

**VARSITY SHOW CAST** — The newly-selected staff for the 1957 Varsity Show looks over the script of "On The Town," which will be produced this year by the Varsity Show, April 11-12. The staff includes, left to right, seated, Joan Abel,

co-publicity director; John Gilbert, director; Wayne Gibbons, producer; back row, Roger Loter, business manager; Patti Hill, co-publicity director; and Mariana Wilson, choreographer.

Staff Photo by Harold Crewell

## Varsity Show Script Chosen

### John Gilbert To Direct Production; Cast Tryouts Scheduled Next Week

"On The Town," has been selected as the play to be presented by the 1957 Varsity Show, and John Gilbert, sophomore from Amarillo, has been named director, according to an announcement today by Wayne Gibbons, Varsity Show producer.

Cast try-outs will be held next Monday and Tuesday nights and students wishing to try for either speaking parts or singing and dancing parts should pick up try-out scripts and application blanks in the Student Council office any time after Thursday.

Roger Loter, junior from Plainview, has been chosen business manager for the Varsity Show. Joan Abel and Patti Hill have been selected co-publicity directors for the production. Miss Abel is a sophomore and Miss Hill is a junior. Both are from Lubbock. Mariana Wilson, senior from Coleman, has been named choreographer.

The book and lyrics for "On The Town" were written by Betty Comden and Adolph Green, and the music was composed by Leonard Bernstein.

The plot centers around three sailors on 24 hour leave, who give up sight-seeing in New York City to find a Miss Turnstiles for the month of June, because one of the sailors has become infatuated with her picture on a poster in a subway. The rest of the story concerns their separate adventures in the search which takes place on Coney Island, Carnegie Hall, Times Square, The Brooklyn Navy Yard and in three night clubs.

Cast try-outs will be held in the Union Workroom Monday night and in the Union ballroom Tuesday night. Applicants will be required to fill out a form when they take tryout scripts from the Student Council Office.

Students who wish to try out for a dancing position should report at 7 p.m. both nights.

Applicants for speaking parts should report at 8:30 Monday night and at 8 Tuesday night.

There are six main characters and twenty-five minor characters. Fifteen girl and fifteen boy dancers and singers are needed.

The 1957 Varsity Show will be presented in the Lubbock Municipal Auditorium April 12-13.

## Nine Scholarships Given To Coeds

Nine Tech coeds have been awarded scholarships for the spring semester. One scholarship is being given by Alpha Lambda Delta, two by the Sears and Roebuck Scholarship for Home Economics, five by the Ethel Foster Scholarships for Home Economics and one new scholarship by John A. and Pauline Hughes.

Peggy R. Donnell, sophomore elementary education major from Eljasville, receives the Alpha Lambda Delta Scholarship.

A junior home economics education major from Slaton, Mary Alice Kenney, is one of the recipients of the Sears and Roebuck Scholarship for Home Economics. Janet Vines, a sophomore home ec. education major from Albany, will receive the other one.

The five recipients of the Ethel Foster Scholarships for Home Economics are Jean Crass, Carol Ann Oliver, Sonya Lynn Wilmut, Joyce Alene Self and Barbara Ruth Dunn.

Miss Crass is a senior home ec. education major from Bryan. Also a home ec education major, Miss Wilmut is a senior from Lubbock. Miss Self is a senior food and nutrition major from Wolforth, and Miss Dunn is a senior majoring in child development and family relations from Lubbock.

Mary Jordan, an entering freshman from Lubbock, is the first recipient of the John A. and Pauline Hughes Scholarships. She will enter the School of Business Administration.

## Ground Broken For New Dorm

As they dug gold shovels into the earth on Jan. 11, President E. George E. Benson began another step in Tech's building program.

Dr. Jones and Benson, along with Vice Presidents G. E. Giesecke and Marshall L. Pennington, Lewis N. Jones, dean of men, and Tim Eysen, president of the Men's Inter-dorm Council—broke ground for a new men's dormitory southwest of the Coliseum, and west of the cinder track.

The new project will house 718 men and will cost \$2,421,200. It is Tech's first step outside the original 320 acres designated by the founders of the institution for major buildings.

Dr. Jones declared that the new dorm is "the beginning of a Texas Tech beyond the detailed dreams of its founders." He said the new men's dorms (another is planned as soon as funds are available) and the women's dorm now under construction are not enough. The president stated that the physical plant and the teaching facilities of the college must keep pace with the rising enrollment if students enrolled are to have an adequate education.

Dr. Jones announced that Tech

is expecting an enrollment of 15,000 students by 1965. This estimate knocked five years off an official 1955 prediction of 15,000 students by 1970.

Go-ahead for the dorm was given on the night of Jan. 9, less than 24 hours before the expiration of the option at 2 p.m. Jan. 10. The Housing and Home Finance Agency provided the loan which totaled \$2,985,000.

