LUBBOCK, TEXAS, AUGUST 22, 1930

TEXAS TECH PREPARING FOR ANOTHER RECORD LONG SESSION

New Regime Awaits Matador Athletic Activities

Four New Coaches Will Be In Posts At Opening of Grid Season; Staff Is Headed By Coach Pete W. Cawthon

New Course Will Be Offered For Students In Ag.

Senior Work in Agricultural Education To Be Offered; New Buildings Are To Be Erected in Fall

An entirely new phase of instruction in agriculture at the college is announced for this fall when senior work in agricultural education will be offered.

This work will be open only to students with basic and fundamental training in the agricultural subjects and will aim to reach men who desire to be familiar with the educational viewpoint and plan followed in county agent work, high school agricultural teaching, and similar lines which our various agricultural institutions recognize should be open only for men thoroughly grounded in agricultural subject matter.

This fall \$5,000 will be expended for additional livestock and \$7,500 for new buildings, fences and other permanent equipment for the school of Agriculture. Prospects are bright for agricultural attendance this fall.

General Textile Course Is Offered

Non-Technical Work Will Be Open to Students in Fall; Two-Hour Credit Will Be Allowed Students

A two-hour credit course in general textile manufacturing is to be offered by the textile department at the opening of school for the fall term. The course will be open to any student regularly registered to take work at the college. The work will be entirely non-technical, but will be made as practicable as possible.

The work will start with the history of textiles, and this will be followed by a study of the various fibers as cotton, silk, wool rayon and linen, their characteristics and manufacture. A study of fiber designing together with methods employed in manufacturing a fabric from a design will be given considerable time, and finally the dyeing and finishing of fabrics will be discussed and demonstrated.

Various chemical tests for recognition of different fibers and dyes will also be included in the work. On a whole the aim of the course will be to cover such fundamental work as will be of service to the average person in every day life.

Four Students Get Into Medical Class

Texas Tech has again been honored by having four of its pre-med students appointed as freshmen at the University of Texas school of medicine in Galveston. Each year only a limited number of students are permitted to enter the freshman class and each year Tech has had their share.

The students to receive this appointment were Emory Hollar, John Searls, Roy Hunt, and Earl Turner.

Agricultural Teachers To Meet In September

In September all of the vocational agricultural teachers of Northwest Texas will meet at Tech for a week's conference. The college has the approval and support of the United States officials interested in agricultural instruction, but the state officials have seemed to desire to keep their conference work entirely in East Texas.

As a consequence many of the teachers in West Texas have not had a fair chance at keeping up to date in their professional viewpoint as teachers.

Del Morgan, W. L. Golightly and Russell Smith Other Members of Staff; All Men Well Equipped

The Scarlet and Black Matadors of Texas Tech will enter upon their sixth year of collegiate football competition on September 10 under the guiding hand of a new coaching staff. Every member of the physical education and athletic departments will be new blood. A new regime awaits the Matadors.

Pete W. Cawthon, well known Southwest conference official and former mentor of the Austin College Kangaroos heads the staff as head coach. He will be assisted by Del Morgan, former Lubbock high school coach, W. L. Golightly, formerly of the Rice Institute staff and Russell Smith, former head coach of the Amarillo high school. All are former athletes under Cawthon at Austin College.

In a way Coach Cawthon is no new on the campus. He was here last spring to hold spring training and since that time has been here at intervals excepting when out of town on personal business.

Coach Cawthon is a graduate of Southwestern University, at Georgetown. During his college days he built an athletic reputation that has stayed with him. He was a four letter man, making letters in track, baseball, football and basketball in one year. He served as captain in each sport, which added to his popularity among the students.

Started at Beaumont, Coach Cawthon entered the coaching business immediately after finishing school. For two years he labored with the high school at Beaumont. While there his teams gained recognition as fighters and ranked high in state competition.

From Beaumont he was subsidized as freshman coach at Rice Institute. He stayed at Rice one year, Terrell Prep school of Dallas securing (Continued on Page 6)

Book Store To Be In New Quarters

Old Cafeteria Building To Be Used as Quarters for Store This Year; Added Space To Be Afforded.

Announcement to the effect that the Tech College Book Store will have new quarters in the old cafeteria building was made by Manager W. C. Cole.

New equipment, a well stocked store of school supplies and college novelties and more room for books will permit the book store to render better and more efficient service to the students and faculty.

With the idea of providing some place on the college campus for a sort of community house the store is arranged so that everyone will have an opportunity to "browse" around a bit.

A sandwich counter is to be installed serving tasty sandwiches, sodas and cold drinks. This should prove to be a convenience to all students as well as faculty members.

Service for the entire student body and faculty members is to be the policy of the store. The book-store shall aid and sponsor any worthwhile organization on the campus. It gives employment to many worthy students, thereby enabling them to complete their college training.

This course we are referring to is love making and below are a few students who signed up for life during the past three months.

Affiliation With National Body Is Up For Extension

Examiner To Be Here In Next Term To Inspect Work Of Department; Wide Variety Of Work Is Offered

Early this fall Dean Voght of the University of Oklahoma will visit Tech and inspect the organization and work of the department of extension, in connection with its application for membership in the National University Extension Association, which is composed of forty two of the leading universities of the nation, the only member in Texas being the University of Texas.

Three steps are required for membership in the association; the unanimous approval of the written application and annual report of the extension department seeking membership, by the executive committee of the association; favorable inspection of the department of extension by an out-of-state inspector of the association; and an affirmative vote by mail of three-fourths of the forty-two member institutions. The Tech department of extension has taken the first step and will soon essay the second. Membership in the association carries with it prestige and mutual recognition of correspondence and extension class work done by the member institutions of the association.

Uses Uniform List. The Tech extension department, in conformity with the recent regulations of the association of Texas Colleges governing extension work, is using a uniform, approved list of examiners, who are under agreement to supervise all final examinations.

Larger space will soon be provided for the Tech extension department, the work having outgrown the present quarters.

The outlook for extension class, night class, and correspondence work is excellent for the following year. The following centers have already requested classes: Amarillo, Brownfield, Levelland, Lorenzo, Lubbock, Mead, Paducah, Plainview, Post, Sudan, Tahoka and Lockney. Local business men in Lubbock are requesting night classes, and these will be provided for them, where the numbers justify organization.

An unusual opportunity for students to satisfy one of the two laboratory science requirements, is a new feature of the correspondence work, made possible by the course in Geography 131-132-133-134, authorized by the department of geography.

Fred Seely has been working for a local drug store this summer.

Miss West To Spend Year In Spain In Research Work; Miss Main Takes Place

Miss Elizabeth H. West has recently accepted an invitation from Dr. J. P. Jameson, Chief, Division of Manuscripts, Library of Congress, Washington, D. C., and Dr. Worthington C. Ford, director, European Missions, to go to Spain and supervise photographic work in the Archives of the Indies at Seville.

Miss West's duties will consist of selecting historical material of interest to the United States, supervising the work of the photographer, carding the material, and arranging it for transportation to Washington.

Wedding Bells Ring Out During Vacations Days And Tech Students Answer Call; Nearly 40 Wed

Jack Maddox Weds. Jack Maddox, student body proxy in 1929 and one of the most popular students ever to attend Tech college was married to Miss Mabel Le Claire Scofield July 12 at the home of her parents, Mr. and Mrs. Houston Scofield in Gainesville. His brother, Don, Tech student, served as best man and the maid of honor was Miss Alma Louise Scofield, sister of the bride.

Women Students To Sponsor Activities

The Association of Women Students plans to bring about cooperation among the campus clubs in working out freshman orientation plans. Through the Las Leales club, the Y. W. C. A. Forum, Home Economics club, W. A. A. and the Choral club plans for meeting trains, serving punch, and having club representatives in the halls who will give any needed information to the freshmen students. The Big-Little Sister movement is also one of the outstanding activities.

The camp site which this association bought last year will be ready for use. Early in the year a bonfire will be held at which each club will give their purpose in a fire ceremony.

Gaston Is Able Business Manager

Few school executives take the vital interest in the affairs of a whole institution as Mr. W. T. Gaston, business manager, does. He has been with the college for only one year, but his influence in various departments of the school has already been felt in no small measure. No special attention is given to any department except where equipment and facilities for better work and service is urgently needed. The improvements made in the animal husbandry department of the school of Agriculture has increased the efficiency in that division giving it recognition over the state of Texas that it richly deserves and rendering it more capable of service to West Texas.

Mr. Gaston comes to the position of business manager unusually well qualified to handle the state and local funds, having been at one time head of seventy-five to one hundred employes in the state comptroller's office.

Other needed improvement will be made in the various departments of the college as soon as funds become available, for Mr. Gaston is the kind of man who always is looking forward to greater and bigger things.

Textile Department Is Recognized by Cotton Men

The Textile department has recently received official recognition by the National Association of Cotton Manufacturers, and as a result, a gold medal will be awarded annually to the graduating student of this department who has attained the highest standard during his four years of work.

If you happened to be driving around the campus this summer you probably saw Gerald Gordon, Clinton Cook, W. C. Vintant, Haza Mika, Hubert Butts, J. T. Gee, Harold Frazier, Floyd Woodbridge and Geo. Langford for they were all somewhere about the campus helping to beautify it.

Lois Gable and H. C. Hervey, both graduates of Tech college, were married on June 2 in the Gable home with Dr. J. C. Granberry officiating. They toured the western states during their honeymoon.

Hervey is former business manager of the Matadors.

Jane Geis Couple. Margaret Sue Wilson and Roland (Continued on page 8)

Dean Gordon Sends Greetings To Old And New Students

EDITOR'S NOTE: The following article comes from the pen of Dean James Marcus Gordon of the School of Liberal Arts. Dean Gordon has been one of the busiest persons on the campus this summer and September 15 will find him busier than ever, greeting old and new students and scratching his head over registration records. Other 'records' are his worry during the remainder of the year.

Women Students To Sponsor Activities

The Association of Women Students plans to bring about cooperation among the campus clubs in working out freshman orientation plans. Through the Las Leales club, the Y. W. C. A. Forum, Home Economics club, W. A. A. and the Choral club plans for meeting trains, serving punch, and having club representatives in the halls who will give any needed information to the freshmen students. The Big-Little Sister movement is also one of the outstanding activities.

