Heavy Count Seen In Traffic Survey

A total of 12,675 cars and trucks entered and left the campus by way of seven different streets from 7 a.m. to 7 p.m. Dec. 9, according to a survey made by Alpha Phi Omega.

Averaging 1,065 per hour, 533 cars entered and 503 left the campus each hour. The total coming onto the grounds during the day was 6,632; leaving 6,043.

Streets observed for the survey were: West Drive to 19th, East Drive to 19th, 14th St., Broadway, Main, 8th St., and Stadium Drive.

Busiest streets during the 12-hour period were 14th, West Drive, and 8th. Fourteenth had 3,196 cars in and out during the day; West, 2,641; and 8th, 2,228.

The hours from 8 to 9 a.m., 11 to 12 noon, and 5 to 6 p.m. were the busiest for all streets surveyed. Traffic from 8 to 9 a.m. on West Drive included 291 cars entering and 44 leaving. Fourteenth St. had 264 cars entering and 134 leaving from 8 to 9 a.m.

The day's totals for the other streets were: East Drive, 510; Broadway, 1,436; Main, 949; and Stadium Drive, 615.

Eleven Students Making Plans For Service Building

Eleven students in fifth-year architectural design are busy drawing plans for what may be Tech's future Student Service Building. They began after the group project was suggested by James G. Allen, dean of student life.

Plans are still in the beginning stages, but a structure will be designed to house all students services which are not firmly attached to other facilities. Included in the plans are: an infirmary, a testing and counseling center, speech correction office, scholarship and loans office, and the placement service. Room reservations, the Bookstore, and Ex-students Association are being considered as possibilities, members of Prof. R. J. Lockard's class say.

The students have selected the present location of the Bookstore as the best site for such a structure. This location co-ordinates with the plan of other departments to close the 14th St. entrance except as a service drive.

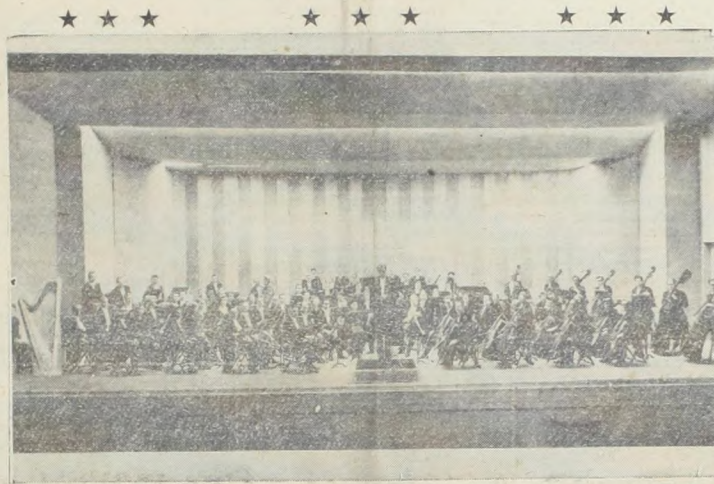

Working on the project are: Geraldine Kirkwood, Amarillo; Victorie Probandt, San Angelo; Ben Wilson, Lubbock; Charles Nolan, Lubbock; Russell McCaleb, Fort Worth; Owen Hamilton, Lubbock; Don Hampton, Clyde; Vernon Kim, Honolulu. T. H. Walter Clayton, Lubbock; and Terrence Doane, Amarillo.

The plans should be finished soon after the Christmas holidays. A small scale model will be made and displayed somewhere on the campus.

Burford Named President Of Tech's New Rifle Club

Campus marksmen recently organized the Tech Rifle Club. Charles Burford, Fort Worth senior, president of the new group, says, "We want to promote interest in shooting and marksmanship among students." All persons interested in rifle shooting are invited to attend a meeting of Tech Rifle Club in Building M2 at five o'clock Friday evening.

Artists Course To Feature Dallas Symphony Orchestra

By RALPH SHELTON
Toreador Associate Editor

The man who walks on stage in Lubbock High School Auditorium on the night of Jan. 7 to conduct the Dallas Symphony Orchestra for Tech's Artists Course will be a rare sight for concertgoers. He is a maestro who is not only young, but also native-born.

Walter Hendl does not fit the stereotyped pattern for great men of the podium. He is not white-haired with age, he was neither born nor educated in Europe, he is not noted for eccentricities, and he was not a child prodigy.

New Yorker

Hendl, a New Yorker, was afflicted with the usual childhood piano lessons; but his interest in music did not begin in earnest until he began, when 15 or 16 years of age, to attend concerts and recitals with a group of friends, all of whom were musically-inclined. He progressed rapidly, winning a Griffith Foundation music contest at the age 18 and a piano scholarship to the Curtis Institute of Music in Philadelphia the following year. He studied there with David Saperton. In 1939 he was awarded a conducting fellowship under the noted conductor, Fritz Reiner.

Hendl taught for two years on the faculty of Sarah Lawrence College and won two scholarships to study with Sergei Koussevitsky at Tanglewood in the Berkshires of New England. He appeared there as both pianist and conductor.

War Created Break

The second World War created a break in Hendl's rise. In the fall of 1942 he joined the armed services as a member of the Army Air Force Ferry Command. He was honorably discharged in 1944 and returned to civilian life to conduct the Boston "Pops" Orchestra as a guest and was presented as a soloist on radio station WQXR. He also appeared with the Columbia Broadcasting System's orchestra under the baton of his friend Reiner.

In 1945 he attracted the attention of the New York Philharmonic's director, Arthur Rodzinski, who gave him the coveted post of assistant conductor with the orchestra. Thus, Hendl had reached great heights after an active conducting career of only five or six years. His debut with the baton of the Philharmonic came unexpectedly when Rodzinski was taken ill. Critical reviews of the performance pronounced it a success; a later appearance as soloist playing the Gershwin Piano Concerto in F brought similar notices from reviewers.

Appointed Musical Director

He was appointed musical director of the Dallas Symphony in 1949—the youngest musician to occupy the podium of a major American orchestra.

During the summer of 1950, Hendl undertook a cultural mission to South America, sponsored by Braniff Airways. In Buenos Aires, he conducted the first playing of his own composition "Ode to San Martin", who was the liberator of Argentina.

Top Honors To Women In Annual Aggie Show

Jacque Donnell, Eliasville senior aggie student, captured grand championship honors in Tech's fifth annual Little International Show held Saturday. This is the first time a woman has broken into the win bracket.

Doubly insuring the female lead, Mary Ann Parris, Lubbock junior, won runner-up honors. Miss Donnell took the top showman and fitter awards by showing an Aberdeen-Angus heifer, while Miss Parris showed a quarter horse.

