

# The TOREADOR

## Formby Swept Into Office By Avalanche Of Ballots In Election For Toreador

### Rides Through To Victory On Crest Of A Wave Of Loyal Friends

Marshall C. Formby, independent candidate, was overwhelmingly elected editor of the Toreador for next year.

Riding through to victory on the crest of a wave of loyal friends, Formby was swept into office in one of the greatest landfalls ever registered by the student voters of Texas Tech. Formby received a total of 623 votes as compared to 195 for Robert Huff and 111 for Tom V. Watson.

#### Makes Statement

When notified of his victory, Formby gave the following statement to the press:

"You can tell my friends that I am grateful for their kind support. Little did I dream that my victory would be so overwhelming. In particular, I wish to thank both 'Red' and 'Tommy,' my two opponents, for conducting good, clean, campaigns. They were gentlemen all the way through the weeks of electioneering. With the help of all students interested in newspaper work I am sure that next year will be a banner year for the Toreador."

#### Many Telegrams

Formby was all smiles as dozens of friends flocked to his room to congratulate him Tuesday night. To each he expressed his humble thanks—thanks that came from his heart that wanted to cry and yet wanted to smile. Probably no victor ever realized the value of wholesome friendship more than Formby when the hundreds of phone calls, telegrams, and messages of congratulations began pouring in to Formby headquarters.

#### Active Student

The newly elected editor of the Toreador based his campaign upon "actual experience." For the past year he has been actively engaged in the writing profession as a member of the *Avalanche-Journal* staff. His "College Column" is widely read by the students of the college.

Formby is a member of the Tech Chamber of Commerce, the "Y" cabinet, Pre-Law club, Press club, and president of Los Comrades. The victor is registered from McAdoo.

The following men, due to their past journalistic experience, will probably be on the tentative staff next year: Charles O'Neal, Robert Riegel, Everett Fairchild, J. M. Jackson. No sports editor will be named as Formby is angling for the services of a veteran sports writer with a background of metropolitan experience.

## Senior Given French Medal

### E. B. Fincher, Majoring in The Spanish Department, Writes Article For Magazine; Plans To Study In Europe

E. B. Fincher, a senior, who is majoring in the department of Spanish, has distinguished himself by winning a medal offered by the French government to students in American colleges who write the best essay on "How I would Like to Spend Ten Days in Paris." The contestants submitted their papers to the "American Boy" magazine, and Mr. Fincher, because of the excellence of his paper, was awarded a bronze medal. The medal has the figure of a woman engraved on it and this woman symbolizes France and in her hand she has a compass dividing the colonies of France.

Mr. Fincher is preparing for the diplomatic service and expects to continue his studies in Europe.

## Invitations Are Now At Bookstore

Senior invitations are now available at the Tech Book Store, according to Mr. W. C. Cole, manager. The invitations contain the names of the graduates, the Matador song names of the class officers, and a drawing of a Matador.

Plans are underway to standardize the 1931 invitation. The design of the cover and the Matador song, according to Mr. Cole, will be used in future years if the plan is approved.

Caps and gowns for the seniors will be distributed on Friday and Saturday, June 5 and 6, from the Book Store.

#### NOTICE TO STUDENTS

Students who have not turned in their grade books to the registrar have been listed on the bulletin board in the east rounds of the Administration building. Grade books must be turned in or a charge of \$1 will be assessed for another one.

## Second Hand Books To Be Purchased From Students

Students wishing to sell their second hand books will get their chance on Thursday, June 4, when the Missouri Store company, dealer in second hand books, plans to have a representative placed in the Tech Book Store to purchase used books.

On the same day second hand books that are to be used in Tech next year will be bought by the Tech Book Store.

The price paid for these books will depend upon the condition that they are in.

## Delivery Of La Ventanas Is Next Week

### Book Is Decidedly Original And Is Reminiscent Of West Texas History; Cost Represents Thousands

La Ventanas, annual of Texas Technological college, is soon to be off the press and ready for distribution, according to F. M. Coker, business manager. Although it is no larger than previous editions, it contains double the amount of material, and has for the first time given the beauties, eight in number, full-page cuts.

This annual represents a total expenditure of \$7500. By bargaining for a flat price on engraving, a low bid of \$2500 secured the work that formerly has amounted to \$4,000 in cost. Account of this fact, La Ventanas will have the finest engraving ever, this year.

#### Is Original

Decidedly original and reverently reminiscent of the history of West Texas, interpolations both unique and symbolical have been used throughout the book.

The name "La Ventanas" is Spanish for "The Window." Through this "window" the reader peers and sees clearly re-enacted on paper outstanding scenes along the old Chisholm Trail. The adventures of this trail lend themselves unusually well to the comparative and to the symbolic treatment made of them in the annual.

