

## Nationwide Gas Rationing Likely

### Stalingrad Defenders Exact Heavy Toll

#### Nearby Villages Are Taken In Nazi Drive

By HENRY C. CASSIDY  
MOSCOW, Sept. 10 (AP)—Cold rains swept the Stalingrad battlefields today and Red army defenses stiffened again to exact a deadly toll after repeated German power drives had overrun two more villages west of the city.

A similar dramatic revival of Soviet resistance—even a counterattack which cost the Germans more than 1,000 killed and destruction of nine tanks—was reported from the Novorossisk front, where the invaders had wedged dangerously into defense positions.

Front line developments of the day were coupled with an official declaration that 73 axis divisions had been broken and routed by the Red army from May 1 through August.

The rains ended a heat wave which had attended the battle of Stalingrad and presaged the approach of wintry conditions which might hamper Adolf Hitler's huge mechanized forces.

### Jack Norris, Veteran T&P Engineer, Dies

A 35-year span of railroading had ended Thursday for Jack P. Norris, 62, resident of Big Spring since 1900.

The Texas & Pacific locomotive engineer succumbed Tuesday morning in the T&P hospital at Marshall, following an illness of several months. He had been in the hospital for about two months.

The body has been returned here, and funeral services will be held at the Eberly chapel at 4 p. m. Friday. Other details in connection with the service had not been completed.

Born January 10, 1880, in Alabama, Mr. Norris came to Big Spring 36 years ago, and in 1907 entered the T&P service as a switch-fireman. He had risen through his long employment to the post of engineer. The family residence is at 705 Lancaster street.

Surviving are the widow, Mrs. Kate Norris; his mother, Mrs. Nancy Norris of Carroll, Tex.; a son, John P. Norris of Portland, Ore., and two grandchildren, Zola and John Pat Norris, Jr., of Portland.

There also are eight brothers and two sisters: Jimmy Norris, Clarksville; Sirling Norris, Oklahoma; Buckar Norris, Tyler; Mansfield Norris, Port Lavaca; George Norris, Harlingen; Berry Norris, Henderson; Dewey Norris of Dallas, and Matthews Norris of Holliday; and Mrs. Anna Belle McDonald and Mrs. Ada Barnett of Houston.

### Tommy Atkins Gets More Pay

LONDON, Sept. 10 (AP)—Sir Stafford Cripps announced increases today in the basic pay of British armed forces at an annual cost of \$9,000,000.

Mr. Cripps had heard the lament of an anonymous Tommy Atkins over his scale as compared with that in the United States army.

The pay increase will be about 70 cents a week for all men in the armed services below commissioned ranks and about forty-five cents for women, Cripps said.

The government also boosted about 20 cents a week the allowances for each of the soldiers' minor dependents. The first child now receives about \$1.70 a week.

Allowances for officers' dependents were raised on a similar scale.

However, members of Britain's armed forces still will be among the world's lowest paid.

Cripps referred to the high wages paid American soldiers and sailors and added:

"I would like to take this opportunity of expressing our gratitude to the American soldiers, sailors and airmen for the most helpful way in which they are doing their utmost to diminish in every way they can the incidence of this difference of pay in this country."

### Jewish New Year To Be Observed

Friday marks the beginning of the Jewish New Year, and two days of the observance—Rosh Hashanah—are scheduled by local people of the faith.

It is the Jewish year 5703 which starts at 6 p. m. Friday. Rites have been scheduled for 8 p. m. by the Temple Israel.

Several Big Spring stores will be closed Saturday in observance of the day, but will open at 9 a. m.

### Reds Take Up Air Attack On German Areas

Budapest Bombed; RAF Suspends Its Raids For A Night

LONDON, Sept. 10 (AP)—Russian air force kept the Allied aerial offensive in Europe rolling last night by bombing eastern Germany and the Hungarian capital of Budapest during a lull in RAF operations—presumably caused by unfavorable weather in the west.

The Soviet attacks were announced by the Berlin radio which—in characteristic fashion—described them as "austrian raids" and minimized their effectiveness.

Subsequently both the German and Italian radios broadcast dispatches from Budapest attributing the raids on Budapest to "English planes" and reported there were a number of civilian casualties.

Later still, the Berlin radio broadcast that Russian planes flew over the outskirts of Greater Berlin last night but did not drop any bombs in the center of the city. The high command said some damage was caused by incendiaries dropped by British planes over western Germany in attacks at mid-day yesterday and again last night.

The only overnight activity attributed to the RAF by the British air ministry was a bombing attack on a German convoy off the Dutch coast, which a communiqué said had resulted in one large ship being set afire.

Indicative, however, of the tenacity inspired by the whipsaw offensive which the British and Russian air forces have been conducting was the fact that the Berlin radio, as well as transmitters in Budapest, Paris and old Czechoslovakia, went off the air abruptly during the night.

The attack upon Budapest was the second which the Hungarian capital has undergone since the start of the war. Russian planes bombed the city for the first time last Friday night and were reported to have set many fires.

### Drivers' Licenses Expire On Nov. 1

AUSTIN, Sept. 10 (AP)—State police today warned Texans that all original drivers' licenses expire November 1 and that operators who have not renewed by that date must take examinations to obtain new permits.

The examination includes a stiff written test and a driving test which many car operators fail several times.

Drivers License Chief J. M. Draper said that automatic renewals are granted holders of original licenses when they are made within the time specified for certain serial numbers.

Persons driving without valid licenses are liable to arrest and fine.

### College Reserves Face Call To Active Service

WASHINGTON, Sept. 10 (AP)—Secretary of War Stimson served notice today that college students who are members of the army enlisted reserve corps and the national guard military duty as soon as they reach the minimum legal age for service—now 20 years—because of increasing war demands for manpower.

When the reserve was created, students were told the war department policy was to permit them to complete their college courses, if possible.

"The exigencies of the war have now become such," Stimson told his press conference, "that it is now expected that by the end of the college term, or semester beginning in September, those student members of the reserve who have now reached selective service age with all, or for the most part, be called to active duty and those reaching that age during subsequent terms will similarly be called."

Stimson said the use of reserve officer training corps units was under consideration to give the student reservists concentrated military training when they are called up.

The war secretary said he had advised educators in the meantime to carry on civilian education as far as possible, rather than dis-

### Willkie In Egypt

Montgomery (right) to talk with a staff officer during the battle with Rommel's forces in the Egyptian desert near El Alamein. This is an official British photo. (AP photo by radio from Cairo).

### Japs Edge Nearer To Port Moresby

GENERAL MACARTHUR'S HEADQUARTERS, AUSTRALIA, Sept. 10 (AP)—By a series of outflanking movements, Japanese troops have fought their way across the summit of the rugged Owen Stanley mountains in New Guinea and are pushing down the southern slopes within 44 miles of Port Moresby, General MacArthur's headquarters announced today.

Australian forces, the announcement said, are battling gallantly to halt the enemy advance along a narrow trail traversing a series of ridges which still lie between the invaders and their goal.

The fighting is proceeding under conditions of "extraordinary hardship and difficulty," the bulletin added.

Allied air units were said to be playing an important role in the battle, bombing and machine-gunning the Japanese continually.

There was no official indication of the size of the forces which the Japanese had thrown into the offensive, but it was evident they were employing seasoned jungle fighters trained in the infiltration tactics which played such a large part in their successes in Malaya.

The brief announcement disclosing the Japanese advance said the invaders had successfully outflanked Australian positions at Myola on the north side of the towering Owen Stanley range, pushed through a pass and again outflanked defenses at Efoqi on the southern side of the summit, 12 miles nearer Port Moresby.

The invaders thus have traversed approximately 15 miles since they launched their push from Kokoda several days ago and now are considerably more than halfway across the 120-mile wide arc of southeastern New Guinea.

The gap through which the Japanese fought their way across the summit of the Owen Stanley range is about 8,000 feet above sea level, while the elevation at Efoqi is about 4,600 feet.

This means that the invaders have conquered the most formidable portion of the mountain barrier barring their way to Port Moresby. They still must cross several ridges, none of which is less than 2,840 feet above the sea.

Three-quarters of a mile beyond Efoqi is the head of a road which winds downward through the mountains for 25 or 30 miles before reaching the comparatively level ground immediately above Port Moresby. While the Japanese are 44 miles from their goal the distance by road is between 50 and 60 miles.

