

# Plans For Homecoming Celebration Are Complete

## President And Four Faculty Members Named In Current Publication Of "Who's Who"

Knapp, Cunningham, Holden, Patton And West Are Among Famous People Of 1934 Book

FOUR faculty members and the president, Dr. Bradford Knapp, are listed in the 1934-35 "Who's Who in America" of the July edition. Miss Elizabeth H. West, Dr. Leroy T. Patton, James M. Gordon and Dr. A. B. Cunningham are the faculty members classed with famous American citizens, educators, authors, scientists, lawyers and other notables.

With the distinction of being the first woman commissioned as head

of a department in Texas state government when she was state librarian from 1918 until 1925, Miss West, college librarian, acted as research assistant to the Library of Congress of European Mission, in charge of its work in the Archivo General de Indias, Sevilla, Spain. Miss West was assistant in the Library of Congress, Washington, D. C., 1906-11.

### Miss West, Author

For two years she was president of the Southwestern Library association, 1922-24. Miss West holds a life membership in the Texas Congress of Mothers and Parent-Teacher association, is the author of "Texas Historical Notebook," 1905, has compiled the "Calendar of the Papers of Martin VanBuren," 1910, and the "Papers of Mirabeau Bounaparte Lamar," 1914. She holds two B. A. degrees and one M. A., which is from the University of Texas.

Dr. Patton, professor and head of the department of geology and geological engineering, is the author of "Geology of Potter County," 1923, and of various papers on geological topics. He is a member of the American Association of Petroleum Geologists, Sigma Pi Gamma Alpha and is a fellow of A. A. S., Iowa Academy of Science, and of the Texas Academy of Science. Dr. Patton holds three degrees, including A. B. from Muskingum College, New Concord, Ohio, 1905; B. S. from the University of Chicago, 1913; and M. S. and Ph. D. from the state university of Iowa, 1916 and 1923.

### Dean Gordon Listed

Holder of A. B. and L. L. D. degrees from Trinity university, 1903 (Continued on page 10)

## Pre-Law Club Plans Dinner

Barbecue Will Be Held At Jackson's; 21 New Members Join

Twenty-one new members were initiated into the Pre-Law club at its regular meeting Monday night. Ernest Griffith, president, presided over the initiation. Prospective members were called on for impromptu speeches and debates.

Jane Woodruff was elected associate-justice of the Tech supreme court, and will also act as parliamentarian of the club.

The future lawyers and their dates will have a barbecue next Monday at 6 o'clock at the home of Dr. W. A. Jackson, 2515-22nd street. Professors H. C. Pender and B. F. Conroy will act as chefs for the occasion. Tickets may be obtained from Ernest Griffith, James Toothaker, Arnold Walter and J. H. Smith. Those expecting to attend should purchase their tickets before Saturday noon.

The following new members were initiated: Wilson Banks, Donald Henry, Cecil Terrell, Walter Pendleton, Edward Sweatt, Wely Wright, George Hancock, Homer Newman, Lee York, Angus Wages, F. H. Richards, Bob Case, Gish Houston, J. G. Lindley, Truman Hines, Doc Vickery, Mildred Houston, Aldridge Salyers, Vernon Thompson, Eugene Smith and Bill Power.

## Renner Named On Committee

State Cream Grading Council Will Draft New Program

At a meeting of the advisory council on state cream grading last week, professor Renner was appointed to draft a complete educational program on cream grading. When the program has been approved by the educational committee it will be sent to county agents, vocational agriculture teachers, and associations engaged in bettering cream conditions all over the state.

This afternoon Renner will attend a meeting of the Panhandle Butter club at Plainview. At this meeting the club will take up a discussion of the cream grading work in this area. The club is composed of butter manufacturers of West Texas and eastern New Mexico.

Professor Renner is a member of the committee-at-large and member of the educational committee on the present cream grading set-up. The state is divided into four districts, this district being represented by representative A. B. Tarwater.

Tuesday night Mr. Timney, cream grading inspector for West Texas, held a meeting at Brownfield composed of cream producers. Mr. Timney was assisted in the program by the department of dairy manufacturing. Claude Brown and Guy Bratcher, seniors majoring in dairy manufacturing, gave a short play concerning production of quality cream and what it means to butter-fat producers all over the state.

## Pen Meeting Called For Tonight In Gymnasium

Charles Still, yell leader, has called a pep meeting for tonight at 7:30 o'clock in the gym.

Cheers and songs will be practiced.

J. T. Epperson, sophomore student from Cleburne, was elected assistant yell leader at the last pep meeting.

## Toreador Staff Eats Ice Cream

Fly-swarming and type-pecking ceased. "Um yum" and similar cries of ecstasy arose amid the ominous calm in the Toreador office Tuesday evening. Editors and cub reporters took time off to guzzle ice-cream donated by the dairy manufacturing department of the division of agriculture and delivered in person by Mart G. "Pete" Pederson.

Can they make ice-cream? Judging by the amount consumed in a short time, several of the fair sex should start on a diet tomorrow.

This "recess" is to become a weekly affair, the staff unanimously voted during the treat. All hands were on deck until the last of the cream was spirited away by the ever-present flies!

## Sophs Choose Two Sponsors

Class Will Enter Float In Homecoming Day Celebration

Sponsors were selected, committees were named, and plans for homecoming were discussed at a meeting of the sophomore class Monday evening. Floyd Williams, president of the class, presided.

Miss Zella Riegel, professor of physical education for women, and D. O. Wiley, director of the Matador band, were chosen sponsors of the class.

Ruth Senter was appointed chairman of the committee to work on the class float for the homecoming parade. Pauline Phillips and Frances Campbell were named to work on the committee.

Class members have been asked to donate 10 cents for the float decorations. At the door of each division of the school a student will be placed Friday and Saturday to collect this money. Leldon Hudson will be stationed at the aggie school; Helen Lehner and Earl Bobbie, arts and sciences; Jack Quinlan and Mary Etta Bean, engineering; Mary Elizabeth Stanford, home economics.

Lewis Spears and Winburn McAllister compose the committee for the fish-ship and bag exhibition, Williams announced.

A standing social committee, composed of Maurice Hughteb, Charlotte Ratliff, and Maynard Hall, was appointed by the president. Three students were named to act on the committee arranging for the annual sophomore dance, the hodge-podge. These are Joni Bundy, Dawson Bridgeman, and Jack Quinlan.

## Dormitories To Be Dedicated Friday

Formal dedication of the new dormitories and an open house for visitors will take place Friday night. The Tech board of directors will be present.

At 7:30 a brief ceremony will be presented at each dorm, first at the girls' and then at the boys'. Open house will follow, from 8 to 10 o'clock, in charge of student organizations in each dormitory. Members of the board will make short talks.

Visitors will be shown over the buildings by student residents. The public, including students and townpeople, is invited to the affair.

Friday, the board of directors will have their annual meeting.

Sanford Gabrielle has recently accepted a position with the Du Pont company in Old Hickory, Tenn.

## Toreador Editor Defendant In Libel Suit Brought By Dark-Haired Co-Ed

DOROTHY Frank Clements, dark-haired campus beauty, filed suit Monday against Lomer Nelson, Toreador editor and campus Walter Winchell, for libel of her character in a recent Toreador news story. It is rumored damages asked will total \$250,000.

The case, first of its kind in the history of the Pre-Law Supreme Court, will be tried November 30 in room 302 of the ad building. The proposed litigation was revealed Monday night at the reading of the regular report of cases pending on the Pre-law Supreme Court docket.

When interviewed, Miss Clements, better known as "Frankie" was dry-eyed, and would not divulge the exact basis of the suit. "This suit is based on enough evi-

dence to merit damages in a large way, and believe me, I'm going to ask for pull-enty," she parried when questioned.

Nelson, in his statement for the press, refused to discuss the matter, except to say that the charges were undoubtedly "trumped up."

The principals in the case have not as yet announced their attorneys, but both averred that they would secure the services of the best legal talent available on the campus.

Already, witnesses for the case are being lined up, and the Toreador staff intends to back Nelson to protect the paper from the "gold-digger" coed," as the defendant termed her.

This is the first mock Pre-law trial of the year.

## Dorm Election Is Undecided Tuesday Night

Lack Of Parliamentary Rules Causes Boys' Adjournment

FOUR candidates are still awaiting the outcome of an election after a meeting of the men's dormitory students in the lounge Tuesday night. Nominations for president of the organization are Melvin Schumpert, Portales, New Mexico, Preston Conerly, Clarksville, J. R. Earnest, Lamesa and Dwight Epperson, Cleburne.

After one hour of debating over the method of election of officers, the group disbanded until rules and by-rules could be established to govern future meetings. Frustrated by yells for the nominees, the meeting became unmanageable for the temporary chairman.

### Committee Reports

The meeting came to order with an opening prayer by the house-mother and the reading of the minutes by the temporary chairman, John Manning, member of the nominating committee, read the report of the selection of candidates for the various offices of the governing body. They were Preston Conerly, president, Houston Wester, vice-president, Joe Elder secretary, Tommie Taylor, treasurer, Ed Miller, parliamentarian and Jack Nowlin, historian. After the inability of the group to settle on the selection of a president, the remaining offices were left hanging fire. No nominations were made from the floor for the offices of vice-president, secretary, treasurer, parliamentarian and historian.

### Awaits Action

Indications at a late stage in the meeting were that the nominating committee was to meet again and draft a set of rules according to parliamentary law, or to refer the tabulations of the voting Tuesday night to the administrative council or the student council. On the first ballot taken for the office of president, Schumpert led the combined votes of his three opponents by a lead of 91 votes over Conerly, his nearest opponent, held 70. The other candidates received eight votes each in the presidential race.

## Delegates Will Go To Chicago

Fine, Shipman Represent Tech Chapter Of Block And Bridle Club

Delegates to the national convention of the Block and Bridle club, to be held at Chicago during the International livestock exposition, were elected at a meeting of the club Monday night. Casey Fine, president of the club, and Lawrence Shipman, both members of the judging team which recently competed at the American Royal at Kansas City, are the delegates chosen.

The Block and Bridle club is a national organization of animal husbandry students. Representatives from agricultural schools all over the United States will be present at the convention December 2, in Chicago. The Tech delegates will present names of candidates for the Tech chapter to the convention for membership in the club.

Homer Brumley made a financial report of the rodeo which was followed by a talk by W. L. Stangel, sponsor of the club. Mr. Stangel outlined some of the important objectives of the club for the year. Outstanding persons in the field of animal husbandry will appear on programs during the semester. Standing committees appointed are: social, publicity, program and membership. Floyd Wilkes and Fern Harris, new members, will be initiated at the next meeting.

## Horne Will Speak At Press Meeting

Cecil Horne, journalism professor and head of the information and publicity department of the college, will be the principal speaker at a meeting of the Press club Monday night, November 12. Mr. Horne's subject will be "Qualifications of a Reporter."

Forrest Weimhold, president, stated that he wanted every student interested in journalism, whether they are majoring in the subject now or not, to attend the meetings. Membership of the organization is made up of about 40 members. The club meets in room 214 Ad building at 7:30 p. m.

## Heads Alumni

Mart G. "Pete" Pederson, president of the Texas Tech Alumni and Ex-Student association for the year 1934-35, extends his heartiest greetings to homecomers when they gather on the college campus next week.

## Alumni Prexy Greet Exes

Pederson Welcomes Old Students To 1934 Homecoming

Mart G. Pederson, president of Texas Tech Alumni and Ex-student association, welcomes all ex-students of the college back to the campus for homecoming.

"I wish to not only welcome each alumnus and ex-student, but to insist that you come back to your alma mater for the 1934 homecoming. Every person should have a desire in his heart to come back to the institution at which he spent several years of his life. I sincerely hope that this urge will be strong enough to bring each of you back. Do not disappoint your many friends who will be here expecting to see you."

"The out-look for the alumni and ex-student association is brighter than ever in the past. There are more active members in the association at present than ever before at this time of the year.

"As our group grows larger, older and more important, our field of activity widens, and our opportunities to give Texas Tech additional prestige are magnified. No matter where you go or what your work in life may be, your years at Tech have put a mark on you which brands each of you as a Tech man or woman. In being a marked person you add to or take from the prestige of your own life by the way you bear the banner of that mark. Let us bear the banner of Texas Tech high and above reproach.

Yours truly,  
Mart G. Pederson."

## Labay Named Head Of Tech Dairy Club

Walter Labay was elected president of the Tech Dairy club at the regular meeting Monday night. Guy Bratcher was named vice-president; Claude Brown, secretary-treasurer; Vern Koer, marsh- all, and Curtis Scharnberg, reporter, were other officers elected at the meeting.

