

Aid Of All Techsians Asked In APO Clean-Up Campaign

27 Students Selected For Who's Who

Campaign To Rid Campus Of Trash Slated Tomorrow

The annual Homecoming Clean-up drive, which is sponsored this year by Alpha Phi Omega, national honorary service organization, will officially begin at 2 p. m. tomorrow with all the various social clubs and independent students working hand in hand on the project, said Carl Lawson, president of APO.

The drive has been called for the purpose of ridding Tech campus of all accumulated trash paper, bottles, rags, etc. before the arrival of returning alumni on Homecoming day.

APO has divided the campus into sections which will be covered by various clubs in the removal of trash. Tech War Veterans association, in cooperation with the Building and Grounds committee, will furnish trucks to pick up the trash in the different areas.

Campus Divisions

The campus has been divided as follows: (1) Silver Keys and Centaurs will clean the section in front of the two men's dorms from College avenue to the Engineering boulevard north to Eighth street and around the gym. (2) Sochi, Wranglers and College Club will cover the circle and the grounds around the Engineering, Military Science and Textile buildings. (3) Kemas, and Los Camaradas will be responsible for the grounds around the Chemistry, Library and Press buildings.

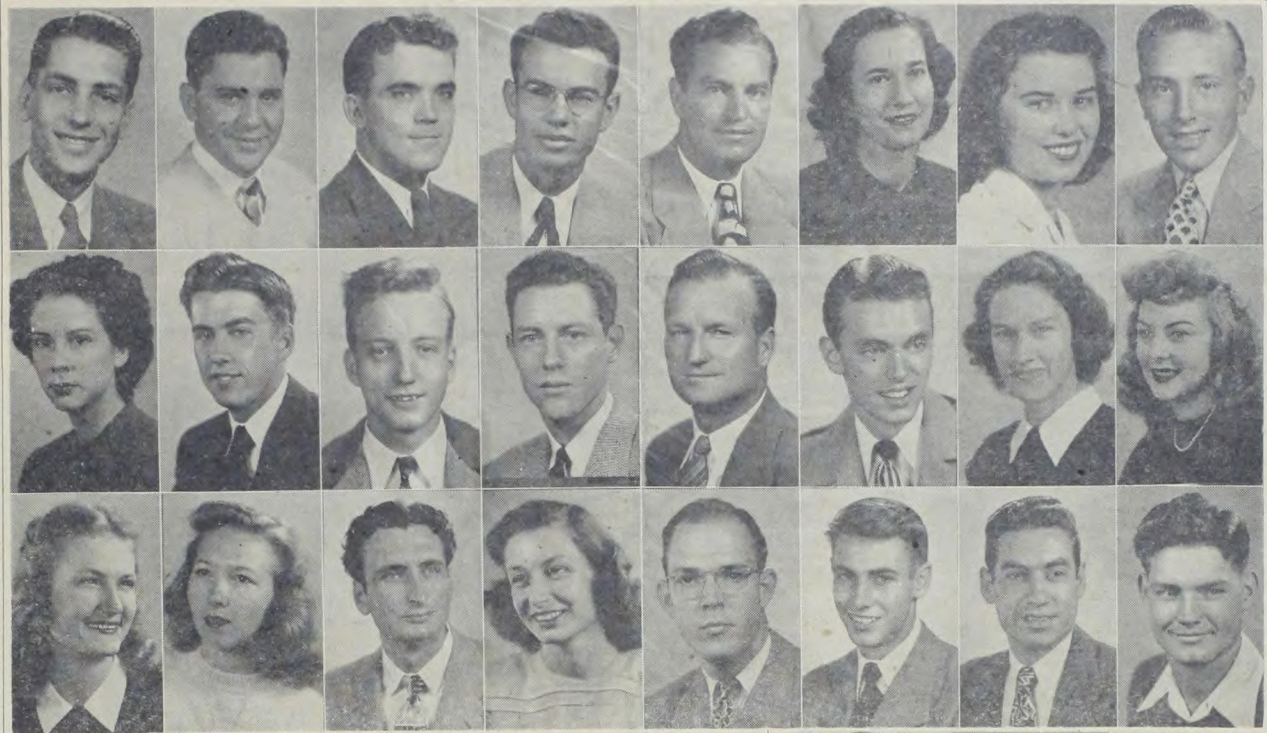

(4) Sans Souci will cover the grounds around the Aggie building. (5) DFD and Las Vivarachas will clean the grounds south of the Home Management and Home Economics buildings to Fourteenth street. (6) Las Chaparritas and Ko Shari will have the area from Broadway south to the Home Economic and Home Management buildings. (7) APO will be responsible for the area around the Ad building south to Fourteenth street and the area along College avenue from Fourteenth to Nineteenth.

Lawson asks all independents to join in the drive and help clean-up the campus for Homecoming.

Group Includes Five From 1946-47 List

WHO'S WHO—Pictured above are 27 Tech junior and senior students selected for Who's Who in American Colleges and Universities. Top row, left to right—Joe Arrington, John Ash, Robert Baumgardner, Brao Biggers, Dick Copeland, Gladys Dawson Betty Devin and Carl Dwyer. Second Row—Avis Fuchs, Dan Gillett, Tom Hassell, Joe Hefner, Charles Hudson, Lamar Jackson, Jackie Lewis and Patricia Lively. Third Row—Pauline Lokey, Vera Maas, Rayford Moody, Katherine Nelson, Bill Nugent, James Ragan, Newell Reed and Earl Sears. Bottom Row—Betty Seif, Andrew Willingham and Bob Watson.

Change In Rules Made This Year

Twenty-seven Techsians this week were added to the roster of Who's Who in American Colleges and Universities, it was announced by Dean J. G. Allen, chairman of the Scholarships and Awards committee. The list includes five students who attained this honor last year, Robert Baumgardner, Betty Devin, Tom Hassell, Jackie Lewis and Bill Nugent.

Selections were made by a committee composed of 10 students (two from each division) and two administrative representatives of the college, Dean Allen said. Nominations were sent to the academic deans by each department, and the deans made recommendations from these lists.

