Texas Tech Fall Enrollment Cracks Record Mark

Yearbook For 1935 Features Collegiate Life

Tech Tenth Anniversary Will Be Theme Of La Ventana

With 1100 La Ventanas already sold, sales are expected to be well past the 1200 mark before registration is completed, according to Editor Howard Reed.

The 1935 yearbook will carry out the Tech tenth anniversary theme. The color scheme will be worked out in red and black. The recently constructed dormitories will be featured throughout the book.

The first 500 pictures, which are to be made at Brown's Studio, will cost only \$100. All those remaining will cost \$125. The Southwestern Engraving company of Fort Worth has been awarded the engraving contract, and the Economy Advertising company of Iowa City, Iowa, has the printing contract.

Editor Reed will not announce his staff until next week. Hal Hitchcock is business manager and Everett Fairchild is art editor.

The 1935 book will be as large as the 1934 La Ventana, according to Reed.

College life, personified by the antics of two typical collegians portrayed by Fairchild, will be the predominant theme. Students are urged to sign for their annual and subscription to the Toreador at once.

Las Leales Hosts For Informal Tea At Women's Dorm

Las Leales will entertain all the freshman girls with an informal tea at the women's dormitory Sunday afternoon from 4 o'clock to 5:30. This is an annual affair of the Las Leales club given especially for the freshman girls so that they may become acquainted with college life.

Those who will be in the reception lines are: Mrs. Mary W. Doak, Mrs. Elizabeth Young, matron of the girls' dormitory, Mrs. Buford, matron of the boys' dormitory, Mrs. Lucille Craddock, dietitian for boys and girls' dormitories, Mrs. Charles Maedgen, Miss Mabel Erwin, Dean Margaret W. Weeks, Rebecca Goodloe, president of Las Leales will also be in the reception line. The rest of the members of Las Leales club will form the house party.

Junior Council To Sell Howdy Tags Tomorrow

Say "Howdy" to your classmates today and tomorrow with a Howdy tag. The tags are being sold by representatives of the Association of Women Students and by Junior Council members.

The sale is sponsored each year, and proceeds will go toward furnishing a club room for the two organizations.

Enrollment of Warren Bachels as a freshman at the age of 13 this week was revealed by University of California registration officers at Berkeley, California.

College Calendar

FRIDAY, OCT. 5:
Baylor vs. Tech.
Ko Shari Buffet.
A. W. S. Tag Day.
SATURDAY, OCT. 6:
A. W. S. Tag Day.
All-College Dance (A. W. S.)
Centaur Coffee.
SUNDAY, OCT. 7:
Opening sermon—gym—8 p. m.
Y. M. C. A.—Seaman Hall—4 p. m.
Las Leales freshman tea.
MONDAY, OCT. 8:
Engineering society—Eng. auditorium 7 p. m.
Forum—3:15—7 p. m.
TUESDAY, OCT. 9:
Aggie club—Pavilion—7:30 p. m.
Officers—Armory—7:30 p. m.
Home Ec club—H107—7 p. m.
Gargoyles society—E203—7:30 p. m.
Debate—202—7 p. m.
Convocation—11 a. m.
WEDNESDAY, OCT. 10:
Double T association—gym—7 p. m.
Social clubs—7 p. m.
Last day to register for fall work.
W. A. A. Cabaret party for women.

Heads Students

LEON INCE

Student Prexy Welcomes Fish

Leon Ince Urges All New Students To Observe Tech Traditions

Leon Ince, president of the student body, issues a letter of welcome to all new students in Texas Tech.

"Welcome freshman! The old students of Tech welcome all freshmen and transfers to the campus. We hope that every new student will take an active part in some activity in order to get the most out of college. All of you are urged to attend and support pep rallies, ball games and social gatherings in your respective division. Respect and help build up our college traditions, and help us to keep our democratic spirit by being friendly—say 'Howdy' to everyone.

There are two new buildings on the campus. Let us keep them clean and unmarked so that they will be a credit to the institution and to the state. Co-operate with college officials and develop a true college spirit, and last, be a booster for Tech, on the campus, among friends, or in the home town. Freshmen and transfers, we welcome you to our campus!

Sincerely,
Leon Ince"

Fish Girls Guests Of WAA October 10

Freshman girls will be guests at the annual cabaret night to be sponsored by the Women's Athletic Association October 10 in the gymnasium. Plans for the party were made at a cabinet meeting Wednesday.

Committee chairmen appointed were Nancy Ruth Leaverton, program; Zonice Reeves, decorations; Doris Hopping and Louise Crenshaw, tables; Louise Campbell, refreshments; and Frankie Ricketts, favors.

Dancing will be part of the entertainment, and an orchestra will furnish the music. Dollie Clements, WAA president, said. Other officers are Virginia McGee, vice-president, and Lucille Hall, secretary.

Girls To Become Tailors In Class

Girls enrolled in a tailoring class taught by Miss Mabel Erwin, head of the clothing department, will take orders for tailored garments, Miss Erwin announced Wednesday. The course is listed in the catalogue as Clothing 331X.

An institutional management course is being offered for the first time by the home economics division, Dean Margaret W. Weeks, of the home economics faculty said.

The dormitories will be used as laboratories, and the course will be taught by Miss Lucille Craddock, dormitory dietitian. She will be assisted by Miss Elizabeth Fry and Miss Carolyn Cason, assistant dormitory dietitians. The former is a graduate of CLA, and the latter of Texas university.

Ten students had already enrolled Wednesday, Dean Weeks said.

EDUCATOR DIES

LaFayette, Ind., Oct. 4.—Fellow educators and students this week mourned the passing of Dr. George Brandenburg, head of the department of education at Purdue University and director of the Purdue Summer School, following his death from a heart attack.

Mike's Fate Is Unknown As Editor Misses Copy And Gets Substitute

MYSTERIOUS Mike is no more. And his fate is as mysterious as his identity has always been. All was well, and Mike was riding the crest of his Winchell career, when suddenly his insinuations ceased to be shoved under the door of the Toreador office, and he was heard from no more.

Whether he was caught in the key hole and died of strangulation, or whether some victim unearthed his identity and knifed him in the back is not known, but it is generally believed that some dire fate has befallen him.

Mike was extremely popular, in a way, with every Tech student, and his disappearance will be mourned by all.

But when the Toreador found that Mike was irretrievable, it set about at once to find a substitute, a task hard to accomplish. But the

Matador Band Members Will Buy Uniforms

Officers To Be Elected Soon; Chick McElya Named Manager

Texas Tech Matador Band started sectional rehearsal last Wednesday night and voted on a temporary uniform, which the band boys will pay for themselves.

Drill rehearsal started Thursday night and all last week members practiced two hours each night to be in shape for the game tonight. As soon as the band is completely organized it will have regular practice sessions on Tuesday and Thursday nights.

Credit is given for band if the members sign up for it. Professor D. O. Wiley expects a hundred in the organization in the near future. There is a large majority of freshman players at present.

They will elect officers in the future, but Chick McElya is Manager of the band again this year, and Richard Godeke is Drum Major again.

Officers will be elected in the future. Chick McElya, manager, and Richard Godeke, drum major, are holdovers from last year.

Forty Boys To Be Table Hosts

Upperclassmen Chosen As Supervisors For The Dining Room

Forty boys were elected Wednesday night at the boys' dormitory to act as hosts at each of the forty tables. These boys are to look after the freshmen especially, and take care of the needs of their tables. They will also act as the part of student advisors. Only upper classmen were elected.

The following boys were elected as hosts: Robert Karmegay, Don Miller, James Ethridge, Robert Harding, H. S. Creswell, Jack Nowlin, Charles Cosgrove, Melvin Schumpert, Dudley Roy, J. T. Esperson, Joe Elder, Bob Tracy, Preston Connerly, Wilson Gilmore, Carlton Thomas, Fred Biffle, Cy La Master, S. J. Sumner, Elva Baker, Fred Garland, Cecil Kersey, Alvin Crowe, Wilson Grimes, Floyd Williams, Earl Gobie, Spencer Campbell, Pete Higgins, Ed Klein, Bill McMurray, Dudley Wooten, Irvin Hergert, Wilnot Eaton, J. R. Earnest, Robert Butcher, Orphie Spikes, Delbert Phillips, Bill Lewis, Forrest Weimhold, Paul Hall, and Tom Taylor.

Debate Club, Sock And Buskin Announce Plans

Announcing the first debate club meeting of the year, Anna Jo Pendleton, debate coach, requested that all students interested in debate be present next Tuesday night at 7:15 in room 202 of the administration building.

Sock and Buskin, Tech dramatic club, will meet Tuesday night, October 16, according to Ruth Pirtle. All students are invited to the first meeting. Tryouts will be held to determine the new members, Miss Pirtle announced.