Twenty members were present at the club session. The sponsors of the club are Prof. K. M. Renner and Arthur Pritchard, of the dairy manufacturing department. It was decided that meetings of the club will be held each third Monday in the aggie building.

## Home Ec Majors Learn Metal Craft Trade As Well As Art Of Cooking

Not only can home economics students make dresses out of cloth and furniture out of wood, but they can now take a piece of metal and turn it into bookends, trays, paper knives, or jewelry. The art of metal craft is being taught for the first time at Tech by Miss Elizabeth Hawley, part time instructor of applied arts and a new member of the home economics faculty.

Working with copper, brass, and pewter, the seven students in the class will design and make small bowls, paper knives, bracelets, belt buckles, bookends and trays. Silver will be used for the jewelry work, and each student will make two rings or a ring and a pin. Pieces of the larger metal work are on display in the first floor hall of the home economics building. Decoration of the metal is done

## Annual Trek To Tech Will Begin Next Week As Invitations Are Sent To Graduates And Exes

Parade And Pep Rally Open Festivities; Tech-DePaul Game Features Ninth College Homecoming

INITIATING a parade as a substitute for the traditional bonfire, Texas Tech's ninth annual homecoming for alumni and ex-students will begin Thursday evening, November 15 at 7 o'clock with a parade and pep rally.

Members of the Student Council and of the Alumni and Ex-Student association are completing plans for the celebration.

The parade, beginning at College avenue and Broadway, will pass around the flag pole, by the engineering and textile buildings, and Matador field. Social and campus clubs and the Alumni and Ex-student association will sponsor floats. Classes, marching under class banners and headed by class officers, will be in the parade supervised by council representatives.

Floats will be judged by members of the administrative council and results will be announced during the half of the Tech-DePaul game the next day. The Student Council is offering a trophy on which the name of the winner will be engraved. A pep rally will follow the parade and will consist of exhibitions.

### PROGRAM

November 15  
Parade and pep rally, 7 o'clock, Campus and Matador field.  
November 16  
Registration in room 317, Alumni office, Ad building.  
DePaul-Tech game, 3:15 p. m., Matador field.  
Alumni-Exes supper, 7 o'clock, Women's dormitory.  
Student-Alumni dance, 9 o'clock, gym.

introduction of prominent alumni, old yell leaders and former football captains.

The football game between DePaul university of Chicago and Tech's Matadors will feature the homecoming program Friday. The (Continued on page 10)

## New Extension Course Added

Curriculum Construction Will Be Organized At Big Spring

A state-wide movement on curriculum construction is being led by L. A. Wood, state superintendent of public construction. Five extension courses on this subject are being organized.

J. F. McDonald, director of extension, has been invited to meet the teachers of Borger and Hutchinson county at 10 o'clock Saturday morning to organize such a class.

McDonald went to Big Spring to organize a class last week.

A class in curriculum construction will be held for the first time Thursday night at O'Donnell, Dr. A. Barnett, professor of education, will be the instructor.

Dr. D. D. Jackson, associate professor of education, will begin a class at Childress Saturday morning at 9 o'clock in the high school building.

## Students Will Be Excused From Classes Monday

Three hours holiday for Armistice! Monday all students will be dismissed from classes from 10 to 11 o'clock for the American Legion's Armistice celebration around the flag-pole.

Band members and students in the military department will be excused from classes from 9 until 1 o'clock to participate in the American Legion parade.

## Morgan Talks At Assembly

Noted Speaker Discusses Parent Education And Home Relations

Stressing sincerity in dating and importance of making decisions for oneself, Mrs. Mildred L. Morgan of the University of Iowa City, addressed two student groups in the engineering auditorium at 9 and 11 o'clock Wednesday morning. She also talked to other groups during the day, and was a special guest of the Forum at luncheon at the Glorieta.

Convocation was held at 9 o'clock and Mrs. Morgan, a lecturer in the fields of parent education and family relationships, spoke to the students on sex relationships. At 10 o'clock she led a discussion with boys in the men's dormitory lounge.

Women in the freshmen orientation classes assembled in the auditorium at 11 o'clock to hear Mrs. Morgan speak again.

During the afternoon, Mrs. Morgan was free for student conferees in both dormitories. From 4 until 5 o'clock she was special guest at a tea sponsored by the cabinet members of the Young Men's and Women's Christian organizations at the home of Mrs. Robert E. Withers, 2411 Tenth street.

## Phi Psi Makes Plans For Year

Seniors Will Be Sent On Tour Of East-South Textile Mills

Phi Psi, textile fraternity, held its first meeting last Tuesday night in room 207 of the textile engineering building to make plans for the coming year.

Officers in the club are: James Knox, president; Denzil Probasco, vice-president; Elliott Knox, secretary-treasurer; L. E. Parsons, senior warden; and Ernie Bozeman, sentinel.

New pledges for this year are Cecil Rushing, Joe Christian and Ersel Matthews.

Phi Psi's are planning to make enough money this year to send all senior textile engineers on a tour of inspection of textile mills in the East and South, in order to help them get a position when they graduate.

The fraternity is also sponsoring a meeting of all textile students once a month.

The club will meet again next Tuesday night in room 207 of the engineering building to make further plans for the year.

## Tech Debate Club To Elect Officers

Tech Debate club will elect officers for the year at its meeting Tuesday night in room 220 of the Ad building. A committee composed of Russell Wilkinson, Wilton Lynn, Paul Eubanks, and Fred Griffin is to submit a list of nominations.

Four members of the club will debate on federal control of public utilities.

Miss Annah Jo Pendleton has announced that invitations to debate have been received from several colleges, including the College of the Pacific, in Stockton, California.

KNAPP TO SPEAK  
Dr. Bradford Knapp will go to Amarillo Sunday where he will speak at the union services in observance of Armistice day, under the auspices of the American Legion.

## Welcome Back

WELCOME back to the campus, alumni and exes! Welcome back to another annual homecoming celebration of Texas Technological College, November 10. Welcome back to Lubbock and a greater Tech.

Years have changed greatly since YOU were here. Tech has developed, expanded, and gained more respect in the eyes of Texas in the last two years than any other college in the state. If you were proud of Tech two or eight years ago, YOU have reason to be doubly so now.

Tech has cracked all enrollment records this fall with 2,429 full-time students, representing a 23 per cent increase, and of this number, approximately 600 are freshmen, giving a higher percentage of upperclassmen in relation to first-year students than Tech has ever enjoyed before. Tech can not only attract new students, but, contrary to recent charges, it can hold them.

There are two new dormitories on the campus, made possible by a Public Works Administration loan of \$650,000. They are an asset to college spirit and they are bringing about a better organization and cooperation of the student body. The students are proud of them. They add to the joy and fellowship of college life.

ALUMNI and exes, YOU will be surprised to see the paved entrances leading to the Ad building. There are no more muddy streets, and muddy cars.

The Matadors are putting the college on the map, and are gaining more prestige and fame for the school every year. As one of the chief attractions of the homecoming program, the Matadors play an inter-collegiate game with DePaul university of Chicago.

Last, alumni and exes, YOU will be surprised to learn that part of YOUR homecoming celebration has been changed from the familiar bonfire to a student body parade. The bonfire was abolished by a vote of the student body; it was too expensive to the good-will of the college to continue it longer.

Our praise of the college must be suppressed too, even though we want to broadcast it to the world. What we want to say most now, is that Tech gladly welcomes its alumni back—those that were a part of its beginning, and those that began its reputation to make the school the great institution it is today. YOU have a right to be proud of the college YOU have so firmly founded. Alumni and exes, Tech is looking forward to welcoming you back on November 16.

## Scholarships

AWARDS, prizes, or recognition for faithful, conscientious and outstanding work should be an ideal for any college. It compensates a student in a small way for his superiority in a particular field, or at least, gives him pride satisfaction for winning an award. Awards are one way of making a superior student feel that it is after all worthwhile, and it does really mean something to be above the average.

Tech has several worthwhile scholarships which are worthy of any college and are ample reward for a superior student, as the Dr. Overton Scholarship of \$200, the Stander-Campano award, and the Pan-Hellenic society award. Tech used to have a cash award for the highest ranking English student, one for the highest ranking student in college, and also an award for the highest ranking freshmen students, boy and girl respectively.

Winners of these awards are usually announced at the commencement exercises in June. This last year, for some unaccountable reason, the English award, highest ranking student award, and freshmen awards were forgotten. It is true that the money was not available which goes along with these awards, but nevertheless, the winners could have been announced, and the students could have had the satisfaction of a least being recognized, even if the material reward was not forthcoming.

Tech has several excellent rewards which are worthy of any student to win, but other rewards have been neglected. The Toreador does not know the reason, or the cause, but it does believe that the winners should at least be announced.

This ideal of economic planning is in harmony with the ideals of those who first wrote the Declaration of Independence and then the Constitution of the United States.—Donald Ridberg.

My advice is, don't worry.—John D. Rockefeller.

## ONE WORD MORE

BY JAMES ETHRIDGE

Jack Hightower, dean of Tech's campus night life, as our Mr. Fairchild told him, ran one of our new instructors and his wife off the campus several nights ago. He couldn't let any youngster say of the grounds after ten o'clock, he told them.

Friday night we watched the workout between the Matadors and the Texas Miners, looking at the game through a shower of peanut hulls. Between fumbles we were amused by looking at the red sign of the Lubbock hotel and talking to our interesting neighbor. Something else to compensate for having to sit in the grandstand with the wind coming up under us was seeing the streaming of the car lights along the avenue slowly coming through the fog of dust. The peanuts were very wormy.

The 70-year old man whom we mislabeled several weeks ago showed us a letter he wrote to his son. It began: "My dear son—the wind is blowing today at 2-40-goose-trot gale, so thought I would drop you a line; don't suppose you could take to the woods if I were to drop two lines. Ah, son, dad's kidding again."

One of our hopefuls told us that he was saving his money to see the "Wimpoles of Barrett Street."

When the balloting for year-book beauties was held in the engineering building, some of the engineers were surprised to learn that Tech was a co-ed school.

On the night before he was to leave for his first year in college a youth said in his prayer, "Lord please take care of mother, father, and brother and sister; and good-bye God, 'cause I'm going to college."

Some of our Lubbock motorists think that stop signs are a ruse made by the advertisers to force them to stop and read the bill-board ads on the other side of the street.

Indifferent Dame Fortune recently spooled a supposed-to-be dramatic scene. Fired from a job in a boarding-house kitchen, a student picked up a glass, planning to smash it. "When I quit a job I always break a glass," he said. Raising it up with a dramatic flourish, he threw it down on the concrete floor. The glass bounced several times, and finally rolled into a corner unbroken.

If we had enough nerve we could take advantage of a wonderful opportunity that writers and speakers have. We could say that we thought the average person was a dumb, follow-the-leader individual, we could say that the conversation of most people is about as interesting as last week's newspaper, or as today's Avalanche-Journal, and no one would get mad. They would think that the statement referred to some one else, about their room-mate, perhaps, but we're afraid that we haven't the courage to say this.

We pity the freshmen of next year who will have to remember and spell the name of Clement Adams Joseph Tyskiewicz. We like to watch a waiter at the busy Bess who looks like James Cagney, and one of our freshmen, Laverne Willis, who looks and acts like Hal LeRoy.

## STUDENT FORUM

The Toreador invites the writing of student editorials or letters, for publication in the Student Forum column. Editorials must pertain to campus problems and must be signed by the writer, although names will not be used on request. The editor reserves the right to reject any and all articles. Contributions of 200 words or less will receive preference.

### WANTS YELL LEADERS APPOINTED

To the Editor:  
I wish to suggest that yell leaders be appointed by the Student Council rather than be elected by popular vote. I am not aiming this directly at our present yell leaders but at the ones we have had during the last few years. The chances are about 1 to 10 that a suitable person will be elected to this position by the student body. Some of the yell leaders we have had during recent years would have had difficulty in leading a choir in singing "Dearest My God to Thee."

To select our yell leaders in this new way the student body will have to agree to an amendment to our befuddled constitution. But we feel that the plan will meet with approval.

Some of the students may not like to put this power into the hands of the Student Council, but I think of no other body who is better fitted for the task. Capable persons should be chosen for the duty of yell leading, one of the hardest jobs on the campus. In the interest of the college,  
J. T.

