

COACH J T KING'S RED RAIDERS OF 1961  
... inexperienced, but long on desire and determination.

## Beat'um Tech

The Texas Aggies, opponents of Texas Tech next Saturday, are pulling for the Raiders against the Texas Longhorns tonight.

The Aggies sent a telegram to Carlyle Smith, Tech Student Assn. president, containing the following message:

"Best of luck from the Aggies in your game with Texas University."

The Aggies play LSU tonight. They invade Jones Stadium next week for the Raiders' first home contest.

## Yearbook Editors Announce Contract, Picture Deadlines

The La Ventana office is now open from 2-5 p.m. for organizations (fraternities, sororities, and service), who wish to buy pages in the yearbook to begin signing their picture contracts before the Oct. 15 deadline, according to the yearbook's co-editors.

Procedures for organization pictures will be:

1. Organization representatives must come to the LV office to sign a page and picture contract before Oct. 15.
2. The LV will make picture appointments with Avalon Studios at the time contracts are signed.
3. Special individual settings will cost \$1. Costs for a half page is \$35 with full page and two page coverage priced, \$50 and \$100 dollars, respectively.

Organizations can use class pictures at no extra charge.

4. Pictures will be taken between Oct. 15 and the Nov. 15 deadline. Any organization wanting a special sitting must be within this deadline.

5. La Ventana will only accept pictures taken by Avalon.

Avalon Studios announced Friday that students who have not kept appointments or have not had an opportunity to make appointments may have individual pictures for the La Ventana made Thursday until 9 p.m.

The time extension for taking individual pictures has been extended through next week only, a studio spokesman said Friday.

AUSTIN, Sept. 30—A David named Texas Tech, and a Goliath labeled Texas University, face each other tonight at 7:30 across the battle arena of Memorial Stadium.

An estimated 35,000 spectators will watch J T King's thin Red Raiders try to slay Darrel Royal's veteran Longhorns.

The Raiders, leaving nothing to chance, are bringing their own cheering section along. A part of the official all-school trip, 12 busloads of Techsians plus scores of others traveling by car will invade the capital today, flanked by the 186-piece marching band and an aggregation of Red-shirted Saddle Tramps.

Student-trip buses are scheduled to arrive in Austin at 4:30 p.m. A pep rally will follow in front of the Stephen F. Austin Hotel.

The Austin chapter of the Texas Tech Ex-Students' Assn. is sponsoring a reception for all Tech supporters this afternoon from 2 to 5 p.m. in the Austin Hotel.

Tech students are invited to attend an after-game dance at the University of Texas' Student Union Bldg.

The Longhorns, ranked nationally and fresh from a 28-3 stomping of California last weekend, are odds-on favorites to hand the Lubbock crew their second defeat of the season. Tech opened its season last weekend by bowing to Mississippi State, 6-0.

Since the Texas-Tech rivalry began back in 1928, the Raiders have managed to win only one game from the Steers, a 20-14 upset in 1955.

Tech's new mentor, J T King, praised the spirit with which his charges went through their drills in preparation for the game.

"We're just hoping we can get the same effort (at Austin) that the boys gave us last weekend in Jackson.

## NM University Bans Yearbook Mail Delivery

The 1961 edition of the New Mexico University annual, *The Mirage*, is not being allowed to be sent through the mail because of what a university spokesman termed "lewd pictures."

The yearbook ran into trouble this summer when it came back from the printers and was examined by college officials. According to Kay Corbin, this year's editor of the annual, the staff working on the 1961 edition attempted to "picture college life as they believed it really was." The results were several photos of "ultra-liberal" parties, wild drinking parties and other such goings-on accompanied with "risque" outlines.

College officials at first decided to ban the book completely, but later decided to distribute them on campus, but forbid any to be sent through the U.S. mails.

They may prove to have a best seller on their hands.

King said that he believed the Texas team would be as strong as any team that his club would face all season. He cited as an example the fact that the Horns number two halfback this year (Jerry Cook) was their leading rusher. Too, he went on to say that Texas has two of the best backs in the league in James Saxton and Jack Collins.

