

Murray Named President

LSU Vice President Will Succeed Goodwin

The appointment of Dr. Grover E. Murray, 49, as the eighth president of Texas Technological College was announced Monday by the Board of Directors.

Chairman Wright Armstrong of Fort Worth said Dr. Murray, now Vice President of Academic Affairs for the Louisiana State University System, would assume his new duties Sept. 1, 1966.

He will succeed Dr. Robert C. Goodwin, who has served as Tech's President since 1960. Dr. Goodwin, who joined the Tech faculty in 1930, became Acting President in 1959 and assumed the presidency the following year.

'Pleased and Flattered'

Dr. Murray, who will visit the Tech campus in Lubbock on Friday, said he was "pleased and flattered to be chosen to serve Texas Tech as its President. I pledge to devote all my energies to fulfilling the destiny of excellence that exists.

"Maintaining continuing excellence in higher education is a challenge no one can honestly turn down. I look forward so very much to successfully meeting this challenge at Texas Tech in the days ahead," he said.

Dr. Goodwin said the appointment (of Dr. Murray) comes at a particularly appropriate time since we have just celebrated our 40th anniversary, and are experiencing an all time high in growth and prospects for the future.

"Dr. Murray faces an exciting prospect for a wonderful opportunity to promote the College, and its ever-widening influence." Dr. Goodwin said he was certain Dr. Murray would "find a faculty, staff and student body wholly dedicated in every way to carry on under the new leadership."

Armstrong said, "I know he will give the college the leadership it needs and deserves. I am pleased with the appointment."

'Delighted and Impressed'

The Board's Selection Committee, of which Harold Hinn of Dallas and Plainview served as chairman, issued a statement saying its members were "delighted and impressed with Dr. Murray's abilities, and with his broad grasp of the educational needs of both the present and the future." Board members said they were taken with Dr. Murray's "determination to meet the responsibilities of higher education and to commitment to the young people of Texas."

The selection committee said it was "extremely grateful for the dedicated and faithful assistance of Tech faculty members Dr. Paul Prior, Dr. Ernest Wallace and Dr. B. L. Allen, who formed an evaluation committee charged with drawing up criteria for a new president.

The joint committee held several exploratory meetings to determine the type of candidate desired to fill the position. The committee called on faculty and administrators at other colleges and universities to submit names for consideration. Committee members, after closely reviewing the qualifications of more than 80 candidates, then conducted visits to the campuses of a number of leading candidates and interviewed their close associates. The committee reviewed its findings and submitted recommendations to the board.

North Carolina Grad

A native of Maiden, North Carolina, Dr. Murray holds a bachelor of science degree from the University of North Carolina and a master of science and Ph.D. from Louisiana State University.

Dr. Murray was a research geologist with the Louisiana Geological Survey from 1939-41. He served as a geologist with the Magnolia Petroleum Co. until 1948 when he became a professor of geology at Louisiana State University. Dr. Murray was named chairman of the Department of Geology at LSU in 1950 and served in that capacity until 1953.

During 1959-60 he was a visiting geoscience lecturer with the American Geological Institute. During the summers of 1949-51-61, he conducted geology field courses in Colorado, Louisiana and Texas.

The new Tech president became Dean of Academic Affairs at LSU in 1963. He was named vice president of Academic Affairs in 1964 for the Louisiana State System. Dr. Murray was named Boyd Professor of Geology, a distinguished professorship at LSU, in 1955.

Allison To Speak To Senate Tonight

Al Allison, member of the Tech Board of Directors, will speak before the Student Senate tonight—marking another first for student government.

This will be the first time a Board member has met with the Student Senate.

Senators will be allowed to question Allison and, if time permits, student visitors may also join in the questioning.

Allison is expected to give a short speech followed by the question-answer period.

Allison was appointed to the Board by Gov. Price Daniel in 1961. He has been in private law practice in Levelland since 1940, and is a member of the Levelland Rotary Club. Allison, a 1930 graduate from Tech, assisted in the chartering of the

Red Raider Clubs of Texas in 1951 and for the next three years as president.

Most of tonight's Senate meeting will be devoted to the question-answer period with Allison. However, if time permits the Senate will also hear two committee reports and the final reading of two By-Law revisions.

Sara Cox will give the Election Committee report and Gary Rose will give a report on the Course and Instructor Evaluation Committee.

The Senate will have the final reading, debate and vote on the By-law concerning summer senators. This proposal calls for a committee of seven senators plus a chairman and secretary to serve during the summer.

The Senate will meet at 7 p.m. in the Biology Auditorium.

No. 79

Entry Station Plan Receives Approval

Texas Tech will have ports of entry by Sept. 1 to limit vehicular traffic on the interior campus.

The Traffic Commission made this decision in a Friday meeting. Jack McClure, student representative to the Commission, said all the details have not yet been worked out.

Tentative plans calls for four stations in the Entry Station System (ESS) to be located in these four areas: near the Textile Engineering Building on Boston Avenue, near the Music Building, near the Broadway campus entrance, and close to Flint Avenue on 15th Street.

Vehicle Admittance Limited

These will probably be manned from 7 a.m. to 3 or 5 p.m. The ESS personnel will guide visitors and allow only service vehicles, faculty cars, and other special vehicles access to the interior campus. The only other campus entrance, 15th Street near Weeks and Drane Halls, will be closed at the Bookstore intersection during the day.