Basis of selections included scholarship, with a minimum grade point average of 1.65 required; service to the college; contribution and leadership in extracurricular activities, Dean Allen said.

No students were automatically held over from last year's Who's Who, as has been the rule in previous years, the committee reported. Each of the 27 was selected by this year's committee.

An alphabetical list of Tech's Who's Who and the outstanding accomplishments of each student follows. (Because of space limitations The Toreador is unable to publish all college achievements of each student.)

JOE ARRINGTON—2.36 junior arts and sciences. Vice president, Saddle Tramps; president, Alpha Epsilon Delta; Head Cheer leader; vice president, Pre-Med club; president, Phi Eta Sigma; member of Red Cross, College Club, Student council, French club.

JOHN ASH—2.58 senior agriculture. Treasurer, Phi Eta Sigma; reporter, Dairy Industries club; associate judge, Supreme Court; member of Aggie club and Senior Dairy Products judging team.

ROBERT W. BAUMGARDNER—2.22 senior agriculture. Vice president, Freshman class; vice president, Aggie club; treasurer; vice president, Western student association; president, Student Religious council; treasurer, Aggie club; member of Block and Bridle club, Student council, TWVA; Sears scholarship; Who's Who in American Colleges and Universities 1946-47.

BRAO BIGGERS—1.66 senior engineering. Treasurer, Sochi; treasurer, Alpha Phi Omega; Board of Directors, treasurer, Engineering society; member, Kappa Mu Epsilon, American Society of Civil Engineers, American Institute of Electrical Engineers, Student council, Artist Course committee, Saddle Tramps.

DICK COPELAND—2.50 senior arts and sciences. President, Student advisor, Phi Eta Sigma; president, Latin club; chaplain, TWVA; secretary, Alpha Phi Omega; president, Sociology club; president, Westminster Fellowship; member of Saddle Tramps, Student Religious council, Student council, Publications committee.

GLADYS DAWSON—2.28 senior home economics. Historian, Home Economics club; Junior representative, Women's Self-governing association; member, Phi Eta Chi; member of Freshman Honor Society, Junior council, Forum, Home Economics club; member of Phi Eta Chi, Girl of the Month honorable mention 1945.

BETTY DEVIN—2.38 senior home economics. President, Freshman Honor Society for Women; Sophomore representative, Home Economics club council; representative, Women's Self-governing Association; member, Phi Eta Chi, Home Economics club; chaplain, Phi Upsilon Omicron; WCCC representative; Who's Who in American Colleges and Universities, 1946-47.

CARL DWYER—2.42 senior agriculture. Treasurer, secretary, vice president, Aggie club; member of Phi Eta Chi; member of Phi Eta Chi and Alpha Chi; Sears scholarship.

CHARLES HUDSON—2.07 senior home economics. President, secretary, business manager, Casa Linda; historian, Phi Upsilon Omicron; second vice president, Forum; president, Home Economics club; member of Junior council, Alpha Chi, Women's Self-governing association Senate, AWS council.

DAN GILLET—1.92 senior engineering. Vice president, treasurer, vice-president of Mechanical Engineers; member of Tau Beta Pi and Engineering society.

TOM HASSELL—2.37 senior arts and sciences. Secretary, American Society of Mechanical Engineers; president, treasurer, Engineering society; president, student society manager, Engineering show; vice president, Tau Beta Pi; member, Student council, Kappa Mu Epsilon, Alpha Chi, Saddle Tramps, Who's Who in American Colleges and Universities 1946-47.

JACKIE LEWIS—2.77 senior arts and sciences. Vice president, business administration; vice president, Alpha Phi Omega; executive council, Delta Sigma Phi; member, Phi Eta Chi, Phi Eta Sigma, Phi Kappa Phi, Kappa Mu Epsilon, Tau Beta Pi, Saddle Tramps, Student council, Tech Chamber of Commerce.

CHARLES W. HUDSON—2.22 junior agriculture. Treasurer, Aggie club; president, Tech Rodde association; member of Block and Bridle, Tech Chamber of Commerce, Student council, Tech Honorary Agriculture club.

LAMAR JACKSON—2.41 junior arts and sciences. President, rash captain, Wranglers; president, historian-reporter, Alpha Epsilon Delta; member, Kappa Kappa Phi, Phi Eta Sigma, Men's Inter-Club Council, Tech Chamber of Commerce, Variety show, band, male chorus. Cheer leader.

JACKIE LEWIS—2.77 senior arts and sciences. Secretary, freshman class; secretary, Student Religious council; vice-president, Junior council; president, treasurer, AWS; secretary, Alpha Epsilon Delta; secretary, Freshman Student Association of Texas; member, Alpha Chi, Freshman Honor society, Forum, Ko Shari, Who's Who in American Colleges and Universities.

PATRICIA LIVELY—2.58 senior arts and sciences. Treasurer, vice-president, Student Sans Souci; vice-president, Women's Inter-Club Council; vice-president, Keta's secretary, Freshman Tau Beta Pi, member, Phi Eta Chi, Freshman Honor society, Delta Sigma Phi, Freshman Honor society, Junior council, Forum, Alpha Chi.

PAULINE LOKEY—2.09 senior home economics. Vice-president, Applied Arts Workshop; junior representative to HE Club council; rash captain, pledge trainer.

(Continued on Page 4)

TWVA Group Studies Bookstore Problems Of Vets

Tech War Veterans association bookstore investigation committee met Tuesday with T. C. Root, assistant to the president, who is also in charge of college bookstore affairs, stated Joe Meador, commander of TWVA.

The committee presented signed statements of veterans grievances in regard to the difficulties encountered at the bookstore. The majority of complaints listed concerned the long lines that had to be "sweated out" to receive books during registration. The second most frequent complaint was the lack of slide rules in the bookstore.

The investigating committee, composed of Floyd Reed, Joe Meador, George Wilmoth, Joe King and Morgan Davidson, was advised to meet with W. C. Cole, manager of the bookstore, Nov. 20 was set as the next meeting date at which time the committee will meet with Cole, Root and H. A. Anderson, coordinator of veteran affairs.

Meador stated that TWVA is open to all veterans. Anyone who wishes to join may obtain his membership card in the Veteran Coordinator's office.