### SAYS TOREADORS ARE HARD TO GET

To the Editor:  
During my matriculation at Tech I was confronted by a young lady and asked to subscribe to the Toreador. I gladly signed for I had received the student publication while in high school.

However, it seems that I received my copy of the Toreador with more surely 500 miles away from the campus than I do right here at Tech, a few hundred yards from the printing plant. I have been here three weeks and have received only one copy of the Toreador. I call at the place designated for distribution each Thursday but to my disgust I am unable to find a paper. I even made one trip to the Toreador office but was told that no more copies were to be found. While in the office, several students with the same purpose came in but left with empty hands. The expression on their faces indicated that they were also very displeased.

What is the matter with the circulation department? No matter what the cause, it should be remedied at once! If a student has paid for a paper he should get it! Student publications at other institutions are delivered but here at Tech a student is unable to get a paper even if he hunts for it. If I do not get my copy this week I shall call upon the chairman of the publications committee.

Hoping that this deplorable condition is remedied, I am,  
A DISGUSTED STUDENT.

Persons of superior individual stock must be encouraged to have more babies, or the United States will fall as Rome did.—Dr. Richard A. Bolt.

The law is, or should be, our king; we should obey it, not because it meets our approval but because it is the law and because obedience in some degree is necessary to every system of civilized government.

Go back to your college presidents and tell them to get teachers who are producers of ideas.—The Bellamy.

We realize now that money may be the cause of part of the cause of quite genuine love.—Gervan Russell.

The small business man may say, "I'm not getting from the American economic system.—Kenneth Dams."

## Prexy's Paragraphs

BY BRADFORD KNAPP

While engaged in attending important meetings in Austin a number of former students of Texas Tech, now attending the University of Texas, found I was in town and called on me at the hotel. The delegation consisted of H. L. "But-ton" Robinson, Billy Crenshaw, Lindsey Austin, Fleming Austin, Gordon M. Deering, Bill Jones and Bob O'Hair. I learned from them that there are in the neighborhood of thirty-five or forty former students of Texas Tech now attending the University of Texas. They all know each other and are talking about some sort of an organization. They wanted all the news about the progress of the college, and mentioned with great appreciation The Toreador.

It was a pleasure to meet them and discuss with them their own conception of the foundation they received at Texas Tech. Their affection for Texas Tech, the student body and faculty was made manifest in every possible way. They appeared to be to almost homesick to get back, at least for a visit.

You, who are a part of Texas Tech, will be interested to know that these young men all tried to impress upon me one important matter, May I go back and suggest that you read with care an editorial in last week's Toreador under the title "Worthwhile Traditions." I have always believed that we had one tradition at Texas Tech which is far more valuable and far exceeds in its importance all of the other traditions put together; that tradition is the tradition of friendliness and real fundamental democracy on this campus. Almost with tears in their eyes these former students of Texas Tech asked me to impress upon the minds of our student body this year the importance of this one great tradition.

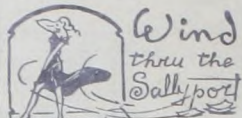

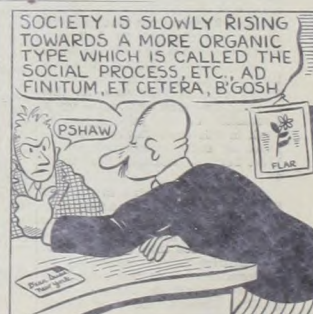

I think the great tradition on this campus is the fact that we always speak to each other with a cordial smile whether we always know each others' names or not. The fellow that works, or the girl who wears an apron, or the boy who wears overalls is just as well thought of on this campus as the best dressed or the most affluent member of our entire body. Indeed, with us money does not count so much, but in true democratic spirit we judge each by his or her character, deportment and general standing as a man or woman on the campus. Here we have this great tradition and this advantage in education, students are closer to each other, and faculty members are closer to students. The affection with which these men spoke of the members of the faculty, often calling them by their favorite nicknames on the campus was worth a lot to me.

The sports page tells of the week of the team. Last Friday night I saw something else. I not only took great satisfaction in the interesting game, but I took especial pride in the appearance of our great band—their "pep", and the snap and precision of their marching, as well as their ability to play good music. It is the first manifestation of the future great band we are going to have at Texas Tech. My hat is off to Professor Wiley and the fine group of young men he has gathered together.

## BROADWAY THEATRE

Friday and Saturday  
FIRST TIME IN LUBBOCK—  
ROGER PRYOR AND GLORIA STUART IN  
"I LIKE IT THAT WAY"  
Music, Songs, Dances

PREVIEW SAT. NITE, SUNDAY, MONDAY, TUESDAY  
(First Time in Lubbock)  
"GRIDIRON FLASH"  
With EDDIE QUILLEN and BETTY FURNESS  
A Heart Thrilling Football Drama

And so RUTH RUTLEDGE thinks a FISH IS NUTS about her. But is he?  
Will JIMMIE LINDSEY quit cutting things out of this column?

It is DISASTROUS when VIRGINIA BROWN gets tickled at the DINNER TABLE. Oh well, the JOHNSTOWN flood was a DISASTER.

Is LUPER playing FOOTBALL? WHACKER BARTON and STEAMBOAT TAYLOR are BIG BUDDIES.

What has CLAY THOMPSON got that makes "PREXY B. T." HARD-BERGER follow him AROUND?

Doesn't everyone wish they were as POPULAR as JANE TINSLEY? There is a PUNK TRANSFER from Tech writing a sports column at the university. His creditors will remember him as "STINKY" GUNN.

We want LLOYD MARR to take the lead in "BACKSTREET." Who is SHE, LLOYD? Oh well, we know anyway.

"TOM TORIAN is saying it with 21 boxes of CANDY" to "SUEBY" STEWART.

Where is "ALABAMA SAM" HERBERT?

Why does PETE HUDGINS spend so much time on THIRTEENTH STREET? Ask ELLEN K.

A dozen GARDENIAS to MAXINE FRY and PAULINE ANDERSON who conduct themselves as ladies should.

DIXIE ANDERSON is a PRINCE of a fellow.

He asked for a date MISS "HORSEFACE" MURRAY is always busy that night or HOUR, but she can work you in her SCHEDULE. If you don't believe this, ask the GREASY GREEK (ZARAFONETIS).

FARE THEE WELL, dear READER. We'll see you next week, much to your regret.

Every form of co-operative human endeavor cries out for men and women who, in their thinking processes, will know something of the broader aspects of any given problem.

The day of mass system in American colleges and universities where thousands of students are treated as a single unit is past. Universities in this country are now attempting to reproduce under American conditions and in accordance with American civilization and tradition much of what obtains at the English universities of Oxford and Cambridge.

The college must train young men to be not only able, but good. No higher responsibility could be imposed.—President Amos W. Woodcock of St. John's college.

Let your approval not be servile and let your criticism be merely obstructive.

America has not been guaranteed eternal democracy by divine fiat.

## CAMPUS ECHOES

By JIM LINDSEY

This is a true story, according to an Oklahoma daily. The other day a fisher's eyelashes came unglued and fell upon her face. The startled professor screamed, "Migawd, a centerpede."

A Freshman at Austin college has organized a date club. He charges 25 cents for securing a date with the provision that the money will be returned if the date is unsatisfactory. He has received no complaint yet. (This is a swell idea as many sit and pine away on these beautiful moonlit nights, and for a quarter they can get a date and maybe a lifelong sweetie.)

The Newberry Indian published a set of rules for writing to a coed. Hear they are: Don't get too personal with one coed; remember that your letters will probably be little more than a bulletin board. Get in the right mood for the kind of letter you want to write. Never answer a coed's letter; make her answer yours. Use college stationery. Try to keep a coed guessing. The Indian says that the last is the most important, and the hardest to do.

Examination paper boners as presented by the Los Angeles Junior Collegian:

"He was a very graceful dancer and tangled beautifully."

"The patient at the hospital required a blood confusion."

"The coming detractions were announced at the theatre."

"My little world dissolves around my family."

From the Wichitan comes the statement that to be awakened by an alarm clock causes the blood pressure to rise 15 points... we knew that something happened.

At the University of Alabama the senior lawyers of that institution dressed in formal attire to attend a football game. This unique dress is a tradition of the school.

Students at T. C. U. have coined many new phrases in their definition of words. For example, we learn that "stapistry" is fancy cooking, "bibliography" is a story of the Bible and "gar-goyle" is a throat antiseptic. The student writing the following:

## RECALLING THE PAST

SOSA'S BAND TO PLAY MATADORS DEFEATED FIRE AT TECH STADIUM

Six Years Ago

Sosa's band gave a matinee and evening concert in the gymnasium November 15.

The Texas Tech Matadors battled the Daniel Baker Hill Blues to a scoreless tie on the Hill Blues' home field in Brownwood Saturday.

The Texas Tech athletic stadium barely escaped destruction by fire last Saturday night when Jack Hightower, night watchman, discovered a fire in some cushions last Saturday night. The damage to the cushions was estimated to be about \$300.

The A. C. Wildcats and Texas Tech Matadors were to meet in their traditional tilt Saturday at Matador field.

A Halloween party at the College cafeteria was attended by 35 people November 1. Catherine Stewart was in charge of the games.

Chas. A. Guy, editor of the Lubbock Morning Avalanche and Evening Journal, addressed Pi Gamma Mu in their second meeting of the year Friday night. The subject of his talk was "The Press and its Relation to Society."

T. S. Bonner, head of the year-book department of the Southwestern Engraving Co., was at Tech last week conferring with Wilbur Edlemore, editor of La Ventana.

ing sentence received the price "He was decomposed over the social conditions brought on the world war."

Finally they're getting down to fundamentals in our schools. A university of Oklahoma has just started a course on how to live without money.

## Itch Is Contagious

If any member of your family has the ITCH, stop it before all the family is affected. BROWN LOTION is sold in 6cc and 25cc bottles for this purpose. First bottle sold with MONEY BACK GUARANTEE. Thousands of bottles have been sold for the relief of ITCH, TETTER, IMPETIGO, RINGWORM, ATHLETE'S FOOT, POISON IVY, ECZEMA. Stops BAD FOOT ODORS in three applications. Don't use messy salves and bandages. For sale by Mark Halsey Drug company.

## AFTER EVERY CLASS IT RINGS THE BELL!

It is not only top-quality tobaccos that make Prince Albert the finest smoking tobacco you have ever tried—in addition, these choice tobaccos are blended by a secret method and then treated by a special process which absolutely removes all the "bite." You'll enjoy this mellow smoke—full of rich, smooth flavor!

## PRINCE ALBERT

## Home Economics Club Members Receive Guests In Open House

### Annual Affair Is Held In Home Ec Management House On Campus

Yellow and white were the colors used in appointments when Home Economics club members entertained Saturday evening with their annual reception in the home management house.

Guests, members of campus organizations, called between the hours of 7:30 and 10 o'clock. Yellow and white chrysanthemums were used as decoration in the entertaining rooms. White candles in brass candelabra and a brass samovar were used on the serving table.

Miss Helen Frances Eiland, club president, Dean Margaret Weeks, Misses Mabel Erwin and Harriet Tilden, club sponsors, and Misses Ruth Senter, Agnes Abernathy and Georgia Mae Smith, club officers were in the receiving line.

Those in the house party were Misses Mayme Tewford, Jonnie McCrory, Carrie Hodges, May Tom Howell, Frances Weimhold, Catherine Loughridge, Velma Brown, Hermione Holcomb, Winnele Ward, Lucille Hunt, and Mrs. Anna Bert Gibson.

Those pouring coffee were Mesdames A. H. Leidigh, J. M. Gordon, Paul W. Horn, and Miss Mozelle Craddock.

Assisting in the dining room were Misses Pauline Yeager, Martha Jernigan, Doris Townsend, Mary Thomas, Elsie Pendleton, Frances Simmons, Katherine Leidigh, Mary Catherine Couch, Vera Ferriman, and Mrs. Garland Newsom.

Miss Beulah Dunn's string quartet and the home economics club quartet furnished music during the evening. Piano numbers were furnished by Mrs. E. F. George, Misses Loraine Taylor, Mary Leatherman, Dorothy Griffith, Frances Moore, and Caroline Sweatt. Members of the home economics club quartet are Misses Booker, Virginia Sims, Fannie Brown Eaton, and Mary Wilson.

## Dinner Dance Given By Club

### Sans Soucis Entertain At Hilton Hotel Last Saturday Night

Yellow, white, and bronze chrysanthemums were arranged on candle-lit tables when Sans Souci club members entertained with a dinner dance Saturday evening from 7:30 until 9:30 o'clock in the ball room of the Hilton hotel.