Animals from the Tech farm were shown by about 30 Aggie students. Quality of the animals shown did not affect results. Fitting and showing were the sole judging points. The contest was sponsored by Block and Bridle Club.

"We Need More Girls"

W. L. Stangel, dean of agriculture, presented pennants to the winners, saying, "I believe we need more girls in the Division of Agriculture. We have only a few girls enrolled, and here are two who are champions in competition—with a large group of boys."

Winners in the various divisions are:

Southdown lambs: Arthur Gohlke, Littlefield; Louis Gordon, Fort Worth; Brian Boyett, Breckenridge; and Waymon Davis, Valley View. Crossbred lambs: Bobby Rankin, Abilene, and Johnny Leonard, Del Rio. Arthur Gohlke was judged champion in the lamb division.

ship among students." All persons interested in rifle shooting are invited to attend a meeting of Tech Rifle Club in Building M2 at five o'clock Friday evening.

Tech Rifle Team were hosting to the West Texas State shooters on the Tech Rifle Range at 2:30 p.m. Saturday. The three highest-scoring marksmen were awarded medals.

Top Honors To Mitchell

Duroc barrows: John Helton, Clifton; Johnny Maddox, Henrietta; and Bud Lane, Haskell. Hampshire barrows: James Mitchell, Lubbock, and Wayne Shults, Andrews. James Mitchell was named champion in the barrow division.

Hereford heifers: Norman Key, San Angelo; Neil Wood, Fort Worth; and Waldon Dally, San Diego, Calif. Aberdeen-Angus heifers: Miss Donnell, Frank Weathered, Slaton; and Ray Tomlinson, Tulia. Fat Steers: John Stribling, Rotan, and Don Owen, Pep. Miss Donnell was named champion in the beef animal division.

Quarter horses: Miss Parris; James Rasberry, Crowell; Roy Anderson, Spur; Jack Adamson, Lubbock; and Opal Bailey, Akron, Ohio.

'53 Varsity Show Directorship Open

Scripts and applications for the directorship of the 1953 Varsity Show are still being accepted, says Phil Thompson, chairman of the Student Council committee for the annual all-student production.

Only requirement for director is a one-point grade average. Script requirements are flexible; Thompson reminds prospective writers that they should plan their scripts to use facilities and talent available at Tech.

Presidents of dormitories are working with the committee to find talent for the show. They have appointed Joan MacAulay, Horn Hall, as representative for the group.

Techsan to Give Food, Toys Today In Circle Program

Food and toys for needy Lubbock families were contributed by Techsians today. The gifts were placed in barrels on the Circle.

Students met at 6:30 p.m. on the Circle to sing carols, hear selections by the Tech band, and give to the drive, which was sponsored by Women's Inter-Club Council.

All goods collected will be turned over to Capt. Gregory of the local Salvation Army, according to Sandra Sadler, WICC president. WICC was assisted by Forum, honorary service organization for senior women, which was in charge of the program, and the Association of Women Students, which handled publicity.

Ira Schantz, instructor in music, led the assembly in singing carols.

Faculty Members Will Make Trips

Several Tech faculty members will make trips during December and January.

Ronald E. Schulz, assistant professor of speech, will attend the conventions of the Speech Association of America and the Educational Theater Association in Cincinnati, Dec. 27-Jan. 1.

L. G. Harmon, professor of dairy manufactures, will conduct a group of students through a cheese manufacturing plant in Muenster Dec. 18 to study the manufacturing process of cheddar cheese.

R. Briggs Irvin, part-time legal counsel, will go to Austin Jan. 8-11 to consult with F. L. Coz, legal advisor to the registrar of the University of Texas, on that school's methods and philosophy toward non-resident students.

Tech's Music Department Presents Its Second Student Recital Program

The music department presented a program entitled "Students in Recital" yesterday afternoon in the Music Building Auditorium. The program, directed by Miss Mary Jeanne van Appledorn, instructor, was the second in a series of student recitals this semester.

Numbers included in the piano section of the program were: Bach's "Musette in D Major"; Elise Portwood; Schubert's "Serenade"; Jackie Crump; Bach's "Two-part Invention of F Minor"; Gloria Small and Nita Powers; respectively; Pinto's "Run, Run"; Beth Kellison; and Palmgren's "May Night"; Lorraine Pipkin.

The second portion of the program included Ethelene Bucy, contralto, and Marjorie Hendrick, pianist, with instrumental and vocal styling of Tipton's "The Craying of the Water"; also Mozart's Aria, "Madamina", sung by Tim Magness, bass, with piano accompaniment by Ned Hardin; and "O Cease Thy Singing, Maiden Fair", by Rachmaninoff, sung by Tenor Billy Cormack.

Included in the third and fourth parts of the program were: Rosemary Sprague in a viola solo,

playing Bach's "Two Gavottes from Suite No. 16 in D Major"; Handel's "Sonata No. 1" by Saxophonist Cecil Green and Pianist Margie Hendrick; and piano solos as follows: Patsy Griffin, "Impromptu in C-sharp Minor", by Reinhold; Paul Laverty, Chopin's "Etude in C sharp Minor, Opus 10, No. 4"; and Ned Hardin, "Reflections on the Water", by Debussy.

Herdsmen's Short Course Begins

Tech's annual herdsmen's short course, sponsored by the animal husbandry department, was held Thursday and Friday, announced W. L. Stangel, dean of agriculture. The West Texas Aberdeen Angus Association co-sponsored the event.

About 13 breeders of Aberdeen Angus cattle, or men employed by the breeders, attended the workshop. Preparations for the setting up of an exhibit at a show, and preparing animals for exhibition were studied.

George Keith, Tech beef cattle herdsman, worked with the fitting of animals for show, and talks were made throughout the short course by members of the department.

TO ATTEND MEETING

Professors Gordon Fuller, R. S. Underwood, and Emmett Hazlewood will attend a meeting of the Mathematical Association of America to be held Jan. 2-3 on the campus of New Mexico A&M at Las Cruces. Dr. Underwood will give a paper on "Extended Analytic Geometry Applied to Simultaneous Equations." Dr. Hazlewood will discuss "Some Experiments in The Organization and Administration of Freshman Mathematics."

ECO CLUB MEETS

Dr. R. L. Rouse, assistant professor of economics, presented a paper last night at the December meeting of the Tech Economics Club, a faculty mutual interest club. Dr. Rouse's subject was "The Role of Price Control in a Defense Economy."

Dr. N. C. Fine, assistant dean of agriculture, visited PanTech farms Monday to inspect the bulls being used in herd improvement tests.