Assembly Set For Tuesday Morning

Policies of Texas Technological college will be President Knapp's subject at the opening convocation for the fall semester Tuesday morning, October 9, at 11 o'clock in the college gymnasium.

Eleven o'clock classes will be dismissed so that all students and faculty members may attend.

Dr. Knapp urges that the entire student body be present at this convocation, as it is one of the most important meetings of the year.

The Tech band, under the direction of Prof. D. O. Wiley, will furnish appropriate music.

Engineering Society Will Meet First Time Monday

All freshman and upperclassmen engineers are urged to attend the first meeting of the Engineering society at 7 o'clock Monday night in the engineering auditorium.

Acting-president Truman Green has announced that a permanent president will be elected at this meeting. Plans will be made for the all-college dance sponsored this semester by the society.

Tommy Chesser is chairman of the nominating committee; other members are Ross Watson and Dyche Kelly.

AWS To Give Silver Tea Sunday At Dormitory

Lubbock citizens will have an opportunity to visit the new dormitories at a silver tea to be sponsored by the Association of Women Students Sunday afternoon, October 14. AWS council members and members of the Junior council will be in the receiving line.

Stunt night, which was to have been sponsored by the AWS Wednesday night, has been postponed indefinitely, Emily Davis, president of AWS, said.

Wind Thru the Sallyport

We suppose that by this time everyone knows UGSY WUGSY CURFMAN.

FISH BASS is no relation of the late SAM BASS, but he says he's plenty tough.

We hope the SOOKYS and CHAPS got all of their prospects.

Spirit Of West Returns As Aggies Stage Annual Rodeo And Horse Show

Homer Brumley Is Manager Of Affair; Barbecue, Parade And Two Performances Are Featured

SPIRIT of the old West will hover over the campus when the Texas Tech Aggies stage their fifth annual rodeo and horse show Friday, October 12.

Officials of this year's rodeo are Homer Brumley, manager; Billy Murray, assistant manager; Casey Fine, publicity manager; and L. M. Hargrave, chairman of the grounds committee.

The affair will begin with a parade which starts from the "big hat" on the campus at 12:45 p. m.

There will be two performances, afternoon and night. The night performance will include a free barbecue at the pavilion, which will be prepared by Joe Bairdridge, local business man.

Will Benefit Judges

Benefits from the rodeo will go to the Senior Livestock judging team which expects to make two trips, one to the international at Chicago the first Saturday after Thanksgiving and the American Royal at Kansas City on or about October 20.

This year's method of nominating the rodeo queen has been changed. Each organization in school will submit a nominee properly attested to by twenty qualified members. The election is to be by the student body Monday, October 7. Organizations wishing to enter candidates should get in touch with Casey Fine or Homer Brumley by Saturday.

Teams Rank High

Each year for the past five, the Block and Bridle club assisted by the division of agriculture has been sponsoring this event in order to aid the judges. Last year the team was sixth at Kansas City and the highest Tech has ever acquired there. The team placed third at Chicago with highest Tech individual ranking sixth, the highest a Tech team has rated at that event.

This year's team will be selected this week by Ray Mowery, coach of the judges, from the following candidates: Homer Brumley, Billy Murray, Herbert Davis, Floyd Wilkes, Henry Elder, Casey Fine, L. M. Hargrave, Sidney Dunne, J. P. Smith, and Jot Smyth.

Speech Clinic To Open Here

Kiwanis Club Sponsoring Program To Assist Underprivileged

Announcement of the opening of a speech clinic in the Lubbock sanitarium under the direction of the Tech department of speech has been made by Ruth Pirtle, head of the department.

The program carried on by the clinic is a part of the Kiwanis campaign to all the underprivileged. Examinations will be given by Dr. Hutchinson at the sanitarium. Literature, exercises and lectures given by the speech department at the sanitarium will constitute the corrective course which will meet every Thursday at 1 o'clock.

Those interested may call at the speech office or the sanitarium for information.

Aggies To Have Meeting For Freshmen Tuesday

The Aggie club will hold its first meeting of the year Tuesday night at 7:30 in the agricultural pavilion. Freshmen taking agriculture and all of the old members are invited.

The sponsor for the club will be elected at this meeting. Other important plans for the year will be discussed.

The officers of the Aggie club are Jot Smyth, president and Ray Dunlap, secretary.

Library Changes Are Announced

Changes in the operation and personnel of Tech library have been announced by Miss Elizabeth West, librarian.

The student staff for this semester includes Madeline Neves, secretary; Miss West, Carl Harper, Jim A. Hart, C. E. Mitchell, Cecil Key and William Nelle. Berry Duff, who planned to work in the library, has enrolled in the University of Wyoming.

In the cataloguing room Miss Ray Stillwell is the new full-time professional assistant. Mrs. W. C. Holden will give the library lectures in freshman orientation and have charge of the loan desk and reference work.

The checking machine, which was installed this summer, will not be used this semester. The identification cards have been changed to fit student requirements.

Students must report immediately at the loan desk the loss of a card so that it may be recorded as canceled.

E. E.'s Hold First Meeting Tuesday

Members of the Tech branch of the American Institute of Electrical Engineers will have their first meeting Tuesday night, October 9.

Officers of the local branch are Eric C. Mayo, chairman; Thomas Young, vice-chairman; Marion Royall, secretary; and Professor C. V. Bullen, counsel.

A representative from the General Electric office will lecture on "The Application of Electrical Engineering in Petroleum Engineering." Other lectures will be presented by local engineers.

Tech engineers are working on a project, "A Photoelectric Sweep Circuit for a Cathode Ray Oscilloscope" to enter in the district meeting in Oklahoma City next spring.

Ruth Thompson, a June graduate in home economics, will teach in Sierra Blanca this year.

Dorms Bring Social Life To Campus As 600 Students Face New Experiences

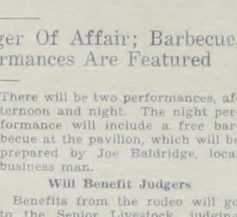

Lights shining through the windows of the new dormitories each night rid the campus of the deserted air it used to have after sundown. Life and activity have come to the residence of more than 600 students on the campus.

Sunday afternoon excited students moved baggage and belongings into unfinished rooms and forgot to complain about the hardships of living in incomplete buildings.

Sans Everything

Sans beds, sans lights, sans silverware, sans rugs, window-shades, showers, and mirrors, the boys spent the first few days in their campus home. Most of the beds did not arrive until Tuesday, so the first two nights the boys were forced to find themselves something to sleep on. One dignified senior told of laying two mattresses on the floor, folding up his raincoat and

Tech President

Dr. Bradford Knapp, college prexy, is beginning his third year as head of Texas Tech. According to the president, indications point to a banner year.

Speech Clinic To Open Here

Kiwanis Club Sponsoring Program To Assist Underprivileged

Announcement of the opening of a speech clinic in the Lubbock sanitarium under the direction of the Tech department of speech has been made by Ruth Pirtle, head of the department.

The program carried on by the clinic is a part of the Kiwanis campaign to all the underprivileged. Examinations will be given by Dr. Hutchinson at the sanitarium. Literature, exercises and lectures given by the speech department at the sanitarium will constitute the corrective course which will meet every Thursday at 1 o'clock.

Those interested may call at the speech office or the sanitarium for information.

Bob Walker, Still Are Yell Leaders

A crowd of some 2,000 enthusiastic students and fans packed the gym Tuesday night at the first pep rally of the year. Bob Walker of Kerens, former yell leader, and Charles Still of Fort Worth, were elected head yell leaders. Fish Taylor was elected to lead the freshmen.

Dr. Bradford Knapp, president of the college, made a talk and the coaches and football team were introduced. The Matador band, under the direction of D. O. Wiley, was on hand to add pep to the affair.

Another pep rally was held last night preparatory to the game with Baylor's Golden Bears tonight at Tech field.

'Howdy' Dance Scheduled Saturday At College Gym

Ned Bradley's orchestra will play for the first All-College dance of the year, which will be sponsored by the Association of Women Students Saturday night in the Gym from 9 to 12 o'clock.

This "Howdy" dance will follow the sale of Howdy tags by AWS members today and tomorrow.

Prices for the dance are the same as last year, 75 cents date bids and a dollar for tags. Tickets may be obtained now from Eli McAngus and Earl Dodd, dance managers.

Local Y Clubs Will Hear Mrs. Horn

Mrs. Paul W. Horn will address members of the YWCA and YMCA in a joint meeting Sunday at Seaman Hall from 4 o'clock to 6 o'clock on "India."

After the lecture there will be an informal tea to which the student body is invited.