Coach King will go with the same lineup as last week. Larry Parks and Jerry Garrison will start at ends, Larry Mullins and Pat Holmes at tackles, Nathan Armstrong and Kelly Mitchell at guards and Charles Harrison at center.

In the backfield, big Johnny Lovelace will begin at the mauler slot. Coolidge Hunt will start at fullback with C. W. Williams and Bill Worley at halfbacks.

King is expected to use the same type of free substitution as in last week's game with State.

Commenting on the Raiders' tough goal line stands against State, King said: "We just hope that we don't have to use our goal line defense too much, but if we have to, I hope it will be as effective."

# TECH ADS

## Hall Overflow Forces Students Off-Campus

The overflow of women registered at Tech this semester has been so great that nearly a hundred have had to find rooms off campus.

"The people of Lubbock have been very kind to Tech this year by providing rooms for girls," Miss Dorothy Garner, Assistant Dean of Women, said Friday. The girls, she explained will stay in these homes at least until this semester ends.

The girls are expected to keep dorm hours while this situation exists. Other conditions of staying in private homes are that girls must live in a family situation, not with single persons and not in homes with private doors to the girls' rooms.

Vacancies in womens' dorms do exist at this moment but there are

not over five among all the dorms.

This situation in the mens' dorms is different. Men unable to find dorm space are on an unpaid waiting list and were given temporary approval to reside off campus. This approval is valid up until the date that space opens up and the person is notified by the Dean of Men.

At that time the student is expected to move into the vacancy as soon as his off-campus rent runs out, but no later than the first of the following month. Students are instructed to keep their financial obligations to their present landlords on a temporary basis.

## Bookstore Begins Directory Sales

The 1961-62 Student Directories will go on sale Tuesday morning in the Texas Tech Bookstore.

Some 5,300 copies, 500 more than last year, will be on hand at the bookstore, according to Rogers Lithograph Co. of Lubbock. The new directories will show an increase of 20 per cent in the number of photographs. Price of the directory is 40 cents, including state tax.

## Rodgers Completes 32 Years Of Duty

William H. "Bill" Rodgers will complete 32 years of service to the Texas Tech animal husbandry department when he retires this week.

Mr. Rodgers came to Tech in 1929, when the school was only four years old, and was hired by Dean W. L. Stangel as horse herdsman for the farm's nine horses. Later on he was given the job of caring for all the beef cattle as well as the horses.

Mr. Rodgers told of the changes that have occurred at the farms, and how farming methods have increased production. When he came to the school there were four families on the farms that were renting land to live on. The school program expanded in 1930, however, and new machinery allowed the use of all the available land.

In 1930, according to Mr. Rodgers, the farm had one silo in which they could put 128 tons of grain in a week's time. Now as much as 350 tons may be stored in one day, and 4500 tons of grain are being stored on the farms this fall.

He showed some of the school's beef steers in the Fort Worth Fat Stock Show in the spring of 1930 and won three first place prizes.

Bill Rodgers was born in Montgomery County, Ark., in 1897, where he farmed until coming to the South Plains in 1929. His first

week on the plains was spent camping out while his house was being prepared — the house in which he was to spend the next 29 years.

Mr. Rodgers' two sons and a daughter have been graduated from Tech, and he currently has a grandson attending. He is William Roger Keeney, freshman industrial engineering major.

When asked about his career at Tech, Mr. Rodgers said that he has worked under every dean, Agriculture dean and animal husbandry department head that the college has had; and that the reason he stayed here so long was that he always felt that he had the best employers anybody could have.

Upon retirement, he plans to return to Bentonville, Arkansas, and he expressed regret at having to leave his many friends in Lubbock.

## Larson Presides At TSA Meeting

Texas Tech speech department, will preside at the Texas Speech Association's Thirty-Six Annual Convention to be held in Dallas Thursday, Friday and Saturday.

Dr. Larson, TSA president, will also speak to the convention at its Friday luncheon on "Footlights Across Europe."

Two other members of the Tech staff will also attend the convention. They are Miss Helen Lindell, who is connected with speech therapy, and Charles E. Buzzard, director of broadcasting for the speech department.

