

Techsans Prepare For Company

Homecoming Plans Hit Frenzied Pace

Tech students and friends are putting in hundreds of extra hours this week, getting ready for "company" Friday and Saturday.

Company means several thousand alumni and friends swarming over the campus for Tech's 28th annual Homecoming.

Friday and Saturday the College will transform itself into a giant open house with special campus decorations, class reunions, dances and other events.

Highlights will include a Homecoming Queen Coronation, pep rally and bonfire Friday, a downtown Homecoming parade with more than 30 floats at 10:30 a.m. Saturday and the Tech-University of Arizona Border Conference football clash Saturday at 2 p.m. in Jones Stadium.

A new feature this year will be an alumni-faculty coffee, scheduled for 4 p.m. Friday in the Student Union.

The Ex-Students' Association Council will hold its annual meeting at 1:30 p.m. Friday in the Student Union ballroom, L. C. Walker, executive secretary, said.

Approximately 3,000 alumni and friends are expected to attend a special buffet luncheon in their honor Saturday in the Gymnasium.

Special alumni registration booths will be open Friday and Saturday in the Tech Student Union and at local hotels.

Tech officials have asked the faculty to avoid giving tests in the two days preceding homecoming so students will have time after classes and labs to prepare for visitors.

The student body will elect the See **HOMECOMING**, Page Eight

Tickets Trimming Auto Population, Warns Thompson

Ten to 20 cars are barred from the Tech campus each day because of excessive campus parking violations, according to Security Officer S. E. Thompson.

Under a ruling issued Oct. 11, a student receiving three traffic tickets loses the privilege of driving his automobile on the campus for at least the remainder of the semester.

One ticket constitutes a warning, according to the ruling, and two a final warning.

The traffic committee is about two weeks behind in processing tickets, said Thompson, who added that more cars would be leaving the campus soon because of an excessive number of violations.

"It makes no difference whether the owner of the car was driving it at the time the ticket was issued," said Thompson. "The ticket will be counted just the same."

He added that he could easily check 10 lots each morning and give 50 tickets. Two weeks ago he was kept busy an entire morning on the Administration Building lot.

HOMECOMING QUEEN FINALISTS—are Jimmie Faye Maxwell, Eva Garza, and Doris Wampler (back row, l to r), and, front, Shirley DuPriest and Sandra Shook. The queen will be chosen in a student body election Thursday, and will be presented in coronation ceremonies Friday night.

Queen Race Down To Five Candidates

A Thursday election will be the final voice in the selection of the Texas Tech Homecoming Queen for which five finalists are currently campaigning.

The Queen will be crowned Friday night at a pep rally in front of the science building.

The candidates picked by the Double T Association Sunday are Shirley DuPriest, Eva Garza, Jimmie Faye Maxwell, Sandra Shook, and Doris Wampler.

Tech's second Homecoming Queen will be chosen by the student body for the first time. The 1954 Queen was picked by the Double T boys.

The 17 original nominees were screened by a panel of six judges including Mrs. Jean Jenkins, Huda Hassen, Tommie Wynn, Alton Wesley, Jim Sides and Dwayne West.

Questions asked the Queen candidates were:

"What is your major, and what are you going to do with it when you graduate? What is your life goal? If you could cut classes for one week with no penalties what would you do?"

Miss DuPriest, a junior elementary education major from Waco, is Kappa Alpha Theta pledge trainer, AWS representative, chairman of the World Traveler Committee of the Student Union, and head cheer leader. She was sophomore favorite, last year, and White Rose Queen of Sigma Nu.

She said her life's goal was to help children by teaching speech therapy, to be happily married, and raise a family.

Eva Garza is a junior business education major from Kermit. She is also a member of Kappa Alpha Theta, the Newman Club, Spanish Club, FTA, and the Tech See **QUEENS**, Page Eight

Sat. Halftime Show Will Feature Tech Band And ROTC

Halftime activities at the Tech-University of Arizona game Saturday will feature the combined Tech Air Force ROTC unit and Matador Band doing musical impressions of the past 30 years.

The program announcement was made today by Band Director D. O. Wiley.

A song, typical of each ten-year period from 1925 to 1955, will be played by the band.

"Collegiate" will represent the 1925 period, "Lullaby of Broadway" the 1935 decade, and "June Is Busting Out All Over" for the 1945 anniversary.

Picked as typical of 1955 is "The Yellow Rose of Texas."

Appropriate marching maneuvers and formations have been worked out to accompany each tune.

"Since the Homecoming weekend will commemorate Tech's 30th anniversary, something about the college's first faculty will also be included in halftime activities," Prof. Wiley added.

Toreador Announces New Editorial System

The Toreador today is shifting to an issue-editor system because of shortage of experienced personnel, Adrian Vaughan, journalism instructor and Toreador sponsor, announced.

Under the new system, Editor Bob Rooker will direct gathering and presentation of news and editorials in the Friday issue. Managing Editor Alton Slagle will have the same duties for the Tuesday issue. Rooker's work as issue editor will be in addition to his executive responsibilities.

Previously Rooker handled executive duties and was in charge

of the editorial page for each paper, and Slagle supervised pro-

duction of news matter in each issue.

"We're making the administrative change because we're short of personnel experienced in direction of news gathering," Vaughan explained.

"Slagle has been doing an excellent job handling details of news production for each issue, but our junior and senior classes are small and adequate assistance just hasn't been available," Vaughan said. "That has placed an unfair work load on Slagle."

Both Rooker and Slagle recognized the situation and decided to make the change, he added.

MOUTON MIX UP LEAVES COED SAD

Linda Kuykendall went to Saturday night's Pi Kappa Alpha dance wearing a dark brown, shortie mouton coat.

Later on, she left, wearing a dark brown, shortie mouton coat — a different one.

Linda, who lives in Room 302, Knapp Hall, would like to get the mix-up straightened out.

Anybody got a spare dark brown, shortie mouton coat lying around loose?