The stations will be built around turning areas to allow unauthorized cars to turn around, McClure said. This and other problems, such as possible street changes, will have to be worked out during the summer, forcing the completion date to be set for next fall.

Recommends New Parking Lot

In other action, the commission recommended that the Campus Planning Committee consider building a parking lot west of Flint Avenue to handle more than 2,000 cars.

The commission also authorized ten 20-minute parking spaces in each of the lots south of the new girls' dorms on 19th Street. This action is designed to eliminate parking tickets for cars with men's dorm stickers on them which are parked there while men students pick up dates.

Tramp T-Shirts Say 'Beat Hell Out Of Ags'

Red Raider basketball workout was halted temporarily yesterday while Saddle Tramps presented varsity team members with T-shirts bearing the inscription "Beat the Hell Out of the Aggies."

Tech is in second place in the Southwest Conference race with a 4-2 record, behind the Aggies' 6-0 mark. The teams meet at 8 tonight in College Station.

"The shirts were printed by Tramp pledges to show the team that we're behind them all the way. We're confident they will win the conference," said Joe Minkley, vice president.

Bob Measells, junior, and Bob Glover, sophomore, said the team is indebted to the Tramps for their support and continuous backing.

Varsity coach Gene Gibson was grateful to the Tramps for the presentation. "It helps let us know others are interested. We appreciate all the Tramps do for us."

"Goodness knows, we need all the help we can get," said assistant coach Charlie Lynch.

But Trenton Bonner summed up team sentiments most accurately when he said, "Now all we've got to do is do it—Beat the Hell out of the Aggies."

Student Senate Seats Available

Petitions for candidates for vacancies in the Student Senate are now available in the Senate office in the Ad Building.

Two positions are open in Arts and Sciences, two in Agriculture, one in Business Administration and one in the Graduate School. Petitions are due in the Senate office by 5 p.m. Thursday, along with the 50 cent filing fee.

Vigness Sets Forum Talk

Dr. David Vigness, head of the history department, will be the speaker at the Noon Forum Wednesday at the Tech Union.

Dr. Vigness will speak on "Revolution and Change in Latin America."

The Noon Forum will be presented by the Ideas and Issues Committee, and a buffet luncheon will also be served.

Those wishing to attend the luncheon must sign up for it and pay \$1 at the program office of the Union before 5 p.m. today.

The Forum will be in the Blue Room of the Union from 12-1 p.m. Dr. Vigness will begin his speech at 12:20 p.m.

BLUNT MESSAGE—Saddle Tramp Byron Garner and head basketball coach Gene Gibson display one of several workout t-shirts furnished Monday by the Tramps which calls for the Raiders to "Beat the Hell Out Of the Aggies" tonight in College Station. On the left is team member Vernon Paul. (Staff Photo)

Teacher Examination Registrations Needed

Less than two weeks remain for prospective teachers who plan to take the National Teacher Examinations at Texas Technological College on March 19, 1966, to submit their registrations for these tests to Educational Testing Service, Princeton, New Jersey. Dr. James E. Kuntz, Director, Counseling Center announced. Registrations for the examinations must be forwarded so as to reach the Princeton Office not later than Feb. 18, Dr. Kuntz advised.

Bulletins of Information describing registration procedures and

containing registration forms may be obtained from the Counseling Center or directly from the National Teacher Examinations, Educational Testing Service, Box 911, Princeton, New Jersey.

At the one-day test session a candidate may take the Common Examinations, which include tests in Professional Education and General Education, and one of the 13 Teaching Area Examinations which are designed to evaluate his understanding of the subject matter and methods applicable to the area he may be assigned to teach.

Each candidate will receive an admission ticket advising him of the exact location of the center to which he should report. Candidates for the Common Examinations will report at 8:30 a.m. on March 19 and will continue, after lunch, until approximately 3:10 p.m. Dr. Kuntz said. The Teaching Area Examinations will begin at 3:15 p.m. and should finish at approximately 5:20 p.m., according to the time schedule for these examinations which has been set up by Educational Testing Service.

First Wesley Talk Today

Rev. James Palmer will give his first lecture tonight in the "Twentieth Century Eldorado" series sponsored by the Wesley Foundation.

Rev. Palmer, presently associate minister at the Highland Park Methodist Church in Dallas, spent five years as pastor of La Paz Community Church in Bolivia. While in the position of missionary, he was also a teacher in the American Institute of La Paz.

Big Run, Pennsylvania is the birthplace of Rev. Palmer. He received his B.A. at Grove City College and his D.D. at the Garrett Biblical Institute of Pennsylvania. He has also served as Wesley Foundation minister to youth in Milwaukee.

The lecture, "And Finally a Foundation," will be followed by slides of South America depicting it as "A Continent of Contrast." This lecture will begin at 7 p.m. at the Wesley Foundation.

Two other lectures are scheduled during Rev. Palmer's stay in Lubbock. "The Student in Revolt" will be presented Wednesday at noon in the Mesa Room of the Student Union. Reservations must be made for this luncheon. Wednesday night "The Unfinished Task" will begin at 7 in the Wesley Foundation.

Firemen Answer Alarm At Men's Dormitories

Lubbock firemen answered an alarm on the Tech campus late Sunday night and found smoke but no fire.

