.

Mr. Douglas is an honor graduate in civil engineering from Lafayette College and Tau Beta Phi charter member.

At the countries' invitation, he has produced about 20 travelogue films on the European continent, and has also made films in Mexico and Alaska. He is equally famous for his wild animal life photography.

Douglas has contributed to many publications on the study of glaciers. He is listed in "Who Knows and What" and the "Who's Who in Science." He is the author of several books and a renowned mountain climber.

Mr. Douglas has made some 4,000 public lectures besides his appearances on television and radio, telling of his travels and experiences abroad.

## Landscape Exhibit by Tech Will Appear in Dallas Show

Paul Bennett, Abilene senior, submitted the winning perspective plan of a landscape exhibit from a field of seven Tech students.

These seven students will construct an exhibit from Bennett's plan to be entered in the annual women's flower show in Dallas March 15-22.

Sponsor of the contest, Van Valkenburgh and Vogel, Inc. of Dallas, will select the top three designs this week, Robert H. Rucker, associate professor of horticulture and park management said.

In naming the first, second and third place winners, the landscape architectural firm will be select-

ing the landscape architect, landscape contractor and landscape foreman to build the exhibit for the Dallas show.

The rest of the men in the landscape design problems course will act as laborers to construct the exhibit, Rucker said. The only help the group will have is that of an experienced carpenter from the Van Valkenburgh and Vogel firm.

Other Techsians making the trip yesterday are Jeroaie Tschauer of Odessa; James Delashaw of Plainview; Tafford Blessing, Fort Worth; Eddie Marvin, Lubbock; Earl Morrison, Ralls; and Bob Key of Lubbock.

## Phi Deltas Celebrate Founder's Day

Harold Neeley, Fort Worth oilman, was the feature speaker at Phi Delta Theta Founder's Day banquet last night at the Lubbock Country Club.

Neeley, a graduate of the University of Pennsylvania, spoke to approximately 100 alumni and chapter members on the values of relationship between chapter, alumni and general headquarters of the fraternity.

Charles Signor, outgoing alumni president, introduced Neeley. Sig-

nor also expressed his thanks to the alumni for their co-operation throughout the past year.

Reports on the college chapter followed Neeley's talk. John Roberts gave a report of the Tech chapter.

Dan Howard, reported on the Big Brother project and John Harding, former chapter adviser, reported on the chapters in the South Province.

New alumni officers for the coming year were elected as the final phase of the banquet.

### THE STUDENT COUNCIL AND HOW IT GREW

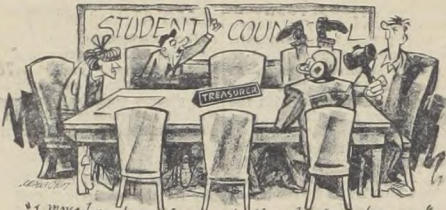

Today let us investigate a phenomenon of American college life laughingly called the student council.

What actually goes on at student council meetings? To answer this burning question, let us reproduce here the minutes of a typical meeting of a typical student council.

Meeting scheduled for 8:30 p.m. at Students Union. Called to order at 10:63 p.m. by Hunrath Sigafoos, presiding. Motion to adjourn made by Louis Bicuspid, freshman representative. Motion ruled out of order by Hunrath Sigafoos, presiding. Hunrath Sigafoos called "old poop" by Louis Bicuspid, freshman representative. Seconded by Delores Wheatgerm, sophomore representative. Tabled by Hunrath Sigafoos, presiding.

Minutes of last meeting read by Zelda Pope-Toledo, secretary. Motion to accept minutes made by Hunrath Sigafoos, presiding. Motion defeated.

Treasurer's report not read because Rex Mercredi, treasurer, not present at meeting. Rex Mercredi, treasurer, impeached and executed in absentia.

Motion made by Louis Bicuspid, freshman representative, to allow sale of hard liquor in school cafeteria. Seconded by Delores Wheatgerm, sophomore representative. Motion tabled by Hunrath Sigafoos, old poop.

Motion made by Booth Fishery, fraternity representative, to permit parking in library. Motion referred to committee.

Motion made by Dun Rovin, athletics representative, to conduct French conversation classes in English. Motion referred to committee.

Motion made by Esme Plankton, sorority representative, to allow hypnosis during Rush Week. Motion referred to committee.

Motion made by Pierre Clemenceau, foreign exchange student, to conduct Spanish conversation classes in French. Motion referred to committee.

Observation made by Martha Involute, senior representative, that in her four years on student council every motion referred to committee was never heard of again. Miss Involute was tabled.

Motion made by Louis Bicuspid, freshman representative, to allow sale of hard liquor in Sociology I and II. Seconded by Delores Wheatgerm, sophomore representative. Motion tabled by Hunrath Sigafoos, presiding, crossly.

Refreshments served—coffee, cake, Marlboro Cigarettes. The following resolution adopted by acclamation:

"WHEREAS Marlboro is milder, tastier, and more pleasing to smokers of all ages and conditions; and WHEREAS Marlboro is contained in the crushproof flip-top box which is the slickest, quickest, neatest container yet devised for cigarettes; and WHEREAS Marlboro, that most commendable of smokes in the most admirable of wrappings, is graced with the exclusive Selectrate filter; therefore BE IT RESOLVED that it is the sense of this meeting that Marlboro is far and away the best cigarette on this or any other campus."

Meeting adjourned with many a laugh and cheer at 11:74 p.m.

The makers of Marlboro, who bring you this column, here-with more that Marlboro is the finest cigarette ever. We know you'll second the motion.

Ann Pippin

## Sigma Nu's Crown Pippin as Princess

Mary Ann Pippin was presented as Sigma Nu's White Rose Princess of the month at their party honoring new pledges Friday night.

Miss Pippin, a junior elementary education major from Wichita Falls, will be a finalist for the White Rose Queen of Sigma Nu. Carey McAdams, president, presented Miss Pippin with 11 long-stem red roses and one white rose.

## Around the Circle

—carolyn mimms

We sure are having a lot of weather this week, aren't we?

Whether it is raining, snowing or the sun is shining there is one thing for sure, we are having weather. We have been thinking of putting in a sporting goods store on campus with a car towing service on the side. It will sell skis for all occasions, motor boats, snow shoes and sun glasses.

But organizations around the Circle have not been hindered with all the weather and are planning quite a few activities this weekend.

NEIL DOUGLAS, reknowned traveler and lecturer from Denmark, will speak to students and faculty at 7 p.m. today in the Tech Union Ballroom. Douglas will show movies of Denmark's local costumes and dances. No admission will be charged for this event which the Union World Traveler committee is sponsoring. A reception will follow Douglas's lecture at 8 p.m.

Pi Kappa Alpha's flagpole is void of a flag. The Pike's formal rush party was costly; they gained 24 pledges, but they lost their fraternity flag. Anyone knowing the whereabouts of the flag is asked to please contact Jacky McAninch.

Pike's will be celebrating in "south of the border" style tomorrow at their Mexican Fiesta in the Palm Room from 8 to 11:30 p.m.

PHI KAPPA PSI are having a social from 7 to 8:30 p.m. today at K.N. Clapp partyhouse.

Delta Gamma sorority will celebrate its Founder's Day with a banquet at 6 p.m. tomorrow at the Lubbock Women's Club.

Kappa Sigma fraternity honored its new pledges with a party at its lodge last weekend.