The camp site which this association bought last year will be ready for use. Early in the year a bonfire will be held at which each club will give their purpose in a fire ceremony.

Officials Expecting Another Year Of Successful Work; Opening Events Are Scheduled To Begin On September 15

With a heavy correspondence flowing into the office of the registrar, consisting of requests for catalogs, numerous transcripts of high school records and transferred records arriving daily, Texas Technological College is evidently due for another record enrollment as the time for the opening of its sixth long session approaches. No definite statement could be obtained from officials. It is, however, expected to exceed all past sessions, officials have indicated.

New Students Are Welcomed By President

DR. P. W. HORN

President Paul W. Horn is looking for a great year and has stated that everything will be in readiness for the opening.

"Present indications," said E. L. Dohoney, registrar of the college, "are that the recent drought and other economic conditions of the state will not seriously affect the enrollment. Numerous prospective students are calling at the registrar's office to leave their records and gain information. The outlook is very optimistic."

Opens September 15. The week of September 15 will formally open the fall term. On this day will be held the first faculty meeting of the year. All freshmen who must take entrance examinations will be tested on September 15 and other students who must pass special examinations to receive advanced standing will be examined September 16.

Orientation of freshmen students, at which all entering freshmen are required to be present, will be held on September 17.

Plans for registration, which begins with the freshmen on September 18, will follow the lines of former years, said Mr. Dohoney. "There will be one important exception: all students will register for the entire year instead of for one quarter. An alphabetical arrangement will be used. The exact details have not been announced at the present.

Freshman boys are requested to see Cecil Horne, room 101, administration building, for approved rooming and boarding places. Freshman girls are requested to see Dean Mary W. Doak. All students who reach Lubbock before the date of registration are asked to go to the Lubbock Sanitarium and take a physical examination as soon as they have been assigned boarding places. No student will be allowed to register without meeting both of these requirements. During actual registration, students may take a physical examination. (Continued on Page 8)

Former Student Writes Article for Magazine

Miss Jessie Beth Bennett of Arlington, graduate of Texas Technological college in 1927 is one of the youngest teachers to be officially recognized by the national "Educational Executive Magazine" which is published in Lincoln, Nebraska, according to Mrs. J. M. Styles, auditor of the college. The July issue of this year carries Miss Bennett's picture together with her article on developing citizenship in the junior high schools. She is now director of citizenship in the William James Junior High school of Fort Worth.

Her work with the students there came to the attention of the editor of the Fort Worth Star Telegram and several articles have appeared about her in that publication. She is state secretary of the Junior High division of the Texas Educational Association.

While in Tech Miss Bennett was very active in school affairs being a member of Pi Gamma Mu, Sigma Sigma and the Dramatic Club. She will secure her Master of Arts degree from Pabody College in Nashville, Tennessee in August of this year and plans to continue her studies at the University of Wisconsin through the fall.

R. C. ("Flopp") Marshall, editor of the 1931 La Ventana, started the summer by selling a few pots to the housewives. We can see that expression on his face when he learns that pots are out of date. "We eat at the cafeteria." He is bringing a whole bag full of new tricks that will make the 1931 yearbook the best yet.

Duck in and eat at the Duck N Diner. Room.

Club Activity Is Planned For Year

"Big And Little Sister" Plan To Be Carried Out For Girls; Forum, Y. And Others Make Plans

With thirty-seven per cent of the student body of the Texas Technological college enrolled in some form of outside activity, such as honor societies, scholastic, social, pep, and other organizations, many plans are being made for the furtherance of the various clubs early in the season.

Beginning with the meeting of freshmen and transfers at the trains by members of the Y. W. C. A. the various members will seek to aid the freshmen in registering and to acquaint them to college life.

Other plans of the Y. W. C. A. are to be announced later.

Since August 20, "Little Sister" cards have been sent to all old students who signified their intentions of taking charge of some freshman girl and aiding her through her first year of college. This work will continue through the week of registration and will be formally launched with the "Big and Little Sister Dance" to be given at the college gymnasium the first week of school. This is an annual affair of the Woman's Forum and is given in honor of the new students, who are taken to the dance by their big sisters. It is an all girls dance.

Other plans of the Woman's Forum include the annual reception at the home of President P. W. Horn, and the garden party during the spring term.

R. C. ("Flopp") Marshall, editor of the 1931 La Ventana, started the summer by selling a few pots to the housewives. We can see that expression on his face when he learns that pots are out of date. "We eat at the cafeteria." He is bringing a whole bag full of new tricks that will make the 1931 yearbook the best yet.

New Regulations On Women Boarding Students Given Out By College; All Freshman Girls Must Spend Year In Dormitory; Social Requirements Remain Same As Before

Regulations for the women students of Tech have just been revised and completed according to statements from authorities in the office of the dean of women. These privileges and restrictions are printed in a pamphlet called "Student Life Regulations for Women." A copy may be obtained from the office of the dean of women.

Very little change has been made this year in the regulations in effect last year. The freshmen women will continue to stay in either College Inn or Annex A as was previously done.

Applies to Boarding Students
Below are the special regulations applying to women students not residing with their parents.

Women students will not be allowed to live in a house not on the official list except by special permission of the Dean of Women.

A student who engages room, or room with board, may not change her place of residence during the term except by request of the proprietor, or by permission given by the Dean of Women, upon the written consent of parents or guardians. Students are expected to file with the Dean of Women a written request for change of residence two weeks before such a request would become operative.

A student who is sent to the hospital shall continue to pay her room rent in full for the month and shall pay board in full for the first three days.

Must Have Permission
Non-resident students may not leave town without permission from the Dean of Women. Requests for such permission must come from the parents or guardians of the students.

Housemothers are expected to notify the Dean of Women when a student is called home suddenly.

No student will be allowed to change room or roommate without permission from the housemother.

Quiet Hours
Quiet hours shall be maintained every night after 7:30 during the long session and after 7:30 during the long session and after 8:30 during the summer sessions except on Friday and Saturday nights, holidays and nights preceding holidays. This rule applies to all women's rooming houses and dormitories.

Must "Sign Out"
All women students residing in rooming houses and dormitories must sign up with the housemother before going out in the evening.

Women students may have only three dates a week—two on week nights and one on Sunday night.

Sunday Date Until 10:00 P. M.

Except in the case of formal parties and dances, students are expected to be in their rooms by 11 p. m. on date nights. On nights other than date nights students are expected to be home by 10 p. m.

May Attend Approved
Women students may attend only those dances that are approved by the College. Notice of these dances is given on the College calendar. All engagements are subject to the approval of the housemother. Women students are not permitted to go to the dormitories and boarding houses of men students except upon special invitation and under proper chaperonage.

Women students will not be allowed to spend the week-ends in town with friends except by special permission from the Dean of Women upon the written request of parents.

Guests on Week Ends
Women students are not allowed to have guests over night except for guests must be made with the housemothers.

No telephone calls, except long distance calls, are to be answered by students during quiet hours.

Men students are not expected to call at dormitories or boarding houses during the day either by telephone or in person, except dur-

ing visiting hours.

Visiting Hours
Visiting hours are from 6:30 to 7:30 p. m. in the long session, and from 7:30 to 8:30 in the summer sessions. No visitors are permitted until 4 p. m. on Sunday.

Students will be permitted to use automobiles when going back and forth from school and attending social affairs. But permission to make out-of-town car trips must be obtained from the Dean of Women.

Housemothers are requested to report at once to the Dean of Women all cases of illness. All infractions of the rules are to be reported to the Dean of Women. Failure to make such reports will necessitate the removal of the housemother's name from the approved list.

Louise St. Clair is at home in Mineral Wells after having visited in Lubbock with Misses Lucille and Evelyn Hartzog.

C. A. Doose of Ballinger, Texas, attended summer school at Tech. It is said that Doose started training in a cotton patch near Ralls early in July.

Kathryn Lindsey, a former student, will continue her summer school work through the long term.

Brilla Mae Willis of Sweetwater has visited in Lubbock this summer. She is preparing to go to Chicago and study art this winter.

Glodya Townes is planning on being back this fall. Wonder if Red Harmon is too? Must be. They are in Amarillo this summer.

Martha Knight is to direct dramatics in her own studio at Roswell, New Mexico. Buck Davis will continue to go to school. Both have been going to summer school.

Nobody knows what Fay Foote is going to do this fall. She says teach, maybe, but some other people have different ideas on the subject.

Fish Phipps of Tech Drug fame has undergone an operation in Memphis. He will take up his old position at the opening of school. Say, fish, this freshman orientation begins the 17th.

V. E. Crawford has been working for a gas refining company at Big Spring.

Mr. and Mrs. Alma Pace are spending the summer in Memphis prior to their moving to Memphis where Mr. Pace will teach. Mrs. Pace will be remembered as Miss Annie Lee Owens.

Mary Frances Senter was at home for the most part of the summer. She was seen in Plainview one hot July day. She plans to continue her studies at Tech this fall.

Wayne Atcheson, who works for the Avalanche-Journal, is one old student that Tech needs back.

Bill Fry, that half pint, has been in Dallas this summer. It seems that a large number of old students vacationed there. He will be back to continue the heavy courting that he started.

Julius Bergfield will be back. He dropped out at the winter term last year.

Mose Clark entrained with Dr. Patton for a little trip early in the summer. He is now at home giving the home folk a real treat. They will be glad to send him back by September 22nd.

Mary Louise Middleton who took her B. A. degree in June has been in summer school.

Mart Wood of the engineering school has been trying to play tennis this summer when not in class. Where there is life there is hope.

Bill Thomas, otherwise known as a ladies killer is in summer school. He has it.

Mr. Hershel Bell, would raise a good crop this year if it were not for the time he has to court. He has charge of the college farms.

Janie Ruth Sheppard, has entertained a few relatives in Hale Center during the summer. Let's drop by and see how good she can entertain.

Sarah Michie has hopes of becoming a good librarian before long. Three hot months have helped a great deal.

