

Howdy!

There Is Plenty Of Influenza On The Campus Now. Don't Get Sick And Miss The Final Examinations

# The OREATOR

Did You Know?

That there will be a Toreador staff meeting this evening at 4 o'clock. Stories will be discussed and assignments made for next term. Journalists are asked to attend.

VOLUME VIII

TEXAS TECH

LUBBOCK, TEXAS, THURSDAY, DECEMBER 8, 1932

NUMBER 13

## Tech C Of C Aids In Clothes Drive

### Prexy's Paragraphs

BY BRADFORD KNAPP

The principal thing in the world is faith; faith in life itself; faith that the thing we seek to do is right, and that it should be done. Here at Tech we need faith in this type of an institution; faith in the all-round training which this institution offers; faith that it is a good thing for us to have on the campus men and women with different aptitudes and different ultimate vocations in life.

We need to develop the highest regard for those who deal with the broad vocations of an engineer, for those who prepare for agriculture, with its many different vocations and different activities; for those who take up the most fundamental and necessary task conceivable, feeding, clothing and housing of human life—the housewife; for those who are the backbone of civilization. Then, Tech prepares men for business, bankers, merchants, accountants, etc. In these lines, as in every other one, economics is basic.

We prepare teachers of the various subjects; here, a teacher must take seventy-five per cent of his college course in subject matter and not over twenty-five per cent of it in professional courses in Methods, Psychology, etc. Then we have our courses in Pre-Medicine and Pre-Law, which are the necessary prerequisites before the professional course can be taken. We can train chemists and physicists just as well as they can be trained elsewhere, as well as biologists. I am saying all this for the purpose of illustrating the wide range of the Tech school. This institution is not interested in mere polish, as important as that may be. We desire that there should be something under the surface—a material and spiritual life, well trained to perform some useful task in the world, and then the polish may be applied.

I have sent for a number of copies of a pamphlet entitled, "Engineering—A Career, A Culture". It is entitled, "A Message to Young Men, to Parents, and Teachers". It is by the Engineering Foundation of New York and the material is contributed from the work of many of the Engineering Societies, including the Society for the Promotion of Engineering Education. I am in full accord with its content, and feel that engineering education is valuable.

(Continued on Page 4)

## Language Party Is For Tonight

Latin, Spanish, French And German Students To Attend Event; Miss Elizabeth West To Be Speaker

A party for the Latin, Spanish, French, and German students in Tech will be staged tonight at the gym, unless otherwise changed.

A program has been arranged. Miss Elizabeth West, who spent two years in Spain, will make a general talk on Spain, Professor Noel Moulton of the French department will play a piano solo. Other numbers will be a talk by Eleanor Simmons, president of the Latin club; a quartette composed of Lois Freeman, Eleanor Simmons, Ellis Mills, and Lynn Gray Gordon; discussion of France by Mrs. G. B. Qualia; and a solo by Lois Freeman. All language students are cordially invited.

## La Ventana Work Proceeds On Schedule; 500 Pictures Made

More work toward the completion of the year book, La Ventana, has been done than is usually done by this time of the year, according to W. R. Underwood, business manager.

Previous to last Thursday, 500 pictures had been made. Most of the work has been completed and sent to the engravers. Other finished work includes football pictures, eighteen feature pages, part of the humor section, and pictures of the faculty of the engineering, liberal arts, home economics, and aggie schools. All picture mountings begun to and will be completed by December 15.

### INFORMAL DANCE GIVEN

Green and white club colors were carried out in decorations of twisted crepe paper and green tinsel, and the Lovell Hall riding club informal dance Friday night from 7:00 to 10:00. Members of the club and their guests attended.

A negro man furnished the piano music, and green mint punch was served.

The club, which is new this year, is growing fast. They plan to have several entertainments after the holidays, and throughout the year.

## Boys To Gather Old Garments; Help Is Asked

Beginning today and continuing until the holidays, the Tech Chamber of Commerce is sponsoring an old clothes campaign to help with the local Christmas charities. Boys will visit all rooming houses west of Avenue Q to pick up contributions which should be placed in a conspicuous place on the front porch with a note designating their purpose. All articles collected are to be turned over to the Salvation Army, and the college group is depending on the student body for its cooperation and support.

## Tech Aggies Compete With Norther Teams

There will be a call meeting of the Chamber of Commerce this afternoon at 5:30 o'clock in room 229 of the administration building. All new members are requested to attend.

At a regular meeting of the body Monday night, 18 students were elected to membership. They are: Watson Nixon, Harlan Howell, Sam Hopper, Calyxon Fuller, Curtis Williams, Hank Godeke, Leon Ince, Douglas Keffer, Malcolm Martin, D. M. McElroy, Leonard Curfman, Roger Knapp, Jasper Hubert, Bob Tracy, Everett Fairchild, Carl Eubanks, Hop Halsey, and Carl McAdams.

The portended drive is the first of its kind which the Chamber of Commerce has attempted. Previously, it has raised funds for the athletic association and other campus organizations.

## Pre-Med Club To Cooperate With Doctors

Members Practice On Chorus During Past Week; Co-Eds To Be In Ensemble; Song Will Be Presented

The Pre-Med club will cooperate with the Panhandle district medical association and the local Crippled Children's council in a benefit play to be given at the high school auditorium tomorrow night at 8 o'clock. The club has been practicing on the chorus for the past week along with some Tech coeds selected from various groups on the campus.

One of the feature numbers in which the students will take part will be the new Matador song which was recently written by Mike Hollander of Amarillo. This song is to be presented to the student body at the convocation, held December 13, for their approval.

The move for helping the crippled children of the Panhandle was started two years ago when the Panhandle District Medical association met in Lubbock. It was agreed that the various business men clubs throughout the cities of North-West Texas would furnish the funds necessary to cover the actual hospital expenses. The physicians in the Association agreed to give their services.

## Flu Epidemic Is Very Mild

Peak Of Sickness Has Passed; West Texas Hospital Gets Many Calls; Techsters Are Victims Of Malady

The influenza epidemic which has been raging in Lubbock has not failed to secure numerous victims among Tech students. Records at the West Texas hospital indicate that the momentum of the epidemic is subsiding somewhat. On Friday, December 7, Dr. E. J. Ewing, the college doctor, received 125 out calls from Tech students suffering from the flu. Saturday 100 calls were received but on Sunday, December 3 only about fifty out calls from Tech students were reported, showing that the situation is well in hand.