Port Moresby itself lies only 225 miles from the northeast tip of Australia and is regarded as a vital link in the defenses of this continent. Should it fall to the Japanese they would be in possession of an important base from which to bomb Australia and a potential jumping off place which to launch an outright invasion attempt.

### Flood Menace Increases

By The Associated Press  
A new warning that floodwaters rolling toward the Gulf may reach a record high tomorrow was issued today by the Brownsville weather bureau.

Residents in that vicinity were advised to exercise extreme precautionary measures.

Water at Brownsville was a foot over the river banks but levees were holding. Crest of the tide is expected tomorrow morning.

Major L. Dorman, commander of the Brownsville Texas Defense Guard battalion, was ready for a general evacuation today or tomorrow.

Two hundred residents of Rio Rico, across the river from Mercedes, were living in improvised shelters in the hills half a mile back from the river as water covered the town three feet deep.

Furniture and personal belongings floated down the village streets. There were no deaths.

About a score of families on the American side of the Rio Grande were evacuated this morning, with their livestock, between Mercedes and Brownsville.

Crest of the flood was expected tonight at Mercedes.

Other sections of Southwest Texas counted their flood losses in the hundreds of thousands of dollars.

### Artillery Action On Egyptian Front

CAIRO, Sept. 10 (AP)—British mobile columns and artillery engaged small parties of axis tanks yesterday in the southern sector of the Egyptian desert front west of El Himsimat. British headquarters announced today.

Activity Tuesday night was reported limited to general patrol work and artillery exchanges in the northern and central sectors.

"Air activity over the battle area was on a reduced scale," the British communiqué said, "although our light bombers scored hits on German and Italian aircraft near the coast."

### Quake In Kansas

HAYS, Kan., Sept. 10 (AP)—Earth tremors severe enough to awaken sound sleeping Hays residents were felt here at 4 o'clock this morning. Stockton and Plainville to the north also reported similar disturbances.

### Brits Attack 3 Ports On Madagascar

Military Operations Broadened Against French Island

VICHY, Sept. 10 (AP)—The British opened a general offensive against the west coast of Madagascar at dawn today, attacking the ports of Majunga, Amboina and Morondava with planes and 18 warships, it was announced tonight.

Concentrated shelling ushered in the offensive, a renewal of hostilities on the big French island in the western Indian ocean which lightened after the British captured the big naval base of Diego Suarez at the northern tip of the island May 8.

The 18 warships poured salvo after salvo of shells into Majunga harbor, 320 miles southwest of Diego Suarez, while planes bombed and strafed French troop concentrations as far inland as 100 miles.

The shelling continued tonight, apparently preparing for a general troop landing.

The attack came two days after an unsuccessful attempted landing by Fighting French forces, the government said.

WASHINGTON, Sept. 10 (AP)—The state department announced today that Great Britain, with the full approval of the United States, had decided to undertake "further military operations" in the Madagascar area.

Pointing out that the penetration or occupation of any part of Madagascar by the axis powers would constitute a definite and serious danger to the United Nations, the announcement added:

"The full military occupation of the island by British forces will therefore not only contribute to the successful conduct of the war against the axis but will be in the interest of the United Nations."

Willkie In Egypt—Wendell L. Willkie, dressed in a his sun helmet, steps outside the caravan headquarters of Lt. Gen. Bernard L. Montgomery (right) to talk with a staff officer during the battle with Rommel's forces in the Egyptian desert near El Alamein. This is an official British photo. (AP photo by radio from Cairo).

### Talmadge Is Defeated In Georgia Race

ATLANTA, Sept. 10 (AP)—Apparently beaten back in his unprecedented bid for a fourth term as governor of Georgia, Eugene Talmadge today trailed far behind youthful Attorney General Ellis Arnall in nearly complete reports from yesterday's democratic primary.

Mid-morning tabulations of unofficial returns showed the 35-year-old challenger the apparent final winner in 75 counties having 221 county unit votes, 15 over the majority needed for the nomination that is the equivalent of election in democratic Georgia.

At this time the 57-year-old, three-term chief executive counted as complete in his column only 35 counties with 79 units.

Stirred by lively campaigning which saw the square-jawed Talmadge rallying his forces under the banner of white supremacy, the voting was brisk but orderly and in dozens of counties fewer than 100 votes decided which man was to receive the county's unit.

Talmadge, longtime stormy petrel of Georgia's rough and ready politics, refused to concede defeat and said he would await full and official returns before he would comment.

The state voters also nominated Senator Richard B. Russell to succeed himself, the incumbent having left his post in Washington long enough to make only one speech against aspirant William D. Upshaw.

### Six Sentenced By Collings

Six state cases were disposed of in 70th district court here Wednesday, with defendants in all cases entering pleas of guilty before District Judge Cecil C. Collins.

J. M. Kirby was assessed a two-year term on a charge of automobile theft. Philip Rawlins, charged with robbery by force, received a five-year sentence.

Terms were suspended for other defendants, who included: James Baldwin, five years on charges as accessory in a robbery case; Frank Carl, two years for auto theft; and Charles G. Postes, two years for auto theft; and Johnny Teasley, five years for burglary.

Divorce was granted in the case of W. C. Boon vs. Vivian Boon.

### Equipment Arriving At Local Air Base

Planes and other equipment are being received now at the Big Spring Advanced Army Air Force Flying School, headquarters announced Thursday.

Many of the twin-motored craft to be used in bombardier training have put into the field and ground crew members of the reserve who have been scheduled for 8 p. m. by the Temple Israel.

Several Big Spring stores will be closed Saturday in observance of the day, but will open at 9 a. m.

### Rubber Committee Recommends It, FDR Will Act

WASHINGTON, Sept. 10 (AP)—President Roosevelt said today he would put into effect "as rapidly as arrangements can be made" a set of recommendations from his special rubber committee which included nationwide gasoline rationing and drastic restrictions on civilian motoring.

He praised the committee's far-reaching report as "excellent" and said the government owed a debt of gratitude to the committee members. He transmitted copies to congress for its information.

The committee submitted its report to the chief executive with a blunt declaration that there was no middle course in solving the nation's rubber problem, that it was "discomfort or defeat."

In addition to recommending an expansion of the present synthetic rubber production program from an annual total now of 700,000 tons to a contemplated figure of 1,100,000 the committee proposed these additional steps:

1. That no speed above 35 miles an hour be permitted for passenger cars and trucks, so as to prolong the life of tires by nearly 40 per cent.
2. That the average annual mileage per car be held to approximately 5,000 miles, and this to be permitted only for "necessary driving."
3. That more rubber be released to the public through recapping old tires, or the issuance of new ones, so as to maintain fully necessary civilian driving.
4. That a new gasoline rationing system be devised to save tires, based on 5,000 miles a year of driving per car.
5. That "the restrictions as to gasoline and mileage be national in their application."
6. That compulsory periodic tire inspections be instituted.
7. That a voluntary tire conservation program be put into effect pending establishment of gas rationing, which the committee said was "the only way of saving rubber."

The committee, appointed on August 8, consisted of Bernard M. Baruch, who was chairman of the war industries board in the last war; Dr. James B. Conant, president of Harvard University, and Dr. Karl F. Compton, president of Massachusetts Institute of Technology.

Mr. Roosevelt had asked that the survey include facts on existing supplies, estimates of future needs, and the best method to be followed for obtaining an adequate supply of rubber for military and essential civilian requirements.

They told the president bluntly that:

"We find the existing situation to be so dangerous that unless corrective measures are taken immediately this country will face both a military and civilian collapse. The naked facts present a warning that dare not be ignored."

Backing up this warning with figures, the committee said total crude rubber supplies available between July 1, 1942 and January 1, 1944 would be 631,000 tons whereas estimated military and other essential demands would total 842,000 tons. And these demands make no allowance for tires for civilian passenger cars.

This leaves a deficit of 211,000 tons which must be met by synthetic rubber production before January 1, 1944.

"Let there be no doubt," the committee said, "that only actual needs, not fancy wants, can, or should, be satisfied. To dissipate our stocks of rubber is to destroy one of our chief weapons of war. We have the choice—discourt or defeat. There is no middle course."

The members said one note of optimism was permissible, however. It explained that if the synthetic rubber program it outlined were fulfilled with reasonable expectancy it might be possible to ease up on rubber conservation-through-gas-rationing before the end of 1943.

