

## Board Moves Pearce Up

DR. WILLIAM PEARCE  
... new Academic Vice President

By PRESTON MAYNARD  
Toreador Managing Editor

Making the second high-level appointment among college officials in recent weeks—and following rapidly the naming of Dr. R. C. Goodwin as President—the Texas Tech Board of Directors Saturday moved Dr. William Martin Pearce into the position of Academic Vice President of the college.

Dr. Pearce was head of the department of history and anthropology, a professor of history and associate dean of the Graduate School, a position which he only recently received but will forego with the new appointment.

Saturday's action came in an executive session of the Board following the adjournment of the regular meeting Saturday afternoon.

C. I. Wall, chairman of the Board, told newsmen after the executive session the appointment of Dr. Pearce came on the personal recommendation of Dr. Goodwin.

The Academic Vice President's position has been included in the duties of Dr. Goodwin during the past year, as Dr. Goodwin served as both Acting President and Acting Academic Vice President.

Student housing problems also received thorough discussion by Board members Saturday, with the need for additional housing space for women students dominating the discussion.

Several Board members expressed concern over the three-girls-per-room situation in some of the women's dormitories this fall. College officials said that approximately 70 girls were now included in

the three-per-room situation and that drop-outs and women students failing to complete registration would provide enough space to provide two-girls-per-room soon for all women students.

College officials said there would be a definite need for another dormitory or additional space for women by next fall. Space for about 300 more women students was estimated as the need at that time.

Discussion also centered on the possibility of using West Hall as an additional women's dormitory and providing a smaller athletic dormitory for about 150 athletes. Board members voted that a policy for athletic housing be drawn up in the future by the Athletic Council.

Concerning the expansion of the Tech Union, the Board authorized upgrading of the interior finish of the new porton to a standard equal to the present building, but refused to okay 17,000 additional sq. ft. of basement space.

Budgets of \$13,438 for the Tech Band, \$2,955.25 for Tech choral organizations and \$47,230 for The Toreador were approved by the Directors.

Approval was given also to the budget plans for the Institute of Science and Engineering and to the appointment of Dr. John R. Bradford, dean of the School of Engineering, as acting director of the Institute, which is an organization of the college using private funds to encourage research by faculty members in science and engineering.

The Board also voted to request legal action by the Texas Attorney General concerning the wreckage of computers being secured by the college this summer from Langley Field, Va. Strong Transfer & Storage Co. was carrying the computer from a local warehouse when an accident occurred and the computer was heavily damaged. Only about \$5,000 of insurance was carried on, the computer's transfer.

## Friends Call Pearce Deliberate, Efficient

By TRAVIS PETERSON  
Toreador Staff Writer

"Dr. Pearce is much like Dr. Goodwin, in that he keeps things moving and makes decisions carefully, but does not delay in making them. The busier he is, the more efficient he becomes. Pressure does not seem to bother him."

This statement by a colleague seemed to summarize the general opinion of friends concerning the appointment of Dr. William M. Pearce, II, history and anthropology department head and professor, as Tech's new Academic Vice President. Staff and faculty members contacted spoke highly of him and felt optimistic about his appointment, announced after the Board of Directors meeting Saturday.

Dr. Pearce was out of Lubbock Monday and could not be contacted for comment concerning his new appointment.

"Having worked side by side with Dr. Pearce for 22 years," volunteered Dr. Ernest Wallace, history professor, "there is no hesitancy on my part in saying that the administration and Board would have had to look far to find someone with better qualifications."

Other opinions revealed faith in his administrative capabilities and his ability to think clearly in analyzing Tech's academic problems.

Dr. Pearce has taught at Tech since 1938, excepting the war years and a brief period when he left to obtain his Ph.D. He is an authority on

the history of Matador Ranch, one of this area's largest livestock enterprises. He is author of several research papers on the subject and is currently writing a book concerning the ranch.

Born March 11, 1913, at Plainview, Dr. Pearce is married to the former Frances Elizabeth Campbell. They have two children, William M. III, a Tech student, and Richard, a junior high student.