## Center Features Dancing, Fencing

The Maxey Community Center, 30th and Nashville, is offering courses in fencing and square dancing under the direction of Neva O'Bryan.

Square dancing begins at 7:30 p.m. Oct. 2 and fencing lessons start at 7:30 p.m. Oct. 4. A charge of \$5 plus cost of equipment will be made for the fencing course.

"Tareyton's Dual Filter in duas partes divisa est!" says Publius (Boom-Boom) Aurelius, Coliseum crowd-pleaser. Says Boom-Boom, "Tareyton is one filter cigarette that really delivers de gustibus. Legions of smokers are switching. Try a couple of packs of Tareytons. They're the packs Romana!"

**BRIGADE SWEETHEART** — Cadets in Army ROTC have chosen Betty Mosher, a freshman psychology major from Lubbock, to be their brigade sweetheart for this year. Congratulating her are Cadet Lt. Col. Mickey Morse, brigade commander, and Cadet Maj. Bobby Switzer, brigade executive officer.

## Raider Round-up

### BSO PRESIDENT'S BANQUET

Presidents of all recognized organizations on campus will be honored at the Board of Student Organizations Presidents Banquet at 6:30 p.m. Oct. 4.

J. C. Chambers, a past president of Tech Student body, will speak at the occasion to be given in the Union ballroom.

Students attending should contact Sissy Fuller, Weeks Hall. Admission to the event is \$1.50.

### PHI KAPPA PSI

Phi Kappa Psi, social fraternity, initiated 13 new members Sunday, Sept. 24.

Initiates include Kerry Don Arnold, Alva Gene Calvert, Donald Alexander Cunningham, Roy Alan Cooper, John Marshall Farell, Jerry Don Godbey, William Richard Heinaman, Gary Martin Key, Wally Thomas Larkin, Lowell Patrick Oden, James Woodrow Perry, George Robert Simpson and Clint Albert Synes.

### LV STAFF MEETING

A meeting for the staff of the La Ventana has been set for 5 p.m. Monday in Rm. 208 of the Journalism Bldg.

### NEWMAN CLUB

Newmanites will hear the second in a series of talks on marriage Sunday. The talks are being given by Monsignor Andrew Marthales, the Diocesan Director of Family Life.

A vice president will be elected at the meeting also.

Members will gather at St. Elizabeth's Church at 7:15 p.m. and go to Newman Hall at 7:30.

### LAMBDA DELTA

Any freshman or sophomore girl who has not been contacted by Alpha Delta, freshman honorary sorority, and is qualified to become a member should report to the Dean of Women's office before Oct. 3.

Qualifications for freshmen are 15 credit hours and a 2.5 grade

average. A sophomore is required to have 30 credit hours and a 2.5 overall grade average.

### CANTERBURY ASSN.

"Freedom and Communication" is the title of the address Wallace E. Garets, Tech journalism dept. head, will deliver to the Canterbury Assn. at 5 p.m. Sunday at St. Paul's Episcopal Church.

The address will be one of a series sponsored by the organization. Following the service the group will attend the Episcopal Student Center for supper and discussion.

## Club Prepares Military Wives

"To prepare women for Air Force life"—is the purpose of the AFROTC Wives Club on the Tech campus.

Fiancées and wives of AFROTC members have the opportunity to learn about many of the problems that might confront an Air Force wife. Pay allowance, medical care, travel arrangements, social activities and overseas life are a few of the topics to be discussed throughout the year.

First meeting of the AFROTC Wives Club will be at 7:30 p.m. Tuesday in the Presbyterian University Bldg.

## U-NEED-A Cleaners & Laundry

## Fraternity Seeks Members; English Majors Or Minors

Students interested in joining Sigma Tau Delta, national honorary fraternity, should contact the English office, Room 125 in the C & O Bldg., as soon as possible.

To be eligible for membership, a student must be an English major or minor with a 2.2 overall grade point average. He must also be at least a junior. This includes

transfer students and graduate students.