The first end-page is a sketch of cattle being driven along the trails, followed by cowboys moving ahead toward a vision in the future which we recognize to be the outline of the great college, Texas Tech. The last end-page emphasizes the accomplishment of this vision, with the buildings of the college in strong relief, and in the distance, fading from sight, the cattle herds and the cowboys.

#### Dedicated In Sections

The book itself, is not dedicated, but each section is. To whom dedicated remains a secret not to be known until the annuals are released for distribution. There are six sections: the class; activities; athletics; beauties; clubs; and a grind. The corresponding Chisholm Trail theme parallels with each of these. Rockport, the southern end of the Chisholm Trail; bedding

(Continued on Page 4)

## Largest Class In Tech History To Graduate in Engineering School

Although nearly all of the schools in the country are showing a decrease in enrollment and graduation, Texas Technological still remains an exception. Calamity horrors and pessimists will find little or no solace in figures recently given out by Wm. J. Miller, dean of the school of Engineering concerning the graduate class of that department.

The depression which is now afflicting conditions of industry the world over will no doubt delay the placing of graduates this year and it may be six months or more before they can obtain employment along the lines of engineering that they wish to pursue. In the meantime many will take up temporary employment.

The employment situation for engineers is not any worse than will face graduates from other branches of the college as the depression is world wide and affects all lines of business. However it is felt that conditions are only temporary and graduates can soon begin work along lines they would like to follow.

## Dr. T. Walton Will Speak To Class Of '31

### Dr. Ivan Lee Holt, Of St. Louis, Will Deliver The Baccalaureate Sermon On Day Before Commencement

#### To Give Awards

### Annual Senior Ball Planned For Night Of June 5 To Be The First Of Senior Class Activities

Dr. T. O. Walton, president of the A. and M. college, will deliver the commencement address to the June graduating class of Tech, according to a statement from Dr. Horn's office. The commencement exercises will be held on Monday morning, June 8, at 10:30 o'clock in the gymnasium. At this time degrees will be conferred and awards and scholarships will be given out.

Dr. Ivan Lee Holt, pastor of St. John's Methodist church, of St. Louis, will give the baccalaureate sermon on the day previous to this, Sunday morning, June 7, at 11 o'clock in the gymnasium.

From the standpoint of the date, the first senior event in commencement week is the senior dance on Friday, June 5. It will probably last from 9 until some time in the morning. It is to be informal. It has been announced that seniors may bring dates who are not members of the senior class.

On the day after this dance, Saturday, June 6, Dr. and Mrs. P. W. Holt will give a garden party for seniors and their parents. It is to be at the president's home, lasting from 5 to 7 p. m.

## Five New Men Are Eligible For Keys

Five new men have represented Tech in intercollegiate debates during the year of 1930-31, and are eligible for debate keys. These five new men include three freshmen; Garland Smith, Carroll Thompson, and Charles O'Neal, and two upperclassmen: O. O. Williams, and Frank Ward. The keys will be the same as those presented to the debaters last year, and will have one stone in them representing one year's debating experience.

Bill Sewell, who has represented Tech for the last four years in intercollegiate debates, will be the first debater to receive a diamond in his key, which is the regular award for four years debating for Tech.

Alvis Ellis, and Wayne Castleberry, seasoned debaters for Tech will have another stone added to their keys as an appreciation of their additional year of service on the Tech debating squad.

## New Catalogue To Be Delivered Soon

The 1931-32 Tech catalogue will be ready for distribution about June 1, according to officials in charge. This year about 10,000 copies are being printed.

The catalogue will be on the same order as in years before, with full information pertaining to the college, and an outline of the various courses, offered here. Copies will be sent to all prospective students, and to graduates of practically all of the high schools of this and several other states.

## Prof. Entertain Society Members

Engineering society members were entertained last Monday night by the Engineering faculty. A feature of the entertainment was a volley ball game between the faculty and the students. The professors gave the engineering boys a trouncing and then escorted them over to the Engineering building for a feed of hot dogs, cold drinks and coffee.

The depression which is now afflicting conditions of industry the world over will no doubt delay the placing of graduates this year and it may be six months or more before they can obtain employment along the lines of engineering that they wish to pursue. In the meantime many will take up temporary employment.

The employment situation for engineers is not any worse than will face graduates from other branches of the college as the depression is world wide and affects all lines of business. However it is felt that conditions are only temporary and graduates can soon begin work along lines they would like to follow.

## Fourteen Senior Varsity Men To Receive Degrees

Fourteen wearers of the scarlet and black double "T" official award for varsity intercollegiate competition will get their degrees either in June or in August, according to the applications filed in the Dean's office. In this number there are 7 football men, 5 track men, 3 basketball men, 4 tennis players and one baseball man.