The flu which is prevalent this year is quite light; the patients may be decidedly uncomfortable, but there are comparatively few serious complications, such as pneumonia. It is noticed that the persons who have permitted their resistance to be lowered by careless health habits are the ones who are suffering most.

## A Mere Man! Only One Boy Dares To Join Girls

What? One boy in a girls physical education class? And only nine girls, what a shame!

The boy is Jimmie Wilson, and the class is the "Technique of plays and games."

The first part of the term concerns the theories of games, and is a combination lecture and laboratory course. They next do practical work with games applicable to the first grade on through high school and college.

All girls' physical education courses are open to boys, but only one male has had the courage to face the charming competition.

## Six Men Compose Team Which Tries Skill With Yankees; Practice Judging Is Done At Four Schools

Returning from a three weeks trip to the International Livestock Exposition at Chicago, the Texas Tech senior livestock judging team arrived in Lubbock Thursday, December 2. Members of the team were: Harlan Howell, Lanoy Hazel, Curtis Williams, Ben Jenkins, Buford Browning, and E. G. Cauble. Professor R. C. Mowery, coach, accompanied the team.

The team left Lubbock on November 9 and reached Oklahoma City that night. From there, the group visited the University of Kansas at Manhattan, Kansas. Two days were spent here in viewing the college and in doing practice judging. The team arrived in Kansas City on November 12, and entered the judging contest of the American Royal Livestock Show.

Practicing six in competition with 18 other college teams. After spending eight days at Kansas City, the team moved on to Columbia, Missouri.

Do Practice Judging Sunday, November 20, was spent in seeing the town and the Christian college for girls. Practice judging at the University of Missouri took most of the next day. With the time left, the team visited the college dairy plant. A light social life was had here also. Tuesday morning, the boys arrived at Urbana, Illinois, where they had the best workout of the trip. They judged stock at the University of Illinois also. During the time the team was in Urbana, Illinois, they met Miss Zella Riegel, mother and brother, and had dinner with them.

Then to Chicago. With its tall buildings, brilliant lights, and smoky skyline, the Windy city held many interests for the team members. The Field museum, the Lincoln memorial, and the site of the World's Fair were visited. Four days were spent in Chicago, the highlight of which was the International Livestock Exposition. Tech ranked tenth out of a group of 20 teams. The team departed for Lubbock on the night of November 27.

Mowery Is Pleased "The trip was the most instructive one ever sponsored by the Aggie school," stated Mr. Mowery. "The visit to the Robert A. Hazen ranch at Eldorado, Kansas, was worth the long journey." The week at the American Royal, was spent in following the official judging. This was the first time that a Tech team has ever been able to watch the complete judging.

"Our visit through the world's largest hog-killing plant, Swift & Co. at Chicago, was marvelous. The visit to the Kansas State Agriculture college, University of Missouri, and the University of Illinois gave the students wonderful opportunities to observe other institutions," commented Coach Mowery.

"I was well pleased with the results made by the team at the contest. The team was consistent and did credible work. I can frankly say that, considering the facilities, with which we have had to work with, we all feel pretty good about the outcome" added the speaker.

## Home Ec Club Has Business Session; Program Presented

Following a brief business session, a "Courtesy" program was presented at the Home Economics club meeting Tuesday evening with Katherine Leigh in charge.

Miss Zella Riegel of the physical education department spoke on "Manners at the Dance," and Dean Mary W. Doak gave a brief talk on "College Girls' Courtesy."

Ruth Thompson, Christova Sawyer, and Pauline Yeager answered questions turned in by club members regarding courtesy problems.

## Don't Be Alarmed

Many students are becoming alarmed about the situation which has been given so much publicity in the papers of the state concerning the future of Texas Tech. As students, we know the possibilities which Tech has for advancement in education, both technical and liberal. We know the broad territory which is served by Tech and what it means to the people of West Texas. We are also acquainted with the spirit of democracy, the spirit of equality, and most of all, the Fighting Spirit of Texas Tech.

Records show that the cost per student in Tech is lower than that of all state supported institutions with the exception of two junior colleges. A transfer of the Tech students would bring a greater instead of a lesser expense to the state. This contradicts the reason given by the "Efficiency committee" of the legislature for making the change.

Then, there are the many students here who are working their way through Tech. Nearly fifty-two percent of the student body are working their way through school. Very few of this number could afford to pay their expenses in any institution. The state could not afford to lose these students, and it certainly would if a transfer were made.

We can see that any such action on the part of the state would be impractical. So instead of becoming alarmed, let's work harder for Tech and keep up that fighting spirit. Instead of writing home about the advisability of transferring to another school, tell the folks that Tech is here to stay and tell them to pass the word along.

Let's fight for Tech. Don't be a quitter.

## WAA Holds Mock Rodeo

New Members Entertain Old With Program Monday; Is Annual Event; Basketball Tournament Starts

New W A A members entertained old members with a program and refreshments at the gymnasium from 7 until 9 o'clock last Monday night. A mock rodeo featured the program. The rodeo was followed by several musical and reading selections.

The event was a follow up of the W A A initiation which took place in November. Each year, new members are expected to give old members a program immediately following the initiation. Virginia Hask, president of W A A stated that "The programs of this year were as good if not better than any I've ever seen."

Miss Zella Riegel, sponsor of the association, spoke to the girls after the program. She asked that all members of the four basketball teams be present Tuesday afternoon.

A basketball tournament has been planned and will take place as soon as enough members recover from the "flu". After the tournament is over, one team will be selected from the four groups. This team will represent the Tech W A A in outside games.

La Verne Brown was in the Lubbock sanitarium this week for treatment.

## Strange Flowers Are Grown!

Plants From Many Climes Are Present In Tech Greenhouse; Soil Is Treated Scientifically

The African tamarix, the pagoda tree from China, and the hen and chickens from California.

In defiance of certain prevalent ideas that foreign plants are not adaptable to the Llano Estacado, these natives of other climes are now being grown in both the college greenhouse and nursery. Of course they have to be carefully tended, but along with a large number of other strangers, most of them are flourishing under care of the horticultural students.

At least seven kinds of fruit trees that belong to very warm regions, principally the tropics, have been transplanted in the glassed-in hothouse. They are the orange, ornamental fig, date palm, grapefruit, lemon, banana, and pineapple. Still being very small, they have not yet produced. Nevertheless, their growth has not been retarded. Other imported specimens from colder places that do not bear fruit are the "junipers," red cedars from Sherman, Texas, the blue spruce of Colorado, and the rubber tree from India.