One chief activity of Sigma Tau Delta is the publication of the Harbinger. Members contribute, gather and edit this publication each year. The Harbinger is composed entirely of student writings.

Dr. J. C. Guilds and Dr. J. T. McCullen are sponsors for the group.

# From Politics To Pool

j. petty

As a service to Techsians, this column will, from time to time, attempt to give advice to frustrated students who have overwhelming problems and no other place to turn for help. Hoping that the experiences of some may help others, some of the typical letters are printed below.

**DEAR SIR**—I am confused. When I moved into the dorm a few weeks ago, I thought it strange that I was the only boy living there. But since I had been assigned that room in that dorm by the officials, I didn't mention it to anyone because I'm just a freshman and didn't understand just how a college is run.

But I'm going crazy. I can't get any studying done. Girls are running in and out of my room at all hours of the day and night pointing at me and giggling. They stare at me in the halls, especially at night, and several times I have heard beating on my locked door at two and three in the morning.

All this I guess that I can stand because I realize that the dorms are crowded and I want to help officials as much as possible. Here is my real problem:

I'm dirty.

For reasons that must be obvious, I find it too embarrassing to take a shower. I've prayed for rain several times, but to no avail. I'm at my wits end. Please help me.—**DIRTY DAN.**

**DEAR DAN**—You do have a unique problem. I suggest that you sign up for a PE course next semester. For the rest of the term, I guess that you had better continue praying for rain.

**DEAR SIR**—I have a dating problem. Two weeks ago, I started dating this certain boy whom I like very much. Since that time, we have visited a place that he calls a prairie dog town 14 times. We go there as soon as it gets dark and stay until sun comes up.

He is a biology major and is studying the nocturnal habits of prairie dogs.

We have fun on our dates, and I want to keep going out with him because like I said I like this certain boy very much. He is sweet, kind, gentle, romantic, thoughtful, considerate, loveable and exciting.

My problem is—I hate prairie dogs. What can I do?—**IN LOVE.**

P.S. I don't have to get close to the prairie dogs because we always watch them from the car, but I just don't like being around them.

**DEAR IN**—There is no answer to your problem. It is just a sacrifice that you will have to make in the name of science.

**DEAR SIR**—I am in love with one of my professors. He is a wonderful man—brilliant, witty, handsome and very rich. I have never so much as mentioned how I feel toward him, but he may have some idea since I have purposely failed his course nine times so that I could see him three times a week.

The only thing that worries me is our ages. I am 20 and he is 59. Do you think that we could make a go of it?—**HERBERT.**

**DEAR HERBERT**—I'm afraid that there is too wide a span in your ages. My advice is to forget him.

**CONFIDENTIAL TO HOOKED**—Regardless of how you feel, you cannot tell your girl where to wear your fraternity pin. That is something that she will have to decide for herself. My advice is to avoid any clinches.

**CONFIDENTIAL TO IN-THE-MOOD**—Aren't we all?

**CONFIDENTIAL TO MONEY-PROBLEM**—College men can ill afford to gamble. However if you must, here are some suggestions for raising a little extra capital.

- 1.) Work (This may be a little drastic but will answer your problem.)
- 2.) Sell your textbooks (this would, perhaps, put you in a bind in some of your courses, but will bring in some money.)
- 3.) Meet a girl with money (this is the most highly recommended way, easier on you, your college career and can offer you a way to continue your past time.)

—S

## Consider Neighbors

# Park Between Stripes

This editorial may sound like the same song, second verse, but the Toreador feels that the parking problem is acute enough to warrant more comment.

Only recently, over eleven-hundred dollars was spent to stripe the parking lots around the campus. While this may help, it won't cure. But, on the other hand, it wasn't intended to solve the parking problem — only lessen it.

Taking this into consideration, The Toreador feels that Tech students and faculty members should take great pains to park properly between these stripes on the lots. Improper parking can only add to the already nightmarish situation that exists as far as parking is concerned.

It doesn't take a lot longer to park right. You may be saving your neighbor a place to park. We're all in this together and no one should do anything that might deprive someone of parking space.

Until something better can be worked out — please park properly — between the stripes.

