CORNER OF COLLEGE AVE. AT BROADWAY

A Milestone Passed

VERY YEAR AT THIS TIME, Texas Tech modestly resembles a New York traffic jam-everyone is trying to get to different places by the same route.

Freshmen are eagerly waiting to take their first apprehensive steps into college classrooms; upperclassmen are slyly snooping around to see which classrooms they don't want to walk into unprepared; and seniors are dreading those advanced courses that are offered every other year and are a must for graduation.

But something is different about this year. It is not just that the school is getting older and the signs of progress are clearly evident, but Texas Tech has reached a milestone.

This year Texas Tech celebrates its 40th anniversary as a state institution of higher learning. And, as we enter this 41st year, it is nice to look at the changes and see just how far we have come on the road to excellence.

The first students here found just a few scattered buildings somewhere on the dusty plains near the small town of Lubbock.

buildings surrounded by a growing Lubbock.

In fact, today's Texas Tech is a small city within itself -with an enrollment that rivals the population of most Texas towns and with more modern facilities.

We have our own housing areas that are "home" to thousands of students; we also have commuters by the droves who provide our own parking and traffic problems. is the first

Our cultural activities cover a wide range of events. at Tech.) We have the Tech Union, the West Texas Museum, the Tech Library, band and orchestra concerts, the University new experience in student govern-Theater and on and on and on. All of these groups are ment here. handled by our people, and they bring in talent from among our own ranks and from the talent centers of the that of the federal government, acworld.

There are also fun and games throughout the year with al plan unanimously approved by dances at the Union, Southwest Conference football and basketball, intramural sports, handball, swimming and in an election March 17. many, many more.

We have our own police force to protect our residents three branches—executive, legislaand their belongings. We have our own Civil Defense branch having powers solely its warning systems, including the trained personnel to handle own.

Our telephone system is a complicated machine, effectively connecting all dorm rooms, offices and departments dent Senate will replace the Student Council Perpendicular to the on campus. Mail, also, is speedily handled by our own post Senate will be similar to that for office, its carriers and the intra-campus mailing service.

Food supply is not much of a problem either. In addition to the foodstuffs we get from the "outside world," the Tech farms supply quantities of meat, milk, eggs and harvest crops. Also, our students and instructors are constantly working on ways to improve man's menu through research with crops and animals, both here and at our laboratories at Pan Tex.

Entertainment is also provided by our own student president will not be a part of the former Tech constitution did not. operated radio and television stations, both of which are also used in the education process to transmit ideas and classes. We also have a daily newspaper run by students to present campus news.

But, even with all our changes and modern advances, we are still Texas Tech-a school, a place and a people, all of whom should be proud they're a part of this organiza-

Connally Address Delivered

nally was unable to appear at the May Commencement exercises, the address he would have made was sent to each of the Tech graduates early this summer.

Connally touched on his reasons for vetoing the proposed medical school at Tech and praised the college for its rapid growth, history and service to the state.

"Medical education may well be a part of your undoubtedly bright destiny - but if and when this comes, it should come to meet the overall needs and capabilities of the total system of higher education in Texas," said Connally in the prepared text.

"Many of you were displeased, and you told me so, when I vetoed the establishment of a medical school at Texas Tech. I understand that," Connally said. Then he added that many, in other parts of the state, were equally dissatisfied at such actions as the bill separating East Texas State and West Texas State from the existing senior college board of regents and the bill that lowered the standards for creating a junior college so that one could be established in Yoakum County.

'It's not easy to make decisions which cause grief and dismay to legislative branch but instead will your friends when they feel as execute the powers of the execu-strongly about their opinions as I do mine.

> "If I had based my decision on the medical school solely upon friendship for the sponsors and admiration for this great college, I would have signed the bill.

"But I could not urge this state passed by the Senate and appoint to establish a means of study and officers and committees with ap- coordination of its educational proval of the Senate. The presineeds — what I regard as the dent also has veto power over Seninitial step toward true excellence

and then cast this conviction The third branch of the student aside for the easier, more palatable

Connally praised Texas Tech, Supreme Court, whose members commenting that the college has are appointed by the president had an illustrious 40-year history, with the advice and consent of the which few colleges in this nation Senate. can equal. "Few colleges in this nation have finer opportunities for the future. Inauguration of your the Senate, for student body of- law school two years from now is ficers and for justices of the Su- only one example of the consistent preme Court are the same in both growth of service Tech has provided and will provide.'

