## Mule-Plex Production Co. Making Plans

*around muleshoe*

Are you looking for a challenging opportunity? Are you available to 'sit' with persons, especially elderly persons as they are released from the hospital to recuperate at their homes?

If you would be available for such employment, either temporary or permanently, call Kay Swint, director of nurses at Muleshoe Area Medical Center and give her your name and telephone number.

Ms. Swint is accumulating a list of persons who can and would stay with such persons.

A special meeting has been planned at 7 p.m. on Friday, April 6, for persons interested in helping make plans for the all-school ex-student reunion scheduled for July 7.

Tentative plans now, are to have a brunch before noon, on July 7, followed by an evening banquet and dance.

Those planning the reunion ask for your input, and to help produce a mailing list for the invitations.

The April 7 meeting will be at the Muleshoe Public Library.

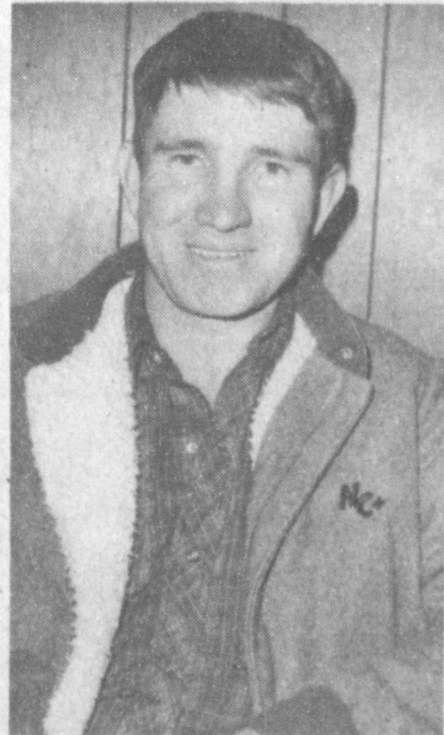

Educator of the Week at Watson Junior High School is Paul Davis. He teaches LMS Life Management Skills and is high school baseball coach.

Principal awards went to Jaclyn Chapman, sixth grade; Genny Eggars, seventh grade; and Shawna Delaney, eighth grade.