The dorm will have two wings, a kitchen and a dining hall. Plans are for it to be completed in September of 1958. The second unit of the proposed project will be identical and the two units together will cost \$4 million to 4.5 million.

Application has been filed for financing of the second unit in the near future.

As a comparison, Pennington cited the cost per square foot of West, Horn, and Knapp halls with the new building. Built in 1934, West cost \$4.86 per square foot; Horn and Knapp, constructed in 1946, cost \$11.99 per square foot. The new dorm will cost \$19.99 per square foot.

James G. Allen, dean of student

life, was master of ceremonies. Philip Love, chairman of the student Religious Council gave the invocation. Guests included contractors and architects.

## Bob Cummings To Pick Beauties

Bob Cummings, famous television personality, has been chosen to select the top eight La Ventana Beauties for 1956-57, according to Barbara Pearce, editor of La Ventana.

The pictures were sent to Cummings today and he is expected to make his choices from the 20 finalists and return his decision in three weeks.

The La Ventana staff urges that all organizations which owe them action pictures to turn them in, and for club representatives to come by and identify pictures.

The twenty La Ventana finalists are Annyce Gibbs, Ann Gordon, Sherry Sinex, Enna McDaniel, Sandra Hendrix, Averill Brinkman, Beth Davidson, Ann James, Revis Jordan, Caroline Wood, Mary Jane (Miller) Chase, Bobbie Carroll, Simone Smith, Lynn Cundiff, Ann Denny, Sharla Bickett, Marilyn Warren, Sandra Shields, Barbara Hudson and Shirley Kee.

## Pep Rally Planned Before HSU Game

A pre-game pep rally will be held Thursday at 7:15 p.m. in the Coliseum. The rally precedes the Hardin-Simmons game which begins at 8 p.m.

Tech cheerleaders will be in charge. Hardin-Simmons is probably leading the Border Conference, according to head cheerleader, Clay Cummings.

## Over 7,000 Expected To Enroll As Registration Closes Tomorrow

Tech is racking up its largest spring enrollment with 6,452 students registered through Saturday. Wednesday is the only day left for regular students to register, and at that time the enrollment is expected to rise as 7,006 registration permits were issued.

A total of 118 entering freshmen have taken required aptitude tests with the deans of each school scheduling more test dates for other entering freshmen.

At present the Engineering school leads with the largest number, having 2,019 registered so far. Arts and Sciences follows with 2,017 students; 1,134 have

registered in the School of Business Administration. The number of students in the school of Agriculture is 692, and in Home Economics a total of 362 have enrolled to date. Completing the list are the graduate students who number 228.

Men again outnumber the women, with the number of men at 4,883 to 1,569 women students.

Night students may register from 5 to 7 p.m. through Thursday. Deadline is from 8 a.m. til noon Saturday.

Fees for night courses are \$10 for a 3-semester-hour course or less; \$12 for a 4-semester-hour course; and a \$7 property deposit that is refundable.

## Board Approves Dorm Loan; Engineering Degree Added

Tech's Board of directors, meeting Jan. 26, formally approved a loan agreement for financing construction of two new dormitories.

Plans for financing the proposed enlargement of Jones Stadium until later this year or early in 1958.

Other action includes the approval of a new engineering degree, the addition of 12 new courses, deletion of 15 others, and approval of five members of the professional staff.

The new degree to be granted is a Bachelor of Science in engineering physics.

The board also agreed to do away with the late registration fee of \$2 for the 1957 spring and summer semesters and omit the fee in future catalogs.

New staff members approved include: Myra Joyce Rattan, assistant circulation librarian; Mrs. Dahlia Jewell Terrell, English instructor; Mrs. Edith W. Shelton, assistant dietitian; James Athurh Rushing, acting supervisor of registration; and Jesse Claude Jones,

civil engineering instructor.

The air conditioning of room 101 of the Chemistry Building which is to be used as a campus auditorium during summer sessions was also approved.

An agreement with the Plains Cooperative Oil Mill of Lubbock for a cooperative project on the winter feeding of a herd of beef cattle was signed.

Two scholarships approved by the board are the Paul Whitfield Horn Fellowship, given by the Quarterly Club for a Tech graduate studying for a higher degree and a \$150 scholarship given by the Purchasing Agents Assoc. of the Texas Panhandle to a junior or senior student majoring in industrial or office management.

Board members present for the meeting included: J. Evetts Haley Canyon; Tom Lineberry, Kermit; George E. Benson, Lubbock; Jim Lindsey, Midland; and W.D. Watkins, Abilene, who presided in the absence of Chairman Charles C. Thompson.

### GROWING PAINS...

With what looks to be another record breaking enrollment, Tech begins a new semester, but not without the usual problems of inadequate class room space and teaching personnel.

Seniors and graduate students are being barred from many one and two section only classes which are filled on the basis of "first come first served." Many are having to compromise their schedules in an attempt to graduate on time. To meet the growing enrollment of underclassmen, more classes are being added. Also class rooms are being used more in the afternoons and night and all classes are overcrowded.