Tech Flying Club Organizes Today

All Tech students interested in flying are urged to attend a meeting Friday afternoon at 5 o'clock in A-220 to help organize a flying club, according to Don Anderson.

This club will be open to boys and girls who can fly or are interested in flying, Anderson said. He said activities of the club, if enough members join, will include buying a plane or renting one at reduced rates. Cross-country hops, dual instruction and solo flights will be possible for club members.

Students holding instructors licenses are needed in order to give dual instruction to those without licenses. For the benefit of those students who cannot fly, those holding instructor licenses will be qualified to issue student licenses.

Block And Bridle Delegates To Attend Chicago Meeting

Carl Dwyer and George Elliott, official delegates from Tech chapter of Block and Bridle club along with the club sponsor, R. C. Mowrey, will attend the annual meeting of the National Block and Bridle Club to be held in Chicago, Monday, Dec. 1.

A report of the activities of Tech chapter last year will be given.

18 La Ventana Beauties Chosen For Annual

Top 18 beauties for La Ventana were selected Sunday by the annual staff from West Texas State college, Editor Bob Watson announced. They are: Glynnis Adlington, engineering freshman from Petersburg; Beverly Besancon, arts and sciences junior from Seminole; Delight Hardin, arts and sciences freshman from Lubbock; Helen Hester, arts and sciences freshman from El Paso.

Jeanine Lawson, arts and sciences freshman from Vernon; Charissa Mann, engineering freshman from Colorado City; Patti Jo Musson, arts and sciences sophomore from Lubbock; Joan Nislar, arts and sciences junior from Lubbock; Judy Pollard, arts and sciences freshman from Lubbock; Jo Ann Plummer, business administration sophomore from Houston; Jan Riley, business administration sophomore from Wichita Falls; Juanita Sibley, home economics freshman from Dallas; Evangeline Theis, arts and sciences freshman from Midland; Nancy Walker, home economics sophomore from Lamesa; Marjorie Williams, business administration sophomore from Abilene.

Glenna Faye Winston, arts and sciences sophomore from Brownfield; Dorothy Sue Wright, arts and sciences sophomore from Coleman; Juanita Yardley, business administration sophomore from Dublin.

Each beauty will have a full page picture in La Ventana, Watson said.

Electric Current Reduction Asked

Necessity for conservation of electricity in all campus buildings was expressed this week by Trent C. Root, assistant to the president.

"We are asking that all unnecessary lights be turned off between 8-10 a. m. when the electrical load seems to be heaviest," Root said.

Most buildings on the campus are connected with one main power cable which at present cannot carry the desired electric load, he said.

Directors To Meet

Board of Directors of Texas Tech will hold a called meeting in President W. M. Whyburn's office Saturday, Nov. 29. No important business is on the agenda, and "The directors just want to be here for Homecoming, too," Whyburn said.

ROTC UNIT INSPECTION

Tech ROTC unit will receive its first informal inspection of the year Dec. 2 and 3. Lt. Col. L. C. Adams, professor of military science and tactics, said Wednesday. The inspection will be conducted by the Texas Military District, and Major W. R. Shirley, of that organization, will be in charge of the inspection team, Colonel Adams said.

Tomorrow is the deadline on class pictures for La Ventana; picture proofs should be returned to Koen's studio immediately, Editor Bob Watson says. About 600 proofs have not been returned to the studio, he says.

Pictures are being taken at Koen's studio, 2222 Broadway.

Alumni and Ex-Student association, as he estimated that 4,000 exes will return to the campus when the featured attraction will be the Tech-Hardin Simmons grid clash.

The pep rally at 7:30 p. m. Friday in the gym will be broadcast by KCBG and will feature speeches by President W. M. Whyburn and other officials, Saddle Tramp President George Wilmoth said. The rally and the traditional bonfire which is to follow will be climaxed by the cremation of a miniature replica of the old stadium, it has been announced.

Introductions at the rally will include ex-Raiders from football teams of 1925, Tech's first squad; 1932, the highest scoring team in the nation, and 1938, the only undefeated untied regular season team in Tech's history.

Matador band of 107 pieces will furnish march music for the Homecoming parade Saturday morning. Thirty-two floats have been entered. Pre-game dedication services for Clifford B. and Audrey Jones stadium, and scheduled half-time performances have not been announced.

Hardin-Simmons officials have notified Student President Bill Nugent that H-SU expects to be here in force with its Cowboy band, Sheriff, rope-twirling cowgirls and famed white horses for both the parade and the game.

Headquarters for exes will be the Recreation hall, McElroy said. Jimmy Witt, senior engineer, is in charge of exes registration in the Rec hall and at downtown hotels.

Editorial . . .

"Playing a thrilling game dedicating the new stadium, the Matadors whipped the Hardin-Simmons Cowboys, 10-6."

The above quotation is not a prophecy. It is a record from 1928 La Ventana of Tech's victory over the Cowboys when what we call "the old stadium" was new in 1927-20 years ago.

That dedication triumph came from a fighting football team before (again we quote from La Ventana) "3,000 cheering fans." Whether or not the cheering section aided measurably in the victory is a matter of conjecture, but we believe it did; whether or not cheering students will measurably aid the Red Raiders against Hardin-Simmons next week is also a matter of conjecture, but we believe it will.

Pep rallies and coordinated yelling at football games have flunked miserably this year, and our grid record is not the best in the Southwest. Take a lesson from the 1927 win before 3,000 cheering fans and see if its practice will noticeably affect next week's final football score.

MID-SEMESTER REPORTS

Mid-semester reports on all students will be available early next week, Registrar W. P. Clement has announced. Reports will be handed out in the west foyer of the Ad building.

Mock Nightclub Will Be Dec. 5

Club Scarlet, annual mock nightclub sponsored by Theta Sigma Phi, national honorary and professional fraternity for women in journalism, will be presented Friday, Dec. 5, Hoppy Maas, Theta Sig president announced.

Bob Williams, senior journalism major from Lubbock, will act as master of ceremonies for the two floor shows. The new cafeteria is the tentative location for Club Scarlet, but tickets are not yet on sale.