Dr. Pearce holds the following degrees: A.A., Kemper Military School; B.A., SMU; M.A., Tech, and a Ph.D., University of Texas. He taught in the high schools in Dalhart and Odessa prior to coming to Tech and has traveled in Mexico, Great Britain, France, Belgium, Holland, Germany, Austria and Italy.

During World War II, Dr. Pearce was tank commander in an armored division in the European Theater of Operation. He was awarded the Purple Heart twice and the Bronze Star, and currently holds the rank of Lt. Col. in the Army Reserve. As commander of the 413th Civil Affairs Company headquartered in Lubbock, his military experience is reflected in his orderly and well-kept office.

Dr. Pearce had assumed duties as associate dean of the Graduate School July 16, and forfeits that post for his new position. He is an active member in numerous historical societies and associations and has worked with the National Park Service.

VOLUNTEERING FOR WORK — A Tech coed signs up to work with a Tech Union committee Monday at the sign-up booth in the Union lobby. Evangeline Young and Elaine Higginbotham, committee chairmen, man the booth.

(See Story, Page 5)

## Enrollment Should Hit 9,000 Goal

After three and a half days of registration, Tech's enrollment for this year stands at 8,886, 20 students ahead of last year's total fall enrollment of 8,866.

Dr. F. D. Boze, dean of admissions and registrar, is confident that the figure will pass 9,000 "without any trouble at all."

Students registering Wednesday, the last registration day, are expected to push the total over the 9,000 mark.

Enrollment shows the following distribution by schools: Agriculture, 739; Arts and Sciences, 3,272; Business Administration, 1,794; Engineering, 2,086; Home Economics, 503; and Graduate, 492.

NEW PARKING LOT OPEN — Mary Thomasson, a freshman from Dallas majoring in business, tries out the new reserved-space parking lot behind the Science Bldg. The lot has 333 open spaces reserved for students who pay a \$30 per year fee to use the lot. About 125 of the spaces have been reserved thus far.

## Groundbreaking Set For Union Addition

A groundbreaking ceremony Friday at 3 p.m. will mark the beginning of the construction to double the size of the present Tech Union Building. Union committees and campus student organizations are expected to take part in the service, Jane Gentry, Union Program chairman said. Union Program chairman, said, Toreador has been requested to inform all organizations to have one representative on hand to participate.

The construction will add 50,000 square feet to the building

and will extend south from the present structure. Most of the space will be for a new ballroom, expanded eating facilities and additional meeting rooms.

The construction is being financed through the Union services and is expected to be completed in a year or year and a half.

The final cost of the addition will be \$708,868, and the work will be done by V&N Construction of Lubbock. Architects will be Atcheson, Atkinson and Cartwright of Lubbock, and Davis, Foster and Thorpe of El Paso.

THE TEXAS TECHNOLOGICAL COLLEGE

A Voice For A Growing Texas Tech

Spirits High!

## A Good Direction -- Forward

It would appear that the morale is higher on the Texas Tech campus than it has been in several years. The feeling seems to be spread throughout the campus—not merely in isolated areas. This is a good sign.

Spirits are usually high early in the semester—with the promise of football games, dances and other student activities staring the average Techsan in the face—however, this new spirit on the Tech campus seems to go deeper than the usual rah-rah thing that comes about this time every year.

The new freshmen are prompt to give out with a smile and a friendly greeting—the upperclassmen seem to be working together as never before—it would appear that Texas Tech is on the upswing in more ways than simply building new buildings and gaining new enrollment figures.

The new found "spirit" seems to be going beyond the student body. The administration, under the leadership of Dr. R. C. Goodwin, also seems to have a spirit of unity that this campus has not had in the past.

It would appear that Texas Tech is ready to enter the "sizzling sixties" and the Southwest Conference with an attitude of being as good as—if not better than any other college in Texas or across the nation. This is a good omen.

The big problem now is to see that this new "spirit" continues throughout the year. It will take hard work on the part of every student on the campus. There will be many problems that will arise throughout the school year—these problems should be met and solved in a united manner. Great student bodies do not simply happen—it takes dedicated labor and willing workers to accomplish this goal. Texas Tech has the dedicated people and the willing workers to do the job, and do it better than any school in the Southwest Conference. We should ALL work towards this end.

