IT'S ALL IN THE GAME, COWBOY

... with a bone-jarring fall ahead of him, this cowboy takes a spill in Thursday's Tech-LCC NIRA Rodeo. The rodeo goes into its final events tonight in the Lubbock Municipal Coliseum.

### 'PAVEMENT ENDS, WEST BEGINS'

## NIRA Rodeo Goes Into Climax Tonight

By PERRY THOMPSON  
Toreador Staff Writer

"Where the pavement ends and the West begins" is the action at the north end of the Tech campus as the Texas Tech-LCC NIRA Rodeo goes into its final performance tonight at Municipal Coliseum.

Rodeo teams from 12 colleges, representing Texas, New Mexico and Oklahoma and vying for the \$1500 worth of prizes, found the competition with the stock rougher than competition among the contestants.

During the first performance of the rodeo only four contestants out of 15 in both the bull riding and the bareback bronc riding events made qualified rides and only two cowboys made it to the whistle in the saddle bronc riding.

Sul Ross cowboy Jim Moore was injured in the saddle bronc riding when he was bucked off a horse called Black Hawk.

The calf-dressing contest provided the crowd with lots of laughs and plenty of action as coeds from Tech and LCC proved they were rough and ready. Six teams of girls tackled, wrestled and fought to dress the calves in a pair of bloomers and then get them over the finish line.

It got pretty "western" in the boy's wild mare race as six teams of boys fought against flying hooves and run-away horses. The time to beat in the wild mare race, set by the Sigma Chi Pledges, is 1:52.

The presentations of the awards to the rodeo winners will be at the Rodeo Awards Dance in the Rec Hall Saturday at 8:30 to 12:30 p.m. Jimmy Mackey and the All Stars will play for the dance and admission will be \$1.50 stag or drag. J. E. Teague of South Plains Junior College

won the first go-round of the calf roping with a time of 11.5 seconds after Friday night's action, while Edd Workman of Lubbock Christian College took second place with 11.9.

Workman edged past Teague, 11.1 seconds to Teague's 11.2, to take first in the ribbon roping first go-round. Running close behind the pair were Steve Cone, 11.9 seconds, and Dale Burnett, with 12, both of Tech.

Two South Plains Junior College cowboys, Melvin Foster and Bill James, marked times of 6.5 and 9 seconds to take the first go-round of the steer wrestling. A Tech cowboy, H. C. Zachry, took third with 11.5 seconds.

In the saddle bronc riding, Dennis Reiners of Sul Ross marked 172 points to take first in the first go-round, while second went to Workman of LCC with 169 points and third to Booger Townsend of Tech, 162.

In the first go-round of the girls barrel race, Marena James of Sul Ross marked 14.6 seconds to take first, followed by Mike Settles of West Texas, 14.9, and Sue Shurbet of LCC, 15. In another girls event, pole bending, the top three in first go-round were Miss Shurbet, LCC, 19.1 seconds; Mathalee Britton, LCC, 20; and Sara Cox, New Mexico State, 20.4.

Wells Hall took the lead Friday night in the teams 3, 4, and 2 placed first, second and third wild mare race with a time of 1:47. Horn Hall in calf dressing.

In two events which will include one go-round in each of the rodeo, leading after Friday night were Pete Lewis of Sul Ross with 162 points in bareback bronc riding and R. E. Thomas of Oklahoma State University, 172 points, in bull riding.

By THE ASSOCIATED PRESS

This nation, almost to a man, gave thanks Friday for Cmdr. Alan B. Shepard Jr.'s successful space flight, and served with profound pride the pioneering courage of America's first astronaut. Not since Charles A. Lindbergh's conquest of the Atlantic Ocean a generation ago, perhaps, has there been such tension, followed by such a national outpouring of relief and emotion.

"We are awfully pleased and proud of what you did," President Kennedy told Shepard by radio-telephone, setting a keynote for the astronaut's fellow-citizens.

"Thank God," said Felisa Rincon de Gautier, the woman mayor of San Juan, Puerto Rico, who was visiting in New York.

Mayor Robert F. Wagner of New York, and Mayor Norris Poulson of Los Angeles, vied for the honor of feting Shepard. Both wired congratulations and urged upon the astronaut a ticker-tape parade of welcome from their respective cities.

See Reactions, Page 8

## Concert Celebrates Music Symposium

In accordance with National Music Week and the 10th Texas Symposium of Music, the Texas Tech music department will stage its Tenth Anniversary Concert at 3 p.m. Sunday.

The concert, which will present five performing groups, will be in the Music Building Recital Hall.

Under the direction of Gene Kenney, the Texas Tech Choir will lead off with "Sing Unto Him A New Song" by Mary Helen McCarty. Combining voices with the Tech Singers, the Tech Choir will then do "Song of the Open Road" by Norman Dello Joio, with Jerry Pickens playing a trumpet solo and Kathleen La Mar as pianist.

The Tech String Orchestra follows with "Concerto Grosso for Strings and Piano" by Ernest Bloch under the direction of Paul Ellsworth and accompanied on the piano by John Price.

Tech Concert Band will play two numbers under the direction of Dean Killion. The first number is "Parelnium Allegro" by Vittorio Giannini, and "Prelude and Dance" by Paul Creston.

Winding up the tenth annual symposium will be the Tech Varsity Band with "March With Trumpets" by William Bergsma, also directed by Dean Killion.

### At Splash Day

## Miss King, Nelson Win Miss Venus, Mr. Atlas

Miss Billye King and Jack Nelson are the 1961 Miss Venus and Mr. Atlas.

The contest was the highlight of the splash party given by Tech Union at the Seashore Pool Friday night. Other contestants vying for the Miss Venus title included Rose Leftwich, Carol Huber, Cecille Roach and Polly Dahl. Other males entered in the Mr. Atlas contest were Johnny Henderson and Jim Isham.

Before the judges, Shirley Stephens, Beth O'Quinn and George Matson, announced their decisions, Eugene Holt and Rick Vaughter entertained with a few minutes of exhibition diving.

Speech intramural awards were given to Phi Beta Phi for the months of November, February and March, and to Phi Mu for December and April.

Delta Delta Delta won the award for individual speech interpretation, Phi Gamma Delta for after dinner, extemporaneous, and poetry reading, Kappa Kappa Gamma for dramatic interpretation, Alpha Chi Omega for Bible reading, and the Pre-Law club for radio speaking. Gamma Phi Beta won sweepstakes.

SAE BASIN STREET

... Bob Honts (left), and Johnny Josephs are shown in costume for the open dance which will be from 8 a.m. to midnight today in the Fair Park Coliseum. Ray Sharpe will play. Dress and decorations for the dance will reflect "old New Orleans."

### Why are some girls prouder of their rings than others?

You see it in her eyes—but the reasons aren't all romantic ones. Her diamond ring is an Artcarved. This means it meets rigid standards of excellence in cut, carat weight, color and clarity.

Nor is this simply a verbal promise. Artcarved's written guarantee explains how the exclusive Permanent Value Plan lets you apply the full current retail price toward the purchase of a larger Artcarved anytime, at any Artcarved jeweler throughout the country. You will be proud, too, of Artcarved's award-winning styling, like the Evening Star shown here. To be sure it's an Artcarved: Look for the name inside the ring, and ask for your written Artcarved guarantee.

Of course, being engaged is wonderful, but sealing the engagement with an Artcarved ring makes it more wonderful than ever—forever!

**Artcarved**<sup>®</sup>  
DIAMOND AND WEDDING RINGS

## Chemists Pick Five Winners

Announcement of five scholarship winners was made at Tech's annual chemistry department awards and recognition dinner last Saturday.