Highlighting the all-college affair is the election of "Tech Prettiest Man" Nominees for this contest have been chosen by Silver Key, Los Camaradas, College Club, Centaur, Sochi, Wranglers, Kemas, Saddle Tramps, Double T, TWVA, Aggie club and Engineering society. The winner, who will be chosen by applause, will have a full-page picture in La Ventana, Miss Maas said.

Post-Season Bid Eyed By Raiders

Red Raiders will vote tomorrow or early next week on acceptance of a New Year's day bow bid should one be offered to Tech, Dell Morgan, head coach, said Thursday.

Sun Bowl officials announced this week that the winner of the Tech - H-SU game would definitely receive an invitation to their bowl game in El Paso Jan. 1, but conceding a Tech victory in that contest, the football players themselves have the final vote on playing in a post-season tilt.

The Homecoming clash with Hardin-Simmons Nov. 29 will be the first game played in Clifford B. and Audrey Jones stadium, W. L. Stangel, Athletic club chairman, disclosed Tuesday. Lubbock and Brownfield High schools were scheduled to meet Thanksgiving day on the new gridiron, but in a joint meeting of the Athletic councils of Tech and Lubbock High, it was decided to stage the contest in the old stadium.

In explaining the shift of site, the meeting issued a statement to the effect that Old-Mid West Construction company officials had said that the new stadium would not be ready for use on Nov. 27 because of inclement weather. The Homecoming clash with Hardin-Simmons is still scheduled for Jones stadium, Stangel said following Tuesday's meeting.

THE TOREADOR

The Toreador, student newspaper of Texas Technological college, is published every Friday on the campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Pick Up Your Education

Texas Tech has always been known for its feeling of kindness and generosity toward less fortunate students. Now it has a complete general education to be given away. Would you be interested in such a good deal? You would not necessarily have to "dig" for this education but you would have to be willing to work for it—in the clean-up drive tomorrow.

It is estimated that there is enough material loose on this campus to fill the requirements for an MA degree... everything from entrance examinations to senior and graduate papers. Notes from classes in psychology, mathematics, English, Spanish, engineering, journalism, geology and many other subjects are drifting over the area. It might be possible to find an instructor's gradebook or even a bachelor's diploma. All you need is a sharp-pointed stick and a sack.

Please do not think that you will be missing Tech's "school spirit" by "picking up" your education in this manner, because everything is here, including extracurricular activities. Lipstick-tinted "Kleenex," cigarettes enough to last any chain-smoker more than four years, coke bottles by the hundreds, newspapers, football tickets and what-have-you are all here. (Authorities request that you leave the gin, whiskey, and beer bottles where you find them, because they are strategically placed to impress campus visitors.)

Other favorable aspects about this course of study are that you can take your time about beginning because the material has been here for years and has not been touched yet. Also you will not be bothered by registration lines, forms or scheduling. You might find some of the material obsolete; in case you do, put it down as a history course.

In picking up this education, APO and the janitor's union request that you put what material you do not use in the five trash cans located respectively in the basements of the Library, the auditor's office, the Chemistry building, the Engineering building and on the second floor of the Ad building.—A. S.

A Request To The Council

The Student council has voted to send all its members who wish to attend the United States National Student association assembly in Dallas Dec. 6-7. The Council hopes to gain information about NSA, its objects, its backing and its program to determine whether Tech should join. It seeks to be informed—not from personal bias which often results when a few delegates attend a convention—but from first-hand knowledge of as many representatives as possible.

One thing we ask of Council members, who will later vote on our affiliation with NSA:

Study the background of NSA before attending the convention. No one can learn the underlying elements of an organization merely by listening to speeches at conventions, and an intelligent decision regarding our affiliation can only be made by piercing the surface objectives and finding out what makes NSA tick.

The inner workings are not easy to determine, but there are significant signs from NSA. This comparatively new group, which has some fine-sounding objectives as its avowed purpose and some other objectives which require considerable reading between the lines, is linked in thought and action with groups such as the Progressive Citizens of America, which has been severely criticized for its pink tinge. PCA backers such as Sculptor Jo Davidson and Singer Paul Robeson are generally regarded as extreme leftists, yet students are urged in PCA literature to "join with" such people as they, and others of their beliefs. And the Henry Agard Wallace school of thought is held up to young America as the epitome of all that is worthy on the national scene.

Our student leaders realize and are thankful that Tech has been remarkably free of radical, and sometimes subversive, elements which are plaguing many American colleges. They hope, and we hope, to keep Tech that way.—W. L.

Junior Council Initiates Cummings, Wheeler Friday

Estelle Cummings and Wilma Wheeler were initiated as members of Junior Council, honorary service organization composed of 20 junior girls, in a fireside service Friday night at the home of Dr. Agnes True, sponsor. Carla Von Roeder will be initiated at the next meeting, President Sue Lynn Guthrie said.

New members were elected to fill vacancies left by girls who did not return to Tech this year.

WRA SPONSORS DANCES

Dances, sponsored by the Women's Recreation Association, are held each Wednesday night in the gym. Music is provided by a juke box and any student may attend, announces Miss Sue Rainey, assistant professor of women's physical education and sponsor of the dances.

Against Centenary in 1939, Quarback Charlie Calhoun punted 38 times for the Matadors with an average of 38 yards per kick on a wet field.

From Where You Sit

PAJAMA PARADE

To the Editor, D. M. McElroy, and the Tech Public:

This is a plea for fewer, bigger, and better parades. It is rumored that President Whyburn will be asked to lead the victory parade following the winning of the football game against Hardin-Simmons university here Nov. 29, and that he may announce his decision at the pep rally on Friday night preceding that game.

The writer wishes to express dissatisfaction with such a parade and to suggest what he feels would be a better set-up. The parade of students immediately following end of the game, as staged in recent years, has several unfortunate features. It has been heretofore merely a mob, though an organized mob, of freshmen with shirt-tails exposed taking over possession and use of a portion of a state and national highway (College Avenue), for a few blocks of occupation and marching, followed by further blocking of traffic under and around the stop-light area of Broadway at College.