Now don't misunderstand—we're not urging everybody to grab a big drum and start yelling school spirit and the like—instead it means simply this—going about your everyday business in such a manner that will show the other schools in Texas that the student body of Texas Tech is going in only one direction—FORWARD.

RALPH W. CARPENTER  
—Editor

### Solution Difficult

## Parking Remains Annual Problem

A perennial problem which occurs on the Texas Tech campus—as well as on many other college campuses—is that of parking. This year is no exception.

Of course the problem—in an oversimplified manner—is too many cars and not enough parking spaces. And although the answer to this seems simple enough—just build more parking lots—the problem fails to lend itself to so easy a solution.

The Texas Legislature has ruled that state monies cannot be used to build more parking lots on state college and university campuses. This has pretty well halted the building of parking lots by the state schools for the time being.

Thus, the problem boils down to either providing more space for parking by building more lots—and finding the financial means to pay for them—or, on the other hand, making use of a minimum of space in which to restrict the number of cars allowed to park on a campus. This practice is followed on some campuses by allowing only juniors and seniors to park on campus. Such a proposal received opposition last year at Tech from the Student Council after being discussed in the Traffic Committee.

To compound the problem, finding financial

means to build additional parking lots is an involved process not lending itself to a quick and easy solution. Possibly the use of reserved parking spaces sold on an individual basis—as begun at Tech this year and formerly successful at North Texas State College—may aid somewhat in alleviating the problem.

The parking problem is one in which a lot of time and effort by different groups on the campus must be dedicated before a practical, workable solution can be found. For anyone to say there is no problem is to ignore what is bluntly evident; yet, in the same respect, for anyone to show impatience at lack of immediate solution is to show ignorance of the facts.

The Toreador goes on record at this time calling for a definite and concerted effort NOW toward finding methods to solve the parking problem on the Texas Tech campus and, until such a solution can be found, counsels PATIENCE and understanding by everyone concerned.

In the same respect, The Toreador—given the cooperation of college officials, student leaders and others connected with the parking problem—will attempt to present the facts behind the problem in the near future.

## Student Council Beat

Now that the first battle—the battle of registration—is over, everyone can settle down to the business at hand. In the Student Council office there is plenty of business at hand.

First of all, however, I want to thank all the people who were responsible for a most successful orientation program. This includes the residence hall staffs and the Saddle Tramps who helped with our orientation program at the dorms, the student leaders who helped with the traffic meeting and the men's smoker and, especially the cheerleaders who helped with everything. I also do not want to forget the members of the Union Program Council who sponsored the many events that took place in the Student Union and the individuals who did such a good job of selling student insurance. Sales already have totaled approximately 2,250.

Now that orientation is over the next thing on the agenda is the school trip to Austin. There was considerable thought put into where to go on this year's school trip. We eliminated College Station and the A&M game because it was so early and transportation facilities very difficult to arrange. We eliminated Fort Worth and the TCU game due to the many students who have come by and voiced dissatisfaction with going to the Fort Worth-Dallas area every year. We have been there the last four times. Houston and the Rice game was eliminated because it came a week after Homecoming and a week before mid-semester exams.

After considering all these possibilities we decided to arrange a bus trip to Austin for the Tech-Texas clash. There are several reasons why we think this trip has some definite advantages. By going on a bus we are not faced with the difficulty of getting to and from the game that we were on the train. Further, everyone is guaranteed a seat from start to finish. On the train there was usually a mad scramble for seats with some individuals still looking after the train had been moving for two or three hours. We can also travel quicker on the bus. This means that we don't have to leave until Saturday morning and business can go on as usual Friday night.

It might be worthy to note at this point that the Union is sponsoring the Brothers Four on Friday, Sept. 30. So you can see this program and still go to Austin the next day.

In addition to these advantages we feel that the Texas game will be an outstanding one. Austin is always a colorful town on a football weekend and the Tech alumni club there is planning several welcoming activities for the buses.