Recipients of the awards are Carolyn Kirby of College Station, also chemistry major; Bob Bashe II, sophomore chemistry major; Ben A. Tefertiller Jr., junior chemistry major; Tommy Dale George, junior chemistry major; and Phyllis Kuhn, junior chemistry major.

Miss Kirby, a member of Alpha Lambda Delta, scholastic honorary, was awarded the Contiental Oil Co scholarship for \$500. Karollyn, of College Station, also served on the program council for Tech Union.

Bashe, of Oklahoma City, received the \$300 Frontier Chemical Co. scholarship. He is a member of Phi Eta Sigma, scholastic honorary, and has made the Dean's Honor Roll three times.

Tefertiller, of Midland, won the Signal Oil and Gas Co. scholarship. He is a member of Phi Eta Sigma, the American Chemical Society, and Kappa Mu Epsilon, mathematics honorary.

Miss Kuhn and George are the winners of \$50 American Chemical Society scholarships.

MISS TOP FLIGHT 1961

Mary Thompson, Tech sophomore from Dallas was presented at the AFROTC formal last Saturday. She is a member of Kappa Alpha Theta and was an ROTC sweetheart this year.

## Europe Bound Techsans Meet At Home Of Trip Director

The 32 Texas Tech students who met in the home of the director on Thursday night, are planning to participate in a tour of Europe under the direction of Mrs. Alan Strout this summer.

### Group Will Install 12 New Members

Alpha Delta Sigma, men's advertising fraternity, will have its spring installation at 7 p.m. Sunday in the home of Johnny Walton.

New members who will be installed are Val Cox, Joe Hilton, Cyril May, Jimmy Pickett, Gean Piland, Jack Rodgers, Charles Schultz, Wayne Schmitt, David Swaringia, Cloyd Phillips, Steve Watts and Eddie Welch.

Mrs. Strout, of the Tech department of English, served an Italian supper of lasagna, after which the group read and discussed the play of William Shakespeare, "Much Ado About Nothing," which they will see performed in Stratford-on-Avon, England, Shakespeare's home.

The party will sail from New York City on June 9 on the "Aurelia" for a 63-day tour.

The students will have the opportunity to earn six hours of credit in English by doing extra work on the tour, or they may just enjoy the two months of travel.

## Schiwetz Presents Art Demonstration

E. M. Schiwetz, advertising illustrator and architect, will lecture in the architecture and allied arts department May 8 and 9.

Schiwetz, who is noted for his work with water color, will present two lectures consisting of water color technique with the use of the human figure for illustration. He will also present advertising illustration and water color demonstrations.

### NEWMAN CLUB

The Newman Club will meet at 7:15 p.m. Sunday in the Newman Hall for a business meeting followed by refreshments.

### DISCIPLES STUDENT FELLOWSHIP

The DSF will meet at 6 p.m. Sunday at the Christian Student Center. The speaker will be Rev. M. H. Reed, president of the local chapter of the NAACP, and he will discuss the activities of the NAACP in this area.

Summer School Students interested in afternoon work . . . contact D. C. McCarty at Foremost Dairies . . . PO3-7368 for appointment.

YOU are cordially invited to hear Alonzo Welch, visiting from Jackson, Mississippi, PREACH CHRIST at the BROADWAY CHURCH OF CHRIST, Broadway and T, SUNDAY, MAY 7, THROUGH SUNDAY, MAY 14..DO COME! Sunday services 10:30 AM and 6:00 PM. (Bible classes at 9:30 AM) Weekday services at noon 12:05-12:40 and each evening at 7:30 PM Special services for children, ages 3 through 3rd grade Mon - Fri 7:30 PM

## Ralph's Ramblings

I know you will be sorry to learn that this will be the last Ralph's Ramblings column that you, the students and faculty, will be able to read. I can see the tears as they trickle down the paper and into your morning coffee.

We will have one more publication before dead week begins, but this space will be occupied Tuesday by one Carlyle Smith, our next year's Student Assn. President. His column will be entitled "News and Views" and for the most part will be on student affairs.

We won't try to thank everybody who has been helpful in making the Toreador this year a fairly successful publication. Of course, we haven't pleased everybody, but then we didn't expect to, or set out to.

But it has been a lot of fun sitting at the controls and viewing the campus, its problems, its pleasures and its everyday life with the eyes of a newspaperman.

Our letters to the editor column has been strong as our bulging desk drawers will show. We have to keep them all in a file you know. We have tried to take stands on issues of importance and haven't always found ourselves on the winning team. We didn't expect to.

I plan to spend the summer working doing the only thing I know how—working on a newspaper. Of course, I might throw in a little golf, root for the Yankees and visit several friends around the country. I will be losing my golf instructor early in June when my faithful friend and editorial assistant, Ron Calhoun, journeys off with his new wife to Chester, Pa., where he will be employed on the newspaper there.

We're taking bets over here at the Journalism Bldg. that that "thing" he calls a car will collapse in one big heap before he gets out of Texas. Oh well, newspapermen can go to work anywhere they may find themselves.

—RWC—

I wonder how fast Lyndon B. Johnson (our own native son) had to talk for the Honorary Degree at Eastern Kentucky College he will receive when he speaks at its commencement June 1.

Let's hope that President Kennedy (I like him) will keep LBJ at commencement exercises and out of governmental affairs. Better yet why not send the big tall-drink-of-water back to Austin to run the only TV station there. Huh?

—RWC—

With final exams ending a hard year of academics and with thoughts of vacations in the air, I hear Tech students have been releasing their pent up emotions with a few lively parties around the town. One got so lively that a couple of the participants found themselves in a local resident's flower bed the next morning. Now students, this is not conducive to an intellectual atmosphere.

—RWC—

Well, that about wraps it up from here. I hope you survive (me too) the finals and will all be back except you graduating seniors, of course. And to you grads, I hope you all make a million—dollars, and not mistakes. Take it easy.

One personal note before I go. Thanks Carolyn (Sis), Wayne and Preston.

## LITTLE MAN ON CAMPUS

"SON, I WANT YOU TO KNOW I'VE ALWAYS HAD THE GREATEST RESPECT FOR TH' COLLEGE DEGREE — UNTIL YOU GOT ONE."

# TOREADOR

Tech's All-American Publication

## Doesn't Gain Either

# Finley Fails To Falter

Thursday night, Dr. Charles Finley, Lubbock dentist and outspoken political conservative, spoke on the aims of the controversial John Birch Society before Tech students and faculty assembled in the campus Recreational Hall.

The speech was incidental — the questions and the general feeling of the crowd were of consequence. The audience's motives were apparently twofold. They came to see a show and to see Dr. Finley stick his foot in his mouth. Neither happened to any successful degree.

The panel failed to ask questions that would bring forth informative answers, and only trapped Finley on inconsequential and obscure points. The only laughter they drew was from inflection.

Dr. Finley remained cool in the face of one or two questions he termed "rather absurd." He was very straight forward in declining to answer questions when he felt himself unqualified. In many instances he spoke for himself rather than the Society, and at the same time explained that the Society did not require their members to either be secretive or strict adherers to each and every "Blue Book" directive.

Dr. Finley did not pretend to be anything that he wasn't. He merely stated his beliefs and his fears. He believed in a "Constitutional Republic" and feared the country's rampage to the left.

Still there was the atmosphere of animosity. You could feel it in the air, and see it with every smirk, every insinuation and every titter. The scales of time are now balanced in favor of the ultra-liberals, and the Finley-termed "anti-bigot bigots."

