

Techsans Quiet On Eve Of SWC Vote

By FLOYD WOOD
Toreador Sports Editor
An air of quietness hung over the Texas Tech campus today as students, faculty members and officials awaited word from Dallas

where Southwest Conference officials are meeting. High on the agenda was application by Tech for admittance into the conference. The state's third largest college

and second largest state-supported school is being considered again after being turned down with regularity since 1927. Twenty-eight years ago it made its first application.

Apparently set to spearhead the drive for Tech is Texas Christian University President E. M. Sadler. He has been one of the chief leaders among conference officials to bring a bid to the Lubbock college.

It will take affirmative votes from both doubtful schools to admit Tech. Five of the seven conference schools must give their approval for any expansion movement.

Others who have voted in favor of Tech's membership include representatives from Baylor University and Texas University.

Chief opponents of the expansion plan are Rice Institute and Texas A&M.

Listed on the "doubtful" list are Arkansas University and Southern Methodist University.

Tech's application for admission may come in the form of a motion tabled last year in which it alone was considered. Another motion which included a bid to the University of Oklahoma is still under consideration. However, OU officials have made no move since applying two years ago.

Tech officials were not available for comment on the vote.

Vol. 31 Lubbock, Texas, Friday, December 9, 1955 No. 24

GAZING WISTFULLY at the mirrored reflection of Rob Brown, sophomore class president, is Sonja Strand, freshman business major. Twin sister Yvonne is almost hidden behind the pair. The three Techsans are preparing for a Christmas style show Sunday afternoon in the Union. (See Story Page Four). —Staff Photo By Al Slagle

Court Rules On Election

By HELENE EDWARDS
Procedure to be followed in election of class favorites and Mr. and Miss Texas Tech was decided upon Tuesday night in a meeting of the Supreme Court, highest governing organization of the student body.

The first of two major decisions passed by majority vote of the six member court stated that only seniors are eligible to run for Mr. and Miss Texas Tech, and candidates must have a one point grade average. Class favorites must also have a one point average, the court decided.

No run off elections will be held in this race, the court declared, and the candidate with the largest total number of votes will be elected.

The election rulings were the

first that the Supreme Court has made this year on the constitutionality of a question. Members of the court are Brad Crawford, Chief Justice; Bill Hudson, Tom Jones, Ed Wilkes, Grey Lewis, and Beverly Garner — one student representative from each scholastic division.

Huda Hassen, secretary of the Student Council and chairman of the Election Committee, said the questions were taken to the Court

when it became evident that no standard procedure had been set in previous years, and the Student Council felt a decision should be made.

Nominations for candidates in the election, to be held Jan. 9, will be made in class meetings to be held before Christmas holidays.

Petitions for Mr. and Miss Texas Tech are available now in the Student Council office, said Miss Hassen.

RALLIES TO SPUR BASKETBALLERS

For the first time at Tech, pep rallies will be scheduled during the basketball season. Head Girl Cheerleader Shirley DuPriest announced today. Three rallies are being planned, the first to take place next Friday in the gym. Full details will appear in Tuesday's Toreador.

Williams Plays In Rehearsal

Three one-act plays by one of America's better known playwrights, Tennessee Williams, are currently in rehearsal and will be presented by the Tech speech department next week. Curtain time is 8:15 p.m. Friday and Saturday in the Speech Auditorium.

Williams, author of the current Broadway play "Cat On A Hot Tin Roof," is well-known for his "Glass Menagerie," and "A Streetcar Named Desire."

Production of a series of one-act plays is an experimental venture for the speech department.

The cast of "The Unsatisfactory Supper" will include Tommie Hancock, playing Archie Lee; Cherie Laurie, portraying Baby Doll, and Marilyn Dunagan in the role of Aunt Rose. Director is Dr. Cecelia Thompson. Set design will be by Mallory Bird.

"The Lady of Larkspur Lotion," directed by Ronald Schulz, speech professor, will feature Nancy Henson in the title role. Others in the cast are Cindy Bowser playing Mrs. Wire and Charles Erwin in the part of a writer. Virginia Peacock will design the set.

George Dabbs will play the part of Tom in "This Property Is Condemned," assisted by Joan Knight in the role of Willie. Jake Sitters will direct. Sitters is a senior speech major.

Modern dance numbers will be presented between the plays by Jo Jackson, Lynitta Jacobs and Sitters. Choreography is by Miss Jean Shankle, instructor in physical education and recreation.

Officer Workshop Tomorrow in Union

Reservation deadline for the second annual Student Officer Workshop is 5 p.m. today, said Workshop Chairman David Jones. Reservations may be made in Ad. 167.

