Lubbock, Texas, Saturday, March 6, 1965

No. 99

CHARTS TELL OF GROWTH — Tech President R. C. Goodwin used charts to illustrate Tech's multi-purpose university status to the visiting legislative

delegation at a noon luncheon Friday. Dr. Goodwin told the legislators to dispel any views of Tech as a regional or technological school.

-To Solons-

Goodwin Says Multi-Purpose Is Tech Role

By BRONSON HAVARD
Editor

Texas Tech President R. C. Goodwin laid the facts on the line and told the visiting legislators Friday this school is a growing multi-purpose university.

Dr. Goodwin also said in no uncertain terms that it is a "necessity for colleges to have a dependable source of income" and added "we need additional funds."

He told the legislators they probably only had time to see the exterior of Tech and he compared this to the part of an iceberg above water.

"If you take a head count, Texas Tech is the third largest school; but if full-time students only are counted, Tech is the second largest in the state," he said.

He quoted statistics pointing out that Techsians come from 234 Texas counties, 48 states and 34 foreign countries.

Dr. Goodwin then added, "Sometimes we are called a regional college — that's a pretty good size region!"

"More students travel distances greater than 400 miles to come to Tech than to go to any other college in the state.

"We are statewide, not a regional institution."

Dr. Goodwin used several large charts to illustrate Tech's growth and the areas where there is the greatest growth.

He pointed out where the School of Arts and Sciences has become dominate and the area where phenomenal growth has occurred in recent years.

Commenting on the charts, he said, "Yet some people say we are a technological school.

"Now if a school was really a technological school, the Arts and Sciences would be service courses (and be dominated by other areas)."

He continued, "We have over-emphasized the fact we were becoming a strong undergraduate school. We feel now we are ready to go further.

"We have the support of the Board of Directors, faculty, students and friends-across the state, and we hope we have yours."

Discussing appropriations for colleges, Dr. Goodwin said a dependable source of income for building academic buildings was needed.

"It will probably have to be a tax — it's got to come from somewhere. We can build dorms (be-

cause of federal loans) but we need funds for academic building as fast as we are growing," he said.

Rep. Delwin Jones of Lubbock also told the legislators at the luncheon in the Tech Union, "Texas Tech is a multi-purpose university and we do need additional funds."

Rep. Jones also read an open letter from the Lubbock County legislative delegation to the Texas Tech student body, expressing appreciation for the friendly welcome given the visiting legislators.

He also expressed support for the students in their efforts to make Tech a great university.

Connally To Give Address

Gov. John Connally is scheduled to deliver the principle address at Tech's spring commencement, May 29.

More than 1,000 students are expected to receive degrees during the ceremonies beginning at 8 p.m. in Lubbock Municipal Coliseum.

Honorary Doctor of Laws degrees will be conferred on Gov. Connally and on George W. Dupree, Lubbock attorney.

Connally will be cited for his leadership in the development of Texas, including advances in higher education, industrial expansion, tourism and state parks improvements.

Dupree, a Lubbock resident since 1928, will be honored for his service to Texas Tech.

Now serving his second term, Connally is the first Texas governor ever to receive more than a million votes in a primary election.

Inaugurated as the 38th governor in 1963, he has supported an aggressive program with primary emphasis on excellence in education as the key to Texas' future.

Biologists Plan Research Area

Tech biologists Drs. Earl Camp, Don Tinkle and Lyle Kuhnley are working on a project designed to convert the north portion of the top floor of the Science Bldg. into a faculty and graduate research area.

"This new research space will accommodate six faculty members and several graduate research assistants as well," said Dr. Camp, head of the biology department.

According to Kuhnley, the conversion will turn this area into a plant, animal, and microbial research complex.

The project should be completed by April 1.

- Academic Freedom -

KTXT Will Air Issue

Faculty members and students will air the complex issue of academic freedom on KTXT-FM's "Audio-One" Sunday night forum.

Guests on the program are Dr. David Lawrence, government; Dr. Hugh Pendexter, English; Dr. Hugh Stephens, government; Bronson Havard, Daily Toreador editor; and Louis Irwin, senior chemistry student in the Arts and Sciences honors program.

KTXT student manager, Nicky Redinger, will participate on the panel while Ken Hendrix will moderate.

Commenting on the Sunday forum, Redinger said, "Through pre-

liminary investigation it appears instructors at Tech do have academic freedom in the classroom. We would like to explore the reasons for that.

"I personally feel it is due to one of two reasons, either there are actually no restrictions or what instructors say does not leave the classroom."