Flowers of the tropics also occupy a conspicuous place in the boxed-in beds and clay pots. There are the lotus, the popliteal plant, the house leek, and the amaryllis. The regal lily, closely related to the latter, also comes from there, and the heliotrope.

Several varieties of cactus, some found originally in Texas, some in other states, and some in other countries, are scattered through the house. The Christmas cactus, the least prickly of all, gains its name from the pink blooms which appear at

## Art Association To Meet Tuesday

The Lubbock Art association will meet Tuesday, December 13, in the engineering auditorium to hear an illustrated lecture by Professor F. A. Kleinschmidt on "American Paintings." Thirty-eight reproductions will be on exhibition all week, and may be purchased through the association.

The following week, beginning December 20, there will be an exhibit of original and reproductions of "Illuminated Manuscript," dating from eighth century Byzantine to the seventeenth century Renaissance.

## SSS Initiates New Members On Thursday

Seely Presides At Meet; Dr. Bradford Knapp Discusses Worthiness Of Scholarship And Its Uses

New members of the Southern Scholarship society were initiated last Thursday afternoon in room 215. New members are: Mrs. L. R. B. Cooper, Geraldine Clewelly, Mary Leighton, Christova Sawyer, Mrs. Florence Ashmore, Ada Myers, Edna Nixon Morris, Katherine McClothlin, Mary Evelyn Gordon, Willard Robert Sparks, John S. Ball, Margaret Lindsey, Allie Ray Collins, Ruth Douglas, Virginia Hash, Odie Holley, Warren Poole, W. N. Weddles, Ola Irene Hughes, William Luce, Jack Downs, Collet Baker, Evaugh Clack, John Mast, Ruth Hearrell, Houston Hinson, Juanita Poole, J. B. Stine, Agness Klien, Henry Godeke, and U. S. Armstrong.

President Fred Seely gave a summary of the society constitution and stated the object of the society which is the stimulation, development, and recognition of scholarship and those elements of character that make scholarship effective for good. Significance of the society colors, emerald green and sapphire blue, representing victory and truth, were explained to the new members. The motto, quoted from the Bible is "Ye shall know the truth and the truth shall make ye free." It was explained that, during the Triassic-Jurassic times, there existed a great interior sea which covered Wyoming, parts of Montana, South Dakota, Nebraska, and Colorado. Authors have based their ideas of such a sea on characteristic of sediments, and paleo-geographic correlations. This great sea is supposed to have been fed by a large river which followed westward north of the Appalachians, and emptied into the sea in the Panhandle region of Texas and the eastern part of northern New Mexico.

Virgil Rowland, Sim O'Neal, Gertrude Hoffmann, Margaret Duff, Frances Marcia, and Brud Boren were dismissed from the West Texas hospital this week where they have been receiving treatment for influenza.

President Bradford Knapp was introduced and spoke on the worthiness of scholarship and of the necessity for all around development of the intellect rather than just knowledge in one chosen field. "People should be judged in school and elsewhere, not alone on their intelligence quotient, but on their 'courage quotient' common sense quotient, and on their scholarship quotient," stated the speaker.

"Grades are a matter of adjustment," said President Knapp. "The freshman needs one year to get accustomed to college, and a student stays in school despite low grades the first year, he will eventually get his scholarship in the majority of cases said President Knapp."

Pledge Given President Bradford Knapp was introduced and spoke on the worthiness of scholarship and of the necessity for all around development of the intellect rather than just knowledge in one chosen field. "People should be judged in school and elsewhere, not alone on their intelligence quotient, but on their 'courage quotient' common sense quotient, and on their scholarship quotient," stated the speaker.

"People should be judged in school and elsewhere, not alone on their intelligence quotient, but on their 'courage quotient' common sense quotient, and on their scholarship quotient," stated the speaker.

## BSU To Have Retreat Soon

Tech Baptists Plan Retreat For Holidays; Groups From All Parts Of State Invited To Attend

Arrangements are being made for a Christmas retreat to be sponsored by the Tech Baptist student council during the holidays for local council members and those from other parts of the state. BSU council members from all colleges on the plains are being invited, along with those of Baylor and Simmons universities. Robert Fling, state BSU president and student in Southwestern Baptist Theological seminary, Ft. Worth, is to receive an invitation.

Miss Ruby Atwood, local Baptist student secretary, is in charge of arrangements for what will possibly be a three-day meet. She is being assisted by Mary Alice Scott, social chairman. The program, not yet completed, will be of an inspirational nature, featuring also a breakfast and a banquet, along with talks and services of different types conducted entirely by students.

Leslie Hall was in the Lubbock sanitarium this week for medical attention.

## Knapp Reassures Students Tuesday

### Tech College Is Not To Be Destroyed Says President

"Tech is doing the best job of economic expenditure in the state," was Dr. Bradford Knapp's answer Tuesday to the proposed plan of the joint efficiency committee of the Texas legislature to make drastic changes in the educational scope of Texas Technological college.

At a special convocation called to settle any disturbance in the minds of the student body, Dr. Knapp disproved the theory that education would be cheaper per individual if all professional courses were centered at the University of Texas and the state Agricultural and Mechanical college.

Expenses Lower Quoting figures compiled by the same committee for the school year of 1930-1931 the president showed that there was only one state school out of nine whose individual expenses fell below those of Tech. The difference was less than \$1.50 and this college offers no expensive technical courses. The cost per person at the two state junior colleges is only slightly less than that here.

"Statistics show," continued Dr. Knapp, "that the expense in 70 odd of the nation's major schools with which Tech has a comparable enrollment is greater than ours. Among these are Yale and Johns Hopkins universities."

"The organization of Texas Tech was conceived to meet the needs of West Texas. An institution of liberal arts would not be suitable to the character of the people in this section. I can't see Tech without agriculture, engineering and home economics," he emphatically stated.

The president is of the opinion that students should not be too greatly concerned over the committee's report, but ask their loyal support to the school.

## Forum Club To Hold Reception At Knapp Home

Written Invitations Have Been Sent To All College Women; Cars To Bring Girls To The Event

The Forum women's organization of the campus will hold its annual reception for all women of the college on Friday evening, December ninth, from seven to nine o'clock at the home of Dr. and Mrs. Bradford Knapp, Tech campus. Written invitations have been sent to all women students and faculty.