Students attending the workshop, to be held tomorrow in the Union, will learn proper procedures for membership campaigns, record keeping, program planning and publicity, Jones explained.

A noon luncheon will open the meeting, after which discussion groups will be conducted.

Sponsored by the Board of Student Organizations, the workshop will close with a talk on parliamentary procedure by Mrs. Harry F. Godeke.

SHINE UP THOSE PAILS, GIRLS . . .

Milkmaid, Greased Pig Contests Saturday

By BILL MORROW
An all-school western dance tonight and student contests Saturday afternoon will make up the Block and Bridle Club's Eighth Annual Little International Show. Hoyle Nix and his West Texas Cowboys will play for the dance, to be held beginning at 8:30 p.m. in the Agricultural Engineering shed behind the Agriculture building. All Techsans are invited for "some plain old informal fun," said Don Fields, president of the Block and Bridle Club. Saturday's events, to begin at

1 p.m. in the Aggie pavilion, will spotlight a milkmaid contest. In this race each girl is given a stool, bucket, and cow. Winner is the girl with the most milk in the pail after an allotted time. Invitations have been sent to all sororities, but any girl present will be eligible to enter, Field said. Another contest will be a greased pig race. Open to all boys on the campus, the winner gets to keep his pig—if he can hold it. Agriculture professors will be pitted against each other in a saddling contest. Professors Clark

Harvey, Kirk Turner and Koy Neely will be required to catch and saddle loose horses within a set time. Livestock competition of the show will include student judging of dairy cattle—Holstein and Jersey heifers; beef cattle—heavy and light Hereford steers, Angus heifers, and Angus steers; sheep—Hampshire and Southdown ewes; swine—Hampshire and Yorkshire gilts, and horses—aged mares and fillies. Grand champion of the show will be named at about 5:30 p.m., added Fields.

Somebody Mention Beautiful Women?

HERE THEY ARE: the women voted Tech's most beautiful. From this group, eight will be chosen for full-page pictures in La Ventura. Seated, left to right: Patsy Harris, Sue Meason, Carolyn Andrews, Mary Jo Cappleman, Sandra Shields, Jean Crass, Billie Jo Moorman, Mary Alice Braselton. Standing, left to right: Mary Jane Miller, Diana Smith, Gail Ward, June Wiley, Sandra Shook, Sylvia Thompson, Sharla Pepper, Charlene Williamson, Revis Jordan, Yvonne and Sonja Strand. Not pictured is Peggy Miller. Final selection will be made after the first of the year by a nationally-known person. The 20 finalists survived preliminary judging from a field of 217.

After Graduation, What . . . ?

Fundamentally, we go to college to learn a profession at which we plan to make a living after graduation. Sometimes, however, we look at life after college through rose-colored glasses and refuse to consider some of the problems that will confront us.

One of the most important problems that a large part of the graduates will have to cope with is credit. Almost everyone has a tendency to want to take advantage of an easy-payment plan to obtain something wanted or needed.

Actually, there is nothing wrong with credit; in fact, it makes for a more healthy economy. There is not even anything shocking about the amount of consumer debt in our country, for it is only 12% of personal income. The concern, today, is over the rate at which families are going into debt. Even though we are in an economic boom period, this rate of debt is going up faster than the rise in income.

In most cases, when students get out of college they begin preparing for the life to come. They plunge headlong into the unprecedented standard of living-on-credit which has been established in the United States. They come face to face with the most high-powered sales stunts in history. Each person, then, faces the test of living within his means despite these campaigns.

Of course, it is a good thing that our democratic principles allow us to extend credit because, as it is, our economy is on a higher level than any country's in the world. Instead of saving for years to afford high-priced articles, customers can buy on credit and enjoy the goods while they pay for them. The difficulty comes when they go overboard on the idea. In an average home, less than one-third of the furnishings are owned by the family. The home and car are also being paid on.

In fact, at least half of all major household appliances are now bought on credit and as much as 60% of car sales involve time payments. The government has tried to apply a brake to consumer credit by stiffening mortgage terms and interest rates. These steps, however, won't slow down the fast-moving freight train of credit very much.

The one thing that might help would be for college graduates to vow, for their own protection, to use a little self-restraint in their credit dealings. They should make themselves realize that while things are booming now and large credit purchases can be made safely, a slight recession in our economy could destroy everything they have.

LITTLE MAN ON CAMPUS

by Dick Bibler

Situation Presents Problem . . .

The telephone situation in the dormitories at Tech has always seemed to present a problem. Is it because there aren't enough phones in the dorms to accommodate the students? Don't jump to a quick conclusion—you may be surprised.

Tech's dormitories house slightly less than 2,700 students, and counting the pay phones, there are a total of 63 telephones available for students' use. However, there are only five connections on each dorm switchboard. This decreases the number of telephones, which may be in use at the same time, to 53.