But until then, the committee asserted, "any relaxation is a service to the enemy."

The committee proposed a seven-point synthetic rubber program, recommending:

1. That there be no further substitutions in present plans.
2. That the immediate authorization of an additional 100,000 tons of Buna-S production for 1942.
3. Immediate institution of a refinery conservation program to yield 100,000 tons more of butadiene.
4. Immediate adjustment in rates of construction of present styrene and polymerization plants to promote maximum production of Buna-S in 1942.
5. Construction of another plant for making 20,000 tons of neoprene annually.
6. Erection of a 27,000 ton butadiene plant to utilize grain and an associated polymerization plant to produce 30,000 tons of Buna-S, both to be placed near the center of grain production and construction to be started six months hence.
7. Erection immediately of plants to produce 100,000,000 gallons of alcohol yearly by use of recently developed apparatus, these plants also to be erected near grain producing areas and a places where water transportation is available.

### OPA Listings Due Tonight

Last-minute warning to owners of businesses supplying services to either consumers, wholesalers or manufacturers was issued by the war price and ration board Thursday to mail to the board before midnight a complete list of ceiling prices.

According to OPA regulations this list must be on file with the local county board and effects such services as filling stations, laundries, shoe repair shops, dry cleaners, and any other business supplying consumer service.

While many of the lists of ceiling prices have been received by the board, a large percentage of business houses have not yet complied with the ruling with deadline time expiring at midnight Thursday night.

### Surtax Rates Are Changed By Group

WASHINGTON, Sept. 10 (AP)—The senate finance committee today readjusted individual surtax income rates for the brackets below \$50, lowering them in the lower brackets and increasing them in the higher.

Treasury experts estimated the changes would increase total prospective revenue by \$33,000,000 a year.

As a result, single persons with net incomes of \$2,000 or less will pay lower income taxes than proposed under the house bill. For those with above \$2,000 the total tax liability will be higher.

For married couples without dependents, the break between higher and lower rates as compared with the house bill will come between \$2,500 and \$3,000 net income (before personal exemptions) and for married couples with two dependents between \$4,000 and \$4,500.

### Two Firms Are Indicted

WASHINGTON, Sept. 10 (AP)—Attorney General Biddle announced today indictments of E. L. Dupont de Nemours and Company of Wilmington, Del., and Rohm and Haas company of Philadelphia and eight of their officials on charges of controlling the manufacture and sale of plastics widely used in war production.

The indictment alleged, Biddle said, that the defendants participated in a world-wide conspiracy to suppress competition in plastics and that a cartel which included two German companies and one British company was involved.

The indictment was one of two returned August 18 by a federal grand jury at Newark, N. J., and kept secret until today. The second indictment charged Dupont and Rohm and Haas and six of their officials and three additional individuals with conspiring to monopolize the distribution and sale of denture plates (false teeth) made of a new plastic material known as "methyl methacrylate."

### OPA Listings Due Tonight

Last-minute warning to owners of businesses supplying services to either consumers, wholesalers or manufacturers was issued by the war price and ration board Thursday to mail to the board before midnight a complete list of ceiling prices.

According to OPA regulations this list must be on file with the local county board and effects such services as filling stations, laundries, shoe repair shops, dry cleaners, and any other business supplying consumer service.

While many of the lists of ceiling prices have been received by the board, a large percentage of business houses have not yet complied with the ruling with deadline time expiring at midnight Thursday night.

# Congress Heading For Wrangles On Wage-Price Controls

## Local Man Sees Aunt On Return From War Zone

Local people shared this past week in a festive occasion which marked the return-home of a relative after months as a prisoner of the Japanese.

Resting at Bridgeport, Tex., after her ordeal is Miss Blanche Groves, a Baptist missionary to China who was one of those reaching America on the Gripsholm in the exchange of prisoners. Relatives gathered at Bridgeport for a reunion, and among them were Mr. and Mrs. E. T. Borum and Billie Ted of Big Spring. Miss Groves is an aunt of Mr. Borum.

Miss Groves, who had spent 22 years in China with few visits home, was interned in her own quarters at Suchow at the outbreak of war, and was under strict Japanese patrol. Borum said she had suffered considerably from her hardships.

Georgia Bond accompanied the Borums on their trip and visited relatives at Alford.

## Full Debates On Issues To Consume Time

WASHINGTON, Sept. 10 (AP)—Rising congressional sentiment for a concrete wage formula and a new basis for farm parity prices today complicated the problems of administration leaders trying to meet President Roosevelt's October 1 deadline on legislation to hold down the cost of living.

Despite Senate Majority Leader Barkley's word that he hoped to pass the bill in the next three weeks, it was clear that numerous senators were prepared to insist on a full discussion of all controversial points. That might signify lengthy debate, for a senator may talk as long as he wishes unless the cloture rule is invoked by a two-thirds vote.

There also were reports that some senators might welcome a showdown, to determine just how the president would proceed if the law he asked for was not on the books by the first of next month.

In the house, Speaker Rayburn (D-Tex) suggested a simple, joint congressional resolution which would empower the president to stabilize "everything" entering into the cost of living.

On one point, there appeared to be a general accord; across the house also separating the democratic and republican members echoed cries for swift action. Majority Leader McCormack (D-Mass) expressed hope that a solution could be reached by late next week.

But kindling protests against turning the entire anti-inflation assignment over to the president was a broad grant of congressional authority developed soon after Rayburn laid his resolution proposal before a round table session of republican and democratic house leaders.

Most farm state lawmakers did not appear disposed to accept a measure holding down agricultural prices unless industrial wages received similar specific treatment.

In his message to congress, Mr. Roosevelt said he would stabilize wages when congress had acted to hold down the price of farm products.

Although the president asked that the present method of figuring farm parity prices be continued, some legislators expressed belief that the current formula, as applied by the bureau of agricultural economics, does not take into consideration the rise in farm labor costs due to industry's manpower demands.

As a consequence, it appeared likely that a whole new parity formula might be proposed on the senate floor.

## New Orleans Leads As Playoff Opens

By The Associated Press  
The New Orleans Pelicans, who finished fourth in Southern association season standings, took a one-game lead over pennant-winning Little Rock today in the preliminary series of the Shaughnessy playoff, while second-place Nashville gained a game advantage over third-notch Birmingham.

The Pels licked the Travelers in the opening game of the series at Little Rock last night, 6-2, behind the eight-hit pitching of big Bill Seinsoth and Dee Moore, while Nashville trimmed Birmingham, 10-0, in the Tennessee city.

## UTILITY LEADER DIES

NEW YORK, Sept. 10. (AP)—Alfred Hugo Schoellkopf, 49, president of the Niagara Hudson Power corporation and regarded as one of the outstanding utility figures in the country, died last night.

Prior to the war, India raised the most cattle; China, the most hogs; Australia, the most sheep.

### Good Garden Yields Much For Canning

KNOTT, Sept. 10. (sp.)—A Victory garden of distinction is that of Mrs. Edgar Johnson of the Soash community, who is a former Knott Home Demonstration club woman. She is enjoying black wax beans, carrots, okra, beets, mustards, turnips, peppers, etc., fresh every day. The big ripe tomatoes are now being served on the home table twice each day and there will be plenty later for canning. Mrs. Johnson has canned butter beans, shelled pinto beans, corn and peas, canned seven gallons of cucumbers from the garden and raised enough onions to do through the winter, to assure herself and family of a well balanced diet with the addition of milk, butter, eggs, and home cured meats. She also has canned peaches and pineapple which she has purchased and plans to can pears and apples later.

Mr. and Mrs. W. A. Langly honored three of their sons, who are on furlough from army duty, with a dinner at their home, Sunday, J. T., from Fort Benning, North Carolina, Vernon, who is being transferred to Mineral Wells, and Billy who is employed at Houston in defense work.

Also present were, Mr. and Mrs. Ray Smith and son, Jimmy, of Big Spring, Mr. and Mrs. Earl Reagan, and Mr. and Mrs. Cleatus Langly, and daughter, Colleen and Mr. and Mrs. Langly.

Mr. and Mrs. L. E. Ricketts and daughter, Ruth, and Mrs. Ricketts' mother, Mrs. Ella Paulk, left here recently to go to Hearn where Mr. and Mrs. Ricketts will assume duties as teachers there. They came to Knott during the last term to finish the school year.