HAPPY ANNIVERSARY is in order for the Union. It will be celebrating its fifth anniversary tomorrow. There will also be a party in the downstairs lounge sponsored by the Friday night dance committee.

There will be a jam session at 2 p.m. Saturday in the Union. The movie and exhibits committee is planning this affair.

Haven't you always wanted to go to a dance comfortably? Well, here is your opportunity. Kappa Sigma fraternity is having its "Dreamland Dance" at 8 p.m. Saturday in Fairpark Coliseum. What is the dress? Why, pajamas, of course. What could be more comfortable, and just think, when you get home you can go straight to bed and not have to worry about undressing and hanging up clothes.

ZETA TAU ALPHA sorority will present its pledges from 7 to 12 p.m. Saturday in the Caprock Hotel.

Delta Gamma officers will have a retreat to discuss sorority activities and affairs from 1 to 5 p.m. Saturday in the Union.

Phi Gamma Nu, honorary business fraternity, is planning a program from 3 to 4 p.m. Saturday in the Union Ballroom.

Western dancing will be featured March 20-21 at 5-8:30 p.m. and 7:30-11:30 p.m. respectively, in the Aggie Pavillion. Hank Thompson and his band will provide the special music. Make your plans to go now!

That's all for now. See you next year.

## Careers in Navy Open to Women

Careers with the United States Navy now offer more opportunities for women graduates than ever before. Lt. Joan Kennedy told food and nutrition majors Friday.

She emphasized paying expenses for a dietetic internship in return for two years' active service.

Young women from 19 to 31 are eligible to enter as officers after graduation from college. Lieutenant Kennedy also told of positions in personnel, communications, operations, educational service, public relations and intelligence.

Women in the Navy have real opportunities to see the world, since there are so few in the corps, according to Lieutenant Kennedy. Additional information may be obtained from the U.S. Navy Recruiting Center on campus.

## Phi Delta Thetas Initiate Members

The Texas Epsilon chapter of Phi Delta Theta formally initiated 15 members and 45 new pledges last week.

Those initiated include Dwayne Allen, Sudan; Donald Apple, Lubbock; Mickie Barron, Childress; Vic Bond, Plainview; John Wesley Chism, Lubbock; John Robert Dixon, Navasota; Buddy Godfrey, Hereford.

Leon Hill, Sudan; Charles Lynch, Sudan; Ray McCullough, Waxahachie; Gerald Myers, Borger; William Rogers, Gainsville; Jerry Selfridge, Borger; James Wiley, Lubbock and Dwain Woody, Lubbock.

## College Star in

When "No Time For See" appears at the Lubbock Auditorium March 28 and 29, Texas students will see the show that has rocked Broadway audiences. Many of the 35 cast members are barely more than college. One of the most outstanding of these is Christian Flanders. Flanders is a native of Rotterdam, land, but spent his youth in United States.

In the Broadway comedy plays the role of Irvin, one of the reasons that the laugh ran over 800 performances in

## Alpha Phis Elect Moore President

Alpha Phi sorority officers elected Wednesday and Moore was chosen president.

Other new officers are: Thompson, first vice president; charge of pledges; Sharon T. second vice president in second vice presidency; Nancy H. treasurer; Jan Farris, secretary; June Schulgen, chairman; Carolyn Bevant, corresponding secretary; and Hazel standards chairman.

Jeanette Burrell, social chairman; Jane Patterson, efficiency chairman; Diana Smith, house manager; and Mercurson, Quarterly correspondent.

Panhellenic representative Gay Douglas and Mandy Kathryn Fincher and Ma West are AWS and BSO representatives, respectively.

## College Age Actors Star in 'Sergeants'

When "No Time For Sergeants" appears at the Lubbock Auditorium March 28 and 29, Texas Tech students will see the show that has rocked Broadway audiences.

Many of the 35 cast members are barely more than college age. One of the most outstanding of these is Christian Flanders. Flanders is a native of Rotterdam, Holland, but spent his youth in the United States.

In the Broadway comedy he plays the role of Irvin, one of the reasons that the laugh-riot ran over 800 performances in New

York's Alvin Theatre. Flanders, while still in his teens appeared in over 28 plays at the famous Hedgerow Theatre in Pennsylvania.

After serving two years in the Army, he returned to New York to appear in "Desire Under The Elms". This led to his TV role on "Omnibus" in "Androcles And The Lion." This was just the first of many successful TV appearances which led the producers of "No Time For Sergeants" to cast him in the long-running hit.

Tech students will be offered regular \$4.00 seats for \$1.50 for the two-night engagement. The Auditorium box office is open from 9 to 5 daily. Tickets should be bought early as a sell-out crowd is expected each night.

Christian Flanders

## Union Personnel Leave on Retreat

Approximately 35 members, officers and staff personnel of the Student Union will leave at 1 p.m. tomorrow for the annual Union retreat at Tule Lake, near Tulla.

"The main purpose of the retreat is to evaluate ourselves," said Larke Harrington, program director. Saturday night will be highlighted by a pajama dance. A devotional service is scheduled Sunday morning.

"Joe Blanchard, union assistant director will be the keynote speaker," reported Dean Rea, Retreat Planning Committee chairman.

Discussion topics are Programming and Its Values, to be led by Karen Frack, Jill Jost and Rosa Riojas; Union Responsibility, headed by Carolyn Porter and David Jones; and Participation and Communication, with Joan Kelly, Liz Guthrie and Wilburn Luna leading the discussion.

Planning committee members are Dean Rea, chairman, Cora Jean McMurtry and Jim Thompson. Sponsors for the trip are Mr. and Mrs. Nelson Longley.

The group will return Sunday afternoon.

## Alpha Phi Elect Moore President

Alpha Phi sorority officers were elected Wednesday and Mandy Moore was chosen president.

Other new officers are Mildred Thompson, first vice president in charge of pledges; Sharon Dudley, second vice president in charge of scholarship; Nancy Harmon, treasurer; Jan Farris, recording secretary; June Schulgen, chaplain; Carolyn Bevant, corresponding secretary, and Hazel Casey, standards chairman.

Jeanette Burrell, social chairman; Jane Patterson, activities chairman; Diana Smith, rush chairman; Lynn Hutton, rush secretary; Glenda Griffiths, party chairman.

Virginia Chew, guard; Janet Edleman, marshal; Linda West, efficiency chairman; Pat Grimes, house manager, and Merium Jackson, Quarterly correspondent.

Panhellenic representatives are Gay Douglas and Mandy Moore; Kathryn Fincher and Mary Ann West are AWS and BSO representatives, respectively.

## Come As You Are In Slumber Attire

Kappa Sigma fraternity will have its annual Pajama Dance in Fair Park Coliseum at 8 p.m. Saturday.

Decorations will be centered around a "Dreamland" theme and students attending will wear pajamas. Music will be furnished by the "Ad Libs."

## Union Events

Thursday—Music Listening Hour, 2 p.m.

Square Dance, Rec Hall, 7 p.m.

Neil Douglas, Lecture, Ballroom, 7 p.m.

Friday — Tech Union Anniversary.

Dance, Ballroom, 8:30 p.m.

Saturday — Jam Session, Snack Bar, 2 p.m.

Sunday — Tech Recognition, 3 p.m. Municipal Auditorium.

Raider Revues, Snack Bar, 5:30 p.m.

Movie, "Day the Earth Stood Still," Ballroom, 2:30 p.m.

Monday — Movie, "Day the Earth Stood Still," Ballroom, 4 and 7 p.m.