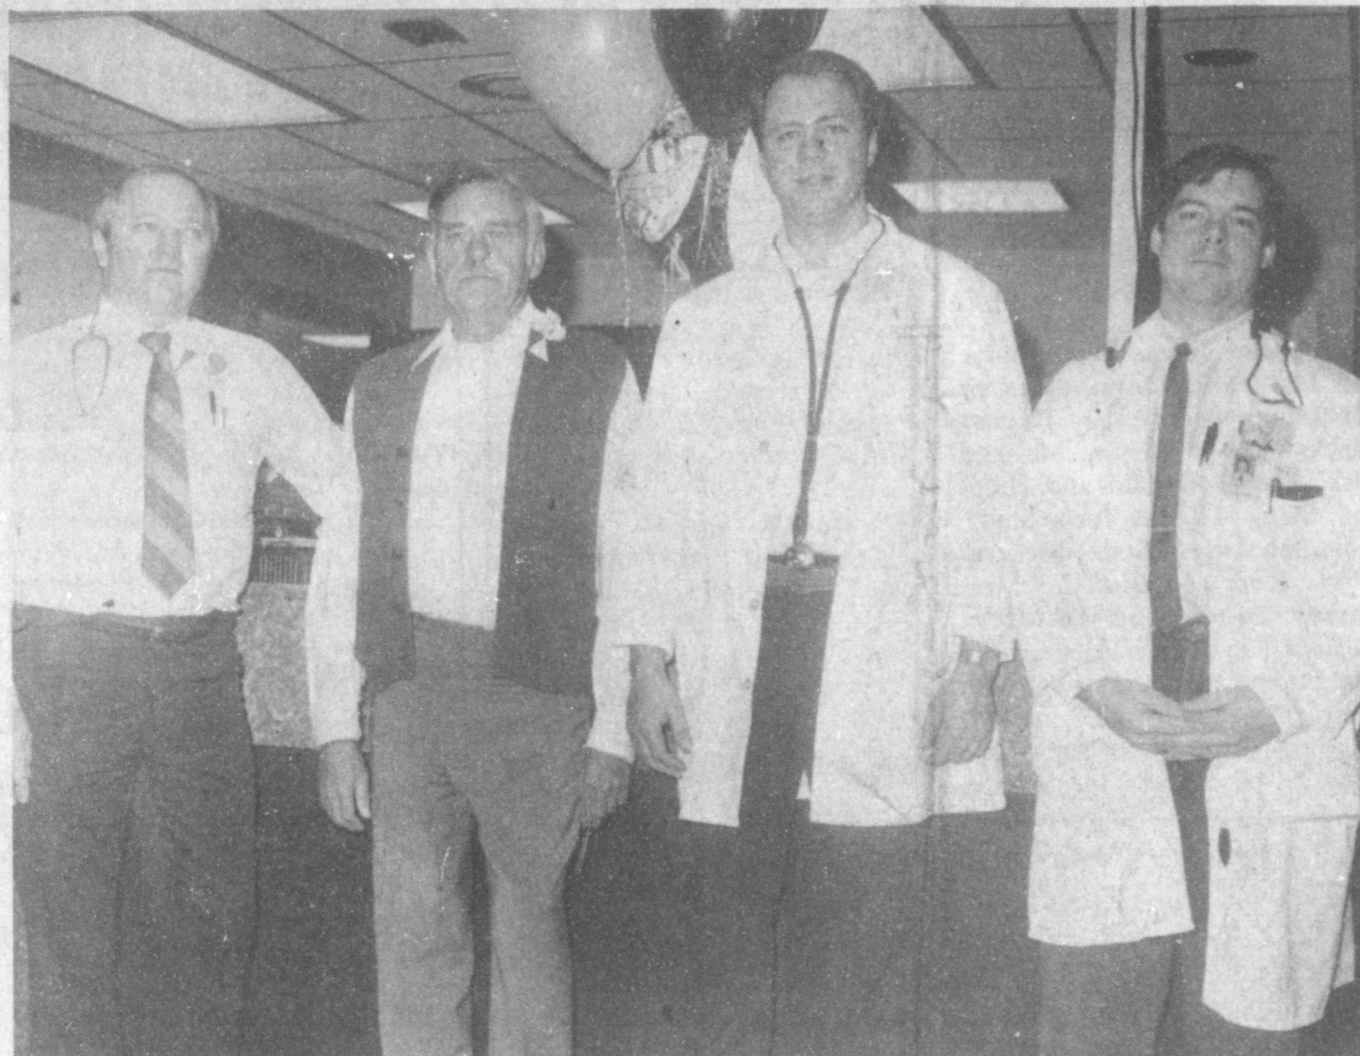

Abel A. Leal, a high school senior at New Mexico Military Institute, Roswell, N.M., has been initiated into the National Honor Society. Leal is the son of Mr. and Mrs. Hector J. Leal, of Muleshoe.

To qualify for membership in the National Honor Society at New Mexico Military Institute, a student must maintain a 3.4 academic average (on a 4.0 scale), be a member of the high school sophomore, junior or senior class, and demonstrate evidence of scholarship, leadership, service and character.

Sgt. Charlie Simmons of the Lubbock Highway Patrol District said in Bailey County, our troopers investigated no fatal accidents and two personal injury accidents for January and February.

## Census Will Affect New Federal Funding For Several States

Every resident of the United States should become a full fledged partner in the 1990 Census, said the head of the Census Bureau for this area, as 106,000,000 questionnaires were mailed to every household in America.

"If the people join in, by answering the questionnaire and encouraging their friends and neighbors to do so, we will have the most complete and accurate census in our 200-year history," according to John E. Bell, Regional Director of the Census for Louisiana, Mississippi and Texas, "and we will all be better off for it."

The Census, he explained, is a

### James L. Wedel

### Chosen Member Of TALL Program

James L. Wedel, Bailey County farmer, is one of 26 young adults in Texas who has been accepted into TALL - Texas Agricultural Lifetime Leadership Program.

TALL, under coordination of Dr. L. S. Pope, is building tomorrow's agricultural leaders.

TALL is a two-year program and the current 26 young adults comprise the second group in Texas.

The TALL participants will be visiting many key agricultural areas of the state as well as Washington, D.C., California, and will make overseas tours.