Mrs. P. O. Hughes was moved to her home Friday, from a Big Spring hospital. Her condition is reported to be somewhat improved.

Mrs. Jewel Martin and daughter, Joyce, have returned here from San Angelo where they spent the summer with Mr. Martin, who is employed there. Joyce will enter school at Brown.

CHOCOLATE CHIP HONEY COOKIES... Boy-oh-boy!

### How To Make A Soldier Happy And Still Not Strain Your Sugar Bin

By MRS. ALEXANDER GEORGE, Wide World Food Editor

If Johnny can't come home to the cookie box, then send the cookie box to Johnny.

Home-baked cheer for your soldier won't even strain the family sugar ration if you make good use of sugar substitutes such as honey, syrup and vitamin-packed fruits.

**MAPLE NUT FINGERS** are good travelers, provided they are packed firmly in a box and with plenty of waxed paper between the layers. Cream 1-2 cup fat with 1-2 cup sugar, add 3 eggs, beaten, 1 teaspoon vanilla and 1-3 teaspoon salt. Beat well and add 1-2 cup maple syrup, 1-2 cups cake flour, 2 teaspoons baking powder and 1-2 teaspoon cinnamon. Beat 2 minutes and pour to about the thickness of an inch in shallow pan lined with waxed paper. Sprinkle top of batter with 2-3 cup nuts (shaved Brazil, pecans or walnuts). Bake 30 minutes in moderate oven—about 350 degrees F. Cool and cut in mar.

**LOLLYPOPS** will make a big hit with the boys and they will keep moist and not crumble easily:

Cream 2-3 cup fat with 1 cup sugar (dark brown preferred), add 1-3 cup molasses, 1-2 teaspoon cinnamon and 1-4 teaspoon each cloves, nutmeg and salt. Stir in 3 beaten eggs, 1 cup chopped raisins, 1 cup chopped prunes and 2-3 cup broken nuts. Add 1-4 cup orange juice, 4 cups flour and 1 teaspoon each of soda and baking powder. Shape dough into a roll, wrap in waxed paper and chill 24 hours or longer. Cut off thin slices and bake 10 minutes in moderate oven on greased cookie sheets.

Old fashioned and with plenty of appeal are these **GRANDMA OATMEAL COOKIES**: Cream 1 cup fat with 2-3 cup sugar until soft. Add 1-2 cup honey and 1 teaspoon vanilla. Beat thoroughly. Stir in 2 eggs, beaten, 1-3 cup, sour cream, 1-2 teaspoon salt, 1 teaspoon cinnamon and 1-2 teaspoon mace. Add 1-2 cups uncooked oatmeal, toasted a light brown by heating 5 minutes or so in shallow pan in moderate oven. Mix 1 cup chopped raisins, 1 cup chopped dried apricots, 1-2 cup each chopped candied cherries and pineapple, 1 tablespoon lemon juice and 1-4 cup chopped citron (optional). Add these fruits with 4 cups flour, 1-2-3 teaspoons soda and 1 teaspoon baking powder to the rest of the ingredients. Chill dough and then drop portions from a spoon onto greased baking sheets. Flatten each cookie with a fork dipped in flour; top the cookies with raisins, nut halves or squares of candied fruits and bake 12 minutes in moderate oven.

### Menus For Your Approval

By MRS. ALEXANDER GEORGE

**Peaches In Fritters**  
Have syrup from canned fruits and use for sweetening in puddings and sauces.

Dinner Serving 3 or 4  
Broiled Veal Chops  
Buttered Kale  
Fritter Sauce  
Enriched White Bread and Butter  
Spiced Beets  
Chilled Watermelon Coffee

**Peach Fritters**  
1 cup flour  
1-2 teaspoons baking powder  
1-2 teaspoon salt  
2 tablespoons sugar  
1 egg, beaten  
1-3 cup milk  
2 teaspoons fat, melted  
8 halves canned peaches  
Mix flour, baking powder, salt, sugar, egg, milk and fat. Beat, dip the peaches in the mixture and brown them in 4 tablespoons fat heated in a frying pan. Serve warm.

**Fritter Sauce**  
1-3 cup sugar  
2 tablespoons flour  
1-4 teaspoon salt  
1-2 cup canned peach juice  
1-3 cup raisins or chopped prunes  
1 tablespoon butter  
1-4 teaspoon mace or nutmeg  
Blend sugar, flour and salt. Add rest of ingredients. Cook slowly, stirring constantly, until thick and creamy. Serve over fritters.

When boiling onions change the water twice and the onions will be more mild flavored. They are then

good served with butter and seasonings. Boiled onions put into a well seasoned cheese sauce with some hard-cooked eggs, give a good meat alternate.

Grated cheese can replace the fat called for in biscuits. Use 1-2 cup grated cheese for each 3 tablespoons fat called for. Mix the dry ingredients, and the grated cheese and then milk enough to moisten and pressed in the usual biscuit manner. Cheese biscuits are nutritious, appetizing and interesting.

**BUDGET-CONTROLLED**  
Dinner Serving 4 or 5  
Beef Stew Belvedere  
Buttered Spinach  
Wholewheat Bread Apple Butter  
Head Lettuce  
Curry Hard-Cooked Egg Dressing  
Jellied Prune Whip  
Whipped Cream  
Coffee

**Beef Stew Belvedere**  
4 tablespoons fat  
1-2 cup flour  
1 teaspoon salt  
1-4 teaspoon pepper  
1-3 cup catsup  
3 cups boiling water  
1 beef bouillon cube  
3 tablespoons vinegar  
2 cups beef chuck, cubed  
1-3 cups diced raw potatoes  
1-3 cup sliced onions  
1-2 cup diced celery  
Melt fat, add flour, salt and pepper. Add catsup, water with bouillon cube dissolved in it, and vinegar. Boil 3 minutes, add meat and cook an hour over low heat. Add rest of ingredients and cook another hour. Add 3 tablespoons

flour mixed with 3 tablespoons melted butter to thicken.  
Curry Hard-Cooked Egg Dressing  
1-4 teaspoon curry powder  
1-3 cup French dressing  
1 hard cooked egg  
Mix curry powder and dressing, beat in yolks pressed through a sieve and the whites, diced. Chill and pour over any green salad.

**Jellied Prune Whip**  
1-4 cup sugar  
3 tablespoons flour  
1 cup chopped cooked prunes  
1-4 teaspoon salt  
1-2 teaspoon cinnamon  
1-4 teaspoon nutmeg or mace  
1-3 teaspoon grated lemon rind  
1 cup prune juice  
1 tablespoon lemon juice  
1 tablespoon granulated gelatin  
3 tablespoons cold water  
2-3 cup chilled evaporated milk, whipped  
Blend sugar and flour, add prunes, salt, spices, rind and juice. Cook slowly until creamy. Add gelatin soaked 5 minutes in water. Stir, cool and lightly mix in whipped milk. Chill until stiff.

### Schools Collect 92 Pct. Of Taxes

A 92 percent collection of the current taxes is reported for the Big Spring Independent school district during the fiscal year ended Aug. 31.

A report submitted by Supt. W. C. Blankenship this week showed that total current collections were \$88,794.54, with a tax roll of \$95,645.70.

A campaign by the school board to bring in overdue taxes netted good results during the summer, and delinquent collections for the fiscal year aggregated \$18,009.86.

### Better Buy The Bike

ELBERTON, Ga., Sept. 10. (AP) C. H. Joiner, superintendent of city schools, thinks there may be something to dreams, after all.

He says he was dreaming he was buying a bicycle when a knock on the door of his home awakened him. It was a city policeman, come to tell him his car had been found several blocks away with all five tires missing.

The dome of the national capitol is built of iron and weighs nearly 9 million pounds.

### High Prices Paid At Wool Auction

SAN FRANCISCO, Sept. 10. (AP) Uniformly high prices, close to government ceilings, were paid at San Francisco's first wool auction.

With 688,110 pounds of California and Nevada wool offered, 218,950 pounds were sold yesterday under the hammer of J. W. Hughes of Forest Grove, Ore., and 213,300 pounds went through private sale. Another big day was expected today.