Tights And Voluminous Skirts Are Part Of 'Twelfth Night' Costumes

By NITA HEDLESTON

"Hundreds and hundreds of hours are spent on costuming a play," says Dr. Cecilia Thompson, director of the forthcoming Shakespearean romantic comedy, "Twelfth Night," to be presented next week by the Speech Department at Tech.

Volunteer workers, students from all departments of the college, are spending spare time at the Theater Workshop making the eighteen costumes needed for the

production.

Ronald Shultz, speech department instructor and technical director of "Twelfth Night," designs the costumes and supervises their construction.

The designs are authentic. Much time was spent in research on the type of dress worn during the Elizabethan period, in which the play is set.

Several iron frameworks called panniers were made from scrap iron obtained by Shultz. A pannier

is worn under multiple petticoats and holds the skirt out from the hips. One being used for "Twelfth Night" measures 25½ inches from side to side. The pannier is suspended from the waist by tape.

Ruffs, large wheel-shaped collars worn by both men and women, took hours to make, stated Dr. Thompson. Some of the ruffs are edged in black as the characters portrayed are in mourning.

Taffetas, gabardines, satenes, and corduroys are being used in

the costumes. Dr. Thompson explained that certain types of material give certain effects on the stage. For example, corduroy may appear as wool and the color of taffeta is affected by the lighting.

Rehearsals in costume will begin Thursday to give the actors a few days to become accustomed to wearing them.

The costume worn by Olivia, will contain thirty yards of skirt material. The weight of the pan-

nier, an underslip and overslip, and the saten dress will be a lot to move around in.

It will take practice on the part of cast members to be able to move gracefully in tights, robes, or huge skirts. Girls will have to learn to shift their skirts properly and naturally.

All of this work goes into costuming, which is just another part of the tremendous amount of time and hard work that is spent in the production of a play.

LITTLE MAN ON CAMPUS

by Dick Bibler

"Looks like an interesting news item, Professor Snarf. Would you mind removing your shoe?"

Where's That Shoe Race?

Texas Tech's Homecoming festivities for 1955 are just around the corner, and many a student will contribute hours of sweat getting things ready for exes during the week.

There is one phase of Homecoming preparations in which the students at Tech are falling down. During the past three years, fewer slime caps have been seen in the stands even though more freshmen enter Tech each year.

Another custom has been almost completely forgotten. This is the once-annual shoe race conducted by freshmen during half-time activities at the game.

In 1952, only about 250 freshmen took part in the race, and in 1953 approximately 75 students participated. Last year the shoe race wasn't held at all.

All of the blame should not be "shoved off" on the freshmen. By not encouraging them to participate, upper-classmen are just as much at fault. But the student body can't do a thing unless freshmen want to take part in the race.

How about it, Fish? Let's get together and bring back a tradition that seems to have lost its way during the past few years. And at the same time, we'll help make this year's a better Homecoming than ever before.

—Kenneth Bennett

Why Activities? (A Fable)

Once upon a time there was an engineering student named Alphonso Abernathy. Like all engineers, Alphonso was a nice fellow, and like most of them, he was a serious student. He rose early in the morning, dressed hurriedly, read on his way to class, had labs all afternoon, and dragged to the dormitory late in the evening only to begin studying again.

One day Alphonso happened to look up and see a campaign poster depicting a student running for office. "What's this?" he asked. "Why do we need student government when we have all those college officials?"

"This," said a friend, "is to teach students the responsibility of self-government, to make them aware of the need for good leaders in top positions."

"Oh," said Alphonso. About that time they passed a group of students holding a pep rally in the circle.

"Why do they waste all this time and energy yelling for the football team? Is that what they came to college for?"

"Those people," answered his friend, "are supporting their favorite team, just as later in life they'll champion the causes they believe in. Those who stick with the team, win or lose, will always work for their causes. Those whose sympathies lie only with the winning team will accomplish little but talk in later life."

"I see," said Alphonso. "But perhaps you'll find it harder to explain so many people spending so many hours building homecoming floats.—Why?"

"As you know, Alphonso," said the friend, "a most important part of business in America is competition. These people are fired with the same spirit of competition and desire to win. They work toward a common goal—to make a beautiful and interesting homecoming parade display. Later on, as citizens, they'll work together in the same way for community betterment."

"These things all seem good, I'll admit," said Alphonso, "but how do you explain the wasted hours at dances, teas, meetings and parties?"

"All our lives, Alphonso, we'll live and deal with people," was the answer. "Our understanding of these people, and our success in dealing with them, depends upon our own individual success as a person. Learning to like them and to share fun and ideas with them is a most important aspect of a college education."

"So all these people running around willy-nilly are really going places after all," Alphonso said thoughtfully. "Just one more question, friend.—Which way to the Student Union?"

—Mary Gristy

Letters to The Toreador . . .

Dear Sir:

Your editorial, "Is Federal Aid Coming," dated Oct. 18, 1955, was of interest to us.

We should like to remind you that federal aid has already come to Texas Tech. The Psychology Department received a federal grant to establish a Vocational Rehabilitation Program early in 1955. Through the grant, two professors were added to the staff and eight graduate fellowships were made available. This was a step by the federal government to remedy the shortage of trained vocational rehabilitation counselors.

We question the validity of your fear of federal control of such grants. In this instance, the college was required to meet certain minimum standards as to the number of courses offered and the fields in which they were to fall to insure proper training of students. Then the grant, with no strings attached, was awarded to the college. That is, the federal government has left to the discretion of the college the proper administration of these funds in carrying out the program.

Your fears are not justified in the history of federal grants in aid to education. We cite the Land-grant Act of 1787, the Morrill Act of 1862, the second Morrill-Act of 1890, the Hatch Act of 1887, and the Smith-Lever Act of 1914, all of great benefit to education. The administration of these acts seem to make your question anticlimatic. Federal aid to education has long since come. Perhaps an appropriate question would be: "Are fears concerning federal control of education grants justified?" We think not.