The two alarm "blaze" brought eight units of the fire department to the consolidated dining area which serves Bledsoe, Gordon, Sneed and West Halls.

Leon West, Bledsoe Hall supervisor, turned in the alarm at 11:37 p.m. when he found smoke in the foyer area of the cafeteria.

"We had just installed some electrical wiring in the attic and were afraid this had caused the fire," West said. "It was fortunate firemen were able to find the source of the fire since workmen had changed the attic locks and firemen would have had to break through the ceiling to check it out," he said. West had not been issued a key to the new locks.

Capt. Gene Wood of the Lubbock Fire Department attributed the smoke to a clogged incinerator in Gordon Hall.

"Apparently the incinerator had been stuffed too full with trash and the smoke backed up in the chute and poured out the incinerator door," Wood said.

One Gordon Hall resident said

a student jammed several newspapers into the chute just before the smoke began to fill the foyer. No damage was caused by the smoke.

Personnel Information Forms Due

Graduation candidates for 1966 who have not done so are requested to turn in Personnel Information Forms at the Placement Office today or Wednesday.

Mrs. Jean Jenkins, director, said these forms, along with two glossy print photographs size 2" x 3", are necessary for graduation.

Immediate filing of these forms enables the placement office to proceed at once with the processing of these files.

If a personnel form has been filed previously, students may make revisions by going by the Placement Office.

