

## Appeal Made For Prompt Action On Draft Measure

### Liquor Issue Looms As A Controversy

Lee Of Oklahoma To Seek Vote On Alcohol Ban

WASHINGTON, Oct. 22. (AP)—New and deeper curtailment in civilian goods production was forecast today by Chairman Donald M. Nelson of the war production board in disclosing a program scheduling essential civilian items exactly as military weapons are scheduled, sloughing off all but the truly necessary civilian commodities.

Nelson told a press conference he had asked the office of civilian supply to submit shortly a list of the civilian goods whose production is considered "necessary to keep the civilian economy sound so we can carry on a strong war program."

He acknowledged, however, that "there aren't a great many more civilian items which can be eliminated."

The WPB chairman said he believed more than one-third of the United States population could be brought into the war effort, if production of food were counted as part of that effort.

"If you do not count food, I doubt if we can go as high as England," because we are supplying so many civilian economy needs to England, Nelson said when asked whether this country could reach the 33 1-3 per cent participation in the war achieved by Great Britain.

The new approach to the problem of civilian supply Nelson said, will be on "positive basis—we will direct the manufacture of so much of each item, instead of ordering the curtailment of items as in the past."

"Thus repair parts for mines and railroads, steel and equipment for transportation and communications will be programmed just like steel for the army and navy. The things not listed as essential will be sloughed off."

New restrictions on clothing styles will be necessary, Nelson declared, in line with renewed emphasis on simplification and standardization of civilian goods and services. "Considerable" manpower can be diverted to the war effort, he declared, through the curtailment program. The new clothing standards, however, will not be rigidly severe, he added.

Gurney added that he felt that if there was complacency anywhere in the United States about the final outcome of the war, it was in Washington.

"The people are ready and willing to make all necessary sacrifices," Gurney declared. "They will send their sons to the armed forces in every-increasing numbers. They will continue to carry on at home. All that is necessary is that they know what is necessary."

He contended that if 18 and 19-year-olds were not inducted, the average age of the army soon would reach the point where it would be effective only as a defensive and not an offensive force, adding:

"I am convinced the American people do not fight wars that way."

"I'll give my answer to Mr. Stimson's letter when I present my amendment," Lee said, speaking talk that he might decide to withhold it.

"It's not my intention to undertake to present any charges as to drunkenness in camps, or in any way to indict the army or the armed forces as to the situation in the camps."

"I just want to do my best to provide a clean, wholesome place for these school-age boys to train."

The secretary of war wrote Chairman Reynolds (D-NC) of the senate military committee yesterday that he was "gravely disturbed" about the Lee amendment which would prohibit the sale of all alcoholic beverages, including beer and wine, on military and naval posts and adjacent communities.

"I do not question the motives of this legislation," Stimson wrote. "The practical results I do question and strongly deplore."

"They will tend to aggravate conditions it seeks to remove, and to confuse a logical program for the control of the liquor evil already in successful operation by the army."

Gates Opened On Colorado Dam

AUSTIN, Oct. 22. (AP)—Several of the 24 massive outflow gates at Mansfield dam on the Colorado river were opened today for the first time since construction was completed.

Release of the torrents of water was ordered by the Lower Colorado River Authority to hold Lake Travis to the maximum operating level fixed by agreement between the authority and the U. S. Bureau of Reclamation which built the dam primarily as a flood control unit.

## Further Slash In Civilian Output Is In Prospect

WASHINGTON, Oct. 22. (AP)—New and deeper curtailment in civilian goods production was forecast today by Chairman Donald M. Nelson of the war production board in disclosing a program scheduling essential civilian items exactly as military weapons are scheduled, sloughing off all but the truly necessary civilian commodities.

Nelson told a press conference he had asked the office of civilian supply to submit shortly a list of the civilian goods whose production is considered "necessary to keep the civilian economy sound so we can carry on a strong war program."

## Cold Weather Slows Russian Conflict

First Snow In Area; Reds Claim New Successes

By HENRY C. CASSIDY  
MOSCOW, Oct. 22. (AP)—Snow swirled across the steppes of the Don-Volga corridor today as the Russians announced recapture of several industrial buildings within the industrial area of northern Stalingrad and a major trench raid northwest of the city in which more than 200 Germans were slain.

Winter was starting to grip Russia's greatest battlefield of 1942. The steppes were converted into muddy bogs.

A Pravda dispatch reported an abrupt shift in the weather, with dry warmth suddenly succeeded by rain, a cold wave and the first snowfall of the season.

Whether the snow had reached Stalingrad was not apparent, but a Red Star dispatch said rains and high winds—apparently forerunners of the steppes storm—hampered enemy movements there.

Russian seizure of the initiative in the northern suburbs was reported to have come at a time when the Nazi offensive was slackening to attacks in restricted sectors. All assaults at the two principal points of combat, near a north side factory and a workers' settlement, were reported repulsed.

Investia said a Russian counter-attack outside Stalingrad had driven the Germans from an important hill overlooking the city. Another through a red army flanking maneuver which overran two Nazi defense lines.

The noon communique announced that Soviet troops had broken into German entrenchments northwest of the city and had slain more than 200 Germans in hand-to-hand fighting.

The diminished attacks upon Stalingrad were said to have been initiated from the west, against the factory yards, and from the north.

Pravda said the Germans still held numerical superiority, sometimes putting twice as many men as the Russians into action. The Russians were said to have adopted the classical round defense at individual points where the enemy hit hardest.

Deep snow fell in the mountains of the Caucasus, where the Germans have bogged down in two main sectors, the district of Mordok and southeast of Novorossiisk.

Soviet dispatches said the Germans continued to press numerous attacks in the foothills without effect.

The injured were listed by Capt. James R. Fraser, public relations officer, as Judson Rubert Shipp, 36, shift foreman and former Dallas resident, considered critically hurt; Harold Samuel May, 31, truck driver of Simms, Texas, and Winfred Ray Livingston, laboratory operator.

Cause of the blast, which occurred in a storage building, had not been determined, Capt. Fraser said.

Driver's license renewals were coming in at a rapid rate at the Highway Patrol office Thursday with an expected total of some 150 to be renewed during the day.

Yesterday the office cleared through 83 renewals as drivers noted only a week and a half remained before deadline time, November 1.

## Big Naval Battle May Be In The Making In The Solomons

PERCY GRAINGER

WASHINGTON, Oct. 22. (AP)—Allied and Japanese forces counted mounting losses in the battle of the southwestern Pacific today as planes and ships of both sides jockeyed for positions to throw decisive blows.

In the Solomon Islands where a major naval war may be touched off at any hour, the United States lost two destroyers, the O'Brien and the Meredith, American planes retaliated by damaging an enemy cruiser and a destroyer and shooting down 12 Japanese planes.

Destruction of the two U. S. destroyers was regarded as evidence of the presence of larger American warships in the Solomons.

Westward of the Solomons, allied heavy bombers blasted at enemy ships in New Britain's harbor of Rabaul causing fires and explosions. More fires were started on the Rabaul airbase by bombs dropped by fliers under Gen. Douglas MacArthur's Australian command. Another raid inflicted serious damage on Japanese-occupied Maubesse in Timor, north of Fort Darwin.

Meanwhile, the Japanese backing attempt to grab Port Moresby in New Guinea suffered another setback as Australian troops swept on the foe's flank in the Owen Stanley mountains and forced a retreat, MacArthur's headquarters reported today (Australian time).

A spokesman said greater numbers of troops are engaged on both sides and that the Japanese might be making a last stand before backing nine miles north to Kokoda, midway of Moresby and the enemy's Buna invasion base.

Announcing losses within the last few days of the 1,570-ton O'Brien and the 1,630-ton Meredith, the navy said last night all of the personnel of the former were believed saved and many from the Meredith.

The destroyer O'Brien was launched Oct. 20, 1937, at the Boston navy yard and carried a normal complement of 175 officers and men. The Meredith, with an equal personnel normally, was launched April 24, 1940, at the Boston yard.

American planes continued the aerial assault on Japanese war vessels, meanwhile, and bombed enemy positions and ammunition dumps on Guadalcanal, where the United States grip on the island airbase is the focal point of an expected Japanese invasion.

While Grainger is known better as a pianist, he is a composer of no less renown, for his "Country Gardens," written while he was a member of the U. S. Army band during World War I, continues to be a best seller and has recorded all of G. Schirmer's sales books in the United States alone for the past 75 years. Some of his other better known compositions include "Fris Tune From County Kerry," "Shepherd's Hey," "To a Nordic Princess," dedicated as a wedding gift to his bride, Ella Viola Strom, famous Swedish painter and poetess.

Since the last war he has been a naturalized citizen of the United States.