This will be the beginning of a series of lectures dealing with foreign countries. They will make a special study of the religion, social customs, politics, philosophy, and the people themselves in this study of foreign countries. An informal tea will follow.

Elizabeth Connor is president of the YWCA and Melvin Schumpert is president of the YMCA.

Toreador Staff In Meeting Today

Staff members for the 1934-35 Toreador, official publication of the college, will be selected this afternoon at two o'clock. The meeting will be held in the editorial room of the Toreador located in the north basement of the engineering building.

All students enrolled in the school of journalism are urged to be present. No assignments and beats can be issued to those who wish to do laboratory work on the paper.

(Continued on Page Eight)

New High Set As Enrollment Reaches 2094

Increase Of 10 Percent Is Noted Over Same Period Year Ago

A new high was set in enrollment records late Wednesday when 2094 students had paid their fees, according to a report from the registrar's office Wednesday night, while at the end of the third day a year ago, only 1473 had paid their fees.

Another record was broken when the total number of students in process of registration numbered 2,205 at the end of the third day. At the same time a year ago, approximately 1,500 had begun registration. The total registration for the fall semester, 1933, was 1,943, and the total for the year approximately 2,350.

Classes Are Full

"I can not predict what the total enrollment will be, but I feel confident it will be a very excellent increase over a year ago," stated President Bradford Knapp. "All classes are full and many of them are over-crowded."

The two new dormitories were jammed to the capacity of 325 students each the first day after registration, with many reservations turned down, and many of the first year compelled to go elsewhere. Approximately three-fourths of the students in both of the dormitories are freshmen.

Finishing Touches Added

The two new buildings were rushed to completion the last week of September, and the finishing touches are being added this week. The buildings were erected through a Public Works Administration loan of \$672,000.

Figures were not available on the exact number of students registered in each division of the college, but it is approximately ten per cent increase over this time last year.

With over a hundred students yet in process of registration, and with a hundred more to begin before the deadline October 10, registration figures should swell over 2500 for the 1934-35 year.

Course Is Added In Architecture

A course in clay modeling has been added this year to the department of architecture. F. A. Klenschmidt, head of this department, will supervise the work. He will be assisted by Frank Standhardt of Roswell, N. M.

Clay modeling is required for all art students, and architects may use this course as one of their electives. Students will make models of the plaster casts drawn the year before, thus giving them a more definite idea of the third dimension. Following this, each student will work out a design of his own and those suitable will be copied in plaster casts.

Bob Walker, Still Are Yell Leaders

A crowd of some 2,000 enthusiastic students and fans packed the gym Tuesday night at the first pep rally of the year. Bob Walker of Kerens, former yell leader, and Charles Still of Fort Worth, were elected head yell leaders. Fish Taylor was elected to lead the freshmen.

Dr. Bradford Knapp, president of the college, made a talk and the coaches and football team were introduced. The Matador band, under the direction of D. O. Wiley, was on hand to add pep to the affair.

We Begin

Another college year has turned the corner, and the Toreador staff faces the assignment of putting the paper to bed every week during the next nine months.

The Toreador is not ours—it belongs to the entire student body. A great responsibility rests with us in gathering and writing the news, but this is only a small part of a college newspaper. You have just as great responsibility in co-operating—first in giving news of importance willingly and freely, and in the second place seeing that your criticism is justified before hurting the paper.

We don't expect any compliments but we do expect much criticism since it is the general tendency to criticize a publication rather than to praise it. If you are dissatisfied with your paper, don't circulate destructive criticism; take the matter up with staff members.

We have no friends to reward and no enemies to punish. We are not interested in any movement or organization in any way except from the standpoint of news value. The Toreador is strictly a student paper and will attempt to present the news fairly and in such a manner as to serve the greatest number of students in the most efficient manner we know how.

It is the desired object of the staff to publish a newspaper full of interesting news which will be read and commented on favorably by the majority of the student body.

The Toreador will be one hundred per cent behind only those things that are FOR the college.

A Chance Of A Lifetime!

Another four-ringed educational circus has opened to Texas Tech students this week. Some have the thrill which comes only with freshman days, while others are looking forward to education and the world beyond. Still there is within all a spirit which thrills all alike when they hear the Mator song or the thrill of some collegian's voice when they yell, "Yeah Tech."

The opportunity for associations and extra-curricular activities in Tech is unlimited and the student who pulls back and waits for someone to push him through is lost. The time to begin is at the beginning of the school year.

Don't be a stranger; the school is a public institution and the students are the citizens. It is the duty of every Tech student to get a ticket to the show and observe all four rings and the clowns too. It is the chance of a lifetime! The student who tries to slip in and slip out unobserved is missing what college really offers.

Don't get the impression that being a "regular fellow" and taking part in everything should take away the responsibility of studies. The two will mix and give a very pleasing result.

Old students, freshmen and transfers, when the call is made for a pep meeting or a session of your club, when the lights flash on at the Mator playground and the cheer leader calls for some strong vocalizing, when work is asked to be turned in a certain time, make it your duty to see that YOU respond.

The show has started, hurry and get your tickets before it's too late for the first performance.

"The Voice Of The Students"

In this issue of The Toreador is printed the first "Student Forum" of the year. One of the most important functions of a college newspaper is to stimulate thought and discussion among the readers whom it serves. The paper should be the proper medium of expression for discussion not only of campus affairs but of local and national events as well. Now is the time to start a serious discussion of the problems we will soon face.

Therefore, The Toreador invites its readers to take an active part in this "Student Forum" column. It is your column in the most personal way. It is the "voice of the students." Take advantage of it. The column is open to any student, faculty member or administrative official. The Toreador policy is to encourage contributions.

The use of this column will prove of benefit to both contributor and reader. The Toreador will welcome any article criticizing itself or any part of Tech, with the proviso that such criticism be fair and constructive, and not malicious or personal.

Well-considered, thoughtful criticism is a great aid to progress. The Toreador hopes that this year's student body will take full advantage of this column. Enlightened discussion of problems both local or foreign, will be of benefit to everyone.

AROUND THE CAMPUS

By JAMES ETHRIDGE

One complete optimist has been found among all of the present students of Tech. A freshman went into the office of the employment bureau last week and asked: "Would you show me a list of the jobs you have? I want to see if there are any one the list that I want."

Can you beat this for a definition of college? A place where one learns expensive habits.

The baby of the college is Fish Cessy who is fourteen years old and weighs about ninety pounds. He lacked less than one point of being valetudinarian at Hermeleigh High school, where he graduated last year. He is going to major in textile engineering and may beat Bill Luce's record of being the youngest student to finish the engineering school. Luce was nineteen.

Fish "Coach, did you hear 'bout 'Juicy' Owen breaking a leg?"
Cawthon: "My guard!"

The conversation of some people reminds us of the magazines in a dentist's office. (That is, very old. Explanation was for freshmen and graduate students.)

The Harvard student newspaper, in an article to freshmen told them that they were beginning the final stage of their life's education. According to the editorial the students were fully prepared for life after they had received their degree showing that they had completed four years of academic work.

Do you think that the college graduate is ready for life if he has not learned to be independent, to have confidence in his own ability; or if he has not learned to make connections with friends who can help him in life; if he has not learned that this is a hard world for romanticists, who live in the clouds with their ideals?

Brief comments: We think that Prof. Wiley should be commended for the improvement that he has made in the Tech band. We read a definition by Ramon Navarro that some of you proof-readers may like: "Women-phooey." A freshman who registered Tuesday said that she wanted to find a professor whose name sounded like a brand of beer.

STUDENT FORUM

The Toreador invites the writing of student editorials or letters, for publication in the Student Forum column. Editorials must pertain to campus problems and must be signed by the writer, although names will not be used on request. The editor reserves the right to reject any and all articles. Contributions of 200 words or less will receive preference.

Praises Wiley And Band

To the Editor:

I think that Tech's new band director, D. O. Wiley, should be commended for producing such an excellent band two weeks before school opened. It is certainly a good indication that Tech will have a good band this year. The day after football practice got under way, a good two weeks before the opening of school, he assembled more than fifty musicians from goodness knows where, and began practice for the two pre-school football games. If Wiley can do that much with no students enrolled, Tech band should really show a substantial increase in both numbers and quality with some 2,000 students to draw from.

A Tech Band Fan.

Says Action Unfair

To the Editor:

I am not closely connected with either of the student publications but I noticed an action towards one of them that I thought was very unfair. The Tech Athletic Council has refused to give complimentary passes to one of the publications, explaining that the sports writers could get material concerning the game from other sources. The downtown newspaper receives several passes but an organization devoted entirely to the cause of furthering the interests of the college was refused any passes at all. This may have been due to a slight misunderstanding, but I hope that the Athletic Council will realize that a close feeling of co-operation is necessary between organizations if the best work for the school is accomplished. J. E.