Many times during the course of the night the word regimentation cropped up. It was either in terms of "regimentation to the right" or "regimentation to the left."

History tells us that during the 19th century our political philosophy and economy was in the hands of conservatives and big business. This was regimentation, with the small businessmen, farmers and workers being pushed about at the will of moneyed interests.

This regimentation was morally wrong and recognized as such. In due time laws such as the Sherman Anti-Trust Act of 1890 and the Clayton Act of 1914 corrected many of these wrongs. The scales swung back — and then overbalanced during the FDR '30's with the Wagner Act and the Agricultural Adjustment Act.

And with the overbalance came regimentation, this time in the name of socialism and welfare. The scales were in danger of losing their ability to balance — they were becoming locked.

Hence, the John Birch Society, Taftism and now Goldwaterism, all held up to derision and the same mocking laughter that 19th century liberals had to face.

But beware of your laughter, that you do not choke on it. Our so-called conservatives and reactionaries are for the most part witch hunters and uninformed fanatics. But many of them sincerely believe in what they are doing.

We must consider ourselves lucky that there is still a little life left at the other side of the scales, so that some chance of understanding and balance is left to us.

RON CALHOUN  
Chief Editorial Assistant

# The Toreador Mail Call . . .

Dear Editor:

If you profess Christianity, we ask you to read this letter thoroughly.

Throughout our nation and, indeed, the world injustice is being dealt on every hand. Racial prejudice is rampant and the present result is hatred even to the point of bloodshed. Ill will exists on both sides of the battlefield. Neither is completely offensive nor altogether defensive.

What shall we do about it then? Do you feel that Lubbock or Texas is relatively free from danger? Shall we, "the whites", persist on closing the doors of schools, churches, and public properties to them, "the colored"? It is our choice because here we stand in the majority. Shall we give only lip service to our so-called "loving Christianity" while in the same breath say: "we must protect pro-

perty values;" or "God would not have made us different colors if he had intended for us to mingle." Shall we tell God how to interpret His creation? Why aren't we honest and say: "God, we don't like your system; ours is better."

But it is not enough to say: "Time will take care of the situation;" or "It is merely a question of politics or social custom. Future generations will forget it." Will they now? Just observe places where there has been no "civil war" or where a civil war cannot be blamed on racial feelings. There still exists prejudices. In our own country the North is plagued with the problem although it dislikes admitting it.

It behooves the Christian then to stand with God when He says: "There is neither Jew or Greek, neither slave nor free; there is neither male nor female, for you are all one in Christ Jesus."

Do you feel that discrimination is a problem to be solved by laws or social decision? We feel it is not. Discrimination of any kind violates God's mind. It is wrong because God says it is wrong. What is right or wrong to God transcends time. God's laws apply to the eternal present with no reference to the unrecalable past or the indefinable and uncertain future.

We believe that Christians on the Tech campus should become active. Speak out if you believe integration is right. Don't waste in silence, but stand on the strength of your convictions.

Signed, Doug Pummill, David G. Jones, Jerry D. Belknap, Shirley Harris, A. Wayne Harris, Gerald Gafford, Roy Deavenport, Roy E. Foster, John A. Knight, Charles E. Kirkpatrick, Roger Jay, James Greenlee.

## Schedules Are Set For Exams

With the coming of Spring, a young man's fancy turns to — finals. Exam week will begin May 17, and will end May 24. Dead week, a period of restricted social activities, precedes finals, beginning May 10.

### Wednesday, May 17

8:00—10:30 \_\_\_\_\_ 11 MWF  
11:00—1:30 \_\_\_\_\_ 2:30 - 4 TT  
2:00—4:30 \_\_\_\_\_ 9 TTS

### Thursday, May 18

8:00—10:30 \_\_\_\_\_ 10 TTS  
11:00—1:30 \_\_\_\_\_ 2 MWF  
2:00—4:30 \_\_\_\_\_ All sections of Biology 141 and 142. Room numbers will be announced in respective classes.

### Friday, May 19

8:00—10:30 \_\_\_\_\_ All sections of Accounting 244 & 245. Room numbers will be announced in respective classes. All sections of Physics 235 & 236. Room numbers will be announced in respective classes.  
11:00—1:30 \_\_\_\_\_ 4 MWF  
2:00—4:30 \_\_\_\_\_ 8 TTS

### Saturday, May 20

8:00—10:30 \_\_\_\_\_ All sections of English 131. Room numbers will be announced in respective classes.  
11:00—1:30 \_\_\_\_\_ 3 MWF and all classes meeting Saturday only.  
2:00—4:30 \_\_\_\_\_ 10 MWF

### Monday, May 22

8:00—10:30 \_\_\_\_\_ All sections of Government 233 & 234. Room numbers will be announced in respective classes.  
11:00—1:30 \_\_\_\_\_ 4-5:30 TT and all sections of Military Science classes.  
2:00—4:30 \_\_\_\_\_ 9 MWF

### Tuesday, May 23

8:00—10:30 \_\_\_\_\_ 11 TTS  
11:00—1:30 \_\_\_\_\_ 1 - 2:30 TT  
2:00—4:30 \_\_\_\_\_ All sections of Chemistry 141 & 142. Room numbers will be announced in respective classes. All sections of Foods and Nutrition 131. Room numbers will be announced in respective classes.

### Wednesday, May 24

8:00—10:30 \_\_\_\_\_ 8 MWF  
11:00—1:30 \_\_\_\_\_ 1 MWF

Examination time for classes meeting for more than one hour (as 1-2:30) will be determined by using the first hour of the class period to find the corresponding examination period for that class meeting.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

### EXAMINATION SCHEDULE FOR EVENING PROGRAM COURSES

#### Wednesday, May 17

6:30—9:00 p.m. \_\_\_\_\_ Classes meeting 6:30-8:00 p.m., MW, and Thursday, May 18

6:30—9:00 p.m. \_\_\_\_\_ Classes meeting 6:30-8:00 p.m., TT, and Monday, May 22

6:30—9:00 p.m. \_\_\_\_\_ Classes meeting 8:00-9:30 p.m., MW, and Friday, May 19

6:30—9:00 p.m. \_\_\_\_\_ Classes meeting 8:00-9:30 p.m., TT, and Tuesday only.

### Two approaches to the "man's deodorant" problem

If a man doesn't mind shaving under his arms, he will probably find a woman's roll-on satisfactory. Most men, however, find it simpler and surer to use Mennen Spray Deodorant. Mennen Spray was made to get through to the skin, where perspiration starts. And made to work all day. More men use Mennen Spray than any other deodorant. How about you?

## Prof Shags Young Demos Discuss Blakley's Endorsement

Dr. Faye Bumpass, associate professor of English and Spanish, will represent Texas Tech at two national meetings on the teaching of foreign language.

The first conference will be in St. Louis, May 4-6, and the second will be in New York, May 11-13.

The St. Louis conference is the sixth annual International Reading Assn. conference. Here Dr. Bumpass will discuss the aid to be given to Spanish speaking children to acquire a functional use of the English language as a help to reading comprehension.

Dr. Bumpass, while representing Texas Tech at the New York meeting, will attend conferences for teaching Spanish in the elementary grades. This meeting is for representatives of universities and colleges that will hold language institutes this summer. The institute for elementary and secondary school teachers, sponsored by the foreign language department, is slated for June 2-July 27.

To support or not to support William Blakley for U. S. Senator — that is the question the Young Democrats of Lubbock will discuss at their next meeting Thursday in the Student Union building.