The men that will be lost to the football team are: Dennis Vinzant, four year man at end position, Floyd Woodbridge, four year man at quarterback, Buddy Brothers, three year man at half, Bill McWilliams, two year man at tackle, Red Waller, three year man at half, James Denison, former player at end and Nedding in Trostie, a center from the 1925 squad. Basketball will miss the following: Dennis Vinzant, four year man at guard, Cordell Reeves, former player from the track squad the year and James Denison a former following men will be missed: James Dallas, sprinter, Red Waller, hurdler; Floyd Woodbridge, broad jumper; Dennis Vinzant, quarter miler and Clarence Cole, sprinter.

Brothers will be the only baseball man to leave. Raymond Pfleger, Frank Emison, Louis Lahm, William Sewell will represent the retiring tennis players.

Of this number four have expressed their intentions of following the coaching game. They are Brothers, McWilliams, Vinzant and Waller.

In this number Tech will lose some men that will be hard to replace. Vinzant leaves as good a record as one man could leave, having lettered in the three major sports. Last year he was awarded the Star-Telegram scholarship for the best all-around athlete. Brothers place on the football team will go down as one of the greatest as a kicker. Woodbridge has a fair record in football and track as does Waller. McWilliams leaves a brother to fill his place at tackle. The speed of Dallas will be missed on the track. In Pfleger, Emison, Lahm and Sewell Tech loses a quartet of first rank tennis players.

## Poetry Prizes To Be Offered

### Contest Is Open To College Students Throughout The Country; Entries Must Be In By June 1

Prizes totaling \$100 have been offered to college poets by The Campus Muse at Muhlenberg college of Allentown, Pennsylvania. Any student in any college of the country may enter poems in the contest, according to an announcement which has been sent out by the organization fostering it. The rules are as follows: manuscripts must be typewritten, double-spaced on one side of ordinary 8 1/2 by 11 inch sheets of paper, each page having the name, address, college, and publication to which the poem may have appeared, type-written in the upper left hand corner. Contributions must be in by June 1, 1931.

Prizes, consisting of \$10 each, are divided into groups: (1) life and living, (2) loyalty to country or alma mater, (3) love, (4) religion, (5) nature, (6) personality, (7) children, pets, and hobbies, (8) campus life, (9) humor or parodies, (10) general themes. At the top of each contribution it is said that the division into which it is entered should be stipulated.

## Relations Club To Hold Picnic

International Relations club will have their annual picnic Friday afternoon at Boles ranch. Leaving from the administration building at 5 o'clock the party will go in cars to the picnic grounds. There will be a steak fry. The meat will be cooked on the grounds and served to the club members.

Prof. M. E. Ogdon is sponsor of the Relations club. He has just completed a tour of 11 colleges in behalf of the relations club. The club was very successful in putting over the regional International Relations club conference. The Tech Relations group was organized under the auspices of the Carnegie program chairman, Prof. M. E. Ogden is sponsor of the club. Doris Ladd Johnson is in charge of the refreshments for the picnic. Solon Clements has charge of the transportation.

## Play Contest Is Held On Tuesday

The one-act play contests, in which the best actor was picked, were held last Tuesday. Five one-act plays were presented, three of which were directed by senior speech majors. The other two were directed by Dorothy McFarland, and Allan Brown. The best actor will be awarded a \$50.00 scholarship. The winners of the contest will not be announced until commencement.

## Friendship Cactus Bed Is Started On T. C. U. Campus

FT. WORTH, May 20—A "friendship cactus bed" has been started by Dean S. Beckham of Texas Christian University. Girls on the campus have given Dean Beckham various cacti and rocks for the bed and the planting is being supervised by Dr. and Mrs. W. M. Winton and Dr. Gayle Scott of the biology faculty. The cactus bed of the "southwest" will be sought for by the bed and Dean Beckham plans to make it one of the showpieces on the T. C. U. campus.

#### MILE TO RETURN

Miss Ruth Fitch, head of the speech department of Tech, who has spent the last year in Columbia university, getting her Masters degree will return in time to teach during the summer session at Tech.

Kenneth Hart, visited his tribe in Big Spring during the past week-end.

## Seniors To Make Merry In All Day Activities

### Engies Society To Hold Picnic

Leaving the engineering building Friday evening at 6 o'clock, members of the engineering society will journey to the county park where they will enjoy their annual spring picnic. Plans are being made to furnish transportation for all members of the society.

### Senior Sponsor

As an annual feature of the picnic faculty members will play the students in a basketball contest. Last year the students won the game by a large margin. Engineering contests such as stake driving, transit performances, and probably a water fight will be some of the other attractions during the evening entertainment.

## Burton, Kitts To Teach In School Here

### Well Known Basketball Men Are To Give Course This Summer As Part Of Wade-Phelan Instruction

Demand for a course in basketball coaching as part of the Wade-Phelan football coaching school here at Texas Tech next August has been satisfied by the announcement that S. D. Burton, Canyon Teachers, and Jimmie Kitts, Athens High school will instruct classes in basketball.