An honest man in politics shines more than he would elsewhere.

Prexy's Paragraphs

BY BRADFORD KNAPP

WELCOME to all students on the opening day of the new college year. Our task during the summer has been difficult. The delay has been unavoidable. We are fully conscientious that the whole atmosphere will be charged with hurry and almost confusion in getting registered and located for the new year. I beg that we may catch and all of us retain a sense of poise and good humor and patience. I urge both staff and students to exercise these virtues and to work together that all may be speedily settled in their work for the new year.

THE dormitories are almost ready. The contractors and all connected with the work have done well. Little detail is yet to be finished. I beg your indulgence and your patience while these things are done. Sidewalks are yet to be built. There is painting and some decorating still to be done. The lounge room furniture will be here during the week. Some comfortable wood-arm chairs for the rooms could not be here for the opening of school because of a strike at the factory.

NOTICE that they are calling the women, who have been employed to have charge of the dormitories, "Social Directors" to contrast them with the business director. I approve of the name as a trial, but I hope the students will call them "Mothers." If they should be known affectionately and really by the student body as "Mother Young" and "Mother Buford" and if they should earn these titles by their solicitous and kindly work for the comfort and good of the students who come under their charge, I shall feel that they have won their way into the hearts of the students of this institution.

WE ARE entering a new year. What are to be the products of this year? Are we simply to memorize set rules and regulations and precepts laid down in books or pronounced by teachers? What are the products of real education? I do not know that I can name them just as others might name them, but to me, these things are important: That I shall make progress in self-control; that I shall gain in intellectual capacity; that I shall grow in social grace, by which I mean kindness and perfection of attitude toward other people; that I shall perfect myself in true moral worth; that I shall gain in the development of my spiritual life; and then, last, but not least, that I shall try in an all-around way to gain in these things, and through them, that I may find satisfactory service, both for myself and for all with whom I come in contact in a very complex world.

AMONG THE ALUMNI

Roger Clapp, 1934 graduate in mechanical engineering, has been employed as an instructor in the mechanical engineering shops at the college.

Florence Barrett, one of the June graduates in vocational home economics was elected to teach that subject in the Hamilton, Texas school system this year.

Two of Tech's recent graduates in textile engineering were in the center of action during the recent textile strike. Basil Hill and Don Maddox, both of whom have been president of the student council in Tech, are working for textile mills in the southern states. Hill is located in Alco, Georgia with the Goodyear Tire and Rubber company, while Maddox is with the Dixie Merserizing company in Chattanooga, Tennessee.

Jesse Young, June 1934 graduate in the division of agriculture, is teaching vocational agriculture in Meadow, Texas. Young was a member of Tech's Senior livestock judging team last year.

William (Billy) Bush, 1933 graduate in the division of arts and sciences, has been elected to the faculty of Wesley Junior college in Greenville. He will coach and teach mathematics.

Ellis Foreman, 1933 graduate in business administration, is employed full-time at the college bookstore. He attended Tech both summer sessions and worked part-time at the bookstore.

Eloise Lancaster of Teague, who finished Tech this past August, has been elected teacher of home economics in the school system of Throckmorton.

J. Doyle Settle, postmaster of Tech at last year and graduate of this college, was present at the Texas university-Texas Tech football game September 22. Settle was elected to the House of Representatives and was accompanied by other representatives to the game.

Howard (Snooks) Price, Tech August graduate, is working in a dental laboratory in Amarillo this fall.

Nudism Again
ST. MARY'S COLLEGE, Calif., Oct. 4.—Nudism became an issue here this week with the publication of a letter sponsored by student body officials who condemned the habit of students appearing unclothed in and near the campus swimming pool. "The campus of St. Mary's is no place for a nudist," the letter warned.

Co-eds at Duke College were boycotted recently for criticizing the table manners and actions of men students waiters. The girls were neither dated nor spoken to by the Duke men during the boycott.

CAMPUS ECHOES

By Jim Lindsey

Much has been written about the resemblance between life and a football game. From Coach Alonzo A. Stagg, former athletic director of the University of Chicago, comes the latest comparison: "All the world's a football game and we are players in it," declared Coach Stagg. The football mentor has arranged what may be called an "allegorical all star eleven in the football game of life."

The coach is discipline, and here are the players:
Center—Work.
Quarterback—Dependability.
Fullback—Obedience.
Halfbacks—Self-control and self-reliance.
Guards—Participation and co-operation.
Tackles—Honesty and courage.
Ends—Perseverance and confidence.

In the good old days classes were opened with prayer; now we pray for them to close.

Judge R. C. Price of an Alabama police court issued a list of 32 "don'ts" to students. Included in this list were: "Don't give bad checks"; "Don't curse in the presence of women"; "Don't appear in public places insufficiently clad," etc.

In these days a girl's waistline isn't half as important as her outline.

Cafeteria Reflections
Woe to the girl without red hair.
'Cause when the pickin's done, She's not there,
Blondes can rave and rant and tear,
But with brown eyes—
Well, it just ain't there.
You see, she's the one—
Brown eyes calm and nice—
Who sits during the lunch
At the same table twice.
—The College Star.

Sometimes a lonely girl goes for a stroll on a winter's evening and has a chap on her hands the rest of her life.

The College Star, official publication of Southwest Teachers college, gives this as a definition of school: "A place where parents send their children to get rid of them; also often a place where the children go to get away from home."

Advice to the freshman girls: Perhaps you had better tie onto a boy friend at the first opportunity. This is a good antidote for day dreaming.

Heard an upperclassman telling an innocent frosh girl that a hot dog stand is a new kind of acrobatic stunt. She believed him too.

According to the South Texan,

Seaman Hall To Be Student Center

Seaman Hall, Episcopal student center located just off the campus on Sixteenth street, will be available to the student body and the faculty of Texas Tech again this year, according to officials.

Tech faculty will use the Hall as a meeting place for its organizations, and the students will use it for their activities, which are approved by the college administration. The Hall will probably be operated on co-operative basis.

For Episcopal students the Holy Communion is administered every Sunday morning at 8 o'clock, followed by a breakfast on the second Sunday in each month. Outstanding preachers and lecturers will be brought here this fall and spring. Creighton Chapel, which is a room set apart within the building for religious uses, is always open to visitors.

Seaman Hall is a gift of the women of the Protestant Episcopal church to the student life of Texas Tech. Mrs. M. V. Gray is the resident housemother, and the Rev. Lytle S. Barnett is the minister in charge.

The oldest musical instrument known to man can still be played. It was made out of a lion's tooth about 30,000 years ago. The notes "D" and "G" can be clearly sounded on it.

We promise to do better next time, and the editor says he will if we don't.

Fraternities Lead
LOS ANGELES, Oct. 4.—Relative scholastic standings of members of the 19 fraternities at the University of Southern California, released this week, revealed that Tau Delta Phi, Sigma Phi Epsilon and Beta Kappa lead all other houses in the order named.

GOOD LIGHT AT LOW COST

On October 29th, 53 years ago, Thomas A. Edison gave the world its first practical incandescent electric lamp. It gave only a tenth as much light as you get from a standard lamp of the same wattage. The high cost of current of that day, also, made electric light expensive.

To make sure that the lamps you use will give you all the light you pay for, use a lamp with the trade-mark of a dependable manufacturer.

DFD Has Party For Rushees

Slumber Party Is Given At Davis Home On Saturday Night

D. F. D. club began its fall season with a slumber party for rushees last Saturday night in the home of Mrs. Garland E. Davis, 1634 Eighteenth street.

The group attended the Tech-Murry football game and returned for a midnight supper. Mrs. Davis served a waffle breakfast Sunday morning.

Club members were hostesses again Sunday evening with an Oriental supper at 8 o'clock at the Hilton hotel. Japanese umbrellas and lanterns were plate favors and the menus were printed on the backs of hand-painted dragons.

Mrs. Langston, Co-Sponsor

Mrs. Lonnie Langston was introduced as special guest and the new co-sponsor of the organization. Miss Annah Jo Penleton is the other sponsor. Other special guests were Misses Doris Dell Tatom, Wilena Nelson, Virginia Newton, Lena Mae Boyd, Elise Tucker, Merle Scoggin, Beatrice Buchanan, Naomi Richardson, Elizabeth Prince, Elva Mae Hunt, Dorothy Abernathy, Vendelle Prudeaux, Elsie Crausby, Beatrice Seitz, Pauline Anderson, Mrs. Gordon Dickinson and Mrs. Mary W. Doak.

Club members are Misses Lillian Parish, Madeline Hughes, Helen Lehmer, Lorena Carter, Mary Elizabeth Stanford, Jane Woodruff, Eloise Smith, Mary Cammack, Martha Alice Penney, Josephine Powell, Evelyn Spaulding, Betsy Wilson, Mesdames Benton Teal, Davis, and Charles Stahl.