Vivian Watkins says they are going to have to burn the Ad building to get her out. She has been tripping lightly through the hall this summer.

Jess Holar stayed here this summer to carry the regular amount of dead heads of the tailoring business.

Hank Morgan has entered the rich class. He and Bobby Jones should make a good pair. He got his start in the bookstore.

Dick Green has signified his intention of entering school to learn what the books say about it. This is a noble move for such a little man.

Gordon Cook of the years gone by will go to Dallas soon to enter medical school.

Wilson Spikes visited on the campus this summer. He is in state university medical school.

Hank Benson of Texas University medical school spent his vacation in Lubbock.

Nell Goodloe worked at a local department store during the hot summer months. She has an interest in Oklahoma.

Basil Hill has been working in Lamsa this summer.

Lizzie Belle Clements represented Tech at a students' meeting held in North Carolina at Lake Junaluska. She will be a senior this year and will fill the position of secretary and treasurer of the student council.

Jimmy Renfro of Fort Worth has been in Lubbock now for some days waiting for school to begin.

Hughes Gillham believes in going to school summer and winter.

Kate Pressley, Lillian Hopping and Lucille Jordan have accepted positions with the Universal Producing company as play directors. They have been studying in Dallas for several weeks preparatory to being sent out as representatives of the company. Miss Jordan was injured by an accident the early part of August. She was recovering rapidly at last reports.

J. W. Timmons, former business manager of the Toreador, has spent the summer assisting his father in business and has managed to pass a greater part of the nights hopping cars at an Amarillo drug store. He has been in Lubbock making plans for the Inter-club Council of which he is president and declares that this is one time in his life when he is really anxious for school to start.

Leland Mast has been attending camp a part of the summer and the rest of the time has been working at the Avianche-Journal offices of Lubbock.

Clayton Lawrence of Mineral Wells will enter school when registration starts. He has been working for his dad.

Mary Beth Miller has been attending summer school at the Oklahoma State Teachers' College. She is planning on being in Lubbock soon.

After attending summer school the first six weeks, Elizabeth Baird has been taking things easy at her home in Vernon, where she will be until school opens.

Osre Mathews has been flashing her famous smile on the sands of San Bernardino, California and has not decided definitely to enroll this fall.

Some other persons have been summering in California too. Annie Fannie Sewell, of Abilene, who is the responsible person for the Bull-Wheel in last year's paper, and Bob Patterson have reported from Los Angeles.

Rhoda Lou Clark has been spending the summer at her home in Lamesa. She has reserved 2410 14th street as her address for this fall.

Ruth Sparks has been attending Georgetown University at Georgetown this summer. She will be back in the fall. The latest news from her is that she plans to room with Kathleen Harmon and live on Broadway.

Fanny Sue Dunn returned during August from an extended trip in Arkansas.

Alma Rails deserts us to attend C. I. A. at Denton this fall. Well, she will soon regret it. Her home is at Rails, Texas.

While Hogue Williams is recuperating from the strenuous duties of student prexy he has taken several laurels from Hamilton youths in the field of gawlf. Rumor has it that all of the laurels in sportdom can not keep Mr. Williams from courting. During his term of office he was instrumental in securing several changes in the form of student government.

Julius and Merrill Craver were through Lubbock on their way to Oregon.

It is rumored that Elizabeth Pickett, who has been visiting in Lubbock several times this summer, will continue to teach violin throughout the winter at Brownfield.

C. Middleton and Arnold Schofield are in Wyoming. Schofield wrote for a "Home Sick" edition.

Leon "Bud" Fisher is at home in Memphis after working in the harvest. For some reason he can't stay away from Lubbock.

Mary Elva Burns, former Tech student and recently of Washington, D. C., is back in Abilene in person but her heart is in Lubbock. Wonder why?

Ray Brewer is spending the summer in Goose Creek working for an oil company. He doesn't plan to return this fall but we won't be surprised to see him come dragging in around the 22nd.

J. B. Roundtree has a white collar job in an office in Dallas. Don't see how he can fail to come back.

William Nelle has gone on the archeology expedition under Dr. Holden.

Bill Caldwell visited his mother in Bonham, Texas in July. He attended both terms of summer school.

"Little" Johnnie Young spent the first of the summer in New Orleans with the Holland Magazine Co.

Cornelia McCann will arrive in Lubbock the last week in August. She has spent most of the summer in New Mexico.

"Dead Eye" Underwood, former Tech student visited in Lubbock recently. He has been in New Mexico and Arizona on his vacation.

"Chubby" De Witt of Fort Worth spent a week in Lubbock during July.

Word has been received that Louise Pressgrove will return to Tech this fall.

Jack Durham, captain of the Matadors for this season, has signified his intention of returning to Lubbock as soon as possible. His friends say that the reason behind his "Hurry West" idea, is that the home townpaper, anxious to give Tech students publicity, has had agents out after a picture of Jack's trophy, which was awarded him this spring by Coach Cawthorne, for being the best all-around athlete.

Homer Hardberger, former Tech student and president of the fish class of 27-28 has been working for the Shell Petroleum Company this past year. He recently received a promotion and was transferred to Yoakum, Texas.

Hugh Anderson has been working in Hobbs, New Mexico this summer at the Morrison Bottling Works. Hugh plans to return to Tech this fall.

Eugene Wilson and wife, who was formerly Miss Sarah Williams, are the parents of a daughter. They are living in Austin. Both were former Tech students.

Margaret Easkin, who was assistant in physical education last year has been employed by the Tulia school board to teach physical education in both the grade and the high school there.

Geel Worley, engineering student from Snyder, has been employed as a forest ranger in Yellowstone National Park this summer. This is the second summer that Worley has done that kind of work. He plans to return to Tech this fall.

Kern Aldridge and George King, former Tech students, are working in Hobbs, New Mexico.

Crawford Black, who has been attending both terms of summer school plans to enter Tulane University this fall. Crawford has been taking a pre-med course at Tech.

Ronnie Shepherd has been working in Lubbock most of the summer. He is making plans to enter school again in September.

Bill Teal spent the summer in Lubbock working.

Brad Nunnele has spent the summer in Boulder Colorado.

Donna Vaughn, a Tech beauty for the past three years, toured the western states this summer with her grandmother. She will be back this fall.

"Hash" McKinney, another of the Waco lads, recently visited Tech and announced his plans for the fall. He will be back.

Leliese Hays, former Tech student is going to teach school near Archer City this fall.

Bill Walker, Pampa, is working in the oil fields of Hobbs, New Mexico.

Claudine Cook of Lorenzo will instruct in the schools at Hobbs, New Mexico.

STUDENT ACTIVITIES

Any school activity, any school function, any school duty or privilege to be a success from the school's viewpoint must be participated in by a great majority of the student body. At this particular time Tech is very much interested in the promotion of the sale of the student activity tickets.

In one sense the purchase of an activity ticket is a duty, but in the long run it is a privilege. Any thing that can be bought at less than half price is more than a privilege, it is a bargain. It is a duty because its purchase means the assurance of a fund to carry on athletics, physical training, debating, the band and other social functions of the college. It assures you of a paper to read, the Toreador, and you know that you would not want to be without the paper. It is impossible to build a good school spirit without these things as it is to build a brick building without the bricks. These activities have grown to a point of necessity. We want them, we need them and we must have them. Thus it is only right that we should support these activities.

The purchase of an activity ticket makes these necessities a privilege to be enjoyed by all. The ticket entitles you to admission to all contests in athletics, debates, and to all social affairs held by the college on the campus. In the course of a year some six football games, around ten or twelve basketball games, a track meet or two, three or four debates and numerous social affairs can be enjoyed. The cost to attend these affairs and pay the regular gate charge would more than treble the cost of the ticket. Thus the ticket is of great value to the one who buys.

The cost of the activity ticket is \$10. Law forbids the school authorities to make this tax compulsory. A great number of the students feel that the cost is too high, others do not plan to take part in these activities, and I guess there are a few who expect to or have to get by the best way they can. To those who believe that the cost is too high read this: Texas A. & M. by a unanimous vote of the student body passed a tax of \$15 for student activities and student publications. Oklahoma A. & M. has a tax of \$9 for athletics only. Arkansas has a \$15 tax which includes athletics and health only. Florida students pay the sum of \$26.75 and receive little more than Tech students. Oklahoma University has a \$10 fee, mostly for athletics as does Arizona. A more detailed and specific survey shows that Tech students get more per dollar than any of the schools mentioned. It is also well to note that most of these schools have a high percentage of sales. It is an honor, a privilege and a pleasure to own a ticket. It gives you a distinctive feeling that nothing else will do. To those students who plan to take no part in school functions or activities we can say this: whether just or unjust you may be a target for criticism. We do not know your financial status or conditions nor do we particularly care to know them. If you say that you do not have the money then it seems that you have not made the preparation that should have been made in order to fully enjoy your college privileges. We know of those students who have given up a few shows, dates, etc., in order that they may have the ticket. They are all proud that they did own a ticket. The student that does not have the desire or ambition to want to take part in the life of the college has the wrong attitude. Your participation in the affairs of college life will affect your attitude toward your fellow man in later life. Thus it is important that you should lay a good foundation.

Were it possible to make this small tax compulsory the majority of the leaders would be in favor of it. Last year some 723 students bought these tickets. This is less than one third of the student body. This is a fact that should be faced with a downward countenance and a determination to do better. As has been stated, we are to have six football games at home this year. One of these games will be a homecoming game. How about showing those old men and students who have gone on before that Texas Tech has the liveliest student body in its history, by having out at the game at least 90 per cent attendance of students on activity tickets. Its effect will be far reaching. The old students would be proud, yes, extremely proud that they were at

one time a member of such a great student body. You yourself would be repaid by the actions of these old men toward you.

LOOKING BACK

It was a beautiful autumn day in the fall of 1925. Every thing bespoke prosperity and happiness along with western hospitality. On the outskirts of the city of Lubbock had arisen a monument to the Thirty-Eighth legislature of the state of Texas, and an inspiration to the people of the Plains, West Texas and the world at large. This monument was Texas Technological College. It was a beautiful place, if plains country can be called beautiful, some 2000 acres of land dotted here and there with four or five of the best buildings of modern science and engineering. The gates were thrown open, as the saying goes, for the people of the West to take advantage of a golden opportunity and educate themselves.