Glamor Lacking

This writer sees no particular glamor in the spectacle of a thousand freshmen marching with their shirt-tails flying in the wind. It creates only the impression of a hangover of recent summer styles. Also the phase of blocking highway traffic at a time when the highway is most needed not only tends to make the college and college students unpopular with the public and traffic officials, but carries with it an element of danger as well. It is my feeling that the President is to be asked to make such a parade official through his own participation, certain different features should be substituted for the present procedure.

Would it not be well to shape up the 1948 Homecoming program to include a possible victory parade to begin AFTER SUPPER, permitting prospective participants to go home after the game, eat supper and dress for the occasion. Such a parade could be made a costume parade with no hold barred. The student with an unusually loud and ornate bathrobe or pajamas could wear same over his street clothes. Cowboy and cowgirl paraphernalia could be displayed to advantage, clown suits of every kind could be used, and faculty members and others could march while honoring their various patron saints.

Faculty Impersonations

Dr. Alan Strout, for example, might be willing to march in the parade as Hamlet. Dr. J. W. Davis could appear as Thomas Jefferson. Dr. O. A. Kinchen could make up as Queen Elizabeth. Dean Shiang could come in as Whirlaway or Seabiscuit. Dr. Golden or Professor Kleinschmidt would make an excellent Falstaff, etc. Also, Cupid, Jean Lafitte, Billy the Kid, Jesse James, W. Lee O'Daniel, Forever Amber and other worthy celebrities might be found in such a parade. The possibilities would be unlimited.

Such a parade should be led by the Tech Band in uniform or in fantastic costume, and should be directed by the Saddle Tramps in full costume. The Saddle Tramps could use their persuasive influence to enlist faculty members to "support the President" and could accept written pledges that such faculty members would appear, also could be given responsibility of contacting heads of all organizations on the campus to have them attempt 100 percent participation. This could result in making the victory parade an ALL-college affair. It would interest most of the people of Lubbock and other South Plains cities and towns, public school youngsters would develop a new and more definite interest in the college and a good time would be had by all concerned following every football victory in a Homecoming Day contest.

What do you think, Mr. Editor and Mr. McElroy, about some such plan being considered as a part of the festivities for the Homecoming Day of 1948? Inasmuch as the writer has spoken out freely and called names it may be wise for me to march in the parade as a favor-

ite radio character and sign his name... The Shadow.

What! No Don Quixote?—The Editor.

COMMON DENOMINATOR: TROUBLE

Dear Editor: In the time I have been at Tech, I've heard a lot about the fairness of professors and their cooperation with students. However, this week this dogma has been severely jolted.

It seems that in the architectural department, its head and his associates decided this year to have each student buy his own drawing board, which should be all right. This idea was inaugurated since the government was buying a majority of the students supplies anyway and would, mostly, save the department some money. The boards purchased at the bookstore were of very inferior quality. Now in the midst of a busy semester, the boards are warping, splitting or falling apart and to this writing nothing has been done. The department expects us students to repair them in the best way we can. The bookstore can make no exchange for the boards were not guaranteed and, too, the manufacturer has a number of good quality boards stored away. Several of these were issued at the beginning of the semester to one class, but are now withheld from a similar class who have these defective boards.

As well as others, have been treated unfairly and something should be done. Sincerely, A Techsan.

Journalism students don't us drawing boards. We have our own worries and this is written on the part of them.—The Editor.

BRADLEY WORKS FOR VETS

Former Techans, Ned Bradley is now employed as a veteran training officer in the Veterans Training office at Tech, according to H. A. Anderson, veterans' coordinator.

Bradley graduated from Tech in 1940 receiving a BBA degree. He will be remembered by many of the ex-students as manager of the Ned Bradley dance orchestra.

Weekend Activities Fill Calendar

Weekend activities will be highlighted by a Rec hall Thanksgiving party, Silver Key dinner-dance, annual Engineering ball, and the Petroleum Engineering and Geology society dinner-dance.

A Thanksgiving party will highlight fun night activities from 8 to 11 tonight at the Rec hall. Traditional Thanksgiving games will be played, and a fifteen minute movie, "Mexican Mission," plus a comedy will be shown.

Society of Petroleum Engineering and Geology will hold a dinner-dance from 7:30-11:30 tonight in the cafeteria. Chaperones will be Dr. and Mrs. L. T. Patton and Prof. and Mrs. Raymond Sidwell.

Silver Key annual dinner-dance honoring new pledges will be from 7 to 12 p. m. Saturday at Hotel Lubbock. Ted Crager's orchestra will play for the program dance.

Decorations will carry out the club colors of red and silver with reds and silvers on the length of the tables, and a center piece of white chrysanthemums and red tapers. Club sponsors and officers will sit at the main table with four couples seated at each individual table.

The annual Engineering ball will be held from 8:30 to 11:30 tomorrow night in the gym. Bailey Ire-

land's orchestra will furnish the music. Dean and Mrs. O. V. Adams and F. L. McRee will be chaperones.

The regular all-campus dance will be held from 8:30 to 11:30 tomorrow night in the Rec. hall. Varstonians will play.

Sigma Delta Pi, national honorary Spanish fraternity, will initiate new members at 6:30 Tuesday night at the Mexican Inn. A banquet will follow the initiation.

The dining room of Women's Dorm No. 3 is open. The first meal was served Saturday morning.

Opera Soprano's Talents Praised

By MARADEE FOSTER Toreador Staff Writer

Excellent breath control, wide range, and easy transitions were exhibited by Bidu Sayo, Metropolitan Opera soprano, presented on Tech Artist course Monday evening.

Arrangement of the program was a definite variation from the traditional. Beginning in a brisk vein with Bach, then the sentimental ballad "Love Has Eyes," the program ranged from "Faust" through songs of Brazil to the moderns. The heavy, classical music was followed by fast, gay airs, thus giving the audience the freedom of enjoying merely the melody and rhythm of the songs.

Miss Sayo showed great generosity with encores. Before the intermission, she gave "Gavotte" from "Manon." After singing three Brazilian folk songs, she presented "The Cowboy Song of Brazil." The artist's deliberately off-key interpretation of "I Hate Music" showed further the versatility of her voice. Other encores were "I'm a Person, Too," and "Un Bel Di" from "Madame Butterfly." The finale was the popular "Estrellita."