Burton, known as Sad Sam, needs no introduction to local basketball fans. The Canyon Buffaloes quints have won 178 games to a losing record of 33. The Buffaloes have won five Texas Intercollegiate association basketball titles. During the last two seasons Teachers have averaged a point a minute to become one of the outstanding quintets of the nation.

Athens High school basketball team is well known to the students of the college. Jimmie Kitts' lanky basketbeaters have won two national titles. Since Kitts has taken the helm at Athens only ten losses have been checked up against the Athens five.

Two basketball experts have been added to the faculty of the first Texas Tech coaching school. Study under them is included in the regular fee.

## Rev. Boeckman Is Y. M. C. A. Speaker

Rev. Father Boeckman, of St. Josephs Catholic church was the speaker at the YMCA meeting last night. This was the last regular membership meeting in the Y program for the spring term. Father Boeckman discussed the philosophy and viewpoint of the Catholic church, in response to the request of many Tech students for a program on this subject.

According to E. B. Fincher, chairman of the Y program committee of the YMCA, the series of meetings sponsored by the association on the subject "What Can a Modern Man Believe About Religion," was well attended, and plans are already being made for a similar series of meetings next year. Dr. Cranberry was the speaker at the first six meetings.

### FINAL DANCE TONIGHT

The last all college dance of the spring term will be held at the college gymnasium next Saturday night from 9 till 12. Officials announce that the number of stags will be limited to 75.

"Frank Stone and His Collegians" will furnish the music.

### VISITS CAMPUS

C. L. Davis, a director of agriculture of the State Board of Education, was in Lubbock last Tuesday and spent the morning in a conference with Dean A. H. Lideigh.

## Various Occupations To Be Followed By Members Of Senior Class Of '31

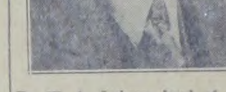

The schools of agriculture and of home economics have almost equal representation. The home economics counts 16 for June and nine for August, and the agricultural has 16 for June and eight for August.

What will Tech graduates do? Contrary to popular opinion they do not all intend to teach. Twenty-five of the 58 plan to enter the teaching profession; six intend to continue their school work and become candidates for higher degrees. The choice of schools for more advanced work varies from Columbia university to the University of Southern California. One student plans to enter a medical college at Galveston. One student is preparing himself for diplomatic service; a young lady will become a home demonstration agent; a young man will become the manager of a ranch

## Holiday Declared By Group For Today

Today is "Senior Day." Members of Texas Tech's greatest senior class today will make merry by enjoying a holiday from the four-year grind. Elaborate plans have been made by the class president, Floyd Woodbridge, and his group of committeemen, for a day will be marked by true senior style.

No convocation will be held by the seniors, as in previous years. The morning hours may be devoted to anything that the seniors so desire. In years before the morning

Dr. W. A. Jackson, head of the government department, has successfully sponsored the senior class for the 1930-31 school year. He has suggested to the class to leave a large double "T" as their gift to the college.

## Officials Of Engies Show Well Pleased

### People Are Drawn To Campus From Wide Area, Officials Say; Senior Students Are In Charge Each Year

Officials of the Third Annual Engineering show, which closed Saturday night, stated Monday that the show held this year was decidedly the best yet given by the Engineering school. Although it was presented during the West Texas Chamber of Commerce convention, this did not in any way affect the attendance during the three day exhibit.

The Engineering show which is annually presented by the senior students of the school of Engineering was unparalleled this year in variety and quality. Many new and interesting exhibits showing the latest discoveries and achievements in the various fields of engineering were shown.

#### Attracted From Area

Aside from the quality of the exhibits, probably the most gratifying results obtained was the wide area from which the attendance was drawn. Many people who had never visited Tech before, but were here for the convention, were attracted to the show. Much favorable comment was made by them concerning the exhibits and the consideration and courtesy extended them by the students in charge.

Cary Lodal, former head of the Engineering society, was chairman of this year's committee for the Engineering show.

## Speech Department Is To Graduate Four This Year

Four senior speech majors are to graduate this year. After four years grind in the speech department, they have finally emerged with a senior cap and a sheep skin. However two of them will attend summer school in order to get their degrees. The four senior speech majors are: Martha Knight, Margaret Cooper, Dorothy Knipp, and Lillian Hopping.

## Water Safety Job Is Given Puckett

Olen L. "Poly" Puckett, a major in the department of architecture, has just received a position as director of water safety for the Fort Worth-Tarrant county chapter of the Red Cross. Puckett will take up his duties as soon as the present term is over.