The participants will be interacting with over 170 outstanding leaders in agricultural and related businesses. They will also be attending 10 sessions on leadership to better enable them to link modern agriculture with industry and other segments of society.

responsibility we all share. It is too big a job for the Bureau to do alone.

"Some people understand the personal benefits as well as the absolute secrecy of answering the Census," he said.

"But some people don't."

Those who don't understand are the principal worry of the Bureau as the Nation's 21st Decennial Census approaches.

"Yet if people will simply help their friends, their neighbors, their employees and co-workers--especially the disadvantaged, the elderly, the illiterate--to fill out the questionnaire and send it in by Census Day, April 1, we have achieved the most successful and beneficial nose-counting in all history," Bell said.

He cited the fact that the states of Texas, Louisiana and Mississippi, and the communities within them, have literally hundreds of millions of dollars in federal funding to gain by encouraging everyone to answer the census questionnaire.

"Conservatively, we estimate that communities could lose about \$150 in federal funds for every individual who fails to complete their census form," Bell said.

He also emphasized the total secrecy of the information people write down on the questionnaire.

"The IRS can't see it," he said. "The immigration people can't see it. The police can't see it. Not even the President of the United States can get a look at that personal data until it is thoroughly de-personalized and combined with the data of millions. That's the law."

Bailey County encompasses 827 square miles, and shows with the 1980 census, 9.9 persons per square mile. Between 1970 and 1980, the population of the

county dropped by 3.8 percent. In 1970, the census showed 8,487 people resided in Bailey County, and this figure had dropped from the 1960 census of 9,090. In 1950, 7,592 people were recorded in the county. It was 6,318 in 1940 and 5,186 in 1930.

The 1980 census showed 8,168 residents in the county.

For Muleshoe, the 1980 census showed 4,842 persons. This is an increase from the 4,525 recorded in 1970, and up 1,000 from the 1960 census of 3,871 persons.

## Committees, Assistants Will Coordinate Events

As the 'count-down' begins for the Second Annual Mule-Plex Production Co., Inc.'s two-night presentation in July, plans are being firmed up for an expanded show this year.

More than a dozen members of Mule-Plex Production Co., Inc. met Thursday evening, with Chairmen Pat Prater, to work on plans for the play and variety acts which proved to be so popular in it's first year in 1989.

This year, Phyllis Angeley and Nancy Barnhill, co-chairmen of the variety acts, said they hope to have expanded variety acts, including more comedy, and perhaps different variety acts for each night of the production.

They ask that anyone interested in performing in any capacity in the variety acts, to contact them, or Pat Prater.

Assisting the variety acts co-chairmen will be Bobby Nell Dunham and Sharon Grant.

Sharon Grant is heading up the membership promotion committee. Any interested person can become a member of Mule-Plex Production Co., Inc. upon payment of \$1 in dues for a year. Norma Bruce is treasurer of the organization.

Nelda Merriott and Darla Rhodes are heading up the publicity committee, and in fact, 'Miz Darla' and 'Miz Peaches' are already busy touting the two day presentation in the area. They will be assisted by Sharon Grant, Pat Prater, Norma Bruce and Marilyn Cox.

Candy Sale Prizes chairman is Donna Kirk, who will be adding assistants to her committee to help obtain the 150 prizes to be given away during the two nights.

Billye Jones is leading the committee for sets and props. Her assistants are Betty Jo Beaty, Glenda Dale, Gladys Black, Hazel Gilbreath, Dale Hughes and Kent Oliver.

Again this year, Patsy Chance

# One 'Deathless' Day Recorded In 1989

It's official. On June 13, 1989, no one died in a Texas motor vehicle accident.

That makes for a happy ending to the Texas Coalition for Safety Belt's "One Deathless Day" campaign.

"Final 1989 traffic statistics, released by the Texas Department of Public Safety, confirmed that June 13 was the first deathless day since January 5, 1977," said George R. Gustafson, coalition spokesperson and president of Texas Safety Association.

"Too often, it seems that the only news we hear is bad," Gustafson added. "This is good news, and we want all of Texas to hear it!"

The safety belt coalition, representing 52 public and private sector organizations, led a statewide "One Deathless Day" promotion in the summer months of 1988 and 1989. During the first summer, at least three traffic fatalities were recorded every day.