Top price of 54 cents a pound was paid for 21,000-pound lot consigned by Gene Lyons of Orick, Humboldt county, Calif. H. I. Haber Wool Co., San Francisco, was the purchaser. Prices ranged from 20 1-2 cents to this figure on 12 months wool.

Chocolate Chip Honey Cookies  
1-3 cup butter  
1-2 cup honey  
1 egg, well beaten  
1-4 cup sifted flour  
1-2 teaspoon soda  
1 package semi-sweet chocolate chips  
1-3 cup chopped nut meats  
1 teaspoon vanilla  
Cream shortening, add honey gradually and cream together until light and fluffy. Add egg and mix thoroughly. Sift flour once, measure, add salt and soda, and sift again. Add flour in two parts and mix well. Add chocolate chips, nuts, and vanilla and mix thoroughly. Drop from teaspoon on greased baking sheet 2 inches apart. Bake in moderate oven (375 degrees F.) 10 to 12 minutes. Makes about four dozen cookies.

# Churchill Says Situation In India More Reassuring

LONDON, Sept. 10 (AP)—Prime Minister Churchill charged today that widespread Japanese fifth column activity may have been behind the all-India congress party's drive for immediate independence, but he told the house of commons that the course of events in India had been improving "and is, on the whole, reassuring."

The prime minister's review of the Indian situation laid special emphasis on the turbulent events of the past two months and their bearing on the United Nations war effort.

He minimized the influence of the congress, which he accused of discarding Mohandas K. Gandhi's non-violence principles, and declared that 80,000,000 Moslems were "fundamentally opposed" to it—to which a member cried "non-sense."

As a measure of the congress influence, Churchill mentioned

that more than 1,000,000 Indians have volunteered for war service and that 40,000 volunteers in the past two months made an enlistment record.

When he finished, Emanuel Shinwell, a chronic Laborite critic of the government, told the house that Churchill's statement would profoundly disappoint and shock millions of people.

The prime minister said the principles of the government's declaration—basically, dominion status—which formed the basis of Sir Stafford Cripps' mission to India—"must be taken as representing the settled policy" of Britain.

He told questioners later, however, that he had no information to indicate any Indian tendency to accept the once-rejected Cripps proposals and added that "in the present state of affairs in India, with invasion not far off, these constitutional solutions and agreements are very difficult to come to."

**NOW MANY WEAR FALSE TEETH**

WITH MORE COMFORT FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty lumps or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

## Ginners Must File Price Statements

Cotton ginners in Texas, as well as others in the southwestern area, must file detailed price statements with the Office of Price Administration regional headquarters in Dallas by Sept. 19.

This was the word from the Dallas office Wednesday, along with an announcement that no ginner could offer his services after that date unless the price statements have been filed.

Virtually all the gin in this section of the state will await themselves of the option (one of three by which the government hopes to establish ceilings on ginnings charges) which allows a maximum charge of 105 per cent of charges last year. Other options would make ginning cost the patron only about half to 60 per cent of what he has been accustomed to paying.

# War Board News

## Picking Cost On Cotton Should Be About One-Fourth

By **U. D. KENDRICK**, FSA Supervisor

Each year farmers in all the cotton producing areas of the country are met with the problem of what price to pay for cotton picking. In the past, most attempts to set a price for cotton picking, whether by the pickers or by the farmers, has failed for one reason or another.

The price paid for cotton picking should not exceed one-fourth the price received for the bale of cotton, was the decision reached at a meeting of the Howard county war board, and presented for approval by the Howard County Victory Council on September 5. This basis of determining the price to be paid for cotton picking needs some amplification.

First, we cannot assume that cotton will be of middling grade, nor can pickers be had for the last picking on the same basis as early pickings. Toward the end of the season cotton is always of a lower grade and does not sell for as much per pound or per bale, while the labor necessary to gather it is more than the earlier pickings. Therefore, if the entire crop is to be harvested on the basis of not exceeding one-fourth for picking, the beginning price must be less than average to balance the cost of the last picking.

There is an age-old custom generally accepted and practiced, of dividing the returns of the crop as follows: 1. Use of the land, 2. Power, implements and seed, 3. The labor necessary to prepare the land, plant, cultivate and harvest the crop. In the case of a tenant, one-fourth of the returns of the crop is paid to the landlord, or in the case of an owner, one-fourth

of the crop is needed to pay land notes, taxes and interest. One-fourth of the crop to pay maintenance and operation of tractors or tractor and implements. This leaves one-half of the crop for labor. The laborer connected with producing a cotton crop includes management, preparation of the seed bed, planting (no small item in West Texas), cultivation of the growing crop, protecting it from insects, picking or pulling, hauling to the gin, and disposal of crop.

From this one-half of the returns of the cotton crop farmers must pay for their families for the whole year. He must do his best to school his children and pay medical and hospital bills. If he is lucky, he may be able to carry a small life insurance policy or to save a little for old age, but there are very few who are able to do either. Now, if the farmer pays more than one-fourth of the returns of a bale of cotton for picking or pulling, it is evident, even to a cotton picker, that he cannot live on the less than one-fourth he has left from his own labor in making the crop. Now let us look at this idea of one-fourth of the price of a bale of cotton for picking or pulling from the pickers standpoint.

Last year, pickers received about one-fifth of the price of cotton. Assuming that the average bale of cotton sells for \$24.00, this would give the pickers \$21.00 for picking a 600 pound bale of cotton. If the average bale is \$30.00, picking would be \$22.50, but there would have to be an advance in the price of cotton for it all to average \$30.00 a bale. It requires some 1350 to 1600 pounds of seed cotton to make a bale. If the average is 1400, then \$21.00 per bale for picking would mean an average of 150 per hundred for picking, but every farmer knows that if he is to average \$1.50 for the season, the beginning price must be less than \$1.50. On the same basis with 2000 pounds of seed to make a bale, the price for pulling would be \$1.05. If someone thinks of the cotton seed, remember also that the farmer must haul the cotton to the gin, pay for ginning and wrapping and other expenses incident to the disposal of the crop. Seldom, if ever, does the receipts from the seed exceed the cost of hauling, ginning and other expenses.

In conclusion, it appears that any amount more than one-fourth the average price of cotton paid as an average price for picking or pulling will be contributed by the farmer out of his living, and no cotton picker should want to receive more out of the cotton crop than the people who have worked through the whole year to produce it. Furthermore, this would give cotton pickers an increase of about 40 percent above last year's wages, which should more than cover the increased cost of living, transportation, etc., and cotton pickers would be paid a wage in line with other above that paid laborers in public works.

**Typhus Fever Due To Spread Unless Rats Exterminated**

By **O. P. GRIFFIN**, County Agent

Dr. M. H. Bennett talked over the radio last week and again to the Victory Council again last Saturday on this subject. From what he got out of his talks we have our choice between killing out the rats or a continuation of the increase of typhus cases.

Under these circumstances, the axis powers could not want a better ally than the rats we are harboring under our feed stacks and sheds. They have already destroyed large amounts of livestock feed that has gone into the production of beef and pork. Now by carrying typhus they are striking directly at our manpower.

The Howard County Victory Council adopted a plan for the rat war last Saturday. Briefly, it consists of a period of preparation for a poisoning campaign and at the same time killing all of the rats possible by gassing them and trapping them.

The preparation most needed is to get all of the people aroused to the necessity of killing the rats and to get them to act together. Rats migrate from one farm to another. Those who are fighting them, get others from their neighbors farms. However, those who do not want to live with them and their typhus infection must do this until a concerted program is in effect.

In the plan adopted by the Victory Council Saturday, the first step is a demonstration of gassing rats and methods of trapping them together with methods of preparation and prebaiting to avoid poisoning other animals. After the demonstration meeting the people are to order baiting material and poison from their neighborhood Victory Leader. It is thought that meat and fish baits can be had for 20 cents per pound and that one pound should be ordered for each 25 rats to have enough for prebaiting and poisoning.

Baiting material is then to be distributed from the county office to community leaders and these in turn will distribute them to neighborhood leaders and they to the farms of the neighborhood. In this way all of the farms in a community will prebait the same night and poison the rats on the same night three days later.

Now whether you have one of the demonstrations in your community will depend on your community leader. It is useless to announce and hold meetings with-

"I made a few changes in the office while you were on vacation."