Puckett has been working as life guard at different places in Fort Worth for the past seven years. He will return to school next fall to resume his studies in the college here.

Percy Powers visited at Tuis Saturday and Sunday.

## Seniors Make Merry

Seniors will meet this afternoon at 1 o'clock in front of the Lindsey theater for a picture show party. The class will be guests of Mr. C. C. Lindsey, who is manager for both the Palace and Lindsey theaters. Through the courtesy of Mr. Lindsey the theater party has almost become an annual affair for those students getting their degrees.

Tickets may be secured at the theatre or from Raymond Pfleger.

After the show the seniors at 4:30 o'clock will leave the Ad building for a picnic at the Lions park. A cost of 25 cents has been assessed each senior to cover charges for the refreshments. Seniors who have cars are requested to bring them to help in the transportation.

was devoted to the convocation, and to the annual tree planting by the senior class in the senior grove. This year the tree will be planted at the time when the senior gift is given, June 6.

#### Party In Afternoon

For the afternoon a theater party has been planned for the entire class. After leaving the theater, the group will go on a picnic. At the present time the committee has made no definite arrangements as to the place the picnic will be held. Mr. Clark, vice president of the class, is in charge of the refreshments.

At a meeting of the senior class Tuesday night, it was decided to plant the senior tree immediately before dedicating the annual senior grove. The tree of the class will leave to the college will be a large Double T, built of concrete in the form of a bench. The bench will be built in the court south of the administration building. This gift came about as a suggestion of Dr. W. A. Jackson, sponsor of the class. Plans are being made for the annual senior ball, which will be held after final examinations for the ensuing term is over, on the night of June 5. The affair will be informal. Dates do not have to be a member of the senior class, according to officials in charge. Dr. P. W. Horn will give his annual reception for the senior class on Saturday evening, June 6, from 5 to 7 o'clock. At this time he will meet each member of the class personally.

Approximately 250 seniors compose the class this year, the largest number in the history of the college.

Plans are being made for the annual senior ball, which will be held after final examinations for the ensuing term is over, on the night of June 5. The affair will be informal. Dates do not have to be a member of the senior class, according to officials in charge. Dr. P. W. ### Textile Students Get Professional Fraternity

BY FRANK MADDIX

Kappa chapter of the Phi Psi fraternity was installed on February 12, 1931. Phi Psi is not a social fraternity but a professional engineering fraternity and its main purpose is to help the students after graduation. The chief object of Phi Psi in Texas Tech is the attaining of high scholarship for its members and the promotion of textile engineering in Texas.

The acceptance of the application of Texas Tech for membership in this organization proves that the school is recognized nationally as a competent training school for textile engineering. The graduating members will enjoy all the privileges and advantages of association and contact with important textile men who are members of Phi Psi. Many of the great industrial leaders of today are members and influential workers in Phi Psi. They recommend the organization as worthwhile and useful to all. Dr. P. W. Horn and Dr. J. C. Granberry after careful investigation approved the application that was presented to them and expressed their opinion that such a fraternity was worth while. The present membership includes: Cary Lodal, Winifred Wardell, Mark E. Wood, M. E. Heard, Roger Allison, Frank Maddox, Lloyd S. Reeves, James McWhorter, Basil Hill, Ford C. Benham, A. Spikes, Curtis Sutphen, B. E. Needles, Jr., John Wullman, Rudd Hardesty, Nat. B. King, Clyde Williams. The last three of this group are graduates of the textile school.

#### Iniation Held

The first initiation of Kappa Chapter of Phi Psi was held on May 4, 1931. The following were given the first, second, and third degrees: Roger Allison; Basil Hill; Rudd Hardesty and Nat. King. The latter two are graduates of the textile department and are working in that profession. They told the members present several interesting incidents which they have experienced since graduation.

After the initiation the members and initiates were favored with a dinner at the home of Mr. M. E. Heard, which was enjoyed immensely by all present. Entertainment was furnished by the pledges and a great amount of talent was discovered which has long been hidden.

Late in the evening a short business session was held and the following officers were elected for next year: Basil Hill, president; Frank Maddox, vice president; Ford Benham, secretary; Lloyd Reeves, treasurer; Curtis Sutphen, senior warden; James McWhorter, sentinel.

### Journalism Class Hears Libel Suit

Members of the class in journalism 337, which is taught by Mr. Cecil Horne, last Monday morning attended a part of the \$200,000 libel suit which is being held at the district court. The suit is of Fred Spikes vs. J. Everts Haley and the Capital Land Syndicate and their trustees.

### Los Camaradas Club Elects Officers For Coming Year

At a meeting of Los Camaradas club last Tuesday, officers for the coming year were elected. Plans for a dinner at the Glorieta, which will be held during the latter part of the year were also made.