Virginia Ellis is known to millions of Americans for her flawless performances over radio, in motion pictures and on the concert stage. Blossoming into an artist after only three years study with the violin, she has been making regular appearances almost for a decade. Moviegoers will remember her most recently in

See GRAINGER, Page 9, Column 4

WASHINGTON, Oct. 22. (AP)—Senator O'Mahoney (D-Wyo.) viewing depletion of the nation's petroleum reserves as a "threat of the utmost gravity," called today for greater co-ordination of federal efforts to avert an oil crisis in the midst of war.

Chairman of a public lands committee which reported the army and navy were dependent for tremendous oil supplies upon "the uncoordinated activity" of five agencies, O'Mahoney told reporters news wells must be drilled without delay.

Despite civilian curtailment, he said, crude oil consumption is keeping up with a production of slightly more than 4,000,000 barrels a day.

Yesterday's committee report disclosed that tests showed the army needed 15,000,000 gallons of gasoline a day for a ground force of 7,500,000 contemplated by war officials.

"Add to that, fuel oil for the navy and fuel oil for the merchant marine," the report continued.

And again, gasoline for the air armadas, tons for explosives and butadiene for rubber. Then, at least a comprehension of the huge quantity of petroleum that are needed

begins to dawn upon the mind."

Commanding Harold L. Ickes for his organization of the petroleum industry as petroleum co-ordinator and secretary of interior, the report asserted however that he lacked authority over the war production board, the office of defense transportation and the price administration, all dealing with some aspects of the oil program.

It said "there should be at least an understanding" between Ickes and the war production board "whereby adequate priorities could be guaranteed for the drilling of necessary wells and the construction of necessary pipelines."

## Heavy Losses Revealed By Both Sides

WASHINGTON, Oct. 22. (AP)—Allied and Japanese forces counted mounting losses in the battle of the southwestern Pacific today as planes and ships of both sides jockeyed for positions to throw decisive blows.

In the Solomon Islands where a major naval war may be touched off at any hour, the United States lost two destroyers, the O'Brien and the Meredith, American planes retaliated by damaging an enemy cruiser and a destroyer and shooting down 12 Japanese planes.

## Some Tokyo Raiders May Be In Jap Hands

WASHINGTON, Oct. 22. (AP)—Secretary of War Stimson said today it was possible that some of the American flyers who took part in the Doolittle raid on Tokyo had been forced down after leaving Japan and had been captured by the Japanese.

"Our flyers who attacked Tokyo were instructed to attack only military objectives, and our reports are that they did so with remarkable accuracy," Stimson said.

"We abide by the Geneva convention governing the conduct of war and we expect our enemies to do the same."

"We have every faith to believe Japan is going to violate these rules."

"We have allowed the Red Cross Japanese prisoners held by us and are making every effort to see that the rules of the Geneva Convention and the rules of humanity are carried out."

Yesterday the Tokyo radio, as picked up in New York, named four airmen it said had fallen into Japanese hands after the April 18 raid on Tokyo, led by Brig. Gen. James H. Doolittle.

The names were given as Second Lieut. William J. Farrow, 28, of St. Jones Street, Darlington, S. C.; Second Lieut. Dean E. Hollmark, 27, 80 Way Avenue, Dallas, Texas; Corporal Jacob D. Deshaizer, 23, of Oregon, and Sergeant Mechanic Harold A. Spatz, 20, of Kansas.

WASHINGTON, Oct. 22. (AP)—The war department is studying plans to reassign men in the army with a view to releasing some who are physically unequal to war's demands to industry and agriculture, Secretary Stimson said today.

Some 4,000 former miners already have been furloughed to speed production of copper and other critical ores.

Stimson told his press conference the projected reassignment would consider the factors of physical condition and the technical qualifications of the men now in service.

"If it is determined that some over 40, because of these two considerations are more valuable to industry and agriculture, these men may be released, as replacements become available from younger men," he said.

Stimson told a questioner he assumed the survey would include men already overseas, although these might not be considered as soon as those stationed at home. He said it was not definite that the age 40 would be the minimum considered.

As long ago as last January, Stimson said, the army had been sifting its personnel, transferring to service units men unable to stand the pace of fighting commands. In this process he said age was a factor but not the sole consideration.

# Errol Flynn Is Named In New Charge

LOS ANGELES, Oct. 22 (AP)—Less than a week after his arrest on a charge of raping a 17-year-old girl on a yacht at a party, Actor Errol Flynn, recently divorced, was summoned into court today to answer another complaint that he allegedly raped the daughter of a hotel chef aboard his palatial yacht when she was 15.

Accompanied by Juvenile Officer R. W. Bowling, Peggy La Rue Battersie appeared at the district attorney's office yesterday and swore to a complaint charging that the British-born actor raped her twice aboard his yacht Sirocco while on a moonlight cruise to nearby Catalina Island Aug. 3, 1941.

Flynn, who recently was divorced by Actress Lili Damita, was arrested Friday on a charge he raped Betty Hansen, 17, of Lincoln, Neb., last Sept. 27, at a swimming and drinking party at the fashionable Bel Air home of Fred McEvey, wealthy British sportsman and former Olympic bobbed champion. He was released in \$1,000 bail on that case pending preliminary hearing Oct. 23.

Both charges were denied by Flynn.

**THREE MEN IN A JUNGLE** — Bearded following hard days and nights of fighting the Japs in New Guinea, these Australians appear a solemn trio.

# Scrap Held Up By Shipping

ping facilities has completely blocked bids on the heaps of scrap here, B. J. McDaniel, chairman of the defense council salvage committee, said Thursday.

Now that stacks of the material have been collected and efforts are being redoubled to get in scrap from rural sections—the problem is shipping it, declared the chairman.

Dealers are unwilling to invest large sums of money in the scrap if they are uncertain over how long they will have to hold it before being able to ship the salvage to mill. And, added McDaniel, if bids were received with the view of holding the material, they probably would be much lower than the price has been.

Aside from the point of having money tied up for a long period of time, dealers cannot make the price on the scrap that they would want to gather it now and make one handling do for loading it on the cars.

The simultaneous scrap drive over the nation has had the effect of glutting the market, and prices on some items has sagged—as much as 50 per cent in the case of salvage rubber.

McDaniel said the War Production Board had been written regarding the need of cars to transport the Big Spring and Howard county scrap to mill.

**NEWPORT NEWS, VA.**—A shipyard bond champion is Hugh Butler, 60-year-old Scot born in Glasgow, who has allotted 100% of 'is pay to War Savings Bonds. Butler is shown at work in the joiner shop of the Newport News Shipbuilding and Drydock Company where he helps daily to turn out ships paid for by millions of other Americans who invest in War Bonds.

**Autumnal Terracing Program Is Shaping Up For First Time Here**

This is one year when farmers are not waiting for crops to be all gathered before starting to build terraces.

John Davis has machines busy creating terraces over 300 acres on his farm three miles east of Center Point. Some 250 acres have been protected by terraces on the D. W. Christian, Jr., farm and more will be added as soon as the cotton is gathered. R. D. Parker, using two "whirlwind" type machines, has been doing the work.

Grady Cross, who lives in the old Sand Wells area of Glasscock county, and Arthur Stallings, in nearby Lomax community, have purchased a whirlwind terrace builder jointly and Cross has started using it on an 800-acre project.

J. M. Kindrick has made a deal to lease W. R. Puckett's terracing machine in order to bring his line to grade on the Dr. O. E. Wolfe place south of Ackerly.

**Achievement Day Program Mapped By Knott HD**

**KNOTT, Oct. 22** — The Knott home demonstration club met Tuesday afternoon in a called meeting in the home of Mrs. J. B. Sample, with the president, Mrs. S. T. Johnson in charge. Plans for the club's achievement day program were made since the county-wide achievement day tours to all county clubs are not going to be made this year. Mrs. S. T. Johnson is home foods supply and outdoor living room demonstrator and Mrs. Fred Roman is living room demonstrator. A council report was made by Mrs. W. A. Burchell. A committee was appointed to see the proper authorities and offer the assistance of the club in being hostesses at the USO center in Big Spring soon.

**Personal note** — Mrs. Oscar Smith, Mrs. Bob Anderson, Mrs. Herschell Smith, Mrs. O. E. Gaskins, Mrs. Paul Adams, Mrs. W. A. Burchell, Mrs. J. W. Phillips, Jr., and the hostess, Mrs. J. B. Sample.

Mr. and Mrs. Oscar Smith have received word from their son, Sgt. Norris Smith, who has been stationed at Topeka, Kas., that he is now in Long Beach, Calif.

Elp Awalt, Jack Thomas and Doyle Denny left Tuesday morning for induction centers where they will go into the army.

Mr. and Mrs. Paul Adams spent the weekend visiting friends in Abilene.