He added, "It appears there are certain, perhaps unspoken, but still restrictions placed on faculty members' activities outside the classroom. We would like to investigate the source and reasons for these restrictions."

Redinger said the panelists are well acquainted with the problems of academic freedom and should give a stimulating discussion of the question.

Dr. Pendexter is president of the Texas Tech chapter of the American Association of University Professors. The AAUP has censured Tech for infringement of academic freedom in an incident several years ago involving two faculty members.

Redinger said the "Audio-One" format permits program listeners to telephone the station and ask questions of the panelists.

The program begins at 8 p.m. Sunday, 91.9 on the FM dial.

Marketing Pollsters Show TSU Ahead

Texas State University headed the list for a proposed name by receiving 48.96 per cent approval in a survey conducted by the marketing department.

Texas Tech University followed in the poll with 17.91 per cent. Texas State University of Arts, Sciences, and Technology received 9.25 per cent. Other choices were Texas Technological College and State University 8.96; Texas Technological College 4.78; and University of the Southwest 3.28; others 6.86.

Concerning the future major function of Tech, more than 80 per cent held that Tech's destiny lies in being a multiple purpose university incorporating a law school and a school of medicine.

Other views were as follows: 13.13 per cent favored a university status for the school as it exists; 4.18 per cent believed in other emphasis; 1.79 per cent supported a technological school with emphasis on engineering and agriculture; and a liberal arts school with little emphasis on engineering and agriculture received 1.20 per cent.

More than 40 per cent of the students in the School of Agriculture felt the name should be changed to Texas State University.

The object of the survey was to determine why students chose Texas Tech for their college education, opinions concerning the name change and student awareness of Governor Connally's plan for higher education.

The 350 students questioned were chosen at random by 70 statistics students under the direction of Charles Riter and Lewis Wood of the marketing department.

TALK ON HYDRAULICS — Dr. Hans Albert Einstein, son of the famous physicist Albert Einstein, delivered a talk and slide presentation Friday on hydraulic engineering. Einstein was the second of six speakers who will take part in the School of Engineering series of lectures.

Viet Cong Broadcasts Report Two Attacks

SAIGON, South Viet Nam (AP)—the north swung military attention Friday from the fizzling of a

massive air-ground offensive against the Red Guerrillas in the jungles east of Saigon.

Communist broadcasts reported two fresh U.S. aerial operations, one a damaging raid in Laos and the other a mission into North Viet Nam's airspace perhaps designed for reconnaissance.