As a group promoting the use of safety belts and child safety seats, the coalition can't take exclusive credit for the deathless day in 1989. "We're proud to be part of a trend that includes progress in DWI prevention, railroad crossing safety, motorcycle, bicycle, and pedestrian safety," Gustafson said.

"June 13 was just one day in a decade," he added. "But it shows that lives can be saved when Texans work together. It

takes effort on many fronts, and the rewards may not be immediate. However, as we've seen, effort eventually pays off."

Gustafson noted that the 1980s had been a landmark decade for traffic safety.

"Our state child restraint law was enacted in 1984, followed by the safety belt use law in 1985 and the re-enactment of the motorcycle helmet law for all ages in 1989. Laws against driving while intoxicated were strengthened and more vigorously enforced," said Gustafson.

"Grassroots organizations such as Traffic Safety Now Inc., Mothers Against Drunk Driving, and the Safe Kids coalitions, which began in the 1980s, have helped make traffic safety a public issue," he added. The decade also saw the development of many community education programs funded through the State Department of Highways and Public Transportation and the National Highway Traffic Safety Administration.

"And now, this year, we're seeing automatic safety belts or air bags installed in all new cars," said Gustafson. "Our job is not finished by any means, but occupant protection in the 1990s will be a whole new ball game."

### One That He Missed

"Has your husband any hobbies?" asked the neighbor.

"No," said Mrs. Tuggle. "He has rheumatism a good deal, and hives now and then, but ain't never had no hobbies."

## Creative Living

by: Sheryl Borden

Information on cordless appliances, "20 fashions in a hatbox", and automatic bread makers will be the featured topics on "Creative Living" on Tuesday, April 3 at 12 noon and Saturday, April 7 at 2 p.m. (All times are Mountain.)

Joy Best, Extension Home Economist for Roosevelt County in Portales, N.M., will show some of the latest cordless appliances on the market and talk about the different features that are available.

Audrey Childress, from Metairie, LA, appears to perform magic as she illustrates "20 fashions in a hatbox." Audrey will begin by explaining that all fashions fall into four major shapes -- the square, rectangle, triangle, and the circle. Then she will illustrate these shapes with the different fashions she will show. Audrey travels throughout the country presenting programs for her business which is called Fashion/Sewing Seminars.

Connie Moyers, Marketing Home Economist with South-

western Public Service Co. in Clovis, N.M., will demonstrate a very unique breadmaking machine that is on the market. It is called an Automatic Bread Maker, and you can actually mix the ingredients and bake the bread in the same unit. Imagine waking up to the tantalizing aroma of freshly-baked bread every morning. With this new bread maker, you can do just that.

On Tuesday, April 3 at 9:30 p.m. and on Thursday, April 5 at 12 noon, "Creative Living" will present information on kitchen gadgets and new information in the area of diabetes treatments.

Mary Ellen Payne, former Extension Home Economist in Clayton, New Mexico, will demonstrate new and useful kitchen equipment on the market. Some of these so called "kitchen gadgets" are more for looks than for use, but some are very helpful to have in the kitchen. Mary Ellen will show an array of items, from a salad spinner to a green bean slicer to a garlic machine.

Dr. Lois Jovanovic-Peterson, research scientist in Santa Barbara, California, serves as a spokesperson for Boehringer-Mannheim Diagnostics. She will discuss three major new areas of diabetic treatment and explain

If you are counting on Social Security  
for a comfortable retirement . . . .  
**COUNT AGAIN!**

The dollars just don't add up! Inflation, uncertain interest rates, unemployment, government deficits, economic uncertainties . . . "Can you afford to count on Social Security?" Most of us thought that Social Security would pretty much take care of our retirement needs . . . but now? Unfortunately, the blunt truth is that government payments are not providing enough money for most retirees to live beyond the poverty level.

## IN FASHION

To bring your 1989 spring shoes into 1990 fashion, simply add clip-ons. Use your imagination with bows, hair clips or large clip-on earrings.

Skirts are a must in one's wardrobe. Selecting the right skirt for your figure is important. A sarong wrap elongates a short waist. Long, full skirts are best for heavy hips. Knee-length is the favorite of most.