Tuesday — Dance, Rec Hall, 7 p.m.

## Seniors Attend Dietetic Meeting

Sixteen seniors majoring in foods and nutrition will attend the annual meeting of the Texas Dietetic Assn. in San Antonio, March 12-16.

Dr. Mina W. Lamb, head of foods and nutrition department, and Miss Opal Wood, instructor, will accompany the women.

# It Doesn't Make Good Sense

SIX STUDENTS have been suspended for illegal entry into buildings in search of quizzes. Investigations are continuing.

This is nothing sensational or tragic. But on the other hand this is nothing for Tech to be proud of.

This is especially nothing to be proud of when one considers what the implications might be. How many students are involved in cheating at Tech? Not in such large things as illegal entry, but in the smaller acts such as carrying "cheat sheets" to quizzes and glancing at a neighbor's paper for an unknown answer.

Whatever the number—and actually it makes little difference—the fact is that there is cheating at Tech. The fact that students have been caught at so serious a thing as illegal entry for quizzes makes the situation condition red. There is cheating in any institution. But when it reaches the point it possibly has here, it is serious.

A solution for the problem lies with every student at Tech. For every student committing any act of cheating is guilty of the same thing the six were. It is a matter of individual integrity with each student.

Cheating doesn't make good sense

from any standpoint. We came to college to get an education. An education consists of learning what is put before us. Do we learn when we borrow the answer? Obviously not. Then we are cheating ourselves out of the good of the education—what we came here for.

Then there is the unprovable, at least from the standpoint of the test tube. Cheating "catches up" with us. If we cheat long enough, eventually there will be resulting circumstances "paying us back" for the cheating. It has happened to the six, not that they probably deserved it any more than a lot of others of us. This is something proven only by experience.

Next, it doesn't make good sense to let others around us cheat, for they are cheating us. They are taking advantage of us, using unfair competition.

Finally, what does it do to the degree we receive for four years of labor? The fact that there is cheating in the school granting the degree obviously takes much from it.

Whatever the outcome of the present situation, Tech should use it to profit by inspiring the student body to better sense about the thing, by adopting what measures seem necessary to prevent cheating in the future.

## BOOK REVIEW

# 'A Family Affair' Conflicts Man and His Pride in Family

by CAROL STONE  
A FAMILY AFFAIR, Roger Eddy,  
314 pages; the Thomas Crowell Company, 1958.

A FAMILY AFFAIR appropriately titled, is a warm

and realistic novel of a group of modern people overshadowed by the traditions and heritage of a "family name."

With the ever-popular success story of an enterprising young man as the connecting link, the author leads the reader

through a book that is neither fast-moving nor particularly intriguing. It is the author's excellent characterization and motivation that holds the reader throughout the book.

THE STORY opens in a small town in Connecticut, as Charles Webb, home on furlough, becomes romantically involved with the daughter of one of the city's oldest and wealthiest families. Charles, who has never had a family or "roots," considers himself lucky to marry into such a tradition, but is reluctant to go into business with his father-in-law. However, as he grows accustomed to the family traditions and the hard work that built the company, he becomes determined to succeed.

THE READER'S good wishes go with young Charles when, through ingenuity and positive thinking, he takes over the concern. The biggest obstacle in his path to success is his domineering mother-in-law. The author's vivid characterization steps in here to make the reader dislike Mother Chalmers.

In a few instances, Eddy builds up the reader's expectations, only to let them down again. There is little drama in A Family Affair. The most successful moment comes as disaster in the form of a flood-river strikes the hard-working little factory. But all ends well and the reader is left with the conventional "lived happily ever after" feeling.

ONE WONDER at times in reading just what purpose the author had in presenting a particular point or incident in the story, but succeeding pages reveal this in the end. Though the plot is elusive and the action at times slow, Eddy has written an entertaining book for the modern American reader.

## The Old Man

by LOMAN JONES

Old man, in my innocence, I implore,  
How went the war? How many died?  
What fate is in store?  
Please old man, and I'll question no more.

My son, he began, the world is full of fear and pain,  
war clouds let fall destructive rain,  
young men wake battles they didn't begin,  
and they die and decay — a means to an end.

As for war, it never goes well.  
It's nothing more than a living hell,  
filled with terror and evil smells,  
and ugly wounds that let out life,  
sending death on another of his merry spells.

As for fate, my son, no one knows.  
Fate is strange and if God but chose,  
He could bow his head, close his eyes,  
and cast us aside like dirty clothes.

So as you grow older and hearts become cold;  
don't surrender talents that are yours to hold.  
Clench your fist and hold high your head,  
but don't waste your blood just to prove that  
it's red.

Rise above the common crowd. Climb the highest mountains  
and shout out loud.

Sing praises to the warriors that now lie dead.  
Kiss their graves and know why they bled.  
There is no freedom without suffering,  
no gain without cost,

so let the wind blow your words to those who are lost.  
And if they seem to be grass destroyed by hail,  
then you be their water, you be their well.  
Yes, you be their water and water them well.

And I thought after hearing this wise old man,  
what was he trying to tell me? What good did he plan?  
Well, perhaps I'll find the answer when I grow into a man.

bennett

## The Idealist

A rose does not, alas, by any other name smell as sweet. It is notable, for instance, that in every war our troops fight with "courage" against the "fanatical" efforts of the other side.

There are a lot of quite respectable words such as "radical" and "socialist" which make the hair bristle on the neck of the average comic book intellectual.

"OH, THAT'S too romantic," says the tired tyquist slightly. "He's a (chuckle, chuckle) existentialist," remarks the long snouted library dweller.

Romantic? Existentialist? Here are two words well worth examining, two words applied indiscriminately to everyone and everything of which the untutored user disapproves.

EXISTENTIALISM has come to be associated with Bohemian art and cigarette-lipping girls in baggy sweaters and tight skirts. It became famous in Paris and that's what everyone thinks of Paris.

The judgment is about as fair as a European believing that all Oklahomans have mattresses tied on the tops of their cars after reading Steinbeck. Or that everybody here behaves like Mickey Spillane.

IF ANY STUDENT is asked to do research on the subject, he rushes over to the library and reads through Jean-Paul Sartre's "Existentialism and Humanism," all 25 pages of it. Then he thinks himself an expert.

Before guffawing at existentialism again, it might be well for the highbrow (which usually means nothing more than receding temples) to consider that existentialism is an attempt to bring back individual responsibility for actions.

IN ITS religious branch — represented by Kierkegaard, Jas-

pers, Marcel, Maritain-Aquinas, ect.—it is a daring attempt to revitalize Christian theology.

In its non-religious branch—with Sartre, Nietzsche and recent Nobel prizewinner Albert Camus—it is an attempt to shake man from the enervating fatalism of thought too sociological, to make the killer responsible for his crimes rather than the slums and his drunkard father.

THERE IS a lot of high talk of individualism these days. Existentialists are the world's most violent individualists. They can't even agree among themselves.

Now to romanticism. Byron fans have a tendency these days to apologize for his romanticism. Kant and Hegel fans refuse to admit their heroes are romantic. Nobody seriously reads Schopenhauer.

"A ROMANTIC is (one) who abandons reality to seek refuge in dreams," says Andre Maurois. He is cruelly close. But that is not the full truth.

Where does one find more realistic settings than in Victor Hugo? Where is there less emotion than in Kant?