Her English, tinged with a slight Portuguese accent, in "Love Has Eyes" was distinct. A flawless French pronunciation was shown in the songs "Chanson Triste" and "Les Chevaux de Bois." Miss Charney, at the piano, is to be commended for his precision as accompanist.

Raiders Tackle NMU

Third Loop Game With Lobo Eleven

Tech Red Raiders invade the hillytop in Albuquerque against the University of New Mexico Lobos Saturday, in search of their third, border conference win. This time, the Matadors pit their football know-how against men coached by Earl Huffman, who was assistant mentor here, before going to New Mexico at the end of last season.

His Lobos have recorded wins over Kansas State, Fresno State, New Mexico A&M, and Drake, this season. They battled Texas Mines to a 20-20 tie and were defeated by Arizona and H-SU. Tech has won four and lost four, winning over Arizona, the only common opponent, 41-28.

Huffman apparently is bringing out the whole state in an effort to cheer his heavy Lobo eleven to a victory over the Raiders. The governor of the state will be on hand and a large homecoming celebration is planned.

Intense desire, coupled with a thorough tutoring in Morgan methods, should have the Lobos razor sharp for the task they have set for themselves. They have a well balanced team that features both power and speed.

In the passing department, Bryan Brock, quarterback from Stafford, Kansas, shows a better-than-average talent for finding his mark. Rudy Kral, Gary, Ind., handles the inside running from the fullback slot, while 205-pound Lou Cullen and Rudy Camunez combine speed and drive to round out the backfield.

The Raiders, after a week's rest, will field a team that is very near full strength. Only Ray Crenshaw, Temple sophomore reserve quarterback, will be unable to make the trip.

Freddie Brown, rated number 10 among the nation's passers last week, will probably be on hand at quarterback. Walter Maloney will be at left half, and speedy Charlie Reynolds is ready for the right halfback slot. Tech's rugged line will feature the regular starters, with Bill Kelley back at end.

The Raiders leave Lubbock by bus at 8 a. m. today, and plan to arrive in Albuquerque about 4 p. m., in time for a light workout. The squad and its followers are invited to attend New Mexico's Homecoming dance, according to a wire received by The Treador Tuesday.

STAFF SLANTS

Victories over New Mexico and Hardin-Simmons will give Texas Tech its first unchallenged championship since 1937, although Tech shared the title as co-champion with Hardin-Simmons in 1942. We must confess we are beginning to get a wee-bit glory happy. If it wasn't for Hardin-Simmons and New Mexico we might even start celebrating.

The Red Raiders had better be on their toes tomorrow when they encounter the University of New Mexico Lobos. This is the one game the Lobos want to win. They have been pointed for Tech through the efforts of Coach Earl Huffman and Walker Nichols, ex-members of the Tech coaching staff.

Past records show that a fighting New Mexico eleven has risen up twice to put a damper on Matador football glory and in one way the same situation exists tomorrow. In 1940 Tech had run roughshod over nine previous opponents only to lose a much contested game to New Mexico which eventually was the only defeat for the Raiders that season. In 1945 the Raiders were Sun Bowl bound when they were tied in the last game of the season by another bunch of Lobos. TOMORROW—with a possible Sun Bowl bid in the offing (providing H-SU can be beaten)—the Raiders must play these killjoy Lobos in Albuquerque in their Homecoming game.

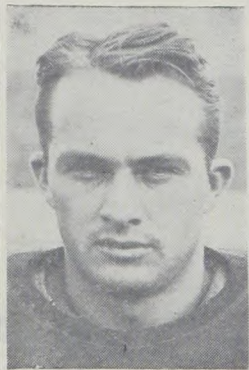

A note to the Tech line: We have noticed that in the 11 games Tech has played the Lobos only once has the New Mexico team scored more than one touchdown and that was the 19-14 upset in 1940. Four times out of the 11 games the Raiders held the Lobos scoreless. LET'S KEEP UP THAT RECORD.

Polk Robison, head basketball coach, will be an instructor in the second annual Clarence Fox basketball coaching school which will be held in Big Spring Dec. 1 and 2. Robison will work with Wesley Bradshaw, H-SU basketball mentor, as an instructor in the clinic which is conducted by Clarence Fox, Jr., formerly of Lubbock. The school is open to all high school and college coaches of this area.

Ralph Earhart has surged to the front in the Red Raider scoring parade. Earhart scored 17 points against Arizona to bring his total to 34 which surpassed the 24 markers Charlie Reynolds had amassed in the first six games before being confined to the sidelines with a back injury.

Individual Raider scoring shapes up like this: Earhart 34, Reynolds 24, Bill Kelley 12, Glenn Lewis 12, Joe Smith 12, Bernie Winkler 8 (we give him credit for the safety against Denver), Earl Jackson 6, Calvin Steveson 6, J. W. Thompson 6, Zac Henderson 6, and James

Brown Leads Raider Offense; Season's Averages Revealed

RALPH EARHART — Senior halfback from Lefors. Leading scorer, extra point specialist and speed merchant deluxe. "Ears" is getting his second football letter this fall. He graduated from high school in 1942 and served three years in the Army as an athletic specialist. He is also a crack dashman on the Tech track team.

Techsans Predict A Raider Victory

By BILL CARPENTER
Treador Sports Writer

Tech over New Mexico is the opinion of students and faculty on this week's question: "How do you think the Tech and New Mexico football game will come out?" Evidently New Mexico's homecoming will be a sad one according to Tech predictions of the week. Student opinions were optimistic in the scores, they were:

Harry Blendon, aggie sophomore: "I'd like to see them win (Tech). I don't have any idea as to what the score will be, but Tech will win."

Lucile Moore, engineering senior: "Tech will clobber them by about 21-13."

David Johnson, arts and science junior: "Tech will win by two touchdowns. I'm optimistic."
Nelson Morris, business administration sophomore: "Tech by one touchdown and it will be a hard fight."
Darrell "Judge" Carpenter, arts and science junior: "A score of 21-7 favor Tech."

