

Fall Enrollment Figures Rocket To 2,303

Four New Deans Assume Positions For Fall Semester

Doak, Leidigh, Gordon Retain Staff Positions

Four new deans assumed positions at Texas Tech at the beginning of the fall semester...

This first major change of administrative deans at Tech was brought about by the retirement of three deans...

The three deans, relieved of all administrative duties, will remain as members of the faculty...

Dr. R. C. Goodwin who will succeed Dr. Gordon as dean of arts and sciences will also retain his title as professor of philosophy and education...

Dr. Gordon, retiring arts and sciences dean, came to Tech from the University of Florida in 1930...

Dr. Goodwin, new arts and sciences dean, came to Tech from the University of Florida in 1930...

Dr. Gordon, retiring arts and sciences dean, is leaving his administrative duties after two decades of active service with the institution...

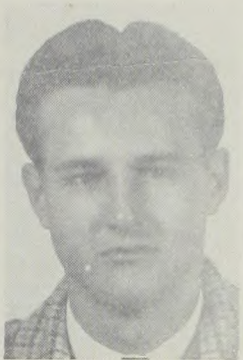

He returned to Trinity as dean and remained until 1916 when he accepted the position of President of Central State Normal college...

Prof. Arthur Henry Leidigh, dean of agriculture at Tech in 1925, was one of the first members of the faculty to arrive on the campus in advance of the opening of the fall semester in 1925...

They Welcome Students . . .

Pres. Wm. M. Whyburn

Troy Caldwell

Whyburn, Caldwell Welcome Techsans

Dear Students:

It is a pleasure to welcome you to the campus of the Texas Technological college at the opening of this 21st regular session.

Dr. R. C. Goodwin who will succeed Dr. Gordon as dean of arts and sciences will also retain his title as professor of philosophy and education...

Dr. Gordon, retiring arts and sciences dean, came to Tech from the University of Florida in 1930...

Dr. Goodwin, new arts and sciences dean, came to Tech from the University of Florida in 1930...

Dr. Gordon, retiring arts and sciences dean, is leaving his administrative duties after two decades of active service with the institution...

He returned to Trinity as dean and remained until 1916 when he accepted the position of President of Central State Normal college...

Prof. Arthur Henry Leidigh, dean of agriculture at Tech in 1925, was one of the first members of the faculty to arrive on the campus in advance of the opening of the fall semester in 1925...

Dear Classmates and Friends:

I look upon this school year as the beginning of a great reunion of Techsans. Men whose names are on the Service Roll of Texas Tech are beginning to, let us not say drift back, hasten back to take up the work they were so suddenly disturbed from completing.

The period we are now experiencing here at Tech is one of great opportunities. These opportunities will not be passed as long as there is intelligent work and cooperation on the part of and between administrative leaders and students.

It has been proven what can be done with powerful teams, working in harmony, and the evil effects of a team jealous of the others' power.

Major Harold L. Kitt, who has recently returned from the service, has been named advisory counselor for ex-service men returning to Tech. His office is located in room 110 of the Administration building...

Major Kitt was associate professor of mechanical engineering at Tech before going into the Army.

South-Texas Tech Exes To Hold San Tone Rally

South-Texas Tech Exes association is having a barbecue in San Antonio Friday in preparation for the Tech-Texas A&M football game Saturday.

Tech Personnel Presented By Pres. Whyburn

At the first meeting of the Tech faculty on Sept. 7, President William M. Whyburn presented administrative and faculty personnel, former faculty members returning from the service and regular staff members whose administrative roles have changed.

Announcements about registration, freshmen orientation and counseling service for returning veterans were made. Professor H. F. Kipp, who has recently returned from service, has been placed in charge of the veterans counseling service and will devote full time to this service it was announced.

Three new deans emeritus were presented with each one's professional title. They are J. M. Gordon, who was dean of arts and sciences division; A. H. Leidigh, former dean of agriculture and Mary W. Doak, retiring dean of women.

Two new assistant deans were mentioned. They are: Ernest Wallace, assistant to Goodwin and James S. Parnell, assistant to James G. Allen, dean of men.

Registrar W. P. Clement was secretary for the meeting. He introduced the new faculty members. Recognition was given to President emeritus, Clifford B. Jones and Librarian emeritus Elizabeth Howard West.

Dr. Whyburn announced that Dr. Albert Barnett and Miss Emma Main, who have been serving as acting dean of women, Mr. W. T. Gaston, business administrator, Major Chas. F. Hartman, head of military science and tactics, W. C. Clement, registrar, A. S. Gaylord, head librarian, Major H. L. Kipp, head of arts and sciences, and W. C. Holden, dean of graduate students.

Speakers from the four divisions who described departmental clubs, awards and scholarships within the respective divisions included Jack Earl Creel for the agriculture division, Dan Young of commerce, Troy Davidson of arts and sciences and Jim Wanner of engineering.