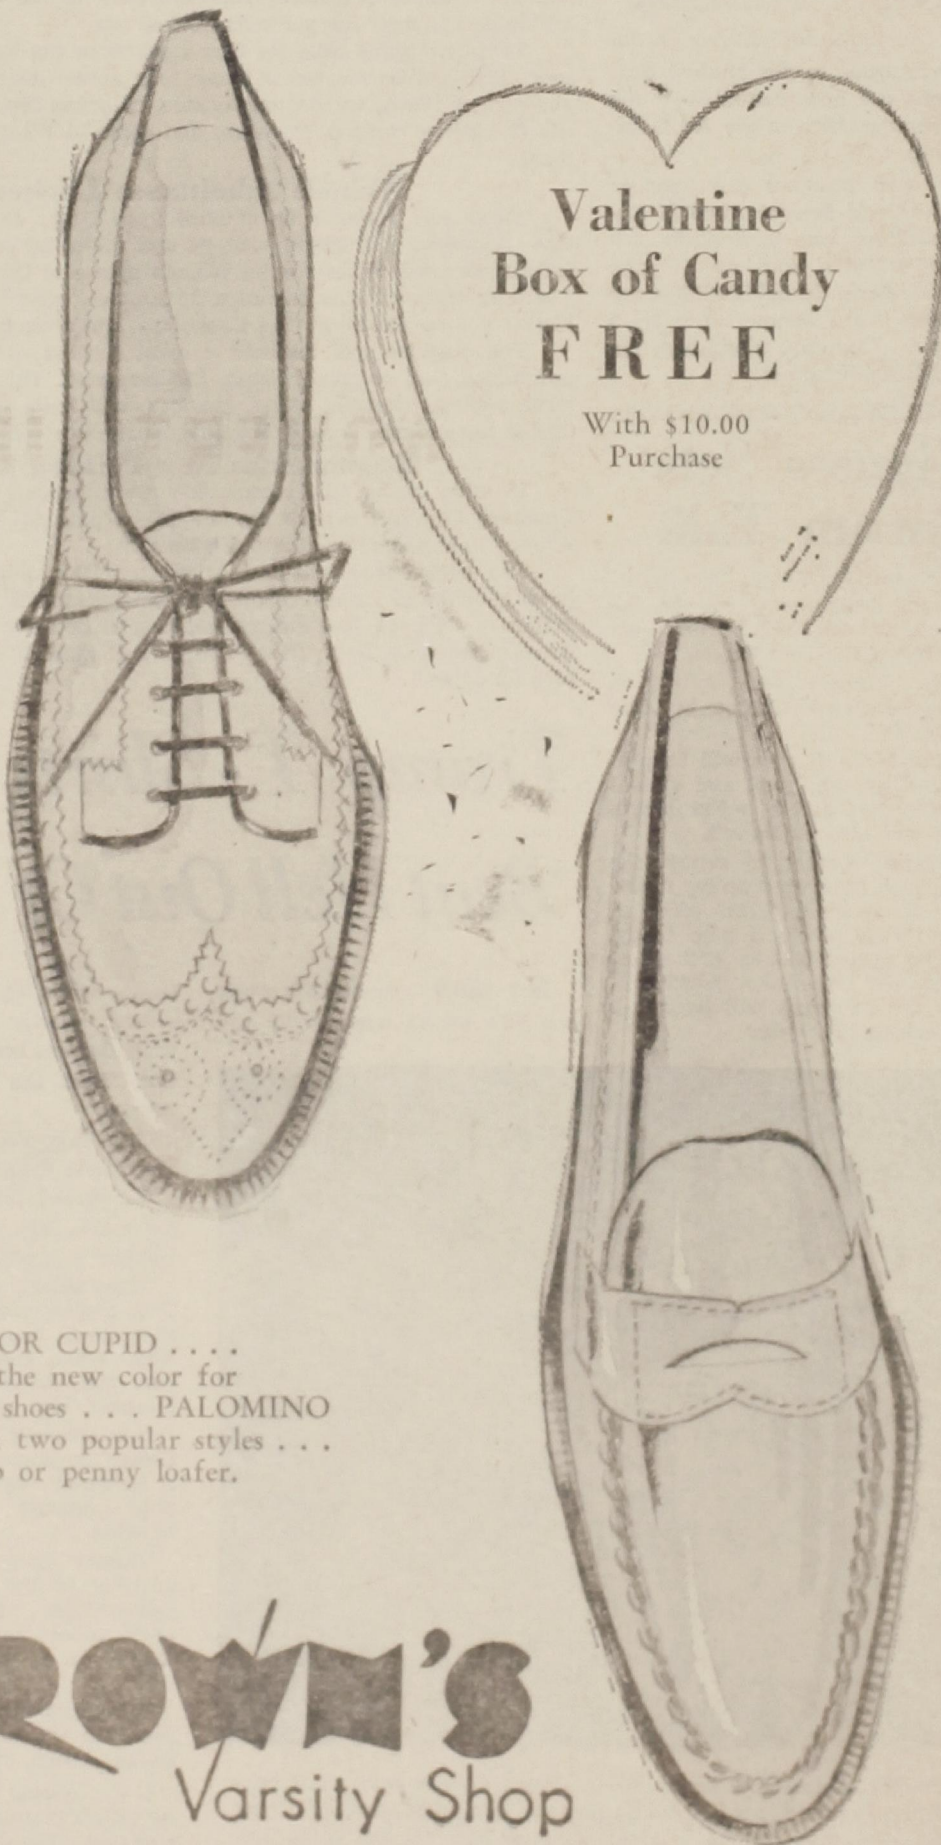

Students that do not have a form may secure one from the deans of the schools or the Placement Service, room 252 of the Electrical Engineering Building.

Students wishing to order Printed Data Sheets may obtain them from the Placement Service for \$7.

Law School Given Four Scholarships

The establishment of four scholarships for the new Texas Tech Law School highlighted a joint meeting of the Texas Tech Ex-Students Association Executive Board and the Texas Tech Loyalty Fund Trustees Saturday.

The scholarships were the second gift toward the Law School announced by the Ex-Students Association last week. Thursday, Association officials announced the gift of 46 boxes of law books donated by Mr. Toddie L. Wynne, Mr. T. L. Wynne, Jr. and American Liberty Oil Company of Dallas. The Law School is scheduled to open in September, 1967.

Resolutions were passed expressing appreciation to Scoggin-Dickey Buick Company, TIME Motor Freight and Spears Furniture Company for recent gifts to the Association. Scoggin-Dickey Buick Company last week presented an automobile to the Association. Loyd Lanette, president of TIME Motor Freight recently gave office equipment for the Association office. Spears Furniture Company donated furnishings for the Association offices.

Don Anderson, Crosbyton, president of the Ex-Students Association presided at the meeting, which set-up plans for the Ex-Students Association for 1966. Anderson made a number of committee appointments for 1966.

Wayne James, Executive Director of the Ex-Students Association, presented reports on the activities of the Association in 1965. James reported that interest and participation in Ex-Students Association activities, clubs programs and gifts to the Loyalty Fund in 1965 were at an all time high. James also reported that in 1965 more than 23 per cent of the Tech Ex-Students made a gift which was above the national average for all college and universities in the United States.

Special guests at a luncheon of the two boards at noon in the Student Union Building were Texas Tech Basketball Coach Gene Gibson and the college's now Vice-President for Development, Bill Parsley.

AROTC LETTERMAN RIBBON—Athletic Director Polk Robison (right), pins the Army ROTC's Varsity Letterman Ribbon on Hal Hudson, Lubbock junior. The award was given Thursday to three cadets who play on the Raider football team.

John Scovell and James Haney were the other recipients. One hundred and eight-five cadets received awards in the Thursday afternoon ceremony.

Tech Library Receives Bibles

A gift of foreign language Bibles containing volumes in 38 languages and dialects was presented to Texas Tech library Friday by students of the Church of Christ Bible Chair at the College.

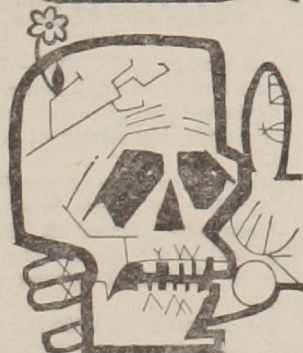

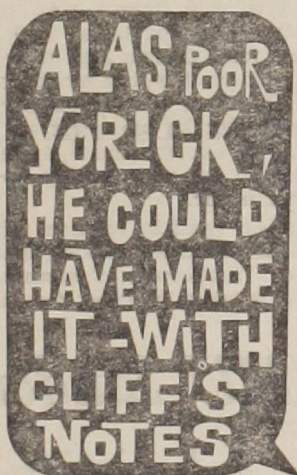

The unusual collection was selected on a basis of nationalities of foreign students currently enrolled at Tech, according to Marston Meador, Dallas senior and chairman of the selection committee.

Several of the translations are in one or more volumes, containing modern and ancient versions, as well as colloquial versions of the Old and New Testaments.