Vonelle Wilkerson, president of Forum, will be in charge of the reception line, which will be composed of Dr. and Mrs. Bradford Knapp, Lucille McCrummen, and Ruth Douglas, secretary and business manager, respectively, of the organization.

The house party will be made up of the other members of the organization; Ruth Thompson, Cecile Horne, Christova Sawyer, Geraldine Clewelly, Melba Tatum Maxey, Effie Smith, and Jean Shelley Jennings. During the evening Mrs. Mary W. Doak, Mrs. R. M. Whitwood, Miss Mabel Erwin, Miss Margaret Weeks, Miss Lucile Gill, Mrs. J. M. Gordon, Mrs. P. W. Horn, and Miss Mayme Twyford will preside in the dining room.

Cars will call for all students who leave their names and addresses in room 203, administration building.

Judging Team Homecoming Is Feature At Aggie Club Meet Talks by the members of the senior livestock judging team featured the program at the regular meeting of the Aggie club Tuesday night. The meeting was dedicated to the team's homecoming. Milton Harber and Joe Fauselt sang.

Wednesday night the club attended a lecture by H. S. Mowery in the engineering auditorium. Dr. Mowery spoke on "Agricultural Needs of West Texas."

Second Meeting Of Plains Museum Society Date Named The second annual meeting of the Plains Museum society will be featured by an exhibit to be held in the engineering auditorium the last week of February by artists residing in the Plains section of West Texas. Two prizes and three honorable mentions will be given for winning pictures entered.

ALL COLLEGE DANCE Ned Bradley and his Variety Elym Kings will furnish the music at the All College dance next Saturday evening in the Gym. The dance, which is to be the last until after the Christmas holidays, will begin at 9 o'clock and last until 12 o'clock. There will be no advance in prices, according to Lou Edwards and Don Maddox, managers of the dance. Stag bids are one dollar and date bids are seventy-five cents. All Tech students are invited to attend.

## Tech Students Get Positions In Road Work

Twenty Three Engineers Are Practicing What They Had To Learn In College; One Girl Is Employed

The Texas Highway department has furnished employment to a large number of Tech graduates and ex-students. One girl, Edith Henderson, is employed as assistant accountant at the district headquarters here.

Elihu Heiser and Ralph Glover, instrument men, and N. T. Yostle and R. W. Tucker, inspectors, are located at Muleshoe, Texas where they are helping to construct a paved highway from the New Mexico line. Their headquarters are at Lubbock.

Men Are Located Cecil Gray is instrument man for the department at Lamesa, Texas. George Green and Stephen E. Luce are working on the highway at Post, Texas. Tommie Morris is employed in highway construction at Dalhart, Texas. Clyde Drake is engaged in the same line at Wellington, Texas.

A. Van Dyke, one of the first to graduate from the engineering school is still employed at Mansfield and John Osborne is working in Dallas.

The district headquarters at Lubbock has given employment to: Elliot Taylor, chief inspector; J. C. Kerr, instrument man; James R. Fanning, E. V. Middleton, Trent Campbell, Carl R. Hart, and Bernard Dean, assistant office engineers; Cecil Worley, John P. Foster, checkers; Bill Garrison, assistant warehouse man; J. P. Ruhman, inspector; Don Leach, checker and Gordon Thompson, chainman.

## Quarterly Club Names Officers

Faculty Women Organize To Aid Selves And Co-Eds; Meeting To Be Held In January; Dr. League To Speak

A professional organization known as the Quarterly club has been formed among the faculty women on the campus. The aims of the organization are the professional and intellectual advancement of women members of the faculty, and the raising and disbursing of funds for the benefit of women students of the institution.

Regular meetings are to be held the first week of October, January, March, and May. At the January meeting Dr. Bessie B. League is to give a talk on some phase of her scientific work.

The officers elected for the year are Mrs. Mary Doak, chairman; Miss Ruth Pirtle, vice chairman; and Miss Mayme Twyford, secretary and treasurer.

Lamesa Club Elects Three Officers; Party Planned The first meeting of the Lamesa club, new campus organization, was held Monday night in room 217 of the ad building at 7:30 o'clock. Mary Frances Semler was elected president, Lourie Lovelace vice president, and Myrtle Painter, secretary and treasurer.

There are 33 students from Lamesa and fifteen were present at the meeting to discuss the aims and duties of the club. Members decided to have a bridge-dance in Lamesa on December 27 during the holidays.

A regular meeting date is to be selected at the first meeting of the club after Christmas. At this meeting, an outline of the year's program will be made out.

The object of the organization is to bring about a more friendly relation between the students from Lamesa.

The Texas Tech Civics met Tuesday night at 7 o'clock in the engineering auditorium to hear a slide lecture on Westchester County Park system given by J. A. Loughridge.

# Matador Quintet Is To Make Long Trips This Winter

## Under The Double "T"

BY LAMER NELSON  
Toreador Staff

Since the late lamented football campaign is history as far as Tech is concerned, the full season is on in the realm of sport. From the sporting standpoint things will begin to pick up around January 6 when the basketball stars begin swabbing the net. At present, however, the hot stove season is in full blast, and the dyed-in-the-wool fans are playing, winning, and losing the titts all over again, perhaps, among other things, debating whether fullback So and So should have crashed off tackle or circled end in the Podunk-Punkin Center clash.

Only a few more big skirmishes remain to be played and all will be quiet along the nation's gridiron battle front for the next several months. Saturday on the coast Southern California's Trojans are in danger of having their spottless record blemished by the invading Ramblers of Notre Dame. On New Year's Day Pitt's Panthers, conquerors of the Ramblers will be pitted against the Trojans in the annual Rose Bowl classic. January 27 will find the East and West eleven, composed of a galaxy of stars recruited from over the country, fighting for prestige and grid supremacy at San Francisco. Three T. C. U. footballers have been invited to play with the West.

In a season featured by startling upsets, 14 teams emerged from the pinkin scramble with undefeated records. Five clubs were neither beaten nor tied. Colgate's Red Raiders boast of an uncrossed goal line in 9 games while rolling up 244 points. Texas Christian, juggernaut of the Southwest, tops this select list with 283 points in 10 contests to opponents 23. The undefeated and untied team are Colgate, Jefferson University (Dallas), Southern California, Michigan, and Valparaiso, unbeaten but tied eleven are T. C. U., Auburn, Tennessee, Centenary, Purdue, Seshanna, Western (Mich.), St. Johns (Minn.), and Pittsburgh.