Tech Professors Attend Dallas Regional Conference

Dr. S. M. Kennedy, acting assistant dean of arts and sciences, and Dr. S. H. Fuller, assistant professor of government, left Friday for Dallas to attend the regional conference on "Universities and World Affairs."

Some 60 colleges and universities from Arkansas, Louisiana, Oklahoma, and Texas were represented at the meeting which was held on the SMU campus Friday through Sunday.

The conference is jointly sponsored by the Carnegie Endowment for International Peace, Southern Methodist University, the Southern Regional Education Board, and the Committee on Education in International Relations of the Southern University Conference.

Dr. Kennedy is the official delegate for the college to the conference. Both he and Dr. Fuller returned to the campus Sunday.

Dr. J. S. Carroll Attending Oregon Education Meeting

Dr. J. S. Carroll, head of the department of education, left last week for Coos Bay, Oregon, where he attended a meeting of the Co-operative Program and Education Administration. This is an annual meeting sponsored by the Kellogg Foundation.

While there Dr. Carroll served on a panel discussing school administration. This is the Pacific Coast region meeting of the C.P.E. A, of which Tech is a member, as well as being a member of the Southwest region.

Tech Rifle Team Defeats 2 Rivals

Tech's rifle team defeated West Texas and North Texas State Colleges in two matches held here last week.

The local marksmen downed West Texas in a shoulder-to-shoulder match Saturday on the Tech rifle range. Seven men fired for each school, but only the top five scores for each team were tallied. Tech had 1,726 points to the WT rifle team's 1,594.

The top five Tech men were Ralph Willingham, Rotan sophomore; Harold Simon, San Antonio junior; Robert L. Warren, Texarkana senior; Charles Burford, Fort Worth Senior; and Neil Huffaker, Waco junior.

In the second event last week, Tech defeated North Texas in a mail match. The local riflemen scored 1,747 to 1,669 points for North Texas.

The rifle team also fired a mail match with the University of Connecticut last week. Results of the match are not yet known, says Sgt. Donald P. Wilsey, co-sponsor of the team.

Plans are being made to fly to Arlington in February for a shoulder-to-shoulder match with Arlington State College, Sgt. Wilsey adds.

1932 Ex-Techsan Named District Highway Engineer

Bernard Dean, civil engineering graduate of 1932, has been appointed district engineer in the Texas Highway Department, effective Jan. 1.

Mr. Dean's headquarters will be at Wichita Falls. There are 10 counties in his district.

The Highway Department now has 25 district engineers and one state engineer. Mr. Dean has been with the department since graduation.

Latin Course To Be Taught Here in Spring Semester

Latin will be offered in the spring semester by the department of foreign languages. One of two courses, either Latin 133, an English derivatives course, or Latin 350, classical mythology, shall be taught, depending upon demand.

Tech Choristers Sing at Hospitals

The Tech Choir, under direction of Dr. Gene Hemmle, music department head, sang a selection of Christmas carols Tuesday Evening at two Lubbock hospitals.

The hospitals visited were St. Mary of the Plains and Lubbock Memorial Hospital. After the hospital tour the group sang at the homes of Dr. Clifford B. Jones and Dr. D. M. Wiggins. The choir's annual Christmas party was held at Dr. Hemmle's home following the caroling.

'Open Season' Almost Over

By CHARLES MAPLE
Toreador Staff Writer

Better hurry, girls! There are only 14 days until the hunting season is over for another four years.

Although this is Leap Year, according to a large insurance company women in the United States are not hooking their men. The company says that the marriage rate in the United States is lower this year than it has been since 1933, the fourth year of the last depression.

A check in the records on file in the dean's office reveals that approximately 29 Tech students have moved out of the dormitories this semester to get married. Twelve men and 17 women have married since the fall session started Sept. 1.

Of course, this isn't a true picture of Tech marriages, since the deans have records only of those who lived in dormitories prior to marriage. Nor do tabulations include marriages performed last spring.

These are the facts, gals. The season is rapidly drawing to a close, so drag out the hunting equipment and close in on that unsuspecting, yet elusive, male.

William D. Moore, assistant professor of economics, presented a paper to the Society of Economists last Thursday. The paper was "Regional Differentials of Freight Rates."

1,752 Register Cars for Parking

A total of 1,752 motor vehicle with a combined loan value of \$1,917,515 are registered with the college for parking purposes, say Lewis Jones, assistant dean of student life.

The cars range in age from two 1928 models to one 1953 model. There are 375 cars of 1950 vintage, 356 models of 1951, 247 of 1949 and 92 of 1952.

Included in the count are 11 makes of cars and 21 miscellaneous cars, scooters and motorcycles.

Ford, with 459 cars and 9 pickups, heads the lists. There are 44 Chevrolet automobiles and 11 pickups. A total of 198 Plymouth are registered, and 106 Studebaker cars and 2 pickups.

Other makes registered are Buick, Cadillac, Chrysler, DeSoto, Dodge, Frazer, Hudson, Kaiser, Lincoln, Mercury, Nash, Oldsmobile, Packard, Pontiac, and Willys.

Marketing Society Visits Local Store

Members of the Marketing Society made a trip through J. C. Penney Company Monday to take the place of their regular business meeting. After the trip an informal get-together was held and refreshments were served.

Students in marketing, retailing and advertising were shown through the store by Jack Allmon, manager of Penney's. He explained merchandising, from the time merchandise enters the store until it is sold.

HE Club Sells Seals and Bangles in Tuberculosis Drive Wednesday

Tuberculosis seals and bangles were sold in the Administration, Aggie, Home Economics, and West Engineering Buildings and all dormitories last Wednesday from 8 a.m. to 5 p.m.

The campus-wide project was sponsored by the Home Economics Club without profit. Beverly Garner, chairman of the committee, was aided by class representatives on the Home Economics Council.

Greetings
May the glorious Christmas season bring you peace and happiness all through the year.

Museum To Offer Unusual Creche As Yule Display

The December "Treasure of the Month" at the Museum will be a Christmas creche made in Jerusalem. This Nativity scene shows in miniature the stable at Bethlehem, with the Infant Jesus, surrounded by the Virgin Mary, Saint Joseph, the oxen and asses and the adoring shepherds and Magi.

The beautifully carved and painted figures were made by Wilson Whiting, a sculptor in the American colony in Jerusalem. The authentic details for costumes and background for the creche were furnished by Whiting's father, John Whiting, who was a historical authority on the Middle East.

Mrs. J. N. Michie purchased this creche in Jerusalem in 1937. Each Christmas she lends it to the Museum. After Dec. 20, the creche will be installed in St. Paul's Episcopal Church.