Convocation Held Monday Morning For New "Fish"

Whyburn, Caldwell, Divisional Deans Speak On Activities

Freshmen students met at the gymnasium for a Convocation last Monday morning, at which time they were greeted by President William M. Whyburn, and student body president, Troy Caldwell.

"Embarking on probably the most important four years of your life. You will decide the field of your life work, receive basic training for that activity, expand your field of interest, from some community to state, nation and world scope, form friendships that will carry throughout life," said President Whyburn, in his address to the group on behalf of the faculty and administration.

Each of the five divisional deans spoke briefly upon his division. The deans are Margaret W. Weeks, of home economics, O. Y. Adams of engineering, J. O. Ellsworth of commerce, assistant dean Ernest Wallace of arts and sciences, and W. L. Stangel of agriculture.

Other administrators who received recognition were Mrs. Johnny Langford, dean of women, Mr. W. T. Gaston, business administrator, Major Chas. F. Hartman, head of military science and tactics, W. C. Clement, registrar, A. S. Gaylord, head librarian, Major H. L. Kipp, head of arts and sciences, and W. C. Holden, dean of graduate students.

Speakers from the four divisions who described departmental clubs, awards and scholarships within the respective divisions included Jack Earl Creel for the agriculture division, Dan Young of commerce, Troy Davidson of arts and sciences and Jim Wanner of engineering.

Increase Of 557 Over 1944 Total

Veterans, Freshmen Return In Larger Number This Year

Enrollment had reached the number of 2,303 at 2:15 o'clock Thursday afternoon. This is an increase of 557 students over the total of 1,746 at this time last year.

Applications For Publications Job Will Be Accepted

Applications for editor of the Treador must be made to A. B. Strehl, chairman of the Texas Tech publications committee and assistant professor of Spanish not later than 1 o'clock Monday, Sept. 17.

The publications committee has declared the office open to candidates who are able to meet certain requirements. Each student seeking appointment must have a "C" average in all college work and must have passed at least nine semester hours with a "C" average last semester.

The quality point system and must be maintained during the tenure of office. The quality point system is an average of at least one grade point for every hour for which the student is enrolled.

Two major elective offices may not be held simultaneously by the same person, according to the student constitution. Texas Tech publications committee is composed of six faculty and student members with Student Body President Troy Caldwell serving ex officio.

Mr. A. S. Gaylord, new Librarian of Tech college, began work here this fall.

Before coming to Tech, Gaylord trained three years as a civil engineer at the Massachusetts Institute of Technology followed by graduation from the University of California with work for a masters degree completed in the field of American history.

He served for two years as assistant reference librarian and one and a half years as chief cataloger at Mechanics Mercantile Library, San Francisco. For two years he served as librarian of the principal branch of the Kern County Free library with headquarters at Bakersfield, Calif. He was also city librarian of Boise, Idaho, for four years.

Gaylord held the position of librarian in charge of the Industrial Laboratory library, Mare Island Navy yard, Calif., before coming to Lubbock. His duties there included full responsibility for building up a working collection in the field of science and technology, organizing a yard-wide service to the military and civilian personnel, and establishing a distributing center for publications of the various technical departments of the Navy.

Miss Emma Main, who has been Acting Librarian of Tech library since the retirement of Miss Elizabeth Howard West, requested earlier that steps be taken to fill the position of Tech Librarian. She will carry the title of Associate Librarian with duties in the cataloging department.

The sum of \$50,000 was allowed Tech library in the recent appropriations bill and is to be used for library equipment, preparation and installation of which will begin as soon as materials are available.

John W. Shaver, 38, son of Dr. J. T. Shaver, instructor in education, has been appointed by the State Board of Education as Vocational Rehabilitation Counselor. The appointment was given him August fifteenth, his father states. John W. Shaver has studied journalism at Tech.

Living quarters for the unexpected men students is offering quite a problem. For the first time addresses of rooms are being released without approval of the Dean of Men, James G. Allen, who says that if the boys are satisfied, they should be permitted to live wherever it is possible.

Because of the increase in women students last year and the lack of available living facilities, West Hall, men's dorm, was filled with women by reservation before peace was declared. The dorm had been empty for a year after the A.S.T.P. army personnel, was transferred from Tech.

Tech enrollment reached its peak in February, 1941 when the number exceeded 4,000. It was between 3900 and 4000 during 1939 and 1940. In Feb. 1944 the total was less than 1500, which was the smallest number during the war.

According to R. A. Mills over 1500 Artist Course Tickets have already been purchased. The number of La Ventana subscriptions was not available at the time the paper went to press.

Students To Hold Class Elections

Convocation Set For 11 O'clock In Gym

Student convocation and class meetings for election of officers will start at 11 o'clock Tuesday morning in the gymnasium at which time there will be no classes. The scheduled 10 o'clock convocation will not be held.

President William M. Whyburn and student body president Troy Caldwell will address the group. Nominations for head by yell leader will be introduced by Walter Schlinkman, president of the Double T organization.