THE ONE THING all great romantics have in common is the overpowering consciousness of an unattainable, a not-present, an unknowable. Perhaps it is a golden age of the past or future, a mysterious noun, a blind will.

Romantics split roughly into two categories: 1) those who chase the Ideal with a Robert Browning smile and 2) those who give up and sit around moaning about the futility of life.

FREUD was a romantic, as is Sartre. O'Neill and Strindberg were romantics. Marx was a romantic (most liberals are, and most are violent reactionaries) and so were the Nazis.

Anyway, all the romantics and existentialists around Tech can come out of hiding now.

wren

## For What It's Worth

At the expense of lowering ourselves to their level, we will answer recent comment in the SMU Campus, Southern Methodist student newspaper.

The comment: "THE TOREADOR, Texas Tech's student newspaper, came out Thursday (Feb. 27) with a 20-inch editorial slamming SMU sportsmanship."

"ANYBODY BUT Tech might have been justified in doing so, but this seems to be clearly a case of the pot calling the kettle black. They criticized SMU's boosing when Raiders took free throws—but when we played there the stands were so quiet during SMU's free throws that you could hear an H-Bomb drop—if you listened real close."

We now refer you to the reprint we borrowed from The Campus recently and ran in this column. The above seems to be just a little bit of a reversal. In the previous comment, the people down there were talking out of the other side of their mouths.

IN TALKING about Tech's sportsmanship, the comment went like this, "Don't think that this (Tech's good conduct at the game in Dallas) is just because they were visitors. In the earlier game in Lubbock they were perfect

hosts. They clapped for the SMU starting line-up, they did not go overboard on boosing the officials. . . . Any sportsmanlike tendency on the part of the Tech students or the other spectators was immediately stopped by the cheerleaders, who simply raised their megaphones."

SO IT SEEMS the Aggie defeat was too much for the shifting student publication. Now they're down on the level of the students they were claiming were such poor sports.

The column the recent attack appeared in is called "Born Yesterday." We're glad they have some excuse.

It has occurred to us that the tolerant person with no particular stand on any issue rather than being broad and comprehensive in his outlook may be a knight incapable of having an opinion.

We've given up on spring. We're reconciled: it's going to stay cold. But this has advantages. We won't have to buy spring clothes.

Twenty three companies interviewing next week in Placement Service with opportunities for people in practical schools. Men may schedule appointments without reference to military status. Additional information on all the companies file in the Placement Office. Appointments may be made in office afternoons at 2 p.m.

MAJORS: ARCHITECTURE, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING.  
Organization: West Island Naval Academy, Calif.  
Date of Interviews: Mon., Mar. 23.  
Majors and Postpones: I. ARCHITECTURE, II. CIVIL ENGINEERING, III. ELECTRICAL ENGINEERING, IV. MECHANICAL ENGINEERING.  
Majors: - IF GOOD SKILLS: FIVE OF ALL LOCATIONS.

MAJORS: ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, PHYSICS, MATHEMATICS. (All degree levels.)  
SUMMER EMPLOYMENT: Missions, other phases of engineering practice include design and engineering projects powered central shops.

MAJORS: ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING.  
Organization: U. S. Naval Lab. in California; 1608 East Green in California.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. ELECTRICAL ENGINEERING, III. INDUSTRIAL ENGINEERING, IV. MECHANICAL ENGINEERING.

MAJORS: CIVIL ENGINEERING, MECHANICAL ENGINEERING, METALLURGICAL ENGINEERING.  
Organization: Civil Aeronautics Administration, Department of Commerce, Room 1608, Ft. Worth, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. MECHANICAL ENGINEERING, III. METALLURGICAL ENGINEERING.

MAJORS: BUSINESS ADMINISTRATION, ACCOUNTING, MARKETING.  
Organization: Southwestern Inv. Co., Amarillo, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. BUSINESS ADMINISTRATION, II. ACCOUNTING, III. MARKETING.

MAJORS: CIVIL ENGINEERING, MECHANICAL ENGINEERING, METALLURGICAL ENGINEERING.  
Organization: Shell Oil Co., Houston, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. MECHANICAL ENGINEERING, III. METALLURGICAL ENGINEERING.

MAJORS: CHEMISTRY, CHEMICAL ENGINEERING, PETROLEUM ENGINEERING.  
Organization: Humble Oil & Refining Co., Houston, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CHEMISTRY, II. CHEMICAL ENGINEERING, III. PETROLEUM ENGINEERING.

MAJORS: BUSINESS ADMINISTRATION, ACCOUNTING, MARKETING.  
Organization: Humble Oil & Refining Co., Houston, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. BUSINESS ADMINISTRATION, II. ACCOUNTING, III. MARKETING.

MAJORS: CIVIL ENGINEERING, MECHANICAL ENGINEERING, METALLURGICAL ENGINEERING.  
Organization: Humble Oil & Refining Co., Houston, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. MECHANICAL ENGINEERING, III. METALLURGICAL ENGINEERING.

MAJORS: BUSINESS ADMINISTRATION, ACCOUNTING, MARKETING.  
Organization: Humble Oil & Refining Co., Houston, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. BUSINESS ADMINISTRATION, II. ACCOUNTING, III. MARKETING.

MAJORS: CIVIL ENGINEERING, MECHANICAL ENGINEERING, METALLURGICAL ENGINEERING.  
Organization: Humble Oil & Refining Co., Houston, Tex.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. MECHANICAL ENGINEERING, III. METALLURGICAL ENGINEERING.

MAJORS: ACCOUNTING, BUSINESS ADMINISTRATION, MARKETING.  
Organization: Internal Revenue Service, Dallas, Tex.  
Date of Interviews: Tuesday, Mar. 24.  
Majors and Postpones: I. ACCOUNTING, II. BUSINESS ADMINISTRATION, III. MARKETING.

MAJORS: CIVIL ENGINEERING, MECHANICAL ENGINEERING, METALLURGICAL ENGINEERING, PHYSICS.  
Organization: U. S. Naval Lab. in California; 1608 East Green in California.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. MECHANICAL ENGINEERING, III. METALLURGICAL ENGINEERING, IV. PHYSICS.

MAJORS: CIVIL ENGINEERING, MECHANICAL ENGINEERING, METALLURGICAL ENGINEERING.  
Organization: U. S. Naval Lab. in California; 1608 East Green in California.  
Date of Interviews: Monday, Mar. 23.  
Majors and Postpones: I. CIVIL ENGINEERING, II. MECHANICAL ENGINEERING, III. METALLURGICAL ENGINEERING.

## Placement Announcements

Twenty three companies are interviewing next week in the Placement Service with opportunities for people in practically all schools. Men may schedule appointments without reference to military status. Additional information on all the companies is on file in the Placement Office. Appointments may be made in the office afternoons at 2 p.m.

**Majors:** ARCHITECTURE, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, (all degree levels)  
**Organization:** Mare Island Naval Shipyard, Vallejo, Calif.  
**Date of Interviews:** Mon., Mar. 17.  
 Construction, maintenance, repair of ships. Opportunities in design, development, other phases of engineering. Current projects include design and engineering of nuclear powered combat ships.

**Majors:** ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS, MATHEMATICS, (all degree levels)  
**SUMMER EMPLOYMENT:** Must have senior status in fall 1959, be an advanced degree candidate or be a Faculty Member. (Opening for an electronic scientist who has 18 semester hours in electrical engineering and a degree in physics or physics of engineering. Either Summer or Fall term.)  
**Organization:** U. S. Naval Laboratories in California; 1030 East Green Street, Pasadena, California.  
**Date of Interviews:** Monday, March 17.  
 Naval Ordnance Test Station at China Lake carries on design, development, testing of new weapons. Includes guided missiles, rockets, aircraft armament control systems, underwater ordnance.