Mr. and Mrs. S. T. Johnson and Bill Johnson visited relatives at Merkel over the weekend.

Shorty Terry, who has been employed at the R. N. Adams farm, left Monday for El Paso where he will enter the army.

Mrs. R. H. Unger left Monday evening for Long Beach, Calif., where she will visit with her son, Walter, who has recently arrived there from San Antonio where he was stationed for training as a meteorologist.

Mrs. Lela Goin, teacher in Garner and Iris Dunlop, senior sponsor and these members of the senior class made a trip to Carlsbad Caverns over the weekend: E. L. Roman, Jr., Earl Bryant, Jr., Edward Burchell and Florence Wood.

Miss Anne Martin and State Deputy Superintendent E. H. Boulter were recent supper guests of Mr. and Mrs. Noel Burnett.

Marlin Brown, son of Mr. and Mrs. J. E. Brown, spent a ten day furlough with his parents, returning to his station in California Sunday.

Mrs. Robert Riddle and sons arrived here Wednesday from Midland to visit her parents, Mr. and Mrs. J. B. Sample.

# Negro Tows Raft Of Men To Safety

**HOLLYWOOD, Oct. 22 (AP)**—A young naval ensign related last night how a powerful negro mess attendant swam six hours through shark-infested waters, towing to safety a raft load of wounded seamen from a U. S. destroyer, sunk by the Japanese off the Solomon.

The ensign was Robert N. Adrian, Ontario, Ore. He was wounded in the engagement, he said in an NBC radio broadcast, but despite his injuries he was able to cling to the side of the overloaded raft while the strong-stroking negro seaman inched his way shoreward.

Ensign Adrian said the mess attendant was known to him only as "French."

# Applications of Merit System Due In By November 4

Deadline for filing applications for examinations for places with the Texas Merit System is Nov. 4. It has been announced here.

Forms for making application are available at the United States Employment Service office here. Examinations are set for Nov. 21. Positions open are for junior stenographer, junior key punch operator, junior tabulating equipment operator, interviewer and interviewer clerk.

All employees for the Texas Unemployment Compensation Commission, the USES and the Texas department of public welfare come from the Texas Merit System.

# \$34,000 Volume At Livestock Sale

A heavy sales volume, running to about \$34,000, was reported from Wednesday sale at the Big Spring Livestock Commission company, with the market holding steady.

Prices: fat cows \$2.25; bulls \$4.50-5.00; cullers and canners, \$6-8; butcher yearlings, \$9-12; stocker steer calves, \$11.50-12; stocker heifers \$11-12; feeder cows, \$6.50-8.

# Lieut. Fahnestock Killed In Mishap

**SOMEWHERE IN NEW GUINEA, Oct. 21 (Delayed AP)**—Lieut. Bruce Fahnestock, one of two American brothers widely known for their travels in South Pacific waters before the war, was killed accidentally several days ago in New Guinea, it was disclosed today.

Fahnestock, who had made many exploration trips with his brother, Sheridan, died as a result of the same accident which took the life of Byron Darnott. New York Times war correspondent. Details of the mishap have not yet been revealed.

# Gasoline Stocks Still Declining

**NEW YORK, Oct. 22 (AP)**—Total gasoline stocks and residual, or industrial, fuel oil supplies continued to decline in the week ended Oct. 17, but gas oil and distillates used in home consumption increased, the American Petroleum Institute reported today.

Total finished and unfinished stores of gasoline declined 775,000 barrels during the week to a total of 78,946,000, compared with 79,721,000 last week and \$1,623,000 a year ago.

# Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 million of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right by day, many people have to get up at night. Frequent urination, backache, and burning sometimes show there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, needed sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause burning, backache, rheumatic pain, leg pain, loss of pep and energy, swelling, puffiness under the eye, headache, and dizziness.

Don't wait! Ask your druggist for Deane's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Deane's Pills.

# PENNEY'S WARM WINTER WEAR

LET JACK FROST DO HIS WORST!  
FOR DAY AND NIGHT

**Let Penney's Help With Your Wartime Problems**

To average American families, living by daily earnings, the Penney Company is a standby; it has always saved them money on the things that make up the American way of life.

And now that we must win a war to preserve that way of life, we must all help.

Investing 10% of our earnings in War Bonds and Stamps is the least we can do—and to do that, we must plan well and buy well—good, durable merchandise, the kind you know you always get at Penney's!

ONE OF UNCLE SAM'S DESTROYERS — The U.S.S. Tucker (above), a 1,500-ton destroyer completed March 30, 1937, has a speed of about 35 knots.

### Trainees Lacking, Class In War Industries May Close

Steadily dwindling numbers of trainees and material shortages have combined to threaten the continued existence of the war industries classes in Big Spring.

#### GIVE YOUR CHILD this cold-relief used when QUINTUPLETS CATCH COLD

Whenever the Quintuplets catch cold—their chests, throats and backs are immediately rubbed with Musteroil. So Musteroil must be just about the BEST cold relief you can buy!

It is quite possible that the aircraft sheet metal and the welding classes, operated here for the past two years, will fold up after this month.

This, said William H. Dawes, director of war industries training, was more realistic than a pessimistic view of the situation.

Currently there are 20 students in the sheet metal class and only 12 in the welding division.

Instead of operating on a round the clock schedule as has been the need almost since inception here, the welding classes are down to two shifts of six each—from 12 noon to 12 midnight.

While lack of trainees constitutes the biggest threat to existence of the classes, material shortages also are making operations more difficult, said Dawes.

With a rating higher than best priorities, the school is unable to get deliveries on 2,100 pounds of welding rods weeks past due.

Similarly, deliveries on sheet aluminum, which is the basic material for the aircraft class, are becoming more and more difficult.

Failure to secure more trainees is less of an indication of an unwillingness of the people to respond as it is that the fielders has been just "plain milked dry," said the supervisor.

If it becomes necessary to close the classes, equipment possibly will be transferred to some other point within the district until that field, too, is exhausted.

During their period of operation here, the war industries classes have trained something like 700 individuals, Dawes declared.

Of this number, between 450 and 500 are now actually in war industry production, while another large number are making use of their training as specialists with the armed forces.

Still others are using the class acquired skills in other occupations and some few are still at their same places despite the training.

Largest number of the trainees from the Big Spring classes has gone to the West Coast for employment in the aircraft factories and shipyards.

Many have entered the Dallas and Fort Worth aircraft factories and still many more have settled with shipyards on the Texas Gulf coast.

Placement records show Big Spring trainees all over the nation, some being at Bay City, Mich., and others with the Pennsylvania shipyards.

Jack Roden, Jr., who has been stationed at Sheppard Field, Wichita Falls, has received a medical discharge from the army following a three and a half month stay in the army hospital in Wichita Falls.

He is the son of Mr. and Mrs. C. L. Roden. Jack will accompany his parents to Midland Friday to visit with Sgt. and Mrs. Claude Ferguson.

Mrs. Jay Johnson has returned from Centralia, Ill., where she has been visiting with Jay Johnson for two weeks.

Cpl. Maxie D. Carroll, formerly of Big Spring and now stationed at Fort Sill, Okla., writes that he has met up with a number of other Big Springers stationed or passing through his post, which is the reception center for the Big Spring district.

Among them were Hugh Dunagan, now in California, and Bob Ward, formerly with Couden and ex-member of the Lions club.

Buck Tyre, once with the Herald, was returning to Big Spring when last seen by Carroll, but Sam Peaty of the T. & P. railroad shop and Sidney Mellinger were still there.

Others mentioned were Jake Douglas and Schley Riley.

New names on the membership roster of the Big Spring Safety Council, as a result of the current expansion campaign, include Safety Stores, Linck's Food Stores, Burr store, Club cafe, Big Spring Cotton Oil Co., Gulf Refining com-

pany, B. O. Jones grocery, Texas Club, J. B. Sloan Transfer, H. D. Mansur, Settles Drug store, R. V. Foresyth, Big Spring Laundry, Hack Wright, R. B. G. Cowpar, Taylor Electric, McCrary's garage, K. H. McGibbon, C. A. Amos.

Lieut. (jg) Carroll Jones has been moved from the Newport News, R. I. naval base to Fall River, Mass. his parents, Mr. and Mrs. R. V. Jones, have been advised. He is now in charge of a naval supply house at his new station.

Members from the Knott lodge participated in the regular weekly meeting of the Mullen lodge (I. O. O. F.) here Monday evening and had one candidate for the third degree.

Following ceremonies, refreshments were served.

Ur D. Kindrick, Farm Security Administration supervisor, is off a few days, taking advantage of some of his annual leave.

Wael McNair, formerly sports writer for The Herald, writes in from his coast guard training station at Jefferson Parish, La., that he has been punched with so many hypodermic needles of late that he could easily be used as a lawn sprinkler.