Playing a 12 game schedule, including teams from 6 states, our own Matadors managed to pile up a meagley 382 points to 26 for the opposition. You can draw your own conclusions.

Well, join the winter and it's topped out the Notre Dame is only one point better than Tech—if any. On Oct. 1, in a deluge of rain, the Cawthon crew blanked the S. M. U. Mustangs, 6 to 0. A few weeks later the Pittsburgh Panthers routed the Irish. The Panthers then journeyed west to hold the Nebraska Cornhuskers to a tie, although roundly outplayed. Then Saturday the Big Six champions beat Southern Methodist, 21 to 14, a margin of seven points, but were out played while turning the trick. These figures leave the Ramblers one point better than the Matadors. Simple, isn't it?

And another Tech boy makes good. Johnny Buckler, a former Techster and a Waco high school product under Paul Tyson, ran wild against the Navy Saturday at Philadelphia in the traditional Army-Navy grudge scrap. Buckler was the spark plug of the Cadet attack, reeling off long dashes, and punting and passing effectively in addition to registering a touchdown against the Midshipmen. A crowd of 79,000 saw Johnny strut his stuff. Buckler was a sophomore at Tech when he received his appointment to West Point.

January 6 Del Morgan's hoop artists will swing into action in a two game series with the bewhiskered dribblers of Benton Harbor, Michigan furnishing the competition. It will be the second time that the bearded barnstormers have invaded the Tech campus since an aggregation of House of David diamond stars introduced nocturnal athletics to Lubbock. Every spring the Benton Harbor baseballers tour the "grapefruit circuit" playing the big leaguers and holding their own with them.

If you failed to see any of the intramural basketball shooting marathon you missed a treat. "Lefty" Bryant's fast stepping Matador ballers swept through four weeks of play without a defeat, climaxed by their hard fought victory over the fish liberal arts in the championship tussle. Much potential varsity material was discovered among the 16 competing quintets.

Did you know—

That the Matadors played more games than any other college eleven in the Southwest. . . probably more than any other in the entire nation. That Harold "Rosy" Crites gained more yardage from scrimmage against Baylor than all the Texas team gained against the same squad. . . Crites picked up 135 yards as compared to the Longhorn's 25. . . That Gene Alford, who made Tech's first tally in 1925, played professional football in the East this fall. That Pest Welch, All-American back with Purdue a few years ago, was enrolled in Tech for a short time before going to the Hoosier school.

## Tech Cagers Prepare For Long Season

**Basketball Season To Begin On January 3; Techsters To Meet Border Teams; To Play Minors**

Seven basketball teams already been corded for the Matador basketball team, Coach Del Morgan announces, with the initial tilt scheduled for January 3, 1933.

On that date, the Tech cagers will wader in the 1933 court campaign with a two game series with the House of David basketball team, Coach Del Morgan announces, with the initial tilt scheduled for January 3, 1933.

On that date, the Tech cagers will wader in the 1933 court campaign with a two game series with the House of David basketball team, Coach Del Morgan announces, with the initial tilt scheduled for January 3, 1933.

On that date, the Tech cagers will wader in the 1933 court campaign with a two game series with the House of David basketball team, Coach Del Morgan announces, with the initial tilt scheduled for January 3, 1933.

## All-Conference Team Selected

Tech Puts Five Men On Mythical Football Team; Arizona, Tempo Teachers And New Mexico Place Men

For the first time in the history of the college, Texas Tech competed in an organized athletic conference during the past fall. Although Tech did not meet more than two teams of the Border league, the Toreador is able to present a fairly complete list of the best centers the Matadors faced, according to one of the Tech guards. Moffett was without much opposition in the balloting or quarterback. His brainy play secured his position against all competition. Crites has been the sparkplug of Tech teams ever since he has been eligible to represent the school. His blocking and teamwork placed him ahead of the field for the fullback job. Haslemark and Sample of the Tempo Teachers were the enemy strong points so that the Texas infantry could attack. The artillery went into position at three forty-five and opened fire, and at four o'clock the infantry attacked, accomplishing their mission.

## Tech Battery Takes Part In Fight Problem

Colonel Charles C. Davis Is In Charge Of Troops; Tech Artillery Opens Fire On Enemy

The local unit of the Texas National Guard, "C" battery of the 131 Artillery, which is composed of college students, took part in a battle problem Sunday afternoon. Colonel Charles C. Davis, professor of military science and tactics at Texas Tech was in charge of the problem which was carried to a successful end, according to Colonel Davis.

It was supposed that an enemy force, consisting of a regiment of infantry reinforced by a troop of cavalry and a battalion of artillery, were going to attack Lubbock. Lubbock was protected by the same force of friendly troops but it was found that Texas companies were a third larger than the enemy companies, so instead of waiting for them to attack it was decided to attack the position that the enemy had taken up about a mile and a half northeast of the stables at the college.

## Examination Schedule, Fall Term

FRIDAY, DECEMBER 16	
9:00-11:30	Classes meeting 8:00-9:00 TTS
1:00-3:30	Classes meeting 9:00-10:00 MWF
4:00-6:30	Classes meeting 9:00-10:00 TTS
SATURDAY, DECEMBER 17

## Tumblers Are Preparing To Start Season

Bill Stubbs Coaches Group To Begin Work, Plans Are Made For Competition; Positions Are Still Open

The Texas Tech Tumblers, an organization of gymnasts under the direction of Bill Stubbs preparing to put on a series of tumbling acts as soon as their team has been selected.

Stubbs hopes that at the beginning of the winter term, two more classes will be organized to accommodate the large number of applicants at the gym. Plans are being made at present for match competition with other schools in this section, and the response that the tumblers have given to the instructors will merit the arrangements.

Practice Novelties

The tumblers are devoting most of their practice now to several novelty acts, in which circus clowning will be featured. New equipment will soon be here in the near future, and the team will be greatly benefited. Men who are out for the team now are: Grady Box, Claude Brown, R. S. Brannin, Sol Burnell, John Byrd, Layton Downing, Moss Farmer, Homer Garrison, J. T. Henry, Merle Jones, Al McGinty, Woodrow Montgomery, Fred Penn, Josh Parks, Bill Potts, Bingaman Priest, Edward Redmon, Harold Spaulding, Williams and Austin.