The faculty and the students see eye to eye the outcome of the game as the faculty predicts the score about the game.

E. L. McBride, head of agricultural economics: "Tech will win by 13 points."
R. L. Chappelle, head of agricultural education: "Tech will win by two touchdowns."

Prof. H. W. Grant, mathematics: "Tech by a touchdown, we have a good team."
J. L. Stribling, electrical engineering instructor: "Tech will win by one touchdown."

Prof. E. W. Gibson, accounting: "Conley 6 for a team total of 132 points."

Eagles, Knats Lead Dorm 'Murals; Skamps Drop From Undefeated

Frank James led the undefeated Eagles in a 33-14 triumph over the Wildcats with a total of 9 points in last week's dormitory intramural basketball league play. Jack Sikes and Travis Holland helped the Wildcats stem the tide with 5 points each. The previously undefeated Skamps fell before a strong Mustang team by a score of 32-27. Robert Peacock had an amazing total of 15 points for the Mustangs, while Ed Smith tallied 11 points for the Skamps.

The Bobcats won their first game in a close contest by a 15-14 score. High point man for the Tomcats was Joe Brockman with 6 points as Clarence Darter hit the basket for 7 points. The Wildcats, led by Jack Sikes with 12 points, trounced the Tigers by a 25-12 margin. High point men for the Tigers was Moore and Sutton with 4 points each.

The independent intramural league has played only one game, according to George Philbrick, supervisor of the intramural contests. This game was won by the Lazy Five over the Polecats by a score of 30-14. High individual honors for the Lazy Five went to Tommy Hewett and for the Polecats to Fared Farha.

Picadors, Cameron Play Here Today

Raider reserves, still trying for a second win in their short three game season, take on the Aggies from Cameron Junior college, this afternoon, at Tech field. Early in the year, the Picadors defeated New Mexico Military Institute 13-7 and battled to a 0-0 tie with the Hardin-Simmons reserves last week.

Ranger, have looked good in varsity scrimmages this season and are expected to be standouts in the line.

No upper classmen will play against the men from Lawton, Okla., since the contract specifies that only freshmen be used. Tech students will be admitted to this afternoon's game on their activity tickets, and may sit where they like, Morley Jennings, athletic director, announced. All gates will be open and there will be no reserve seats, he said.

Aggies will be a decided favorite, with nine wins and no losses to their credit. Operating a smooth offensive unit, they have piled up three or more touchdowns per game. As a contrast, the defensive minded Picadors have scored 13 points in two games, and will count on stopping the speedy Aggie outfit, rather than outscoring it.

Coach Maxey McKnight hopes to break the Aggie defense with the power play of big Lonnie Langston, Denver City, and Paul Burke, Cameron. Ike Stuver, Yaleta, star of the North team in the annual Texas high school game last summer, and Tim Hatch, Wellington, will furnish the speed for the little Raider machine. Wayne Guynn, Vernon, and T. K. Hardy,

Student Section In East Stands Of Jones Stadium

Tech students will occupy section O, P and Q and will enter through gates marked "Student Entrance," at the Nov. 29, Homecoming game, Morley Jennings, athletic director has announced.

The three sections contain about 6,000 seats and compose the southern three-fifths of the east stand, he said.

"You strike it rich when you choose Chesterfield... they're tops!"

Aggie Teams Honored At Annual Pig Roast

Two Teams To Compete Next Week; Allen, Ray Awarded Scholarships

By BOB WYLLIE
Toreador Staff Writer

The twentieth annual Pig Roast was held by the Tech Aggie club Tuesday night in the stock judging pavilion. The program was highlighted by the recognition of judging teams and by the awards of scholarship funds to two agriculture students.

The Borden agriculture scholarship of \$300 was awarded to Levon L. Ray, senior agriculture student from Lubbock. The award was made by Dean W. L. Stangel, acting in the absence of H. A. Ross, president of the Borden company. The cash award, along with a certificate and a bronze plaque for permanent display in the agriculture building, is made each year to the senior agriculture student who has completed at least two courses in dairy manufactures and maintained the highest scholastic average in his class.

Bonnie L. Allen, senior agriculture student from Blum, was the recipient of the Global corporation award. This award is made annually to the senior agriculture student with the highest average who has completed 11 or more hours of agronomy. Homer Hunt, vice president of the Global corporation, presented the award.

Red Is Emcee
Master of Ceremonies Bill Reid, junior agriculture student from Clarendon and vice president of the Aggie club, called the Pig Roast a "coming-out party for the aggies" and a "pep rally to send the judging teams to their destinations." He introduced the team coaches who introduced their teams.

The Senior Crops judging team of John Lee, Arthur Stoy, Bonnie Allen and Walter Patrick was introduced by Coach Cecil Ayers, assistant professor in the plant industry department. Ayers termed the team members "seasoned fellows," but he declined to make any predictions as to how they would place in the judging contests in Kansas City Monday and in Chicago Saturday, Nov. 28.

Prof. L. G. Harmon, acting head of the department of dairy manufactures, introduced Senior Dairy Products judging team members, Earl McEwen, John Ash, Bill Beahrs and Bob Renner. Harmon said he was pleased with the team's showing at the contest in Miami. Tech tied for fifth place in Miami competing with what he called "the best dairy products judging teams in the country."

The Dairy Cattle judging team was introduced by Asst. Prof. John H. Baumgardner, who accompanied the team to the World's Dairy Cattle congress in Waterloo, Iowa, Sept. 29. Team members Herman Henson, Jim Hutchins, L. D. Beldner and John Montgomery placed nineteenth in that contest. The team is coached by N. C. Fine, associate professor of animal husbandry.

Members of the American Royal Livestock judging team were introduced by their coach, Prof. Ray C. Mowery, head of the department of animal husbandry. They are Charles Bordner, Herman Henson, Carl Dwyer, George Elliott and Horace Underwood.

Team Competes Nov. 29
Mowery also introduced John Montgomery, James Herring, George Elliott, Carl Dwyer, C. L. Brownlow and Herman Henson as members of the International Livestock judging team which will compete in the International Livestock exposition in Chicago, Saturday, Nov. 29.

Tribute was paid last teams and coaches by Dean Stangel. Even if a team places last they haven't lost, he said.