Ned Bradley's orchestra played for dancing.

Special guests were Misses Newell Hatch, Rosa Lee Briscoe, Jane Murray, Mary Ross Edwards, Ellen K. Clapp, Frances Gale Holmes, Dorothy Neuhardt, Louise Toler, Billy Shultz; Messrs Pete Boverie, Barney Rushing, George Zaranonets, Sam Hengele, Pete Huggins, Truman Green, Cecil Rushing, Jack Drown, and Southern Shultz.

Members attending were Misses Eleanor Halbert, Poly Shultz, Wanda Butler, Mary Geniece Hardberger, Lois Watson, Lois Pitts, Nancy Ruth Leaverton, Frances Snyder, Melba Watson, Crystelle Scudder, Christine Bundy, Joni Bundy, John Anna Boyd, Catherine James, Lena Bille Brown, and Mrs. Bob Crawford.

Their escorts were Messrs Lucius Halbert of Plainview, Kenneth Rollo, Van Earl Sams, Don Blue, Leon Ince, Tom Cammack, Truman Hutson, Fenner Tubbs, Ray Moore, Jerome Stocking, Clarence Masst, Douglas Howell, Mark Welch, Felix Walker, and Bob Crawford.

## Students Marry In Bride's Home

Fred Biffle and Billie Bloom were married last Monday night, October 29, in the home of the bride's mother, Mrs. C. G. Bloom, 1119 Seventeenth street at 9 o'clock. The Rev. J. O. Haymes, pastor of the First Methodist church, officiated.

Mrs. Biffle was a sophomore home economics student, a member of Sans Souci club, and was a member of Delta Beta Sigma, high school sorority.

Mr. Biffle, son of Mrs. Biffle Fort of Silverton was a sophomore arts and science student and a member of the College club.

The marriage ceremony was a simple one and the couple was attended by Mr. and Mrs. M. E. West. Guests at the wedding were the groom's mother, Mr. and Mrs. Archie Castleberry and Miss Geraldine Biffle, of Silverton; Mrs. Hogan Lemond of Hale Center, Joe Caldwell of Abilene, and Mesdames W. E. Twitty, C. G. Bloom, and Mada Craig Twitty.

Mr. and Mrs. Biffle are making their home in Post, Texas, where the groom is engaged in business with Mr. Milton West, public accountant.

Dr. Henry T. Spangler, president of Ursinus college from 1893 to 1904 and a member of the college's first graduating class in 1873, died last month.

Italy's new educational program calls for the construction and opening of 1,250 new elementary school buildings before the next academic year begins.

## Exes To Have Annual Dinner

### Banquet To Be Held For Former Students Of College In Dorm

A Texas Tech alumni and ex-student supper will be served at 7 o'clock in the dining room of the women's dormitory Friday, November 16 as an annual feature of home-coming week-end.

The plates will be fifty cents apiece and reservations must be made before 9 o'clock November 16.

There will be a reception in the lounge of the dormitory immediately following the Tech-DePaul game. A business meeting has been called for 6:30 o'clock in the lounge for ex-students and their guests.

Tickets for the dinner may be secured from Mrs. Anna Burt Gibson, Dean Margaret W. Weeks' office; Hank Morgan, College Bookstore; Mrs. J. G. Allen, Information office; Dorothy Rylander, engineering library, Culver Hill, Hemphill Wells Company; T. A. Rogers, Lubbock Machine Works; Paul Hardy, Bus Terminal; Margaret Turner, Avalanche-Journal office; and W. E. Street, room 257 of the engineering building.

The dinner committee is made up of Lucille Hunt, Mrs. Paul Hardy, Jason Gordon, Etheridge Egan, and Joe Griggs.

## Home Ecs Add New Course

### Six Seniors Are Enrolled In Institutional Management

Using the dormitories for laboratory work, a new course, Institutional Management, has been added in the home economics division under the direction of Miss Mozelle Craddock.

Students who intend to work as dietitians in hospitals, college dormitories, or high school lunch-rooms may take the course. It may be used as an elective by majors in foods and nutrition. Six seniors are enrolled.

Miss Craddock, who comes from the College of Industrial Arts, Denton, is dietitian of the two college dormitories. She has a Bachelor's degree from the University of Texas and a Master's degree from the University of Chicago.

At the present time three graduates of Tech are employed as dietitians in hospitals. They are: Dorothy Gleason, '31, St. Mary's hospital, Evansville, Ind.; Carolyn Powell, '31, Southern Baptist hospital, New Orleans, La.; and Lesley Bullock, '31, Baylor hospital, Dallas, Texas.

Three students are serving as dietitians: Mary Leidigh, '34, University hospital, Oklahoma City; Emma Chapman, '33, Presbyterian hospital, New York City; and Allethe West, '32, St. John's hospital, Brooklyn, N. Y.

Prof. Miguel de Unamuno, rector of Salamanca university, in Spain, has been a professor of Greek for 43 years without ever missing a lecture, with two exceptions—once when he was exiled to the Canary Islands for speaking his mind about the monarchy and once when he sat as a deputy in the Constituent Cortes of the new Spanish Republic. He has been retired on a life pension, the Republic recently having paid him high honor.

### ASKS RESIGNATION

Failure of the national Democratic party to give the same help to the LaFollettes in their progressive party campaign in Wisconsin that has been given personally by President Roosevelt, is credited by political experts with being the cause of President Glenn Frank's decision to ask that Lloyd K. Garrison resign his position with the federal government and return to the University of Wisconsin to take up his duties as dean.

## Kemas Club Makes Plans For Annual Tech Homecoming

Headquarters for the Kemas club will be at the home of A. C. Sanders, 1420 Main street during homecoming week-end. Invitations have been mailed to former club members, and plans for entertainment are being made by the active members.

The club and returning members will attend the Tech-DePaul university game in a body. After the game the group will be the guests of Roscoe Clark for refreshments. Mrs. Sid Clark and Mrs. W. A. Clark will be co-hostesses for the evening. Craig McNeese, president, will be in charge of a club supper which will be at the Gloria.

Old members expecting to return for homecoming are Jesse Womack, Dallas; Gail Eubanks, San Antonio; Edwin Parker, Wellington; Garvice Johnson, Marquez; Morrison Linton, Friona; Gordon Brown, Mathis; Hamp Anderson, Corpus Christi; Arthur Norton, Flatonia; Joe Wells, San Antonio; George MacDonald, Fort Worth; Ed Watson, Grand Saline; Niel Brown, Lampasas; Walter Hicks, Corpus Christi; H. L. Roberson, Austin; Jim Bob Poole, Grand Prairie; Jimmie Huffman, Grapevine; and Vance Vannoy.

Active club members now are McNeese, Clark, Paul Pattillo, Sam Black, Jr., Glenn Stevenson, Chancy Watson, Bryan Harper, Sanders, Leroy Mosely, Harold Elliott, Carl Harris, Ralph Wyatt, Jack Bostick, Travis Hicks, Maynard Hall, Frank Morris, Bill McKelvey, Wayne Hardy, R. C. Mitchell, and Harvey Bond.

## Eva Jo Stanley And Bill Teal Married At Amarillo

Bill Teal and Miss Eva Jo Stanley, of Borger were married October 27 in the Amarillo Baptist parsonage by the Rev. J. H. Seisnagon.

Mr. Teal, son of Mr. and Mrs. J. R. Teal of Lubbock is a graduate of Tech and played on the football team three years. He is now employed as assistant coach and teacher of the sixth grade in the Borger school system.

Mrs. Teal, daughter of J. L. Stanley, of Denton, is a graduate of North Texas State Teachers college and is also a teacher in the Borger school system.

Wedding guests were Miss Viola Jones, Max Dillard, Margaret Jones, and Earl Runton all of Borger.

Prof. Richard U. Light of Yale university has completed a flight across the Atlantic by way of Greenland and Iceland, and now is making plans for a flight around the world.

Jesse Owens, 21-year-old colored dash star at Ohio State university, returned to the university this fall with a wife, the former Miss Minnie Ruth Solomon, 19, of Cleveland.

Cliff Palace, the largest Pueblo ruin on Mesa Verde, will be depicted on a new 4-cent stamp to be placed on sale soon in Washington and at the Mesa Verde National Park, Col.

The vim, "vinegar," and vitality of Tech football is but one expression of the same spirit which seems to permeate the whole institution — We know you'll be glad to make the 1934 "Home-Coming" and see the new dormitories.

## TEXAS UTILITIES COMPANY

In advance of publication we asked Collier Parris, Sports Editor of the Lubbock Avalanche-Journal, to forecast the Simmons and DePaul games. Here it is:

November 9—Tech 20, Simmons 0  
November 16—Tech 26, DePaul 0

# Granger Rough Cut

*"Why—I don't believe I have used a pipe cleaner in three or four weeks"*

Granger leaves no gum in the bowl of my pipe — or moisture in the stem. It burns down to a clean dry ash."

... in a common-sense package—10c

In the manufacture of Granger Rough Cut Pipe Tobacco the Wellman Process is used.

The Wellman Process is different from any other process or method and we believe it gives more enjoyment to pipe smokers.

- ... it gives the tobacco an extra flavor and aroma
- ... it makes the tobacco act right in a pipe—burn slower and smoke cooler
- ... it makes the tobacco milder
- ... it leaves a clean dry ash—no soggy residue or beel in the pipe bowl

LIGGETT & MYERS TOBACCO CO.

the pipe tobacco that's MILD  
the pipe tobacco that's COOL

—folks seem to like it

# Cowboys And Matadors Renew Gridiron Rivalry Tomorrow

## Cranfill Brings Ranchers To Town For Conflict With Cawthon's Charges

his week we have the Hardin-Simmons Cowboys in the home lot. In case you don't remember the Buckaroos, they are the lads who kicked the dope bucket up and down Tech field on their last two appearances here at the expense of the Matadors. Gamblers and railbirds will never forget that Turkey day game two years back when a lovely Simmons crew beat the greatest scoring machine in Tech history, 13-12. Last campaign Cranfill's boys rode into town doped to lose by an overwhelming count but left with only one counter registered against them.

Odell Winters, this year's captain, and Carl Ee, one of the smoothest backs to tread Southwestern gridirons, led the Ranchers in those unforgettable battles. Ee laid his toes aside last fall but Winters will appear at a terminal post again hoping to smear the Matadors. Filling the berth vacated by Ee is Pete Tyler, a former running mate to Ee in their high school days at Clyde. The 177-pound sophomore does everything with a pigskin but ride it.

And seven or eight orchids to Leonard Curfman! When the big fullback injured his leg in the Miner fiasco, he did his best to remain in the game. He struggled to walk from the field as teammates helped him. At the time of his injury he was ramming the Mucker front wall for consistent gains.

"Stinky" Gunn, self-acclaimed writer and champion of the Longhorns, continues to throw satirical barbs at Yearsley and the Bullfighters. The desk received a copy of the Daily Texan with the following remarks scribbled across the sports page: "To Jim Lindsey—Here are a couple of good sport pages as the Daily Texan edits them—and how two victims of a backbiter reply to punches below the belt—Stanley Gunn."

And that is that. By the way, Mr. Gunn, who started this squabble? We have before us an article filled with sarcasm about the Tech-Texas game. Also a statement by Gunn that Baylor should have beaten Tech. We'll give a few more "Bear" facts that did not appear in these paragraphs last week because of limited space.

Associate Editor Gunn (with all due respect to Warren Cooper) overlooked some important facts. In the first half the Bruins did not register a first down. (Get your number of first downs right as you have quoted them differently twice.) The Tech backy tore holes in "the good old Baylor line" like a machine gun riddling a piece of paper. Mr. Gunn forgot our statement that after all the score is what counts. AND ANYWAY, PROF GUNN, WHAT DO YOU KNOW ABOUT THE GAME? YOU DIDN'T SEE IT!

And back to your note via mail. You mention a gentleman. In these parts a gentleman does not borrow a tax and forget to return it after crashing a formal dance. About the backbiter, we haven't said anything that we wouldn't publish in this column.

There is a slang expression current that fits Texas university, the snob of the Southwestern conference. THEY JUST CAN'T TAKE IT! After the defeat by the Steers, we did not print an editorial on the front page alluding as the Daily Texan did after the Rice game.

### Unimpressive Record Of Abilene School Means Nothing Here

Hoping to uphold their reputation of spilling the dope bucket in these parts, the Hardin-Simmons university Cowboys ride into town tomorrow to renew their gridiron rivalry with Tech's Matadors. The game starts at 3:15 o'clock on Matador field.