Connally challenged the graduates to "that broader dedication state." He commented that alpowers among three distinct though Austin might sometimes seem far away, that it is not dismisunderstand, and that the isolation, regional pride and sectional interest of yesterday were no longer existent in today's world,

"Education is the principal interest of many of you graduates. You know that your security in a free society can be no stronger than the ecurity of all our people," Connaily said.

Connally urged the graduates to meet life as the challenge it is, 'not as a downhill ride to personal ease and comfort.'

In a letter accompanying his speech to the graduates, he explained that in order to save having to call an expensive special session of the Texas Legislature he decided to stay in Austin. Congressional redistricting was being discussed in the state's capital.

Attorney General Waggoner Carr filled in for the governor at the commencement.

COLLEGE ZIP CODE NUMBER

To insure speedier mail delivery, the Tech Post Office requests that students and faculty members use the college zip code number along with their individual box numbers when giving return addresses. The college zip code number is 79409.

Letters To The Editor: What, Where And How

Letters to the editor from Tech students, faculty members, administrators or anyone interested in the college are always welcome.

As often as possible, letters will be published in The Daily Toreador. However, like any publication, The Toreador reserves the right to decide whether a letter will be published or not.

Every letter run in the paper will be run intact, with only grammar and spelling corrected, unless the letter is too long and demands editing.

Some simple rules to follow when writing to the editor include the following:

Type the letter, if possible, and double space.

- Keep the letter short, usually no more than 250 words at the most.
- Clearly sign your name and address. Names will be withheld in certain cases, but every letter must be signed when it reaches the editor.
- All letters should be grammatically correct and, when debating an issue, should not be libelous.

Letters should be addressed to "Editor, The Daily Toreador, Campus" if mailed on the campus. When going through the United States mails, they should be addressed to "Editor, The Daily Toreador, Journalism Building, Texas Tech College, Lubbock, Texas."

Welcome students and teachers! We're glad you're

American State Bank will be handy for you. It's the closest bank to the campus.

Off-Campus Dorm Situation Studied

By CECIL GREEN Editor

Off-campus dormitories for men students may soon be a reality here

To date, more than a dozen local and national building concerns

Bob Dickenson of Lubbock have inquired about the possibilities of building privately owned housing units near the campus, but only three are actively pursu-house from 700-850 or more men, ing the plans.

These groups, their central office and proposed building sites include the following:

tion, Ltd. of Omaha, Neb., and dining halls.

2,600 Frosh Avoid Registration Lines

become an annual event-breaking

this year, however, Approximately 2,600 freshmen have already registered in what Dean of Admissions Floyd Boze calls an attempt "to make registration available to all students on a continuing basis."

Boze said he expects more than 15,200 students to register this week. This is an increase of about another orientation session at 9 1,400 over last year's 13,827.

New Program

The new program for freshmen began during the first summer session with the first of 10 two-day conferences. Five more were held in July and four more in August. The one in June was for the benefit of those freshmen already enrolled in summer school.

The students taking part were those entering freshmen who had submitted all of their admission materials and had been invited.

On the first day of each conference, the students checked into Clement and Hulen halls. They then attended a general meeting in the Union Ballroom and began a counseling program with faculty advisors

finished his counseling and paid a \$25 deposit on his tuition. He then turned in his counseling sheets at the registrar's office.

The students who completed the process were billed for the re-mainder of their fees, which had to be paid by a certain deadline. All that remains for those who made that deadline when they come to school is to get their housing approved and pick up their class tickets.

Boze said the program was the beginning of an attempt to spread the registration process for all students over a longer time period. How this can be accomplished depends on how soon after one semester's registration is completed a student can know what he wants to do the following semester. Course dropping and failures can change long-range plans and thereby remove the advantages of earlier registration.

By the same token, it depends on the school's ability to know what

Texas Tech has begun what has it can offer that far in advance. For those freshmen who did not previous year's enrollment register and for other new stu-One new twist has been added orientation, counseling process be-

ginning at 1:30 p.m. Registration Times

Upperclassmen register today, Wednesday, and Thursday. Graduate students register Saturday. Thursday, freshmen who registered during the summer will attend a.m. and all other freshmen will meet at 2 p.m. Both meetings are slated for Municipal Auditorium.

Classes begin Friday.

Campus residence halls are al-ready filled. Ten halls have been allotted women students, including West Hall, which last year housed men and which was coeducational the year before.

Tech Board Passes Annual School Budget

Action of the Tech Board of Di- Directors also approved com- Conference basketball champion-Tech's Athletic Council.