Press Club To Meet

Tom W. Bridges, Lubbock Avalanche-Journal writer and Tech English instructor, will talk at an open meeting of the Press Club at 7 p.m. Thursday in J208, says Charlie Maple, president.

Tech Organizations Observe Christmas Season with Parties

Phi Upsilon Omicron, national honorary home economics club, had a caroling party beginning at 7:30 p.m. Thursday.

After meeting in HE105, members visited faculty members' homes, ending at the home of Misses Margaret W. Weeks and Mabel D. Erwin, 2602 20th St. Dean Weeks gave a talk on Christmas customs.

The Baptist Student Union will meet at the Baptist Student Center at 7:30 p.m. tomorrow for its annual caroling party. The group will sing holiday music at hospi-

ties and at homes. Afterwards, the BSU will reassemble at the center for refreshments.

Horn and Knapp Hall residents will carol at all other dorms tonight and tomorrow night at 10 p.m. Residents of Horn will carol both nights. Knapp Hall residents will go tomorrow night only, because of a Christmas party after 10 p.m. tonight.

Staff members of the Dormitory Food Service held a tea Sunday afternoon at Miss Shirley Shultz's apartment. Guests attending were included men's dormitory supervisors and their wives, students employed in the dining halls, Dean Marjorie Neely, Mrs. Peter Innes, Dean and Mrs. James G. Allen, and counselors of women's dormitories.

Las Vivarachas pledges will entertain members with a Christmas party at 7:30 p.m. tonight in the home of Johnell McKenzie. Both pledges and members are now pledges of Zeta Tau Alpha.

Horace Heidt Talent Show Auditions Scheduled for Tonight at Music Shop

College talent is invited to the Adair Music Company at 8:30 tonight for auditions before a Horace Heidt representative.

Two contestants will be chosen to appear on the show when it comes to Lubbock Jan. 5, 1953, in Lubbock High School Auditorium. The winner on this show will probably be asked to appear on Heidt's radio show.

Featured on this year's program will be Johnny Standley, whose rendition of "It's in the Book" is currently a leader in the hit parade line-ups.

Other stars are Ralph Sigwald, "The Caruso of the South", Bud Messinie, Doodles Weaver and Lila Jackson.

Male students will undoubtedly be interested in the "Heidt-Steppers", a dozen beautiful girls who are on the stage most of the time,

says Jerry Henderson, promotion manager.

Tickets for the forthcoming Horace Heidt show, sponsored by the Lubbock Junior Chamber of Commerce, are now on sale at the Caprock Hotel.

Madrigal Singers Featured at Reese

Tech's Madrigal Singers, under direction of Ira Schantz, music instructor, presented a selection of Christmas songs for the Officers Wives Club at Reese Air Force Base this afternoon.

Included in the choral group were: Marjorie Scales, Dorothy Magness, Tim Magness, Marjorie Hendricks, Rosemary Sprague, Warren Forsythe, Bill Cormack, and Clarence Whiteside.

Chesterfield is Best for YOU!

- And First to Present
this Scientific Evidence on
Effects of Smoking

A MEDICAL SPECIALIST is making regular bi-monthly examinations of a group of people from various walks of life. 45 percent of this group have smoked Chesterfield for an average of over ten years.

After eight months, the medical specialist reports that he observed . . .

no adverse effects on the nose, throat and sinuses of the group from smoking Chesterfield.

CHESTERFIELD—FIRST and only premium quality cigarette available in both regular and king-size.

"THEY SATISFY—AND HOW... in school and out, I've been a Chesterfield smoker for 5 years," says John B. Boyce, financial analyst. "They've got what it takes to give me what I want in a cigarette."

BACKTALK

Dear Editor:

Attending college is a must for many, being that their parents want them to have an education and thus pay their way. From these many we always have a few who realize the need for further education or who had rather play, and, thus, do not even try to take advantage of the instruction offered in the respective classes.

The new ruling concerning absences is certainly a worthwhile idea for controlling children, but, in doing so, it casts a reflection of disrespect upon those who seek their own education and strive to show their maturity and independence. This latter group is composed of not the children, but those one will find in class.

An institution of higher learning can also be one of higher ideals and morals. If a student is to be graded for attendance let it be in the form of what he misses by not going to class. The student who misses nothing by staying away is rare, unless the course is entirely in the text. Surely each student is capable of governing himself so let him have the practice. He had the experience of a controlling hand when he held his mother's.

A student's own initiative will guide him better if his environment is kept on the level that his instructors and associates assume him to be on.

Sincerely, Melvin Bird

Cambridge Curfew . . .

The traditional 10 p.m. curfew for Cambridge University students was dealt a blow last month by the vice-chancellor.

"It is perhaps strange," he said, "that in the mid-twentieth century, authorities should seriously have to consider whether 11 o'clock is a respectable hour for young men and women to be abroad." He called the early curfew "a burden" and "exceedingly irksome to young men."

Under the Breezeway

by shirley johnson, toreador editor

Yes, Virginia, there is a Santa Claus on Tech campus, despite what people say.

There are many things we have to be thankful for.

We have beautiful green grass now instead of sand, thanks to manure.

Santa hasn't yet figured a way to keep the stuff from smelling.

We have a beautiful science building now; the elevator may not go to the top floor, but you can always carry equipment on up by pack horse. There are other deficiencies, but one department head has a beautiful secretary.

The Rec Hall may continue to be an eyesore for some time to come, but it will provide space for the women's physical education dancing classes to cavort in.

Most students carrying 15 hours will have only taken four hour quizzes before the holidays begin; we can be thankful for the one prof who took pity and refused to give a test.

Although Tech may not have made the Southwest Conference, at least we were not kicked out of the Border Conference.

Perhaps we lost a few football games, but we beat North Carolina State.

Dormitory food is atrocious, but students will be eating mother's homecooking before many more days. We should be thankful for something to serve as the worst on a scale of comparison.

Not wishing us to leave school without receiving a gift from of-

ficials, the finals schedule has been released. Now all students can go home and think about the end of the semester, with its joys of finals.

The weather has been cold, but it has aided in killing off the flies around the campus.

There are to be only 15 holidays between Saturday and Jan. 5 when classes begin again, but this gives four (or three, depending on individual celebrations days to recover from New Year's Eve.

During the holidays, instead of merely stuffing and sleeping, students will get to do something taken great glee in assigning creative; faculty members have term projects to be due soon after the Christmas vacation.

There are also many other things we have to be thankful for: Virginia. Indeed there is a Santa Claus.

Only two and one-half more days until classes are officially dismissed for the holidays. Officially, that is. It is our prediction that most classes will have only a skeleton crew attending Friday and Saturday.