They took advantage of this opportunity. On this beautiful autumn day some 925 availed themselves of this chance and enrolled in the college. It was wonderful, surprising, this large enrollment. It came as the answer to the prayer of hundreds of people. The West was happy, the legislators, with expanded chests and large cigars, were content with the work they had so wisely instigated. Never had a college started with such a bang. It seemed that the West had been supplied with a long and much needed necessity.

The students, boys and girls, young and old, poor and rich, weak and strong, and of every type, shape, form and fashion were in attendance. They were united upon a few things, however. They were all friendly, they were all the originals of that western hospitality, they were all equal. They did not know that because they had been a high school hero or class president, that they were in a select group. They did not think that they owned the world. In fact they had lived on the plains and would not have had it as a precious gift. They knew the value of the dollar but they did not squeeze it until the eagle cried. They did not think themselves too good to speak to the fellow who had to work, they admired him and it seemed that they all wanted to work. As a whole they were congenial, friendly, liked to do things and wanted to have a good time. A fairly successful season in football helped to establish what seemed to be destined a great school with a great spirit.

But times have changed and with it the school, its students and its teachers. The beginning of the sixth year could be made an important one. It seems that things are now in a state of coma. A good year in 1930-31 would have a far-reaching and lasting effect on the years to come. It could, to a certain extent, determine the growth, expansion and development of the school and the West. The West will probably go forward regardless. Will Tech keep pace with the West? As some great song writer has said "It all Depends on You," you students, we students.

We have lost a few personages around the campus that will be hard to replace, students and teachers. On the other hand we have gained a few teachers and hope to gain a few students that will more than replace that loss. Necessity breeds its own means of redemption. It will be easy to stay in this state of coma, it will be easier to retard, it will be work to progress. Which course shall we choose?

Outside of learning or the desire for knowledge, athletics appear to have and hold the major part of the attention of the students. Football is a major sport. Thus to football can be placed a great responsibility. If we win we progress, if we lose we retard. A few conclusions can well be drawn. First, we must work to have a good year. This would mean that we should take part in a few classes, buy a few books, etc. Next, we should engage in a few extra-curricular activities. Among these y'all practice should be first. Anything that the school attempts we should feel included. This old feeling, "I can stay at home and sleep and some one will do my part," is a good one but it has been overplayed. It is often truly said that you get no more out of a thing than you put into it. Put a lot of easy sleeping hours into your college work and you will reap about the opposite.

Next we can change the prevailing spirit just a shade. The idea of a "fish" running loose is not desirable. It is as desirable as a brand new B. A. would be at the head of the government department. It just doesn't work. Ask Doc Jackson. The quicker a "fish" finds out how low the bottom really is the quicker he knows how high he is. When you send your "fish" out here let him know a few things. Then this club business. It is in such a Hell-of-a-mess that it is hard to say anything about. If you don't belong to the Do Re Me's then you can go to Fa So La. Now that isn't the right spirit and you know it. We can't all be Do Re Me's and there is not room enough in Fa So La. What can be done? Your club can be your ideal. You can see at least a little good in some of the other clubs. We want to build up a good spirit. Outside of our particular club affairs we can all be the same. Just because you are in one, some one in another does not make you a bit better than he. If you think you are the only pebble on the beach then pray some one to help you. Come back with a spirit of peace and friendliness, try to get acquainted with every one especially the one you room with. If you have this spirit then all things will rock along smoothly. I'd hate to flunk a course just because a Prop of mine was the member or sponsor of some club that I didn't like, wouldn't you?

CALENDAR FOR SIXTH ANNUAL SESSION 1930

September 15-17, Monday-Wednesday. Entrance examinations.
September 17, Wednesday. Freshman orientation. All entering freshmen required to be present.
September 18-20, Thursday-Saturday. Registration.
September 19, Friday. "Open House" for all students by the churches of Lubbock.
September 20, Saturday. Reception of President and Mrs. Horn to the student body at 8:00 p. m., Administration building.
September 21, Sunday. Annual Sermon.
September 22, Monday. Fall term classes begin at 8:00 a. m.
September 24, Wednesday. President's annual address.
September 26, Friday. Home Economics Reception for freshman home economics students.
September 29, Monday. Last day to register for full work.
October 6, Monday. Last day to register in fall term except by special permission from the dean.
October 8, Wednesday. Artist course, Gymnasium.
October 23, Thursday. Artist course, Gymnasium.
November 4, Tuesday. Mid-term reports due in Registrar's office.
November 11, Tuesday. Armistice Day.
November 27-29, Thursday-Saturday. Thanksgiving holidays.
December 15-19, Monday-Friday. Fall term examinations.
December 20, Saturday. Fall term grades due in Registrar's office.
March 20, Artist Course, Gymnasium.
April 15, Artist Course.
December 21, Sunday. Christmas recess begins.
February 16, Artist Course, Gymnasium.

Personal

After recovering from injuries received in an accident early during the summer R. V. Willis has been visiting in Lubbock.

Mary Beth Sheeley, outstanding woman debater in the campus has been visiting in Dallas throughout the summer months.

Jelly Kelly of Miami is to be in school this fall. He skipped out on us last year except just for one or two week end visits. Wonder what the attraction is?

Gus Joiner of Pampa is planning on doing some heavy studying this fall when he enrolls. He has been in and around several times this summer.

Marie Butler, after attending the first six weeks of summer school, returned to her home in Gatesville, and announced that she would teach school this fall.

Lillian Fette of Muenster is to be numbered among the first year students of Tech this year, transferring her credits from Aquinas high school in LaCrosse, Wisconsin. She is a sister of Mrs. C. W. Ratliff, the former Miss Margie Fette, student in '27, '28 and '29.

Don't forget to buy that activity ticket.

W. H. Red Carpenter former tackle on the Matador eleven reports that "little" Red will be raring to go in another decade or so for a similar place.

Roy Taylor was seen on the Campus of Oklahoma A & M during the summer.

Jeff Newton was seen in Lamesa during the hot days of August. He will be remembered for his high ideals.

"Hawkeye" Hardwick is working in Oklahoma City for an oil company.

Felice and Willie Pearl Docket have been in Lubbock during the summer.

Patlie Hopping attended a girl's camp for the greater part of the summer. She plans to put things over big for a select group.

If every one will buy an activity ticket then we will all be at the games.

Let's all take a big part in the school activities.

A stitch in time saves nine. Come back to school this year and save yourself a lot of trouble and worry.

A rollin' stone gathers no moss. Let's all have a clean slate for the coming year.

An activity ticket is worth ten times the amount that you pay for it. Don't fail to get one.

Remember the activity ticket in that first amount.

Let's have a 100 per cent sale of activity ticket.

H. Y. Price has been around a bit this summer. He is now serving as the president's stenographer. Some boys have that way.

Fred Moore has accepted a teaching fellowship at the University of Virginia and will go there this fall to begin work on his degree.

Frances Ford has been in the east all summer. She will attend Smith college this fall.

Troy Foster has been at Alabama Poly this summer. It is not known whether he will return or not.

Miss Johnnie Bess Richards and Elizabeth Crews are leaving for Midland to attend the teacher's institute before going to Andrews where they will teach.

The Duck N Dining Room welcomes the Tech girls and boys.

Lloyd Pyett, '29, was in Lubbock a few days. He will teach at Louisiana University this winter.

Doris Ladd Johnson and Joyce Johnson are spending the summer in Wyoming.

Helen Coon gets her degree this fall. She will visit in Dallas a few days with her parents. A "special" sure does make her nervous.

Horace Dean has divided his time between the golf course and summer school. Among the new millionaires.

Bill Lowmore has attended Alabama Poly.

Campbell Loughmiller who was in school in '27, '28 and '29 has been heard from in China. This is his second trip to the Orient. He seems to be traveling quite a bit since he left school.

Arlis Herndon, student of '29 is now in Texarkana working for the surgical and medical clinic.

Alton Hutson '29 is a big insurance man of Oklahoma City. He reports that the insurance business is good.

Louise Bates plans to take a trip to Dallas between the summer term and beginning of regular school.

Opal McKay will teach in Wilson next year.

Mary Edna Chapman, who was prominent on the campus last year will teach English in the Lorenzo high school this winter.

George Drake will teach home economics at Newlin next year.

Ada Ruth May and Eva May have been attending summer school in Boulder, Colorado.

Eugene Adair has been saving the poor art-herless at Tumble N pool this summer.

Murray Ballinger and Dave Smith have worked for a local ice company this summer. They should get over big next fall.

W. B. Rushing, Homer and Robert Maxey have opened a most amazingly futuristic grocery on 16th.

Brooks Penry is still in Lubbock after a small mishap on the ranch last spring. He plans to enter Tech this fall. Ask him about 17th street.

Mary Hope Westbrook, '27, has been in summer school working in her M. A. degree. She said that she passed the oral examination O. K.

Nina Davies was seen playing the victrola in room 310 one hot evening this month. The moon had not had time to do its duty but things will turn out O. K.

Hubert Hopper of track fame will not be as prominent on the campus this fall as in the past. He will be busy helping the women's sewing circles. He visited in Kerrville for two weeks.

Lucy Gregory taught the first term of summer school. She will be in Amarillo this winter.

Gordon Thompson is recuperating after a civil service examination. He will not be in school this fall.

Denton Underwood has decided that he has been here long enough. He took a little German this summer.

Claude and Clyde Thompson have been in and out of Lubbock several times. It is hard to keep up with those boys.

Skinney Bell just cannot resist the women. He had a theory about dates but it was proven false. He will tell you why.

Jim Kerr is working for the highway department. Jim may be back in school this fall.

Buck Weaver, graduate of '28 had his car painted this summer. He figured that it would help him with the women.

Prominent on the campus this summer were Beryl Birdsong of Greenville and Annie Laurie Goolsby of Abilene. They will be back next summer according to present plans.

Mary Lee Jameson has made a rather big hit with some of the professors of the school.