Such deplorable conditions may be solved by additional classrooms and a larger and better paid teaching staff, but past experience shows that these things come slowly, if at all, and are not always granted upon need alone.

One possible solution might be like the one Texas University has taken to meet its growing pains, by adopting a plan of limited enrollment based upon entrance tests given to freshmen. Another possible heartless method would be to raise the grade requirements that a student must meet to stay enrolled in Tech until the enrollment could be handled efficiently.

Another possible solution, lies with the State Legislature now in session in Austin. It could provide Tech with additional funds for classrooms and for a larger faculty to meet Tech's rapid growth.

Tech is at a crossroads. Either she must expand her instructional staff and facilities or take steps to restrict the enrollment.

### College Capers Invites Tech Talent

Top variety talent at Texas Tech will have it's chance to reap a reward both in money and recognition next month.

The Eclectic Social Society of Sam Houston State Teachers college at Huntsville is sponsoring its annual College Capers Inter-Collegiate Talent Show March 15, and has invited talent from many Texas Schools.

First prize in the show is \$50, second prize is \$35, and third prize is \$25. Housing after the

show and the meal during the show are furnished free to participating students.

Students, or student groups, who wish to enter the show should contact Wallace Wilson, president of the Student Council. Further information about the show may be obtained from Sandra Craig, secretary, Eclectic Social Society, Sam Houston State College, Huntsville. Entrants should register before Feb. 10.

### LITERATURE CAN BE SCREAMS!

To save you tiresome days of reading, days that can be more happily devoted to healthful winter activities like skiing, tobogganing, and three card monte, this column today presents digests of some classic novels that are sure to come up in your lit courses.

#### The Scarlet Letter

This is a heart rending story of a humble Boston lass named Hester Prynne who is so poor that she does not have enough to eat, nor a roof to cover her head. But she is a brave, brawny lass and she never complains and by and by her patience is rewarded: in the summer of 1859 she wins a football scholarship to Alabama.

Hester works hard and makes the varsity and wins her letter. Everybody says she is a shoo-in for All-Conference honors, but along comes the War Between the States, and football, alas, is dropped for the duration.

Poor Hester goes back to Boston. It is a bitter cold winter, and poor Hester, alas, does not have a roof over her head, and the only warm clothing she owns is the football sweater from Alabama, but that, alas, has a big scarlet "A" on the front of it, and she can hardly wear such a thing in Boston where Union sentiment runs so high.

Poor Hester, alas, freezes to death.

#### Little Women

The Marches are a very happy family - and for no reason whatsoever. They are poor as snakes; they work from cocker to evensong; their dear old father Philip is away with the Union armies; and their mattresses are lumpy.

Still, nothing can dampen the spirits of madcap Meg, jocular Jo, buoyant Beth, animated Amy, and crazy old Marmee, as the merry March girls lovingly call their lovable mother.

Well sir, one Christmas the March girls get an invitation to a ball. But Beth reminds the sisters that they can hardly go traipsing off and leave poor Marmee alone at Christmas time. The sisters swear a lot, but they finally agree with Beth.

Marmee, however, will not hear of it. "Land's sake, little women!" she cries. "You must go to the ball and have some fun. There will be punch and ginger snaps and confetti. Best of all, there will be morris dancing. Oh, how your father and I used to love that!"

"I never knew father could dance," cries Meg.

"Oh, yeah?" cries Marmee. "You should have seen Philip morris!"

"Was Philip a good morriser?" cries Jo.

"The best," cries Marmee. "Philip could morris in long size and regular and was full of natural goodness and fresh and firm and unfiltered too."

The girls are cheered to hear this and go to the ball. Marmee stays home all alone, but soon gets a wonderful surprise: Philip comes back from the war!

When the girls return from the ball, they find Marmee and Philip morrising, and they cry "Huzzah!" and throw their bonnets in the air, where they are to this day.

Speaking of books, in our book today's new Philip Morris, made by the sponsors of this column, is the smoothest, tastiest cigarette ever offered anywhere!

### A Campus-to-Career Case History

Planning for growth. Joe Hunt (left) talks with Jim Robinson (center), District Construction Foreman, and D. D. Frisbie, Supervising Repair Foreman. In Joe's district alone, 600 new telephones are put into service every month.

## "I'll take a growing company"

70,000 telephones to keep in operation... \$20,000,000 worth of telephone company property to watch over... 160 people to supervise - these are some of the salient facts about Joe Hunt's present job with Southwestern Bell. He's a District Plant Superintendent at Tulsa, Oklahoma.

"It's a man-sized job," says Joe, who graduated from Oklahoma A. & M. in 1949 as an E.E. "And it's the kind of job I was looking for when I joined the telephone company."

"I wanted an engineering career that would lead to management responsibility.