The Texas Tech Tumblers have already had their picture taken for the La Ventana. Anyone interested in tumbling may see Stubbs at the gym on or before the 10th of the month.

## Tech Song To Feature Show

Minstrel To Be Presented For Benefit Of Crippled Children; Tech Students To Take Part In Program

"Fight, Matadors," pep song recently written by Mike Hollander of Amarillo, will be presented to Tech students and the people of Lubbock tomorrow night in the high school auditorium. It forms the grand finale of a minstrel which comprises the first act of the Crippled Children's Benefit show, to begin at 8 o'clock. There will also be a Saturday afternoon performance for students. The Amarillo Blue-Bonnet chorus of 17 girls and three boys, dressed in college colors and going through a football routine, will present it. It will be formally dedicated to the college by the composer at the convocation to be held in the gymnasium Tuesday morning at 11 o'clock.

Hollander wrote "Fight, Matadors" at the suggestion of several school officials. If it meets with the approval of the student body, it may be adopted as a co-song with the now official "Matador Song". The words are as follows:

Fight, Matadors,  
Fight, Matadors,  
On to victory;  
Always on deck  
For dear old Tech,  
Our college 'tis of thee.  
On, Matadors,  
On, Matadors,  
Our champions ever be;  
Ever bold and brave  
As our banners wave  
Keep fighting, Matadors.  
Hollander is a composer and producer of amateur vaudeville and comic operas. He has been employed by the local Crippled Children's council to direct this benefit affair. Prices of the two performances are: Friday night, \$1.00; Saturday afternoon, 25 cents.

A number of Tech students will have parts in the show.

## Tech Battery Takes Part In Fight Problem

Colonel Charles C. Davis Is In Charge Of Troops; Tech Artillery Opens Fire On Enemy

The local unit of the Texas National Guard, "C" battery of the 131 Artillery, which is composed of college students, took part in a battle problem Sunday afternoon. Colonel Charles C. Davis, professor of military science and tactics at Texas Tech was in charge of the problem which was carried to a successful end, according to Colonel Davis.

It was supposed that an enemy force, consisting of a regiment of infantry reinforced by a troop of cavalry and a battalion of artillery, were going to attack Lubbock. Lubbock was protected by the same force of friendly troops but it was found that Texas companies were a third larger than the enemy companies, so instead of waiting for them to attack it was decided to attack the position that the enemy had taken up about a mile and a half northeast of the stables at the college.

## DeBardleben Is YW Leader

Forty Girls Join Group And Meetings Are Held Weekly; Delegates Attend College Conference

Following the appointment of Miss Mary DeBardleben of the Bible department as sponsor of the Y. W. C. A. by Dr. Bradford Knapp, that organization reorganized and has been functioning since the middle of October.

About 40 girls have joined and a weekly meeting is held on Monday afternoons from 5 until 6 o'clock in room 203 of the administration building. The officers elected this year are: Ruth Douglas, president; May Tom Howell, vice-president; Agnes Klein, treasurer; and Maurine Davis, secretary.

Since the reorganization, three delegates attended the North Texas conference of College Y. W. C. A.'s at Fort Worth and a rummage sale has been successfully sponsored. The organization and functioning

## Aggie School Buys New Yearling Bull

Antler of Rosemere 15th, the new Aberdeen-Angus herd sire, was purchased by officials of Texas Technological college from Congdon and Battles at the International Livestock exposition in Chicago. The animal, besides having a good show yard record, comes from an ancestry of prize winners. His dam, Antelope of Rosemere, was undefeated as a senior heifer calf, but was not shown after that. His sire, Blackmere 16th, was junior champion bull at the International Livestock exposition in 1922.

Antler of Rosemere is a senior yearling bull and has made two trips to the International exposition. He placed fourth in his class in 1931 and third in 1932. Also, in 1932, he placed first at Portland, Oregon, Omaha, Nebraska, and Kansas City, Missouri. He will arrive in Lubbock the last of this week.

## Seniors Have Annual Party

Edwards, Gilkerson Preside

The senior class annual party was held Saturday, December 3, at Seaman Hall, Sixteenth and Avenue Y. About thirty seniors attended.

Games and dancing were the diversions of the evening. Professor B. F. Conrady and Miss Johnnie Gilkerson presided. Refreshments were served at the close of the evening.

Lou Edwards, president of the class, and Vonelle Gilkerson were in charge of arrangements for the party. Lack of attendance was due to illness among the students, according to Miss Gilkerson.

## YW Rummage Sale Nets Club

\$20.; Contributions Needed

A rummage sale which was held next door to the Lyric theater on Texas avenue December 3 and 5 have reached approximately \$20, according to Marie Price, chairman of the Community Relations committee. Plans have been made to continue the sale through the remaining Saturdays preceding Christmas, and the organization is making another call for old clothes, shoes, jewelry, etc. All contributions may be left in room 203 of the administration building, or in the office of Miss Mary DeBardleben, on the third floor.

The money derived from the sales will go to buy food and clothing, Christmas gifts for the poor.

## Party To Be Held

The Sunday school class of Dr. W. B. Gates will entertain with a party in the Methodist church parlor tomorrow night at 7:30 o'clock. Every member is permitted to bring one guest.

William Nelle is president of the class.

Leon Ince and Fred Miller spoke to the ASNE at the last meeting this term held in the engineering auditorium at 7 o'clock Tuesday night. Plans for the winter term were discussed and a resume of the fall activity was given before adjournment.

SOCIETY NEWS

KoShari Club Attends Dance Saturday

Ko Shari club members and guests danced at the Lubbock County club last Saturday evening from 9 until 12 o'clock...

The guest list included Misses Mary Warren, Isla Steele Patterson, Audrey Farris, Laselle Goldsmith, Ernestine Herdrick, Louise Wardlaw, Virginia Brown, Betsy Means, Margaret Rose Adams, Maureen McCaden, Roubie Triplett, Helen Barstow, Charlotte Lindsey, Mary Frances Sell, Messrs. Martin Minter, Conrad Gesslin, Edward Redman, James Potts, Orland Seaman, Roger Pierce, Graham Holmes, Parker Taulman, Dick Mundine, Glenn Howard, Bates Thornton, Lloyd Marr, Truman Green.