**Majors:** CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING  
**Organization:** Civil Aeronautics Administration; Department of Commerce; P. O. Box 1689, Ft. Worth 1, Tex.  
**Date of Interviews:** Monday, Mar. 17.  
 Airports, civil airways, other facilities are subject to regulations by Civil Aeronautics Administration. Numerous opportunities for engineers interested in technical development, evaluation of ideas, design and techniques for improving safety and regularity in flights. Permanent headquarters in Ft. Worth.

**Majors:** BUSINESS ADMINISTRATION, (and persons with other majors, if interested)  
**Organization:** Southwestern Investment Co., Amarillo, Tex.  
**Date of Interviews:** Mon., Mar. 17.  
 Branch offices in Pampa, Borger, Plainview, Odessa, Houston, other cities in Texas and New Mexico. This is a finance company handling automobile, life insurance, and makes loans (for sales, consumer loans). Positions include sales, adjustments, other services. There is training program.

**Organization:** Shell Oil Co.; Houston, Tex.  
**Date of Interviews:** Mon., Tues., Mar. 17, 18.  
**Position:** 1) Manufacturing (Refining) MAJORS - CHEMISTRY, CHEMICAL ENGINEERING, (For Refinery Operations, technology process development, refinery, refinery research laboratories. (All degree levels).  
**Position:** II) Production Department MAJOR: CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, (All Degree Levels).

\* Attention: 1958 Graduates - Women.  
**Organization:** Humble Oil & Refining Co., Houston 1, Tex.  
**Date of General Meeting:** Mon., Mar. 17, 5 p.m.; Adm. Bldg.; Rm. 209.  
**Majors and Positions:**  
 I) BUSINESS EDUCATION: SECRETARIAL ADMINISTRATION, OTHER MAJORS - IF GOOD SKILLS; For positions at all locations.  
 II) MATHEMATICS, OR SCIENCE WITH MINOR IN MATHEMATICS; Position: DATA ANALYST. (For Petroleum Engineering Division).  
 III) GENERAL BUSINESS MAJORS: (If interested in Statistical Clerical Work). A) Marketing Research, B) Statistics and Evaluation Section of Exploration Department. (Must have a course in Ecology).  
 IV) JOURNALISM OR ENGLISH (with at least one year in geology). Technical Report Editor. For the geologic Research Division.  
 V) GEOLOGIC LIBRARIAN (possible openings) Should have a major in geology). Must consider less geology.

**Locations & Majors**  
 Texas Eastman Co.; Longview, Tex.; CHEMICAL ENGINEERING, MECHANICAL ENGINEERING, CHEMISTRY (Organic), all degree levels.  
 Eastman Kodak Co., Rochester, N. Y.; MECHANICAL, CHEMICAL, ELECTRICAL ENGINEERING, CHEMISTRY, all degree levels.  
 Tennessee Eastman Co., Kingsport, Tenn.; MECHANICAL, CHEMICAL, ELECTRICAL ENGINEERING, CHEMISTRY, All degree levels.  
**Organization:** TEXAS EASTMAN CO.; Longview, Tex.  
**Date of Interviews:** Tues., Mar. 18.  
 Opportunities in process improvement and development, design and maintenance, analytical research, process development, and chemical and plastic sales, and for general power and maintenance.  
 Also, Summer Employment for 1959 and 1960 Graduates with majors indicated above.

**Majors:** ACCOUNTING  
**Organization:** Internal Revenue Service; U. S. Treasury Dept.; P. O. Box 394; Dallas, Tex.  
**Date of Interviews:** Tues., Mar. 18.  
**Position:** Accountant (GS-2).  
 Work includes audit of tax returns, field examination, investigation, and audits of company records and other types of organization, or for individuals. Positions located in Southwest.

**Majors:** CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS  
**Organization:** U. S. Naval Air Station, Patuxent River, Md., Md., Mar. 18.  
**Date of Interviews:** Tues., Mar. 18.  
 Armament Test Div. conducts flight evaluation studies of aircraft weapons systems. Other divisions include Electronic Test, Service Test, Flight Test. Opportunities for advanced study.

Interviews being conducted for persons eligible to take the federal service entrance examination (See Majors Below)  
**Date of Interviews:** Tues., Mar. 18.  
**Majors and Positions:** PERSONNEL MANAGEMENT, OFFICE MANAGEMENT, JOURNALISM, HEALTH, PHYSICAL EDUCATION and RECREATION, SPEECH, HISTORY, GOVERNMENT, ENGLISH. For appointments to Federal positions in various part of country, for those who are interested in these positions such as: Information Officer, News Writer, Historian, Placement Officer, Employee Relations, Position Classifier.  
**Organization:** Reed Keller Bit Co.; Houston, Tex.  
**Date of Interviews:** Tues., Mar. 18.  
**Positions and Majors:**  
 1) Manufacturing Department: INDUSTRIAL, MECHANICAL, AND PETROLEUM ENGINEERING.  
 2) For Various Departments: SECRETARIAL ADMINISTRATION OR OTHER MAJORS, (If Good Skills).  
 3) For Personnel Department: (Woman) MATHEMATICS MAJOR. Work involves statistical data and programming for new type equipment which will be installed in June 1958. Must be able to type adequately.  
 4) Sales Department: For Cleco Division (Sale of pneumatic tools) Business Administration or Engineering background, must be mechanically inclined, should be willing to re-locate, will be assigned initially to Houston for training.  
 Organization manufactures rotary oil well drilling tools. Also openings for persons interested in marketing operations.

**Majors:** CHEMICAL ENGINEERING, MECHANICAL ENGINEERING, PETROLEUM ENGINEERING. Also, SUMMER EMPLOYMENT FOR 1959 GRADUATES (above majors).  
**Organization:** DEPARTMENT OF INTERIOR; Bureau of Mines, Helium Plant; Amarillo, Tex.  
**Date of Interviews:** Tues., Mar. 18.  
 Bureau of Mines has commercial helium-production plants in Southwest.  
**Majors:** ARCHITECTURE, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, (all degree levels)  
**Organization:** SAN FRANCISCO NAVAL SHIPYARD; San Francisco 24, Calif.  
**Date of Interviews:** Wed., Mar. 19.  
 Options for which engineering degrees qualify applicants are as follows:  
 ELECTRONICS: Project engineering involving design and development of all radar, sonar, antenna, related electronic fittings.  
 ELECTRICAL: Project engineering involving investigation, design, development of all power installations, lighting systems, interior communications systems, gunfire control systems.  
 MECHANICAL: Project engineering involving investigation, design, development of power piping, heating, air conditioning.  
 CIVIL ARCHITECTURAL: Project engineering in Helium Naval Architecture relating to investigation, design, development of arrangements, compartmentation, steel procedures, hull structure, structural foundation designs, fittings, scientific and test calculations.