Only six more shopping days remain before the big day dawns. This should give you time enough to spend all your money, however.

Fourteen days remain before New Year's Day ushers in a new year, 1953.

Resolutions are undoubtedly the order of the day now. The familiar resolves to study, to turn in class work on time, not to sleep through class—all will be broken, of course. It's expected.

Merry Christmas and Happy New Year!

"And she brought forth her firstborn son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn. And there were in the same country shepherds abiding in the fields, keeping watch over their flocks by night.

"And lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid. And the angel said unto them, Fear not: for, behold I bring you good tidings of great joy, which shall be to all people.

"For unto you is born this day in the city of David a Savior, which is Christ the Lord. And this shall be a sign unto you: Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

"And suddenly there was with the angel a multitude of the heavenly host, praising God, and saying, Glory to God in the highest, and on earth peace, good will toward men."

St. Luke 2:7-14

Pessimism, Realism, or Peace . . .

Men might reasonably shout again the words Virginia colonial statesmen heard as Patrick Henry quoted from Jeremiah:

Jeremiah, known as "the sobbing prophet," was a pessimist: "Men cry peace, peace, when there is no peace."

Patrick Henry, a realist, knew that the colonies were already at war and that there was no peace under the British rule.

Next Thursday, with the world viewing a war that may again plunge it into chaos, America and other Christian nations will celebrate the birth of the Prince of Peace.

Why should he have carried such a title when He was not a world leader, when He made no decisions that affected the status of war or peace in His day.

Could it be that He lived during a period at which the world was at peace, and thus gained the title. If so why not give the honor to the Caesars?

Rather is it not that He brought peace to men individually?

With the pessimism of Jeremiahs and the realism of Henrys about us, we may still find peace individually. We may still find something within us to help us enjoy the Holiday season, although it may be our last for several years.

(Editors note: This editorial, written by Jimmy Henley, appeared in The Toreador, Dec. 20, 1950.)

TECHnicalities

by Ralph Shelton, Toreador Associate Editor

A favorite topic for discussion for student editors at colleges all over the country seems to be the honor system—or the lack of same.

From Baylor University comes this comment: "If we want the honor system to work, we must be the ones to make it workable."

Tulane had this to say: "If there is no honor system at Tulane, it is because there is no honor. If there is no honor, it is the students' fault." The paper also refers to the student who refuses to uphold the honor system as an "intellectual midget".

Simmering slowly, we wish to stake issue with the gentlemen from Waco and New Orleans. At least, we wish to point out that these writers have apparently ignored one of the basic causes for cheating: overemphasis by the faculties and administrations of colleges on grade-point averages.

The writers from those other schools seem to reflect the attitude of the instructor who sanctimoniously tells his class: "Just for once, forget about the grade-point average and try to learn something."

If we may assume that Tech is little different from colleges and universities, we point to these instances of an overemphasis on grade-point average, which is much more dangerous to education than overemphasis on college athletics:

First, employers looking for college graduates work with placement services, ordinarily basing their decision in whole or part on the grade-point average of the student. Draft boards follow a "laissez-faire" policy toward the student whose grade-point average is satisfactory. Don't forget the student's own family: they are easier to live with when the reports that are mailed home indicate a high grade-point average.

Many of the honors which the college offers to students are based on grade-point average.

Eligibility for extracurricular activities of all kinds depends on

a 1.00 grade-point average. Each year the college holds a recognition service in the Gymnasium at which students with lofty grade-point averages are included for public acclaim. Deans compile honor rolls. Basis? Grade-point average, of course. The coveted Who's Who in American Colleges and Universities is awarded only to students whose grade-point average has made them eligible.

Numerous honorary and professional organizations, which are assets to their members in post-college days, have a minimum grade-point average as a requisite.

The end of the list is far out of sight.

You, then, who blame cheating entirely on the depravity of students; consider: as long as the goal in college is a high grade-point average and that goal is imposed on students by parties both inside and outside the college—the student will do what he must to make the grades.

If he must cheat to make those grades, who among you can condemn him?

Honor is a hollow thing, when one is jobless, drafted, or doomed to be a D-average peasant.

"You mean you've never heard of negative acceleration?"

HE Dean Offers Electives: From Weaving to Wedding

By MARY JANE BAKER
Toreador Staff Writer

Want an interesting, profitable elective for next semester? Then why not a crafts course dealing with wood sculpture and furniture construction? Or, if you have a yen for good meals, learn to plan and prepare one quickly and easily.

A number of courses in home economics would be helpful to students in other divisions, says Dean Margaret W. Weeks. They can be taken by men as well as women and do not require a prerequisite.

Taste Taught

For example, Applied Arts 337, a non-laboratory course, is a study of contemporary designs used in shops, homes and museums. It helps develop more discriminating judgment and selective taste.

An evening class, Applied Arts 431, deals with wood sculpture, turning, construction and finishing.

The American house, which has changed along with our ways of thinking and living, is studied in Applied Arts 432. This course, illustrated with colored slides, helps the student understand how the new designs for furniture and furnishings express our way of life.

Clothing 132 deals with such simple problems as construction of blouses, skirts and dresses. Direct, simple techniques with patterns and sewing machines are taught.

Slip Covers

Finishing wood, making slip covers, and upholstering chairs are studied in Clothing 136.

Clothing 335 deals with threading and operating a hand loom to make luncheon cloths, stoles, aprons and blankets. Special help is given recreational directors in simple weaving devices for children.

Short cuts in food preparation, successful meal service, thrifty food buying and preparation, and recent developments in nutrition are included in Foods 233. Class periods consist of discussion sessions.

GIRL'S RIFLE TEAM

Members of the Tech Girl's Rifle Team will fire elimination contests early this week in preparation for the coming paper match with Oklahoma A&M Saturday. The high scorers in the try-outs will fire for the official score to be sent to officials at Oklahoma A&M.

sions, demonstrations, actual cooking, meal service and field trips.

Diet Student

Nutrition 333 is a general survey of food needs of different ages and the principles of group feeding. Diets also are planned to fit the needs of individual members of the class.

Home Management 332 deals with an understanding of home management problems of today compared with those of yesterday, saving time and energy through work simplification, budgeting the family income and evaluating house plans.

Selection, use and care of household equipment and utensils is taught in Home Management 334. Planning and equipping the kitchen and utility room are included also.

Child development 131 deals with child care and guidance. How children grow and behave at various ages is studied through actual contact with young children.

Family Relations 433 is a study of selecting a mate and marriage adjustments in every phase of life.