Special guests were Dr. and Mrs. Bradford Knapp, Dr. and Mrs. J. O. Elsworth, Dr. and Mrs. A. B. Cunningham, Dr. and Mrs. W. C. Holden.

Club members and their escorts who attended were Misses Lorene Childers, Mary Frances Senter, Kathleen Jennings, Alcen Brown, Ava Nelle Boyd, Katie Walker, Ruth Mildred Rylander, Dorothy Rylander, Faye Burpass, Geneva Adamson, Mervel Rankin, Messrs. John Bell, Preston Crawford, Tony Vliet, Shelby Ledbetter, Bill Murray, Douglas Ross, Kenneth Stacy, Dixie Anderson and Emmett Kerr.

WAA Attends Steak Fry Last Evening

New and old members of W. A. A. attended a steak fry at Mrs. Mary W. Doak's home, 1917 17th street, last evening.

All food was prepared on open fires in the back yard at Mrs. Doak's home.

Elizabeth Conner was chairman of the general arrangements committee and Geraldine Turner and Jorga Barkman were her assistants.

At the regular weekly meeting of W. A. A. in the gym Monday night, the new members of the organization were inducted by Authol Williams. Authol Williams was in charge of the program with "Red" Randolph and Ruby Beasley as her assistants.

Las Chaparritas Club Attends Party

Misses Harriette Roach, Geraldine Durhan, Mary Earle Loftand, and Maxine Clark entertained Las Chaparritas club members and special guests with a theater party Wednesday afternoon.

The guests were: Misses Helen Barstow, Elizabeth Beyhan, Christine Bundy, Linda Caldwell, Jean DeLo, Ann Doherty, Mary Dyer, Tommy Echols, Eleanor Halbert, Geniece Harberger, June Lawrence, Kate Mahaffie, Ethel Murray, Thelma Reed, Sally Russell, Lena Grace Sanderson, Eugenia Smith, and Pauline Yesser.

Club members present were: Misses Sue Barton, Ann Caldwell, Frances Ford, Voncie Glikerson, Glyds Grimsley, Cecile Horne, Ruth Hutchinson, Jean Shelley Jennings, Sue Michie, Gail Quinlan, Zella Riegel, Ruth Rutledge, Susan Lou Stevens, Sylvia Wilson, and Johnny Glikerson, sponsor and the hostesses.

Sans Souci Members Attend Tea

Tech colors and college pennants were used in appointments and decorations at a tea given from 4 until 6 o'clock Sunday afternoon in the home of Mrs. Roscoe Wilson, 2201 Broadway for Sans Souci club members, special guests, and escorts.

The special guests attending were Misses Thelma Reed, Fay Brown, Tommy Echols, Elizabeth Beyhan, Helen Barstow, Christine Bundy, Nancy Ruth Leaverton, Lois Prite, Mary Geniece Harberger, Audrey Farris, Polly Schultz, Lena Grace Sanderson, June Lawrence, and Eugenia Smith.

Club members attending were Misses Melba Watson, Virginia Bacon, Coleta Baker, Effie Smith, Mary Wilbanks, Rosemary Leaverton, Dorothy Dobbins, Evelyn Price, Frances Snyder, Kitty Jameson, Mary Lee Bardwell, John Anna Boyd, Wanda Butler, Julia Davis, Dorothy Rushing, Ann Lou Bennett, and Mrs. D'Aun Hunter.

Saturday afternoon, the Sans Souci alumnae will entertain the active members of the club and special guests in the home of Mrs. Ross McWhorter, 1808 Avenue Q.

Student Convocation

The last convocation of the winter term has been called by Dr. Bradford Knapp on Tuesday, December 13, at 11 o'clock.

Club Chairmen Make Report To WAA At Monday Meeting

Chairmen of various clubs gave reports at a WAA meeting held Monday night. The skating, bowling and tennis clubs meet every Friday at 4 o'clock at the skating rink on 13th street, the Matador bowling alley on Broadway, and at the gym, respectively.

Miss West Describes A Day In Spain

Miss Elizabeth West, Tech librarian, described a typical day in Spain to members of Las Leales club last Wednesday evening when the organization met with Miss Eunice Cope, 2702 22nd street.

Las Chaparritas Club Attends Party

Misses Harriette Roach, Geraldine Durhan, Mary Earle Loftand, and Maxine Clark entertained Las Chaparritas club members and special guests with a theater party Wednesday afternoon.

Tech Co-Eds Take Up Various Sports

Among the sports offered for girls this term are archery, skating, tennis, horseback-riding and basketball. These are merely recreation and without credit except toward WAA.

The physical education department is sponsoring a round robin color tournament in basketball. There are four teams, and they expect to have the finals next week. They are hurrying through with it in order to take up soccer next term.

Archery is popular with a number of girls, and some of them should be quite proficient by this spring. New equipment is being assembled, and Miss Riegel hopes to have several telegraphic meets with other schools later in the year.

From ten to twenty-five girls skate at the rink every Friday at 4:00, and eight to ten at eight o'clock Wednesday night from 7:00-8:00. Everyone interested is welcome.

Club Chairmen Make Report To WAA At Monday Meeting

Chairmen of various clubs gave reports at a WAA meeting held Monday night. The skating, bowling and tennis clubs meet every Friday at 4 o'clock at the skating rink on 13th street, the Matador bowling alley on Broadway, and at the gym, respectively.

The archery club meets every Monday and Wednesday at 4 o'clock at the gym. Only a few girls meet each time and others are encouraged to come. Most of the members are new to the game, but the chairman hopes to have a few expert bow-women before the contests which will be held next spring.

DEPENDS ON THE WIND

It is said that if the prevailing winds of the eastern United States were to reverse themselves, the climate would become semi-tropical and rainfall would be very heavy.

Herbert Hoover is supposed to be the richest man who ever occupied the Presidency of the United States. More than 90 per cent of all Egyptians are Moslems. The Lincoln Highway is 3,384 miles long.

There are three state capitals on the Missouri river at eight o'clock on the Mississippi and its tributaries. A machine has been invented in England to hang wall paper.

Personals

Kenneth Hart, who underwent a nose operation recently, was readmitted to the West Texas hospital December 2. He was dismissed December 4.

Clifton Crawford, who has been suffering from an attack of influenza, was released from the West Texas hospital December 3.

La Verne McKay, who was operated on for appendicitis at the West Texas hospital, was dismissed December 2.