Members of the various classes will be told where class meetings will be held. After adjourning to the respective meetings, secret ballots will be cast for head by yell leader, providing there is more than one candidate, says Caldwell.

There will be a member of the Student Council meeting with each class. Caldwell will be with the seniors, Arthur Shaban with the juniors, Gene Hardy with the sophomores and Troy Davidson with the freshmen.

At the meetings class officers will be chosen as well as class representatives to the student council. The officers include president, vice-president, secretary-treasurer and reporter.

Caldwell asks that particular attention be paid to the selection of Student Council representatives, as the positions require ability and attention throughout the year.

Friday, Sept. 14 Classes begin 8 a. m. Sans Souci rush party, 2308-18, 5-7 p. m. Dr'D rush party, 7:30-9:30 p. m.

Saturday, Sept. 15 Late registration fee required after 12 noon. Ko Shari rush party, College social center, 5-7 p. m. Las Vivarachas rush party, 7:30-9:30 p. m.

Sunday, Sept. 16 Special sermon for students in Lubbock churches, 11 a. m. Monday, Sept. 17 Las Chaparras rush party, 5-17 p. m. Sans Souci rush party, Hilton ballroom, 7:30-9:30 p. m. WRA council meeting, gym, 7:00-9:00 p. m. Saddle Tramps, C101, 7 p. m.

Tuesday, Sept. 18 Opening convocation for faculty and students, gym, 11 a. m. DFD rush party, 5-7 p. m. Ko Shari rush party, 7:30-9:30 p. m. Wednesday, Sept. 19 Last day a student may register in first semester. Las Vivarachas rush party, 7:30-9:30 p. m. Thursday, Sept. 20 Knife and Fork club. Last day to add a course. Preference convocation, 5 p. m.

The Medill School at Northwestern university, and George Williams college. He received his MA at Columbia in 1940. His office is in the Federal building in Lubbock.

Faculty Has 13 New Members

Tech has nine returning and thirteen new faculty members this fall. Fifteen new instructors will be in the division of arts and sciences; the division of home economics will have five; and there will be one each for the commerce and engineering divisions.

Miss Grace Durham will be assistant professor of Child Development and Family Relations. She has a B.S. degree from Colorado A&M, and she has been vocational homemaker teacher in Rio Grande County high school, Monte Vista, Colorado for the past three years.

Mrs. Lucy R. Bibb is to be assistant professor of clothing and textiles. She has a B.S. and M.S. from the University of Alabama, and she has been a research assistant in textiles at that university.

degrees from Texas State College for Women. She has been with the extension service of Texas A&M, serving as Emergency State War Food assistant.

Miss Opal Wood, assistant professor of foods and nutrition, has a B. S. degree from Texas State College for Women and has been food rationing specialist, OPA, Lubbock.

Dr. Ario I. Smith, who was formerly on the faculty here, has been released from the Army and will instruct botany. C. C. Galbraith formerly on the faculty of Tech, has been released from the Army and will be assistant professor in chemistry.

professor of geology. He was formerly on the faculty at Tech and has recently returned from service in the Army.

Grayson E. Meade, on leave from Tech for the year 1944-45, is back as assistant professor of geology. Mrs. Mamie W. Jackson is to instruct government. She has B. A. and M. A. degrees from Tech.

Miss Virginia Bowman is instructing mathematics; she has B. A. and M. A. degrees from Tech. Miss Mary Frances Hill is instructing in the physical education department; she has B.A. and M.A. degrees from North Texas State Teachers college, and has been professor of physical education at Texas University.

Mr. H. L. Kipp returned to Tech after being released from the service to be Director of Veterans Affairs. He was associate professor of mechanical engineering.

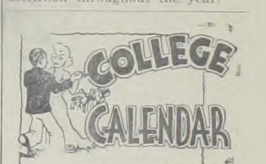

Mr. A. E. DeBasseries is a part-time instructor in the department of government. He has B.S. and M.A. degrees from Suttle Ross State Teachers college and is a candidate for a masters degree at Tech.

Mr. Valeris Schneider is returning to the college as associate professor of chemistry. He has B.S. degree from the University of Texas and has attended M.T. Dr. E. W. Glock is an associate

art. fac. used u. fi. s. B. a. h. j. i. of. B. A. form Texas university. Miss Beatrice Witte is teaching foreign languages and is a graduate student from Texas university, having B. A. degrees and M. A. degrees from the University.

Mr. H. L. Kipp returned to Tech after being released from the service to be Director of Veterans Affairs. He was associate professor of mechanical engineering.

Mr. A. E. DeBasseries is a part-time instructor in the department of government. He has B.S. and M.A. degrees from Suttle Ross State Teachers college and is a candidate for a masters degree at Tech.

That "Howdy" Spirit

New to the ways and traditions of Tech are several hundred embryo freshmen. Within a few days most of the new "Fish" will be wise to the traditions such as wearing a fish cap, until football season is over, keeping off the double T bench south of the administration building and the sidewalk around the circle, and within a few weeks will know all about the annual Parent's day, the victory bells, pep rallies and homecoming.