Moreover, I wanted that career to be in a growing company, because growth creates real opportunities to get ahead.

"But to take advantage of opportunities as they come along, you must have sound training and experience. The telephone company sees that you get plenty of both. Really useful training, and experience that gives you know-how and confidence. Then, when bigger jobs come your way, you're equipped to handle them.

"If I had it to do all over again, I'd make the same decision about where to find a career. Now - as then - I'll take a growing company."

Joe Hunt is with Southwestern Bell Telephone Company. Interesting career opportunities exist in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about these companies.

'Cowboy Slim' Is Colorful Member Of Tech Museum

By Carol Stone  
Toreador Feature Writer

He's tanned, dirty and unshaven. His motto is, "I wash in a pool and dry on a sack; I carry my wardrobe all on my back."

Yet, each year from 7,500 to 9,000 persons passing through the Museum on the campus stop to admire "Cowhand Slim," with his roughened features and dingy clothes.

Slim, a manikin whose job it is to portray the dress and countenance of the early Plains cowhand, has been at The Museum for several years and since his coming has thrilled thousands of school children, members of civic clubs and countless others who tour The Museum each year. The cowboy dummy will reach his peak of entertaining this Spring as The Museum tours feature the early Texas cowboy.

Though Slim is not the best-dressed man on the campus, each article of clothing he wears, from his battered "Stetson" to his dusty boots, has a purpose all its own. His broad-brimmed hat protects him from the blazing sun; his bright handkerchief knotted loosely around his neck serves as a napkin, a towel, a bandage, or as a dust filter when worn over his nose at round-up time; his chaps, made of animal skins, protect him from thorny bushes; his boots are high-topped to protect his ankles and high-heeled to keep his feet in stirrups while riding.

Slim's cowhand counterpart in real life would probably have had a \$50 saddle slung across a \$30 horse and a trusty six-shooter at his side or a Winchester under his saddle. One of his favorite accomplishments was rolling his cigarette with one hand while riding.

When cowboys like Slim were riding the traditional cattle drives across the plains, chuck wagon meals ran something like this—inky black coffee, boiled from whole beans; kettle-boiled stew, eaten with a small knife; sourdough biscuits or cornmeal; kidney beans and dried fruit. Consuming this 3-meals-a-day diet during the several weeks of a cattle run kept early cowboys typically "slim."

The "Cowboy Tours" which began Jan. 29, will continue through April. Though specially designed to entertain school children from the fourth to seventh grades, the tours will also be given to such Groups as Cub Scouts, Brownies, Camp Fire Girls, women's clubs, civic groups, visiting convention members and all others interested. All tours are handled through the office of Mrs. Joretta Robnett.

Trained volunteer guides from the Lubbock Junior Women's League give an average of four tours each day. Approximately 20 guides were trained for the "Cowboy Tour" by Mrs. John Harding, whose father spent many years as foreman of the T-Bar Ranch.

Tri-Delts Offer Two Scholarships

Women students on the campus are eligible to apply for the 1957 Delta Delta Delta general fund scholarship competition. They need not be fraternity members but they should be well-qualified students, showing promise of valuable service in their future communities.

The successful candidates will be notified by May 15, 1957 and the scholarships will be forwarded to the winners at the beginning of the term for which the awards are granted. The scholarships may not exceed \$200.

Applications are available at the Dean of Women's office and must reach Mrs. Charles C. Perrin, Box 95, Paoli, Pa. by Feb. 23, 1957.

HOWDY PARDNER' — These might be the words of "Cowboy Slim" to sightseers in the Tech Museum as they view exhibits depicting the Old West... that is, he might say it if he weren't made of sticks and paper mache. Manon Muncy, Drane Hall, freshman, is shown looking "slim" over from top to bottom.

15 Tech Cadets Get Commissions

Fifteen Air Force and Army ROTC cadets were commissioned last weekend. The cadets are January degree candidates.

The Air Force commissioned four cadets as second lieutenants Sunday afternoon in the Anniversary Room of Tech Union. Dr. William M. Pearce, history department head, spoke on "Leadership."

The Army commissioned 11 candidates as second lieutenants Monday in Military Science Building. Lt. Col. John B. Webb gave the main address.

Men receiving Air Force commissions are James E. Davis, C. R. Martin, John Starkey and Robert Taaffe.

Cadets receiving Army commissions are William A. Whitfill, Charles G. Wright, Robert J. Phillips, James R. McKenzie, Ray A. Weed, Fred H. Meissner, Hugh Fewin, Bill D. Echols, Willie T. LaRoe, Robert E. Killian and Walter L. Wylie.

Phillips, Fewin and Echols have been named Distinguished Military Graduates.

What young people are doing at General Electric

Young engineer pioneers new ways to use x-ray

A new x-ray inspection system which intensifies an x-ray image more than 10,000 times in brightness and transmits it to a conventional TV screen has been developed recently by General Electric. When perfected, it may enable medical specialists to perform "long-distance" diagnosis on patients in remote areas.