Mr. and Mrs. Ernest Wisdom spent the summer in Lubbock.

Paul Hardy is back from the National Guard camp.

Kathryn Harmon reports things in fine shape and her intention of returning to Tech.

Pauline Scott and Clarice Scott of Idaho have been in Lubbock this summer. Pauline is now working for the telephone company in Dallas.

A prospective student is "Fish" Walker of Brownwood. She came up to look things over.

Haden Moody member of the fish basketball team last year and who has been giving the women a treat this summer in his home town of Becton was a visitor on the campus the last day of summer school.

Edna May Slover will teach in Mountain Air, New Mexico this winter.

WHEN THE WORK'S DONE THIS SUMMER

When the doors of Tech open this fall for a year of hard, earnest studying we'll be present.

Think of the dances, parties, courtships, heartaches, smiles of some sweet thing passing in review through those portals of learning, ball courts, club and class rivalry, politics and football games, all of which will be encountered in this next year's work. Then too, some interesting professor giving out the learning for which he has prepared himself while we were still in the skin, lecturing to our eager but brain-trapping brains while we wear pencil after pencil taking notes that shall be pondered over only when finals begin.

There's an ache in my heart for those scenes again, there's a resolution on my lips to do better, to strive for that learning Tech so benevolently bestows upon us and to some day amount to something like the man or the woman I have held highest in my boyhood and girlhood days.

Write the ones to whom the world is turning to do things that will add to the comforts of this life. We will grasp the torch held out to us by capable hands and carry on!

In order to carry on this torch, figuratively speaking, we must equip ourselves by earnestly working, we must make friends and be friendly of those of our college days.

With the democratic life lead by Tech men and women always before us we shall be well equipped to carry on!

So come back when your work's all done this summer with that resolution to do and never to die. Tech is expecting you.

PICNIC FOR STUDENTS

Jack Halls Ranch was the scene of a Tech gathering at which most of the students from the Panhandle were present.

Sandwiches, drinks and watermelon were served. Dancing to music furnished by none other than the band, punch, Frank Stone, Tech '31 (maybe), featured the main amusement.

Thirty minutes from the close of the enjoyable evening came a mud splattered Ford Coupe driven by the sons of Mr. Taylor from Stafford, Bob and Thomas.

As usual the crowd was late but those who arrived before this reporter resumed his own personal amusement were: Miss Helen Wetmack, Miss Blanche Walker, Miss Pauline Rogers, Miss Jesse Mae Hysden, Mrs. "Smut" Merrill, Mrs. Jack Rogers, and Miss Jules Verne.

Tech men included Sam Lemora, Chink Burnett, "Smut" Merrill, Vincent Foster, Herschel MacFarland, Jack Rogers, Bob Taylor, Thomas Taylor, Harold Battersworth, Frank Stone, Chuck Collins, Bob Higginbotham and J. W. Timmons, Jr. Mr. and Mrs. Jack Hall chaperoned the gala event.

King Sides is back in Lubbock after attending the National Guard camp. He has some interest here that seems to be of great importance.

We are sure that Betty Binnion still keeps in close contact with Oklahoma City. Betty has a big time all the time.

Crystelle Boone and Anna Belle Pool were seen riding about the town this summer. This Boone lady is some traveler and it is hard for one to keep track of her. Ask Ox.

Fish Jenkins was not so hot as a salesman so he is now playing tennis on the new courts.

Frances Gunn has won quite a few honors this summer. She was selected as Miss Lubbock, Miss West Texas at Abilene, and also represented Lubbock at the Oil Men's Jubilee at Midland. She is now in Dallas at the Southwestern Style Show. She will be back in Lubbock this fall.

Pern Gunn is working for the Telephone company here this summer.

Madeline Elliot has been in Lubbock on several occasions this summer. We don't see how Brownfield can spare her a minute.

John Brown a native has been to Canada and also to the western coast. He plans to be back this fall.

Haskell Baird has been in summer school for a few years this summer.

Miss Pauline Miller, graduate of 1929 has been acting as student assistant this summer in the Biology department. Miss Miller studied medicine in the Galveston Medical School in Galveston, Texas. She will continue her studies there this winter.

Miss Pearl Harrison, has been spending her vacation at home in Roswell, New Mexico.

Mary Lane, Roswell, New Mexico, has been attending school here this summer. She was a student in Sullins, Bistot, Virginia last winter. Mary, we hope will at sometime decide to return to Tech for a long session, and really get that old "Tech Spirit".

She—"It tells here of a man who hasn't spoken to his wife in fifteen years."

He—"Perhaps he didn't want to interrupt her."

More statistics, declares a writer, should be placed in the middle of ornamental ponds. But very few ornamental ponds are deep enough.

The state of Virginia presented the pole conquering Admiral with a sword, but it seems that an ice-pick would have been more useful.

ROY PORTA TYPEWRITER

W. L. Haste

1908 13th

Easy Nettles, after having toured the West, has spent the summer at home. He will return this fall and take charge of La Casita sandwich shop, "the place where we all hang out."

Carey Lodal, who was chosen as the best college citizen last year and as such was given a \$100 scholarship, has been spending the summer working and studying in textile mills in Georgia.

Fritz Chandler is back at home in Lubbock after having visited in Louisiana and Arkansas. He will work at a local drug store and attend Tech this fall.

F. M. Coker, who registered some time back as being from Athens, has moved to Paducah. That puts him a little closer to home and his folks expect that he will do better next year. He will peddle blank space to be filled with ads in the 1931 La Ventana.

Cecil Hiley of Dallas has been working for Skillern's Drug Store in Oak Cliff and will return to Tech this fall.

Ellis Foreman has spent the summer working for City Drug store here in Lubbock.

Riley Ham, after having attended an insurance school in Amarillo, has spent the summer in Teague selling insurance.

Willis Gray, of Yoakum, Texas, a graduate of '28, will finish at Baylor Medical School next year. He was an honor student and a star baseball pitcher having been the first man to lead a Tech team to a victory over a Southwestern conference team.

Harrison Thomas of Eastland has spent the summer in Abernathy working for a construction company.

Joe Kelly, after traveling in the West, has spent the summer in Lubbock working in a dentist's office.

Ray Moore has spent the summer at home in Hamilton, Texas, and will return to Tech this fall.

"Scapy" Moore has spent the summer at home in Hamilton, Texas, and will return to Tech this fall.

"Soapy" Moore has spent the summer in Hamilton assisting his dad with the duties as mayor of the town.

Willis Jones of Lamesa will reach this fall.

Weaver Medlin has been working in a Lubbock filling station throughout the summer.

Byron "The Great" Claunch will try to be the Tetsel of modern days. He will fill the pages of the Toreador with the newest and most up-to-date news of the day.

At the "hoss races" at the Hamilton county fair were Wilma Parks, Jackie Durham, B. Claunch and "Gawifer" Williams. We can see them with their peanuts, balloons, etc., trying to pick the winner. Wilma will be back with bells on.

Raymond Pfluger is giving the girls of Eden and surrounding territory a break this summer by staying at home. He says that his personality and business administration has not helped business a bit this summer. We look for him back a little ahead of time.

Trent Campbell must be preparing to enter Chicago's racketeering business, having spent the summer in the book store.

Where there is one the other is not far away. Clyde has kept Van hopping this summer, while he has been attending summer school.

Ira, Texas, will have the pleasure of Margot Dell Prim's teaching this winter. We wish that Margot could finish school first.

Virginia Murray, Marjory Ann Ainsworth, Mrs. Ed Allen, Mary Lois Gamel and Beth Wulfman spent a few days at Yellowhouse ranch.

James and Barton Atchison of San Antonio, visited their folks in 9th street this summer. Both have good reports of all Tech students down their way.

Dorothy Rushins accompanied her aunt and uncle, Mr. and Mrs. W. E. Atkins to New Mexico for a two weeks stay. She was also the guest of Miss Lena Burt Medlin in Stamford for a week end.

Wayne Casteberry, new student prexy, has been seen in Amarillo, Lubbock, Eastland and intermediate points on different occasions this summer. He is anxious for school to start so that he may begin his term of office. He is planning on a big year.

James Harley Dallas, student vice president and otherwise known for his good looks and speed has been running down the Frigidaire business in his home town of Brownfield by giving that personal touch to refrigeration that can not be mechanically given.

Mose Witherspoon, a native of Strawn has kept his light under the bushel up to the present time. Mose intends to start his sixth year with all the pep he had the first year because next year he is to represent the students in the secret meeting of the Athletic Council.

Bubba Nettles, after having toured the West with his brother, has spent the summer at home. He will return to Tech this fall.

Red Gainer has spent the summer at home and will return to Tech this fall.

Red Huff was seen riding on the running board of a car around San Antonio. We thought he would be in Tennessee. He will be back with us.

Theo Hazelwood, self appointed caretaker of Tech co-eds is also at home in Goose Creek. Rumors have it that he was at one time this summer employed by a construction company. This may or may not be taken as a joke.

Camie Stobaugh of Coleman was the house guest of Miss Virginia Murray during the first week in August. Miss Stobaugh attended the University of Texas the first six weeks of the summer session, but she expects to return to Tech this fall.

Christine Carter, LaVerne Yowell, Elizabeth O'Connell and Brilla Mae Willis were the guests of Miss Edith Sanders at a house party in Anton.

Gall Quinlan and Virginia Murray visited Camille Stobaugh in Coleman.

Don Maddox and Jack Maddox of Meard were in Lubbock for two days during the early part of the summer. Don is anxious to get back to Tech.

J. P. Ruhman and Prof. H. B. Carroll are planning a fishing trip to New Mexico the last week in August.

The new Duck N Dining Room, 2410 14th St. They will be joined by Don Maddox at Menard.

Fred Rich will teach at Wolforth this fall and coach athletics.

Arthur "Chink" Burnett of Dumas will not be back this year. He has made quite a success of the insurance business.

Alpha Berry, who has attended both summer sessions, plans to enter Texas University this fall.

Joe Asher, '33, of Paducah, is anxious to return this fall.

A. Z. Howell, star pitcher for Tech in '29, has spent the summer on a farm near Paducah. He probably will not be back until the winter term begins.