Las Vivarachas Club Gives Tea

Rushees were guests in the home of Miss Emily Davis, 1724 Main street, when Las Vivarachas club entertained Saturday afternoon with a tea from 4 until 5 o'clock.

The guests were Misses Dorothy Abernathy, Idyll Glenn Abbott, Ruth Marie Payne, Wilena Nelson, Pauline Edgett, Marian Hurnence, Elise Tucker, Mary Margaret Carter, Betty Bizzell, Doris Dell Tatom, Joy Williams, Mary Etta Bean, Maxine Reese, Lena Mae Boyd, Sue Ellen Evans, and Dell Kennedy.

The house party was made up of club members. They are Misses Frances McKee, Davis, Ruth Hurnence, Edith Young, Idell Bacon, Madeline Neves, Lois Houston, Lola Mae Grundy, Genell Stovall, and Louise Conner. Misses Sallye Bean, Patti Hopping, and Mesdames E. R. Heineman, and Albert Kimbro, alumnae, were also in the house party.

Tech Postoffice Begins Tenth Year

The Tech postoffice, established nine years ago, opened October 1, for the current year. The postmistress, Mrs. Edna Z. Brown, succeeds Doyle Settle, who was postmaster last year. Settle, a Tech graduate, was elected to the Texas legislature at the last election.

The postoffice is open from 9 to 12 A. M. and 1 to 5 P. M. daily except Saturday, when it is open from 9 to 12 A. M. only. The mail, however, is put in the boxes at 1:10 Saturday afternoon.

Thirty or forty additional boxes have been sold to students this year, Mrs. Brown said. The boxes, 148 in all, are rented for three months. Rent for the small boxes is 45 cents, for the next size 60c, and for the large size 75c.

The Tech branch functions like a city postoffice except for the cancelling of mail. All letters to college students who are non-residents of the city come to the Tech postoffice, and letters are mailed and parcels delivered from there. Students must call at the postoffice for registered and insured mail, Mrs. Brown said.

Lubbock Churches Hold Annual Open House For Tech Students Thursday

College students were guests last evening when the various Lubbock churches held annual open house. Unique programs were presented, "got-acquainted" games were played, and refreshments served.

The young people's department of the Central Baptist church presented an "Ice Palace" program.

Miss Powell, Chairman
Miss Josephine Powell was chairman of general arrangements at the First Methodist church open house. The receiving line was made up of the Rev. and Mrs. J. O. Haymes, the Rev. and Mrs. W. M. Pearce, the Rev. Marshall Rnew, Ethridge Eagan, Mrs. C. E. Masden, A. W. Evans, F. W. Sparks, Mr. and Mrs. C. Luker, Mrs. T. C. Delaney, J. J.

Sans Souci Has Coffee Sunday

Sans Souci club began its schedule of fall activities with a coffee Sunday afternoon in the Chimayo room of the Hilton hotel for new women students. Approximately 50 guests called.

Hostesses were Misses Mary Lee Bardwell, Frances Snyder, Wanda Butler, Billie Bloom, Nancy Ruth Leaverton, Mary Geniece Hardberger, Melba Watson, Lois Watson, Lois Pitts, Chrystell Scudder, John Aaga, Boyd, Christine Bundy, Jomi Bundy, Helen Barstow, Polly Schultz, Lena Belle Brown, Frances Burns, and Mrs. Bob Crawford.

Officers of the Sans Souci club are Mary Geniece Hardberger, president; Chrystelle Scudder, vice-president; Frances Burns, reporter, and Nancy Ruth Leaverton, inter-club council representative.

Ausmus-Haynie Wedding Is In Potts Residence

Miss Ora May Haynie, daughter of Mrs. F. A. Swenson of Fort Worth, became the bride of Graydon Ausmus, son of the Rev. and Mrs. F. J. Ausmus Saturday noon in a double ring ceremony performed in the home of Mrs. J. Frank Potts, 1714 Avenue X.

A reception followed the ceremony in Mrs. Potts' home. A buffet luncheon was served with Mesdames Potts and Gertrude Withers as hostesses.

Out-of-town guests were Mr. and Mrs. Swenson of Fort Worth, Mrs. W. A. Blank and Mrs. Logan Haynie of Amarillo, Mrs. W. E. Goodloe and Armond Swenson of Amarillo. There were several close friends and the groom's parents attending from Lubbock.

Mr. and Mrs. Ausmus will be at home after a short wedding trip in Idaho where the groom is head of the speech arts department in the high school. Mr. Ausmus is a graduate of Tech and Mrs. Ausmus is a senior student.

SUNLIGHT AND PINE TORCHES MAY HAVE BEEN GOOD FOR CAVE DWELLERS, but . . .

Eyes Work Harder At Modern Tasks

Primitive eyes were used for distant vision under high intensities of light—the blazing sunlight of outdoors. Modern eyes are used for close visual tasks under absurdly low intensities of light—indoors, in shadows, at night. Working with figures, small print, intricate machinery or sewing are tasks for the eyes very different from those of the original man. YET WE ARE USING THE SAME KIND OF EYES.

DEFECTIVE VISION IS MORE COMMON NOW

One out of every five grade-school children has defective vision today, and from high school to college age, the number is doubled. Constant use of the eyes for tasks far more severe than those for which they were constructed, and frequently under insufficient light, is taking its toll. Sixty per cent of all adults have defective vision. It's the natural result of Nature's iron-bound law of cause and effect.

At the very first sign of eye-fatigue or eye-strain, consult your Eye, Ear, Nose and Throat Physician for a thorough examination and medical advice.

Tech And Baylor Bears Clash Tonight Under The Arcs

Morley Jennings' Bruins Are Out To Avenge Two Former Matador Defeats

1934 Green-Clad Edition Reported Stronger Than 1933 Team

Coming as a main attraction to Lubbock for the third consecutive year, Baylor's Golden Bears will pit themselves against Tech's Red Raiders tonight at 8 o'clock on the local gridiron.

Coach Morley Jennings, famous proponent of the Jinx Tucker style of football and erstwhile dean of Southwestern conference coaches, has built one of the most powerful teams in Baylor history around Captain Joe Jack Pearce, Lloyd Russell, Aubrey Stringer and Penie Vlesby. Tonight at eight these men will attempt to wreak vengeance on the Matadors for the drubbing administered to them in the last two years by the locals.

Scrap Expected

Lubbock fandom, who turn out tonight to see the Matador-Baylor skirmish, will be treated to the most demonstration of football to be offered here this season. Baylor, fresh from a successful and very impressive 33-0 victory over the powerful St. Edward's university Tigers at Waco, was complimented by the largest turnout of fans ever to pack into the Baylor bowl. Tech, who played Texas Longhorns to a comparatively low score two weeks ago, was accorded the largest attendance ever brought together on a West Texas gridiron. With the moral support of such a great number of fans supporting the two opponents tonight, the game promises to provide one continuous round of thrills.

Martin Returns

To bolster the hopes of the Bull-headers tonight Coach Cawthon will probably send in Malcolm "Moon" Martin, captain and stellar end of the locals, who has been out of the game on account of a weak knee that did not heal in time for the McMurry scrap of last week. In addition to Martin, D. M. McElroy, speedy back, may see action in the Matador lineup tonight. Jennings, who is one of the few men of the Southwestern conference coaches to hold his berth since a recent fad of shakeups struck the circuit, has a reputation of building raw recruits into the deadliest threats in the conference. His prowess as a football mentor has been demonstrated in the living examples of the famous Jake Wilson and Botchey Koch. Both of these men were mentioned on almost every All-American team while they were the spangles of the Golden Bears.

May Shoot Works

Coach Cawthon of the locals will in all probability be called upon to shoot the works to keep down the threats of the invaders. Losses to the team by the graduation of some of the members of the greatest line in Tech history will be the problem for the Matador board of strategy to work out for the coming fracas tonight. Bennis McWilliams, Volvy Greer, Ealey Harris, Stud Turner, and former Captain Elva Baker will not be in the lineup as of last year when the two rivals met.

Matadors Win From Indians

Tech Registers The First Victory Of Season By A 24-7 Count

After playing listlessly for three periods against the aroused Indians from McMurry, Texas Tech came to life in the last quarter to repulse the Redskin raid 24 to 7. Although Tech scored a safety, registering two points, on the opening McMurry offensive play the Bullfighters realized before the first quarter was far gone that the McMurry lads were playing an inspired brand of football.