Included are translations in Arabic, Portuguese, Chinese, Spanish, Thai, Vietnamese, Russian, Italian, Greek, Warau, Cambodian, Bengali, Urdu, Tagalog, Turkish, Sanskrit, Quechua, Guajira, Basque,

French, Persian, Syriac, Japanese and the original Hebrew. The American Bible Society, Meador said.

Two volumes were obtained from

A Cartoon NOT Needed...

... The Reason Why

THE ABOVE CARTOON was drawn by a student and submitted to the Toreador last week. It was meant as a pointed reminder to the Tech Traffic Commission that something needed to be done about the campus traffic situation.

Yesterday we found out that something *had* been done: the members of the commission unanimously passed a resolution approving an Entry Station System to regulate campus traffic.

The purpose of the Entry Station System will eventually be to segregate pedestrians and vehicles. When the system goes into effect next fall, the interior of the campus will be closed to all drivers, except for faculty members, service vehicles and visitors—which is what the Toreador has been working for for many years.

The fine details haven't been worked out yet, but at least the machinery of change is in motion and the end product will be much better than the current situation.

Then, why the cartoon?

Simple. Although something definite is being done, it hasn't been done yet. The traffic situation is a dangerous time bomb that is still with us—and will be with us—for several more months.

Everyone—the commission, the students—pedestrians and especially the drivers—needs to realize that nothing has changed yet, and that utmost care and concern is still the order of every day.

Only a few more months to go, however, thanks to the Traffic Commission—finally.

A Milestone For Tech...

TONIGHT'S SENATE MEETING will mark a milestone in the history of Tech's student government.

Not only will this be the first time a Board member (Al Allison) has appeared before the Senate, but it will also be the first time the Student Senate has had such a direct line of communication with the administration.

Following a short speech by Allison, Board member since 1961, Senators will have an opportunity to ask questions, and if time permits, Tech students will be allowed to question Allison.

And tonight's meeting is only the be-

ginning. It is hoped that other Board members and other administrative officials will meet with Senators and students throughout the semester.

Of course, as with all new projects, the success of these plans will depend largely upon tonight's meeting. The more students who are present at the meeting, the more indication there is that Techsians are truly interested in what the administration is doing and would like to have a say in how they are governed.

Tonight's meeting may well be the beginning of a closer relationship between Tech's administration and student government.

LETTERS:

Views Of The Reader

Saul Criticizes Parking Situation

Dear Editor,

One aspect of the parking situation strikes me as being utterly ridiculous. Lot No. 32, just south of Men's No. 9 and No. 10, is marked in the Traffic Regulations booklet for off-campus parking only.

After finding it about half full of cars with purple dormitory stickers one morning and inquiring as to the reason; I was informed that west men's dormitory residents had been authorized to park in this lot, as there were not enough parking spaces available in the first place. It seems strange that parking space is taken away from people who live off-campus to be given to those who live on-campus.

The logical solution would be to ban freshman cars altogether. During my freshman year, I worked at a service station at 50th and Avenue Q from 7 p.m. until midnight, six nights a week. I walked from Gaston Hall to work and back for the first month, and thereafter rode a bicycle. Surely it would not be too great an injustice to ask freshmen—at least those who are not working—to be without a car.

Another possible solution might be to fill dormitory parking spaces on a "first-come, first-served" basis. Certainly, however, the small

amount of off-campus parking spaces should not be given to dormitory residents.

Having been in contact with the administration of this institution for nearly five years, I realize that no immediate action will probably be taken; but I feel better for having expressed my feelings on the matter.

Very truly yours,
Dean Saul

Harding Wonders Why, Why, Why?

Dear Editor,

I, like Mr. Mabrito, often enter into "WES's Window" with the attitude of, "Well, he's overdue for a good article—maybe it will be this one." But even more than WES's column, the "Letters to the Editor" serve to annoy and dismay me. Periodically I too wonder, "... why, why, why?" Why do certain individuals elevate themselves to such a lofty plateau that they believe themselves superior to those who dedicate their time and effort to a campus service.

I am immensely happy for WES that Mr. Mabrito has condescended to agree with someone whom he obviously considers inferior. Is it possible that Mr. Mabrito deems himself equal to the "Masked Marvel?"

Sincerely,
Roger Harding

NMU Students Participate In Administrative Decisions

Albuquerque, N.M. (IP)—Student participation in administrative level decision-making commenced recently at the University of New Mexico.

A special committee of the Student Council now meets monthly with University President Tom Popejoy and other administrative officials to discuss up-coming decisions.

At the monthly meetings, the student committee members are briefed by administration on the administrative decisions being considered. Students have the opportunity to ask questions on administrative problems and make suggestions concerning the student point of view.

"Although students have some power to regulate affairs of the Associated Students, they are left out in the cold when major decisions affecting the university as a whole are made," commented Carroll Cagle, author of the proposal and a councilman.

He noted that the proposal had been well received by Dean of Students Harold Lavender. He also stated that the Student Council had stipulated that the Constitutional Revision Committee include the special committee within the framework of student government, when and if revisions are made in the Associated Students Constitution.

Raider Roundup

NEWMAN CLUB

Rev. Ralph E. Macy will speak to the Newman Club Monday at 7:15 p.m. on "The Episcopal Church in the Light of the Ecumenical Movement."