Texas Tech is just about the only major college in the Southwest that still makes a school trip. So I would like to ENCOURAGE EVERYONE to buy your tickets at once and make this trip a really outstanding one. Actually you won't be doing me a favor—you will be doing yourself one. You may purchase your tickets from Student Council members or Saddle Tramps in the dorms, on the campus, or in the Union. They sell for \$14.50 and this includes the game ticket. The buses will leave at 6:30 a.m. and arrive in Austin around 4 p.m. Headquarters will be in the Driscoll Hotel. Kappa Kappa Psi will be in charge of lunch in Brownwood and will have an announcement on the cost and where to buy tickets at a later date. We will leave Austin at midnight and arrive in Lubbock at midmorning.

If there are any questions and you cannot locate a council member or a Saddle Tramp come by the Council office or call extension 427 or 479. Let's really put Tech on the football map with this one!

### LITTLE MAN ON CAMPUS

"OH, I THINK GOING TO COLLEGE IS GREAT— BUT DAD CAME UP LAST WEEK AND SAID IF I STAY I'D HAVE TO TAKE SOME COURSES!"

### Cop Escort Awaits Raiders In Austin

Techsians arriving in Austin for the Tech-Texas University game and their annual school trip will receive an official escort from the Austin police for their 12 buses to their hotel.

Upon arrival at the hotel the students will participate in a pre-game pep rally and then proceed to the stadium.

The buses will leave Lubbock at 6:30 a.m. Oct. 1 and will return at 1 a.m. Oct. 2.

For further information on the trip contact any Student Council member wearing a ticket tag.

### Fair Declares College Day

All-College Day at the Panhandle South Plains Fair will be Friday, September 30. The main building and gates will be open from 10 a.m. to 11 p.m.

The Ice Capades will have two matinee performances at 1:30 and 5:30 in the Coliseum.

Two progress exhibits will be on display at the Panhandle-South Plains Fair throughout the week-long run scheduled in Lubbock September 26 through October 1.

"You and the Atom," the Atomic Energy Commission's new and largest traveling display, will inform the local residents of the present and future world of the atom when used for peaceful purposes. This exhibit is being sponsored by the Commission with its "Atoms for Peace" program. The display consists of 62 panels complete with models explaining the peacetime atomic activities.

### LV Asks Students To Remember Picture Times

Don't forget La Ventana picture appointments at Koen's Studio, 2222 Broadway or 1311 College Ave.

Appointments may be obtained in Journalism 101 Tuesday through Friday from 1-5 p.m. Men must wear coat and tie and women should wear a dressy dress for their pictures.

Students who would like to have their pictures in the class section but did not buy a yearbook may pay \$1 and make an appointment also.

POLITICAL FEVER SEEMS CONTAGIOUS ON CAMPUS LATELY ... as Bill Sherbert and John Robertson campaign with the Young Democrats.

## Young Demos Schedule 'Religious Issue' Panel

The Young Democrats of Lubbock County meet tonight at 7:30 in the Tech Union Ballroom for a panel discussion on "Is There a Religious Issue?" All interested persons are invited to attend.

Members of the panel will be Don Dean, moderator; The Rev. David Richmond, head of the Tech Bible department; The Rev. J. J. Brennam, assistant, St. Elizabeth's Catholic Church; The Rev. E. L. Bynum, assistant pastor, Tabernacle Baptist Church; and The Rev. Ralph Macey, Tech chaplain.

Don Dean is an attorney-at-law in Lubbock at the present time. He graduated from Tech, SMU Law School, and has previously served as the Assistant County Attorney.

The next meeting of the Young Democrats will be at 7:30 p.m. September 27, at the Plains Co-op Oil Mill.

Any persons interested in joining the Young Democrats Club should contact Bobby Brown at

Porter 3-4813 or Bill Sherbert at Swift 9-3561.

## Tech Union Starts Committee Signups

Tech students who specialize in membership on committees ranging from Western Dance to Internations Interest in the Tech Union this week.

Students interested should report to the Tech Union.

The Tuesday Night Dance committee, headed by Susan Rogers, is in charge of record hops and special dance entertainment. The Western Dance committee, led by Pat Crouch, provides western stomps, square dances, and square dance exhibitions. The Homecoming Dance, as well as the Friday night dances, fall into the category of the Friday Night Dance committee, whose chairman is Elaine Higginbotham.