**Majors:** In the following fields: BUSINESS ADMINISTRATION, JOURNALISM, SOCIOLOGY, PSYCHOLOGY, ECONOMICS, EDUCATION, HISTORY, GOVERNMENT, OR OTHERS.  
**Organization:** BOY SCOUTS OF AMERICA.  
**Date of Interviews:** Wed., Mar. 19.  
 Professional opportunities available in number of cities and towns in the country.  
**Majors and Assignments:** 1) ACCOUNTING, ECONOMICS, FINANCE, PERSONNEL MANAGEMENT, OFFICE MANAGEMENT, OTHER MAJORS (If interested in Sales). For positions in Controller, Treasury Departments, for financial administration, credit, banking, statistical, taxation, insurance and other assignments.  
 2) MATHEMATICS, N A T U R A L SCIENCE (with minor in Mathematics) (Women). Seismograph Computers.  
 3) SECRETARIAL ADMINISTRATION OR OTHER MAJORS (With Good Skills). Opportunity to advance into secretarial positions.  
**Organization:** SHELL OIL CO.; Petroleum Bldg.; P. O. Box 1509; Midland, Tex.  
**Date of Interviews:** Wednesday, March 19.  
**Organization:** U. S. General Accounting Office; Dallas Reg. Office; Dallas, Tex.  
**Majors:** ACCOUNTING (Bachelors' or Masters' degrees).  
**Date of Interviews:** Wed., Mar. 19.  
**Position:** Accountant - Audit Branch. Would perform public accounting type audits of the agencies of, and the contractors to, the Federal Government and irrigation and flood control projects. See Civil Service Announcement No. 51, issued 3-1-56, on file in the Placement Service.

**Majors:** ACCOUNTING, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS  
**Organization:** SAN BERNARDINO AIR MATERIAL AREA; Norton AFB; San Bernardino, Calif.  
**Date of Interviews:** Wednesday, Mar. 19.  
 Engineering positions for Air Force installations at Norton Air Force Base. Accounting positions are in costs, systems, general operations.  
**Majors:** BUSINESS ADMINISTRATION (All Majors); INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING.  
**Organization:** CONTAINER CORP. OF AMERICA; 2617 West 7th St.; Fort Worth 1, Tex.  
**Date of Interviews:** Wed., Thurs., Mar. 19, 20.  
 Organization produces paperboard packaging containers. Position all located at the Ft. Worth plant. An opportunity for graduates in engineering and for business administration majors as indicated above.  
**Majors:** (1) CIVIL ENGINEERING, ELECTRICAL ENGINEERING. (There are more openings for civil engineering graduates than for those in electrical engineering.)  
**Organization:** Coast and Geodetic Survey; 221 Business I of Commerce, Ft. Worth Dist. Office; P. O. Box 2195; Ft. Worth 1, Tex.  
**Date of Interviews:** Thurs., Mar. 20.  
 Coast and Geodetic Survey offers careers for civilian personnel and for assignments in commissioned corps.  
 Coast and Geodetic Survey was established in 1807; operates in the fields of geodesy, hydrography, geophysics, photogrammetry. Close liaison with the Department of Defense. Selective Service requirements for active duty are satisfied after 24 months in the Corps.  
**Majors:** CIVIL ENGINEERING, ECONOMICS, FINANCE, PERSONNEL MANAGEMENT, OFFICE MANAGEMENT, (All 1959 Graduates for Summer Employment).  
**Organization:** BUREAU OF PUBLIC ROADS; 607 State Highway Building; Austin, Texas.  
**Date of Interviews:** Thursday, Mar. 20.  
 Positions open for graduates in Civil Engineering interested in highway engineering. Work involves administration, construction cost studies, maintenance, materials testing, other.  
 2) Business Administration graduates for Public Road Admin. for general duties in property management, personnel, accounting, and general responsibilities.  
**Organization:** Tennessee Gas Transmission Co.; P. O. Box 2511; Houston 1, Texas.  
**Date of Interviews:** Thurs., Fri., Mar. 20, 21.  
**Positions and Majors:** (Bachelors' and Masters' Degrees)  
 1) PETROLEUM ENGINEERING GEOLOGY (Masters' degree). Production and exploration work. Producing areas include West Tex., Rocky Mountain Area, Canada (for Canadian citizens only).  
 2) ACCOUNTING. Houston Office.  
 3) CHEMICAL ENGINEERING. Refining and gasoline plants in Gulf Coast Area.  
**Majors:** CIVIL ENGINEERING, MECHANICAL ENGINEERING, INDUSTRIAL ENGINEERING (For Sales).  
**Organization:** Lee C. Moore Corp.; Box 218; Tulsa, Okla.  
**Date of Interviews:** Friday, Mar. 21.  
 Plant designs and manufactures structural equipment for oil well drilling and producing industries.  
**Majors:** ACCOUNTING  
**Organization:** PRICE WATERHOUSE & CO.; 520 Empson Bldg.; Houston 2, Tex.  
**Date of Interviews:** Friday, March 21.  
 Representative of organization would like to interview all senior students interested in public accounting.

**Majors:** ACCOUNTING, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS  
**Organization:** TEXAS EASTMAN CO.; Longview, Tex.  
**Date of Interviews:** Tues., Mar. 18.  
 Opportunities in process improvement and development, design and maintenance, analytical research, process development, and chemical and plastic sales, and for general power and maintenance.  
 Also, Summer Employment for 1959 and 1960 Graduates with majors indicated above.

**Majors:** ACCOUNTING  
**Organization:** Internal Revenue Service; U. S. Treasury Dept.; P. O. Box 394; Dallas, Tex.  
**Date of Interviews:** Tues., Mar. 18.  
**Position:** Accountant (GS-2).  
 Work includes audit of tax returns, field examination, investigation, and audits of company records and other types of organization, or for individuals. Positions located in Southwest.  
**Majors:** CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS  
**Organization:** U. S. Naval Air Station, Patuxent River, Md., Md., Mar. 18.  
**Date of Interviews:** Tues., Mar. 18.  
 Armament Test Div. conducts flight evaluation studies of aircraft weapons systems. Other divisions include Electronic Test, Service Test, Flight Test. Opportunities for advanced study.

## ... Festival

the student Council committee. Highlighting the convocation will be an address by Dr. E. N. Jones, Tech President. The Willson Lectures, an annual Tech event, is sponsored by the Student Religious Council.  
 The bicycle race, coming on Saturday, the last day of the festival, is expected to be an interesting event. To be run around the Circle, the race will have rules and regulations to be posted in THE TOREADOR soon.  
**THE CAPPER** will be the presentation of the king and queen

of the Spring Carnival, who will be presented at the senior dance, last scheduled event for Spring Festival.

Festival chairman, Wick Alexander, says "It is up to every Tech student to see that the Spring Festival is a successful tradition—one that will be carried on at Tech."

## Idealist

Marcel, Maritan-Aquinas, it is a daring attempt to vitalize Christian theology. In his non-religious branch, Sartre, Nietzsche and Albert Przeworski. Albert Przeworski is an attempt to shake an from the enervating fad of thought too sociological, make the killer responsible for his crimes rather than the sins and his drunkard father. THERE IS A lot of high talk individualism these days. Existentialists are the world's most individualists. They can't even agree among themselves. Now to romanticism. Byron has a tendency these days to apologize for his romanticism. Unit and Hegel fans refuse to admit their fans are romantic, nobody seriously reads Schopenhauer. A ROMANTIC is (one) who wanders reality to seek refuge in dreams," says Andre Malraux. He cruelly close. But that is not full truth. Where does one find more realistic settings than in Victor Hugo? There is there less emotion than Kant? THE ONE THING all great romantics have in common is the overpowering consciousness of an attainable, a non-present, an unknowable. Perhaps it is a golden age of the past or future, a mysterious noumenon, a blind will. Romantics split roughly into two categories: 1) those who see the Ideal with a Robert Browning smile and 2) those who live up and sit around moaning about the futility of life. FRED was a romantic, as was Sartre. O'Neill and Strindberg were romantics. Marx was a romantic (most liberals are, and most are violent reactionaries) and so were the Nazis. Anyway, all the romantics and existentialists around Tech can come out of hiding now.