Lois Morrison of Lubbock has spent the summer at home and is now anxious for school to begin. Probably so Jack won't have to wait any longer.

Ted Grayum of Paducah is a proud "papa" now and probably will not be back this fall.

Louise Bates has attended summer school and will continue on through the fall term.

Tech Folks Hurry Back...

We miss your little groups on the streets--your going back and forth on Broadway hoping for a ride--your Collegiate Fords on the campus--in short all the things you do that gives Lubbock a youthful air when you are here.

Come Back With New Enthusiasm

Everything is in readiness for you--the old campus has been freshly mowed--the football field looks wonderful with its new coat of grass--the buildings are all spick and span--your old hang outs are being freshened up for you.

It will be a great year for Tech, this 1930-31 term.

Freshmen Caps Again This Year

We wouldn't feel right if we didn't start each class of Freshmen out with the old Green Caps. Again this year we will supply them and as always before all the profit goes to the College Activities. See to it that "your" Freshman gets off on the right foot--

YOU OLD STUDENTS, COME IN AND SAY HOWDY AS SOON AS YOU GET BACK--WE'LL APPRECIATE IT FOR WE HAVE MISSED YOU--YOU NEW STUDENTS, ALSO, WE WANT TO ASSIST IN WELCOMING YOU--

CAWTHON CALLS GRIDSTERS INTO TRAINING ON SEPTEMBER 10

Host Of Players Await Coaches' Call For Training; 10 Lettermen, Reserve And Fish Athletes Included In List

Durham, Brothers, Vinzant, Tadlock, Waller, Langford, McWilliams, Nixon, Floyd Back

A host of men await the call of Head Coach P. W. Cawthon on September 10 when he opens his first fall training camp at Texas Tech. Included in the list will be ten lettermen, at least that many reserve players from last year, score or more of freshmen, stars from last season and several other men not reporting heretofore for athletics at the college.

Although everyone is pepped up over our new coaches there seems to be a little pessimism circulating concerning the prospective players. Whether they are the best in the world or not remains to be seen, but they are ours and all that we have and are proud of them. Let's stop and check and double check for a moment on the players who will be out there hustling for a place on the Matador eleven.

Captain Is Factor
"A team is no better than its captain" is one of the many little maxims that Mr. Cawthon has placed in the dressing room for his prospective athletes to read. Not a truer thing could be said. That is not one of the many obstacles that faces the new Tech mentor for he has in Captain Jack Durham all that any coach can ask for. He is in Jack a true lover of sports and a square shooter under any condition. He has in Jack a man who loves the game and loves it. He has in Jack a man who has the true spirit of Tech at heart and a man who would give his very all for Tech, and her athletics. No sacrifice is so great but that Jack would make it for his team mates. He is loved, honored and respected by his team mates and the student body to a degree that is almost incomprehensible. His true fighting spirit coupled with the love and respect for his ability and knowledge of the game caused his team mates to bestow upon him the greatest honor that can come to a Tech student: to be chosen their captain and leader on the field. It is a well known fact that no harder hitter, no cleaner sport, or any better trainer has ever represented Tech in an athletic contest. A great part of our success rests upon his broad shoulders. Our chances could not be placed in a more worthy place.

Jack Is Working
Jack has been climbing telephone poles, slitting ice and other things this summer that will put him in tip top shape for the opening of practice on Sept. 10th.
Buddy Burdette is the boy with the "million dollar" toe. He is more than that for Buddy is a hard hitter, a good ball carrier and an excellent interference man. His long perfectly placed spirals will net Tech lots of yards this year as well his perfect blocking help the other boys have a easy time settling on up the field. It is worth the money. She watch just how much that boy puts into the game. He is in there giving his best, which is no little amount, from whistle to gun. It is his fourth and last year.

Buddy went to summer school for a while, played baseball in Hobbs, New Mexico and is now here working on the new lockers.

Rip Coming Back
Latest report is to the effect that Clyde has finally consented to let Rip Vanzant play this year. She cannot get over worked up over him having his hair cut short but supposes that it is all right if Mr. Cawthon thinks it best. Airway Rip plays an end and will not receive any punts. Some one told me that the reason Mr. Cawthon insisted that the boys have their hair cut short was that Del Morgan lost a game one time because his hair fell down in his eyes and he fumbled a punt. Of course that is guaranteed talk. Rip plays his fourth year this season, needless to say that his art will be taken care of as well as possible. He has played some brilliant football during the last three years and we are hoping that he will do things even more wonderful than in the past. Rip has been going to summer school in off hours and assures himself of a degree next year.

Hodges Is Good Type
Hodges is the type of player that Cawthon likes to work with. He has played three years for Tech and has showed us in every game the real stuff that he is made of. He has been the mainstay of the backfield for the past two years and has carried the brunt of the attack most of the time. He is probably one of the most consistent ground gainers that Tech has ever had being fast, shifty and powerful. With a short choppy stride Hodges gains many quick opening holes before it closes and is away for a good gain. This being his last season much will be expected of him.

Hodges has been as elusive this summer as he is on the field but we are sure he is looking forward to a good year.
If you see one you always see the other one. That is likely to be the case too when some ambitious "would-be ground gainer" takes the ball this fall. You are sure to see Big George Langford and Big Bill McWilliams right around his ankle. George is a tower on the defense and Bill is power. George has been working hard all summer at the

GRID CAPTAIN

JACK DURHAM

gym. He has gotten just about as black as the law allows without having kinky hair. Several have been anxiously watching to see if he will not turn up (not on Sat. afternoon) with his hair all greasy and kinky. Bill should be ready to forsake society and get down to work pretty soon for he tells us that he got quite bored with Clara Bow and the night life while on his little tour of California. Someone also whispered around that he traveled "incognito" while on the trip. Upon hearing this Bill said he wasn't sure but he guessed that it was right for he went up and down. Lookout Mt. on the rim. These boys names speak for themselves and it is needless to say that with them and Simmons the positions of tackles should be well covered for.

Red May Be Shifted
Red Wallter will likely be shifted to a half back where he can be used to carry the ball more effectively. As will be remembered "Red" has shown his best football for Tech at this position. We are anxious to see his "red head" out there doing it's best for Tech. This will be Red's last year at Tech and we are hoping and expecting with him that it will be a year that all of us can be proud of.

Red is playing around at his home town, taking part in a few baseball games and resting up for fall training.

It is hard to think of a line without thinking of fast guards who can pivot out and get in some real blocking. Nixon showed us last year that he is one of the boys who can do it. I am sure that his high school training at Eddy and Waco helped him a great deal, but regardless it seems to be natural with him for he loves the rough stuff. He should be a big help in the line this year.

Comes Rushing Back
Lubbock holds other attractions than school for Nixon and after a visit home he came rushing back out of that line.

Simmons has used his 190 pounds just one year on the varsity. If you think that he does not play rough just watch the fur fly when he is in the middle of the line. He is the kind that "knows not his strength" but uses it very advantageously. He is a good trader and a hard worker. He tries hard but somewhat too conscientiously. Simmons plays either guard or tackle.

He has stayed in Lubbock this summer and what time he was not scouting has worked on the new high school building.

Tadlock Counted
It is hard to think of Tech Athletics and leave "Fee Wee" Tadlock out. Tad has been very prominent in athletics here for the past three years and has earned about as many letters as he can afford to pay the freight on to Amarillo. We have seen him as a star on the cinder path and watched him shoot goals from the center on our basketball team. He has played one year on the varsity and has made a good thing of it. He says that he is not satisfied with the defeats that Tech suffered last year and that he is determined to help redeem them.

Tad is spending his vacation in his home town and will be back here this fall on time.
Bill Improves
Bill Hill was not very well pleased with his season last year. He is the type that works seriously and improves constantly. Very little improvement will be necessary for him to make a real good halfback this year. We admire that boy for his determination and grit. He is going to make history for Tech. His coolness and smoothness is something that "Coach" can work with and have Tech making back some of those yards that they have given away because they have not been able to perfect their passes heretofore.

He has been working in his home town, Lamesa but has found time to visit us a time or two this year.
Asres In His Place
Roas Ayres the boy who believes in keeping a freshman in his right place, can do other things equally as well as he can get freshmen told. He is one of the hard working, hard hitting conscientious boys who likes

Students To Find Things Changed At Gym; New Field House Is Erected To Provide For Athletics; P. T. In Gym

The students of Texas Tech, and especially the athletes will find many changes in the gymnasium and upon the football field to show that Coaches Cawthon, Morgan, Golightly and Smith are in earnest to put Tech at the top in an athletic way. Since returning from coaching schools, the new mentors of Tech have been busily engaged in work which they hope will make changes in a beneficial way toward better athletics.

One of the outstanding trophy rooms of the state is under construction inside the gym, and here the pictures, trophies, etc. of the past and the future will be arranged to give an air of comfort and personal pride in Tech's Matadors, a team which the coaches hope to be among the foremost in Texas. No one will be allowed within the room except lettermen and faculty members. A large writing room with T. T. club stationery is to be furnished the T. T. men. Books on football, basketball and all sports will be upon the tables, along with the leading papers of the day. This room, the home of T. T. men will bring about tradition, love and honor to the Matadors.

Field House Is Built
Under the steel grandstand a new field house is under construction to house the athletes. It is to be large enough to accommodate sixty Varsity men, along with one hundred Freshmen players and will contain rooms for showers, rubbing tables and an office. Here Coach Cawthon hopes to start a foundation for great Tech teams in football, basketball, and track. All equipment will be stored and kept in the new field house.

Hereafter all Tech teams will come on the field directly underneath the grandstand from a chute leading from the club house to the field, thus saving the players in cold weather from the possibility of taking cold. This also enables the coach to take his men on and off the field quickly.

Offices Enlarged
The coaches' offices in the gym have been enlarged and painted, properly filled with desks, etc., and here all files and business matters will be carried on.

Coach Cawthon has purchased all new equipment for varsity and freshman teams so that the Matador teams will be equipped as good as any team in Texas today. Nothing is being spared in the program to put Tech forward.