The distinction of having received mention in the "Fighting Men" section of the Dallas Morning News belongs to Miss Evelyn Tolleto, nurse at the Big Spring Bombardier School, recently transferred from Fort Huachuca, Ariz.

Born in San Antonio, Miss Tolleto has ten sisters and the army of the United States claims the services of eight of them.

There is a strong possibility that her two "non-nurse" sisters will eventually take up nursing as a profession.

Private George T. Hardin, formerly of Star route, Stanton, is one of the soldiers stationed at the army air force bombardment base, Will Rogers Field, Okla. Private Hardin is assigned to a signal platoon undergoing basic training.

He is the son of John Odas Hardin, Star route, Stanton.

## Here and There

Fellowship in the American College of Surgeons has been conferred upon Dr. P. W. Malons, Big Spring, in the field of ophthalmology and otolaryngology. The fellowship has been conferred in absentia this year since the convocation of the college has been cancelled due to the war. This is the first year the college has made all of its fellowship presentations in absentia.

An epidemic of car stealing spread over this area Wednesday evening. Two cars were reported stolen at San Angelo, one at Sterling City and one here. One of the cars missed from San Angelo was found by police abandoned at 300 W. 2nd street. However, no trace had been found of a car stolen from G. W. Finer.

Jack Roden, Jr., who has been stationed at Sheppard Field, Wichita Falls, has received a medical discharge from the army following a three and a half month stay in the army hospital in Wichita Falls. He is the son of Mr. and Mrs. C. L. Roden. Jack will accompany his parents to Midland Friday to visit with Sgt. and Mrs. Claude Ferguson. Mrs. Ferguson is the former Deortha Roden.

Mrs. Jay Johnson has returned from Centralia, Ill., where she has been visiting with Jay Johnson for two weeks.

Cpl. Maxie D. Carroll, formerly of Big Spring and now stationed at Fort Sill, Okla., writes that he has met up with a number of other Big Springers stationed or passing through his post, which is the reception center for the Big Spring district. ### Farmer Trucks Being Registered

Farmers were arriving in town Thursday to begin registration for certificates of necessity on their farm trucks and pickups.

The AAA office reported early Thursday morning that four had completed their applications and the county agent's office had already serviced some ten applications.

Detachable trailers will not have to be registered, farmers were reminded. Other offices assisting with the registration are the Farm Security and Soil Conservation office in the basement of the post-office.

The registration is necessary in order that farmers may be eligible for gas rationing cards. Registration will continue through Saturday here and in Coahoma the American Legion hall has been made into an application office for Friday and Saturday.

### Sophomore Class Elects Officers

In one of the most spirited sessions in years, the sophomore class of Big Spring high school got off to a good start Wednesday with election of officers.

Hardie Matthews was elected president, nosing out Richard O'Brien in the run-off. In turn, Richard eased by Robert Swan Lee in the run-off race for secretary-treasurer.

James Hostick won the run-off with Robert O'Brien for class vice president, and Tipton Anderson nosed out Bobbie Green for the office of reporter.

Faculty members attending the meeting, held in the school gymnasium, were Clara Pool, Lynette McElhannon, Ione McAllister, Juanita McCarty and Eloise Halsey.

### PERMIT ISSUED

Wine and beer retailers permit was granted by Judge Walton Morrison to Mary Hill yesterday to sell wine and beer at the Highway cafe, Lamesa Highway.

RETURNED HERE  
Raul Swares, Mexican, wanted for the knife cutting of Jose Munoz here some three weeks ago, was apprehended by the sheriff's department in Lamesa and returned here Wednesday night.

Continued From Page 1

"They Shall Have Music." Despite her talent, Virginia does not class as a prodigy in the general accepted sense of the word. She is an average American girl, pretty, full of enthusiasm and charm. Single admissions to the performance may be secured (soldiers for 50 cents—a third of the price) although Lawrence Robinson, Lions club president, advised it would still be more economical to secure season tickets in the lobby. These are available to soldiers and students for half price.

### Livestock

FORT WORTH, Oct. 23 (AP) — Market generally steady; slaughter cattle and stocker supplies showed no change. Good fat calves fully steady; medium and low grade slaughter calves were steady to weak.

Butcher hogs sold 25c or more below Wednesday's average; packing hogs and stocker pigs steady; top hogs 14.60, packers paying up to 14.50.

All classes sheep and lambs steady; some solid mouth ewes sold to packers at 5.75. Good to choice fed steers and yearlings 12.25-14.00; included three loads steers 12.25; one load steers 12.75; one load steers 12.75; one load fed heifers 13.75. Common to medium steers and yearlings 9.50-12.00, including two loads steers at 11.50; cutter yearlings and heifers 8.00-9.00.

Good beef cows 9.50-10.25; some held higher; common to medium butcher cows from 8.00-9.25; canners and cutters cleared at 4.50-8.00; good heavy bulls turned at 9.50-10.00; common to medium bulls 7.50-9.25. Good to choice fat calves from 11.25-12.50; common to medium butcher calves from 8.50-11.00; culls from 7.50-8.00; good to choice stocker calves up to 12.50; good stocker heifer calves up to 11.50; common to medium stocker calves 8.00-11.00; good and choice stocker steer yearlings 11.00-25; common to medium stocker steers and yearlings from 8.00-10.75; stocker cows went back to grass at 9.25 down.

Most of the good and choice 180-200 lb. butcher hogs 14.50-50; good 150-175 lb. averages from 12.90-14.40. Packing sows 14.00-25; stocker pigs 13.00-75.

Sheep, included fat lambs 12.00 down; medium grade yearlings 10.00; aged wethers at 6.25; cull to good slaughter ewes 6.00-75; feeder lambs at 9.50 down.

Grotheers Here To Assist Delafield In Revival

"When Angels Preach From Mid-Air Over Big Spring" will be the subject of a prophetic lecture to be given by Evangelist R. E. Delafield tonight at 7:45 at the Voice of Prophecy auditorium, 406 E. 3rd street, one-half block east of the municipal auditorium. Delafield will also speak over KRBT at 5:45 this evening on the topic "It Is Later Than You Think." Assisting Delafield in his radio work and nightly evangelistic meetings will be Evangelist and Mrs. Wm. H. Grotheer, who arrived early Thursday from Murray, Ky.

**Jolly Time Popcorn Sales Due To Soar For Halloween**

Halloween, the biggest day in the year for pop corn, will see Jolly Time pop corn sales double or more over a year ago, according to current sales figures of the American Pop Corn Co., Sioux City, Iowa.

Jolly Time's fall newspaper campaign is in full swing with insertions scheduled in the Herald to continue for a 10-week period.

National magazine advertising started in October with Good Housekeeping, Ladies Home Journal, Family Circle and Western Family, and radio is also being used ahead of Halloween.

With more and more items being restricted, gasoline and mileage rationing in effect, fuel oils rationed, and other factors keeping folks at home, Jolly Time fills a definite need. It is inexpensive entertainment, and a concentrated, healthful food.

Grocers who recognize this and display Jolly Time find normal sales increased as much as 300%.

**KATE SMITH says:**

*"Here's my favorite recipe for cool fall mornings."*

"Of course, any time is the right time for homemade hot bread! But mornings like these make hot biscuits seem twice as grand! And...

"I bet you'll love the biscuits you get with this recipe and dependable, double-acting Calumet. They'll come out of the oven flaky, tender, and light—the proudest biscuits you ever saw!"

**Calumet Baking Powder Biscuits**

- 2 cups sifted flour
- 2 teaspoons Calumet Baking Powder
- 1/2 teaspoon salt
- 4 tablespoons shortening
- 1/4 cup milk (about)

board and knead 30 seconds, or enough to shape. Roll 1/4 inch thick and cut with floured 2-inch biscuit cutter. Bake on ungreased baking sheet in hot oven (450° F.) 12 to 15 minutes. Makes 12 biscuits.

\* Listen to "Kate Smith Speaks," CBS Network

**War Board News**

A weekly column contributed by members of the Howard County USDA War Board.

**Trucks, Pickups Must Have War Certificate**

It will be a violation to operate any truck or pickup after Nov. 15th without a certificate of War Necessity. The certificate is issued by the Office of Defense Transportation, Detroit, Mich., upon application of the owner. Forms for making application for a certificate of War Necessity have been mailed from Detroit to persons who registered trucks and pickups. A late ruling is that the certificate is not required on detachable trailers.