Considering the fact that the switchboards in the men's dorms are open twelve hours each day, and the women's dorms operate their switchboard fourteen hours daily, every student has approximately fifteen minutes of telephoning allotted him each day. While that is only a rough average, still it shows that their probably are enough telephone facilities.

For every student who doesn't use the telephone in a day's time, moreover, there is approximately 30 minutes of telephoning for some other student who has lots of calls to make.

Of course, we realize that some phone calls going through the dormitories come from other dorms, and that some of those five connections are direct lines to other dorms. Even at that, fifteen minutes of telephoning each day per student is a lot of telephoning.

The fact remains, however, that the dorm phone system is a constant problem. One solution might be to restrict the time per phone call. Could any fair-minded student complain if his phone call were restricted a reasonable length of time—say five minutes—to afford more dorm residents a chance at their fifteen minutes a day on the 53 outlets?

Kenneth Bennett

Eight Firms Schedule Job Interviews

Eight firms have scheduled interviews for 1956 Tech graduates next Monday, Tuesday, and Wednesday.

Engineering majors will be interviewed for three job openings at the El Paso Refinery Monday by Clay McElroy of the Standard Oil Company.

Chemistry, petroleum geology and petroleum engineering majors will be interviewed Monday for positions of sales and service engineers with the Baroid Division of the National Lead Company.

The Office of Naval Officer Procurement will hold interviews Monday through Wednesday for 1956 graduates applying for the Aviation Officer Candidate Program and for U.S. Naval Reserve Officer Candidates School.

Five representatives from Phillips Petroleum Company will hold interviews Tuesday for students with chemical, mechan-

ical, petroleum, civil, electrical engineering, and petroleum geology majors.

A limited number of positions are open to chemistry and chemical, industrial and mechanical engineering majors with Mrs. Tucker's Products. Interviews for these openings will be held Wednesday.

Wednesday and Thursday, the Western Company of Midland will interview men with majors in chemistry, petroleum geology, physics, and chemical, electrical, industrial, mechanical, and petroleum engineering.

Petroleum geology majors will be interviewed Wednesday and Thursday for the Geological Department of the West Texas-New Mexico Division of Stanolind Oil and Gas Company.

Men interested in any of these interviews may make appointments at the Tech Placement Office, said Mrs. Jean Jenkins, director.

COLLEGE GRAPEVINE . . .

Answer To Queries Given in Pamphlet

By CLAYNELLE ROOKER
In a pamphlet called "General Electric's Answer to Four Why's" the vital questions, "Why stick to your studies?", "Why work?", "Why study English?", and "Why read?" are answered with the lucidity of the business-executive's approach with reasons that should reach even the most practical of vocation-minded students. This is not the English teacher talking, but the voice of big business to whom "progress is our most important product."

Says General Electric: English is all-embracing in a business organization. Whether we are at the drafting board, desk, machine, or calling on customers, we are involved more or less in communication. They go on to add that "Our business world needs young people whose minds are packed with facts, but with the boldness of imagination to release them in a form that is easy and pleasant to take."

The pamphlet further supports its views with an article written for Fortune magazine by Peter Drucker called "How to be an employee." Among other things, Drucker says, "this ability to express oneself is perhaps the most important of all the skills a man can possess."

It is time, then, the pamphlet concludes, for the wallers to wake up and stop objecting to their education, especially to English. As painful as its study may be in some cases to some people, it is undeniably essential to any profession. No matter how practical that profession may be, English is even more practical. In fact, it is an integral part of that profession.

Tune in again next week for a lecture on the value of splitting the atom.

Let's talk for a minute about fashion, and we don't mean for women. According to "The Arkansas Traveler," the newest thing in men's fashions is the return of the ruffled shirt, a fashion that disappeared over a century ago. Now being revived for formal wear, the style is spreading among the festive males in Texas, California, and New York. Embroidered designs, eyelid-trimmed shirts inspired by the Mexican matador, and ruffled cuffs will be seen around soon.

Stanford University Legislature has proposed raising the admission price of their Sunday Evening Movies from 20 to 25 cents. The reason—simple. Students have been forced to view flicks which were released one to two years ago. In order to present the latest movie releases the Legislature plans to raise money to purchase CinemaScope projecting equipment. So, up go the prices, but it sounds like a fair proposition.

A head-counting photo-electric eye has resulted in a sharp decrease in the number of students who disappear during physics lectures at Trinity University.

The electric eye mechanically counts heads as students enter and leave, and, of course, registers when a student walks out of a class.

St. Peter, Minnesota . . . Charles Hendrickson makes this valid observation in his column in the "Gustavian Weekly."