There is one tradition that can't be stressed too much. It is more than a tradition, it's a spirit that lives with Texas Tech. It can be put in one word: "Howdy!" And it's all quite easy. Just give out with a simple "Hello," "Howdy" or "Hi ya" when you meet someone.

Texas Tech has long been noted as one of the friendliest and most democratic colleges in the nation. Strangers passing through have commented on the geniality of the campus and on the "Hi you all" spirit that prevails. Let's not let down that name for Tech.

Walk right up to the stranger and introduce yourself. Show that you are glad to make his acquaintance. It takes such little effort to be friendly and it pays off in so many ways.

Take time to speak to your fellow-Techsans.

Viva La Espiritu!

Congratulations to Tech students for the way you turned out for the gridiron review and "Howdy" dance this week. That was a representation of what our school spirit can be like this year if we make it so. Now at such a showing has been made, administrators, faculty members, alumni, veterans, students, and fish, all expect it to remain at such a peak.

Well, here we go again . . . that is we can make a go of it if we ALL go to Convocation Tuesday at 11 a. m. in the Gym. At that time Double T nominees for head boy cheer leader will be named and the four classes will meet to elect respective officers.

If each member of each class attends his class meeting, nominates someone besides himself for office . . . someone, he knows can get the job done; if everyone votes the way HE thinks best and backs whoever wins, Tech might have the best class officers in its history.

Just for a change, let's have no backstage wirepulling and footlight gripping before and after elections. Lets out-in-the-open select the BEST person for office then back him throughout his term of office.

Most important of all, go to convocation and afterwards to class meeting. Keep that spirit alive before it dies from lack of attention.—BEa.

How To Get Your Toreador

Last year there were some unlighted individuals who did not know how or when to get Toreadors, Tech's weekly paper. Instead of explaining to each and every new and old student this simple process, lend an ear and eye to this:

Toreadors are put out by the journalism students of this institution. Tech enrollees who purchase Student Activity tickets and the advertisements keep the paper going.

In years gone by there were some people who procured papers without having bought a ticket. Those who had tickets would arrive too late for a paper and those who did not deserve a paper smugly laughed at the previously mentioned group.

Thus, in order to eliminate such one-sided practices, Toreador staff and Publications committee got together and the following arrangement was inaugurated:

Every Friday morning when the papers are distributed to each divisional building—Administration building for Arts and Science and Commerce, Home Economics building, Engineering and Agricultural there will be a list enabling the rightful owners to have a paper.

Of course, there are many other privileges included in the price of an activity ticket. It not only shows one's true Tech spirit, but his willingness to kindle it in others by supporting the campus functions.

If one wishes to purchase a subscription for Toreadors, for himself or for someone not enrolled in Tech, he may do so at the Business Office or the Toreador in the Press Building.

Students are invited to phone the Toreador office whenever any news tips may be offered for publication or for corrections of stories previously printed. Students are expected to have Activity tickets and take advantage of the many opportunities they offer.—BEa.

From . . . I

2 . . . Another By COUNT MEOUT

There is a new blond bombshell on the campus by the name of "SCOTT" SCOTT from Amarillo. She was last seen with STEVE PAYNE, former Soci. We asked "BREW" SMITH what he thought about the situation and he said "MORE girls!" Ask ED BOAZ, BRUCE PIPKIN and TOM HALEY how the situation was in Dallas. WYNN BAKER, CARL JENSON, JAMES LEGGETT, BILL RHOE, NORMAN HOBACK, DAN YOUNG, T. C. ROOT, JR., and HUGH ROWLAND know about how it was in Fort Worth.

The Double T association started the social season off with a bang by sponsoring the "Howdy" dance Wednesday night. More power to them.

We hear that T. M. RYAN came in the other night rather battered and torn.

Sociis started school off with a "Bust" Friday.

MARY ELLEN MIDKIFF, The Model, is a vivacious new freshman from Midland. Slime McELYA says he can hardly sit—he is that famous grandson of Tech.

The Chaptaus are soaring again!

ARTHUR SHAHAN was making with the eyes the other day in the Bookstore and the object of the look was JEAN PEELER.

TROY CALDWELL, student body president, is welcoming everyone back with that famous smile. Now that his old flame is married wonder who the lucky "one and only" will be?

JOAN MARSH is trying to think up a good scheme to keep MARSHALL RHEA out of medical school.

Ask JIMMY WILLIAMS whose nurse he was looking for in Aggie Grove.

We wonder why BARBARA BYRD has that far away look in her eyes this semester. The BOAZ family is complete again.

"BEVO" MONTAGUE is back with us again. She just can't stay away—from Tech.

Why was it that JO RAY WATSON hid in the floor of Slime LOW's car the other night? What JIMMY was she hiding from?