Howard County USDA War Board has set up a Transportation committee to cooperate with the County Gas Rationing Board, and to provide assistance to farmers in securing a certificate of war necessity. The work of assisting farmers in making their applications for certificates of war necessity cannot be paid for as such and voluntary helpers will have to be secured. Each of the agencies making up the County War Board has agreed to use their offices for this purpose during the 22, 23 and 24th of October. The offices at which this assistance can be had are located as follows:

- County Agricultural Agents Office at 311 South Scurry.
- A. C. A. Office at 301 South Scurry.
- The S. C. S. and F. S. A. in the basement of postoffice, and
- The Production Credit Association in the Ellis building, 107 E. Second street.

Farmers who have received in their mail the necessary forms, can take them to one of the above named places on one of the days, October 22, 23 and 24, for assistance. But there may not be forms available for the owners of farm trailers. A supply of these forms have been ordered. As soon as they are received farmers will be notified.

It is very important that farmers who desire help in making application on the forms they have received take their forms to one

of the above named offices on the dates set aside for this work. Voluntary workers cannot be kept on this job for a long time. Besides if the forms for unregistered trailers should not show up, other dates would have to be set for them, and a carryover of truck applications would complicate the work of rendering this assistance, unless we can get the truck and pickup applications completed on time.

Beside these places in Big Spring the War Board is considering opening an office in Coahoma. Earl Hull is in charge of arrangements in Coahoma.

Now if you think these things are called on to do is a headache, try to imagine yourself with our boys in the Solomon Islands, or in Egypt, or our allies at Stalingrad. Just a little experience with what they are going through would make our tasks seem trivial. President Roosevelt appointed a committee to study the rubber situation, and its implications on our effort to win this all out war. That committee, after making a complete investigation, reported, that unless we can conserve the supply of rubber that we have, we would lose the war. At the present rate of using it up, most of our cars and trucks would not be able to run until a supply of synthetic rubber could be assured.

On the other hand if our cars and trucks were slowed down to 35 miles per hour or less, and if they are used only for necessary driving we could keep most of them going until the synthetic rubber tires are available.

But neighbors will have to pool their cars and trucks. That is, not only trying to save your own tires, but those of your neighbor as well. The president's rubber committee says we have either to do this thing, or lose the war and become slaves to the axis masters.

Your application for a certificate of war necessity will compel you to look back over your use of your car or truck during last year, and plan to get along with less travel during the coming year. Unless you do this you may not get gasoline to run it with. It may be in-

convenient to share your car or your truck with your neighbors; but let us hope that there will be few who refuse to do it. How about the inconvenience caused these 18 and 19 year old boys who must give up their careers, leave school at the end of this term, and offer their lives in order that America may still be the land of the free and home of the brave?

It is true that they will fight for a free world for they themselves to live in. But can we, who stay at home, do less than our best, no matter what inconvenience or sacrifice it may call for, to help them to succeed? And the rubber committee tells us flatly that they are doomed to failure unless we conserve the tires, and keep the necessary trucks and cars going.

**Cotton Pickers May Get Gas, And Should Be Told**

In connection with the rationing of gasoline a first rate calamity is taking place. Mexican cotton pickers are afraid they will be caught here, hundreds of miles from home, and no gasoline to get home. These people must be assured that they can get gasoline at any time to return home, that provision is made in the rationing rules to take care of their needs. Every farmer who has cotton pickers should assure them at once, that they can secure gas for their needs. Furthermore, they should be given assistance in whatever is expected of them in connection with rationing.

This may cause the farmer a little inconvenience. He may have to

**Planning Nutritious Lunches For Working Men Part Of War Work**

"Keep 'em working" is as important a slogan as "Keep 'em fighting" in this year of total war. Millions of men hours lost through accidents, colds, and just plain fatigue rob our fighting forces of vitally needed supplies.

In the armed forces an important part of the job of keeping the men in fighting fettle is to see that they are well fed. On the home front, seeing that the production

go with the Mexicans and help them to make their application for certificate of necessity for their trucks, and assured of this assistance, fewer of them will be in a hurry to get home before rationing starts. I think we owe these people our friendship in this matter, because they are strangers in our midst. But there is a business reason even more important. If we do not assure them, they will soon be on their way; and then, how are we going to get the cotton picked?

Let's everybody go out of the way to explain to these people that they will not get in a tight about gasoline, if they stay longer to pick cotton, and then make good by helping them get their gas ration cards. If there are Mexicans on your farm go to them today and make them feel easy about this matter by assuring them that they can get gas to go home when they get ready.

army is well fed so it, too, is kept in the best physical condition is the job of every homemaker. A physically-fit working army means more planes, more tanks, more ammunition for our boys.

One very important way in which every homemaker can do her part in the all-out drive for victory is to make sure that every lunch box she packs is a real contribution to the day's food requirements.

The mainstay of every carry menu is a big sandwich of enriched bread spread with butter or fortified margarine and a nutritious filling. Enriched bread is the ideal sandwich bread. Its flavor and texture have what nutritionists call "wide acceptability"—that is enriched bread is one of America's favorite foods.

Beyond its appetite appeal enriched bread made from enriched flour with its added B-vitamins and iron is high in food value. It is an important source of proteins, calcium, iron and the vitamins—niacin, thiamin and riboflavin. As an economical energy-yielding food it has no equal.

For hard-working people, two or three sandwiches are required as a basis for an adequate lunch. And just as sandwich fillings should be varied so should the bread. Here quick breads step up to front line position to do their utmost by good menu planning.

Date bread or nut bread sandwiches spread with satiny-smooth cream cheese makes welcome lunch box additions. Applesauce bread with a thick slice of yellow American cheese is as pleasing as it is nutritious. Quick breads of this type make delectable sandwiches. They need no fancy dress to make them inviting.

A pint of milk, a hard-cooked or devilled egg, a crisp salad in a paper container, raw vegetables such as carrot sticks or flowers of cauliflower, and a simple dessert of fruit and cookies supplement sandwich meals in a most satisfactory manner.

Those who eat lunches from mobile canteens or select their foods at plant cafeterias should ask for enriched bread sandwiches or enriched biscuits. In this way, workers can be sure that their lunch is contributing its part to the day's supply of B-vitamins, valuable minerals, proteins and carbohydrates.

# BIG SPRING BUSINESS and PROFESSIONAL ACTIVITIES

THESE FIRMS AND INDIVIDUALS OFFER HIGHEST TYPE SERVICE AND VALUES

## Iron-Metal Company Has Big Job In Sorting And Shipping Scrap

Central agency in the all-important movement of scrap to the mills for munitions purposes is the junk dealer, and one of the largest such firms in this section is the Big Spring Iron and Metal company, operated by I. Weiner.

The Big Spring Iron and Metal company has received about 214 tons of scrap metal so far this month and most of this has come from the various oil companies located near Big Spring.

Shortage of railway cars and labor is causing a delay in movement of the scrap, Weiner said.

The lot of the so-called junkman is not a "bed of roses," according to Weiner. Junk consists of everything from tin to iron and it must be sorted, cut down to a size suitable for shipping, and then sold through commission agents.

"There are numerous times," Weiner said, "when we are obliged to buy scrap and pay as high as \$5,000 for the lot and after effecting the sale find that we have lost around \$2,000. To offset this loss, we are necessitated to salvage from other junk we buy items of particular value on which we reap a high percentage of profit."

Referring to car bodies piled in the scrap heap on Main street, Weiner pointed out that such types of scrap, like many others, were almost worthless after the cost of preparing them for shipment. Such scrap contains too much tin, he said, and went on to add that people in their desire to help the scrap movement donate such articles as galvanized products, which are useless, tin cans, and what not. He also continued against the scrapping of materials for which cannot be replaced during the course of the war.

The U. S. government has equalized freight rates on scrap metal, Weiner explained, and has allocated all scrap to various smelters throughout the country so that the effort of turning it into munitions is more or less evenly divided. Weiner said that each shipment he makes is designated by his brokers who, in turn, are directed by governmental officials.

That there is still a lot of scrap that hasn't been collected in and

around Big Spring was voiced by Weiner. He said he was of the opinion that most of the large companies had done a good job of gathering the metal, but that he thought there was a lot of it still uncollected from farms and households.

The Big Spring Iron and Metal company does not confine itself to gathering and selling junk. It maintains elaborate machine shops where, for example, pipes used in oil fields are straightened, threaded and made usable for further service.

The Big Spring Iron and Metal company does not confine itself to gathering and selling junk. It maintains elaborate machine shops where, for example, pipes used in oil fields are straightened, threaded and made usable for further service.

## Rix Pays Cash For All Types Of Used Furniture

Cash will be paid for used springs, oil stoves, heaters, furniture, and other household equipment by the Rix Furniture stores in Big Spring, Lewis Rix announces.

"The scarcity of household furnishings is so serious that we are encouraging all of our patrons who come in to buy new furniture to bring some piece of second-hand furniture to apply against the purchase price," Rix continued.