You'll probably agree that a professor who comes to class three minutes early is extremely unusual . . . in fact, he's in a class by himself.

And something quite unusual has happened at Hardin-Simmons University. Mrs. W. J. Behrens, university trustee for over a third of a century, died and willed over one-half million dollars to the school—with no restrictions whatsoever as to its use.

One Good 'Bam' Brings Home Ham

Tech Rifle Club will conduct a "Christmas Ham Shoot" from 1 to 6 p.m. Thursday at the ROTC indoor rifle range in Building M-2, according to Capt. Joseph Lindley, club sponsor.

The contest, open to all Tech students, will be conducted similar to a turkey shoot, except the prize for each group winner will be a pre-cooked ham instead of a turkey, Lindley said.

Tickets will be on sale at the Union today and Wednesday for 50c each. Tickets may also be purchased from ROTC members or from the ROTC office in X-4.

Ammunition and .22-caliber rifles will be furnished each con-

testant on the firing range, stated Lindley.

Purpose of the shoot is to promote interest in rifle marksmanship among Tech students and to raise funds for the Rifle Club. Proceeds will be used for improvement of the rifle range and for purchase of special team equipment.

VETS PLAN DANCE

Tech Vets have scheduled a Christmas drag dance for next Friday. Veterans and guests are invited, said Guy Finley, commander. The dance will get underway at 8 p.m. at the VFW Hall.

Techsans Return From Union Conference

Twelve delegates from the Texas Tech Student Union Program Planning Council returned Sunday night from what was termed a "very successful regional conference" in Fayetteville, Ark.

Melvin Deardorff, Tech senior, served as conference chairman while William D. Scott, director of the Tech Union, was regional advisor.

The first night of the trip was spent in the Oklahoma A&M Student Union building.

"It was just like a hotel," exclaimed Sylvia Dietering, program council secretary. "The boys stayed in the presidential suite." During the trip back to Tech,

the group stopped at the University of Oklahoma and viewed the Union building there.

were 120 delegates from 17 schools. Next year's conference will be held at Texas A&I in Kingsville.

Towngirls Invited To Bowl Tonight

All Tech women students living in town are invited to attend a Towngirls' bowling party tonight at the Lubbock Bowling Club, 41st Street and Avenue Q, at 7 o'clock. A coke party will be held at Martha Mack's home, 1919 33rd Street, immediately following the bowling party. Each person attending is asked to bring a 50-cent toy which will be donated to the "Toys for Tots" campaign.

THETA PRESENTATION IS TOMORROW NIGHT

Eight new members and 25 pledges will be formally presented at the Kappa Alpha Theta Presentation Dance tomorrow night in the Student Union ballroom. The presentation will begin at 8 p.m. immediately followed by a dance at 9 p.m. Approximately 500 friends and relatives are expected to attend the annual affair. Music for the dance will be provided by Burl Hubbard's orchestra, according to Social Chairman Sandra Shook.

Open House Held Sunday

Approximately 100 students, parents, and ministers from the surrounding area attended Westminster Student Fellowship's open house Sunday from 4 to 6 p.m. Held to display the recently completed redecorating program, the reception was given at the Presbyterian Student Center, 2414 13th Street.

Members of the WF Council directed visitors through the center. Lem Miller, Sara Sheveland, and Janna Murray and Wanda Murray were in charge of arrangements.

Hostesses were Mrs. W. F. Higginbotham, Mrs. E. K. Hester, Mrs. C. C. Schmidt, and Mrs. Charles Stogner. Mr. David M. H. Rich-

mond, student director, was host. Following the open house, the regular fellowship meeting was held. A play "Campus Gods on Trial," was presented and dinner was served.

Chest Drive Sets Record

A total of \$3,502.20 has been raised by the Tech faculty and employees for the Community Chest fund according to Professor Theodor Alexander, co-chairman of the fund raising committee.

This amount is an increase of \$120 over last week's figure of \$3,482.20. The drive is officially over, but contributions will be accepted anytime, he added.

Style Show Has Christmas Theme

Sport, formal, street, and school styles will be modeled at the Christmas Style Show Sunday, Dec. 11 at 3 p.m. in the Tech Union Ballroom.

Clothes which will be modeled are being furnished by Godwin's for the girls and S&Q Clothiers for the boys.

The presentation of models will be built around the theme of "Christmas Dreams of Tech Students."

Models for the event will be furnished by Delta Gamma, Delta Delta Delta, Gamma Phi Beta, Kappa Kappa Gamma, Kappa Alpha Theta, Pi Beta Phi, Sigma Kappa, Alpha Chi Omega, Pi Kappa Alpha, Phi Delta Theta, Phi Gamma Delta, Sigma Chi, Sigma Nu, Sigma Alpha Epsilon, Kappa Sigma, Phi Kappa Psi, Drane Hall, Knapp Hall, Horn Hall, and the Double T Association.