In a democratic process, the members of the Psychology Club voted to phrase and transmit this letter.

Respectfully yours, Hal Moon, President Psychology Club

An excellent letter containing many good points . . . We need more like it.

We, also, still fear governmental intervention in education.

Editor

COLLEGE GRAPEVINE . . .

UCLA Responds To Parking Woes

By CLAYNELLE ROOKER

Most of the colleges in the nation have come face to face with a common foe this year with the pressing demands of the parking problem, but at least one college is laying concrete plans for its solution.

UCLA has presented the university regents several plans, one of which might provide an answer. The most likely of these calls for a semester fee to be paid for the use of most campus parking areas. Certain areas are to remain as free parking lots.

From the money derived from parking fees, multi-level garages are to be built.

A further proposal is that parking meters for short time parking be installed on streets running through the campus.

We call ours the "Washbowl," but in San Marcos they call theirs the "Powder Puff Bowl." The bowl game which pits the upper-classmen against the lower classmen, will feature six shapely majorettes, lovely cheerleaders, and a football sweetheart during the halftime activities.

"The Trinitonian," representing Trinity University, printed the following:

Once upon a time there were three soldiers . . . an Englishman, an Arabian, and an American . . . who were conversing on a street corner in Casablanca when a spectacular oriental beauty ankled by. (You know the kind.)

"By jove!" the Englishman exclaimed.

"By Allah!" murmured the Arabian reverently.

"By tomorrow night!" breathed the Yank softly.

Texans are noted for boasting that whatever Texas has is bound to be biggest and best. Our State University is no exception.

The University of Texas reports that they have recently installed the largest and most modern dish-washing machine made today.

The stainless steel, flight-type Hobart handles 1,200 dishes and uses 360 gallons of hot water per hour. It consumes approximately twelve and one-half pounds of detergent and three eight-ounce bottles of rinse compound in a day's time.

The "Giant," five feet high and 22 feet long, cost approximately \$14,000. A dish travels through four tanks before it is released. The pre-wash tank flushes off food particles, and the second tank electronically dispenses the correct amount of detergent to kill bacteria. The third tank, or first rinse tank, is filled with hot water of 180 degrees, which is necessary to thoroughly sterilize any dish, and the final tank subjects the dishes to 190 degree water, which makes them so hot they come out dry. Dishes are never water spotted by the machine.

"Men beware! If a coed comes up to you in the next month with a far-off look in her eye, she may be planning to ask you to fly with her to the moon.

"If she is wearing a jet-propelled helmet, it will signify that she is one of the commanders in charge of this plan to take you away from your troubles one moonlit evening."

The proceeding was printed by "The Varsity News" of the University of Detroit. And what did it mean?

Although the students of DU like the basic idea of TWIRP Season, they are tired of the same old way of doing things. So . . . on Nov. 12 the men will be picked up at their "planets" and rocketed off on an "interstellar cruiser" piloted by an "out of this world" creature.

Rifle Team

Interested in trying Tech Rifle Team? President Jerry Hill has an invitation to all Tech interested in riflery to join the Rifle Club. Any club member firing may try out team. The boys team of seven members will have five. Club members practice Rifle range located

The makers of Phil during the school ye Philip Morris in the or smart king size.

Rifle Team Taking Members

Interested in trying out for the Tech Rifle Team?

President Jerry Hill of the Texas Tech Rifle Club has extended an invitation to all Tech students interested in riflery and guns to join the Rifle Club.

Any club member interested in firing may try out for the rifle team. The boys team now consists of seven members while the girls team has five.

Club members practice in the Rifle range located in the Air

Science Building basement. The 50-foot range is equipped with rifles, ammunition, and targets.

Springfield M2s are standard equipment, but some Winchesters, Model 52, are also fired.

The range is open to male Club members each Monday and Wednesday. Thursday night is reserved for girls.

Boys fire in four positions: prone, sitting, kneeling, and standing. Girls compete only in prone position.

HOW TO BE A BMOC

Any man who wishes to be a BMOC—you show me one who doesn't and I'll show you a misspent youth—will do well to follow the few simple rules listed below.

The first requisite of a BMOC is, of course, a letter in athletics. This presents no great problem to the big, the strong, and the hulking. But what do you do if you are a puny little chap with a concave chest and muscles like tallow?

I'll tell you what you do: You go to the nearest letter store, buy a letter, sew it on your sweater, and wear it.

This, perhaps, is not strictly ethical, but chances are slim that anybody will question you about it. If someone should, you have a perfectly logical explanation. Simply say, "That 'P' on my sweater does not stand for 'Iowa.' It stands for 'Infirm.'... Or, 'That 'P' does not stand for 'Princeton.' It stands for 'Poorly.'... Or, 'That 'W&L' does not stand for 'Washington and Lee.' It stands for 'Withered and Lumpy.'... Or, 'That 'BG' does not stand for 'Bowling Green.' It stands for 'Badly Gangrenous.'"

So, you see, getting the letter-sweater is no large task. But that is only a part of BMOC-hood. Another, and equally important, part is to join the right fraternity. Let me emphasize—the right fraternity. Joining the wrong fraternity is worse than joining no fraternity at all.

How can you be sure that the fraternity you join is the right one? Very simply. Just ask the rushing chairman. After all, why should he lie to you?

Once the BMOC is established in the right fraternity, the next step is to get the right girl. A BMOC's girl must be beautiful, shapely, and go well with all his suits.

Girls answering this description are admittedly not easy to find. If you should discover that all the suitable girls on your campus are already attached, do not despair. There are several things you can do.

You can, for example, cut your throat. Or you can pick one of the less attractive ladies on campus, veil her, dress her in houri pants, and tell everybody she is an exchange student from Istanbul. (A fellow I knew in school—Hardtack Sigafous by name—did just that. After several semesters he discovered to his surprise that he loved the girl. Today they are happily married and run one of the biggest Turkish baths in Ida Grove, Iowa.)