"There are so many items that we are unable to obtain since the war started that we are very desirous of having people bring us the home fixtures which they have discarded," he said. "We are prepared to pay handsome prices for such articles as user bed springs, oil stoves (and heaters, and stand willing at all times to make a special call to give an estimate on what anyone has to sell."

Rix operates two stores in Big Spring; one at 222 West 3rd street, which is devoted entirely to new furniture and another at 401 East 2nd street which confines itself largely to used furniture.

Meeting Place — As popular with Big Spring's many newcomers as it long has been with longer residents of the city is the Club Cafe, one of the most popular meeting and eating places in the city. Owned and operated by Grover C. Dunham, the Club never closes, and it is a fact that Dunham has no keys to the front door. The quality of the food plus the friendly atmosphere of the place combine to make it a cafe of outstanding public appeal. (Kelsey Photo).

## Don't Wait Until Spring Prepare Now To Beautify Lawn

This is the time people should make preparations to beautify their lawns and gardens for the coming year, advises J. O. Vineyard, Sr., owner of Vineyard Nurseries, 1705 South Scurry street.

Too many people delay planting shrubs and plants until spring, he said, and thus do not afford the roots an opportunity to gain growth and furnish the needed nourishment.

The nursery is a veritable flower garden even at this late time of year. Blooms are everywhere in abundance, bushes and hedges vary in degrees of color from the pale green of the sea to the deep hue of a pine forest.

Vineyard, who started this project only about a year ago, said that when he took over the land it was bare and devoid of vegetation. Now it gives evidence of expert gardening and the knowledge of horticulture that has made him a much sought person when advice on these subjects are wanted by people in the community.

Vineyard has had many years of experience in growing shrubs of various kinds as well as many kinds of trees. He has in stock a lot of beautiful shrubs at this time and more will be coming in until about the first of April.

The nursery will give expert advice on protection from insects, fertilizing soil, planning rose gardens, and all other matters pertaining to beautifying home landscapes to anyone who will just go to the phone and give them a ring.

## Business College Has Placed Many Students In 2-Year Operations

The aptitude of the student plus individual instruction determines the length of time necessary to complete a business course, R. M. Beacham, manager of the Big Spring business college, says.

The college, which is about to celebrate its second anniversary as a Big Spring institution, has about 50 enrolled at the present time and has graduates employed in such far places as Washington, D. C., Corpus Christi, and Los Angeles.

Beacham was engaged in teaching commercial work in Dallas before coming to Big Spring a couple of years ago.

"We are just completing our second year in Big Spring," he said, "and have enjoyed it to the fullest. Words can't express our appreciation for the fine cooperation given us by business houses and citizens of Big Spring and surrounding communities."

Beacham said that during the short two years the school has been in operation they have placed nearly 100 students in various parts of the country with individual salaries averaging about \$150 a month.

"The reason for the rapid advancement of our students is the deep personal interest we have in each individual," Beacham explained.

# Editorial - A Plan For Helping Small Businesses

Donald Nelson has proposed that a War Liabilities Adjustment Bureau be set up to help small businessmen caught in the dislocations of war. Apparently this is intended as something more than another addition to the agencies which have been trying, with meager results, to ease this trouble. Mr. Nelson is aiming particularly at forestalling postwar hardships.

# Hollywood Sights and Sounds - A Man From The Films Has Look At Broadway

(One of a series by Robbin Coons on his cross-country tour.) By ROBBIN COONS NEW YORK—Montage sequence Manhattan: Close-up shot of hurrying feet, millions of 'em. Big feet, little feet, dainty feet, grotesque feet. New shoes, old shoes, scuffed shoes, shoes down at the heel and worn at the toes. Pavement-pounding. What a beating those sidewalks of New York do take, and how they hand it back! What a market for foot-powders, corn cures, shoe shines! What a colossal, mass dog-schell!

# Man About Manhattan - Proof That Critics Don't See Alike

By GEORGE TUCKER NEW YORK—The other night I sat in the Longacre theatre and saw the opening performance of "Let Freedom Sing," a tropical revue staged by the Youth Theatre. I laughed until the tears leaked. Several women around me were close to hysteria at times.

# Paris-Denison Tilt Features Schoolboy Chase This Week

By HAROLD V. RATLIFF  
Associated Press Sports Editor

One of the top contenders for the state schoolboy football championship will emerge this week from a game that has North Texas' edge.

It's the annual Paris-Denison battle and this time it means much more than just a date on the Wildcat's schedule.

Paris has ruled the roost for two seasons in the Red River area but Denison never was a team to promote the Cats a good workout until this year.

Now it appears this game is considered a tossup and if anything Denison may carry a paper edge.

Anyway, it will bring two of the state's twelve undefeated, untied teams together for the dual purpose of determining the possible district 5 champion and of furnishing a worthy eleven in the title race to come.

It's a big week all the way around with 40 conference games bringing every district into action.

Ying with the Denison-Paris game for interest is the meeting of Lufkin's mighty Panthers, the piny woods powerhouse, and unbeaten Livingston. This game will just about decide the title of district 12 and also will remove a team from the state's unbeaten list.

Lufkin boasts a perfect record while Livingston has been undefeated but tied.

Besides Denison, Paris and Lufkin, the teams with unblemished records are Amarillo, Vernon, Wichita Falls, Highland Park (Dallas), Amon Carter Riverside (Fort Worth), Sunset (Dallas), San Benito and Sweetwater.

Six teams are undefeated but have ties on their records. They are Livingston, San Angelo, Brackenridge (San Antonio) and Jefferson (San Antonio).

Six districts have games matching teams undefeated in conference play.

District 2—Ozney at Vernon, district 7—North Side (Fort Worth) vs. Masons Home (Fort Worth), district 8—Sunset vs. Adamson (Dallas), district 11—Bryan at Waco, district 13—Longview at Kilgore, district 15—Corpus Christi at Jefferson (San Antonio) and Brackenridge (San Antonio) at Keesville.

# M. W. Reece Is Death Victim

Funeral services for Marrian Wilson Reece, 78, who succumbed at 6 o'clock Tuesday morning following an illness of three weeks, will be held Wednesday at 2:30 o'clock from the East 4th St. Baptist church.

The Rev. Homer Sheels and the Rev. R. M. Dunham will be in charge of the rites. The body will lie in state at the Eberley funeral chapel until time for the funeral. Burial will be in the New Mt. Olive cemetery here.

Reece, who operated the Palace Tourist camp until 1940, was born in Georgia and came to Texas 40 years ago. He had been a resident of Big Spring for the past 15 years.

Survivors include three sons, F. C. and C. C. Reece of Big Spring and E. C. Reece of Houston, five daughters, Mrs. Laura Johnson of Penita, Tex., Mrs. Vera Morrison of Walker, Mo., Mrs. Lena Yates of Lubbock, Mrs. Walter Grace of Big Spring, and Mrs. Cecil Leatherwood of Big Spring.

Also surviving is a sister, Mrs. Martha Evans of Oklahoma who is here for the service, and a brother, J. W. Reece of Tennessee, 21 grandchildren and 11 great-grandchildren. Mrs. Reece succumbed in 1946.

Fallbearers will be Howard Sheels, the Rev. R. T. Peake, S. N. Moreland, H. C. Burnett, C. M. Wilkerson and W. R. Puckett.

# Officer Lost As Ship Torpedoed

WASHINGTON, Oct. 19. (AP)—The sinking of a medium-sized American merchant ship by enemy submarine attack in the Caribbean in mid-August with only one casualty, the navy officer who was announced today by the navy department.

Lieutenant Commander Van Rensselaer Moore, USN, retired, was on the bridge deck when last seen a few moments before the ship was destroyed under him by the explosion of a torpedo.

All of the remaining 44 officers and men were saved, the navy said, and have arrived at an east coast port.

# Two From Stanton Enter The Service

STANTON, Oct. 19. (Sp1)—Two youths left this week for training in the armed forces of the United States.

Cleddie Shelburne, son of Mr. and Mrs. G. B. Shelburne, resigned as editor of the Monarchs News and left for Santa Fe, N. M., to enlist in the navy.

Tom Houston left for Athens, Ga., to continue training in the air forces at the University of Georgia, having completed a preliminary course at A.C.C. Abilene. He is the son of Mr. and Mrs. Chuck Houston.

# Forsan Airmen In Thick Of Action

Latest accounts of the exploits and bravery of American airmen in the South Pacific war theatre feature the experiences of Bombardier Lieut. John Adams, son of Mr. and Mrs. Charley Adams, of Forsan.

Lieut. Adams was listed in Associated Press dispatches as the member of a bomber crew whose ship made a forced landing at sea last month. He was picked up, and is now back on the job.