New officers are the following: Earl Hobbs, president; Glen Allison, vice president; Marshall Formby, secretary-treasurer. Retiring president is Marshall Formby, and Earl Hobbs has been secretary-treasurer during the present year.

#### GETS POSITION

Dr. W. M. Young, formerly associate professor of electrical engineering at Texas Technological college, is this year associate professor of E. E. at Iowa University. He writes that he has taken a position as research with Taylor Instrument Co., Rochester, New York.

### GETTING OUR NAMES IN THE PAPER

Well, this is the last column that you are going to have.

Have you ever done work and then have it destroyed? You can realize our feeling then, when we write this column week after week and have it thrown away and not printed.

Since this is the Senior edition we will try to pick some of them. Now, Floyd Woodridge, the senior president—he's a good guy and so was his brother before him. Don't see how Tech is going to progress with no more Woodridges to be senior presidents.

The Wallers are another of brothers that are Tech perennials. Its a little better with them though 'cause Abe will be back this summer and they have a younger brother who is thinking of coming next year.

We all hope that he makes the athlete that Abe and Red have.

That pretty girl that every body likes so well is graduating this year—Emma Jane Martin. Surely will have to have her leave. Margaret Hervey and Ruby Kennedy are leaving also. These girls are going to make school teachers or home makers for somebody.

Jim O'Hill isn't a senior but he is leaving school to be gone for two years. He is going to work in Wichita Falls. Jim O' said that we never did use his name so he paid his dime and we will do it.

Harvey Dunn is getting fairly smart in history. He says that while the French revolution was going on in France in 1789 the Declaration of Independence was signed. Ask him why we celebrate July 4.

Colonel Sparkman, the man with the Southern drawl, is an Aggie that is getting out this year, too.

LOST—Silver Harriet Hubbard Ayres vanity, with lipstick, rouge powder, eye shadow and a nickle in it, when lost. Finder please return it to Cecil Horne's office and receive a reward.

If you want a thrill, try riding in Bill McMurray's car—with Bill driving. The thing doesn't have a brake, nor a gas feed, not anything else. It's about as goofy as its owner.

Mark Wood is supposed to be a real engineer, but he's coming to classes so dressed up that the boys are about to pitch him out on his ear. You know they don't stand for Jellies over there.

### Graduation!

Youth's Great Occasion

Here's the GIFT the Majority Wants

PEN GUARANTEED FOR LIFE

#### Parker Duofold

Pen with Pencil to match in attractive gift case

Let the graduate start life with the finest pen that money can buy. And let that pen be a gift from you. \$5, \$7 or \$10 buys the Guaranteed for Life Parker Duofold. Its miracle point writes with Pressureless Touch. Either the Pen or the Pencil which matches it, instantly convertible for desk use by attaching a slender paper. Matched Duofold Pen and Pencil Sets, \$7.50 to \$19; other Parker Pen and Pencil Sets, \$5.

# FRIENDLY FIVE OXFORDS

## Are Ideal For College Men

Here is an oxford that is ideal from every angle, shape, weight, fit, wear and price.

In styles there are just the lasts College men demand—lasts that are outstanding from the style angle—

The sturdy calf leathers and solid leather soles stand the hard wear College men give—

In fit there is every comfort.

Many men wear them for months and months—in fact we have records of almost unbelievable service.

The price is most moderate.

# \$5.00

Wouldn't it be well to choose new Oxfords before you leave for vacation. You might have trouble finding just your size elsewhere.

# Approximately Six Thousand View Pageant

## Queen Kate Of The House Of Boyd Crowned Miss West Texas; Characters Enter Through Large Hat

Approximately six thousand people attended the pageant, the Spirit of Progress, given last Friday night on the athletic field as a part of the annual West Texas Chamber of Commerce convention.

Queen Kate of the House of Boyd was crowned Miss West Texas by Judge Charles E. Cormbes of Stamford, president of the West Texas Chamber of Commerce. Wearing a white cotton gown, and surrounded by vari-colored costumes of crisp cotton, the queen reigned during the pageant in which episodes of the past, present, and future of Texas were portrayed.

Enter Through Hat  
The characters entered the lighted arena in front of the grand stand through a huge cowboy hat. The doors in the hat were opened by two cowboys on horses as the characters passed through.

In the second episode of the pageant, depicting West Texas today, four dances—cotton, wheat, poultry, and milkmaid were presented. There were also Livestock, Products, Natural Resources, and Ideal Climate divisions.

The Spirit of the Future, the last episode, featured education and industry and in this division West Texas colleges were represented by queens. Miss Jean Shelly Jennings was Tech's representative to this court. At the close of the last episode the arts, sciences, professions, and manufacturers presented gifts to Miss West Texas.