## No More Draft Releases After Induction Notice

Only in extreme emergencies will releases be granted by the Howard county selective service board to men after they have received their notice of induction, George White, chairman of the Howard county board, has announced.

White had reference to approximately a score releases granted after notices had gone out for September induction.

The board had granted many of these, he said, to aid the air corps specialist recruiting drive, aimed at recruiting men in Big Spring for training at the Big Spring Army Air Force Advanced Flying School. The campaign opened up after notices had gone out and the board cooperated by releasing those who were enlisting for assignment here.

However, White and other board members took the position that all registrants now are familiar with the enlistment opportunities with the air corps with their own home town as a training station, and they must enlist before they receive induction notices if they are to get consideration at the hands of the board. Applications for release after the notice has been received will be disregarded on the grounds that the enlistment is being effected as a last-minute alternative, said White.

**School Enrollment Off Slightly At Colorado City**

COLORADO CITY, Sept. 10 — Enrollment of 1,119 pupils in Colorado City schools this week showed a slight decrease from the number in 1941 when 1,270 pupils were enrolled. The only school which showed an increased enrollment was the Mexican school with 40 pupils as compared to 29 last term.

The high school enrollment fell from 365 to 317; junior high from 806 to 772; Hutchinson school from 1236 to 1174; the primary school from 172 to 158, and the negro school from 172 to 156.

Regular classes began Wednesday with all last-minute vacancies on the teaching staff filled. New teachers for the 1942-43 term include Ed Williams, principal of the high school; Mrs. Charles Godwin, librarian; Merrick Fyess, social science and assistant coach; Joy Pace, homemaker in senior high; Iris Riden, commercial teacher; M. C. Hannaford, mathematics in senior high.

Dorothy Smith will teach penmanship in junior high; Nina Laura Smith, language arts; Roberta Shaffer, homemaker; Mollie Lou Armstrong will teach in the Hutchinson school and Constance Drake in the primary building.

**GATHERING IN CHILE**

SANTIAGO, Chile, Sept. 10 (AP) — Delegates of the 21 American republics, Canada and the international labor office gathered here today for the seven-day meeting of the inter-American congress on social security.

out the cooperation of the people of the community. If your leaders are slow to act, it might help if you would offer to assist them. Even if we fail, when our neighbors go down with typhus we can have the consolation of having done all that we could to prevent it.

**Scrap Collection Should Be First Order Of Business**

Do you still have a little scrap metal left on your farm? If you have a lot of it, you are way behind; but it is never too late to mend your way.

Have you considered that even 100 pounds from each farm in Howard county would make a total of nearly two car loads?

Must our war furnaces close down because of your negligence and "put it off" attitude?

Why not make this your first order of business until all of the scrap metal has been gathered from all of the farms of Howard county?

There are people who do not read or listen to the radio. Will you please help out the WAR EFFORT by telling them.

## WAR QUIZ ANSWERS

Continued From Page 16

1. Marmansk, Archangel. 2. (a) Finnish lake. (b) Norway. (c) Libya. (d) French West Africa. (e) Egyptian marsh. 3. Greenland, Madagascar, Borneo. 4. (a) Smappy. (b) Rubber, tin. 5. Denmark, Great Britain, France, the Netherlands.

6. (a) An attack from two directions upon vital center or to "roll up" defender. (b) Defenses depending upon terrain that offers little supplies to enemy and which enables defenders to retreat to other positions without exposing main force. (c) Battle strategy which depends on quick moving units rather than trenches and fixed fortifications. (d) Shallow trenches affording protection to small groups of soldiers. 7. (a) Lieutenant-colonel. (b) Second lieutenant. (c) Lieutenant. (d) Major general. 8. (a) 16. (b) Tanks, planes. 9. Illumination caused by reflection of lights from a big city which aids sea raiders in spotting shipping at night. 10. Battleship, cruiser, destroyer, aircraft carrier, submarine.

11. Nitroglycerine. 12. Guayula shrub, rabbit bush, petroleum, milkweed, dandelion, rubber tree, grains, coal, many types of vegetation. 13. Sugar is an essential in manufacture of munitions. 14. (a) True. (b) True. (c) False, it is used because of lightness and stability. (d) True.

15. Wilhelmina — Netherlands. George — Greece, Peter — Yugoslavia, Haakon — Norway. 16. (a) One

of Hindu leaders of India. (b) Leader of British Commons, key figure in efforts to solve Indian problems. (c) American admiral who evolved modern principles of sea war. (d) Former Hitler deputy who fled to Scotland. (e) Head of Unoccupied France. (f) Director of War Production Board. (g) Italian foreign minister. (h) Head of French army at time of armistice. (i) British general who surrendered Singapore. (j) Prime minister of Australia.

17. (a) True. (b) True. 18. 15. Yes. 20. (a) 1,500. (b) 700. (c) 5,500. (d) 4,000.

21. (a) True. (b) False, announced maximum is eight tons. (c) True. (d) True. 22. (a) 7. (b) 60,000.

23. Napoleon's Russian campaign of 1812. Napoleon. 24. (a) Crimean war. (b) Greek-Turkish war, 480 B.C. (c) Napoleonic war. (d) The Crusades.

**WORLD WAR HERO DIES**

NEW YORK, Sept. 10 (AP) — Brig. Gen. Luke H. Callan, 47, wartime candidate for governor of Rhode Island and a hero of the first World War, died last night in Doctors' hospital.

## SKIN IRRITATIONS OF EXTERNAL CAUSE

Some pimples, bumps (blackheads), and ugly broken-out skin. Millions follow ailments with simple home treatment. Goes to work at once. Direct action skin healing by killing germs it touches. Use Black and White Ointment only as directed. 10c, 50c, 60c sizes. 25 years success money-back guarantee. Get Vital skin cleansing in good soap. Enjoy famous Black and White skin soap daily.

### Death Claims

#### Mrs. Brown

Mrs. C. C. Brown, 55, succumbed at a local hospital at 12:05 p. m. Thursday following a prolonged illness. She had been in the hospital for the past five months.

Funeral arrangements were pending word from relatives. Mr. and Mrs. Brown had resided here for the past seven years, and previous to that time had lived here at intervals.

Survivors include the husband, C. C. Brown; her son, Arsen Mitchell, stationed with the U. S. Navy at New York; four stepdaughters, Mrs. Sarah Osborne, Marshall, Mrs. Willie Dunn, Fernwood, Miss. Mrs. Ruby Love and Mrs. Ruth Young of Big Spring; a step-son, Cecil R. Brown, on maneuvers with the army in Louisiana; two brothers, Bob Tannehill, Fort Worth, and Joe Tannehill, Big Spring; and three sisters, Mrs. Lelah Rice and Mrs. Dollie Evans, Big Spring, and one whose name and address were not known immediately. Nalley Funeral Home was in charge of arrangements.

### Youth Of 15 Held In Death Of Boy

GREENVILLE, S. C., Sept. 10 (AP)—Fifteen-year-old William Arthur Melton, Jr., was in jail today in connection with the death September 3 of five-year-old Henry W. (Mike) Harrison, Jr., whose body was found in the attic of a vacant house across the street from his home. No charges have been filed.

Sheriff R. H. Bearden said Melton in a signed statement early today said he had been playing cowboys and Indians with Harrison and the child stumbled while his hands were tied behind his back and fell down a basement stairway and was knocked unconscious.

Bearden said Melton went on to relate this version of the death: He took Harrison to the attic and left, thinking the younger child soon would come to and leave. He tied Harrison's feet together before leaving him, but he did not explain to police his reason for doing so. Harrison's body was found after a widespread search of 12 hours.

### Serial Numbers Of Tires Required

R. F. Robbins, chairman of the Howard County War Price and Ration board, sent notice Thursday to all tire inspectors for the Howard county board that effective September 15th, serial numbers of all tires inspected must be recorded in the inspection report of original tire applications.

### Allied Ship Toll Goes Up To 462

The Associated Press said the submarine toll of Allied and neutral vessels in the western Atlantic battle area rose to 462 today in the Associated Press count of announced sinkings since Pearl Harbor with naval disclosures of the torpedoing of a medium sized British merchantman in the Caribbean. Two lost their lives while 43 others were saved.