Score In First

After scoring a safety and a touchdown plus goal in the opening quarter, the Matadors were fought to a standstill in the next two periods by a stubborn Indian defense and a passing attack supporting a determined offense. Repulsed once on the Tech three-yard line after being held for four downs, the Indians came back in the final period to score on a short pass over the line, Bost to Carter, after a drive that was aided materially by a long pass and a 15-yard penalty against the Matadors.

McKeever Scores

Tech's fireworks came in the fourth quarter with Ed McKeever scooting over for a touchdown from the McMurry 30-yard line. Following another safety scored after McMurry had intercepted a Tech pass deep in their own territory, Harris, Tech fullback, ran back the subsequent kickoff for a touchdown.

Ed McKeever, member of the Tech secondary, and Red Bost, McMurry halfback were the outstanding performers of the evening.

Starting line-ups:

McMurry	Pos.	Texas Tech
Meek	le	Spear
Stoekton	lt	L. Browning
Brogdon	lg	W. Wilson
Brain	c	Fortner
Jeffries	rg	Nichols
Foreman	rt	Morris
Davis	re	B. Gilmore
Harliss	qb	Beauchamp
Carter	lh	Curfman
Bost	rh	Neill
Pratt	fb	Seoggins

TONIGHT the Matadors take on the Baylor Bears. For the past two seasons the Bears have journeyed to Lubbock to suffer stinging defeats at the hands of the Red Raiders. Morley Jennings' boys are getting tired of that, for no Southwest conference team would like to come to Lubbock to take a licking consistently at the hands of a non-conference school that is just getting started in a football way.

Now let us turn to some of our friends down at Texas university. In doing so, the first thing that we want to do is admit that the University of Texas beat the Matadors in one of the hardest-fought, cleanest football games ever played on the local gridiron, and also we admit that E. John Hillard is the best backfield man we ever saw.

WE have discovered that the Longhorn football players are a fine bunch of fellows, indeed, much better than some of the students at their institution who peck out the sports stories about what they do. For instance, Mr. Warren Cooper, of the Daily Texas Sports staff, on returning to Austin after witnessing the Tech game, assumed a quite different attitude from that shown by the Texas players.

The following is taken from the article written by Mr. Cooper: "I am sitting in the press box with friend Hart of the Austin Statesman and we are all primed to see a real battle, with personal feuds going on here and there. And to be sure that we do not miss anything, we are equipped with a large pair of field glasses.

"I can't believe that the big, had Matadors I have read so much about could put on such a mild exhibition, so I ask Hart if we have really beaten Texas Tech. I am inclined to believe THAT THEY HAVE MATCHED US AGAINST PODUNK HIGH.

"This Mr. Pele Cawthon, who coaches the Matadors, is a very good coach no doubt and he has a very good record at Tech for I

hear it plenty of times from the Tech supporters. I also can tell without much observation that he has a pretty fair COUNTRY ball team."

We might call to your attention that Texas Tech made eight first downs while Texas was making only four, and that taking out Hillard, Texas only made something like 50 yards from scrimmage, while Tech made more than twice that amount. But just forget that, for we do not want to try to alibi, for, as we said before, Hillard is good, and Texas had him, and the score was 12 to 6 in favor of Texas.

WHAT we do not like is Cooper's comment about Tech being a good country team and his insinuation that Texas Tech is so far behind the times. If he thought that Tech was such a country place, why did he use so much space in such a fine paper as the Daily Texan boasting about coming to Texas Tech to the game and sitting in our press box?

One thing that is noticed in Cooper's article is that in one paragraph the word "it" appears four times in five lines. He certainly wants his friends back home to know that it was he who sat in this country place and saw his football team take down the little old boys who are no better than Podunk High.

We suggest that Mr. Cooper check back and see how the Texas Longhorns were rated with the so called "Podunk High" boys by the national critics last year.

Picadors Face Five Grid Foes During Season

Coach Ballard Working Daily With Husky Candidates

Assuming his duties as freshman football coach at Texas Tech, Virgil Ballard finds himself surrounded by approximately 85 promising lads from all sections of the country.

Several freshmen have been working since September 15, now to be bolstered by many new additions from the ranks of those just arriving for school. Any freshman of school, whether big, little or small, is invited out for the Picador squad.

Five Teams Carded

Ballard has arranged a schedule which includes five of the strongest junior college and freshmen teams in this section. The following are games scheduled:

October 13, West Texas freshmen at Canyon; October 20, Amarillo Junior college at Lubbock; October 27, Decatur Baptist college at Lubbock; November 3, N. M. M. I. at Roswell; November 24, Simmons freshmen at Lubbock.

Candidates Listed

Promising candidates on the first year squad include: "Tiny"

Thornton, from near Tyler, "Hefly" Truitt, Gainesville; Walker, Port Arthur; R. Doherty, Lubbock; Tyskewicz (should be in Notre Dame), Pennsylvania; Simpson, Flagstaff, Arizona; Corporal Jones, Ranger; Dempsey Parsley, Lubbock; "Chap" Chapman, Dallas; John Bray, Ranger; Green, Gainesville; Lord Dale Stratford; Pete Owens, Brownfield; Dick Keen, Decatur; Laurance Cook, Chillicothe; Adrian Grizzell, De Leon; Turn Alonzo, San Angelo; G. B. Wimberly, Lubbock; James Brown, Kerrville; and Bill Toliver of Pecos, all of whom are linemen.

Promising backs include Captain "Nose" Moses, Chillicothe; Gene Barnett, Lubbock; Bus Dickerson,

Renner Returns

Professor K. M. Renner, head of the department of dairy manufacturing, is to return today from Abilene where he has been attending the state convention of Public Health Workers. Professor Renner is working for the betterment of conditions in this section of the country among the dairies and creameries.

Gainesville; Rayburn Hale, Lubbock; Frank Guzik, Sherman; Fred Byrd, Ardmore, Okla.; Ed Smith, Del Rio; Maurice Chernosky, Ennis, and Ted Wilson, Lawrence, Kansas.

Indian Boxer Pleased With Tech's Spirit

Will Return To Native Mexico Home After Getting Degree

"This is the most democratic student body that I have ever known," declared James Fernand Ortiz. "I thought that I'd only be a foreigner here, but everyone is so friendly that I feel at home," he continued.

Last spring, Ortiz, a boxer from New Mexico A. and M. college, participated in the Southwestern Collegiate boxing tournament held on this campus. He determined then to come to Tech, attracted by the friendliness shown him at that time.

Reveals Nationality
"Jimmy," who is friendliness itself, reveals his nationality by his speech, profile, and high cheek bones. His black eyes stimulate laughter as he talks hurriedly in a mixture of English and Spanish. His ancestors are traced to governors of Mexico at the time it was a territory and to chiefs of the strongest Indian tribe.

He is interested in athletics and plans to "bring sunshine to some unknown place in Mexico" when he returns with a degree from Texas Tech and teaches athletics. He plans to play right end or tackle on the freshman football team, and will participate in boxing activities this spring.

He is a jeweler by heredity, displaying and explaining the history of several Mexican and Indian filigree work rings and bracelets that he designed and made himself.

He expressed a liking for dancing and music. "Indian Love Call" is his favorite among the classics.

Soviet Russia Bookstore Orders Books By Erwin

The Soviet Bookstore in Moscow, Russia, recently sent an order to Miss Mabel Erwin, head of the clothing department, for some copies of the textbook which she wrote and which was published in September, 1933.

Miss Erwin has received orders from the Hague, Amsterdam, from Zealand, Canada, and Australia for the book, which is entitled "Practical Dress Design."

Call Meeting Of ASME Announced For Tuesday

President Truman Green has announced a call meeting of the A. S. M. E. Tuesday evening at 7 o'clock in room E150.

Mr. J. C. Hardgrave, honorary chairman, will discuss plans for an entertainment.

All mechanical engineers are urged to attend, especially freshmen.

Work Started

Organization of work in field equipment and machinery is being started by Eugene Buie, new professor in the department of field industry. The course is a new one but is filled to capacity already.

New Equipment

The department of dairy manufacturing will soon be producing ice cream made with the latest equipment as a complete new unit is to

be installed. The department will supply the dormitories with ice cream, having already started furnishing milk.

History of Early Civilization in Arts is being taught this semester by F. A. Kleinschmidt. This deals with the close connection between society and the beginning of art. The course is a prerequisite to the History of Sculpture which is offered in the spring semester.

Chesterfields are milder
Chesterfields taste better

Ripe home-grown tobaccos

We begin with the right kinds of mild ripe Domestic tobaccos. Then we age and mellow them like rare wines for flavor and taste.

Aromatic Turkish tobaccos

Next we add just the right kinds and the right amounts of Turkish tobaccos to give Chesterfield the "seasoning" that helps to make them taste better.

Blended and cross-blended

Finally we "weld" these tobaccos together the Chesterfield way—different from any other—to make Chesterfield a milder better-tasting cigarette.