Lieut. Adams talked to his parents from San Francisco late Saturday afternoon, last December 6, just before leaving with a squadron of big bombers for Hawaii. The next morning the squadron flew right into the thick of the Japanese attack, and Adams has been at close grips with the axis ever since that day.

He was pictured in Life magazine in December after making a crash landing on a golf course when his plane was shot down.

JOHN CAMP ADAMS

Since then he has figured in engagements in Java, Australia and Greece and in the battle of Midway.

A 1940 graduate of Texas Tech with a major in business administration, he took graduate work in petroleum engineering at the University of Texas before joining up last summer. He did training at Barksdale Field, La., and at Albuquerque, N. M., receiving his commission Dec. 15.

Lieut. Adams' father works for Macrolis and his brother, Darrell, is attending Texas Tech this year.

# Golf Trophy Goes Permanently To Alice Phillips

The Big Spring Country Club's trophy for women golfers had passed into permanent possession of Mrs. Gordon Phillips today.

For the third straight year, she emerged Sunday as champion of the annual women's tournament, conquering Mrs. J. R. Farmer 3-2 in the final rounds. The win established Mrs. Phillips more firmly than ever as the city's No. 1 feminine shotmaker.

Bernice Jordan won over Mrs. Bill McCamey, 4-3, to take the championship consolation.

First round honors went to Stella Flynn with a 3-up win over Shirley June Robbins. Wanda Griffith won first flight consolation.

Awards were presented these winners by Mrs. R. B. G. Cowper at a tea Sunday afternoon at the conclusion of the matches. About 40 members and guests were on hand for this occasion.

# Man Confesses To Wholesale Crime Charges

CHICAGO, Oct. 19. (AP)—In the act of committing a \$500 currency exchange robbery, Irwin Kadens, army deserter and "three-state crime wave" was captured today and subsequently confessed almost all the crimes attributed to him by the FBI.

Until he deserted the army, at Camp Grant, Ill., on July 14, Kadens was a law respecting husband and father of two small daughters.

Today his crime spree ended with Policeman Richard Nelson clubbing him unconscious in defiance of a warning that Kadens "answered the first question with gunfire."

Crimes by the score—robberies, rapes, kidnaping and the shooting of a policeman—were solved with Kadens' capture, said Police Capt. Louis Klutznick.

"He admits about 50 robberies and other crimes," the captain said, and Kadens interjected: "About 75 would be closer."

The appellation "three state crime wave" was hung on Kadens by Director J. Edgar Hoover of the FBI. Detroit authorities added on Sept. 30 that he was "one of the most desperate criminals at large."

Kadens appeared at a currency exchange of West Madison street today, carrying a nickel plated pistol which had been covered with black tape. While he was threatening employees, an alarm was sounded and police reached the exchange as Kadens was departing. Officer Nelson beat him with his gun, and the \$500 was retrieved.

# Family Reunion Held In Broughton Home

Mr. and Mrs. G. C. Broughton entertained in their home Sunday with a family reunion attended by all members of the family except one nephew, Norman Newton, who is in the army stationed in Nebraska.

The reunion was also a farewell party for G. C. Broughton, Jr., who left today for induction into the army.

The guest list included Mr. and Mrs. L. M. Newton and daughter, Eula Pays of Fairview, Mr. and Mrs. Charley Warren and Donald Ray and Edna May of California, Mr. and Mrs. Howard Newton and Maye, Doris, Bonnie Jean, Clifford and Lyndia of Midland.

Mr. and Mrs. E. M. Newton and David and Bill, Mr. and Mrs. Troy Newton of Big Spring, Mr. and Mrs. Marion Newton and Charline of Ackerly, Mr. and Mrs. Mack Newton and Merilyn of Big Spring, Mr. and Mrs. Floyd White and Jimmy, Sue and Ann of Midway, Mr. and Mrs. Harvey Wooten and Ronald and Jerry of Big Spring.

Mr. and Mrs. M. E. Broughton and Harold Ray, Mr. and Mrs. E. H. Long and Gilbert and Donald Berry, Mr. and Mrs. Buster Broughton, Mr. and Mrs. J. V. Davis of Big Spring, Wanda Jean Forrest, Johnnie Ray, Robert Wayne and Dorothy Lee Broughton, and Mr. and Mrs. E. M. Newton.

# Texas Under Its Monthly Oil Quotas

AUSTIN, Oct. 19. (AP)—Chairman Ernest O. Thompson of the Texas railroad commission today told oil operators attending a statewide prorotation hearing that the state is "consistently underproducing its monthly allowances."

September production fell seven per cent below the figure authorized by the state oil regulatory agency, Thompson said, listing underproduction of 10 per cent in District 1, Southwest Texas; 30 per cent in district Four, Southwest Texas; 15.98 per cent in District 7-B, West Central Texas; 10 per cent in District 8, West Texas; and 13 per cent in District 9, North Texas.

Thompson's statement followed an assertion by O. W. Killiam, Southwest Texas independent operator, that "we've been doing a lot of big talk about our reserves but the truth is that we simply don't have them."

Declaring that "we are consuming our surplus oil right now," Killiam told the operators that the industry will face an "enormous scarcity" of petroleum products at the end of the war.

Finding duplications in nominations for November, the commission amended its first announcement of purchaser nominations for crude next month from 1,558,175 to 1,581,175, a decrease of 24,770 barrels daily over October nominations rather than an increase of 2,290 as first announced.

The war—at least temporarily—has brought the O'Danields together as they haven't been since leaving the Texas governor's mansion so he could enter the senate in August of 1943.

Sitting down to a 35-cent plate lunch of fried liver and onions in the senate office building restaurant, the senator told about the reunion of his family.

Corporal Pat O'Daniel isn't in Washington. But he's close by, attending an officer candidate training school at Fort Washington, Md. The post is on the Potomac about 15 miles below the capital, and is the training center for personnel of the adjutant general's office.

The officer in charge of that school is Lieut. Col. Carl Neabitt, who was adjutant general of Texas under O'Daniel's political foe, James V. Allred, when Allred was governor.

Mike O'Daniel, 21, returned to Washington last month with his parents after the senator's successful campaign for re-election. He is working part time in O'Daniel's office—not on the payroll, the senator quickly observed—and is continuing his studies by correspondence.

Prospects of military service have made all Mike's plans uncertain, the father added.

The O'Daniel's daughter, Molly Wrather, and granddaughter, Molly O' Jr., also are living with the O'Danields in the fifth-floor suite in busy, downtown Washington hotel. Her husband, Jack Wrather, Jr., a lieutenant in the marine corps, is attending the officers' training school at Quantico, Va., about 35 miles south of Washington.

STANTON LADS GET BIG SCRAP SUPPLY

STANTON, Oct. 19. (Sp1)—With the aid of a borrowed tractor, four boys of the eighth grade last week for their right in the New York Public Library. Grandma Hoskins tells in his own handwriting, at that.

And then she opened up on how Washington and those others who founded America believed in honor and moderation. Told us about William Penn who had his own brewery down in Pennsylvania, and several Putnam's... Samuel Adams of Massachusetts and James Oglethorpe of Georgia.

"Beer," Grandma goes on, "has grown up with the country because it's a symbol of good fellowship and moderation."

Way back in 1793, she told us, James Madison stood up in the

House of Representatives and made the motion urging "the manufacture of beer in every State of the Union." And that some year Massachusetts passed an act stating that "the wholesome qualities of malt liquors greatly recommend them to general use."

From there on—until early in 1918, the brewing industry kept growing and beer and ale kept getting better and better.

Then came prohibition... thirteen dark years that bred vice and crime. Grandma says it taught us something though—something that George Washington and all those other early American statesmen knew all along... that no law ever takes the place of self-restraint and moderation.

That's why they were friends of honor and made moderation a cornerstone of American freedom. They were right about a lot of things—Washington and Adams and Penn. And from where I sit, they certainly were right about moderation, too.

# Axis Shipping At Tobruk Again Hit

CAIRO, Oct. 20. (AP)—United States heavy bombers again attacked axis shipping at Tobruk yesterday and scored direct hits on at least two large merchant ships, a United States army communiqué said today.

September production fell seven per cent below the figure authorized by the state oil regulatory agency, Thompson said, listing underproduction of 10 per cent in District 1, Southwest Texas; 30 per cent in district Four, Southwest Texas; 15.98 per cent in District 7-B, West Central Texas; 10 per cent in District 8, West Texas; and 13 per cent in District 9, North Texas.

Thompson's statement followed an assertion by O. W. Killiam, Southwest Texas independent operator, that "we've been doing a lot of big talk about our reserves but the truth is that we simply don't have them."

Declaring that "we are consuming our surplus oil right now," Killiam told the operators that the industry will face an "enormous scarcity" of petroleum products at the end of the war.