Regarding the special Senate election to be in June, Democrats

in Texas have expressed concern over the fact that Texas Republicans will present a united front at the polls for Tohn Tower. In contrast, many Democrats dissatisfied with Blakley's performance as interim Senator, may stay at home election day rather than vote for either man.

According to Bill Sherbert, president of the local Young Democrats, "This meeting has been called to decide what we, as an organization, are going to do. We definitely won't support Tower, but there may be a question in the minds of some about endorsing Blakley."

The state organization of Young Democrats has endorsed Blakley, and the Lubbock chapter is making plans to affiliate with the state group in the near future.

## FM Station Takes Staff Applications

Applications are now being accepted for positions on next year's staff at the campus FM station. Those interested in positions as announcers, engineers and disc jockies should go by the station and fill out application.

#1 in a series of polls conducted by L&M student representatives in over 100 colleges throughout the nation. Watch for the next poll coming soon.

**L&M UNLOCKS CAMPUS OPINION**

Light up an L&M, and answer these questions. Then compare your answers with those of 1,383 other college students (at bottom of page).

Pack or Box

**Question #1:** Suppose the government asked for volunteers among college students to pioneer in manning the first space station, would you go if odds for your safe return were 50-50?

**Answer:** Yes \_\_\_\_\_ No \_\_\_\_\_

**Question #2:** How many children do you plan to have when you are married?

**Answer:** None \_\_\_\_\_ One \_\_\_\_\_ Two \_\_\_\_\_  
Three \_\_\_\_\_ Four \_\_\_\_\_ Five \_\_\_\_\_  
Six \_\_\_\_\_ Seven or more \_\_\_\_\_

**Question #3:** Should class attendance be optional so long as students pass the exams given in class?

**Answer:** Yes \_\_\_\_\_ No \_\_\_\_\_

**Question #4:** When buying cigarettes, which do you usually purchase, the soft pack or the box?

**Answer:** Soft Pack \_\_\_\_\_ Box \_\_\_\_\_

## L&M UNLOCKS FRIENDLY FLAVOR

... Flavor that never dries out your taste!

Get the flavor only L&M unlocks... available in pack or box!

The L&M Campus Opinion Poll was taken at over 100 colleges where L&M has student representatives, and may not be a statistically random selection of all undergraduate schools.

**L&M** Answer: Question #1. Yes 36.2%. No 63.8%.

**Campus Opinion** Answer: Question #2. None 3.1%. One 8.3%. Two 30.5%. Three 30.6%. Four 16.4%. Five 4.6%. Six 2.3%. Seven or more 4.2%.

**Answers:** Answer: Question #3. Yes 68.7%. No 31.3%.

Answer: Question #4. Soft Pack 72.2%. Box 27.8%.

L&M comes both ways, of course, but the big difference in L&M is friendly flavor of fine tobaccos blended to suit your taste.

## Circle K Installs Hansard As President For 1961-62

Harry Hansard, junior from Amarillo, was installed as president of Circle K at 8 p.m. Friday at the Parkway Manor.

Other officers installed were David Harris, vice president; Scotty Ashuey, treasurer; Tommy Hickey, recording secretary; and Richard Stapleton, corresponding secretary.

The officers were installed by Bobby Harris, lieutenant governor for region seven of the Texas-Oklahoma District of Circle K.

David Harris was presented with a plaque for the outstanding Circle K member of 1960-61. Homer Moeller, 1959-60 president of Circle K, was presented with a plaque for outstanding leadership and service to the organization.

**On Campus** with Max Schulman  
(Author of "I Was a Teen-age Dwarf," "The Many Loves of Dobie Gillis," etc.)

### OLD GRADS NEVER DIE

In just a matter of weeks many of you will be graduating—especially seniors.

You are of course eager to go out in the great world where opportunities are limitless and deans nonexistent. At the same time your hearts are heavy at the thought of losing touch with so many classmates you have come to know and love.

It is my pleasant task today to assure you that graduation need not mean losing touch with classmates; all you have to do is join the Alumni Association and every year you will receive a bright, newsy, chatty bulletin, chock full of information about all your old buddies.

*It was her second in four months.....*

Oh, what a red-letter day it is at my house, the day the Alumni Bulletin arrives! I cancel all my engagements, take the phone off the hook, dismiss my chiropractor, put the ocelot outside, and settle down for an evening of pure pleasure with the Bulletin and (need I add?) a good supply of Marlboro Cigarettes.

Whenever I am having fun, a Marlboro makes the fun even more fun. That filter, that flavor, that pack or box never fails to heighten my pleasure whether I am watching the television or playing buck euchre or knitting an afghan or reading Mad or enjoying any other fun-filled pursuit you might name—except, of course, spearfishing. But then, how much spearfishing does one do in Clovis, New Mexico, where I live?

But I digress. Let us return to my Alumni Bulletin and let me quote for you the interesting tidings about all my old friends and classmates:

Well, fellow alums, it certainly has been a wing-dinger of a year for all us old grads! Remember Mildred Cheddar and Harry Camembert, those crazy kids who always held hands in Eon II? Well, they're married now and living in Clovis, New Mexico, where Harry rents spearfishing equipment and Mildred has just given birth to a lovely 28-pound daughter, her second in four months. Nice going, Mildred and Harry!

Remember Jethro Brie, the man we voted most likely to succeed? Well, old Jethro is still gathering laurels! Last week he was voted "Motorman of the Year" by his fellow workers in the Duluth streetcar system. "I owe it all to my brakeman," said Jethro in a characteristically modest acceptance speech. Same old Jethro!

Probably the most glamorous time of all us alums was had by Francis Macomber last year. He went on a big game hunting safari all the way to Africa! We received many interesting post cards from Francis until he was, alas, accidentally shot and killed by his wife and white hunter. Tough luck, Francis!

Wilma "Deadeye" Macomber, widow of the late beloved Francis Macomber, was married yesterday to Fred "Sureshot" Quimby, white hunter, in a simple double-ring ceremony in Nairobi. Good luck, Wilma and Fred!

Well, alums, that just about wraps it up for this year. Keep 'em flying!

Old grads, new grads, undergrads, all agree: The best new nonfilter cigarette in many a long year is the king-size Philip Morris Commander. Welcome aboard!

## Exes Mark Tech Day

Today is Texas Tech Day, both at Texas Tech and throughout Texas.

A resolution in the Texas legislature introduced by Representative Wayne Gibbons officially proclaimed the day as Texas Tech Day.

On this particular day, ex-students will meet simultaneously in different parts of the state. The purpose of this annual day is to bring ex-students together for common enjoyment of Tech traditions and heritage. This will mark the seventh year of this occasion sponsored by the Ex-Students Association.

The victory bells will toll a reminder to Tech students and the city of Lubbock from 9:55 to 10:05 a.m.

Wayne James, executive secretary of the Ex-Students Association, has indicated that approximately 30 Ex-Student Clubs will meet throughout the United States.

No official gathering is scheduled for Lubbock.

## First Major Meeting

# Factions Begin Talks On Laos Cease-Fire

HIN HEUP, Laos (AP)—Military negotiations for the Laos warring factions held the first major meeting to work out details of a cease-fire but were unable to agree even on a site for future talks.

Political leaders in Vientiane at the same time proposed that talks begin Saturday in the royal capital of Luang Prabang. Presumably they would be top-level negotiations on forming a coalition government.

The government pointedly ignored rebel proposals that political questions be discussed on the front. Only a military team, led by Brig. Gen. Sing Rathanasamay, was sent Friday to discuss matters relating to Wednesday's cease-fire, such as armistice lines.