One of the principal men who developed x-ray television - called TVX for short - is Dr. John E. Jacobs, Manager of the Advanced Development Laboratory of General Electric's X-Ray Department in Milwaukee, Wisconsin.

Jacobs' Work Is Important, Responsible

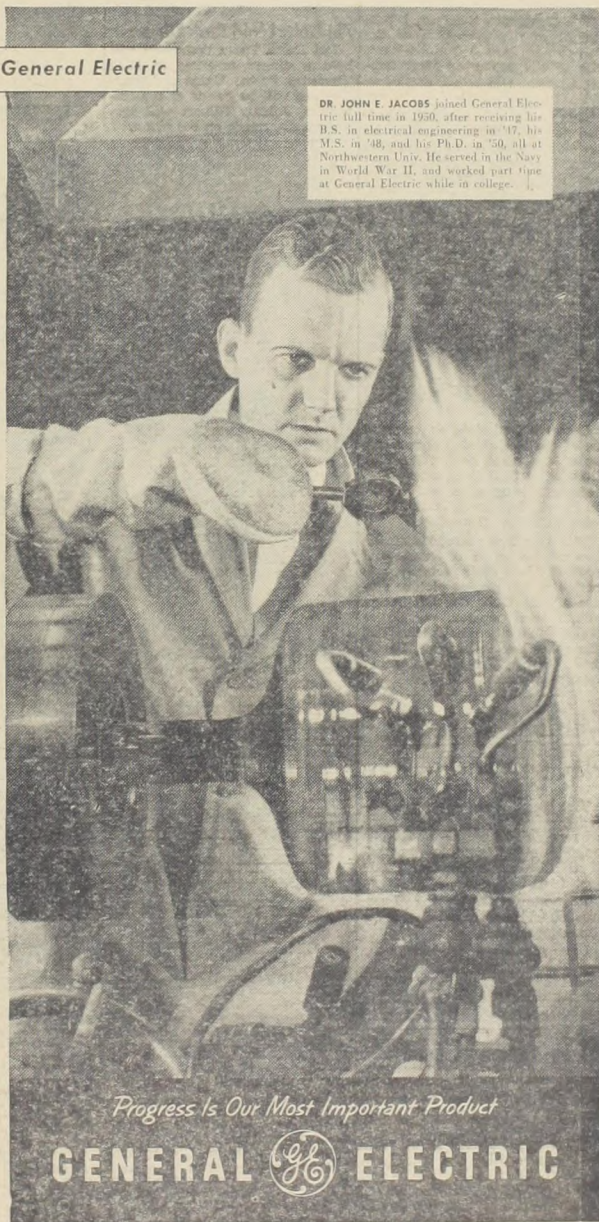

As an electronics specialist, Dr. Jacobs' work in the past has been devoted to the study of photoconductors—substances whose properties change under the influence of radiation—and the use of x-ray in industrial inspection. This in turn led to his development of the x-ray-sensitive camera tube used in TVX.

His present administrative duties with the Advanced Development Lab allow him more time for teaching others what he has learned. He now teaches the second-year graduate course at Northwestern in vacuum-tube networks, and has recently been named McKay Visiting Professor for 1957 by the University of California at Berkeley, where he will give a two-week series of lectures on photoconduction.

27,000 College Graduates at General Electric

Since his youth, when he was a licensed radio "ham," John Jacobs has been devoted to the study of electricity and electronics. Like each of our 27,000 college graduates, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: when fresh young minds are given the freedom to develop, everybody benefits—the individual, the Company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

DR. JOHN E. JACOBS joined General Electric full time in 1950, after receiving his B.S. in electrical engineering in '47, his M.S. in '48, and his Ph.D. in '50, all at Northwestern Univ. He served in the Navy in World War II, and worked part time at General Electric while in college.

Progress Is Our Most Important Product

# "Tribute To Freedom" Funds Used To Provide Hungarian Scholarships

"It is nearly certain that at least one Hungarian student will attend Tech next Fall," stated Scott Hickman, Tech representative to a statewide Texas Tribute to Freedom meeting in Dallas last week.

Students from five Texas colleges gathered at the meeting to decide how to use the money collected from Texas schools during the "Texas Tribute to Freedom" drive.

The funds are to be handled by the Texas Hungarian Scholarship division of the International Rescue Committee, and will provide for scholarships which will be given to Hungarian students who sparked the uprising against Red tyranny late last year.

The organization—first of its kind in the nation—will be financed and administered largely by students.

"In belief that the money could

## Final Club Meeting Set By Optimates

The Optimates meet at 7 p.m. tonight in the workroom of the Tech Union. Mrs. J. Ralph Grant, wife of the pastor of First Baptist Church, will speak and show slides taken in Italy.