To Provide for P. T.
Mr. Golightly has worked out his plans for every student taking P. T. this year to have a locker, and this means that about 850 students will be taken care of in this work. Hereafter no athletes will use the gym for dressing and this will give sufficient room for all those desiring P. T. to be properly housed. The coaches' offices in the gym are to be made into indoor baseball lots and the P. T. classes will enjoy much soft ball this fall, a sport that is very popular over the country today.

The coaches also have repainted part of the gym and the ticket boxes to the field, giving everything an air of a real Tech year. The four coaches certainly have put in a very busy time working, and the 1930 students will see several changes upon entering the field.

HEAD COACH

PETE CAWTHON

Four New Coaches

Continued from Page 1)
his services for the next two years. Long will the teams he coached at Terrill Prep be remembered. The state championship was won each year. His first year he coached a team that was considered by authorities as the outstanding eleven in Texas. He won the championship that year and also the following year. They played and won games with Southwestern Conference teams, teams in their own conference and out of state teams. Saxon, Morgan, Frank, Nelson, Smith and Keeling are some of the outstanding men who have been coached by Mr. Cawthon. Each of these men and some 40 more of his players are now coaching.

Retired Due To Health
Coach Cawthon continued at Austin College until 1927 when ill health caused his temporary retirement from the coaching game. He is married, and has two boys that are following in their dad's footsteps.

Besides being head of the athletic department and a head football coach he will have charge of track and also conduct spring football.

Morgan Well Known
Coach Morgan needs no introduction to any old student of Tech, he having served on the coaching staff of Lubbock high school for the past three years. While in Austin College Morgan was an outstanding athlete and made an enviable record from 1921-1925. Serving as tackle on the football team he was chosen on the all TIAA mythical team for four consecutive years. At the present day Coach Morgan is regarded as the greatest tackle in the history of Austin College. In basketball he was a regular, playing as guard for four slightly less colorful years than his football record. In baseball he served as pitcher and outfielder for four years also and at the end of his college career signed a contract to play professional ball with the St. Louis Cardinals of the National League.

While in college Mr. Morgan earned the \$250 award for the best all-around athlete in the Kangaroo school. Besides being a great athlete he served as president of the student body.
Attended Coaching Schools
Coach Morgan has attended coaching schools in the past three years

Athletes To Be Housed In Cheri Casa During Year

New Coaches To Have Entire Football Squad Under One Roof; Coaches Morgan And Golightly In Charge

Plans whereby the Matadors, Freshman ball players and Coaches Morgan and Golightly are to live in Cheri Casa have been perfected by Head Coach Cawthon. This is another of the many plans adopted by Coach Cawthon to put Tech athletes upon the level of Southwest Conference teams.
The players will have the advantage of a well supervised diet that will facilitate training conditions. Strict rules will be enforced regarding hours of study and hours of sleep. It is hoped, by having all the men together and in constant contact with each other, that a wonderful fighting spirit can be developed. Every varsity man will be asked to room with a Fish. A spirit of loyalty to one another will also be developed.

Houses Eighty-Seven
Cheri Casa will house eighty-seven men. Coaches Morgan and Golightly will not have any easy job but from past records we are assured of their capabilities, these two having had charge of like dormitory at their Alma Mater.
In making the announcement Coach Cawthon left the impression that in securing the dormitory he was very pleased. It having relieved his mind of his greatest problem.

Meet your friends at the Duck N Dive Room after the Matadors beat Wayland.

LINE COACH

DELL MORGAN

that have been supervised by the most outstanding coaches of the present day including: Knute Rockne, D. X. Bible and Howard Jones as coaches of football. Courses in basketball being given by Lambert of Purdue, Meanwell of Wisconsin and St. Clair of Southern Methodist University.

He is to be Varsity line coach, have charge of boys who work on the athletic field, and assist in basketball.

Golightly Experienced
Coach W. L. Golightly is probably the most experienced of Head Coach Cawthon's assistants. His college athletic career ended in the year 1922. He attended Austin College and while there with Chapman turned a great half back. He lettered in basketball and baseball. He won the \$250 scholarship for being the best all round athlete, was a student president, president of the A association and of the senior class.

After graduation Coach Golightly went to Cisco to help coach the Lobos, and there with Chapman turned out the best teams in oil belt history. Last year he was called to Rice Institute to assist Jac' Meagher with the Owls. He was to have charge of the basketball team. Coach Cawthon saw a need for him here and persuaded him to take up the work with the Matadors.

Attended Schools
He has attended the Howard Jones coaching school one year, Rockne's four years and Pop Warner's two years. Along with these the head basketball coach has received instruction from Lambert of Purdue, Allen of Kansas, and Meanwell of Wisconsin in basketball.

Besides being head basketball coach Mr. Golightly will have charge of physical education and will scout varsity opponents.

Smith from Austin Too
Coach Russell Smith hails from Austin College also, having obtained the necessary requirements for exit in 1925. For four years his major achievement was to gain recognition at end on the football team, as a tackle or blocker, and a pass snatcher. Two of these years he was selected as end on the all TIAA mythical eleven, having made several runs of 75 and 80 yards to touchdowns that were the deciding points of the games. He played two years without missing a single moment

Texas Tech's Matadors will enter their fall training with the burden of a heavy schedule upon their shoulders. A total of nine games will be played, six of these will be played on their home field and the remaining three on their opponents' field. No games will be played on neutral ground.

The first four games will be in Lubbock, the Matadors then journey to Fort Worth where they meet their only Southwest Conference team, T. C. U.'s Horned Frogs. The following week the Matadors play the Canyon, Buffaloes at Canyon. From Canyon they return to Lubbock to entertain the Wildcats of A. C. C.

Simmons Plays Here
Howard Payne will be played the following week at Brownwood. From Brownwood the Matadors return home to play the last game of the season with Simmons University. The game with Simmons will be Homecoming day and will also be Thanksgiving day.

The Freshmen will have a full season before them too. They will be divided into Team A and Team B. The following is the schedule for both the Varsity and the freshmen.

Varsity Schedule
Sep. 27—Wayland Lubbock
Oct. 3—N. M. Aggies Lubbock
Oct. 11—McMurry Lubbock
Oct. 27—Texas School of Mines Lubbock
Oct. 25—T. C. U. Ft. Worth
Nov. 1—Canyon Teachers Canyon
Nov. 11—A. C. C. Lubbock
Nov. 19—Howard Payne Brownwood
Nov. 27—Simmons (Homecoming) Lubbock

Freshman Schedule
Sept. 27—Cameron Aggies Lawton
Oct. 11—Amarillo J. Coll. Lubbock
Oct. 24—Terrill Prep School Lubbock

Other games are to be scheduled for the Freshmen.

Frank Stone of Panhandle has been seen in Lubbock driving a new car.

Veta Stafford, minus her accustomed background, of the east stairs, has been visiting around in East Texas.

The Duck N Dining Room welcomes the Tech girls and boys.

Eloise Nelson, a pledge to Las Chaparritas, has returned to her home in Sterling City after attending the first term of summer school.

Duck in and eat at the Duck N Dining Room.

from play. This is a record of which any player is to be proud.

While in school Coach Smith was president of the A association, and also received the P. W. Cawthon cup for the most valuable athlete in 1923. He was an outfielder on the baseball team.

Since leaving Austin College he has had a very successful coaching career. For three years he led Sherman high school to the district title. From Sherman he went to Amarillo. While there his team was district champs and were defeated by teams that later became state champions.
He has attended several of the coaching schools among which were Rockne's and Pop Warner's.

He is to be freshman coach, coach Varsity ends and be business manager of athletics.

Hey! Hey! Fellows---Welcome to Lubbock

AND TO COLLEGE

We hope this term at Tech Will be a very successful one for you---

AND REMEMBER

We are in position to serve you more efficiently this season than ever before.

(3 Reasons why you should let Bell Tailors Make Your Clothes)

FIRST---

Our Woolen stock will be nearly twice as large as ever before, giving you hundreds of patterns to select from. You will be surprised when you see the newest colors for fall. They are different from anything ever shown in Lubbock.

SECOND---

Through special efforts of our Woolen Buyers and close observation of the style leaders of America we will have on display this season exactly the same patterns and styles as will be worn in the Eastern Universities, putting us a season ahead of the average tailoring or ready-made store.

THIRD---

Prices are down. Here your suit and coat or two suits will cost you less than one suit in some stores.

PARENTS---

You want your boy to be dressed like the other fellows. Then let him have his Suits, Overcoats, Tuxedo and extra pants hand tailored to measure in the correct style. And one of the outstanding features in having your clothes made by Bell Tailors is the FREE PRESSING SERVICE. Every garment we make will be pressed free as often as once a week for one year. You save enough in one year on pressing alone to buy another suit.

OUR CLEANING DEPARTMENT---

Is one of the best and our prices are right

Suits C. & P. and Delivered 50c
Dresses C. & P. and Delivered \$1.00

You can have your Bell Suits and Overcoats called for and delivered free by sending them with other garments to be cleaned and pressed.

If your last year's suit or coat needs relining or remodeling, bring it to us. We understand this work and can do a first class job, as we work experienced tailors, only, coat makers and pant makers.

Wedding Bells

(Continued from page 1)

Travis, both Tech students, were married June 2 at her home in Brownfield and are at home here.

Dimple Rhea became the bride of Robert Lee Burr, of Dallas on June 3 in the First Methodist church chapel with the Rev. H. L. Munger officiating. They are at home in Dallas where Robert has a position with the Southwestern Bell Telephone company.

Robert is a graduate of the engineering school and a former member of the student council.

Robert Bruce Hallingham, who philosophized his way through that course 231 for Dr. Granberry, was married on the same day to Miss Marjorie Morey of Eckley, Colo. When last heard from Bruce was pounding a beat for the Lamesa Reporter.

Dutch Smith Weds

On Tuesday June 2 Russell T. Smith, business manager for the Matadors, and Miss Grace McKown were married at her home in Sherman. Mr. Smith dealt the local high school football team last year with his well-trained squad at Amarillo but resigned this spring to come to Tech college.