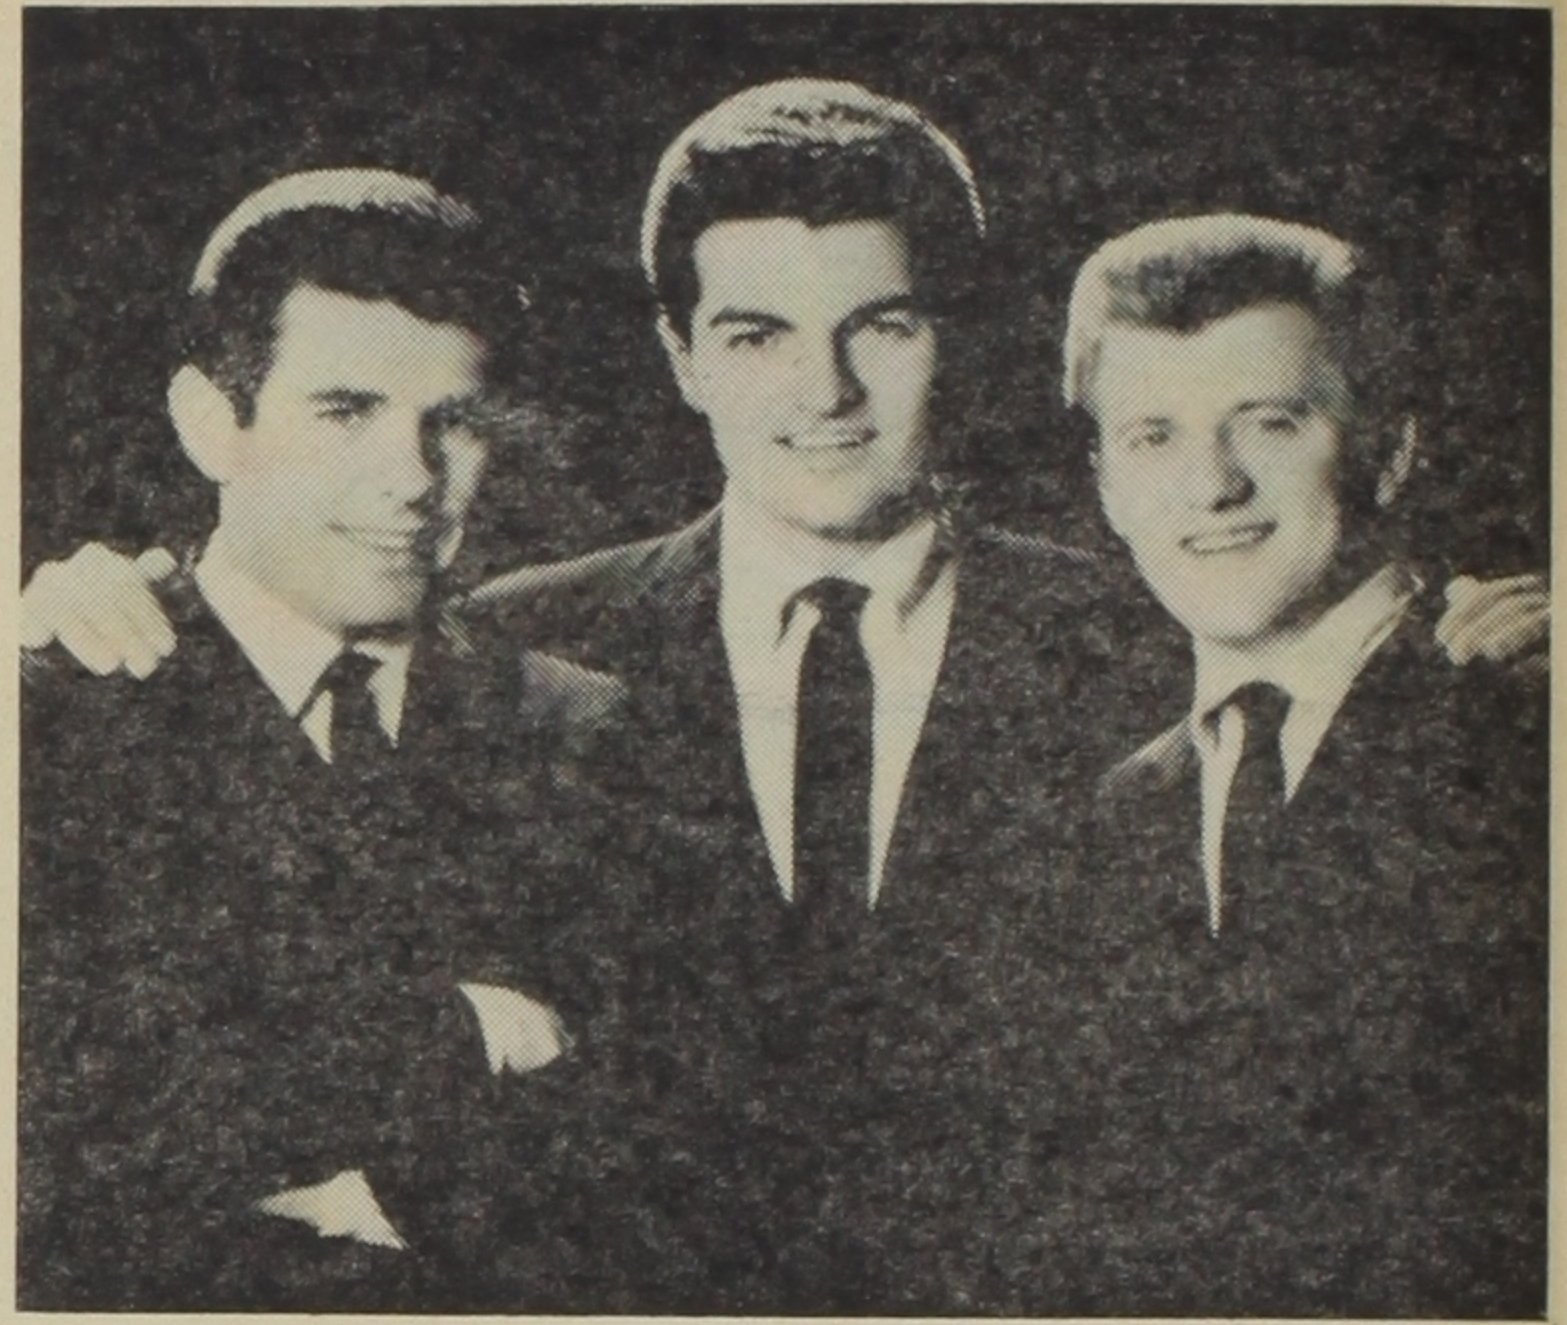

Details

Presenting details unconfirmed by U.S. authorities:

Radio Hanoi said anti-aircraft fire drove off U.S.-South Vietnamese planes that cruised at 1:15 p.m. over the Gianh River area in the latest of "repeated intrusions" since the raids on North Vietnamese military installations Tuesday. The Gianh River area is the site of the Quang Khe naval base, hit heavily in the raids. Ho Chi Minh's Red regime was reported to have protested to the three-nation control commission that the intrusions were a further menace to Southeast Asian peace.