According to President R. C. Goodwin, the new budget, approved July 22, provides for an average ing included: \$1.000 "across the board" faculty members will receive this amount.

Both board and administration officials refused to release full budget details, but available figures showed expenditures for the by \$3,767,000 over last year.

Pay Raise

the biggest chunk - \$8,730,688 will go into the new faculty pay raise.

A \$59,000 item to initiate a school of law was one expense shown on the Board's report. The legislature earlier this year.

Other operating expenses listed Tech's chances for the Southwest associate professor to instructors. were: Library and Southwest Collection, \$724,972; organized research, \$195,413; physical plant operation, \$1,431,573; graduate fellowships and scholarships, \$65,000; state park study, \$50,000; tuition scholarships, \$5,000; and major repairs and rehabilitation, \$87,731.

In a May 29 meeting, directors took initial steps to table a portion of the \$50 tuition fee for future use as building funds. Faced with the possibility of an estimated en-rollment of 20,000 students by 1970, the board voted to request and two new minor plans. that the \$5 student building fee already included in the tuition be offered to Tech students, be- Italian, the department will incharge be exempt from being ginning a program with sufficient crease instruction in Portuguese handed over as college revenue.

By letting these funds-amountthe \$1.5 million carryover in the three years-accumulate, by using the \$1.5 million carry over in the guage. present building funds and seeking matching federal grants, the Board hopes to finance two or three additional buildings over the next three years.

Daniels Cautions Students

Chief of Traffic - Security Bill Daniels today cautioned students against theft of clothing and other valuables during the initial days of the fall semester.

One of the principle reasons for thefts at the beginning of semesters is students leaving articles in their cars overnight, planning to unload them the following morn-

This has invited theft in the past, even when the car has been locked, Daniels said.

Daniels also asked that students mark their car fender-skirts, hub caps and other accessories so that they can be identified and returned if stolen and then recovered by Campus Security.

He said that many times stolen articles are recovered but cannot be returned to their proper owners because they are not identified.

For this reason, all stolen articles should be reported to the Campus Security rather than the Lubbock police, Campus Security forwards all theft reports to city police.

The security chief warned students to always keep their dormitory rooms locked and be especially cautious of money and checkbooks during registration.

11th	11.71		5.00	.18	6.89
12th	6.89		5.00	.10	1.99
13th	1.99		1.99	none	none
otal after 13	months	100.00	106.99	6,99	

Simple? You may purchase \$100, take 13 MONTHS TO PAY and your total service charge is only \$6.99. Of course, you may pay more than your monthly statement indicates and reduce your service charge. You may make additional purchases whenever you desire — you govern your account by the amount you pay each month.

Kansas 'Aerial Circus' Coming To Town

By MIKE LUTZ

Toreador Sports Editor

Kansas Head Coach Jack Mitchell could have been throwing up a smoke screen when he said his Jayhawks would pass the ball 50 to 70 percent of the time on offense this fall—but he wasn't.

"There is no such thing as field position with the offense as we've conceived it for 1965," the KU coach said. "Our plan is to consider the pass the same as a run, and we'll pass anywhere on the field the same as we would run. I think the players will find it exciting and I feel sure the fans are going to

Further testimonial to Mitchell's plan for an aerial circus came two weeks ago when the Jayhawks opened camp and promptly spent at least half their time on passing.

Open Against Raiders

Everyone will know for sure just what Kansas is going to do Sept. 18, when they meet the Red Raiders in Jones Stadium in the opener for both teams.

The new outlook for the Jayhawks is a complete about face for Mitchell, now entering his eighth season at the Lawrence school.

In previous seasons, Mitchell has become known as a conservative coach who preferred rushing as the basis of an offense and passing only as a threat.

But last spring, Mitchell said collegiate defenses have caught up and surpassed such offenses and that KU would have to pass more and run a more wide-open offense

A glance at Mitchell's personnel also leans in the direction of a passing offense.

Top Quarterbacks Junior Bob Skahan and sophomore Bill Fenton currently are the No. 1 and 2 quarterback prospects. Both are rated good passers, run-

Special TECH CHECKS are provided free to freshmen and graduates alike at the First National Bank. Whether you're opening a new account or renewing an old one at the First, you'll receive TECH CHECKS printed with the Double T emblem as well as your name and Tech address. Through the years, the First National Bank has been serving thousands of Tech students and they hope that you'll accept this invitation to make the First your bank away from home. You'll find that you're always welcome to enjoy the many modern facilities at the warm and friendly First National Bank.