We arrive now at the question: What does a BMOC smoke? And the answer is—new Philip Morris, of corris!

Anybody—big man on campus or little man, big woman or little woman—anybody who is able to discern between harsh and gentle chooses new Philip Morris. Gentle is the word for Philip Morris. (Actually, of course, it isn't. Cigarette is the word for Philip Morris.) But gentle describes admirably the felicitous blending, the smooth, mild, pleasurable flavor, the nobly born and delicately nurtured tobacco, that Philip Morris—and only Philip Morris—brings you.

The makers of Philip Morris, who bring you this column every week during the school year, cordially invite you to try today's new gentle Philip Morris in the bright new red, white and gold package, regular or smart king size.

Philip Morris, of corris!

every married student should have a *

Student-Husbands Are Most Misunderstood-- Ask One

By NANCY KAISNER

The least appreciated and most misunderstood person on campus is the student-husband. You doubt that? Well, it's easily proved—just ask one.

After marriage, he "settles down," and, with his wife, sets up housekeeping in a cozy one-room efficiency apartment, upstairs, sharing the bath with two other couples. After much discussion he decides to stay in college, while his loyal spouse foregoes furthering her education and instead undertakes a job in order to further the grocery supply.

For awhile, life is wonderful. But then a few nagging rays of light begin to filter through the rosy haze, and the college boy realizes that he has evolved, perish the thought, into a husband.

He spends three or four hours daily in classes and five or six more at work. Then he comes home, expecting to get a little rest. Ha! Wife stands in the door, ready with a loving greeting—and a long list of things to be done.

So his evening is spent helping with supper, washing dishes, fixing leaky faucets, emptying overflowing wastebaskets and the like. He doesn't even get a glimpse at television, much less the chance for a movie.

If he should happen to get a Saturday afternoon off, even that is quickly requisitioned, football game or no, and he is dragged along to town to act as adviser and package carrier. Most of the time the poor husband grins and bears up uncomplainingly, managing somehow to get both homework and housework crowded into his busy schedule.

If Junior should happen to put in his appearance before graduation, things get even worse. Ever try solving calculus problems with a background of loud-protesting wails? It's easy after several months of practice, student-poppas claim.

However, a baby in several ways puts the spice back into a marriage that's growing stale. For one, he makes it possible for the couple to spend more evenings out—driving around and around and around the block, until he finally drops off to sleep. For another, he serves to stimulate intellectual discourse between the two on such challenging subjects as diaper-changing and two o'clock feedings.

Poppa usually balks at such things, but Momma always insists. So there you are—just one more item to add to the list of reasons for avoiding marriage like the plague.

THE BEST ON WAX...

'Shoot It Again' Is Probable New Hit

By GLORIA WALLER

Has Theresa Brewer done with "Shoot It Again" what Joan Weber did with "Let Me Go, Lover?" If you watched the "U.S. Steel Hour" on TV Wednesday night, you heard Tessie's probable new hit on Coral.

Fast-moving and catchy, the tune is done in her naturally top style. On the flip side is "You're Telling Our Secrets," a "catch in

A radio station in New York the voice" type ballad.

City has come up with the idea of an "Un-hit Parade." People are being asked to send in a list of the records they don't like to hear.

Using these lists, the programming director will make out his future radio schedule. One or two "negative" requests will not kill the record, but a reasonable number of votes against it will keep it off the air of that station.

To us, this idea isn't too good. Although a large number of people do not like a song, there are still many who do.

Characters like Billy the Kid, Jesse James, the Daltons, Black Bart, Belle Starr, and Sitting Bull are the objects of a new "pioneer" song recorded on MGM by Dickson Hall.

Fashioned after the historical trend of "Davy Crockett," Dickson's "Outlaws of the Old West" could be another hit. However, "Young Abe Lincoln," although it is getting some play, is not near the hit the Alamo Hero song was. We have our doubts about it.

With their "Love Is a Many Splendored Thing" still in the top ten, the Four Aces are coming out with two new releases on Decca, "A Woman in Love" and "O' This I'm Sure." Taken from MGM's forthcoming "Guys and Dolls," they are almost sure bets in the pop field.

We see Johnny Desmond is recording "Sixteen Tons" on Coral. After Tennessee Ernie's almost "overnight" hit with the same song, we imagine there will be a number of recording stars following Johnny.

Remember "Goodnight, Irene," "Harbor Lights," and "Mona Lisa" just for old times sake? They were the top three tunes of five years ago.

Taster Pays Off For Tech Senior

Tech's "top-taster" this year is Donald Hutchins, a dairy industry senior.

This was disclosed by Dr. J. J. Willingham, head of Tech's dairy industry department, in the results of Tech's judging team. Team members competed last week in the Southern Contest held in Columbia, Mo., and the International Contest in St. Louis, Mo.

The three-man team, composed of Hutchins, Jimmy Sandlin, and Richard L. Ridgeway, judged by taste only the quality of milk, butter, ice cream, and cheese.

At the Southern Contest, the team placed fourth with Hutchins taking first place in butter judging and eighth in all-products.

Tech placed twelfth at the International Contest, and Hutchins again was high man on the team. This contest included competition from 26 colleges throughout the country. Mississippi State, three-time winner, took top honors.

A staff of more than 1,100 teachers, administrators and employees is required to operate Texas Tech. The College's annual payroll exceeds \$3,000,000.

Faculty Honored At KKG Picnic

Forty Tech faculty members were honored guests of the Kappa Kappa Gamma social sorority Sunday afternoon.

A barbecue at Mackenzie party house was the scene of a picnic held so that sorority members could become better acquainted with various Tech faculty members.

Entertainment was furnished by Tommy Wieland, Jo Ann Barney, Patsy Stice, Nancy Shortessy, Pat Willis, and Mary Katherine Birkelbach.

Kappa pledges were in charge of the program, and Kay Steele was responsible for the food. Sylvia White made arrangements for the location of the picnic.

Joy Wieland served as General Committee Chairman. About 65 Kappas attended.