Some service men who were seen visiting on the campus are: STEVE PAYNE, SK 3/c; Eric T. C. ROOT, JR., 1st Lt. L. M. AUSTIN, J. W. HAIRSTON, S1/c; Cpl. ERWIN ST. CLAIR, 1st Lt. JIMMY MURDOUGH, 1st Lt. MAX WALTHALL and 1st Lt. J. A. BLACKWELL and HEAD, paratrooper and GARLAND HEAD, paratrooper. JOYCE DUNCAN seems to be quite the kid on the campus if anyone can make her smile. It's a little early for scandal but there is plenty of material for it! So long.

"Howdy" Dance Held Wednesday

"Howdy" dance was given last Wednesday evening by members of the Double T, an organization of the men who have lettered in a sport at Tech. The informal dance was in the gym; a nickelolodian furnished the music.

Tickets were red ribbons streamers with "Howdy" printed in black on them. Also each person attending wore a name card, in order to aid Tech enrollees to get acquainted.

This dance was the first social affair on the campus, and also it was the first activity of the Double T for the year. For the past three years there have been no Howdy dances, but before the interruption of the war, the function was an annual affair.

Officers and members of the Double T were introduced. They are president, Walter Schlinkman; vice-president, Jack Dillon; secretary, Arthur Shahan; treasurer, Ollis Turner; Sergeant-at-arms and Joe Snodgrass, Gene Hardy, Clyde Black, Cecil Norris, Floyd Lawhorn, Iggs Jackson, Jay Kerr, T. M. Cox.

Bill Barnett was master of ceremonies. Polk Robison is the club sponsor.

Tech Offers Variety Of Clubs

Activities For All Students Are Included

The Junior Council, in an effort to help beginning freshmen on the campus decide which organizations they would like to be associated with, has prepared a list of all departmental, religious, scholastic and honor, and service organizations now active on the campus. Freshmen may find they won't be able to be members in many of these clubs now. However, knowledge of them may help them in directing their efforts toward future membership.

Accounting Society—The Accounting society, the only department club in the division of commerce, is open to anyone interested in accounting. Regular club meetings are held semi-monthly for the purpose of furthering interest in accounting and to give students opportunity to hear experts in the field.

Aggie Club—Active membership is limited to agriculture students who express a willingness to be members of the club. Outstanding activities are the Aggie banquet and the annual pig roast in the Aggie pavilion.

Home Economics Club—Membership in the Home Economics club is extended to any girl interested in home economics. The aims of the club are to promote friendship, develop a professional attitude among home economics students, and promote interest in the field of home economics.

Engineering Society—Any student registered in engineering is eligible to become a member of the Engineering society. Members wear the blue and gold star and shield pin.

A.I.E.E.—Any student enrolled in electrical engineering is eligible for membership in the American Institute of Electrical Engineers. Bi-monthly meetings feature student speakers, talks by qualified professional men, and movies of interest to electrical engineers.

A.Ch.E.—Membership in the American Institute of Chemical Engineers is open to any undergraduate student enrolled in chemical engineering.

A.S.M.E.—The American Society of Mechanical Engineers is represented on Tech campus by the student branch of the organization. Requirements for membership are enrollment in the engineering division and an interest in mechanical engineering.

Textile Engineering Society—Members of the Textile Engineering society are registered in the department of textile engineering. Publications work of the Textile Engineering society is an organization of students interested in the field of dramatics. Membership is attained by a try-out before a committee. New members are selected early in each semester of the regular session. Programs consist of one-act plays presented by members, novelty programs, and lectures on themes relative to the theater.

Press Club—Press Club is composed of journalism majors and minors and all students interested in publications work. At the bi-monthly meetings, panel discussions are presented, and authorities in publications work speak on subjects related to journalism.

Pre-Law I.R.C.—The Pre-Law club and the International Relations club, which is affiliated with the national organization, have been temporarily combined during decreased college enrollment. The Pre-Law-I.R.C. meets every Monday night, the first and third being devoted to Pre-Law work and the second and fourth to I.R.C. work.

Gargoyle Society—Gargoyle society is open to any student taking a course in the department of architecture and allied arts.

Book Reviewers—Membership in Book reviewers is by application. Any woman in Tech who is interested in literature, either classic or modern, may apply for membership, which is limited to fifty girls.

Cercle Francais—The Cercle Francais was made active in 1944-45 after having been combined two years with the Foreign Language club. The French club, meeting once a month, endeavors to give its members additional experience with the living language by conducting its meetings in French.

Capa Y Espada—El Capa Y Espada is open to all students who have had or who are now taking Spanish and are interested in studying Spain and Latin American countries. Theme for last year's activities was a more direct approach to the Pan-American policy by becoming personally acquainted with Spanish speaking people.

Future Teachers of America—Future Teachers of America is an organic part of the state and national education associations. It gives the student an opportunity to become acquainted with the services of his professional organizations, state and national, before beginning to teach.

W.R.A.—Women's Recreational association has for its purpose to promote athletics among Tech girls. To be eligible for membership one must earn 24 points through participation in athletic activities, such as archery, tennis, field hockey, exercising, fencing, dancing, ping-pong, basketball, and baseball, and maintain a C-average in scholastic work.