VALENTINE DANCE

A Valentine dance for "those who dare to be close" will be held Saturday from 8:30-12 p.m. in the Union Ballroom. Mark Anthony's Orchestra will play for the dance. Admission is free for the dance sponsored by the Tech Union Dance Committee.

OCS ORIENTATION

Army Officer Candidate School orientation for graduating seniors will be conducted today from 2-3 p.m. in Room 22 of the Social Science Building by Maj. Kampshor, Army ROTC staff.

"HAMLET" TRYOUTS

Tryouts for "Hamlet" will be held at the Speech Theater on Thursday, Feb. 10 from 4-6 p.m. and 7-10 p.m. and on Friday, Feb. 11 from 4-6 p.m. and 7-10 p.m. The play will be under the direction of Perry Langerstein.

GRUBBY VALENTINE'S DANCE

Men's No. 10 will hold its Grubby Valentine's Dance Feb. 12. Object of the all-school dance, David McClendon said, is for dancers to arrive in dress as grubby as possible.

McClendon, publicity co-chairman, said the dance will be held in the Municipal Coliseum from 8-12 p.m.

"The Briks," formally the Embers, will appear.

Tickets will be on sale all week in the lobby of the Union or in

Men's No. 10. Admission is \$1.50 per couple.

MUN

There will be a meeting of the African caucus at 7 p.m. today in the Mesa Room of the Union. One member of each African delegation should be present.

TOWN GIRLS

Town Girls will have their first luncheon of the semester Wednesday. Those interested should sign in the Dean of Women's office today from 8 a.m. to noon.

PRE-LAW CLUB

The Pre-Law Club will meet at 7 p.m. Wednesday in the Coronado Room of Tech Union. George Gilkerson, former district attorney of Lubbock County, will speak.

Tech 'Leader Enters Contest

Texas Tech cheerleader Jan Fauske of Borger has been designated as an official entrant in the 1966 Miss Cheerleader USA Contest.

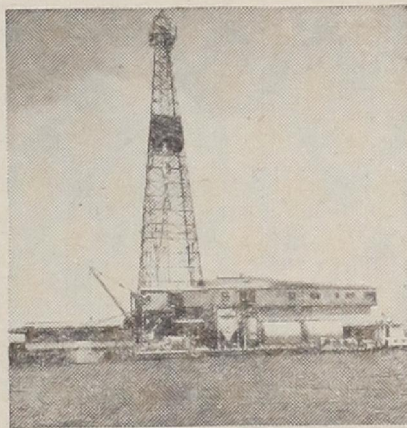

The contest, an annual event, is sponsored by Florida Cypress Gardens. Five finalists will be selected from photographs and entry blanks, and each will win an expense-paid trip to Florida for final judging on the weekend of April 9-10.

The winner, to be chosen on her ability to lead cheers and enthuse a crowd, will receive a \$200 scholarship, a trophy and other honors.

Miss Fauske, daughter of Mr. and Mrs. S. C. Fauske of 228 Moreland, Borger, is a senior physical education major.

She has been a finalist in the La Ventana Miss Mademoiselle Contest two years, was a member of the 1965 Homecoming Queen's Court and is a former Miss Borger High School.

A member of the Flying Matadors trampoline team, she has taught tap dancing, twirling, ballet, gymnastics and synchronized swimming.

TT, Ags Head For Showdown

COLLEGE STATION—A showdown with some of the sting missing will unravel here tonight when Texas Tech faces a "must" situation against the Texas Aggies.

Prior to the Raiders' 87-74 loss to Texas Saturday night, the match had been billed as a battle for a share of first place in SWC standings. Victories for Tech over Texas Saturday, and A&M tonight would have given the locals a 6-1 conference mean and a tie with the Aggies for the lead.

But, as almost 11,000 spectators will testify, the Raiders did not defeat the Longhorns and now must enter the lair of the Ags with a dubious 4-2 record and facing almost certain expulsion from the race if they lose.

Unblemished Record

The Aggies of Coach Shelby Metcalf are firmly fixed in the driver's seat at present with an un-

blemished 6-0 mark, which looks even more formidable after Saturday's frightfully easy 81-72 victory over TCU.

Texas A&M runs what Coach Gene Gibson terms "the Beasley offense" and it's easy to understand his observation when one glances at the SWC individual statistics.

John Beasley's name appears at the top of the loop's leading scorers, carrying a radar-accurate, 30.0 average. He's scored 180 points in conference games, including a 35-point effort against the Froggies Saturday.

Matson Injured

Reports from the Aggie camp say muscleman Randy Matson will miss the game because of an injured knee. If Matson doesn't play, Tim Timmerman will take his place.

Beasley and Timmerman or Matson will be joined by Eddie Dominguez, Dick Stringfellow and Dick Rector at the opening toss.

The Ags, who are 11-5 for the season, support Gibson's statement that "they are strong on the boards" with 15 rebounds per game more than the opposition. They out rebounded the husky Frogs, a

the Raiders nudged in the season. At center will be sophomore-of-the-year candidate

Bob Glover. Guarús will be Bobby Measells and Dub Malaise and Billy Tapp and Norman Reuther will open at forwards.

In other conference games tonight Texas tests its newfound success against TCU in Austin, Arkansas goes to Rice and SMU hosts Baylor. Tonight's games will wind up the first round of league play.