Miss Billie Nell Pirtle and Vestel Lott were married Sunday, June 8, at the home of Miss Mary Durr with her father, the Rev. Z. B. Pirtle officiating. Rev. Pirtle by the way is a graduate of Tech college. Mr. and Mrs. Lott are at home where he is associated with the Avallanche-Journal publications as a night editor.

Foster Included

Thomas Foster of Goose Creek and Blanche Jordan of Lubbock, took the vows on the night of June 5 following prayer meeting at the First Baptist church. The groom is a former Tech student and they will be at home at Goose Creek.

A wedding that is not altogether unexpected was that of Jerome Sanders, formerly of Haskell, and Mary Greathouse of Tahoka who were married in New York City on June 10. Jerome is with the Standard Oil company and enters Yale this year to begin a two years' post graduate course. Both are Tech graduates, Mary having won recognition with her pre-law course.

Barney Brady and Myra Lloyd were married at Trinidad, Colo., on June 11. They will reside in Denver where Barney is with the architectural department of the Santa Fe company.

Vernon Couple Weds

Another wedding which occurred on June 11 was that of Thomas D. McCrary and Louise Aynes of Vernon. They will reside there.

Altha Foage and Dick Hickerson or Mertzon were wed June 14 at

Mertzon. Bill worked at the switchboard at Tech, was one of the first students to register when the college opened and a member of several campus organizations.

Genevieve Cellum became the bride of J. H. Heim on Saturday, June 14. He is a member of the State highway department and they are living in Brownfield.

Waters-Merrell
On June 14 at the First Baptist church Willette Waters and Jerome Merrell took the marriage vows, leaving immediately afterwards for California and Colorado on their honeymoon.

They are now making their home in Wisconsin where Jerome is trying to induce other young men to get married by selling them matrimonial life insurance.

George Herral of Fort Stockton and Vida A. Larson of Littlefield were married June 20 and are living near Fort Stockton where the groom is engaged in the ranching business. They are both former Tech students.

A marriage which took place in Pampa on June 30 was that of Julie Mae Barnhart and Ermon E. Smith of Amarillo. They are to live in the latter city.

T. A. Lisenby, Jr., and Miss Pauline Wilhelm were married June 22 in the home of the bride's parents. Mr. and Mrs. D. J. Wilhelm, 1615 9th street, with the Rev. Mr. Lisenby performing the ceremony. The groom's father and the bride's mother are also former Tech students. Mr. and Mrs. Lisenby are living in Tucson, Ariz., and plan to attend the state university there this fall.

Claude Finally Gives In
Claude Denham, Tech graduate, and Miss Pauline Muddox, were married in Dallas at the home of her aunt, Mrs. J. B. Collier, during July. They are living in Ozona where Claude is principal of the public schools.

Clarence Wington and Faye George were married some time the early part of July but since they did not let the local papers have the story no one knows exactly when it was except those who attended the wedding. They are at home where Dutch is employed in the men's department of the Hemphill-Wells store.

Faye Succumbs
Faye Rutledge, who could whistle so charmingly and imitate matrons to a draw, was married to O. L. Boyd July 7 at Harlingen.

Wilbur Cooper and Mary Edna Parker were married by the Rev. H. L. Munger on July 12. They are at home here.

On July 16 J. Paul Rhodes of Lubbock and Alice Sampbell of Hillsboro were married in Clovis, New Mexico, and are living here.

Lucille Fische of Brownfield became the bride of J. M. Hill of that place on the 24th at the home of

her parents with the Rev. E. V. May performing the ceremony. They are residing here where he is doing research work for the United States Department of Agriculture.

Jerry Gets Jakie
The Sans Souci club was represented in the list of weddings again when Geraldine Smith and J. C. Alexander stole a march on their friends and the famous "three-day marriage" law of Texas and were married in Tatum, New Mexico. Witnesses were Mr. and Mrs. Ray Sawyer, former Tech students.

Jakie and Geraldine and living at Lovington. They are both former students of the college.

Carl Williams and Mercedes Alford, both former students, were married on July 24. They are living at Littlefield.

Floyd Koen, brother of Otis Koen, former editor of the Toreador, was married to Gertrude Martin of Gainesville on August 1 at Marietta, Okla. They are living here.

Estelle Shepard Weds
Estelle Shepard, Tech graduate in the school of home economics, and Sam Lytal, of this city, married on the first also. They are at home in Lubbock.

Ganle Nix, a student of the home economics school, became the bride of Raymond Burford on August 4 at a simple ceremony held here. After a wedding tour they are at home where she plans to resume her work in the fall.

Law-Anderson
Helen Law and Rudolph Anderson took the vows on the 6th at a ceremony attended only by close friends. They went north to meet Rudolph's parents and are living in Melrose, New Mexico now.

Ruth Smith and Carl Hart were married on August 6.

Darvin Nix of Lamesa and Alysne Bain of Wellington were married on August 7. They are residing in Wellington.

Carl Hensley, former student of the college, and Miss Eloise Glazner of Oklahoma City were married August 8. They are residing in Wichita Falls where Mr. Hensley is connected with an insurance company.

Snyder-Hankins
Weldon Hankins and Mary Snyder were wed on August 11 at the bride's home, 2701 19th street, with the Rev. W. P. Jennings performing the ceremony. They are living at Ponca City, Okla.

Claude Hutcherson, of Plainview, pugilist well-known in this section, and Cornet Hutchins, married in Clovis on the 16th. They are making their home in Plainview.

Elsie Lawrence and James Abernethy were married August 14 at the bride's home in Silverton with her father, the Rev. W. M. Lawrence, performing the ceremony. They are making their home in Canadian where both will teach school.

Miss Ira Crouch of Wortham and Arthur Haddock of Stockton, Calif., were married Sunday, August 15, according to a recent announcement.

Mrs. Haddock is a graduate of the class of 1928. Her husband is an artist.

Professor to Wed
Dr. Nat Edmondson and Miss Louise Baird are to be married on September 3 at the home of her parents in Vernon.

The remainder of the Crawford tribe, Melba and Iris, have also taken unto themselves wedding rings but who the husbands are is not known here. They have been living at Bartlesville, Okla., during the past year.

NEW REGIME

(Continued from Page 1)

amination at the college at any hour of the day except the one during their initial falls.

Foreign Letters Received
Letters from prospective foreign students have been received at the office of the registrar. One of these is from a native girl of Korea who desires to enter Tech as a transfer from the University of Southern California at Los Angeles, Calif. Another has been received from a Chinese boy, whose home is in Hawaii, and indicates that he is a prospective student of the college.

A complete outline of the program for the weeks of September 15 to September 24, as given out by the registrar is as follows:

Sept. 15--Faculty meeting, 3 p. m.; Sept. 15-17--Entrance examinations; Sept. 17--Freshman orientation--all entering freshmen required to be present; Sept. 18--Registration for freshmen; Sept. 19 and 20--Registration for former students and transfers from other colleges; Sept. 19--Open house for all students by the churches of Lubbock--8 p. m.; Sept. 20--Reception of President and Mrs. Horn to the Student Body at 8 p. m. administration building; Sept. 21--Sunday, annual sermon; Sept. 22--Monday, Fall term classes begin at 8 a. m.; Sept. 24--Wednesday, President's annual address.

The new Duck N Dining Room, 2410 14th St.

Beaty Kelly, after touring the West with Nettles, has spent the summer at home. We look for him back this fall.

Duck N Dining Room, 3 meals \$25, 2 meals \$20, 1 meal \$12.

Juanita Law, former student, has spent the summer at home in Lubbock and will return to Strawn this fall to continue her work in the high school.

HORN'S MESSAGE

(Continued from Page 1)

Iowa has been selected as secretary of the Young Women's Christian Association. She will be delighted to render every help in her power to the young women students of the college.

General Situation Familiar

These and a few other changes will be found by our former students, but in general the situation will be familiar to them.

To those students who are planning to enter the Texas Technological college next year as freshmen or as transfers from other colleges, the president gives likewise an especially cordial greeting. The matter of going to college for the first time is always an adventure. It is hoped that in this case it will be an exceedingly pleasant and profitable adventure. There will be changes to be made in methods of study and there will accordingly be a period of transition from the high school. What some of the changes are will be set forth during the period of orientation for freshmen. This period falls upon September 17, on which date it is expected that all freshmen are to be present.

During the past year all four of our college classes voluntarily placed themselves on record as being opposed to hazing in every form. It will be the effort of all our former students to see to it that our incoming freshmen this year are given a cordial welcome.

New Coaches Named
Prospects for the athletic situation for the coming year are of interest to you. The new head coach is Mr. Pete W. Cawthon. He has his assistants: Mr. Russell Smith, Mr. Colchitt, and Mr. Del Morgan. The training for football will begin on September 10. There are improvements already under way at the athletic field. A good year in athletics is expected for 1930-31.

If you are planning to attend Texas Technological college for the first time next year, it might be well to have your entrance credits from high school or the transcript of your record from college sent to the registrar at once, if you have not already done so. This will save time after the work begins.

The legislature meets next January and the request for appropriations for the college for the next two years will be presented. It may be of interest to our students to know that the college is asking for a new library building, for a dairy products building, for an extension to the college greenhouse, and for additional room in the administration building.

All of these are much needed and it is to be hoped that they will be secured. If you should find it possible before you come to college to speak a good word to your senator

or to the representative in the legislature from your district, asking them to be liberal in their provisions for the institution, it might be well for you to do so.

Sends Greetings
To each and every student who is planning to be in the Texas Technological College next year, the President of the college sends heartiest mid-summer greetings. Remember the registration days at September 18-20. The churches of Lubbock will hold "open house" for you on the evening of September 19. The President and his wife will give their annual reception to the student body in the administration building, Saturday evening, September 20, beginning at 8 o'clock. He hopes to shake hands with every one of you on that occasion.

HERE'S TO A BIG YEAR FOR

TECH

More than ever we are catering to the College Men's Whims

We are Featuring

—SCHOBLE and STETSON HATS

—KIRSHBAUM and CLUB CLOTHES

—NETTLETON'S MILLER COOK SHOES

—ARROW SHIRTS and UNDERWEAR

These lines are bought by College Men for College Men

Style With Quality
