Crime Committee To Investigate Vice Ring On Campus; Pre-Law Club Plans Annual Mock Legal Proceedings

Texas Tech will be visited at 7 p.m. Thursday by a Crime Investigating Committee, striving to uncover vice on the campus.

The Pre-Law Club will present its annual mock legal proceedings at that time in Aggie Auditorium National un-American activities committees provided subject matter for this year's take-off on legality. Admission is 25 cents; the public is invited.

Gang Leader

Faculty members comprise the vice ring to be investigated, it is rumored. Confirmation was not available at presstime. Four of the persons to be brought before the committee are Bill Oden, government instructor; Doug Moore, assistant professor of economics; Elo J. Urbanovsky, head of horticulture and park management; and E. R. Heineman, professor of mathematics.

"We are attempting to find the leader of the gang," says Don Hancock, committee chairman.

Serving with Hancock on the main committee is Max Preston, Ralls junior. The investigation will be divided into three classifica-

tions: liquor, dope, and gambling.

Subcommittees will conduct hearings on each of the topics.

These subcommittees are composed each of two students. On the liquor committee are Charles Bowen, Post junior, and Albert Purcell, Shamrock sophomore. Gambling committee members are Bob McGovern and Sheila Jondahl, both Lubbock seniors. The dope committee is composed of Mrs. Joy Lynch, Diahman, Saudi Arabia, and Dick Strout, Lubbock junior.

Witnesses were subpoenaed

yesterday by a representative of the Lubbock Police Department. Two known witnesses are Joyce Lowe, Chidress freshman, and Harold Brannan, Dimmitt senior. Other witnesses will remain secret until the hearings.

"We fear gang reprisals on these citizens," says Hancock.

The program will be tape-recorded and broadcast over campus radio station KTTC as soon as possible. "We may be able to present it later Thursday night," says Odie Echols, KTTC representative.

Engineers Show, Home Ec Open House Attract Approximately 8,000 Visitors

Approximately 3,300 persons attended the 16th annual Home Economics Open House and about 5,000 persons attended the 21st annual Engineers Show Friday and Saturday.

The style shows and the cookie demonstrations attracted the greatest number of guests at the Open House, according to Patti Pipkin, chairman. The entire Home Economics Building, the Nursery School and the Home Management House were open to visitors from 1 p.m. Friday until 10 p.m. Saturday. The bomb and tornado shelter, which featured clothing that should be worn outside during an atomic attack, also interested many visitors.

Perhaps the geyser and steam table exhibited by the geology de-

partment attracted the most attention at the Engineers Show. Another display which drew a number of spectators was the advancements and history of drilling shown through the use of scale models. A \$75 first prize for the best exhibit will be presented at the Engineering Society smoker May 8, according to Joe Hastings, chairman of the Show.

SENIORS TO MEET

The senior class will meet at 5 p.m. Friday in Ad219, says Bill Bales, class president.

The gift committee will make a report of its activities and Sue Morehouse will give a financial report.

Entries Include 14 Colleges; All-Western Days Scheduled

Fourteen colleges, including Tech, have entered the fourth annual Texas Tech Intercollegiate Rodeo, according to T. Encl Liner, rodeo association sponsor.

Those participating will be: New Mexico A&M, Texas A&M, Oklahoma A&M, Cameron Agricultural College, Ranger Junior College, West Texas State, Sul Ross, Hardin-Simmons University, Sam Houston State College, Southwestern State Teachers College, Texas Christian University, Odessa Junior College, Abilene Christian College, and Texas Tech.

Western Days will be observed by both students and faculty attending classes in Western garb Thursday, Friday and Saturday.

Early Breakfast Thursday

Activities will begin with the rodeo parade at 4 p.m. Thursday. A breakfast open to all Tech students will be held Friday at 6 a.m. in the meat lab followed by a dance at the agricultural engineering shed. Admission for the breakfast will be 75 cents.

The opening performance of the rodeo will begin at 8 p.m. Thursday. Admission prices will be \$1.50 for adults; \$1 for students; and 50 cents for children.

Men's competitive events will include: bare back bronc riding, saddle bronc riding, bull riding, steer wrestling, calf roping, ribbon roping and wild horse races. Women's events will be goat tying and barrel race. Women's teams entered are from Sul Ross, TCU and Tech.

Each performance will feature a trio of women trick riders, the Luycke Cowey troop.