JEAN CRASS, JOAN CHESHER, PAT RAINER . . . Delta Sig Roses

Delta Sig Rose Contest Narrows To 3

And now there are three . . . Pat Rainer, Joan Chesser, both of Lubbock, and Jean Crass, of Silverton, are all that are left of the 23 nominees for Rose of Delta Sigma Pi.

The local nominee for National Rose will be selected from these three. Selection will be made just before the Rose Dance Feb. 4.

Delta Sigma Pi, a professional business fraternity, announced today the three finalists will be driven in the Homecoming Parade

in a convertible. Girls nominated by members of the organization met at a reception where three finalists were picked. Selection is on a basis of a knowledge of Delta Sigma Pi, association with members of Delta Sigma Pi, desire to be local sweetheart and nominee for the national contest, poise, charm, and personality, and a high opinion of Delta Sigma Pi.

The National contest is to be held in Hollywood sometime in March.

Tech Press Club Journeys To Slaton

Thirty-five members of the Texas Tech Press Club will journey to Slaton tonight for a dinner meeting and tour through a weekly newspaper plant.

They will be guests of Francis Perry, publisher of the Slaton Slatonite, at a dinner scheduled at 6 in the First Methodist Church. Perry will speak to them on problems of weekly publishing.

Following the dinner session, the

students will be conducted through the Slatonite plant and be briefed by staff members of that newspaper on their respective editorial, advertising and printing responsibilities.

Dr. William E. Hall, Tech journalism department head, and Mr. Adrian Vaughan, journalism faculty member, will accompany the group.

AWS To Pick 7 Handsome Man Finalists

Eighteen Tech males will enter the first eliminations Monday night for the title of Tech's Most Handsome Man.

The field will be narrowed to seven candidates Monday by the Association of Women Students. These seven will compete for the title at Club Scarlet, annual Theta Sigma Phi sponsored mock night club and variety show scheduled Nov. 12.

Candidates and sponsors are Bob Phillips, Sigma Kappa; Bill Hudson, Pi Beta Phi; Jim Blackwood, Kappa Sigma and sophomore class; Johnny Jones, Delta Gamma and Book Reviewers; John T. Hutchens, Phi Gamma Nu; David Michael Bayless, Knapp Hall; Jack Fletcher, Tech Vets; Tom G. Parks, Sneed Hall; Garland Thornton, Sigma Nu; Jessie Adams, Future Farmers of America.

Roy G. Miller, Gordon Hall; Leo Hatfield, Pi Kappa Alpha; Minor Nelson, Double T; Rob Brown, Tri Delta; Dale Roberts, West Hall; Buddy Hill, Phi Delta Theta; Bob Johnson, Kappa Alpha Theta, and Thomas Holeman, Phi Kappa Psi.

"The final decision will be by popular ballot at Club Scarlet," said Mrs. Margaret Schrader, president of Theta Sig, national honorary society for women journalists.

Mrs. Schrader also announced today the election of six Theta Sig acting officers from among the pledges. They are Marguerite Winder, vice president; Mrs. Nancy Kaisner, secretary; Melba Neely, treasurer; Barbara Pearce, archivist; Barbara Knott, reporter, and Mrs. Mary Ann Walter, AWS representative.

Mrs. Schrader was elected last spring.

Court Legalizes Existing Divorce, Claims Lawyer

"In a divorce case, a lawyer only recognizes a situation already at hand," said Jim Cade, Lubbock lawyer, before an assemblage at the Church of Christ Bible Chair last night.

"The divorce is already there," the lawyer continued. "We just legally recognize the break."

Also speaking at the meeting, the first in a series of four discussions scheduled by the Church, were Ewell L. Hunt, M.D., and M. Norvel Young, minister of the Broadway Church of Christ.

Tonight, discussion will be centered on "vocation," and will be led by Alex McDonald, Lubbock banker, S. M. Kennedy, Tech government professor, and John T. Smith, minister.

A free steak dinner is scheduled at 7:30, following tonight's program. The discussion will start at 6:40.

"Happiness" will be the topic under discussion tomorrow night. Speaking will be Tech Professor Ivan Little, Housewife Helen Young, and O. H. Tabor, minister.

The concluding discussion Thursday night will center on "Mental Health." Speaking will be Dr. R. K. O'Loughlin, Lubbock psychiatrist, O. C. Horne, area farmer, and H. E. Speck, Jr., minister.

Each speaker will discuss the topic under consideration for seven minutes from his professional and personal viewpoint. There will be a ten minute forum at the conclusion of each session.

About 125 students attended the "Marriage" discussion last night, announced Mont Whitson, director of the Chair. "Tomorrow's attendance should exceed 170," he added.

BSO Discusses Curfew

Something should be done about the present 8:30 p.m. time limit set for social activities, agreed the Board of Student Organizations at Tuesday night's meeting.

For one thing, what is a social activity? No one was able to draw a line of demarcation on the subject. For another, what was the reason, or reasons, for establishing the present 8:30 limit?

These and other questions need to be answered before the committee charged with investigating the 8:30 time limit can make any recommendations for change, it was decided. The committee is headed by Mary Alice Braselton, president of Delta Delta Delta.

A motion passed without opposition to levy semester dues of \$1 on all members of the BSO. The dues are to be used, primarily, to cover operating expenses, such as correspondence, clerical work, and upkeep on the BSO Retreat Lodge.

FRENCH MOVIE IS BEING SHOWN TODAY

"Drole de Drame," a French movie satire on the Sherlock Holmes story, is showing today in L11 at 3:30, 6:20 and 8:10 p.m.

According to Ronald K. Wetherington, club president, admission will be 45 cents.

Town Girls Club Meets Tomorrow

The Town Girls regular meeting will be held tomorrow at noon in the Union Workshop. The group voted last week to hold meetings every week, instead of twice a month as was previously planned.

"There are approximately 1,000 girls living off the campus," reported Cynthia Lovelace, president, "and they are all eligible for membership in the Town Girls organization."