## What It's Worth

ets. They clapped for the SMU starting line-up, they did not cheerboard on booing the officials. Any unpatriotic tendencies on the part of the Tech students and the other spectators was immediately stopped by the cheerleaders, who simply raised their megaphones. SO IT SEEMS the Aggie defeat is too much for the shifting student publication. Now they're down on the level of the students they were claiming were such poor sports. The column the recent attack appeared in is called "Born Yesterday." We're glad they have some excuse.

It has occurred to us that the prevalent person with no particular stand on any issue rather than being broad and comprehensive in his outlook may be a kindred incapable of having an opinion.

We've given up on spring. We've reconciled; it's going to be cold. But this has advanced. We won't have to buy spring clothes.

# Raider Netters Take Opening Matches

by BILLY ELLIS

Texas Tech's Red Raider tennis team got its 1958 season underway with a bang Monday and Tuesday, slamming North Texas State in the opener and Texas Christian on the following day, both by 6-0 blankings.

In the season opener at Denton, only one match lasted as many as three sets, as Coach George Philbrick's netters were off on the right foot. Bob Macy, sophomore playing in his first varsity match, proved himself by taking the number one singles over State's Lewis Compton, 6-1, 6-0.

**AT FORT WORTH** Tuesday, the Raiders swept past the Horned Frogs in a practice match, with equal ease, again losing only one set out of thirteen. Macy again had little trouble in the top singles match, 6-2, 6-0 over TCU's

Paul Pendergrass.

Billy Edd Gowan of Wichita Falls breezed to a pair of wins in the number two singles both days, with David Kent taking two wins in the number three matches and Dick Spiers copping a pair of number four games.

In doubles, it was Macy-Gowan teaming up for a number one win in the North Texas opener, with Kent-Spiers taking number two honors. Against TCU, Macy-Kent won the top game, with Gowan-Spiers taking the other match.

**COACH PHILBRICK'S** team's next match is March 24, at ACC. The Raider netters get their first shot at the Southwest Conference this season, playing a full SWC schedule. First conference match for Tech is April 2, against Baylor at Waco.

Gowan, Kent and Spiers are all senior lettermen on the squad,

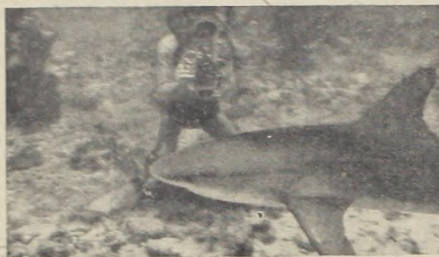

while Macy is a freshman numerical winner from last season. The fifth member of the squad is senior James Harvey of Wichita Falls.

Johnny Kniffen of Clyde, a fourth Raider letterman, is being held out of action this season, leaving him with two years of varsity eligibility.

**SEVERAL FRESHMEN** are coming out this season, including Phil Meisner of El Paso, David Hurt of Dumas, Lewis Marshall of Monterey and Danny Seales of Lubbock.

Remaining matches include:

- March 24 ACC at Abilene
- April 1 H-SU at Abilene
- April 2 \*Baylor at Waco
- April 3 Trinity at San Antonio
- April 11 \*Texas A&M at College Station
- April 12 \*Rice at Houston
- April 17 \*Texas University, here
- April 21 ACC, here
- April 24 North Texas State, here
- April 26 \*SMU, here
- April 29 \*TCU, here
- May 1 H-SU, here
- May 2 Trinity, here
- May 8, 9, 10 SWC meet at Dallas
- \*SWC Matches

## MY CLOSEST SHAVE by Elgin Ciampi

Skin Diver, Shark Expert, Author

"My closest shave happened under water while baiting sharks to photograph," says shark expert Elgin Ciampi. "My prepared bait fish hid in a hole, pouring clouds of blood around me. Smelling blood, a 7-foot man-eater, unable to find the bait, rushed me. I dodged and started taking pictures. I kept the camera between us while the shark circled hungrily for five full minutes. Then my air supply ran short, so I used psychology: I lunged at the shark with my camera. Startled, he shot away—and so did I!"

For YOUR Close Shaves, try new Colgate Instant Shave in the handy pushbutton can. There's no easier way to shave, no matter what razor you use. A great shave buy for the tough-beard guy!

## Billy Casper, Using a 30-foot Putt, Takes New Orleans Open Championship

NEW ORLEANS, (AP) — Billy Casper, who doesn't believe in wasting his best golf in practice, dropped a putt of about 30 feet for an eagle three and a victory over Ken Venturi in a sudden death playoff Wednesday to win the New Orleans golf title.

The 25-year-old Apple Valley, Calif. pro sank his winning shot on the 477-yard second hole. The victory was worth \$2,800 to Casper, who limits his pre-tourney practice to nine holes. It also was his first tournament appearance since illness sent him home in January.

VENTURI, of San Francisco, who came from behind with a 66 on the final 18 yesterday, won \$1,900.

Rain, which delayed the start

of the tournament three days, played a part in the finish.

After Venturi and Casper ended play Tuesday tied at 278 each, officials set up an 18 hole playoff. Bit showers began to fall at the starting time and officials shortened the playoff to nine holes. When the rain became harder, the change to a sudden death basis was agreed upon.

VENTURI AND CASPER split the first hole of the playoff, each posting par fours on the 393-yard first hole. On the final hole, Venturi, shooting first, and Casper sent their drives about an equal distance from the fairway. Then things changed. Venturi's second shot landed in the trap about thirty feet from the pin.

THE SPOTLIGHT will be on these Picador tracksters this week-end at the SW Recreational Meet at Ft. Worth as they will be defending champions in the freshman division. Coach Delmer Brown's freshmen edged Texas for the title last year. Pictured from left to right: Coach Delmer Brown, Manny Connel, Dick Murphy, Donny

Foster, Preston Love, Bobby Wilson, manager, Robert Vaughn, Curtis Hart, Reggie Alexander, Johnny Janak, Charles Draper, and Harold Donahoo. Also competing will be the varsity team which placed fourth in the Border Olympics and the golf team which placed fifth. (Staff Photo)

## Hogs Beat SMU; Win NCAA Berth

Arkansas won a berth in the NCAA regional basketball tournament by swamping SMU 61-55 in a playoff game Tuesday night in Shreveport, La.

The Porkers were led by their all-SWC guard, Fred Grim, who won high point honors with 18 points. His teammate, Jay Carpenter, poured through 13 points and led in rebounds with 10.

Rick Herrscher, SMU's SWC scoring champion, was held to 13 points. The Pony forward left the game with 1:45 remaining as a result of a mid-court collision with an Arkansas player.

**BOBBY JAMES** was high scorer for SMU with 17 points.

The hotly contested game saw the score tied 10 times in the first half and six times in the last period. Grim broke the deadlock five times to put the Hogs in the lead.

In the final minutes of the game, Arkansas pulled into the commanding position by virtue of a fine rebounding game. The Razorbacks led in rebounds 50-33.