Recent Vets May Receive Federal Aid

WASHINGTON (AP)—The House passed Monday a bill to set up a permanent program of educational and housing benefits for military veterans and offer the bonus to those who served in the cold war era since Korea.

The vote was unanimous, 381 to 0, although the House had failed to act on a similar bill passed by the Senate several years ago. The fighting in Viet Nam put steam behind the drive this time.

LBJ Approval Expected

The Senate last year passed a somewhat costlier bill than the House but is expected to go along with the House version. President Johnson also is expected to accept it although his administration originally asked that the program be limited to veterans who served in combat areas.

Both bills would aid veterans who served since July 31, 1955—the declared termination date for establishing eligibility under the Korean GI program.

The educational benefits would be measured by the length of active duty—one month of schooling for each month of service, up to a total of 36 months. The Senate bill has the same 36-month limit but is based on 1½ days of school aid for each day of service—thus 1½ months for each month of service.

Payments for full-time students would range from \$100 monthly for men without dependents to \$125 a month for those with one dependent and \$150 for those with more than one. The Senate bill would have provided \$10 more monthly in each category.

MISS CHEERLEADER USA CONTESTANT—Texas Tech cheerleader Jan Fauske of Borger has been designated as an official entrant in the 1966 Miss Cheerleader USA Contest, sponsored by Florida Cypress Gardens. Five finalists, to be selected on the basis of photographs and entry forms, will receive an expense-paid trip to Florida in April for final judging. Entries for the annual contest have been received from major colleges and universities throughout the United States.

Be Cautious How You Travel To Hawaii

Hawaii is a land to enjoy; not just to see—a land which begs you to personally participate in its living, not just for you to hear or read about. Thus, invest wisely. Select that summer program which offers you the greatest values and which is so honest about its claims that it can afford to itemize each tour event and service in clearest detail in its brochure to leave you absolutely no doubt about what you are buying. Be sure that what you "think" you are buying is EXACTLY WHAT YOU WILL RECEIVE AFTER ARRIVAL IN HAWAII. For clearly defined commitments and a reputation, capacity, and distinction to match, join the Howard Tours, the original study program in Hawaii and the program that is synonymous with summer session at the University of Hawaii. Complete details are available on this campus through—

It's Ice Hockey, South Plains Style

Reds Destroy U.S. Airplane

By **BILL MOORE**
Staff Writer

With the roughness of the Green Bay Packers, the speed of a West Texas jack rabbit, the excitement of Texas Tech basketball and the action of wham-bam-zot Batman, ice hockey has found a place in the refrigerated section of the Tech intramural program.

A sport whose primary requirement is to know how to ice skate, ice hockey combines the techniques of football and basketball to produce a fast moving, action packed game.

With the lack of climatic conditions and overall knowledge of the sport, ice hockey has not found a place in the hearts of the sports minded South, as it has in the northern sections of the country.

Unusual For Texas

"It is quite unusual to have a sport of this nature in our program. In fact, we are one of the very few schools outside the hockey belt to have ice hockey in its intramural program," says Edsel Buchanan, director of intramural sports for men.

The hockey belt ranges from Colorado northward, across the Midwest into New England. Throughout this area ice hockey has found its place in colleges and there is intercollegiate competition which rates the same caliber as football and basketball.

The game is played on an ice rink 200 feet long and 85 feet wide. At each end of the rink is a goal that is six feet wide and four feet high.

How It's Done

Object of the game is to maneuver a hard rubber disc, called a puck, down the rink with a slanted L-shaped guider, called a hockey stick. A point is scored each time the offensive team gets the puck into their opponent's goal.

Each team consists of six players. There are three forward offensive men: a center and a left and right wing. Three men play defense: two defensemen and a goalie.

As in all sports ice hockey has its penalties. A minor infraction would result in a face-off, which is equivalent to a jump ball in basketball. A major foul sends a player to the penalty box for a period ranging from two to ten minutes depending upon the nature of the foul. During this penalty the team must play with one less man.

Some modifications have been added to the intramural ice hockey. Instead of the hard rubber puck, the center of a soft rubber ball wrapped with tape is used. This is for the protection of the players who do not have all the necessary protective equipment.

Iceland Skating Rink, where in-

tramural hockey is played, is only 170 feet by 70 feet.

Ice hockey was introduced into the intramural program last year, with five teams participating. That roster has now grown to eight.

One of the main causes of increasing interest in the sport is the classes of ice hockey offered in the men's physical education