Religious Organizations—Religious groups have been organized on the campus for the purpose of encouraging students to take part in religious activities. There are six campus organizations of this type—Westminster fellowship, Baptist student union, Wesley student association, Newman club, Young Women's auxiliary, and Wesley players.

The Westminster fellowship, the student league of the First Presbyterian church, is composed of all Presbyterian students and their friends.

Every Baptist student in Tech who is a member of a Baptist church in Lubbock or of a unit organization represented on the B.S.U. council is an active member of the Baptist student union.

The Wesley student association, made up of Methodist students who attend Tech and others of college age, works through the First Methodist church and the Student center, which is the center of numerous activities.

The Newman club is a chapter of the national federation of Newman clubs, whose purpose is to conserve the spiritual life of Catholic students in secular colleges.

Every Baptist college girl is eligible for membership in the Ann Hasselbine Young Women's Auxiliary, a missionary organization of the B.S.U.

A unique organization is the Wesley players, whose purpose is the advancement of religious drama on college campuses.

Freshman Honor Society—Scroll and Key—Of special interest to freshmen are the two honor societies for freshman students, Freshman honor society for women students and Scroll and Key for men students. Freshmen who meet the scholastic requirement of 2.50,

for either of the semester of the freshman year, automatically become members.

Alpha Chi—Alpha Chi is a national scholastic and honorary fraternity, composed of the upper ten per cent of the junior and senior classes. Character, leadership, and personality are stressed by the organization.

Phi Upsilon Omicron—Phi Upsilon Omicron is a national professional Home Economics fraternity. Members are selected on basis of scholarship, leadership, character, and professional attitude.

Kappa Mu Epsilon—Membership invitation in Kappa Mu Epsilon is extended to B-average students, who have a B-average in at least eight hours of mathematics including analytical geometry. The purpose of the organization is the development of an appreciation for the beauty of mathematics.

Sigma Tau Delta—To be eligible for membership in Sigma Tau Delta, national English fraternity, one must be an English major of junior or senior standing, and have a grade average of B in all college work.

Theta Sigma Phi—Theta Sigma Phi is a national honorary and professional fraternity for women in journalism. Members must be of junior or senior rank and maintain a B average in journalism and a B- in all other college work.

Sigma Delta Pi—Requirements for membership in Sigma Delta Pi, Spanish honor fraternity, are three years or the equivalent of college Spanish, a B average in Spanish, and a B- average in all other work, as well as a "high moral

character" and "an active enthusiasm for things Hispanic."

Alpha Psi Omega—New members of Alpha Psi Omega, national honorary dramatic fraternity, are chosen by election from student members of Sock and Buskin club. These members must have shown outstanding talent and interest in dramatics and must have a minimum grade point average of 3.6.

Kappa Kappa Psi and Tau Beta Sigma—Kappa Kappa Psi and Tau Beta Sigma, band honor fraternity and band sorority respectively, extend invitation to membership to outstanding band members who have a C average.

Ten Tough Games Scheduled For '45 Football Season Five Are Against Conference Teams

Tech Plays Southwestern In First Game, Sept. 22

This year the Raiders will face ten college teams in one of the roughest football schedules ever met by Tech. If it's excitement you want you will get it this year. Out of the ten games to be played there are five Southwest Conference opponents. They are Texas A&M, Texas U., Baylor, Rice and T.C.U. There will be five night games out of the ten. They will be against Southwestern university, Texas A & M, Tulsa university, Baylor and West Texas State.

The game that seems to have everyone on edge this year is the one with Texas A&M which is to be held in San Antonio on the night of September 29. This will be a game of merit, because the Aggies are boasting of the best team since '41. Also to be listed as a "hair-puller" is the game against Texas university. It will take place at Austin on October 6. Texas U. is one of the top contenders of the Southwest conference and intends to stay that way by smashing all opponents with its strong line and fast backfield.

Texas U. and Texas A&M have the edge over the Raiders by their military personnel, which Tech does not maintain. Unlike these schools we depend upon men who have been discharged or men who are under age for the draft, while they have some of the best in the nation, including All-Americans and numerous others. Morgan feels, as well as the boys, that we can do more than hold our own.

The 1945 schedule follows:

- Sept. 22—Southwestern University (night)—here.
- Sept. 29—Texas A&M (night) San Antonio.
- Oct. 6—Texas university—Austin.
- Oct. 13—Tulsa university (night)—here.
- Oct. 20—Baylor (night)—here.
- Oct. 27—West Texas State (night)—here.
- Nov. 3—Rice—Houston.
- Nov. 10—T.C.U.—here.
- Nov. 17—Oklahoma A&M—Oklahoma City, Okla.
- Nov. 24—New Mexico university—Albuquerque, N. M.

Saddle Tramps Call Meeting

A meeting for the purpose of organizing the Saddle Tramps has been called for Monday evening, Sept. 17 in room C101.

Saddle Tramps is an organization of upperclassmen devoted to the furthering of Tech spirit at football games.