Aggies Radiate Western Spirit

By RUTH DRAKE
Toreador Staff Writer

The undisputed western spirit of the campus is generally acknowledged to originate in the Ag Building. And once there, the reason is apparent. In this one building, more levis, more boots, and more western shirts can be found than in a western store manager's dreams.

About 30 minutes spent in the hall of this building will produce at least 55 aggies, with about 33 of them wearing levis. However, levis are popular all over the campus, in every department. The real test comes in the percentage of boots, scuffed or otherwise. This is where the Aggies shine, the number noted coming to 37 out of 53. It wouldn't be polite to mention how many of the wearers were bow-legged.

The variety of hats seen in the halls of the Aggie Building during the 30-minute survey had only one thing in common: they were all big. Even instructors were wearing some of the 14 seen. There were 78 students who wore neither

"That's strange Miss Witherspoon. He's the sixth one today to enroll in your cooking class!"

Profs Will Spend Yuletide At Home

Four members of the military science staff will eat Christmas dinner with the home folks this year, due to leaves granted them by the Army.

Heading the list is Col. Hampton L. Green, professor of military science and tactics, who will depart Saturday to spend 15 days visiting relatives in Alabama and Florida. The colonel and his wife plan to attend the Lubbock-Baytown football game in Dallas Saturday afternoon, journeying from there to Selma, Ala. for a brief visit with Mrs. Green's relatives. The last stop on Col. Green's Christmas agenda will be Pensacola, Fla., where his mother resides.

SF/C Richard Mackie, administrative clerk, will spend a 17-day leave visiting his mother in Mor-

ristown, N. J. SF/C Raoul Landry, infantry instructor, will spend nine days at his home in Jasper, Tex.

M/Sgt. Harold Purvine, signal corps instructor, will remain in Lubbock during his ten-day leave.

The remainder of the ROTC faculty will be on duty during the Christmas holidays.

Alpha Phi Omega Honors Dean Jones With a Life Membership in Fraternity

Lewis N. Jones, assistant dean of student life, was presented with a life membership in Alpha Phi Omega, ex-Boy Scout service fraternity, last night at the fraternity's annual founders day banquet.

The honor was bestowed upon Dean Jones as recognition of his many years of active work with the fraternity. As an added recognition, the fall pledge class, which was initiated before the banquet, was designated the Lewis N. Jones class.

Tommy McPherson, business junior from Tolar, was presented a fraternity key for being named "Honor Pledge of 1952."

The fraternity initiated 32 pledges into membership before the banquet. Those initiated were: Earl Hendricks, Gery Worrall, Frank Bell, Bobby Bishop, Jock Campbell, Alan Conley, Bill Eastland, Jim Davis, James Dean, Lonnie Elkins, Bo Durham, Jerry Ford, Jim Freeman, Bill Glover, Royal Hagerty, Bobby Huggill, Joe Ince, Gregory Keys, Ray Kinney, Bill LaShier, Tommy McPherson, Ralph Miller, Buddy Moreman, Tommy Morris, Buddy Myrick.

Harry Neel, Alex Ogilvy, Don Pittenger, Bill Porter, Ernest Roberts, Keith Smith, and Roy Smith.

Another pledge, James Pritchard, will be initiated at the national APO convention to be held in Columbus, Ohio, Dec. 28.

Evaluation Project Interests Students

"Do you think that student evaluation of teachers would be of value on Tech campus?"

This question was presented to 150 Tech students recently to find out what they thought of such a program. The question revealed that students are interested in the program. The tally shows that 146 students are interested in seeing a teacher evaluation made on the campus, two said that they see no reason for it, and two had no opinion on the matter.

Would Improve Methods

Those who said that they would like to see the program go into effect said that it is a good idea if handled correctly. The general opinion was that such an evaluation would do much toward improving methods of teaching.

One student said: "There are many on the campus that know their subject completely, but can't seem to get it over to the students. A student evaluation might help them change their methods so that they can help students enjoy their courses more."

Another Techsian said: "There are some profs that have very annoying habits that they don't realize they have. Such an evaluation might help them stop such distractions as pacing up and down and waving their arms, etc."

Sample Evaluation Sheet

Recently a group of teachers circulated a sample evaluation sheet among their students. These sheets are now being studied for possible future use. This is one of the first steps to determine whether the program would be helpful at Tech. The faculty has set up a self-evaluation committee which is studying the program. This committee is expected to conclude its study by the end of this semester, says Dr. R. L. Rouse. At that time recommendations may be made regarding the outcome of the study. If the program goes into effect, it will be voluntary on the part of the instructor.

Dr. Rouse says that this evaluation program is being studied by several colleges throughout the United States. Several members of the Tech faculty are interested in seeing the plan carried out if it will be done correctly and fairly, he says.

The University of Arizona pulled quite a boner when it told Hardin-Simmons that the Wildcats wouldn't play in Abilene next year.

The Wildcats, it seems, think that they don't draw big enough crowds in Abilene to merit their long trip there. Therefore, they told Hardin-Simmons in no uncertain terms that they would have to come out to Tucson next year if they wanted to play the Wildcats. Of course Hardin-Simmons wouldn't agree to that, so the teams broke off relations.

Since there are only seven teams in the conference, each team must play four to qualify for the championship. West Texas State is not on the Wildcat schedule, and with H-SU off, that leaves only New Mexico A&M for the Wildcats to put in place of the Cowboys. And the New Mexico Aggies wouldn't draw a handful, even in Tucson.

So the Wildcats are worse off than ever before. Since when did they get so good that they can't come to Texas to play anyway? Maybe Tech should refuse to play them, so they wouldn't be eligible for the league title.

The other big news at the Border Loop winter meeting was to continue letting freshmen participate in varsity competition. Also it was decided not to enlarge the conference, which was a good thing, since we don't believe that Midwestern is worthy of a place in the loop.

Now that the Raiders are back from the disastrous trip to Tulsa and Stillwater, it is quite a bit easier to see their weakness and strength. Things don't look so bright for the future this year. However, we aren't supposed to expect a conference winner this year, with three starters missing. But it's going to take a lot of something to win some games.

Maybe these four games with some of the nation's top teams will really get the Raiders in shape for the Border race. After all, that's what really counts. If we win the conference, maybe we would get a chance to play these top teams again. It might be a little different story then.

But we aren't looking for the Raiders to take the conference crowns although they may pull a few surprises and play some interesting games.

Nearly everybody was patient because the football team was building, so the wolves should stop howling now, since the basketball team is building also.

The trip to North Carolina is really more important than the

one to Oklahoma. It's on the east coast that those people hang out who pick all-americans. And Tech received some very favorable publicity on their tour last year. The Wolfpack is going to be ready this year, since Tech upset them last year, 63-62. And according to NC State publicity, a sellout is assured, as State fans like to see team again that beat the Wolfpack.