Competition To Be Keen

Forrest "Jukebox" Burnham, chairman of the rodeo, stated that the event had all the possibilities of being one of the best on Tech campus if the students will back it. The stock, furnished by Triangle-Bell Ranch of Belton, ranks with the top in rodeo work; the competition will be keen, and the feature act is one of the better of its type, according to Burnham.

Finale for the rodeo will be the awards dance in the gym Saturday night beginning at 9. When the last performance of the rodeo is over, the championship prizes will be given at the dance.

Awards to be made are a saddle for the best-all-around cowboy; luggage for the best-all-around cowgirl; and championship belt buckles for the winner in each event. These prizes have been given by Lubbock business firms.

Baptist Women Schedule Banquet

The Young Women's Auxiliary of the Tech Baptist Student Union will hold its annual spring banquet at 7:30 p.m. Friday in the basement of the First Baptist Church.

Speaker will be Prentiss Chunn, student worker for the State Baptist Convention.

Theme of the banquet, which will be semi-formal, is "Show boat."

SC Resolution On Section O Sent to Jones

The Student Council's resolution disapproving a proposal to move students out of Section O in Jones Stadium has been presented to President E. N. Jones, according to a report given the Council at its regular meeting last night. The report was made by James Dent, arts and sciences representative.

The Council voted against the move on April 13. Originally presented to the group by Coach DeWitt Weaver and Athletic Business Manager Jimmy Wilson, the proposed plan would move the student section at football games twenty yards from its present location. Section O would be divided into approximately 150 boxes, for which options would be sold.

Athletic Allocation Upped

Dent stated in a later interview that the Council's prime objection to the plan is that the continued financial emphasis on major sports may be the beginning of a trend which would take the athletic program farther away from the student body as a whole. The Council also feels, he added, that the move is undesirable since the athletic program has requested an allocation of \$8.50 from each activity fee next year. Allocation this year was \$3.96.

President Jones reportedly explained that added revenue for athletics is needed to pay off the debt incurred in years just passed by an expanded athletic program aimed at Tech's admission to the Southwest Conference. Dr. Jones did not indicate, according to Dent, whether or not he favored the move.

Council President Harold Brannan told the group that "all indications show that they are going ahead with the move."

Banquet May 14

In other business, Elizabeth McCain, arts and sciences representative, announced that the Council's annual banquet will be held May 14 in the Caprock Hotel.

A policy of lending Varsity Show stage props to campus organizations free of charge was formulated by the Council.

SOCIETY

MICC Will Give Awards at Social

Annual scholastic and sports awards will be presented at the Men's Inter-Club Council smoker at 8 p.m. tomorrow in the Student Union Building. A banquet will be held at 6:15 in the Caprock Hotel prior to the smoker, according to Larry Bedford, MICC president.

Dean R. R. Oglesby, dean of student life at Oklahoma A&M will be the principal speaker at the banquet. Scholastic awards will be presented by James C. Allen, dean of student life, and sports awards will be presented by fraternity presidents.

Tech Counselors Go To Muleshoe

Several representatives of Tech were in Muleshoe yesterday to counsel and advise high school seniors during the second annual Education for Citizenship Day sponsored by the Muleshoe schools and the Chamber of Commerce. They conferred with approximately 225 students from 10 schools in the area.

Among those attending were: Dr. N. C. Fine, assistant dean of agriculture; James G. Allen, dean of student life; Maj. Melvin Burnett, associate professor of air science and tactics; Prof. O. A. St. Clair of engineering, and Aubrey L. Shouse director of public information. An instrumental combo provided music for the occasion.

Educators, Air Force and Navy personnel, business and professional men from West Texas State College, Wayland College, and Eastern New Mexico University, were present.

Five Socii Members Visit Oklahoma A&M Fraternity

Five members of Socii fraternity visited the Oklahoma A&M chapter of Sigma Nu last weekend, to become acquainted with the organization and functions of the fraternity.

Eight Major Office Holders Give Opinions of Position

By JIMMY CLARK
Toreador Staff Writer

Contrary to popular opinion, the eight major student body positions on campus are not glory jobs. They necessitate long hours of work and leave little time for school work, social life and activities in any other area. They require responsibility and maturity and there is a burden of daily leadership. The election to a major campus position is a sacred trust and comes first in the minds of those who have been elected.

Mr. President

Student Council President Harold Brannan, senior, chemistry major from Dimmitt, feels that Tech has enjoyed a remarkably progressive year.