The negotiators, six royal officers and six sent by the pro-Communist Pathet Lao rebels and ex-Premier Souvanna Phouma's self-styled neutralists, met in an abandoned house on the north bank of the Nam Lik River, which runs through Hin Heup, in no man's land 55 miles north of Vientiane,

the administrative capital.

In London, the British Foreign Office announced Britain and the Soviet Union have agreed an international control commission will go to Laos in the near future to supervise the truce. The two powers, as cochairmen of the 1954 Geneva Conference, control the commission.

## Techsans Get Lower Rates

A special rate is being offered to Tech students for the Broadway production "Fiorello!" when it comes to the Lubbock Auditorium May 23-24, at 8 p.m.

Tickets may be purchased by Tech students for \$2.25, which will entitle them to sit in the regular \$5 section. Tickets are on sale daily from 9 a.m. to 5 p.m. in the lobby of the Auditorium.

"Fiorello!", the largest production ever presented in Lubbock, is the final production on Civic Lubbock's spring schedule. It is an exact duplicate of the New York play which won the Pulitzer Prize, the New York Drama Critics' Award, and the Antoinette Perry "Tony."

The play, with a cast of some 50 people, re-creates the early life of Fiorello H. La Guardia, famous New York mayor.

# Have a ball in Europe this Summer

(and get college credits, too!)

Imagine the fun you can have on a summer vacation in Europe that includes everything from touring the Continent and studying courses for credit at the famous Sorbonne in Paris to living it up on a three-week co-educational romp at a fabulous Mediterranean island beach-club resort! Interested? Check the tour descriptions below.

**FRENCH STUDY TOUR, \$12.33 per day plus air fare.** Two weeks touring France and Switzerland, sightseeing in Rouen, Tours, Bordeaux, Avignon, Lyon, Geneva, with visits to Mont-Saint-Michel and Lourdes. Then in Paris, stay six weeks studying at La Sorbonne. Courses include French Language, History, Drama, Art, Literature, for 2 to 6 credits. Spend your last week touring Luxembourg and Belgium. All-expense, 70-day tour includes sightseeing, hotels, meals, tuition for \$12.33 per day, plus Air France Jet Economy round-trip fare.

**STUDENT HOLIDAYS TOUR OF EUROPE, \$15.72 per day plus air fare.** Escorted 42-day tour includes visits to cultural centers, sightseeing in France, Switzerland, Italy, Austria, Germany, Luxembourg, Denmark, Sweden, Norway, Scotland, England, Holland and Belgium. Plenty of free time, entertainment. Hotel, meals, everything included for \$15.72 per day, plus Air France Jet Economy round-trip fare.

**CLUB MEDITERRANEE, \$13.26 per day plus air fare.** Here's a 21-day tour that features 3 days on your own in Paris, a week's sightseeing in Rome, Capri, Naples and Pompeii, plus 9 fun-filled, sun-filled, fabulous days and cool, exciting nights at the Polynesian-style Club Méditerranée on the romantic island of Sicily. Spend your days basking on the beach, swimming, sailing—your nights partying, singing, dancing. Accommodations, meals, everything only \$13.26 per day complete, plus Air France Jet Economy round-trip fare.

# Finley, Panel Discuss Birch Society

By LINDA CAPPS  
Toreador Staff Writer

Words and opinions flew as Dr. Charles W. Finley, active member of the local John Birch Society, exchanged views with a panel of Tech students at the Thursday Night Forum.

Finley spoke to students and townspeople on the views, background and purposes of the John Birch Society in the Rec Hall.

Informing curious listeners of his subject, the Lubbock dentist said, "Education is the most important purpose of the John Birch Society. Americans are unaware of the extent of discrimination. The John Birch Society hopes to provide the people with a better understanding of issues so they can participate more democratically in society."

Finley went on to say, "The communists say they are ahead of schedule in the United States. The John Birch Society is opposed to all forms of authoritarian government."

He presented "discriminatory" cases occurring in what he termed the "Earl Warren" Supreme Court as a matter for American concern. He said the case decisions appeared to favor the communists' cause.

"The Supreme Court," he said, "is a greater danger to us than all those dangers outside our border. Most recent Supreme Court decisions have been based on political and economical aspects instead of legal precedence."

Finley offered the Fabian-Socialist Clan at Harvard as further

illustration of conspiracy. He said, "There are more socialists with a Harvard accent than could be found in overalls."

Later Finley stated that the founder of the John Birch Society, Robert Welch, was a graduate of Harvard Law School. A previously silent audience broke into laughter.

Informing the audience of the purpose of the John Birch Society, Dr. Finley said, "Speaking not for the John Birch Society, but as a member, we hope to preserve our constitutional republic and to enlarge and expand constitutional freedom under such a republic."

Concluding his introductory speech, Finley said, "It is time for all people, all God-fearing Americans, to unite. Nothing will be done until the danger is visible to every eye. No one will believe the flood until it is upon us."

Dr. Finley continued the forum with a question and answer period.

A panel was composed of Franz Helbig, a senior economics major; Carol Burrow, a graduate government major; and Harold Hammett, a graduate political science major.

To discourage an argumental situation, the audience was asked to submit written questions at the end of the panel questioning.

A thoughtful audience listened as the panel directed questions to the short, white-haired doctor.

Carol Burrow began asking, "What is the opinion of the John Birch Society on the limitations of the government?"

Finley replied, "We feel that recent Supreme Court decisions indicate foreign conspiracy. These

decisions have aided the communist cause."

Hammett asked, "Is it not true that Robert Welch hoped to impeach Earl Warren because he said Warren was turning a 'constitutional republic' into a 'democracy'?"

Finley then presented an explanation of definitions used by Welch. "In a constitutional republic, the rights are reserved for all people regardless of the majority." In a "democracy, a majority rules."

Helbig continued the panel questioning by asking Finley to define communism under his accusations of conspiracy.

Finley paused before the microphone. He replied, "To define a communist would be a hard thing to do. People who brand other people as communists are the ones I would be concerned about."

Helbig broke in again to comment, "Since you are fighting the communist threat, I thought you might know what a communist is."

Written questions from the audience were collected as the panel questioning came to a close.

When asked if the John Birch Society had taken a stand on in-

tegration, Finley answered no. "The colored man has the same feelings I have. The colored man has his rights," he said, expressing his personal opinion.

Questioned on how to become a member of the Society, Finley replied facetiously, "Take one of our Blue Books and I think it could be arranged here in a 'semi-secret' session."

As Dr. Finley answered remaining questions, he added, "For communism to succeed is for good men to do nothing."

Adults and students remained grouped in discussion long after the thought-provoking forum came to an end. Individual opinions concerning the John Birch Society created varied comments.

One Tech student simply stated, "He certainly talks around the bush."

John Stokes, a senior pre-law major, commented, "It was an informative program. The Society has some good points."

"Worthless! Too many inconsistencies," commented a Lubbock businessman voicing his opinion of the John Birch Society.

A Tech geology professor, Dr. J. D. Dennis, said, "The Society

advocates a more limited federal government. But who is more capable of improving situations than the federal government."

When asked about joining the Society, another interviewee said, "Not in my position. I'm a commissioned officer in the Air Force."

## Frat Collects Old Journals

Alpha Phi Omega is collecting text books, professional journals and magazines, paperback books, and novels—anything that could be utilized by a library—to be used by the Books for Asian Students organization.