RALPH W. CARPENTER  
— Editor

## Hoping For Return

# We Miss The President

We miss President Goodwin.

This statement sums up the feelings of the entire Texas Tech student body while Dr. Goodwin is recuperating from an operation in Florida.

We'll be glad when he returns to Lubbock. His presence has been missed during this, the biggest year in Tech history. His calm, but firm, guiding hand led us through a great year in 1960. He earned both the admiration and loyalty of the student body with his direct manner of facing problems.

While things are going along pretty good now, there is still something missing. That something is, of course, Dr. Goodwin.

We know we speak for the student body when we say:

"Hurry back, Dr. Goodwin."

—TOREADOR STAFF

# Toreador Mail Call...

Dear Editor,

I do not have a car here at Tech so my opinion should be void of prejudice, but I wish to state my views concerning the recent ruling about parking on the Auditorium-Coliseum lot. Time and time again your paper has preached on the limited parking space available to students. The recent ruling means a further reduction in such space. I believe that the few students who do park there during the day render little if any inconvenience to anyone; and certainly, by parking there relieve at least a part of the excessive traffic on campus. Thank you.

Very truly,  
Laval Verhalen

Dear Editor,

Thanks for the September 28th article in the Toreador concerning the coliseum parking lot. Most of my associates and I are disturbed by the obvious injustices of the parking situation on the campus.

First, I feel that the sale of hundreds more off-campus parking permits than the number of available parking places is most improper. This practice is analogous to selling 1500 tickets to a theater

production when the seating capacity is only 1000. I paid ten dollars for my permit to park with the expectation of the use of the off-campus parking lots; not a first-come-first-served chance at getting a parking place. For those of us whose first class in the morning is at nine or ten o'clock, the chances of finding a parking place are rather poor.

Secondly, students rarely, if ever use the coliseum parking lot during auditorium-coliseum activities, and certainly never to the point of actual interference. I feel that a unified off-campus student interest could prompt a change in the city's policy in the Texas House Bill.

Sincerely,  
Earl Kenney  
Off-campus student

# Tech Sport 'Chutists Soar; Seeking More Sky-divers

Try this on for a king-sized nightmare: You're in a small airplane more than two miles high. Laden with 50 lbs. of equipment, you wriggle through a small door into whistling prop-blast, hang by your fingernails from a wing strut and drop into emptiness.

And that's not all: You fall for more than a mile-and-a-half and reach a downward speed of 120 miles per hour in less than a minute. You flap your arms-and shake your shoulders to stay parallel with the ground. You watch a strapped-on altimeter and pull the parachute rip-cord at the last possible second.

Horrible? Among Tech students there are 20 which go through this ordeal weekly. They're members of the Lubbock Sport Parachutists and jump at the Levelland Municipal Airport every Saturday and Sunday.

They claim it's utterly safe. Even that club members are insurable. One of their two female jumpers is Tech coed Janet Bridgforth, a sophomore pre-med major.

Furthermore, they say it's fun. They claim that you can reach a

horizontal speed equal to 55 per cent of your downward motion. That you can turn and bank using the palms of your hands as wings. They promise spectators a thrilling show this afternoon at the Levelland landing-field.

Techsan "Pete" Peterson, weighing-in soaking wet at 93 lbs., holds

an unofficial club record with a 48 second drop of 8,000 ft. Techsan Mike Baker followed for 45 seconds.

Organized last April, the Lubbock Sport Parachutists are seeking new members. If flying is your idea of fun, meet at the Southwest Public Service Co., "ready

IS IT A BIRD?

...no, it's a Tech member of the Lubbock Sport Parachutists who likes flying better than walking. Members are, left to right, Mike Baker, "Mac" McCarty, "Pete" Peterson and Darwin Wilbanks.

## KTXT Begins Programing Of Educational, Musical Fare

Texas Tech's educational FM radio station—KTXT—makes its 61-62 debut at 12 Sunday. Marilyn Coplinger, program director, says, "The station will provide the best possible educational radio and offer students practical experience in all phases of radio station work."