Girls who plan to attend the meetings should sign up at the Union newsstand before 10 a.m. every Wednesday, she added.

Tri Delt Pledges Hold Breakfast

The Pledge Class of Delta Delta Delta gave a kidnap breakfast for the members Sunday morning, Oct. 30, at the home of pledge Carma Jean Williamson, 3614—39th Street.

Approximately 70 pajama-clad members and sports-clad pledges attended the breakfast. Members were awakened and brought to the breakfast by the 25 pledges.

Assisting the pledges with hospitalities were Mrs. Carman Williamson, Mrs. Dale K. Pepper, and Sandra Cooper, Snyder junior, who is pledge trainer.

Kappa Sigs Honor 25 Pledge Initiates

Kappa Sigma, men's social fraternity, recently honored 25 men at pledge initiation ceremonies.

The ceremonies were held in the Aztec Room of the Caprock Hotel, preceding the weekly chapter meeting.

New Kappa Sigma pledges initiated were: Lawrence Wayne Bishop, Plainview; Richard Kenneth Bryant, Dallas; Robert Bryan Clark, Alice; Larry Wayne Cogburn, Weatherford; Charles Edwell Fleming, Abilene; Richard Lewis Garner, Lubbock; Walter Lee Gill, Fort Worth; Ernest Eddie Henson, Seagraves; Norman Emory Huggins, Plainview; Philip Wayne James, New Deal;

Ed Lee Knox, Morton; Thomas Neil Lawrence, Fort Worth; Barton Reid Long, Fritch; Robert Rowan McFarland, Dallas; Seth Thomas Moore, Jr., Hamilton; Charles Wayne Nokes, Lubbock; James Kenneth Patterson, Irving; Donald Kay Ponder, Odessa; Oscar Paul Power, Whiteface; Thomas Wayne Sorrells, Dallas.

George Sumnar Spann, Munday; Hallie Joe Stephens, Lubbock; Servando Trevino, Chihuahua, Mexico; Earl Dewayne Wallace, Hereford, and Jimmy R. White, San Angelo.

The value of the physical plant of Tech, based on construction cost, is \$18,427,000.

Frosh Lose To SAFB University of Arizona Wildcats Will Try To Duplicate 1935 7-6 Defeat of Raiders

Sheppard Air Force Base overcame a 7-0 Pleador half-time lead to defeat the Tech freshmen 20-7 at Wichita Falls Friday night.

Neal Wilcox caught two consecutive passes thrown by Quarterback Bobby Walker for a total of 48 yards and the score. There were only 47 seconds left in the first half when the fish scored. Halfback Milton Vaughn converted for the extra point.

After the half the aimmen recovered a Tech fumble on the 31-yard line and drove for their first score with Pod Price going over from the 1. All-America Jim

Sears missed the extra point and Tech lead 7-6 at the end of the third quarter.

Bruce Yancey drove over from the one in the fourth quarter to climax a 32-yard drive and put Sheppard Air Force Base ahead 12-7. Price converted to make the score 13-7.

Yancey scored the last Air Force touchdown from the four, after the Air Force team drove 62 yards. Sears converted.

Tech has 36 permanent type buildings, and 15 war surplus buildings.

CIRCLE K CLUB GETS NATIONAL CHARTER

Tech's chapter of the Circle K Club, a civic organization affiliated with the Kiwanis Club, has received recognition from the Board of Student Organizations. The Club will hold its first official meeting Friday.

The 25-member group received its charter from the national organization in April. Officers are Guy Finley, president; Royce Hogue, vice-president; Don Avery, secretary; and Dr. F. L. Mize, faculty sponsor. The group will elect a Treasurer at the luncheon to be held in Room A of the Tech Union.

Any student interested in joining the group may attend the luncheon Friday, or contact an officer. Prospective members must have a one-point grade average.

The group's only objective so far is to bring together persons interested in a civic improvement effort.

University of Arizona, winner of its only game against Texas Tech at a similar occasion 20 years ago, provides opposition for the Red Raiders' at their Homecoming game here Saturday at 2 p.m.

Arizona, with a 7-6 decision, handed the 1935 Raiders Tech's first Border Conference loss in four years. Tech led 6-0 until late in the fourth quarter when Arizona completed a touchdown pass and converted.

Four Games Will Be Played This Week

That loss and a 7-7 draw the following year are the only blemishes on Tech's 16-game record with the University of Arizona.

With last year's national scoring leader, Art Luppino, who is currently leading the nation's rushers, once more tailbacking the Wildcats, Arizona is given a good chance to repeat history. This year's edition of Wildcats, rated by Coach Warren Woodson as his best, sports a better forward wall than last year's squad which yielded a 28-14 victory to the Raiders. A pair of all-Border Conference players, guard Ed Brown and center Paul Hatcher, bolster the Arizona line.

Tech in playing Arizona will be in quest of their second straight conference victory after disposing of the West Texas State Buffaloes Saturday night.

The Red Raiders matched touchdowns with the Buffaloes and won the game on the basis of three extra points when they took a 27-24 victory.

An 89-yard touchdown scamper by Lonnie (Lone Ranger) Graham was the most spectacular score for the Techsuns. Graham's run in the second quarter of the game was a record breaker for Tech since it wiped an earlier record held by Bobby Cavazos.

Other Raider TD's were picked up by Hugh Fewin on a one yard plunge; James Sides, from two yards out; and Ronnie Herr on a 15-yard romp.

West Texas scoring plays were made by Joe Walden on an eight-yard plunge; Orville Copeland 25-yard run; Dave Corley, seven-yard run; and Mark Clark on a three yard pass.

West Texas' inability to punt and convert spelled defeat for the spirited Buffs. WT's punting average was a weak 22-yards and that kept them in a hole for most of the second half. All of the conversions they tried were either missed or blocked by Tech defenders.

The Buff's passing, however, nearly balanced the ledger. The talented WT passing attack was successful in 13 of 21 tries and gained 107 yards.