### Local Officers To Attend TDG School

Two officers from company E, 34th battalion, Texas Defense Guard, will attend the guard officers school now under way at Camp Bullis, near San Antonio. First Lieut. Hudson L. Bohannon and Second Lieut. Leslie D. Thompson will leave Sunday for a week of special instruction, which stresses command tactics, and the combatting of infiltration as well as guerrilla warfare. Most of the officers of the 34th battalion will take in the school this week. Capt. Cliff D. Wiley probably will be unable to attend.

### Navy Office Signs Up Two Negroes

U. S. Navy recruiters established another "record" in Wednesday activities, S. L. Cooke, recruiter in charge, admitted Wednesday. They signed two negro youths for mess attendants. Although the sub-station here has handled several such enlistments, there never had been more than one on a single day. The accepted applicants were Fred Lee Page, Jr., Colorado City, and Joe McArthur Rogers, Colorado City. The latter insisted the war and its heroes had nothing to do with his middle name. "M mammy gave that to me when I was born," he told Cooke.

### Weather Forecast

WEST TEXAS—Warm this afternoon; moderate temperatures tonight.

EAST TEXAS—Little temperature change this afternoon and tonight; scattered thundershowers in south portion this afternoon.

Local sunset today, 7:59 p. m.; sunrise Friday, 7:27 a. m.

### Larger Sales At Livestock Ring

Dollar volume increased substantially with the number of head going through about the same, reports from the regular Wednesday sale of the Big Spring Livestock Commission Co. showed Thursday.

Around 400 head went through the ring and buyers bid up well to a total of \$200,000. This was up over last week by about \$3,000. Prices were generally steady with some showing strength, particularly in fat cows which were 50 points long on the top in going from \$200-250. Bulls were steady, but the top was weak at \$50. Canners and cutters, going at \$50 to 7.00 also lacked strength on the top were steady in the average ranges where bulk of buying occurred. Ordinary butchers ran from \$300-350 and good butchers were 9.50 to 10.50.

### Livestock

FORT WORTH, Sept. 10 (AP)—(USDA) — Cattle salable 4,000, calves salable 1,700; early bids and sales on most classes cattle and calves steady; medium and good steers and yearlings 10.50-13.00; choice yearling heifers up to 14.00, some steer yearlings held higher, cutter and common steers and yearlings 7.75-10.00; beef cows 7.50-9.75, a few higher; canners and cutters \$300-7.75; fat calves 3.50-12.50, culls 7.00-8.25; stocker steer calves 13.50 down, heifer calves 12.50 down, stocker yearlings mostly 11.80 down.

### Cotton

NEW YORK, Sept. 10. (AP)—Cotton prices rallied smartly in the final minutes of trading, futures closing 25 to 45 cents a bale higher.

Co. survey in Howard county, the southeast 1/4 of section No. 12, block 26, H&TC Ry. Co. survey, Howard county; south half of section 35, all in block 26, H&TC Ry. Co. survey.

### Large Turnout For High School Band

The Big Spring high school band won't lack for pieces this year. Seventy-six members are reporting for practice these days, said Dan Conley, high school band director in addition to his other duties as director of public school music.

Before time for the first public appearance of the band this autumn which probably will be at the football game on Sept. 18 when Tahoka invades the Steer corral—the band personnel likely will be reduced. Some of the players will have to be cut back to the junior and even the beginners band, said Conley.

### Recreation Parley Postponed Again

For the second time this week, the meeting of the Defense Recreational Council scheduled to be held in conjunction with appearance of Harry Emigh, regional representative of the Federal Security Agencies, has been delayed. Emigh advised from Pecos that he could not be here until Friday morning. Originally he was due here Tuesday, and then moved the date back to Thursday afternoon.

### Certificates For New Cars Issued

Certificates for purchase of two new cars was granted by the War Price and Ration board in regular session held this week as the board also granted 50 passenger retrofits and 28 truck retrofits. Eight passenger tires and 28 passenger tubes were granted along with 29 truck tires and 24 truck tubes.

### Tires, Tubes Taken From Warehouse

The sheriff's office is investigating a burglary of seven truck tires and five tubes from the Cities Service warehouse at 1st and Austin which was broken into Wednesday night. The intruders had apparently pried the lock off the front door, the sheriff's department said.

## Here 'n There

That roping event set for Sunday at Midland is going to be quite a kinfolks affair so far as Big Spring is concerned. Toots Mansfield, Bandera, who contests Clyde Buck, Concho, Okla., for the "world's championship" in calf roping, is a son-in-law of Mr. and Mrs. M. M. Edwards. Sonny Edwards, their son, will contest Jim Emery, Ft. Davis, in a special added roping attraction.

One of the wettest spots in Howard county during August was the R-Bar area. The Soil Conservation Service gauged on the Hill farm showed a total of 12.54 inches for the month. Two light showers fell around the 20th, and the bottom dropped out on the 24th with 9.69 inches. Aug. 31 brought 2.30 inches more.

Two Big Spring youths have been selected for training as naval aviation cadets, the Dallas cadet selection board has announced. They are James Marion Tidwell, son of C. H. Tidwell, a graduate of Big Spring in 1942 and a grid, basketball, track and baseball player; and James David Smith, son of Mr. and Mrs. W. E. Smith, also a 1942 high school graduate here and a member of the basketball team. They are awaiting call to active duty to report to the pre-flight school at the University of Georgia for three months of conditioning.

Another Cosden party is slated for 8:30 p. m. to 12 midnight Friday at the Country Club. Like those preceding it in recent weeks, it is for employes, wives, friends and out-of-town guests.

School opening dates were beginning to be abandoned these days. Among them are McMurray college at Abilene, opening Monday with registration, and John Tarleton Agricultural college at Stephenville, opening on Sept. 23. Both have students from Big Spring.

### Synthetic Rubber Process Outlined For Kiwanians

One day's consumption of crude oil will yield sufficient raw material for the production of 800,000 tons of synthetic rubber — the anticipated military requirements for one year, B. R. Mull, Cosden Petroleum Corp. chemist, told the Kiwanis club Thursday.

This, said Mull in explaining preference for the petroleum route in producing synthetic rubber. Too, he said, the cost of setting up for production from farm products called for major construction from critical materials. Even one petroleum synthetic rubber plant costs 100 million dollars and requires a long time to install, he said.

### More Enlisted For Local Assignment

Enlistment of men in the U. S. army air corps with recommendation they be assigned to the Big Spring Army Air Force Advanced Flying School for their on-the-job training continued at a steady rate Thursday.

Nine were accepted for this type of enlistment and sent to the Lubbock examination and induction center, Corp. Stephen Lupton, recruiter, announced. Included in the group were Curtis Alvin Chaney, Garden City; Leon George Johnson, Stanton; Howard Austin Cox, Canyon; George Washington Ames, Marion; Henry Harris, Ernest Leroy Parrish, Wilmer B. Gilmer, Rex Lee Caldwell and Henry Wilborne Brooks, all of Big Spring. Most of the men were entering as mechanics of various types.

hence a lack of synthetic production. Vocal artist for the day was Wanda McQuain with Helen Duley at the piano. The Rev. O. L. Savage had charge of the program.

**"What's in it for ME?"**

"When a manufacturer plans an advertising campaign the main thing I'm interested in is: *What's in it for ME?* And I have some definite ideas about the kind of advertising that does me the most good."

- "Here's how I see it: I've been running this cash register long enough to understand pretty well how advertising works...and how newspaper advertising by the manufacturer brings in customers and rings up sales for me."
- "From what my customers tell me, just about everybody reads the daily paper. More than that, they look for the ads in the paper and shop from them. The results I get from my own newspaper ads make me feel pretty sure of this, too."
- "Besides, when manufacturers advertise in the local papers, they can run my name and my address in their ads. That's the kind of support that really counts...because it tells the people in this town that they can buy the advertised goods at my store."
- "It all adds up to more business for manufacturers and for me when they reach all my prospects through advertising in the local newspapers. And what they do here they can do in every other town where they have or want distribution."

Small wonder this retailer is successful; he knows what's in it for him when newspaper advertising goes to work in his town. He knows that manufacturers produce more sales for their retailers...and themselves...when they advertise in local newspapers.

**Q A K Y**

I'LL HURRY AND PUT THE CONTENTS OF THIS TALK THROUGH THE WORKS

AND WHEN I'VE ANALYZED IT, CHECKED AN' DOUBLE-CHECKED IT, I'LL KNOW THE SECRET OF HIS POWER

THEN WE CAN MANUFACTURE THOUSANDS OF GALLONS OF FOUNTAIN OF YOUTH WATER FOR THE GOOD OF HUMANITY!