Radio Peking

Radio Peking reported "great losses in lives and property" from strikes Thursday by many U.S. jets and T-28s — fighter-bombers of Laos air force — at the Pathet Lao headquarters town of Khang Khai and other Communist targets in eastern Laos. The Viet Cong's Ho Chi Minh supply line runs through that area.

THE LETTERMEN — The three lettermen will appear at 8 p.m. today in the Municipal Auditorium with a show of comedy, vocal impressions and music.

Lettermen To Appear At Auditorium Tonight

Capital recording stars, The Lettermen, will appear in Lubbock Municipal Auditorium at 8 p.m. today.

The group has sold more than a million records. They have recorded more than eight albums and ten singles.

They have been featured on "The Ed Sullivan Show," "The Bob Newhart Show," and "The Steve Allen Show."

They have received awards from Billboard and Cashbox magazines. They appeared at more than 350 colleges throughout the country.

The Lettermen blend their voices in the old, standard ballads in combination with instrumentation. They sing folk songs, old songs, new songs, but always in their own style.

Performances are made up of comedy, vocal impressions, and music.

Tickets will be available at the door.

New Blood Required In Honors Program

By MIKE LUTZ
Staff Writer

When Texas Tech's School of Arts and Sciences began its honors program in the fall of 1961, 97 freshmen were invited to participate.

Today, only nine of the original 97 remain. What happened to the other 87?

"The biggest reason for the large dropout rate is that some departments do not have honors courses," according to Prof. Ivan Little, chairman of the honors council.

Dr. Paul Prior, director of the A&S honors program, said most students withdraw from the program in their freshman year. Presently enrolled are 64 freshmen, 27 sophomores, nine juniors and nine seniors.

Prior said some students drop the honors plan because it is too difficult, but agreed with Little that lack of honors courses in various departments caused many qualified students to quit.

Forty Hours

Forty semester hours are required of entering freshmen to graduate under the honors plan. Students entering during their sophomore term must complete 30 semester hours.

It is almost impossible to graduate under the honors system if a student waits until his junior year to enter the program, Prior said.

In the fall of the program's second year, 66 entering freshmen were invited to enroll. In 1963, 63 were accepted and last fall, 64 entered, according to figures in Prof. Little's office.

A few students are offered a place in the program during the spring semester.

"Actually, approximately one-third less honors courses are being offered now than in 1961," Dr. Prior said. He explained the State requirement of 10 students per course caused the decrease.

To qualify for the honors program, students must show high scores on the verbal and math portions of the scholastic aptitude test. The program occasionally accepts students for superior high school grades and the student's interest in the program.

Student Selection

"This is a very important part of selecting a student for the hon-

ors program," Prof. Little said. "If the individual makes a sufficient score on the aptitude test, we then want to determine whether or not he's really interested in the program."

Little explained that many students have the aptitude to qualify, but not the desire to take on the extra work required of honors students.

Once a part of the honors program, students are given opportunity to expand their knowledge

Blanks ready For favorites

Nomination blanks for Mr. and Miss Texas Tech and class favorite entrants are available in the Student Council office.

Deadline for entries is 5 p.m., March 12.

Each candidate must be nominated by a recognized campus organization and each organization must have at least one member from each class for which it nominates a favorite.

Each Mr. and Miss Texas Tech entrant must be classified as a senior, while class favorite candidates must be a member of the class for which they are nominated.

Candidates need not be members of the organization nominating them.

Each candidate must currently be enrolled for at least 12 hours, have a 2.00 overall average and a 2.00 the preceding semester.

Each must be notified prior to nomination and can be nominated only with his or her approval. Candidates must be able to attend the informal coronation dance March 19 at 4 p.m. in the Union.

Elections will be March 17 and only word-of-mouth campaigning will be allowed.

beyond the capacity of a regular course, through additional research and initiative.

The honors student participates in smaller sections, has increased counseling, and special departmental offerings.

"As student enrollment increases, a more complete program will be developed," Prior said.

Interdepartment seminars are the next step on the honors curriculum. The seminars will be based on courses taken in the freshman and sophomore years.