Entertainment for Tech students is scheduled by the Art and Entertainment committee and the Movies committee. Art and Entertainment, headed by Vangie Young, provides a jam session, talent shows, and also has a record lending library. Charles Tigner is chairman of the Movies committee, which plans and schedules movies.

Tech students who specialize in friendliness might be interested in the Hospitality committee, led by Ginny Johnson, or the International Interest committee, presided over by Karolyn Kirby. The International Interest committee sponsors a foreign festival, foreign films and speakers, and parties for foreign students.

The Special Events committee under Chairman Bill Skeeters, will secure such guest stars as the Brothers Four, Carlos Montoya and William Clauson.

Buzz Strehl is chairman of the Games and Tournaments committee, which holds pool games, bowling, ping-pong, and bridge tournaments.

Two committees for decorations—Dance Decorations, led by Jeannine Whitehead, and Building Decorations, headed by Carolyn Grau—will give Techsians their decorations for dances, Homecoming, holidays and football games.

**STUDENT COUNCIL**  
Student Council will meet at 7:30 p.m. tonight in Ad 227.

**WSO**

The Women's Service Organization will have its first meeting tonight at 7 p.m. in the Home Ec Lounge. Extensive plans are being made for girls interested in the activities of the W.S.O.

Members of the WSO will have a tea in Doak Hall Lounge on Thursday from 6 to 8 p.m. for all interested women.

**LA VENTANA**

La Ventana staff members will attend a workshop Saturday, at 1 p.m. in Journalism 213. Any student who wishes to work on the 1961 yearbook must attend this workshop or come by the La Ventana office this week to leave name and address, according to co-editors Ellen Venable and Pat Porter.

Page planning, handling of copy, pictures and office procedure will be discussed at the workshop. Staff members will also evaluate the 1960 yearbook.

**SOCK AND BUSKIN**

Sock and Buskin, dramatics club, will have a luncheon meeting at noon Thursday in Room A of the Student Union Building. All students interested in any phase of drama may attend, and it will be necessary to sign the list in the Speech Building foyer by Wednesday afternoon. The lunch will be fifty cents.

One project to be discussed will be obtaining a lighted pathway from the Speech Building to the theater workshop.

Sock and Buskin is a prerequisite to Alpha Psi Omega, the national dramatics fraternity. One does not need to be a speech major or minor to attend or belong.

## 'Ondine' Offers Roles For 28

Tryouts for "Ondine", Tech speech department's first major production for the semester, began Monday night. Open tryouts will continue through Wednesday, Sept. 21, from 7-10 each night and 3-5 p.m., Wednesday.

The production will be presented Nov. 16-19 in connection with Tech's Fine Arts Festival.

The play has roles open for 17 men and 11 women, five of these singing and dancing roles. Ronald Schulz, associate professor of speech, encourages all students to try out.

There are also positions open for those interested in working with scenery, properties, costumes, lighting, sound, publicity, and box office.

## K Hints at Talk Of Disarmament

NEW YORK (AP) — Soviet Premier Nikita Khrushchev indicated Monday he wants to talk about disarmament with President Eisenhower at the United Nations and thus, in effect, turn the coming U.N. General Assembly session into a world summit meeting.

# WANTED: Column Name

By **LYNN BUCKINGHAM**  
Toreador Society Editor

Wanted: A name for a society column!

The first day on the job as Campus Editor of the "Toreador" I was confronted by a man, who shall remain nameless, but, who, I do feel I must add, wields great power in the Toreador offices.

He greeted me unenthusiastically with "Ojrlpl" and a toss of the head and said, "Whaddayouwanma call your society column?"

"Column?" I said.

"Column," he said.

"How about 'The Midnight Miss'?" I suggested, thinking that

last year's column name would suit me fine, and besides, the idea of writing a column, much less naming one, had never occurred to me.

The man kindly explained that the right to name "The Midnight Miss" belongs solely to Carolyn Jenkins. He was sorry, but said I must think of a new name with a "personal" touch.

I laughed and said, "Why don't I just not write a column?"

He laughed too, but said, "You must."

So I set out to name my column, which will appear weekly in the Toreador and which will be simply a round-up of society activities on the Tech campus.