Piano music will be furnished by Carol Jean Delaney.

Tech Coed's Poem To Be In Anthology

A poem written by a Tech student has been accepted for publication in the Annual Anthology of College Poetry, according to Dennis Hartman, secretary of the National Poetry Association.

"Moonlight" written by Jean Cox Archer, freshman from Abilene, was included in the selections made from thousands of poems submitted, Hartman said.

The Anthology is a compilation of the finest poetry written by the College men and women of America, representing every section of the country.

Aggie, HE Clubs Slate Yule Program

The Aggie Club will have its annual Christmas party with the Home Economics Club at 7 p.m. Tuesday.

Featured this year is the mutual club project of helping a needy family with food and clothing. Members of both clubs also will decorate a Christmas tree for the family.

At Tuesday's party, the Aggies and Home Ec girls will make candy, popcorn balls and sing Christmas carols.

CASA LINDA CHOOSES NEW HOUSE DIRECTOR

Winona Richards, junior speech major from Anton, was elected house director of Casa Linda at the regular monthly house meeting held Monday.

Other business included the adoption of the revised constitution. Plans were also discussed for the annual Christmas caroling party.

SOCIOLOGY CLUB SETS YULE PARTY TUESDAY

Tech's Sociology Club will have its annual Christmas party Tuesday in the Student Union Building.

Members and guests are asked to meet in front of the Student Union Building at 6:45 p.m. From there the group will go to Garrett Old Folks Home and then return to the Union at 8 o'clock for the party.

Henson To Head Tramps

Eddie Henson is next year's Sadle Tramp president as a result of an election held in a Tramp meeting late yesterday.

Other officers elected for the coming year are Andy Edmondson, vice president; Ted Carthel, secretary, and Wallace Wilson, sergeant-at-arms. James Schoeld was re-elected treasurer.

President Ronnie Crouch announced the donation of a red rug by Casey Carpet Co. The rug will

be used next year to welcome visiting athletic teams as they arrive in Lubbock. The carpet was rolled out this year for the Arizona football squad.

A special Tramp meeting was called for 5 p.m. next Thursday in Ad 218, at which time next year's committee chairmen will be selected. Also on the agenda will be discussion of the National Pep Conference to be held at Tech this Spring.

Union To Present French Film Monday

The French movie, "Sextette", will be shown at 7 p.m. Monday in the Tech Student Union Ballroom.

The movie stars Frank Villard, Alexandre Rignault, Martine Carol, an actress well known in America, and Maurice Baquet, world champion skier. It is produced and directed by Robert Hennion.

"Sextette" is a French anthology of short film stories in which an old inn keeper recounts the most interesting tales of his lifetime of running a resort hotel in the French Alps.

The six stories portrayed are: "The Gun," a love triangle ending with suicide; "Female Affair," a young woman on the prowl for a rich mate; "The Key to Sin," a story of unrequited love; "Snow Queen," a beautiful woman with a psychological affliction; "Seducer's Fate," another love triangle ending in violence; and "Ski Champ," a comic tale of how ski champs are made and the girl's hand is won.

The feature film will be preceded by either a comedy or a travelogue.

TWIRLER HONORED

Benni Ellen Dunn, top Tech baton twirler, has been given national recognition in the 1956 "Who's Who In Baton Twirling."

This honor is awarded annually to 800 outstanding twirlers by officials of the National Baton Twirling Association in conjunction with the editors of Drum Major, national twirling publication.

Miss Dunn is instructor of Marsha Kay Dement, seven-year-old daughter of Mr. and Mrs. Ted Dement of Lubbock. The little girl performed with her before Tech, Hardin-Simmons football fans, Nov. 26.

Kappa Sigma Scholarship Winners To Be Announced At Banquet Tonight

The winners of two scholarships will be announced tonight at the annual Kappa Sigma Founders Day Banquet.

The Texas Tech chapter of Kappa Sigma, men's social fraternity, will join 65,000 other Kappa Sigmas' throughout the world in observance of the 86th birthday of the founding of the fraternity tonight with a banquet at the Skyline Dining Room at Municipal Airport. It is expected that over 54 members, 20 pledges, and many distinguished members of the alumni chapter will be on hand to celebrate this time honored event.

The two scholarships to be given tonight are a part of the Kappa Sigma Scholarship Award program, which will distribute a total of \$20,100.00 in awards to individual Kappa Sig for Scholarship

Kiwanians To Go To Abilene Meet

Several campus Kiwanians will go to Abilene this week-end for a regional meeting of Circle K, service organization. Official delegates will be Guy Finley, Don Avery and Mack Keith.