If the Raiders make a creditable showing at Raleigh, all should be happy. There's greener pastures in Miami. Miami shouldn't be as tough, and that game in the Sunshine State should be the chance for the Raiders to bring back some glory.

This trip to the east coast would be the ideal time for Paul Nolen to find himself. Scribes are going to be watching him carefully as he was picked on some all-american honorable mentions before the season started.

Junior Rex Hitt is proving to be the surprise of the Raiders this year.

What he lacks in height, he makes it up in hustle. Hitt really made a good showing before the home folks when Tech played Midland.

He has really been a live wire holding down his opponents. Against Tulsa he held Warren Shackelford, the Hurricane's second highest scorer last year, to one free throw and one basket. Against the Aggies the next night he held Harold Rogers to one field goal. Maybe he'll prove to be the star of the show.

Sorry to hear that Bob Bouldin, Raider forward, will be out of action for a while. Bouldin suffered a shoulder separation in Tech's loss to the Aggies last week. He'll be missed this week at Raleigh.

It is good news to hear that the steel for the erection of four new sections to Jones Stadium has finally been approved.

Work will begin soon after the

Grad Speaks To AROTC Students

Larry Sharp, 1951 Tech graduate, spoke to a group of senior Air ROTC students recently on his experiences in flying school.

Sharp has completed his pilot training, and is now a jet pilot enroute to Camp Stoneman, Calif. He will fly F-84 planes, says Maj. M. M. Burnett, professor of air science and tactics.

Sharp told the cadets about his gunnery training. He also discussed co-ordination of air and ground forces.

DRAMATICS CLUB MEETS

Sock and Buskin, dramatics club, met Tuesday night in the Green Room. Feature of the program was a one-act play, "How She Lied to Her Husband."

The cast included: Don Thompson as Henry; Daisy Holly, Aurora; Hardy McNew, Teddy, Eleanor Lincoln was director.

Will Go To Chicago

Helen Payne, senior business administration student from Plains, has been chosen by Pi Omega Pi as representative to the national convention in Chicago during the Christmas holidays.

first of January and should be finished by next football season. The sections will be added to each of the four ends of the present east and west stands, which will give the stadium a seating capacity of approximately 28,000.

When the job is finished this will make a good talking point in getting good teams to play the Raiders in Lubbock.

The intramural basketball program is in full swing, and running very smooth. Hats off to George Philbrick for an excellent job of working out the program so successfully.

Games are being played Tuesday through Friday nights free of charge, so here's your chance to see some keen competition and good basketball.

Coach Recommends Football Letters For 45 Players

Coach DeWitt Weaver has recommended football letters for 45 players.

Among this group there are 22 freshmen and sophomores while only nine are seniors and 14 juniors. This means that at least 36 will have at least one more year's eligibility.

Seniors

Senior letter winners are: Buddy Barron of Temple, Hollie Davis and Marland Ribble of Fort Worth at tackles; Ends Lew Crossley of Eastland and Alton Linne of Monahans; and Backs Pete Edwards of Vernon, Jim Turner of Olney, John Moughon of Weatherford, and Sandy Welton of Fairmont, West Va.

Juniors

Juniors—Guards L. W. Fitzhugh of Blytheville, Ark., and Don Gray of Breckenridge; tackles David Brown of Weatherford, Bobby Lambert of Nixon, and Jimmie Williams of Phillips, Ends Paul Erwin of Odessa, Vic Spooner of Colquitt, Ga., and Billy Wright of Lubbock; Backs Don Lewis of Quitaque, Gary Boyer of Borger, Bobby Cavazos of Kingsville, Norman Janes of Lubbock, Harold Spraggins of West Point, Ga., and John Thompson of Brownfield.

Sophomores

Sophomores—Centers Don Funk of Chickasha, Okla., and Barton Massey of Bowie; Guards Ray Howard of Childress, Bobby Hunt of Altus, Okla., and Bill Whitted of Hot Springs, Ark. See LETTERS, p. 8

Tech Trampled By Tulsa And Aggies; To Meet Vengeful NC State Saturday

Okies Just Too Tough

Tech's Red Raiders came home from their short trip to Oklahoma on the very short end of the count. The Raiders lost contests to Tulsa, 67-53, and Oklahoma A&M, 77-41.

In the game with Tulsa Friday night, Tech stayed in the game until the middle of the third quarter, trailing only 20-24 at the half.

Senior Larry Whitely led the Tulsa attack as he hit for 18 points while Paul Nolen dropped in 13 to lead the Raiders.

In the third quarter the Hurricane broke away, as they scored 21 points while holding the Raiders to 13.

The Raiders, however, had their best shooting percentage of the season, but they dropped in only 13 free throws.

The Tulsa five used a fast break with its set game to confuse the Raiders.

Runner-up to Nolen in scoring for Tech was Freshman Jim Reed with 11 points followed by Durward Bolding with 10. Following Whitely in the scoring was Dick Nunneley with 14 points.

At Stillwater Saturday night the Raiders were never in the game, as the Aggies trampled Tech, 77-41.

The Aggies hit 27 field goals out of 62 shots for an amazing 43 per cent average while Tech hit for 20 per cent.

Bob Mattick, 6 foot 10 1/2 center scored 22 points while Ken Sheets was runner-up with 15. Virgil Johnson was Tech's scoring leader with 11 points.

The defeat left the Raider seasonal record at two wins and three losses, which is the best in the Border conference.

Teams Look Poor In Border League

The Border Conference may have one of its poorest records this season if things run as they have the past two weeks.

Every team in the circuit lost more games than they won this past week, with all the squad sporting losing seasonal records also.

The Raiders with a 2-2 won, 3-1 best record, have the best percentage in the loop.

Flagstaff, which had an even won-lost record, lost two games this past week, one to San Diego State and one to Pepperdine. West Texas State journeyed to the East and lost two tilts, Seton Hall beat them, 69-46, and St. Joseph's blasted the Buffs, 70-41.

Hardin-Simmons proved to be the only surprise with the Cowboys upsetting Southern Methodist, 56-55.

This weekend will see a number of contests. Texas Western takes on East Texas at Commerce tonight and tomorrow night. The Miners tangle with Louisiana Tech at Ruston, La., Friday. Tech tries North Carolina State at Raleigh Saturday night while Hardin-Simmons will meet Oklahoma City University at Oklahoma City. West Texas State will be idle.

Rapid Pace Set In 'Mural Races

Action moved along at a rapid pace in the intramural basketball races with six games being played Thursday and Friday nights.