Suggestions from non-journalistic friends brought to mind imaginative titles such as "Lines From Lynn," and "Lynn's Late Show," the latter of which sounds like new competition for Candi Barr and her contemporaries.

Other suggestions were straight from the high school gossip column—"Miss Print," and "The Chatterbox."

Even from journalistic aces I got suggestions such as "Tech After Hours" and "Kampus Karnival," which I kicked around for awhile but finally rejected in favor of another idea—to seek aid from Toreador readers.

This is a request to someone with a lot of imagination who can help me name my column. Suggestions should be mailed immediately to the Journalism Building in care of the Toreador campus editor.

I can not make promises, but next week I hope that my column will have a name.

## Officers Begin Issuing Tickets

A squad of ten Tech security officers began issuing tickets Monday to students violating Tech's traffic regulations. Each is a commissioned officer of Lubbock and has the right to issue tickets to drivers who violate city regulations, according to Bill Daniels, Tech's chief security officer.

Reserved parking spaces costing \$30 a year are still available to Tech students and faculty on a first-come, first-serve basis.

Around 125 of the 333 open spaces have been sold, and they will continue to be sold until all have been reserved. Anyone interested should contact the traffic-security office in the Aggie Pavilion.

## Open Rush Slated

Open or informal rush began Monday and will continue up to finals week this semester, the Dean of Women's office has announced.

Girls will not be required to register. Informal invitations will be issued by sorority members to girls they are interested in rushing. Invitations to pledge will be issued orally. Ribbon pledging will take place in the office of the dean of women.

# Intramural Play Opens On Grids, Links, Lanes

Texas Tech's intramural program has started another year as entries opened yesterday for football, golf and league bowling.

Edsel Buchanan, Tech's full-time intramural director, expects around 800 men to compete in the all-college football program. Last year 772 men played on a total of 25 teams. As usual, there will be three divisions for football play: fraternity, dorm and independent.

On October 3 a meeting is planned for the fraternities to discuss the rules of play and to work out a schedule. A similar

meeting is scheduled for the next day for the managers of independent and dorm teams.

The three divisions will again play a round-robin schedule to determine the all-college champion. Last year SAE won the trophy by beating Dorm 6 in the finals.

Play is scheduled to start on Sunday October 9 with a double header combining dorm and fraternity teams.

Matches in golf and league bowling are also slated to start soon. Buchanan may be reached in room 203 of the Men's Gym for additional information.

"Across From Girls Dorms"

# QUICK - KICKS!

... and slow curves

by Billy Patton

Well, we won it. It's no secret that the Big Red made a lot of mistakes, but we won it, and looked good doing it.

Maybe the offense wasn't a well-oiled piece of machinery, and maybe the defense got caught napping now and then, but fundamentally, the Raiders were out to win and showed it with stiff blocking and hard tackling. And we've all seen worse first games, mistake-wise. This week of workouts will probably go a long way toward ironing out the rough spots, and we feel like there may be some surprised people in the Southwest Conference.

We want to give a special pat on the back to some of the boys who looked especially good. First of all, senior end Jackie Wiles, who holds the dubious distinction of being the smallest lineman in the Southwest Conference, and probably is close to being the smallest player, backs included.

Saturday night Wiles played like he didn't know he was small, roaming all over the field to make vicious tackles from his corner backer-up spot.

— QK —

Coolidge Hunt, the sophomore fullback from whom big things are expected, ran like a veteran. He'll be tough this year. Another sophomore, big Pete Peterson, looked good in the line. He is strong, and knows how to use his strength.

All the boys, of course, looked good in a win like that one. We said it once, and we'll say it again. There will be some surprised people in the Southwest Conference this year.

Which reminds us. With A&M only a matter of five days away, it's about time for us to stick our neck out and make a few Conference predictions.

— QK —

First off, we look for a 3-4 Conference record from the Raiders, which is more than most sports writers are saying. The Aggies will fall victims this week, but then the going gets rough. We expect outstanding football, and hard-fought games, but Texas, TCU and Baylor look like Murderers' Row to us.

Things look up, though, when the SMU Mustangs invade the campus on Homecoming Day. We're going against the experts on this one, and calling for a victory, because from where we sit, the Ponies haven't got it, and Tech has. Especially on Homecoming.