This is the only meeting scheduled for the spring semester by the club, composed of Latin students. Replacing an annual banquet will be a joint meeting of all foreign languages clubs with a program of skits and other types of entertainment in March. Later in the spring the club may invite all high school Latin students of Lubbock to a picnic to end the school year.

## Union Shows Film Of Life In Russia

Lectures and debates committee of the Tech Union is sponsoring a film taken behind the Iron Curtain by Neil Douglas, author, lecturer, photographer and explorer. It will be shown in the Ballroom at 8 p.m. Thursday.

This film gives analysis of the lives of the people of Russia and takes one into their factories, collective farms, motion picture studios, athletic clubs, dancing groups, ballets and operas, says Alice Wells, publicity chairman. The film takes one to Moscow, Leningrad, Odessa, Georgia and other important places.

## Musical Requests Played Wednesday

Two hours of request music featuring classical and semi-classical records will be the feature attraction in the Anniversary Room of the Union Wednesday afternoon from 2-4.

Requests for the playing of records should be turned in to the Union lobby.

Upon receipt of the requests the music asked for will be piped into the room. This program will become a weekly feature of the Wednesday program.

## Dance Lessons Planned

Beginning Thursday, the Square Dance Committee of the Union will sponsor a series of three square dance lessons, one to be held every Thursday night. This is in preparation for the barn dance to be given Feb. 28, which will feature a western band.

The lessons are free, and will begin at 7 p.m. in the Old Rec Hall.

be best used to educate students who might someday provide the leadership for a free Hungary, IRC proposed that the \$8,000 be used for scholarship purposes," reported Miss Elizabeth Forsling, IRC director in Texas.

Hickman and Ted Carthel, student from Lockney, were Tech's representatives to the meeting. Other schools represented were Texas University, S.M.U., Texas A&M and Baylor.

Paul V. Carroll of Waco, a law student at the University of Texas, was named chairman of the Scholarship Division at the meeting Thursday.

Representatives of Texas Tech, Texas, and SMU were named to draft specific proposals for administering the Freedom Fund, and for expanding activities to other Texas colleges and high schools.

The student group will report by mail to member institutions prior to another general session about the middle of this month.

Scholarships will be granted to Hungarians for attendance of Texas colleges participating in the program.

## Phi Delt's Hold Rush Dinner

Phi Delta Theta fraternity will hold a dinner meeting at noon Thursday in the Union Ballroom. Rushees will be guests of the fraternity, Johnny Gilbert will furnish dinner music on the piano.

GORDON HALL RESIDENT

## Gordon Hall Of Four Years

When asked how he lives in a man's dorm, David Sharp replied, "I'm the son of Mr. Maurice Sharp, Mr. Sharp's son-in-law at Gordon."

"David has lots of friends," Mrs. Sharp said. "He's quite an outgoing person and on occasions visits his friends who live in the dorm. He particularly enjoys visiting his friend who has a tropical island in the Pacific. David has an older sister, who is in her first year at school."

A problem which has caused Mrs. Sharp is a family in a man's dorm is of playmates the age of David and no association with Mrs. Sharp admit to have plenty of companionship both children have learned to associate well with adults and an advantage over most children.

"Most of the boys here to enjoy the children, even if they left small brothers and sisters at home," Mrs. Sharp said.

On several occasions David has been found entertaining with his endless talk and movement. She also believes that they try to help children from being around the boys. Maurice to nursery school and kindergarten on campus so she might have an opportunity to associate with children in her own peer group. The majority of David's friends with children his age are at Sunday school.

It is quite obvious that David would like to be a cowboy. He hasn't had the opportunity to visit a ranch, but on occasions we have visited agriculture school's livestock and the milking at the dairy," Mrs. Sharp reported. David rode by on his little horse.

One of the things Mrs. Sharp believes the children have been able to have pets. They have some tropical fish which possibly help them understand life better," she said. Mrs. Sharp's work is in the office and she is able to be with David more than most fathers. Sharp is working on a elementary education and classes in the morning. His work is limited because it results in the dining room that eliminates much of his time.

GORDON HALL RESIDENTS—Mr. and Mrs. Maurice Sharp and children, David and Marie, find few problems to living in a men's dormitory.

# HAIR PROBLEMS??

COLLEGIATE HAIRDRESSERS 2414 14th PO2-1552  
338 College Ave. PO5-5536

## Gordon Hall Home Of Four Year Old

When asked how he liked to live in a men's dorm, Gordon Hall's youngest resident, 4-year-old David Sharp replied, "Fine." David is the son of Mr. and Mrs. Maurice Sharp. Mr. Sharp is a counselor at Gordon.

"David has lots of friends," Mrs. Sharp said. "He's very sociable and on occasions visits with fellows who live in the dorm. He particularly enjoys visiting a friend who has tropical fish." David has an older sister, Maurie, who is in her first year at public school.