Expenses for the delegation will be paid by Lubbock's Downtown Kiwanis Club. In addition to the official delegates, several other Circle K members are planning to make the trip.

The campus organization meets in the Union every Friday noon. It is one of more than 100 active chapters of Circle K in the U.S.

ROTC Wives' Club To Have Yule Party

A new club organized for Army ROTC cadet wives will have a Christmas party Monday in the workroom of the Student Union.

The get-together, a buffet supper, will be held at 7 p.m. All Army ROTC cadets and wives are invited to attend.

Each person attending the party is asked to bring a toy for a boy and a girl. The toys will be wrapped as Christmas presents at the party and given to children in some worthy organization.

The club was first formed in November by Army ROTC instructors wives. Temporary officers of the new organization are Mrs. Ellis Huddleston, president; Mrs. Hershel Wade, program chairman; and Mrs. Bruce Simmacher, secretary-treasurer.

The group meets the second and fourth Wednesday of each month at 8 p.m. Dues are 50 cents a month.

Boeing engineers work with stimulating associates

Many engineering skills are represented in this picture. Mechanical, civil, electrical and aeronautical engineers—in almost equal proportion—work closely together in planning and conducting the structural test of airplanes such as the B-52. This stimulating contact among experts in every field is typical of Boeing projects. It makes a good engineer even better, and helps his professional growth.

In no other industry does the engineer have the opportunity to evaluate so completely—through destruction testing—the structural integrity of such a large and complex product. It is a "classical" challenge for mechanical and civil engineers. It tests the instrumentation ingenuity of electrical engineers and gives aeronautical engineers an opportunity to proof check

designs by translating theoretical air loads into practical test loads.

Many immediate problems and "years ahead" projects involving these same skills and their infinite variations are under way at Boeing. The application of rocket, ram-jet and nuclear power to current and future aircraft and missiles is typical of projects in active study. Applied research in developing materials and components to withstand the tremendous heat and stress of flight at supersonic speeds offers even further opportunities to express engineering talent.

More than twice as many engineers are with Boeing now than at the peak of World War II—evidence of the company's solid growth. This outstanding group of engineers has been responsible

for such aviation landmarks as the 707 Stratoliner jet transport and its KC-135 military tanker version, the Bomarc IM-99 guided missile, the global B-52 jet bomber and the B-47 jet bomber, present backbone of Strategic Air Command.

Graduates of top engineering schools all over the country come to Boeing. If you, too, want breadth of contacts, job variety and professional growth, it will pay you to investigate Boeing. There is always room for additional creative engineers on Boeing's research, design and production teams.

For further Boeing career information consult your Placement Office or write to either:

R. J. B. HOFFMAN, Administrative Engineer Boeing Airplane Company, Wichita, Kansas

JOHN C. SANDERS, Staff Engineer—Personnel Boeing Airplane Company, Seattle 14, Wash.

Raiders to Meet Nebraska U. Tonight

Nebraska's Cornhuskers will provide final opposition tonight for the Texas Tech Red Raiders on their current road trip through the Midwest.

The Techsians will tangle with Nebraska at Lincoln.

Coach Jerry Bush's Nebraskans completed the 1954-55 season with a 9-5 record in the tough Big Seven conference.

Lubbock Radio Station KFYO will broadcast the game direct from Lincoln with sportscaster Jack Dale doing the play-by-play description.

Tuesday night Coach Polk Robinson's quintet fell before the Kansas State Jayhawks 89-70, to drop their second straight game of the young season.

Tech was led by forward Jim Reed who tallied 18 points before fouling out of the game. Reed left the contest with 10:45 minutes remaining.

Other Tech leaders were Du-

Wayne Blackshear who sank 14 and Walter Newton, who posted 10 points.

K-State's big 6-9" center, Jack Parr, paced the winner's attack with 22 points.

The Jayhawkers had a field goal

percentage of 46.3 while Tech's average was 34.8.

Following their final road game the Raiders will take a week before playing host to Eastern New Mexico University on Dec. 17 in Tech's gymnasium.

BULLETIN!

Texas Tech's Red Raiders lost their third straight basketball game by falling to the Iowa State Cyclones 72-52 last night.

Tech's scoring leader was Jim Reed who sank 25 points. Eugene Carpenter had seven and Du-Wayne Blackshear, six.

The lead changed hands nine times in the opening portion of the game. But Tech fell behind during the final half.

Two halves make a hole, and the fullback goes through.

...bare of ideas?

We've got what students want for Christmas!