Finding duplications in nominations for November, the commission amended its first announcement of purchaser nominations for crude next month from 1,558,175 to 1,581,175, a decrease of 24,770 barrels daily over October nominations rather than an increase of 2,290 as first announced.

The war—at least temporarily—has brought the O'Danields together as they haven't been since leaving the Texas governor's mansion so he could enter the senate in August of 1943.

# Personal Items From Coahoma

COAHOMA, Oct. 20.—Guests in the home of Mr. and Mrs. E. R. Thompson over the weekend included Mr. and Mrs. A. J. Sumrall and sons, Jonnie and Don, of Abilene, Mr. and Mrs. Alva Petree and family of Stanton, Pvt. Marion R. Black of the flying school in Big Spring and Mrs. Black.

James Hunter of Sheppard field spent the weekend with his parents, Mr. and Mrs. W. A. Hunter. Edythe Wright was in Roscoe spending the weekend with relatives and friends.

Louise Martin, who has been employed at BSAAFBS, has been transferred to Goodfellow field.

Mrs. Imogene Burkett and Mrs. Vida James spent the weekend in Abilene with relatives and friends.

Mrs. Mayo Hobbs was in Wichita Falls this weekend to see her husband who is stationed at Sheppard field.

Mrs. Leroy Echols spent the weekend in Lubbock visiting her daughter, Amy Lee, who is a student at Texas Tech.

Earl Reid, H. C. Reid, Ira McQuerry and E. E. Adams have returned from a fishing trip to the Rio Grande.

Mr. and Mrs. James Teague of Dumas have been visiting his sister, Mrs. Delbert Cook.

W. L. Bell, who is stationed at the naval base in Corpus Christi, is spending a ten day furlough with his mother, Mrs. Rachel Bell.

Mrs. W. E. Milam and Kathleen McClellan of Stanton were here Sunday to see Mrs. Milam's parents, Mr. and Mrs. T. W. Farris.

Mr. and Mrs. M. H. O'Daniel are in Martin to spend three weeks at a health clinic.

Mrs. A. M. Sullivan is in Odessa this week with her husband, who is employed there.

Mr. and Mrs. Lee Murphy of Ira were Sunday guests in the home of Mr. and Mrs. Hubbe Baker.

Mrs. W. W. Lay and daughter, Jo Nell, are spending several days in Sherman visiting relatives.

Mrs. J. D. Abercrombie and daughter, Jonnie Ruth, are in Hillsboro to see relatives and friends.

Mrs. Claude Kling has returned from Abilene where she received medical treatment.

Mrs. Bradley McQuerry of Abilene spent the weekend with her mother, Mrs. Kate Wolf, and other relatives.

# All O'Daniel Family Now In Capital

WASHINGTON, Oct. 19. (AP)—The O'Danields have been transplanted from Texas to Washington, all of them, from 5-month-old granddaughter Molly O' Jr. Wrather to proud granddaddy, Senator W. Lee O'Daniel.

The war—at least temporarily—has brought the O'Danields together as they haven't been since leaving the Texas governor's mansion so he could enter the senate in August of 1943.

Sitting down to a 35-cent plate lunch of fried liver and onions in the senate office building restaurant, the senator told about the reunion of his family.

Corporal Pat O'Daniel isn't in Washington. But he's close by, attending an officer candidate training school at Fort Washington, Md. The post is on the Potomac about 15 miles below the capital, and is the training center for personnel of the adjutant general's office.

# Civilian Life Looks Pretty Tame After A Trip To BSAAFBS

By MARY WHALEY

It isn't often that a person gets to ride in the "fish," meet a Lieutenant in the Women's Army Auxiliary Corps, and get to see the inside workings of a bombardier school. All these things were rolled into one for us yesterday.

The fish is the big silver recruiting wagon that gets its name because it is silver and for other obvious reasons about people who ride in it, we hear. The Lieut. is Virginia Williams, who has practically got us signed on the dotted line, she's that convincing.

We females and the "fish" gassed quite a bit of neck craning after we got to the open house, but confidentially, it was mostly for Lieut. Williams, whose snappy uniform got her some sick salutes.

We visited in the day rooms, hangars and the hospital where we leased a doctor into classifying our blood type. We're type A, we discovered, and are looking

forward to meeting some more of our type, a handy bit of information to have.

Next we cruised, but slowly, by the B. O. G., which means Bombardier's Officers' Quarters. We met the pot cook at the recruiting center and saw some neatly made beds, (with an art!) and the recreation hall for the airmen.

By dint of pushing and shoving, we went down the line, where the planes were taking on and off. We ogled at the pilots and the bombardiers and were a little disappointed to find out that they are just human beings. Our impressions are always based on Hollywoodian myths.

Finally, although we doubted some we could make it, we went up in the observation tower where the instructions for landing and taking off are sent out. Explanations were a little too technical, but we gather that that sergeant is mighty important.

Just before dark, when we could think of no other reason to stay longer, we climbed back in the fish and came home. What a day! It's an anti-climax today to walk around with the rest of the civilians. There's just "ain't no glamor" in our part of the war—paying taxes and buying war bonds.

Draft board authorities said there would be a "make-up" call later, that a second October call set for the latter part of this week probably would be made up in November too since none is now under orders to go for the second quota call this month.

Among those leaving Tuesday were Austin J. Welch, Allen D. Nelson, Oole Cleveland Morgan, Walter Alice Fields, Haskell McElroy, Eugene Debbes Henderson, John Melvin Wolcott, Samuel Burness Murray, Jack Thomas Mitchell, George Joseph Zachariah, Floyd Byron Neff, James Francis Reidy, William Earl Emsall, Edward Mendoza, Clifton Almon Vaughn, Martin A. Ross, Doyle Steven Jones, Seth Hamilton Parsons (volunteer officer candidate), Truman William Plummer, S. L. Ruth This, Juan Castillo Parra, Liverato Piacentilla Carrillo, Earl Nick Smith, Herman Oscar McCarty, Melvin Eugene James, Melton Arriola, Claude Purvis, Colonel Dow Buckleley, Earl Pharon Pittman, June Fines Grounds, Newton Clifton King, Benjamin Franklin McCottees, Jose Rodriguez Hernandez, William Bailey Langley, James Wesley Gibson, Billie Mack Dalton, Alton Vernon Awall, Carmen Marquez Gonzalez, Thomas Harold Plum, Austin Glenores Morton and Valentina Velardez Parra.

Transfers to be inducted through other boards were Mayford Loyd Thompson, Dale Knight, Charles Peter McDowell, Jr., John Henry Legg, Quintin Olen.

Transfers in who left Tuesday were Vernon Bruce Phillips (Big Lake), Castulo F. Chacon (Van Horn), Leonel Garcia Morales (Uvalde), Alfred Mike Gosky (Paris, Ark.), and Bobby Roy Williams (Alameda, Calif.).

Whales are the largest animals known to have lived on earth, according in also the prehistoric dinosaurs.

# First Bombing Under Way By Cadets Here

Arthur H. Ditt, former collegeiate and professional football star, Monday morning made history for the Big Spring Army Air Forces Bombardier School when he became the cadet to drop the first bomb.

He pulled the lever which let the initial "egg" fall away from the ship while on a run that originated from the field at 9:45 a. m. and which had terminated an hour later.

The ship was piloted by Lieut. Wallace L. Derlin, and Frank E. Arnold was the second cadet in the plane.

Ditt, whose home is Lebanon, Penn., starred as a member of the University of North Carolina football team, was named and mentioned in many all-American selections and was signed by the Detroit Lions for the 1939 season.

Since then he has been serving as an athletic director and teacher. His married status is still "fraternal," and before the war changed it, he claimed his hobby was "taking it easy." His ambition now, however, is to make it where Hirohito or Hitler may not follow his former avocation.

From now on cadets will be flown regularly over targets scattered over a 100 mile radius from Big Spring, dropping as many bombs as possible to achieve needed point accuracy in unloading misery on the Axis.

WASHINGTON, Oct. 19. (AP)—They start playing for the championship this week in the Lone Star Loop.

HUNTSVILLE, Oct. 19. (AP)—Sam Houston State as 1 North Texas State blast off the lid at Huntsville Saturday night.

The two other members of the circuit do not see action in conference games until next week. Both play Texas conference teams, East Texas State meeting Austin College at Commerce and Southwest Texas State tackling Abilene Christian College at Abilene.

Southwest Texas remained the leading team in the non-conference schedule, beating Randolph Field 21-0 to make it three victories in four starts.

East Texas State won its game with east, crushing East Central of Ada, Okla., 38-0 but Sam Houston ran into a hornets nest at Louisiana Tech, North Texas State was idle.

From where I sit...