Weary Texas Tech Stude Describes The Ordeal Of College Registration

You rush over to the gym at 8 o'clock with registration in your eye. You take your place like a little colonel, at the end of the line. Three hours later you attain the door. By that time you really have the registration spirit, including an ache in the back and an absent-mindedness concerning what you had intended to take.

Upon entering you are given a card with a number indicating that you are No. 357, which means that you have possibly two hours of sitting on a bleacher with an occasional chance to move down a row.

Just as you decide not to register until next week or sometime, the official keeper of the stile lets you into the gym floor. It is only then that registration becomes a reality.

Even Looks At Gradebooks
The head of your department tries to arrange your schedule, incidentally embarrassing you to death by looking at your gradebook. You begin to wish you'd taken going to college more seriously and emerge from your reverie to find that you have signed for the courses you had intended to avoid. But you go ahead and make out your permanent schedule anyway—and then in when you come in contact with the master checkers, and if you can get past the dean you are practically a college student.

At the last gate someone writes "No" in all the blank spaces on your card and insists that you must have a religious preference, with the result that you become Baptist in belief without warning. Then with the dean's approval you are allowed to pay your fees, the only really simple part of registration.

Mahon Presented Suit Made In Tech

A suit, made of wool grown on Tech farm and woven in the textile building, was presented to George Mahon, Congressman-elect, at the Panhandle-South Plains fair Saturday afternoon.

The suit was presented by a group which included Dr. Bradford Knapp, M. E. Heard, of the Textile department, and Roscoe Wilson, member of the Tech board of trustees.

In a brief speech Mahon thanked the college for the gift and for the spirit behind the presentation. Tech has presented suits similar to that given Mahon to President Roosevelt, John Garner and others.

Tech Geology Professor Returns From Expedition

After a three-month expedition into the heart of Old Mexico, Dr. W. L. Robinson, associate professor of geology, has returned to Tech.

The expedition was headed by Prof. L. B. Kellum of the University of Michigan, and included five geologists. The purpose of the expedition, endorsed by the Geological Society of America, was to map the mountain desert region of Mexico.

Dr. Robinson was assigned to the border of the states of Coahuila and Durango.

Lost Indian City Is Rediscovered

Tucson, Ariz., Oct. 4.—A lost Indian city, once the crossroads of the West, is now rediscovered to man in the Apache Indian territory by Dr. Eylon Cummings, University of Arizona professor, who this week was back from an archeological expedition through the wilderness of the desert region.

Eight huge structures, whose height is hidden by sand accumulated through seven centuries, were found to contain more than 200 cubicles. The buildings, situated near Fort Apache, are built of large boulders apparently hauled by Indians from a distance of two miles.

"The symmetrical arrangement of the rocks, interlaid with smaller ones and cemented with adobe mud, shows an unusual artistic ability," Dr. Cummings stated.

"This ancient city was probably he said. "We have found a wide variety of objects such as pottery and turquoise which undoubtedly came from the peoples to the South, perhaps from those in Mexico. This indicates that this Arizona kingdom once traded with many lands."

Discovery of dried grains indicated to the expedition that the early inhabitants were not, however, slaves to work. For there evidently was a "laboring" group and others who had more time for leisure. Evidence of the latter was supplied by discovery of fine bead work.

"They were prosperous enough to have some time for leisure," Dr. Cummings believes. "As an indication of their finesse and patience in arts, we found one string of stone beads which numbered more than 2,000 segments, each of which was smaller than the tip of a match."

Fish Coach

Introducing Virgil Ballard, former Gainesville Junior college and high school coach, who was selected as freshman football, varsity basketball and track coach at Tech last Spring to succeed Del Morgan. He is sending his Pleador footballers through a daily training session this week.

Personnel Of Tech Bookstore Listed

Personnel of Tech bookstore this year will include Ellis Foreman as a full-time worker, and Frank Hodgins and Jack Quinn as student employees, according to W. C. Cole, manager. Henry Morgan is assistant manager.

An embossing and engraving machine, the only one of its kind in Lubbock, has been installed. Students can have their names stamped on stationery and leather goods in fifteen minutes.

The bookstore will offer the largest stock of books and novelties in its history. A complete catalogue of dollar books, fiction and non-fiction, in stock has been printed, and a campaign to interest students in collecting libraries will begin about November 15.

A dozen more tables will be installed to enable the lunch counter to serve 56 people at once. Delivery service will be maintained for the dormitories.

Miss Vora Lowe, Tech graduate of last spring, will spend the weekend with friends here and attended the Tech-Baylor game Friday night.

Texas Tech Scientific Expedition Completes Study Of Yaqui Indians In Second Visit To Mexican Wilds

Confidence Inspired By Local Profs Gains Information

CONFIDENCE inspired in the Yaqui Indians of Sonora province of Mexico enabled members of the second Tech expedition to get enough material to finish their study of the life of these people, according to Dr. W. C. Holden, professor of history and anthropology and head of the expedition which returned to Lubbock last Friday.

Other members of the party were Dr. R. A. Studhalter, head of the biology department; C. E. Qualla, professor of languages; and Dr. Charles J. Wagner of the West Texas hospital.

Friendly With Yaquis
Dr. Holden says that the friendship with the Indians enabled them to receive a herb mixture which, according to reputable witnesses, has cured victims of "rabies," even when they were in the last stages of the malady, when they had begun frothing at the mouth. Dr. Wagner intends to test this remedy on animals.

A drunken Yaqui youth who had acquired a dislike for Americans during a visit in the United States threw a large rock through the windshield of Dr. Holden's car.

"The Yaqui people are almost entirely illiterate, the Indians preferring that their children live in ignorance rather than have them educated by Mexican teachers who have attempted to nationalize the Indians," said Dr. Holden. "The Yaquis have little to do with the Mexicans and rarely inter-marry with them. Sometimes the medicine-men will refuse to give any of the Mexicans who come to them when they are sick."

Performs Operations
Dr. Wagner performed several operations on the Yaquis. He burned a cancer off the shoulder of a young boy with a hot iron. A lead bullet, which had been in the hip of one of the Indians for fourteen years, was removed. On their first visit to the Yaquis, they were wary about submitting to operations, but on this trip they came to members of the expedition and asked for advice and medical aid.

These Indians have a high moral code, Dr. Holden said. Their religion is a mixture of paganism and Catholicism.

"Much of the success of the expedition was due to the work of Dr. Qualla who acted as interpreter. His intelligent phrasing of his questions helped us to find out the desired information," Dr. Holden declared. "The members of the party will collaborate in preparing an account of the life of the Yaqui people."

Palomar Mountain To Be Site Of Huge Telescope

San Diego, Calif., Oct. 4.—A ten-year search for the best possible site to erect the world's largest reflecting telescope ended last week atop Palomar Mountain near here, when representatives of the California Institute of Technology gathered in a small, lamp-lit cabin and legally transacted the purchase of 120 acres of the mountain-top table-land.

The deal means that erection of the observatory, which will house the 200-inch reflector telescope, will begin as soon as San Diego county officials build a road to the site. The county has also bargained to supply adequate water to the new 6126-foot high location.

Delivery of the 200-inch glass reflector from the Cornish Glass Works in New York will not be made for a year, according to Dr. John A. Anderson, member of the observatory council. The disc made there last year was slightly flawed, although useable, he said.

Expectations of scientists are that the huge mechanical eye will pierce 400,000,000 light-years into space, and should reveal 135,000,000 nebulae. The light of 1,500,000,000 stars is expected to shine on photographic plates exposed to the reflected view of the heavens.

The instrument will have a light-gathering power equal to about 700,000 times that of the human eye, it is stated. Rays emanating stars at the rate of 186,000 miles a second, and travelling for a period of millions of years, are to be made visible to Southern California scientists.

SEARCH CONDUCTED

Washington, Oct. 4.—Search for Virginia Gates, daughter of President Thomas S. Gates of the University of Pennsylvania, has been instituted by Department of Justice operatives following reports that she was missing, it was learned this week. She had spent the summer on a western ranch, but her family became alarmed when no word was received from her, it was said.

Martig Joins Tech Faculty

New Member Will Teach Course In Advanced English History

As part of the expansion program in the history department, Dr. Ralph R. Martig has joined the teaching staff in the capacity of an instructor in advanced English history, according to a recent announcement.

Dr. Martig, whose home is in Harrisburg, Ore., did undergraduate work at the University of Oregon, receiving his master's degree there. He taught at the University of Arizona one year and then went to the University of Illinois for three years on a fellowship. Although only 26 years old, Dr. Martig received his doctor's degree last February from the latter school. His graduate training was done largely in the field of English history.