A special carrying 300 students and 100 townspeople will arrive in Lubbock at noon tomorrow. The well-known Cowboy band accompanies the Abilene fans.

**Eighth Meeting**  
Tomorrow's battle will be the eighth meeting of the two schools. The previous contests are divided evenly according to victories but the Buckaroos have registered the largest number of points. The feud between these West Texas eleven is traditional and a stiff struggle always unreels itself when these rivals meet. Both teams play inspired football when facing each other and the "info" sheet usually gets a good tearing. Two seasons ago, a lovely Simmons club, after being buffeted by gridders throughout the state, threw it in reverse to beat the powerful Matadors, 13-12. The wisecracker predicted a one-sided triumph for the Mats on this occasion. In a battle featuring both lines, the Bullfighters eked out a 7-0 win last year.

ALL-TIME SCORES		
Year	Tech	Simmons
1926	0	0
1927	10	6
1928	0	19
1929	0	21
1930	6	20
1931	6	0
1932	12	13
1933	7	0
Totals	41	89

The Matador line came out of the Miner fiasco without injury but the backfield will be weakened by the loss of Curfman. The rugged fullback received a leg injury that will probably keep him out tomorrow's game. In the tilt with the Lions, McElroy broke his collar bone and will not recover in time to assume part of the ball lugging duties. Outside of these injuries, the Red Raiders are fit as a fiddle and ready for the invaders.

**Unimpressive Record**  
Although their season record is very unimpressive, the strength of Cranfill's gridders cannot be determined by previous games. The Punchers play a different brand of football against Tech. The visitors have won only one game this campaign, but this is by no means an index to the power of the invaders.

Several Cowboys who have faced the Matadors before will line up against them again tomorrow. Captain Odell Winters takes his turn again at a terminal post. The big wingman will be remembered as the one throwing Tech backs for losses last meeting. Routh, 165 pound guard, takes his second crack at the locals. Jim Neely, rangy pass snatcher, makes his last stand before local fandom after showing his wares for three years.

**New Faces In Lineup**  
John Green, 195 pound tackle was an all-stater at Temple. He spends his time taking care of a tackle position. Murphy and Emory, formerly of Schreiner institute, are valuable additions to the Abilene squad this year. Murphy opened holes for Ee, Tech full, at the Kerrville school and worked out with the Scarlet and black before enrolling with the Baptists.

The outstanding recruit in the visiting secondary is Pete Tyler. This 175 pounds of aggressiveness taken place of Carl Ee, his teammate in high school at Clyde. The sophomore shines in three departments of play-punting, running and passing. He plays safely and half-back on defense and is slated to give the Matadors a good deal of trouble.

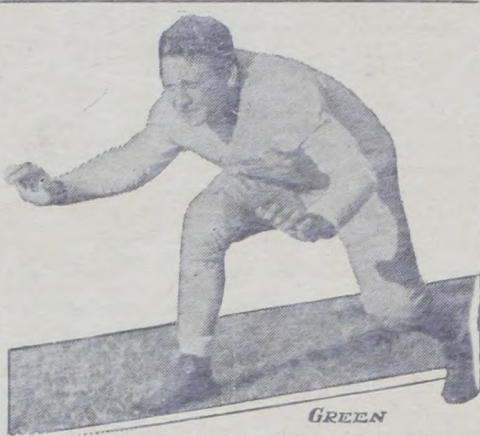

Probable starting lineups:

Texas Tech	Pos.	Cowboys
Priddy	L. E.	Neely
Browning	L. T.	Murphy
Wilson	L. G.	Routh
Wiginton	C.	Hall
Katrola	R. G.	Calloway
Jones	R. T.	Green
	E.	Winters
Beauchamp	Q. B.	Burgandy
Neill	L. H.	Milby
McKeever	R. H.	Rigby
Baze	F. B.	Tyler

Chas. M. Rogers, who received his Master's degree from Tech in 1931, is still teaching school at Amarillo. He is assistant superintendent.

Among the several Tech graduates from the division of home economics who have been appointed home demonstration agents is Mabel Ewell. She is now living at Eldorado, Texas, engaged in that work. She taught school in Hedley, Texas, previous to accepting her present position.

### All-Stater In Cowboy Lineup

John Green, above, former All-State Temple linesman, will appear at the right tackle berth tomorrow for the Hardin-Simmons Baptists. The 177-pound Sophomore has been smearing backs right and left.

### Matadors Run Roughshod Over Texas School Of Mines, 27-0

Texas Tech's rampaging Matadors smothered the Texas School of Mines, 27-0, on Tech field Friday under the arcs in their annual game.

With the second stringers taking the situation in hand most of the way the Techsters rammed the Miner forward wall with ease and circled the ends. They had little trouble stopping the El Paso school's offense which was practically nothing but passes after the opening quarter. The air was filled with 34 heaves, the Bullfighters trying 4 against 31 for the El Pasoans.

Coach Pete Cawthon used his first stringers less than half of the second period. But this was long enough for the regulars to march 70 yards in five plays for a touch. With the assistance of two regulars, the shock troops gave the visitors plenty of worry the remainder of the contest.

**Shockers Score**  
After an exchange of punts, the shockers decided to show the regulars a few tricks and pushed 35 yards for a touchdown. "Bear" Curfman carried the ball over and Games Davis booted the goal for extra point.

In making their first counter, the first stringers demonstrated the end-around play that has chalked up 80 many points for Tech. Behind perfect blocking, Captain

THE TAILOR

### Priddy, Gilmore Named Captains Of Tech Cagers

Wilson Gilmore and Laurence Priddy were appointed co-captains of the 1935 basketeers by Coach Ballard at the first meeting of varsity prospects last week. Both are playing their last year with the Matadors and hold down a guard position.

Practice is held on Tuesday and Wednesday nights. These weekly workouts consist of light drills and limbering up exercises. Regular varsity work will start in December.

Following are prospects present at the initial meeting: Varnell Hale, Bob Hale, J. W. West, Lem Weaver, Vinson Stanphill, Cook, Judge Garrett, Will Gilmore, Houston Weaver, Glenn Thornton, Laurence Priddy, and Jim Neel.

Other varsity candidates are: "Curly" Wilkinson, Hugh Snodgrass, Leroy Crews, Truman Green and Frank Bridges.

### Tech Faculty Golf Meet Is Underway At Meadowbrook

An event of interest to fans of Texas Tech this week is the faculty golf tournament which is being played over the Meadow Brook layout.

In the first round matches F. L. McRee, medalist, with a 74, and H. F. Godeke, with an 83, were even at the end of nine holes and postponed the remainder of their match. C. Galbraith defeated Edgar Shelton, 2 and 1; Lonnie Langston was victorious over C. D. Eaves 4 and 3; Cecil Horne stopped M. E. Heard, 4 and 3.

The following results were posted in the first flight: W. F. Helwig defeated George Woodbury, 8 and 7; R. V. Euler won over F. A. Kleinschmidt, 5 and 4; J. Atchison was victorious over T. C. Root, 1 and 5; W. A. Jackson eliminated C. C. Ferryman, 5 and 4; W. L. Stangel advanced on bye, and W. E. Street was stopped by Carl Brandt, 1 up.

A loving cup will be awarded the victor of the tournament and the winner of each flight will receive a consolation award.

bringing his season total to nine. Score by quarters: Texas Tech — 7 6 0 14-27 Texas Miners — 0 0 0 0-0

Officials: referee: May (Centenary); Umpire: Summer (T. C. U.); headlineman: McMillan (A. & M.)

### Meet The "Bear"

For your pleasure . . . "Bear" Curfman . . . from Electra . . . they call him "Big Ugg" . . . wearing the Scarlet and Black for his last year . . .

### Tech Men Are To Receive Plaques

When the current football season ends there will be eight members of the Matador varsity who will receive awards for outstanding ability in blocking, tackling, intercepting passes and recovering fumbles. These awards are engraved on mahogany plaques.

The leaders on October 15th were as follows:

- Intercepted passes—Owen and Priddy, tied.
- Touchdown blocking—B. Gilmore.
- Rushing passer—Kotrola.
- Blocked punts—B. Gilmore.
- Recovered fumbles—Curfman, W. Gilmore, Martin, S. Jones.
- Tackles on kickoff—Nichols and Priddy, tied.
- Line blocker—To be voted by the squad.
- Backfield blocker—To be voted by the squad.

Another aggie graduate is Iris Pribble of Hamlin, Texas. Pribble is now manager and owner of the Flower shop of that city.

Marshall Howard is teaching school at Snowy, Texas, west of Lubbock. Howard is an aggie who graduated in 1932 from Tech.

## DePaul Will Invade Tech Friday Week

Game With Chicago Club Features Homecoming Day Next Week

Texas Tech's Scarlet grid machine puts aside the title of Red Raiders and returns to the local fold for a game with DePaul university of Chicago next week. The game is the main attraction of the homecoming program.

Since early October the Matadors have been displaying their wares on foreign territory. Oklahomans received their first glimpse of the Mats when they romped over the Oklahoma City university Goldbugs, 20-0, at the Sooner state capital. Tech returned home for a week's rest and then took Horace Greely's advice to go west. At Los Angeles in the first intercollegiate game between institutions of the two states the boys from the Plains made an impressive bow on the Pacific coast by holding the strong Loyola Lions, 13-7. And now homecoming finds the red-panted ones facing their third out of state opponent, the DePaul eleven from the "Windy City."

### DePaul Loses

Little is known about the gridsters from the middle west. Reports originating in the central states tell of an institution that is making extensive plans to show the southerners a few things about football in their introductory visit to "the badlands of Texas." Last week the Chicagoans met defeat at the hands of an Illinois normal college. But undaunted by their setback, the DePaul lads continue to carry on preparations in a large way. The Bullfighters have a tussle before them when the middle westerners blow into Lubbock.

Previously the Simmons Cowboys have been featured on Homecoming Day. This year the Baptists made their debut on the local gridiron this week in their traditional battle. The coaches decided to change the menu and give local fandom "a new deal" for the annual celebration of extra and alumni.

A two year contract has been signed between DePaul and Texas Tech. Next season the Red Raiders go to Chicago to meet DePaul for the second time.

Robert F. Wagner Jr., son of the Democratic New York Senator, and John Q. Tison, Jr., son of the former Representative from Connecticut and House floor leader, will stump Connecticut this fall under the auspices of the Yale Legislative Society in the interests of national law reform. Both are Yale students, and both adhere to their fathers' political beliefs.

## Cagers Start Annual Chase

School Champion Will Be Determined After Two Weeks Of Play

The intramural basketball tournament got under way at the gym Friday night with two games being played. The first between the Aggies and the Liberal Arts ended in a 27-8 victory for the Farmers; in the second College Inn defeated College club, 25-18.

Monday night the Boys' dormitory outplayed the Wranglers to win by the score of 30-12. The strong Pre-Med five whipped the Engineers, 32-17. Considerable strength was shown by College Inn and the Aggies in their first con-

tests. Eight teams are entered in the tournament, four in the independent league and four in the Campus division. The independents are: College Inn, College Club, Wranglers, and the Boys' Dormitory. The Campus loop includes Aggies, Liberal Arts, Engineers and Pre-Meds. As varsity basketball is to begin soon, the intramural contests have been shortened to a single round robin schedule. Every team will meet the others only once instead of twice as planned. A total of 12 games will be played and the campaign will last two weeks. Then the bracket champions will be declared. The two winners will meet in a five-game playoff series to determine the school champions.

## Be Fair To Yourself And Your Future..

TODAY I KNOW... I REALIZE THE ADVANTAGE I LOST BECAUSE I COULD NOT SEE....!

Don't let these be your words in later years. Thousands of ambitious men and women, handicapped by confused thinking and impaired judgment, see their fond hopes crash, yet remain wholly unaware that their eyes cheated them..

Energy, especially brain energy, wasted upon an effort to see cannot be used to aid thinking. Be sure your eyes are not impairing your future—Consult your eye physician (oculist) for a complete examination and be safe.

# Aggie School Livestock Require Constant Care

Aggie laboratories require attention 365 days a year. Live stock must have daily attention because they are living, breathing animals and cannot be overlooked on holidays and vacation times.

There are 1481 head of livestock, including poultry, mules, cattle, hogs, horses, and sheep, cared for by five regularly employed herdsmen and eight student employees.

**Three Types Of Cattle**

Of the three types of cattle, Tech has dairy and beef types. The beef cattle consist of two breeds, Aberdeen-Angus and Hereford, while the dairy type is represented by three breeds, Guernseys, Holstein-Friesians, and Jerseys.