"The Student Council," he says, "concerns itself with a great many things." These include dormitory regulations, student seating sections at athletic events, all solicitations on campus, student-faculty relations, certain intercollegiate activities such as the Texas Intercollegiate Student Association, Homecoming and sponsorship of the Board of Student Organizations. The Council is responsible for the freshman orientation and the Varsity Show.

"Our position has been to govern the student body," Brannan said.

"I feel," he continued, "that the Student Council should present to the administration and the student body that type of policy which it thinks best sustains the basic necessities of a well-rounded program."

Thoughtful administrative and student reaction will approve this type of policy, he believes.

"The Council exists to tell what they, as student leaders, feel should be done," Brannan said. "There is never a direct channel from students because it would be impossible to obtain student

reaction on every issue, he said. It is, therefore, necessary for the Council to act as it thinks best he added.

Brannan says that he feels that next year's Student Council members should constantly be aware of the fact that they have the pack.

All the roads lead to Kankakee

Some routes, naturally, are longer than others. But if there is less traffic on them, they might get you to Kankakee faster.

The same holds true of your Long Distance calls. When circuits are temporarily busy on the most direct route for your call, a new electronic brain in the telephone office automatically selects alternate routes. They may be hundreds of miles longer, but the detour saves you time.

And the entire operation of selection and rerouting is done in a split second!

The Bell System people who perfected, maintain and operate this electronic switching system have one goal: to make the best telephone service in the world even better. Would you like to join this competent, aggressive team?

There are many opportunities in the Bell System—in engineering, business administration, accounting, and other fields. Your Placement Officer can give you the details.

Fencers Outclass Opponents With 24 Wins In El Paso

Tech's fencing team ran away with the Grand Tournament of the Americas in El Paso this weekend, scoring 24 victories to lead the pack.

A distant second was the Federation Nationale team of Mexico with 14 triumphs, followed by Texas A&M with 8 wins.

The victory made the third time in four years that Tech has won the tourney.

Tech finished first in team foil, second in team epee, team sabre and three weapon events. In a special event, the gentlemen sword tourney, Sam Self triumphed, and was awarded an engraved epee.

Representing Tech in the tourney were: Participant-coach Roddy Hobson, Self, and Jack Carnell.

The tournament took place Saturday and Sunday in the El Paso Catholic Community Center. Other teams entered were: University of Arizona, Tucson YMCA, El Paso YMCA, Fort Bliss, Texas A&M, Sala de Windsor, Chihuahua, D'Artagnan from Mexico City and the Federation Nationale of Mexico.

This Saturday and Sunday, the Techsians will be host to the sectional finals of the Amateur Fencers League of America. It will pick qualifiers for the Nationals in Washington, D. C., in June.

Tracksters Lose In Drake Relays

Tech's track team failed to qualify in events entered at the 44th Drake Relays last Friday.

See TRACKSTERS, p. 4

Arizona University gave the Tech swim team its first taste of defeat this season, downing the Raiders, 59-25, and 61-23, in a double swim meet at Lubbock Boys Club pool last Friday and Saturday.

It was the last meet of the season for the Raider swimmers who boast a 5 won and 2 lost record. Double wins over Odessa High School and New Mexico Military Institute and a single win over Baylor account for the five Tech

victories. New pool records were set in every event in the hot competition of the initial contest Friday. Raider swimmers, with victories in the 300-yard medley relay and the fancy diving events, chalked up the highest score that they've ever had against the Wildcats.

In Friday's meet, Bill Lashier, Bob Shackleford and Brooks Akin splashed to victory in the 300-yard medley relay with a time of 3:12.2.

Norman Hemphill captured first in the fancy diving contest.

The results of Saturday's meet almost duplicated that of Friday's with the Raider medley relay team and Norman Hemphill again taking victories in the 300-yard relay and fancy diving events. Bob Shackleford, Raider high-point man for the 1953 season, flashed under the finish line first in the 200-yard breaststroke.

H-SU Golfers Drop Tech Again

Hardin - Simmons University blasted Tech's golfers, 5-1, in a duel in the sand at the Lubbock Country Club last Thursday afternoon.

It was the defending Border Conference champs' third victory over the Raider linksmen.

Jerry Thornton, co-medalist with Joe Ed Black of H-SU, was the lone Tech winner. Thornton downed Arlen Scott, 2-1, in the No. 3 match.

Thornton and Black, although handicapped by the stiff sand-laden wind, each shot two over par 73s.