JUST THINK, C-GOSH, MR. MERLIN, I'M WILL BEAN, TRYING TO OAKY!

**A N N I E**

YOU FOOL, A FINE GHOST YOU WERE - INSTEAD OF SCARING THE LITTLE BRAT, SHE FRIGHTENED YOU!

BUT HER SAVAGE LITTLE CLUR ATTACKED ME - I STARTED TO TEAR MY CLOTHES OFF.

HUMPH! AM YOU WALKING ON TEN-FOOT STILTS TO LOOK TALL AND GHOST-LIKE?

LOOK WHAT I FOUND WHEN I WAS CLEANING THE BRAT'S ROOM - A PIECE TORN FROM THE GHOST'S ROBE - IF THE CHILD HAD SHOWN THIS TO THE MISTRESS, WE'D BE RUINED!

GEE, THAT'S FUNNY... I PUT THAT PIECE OF GHOST CLOTH RIGHT IN HERE THIS MORNING NOW, IT'S GONE - AN' GHOSTS DON'T WALK IN THE DAYTIME.

**D I C K I E R**

GEE, YOU 1942 GALS GIVE ME A BIG LAFF! DON'T YOU EVER HEAR THAT WOMEN'S PLACE WUZ IN THE HOME?

HOLD UP THAT SILLY IMITATION MACHINE GUN, AN' GO PICK A DAISY CHAIN! WE'RE BUSY!

**S G B R E C H Y**

SEVERAL YEARS AGO MY BROTHER AND I CAME TO THESE ISLANDS TO DO RESEARCH WORK FOR AN AMERICAN MUSEUM... WE STUDIED THE LOCAL CUSTOMS AND LANGUAGE... LEARNED TO LOVE THESE PEOPLE!

THEN, RECENTLY, THE JAPS CAME! MY BROTHER AND I WERE TAKEN PRISONER, WITH MANY OTHERS! WHAT THEY DID TO US IS BETTER NOT SPOKEN OF... BUT MANY DIED, AMONG THEM, MY BROTHER...

THOSE WHO ESCAPED TO THE HILLS ORGANIZED, RAISED THE JAP CAMP AND RESCUED SOME OF US...

BUT ENOUGH OF THIS TALK! THERE IS MUCH TO BE DONE... MUCH TO TEACH JAPS... YOU CAME HERE WITH A PLAN TO HELP IN THIS WORK... NOW I WANT TO HEAR IT!

**Q A K Y**

SEVERAL YEARS AGO MY BROTHER AND I CAME TO THESE ISLANDS TO DO RESEARCH WORK FOR AN AMERICAN MUSEUM... WE STUDIED THE LOCAL CUSTOMS AND LANGUAGE... LEARNED TO LOVE THESE PEOPLE!

THEN, RECENTLY, THE JAPS CAME! MY BROTHER AND I WERE TAKEN PRISONER, WITH MANY OTHERS! WHAT THEY DID TO US IS BETTER NOT SPOKEN OF... BUT MANY DIED, AMONG THEM, MY BROTHER...

THOSE WHO ESCAPED TO THE HILLS ORGANIZED, RAISED THE JAP CAMP AND RESCUED SOME OF US...

BUT ENOUGH OF THIS TALK! THERE IS MUCH TO BE DONE... MUCH TO TEACH JAPS... YOU CAME HERE WITH A PLAN TO HELP IN THIS WORK... NOW I WANT TO HEAR IT!

# BIG SPRING BUSINESS and PROFESSIONAL ACTIVITIES

THESE FIRMS AND INDIVIDUALS OFFER HIGHEST TYPE SERVICE AND VALUES

## Full Stock Of Used Cars On Big Spring Motor Co. Lot

With the acquiring of new cars out of the question for the duration, more and more value is placed on used automobiles—those that are in good running shape and are equipped with tires that will give mileage.

And that's where the Big Spring Motor company comes in, for this firm, long one of the outstanding dealerships in West Texas, has on hand at the present time what is admittedly the largest and best stock of used cars to be found in this section.

Big Spring Motor's lot on Main street is lined with models of nearly every kind—all of them re-conditioned and equipped to give many miles of good service. So extensive is the local firm's stock that even dealers from such distant points as San Antonio and Amarillo come here to offer premium prices.

The local company has anticipated many of the trends in the automobile business as a result of war economy, and this explains the full stocks that are on hand now. But selection is not all, for every

step is taken, from repair of motor and running parts to installation of needed replacements and fitting of better tires, to make the cars real values to their purchasers.

In addition to meeting wartime transportation problems with used cars, Big Spring Motor is emphasizing more than ever its fully-equipped repair department, manned by trained mechanics. J. E. Fort, general manager, points out that regular servicing of cars, together with a periodic check, and replacement of parts promptly when they become worn, is an investment in transportation that the shrewd motorist will take advantage of.

The quality work of Big Spring Motor's repair department is evidenced by the large volume of work it has done for various contractors engaged on the Big Spring air base project.

"With new cars gone until the war is over, we feel that our role in keeping vital automotive transportation going is twofold," said Fort. "One is to maintain a quality repair and parts department for

### Alsab Out After Fourth Straight

CHICAGO, Sept. 7 (AP)—Alsab continues his campaign today for recognition as the three-year-old champion by seeking his fourth straight victory since recovering from a leg splint in the \$25,000 Washington Park Handicap.

Although Whirlaway will not be present, having ducked the issue like Shut Out did a week ago when Alsab won the American Derby Mrs. Al Sabath's Bargain Beauty should find stiff competition in the mile and a quarter run against 13 rivals.

Repairmen—Meet the service crew of the Big Spring Motor company, a large group of trained mechanics who have the ability, the tools and the equipment to service properly any make of car. Maintenance of automotive transportation is more important now than ever before, since new cars are to be had by only a minority; and Big Spring Motor is meeting conditions by keeping its service and parts department at highest rating. These men are keeping busy, too, in making regular inspections for the wise motorist who realizes that money spent on keeping his car in shape is a real investment. (Kelsey Photo).

## Electric Service Seldom Is Broken

An unusual incident of the past week served to point up something that people have come to accept as commonplace; that is the dependable flow off electric power.

Texas Electric Service company's current was interrupted briefly when a large crane alighted on high-voltage lines and short-circuited them. The city was without power—but only for three minutes, until auxiliary facilities were put to functioning and the trouble was located.

It was one of the first interruptions in service in months, and even then was something beyond the company's control. Under normal conditions, there is never a break in TES power. It has multi-

ple connections with power sources which provide for immediate switchover when one line goes out, usually with no more than a few seconds' loss. And it maintains full time service crews who are constantly on the alert to meet trouble before it occurs.

Electric companies in the Southwest, of which TES is one of the foremost, have stayed ahead of the increased load demands resulting from defense activities and wartime boost in business and industry. As a consequence, there has been no power shortage, and no inconvenience of any kind for the regular residential and commercial customers.

## Youth Beauty Shop Gives Attention To Women's Requirements In Wartime

With a national slogan of "Be the Woman Behind the Man Behind the Gun," the beauty shops of the nation are doing their part to keep American women looking trim and well groomed; and at the Youth Beauty Shop in the Douglass Hotel building, Mrs. Jimmy Eason, owner and manager, is busy these days keeping up with appointments.

Instead of being a casualty of war, beauty shops have experienced a boom in business as more women want to look well groomed than ever before.

At the Youth Beauty Shop, up to date equipment provides permanents—usually badly needed this time of year. After a summer of lying in the sun, swimming and letting skin go untended, it is time to re-condition both the hair and the skin with treatments which the shop provides.

Hair for winter styles must still be short and close to the head. Making a specialty of feather

bobs, the Youth shop is prepared to send you out a shorn but much better looking lamb.

Another specialty of the shop is the manicures which all the experienced operators are qualified to give. Splitting nails and rough finger tips need the re-conditioning which good manicures provide.

Newcomers to town are invited to try the Youth Beauty Shop and its operators who are Opal Chapman, Mary Nell Smitherman and Mrs. Eason, for expert beauty work.

American tourist expenditures in Canada during 1941 are estimated at \$94 million, according to the Department of Commerce.