Guests and members were served beans, potato salad, pickles, buns, coffee, ice cream and of course, roast pig. A quartet from the Society for the Preservation and Encouragement of Barber Shop Singing in America, Inc. provided special music. Bob Parkinson, Aggie club song leader, led the group in singing the Matador Song.
The closing benediction was given by Prof. A. W. Young.

Strictly G. I.

Veterans who have not received subsistence payments and who do not know the day that they should receive checks should report immediately to the Veterans' Training officer, according to H. A. Anderson, veterans' coordinator.

Disabled veterans must report to the Veterans' Training officer during the first two weeks of December, Anderson announced. Disabled veterans should bring the following: grade book; outline of subjects that they plan to take each semester, and approximate date of graduation. Anderson stated that some of the disabled vets would not have a grade book, but they must report to the Veterans' Training officer.

Engineering Show Plans Underway

Tech's 16th Annual Engineers' Show board of managers made initial plans for the 1948 Engineers' Show, scheduling it for sometime in April, according to Joe Luckett, publicity manager.

Wendell Mayes, Jr., senior electrical engineer from Brownwood, was made the new general manager, filling the vacancy made by the resignation of Ray Simmons. Mayes plans to include numerous new exhibits in the show and indications point toward the presentation of one of the best shows in Tech's history, Luckett said.

Press Club Hears Margaret Turner

"The Women's Editor" was discussed by Miss Margaret Turner, editor of the women's page in the Lubbock Avalanche for 13 years, in Press club meeting Tuesday. She has worked with women's news for 18 years.
Good health, ordinary intelligence with a sound education, willingness to work, and tact are essential for newspaper careers, pointed out Miss Turner. "One must have respect for women and ability to get along with them," she continued.

News simplified and slanted toward the women's angle was advocated by Miss Turner, who stated that women often read their papers cover to cover while men read only headlines.

Honorary English Society Initiates Six New Members

Six English majors have been initiated into Sigma Tau Delta, honorary English fraternity, according to Dr. T. W. Camp, head of the English department. They are: Ralph Bucy, Betty Bishop, Mrs. Jean Holmes Nesbit, Inogene Fortenberry, Mrs. Hazel Hill and Mrs. Rebecca Nesmithe.

Joe Anderson, senior arts and sciences student from Quannah, is acting president of Sigma Tau Delta, and Pat Lively, senior arts and sciences student from Pampa, is secretary-treasurer.

Who's Who---

(Continued from Page 1)

DFD; vice-president Phi Upsilon Omicron; secretary Publications committee; Member Forum, Student Council, Press club, Junior class favorite.

VERA HARBER MAAS—236 senior arts and sciences. President Press club; secretary, reporter, treasurer Las Chaparrillas; president Theta Sigma Phi; first vice president Forum. Member Home Economics club, Sock and Buskin, Alpha Chi, La Ventana staff.

RAYFORD L. MOODY—181 senior business administration. Junior warden, Cornucopia society; head master, Delta Sigma Pi; president, Tech Accounting society; business manager, Tech Chamber of Commerce; member of TWVA, Silver Key.

KATHERINE NELSON—242 senior home economics. Secretary, Junior council; secretary, President Westminster Fellowship; reporter, treasurer, Home Economics club; candle editor, corresponding secretary, Phi Upsilon Omicron; treasurer, Alpha Chi; president, Forum; member of Freshman Honor society, student council, Women's Self-Governing association, Dorm II.

BILL NUGENT—226 senior arts and sciences. Secretary, president, Wranglers; secretary, Publications committee; business manager, Student council; president Student association, member of Saddle Tramps, Alpha Chi, MCCC, Sigma Gamma Epsilon, Tech Chamber of Commerce, Junior Rotarian. Who's Who in American Colleges and Universities, 1946-47. Who's Who on the Campus, 1946-47. Chevalier degree, Order of DeMolay.

JAMES FAGAN—234 senior engineering. President, American Institute of Chemical Engineers; board of directors, Engineering society; member of Alpha Chi and Tau Beta Phi.

NEWELL A. REED—264 junior business administration. President, vice-president, Phi Eta Sigma; secretary, Kappa club; secretary, Cornucopia society; scribe, Delta Sigma Pi; member of Student Religious council, Wesley players, TWVA, Tech Chamber of Commerce, Junior Rotarian.

Honorary Agriculture club. Sears Agriculture scholarship.
BETTY BOLMAR SELF—227 senior arts and sciences. Vice-president, Freshman Honor society; reporter, Junior council; rush captain, Las Chaparrillas; vice-president, Caps y Espada; member of Student council, Forum, Alpha Chi, Book Reviewers, Sigma Delta Pi; Sophomore favorite, Tech Sun Bowl princess.

BOB WATSON—179 senior arts and sciences. Historian, reporter, vice-president, Wranglers; parliamentary, Press club; program chairman, Variety show; vice-president, Sneed hall; publicity director, TWVA; editor, La Ventana; Hypographic editor, publicity director Kappa Alpha Mu; member of Saddle Tramps, Sigma Delta Pi, Toreador staff.

ANDREW WILLINGHAM—198 junior engineering. Vice-president, Sock; secretary Saddle Tramps; secretary-treasurer, Men's Dormitory association II; cheer leader; member of Alpha Phi Omega, Phi Eta Sigma, Engineering society; Kappa Mu Epsilon American Institute of Electrical Engineers.

Mrs. Cecil Turner, social director of Doak hall, saw her son, Commander J. W. Howard, for the first time in four years when he visited her last week. Commander Howard is stationed on the U. S. S. Taconic at Norfolk Virginia.

PIBURN SPEAKS TO ROTC

Brig. Gen. E. W. Fiburn, executive of the Texas Military District at Austin, will be on Tech campus today to discuss problems and accomplishments of ROTC, Lt. Col. L. C. Adams, professor of military science and tactics, disclosed Wednesday.

Mrs. Cecil Turner, social director of Doak hall, saw her son, Commander J. W. Howard, for the first time in four years when he visited her last week. Commander Howard is stationed on the U. S. S. Taconic at Norfolk Virginia.