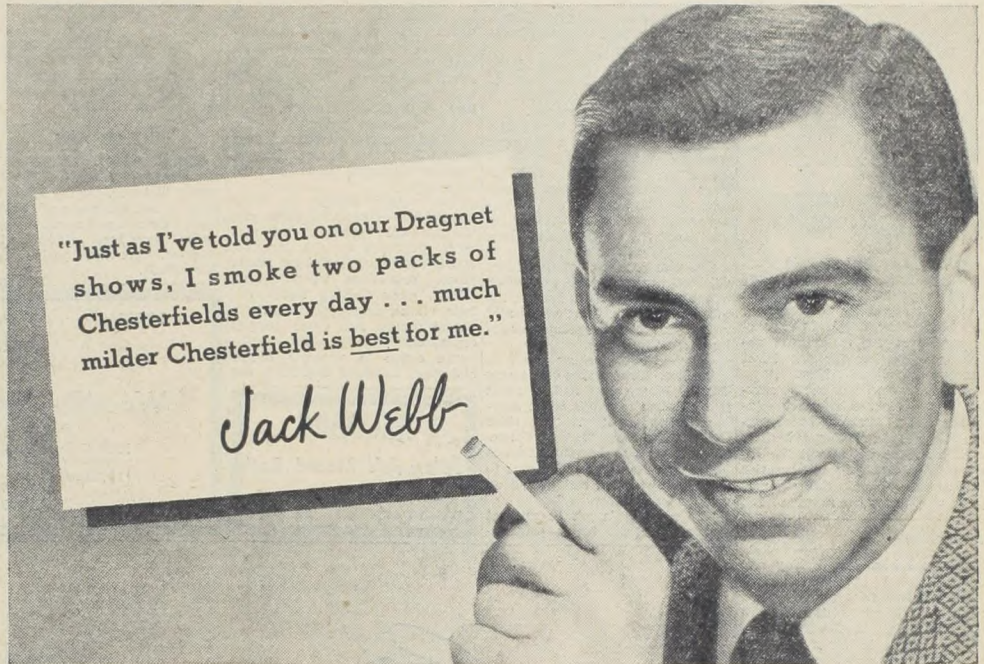

In the other singles matches, Joe Ed Back, H-SU, beat Joe Steltz, 2 up; Jacky Clark, H-SU, took Dub Warden, 4 and 3; Dwayne Blair, H-SU, whipped George Aubach, 2 up.

In the doubles matches, Black-Clark, H-SU, trimmed Stoltz-Warden, 2 and 1; and Scott-Blair, H-SU, edged Thornton-Aubach, 1 up.

APO Will Hold Initiation, Banquet

Twenty-nine pledges of Alpha Phi Omega will be initiated at 6:30 p.m. Thursday in the Caprock Hotel.

A banquet honoring the new members will follow initiation. Speaker for the occasion will be Arno Nowatny, Dean of Student Life at the University of Texas, a past national president of Alpha Phi Omega.

Initiates will be Gene Clark, Don Alexander, Bob Bandy, Bill Bowers, Truman Powers, Gerald Abell, Ruel Casey, Gerald Clark, Tommy Craft, Jim Davis, Terry Driver, J. B. Garibaldi, Ronald Hilliard, Don Huey, Doyle Jackson, Perry Llewellyn, Charlie Miller, James Mullins, Charlie Pipes, Larry Lynn, Mack Price, W. B. Shields, Terry Shaw, Don Smith, Jerry Stevens, Dibrell Stowell, Bud Weaver, Fred Williams, and Ralph Yarbrough.

Graduate Enters Missionary Field

Shirley Ann McRee, 1948 Tech graduate from Lubbock, was recently appointed for evangelical service in Africa by the Board of World Missions. She had previously served as the director of religious education for the First Presbyterian Church here.

At the present time she is serving as director of religious education at St. Andrews Presbyterian Church in Oklahoma City.

Miss McRee will attend the Institute for Outgoing Missionaries in Montreat, N. C., this summer prior to entering the mission field.

Amarillo—

Field meet here last Friday and Saturday.

Twenty-two new records were set in the stiff competition. Twelve old marks fell in Class B while seven toppled in Class A. Only three were shattered in Class AA Competition.

Amarillo rolled up 46 points to take first in Class AA, barely squeezing by the Odessa Bronchos who had 40½.

Phillips racked up 31½ points to sweep the Class A race. Andrews finished second with 19.

In the Class B race, O'Donnell chalked up 37 points to beat out Friona with 21½ and White Deer with 19.

Olton's splendid sprinter, J. Frank Daugherty, took the spotlight of the meet, as he set new records in the 100-yard dash and the 220. Daugherty flashed over the 100 in 9.6 and the 220 in 21.1.