A survey shows that College Student prefer to give — and receive — Books as gifts. So, whatever the size of your gift list, let us help you make a wise choice. Your selections — whether a single volume or a whole shelf full — will be attractively gift wrapped, at no extra charge, and, should the recipient already own a book you send him or her, we will gladly exchange it for some other book. Consult us now about the gift that College Students prefer.

Intramurals Roll On Tech Campus

Three basketball games will be played today in the independent league. At 7:00 BSU will tangle with Moles. Dusters and Triumphant will meet at 8 p.m., and KKK will play Firehouse Five at 9.

Sunday four contests are to be played in the fraternity league. Phi Delt and Phi Gam will begin action at 2. ATO and Phi Psi will battle in the second game at 4. PiKA-Sigma Chi game and a Sigma Nu-SAE battle will follow at 4 and 5 o'clock respectively.

Tuesday afternoon Gordon romped over West 45-28 and Bledsoe outlasted Sneed Shorts 59-59. Tuesday's games were in the dormitory league.

Doak Rinky Dinks and Doak's well as Sneed Longs and West East played Thursday night.

Border Conference Slates Meeting

A Border Conference business meeting is being held in El Paso, today and tomorrow.

Texas Tech will receive a trophy for winning the conference football championship. This is the eleventh time in 17 years that Tech has won the honor.

Dr. J. W. Davis, Jimmy Wilson and Bill Holmes will represent Tech at the meeting.

Freshman Named Reporter of Month

Yvonne Hamilton, Lubbock freshman, has been named Toreador "Reporter of the Month" for November. Miss Hamilton is the first to receive the title that will be awarded monthly to some member of the paper's Staff.

Dr. W. E. Hall, journalism department head, presented her with a copy of "Professional Short Story Writing" by Mowery, donated by the Varsity Book Store. The presentation was made at a Toreador staff meeting.

A four-man panel of judges, including two faculty members and two Toreador staff members, based their choice on the quality of reporting and interest shown by each reporter toward his work. Willingness and availability to work also influenced the selection.

Miss Hamilton, a journalism major, does general reporting on the paper. When discussing the future in journalism, Miss Hamilton mentioned that she wants to become a free-lance writer after a year or two of work on a newspaper.

Blackshear

By JIM BOB REYN

Blackshear, 6'6", 185 lbs. was named honorable mention conference forward in 1955. He was the team's fourth scorer with a 14.1 average.

In the 1954-55 season Blackshear had a field goal average of 46.3 and a rebound average of 3.3 points in the conference.

The Mr. Air, New Mexico, was named all-conference player in 1955. He was named to the North-South conference high school year. He had a high point average in his career among the top state with an 18.2 point average.

Three Techsans On All-BC Squad

1955 ALL-BORDER CONFERENCE TEAM
Official—(Coaches' Selections)

Pos	Player	Team
E	John Howle	Texas Western
E	Charles Mackey	Arizona State
T	John Jankans	Arizona State
T	Jerry Walker	Texas Tech
G	Hal Broadfoot	Texas Tech
G	Bob Griffis	Arizona
C	Paul Hatcher	Arizona
QB	Jesse Whittenton	Texas Western
HB	Joe Walden	West Texas
HB	Art Luppino	Arizona
HB	Gene Mitcham	Arizona State
FB	Jim Sides	Texas Tech

SECOND TEAM

Ends—Bob Womack, Hardin-Simmons; and Dub Cleveland, W. Texas.
Tackles—John Waedekin, Hardin-Simmons; Bill Herchman, Texas Tech; and Phillip Wright, West Texas.
Guards—Joe Brooks, West Texas; Jim Johnson, Texas Western; and Ronald Price, New Mexico A&M.
Center—Douglas Higgins, West Texas.
Quarterback—Dave Graybill, Arizona State.
Halfbacks—Don Schmidt, Texas Tech; and Charles Massagee, Hardin-Simmons.
Fullback—K. Y. Owens, Hardin-Simmons.

HONORABLE MENTION

Ends—Dick Forrest, Texas Western; and Bill Floyd, N.M. A&M.
Tackles—Lewis Singleton, Texas Western, and John Mellekes, Arizona.
Guards—Ed Brown, Arizona; George Bundy, N.M. A&M; John Hickman, Arizona State; and Lawrence Hill, Hardin-Simmons.
Center—Dwayne West, Texas Tech.
Quarterback—John Lyle, Hardin-Simmons.
Halfbacks—Joe Kelly, New Mexico A&M; and Gary Walton, New Mexico A&M.
Fullback—Bob Sedlar, Arizona State.

Three schools, with a trio of performers each, dominated the official All-Border Conference football team announced Wednesday by Dr. Emil Larson, Border Conference commissioner.