There are five types of horses, but the college has only two represented. They are draft and saddle horses. There is one breed of draft horse, the Percheron. Saddle horses are graded and do not represent any recognized breed.

Mutton and wool are the types of sheep raised and owned by the division. For the mutton there are two breeds, the Hampshire and Southdown, and the wool type has the Rambouillet, which is representative of the United States as a whole.

**Clean Barns**

There are two types of hogs, American and English. The American type is represented by three breeds, Duroc, Hampshire and Poland-China.

In addition to its animals, the division has two types of poultry. It maintains three breeds of the two types, dual purpose and egg. Breeds of the first type include the Banded Plymouth Rock and Rhode Island Red. The White Leghorn is the egg breed.

When barns, stock-yards and chicken pens are mentioned, thoughts naturally wander to dirtiness and bad smells—but not if you have been around the Tech barns. Cleanliness is its most outstanding feature. Cows, chickens, and horses live there in hygienic surroundings as you or I.

The pavilion is designed primarily for judging laboratory animals, but crowded conditions necessitate class rooms in the building. When Tech opened, this building was used as an auditorium and gymnasium.

**Buildings Listed**

Other buildings are the dairy barn, calf barn, dairy cattle shed, bull barn, two horse barns, portable hog and sheep houses and a shelter for beef cattle, surrounded by lots with feed racks. Behind the dairy barn is a silo filled with silage, which is fed the dairy cows.

At the last report, there were 52 head of beef cattle, 52 of dairy cattle, 117 hogs, 27 horses and mules, 71 sheep and 162 birds on hand for laboratory purposes this semester. These are cared for daily by five regularly employed herdsmen and eight students, five of whom are members of the Tech dairy. The first animal to be owned by the department was a Duroc sow purchased in November, 1925, from George P. Lillard of Arlington.

## Tech Faculty Standing High

### Thirty-Five Members Of College Roster Have Doctor's Degrees

Thirty-five faculty members, about 25 per cent of the college's faculty roster, are holders of doctor's degrees. This does not include honorary doctorates.

Complete list of Tech faculty members having the doctor's degree, as compiled by the president's office, follows:

**List Is Compiled**

W. H. Abbott, professor of physics, Ph. D., Chicago; Archie J. Balm, instructor in philosophy and sociology, Ph. D., Michigan; Albert Barnett, professor of education, Ph. D., Peabody college; Allan L. Carter, professor and head of the department of English, Ph. D., Pennsylvania; William M. Craig, professor of chemistry, Ph. D., Texas; Albert B. Cunningham, Ph. D., New York.

D. W. Douglass, instructor in biology, Ph. D., Michigan; J. O. Ellsworth, professor and head of department of agricultural economics and farm management, Ph. D., Cornell; A. W. Evans, professor and head of department of education and psychology, Ph. D., Texas; R. E. Garlin, professor of education and psychology, Ph. D., Texas.

Eunice J. Gates, assistant professor Spanish, Ph. D., Pennsylvania; William Bryan Gates, associate professor of English and assistant dean of division of arts and sciences, Ph. D., Pennsylvania; Enoch Franklin George, Ph. D., Chicago; Robert C. Goodwin, professor and head of department of chemistry and chemical engineering, Ph. D., Harvard.

William Curry Holden, professor of history and anthropology and director of archeological research, Ph. D., Texas; Doyle D. Jackson, associate professor of education and psychology, Ph. D., Arizona; William A. Jackson, professor and head of department of government, Ph. D., Iowa; Bessie B. League, associate professor of biology, Ph. D., Texas; Seth Shepard McKay, professor of Spanish, Ph. D., Pennsylvania; William Bryan Gates, associate professor of English, Ph. D., Texas; Rose Lee Eliceo, Ph. D., Texas, receiving the great difference between dates and grasshoppers.

Leroy T. Patton, professor and head of the department of geology and geological engineering, Ph. D., Iowa; Charles B. Qualla, professor and head of the department of foreign languages, Ph. D., Texas; Paul K. Rees, instructor in mathematics, Ph. D., Rice.

E. L. Reed, professor of botany, Ph. D., Chicago; W. I. Robinson, associate professor of geology, Ph. D., Yale; Clarence C. Schmidt, associate professor of physics, Ph. D., Illinois; Valerie Schneider, associate professor of chemical engineering, D. Sc., Massachusetts Institute of Technology; Raymond C. Sidwell, assistant professor of geology, Ph. D., Iowa; Fred W. Sparks, professor of mathematics, Ph. D., Chicago; M. A. Stanbrook, associate professor of geology, Ph. D., Iowa; A. L. Strout, associate professor of English, Ph. D., Yale; E. L. Studhalter, professor and head of the department of biology, botany and zoology, Ph. D., Chicago; Earl L. Thompson, associate professor of mathematics, Ph. D., Chicago; R. S. Underwood, professor of mathematics, Chicago.

Percy Powers, aggie graduate in 1931, is following his chosen vocation, farming, at Perryton, Texas.

## Students May See High School Tilt For 50 Cents

Tech students wishing to see the Amarillo-Lubbock high school game Monday, November 12, may obtain bleacher tickets for 50 cents. Coupon books must be presented at the business office of the college by Monday morning.

According to Kenneth Oberholtzer, superintendent of Lubbock schools, students not holding coupon books may obtain bleacher tickets at 50 cents each from the office of the principal of the high school. Students must bring their receipt from the business office or some other means of identification in order to get the tickets at the reduced price.

<b>Total</b>	<b>1,289.50</b>

## DORMITORY SNAPSHOTS

Rosalie Briscoe humbly learning the great difference between dates and grasshoppers.

Emma Smith industriously scrubbing her spilled ink off the floor in front of the lounge, under Mrs. Young's supervision.

Hazel Dell Dunn claiming honors as the best "hell" player on third floor.—(You're all wrong, it's a card game.)

Rowena (pronounced as Row meaning a disturbance) Gibson hunting someone who hadn't heard about her trip to Big Spring.

Cora Fox Yonge strolling absent-mindedly past her room twice in succession.

Carol Kitchen inquiring of Mrs. Young if the south roses from east to west or west to east.

Virginia Brown, late signing in: "Well, Son and I were just fusing."

A wise junior describing a fresh freshman as "A century of progress—all at once."

Elizabeth Dryden, just like Tommy Tucker, wanting her supper—very much.

## Dormitory Girls Are Judged By The Rooms They Keep; Habits Revealed

The secret is out! Don't judge a girl by the company she keeps, but by the room she keeps. Personalities are revealed and characters, habits, ideals, hobbies, the family tree and boy friends are uncovered upon entering the co-ed's room in the dormitory.

No two rooms are arranged alike, but the majority contain approximately the same trinkets, pictures, and sunbonnet quilts. Spinning wheels, monkeys, Indian trinkets, donkeys and cats are the usual decorations found.

**Pennants on Walls**

Pennants from high schools all over the country are eclipsed by the red and black "Texas Tech" that is given the place of honor on dormitory walls. Stickers and pictures brighten the windows, both inside and out. Mottos, serious and silly, portray the owner's feelings.

Two girls are furnishing their room with Indian and Spanish blankets and dolls. Red Camp Fire honor beads strung on cow-hide hang from the walls and above the door similar to red-pepper strings on the abodes of the Texas. A blanket and papoose decorate the space between double windows.

The western theme is favored in a number of the rooms with pots

of cast, miniature sombreros, rug, donkeys and pottery. One co-ed seems to favor Holland as the Dutch theme is featured in all pictures and trinkets in her room.

**Fish Likes Crackers**

A freshman has her breadbox filled with candy and crackers. If she will refer to a recent treatise on bedroom manners, she will always remember to eat only the candy after retiring.

One of the favorite past-times of the dorm dwellers is using the back-scratcher, an ivory hand on the end of a long black stick. It is very conveniently used by those who can't accustom themselves to hard water and sand storms.

Improvised clothes lines of every description are found in each room. Cords, ropes and fishing poles are used to dry the girls' things.

# Which Of These Best-Sellers

## "formerly \$2.50 to \$5.00" Do You Want

NOW YOU CAN OWN MANY OF THE GREATEST BOOKS OF MODERN TIMES AT ONE-HALF TO ONE-FIFTH THEIR ORIGINAL PRICE.

Imagine getting great books you have always wanted to read and own—books like "Complete Works of Shakespeare," "Coronado's Children," "The Good Earth," "Queen Elizabeth," "Goethe," "The Human Body," "The Story of Mankind," and other \$2.50 to \$5.00 best sellers for only ONE DOLLAR EACH!

Use the convenient order blank at bottom.

**FOR ONLY \$1.00 Each**

**SKYWARD**, by Admiral Richard E. Byrd  
His own story of his life and flights.

Psychology which does not tie all actions to morbidity of sex.

**SEX IN CIVILIZATION**, ed. by V. F. Calverton and Samuel Schmalhausen  
Introduction by Havelock Ellis. Taking the taboos out of sex. Articles by eminent authorities.

**WHY WE BEHAVE LIKE HUMAN BEINGS**, by George A. Dorsey  
A popular book on human nature.

**THE STORY OF INVENTION**, by Hendrik Van Loon  
A lively and compact history of inventions and of the important part they have played in human progress, with 167 inimitable Van Loon illustrations.

**THE STORY OF MANKIND**, by Hendrik Willem Van Loon  
A history of the world written in the author's charming style.

**TOMBSTONE**, by Walter Noble Burns  
Life of the toughest town of the West in the old days.

**THE TRAGIC ERA**, by Claude G. Bowers  
One of the best accounts of the reconstruction period following the Civil War.

**WASHINGTON MERRY-GO-ROUND**  
The sensational inside story of society, politics and politicians in the capital before the present administration.

**WHITHER MANKIND**, ed. by Charles A. Beard  
Seventeen thoughtful writers discuss the implications of our machine age.

**THE BEST KNOWN WORKS OF OSCAR WILDE**  
Six volumes in one, including "Dorian Gray," the poems, plays, fairy tales, etc.

**THE BEST KNOWN WORKS OF POE**  
Eight volumes in one with all the stories and poems.

**THE BEST KNOWN WORKS OF VOLTAIRE**  
Includes the romances, the philosophical writings and Candide.

**QUEEN ELIZABETH**, by Katharine Anthony  
Amazing era of the Virgin Queen who built an empire and died of heartbreak.

**RASPUTIN: THE HOLY DEVIL**, by Rene Fulop-Miller  
The story of the priest with the mysterious power which led to the downfall of the Russian Empire.

**THE RISE OF THE HOUSE OF ROTHSCHILD**, by Egon Court  
There is romance and fascination in this vivid recounting of the glamorous family which rose from the slums of Frankfurt to control the destinies of the nations of Europe.

**THE STORY OF THE WORLD'S LITERATURE**, by John Macy  
Containing resumes of the most important books and writers in all literature to the close of the nineteenth century.

**CATHERINE THE GREAT**, by Katharine Anthony  
A most readable life of Catherine of Russia.

**CHARLES DICKENS**, by Ralph Straus  
The life of Dickens is almost as dramatic as the best of his stories. Fresh material impartially told.

**EDUCATION OF A PRINCESS**, by Marie, Grand Duchess of Russia  
Autobiography of one of the last of the Romanoffs.

**ELIZABETH AND ESSEX**, by Lytton Strachey  
A vivid portrait of the people and times by a distinguished biographer.

**GENGHIS KHAN**, by Harold Lamb  
A biography of the terrorist of the ancient world.

**GOETHE**, by Emil Ludwig  
The astonishing life of Germany's pre-eminent man of letters.

**GOODBYE TO ALL THAT**, by Robert Graves  
The autobiography of England's famous soldier poet.

**HENRY THE EIGHTH**, by Francis Hackett  
Absorbing biography of the King of many wives.

**THE SAURUS OF ENGLISH WORDS AND PHRASES**, by Peter M. Roget  
A new edition of the original Thesaurus.

**USEFUL QUOTATIONS**, by Tryon Edwards  
A cyclopedia of quotations, prose and poetical selections from the great authors of the world, both ancient and modern, alphabetically arranged by subjects.

**THE GOOD EARTH**, by Pearl S. Buck  
The Pulitzer Prize novel, the poignant tale of Wang Lung, poor Chinese farmer, and his family.

**THE HIGH PLACE**, by James Branch Cabell  
A comedy of disenchantment.

**JURGEN**, by James Branch Cabell  
Cabell's best known work, a fantastic tale of medieval life, at one time suppressed.