Tracksters—

and Saturday at Des Moines, Iowa.

Five Raider cindermen made the trip to represent Tech in the 880-yard relay, the mile relay, and the 220 high hurdles events. They were: Don Covey, Walter Bryan, Ronnie Herr, Jerry Fairley, and Jim Farrell.

Producing three relay winners and three individual champions, Illinois swept to victory in the University Division. Abilene Christian College, with victories in the 440, 880, and mile relays, captured first place in the College Division.

Darrow Hooper, a Texas A&M great, heaved the shot put 55-feet, 4 1/8 inches to produce the only new record of the two-day meet. The old record was 55-1½, set in 1934 by Jack Torrance of LSU.

Hooper also took the discus throw with a toss of 164 feet, 7 1/8 inches to emerge as the meet's only double winner.

Sharing the spot light with Hooper was Wes Santee, the great potential four minute miler from Kansas University. Santee came from behind on his anchor leg of the sprint medley to beat out Stacey Siders of Illinois by five yards.

Student Leaders Offer Advice To Successors, Explain Accomplishments

(Continued from Page 2)
been entrusted with a responsibility to make student decisions and advises that they stick by the decisions even if they do not have the support of the student body.

"Above all things," he said, "it should be the policy of the student government to keep all issues open to the student body and administration."

Jim McGraw, vice president of the Council, says that the Council is effective only if it reaches a larger portion of the student body. McGraw is a senior philosophy major from Midland.

"Every effort," he says, "must be made to open channels of communication to both the administration and the student body."

One of the chief duties of the vice president, McGraw says, is serving as student chairman of the Publications Committee.

"I would advise that next year's vice president place a stronger emphasis on the student advisory committee within the Publications Committee to keep in contact with the progress of La Ventana and Toreador, keeping in mind that the publications belong to the students," he says.

The vice president of the Council, McGraw said, must remember at all times that he is holding his office as a public trust and should remember the obligations resulting from this office.

The Secretary
Student Council Secretary Wanda Mason has had a great many duties to fulfill while serving in her capacity. "My chief duties," she says, "are in charge of elections and keeping minutes of Council meetings to be sent to the administrators and posted on campus bulletin boards."

The secretary's job began last spring when she began prepara-

tions for the fall elections. "Elections," she says, "are a big job and one should give much thought to their conduction."

"There is always the problem of publicizing elections and making arrangements for election rallies," Mrs. Mason says.

"It is always necessary to see that the ballot boxes are set up and that there is a faculty advisor at each," she continued.

The secretary says that she believes that there is a drastic need to have more enthusiasm at election rallies and that more people should show an interest in campus politics.

"This year's election committee has found that write-in ballots will not work well at all," she says.

"I would certainly not recommend that this method be used next year," she added. Mrs. Mason is a senior home economics education major from Plainview.

Business Manager
"Most student activities," says Benny Bruckner, Student Council business manager, "stem from the Council."

The yearly budget is about twenty-five thousand dollars, and the Council sponsors and aids such programs as the March Band, Toreador, Engineers' Show, Home Economics Open House, KITC, aggie judging teams, debate teams, drama presentations, choral groups and other campus organization.

"In order to promote better and more balanced activities, the

business manager must be aware of all the activities and needs of these various groups," Bruckner says.

"In order to do this, the business manager must take an active interest in as many campus activities as possible in order to get an idea of their needs."

Bruckner, a senior marketing major from Amarillo, says that many problems have arisen from the fact that there was an indefinite amount of money to allot to organizations. "This problem," he says, "arose because of the lack of a mandatory activity fee."

"Keeping the many records," he says, "takes much time."

He advises next year's manager to give as much time as possible to keeping all the necessary records in order to give a complete picture of the expenditures.

Cheerleader

"School spirit is no more than a composite of each individual's spirit; however, having individual spirit is not enough—each student must be concerned about the composite," says head yell leader Don Address, pre-med junior from Brownfield.

"Naturally," he says, "I strongly believe student body spirit is a very important factor in any athletic activity."

He says he would recommend that next year's cheerleaders employ more use of tumbling activities because he feels that it is a good crowd pleaser. He also recommends prominence of the new official mascot.

"I hope, and feel sure, that the student body enthusiasm will match the new size of the stadium next year."

Address says that the main problems facing the cheerleaders this year was finding new yells that were pleasing to the crowd.

Story will be concluded in Friday's issue of The Toreador.