All upperclassmen are urged to be present for the first meeting.

Know Your Grid Stars

By IVAN TUCKER
Toreador Sports Writer

The Spotlight this week falls on Jack "Spider" Dillon. He is a well known personality having played and lettered for two years on the Red Raider team. "Spider" first lettered in '41 while playing freshman football. At this time his football career was interrupted by the draft. He went into the infantry and received an appointment to O.C.S., but refused it. "Spider" also spent part of his army career in the paratroopers, but before seeing action he received a medical discharge.

Returning to the Red Raider team in the Fall of '44, "Spider" resumed his old position of end and was seeing quite a bit of action until he received a leg injury in the game with New Mexico. Due to the injury he was unable to play out the remaining football year.

"Spider" is back with the Red Raiders again this year and has been shifted from his old position, end, to quarterback. This shift was made due to his speed and ability to handle the ball.

"Spider's" football career began while in Chillicothe, where he lettered for three years. He also lettered two years in basketball and two years in boxing, but still thinks football is his favorite sport. Also while in high school he was on the regional and district championship team.

Weighing 170 pounds; six feet two inches tall, "Spider" is expected to bring Tech through many tough spots this year.

Major Murray Deevers of Dallas commanded the 27th Armored Infantry Task Force which dashed across the Rhine Bridge seconds before time explosives went off, ripped out wires and paved the way for Allied gains.

A 1,000 bed Naval hospital is under construction in Houston, Texas.

COACH DELL MORGAN

Morgan Places Hope In New "Fish" Players

Three Returning Vets
To Be In Uniform For
Opening Game Sept. 22

Coach Dell Morgan is pleased with the many prospects for the coming football year. He has placed much confidence in the fact that Tech will have its largest line since '41. The weight of the line is expected to balance around 180 pounds with a backfield at an average of 172 pounds.

Morgan is expecting a lot of action as well as help from the new "Fish." They are: centers, James Cleckler, Weslaco and Bob Haley, Lubbock; guards; Mack Weaver, Temple, Charles Walsh and Reeves Morgan, Graham; ends, Frank Ottmers, Fredericksburg; backs, Don Davis, Tulsa, Benny Tidwell, Bowie, and Dick Wiggins, Hobbs, New Mexico.

Texas Tech grid stars returning from the service are Russell Birdwell, J. T. Branton and Harrell Donovan. Donovan not long ago was reported killed in action in Europe.

There have been several changes made among the old players. They are Floyd Lawhorn from center to guard, Jiggs Jackson from end to quarter-back, Jack Dillon also from

end to quarter-back and Jack Henson from guard to right half.

This will be Walter Schlinkman's final year of eligibility in college football. He is expected to be Tech's largest backfield star and is also Tech's bid for an All-American berth this year.

The team is outclassed and outweighed by several opponents such as Texas A&M and Texas U., but by the time we meet them we expect to develop into a powerful

From The Bench

By SPLINTER-PANTS PINSON

Texas Tech's 1945 football season was ushered in Wednesday night when the Red Raiders presented a rip-roaring, head-knocking session at Tech stadium. Coaches Dell Morgan and Polk Robison divided the squad into two teams, the "Reds" and the "Whites." Walter Schlinkman, the "Dumas Dynamiter," acted as captain for the "Reds," while Floyd Lawhorn, the "Terror from Temple," captained the "Whites."

Considering the short time the Raiders have been working out, they played splendid football. The "Reds," mixing running plays and passes, came out victors by a score of 20 to 13. The "Whites," however, made a ball game of it taking to the air when their running attack failed to click.

Pacing the "Whites" was the passing combination of Hardy to Kelly. When Hardy was out of the game Jiggs Jackson sparked the passing attack connecting with R. W. Moyers for a gain of about 50 yards. Sparking the "Whites" defense were Birdwell, Cleckler, Moyers, Davenport, Ottmers, Kiger, Walsh, Black and Lawhorn. Looking good on the offense were

Johnson, Hinson, Dutton, Davis and Smith.

The "Reds" defense was ramrodded by Snodgrass, Weaver, Limmel, Schlinkman, Dillon, Turner, Orr and Mitchell. Ball carrying chores for the "Reds" were paced by Schlinkman, Shahan, Dillon, Montagu and Wiggins.

Since the Raiders have devoted very little time to pass defense, that department looked a little weak at times, as neither team made an interception of a forward pass.

Congratulations go to the Texas Tech Alumni association for presenting the Red Raiders to the

student body and fans in such a fine way. Hats off to Bill Barnett and his fine handling of the preview, as master of ceremonies. Raider backers can be assured that the '45 team will represent Tech in a grand way. Shadows have been cast upon the camps of Raider foes for the coming season.

That is how things look from the bench—more power to the Texas Tech Red Raiders!

On a mountainside on a jungle trail in Burma is a sign: "Texas 11,871 miles" erected by a Dallasite.