Roddy O'Neill was admitted to the West Texas hospital Wednesday, November 30. He is suffering an attack of rheumatism.

Lloyd Florence was admitted to the West Texas hospital December 3, for medical treatment.

Felix Ballenger received medical treatment at the Lubbock sanitarium this week.

Ruth Hutchinson, Billie Crenshaw, Roger Pierce, and George Zarfonetis received throat examinations and treatment at the Lubbock sanitarium this week.

Archie Woods, Gordon Addington, and Jerome Stocking received treatment at the Lubbock sanitarium this week.

Woodrow Little was dismissed Sunday from the West Texas hospital where he has been receiving treatment for an infected ankle. Little will not be permitted to discard his crutches for a week or so.

Katherine Cox, B. E. Priest, Luke Weems, and James Harris are receiving medical treatment for the flu in the West Texas hospital.

Dolly Clements, who has been suffering from a sinus infection, was released from the West Texas hospital Dec. 3.

Freddie Adams was a patient in the West Texas hospital several days this week as the result of burns on her hands and face.

Svenson Has Text Revised

Book To Be Released Early In January; Tech Teacher Has Five Books Published To Be Used In Schools

Professor Carl V. Svensen, head of the drawing department, has completed a text book, "Machine Drawings," which will be released from publication about January 1.

This is a revised edition of his previous book of the same name and contains 240 pages. There were seven printings of the first edition. Other books which Professor Svensen has published are: "Mechanical Drawing," (with Thomas E. French) used by the major part of all Texas high schools at the present time, published by McGraw-Hill Book Company; "A Handbook on Piping," "Essentials of Drafting," "Machine Drawings," "The Art of Lettering," "Drafting for Engineers," and "Architectural Drafting," published by D. Van Nostrand Company.

All of the books are used either in actual class-room work or in reference reading.

PREXY'S PARAGRAPHS

(Continued from Page One) far beyond the practice of engineering. We never know how important health is until we get into a flurry of the flu or some other disease such as seems to be upon us at this time.

Just the same, I am thankful for doctors and hospitals. One of the greatest advances made in the history of our present civilization is the great advance and the great contribution science has made to the medical profession. In times like these, we know and appreciate what they are able to do. Lubbock is fortunate in having its physicians and its splendid hospitals.

Last week's Toreador said something about walks. I wish we had the money. We need the walks. The institution has asked for funds for this purpose for some time past. It will continue to ask for funds for this purpose. I know we can build them cheaply. If we only had funds to buy material, we could put students to work and soon have the walks to keep us up out of the mud. We are going to keep it in mind and the first time we feel we can get hold of enough money, we shall start the program going.

Also the Toreador said something about a golf course. I would like to see that too. It is too far to go to the other side of town to play golf - it takes too much time. The campus is very level and I do not know whether we could design an attractive course or not, but there are two or three areas where something might be done. I am wondering if the engineering students might be interested in surveying out a possible golf course on the campus. Show me the place and the plan and then let's figure out whether we could do it or not.

On Friday night of this week there is to be an entertainment for the benefit of the crippled children's work of Lubbock. It is sponsored by the civic organizations of this city. The program is to be repeated on Saturday afternoon at a matinee, at which, I understand, there will be a reduced price for college students. This is a great piece of work and all that we can contribute to it will be worth while. An added thing of interest will be a new song for Tech. I am going to ask the composer to come to a convocation on December 13 and play and sing this new song, which will be introduced at this entertainment on Friday night and Saturday, for the benefit of the student body.

Warren Ring, who has been seriously ill of influenza, is showing marked improvement. He is receiving treatment at the West Texas hospital.

W. T. White, Lubbock, '22 graduate in electrical engineering, left Tuesday for Vaughn, New Mexico, to work for the United States Geodetic Survey.

Las Vivarachas Have Informal Tea Sunday

Las Vivarachas club members entertained guests with an informal tea Sunday afternoon from 4:30 until 6:30 o'clock in the home of Mrs. J. S. Johnson, 2002 Broadway.

The guests were: Misses Idell Bacon, Margaret Rose Adams, Frances McKee, Eva Ruth Brown, Isla Steele Patterson, Chessie Bell Taylor, Rachel Campbell, Mary Lou Jackson, Audrey Farris, Claryce Adcock, Charlotte Lindsey, Ione Dodson, Tyrene Walker, Tommy Echols, Lois Huston Evelyn Smith, Willie Lou Lebus, Charlene Maddox, Marguerite Taylor and Juanita Morrison.

Members present were: Misses Kathleen Conrad, Eileen Graves, Lesly Bullock, Lois Morrison, Sue Brown, Sallye Bean, Emily Davis, Juanita Mills, Mrs. Doyle Jordan, Mrs. Homer Massey and Mrs. Edward Blackwell.

Local Theater Shows Snoop, The Columnist This Weekend

Stop! Hold everything! Think before you speak! There may be a columnist at your keyhole now!

You can't escape them. You can't ignore them. You will just have to grin and bear it.

"Snoop," the reporter has been replaced by "Snoop," the columnist. Even your thoughts aren't your own. How and why he does it is told fearlessly and hilariously in the picture "Blessed Event," featuring Lee Tracy and Mary Brian, as filmed by Warner Bros. from the stage play of the same name, and at the Lindsey Theatre Friday and Saturday.

"Blessed Event," is a side-splitting text book on how keyholers keyhole.

Sock And Buskin Presents Play At Tuesday Meeting

"Submerged," one-act play written by Stuart Cottman and La Verne Shaw, and directed by Aileen Brown, was presented at the Sock and Buskin club meeting Tuesday evening at 7 o'clock in the campus playhouse, room 302 of the administration building.

"Submerged" is the story of six men who were caught in a sunken submarine. One is shot through the torpedo hole to bring help, and all are saved but a coward, who refuses to help. He is locked in the splintered chamber to drown.

Members of the cast were: Dunn, Bob Taylor, Shaw, Payton Price, Brice, the coward, Lloyd Marr; Commander, Ellis Mills; Nabb, Fred Barron; Jorgson, Claude Goldsmith.

Joyce Coley is receiving medical attention at the West Texas hospital for the flu and for chest injuries sustained in a fall.

STUDENT CONVOCATION The last convocation of the winter term has been called by Dr. Bradford Knapp on Tuesday, December 13, at 11 o'clock. Classes meeting at this hour will be dismissed, and all students are requested to be present.