Accompanied By Court  
At the coronation of the queen she was accompanied by the Or-gandy court made up of the following girls: Tina Alexander, Lora Ainsam, Blanche Easley, Alsen Brown, Sue Brown, Weneva Buck, Josephine Caraway, Bernice Dean, Christine Denny, Vonelle Gilkerson, Eileen Graves, Hazel Gruver, Elizabeth Hargraves, Margaret Hervey, Lillian Hopping, Cecile Horne, Lullie Hunt, Ruby Kennedy, Francis Larmer, Hazel Lyon, Daisy Lockwood, Emma Jean Martin, Cornelia McCann, Ruth Norman, Mil-bria Pirtle, Opal Palmer, Carolyn Powell, Mildred Price, Gall Quinlan, Dorothy Bushing, Leona Rodden, Harriette Roach, Ernestine Reynolds, Anne Snyder, Zona Sillee, Edith Sanders, Ruth Slaton, Ellabel Tillery, Marjorie Wimberly and Jessie Walker.

Doak Is Chairman  
Mrs. Mary W. Doak was chairman of the pageant board of Tech college. Other members were Professor W. R. Wagborne, music; Miss Zella Riegel, dances; Miss Bean Dorrel and Mrs. Eunice Cox Mowery, costumes; Miss Anna Jo Pen-dicton, stage and lights, and Miss D'Laurel Beville, director. B. Sherrard was the city pageant chairman.

Miss Weeks and Miss Erwin to entertain H. E. Seniors, 2421 Broadway, 3 o'clock. All-College dance, gymnasium, 9-12.

# 'Y' Groups To Hold Meetings

## National Official Will Be Guest Of College Religious Organs; Special Meet To Be At Episcopal Church

Mr. Harry Bone, secretary of the student department of the National Council of the Y. M. C. A., will visit this Texas Technological college this week-end to attend the annual spring Cabinet training conference of the YMCA and YWCA. Mr. Bone has made several visits to Tech in former years and is well known as a student and authority on college life and students' religious, personal and ethical problems.

The Cabinet conferences will open Friday night, May 22, at the home of Dr. and Mrs. J. C. Granberry following a buffet supper. The first discussion will be on ways of thinking about the Bible and ways of using it. Saturday afternoon at 1:30 the cabinets will go to Johnson's ranch, southeast of Lubbock for the remainder of the day. One discussion period will be held in the afternoon and one following a picnic supper. There will be a recreational program in the afternoon.

Sunday morning at 8:30 the cabinets will meet at the home of President and Mrs. P. W. Horn for a worship service which will be followed by separate meetings of the YWCA and YMCA groups. At 10:30 the conferences will adjourn to St. Paul's-On-The-Plains Episcopal church, where Rev. Bradner Moore will deliver a special sermon to the college groups. The cabinets will have dinner together and adjourn the conference following the Sunday afternoon session.

During the meetings the discussions will be for the purpose of acquainting new Cabinet members with the philosophy and program of the Christian Association movement, and to help with various problems of the local organizations. During his campus visit Mr. Bone may be seen at the YMCA office if any students or members of the faculty desire interviews.

# Engineers Mark Up 53 Points To Capture Intramural Track Title

In a four way track meet on Tech field May 18, consisting of the engineers, aggies, army, and liberal arts teams, the engineers ran up a total of 53 points to win the intramural track and field meet. The liberal arts were second with a total of 40 points and the army came under the wire ahead of the aggies by one point, 24 to 23. "Tad" Tedlock, engineer, was high point man with 15 to his credit. Fisher, aggie, was second with 13 points, and Moody, engineer, was third with 13 points. Record time was made by Fisher in the century dash, traveling the distance in 9.9 with a slight wind at his back.

# All-Around Intramural Sports Is Won By Arts

The liberal arts school won the all-around intramural championship through a process of points, agreed upon by the intramural committee last fall makes the standing of the various schools as follows: Liberal Arts 1625 points, Engineers 1110 points, Aggies 895, and the Independents 603.

The liberal arts won first place in football, basketball, second in track and four firsts in wrestling and one in boxing to amass their total number of points. The engineers won one first in track, second in basketball and third in football. They also won two firsts in boxing. The Aggies won second in football with a few third and fourth places to annex their points. The independents won thirds and fourths.

The fact that intramural sports met with the approval of the students is evidenced by the fact that 150 students took part in football, 200 in basketball, 125 in track and 85 in boxing and wrestling. From this a large number will be good varsity material next year.

Teams this year were coached mostly and at all places where possible by seniors. The seniors also played an important part in making the personnel of the different teams.

At the next all-boy night to be held in the gym the liberal arts school will be presented with the shield and will hold the shield in their possession until dethroned by some other school. The engineers are at present the champions and holders of the coveted shield.