He comes to this department primarily for the purpose of adding advanced work in English history which will be a regular featured departmental offering, according to Prof. Gus L. Ford, head of the department. This will be the first time that advanced work in English history has been offered.

Course In Craft Design Announced

J. F. McDonald, head of the extension department, announces the organization of a class in craft design under the direction of Miss Elizabeth Hawley, who has recently joined Tech faculty.

"The course will include work in leather, wood, metal and jewelry, block printing and batik, according to the interest of those who enroll," Mr. McDonald said. The work will be done in the laboratories of the division of home economics.

The course is designed primarily for those who enjoy art for art's sake. Those interested in a college credit may receive it provided they meet the requirements. All persons interested are urged to notify the extension department so that they may be advised as to the time and place for class meetings.

Miss Hawley holds degrees from Oberlin college, Oberlin, Ohio, and Columbia university, New York City. She also holds a diploma from Pratt School of Art, Brooklyn, N. Y.

Electricity To Solve Graphs, Logarithms

Austin, Oct. 3. (special)—J. A. Correll, professor of electrical engineering at the University of Texas, is directing the assimilation of an automatic problem-solving device which is expected to materially aid in mathematical research.

The machine is expected to have little value commercially as it is designed primarily for graph work and logarithms. The machine is called an "Intergraph" by its builders.

The only similar machine known to be in existence is a mechanical device, which takes four men to operate, built by a member of the engineering staff of the Massachusetts Institute of Technology. The "Intergraph" will be entirely electrical and will require only one man to operate.

HUEY'S DAUGHTER ENROLLS

Stanford University, Calif., Oct. 4.—Rose Lolita Long, daughter of the "dictator" of Louisiana, Senator Huey Long, is attending Stanford, officials revealed this week. She is a sophomore.

Fire Routs Nightie-Clad Co-Eds At California U.

Berkeley, Calif., Oct. 4.—A three-alarm fire in the early morning hours drove 50 scantily-clad University of California co-eds scrambling from Whitehall dormitory, 2435 College avenue, one night last week, causing damage to the building estimated at \$10,000.

Helen Cohn, 17, was awakened by the smoke and quickly spread the alarm with a piercing shriek. The girls tumbled from their rooms into the street after grabbing what belongings were within reach.

A crowd of Berkeley residents calmed the excited co-eds as the fire was quickly gotten under control by firemen. None was reported injured in the melee.

New Courses Are Offered In Philosophy, Sociology

Addition of Archie J. Bahm to the teaching staff has enabled the department of philosophy and sociology to offer several new courses.

They are: Urban Sociology and the Philosophy of Religion, second semester; Aesthetics and the Philosophy of Values, next year; and Contemporary Philosophy, this semester.

Elements of Ethics and Introduction to Philosophy are also offered this semester.

Mr. Bahm took his Ph. D. degree from Michigan university.

Prize Offered In Chemistry

Dr. and Mrs. Craig Will Make Annual Award To Tech Students

An award of \$25, given by Dr. and Mrs. W. M. Craig in memory of their daughter, Mary Overton Craig, will be offered to Tech chemistry students annually. Dr. Craig is a professor of chemistry.

A committee, consisting of the dean of the division of arts and sciences and the respective heads of the chemistry, physics, and mathematics department will make the award.

The award is available to a man of the sophomore class of Tech who in the opinion of the committee shows the greatest promise as a future chemist. To be eligible the student must be majoring in chemistry or chemical engineering. He must express a desire to pursue the study of chemistry as a profession and to continue his work toward a bachelor's or higher degree in Texas Tech.

The three chemistry major students of the sophomore class who show the highest average grades in chemistry, physics and mathematics during their freshman and sophomore years are to be certified

Plains Climate Is Excellent For Music Study Says Julien P. Blitz

Julien Paul Blitz, Belgian virtuoso cellist, pedagogic and conductor, is the newly elected head of the music department at Texas Tech. He will serve as a teacher of theoretical branches and director of the college chorus and orchestra.

Prof. Blitz is a graduate of the Royal Conservatory of Ghent, Belgium. He was founder and first director of the San Antonio Symphony Orchestra. He comes to Tech from Sherman where he was professor of stringed instruments, chorus and orchestra at Kidd Key college and Austin college.

Mrs. Blitz to Teach

Mrs. Blitz is an accomplished pianist and will have charge of the to the committee by the registrar. From these three students the winner is to be selected by the committee on the basis of character, personality and scholarship.

The first award of this prize will be announced at the June commencement in 1935, and will be available at the time of the fall registration in 1935.

course in piano accompaniment given at Tech.

"The climate of the country plays an important role in the study of music," stated Prof. Blitz. "I find that the climate in this part of the country is very conducive to all sorts of physical endeavors," he added.

"The main ambition of the music department of Tech is to create practical musicians who can cope with the musical situations as we find them in Texas and with this viewpoint we have carefully mapped our courses," Prof. Blitz announced.

Degrees Offered

The music department is offering certificate and diploma in applied music, the Bachelor of music degree being given under certain conditions. Bachelor of science degrees are offered with hand major, orchestra and chorus and choir major. A course in piano will be given in relation to voice, solo instruments, ensemble, chorus, oratorio carrying the same credit as for chorus, orchestra and others.

home of Shakespeare's "Hamlet,"
were among the outstanding fea-
tures of Miss Johnnie McCrery's
vacation trip to northern-European
countries.

Miss McCrery, head of the foods
department, and her sister, Miss
Irene McCrery, Dallas, were mem-
bers of the North Cape cruise on
the ship Carinthia, which left the
states June 26.

While touring England, they vis-
ited one of Shakespeare's plays.

"Much Ado About Nothing," in
the new Shakespeare Memorial
theatre at Stratford-on-Avon, the
home of the author and Ann Hath-
away.

Visit Iceland

Several days were spent in vis-
iting in Reykjavik, the capital of
Iceland, and in Norway, where
they climbed 1000 feet up a rocky
promontory to view the mid-night
sun. Turning south they skirted
the coast of Norway, going into
many of the larger fjords. During
one of these excursions they watch-
ed folk dances of Norwegians in
native costumes. Other stops were
made at Trondheim and Oslo, the
ancient and present capitals of
Norway; Stockholm, Sweden; Co-
penhagen, Denmark, where they
visited the Elsinore castle, which is
reputed to have been the home of
Shakespeare's "Hamlet."

Russia Visited

"One hesitates to draw one's
own conclusions about Russia after
so hasty a visit," the local traveler
declared about her three days
spent in Moscow and Leningrad,
Russia.

Two interesting side trips, taken
before the cruise scattered, were
to Visby, on the isle of Gotland
and to Danzig, the free port of Po-
land.

Miss McCrery, in describing her
visit to Danzig, said, "Here was
combined in an incongruous way
the atmosphere of ancient streets
and buildings of 10 centuries ago
and the feverish bustle and un-
rest of modern German bartering
and marketing."

New Dorms

(Continued From Page One)
wall, and there was a line of vision
through the holes for the length of
an entire floor. This made commu-
nication easy.

When the boys sit down for a
meal they never know whether they
will have to eat with a spoon or a
fork, and the odds are three to one
that they won't have a knife. Sil-
verware has not yet arrived from
the factory, and Wednesday night
at dinner President Bradford Knapp
asked the boys to put up with the
"lead silver" a little while longer.
Girls had less difficulties to
meet, since their dormitory was
nearer completion Sunday than the
boys'.

Lounges in neither of the build-
ings were ready for use, and tele-
phones have not been installed.
Furniture for the lounges was be-
ing moved in Wednesday.

Work is going on steadily to
complete the dormitories and by
the end of the week everything will
probably be in order.

Mike's Fate

HOME TO
FATHER**

It's all very well to have
a good wife . . . a dar-
ling howling little fellow
. . . and a fairly nice
home . . . BUT a man
must have some really
wearable new SHIRTS
now and then . . . in
order to be content!

MAN-FORM

A New Manhattan
Shirt especially for men
who desire a shirt that
drapes the figure more
closely. "MAN FORM"
is a shirt that fits with
remarkable faithfulness
. . . smoothly, trimly,
smartly. Wear one and
notice the difference.

ior . . . prominent in student
government . . . one of the best
ends Tech ever had.

ing into the "THE MAN'S SHOP."
Can you feature that?

MAE WEST is enrolled in TECH
this semester, but you'll have to
come to the GIRLS' DORM to see
her.

Well, I'm sorry that WIND
THRU THE SALLYPORT must
cease, but we must take a sniff of
STRONGER AMMONIA because
we just heard that JELLY BROWN
would finish school NEXT JUNE.

For the first time the Aggie
school boasts of its own library and
reading room. This new room will
aid congested conditions in the de-
partment, but classes are still scat-
tered all over the campus in the
various buildings because of the
lack of room in the aggie building.