This year's record library has been boosted by some 500 albums donated by local station KFYO. A large number of educational recordings have been donated by KDUB and public service programs. The treasury department will contribute a programmed series featuring popular bands and name singing artists. Rock and roll and country music will not be programmed.

Director of the FM radio station is Mr. Charles E. Buzzard. Station manager is Don Freidkin while Marilyn Coplinger will serve as program director.

There will be a ten minute summary of Tech news Monday, Wednesday and Friday at 2, 4 and 6 p.m. Information will be supplied by the deans' list, social organizations and the activity calendar.

*(Author of "I Was a Teen-age Dwarf," "The Many Loves of Dobie Gillis," etc.)*

### THE GIRL I LEFT BEHIND ME

It happens every day. A young man goes off to college, leaving his home town sweetheart with vows of eternal love, and then he finds that he has outgrown her. What, in such cases, is the honorable thing to do?

Well sir, you can do what Rock Sigafos did.

When Rock left Cut and Shoot, Pa., he said to his sweetheart, a simple country lass named Tess d' Urbevilles, "My dear, though I am far away in college, I will love you always. I will never look at another girl. If I do, may my eyeballs parch and wither, may my viscera writhe like adders, may the moths get my new tweed jacket!"

Then he clutched Tess to his bosom and planted a final kiss upon her fragrant young skull and went away, meaning with all his heart to be faithful.

But on the very first day of college he met a coed named Fata Morgana, a girl of such sophistication, such poise, such *savoir-faire* as Rock had never beheld. She spoke knowingly of Franz Kafka, she hummed Mozart, she smoked Marlboros.

"You can hit me in the stomach, if you like."

Now, Rock didn't know Franz Kafka from Pancho Villa, or Mozart from James K. Polk, but Marlboros he knew full well. He knew that anyone who smoked Marlboros was modern and advanced and as studded with brains as a ham with cloves. Good sense tells you that you can't beat Marlboro's exclusive selectrate filter, and you never could beat Marlboro's fine flavor. This Rock knew.

So all day he followed Fata around campus and listened to her talk about Franz Kafka, and then in the evening he went back to the dormitory and found this letter from his home town sweetheart Tess:

Dear Rock,

*Us kids had a keen time yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we hitched rides on trucks and did lots of nutsy stuff like that. Well, I must close now because I got to whitewash the fence.*

Your friend,

Tess

*P.S.—I can do my Hula Hoop 5,000 times.*

Well sir, Rock thought about Tess and then he thought about Fata and then a great sadness fell upon him. Suddenly he knew he had outgrown young, innocent Tess; his heart now belonged to smart, sophisticated Fata.

Rock, being above all things honorable, returned forthwith to his home town and walked up to Tess and looked her in the eye and said manily, "I do not love you any more. I love a girl named Fata Morgana. You can hit me in the stomach with all your might if you like."

"That's okay, hey," said Tess amiably. "I don't love you neither. I found a new boy."

"What is his name?" asked Rock.

"Franz Kafka," said Tess.

"A splendid fellow," said Rock and shook Tess's hand, and they have remained good friends to this day. In fact, Rock and Fata often double-date with Franz and Tess and have heaps of fun. Franz can do the Hula Hoop 6,000 times.

Longhorns Have Top Rusher

# Cook Paces Texas

An Oklahoman who came to Texas went to California last week and helped down the Golden Bear football team.

He's Jerry C. Cook, junior full-back from Galena Park who is leading the Southwest Conference this week on the basis of his 110 yards net rushing in the Texas Longhorns' 28-3 opening game victory over California at Berkeley.

"Jerry played real well," Coach Darrell Royal (himself an Oklahoman who came to Texas), said following the Cal opener. "He was aggressive on defense and ran real tough. Obviously, he was the standout of the ball game. Jerry's started turning upfield and is running much stronger than he had before."

And when Cook wants to use his 6-3 frame and 206 pounds running "upfield" he's a hard runner to bring down.

Cook's 29-yard scoring burst through the line in the second half Saturday gave the Longhorns a more comfortable lead than the 7-3 edge they carried at the time. Later, in the fourth quarter, he almost scored again but fumbled out of the end zone for a touch-back.