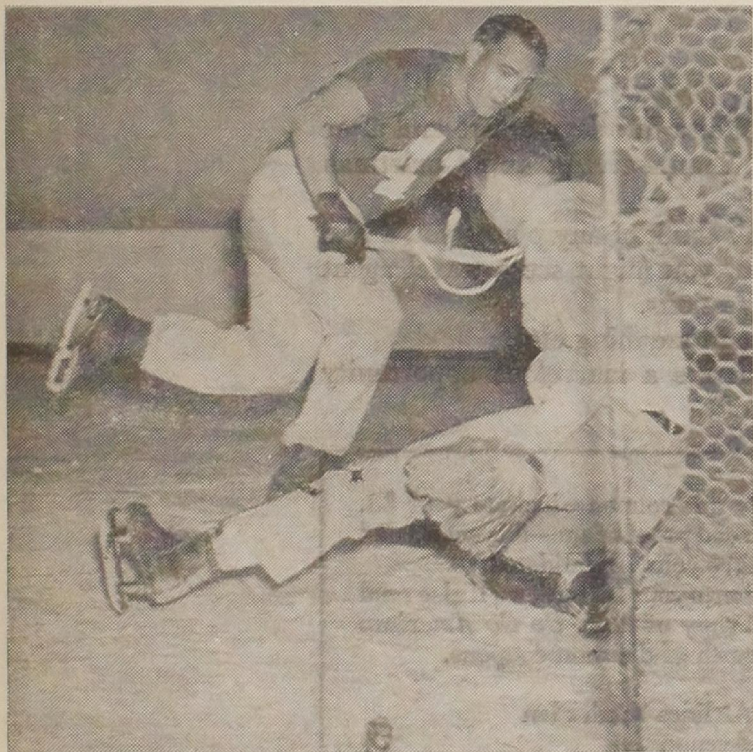

U.S.-Viet Nam Talks Open In Honolulu

HONOLULU (AP) — The heads-of-government council on the Vietnamese war opened Monday amid a tropical downpour and a new volley from Sen. Wayne Morse, D-Ore.

Johnson and the leaders of the Saigon regime went into secret sessions in the closely guarded headquarters of the U.S. Pacific Command.

Although the war itself was a certain topic for discussion, U.S. authorities stressed that the main objective of the talks was to mesh plans to rebuild South Viet Nam's economy in the midst of a war for survival.

As the conference was getting under way here, Sen. Wayne Morse, D-Ore., set off a new attack on Johnson's policies, taking issue with the President's airport statement Sunday which argued that the line against communism must be drawn in Viet Nam.

ROUGH SPORT—Ice hockey is one of the fastest growing sports in popularity in the Tech intramural program. Eight teams are competing in the league this year. Above, a goalie tries to block a shot.

department. The majority of intramural players have had their interest spurred in these classes.

Jim Haynie, manager of Iceland, was one of the prime agents in initiating the hockey program.

"Ice hockey is faster moving than basketball and has an awfully lot of contact. This makes it one of the most dangerous sports played and is possibly why it is so popular with the players."

Mike Sterzenback, sophomore, said he would rather play ice hockey than any other sport.

Sterzenback, who plays defense for Wells Hall, said "It's a little rougher than football and a whole lot faster. That's why I like it."

Not all the intramural players got their interest started in the P E class. Steve Wells, a junior from Anchorage, Alaska has been playing for the past five years.

"I learned to ice skate when I was 12-years-old and played hockey in high school. Tech has a pretty good system here. It sure has improved since last year."

It looks like ice hockey has found a home at Tech. But there is one common complaint among all who play it.

"When a man falls down that ice is the hardest thing he could ever land on."

TOKYO (AP)—A U.S. pilotless high-altitude reconnaissance military plane was shot down Monday by a Communist Chinese air unit over the southwest mainland close to North Viet Nam, the New China News Agency (NCNA) reported.

Defense Minister Lin Piao of Communist China said it was an American aircraft in an order issued to commend the Chinese air force unit, the agency said in a broadcast monitored here.

I am looking for a large house for a family of six to lease on June 1, Ext. 4248, E. E. 102 or SW5-8339.

Alterations, Men's ladies, knits. Fittings by appointment, your home or mine. Nadine Berry, 3117 Jarvis, PO2-8566.

Alterations, ironing wanted, bring your clothes. Monday, Tuesday, Wednesday only. Call PO3-3127, Mrs. Pearl Mowdy.

German tuition offered by native speaker. Phone PO5-6453 after 6 p.m.

Math Tutor: Certified experienced teacher. Full time tutoring by appointment. 3117 22nd, SW5-2632.

LOST AND FOUND

Found: Man's dark Trench Coat left at Cotton Bowl. Call Student Council Office.

Buy Tech Ads

To any kid who'd like to leave home: We'll pay half your fare.

The idea's not as crazy as it may seem. Anytime we take a jet up, there are almost always leftover seats.

So it occurred to us that we might be able to fill a few of them, if we gave the young people a break on the fare, and a chance to see the country.

The American Youth Plan*

We call the idea the American Youth Plan, and what it means is this:

American will pay half the jet coach fare for anybody 12 through 21.

It's that simple.

All you have to do is prove your age (a birth certificate or any other legal document will do) and buy a \$3 identification card.

We date and stamp the card, and this entitles you to a half-fare ticket at any American Airlines counter.

The only catch is that you might have to wait before you get aboard; the fare is on a standby basis.

"Standby" simply means that the passengers with reservations and the servicemen get on before you do.

Then the plane's yours.

The American Youth Plan is good year

round except for a few days before and after the Easter, Thanksgiving and Christmas rushes.

If you can't think of any places you'd like to go offhand, you might see a travel agent for a few suggestions.

We can't add anything else.

Other than it's a marvelous opportunity to just take off.

Complete this coupon—include your \$3. (Do not send proof of age—it is not needed until you have your ID validated.)

In addition to your ID card, we'll also send you a free copy of AA's *Go Go American* with \$50 worth of discount coupons.