Rice may be another surprise to some SWC people. Jess Neeley coaches in cycles, and he's due this year, but we think the Raiders will rise to the occasion, even in Houston.

— QK —

Lance Alworth and company will be too much when they move into Lubbock Nov. 19. But, just for the record, we expect the Raiders to have two non-conference victories under their belts by then, over Tulane and Wyoming, in spite of the Wyoming club's press raves. We don't think the Skyline Conference is that tough. That's six wins against four losses for the season, and we think the Raiders can do it.

We didn't prove much with last week's predictions. Ralph Carpenter, Toreador editor, and yours truly split, with 70% each. It helped both of us when we picked a couple of upsets.

We were especially proud of our predictions of Kansas and Missouri as winners, but Texas let us down in the clinch. Carpenter's picks of Cincinnati and Georgia Tech evened the score when Hardin-Simmons and Kentucky fell by the wayside.

So we face this weekend's battle neck and neck, and we'll have those predictions soon.

— QK —

If there is a SWC Quick-thinking Award, it should go to quarterback Glen Amerson and end Don Waygood this week. After Amerson had rambled in for Tech's first touchdown, and the snap went over his head on the point-after try, there were a few anxious seconds. But Amerson raced to about the 35-yard line, scooped up the ball, looked and fired a strike to Waygood, all alone in the end zone for two points.

That's why coaches, players and sports writers have ulcers, not to mention the fans.

# Tech Aims For A&M, Earns Kerbel Praise

A general air of pleasure, but not satisfaction, pervaded the Red Raider dressing room after Saturday's 38-14 victory over West Texas State.

The Raiders were happy with the win over the Buffaloes, but not satisfied with the showing they made. Everyone agreed the West Texas boys hit hard, but everyone also agreed that mistakes had to be ironed out before the string of conference games which begins this weekend.

Tech showed one of its sharpest passing attacks in years, and quarterback Glen Amerson believes he and sophomore Johnny Lovelace can keep up the pace.

"We've got the receivers," said Amerson, "and the line is holding out the tacklers. All we have to do is throw it to them. It's that easy."

Don Waygood, senior split end, helped Amerson pull off one of the high points of the game after Tech's first touchdown, when the snap for the extra point try went over Amerson's head. Amerson retrieved it, and passed to Waygood for two points.

"I blocked and looked up," Waygood explained, "and there was no ball in the air. So when I saw Amo (Amerson) chasing it,

I slipped over into the corner hoping he'd see me. He did, and that's all there was to it."

There was no downright jubilation in the Raider camp, but the whole team summed up the feelings after a brief squad meeting. "Lets get the Aggies!"

## The WT Scene . . .

To say Coach Joe Kerbel of West Texas State was happy after his team's 38-14 loss to Texas Tech Saturday night would be like saying Harry Truman was a Republican.

The new head man at the Canyon school eased his tired frame down on a dressing room bench and managed a strained smile.

"Our injuries hurt us badly—you don't move the football when you lose halfbacks like Dendy (Bill), and Jolly (Ned). That left us in the position of having to throw the ball more than we actually intended to."

When asked about the Raiders, Kerbel grinned.

"Tech has a real good team—you know, I had mixed emotions in playing against a lot of the Tech players—I feel mighty close to a lot of those guys."

Kerbel was reluctant to single out any of his players as outstanding against Tech.

"I won't really be sure about who looked good until I go over the game film once or twice—then I can assure you I'll know who did their job."

The Buff coach finally named end Joe Granato and halfback Don Logan as the boys who seemed to do the best job for him against the Raiders.

Kerbel had a few good words for the Texas Tech team and their coaching staff.

"You tell Tech's student body

that I hope they and their team have all the success in the world in their first year of play in the Southwest Conference. They have a hard working bunch of coaches and a mighty good football team to go out and watch this fall."

Kenneth Friemel, the boy who caught a touchdown pass for the West Texas State crew almost refused to comment about the game. However when he finally decided to open up he pretty well summed up the situation Saturday night.

"Too many Raiders and not enough Buffalo touchdowns." Enough said?