A native of Hartshorne, Okla., Jerry moved with his family to Galena Park when he was in the ninth grade. He became a starter for Coach Paul Smith the following year and was a running dynamo for three years.

His football stardom comes naturally because his older brother was an end at Eastern, Okla.,

Junior College while his younger brother is a Galena Park halfback this season.

As a Texas freshman in 1959, Jerry was runnerup to Pat Culpepper in rushing even though he missed two of five games with a broken wrist.

He carried on his great running tradition as a soph last fall when he had a 63-yard scoring run against Maryland. Jerry was hurt at mid-season last fall and missed several games. Still, he managed to average 7.6 yards per carry.

Jerry's father died just prior to his senior session in high school and missed seeing his son play for Texas.

But Longhorn rooters will be forever grateful to Mr. Cook for moving his family from Oklahoma to Texas.

# Victors Take Leads In S W C Statistics

To the victors went most of the spoils as the four triumphant teams produced nearly all of the individual and team leaders of Southwest Conference high marks for opening games.

Baylor, Rice, TCU and Texas, the only victors last Saturday, monopolized the greatest gains and the longest plays, leaving only a few consolation prizes for the less fortunate. Texas A&M, which tied Houston in one of the eight curtain-raisers, ran the most rushing plays (54); SMU did the best

punting (averaging 44.2), while Arkansas had the best kickoff return average.

Familiar names like James Saxton (Texas), Billy Cox (Rice), Sonny Gibbs and Buddy Iles (TCU), Bobby Ply and Ronnie Bull (Baylor) dominated the high marks for the players, but unheralded performers such as Jerry Cook (Texas), Butch Blum (Rice), Jerry Spearman (TCU), Lewis Albright (SMU) and Garry Thomas (TCU) grabbed some of the laurels.

Tech Students Sound Off

# Texas Wins . . . But

Tech students and faculty, faced with the question: "How do you think Texas Tech will do against the Texas Longhorns Saturday?" had little trouble coming to a conclusion that the Red Raiders were definitely the underdog in the contest.

Most of the answers did, however, show hope and anticipation that the inexperienced team of J T King would put up a strong fight.

On the other hand, a few students gave Tech no chance of victory.

"I think if Texas is too confident and Tech is 'up,' we might beat them, but all things being equal, they'll probably beat us," answered Wesley Barnett, senior math major from Friona.

Max Miller, Brownfield, student instructor in the dairy industry dept., had the following comment:

"I don't have any idea what the final score will be, but I don't think Tech will win. I imagine Texas will win by at least two touchdowns."

"If we're lucky, we may come through and win. It'll take a lot of luck and a lot of breaks," said Beryle Murdoch, junior agriculture education major from Jayton.

"It won't be like it was last year," said Bill Easterwood, junior accounting major from Midland. "Tech might beat them if they get some breaks. It'll be a close game."

David Cox, junior mechanical engineer from Bellevue, answered, "I think the coaching staff put too much emphasis on Holub last year, and as a result wound up

this year with a little inexperience. They'll probably come out the same way they did against Mississippi State."

"I'm going to be there, riding shotgun on one of the buses," grinned P. J. Woods, associate professor in history at Tech. One of the members of the faculty chosen to accompany the students on the school trip, Woods added, "I think we have a chance, and any time we have a chance, that's good."

"If they can stop Cook and Saxton, they (Tech) have a chance," said Mickey Winter, sophomore math, Hermleigh.

A junior electrical engineering major from Seymour, Don Bartley replied, "I don't think it will be close. I think if we don't lose by any more than we did last year, we'll be doing pretty good."

"I think it'd really be nice if the Raiders went down there and surprised them," said Gary Strickland, sophomore architecture major from Amarillo. "It's possible that we could win, because it's easy for a good team to get over-

confident and foul up when they should be playing their best."

Gilbert Varnell, junior physics major from Sewanee, Tenn., said, "I think Tech's line will shine, but the Longhorns are too strong. It will be an interesting contest."