Tech now has a conference win, and a tie for the Border Conference Record. West Texas has a tie, a win and two losses.

The main Tech campus contains 2,008 acres, 1,600 of which is experimental farms.

DON WAYGOOD... a Raider youngster

Waygood In 2nd Season

By JAMES HAMM

Don Waygood, starting left end, is one of the youngest members on the Red Raider starting line-up. The 19-year-old sophomore hails from Sundown.

In 1954 Waygood was one of the two freshmen to earn a varsity letter. The 6'2", 185-lb. end caught five passes last campaign for 154 yards and two touchdowns while playing with the Border Conference Champions.

In high school, Waygood played halfback. But last year Coach DeWitt Weaver moved him to end where he played well enough to rank third among varsity ends.

After a year's experience as a reserve end, he was ready, along

with right end Pat Hartsfield, to replace 1955 seniors Claude Harland, first string All-Border Conference, and Dean White, second string All-Border Conference.

Though he is a dependable pass receiver, his defensive ability also comes in for notice. An example of it was seen by fans in the University of Houston - Tech game recently. Waygood outran Cougar quarterback Jim Dickey and met him head on at the Tech five to save a score. The clean, but savage, tackle caused Dickey to leave the game.

During the present grid war, Waygood has collected one pass for 11 yards and returned an opposing kickoff 11 yards.

CONFERENCE STANDINGS

Team	W	L	T	Pct.	Pt.	Op.
Arizona State	1	0	0	1.000	69	14
Texas Western	2	0	1	.833	97	33
Texas Tech	1	0	1	.750	54	51
Hardin-Simmons	2	1	0	.667	72	87
West Texas State	1	2	1	.375	94	72
Arizona U.	0	1	1	.250	20	49
New Mexico A&M	0	3	0	.000	12	112

H-SU, U. of A., Tech Return Top Players

Three all-conference performers returned to Border Conference basketball teams which began 1955-56 workouts today.

Teams blessed with returning all-conference men are Texas Tech with forward Jim Reed, league's leading scorer last season; Hardin-Simmons University, center Bob Tremaine, third leading scorer; and Arizona State, forward Dave Graybill, fifth scorer.

Other schools will have their stars, too. Texas Western's leading performer is probably center Ed Haller, who made the all-conference second team; Arizona's guard Ernie Oosterveen unless forward Hadie Reed, all-conference second team, becomes eligible; West Texas State's center Ray Burrus, all conference honorable mention; and New Mexico A&M's Harry Guthmuller, seeking his fourth letter.

All seven coaches return, including Gus Miller at West Texas State, Polk Robison at Texas Tech, Bill Kajikava at Arizona State, George McCarty at Texas

Western, Bill Scott at Hardin-Simmons, Fred Enke at Arizona, and Presley Askew at New Mexico A&M.

No schedules begin before Dec. 1, when Hardin-Simmons is host to Corpus Christi, Texas Western entertains New Mexico Western, and West Texas State goes to Austin to play the University of Texas. Conference play starts Jan. 4, when Texas Tech and West Texas State, last year's co-champions, collide at Canyon.

Wilson Wins Union Ping Pong Tourney

Don Wilson, freshman from Vernon, won the men's singles division of the Union Ping Pong Tourney last week. Van Hall, senior from Amarillo, was declared runner-up.

The men's doubles division was won by Alvin and Lowell Gregg from Plainview.

The Union games and tournaments committee is also sponsoring a billiards tournament at the present in the game room. A four man team will be selected from the six top winners in this contest to compete in an Inter-collegiate Billiards tournament.

Tech Has Busy Basketball Mentors

Texas Tech's basketball coaches will probably be busier than their players in practice sessions starting Tuesday.

After Polk Robison and assistant Gene Gibson conclude a varsity session that starts at 4 p.m. they'll work out a freshman group beginning at 7:30 p.m.

Fourteen varsity candidates and about 30 freshmen aspirants are expected to report Tuesday.

Why Henry Cabot Lodge, Jr., reads The Reader's Digest

"I am told that the Digest is now published in 12 languages, and bought each month by more than 18 million people. By strengthening understanding among individuals, the Digest helps people of many different nations to share their experiences and ideals. That is why I, for one, read the Digest—and why I believe it helps create the conditions of world peace which we all seek."—From a statement in November Reader's Digest by the U.S. Representative to the United Nations.

In November Reader's Digest don't miss:

- 26-PAGE CONDENSATION FROM \$3.50 BEST-SELLER: "CAPTAIN DREYFUS."** "The Dreyfus Affair," in which France branded an innocent man a traitor, is perhaps the most celebrated miscarriage of justice in modern times. Here—in all its relentless drama—is the story of the hysteria-ridden case that placed a man, a nation and the very concept of justice itself on trial.
- THE MAKING OF A WEST POINTER.** A visit to the United States Military Academy, where "they give you a million-dollar education free—and jam it down your throat nickel by nickel."
- WHY WOMEN ACT THAT WAY.** They are clumsy at pitching and running (their bones aren't built like men's). But they stand cold better than men; hear better, too—and change their minds just half as often! Scientific facts behind female behavior.
- SEVEN WONDERS OF ENGINEERING.** Dazzling look at America's seven greatest man-made triumphs.

Get November Reader's Digest at your newsstand today—only 25¢

38 articles of lasting interest, including the best from leading magazines and current books, condensed to save your time.

Humphill-Wells Co.

Queens . . .

(Continued From Page One)

Band. She was runner-up for Band Queen in 1954.

Miss Garza told the panel she wanted to be a house wife "after I have taught school for a few years."

Miss Maxwell, El Paso, is a senior Alpha Chi Omega member. She is vice president of AWS, a member of the Rodeo Association and Home Economics Club. She also serves as chairman of the Woman's point system committee. Her major is business education. She said that her main goal was to be a good wife and citizen.