**LOOK HOMEWARD, ANGEL**, by Thomas Wolfe  
A great modern novel of the South.

**COMPLETE WORKS OF SHAKESPEARE**  
Every known work of the great Elizabethan—poems, sonnets and tragedies. Also the famous Temple Notes by Gollancz. 1420 pages.

**DOWN THE FAIRWAY**, by Bobby Jones and O. B. Keeler  
"Bobby" tells the story of his life and his golfing secrets. Illustrated.

**THE EDUCATION OF HENRY ADAMS**, by Henry Adams  
The autobiography of a man born in the New England environment of intellectuality, whose education was his life.

**EMERSON**, by Phillips Russell  
The prophet, the teacher, the sage. Emerson's career and relation to his time in the light of today.

**ASTRONOMY FOR EVERYBODY**, by Simon Newcomb  
A new, revised edition of a useful book on scientific subject much in the limelight now.

**LENIN**, by Leon Trotsky  
Lenin, as seen by his War Minister who worked with him through the Revolution.

**THE LIFE AND TIMES OF REMBRANDT**, R. V. R. by Hendrik Willem Van Loon

**THE PHILOSOPHY OF LIFE**, by Anderson M. Eaton  
Life's gems in literature since Confucius.

**GREAT ENGLISH SHORT STORIES**, ed. by Lewis Melville and Reginald Hargreaves  
Eighty-three stories by as many authors, illustrating the growth of the short story.

**GREAT SHORT STORIES OF THE WORLD**, ed. by Barrett H. Clark and Maxim Lieber  
Contain 177 short stories by as many authors, covering 5000 years and 35 different literatures. 1100 pages.

# AMUSEMENTS

Now showing at Lubbock theatres are Ursula Parrott's "There's Always a Tomorrow" at the Palace, "Blind Date" with Ann Sothern at the Lindsey and "Show-Off" with Spencer Tracy at the Texan.

One of the most notable screen offerings brought to Lubbock in many months is "Mrs. Wiggs of the Cabbage Patch" which opens at the Palace Friday. The film has a brilliant cast including Pauline Lord, W. C. Fields, and Zasu Pitts and is an adaptation of the famous book of the same name which thousands have enjoyed for two generations. All the Wiggses, Mrs. Wiggs, and her children, Billy, Australia, Asia, Europa, Jimmy, and the dog, Klondike, come to life in the picture.

"Pardon My Gun" at Texan Also on for Friday and Saturday at Lubbock theatres is "Circle Canyon" at the Lindsey and "Pardon My Gun" at the Texan.

Opening Sunday is "Evelyn Prentice" at the Palace with William Powell and Myrna Loy, "Straight is the Way" at the Lindsey with Franchot Tone, May Robson and Karen Morley, and "The Girl from Missouri" with Jean Harlow at the Texan.

"Straight is the Way" at the Lindsey Sunday and Monday is an epic of the gangworld and has for its plot the trials of Franchot Tone in attempting to go straight after he has been released from prison.

"The Girl from Missouri" at the Texan Sunday and Monday deserves special mention. It is one of the best Harlow films. The title of the picture was to have been "Born To Be Kissed" but the Legion of Decency decreed that the title was not fit for public consumption so it was changed.

Offered on Wednesday and Thursday of next week at the Palace is "Great Expectations" from the famous novel by Chas. Dickens. The principal members of the cast are Henry Hall and Jane Wyatt.

Tuesday and Wednesday of next week at the Lindsey is a picture which should appeal to all eds and co-eds, "Student Tour" with Jimmy Durante, Charles Butterworth, Maxine Doyle and Phil Regan is presented.

"Student Tour" "Student Tour" has to do with the trials of a college rowing crew that is eligible to go to England to compete with an English team, but fails in philosophy and is not eligible to go. In desperation the boys set sail for England via the Orient and take with them their philosophy prof. The theme of the story centers around members on board ship. In the picture, The Carlo, sensational new dance step, is introduced.

"She Loves Me Not" is brought back to Lubbock for a showing at the Texan. This is another picture that should be of interest to college students as the action is centered around a boys' dormitory where a girl is being kept hidden to save her from certain disgraces. Bing Crosby's singing of "Love in Bloom" is featured in the picture.

G. L. Beene, Aggie graduate of 1933, who conducted the seed laboratory for the state department of agriculture here last year has been transferred to Tech.

He has been on duty at Austin during the summer months. Dayle Wallace, of Mt. Calm, 1928 Texas Tech graduate who received his Ph.D from Yale is now research assistant in the Yale library.

The University of Catania in Sicily last week celebrated its 500th anniversary. The United States was represented by several university officials and by Ambassador Breckenridge Long, an alumnus of Princeton. The university was founded by King Alfonso I.

## Featured At Lindsey Tuesday

Charles Butterworth, Jimmy Durante and the "Co-eds" in "Student Tour"

## The Bookshelf

A TREASURE OF SLANG—compiled by Howard N. Rose (McMillan, \$1.75). This is not exactly the reference book to use in writing themes for frosh English, but it's a "lalapaiooa" (collegiate slang according to the book, for "something out of the ordinary") for anyone who wishes to talk so no one can understand him, aspiring writers, editors and all students interested in the language of contemporary America. The book is divided into fifteen sections and the slang used by aviators, college students, detectives, hoboes, lumberjacks, New Englanders, newspapermen, oil men, railroaders, sea fishermen, participants in sports of all kinds, actors, cowboys and soldiers is nicely tabulated and often plenty explanatory. In addition to being useful, it's good for laughs.

THE PRESIDENT VANISHES, Anonymous (Farrar & Rhinehart, \$2.00). Nothing is too imaginative for this author, "Mr. Anonymous." In this book, the president of the United States is kidnapped half an hour before he is scheduled to make a speech. The whys and wherefores make the story. A highly imaginative yarn written with both eyes on the newspaper headlines and both fingers crossed.

## Industrial Course Added In Drawing

Beginning with the fall term of 1934-35 the name of the department of engineering drawing and graphics has been changed to industrial engineering, engineering drawing and industrial education.

A four-year course in industrial engineering and in industrial education with each of these subjects leading to the degree of Bachelor of Science is possible under this change.

The curriculum in industrial engineering will give the student a sufficiently broad foundation to enter the industrial manufacturing field he may choose. The course in industrial education has been so arranged that when the student has completed with the laws of the State of Texas he may receive a special permanent certificate and a high school four-year teacher's certificate.

A two-year course in industrial arts is also offered for those students who are interested primarily in shop. The training in this course will prepare the student to conduct a small business of his own.

What it is hoped will be a national college editors association has been formed by a group of undergraduate editors from Eastern colleges. President Roosevelt sent felicitations to the editors at their first meeting.

## GRADUATE EMPLOYED

S. H. J. Womack, who received both a bachelor of arts and a bachelor of science from Tech, has been employed as junior scientist by the Bureau of Standards, Department of the Interior, in Washington, D. C.

One of the oldest traditions at Bryn Mawr college, Pennsylvania, is the annual event at which the freshmen women are given lanterns of the color of their class colors, to guide them through their college years. One lantern is given to each freshman.

President Roosevelt last week was awarded the degree of doctor of laws by William and Mary college, in connection with the celebration of the rebuilding of Williamsburg, Va., in its colonial style.

## Film Fare

PALACE—Thursday, November 8, Ursula Parrott's "There's Always a Tomorrow," Friday and Saturday, "Mrs. Wiggs of the Cabbage Patch" with Pauline Lord, W. C. Fields and Zasu Pitts. Sunday, Monday and Tuesday, "Evelyn Prentice" with Wm. Powell and Myrna Loy. Wednesday and Thursday, Chas. Dickens' "Great Expectations" with Henry Hall and Jane Wyatt.

LINDSEY—Thursday, "Blind Date," Friday and Saturday, "Circle Canyon," Sunday and Monday, "Straight is the Way" with Franchot Tone. Tuesday and Wednesday, "Student Tour" with Jimmy Durante, Charles Butterworth, Maxine Doyle and Phil Regan.

TEXAN—Thursday, "Show-Off" with Spencer Tracy. Friday and Saturday, "Pardon My Gun," Sunday and Monday "The Girl from Missouri" with Jean Harlow. Tuesday and Wednesday, "She Loves Me Not," with Bing Crosby.

## WESLEY HOME RESTORED

The home of John Wesley, founder of Methodism, has been restored to its original condition, and will be used as an international Methodist shrine. While the restoration work was going on it was found that eighteenth century fireplaces were hidden within the walls. Ugly modern fire places were taken away and the old ones restored to use. The fine yellow paneling has been stripped to its natural coloring by the removal of fifteen layers of dark paint.

Three hundred Italian university students are in this country this fall on a tour of American colleges and universities.

### AMONG THE ALUMNI

Dayle Vannoy, who received his B. E. A. degree from Tech in 1933, is employed as graduate assistant by the department of economics and business administration.

Walker Lane, who received his B. S. degree in 1931 in A. E., is now serving as district clerk of Donley county. He is located at Clarendon, Texas.

W. D. (Windy) Watkins is living in Lubbock where he is employed by the Lubbock Cotton Oil Mill company.

H. P. Webb, M. A. from Tech, is still superintendent of schools at Oton, Texas.

Mr. and Mrs. Holmes Webb, (Mrs. Webb was formerly Doris Ladd Johnson of Eastland) are now living at Hamlin where Webb is principal of the grammar school.

Walter T. White, B. S. in E. E., 1932, is now living at Corpus Christi, Texas, where he is employed as a topographer for the United States Coast and Geologic Survey.

Nina Marie Wolf is teaching in the elementary grades in the public school system of her home city, Rule, Texas.

Winnie Hendrix is now teaching at Pleasant Valley. She graduated from Tech in 1932.

Paul Witt, who received his A. B. degree from Tech in 1931, is science instructor in the Texas Junior High school of Texarkana, Texas.

Raymond Rogstad is now working for the Continental Oil company of Clifton, Texas. He graduated from Tech in 1928 with a B. A. degree.

J. Doyle Settle, newly nominated candidate for the Texas House of Representatives from the 119th district, is in Austin, where he is serving as Committee clerk.

Evelyn Sowell, who graduated from Tech in 1929, has been teaching school. She has taught four years at Clarendon and one year at Abilene, Texas.

J. B. Speer, of Morse, Texas, was in Lubbock recently. Speer took his B. S. degree from West Texas Teachers college in 1929. Later he received his masters degree from Tech. He is the immediate past president of the Alumni association of the Canyon school. His brother, J. E., is a former president of the Alumni association of Texas Technological college. It is believed that this is the only instance in Texas history in which two brothers held such positions at the same time.

Frank Spring, A. B. graduate of 1930, is now employed by the Friona State bank of that place.

Guy Stark is superintendent of schools at Dunn, Texas. He graduated from Tech in 1928.

Ada Myers is principal of the Pecan Grove school of Alvarado. She graduated from Tech in 1933.

Leland Payne, '33, with a B. A. degree, is employed as a bookkeeper for the Lubbock National bank.

Wilbur Pearson and Mrs. Pearson (formerly Hazel Gruver) are living at Canyon where he is manager of the properties of the Texas Utilities company. He graduated in 1931 with a degree in E. E.

James Potts, aggie graduate, is now county agent for Stonewall county. After graduation and before taking his present position, Potts was assistant county agent of Harris county.

John R. Powell is still living at Dumas, Texas, where he is engaged in the Real Estate, Insurance, and Abstract business. He is also Tax Collector for the Dumas Independent school district.

### ASME Assistant Speaks To Club

Speaking in the interests of the American Society of Mechanical Engineers, Earnest Hartford, assistant secretary of the society, addressed two groups of engineers in the auditorium last Thursday.

He presented the new plan of organization for student branches of the A. S. M. E. In outlining the advantages under the new plan, Hartford listed the benefits received by students from the dues, which have been raised from fifty cents to three dollars a year. He stressed the fact that there are many fields besides power plant management for the mechanical engineering graduate.

At 11 o'clock Hartford addressed all departments of engineering on the functions of the Society for the Promotion of Engineering Education. He stated that engineers must learn how to express their ideas in order to overcome the universal criticism that engineers do not know how to "sell" their ideas.

Ex-criminals are to teach their arts at the University of Chicago. Conversation in a penitentiary ten years hence: "Whada' ya' doin' here Butch. How come ya' slipped up? Ya' was valedictorian of the class when we graduated." "Yeah, but this was a safe cracking job, and I finked both terms of the course."

Martin's Taxi.—Phone 1800. adv.