A problem which has confronted Mr. and Mrs. Sharp is raising a family in a men's dorm is the lack of playmates the age of the children and no association with neighbors. Mrs. Sharp admits they have plenty of companionship and both children have learned to associate well with adults which is an advantage over most younger children.

"Most of the boys here seem to enjoy the children, especially if they left small brothers and sisters at home," Mrs. Sharp stated.

On several occasions she has found David entertaining the boys with his endless talk and continuous movement. She also acknowledges that they try to keep the children from being a bother around the boys. Maurie was sent to nursery school and kindergarten on campus so she might have an opportunity to associate with children in her own peer groups. The majority of David's association with children his age presently is at Sunday school.

It is quite obvious that David would like to be a cowboy someday. "He hasn't had the opportunity to visit a ranch, but on several occasions we have visited the agriculture school's livestock and watched the milking at Tech's dairy," Mrs. Sharp replied, as David rode by on his stick horse.

One of the things Mrs. Sharp believes the children have missed while living in the dorm is not being able to have pets.

"They have some tropical fish, which possibly help them to understand life better," she said.

Mrs. Sharp's work is in the dorm and he is able to be with his children more than most fathers. Mrs. Sharp is working on a degree in elementary education and attends classes in the morning. Her housework is limited because they have most meals in the dining hall and that eliminates much responsibility.

# Sticklers!

SIT DOWN in the common room, take out your Luckies—and who pops up to share the fun? None other than that friendly, familiar figure, the Lounge Scrounge! He's a sly guy, too; he knows which cigarettes taste best—and he knows just who carries 'em. Luckies taste better to buyers and borrowers—and no wonder! A Lucky is all cigarette . . . nothing but fine, mild, good-tasting tobacco that's TOASTED to taste even better. Light up a Lucky right now. You'll say it's the best-tasting cigarette you ever smoked!

# Feathers Opens Baseball Sessions

Coach Beattie Feather greeted approximately 50 candidates for the Red Raider and Picador baseball teams yesterday afternoon at the Raider baseball diamond.

Initial workouts are being devoted to conditioning with hitting and infield practice scheduled to start later in the week. The only throwing being done now is to loosen up sore arms.

Feathers has 11 lettermen returning from the team that won eight and lost seven last season. They include pitchers Paul Hawkins of Turkey, Leo Chase of Amarillo; catchers Cullen Hunt of Abilene, John Bates of Breckenridge; infielders Walter Bingham of Midland, George Demere of

Water Valley, Monroe Henderson of Jacksboro and outfielders Dave Allen and Gehrig Garrison of Lubbock, Burgess Donelson of Stratford, Darrell Summers of Borger.

Bingham, stocky first baseman, led the team in hitting last year with an average of .290. He was also the leader in fielding with a percentage of .984. In the pitching department Hawkins posted a two-won, none-lost record and Chase had three victories against four defeats.

In addition to candidates for the Raiders Feathers also has many of last year's outstanding high school players competing for positions on Tech's first fresh-

man team in baseball.

Workouts are being conducted at 2:30 daily at the diamond south of the Lubbock Municipal Coliseum and are open to anybody wishing to play. All candidates should furnish their own shoes, gloves and work-out equipment during the initial workouts.

### RAIDER SCHEDULE

# 'Podd' Hill Leading Raider Scorers

Leon "Podd" Hill, sophomore center, as a result of his performance against Baylor last Wednesday has moved into the top spot in the battle of the scoring leadership of the Texas Tech Red Raiders.

Hill has scored 207 points and is averaging 13.8 points per game. He replaces forward Ned Underwood who is now second with 201 total points and a 13.4 average. Not far behind is guard Logan Cummings with 154 points and a 10.3 average.

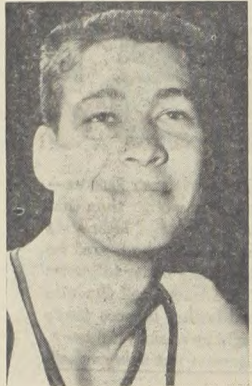

Underwood leads in free throws with 73 while Hill is tops in field goals with 83 and rebounds with 132. He also leads in personal fouls with 53 and has fouled out of two games.

# Tech To Meet HSU For League Crown

Boasting a 4-1 mark against members of the Border Conference Texas Tech will try for the unofficial championship of its former league in its game with Hardin-Simmons here Thursday night.

Hardin-Simmons also has a 4-1 record in official loop play. Of course, the 59-53 win Tech posted over the Cowboy's in Abilene last month is not included in their official record.

The Raiders have also taken wins from Arizona State 81-77 and 85-68 and West Texas State 84-68. Their only loss to a Border foe is a 79-63 decision of Arizona in Tucson.