Gaylord Invites Techsans To Use College Library

Regular Library hours for the year were announced by A. S. Gaylord, Librarian. The building will be open for student use from 8 a. m. to 10 p. m.

Mr. Gaylord mentioned the three places that would be most useful to students—the card catalog on the first floor, the circulation desks where books are checked in and out, and the referee room located on the second floor. Miss Genevieve Porterfield is reference librarian.

"The Library is a part of the college specifically designed to serve the students. Everybody on the staff is anxious to be of help and we hope that a great many students will make use of the Library this year," Mr. Gaylord says.

New improvements on the building, including steel shelving in the stacks and a new circulation desk, should be concluded by the end of next year.

Parnell Assumes Assistant Dean Of Men Position

Lt. James D. Parnell will arrive this weekend to assume responsibilities as assistant to James G. Allen, Dean of Men. At the present he is being detached from his duties in the Navy. The position has been vacant during the war situation.

Parnell has been serving as Budget and material officer, and director of training for the Navy in New Orleans. Before going into the service he was athletic director, teacher and principal of Robert E. Lee elementary school at Denton. He holds B. S. and M. S. degrees from N.T.S.C., Denton.

For the past year he has been in New Orleans after serving six months as personnel officer in Hawaii and a year and a half as assistant to the director of training at the fourteenth Naval district in Hawaii.

Sneed Residents Meet Wednesday

Men of Sneed Hall met Wednesday evening for the purpose of discussing the rules and regulations of extra curricula activities. James G. Allen, dean of men, presided.

Troy Caldwell, studentbody president, says that the meeting was called to acquaint freshmen with possibilities of the campus. He spoke on the organizations whose membership consists of all-college representatives.

Tech Offers---

(Continued from Page 2)

Service Organizations
Outstanding on the campus are groups organized for the purpose of promoting and giving assistance to activities beneficial to Tech and Techsans.

A.W.S.— Association of Women students is composed of all women in school. Representatives of campus organizations make up the governing body, A.W.S. Council. Each year A.W.S. sponsors Big Sister-Little Sister Week, a handbook entitled "Tech Tips", the point system, freshman hats for girls, the spring Recognition service, and two all-girl dances.

Junior Council— Twenty outstanding junior girls maintaining at least a B-average constitute Junior council, the main purpose of which is to help freshman girls on the campus. Members of Junior council sponsor a convocation for freshman and transfer girls at the first of school, wear "ask me tags" at registration, speak to orientation classes, and hold personal interviews with all freshman girls.

Forum—Fifteen outstanding junior and senior girls, selected on basis of personality, ability, leadership, and character are members of Forum. Each must have a minimum average of B and maintain at least 20 activity points before admission. Each year Forum gives an award to the sophomore girl having the highest scholastic average.

Alphi Phi Omega— Beta Sigma chapter of Alpha Phi Omega, national service fraternity for boys, renders service to the student body and faculty in a form of club projects and activities.

Texas Tech Chamber of Commerce—The purposes of the Texas Tech Chamber of commerce are to promote and give assistance to all activities beneficial to Tech, further the interests of students in business affairs of modern times, and advance organized programs to aid building a better college.

Saddle Tramps— The principal service performed by the Saddle Tramps is keeping up the Tech spirit at all football and basketball games and other college competitive events. To become a member of this boys' organization, the applicant must have attended Tech a full year, be in good standing with the college, and be vitally interested in promoting campus spirit.

Texas Tech War Veterans—The Texas Tech War Veterans' association is an organization composed of Tech students who have been honorably discharged from the armed services of the United States. The Association believes that it has a definite place in helping discharged buddies re-adjust to civilian and school life.

You're a complete failure if you are a success at dodging work.

Miss Poindexter Works In Oklahoma Hospital

Miss Martye Poindexter, head of the department of applied arts, did occupational therapy work at the Borden general hospital in Chickasha, Oklahoma, this summer. She was in the occupational therapy workshop, where they taught leather work, weaving, textiles, wood work, and work with plastics and metal to between 150 and 175 patients each day.

The 15,000-bed hospital treats Army men from both the European and Pacific theaters and specializes in treatment of ear injuries. Courses in lip reading are given in connection with this work.

Miss Poindexter said she conducted purely diversional therapy while there and is eager to begin her Tech courses in pre-occupa-

NEW COURSE OFFERED

Further enrollment in Astronomy 111, a course offered for the first time this term, was urged today by Dr. R. S. Underwood, who is teaching it.

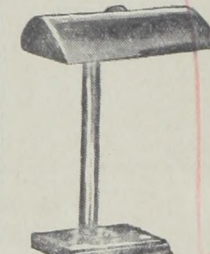

Dr. Underwood pointed out the survey course is open to all students, including freshmen, and will provide all essential information any college person needs on astronomy. The class will meet at 11 a. m. Thursdays in E152. It is to give one hour credit.

What we can't understand is how nature takes care of things, even though they may happen years and years later. For instance, look how our nose and ears are located, just to hold spectacles.

natural therapy for applied arts majors which will be offered this fall.