The Dorm League took the spotlight Thursday night with Sneed East, Sneed Trotters, and Gordon Tigers taking victories.

Sneed East took a 37-33 thriller over Doak Hornets in the curtain raiser. Clark led Sneed to victory with 15 points while Singleton scored 9 for the losers. Sneed Trotters scored a 47-34 triumph over Bledsoe in the second contest. Barton led the Sneed attack with 18 points while Delaney tallied 11 for Bledsoe. Gordon Tigers kept their perfect record with a 46-28 lacing of the Doak Owls. Dent was high man for Gordon with 14 points while Williams led Doak with 15.

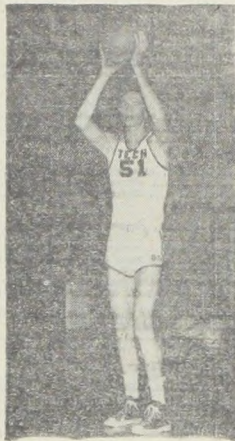

In Friday night's games in the Independent League AU, Wesley Whirlwinds, and Boomerangs took triumphs.

AU registered its second victory of the young season with a 36-27 win over the Wesley Wildcats. Murphy was high man for AU with 10 points while Dale House tallied 11 for Wesley. The Boomerangs scored an easy 40-25 victory over DSF. Coleman meshed 17 points for the victors while Fred Williams scored 12 for DSF. Wesley Whirlwinds took a 31-20 count from Luby's. Bennet led the Wesley attack with 11 points and Lindsey scored 12 of Luby's points.

Through Friday's games only Sneed East and Gordon Tigers were left undefeated in the Dorm League. In the Independent Loop, BSU, Rangers, and Dukes were still tied for the top spot with 2-0 records.

Tonight's schedule is in the Dorm League, Gordon Hall meets Doak Owls at 7. At 8 Gordon Tigers play Bledsoe while at 9 Sneed Trotters try Doak Hornets.

Tomorrow night games will be played in the Independent Loop. Wesley Whirlwinds and DSF meet in the opener at 7. Rangers risk their perfect record against AU at 8 while Steers tangle with Luby's at 9.

GUARD STANDOUT—Virgil Johnson, one of Tech's two returning starters, is again sparking the Raiders. He was high point man in the recent tourney at Plainview.

Wolfpack Is Highly Rated

While most Techsians are enjoying their Christmas holidays, the Red Raiders will be trying to pull their forces together against four opponents.

The Techsians will fly to Raleigh for a return contest with North Carolina State Saturday night. The tilt will be a severe test for Tech as the Wolfpack is rated in the top ten in the nation. They have lost only one game, a 51-50 thriller to Wake Forest. North Carolina State is expected to repeat as Southern Conference king this year, a position they have held for the past six years. Bill Speight, 6 foot 8 star center for the Wolfpack last year, will be back to give the Raiders trouble.

Monday night the Raiders will be in Miami, Florida to meet the University of Miami for the first time. Not much is known about Miami, but they defeated a good Florida team Monday night, 75-73.

After this set of games the Raiders will return to Lubbock to get ready for the Doubleheaders at Canyon, December 29-30.

The Techsians will meet New Mexico in the first round December 29. The Lobos have another good team this year and are coached by former Tech coach, Ben Huffman. December 30 the Raiders will meet Pepperdine, of which little is known.

Probable starters for the Raiders in Raleigh Saturday are Paul Nolen, Virgil Johnson, Jim Reed, Rex Hitt, and Durward Boulding.

WRA Finalists Meet In January

Finalists in the WRA basketball tournament will meet sometime in January. Exact date of the playoff has not been decided on yet, says Dr. Mary B. Dabney, associate head of physical education.

Wesley Foundation and the Baptist Student Union are the two teams which reached the finals. Wesley Foundation gained their right to participate in the finals by defeating Ko'Shari 32-7 and beating Las Chaps 23-12. The Baptists edged out Horn Hall 17-16 in an overtime match to reach the finals.

The basketball tournament is the first program sponsored by the WRA this semester. WRA was not active last year.

Dr. Stensland Leaves For Borger To Participate in Planning Session

Dr. Per G. Stensland, professor of adult education, left Friday for Borger to participate in a planning session with the temporary adult education committee.

Dr. Stensland returned Thursday from Odessa where he served as a resource person assisting Miss Velma Barrett, program chairman of the Texas State Library Association's annual conference to be held in Lubbock in April, 1953. Dr. Stensland also planned with Odessa Junior College on further steps in its adult education program.

JUANITA ANNE UNDERWOOD, Longview, became the bride of WILLIAM DAVID BOZEK, II, Ennis, in a ceremony read Sept. 6 in Nicholson Memorial Chapel, Longview. He is an agriculture graduate of Tech and a Socii. Her club is Ko Shari. They will make their home in Lubbock.

Evening classes, other than Saturday classes, will have their respective examinations at the regular class meeting during examination week.
 Classes scheduled for more than an hour will take the first hour on the exam schedule. For example, a class meeting from 2-3:30 p.m. will take the exam at the hour scheduled for classes meeting at 2-3 p.m.

Requested changes in the schedule of an individual student will be considered by the dean of the division in which that student is registered.

Dr. Jones will Go To Meeting Of Texas Cotton Group in Dallas

President E. N. Jones will be in Dallas Thursday to attend a meeting of the Cotton Research Committee of Texas.

Dr. Jones is one of three members of the state committee. Other members are Chancellor Gibb Gilchrist of Texas A&M College, and Chancellor James P. Hart of the University of Texas.

Dr. Jones will return to the campus Friday.

Dr. F. L. Rouse, associate professor of economics, and Dr. J. S. Carroll, head of education, participated in a panel discussion recently at Reese Air Force Base. Their topic was "Democracy."

Letter will also be awarded to student managers Moody Alexander of Amarillo and Ray Mitcham of Fort Worth.

College Officials Attend Border Conference Meet

Coach Dewitt Weaver and Dr. J. W. Davis, chairman of the Tech athletic council, returned Monday from a week-end meet of Border Conference officials at El Paso.

No action was taken on enlarging the conference and they decided against the ban on varsity play by freshmen. Nine schools were represented, Dr. Davis said.

Items of a "de-emphasis" nature crowded the agenda.

For example, the group voted: To ban the play of practice games anywhere except on the college campus, although no limit was placed on the number of intra-squad games to be played.

To prevent a conference team from taking high school students on game trips.

Not to lift its ban on basketball spring training.

To count as college competition play by college teams against non-college organizations.

To bar permanently from competition any athlete who falsifies entrance and other records.

To count a year's competition against University of Arizona basketball players should a proposed South American tour be made.