"I think Tech will do better than they're expected to do. If Texas is ready for us they'll win, but we could slip up on them," was the comment offered by Allen Bookout, sophomore accounting major from Hartley.

## SCARLET Scatterings...

By CHARLES RICHARDS  
Toreador Sports Editor

For Texas Tech Head Football Coach J T King, this weekend is probably one he'd like to compare with one in the 1956 football season.

Some of you may remember that year as the time the nationally ranked Texas Christian Horned Frogs lost only one game in SWC play and went on to defeat Syracuse in the Cotton Bowl 28-27.

That was also the season that Texas Tech compiled a less-than-mathematic 2-7-1 record.

One of the Red Raiders' wins was over Arizona but the other was a 21-7 victory over TCU. The same newspapers that in pre-game reports didn't even rate Tech in the same class as the Frogs later called the game one of the biggest upsets of the year.

So remember before you sell the Raiders short in tonight's game with the Longhorns . . . it IS possible.

Almost 2,500 tickets to the Tech-Texas contest have been sold at the Tech athletic offices. Over 800 of the tickets are student tickets.

A crowd of approximately 55,000 is expected for the game, conference opener for both teams. With the Red Raider Band and the caravan of students — both on school-sponsored buses and in private cars — it is assured that the fans at the game won't be completely partisan toward the Longhorns.

As in last week's game, the Raiders will go into the Longhorn contest giving up weight and experience at nearly every position. Against Mississippi State, Tech made up for its deficiencies with good tackling and a tough, swarming defense and almost won.

Another factor enters into the Tech-Texas game. The Longhorns have tremendous team speed in addition to the advantages of depth and experience claimed by the Bulldogs last week.

The Raiders are improving. They could hardly be expected to better their fight and spirit shown last week, but when the young players come around, Tech will be a hard opponent for any team.

If anyone has a "lucky" coin that he doesn't have particular use for, it might soon be in demand at the Journalism Bldg.

John Petty and the Scarlet Scatterbrain both bowed out of the "expert" bracket last week when both of us called the shot correctly on only five games, missing four, and tying on one.

So if we don't manage to come out with a little better average this weekend, we may resort to flipping coins or reaching into a hat to determine our winners.

But swallowing our pride, we have another list of forecasts this week. Here they are.

Arkansas vs. Tulsa	PETTY	RICHARDS
Baylor vs. Pittsburgh	Arkansas	Arkansas
Texas A&M vs. LSU	Pittsburgh	Baylor
Rice vs. Georgia Tech	LSU	LSU
TCU vs. Ohio State	Rice	Rice
Notre Dame vs. Oklahoma	Ohio State	Ohio State
Miss. State vs. Houston	Notre Dame	Oklahoma
N. Caro. vs. N. Caro. State	Houston	Miss. State
Air Force vs. Kansas State	N. Caro. State	N. Caro.
Texas vs. Texas Tech	Kansas State	Air Force
	Texas	TEXAS

## McNally Asks For Swimmers

Jim McNally, swimming coach at Texas Tech, announced Friday that any student wishing to swim or dive with either the freshman or varsity swimming teams to report to the Men's Gym Monday.

The Monday meeting for prospective students will begin at 3:30 p.m. in room 108-A, with a short workout to follow at 4.

First competition for the freshmen comes Dec. 8 against Kansas University. The varsity's first competition will be the Southwest Conference Relays, Dec. 22.

## ARCHIE SAYS:

My cousin Archie—he thought the electric razor his gal gave him last Christmas was o.k. Then he tried Old Spice Pro-Electric, the before shave lotion. Now the guy won't stop talking, he thinks electric shaving is so great.

ARCHIE SAYS Pro-Electric improves electric shaving even more than lather improves blade shaving. ARCHIE SAYS Pro-Electric sets up your beard by drying perspiration and whisker oils so you shave blade-close without irritation. ARCHIE SAYS Pro-Electric gives you the closest, cleanest, fastest shave.

If Archie ever stops talking, I'll tell him I use Old Spice Pro-Electric myself.

SO DO I.

P. S.  
There's a .60 size but Archie gets the 1.00 bottle. (He always was a sport).