The game was a fitting climax to the SWC basketball race which saw two teams, Arkansas and SMU, as co-champions; Texas Tech and TCU tied for third and Rice and A&M tied for fifth, each position a game behind the other.

## -Even Florida Has Weather Troubles

PENSACOLA, Fla. (AP) — The rain-plagued touring golf professionals ran into more showers Wednesday on the eve of the \$15,000 Pensacola Tournament.

Practice rounds were held to a minimum and qualifying by the 17 amateurs entered was canceled because of heavy showers during the morning.

Tommy Bolt, playing out of Chattanooga, Tenn., reported the best of the tune-up rounds—a four under par 68 over the 6,325-yard Pensacola Country Club course.

Dow Finsterwald, Tequesta, Fla., was one over par on each of the last three holes but still came up with a three-under 69.

The top 11 money winners of the winter tour were on hand, plus winners of nine of the eleven 1958 tournaments. Favorites were almost a dime a dozen.

Later arrivals were Ken Venturi and Bill Casper, who met in the playoff for top money in the New Orleans open Wednesday.

Despite the loss to Casper in the sudden death playoff there, Venturi's second place money lifted him to the top of the money list in PGA sponsored tournaments this winter at \$10,262. Casper, picking up \$2,800, moved to second place with \$9,755.

Other favorites include Art Wall of Ponconco Manor, Pa., winner last year by two strokes over Peter Thomson; and the 1956 Pensacola champion, Don Fairfield of Casey, Ill.

The field of 135 pros and 17 amateurs will be cut to the low 60 and ties among the pros and to 10 amateurs after Friday's second round. Finals in the 72-hole tournament will be played Sunday.

The thrilling game saw the score tied at 52-all in the waning seconds. The ball went over to the Athletics on a walking violation. A long "transcontinental" pass went to Flanagan who was waiting under the basket. The winning two points were scored as the buzzer sounded to end the game.

**THE WIN** gave the Athletics the all-college intramural basketball championship. They were runner-up to Phi Delta Theta last year.

High point man for the Athletics was Bob Witucki with 18 points. Monte Hasie took scoring honors for the Phi Gamma Deltas with 19 points. Flanagan dumped through 17 big points.

The all-college tournament competitors were composed of team winners from the six campus leagues.

**IN THE FIRST** round of play, Gordon Hall defeated Doak "C" 46-32, the Athletics beat the Sport Club 48-16. Phi Gamma Delta and the Worthless Wonders drew byes.

The semi-finals saw the Athletics drub Gordon Hall 83-58 and the Fiji's victorious over the Worthless Wonders 68-54, to set up last night's final game.

# Tech Professor Gets Turtle Study Grant

Turtles are slowpokes for sure but zoologists find they are no joke when it comes to tracing the origin of particular species.

Dr. Donald W. Tinkle, assistant professor of biology at Tech, has received a \$700 grant from the American Philosophical Society in Philadelphia to unravel some of the mysteries of the turtle family.

**SPECIFICALLY**, Dr. Tinkle will study the relationships and evolution of turtles in North America. His purpose is to devise a formula that will aid in identification of characteristics of various species.

Dr. Tinkle has been working on this formula since 1954. The \$700 grant will be used this summer for traveling expenses to three leading museums which emphasize the collection of turtles.

"It's easy to tell the difference between the groups of turtles, like the soft-shell and the hard-shell," Tinkle said. "But it is difficult for a natural scientist to tell the various species within a group."

**DR. TINKLE'S** formula has to do with the vertical lines on the turtle's shell and how they intersect with the horizontal lines on the lower edge of the shell. He has found that these intersecting lines vary from one species to another. However, his formula needs

to be confirmed by application to many species of turtles.

The Tech biologist cites the peculiar evolution of characteristics in turtles found in the Gulf Coast area.

"In the United States east of the Rockies are five different species of turtles in one group," Tinkle said. "Four different turtles in the group are found in the Gulf Coast streams and rivers—a geologically young area in this hemisphere, not much more than a million years old."

**"THE FIFTH** species in the group is found throughout the northern United States east of the Rockies, but it is not split up into different forms such as the southern groups. Why?" asks Tinkle.

His primary interest in animal life in general and turtles in particular is evolution. How the various groups evolve and better methods of classifying known groups are expected from his research.

In other words, anybody can tell a turtle—but you can't tell much about them when it comes to kinsin' kin and such like.

**WASHINGTON (A-P)** The Senate today confirmed President Eisenhower's nomination giving permanent three-star rank to Lt. Gen. James M. Gavin, retiring head of the Army's missile development work.

## From KTTC Radio, TV News

by DON DENTON

Disk jockeys turned out in large numbers this past weekend for the first annual pop disk jockey convention in Kansas City, Mo.

Besides the disk jockeys, there was a heavy representation of record companies, disk artists and publishers. Numerous sides of the business of programming were discussed by guest speakers and in panel meetings.

Ed Sullivan gave country and western music a try on his Sunday evening show. He attempted to show how the country influence in our pop music today comes from the influx of Southern singers into the pop music scene. He pointed out that many of these youngsters learned their singing at church meetings and then graduated to the pop field.

Marty Robbins, "Grand Ole Opry" star, who was fired off the "Opry" roster last Saturday when tempers flared, found himself reinstated and back in good graces. Imperial Records has signed four major television names, Ozbie and Harriet Nelson, Alfred Hitchcock and Ralph Edwards to recording pacts.

On the local scene: Tech radio station KTTC will be on the scene to broadcast the "Red Raider Review" Sunday afternoon. For the benefit of those who cannot attend, we invite you to listen at the 655 spot on your radio dial.

## President Jones Principal Speaker At 12th Annual Recognition Ceremony

Dr. E. N. Jones, president of Texas Tech, will be the principal speaker at ceremonies in the Municipal Auditorium, Sunday at 2 p.m. in recognition of Tech's outstanding scholars and student leaders.

The 12th annual affair will honor more than 300 top undergraduates.

The services will be highlighted by Dr. Jones's presentations of College-Honors keys to students who have received scholarship recognition at four straight ceremonies.

**STUDENTS** in the upper three per cent of their school, either the previous spring or fall semester and having a grade-point average of not less than 2.25 in the two previous semesters, will be honored.

School honors will go to students recognized three consecutive years, class honors to those recognized two straight years, and individual honors to those recognized for the first time.

Top scholars of the five undergraduate schools will also be honored.

**CAMPUS** organizations whose members have compiled outstanding scholarship records, collectively, outstanding student leaders, athletes and scholarship holders who have maintained at least a 2.00 average will be given honors also.

A new feature this year will be recognition of outstanding student achievements that do not fit any of the categories previously mentioned.

Immediately following the services, the honored students and their parents will be guests at a tea and reception in Drane Hall.

## Judging Team Places Second

Texas Tech's livestock judging team placed second in intercollegiate competition at the annual Oklahoma City Livestock Show.

First in the eight-team field was Oklahoma State University.

Representing Tech in the contest were Payton Scott, Don Mankins, Billy Weatherby, and Dudley Arnett. Louis Heinze was the alternate.

The team placed first in hog judging, third in cattle and fourth in sheep and horses. Arnett was the fifth highest individual judge and Weatherby was first in horse judging.

Other students making the trip included Dale Herring, Myron Hillman, Newtch Klutts, Edward Robertson and Don Bell. Livestock judging coach is Stanley Anderson, associate professor of animal husbandry.