The books will be sent to the Books for Asian Students organization in San Francisco, California, which will distribute them throughout colleges and universities all over Asia.

All duplicated books will be sent to the University of Mexico and all paperback books will be sent to Mexico University's Benjamin Franklin Library.

DR. CHARLES FINLEY

why the blue suit with the gold bars?

You're needed... just as your father and grandfather were. It's an obligation that a lot of qualified college men have to meet... that of serving your country, when and where you are needed.

And the Air Force needs college-trained men as officers. This is caused by the rapidly expanding technology that goes with hypersonic air and space flight. Your four years of college have equipped you to handle complex jobs. You have the potential to profit from advanced training... then put it to work.

There are several ways to become an officer.

First there is Air Force ROTC. Another program, relatively new, is Officer Training School. Here the Air Force commissions certain college graduates, both men and women, after three months' training. The navigator training program enables you to win a flying rating and a commission. And, of course, there's the Air Force Academy.

An Air Force officer's starting salary averages out to about what you could expect as a civilian. First there's your base pay. Then add on such things as tax-free rations and quarters allowances, free medical and dental care, retirement provision, perhaps flight pay, and 30 days' vacation per year. It comes to an attractive figure. One thing more. As an officer, you will become eligible for the Air Force Institute of Technology. While on active duty many officers will win graduate degrees at Air Force expense.

Why not contact your local Air Force Recruiter. Or write to Officer Career Information, Dept. SC15, Box 7608, Washington 4, D.C., if you want further information about the navigator training or Officer Training School programs.

# Space Jaunt Brings Enthusiastic Views

By SAUNDRA ADCKOCK  
Toreador Staff Writer

Only hours after Alan Shepard's spectacular jaunt into space Techs. voiced enthusiastic opinions on his history-making journey.

"It was a great step forward."

"It bothered the confidence of people in America and the free world."

"We could have goofed like hell but we would have done it honestly."

These were among the comments students replied when they were questioned at random Friday. The questions:

What effect do you think today's space flight will have on Americans and people around the world? How do you compare the manned space flights of Russia and America? Was our flight worthwhile or should we have waited until the missile could orbit the earth?

Larry Dety, Lubbock sophomore chemical engineering major, said, "I think it will bolster confidence of the free world in the U.S. This morning's spectacular will alleviate some of the anxieties which Americans feel toward our space program."

"I don't think Russia put a man in orbit. There are too many con-

flits in their story. Today's flight was definitely worthwhile; these things have to be taken step at a time. I don't think there is as big a gap between the Russian and U.S. space programs as has been published."

Agreeing with all other students interviewed that confidence has been boosted, Carl H. Freeman, sophomore government major from Wheeler, said, "America possibly cut down some of the bickering among people over the inadequacies of our space program. Ninety per cent of the propaganda value has already been taken by the Russians, but it will bolster confidence in what's left of the free world."

"The fact that the entire flight completely was publicized shows that we have much more confidence in our rockets than the Russians, who conducted their entire test's in secret. Of course we could very well have goofed like hell but we would have done it honestly," Freeman added.

"We showed confidence in our own ability by the public coverage of the launching," Carter Snodgrass, agronomy senior from Plains, said. He continued, "I do think it will show the Americans our present capabilities and what we can do in the future. It will give our allies more confidence in our ability to defend ourselves and other countries. I don't think they (the Russians) are going to get too excited about it. The Russian

people may not be told the entire truth exactly as it happened."

Bea Young, sophomore English major from Andrews, agreed that the space success is a boost to the American morale. "Americans won't feel that lag in space behind Russia is as great as before. Should help prestige a little as it suffered a pretty severe blow by the Russian success," she went on.

"However, it will still take more," Miss Young explained. "People who are still teetering between communism and the free world will need more evidence of American superiority. Weaker countries are influenced by evidence of power. The power impact the Russians have gained with all their 'first's' will require more than one U.S. gain to counteract."

Dessie Adress, advertising art and design major from Rotan, said, "It was a great step forward though we are still behind the Russians because they have had a man in orbit, so they say, and ours did not go into orbit; it was not supposed to. This puts us second in the space age."

"As far as communism goes," she said, "it won't affect them one way or the other, other than making them want to progress farther so that they can be ahead of us. I think it will have a good effect on them (Europeans) to know that we are advanced this far. I think ours had too much publicity, for had it not gone off right we would have been in pretty sad shape."

James R. Gif, from Caracas, Venezuela, who is majoring in animal husbandry, gave his insight on the matter. "In the American concept, the success of today's flight will bring up new hopes in the conquest of the outer space race with Russia."

"Also, even though the Russians are ahead in this particular field it is known that they also had failures before they succeeded, but they didn't let anyone else know of their efforts until their success."

"This morning's flight was more of a test flight, if a man can be put in space he can be orbited. Getting the man in space is no the feat so much, it's keeping him there for aw hile," Gif said.

George Ford, senior advertising art and design major from Africa presented an opinion that stand alone apparently in the present acknowledgements of space experimentation. "I think that the world situation, space conflict etc., is an unfortunate one and that man should be able to turn his attentions to more important matters that EMPTY wealth and power."

## Fulbright Requests Are Due

Fulbright scholarships will be available to over 800 graduate students for graduate study or pre-doctoral research in 32 countries.

Dr. David M. Vigness, of the history department, is campus Fulbright Program Adviser at Tech. Dr. Vigness pointed out that the scholarships are for 1962-63 competition and competition closes October, 1961.

In addition to the Fulbright Scholarships, the Inter-American Cultural Convention and the Scholarship Exchange Program will offer awards for graduate study in Ireland and Latin America. Applications for these programs will be available on May 15.

There are two types of Fulbright scholarships for studying abroad. Complete Fulbright grants take care of all expenses for one year. American students receiving awards for study and research can also receive the Fulbright Travel Grant to supplement maintenance and tuition.

The Inter-American Cultural Convention awards cover traveling expenses, tuition, and partial-to-full maintenance.

General eligibility requirements for all categories of awards are: U.S. citizenship; bachelor's degree; knowledge of the language of the country in which you plan to study; good health; a good academic record, and the ability to study independently.

For additional information concerning the Fulbright Scholarships contact Dr. Vigness, Ad 211.

## Phi Kappa Phi Initiates 108

Phi Kappa Phi, national honorary organization, initiated 108 students at a banquet Friday night in the Tech Union.

Principal speaker for the initiation was Dr. William Pearce, academic vice president at Tech.

Initiates of Phi Kappa Phi are chosen from the top 10 per cent of the senior class and the top two per cent of the junior class.

Featured on the program with Dr. Pearce was Vera Simpson, newly-elected vice president of Phi Kappa Phi, who has the high grade average for the junior class.

## Council Sponsors 'Fish Flop' Dance

The Freshman Council is sponsoring an all-college street dance, called the "Fish Flop," from 2 to 4 p.m. Saturday, May 6. It will be in the parking lot of the Administration Building.

The band of Charlie Hatchett will play for the dance and there will be free ice cream.

## Stack Increases Of Lost Articles

Alpha Phi Omega, operator of the Lost and Found, has announced that they will conduct an all-school auction on unclaimed articles left at the end of the semester.

They said that there is an abundance of winter clothing and books in the collection, located in the Tech Union.

## 22 New Members Join National Science Group

Sigma Xi, national scientific society promoting research, initiated twenty-two new members, May 2, in the Agricultural Memorial auditorium.

Members must be active in research in any of the sciences or have published results of research to be qualified.