Raider Roundup

ANGEL FLIGHT

Twenty-five girls in Tech's Angel Flight are competing against other flights from Texas at the Area G-1 Conclave in Fort Worth.

The Angel Flight group, which won a fourth place in Tuscon competition recently, is sponsored by Maj. Henry Gantz.

JOINT MEETING

Dr. Raymond W. Mires will address a joint meeting of Sigma Pi Sigma and the American Institute of Physics at 7:30 p.m. Tuesday in room 60 of the Science Bldg. His topic will be "Lasers and Masers." The meeting is open to the public.

GAMMA ALPHA CHI

Gamma Alpha Chi has scheduled

a pledge tea Sunday at 2 p.m. in the Anniversary Room of the Union.

AMATEUR RADIO CLUB

The Tech Amateur Radio Club meeting is scheduled for Tuesday at 7:30 p.m. in room 208 of the Union. The formation of a campus net will be discussed.

ACCOUNTING SOCIETY

The Tech Accounting Society will meet jointly with Beta Alpha Psi, honorary accounting group, at 8 p.m. Tuesday in the Union, room 209.

ARNOLD AIR SOCIETY

Arnold Air Society meets at noon, March 9, in Tech Union, room 209.

TYPICAL HALLUM — Glen Hallum tries to steal the ball from A&M's John Beasley during the last game for the Tech senior. Hallum made the second team Associated Press all conference team.

Bledsoe Intramural Cage Champ; Softball Competition Opens Monday

Bledsoe Hall reigns as the new intramural all-college basketball champion. The boys from Bledsoe won the honor by defeating Kappa Sigma 68-52 Wednesday night.

In gaining the playoff finals Bledsoe had defeated the Right Five 66-51 last Sunday and Phi Epsilon Kappa 37-36 last Tuesday night.

Intramural softball and volleyball play begins next week for all leagues. Competition in the open slow-pitch softball league and the dormitory softball league begins Monday, while play in the volleyball open league, the volleyball club

league, the volleyball dormitory league, the volleyball fraternity league, the fraternity slow-pitch softball league and the fraternity "B" softball league will not start until Tuesday.

The fraternity "A" softball league and the fraternity "B" softball league open next Wednesday, and the club-independent softball league's initial combat will be next Thursday.

Edsel Buchanan, intramural director, noted that this year's schedules were rather extensive. He said, "In softball we have a forty per cent increase this year over last

which certainly reflects a healthy growth in intramurals."

One problem exists however — more softball officials are needed for intramurals. Mr. Buchanan commented, "We train and pay our softball officials, and any student is eligible to work for us."

Interested students should contact the Intramural Office.

BREAKFAST AT TIFFANY'S

The Special Events Committee of the Union will sponsor "Breakfast at Tiffany's" this weekend. The movie will be shown Sunday at 3 and 7 p.m. in the Coronado Room of the Union. Admission is 25 cents.

TT Squads Launch Schedules

Texas Tech's golf, tennis and freshman baseball teams launch their 1965 schedules today.

Coach Danny Mason has selected five golfers as Tech's entries in the Southwestern Recreation Meet which began Friday at Fort Worth. Competing will be Steve LeCrone of Amarillo, Joe Huber of Lubbock, Rick Rogers of Corpus Christi, Jimmy Wilcoxson of Childress and Jerry Hrcnciar of Shamrock.

Two lettermen lead the Raider tennis team in the season opener against Hardin-Simmons at the varsity courts at 2 p.m. Coach George Philbrick plans to use his veterans, Robert Peterson of Wich-

ita Falls and Greer Kothmann of Junction in the No. 1 and No. 2 spots respectively. Rounding out the quartet will be Charles Bowlers, Odessa Junior College transfer, and Mike Jones, Lubbock Monterey graduate.

The freshman baseballers meet Odessa College here in a double-header beginning at 1 p.m. Coach Doug Cannon will probably choose his pitchers from Ray McKinney of Littlefield and Tom Wilson of Houston, both right-handers, and southpaw Mike Murphy of Abilene.

Raider thinclads will also be seeing action today. Don Sparks will enter his team in the Southwestern relays in Fort Worth.

Tech Swimmers Face ENMU Team

Texas Tech and Eastern New Mexico University swimmers wind up the Red Raiders' dual meet scheduled in the Tech Natatorium at 3 p.m. today.

Last year ENMU dropped Tech twice — 69-26 and 61-34.

Only competition remaining after the Eastern New Mexico match will be the Southwest Conference Meet at Dallas March 12 and 13 and, for qualifiers, the National Collegiate championships at Ames, Iowa, March 25-27.