### Alumni Officer

J. Doyle Settle, newly-elected representative of the 119th district, is the present first vice-president of the Texas Tech Alumni and Ex-students association. Settle was formerly postmaster of the Tech branch after he received his degree.

### Tech Decennial Planned In '35

#### Alumni Association Will Sponsor Homecoming Celebration

Homecoming for 1935 will be a two-day celebration, if present plans of the Alumni association are carried to completion. The two-day program will be known as the Texas Tech Decennial Celebration. At the close of this school year, Tech will have finished the first ten years of its existence, and in recognition of its phenomenal growth, the association is inviting all Texas to join Tech in celebrating ten years of educational achievement.

The affair will be held in Lubbock in the fall of 1935 with well known educational leaders of the state as the principal speakers. An inter-sectional football game will be the chief attraction on one of the afternoons. Tentative plans will be explained at the alumni dinner to be given at the women's dormitory homecoming day.

#### Homecoming Dance Will Feature Alumni Program

The alumni-student homecoming dance will be held in the gym at 9 o'clock Friday evening after an alumni dinner in the women's dormitory, according to Ellis Foreman, chairman of the dance committee. The dance at the gym is the concluding feature on the homecoming program.

#### Alumni Association Will Enter Float In Parade

The Tech Alumni association has voted to enter a float along with the social clubs and other campus organizations in the parade to be staged on the evening preceding the homecoming game with DePaul university of Chicago, it was decided at a special meeting of the organization last week.

Members of the float committee are Paul Hardy, chairman, J. F. Williams, Hurley Carpenter and J. W. Jackson.

Typographical errors crop up in every newspaper in the worst spots. (How well we know it!) From the Minnesota Daily, official publication of the University of Minnesota, the following headline appears: "Over O Men Working Out In Armory Pool"

### Jackson Drug

SAME REASONABLE PRICES

1610 Bdwy. Phone 1880

### Directors To Hold Meeting

#### Alumni Leaders Will Meet On Homecoming Day To Make Plans

Mart G. Pederson, president of the Texas Tech Alumni and Ex-student association, has announced that the board of directors will hold a meeting on homecoming day to discuss plans for the organization. The time of the gathering has not yet been determined but will be announced later.

Members of the board of directors are:

- Pederson, president, of Lubbock, Tech instructor in the department of dairy manufacturing; J. Doyle Settle, first vice-president, representative-elect of the 119th district; second vice-president, Bill Collins, Lubbock business man; Manlio Wolfarth, executive secretary, instructor in economics and business administration at Tech; J. W. Jackson, representative to the Athletic Council, Tech government instructor; J. E. Speer, teacher in the Amarillo schools; R. C. Middleton, manager of Tech dairy, Lubbock; W. L. Pearson, Canyon, manager of Texas Utilities company plant; and Gordon Treadaway, Dallas, assistant director of Y. M. C. A. schools.

### Radio Operating Course Offered

All students interested in learning the telegraphic code, in order to pass an exam for an amateur radio license, are urged to leave their names with Miss Dorothy Rylander at the engineering library.

A class, organized by students, will be started, so that operators will be available next year for a short wave station that may be built in the electrical engineering department.

Time and place of meeting will be decided later. Joe Caldwell, sophomore engineer, is organizing the class.

If an Alabama college student sees double it doesn't mean he's stewed. He's probably been confronted by one of the eight pairs of twins on the campus.

### Aggies Rally To Support Of Alumni, Records Show

Records in the alumni office show that graduates in the division of agriculture support the Alumni association better than any other school of the college.

A greater proportion of aggie students have paid their dues for several consecutive years than either home economics, arts and sciences or engineering graduates.

In 1928 a spirited effort was being made by officials to have Texas Tech made a member of the Southwest conference. Quite a controversy was raging between the sports writers of the Toreador and sports writers of Southwest conference school papers. It was pointed out that Tech would have a hard time joining after losing to Texas university, 12-0, and to T. C. U., 28-6.

### Orchids, Rubber Plants, Palms, Are Cultivated In Greenhouse On Campus

Would you like to see an orchid plant, a pitcher plant, or a night blooming cereus? Then visit the campus greenhouse and see them for yourself, as well as other interesting plants.

This building, surrounded by shrubbery, flowers, and grass, is to the southwest corner of the chemistry building. Foy Pribble, manager, will show you through as graciously as if you were a high-salaried customer.

Besides the common plants and flowers like chrysanthemums, snapdragons, carnations, sweet peas, there is an ornamental rubber plant, palms, a lemon and an orange tree (bearing fruit, by the way), and several species of cacti, collected by W. I. Robinson, professor of geology, from the Milwaukee Botanical Gardens.

One of the interesting cacti

plants is the Hycleocereus serpentinus, two tall trunks resembling the shorter cacti. This is a night blooming plant. One of the milkweed variety is the Carion plant, showing by its name the unpleasant smell it gives off. The color of the flower is a deep violet with white dots strewn equally about. In shape it closely resembles a star.

Another tall plant is the papaya which has three generations on one stem. Tiny growths appear on the leaves. These can be planted and a new plant begun. There are two species of this plant, the Katanchoe, disgramontone and tribofalia.

The orchid and other tender plants requiring special water, are kept in a special box which has a temperature of 90 degrees. In this box is also the pitcher plant, which gets its name from the little pitch-

### Girls Are Refused Right To Go Nude In Forest

Salt Lake City, Utah, Nov. 7 (IP)—Fear of forest fires has made it necessary to refuse nine Salt Lake City girls the right to go nude in the Sawtooth National forest of Idaho.

The nine girls asked permission to occupy a camp site in the nude from M. S. Benedict, supervisor of the forest. In explaining his refusal, he said:

"Sawtooth days and nights are cold and the girls would have to build fires. The forest fire hazard would be too great."

er-shaped cups hanging from its leaves.

Fifteen kinds of poplar trees and a row of ornamental olive and honey locust trees are being tested in a nursery behind the greenhouse. Some regular lily seedlings are growing in a box at the side of the propagating house laboratories.

**WHEN YOUR MIND IS TIRED—**

**GET A LIFT WITH A CAMEL!**

**JAMES S. MacVICKAR '35—PSYCHOLOGY.** He says: "I think there's a great field for psychology—so I try to hit the books for all I'm worth. When I'm listless or 'low', smoking a Camel gives me a quick upturn in energy. Physical and mental fatigue drop away! The enjoyment one gets from Camel's fine flavor is an important psychological factor in maintaining poise!"

How to get back vim and energy when "played out": Thousands of smokers can verify from their own experience the popular suggestion "get a lift with a Camel." When tired, Camels will make you feel refreshed—as good as new. And science adds confirmation of this "energizing effect." Camels aren't flat or "sweetish," either. You can smoke Camels steadily. Their finer, MORE EXPENSIVE TOBACCOS never get on the nerves!

**TUNE IN! CAMEL CARAVAN** with Glen Gray's Casa Loma Orchestra, Walter O'Keefe, Annette Hanshaw, and other Headliners—over WABC-Columbia Network.

**SWEATERS...**

play an important role in a smartly dressed co-ed's campus life.

Indeed, who would consider college without a quota of sweaters? We have just received a smart collection of the very newest styles in desirable sweaters. Some have all the tailored trimness of little shirts... others have that dashing sport effect that is necessary for many occasions... all are darling to wear on and off the campus...

Smart loose weaves to wear with your suits and the Not-so-loosely-woven for wear by themselves... in diagonal checks... horizontal stripes... solid colors... colors in tile, brown, green, royal blue, navy blue, mustard, and reds...

The waistlines are especially flattering this year to the slim hipped young co-eds.

**\$1.98    \$2.98    \$3.29**

**Hemphill-Wells Co.**

**Sponsors Named For Junior Class**

Miss Ruth Pirtle, head of the speech department, and Dr. Ralph Martig, history professor, were selected sponsors of the junior class at a meeting Tuesday afternoon. Blue and white were selected as class colors. Robert Harding, president of the class, presided. To buy a banner for the homecoming parade, 5 cents is to be assessed each class member, Harding announced. Officers of the class, Pauline Yeager, Harding, and "Bear" Curfman, are collecting.

Kathleen Ingram, 1929 graduate, is teaching in the high school at Quannah, Texas.

**Annual Trek**

(Continued from Page One) kick-off is scheduled at Tech field at 3:15 o'clock. A capacity crowd is expected to jam the stands for the classic.

At 7 o'clock Friday evening in the women's dormitory the alumni supper will be staged. Those in charge are: Lucille Hunt, '34 home economics graduate; Mrs. Paul Hardy, '32 home economics graduate; Jason Gordon, '32 aggie graduate; Ehridge Eagan, '29 arts and sciences graduate; Joe Griggs, '29 arts and sciences graduate. Speakers and music for the dinner have not been selected.

Stags will be limited to the annual student-alumni dance in the gymnasium which begins at 8 o'clock. Couples and stags will be admitted for \$1.10.

**Meeting Monday**  
Clubs planning to enter floats in the parade must notify Ruth Senner by Monday, Leon Ince, president of the Student Council, announced Tuesday. Representatives from all clubs are to meet in room 210 of the administration building Monday at 5 o'clock. Position in the parade will be determined by secret drawing at this meeting.

At a called meeting of the council Tuesday afternoon, Winburr McAllister and Helen Lehmberry were appointed by President Ince to select the trophy. "Dixie" Anderson was appointed to act as chair man of the freshman-sophomore sand bag exhibition.

Alumni wishing to receive grand stand tickets may secure them by writing the secretary of the Alumni association. Reservations may be secured at any time prior to the game, President Mart G. "Pete" Pederson of the association, stated. "Wives, husbands, and sweethearts of alumni and ex-students are welcomed to these alumni affairs," Pederson said.

**Seniors Will Give Dance Tomorrow**

An informal dinner sports dance, exclusively for seniors, will be given Friday, November 9, at the Hilton hotel ballroom from 6:30 to 8:30 o'clock, according to Jimmy Gammill, senior class president. Ned Bradley's orchestra will play. Busses will be at Martin's drug and Tech drug at 6:30 p. m., to give free transportation to and from the dance. Bids go on sale in the rotunda of the administration building this morning and will continue Friday.

All students who plan to graduate in June or August are eligible to attend. Dates are not necessary, states Gammill, and girls as well as boys will stag to the first senior get-acquainted party.

This is the first of several socials to be given this semester.

**Faculty Members**

(Continued from Page One) and 1919, A. M. degree from the University of Chicago, 1908, and graduate student in college administration of Columbia university, 1924-25, Dean J. M. Gordon, dean of the division of arts and sciences and dean of men, has been associated with schools for the majority of his life. He began teaching in rural schools and was dean of Trinity university from 1908 until 1916. He was president of Oklahoma East Central State Normal school, 1916-20. When he was president of Tulsa university, he raised an endowment of more than \$800,000.

**Aggies Sell Prize Bull To J. I. McDonald Of Barton**

The animal husbandry department sold a Jersey bull this week to J. I. McDonald of the Barton community, Lubbock county. The bull was a prize winner having placed second in the yearling bull class at the Panhandle South Plains fair this fall. A Hereford bull was also sold by the department this week.

author, having written "Manse at Barren Rocks," "Chronicle of an Old Town," "Singing Mountains," "Old Black Bass," and "Animal Tales of the Rockies." He also contributes educational articles to magazines.

**Author of Books**  
He has an A. B. degree from Muskingum college, New Concord, Ohio; a B. D. degree from Drew Theological seminary, Madison, N. J.; A. M. and Ph. D. degrees from New York university, and Litt. D. from Lebanon university. He was dean of the College on Puget Sound from 1919 until 1922, and taught English in Washington State university and State college, Pa. He was winner of the interstate oratorical contest in 1913.

Dr. Knapp is the author of "Safe Farming," "How the Whole County

Demonstrated," and other publications of the U. S. department of agriculture. He has also contributed to magazines on agriculture, educational, and industrial subjects. He received his B. S. degree from Vanderbilt university in 1892, his L. L. B. from the University of Michigan, 1896, his Doctor of Agriculture from Maryland Agricultural college, 1919.

He was associated with his father in Southern agricultural work several years and was appointed

special agent of the farmers' cooperative demonstration work, bureau of plant industry, of the department of agriculture, succeeding his father in 1911. He has traveled in Europe investigating rural finance organization and cooperative marketing for the U. S. department of agriculture, 1913. Besides Tech, he was president of the Oklahoma Agricultural and Mechanical college for five years and of the Alabama Polytechnic institute for four years.