# Thousands See Science Show

## Three Day Exposition Attendance Numbers 3,300; Event To Be Made Annual Affair For College

Total attendance for the Tech science show closing Saturday numbered over 3,300. The exposition, held in the Chemistry building, lasted for a period of three days, included Thursday, Friday, and Saturday. From the standpoint of attendance it was said to be a complete success. According to state-

# Matador Band Plans Picnic

## Is Rest From Strenuous Work During WTCC Meeting Here During Past Week; To Plan Summer Trip

The Matador band will have a picnic tonight at Johnson's ranch, southeast of Lubbock. A wetter roast will be enjoyed, and plans for the band trip will be discussed by the group.

Band members will leave the administration building at 5:30 p. m. in cars, for the picnic grounds. The outing is planned as a rest after having played during the recent West Texas Chamber of Commerce convention where the band met all the trains, and led the visitors in a parade through the downtown district. The band also participated in the five-mile march, jointly, with the T. C. U. band, later playing a concert east of the Hilton Hotel.

After meeting the special Dallas train, and leading the men from that city to the hotels, the band was given a breakfast. Mr. Anderson assured members of the band that he would see that they would get to attend the Dallas fair next fall.

Another work done by boys of our

band was to play for the "Spirit of Progress" pageant, which was given last Friday night.

Solon Clements, secretary of the band, is in charge of transportation for them to the picnic grounds. Anyone that has a car and wishes to take some of the members should see him as soon as possible.

Harry LeMaire, director, states that complete plans for the summer tour will be made soon.

TO TAKE PART IN PLAY  
Miss Ruth Pirtle, head of the department of speech of Texas Tech, now doing graduate work at Columbia during a leave of absence, will take part in the national Little Theatre tournament to be held in New York soon. Miss Pirtle is working with the Morningside players of Columbia.

SENIOR ELECTED PRESIDENT  
Spanish club met last Tuesday night and elected officers for the coming year. They are as follows: Faye Bumpas, president; William Nelle, vice-president; Mert Woodson Jones, secretary; Geneva Adanson, treasurer; and Eunice Cone, reporter.

SPECIAL  
Write for details of annual plan to help new young people to prepare for business first come, first served. Write jobs, Dragstone College, Dept. 1A, Dallas, Wichita Falls, Ardmore or Lubbock, Texas.

# Horned Frog Band Plays While On Lubbock Trip

FORT WORTH, May 21—Concluding its public appearances for the year the Horned Frog band of Texas Christian university attended the West Texas Chamber of Commerce convention in Lubbock last week. Ten concerts were given en route to Lubbock. Stops were made at Weatherford, Ranger, Eastland, Cisco, Baird, Abilene, Sweetwater, Snyder, Post and Slaton.

Last year the Horned Frog band was awarded a silver loving cup for the best band entered in the university division of the band contest sponsored by the West Texas Chamber of Commerce during the convention held in Abilene.

Thirty-five members of the band under the direction of Prof. Claude Samuels and Jo Brice Wilmet, drum major, made the trip to Lubbock Thursday on the special train from Fort Worth. Last month the band attended the East Texas Chamber of Commerce convention in Marlin.

Other trips made by the band this year include those to College Station, Houston, Breckenridge and Dallas during football season.

Public appearances in Fort Worth this year have been made at the Lake Worth Casino, Fall Stock show, Straw Hat parade and several conventions.

# Annual Freshman Day Is Observed

Attendance at the annual Freshman day affair for this year, held last Saturday, numbered between 200 and 300 students. The picnic grounds were at Wildwood, near Quitaque. Dancing was continued for several hours during the day, an orchestra having gone with the group.

Special games were directed by Miss Zella Riegel. Other features of the entertainment included a hike over the hills, swimming, baseball game, and an improvised track meet. A chicken lunch was served by the women of the Quitaque church.

In charge of arrangements for the affair were the sponsors, Lonnie Langston and Mrs. Burnett Cox, and the class president Mat Seymour.

# La Ventanas

(Continued from Page One)

the cattle along the road; driving the cattle through Fort Worth; a chuck wagon scene; loading cattle at Abilene, Kansas, and lastly, the cowboys returning to Texas.

Pictures of the buildings are done in charcoal and in water colors. The sub-division work is done in pencil sketches, charmingly artistic and original. Each division has its comparison in a past equivalent. For example, along with a football drawing there appears parallel with it, the old time cowboy amusement of trying to catch a greased pig. With the military there is the Texas cavalry of early days; the Pre-Meds are represented with a horse doctor in action; the home economic girls have a sketch of a frontiers-woman knitting. Each of the 35 clubs in Tech is thus similarly characterized, and each page of La Ventanas is originally thumb-marked.

Covers Entire Page  
The feature sections cover an entire page—extending far into the margin. In the upper outside corner of each page there are bands which tell a story, each different. A hand fingers the button on a freshman cap, to represent the freshmen; another holds a Torfador for a reader.