Landing the most on the 12-man team were champion Texas Tech, runner-up Arizona State, fifth place University of Arizona. Texas Western placed two, and West Texas State one. Shut out of the first team, Hardin-Simmons placed four men on the second team and New Mexico A&M one. Voting was by conference coaches.

Three of the players were selected for the third year. They were

tackle Jerry Walker and fullback Jim Sides of Texas Tech and tackle John Jankans of Arizona State. All are seniors. Jankans made the honor team as a freshman but was relegated to the second team as a sophomore. The other two earned first team berths their last three seasons.

Making the team for the second year were center Paul Hatcher and halfback Art Luppino, both Arizona juniors, and quarterback Jesse Whittenton of Texas Western, a senior.

It's an experienced team, with six seniors, five juniors, and one sophomore.

DU-WAYNE BLACKSHEAR

Blackshear Boasts 14.1 Game Average

By JIM BOB REYNOLDS

Du-Wayne (Blackie) Blackshear, Tech basketball forward, teams with Jim Reed to give Tech a hard-hitting one-two punch.

Blackshear, who was sixth nationally in free throws with a 3.3 per cent is beginning his third year as a starter.

He was the second man in Tech's attack which drove the Raiders past TCU 76-64. Blackshear was Tech's runnerup for scoring honors against both TCU and St. Michael's with 16 and 21 points.

Blackshear, 6'6", 185-pounder, was named honorable mention all-conference forward in 1954-55. He was the team's fourth highest scorer with a 14.1 average per game.

In the 1954-55 season Blackshear had a field goal average of .399 and a rebound average of 7.3. He scored 353 points in the year.

The Mt. Air, New Mexico athlete was named all-state his senior year. He was named captain in the North-South contest in his final high school year. He was also high point scorer in his district and among the top ten in the state with an 18.2 point per game average.

Why the editor of a great newspaper reads The Reader's Digest

"The Reader's Digest publishes controversial and important articles, regardless of the pressures that may prevail. This is a valid reason for the respect with which The Reader's Digest is read by millions like myself, not only in the United States but throughout the free world."

Ogden Reid, President and Editor, New York Herald Tribune, Inc.

In December Reader's Digest don't miss:

CONDENSATION FROM THE \$4.50 BOOK: "THE MIRACLE OF LOURDES." The cures at this Catholic shrine—cures of the hopelessly sick and crippled—have stirred controversy for years. Now a Protestant (who lived in this French town, questioned doctors, nurses and patients) verifies facts about Lourdes and its miracles.

HOW TO WRITE FASTER. Want to double your writing speed in a short time? Here's an easy system of word abbreviation that can help you make full, legible notes in classrooms, at lectures; take messages over the phone—may even help you land a job.

MYSTERY OF EASTER ISLAND. On a remote Pacific island stand giant, stone-age statues—some weighing 30 tons. Who carved them? How did they get there? Story of one of the world's most baffling mysteries.

REDISCOVERING AMERICA. Areal supermarket, Negro major-league ball players, luxury motels, "do-it-yourself" servantless homes—Paul Gallico tells the amazing revolution that greets an American returning to his country after 15 years abroad.

Get December Reader's Digest at your newsstand today—only 25¢

38 articles of lasting interest, including the best from leading magazines and current books, condensed to save your time.

THREE TRY FOR '56 SHOW BOSS

Three have applied for Varsity Show directorship. Glen Cary, student body president, announced this morning. They are Jack Pruitt and Virginia Carr, seniors, and Gail Matthews, freshman.

The type of show—whether a home-grown production or a Broadway hit—and the selection of a place of presentation will be largely left to the discretion of the director, said Cary. Lubbock's new city auditorium is scheduled for completion by show time next spring, but a definite place has not yet been decided on.

Applications are still being accepted, Cary said. Interested persons should list previous experience in applications addressed to Cary at the Student Council office.

Navy Gold Wings Offered Techsans

Tech men 18 through 25 with a yen for flying will have an opportunity Monday to find out how it's done.

A Naval Aviation Cadet Procurement team, headed by Lt. R. M. Laske, from the U.S. Naval Air Station, Dallas, will be set up for detailed interviews with interested male students in the lobby of the Naval Training Center, Eighth and College Ave. on the campus.

The man who qualifies for "Nav-Cad" training, the lieutenant

states, is worth \$70,000 to the Naval Air Arm. That's what the seagoing service puts into training of each pilot, he explains.

The Navy has no designs on a student who would stay in school and finish his college work, says Lt. Laske. At the same time, there are many men, he states, who are unable to continue their education for one reason or another after completing the sophomore year.

The team will be on the campus three days. Interview hours will be from 8:30 a.m. to 3:30 p.m. daily.