The new members are Patricia J. Fain, chemistry graduate; Glen Ray Himmelberg, geology graduate; Henry J. Shine, chemistry professor; Franklen Alton Wade, geology professor and department head; Robert Leonidas Snell, chemistry graduate; Deskin Hunt Shurbet, Jr., associate professor of geology.

Others are Guy Robert Horton, arts and sciences graduate; Carr Howard Barnette, arts and sciences graduate; John Alberts Waters, research fellow in chemistry; Francis Earl Green, museum curator; Fred George Harbaugh,

veterinary science and animal husbandry professor.

Robert Henry Elliot, agriculture graduate; Preston Frazier Gott, associate professor of physics; Chester C. Jaynes, assistant professor of agronomy; William J. Heilman, arts and sciences graduate; John H. Baumgardner, associate professor of animal husbandry, are also new members.

Elevated from associate to full membership are Jack G. King, assistant professor of agronomy; Levon L. Ray, Texas A&M experimenter; C. C. Reeves Jr., instructor in geology; John P. Brand, professor of geology; Billy Joe Sandlin, associate professor of physics; Chester M. Rowell, assistant professor of biology and Billy G. Cumbie, assistant professor of biology.

A presidential address by Dr. W. W. Wendlandt, associate chemistry professor, followed the initiation services. Wendlandt spoke on "Thermal Methods of Analysis: Introduction of a New Technique."

## EE Graduates Acquire Offers Of Top Money

According to the College Placement Council, electrical engineers continue to top the dollar scale as far as offers of higher salaries go.

Although liberal arts and biological science degree candidates have offers of increased salary, electrical engineers still hold the lead of volume of offers and still receive offers averaging \$553 a month.

Following electrical engineering, at the top of the five curricula drawing highest salary offers were aeronautical engineering at \$547, mechanical engineering at \$541, chemical engineering at \$540 and physical sciences, including mathematics, at \$539.

The national monthly average for technical graduates in all curricula was \$544 with non-technical graduates being offered \$451.

The survey is limited to male, bachelor-degree candidates in the 11 most active curricula and 16 key areas of employment.

## Kaplan Talks To International Atomic Energy Symposium

Dr. Sylvan J. Kaplan, Tech's psychology department head, has been invited to address representatives of the International Atomic Energy Agency at a symposium in Vienna, Austria, June 5-9.

One of three U.S. psychologists picked to attend the symposium, Dr. Kaplan will leave Lubbock June 3.

His address deals with the effect of pre-natal radiation upon behavior. He is currently fulfilling an experimental contract with the U.S. Air Force and has been

engaged in radiation research with the Atomic Energy Commission and the National Institute of Health since 1949.

Dr. Kaplan explains his personal interest in the field in this manner, "In the age of increasing atomic energy usage, it becomes imperative to ascertain its most minute effects upon man's behavior and health . . . not only in this generation but also in future generations."

He attended a like symposium at Northwestern University last year, and spoke on the same subject.

Entitled "Behavioral Manifestations of the Deleterious Effects of Pre-natal X-irradiation," Dr. Kaplan's address will form a chapter in a book soon to be printed in several languages.

"As with last year's symposium," said Dr. Kaplan, "many scientific disciplines including pathology, neurology, physics, embryology and others will be represented at Vienna."

He said he plans to visit atomic energy sites throughout Europe and discuss with other scientists the problems of radiation.

## Units Change Commanders

Approximately 900 Army and Air Force ROTC cadets had a combined military review and change of command ceremony Thursday.

The cadets stood in drill formations on the field west of the women's gym to honor four cadets and two new commanders.

George B. Gibson, Army ROTC cadet, and Bruce R. Haas, Air Force cadet, received the Tech President's awards. The awards are made annually to senior cadets who have been recognized for their outstanding performance in ROTC for four years. Dr. William M. Pearce, Tech academic vice president, made the presentations.

Temple Houston of Morrow presented the Sons of the American Revolution Medals of Honor to Army cadet Stephen A. Melton, and Air Force ROTC cadet William G. Hein.

Bobby C. Switzer formally took over as cadet brigade commander of the Army ROTC, and C. W. McKinzie, wing commander of the Air Force ROTC unit.

## Department Grows With Many Events

Ten years ago this month Tech's Music Building was formally opened with the staging of the Texas Symposium of Contemporary Music. This year the Music Department will participate in the tenth anniversary of the symposium's anniversary which coincides with the tenth year of occupancy in the Music Building.

The first symposium concert featured original compositions for music and dance by Tech students. Dr. Gene Hemmle, then head of the Music Department, expressed the wish "that this idea of a concert of original compositions can be made an annual affair, perhaps inviting high school and college students in this area to attend, and giving awards for the best compositions."

At the conclusion of this year's festival the Symposium will have brought 42 concerts of American and European music to Lubbock and Texas Tech. Other features of these concerts were works of

Texas composers and original compositions by students of the music department.

The 1961 festival will include three concerts by the music faculty, bands, choirs and orchestra. These concerts will be open to the public without charge.

An increasing number of activities appeared as the music department expanded. In 1952 the Tech band made 28 appearances including four local concerts. Tech Choir made a tour of ten cities that year, and gave 14 local performances. Highlighting the year was the Christmas Concert with the Lubbock Symphony Orchestra. The Madrigal Singers made 31 performances and the festival chorus presented Mendelssohn's "Elijah."

Displays are distributed in the Music Bldg, showing the growth of the Department and the Symposium. For those who wish to rely on performance, the symposium begins May 5 and ends May 7.

# Draper Sets Record In Dallas Meet

Texas Tech's Charley Draper was one of the top standouts in a quadrangular track meet at Dallas Thursday, but Baylor utilized strong depth to win going away in the last meet before the South-

west Conference Meet at Houston May 13.

Southern Methodist placed second in the competition with 45 1-2 points, behind Baylor's 66 and Tech beat Texas Christian out for third, 36 1-2-23.

Draper locked horns with a former schoolmate in the person of SMU's Jim Parr, and both bettered the conference record for the 880-yard run. Draper won in 1:50.6 to cop first place and Parr came in at 1:51.1. The old record was the three-year-old mark of Joe Villarreal of Texas, 1:51.6, set in 1958.

Tech picked up additional points in the broad jump where Red Raider athletes finished first and third.

Delbert Shirey won the event with a leap of 23-7 3-4, and Bake Turner jumped 23-1 1-2 for the third place trophy.

Turner received a blue ribbon in one other event, the low hurdles, to give the Raiders another first place in the meet. With Tur-

ner leading the way, Tech finished one-two in the 220-yard hurdles—another strong event for the Raiders. Bob Swafford took the runnerup spot in that event and then ran behind Bob Bernard of TCU in the highs.

Franklin Wood, David Thomas, Pat Holmes, Richard Stafford, Cecil Bryant and Guy Golden also picked up points for Texas Tech in the meet.

Wood took third in the 220, Thomas finished fourth in the two-mile run, Holmes took third in the shot put, Stafford took third in the discus, Bryant took

fourth in the pole vault and Golden placed fourth in the 880.

In addition to the broad jump victory, Shirey also scored in two other events.

The versatile senior also participated in the pole vault and high jump, finishing second and in a two-way tie for third respectively.

Both relay teams finished last. The winning half-mile was the second in as many meets for Draper under the present conference record, leaving many to speculate that Draper will duplicate the feat in next week's meet and post a new record.

In the freshman division of the meet, SMU carted off the honors, winning with 66 points. Texas Tech's Picadors were next with 40, Baylor 33 and TCU 14.