Miss Shook, 3212-20th St., is a Kappa Alpha Theta senior. She is a former Gator Bowl Queen and La Ventana beauty. She also is a Student Council and AWS representative and is in the Tech Choir.

The only out-of-state candidate to be picked by the association was Doris Wampler of Clovis, N.M. A junior, she is majoring in secretarial administration. Miss Wampler also is AWS Secretary and Reporter, Junior Class Secretary, and a member of Kappa Kappa Gamma.

"In the election Thursday, all voters must present their ID cards," Huda Hassen, student body secretary warned at the Sunday meeting.

The queen contest is sponsored by Forum, senior women's honorary organization.

Homecoming . . .

(Continued From Page One)

Homecoming Queen Thursday and she will be presented at 7 p.m. Friday at coronation ceremonies scheduled in front of the Science Building.

There will be two Homecoming dances Saturday night, one for alumni in the Tech Gymnasium and another for students in the Student Union Building.

The Avalanche Journal and Radio Station KEYO will sponsor Burl Hubbard's Orchestra for the alumni dance. The Esquires will play for the student ball.

Other Friday events will include five special reunions. An "old timers" dance is scheduled at 9:30 p.m. in the Caprock Hotel. Three other gatherings begin at 8:30 in the Student Union, divided as follows, Classes '39-'45, '46-'50 and '51-'55.

The Friday pep rally and bonfire will begin outside the gymnasium immediately following the Homecoming Queen coronation.

Miss Virginia Carr of Lubbock heads the student committee in charge of special Homecoming arrangements.

Sabre Flight Sells Student Directories

Members of the Air Force ROTC Sabre Flight will distribute student directories to Lubbock businessmen this year, beginning about Nov. 1.

Over 200 directories have been accepted from the National Farm Life Insurance Co., publishers. All proceeds realized from sales will be used for a National Farm Life scholarship fund.

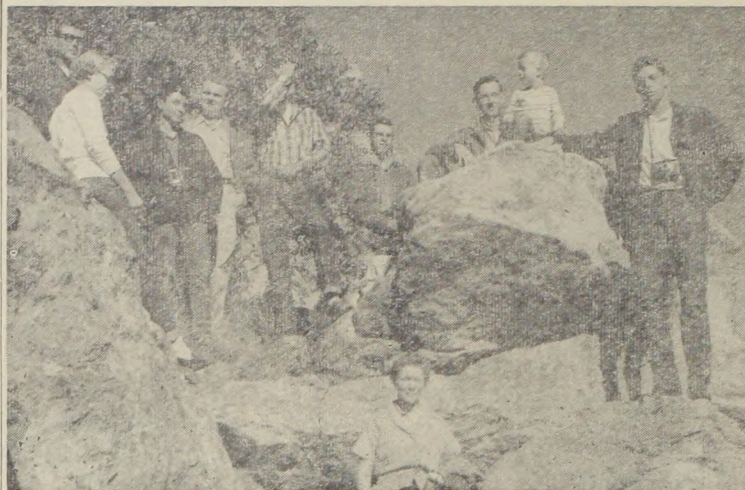

Directories are selling for 25 cents a copy at the College and Varsity Bookstores and the Book and Stationery Center.

The Aggie Club has sponsored downtown sales in the past.

Book Of Genesis Reviewed By Club

The Book of Genesis was reviewed Thursday before the Tech Book Reviewers by Mrs. Bryan Edwards.

The meeting was held at 5 p.m. in the Home Economics building. Fifteen persons applied for membership at the meeting, which was attended by 30 regular members.

TECH BIOLOGISTS . . . Evergreen Valley flora proves interesting

—Photo By Dr. Earl D. Camp

Tech Groups Make Biology Field Trips

Two groups from the Tech biology department went on field trips last weekend.

The first, sponsored by Dr. and Mrs. Earl D. Camp, went by car to Evergreen Valley, N.M. Attending were Roger Loter, Ava Willingham, Mary Ann Short, Tommy Bird, Robert Goss, Alvis Robinson, Richard Gilcrease, Richard Gesin, and R. L. Halford. Dr. Camp is an associate botany professor.

The group studied flora at various elevations, and made an ecological study of plant successions on barren rocks.

During spare time, they visited a Spanish mission and the Montezuma hot springs.

Nine other Techsams, accompanied by Dr. Richard A. Studhalter, botany professor, went to Fort Davis, in the Big Bend National Park.

Making this trip, designed for upperclassmen, were Gary Cassell, Bill Taither, Joseph Garcia, Walter Johnson, William Kelly, Kenneth Kettle, Richard Reed, Mrs. Virginia Riggs, and Sue Rucker.

The group studied plant life along the road and in the mountains, Dr. Studhalter said.

WHAT'S GOING ON AT THE UNION . . .

Committee Revamps Hole For First Dance

The first dance in "The Hole" this year is scheduled tonight from 7-9 p.m. The Record Dance committee has been cleaning and painting the Union basement for this opening dance.

Deadline for entries in the Union Photography Contest is 5 p.m. Nov. 9. The contest is open to all Tech students and an exhibit of winning photographs will be in the Union Nov. 14-20.

The Thursday Afternoon Listening Hours will feature Tchaikovsky's Nutcracker Suite, The Sleeping Beauty Ballet, The Love for Three Oranges by Prokofiev, Echoes of Spain and Music of Richard Rodgers.

"Any suggestions for the type of music you would like to hear is welcome," said Thomas Hole-

man, music committee chairman.

Dr. and Mrs. Alan B. Strout of the English department will be guest speakers on the World Traveler program next Tuesday night. They will talk on England, Scandinavia, and Italy, the countries they visited this summer on a European tour.

Also on the program next Tuesday is an Oxford-style debate, sponsored by the lectures and debates committee.

A question of more and more urgency to Tech faculty and students will be debated: "Resolved: Texas Tech should start a system of selective enrollment in 1956."

It is expected that this topic will bring to the fore a fundamental conflict between proponents of mass education and advocates of higher education for only superior students.