## Andrews Takes Track Crown

AUSTIN (AP)—Andrews won its fifth state Class AAA school-boy track and field title Friday night, with its great Ted Nelson leading the way with records in the 220-yard, 440-yard dashes and a 47.4 anchor lap on the winning mile relay team.

Andrews rolled up 64 points to repeat with the title with Snyder winding up second with 45 and Dumas third with 41. Nelson made 25 points to pace the division.

Taylor won the Class AA championship with 50 points while Iowa Park, the Class A champion last year but moving up a class this time, finished second with 44.

Nelson, who set a national scholastic record of 46.5 in the 440-yard dash in the regional meet and this will become the overall state record when approved by the national federation, coasted to a 48.0 quarter. It was a record by nine-tenths of a second. He came in looking back to see that nobody had ideas of passing him.

## Eight Tech Swimmers Earn Varsity Letters

Eight Texas Tech swimmers have been recommended to the athletic council as lettermen for the 1960-61 season by Coach Jim McNally.

In addition, nine freshman numeral winners were named.

Varsity lettermen included seniors Jim Tom Davis of Lubbock, John Stokes of Houston, Eugene Holt of Lubbock, and Gary Welch of Post; juniors Glenn Anderson of Odessa, Jack Shipley of Lubbock and Richard Vawter of Dal-

las; sophomore Glenn Shoup of Odessa.

Freshman numeral winners are Steve Benson of Pasadena, Charles Bleil of Houston, Richard Hasse of Houston, Karl Keith of Fort Worth, Lyndon Parker of Houston, Clifford Shive of Fort Worth, Robert Smith of Houston, William Spahn of Austin, Minn., and George Steele of Houston. Tech finished fourth in both the Southwest Conference relays and the conference meet.

## Fall Proves Fatal

FORT ERIE, Ont. (AP)—Jockey Charlie Boland, 21, injured at Fort Erie race track Wednesday when his horse fell, died Friday. He suffered a severe concussion when his horse fell, his head hitting the concrete base of a railing support.

CHARLEY DRAPER

## Stanford Coach To Talk Here

Stanford Coach Jack Curtice, president of the American Football Coaches Association, will speak at the annual All-Sports Banquet of the Red Raider Club in the Coliseum here Tuesday night, May 16.

Bob Walker, president of the club helping support the Texas Tech Athletic Scholarship fund, said that honor guests will be Texas Tech's 1960-61 Southwest Conference champion basketballers.

Walker stressed that the dinner would be open to families of members as well as outsiders. Tickets cost \$2.50 each, and reservations should be made to Box 456, Lubbock, by May 13.

The Lubbock Lions Club will serve a barbecued chicken dinner, and Bill Michael will furnish entertainment. The event is scheduled from 6:30 p.m. until 8:30.

Leete Jackson, executive vice-president, said that there would be no solicitation of funds.

# Raiders Face Hogs In Season's Finale

Texas Tech's Red Raider golf team will play its last conference match of the year today when they move into Fort Smith, Ark., to play against the University of Arkansas linksmen.

The Raiders are still in a position to win the conference title should Texas A&M fall badly, and the Raiders win by a decisive margin over the Razorbacks. The Aggies will play at College Station Saturday against Texas University.

Coach Jay McClure will probably go with the same lineup that defeated SMU 4-2 here Monday.

Tech currently has one more win than the Aggies, but also five more losses.

Chris Blocker and David Moedy will pair together for one four-will team with Jimmie Johnson ball match, and John Shackelford for the other.

# Texas Wins Net Title

The University of Texas defeated Baylor 6-0 in a Southwest Conference tennis match and with the victory took the conference championship in that sport.

The win placed Texas' mark for the season at 33-3. Rice finished second. Tech wound up with an 11-25 record.

Below are Thursday's results:

Mac White defeated Jim Robinson 6-1, 6-3.

Neil Unterseher defeated Don Mordecai 6-3, 6-1.

Jack Kamrath defeated Foster Rolan 6-2, 6-2.

John Heath defeated Kary Kest, 10-8, 6-2.

White and Unterseher defeated Robinson and Mordecai 6-2, 6-3.

Heath and Stanley Ament, defeated Roden and Kest 6-4, 4-6, 9-7.

In a freshman match, Jerry Walters of Texas defeated Baylor's Gary Don Mize, 6-0, 6-2.

# City Netters Bow Out In TIL Action

AUSTIN (AP)—Pyote's defending Class B tennis champions took first round victories in the Texas Interscholastic League's tennis tournament.

Ralph Sandell, Conference B singles champ, defeated Larry Barton, Bertram, 6-0, 6-0.

In first round B doubles, Pyote's Charles Chrane and Alfonso Natividad, the 1960 title team, defeated Johnny Brown and Charles Crabtree of Saint Jo, 6-1, 6-0.

Other first round results included:

Class B, boys' singles: Jerry Price, Aspermont, defeated Harvey Newman, Kamay Valley View, 6-2, 6-0.

Class AAA: Girls' doubles: Kay Butler and Karen Butler, Falfurrias, defeated Lolita Smith and Carol Smith, Brownwood, 6-2, 6-2.

Betsy Worden and Barbara Lain, Midland, defeated Virginia Davis and Becky Gould, Dallas Highland Park, 6-0, 6-0.

Class AAA: Boys' singles: Edward Newman, San Antonio Jefferson, defeated Bill Lane, Odessa, 6-3, 6-2.

Class AAAA: Boys' doubles: Dale McCleary and Leslie Berkes, Houston Lamar, defeated Jim Collier and Mike Malley, Lubbock Tom Lubbock, 6-2, 6-3.

Class AAA: Girls' singles: Ilene Calyton, La Marque, defeated Linda Weikel, Greenville, 6-2, 6-2.

Class AAAA: Girls' singles: Billie Domingue, Port Arthur, defeated Jill Philbrick, Lubbock Tom S. Lubbock, 6-1, 6-2.

# Monterrey Gets Win To Even Playoffs

Monterrey's Plainsmen downed the Tom S. Lubbock Westerners, 11-2, Friday, to even the District 3-AAAA baseball playoff series at 1-1.

Both clubs finished the regular season with a 11-2 record in district play, tied for first. It is the first championship in any sport shared by the local schools.

The winner of the deciding game at Mackenzie Park diamond today will advance into the bi-district playoffs against the champion of District 4-AAAA, probably Wichita Falls.

In the second contest Friday, the Monterey nine collected only one more hit than the Westerners, but four of the safeties were home runs.

The Plainsmen scored one in the first and second, three in the third, and six in the fifth. The heavy fifth inning barrage came on an error; a walk, two singles, and back to back homers. Right Fielder Darnee Ritchey, who led off the first inning with a homer duplicated the feat in the fifth, this time with the bases loaded. Donnie Bumpass, Plainsmen third baseman, followed Ritchey with another round-tripper, clubbing the first offering he got.

Tom S. scored on a homer in the fourth by Gary Dement and in the sixth on a pair of singles and three Monterey errors.

Today's game will start at 2 p.m.

Monterrey — 113 060 x—11  
Tom S. Lubbock — 000 101 0—2

# Lazbuddie Is 2nd In State

AUSTIN (AP)—Lueders set a record in the mile relay today as the Class B division opened the Interscholastic League track meet.

Beating favored Lazbuddie in the preliminaries, Lueders' team of Jackie Cox, William Jamar, B. A. Honey and Rex Garvin sped the mile relay in 3:28.0, wiping out the record of 3:28.1 set by Bangs in 1960.

Preliminaries in all running events and finals in most of the field events in Class B were held this morning.

Other classes start moving into competition in the afternoon.