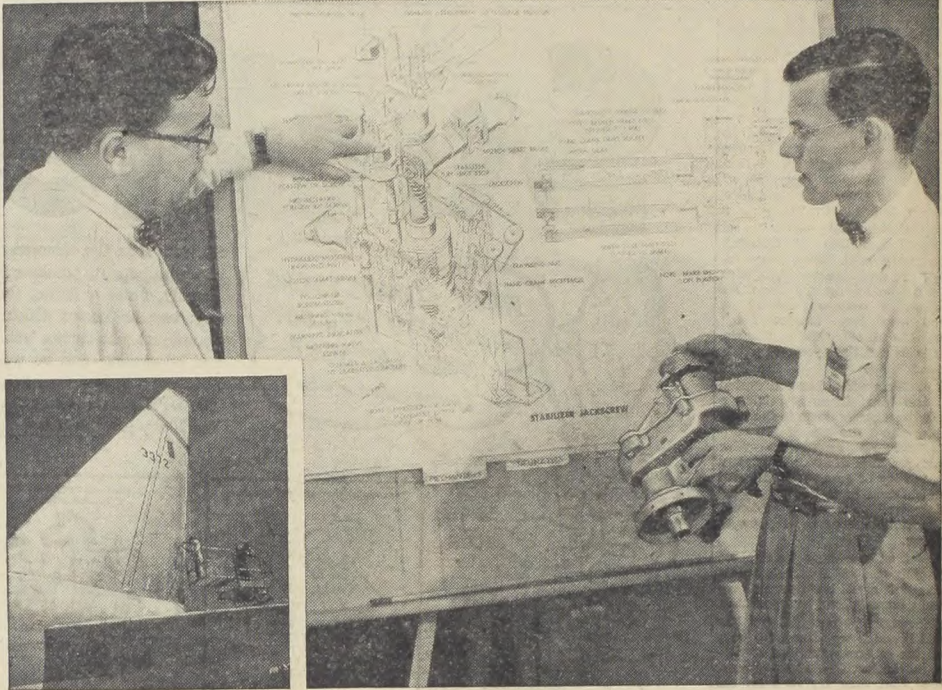

In the official conference standings Hardin-Simmons is second to Texas Western. The Miners, 5-1 with a game to play against Arizona, have an eligibility problem to settle however.

Simmons could easily be in first place when the Cowboys meet the Raiders Thursday night.

# B-52 jack screw—a typical Boeing design challenge

On Boeing B-52 bombers, the horizontal tail surface has more area than the wing of a standard twin-engine airliner. Yet it can be moved in flight, up or down, to trim the aircraft.

The device that performs this function is a jack screw, which, though it weighs only 255 pounds, can exert a force of approximately 225 tons!

Many kinds of engineering skills went into designing and developing a jack screw so precise that it automatically compensates for stretch and compression under load. Civil, electrical, mechanical and aeronautical engineers, and mathematicians and physicists—all find challenging work on Boeing design projects for the B-52 global jet bomber, and for the 707 jet tanker-transport, the BO-

MARC IM-99 pilotless interceptor, and aircraft of the future.

Because of Boeing's steady expansion, there is continuing need for additional engineers. There are more than twice as many engineers with the company now as at the peak of World War II. Because Boeing is an "engineers' company," and promotes from within, these men find unusual opportunities for advancement.

Design engineers at Boeing work with other topnotch engineers in close-knit project teams. They obtain broad experience with outstanding men in many fields, and have full scope for creative expression, professional growth and individual recognition. And they find satisfaction in the high engineering integrity that is a Boeing byword.

In addition to design engineering, there are openings on other Boeing teams in research and production. Engineers like the life in the "just-right" size communities of Seattle and Wichita. They may pursue advanced studies with company assistance in tuition and participate in a most liberal retirement plan. There may be a place for you at Boeing-Seattle or Boeing-Wichita.

For further Boeing career information consult your Placement Office or write to either:

# Raiders O

Spring football practice  
 Texas Tech Red Raiders  
 tomorrow with approxi-  
 mately 50 candidates expected to  
 attend Coach DeWitt Weir's  
 initial assistant.

Of that group there  
 are 11 lettermen, four of whom  
 returned last year, 15 squa-  
 dre freshmen and one ju-  
 nior transfer. The Raiders  
 have 14 lettermen, six of whom  
 returned from the 1966  
 season. A record of two  
 losses and one tie.

### 15 Lettermen Return

Those returning lettermen  
 include end Pat Hartsfield;  
 tackle Paul Williams; Charlie  
 Henderson; guards Floy  
 Tom Barber, Jack Henry;  
 tackle John Riddle; halfbacks  
 Frankie Bobby Kyzar, Ar-  
 thur Douglas, Doug Durean, Gen-  
 eral Charles Dixon.

Wassler will be seeking  
 a transfer from Dan Law, Jimmy  
 Bobby Young, Ken Vakey,  
 Bob Killip; guards Hal  
 Campbell, Doug Campbell,  
 Howard; center Barton  
 Quarterbacks Buddy Hill,  
 Williams and halfbacks  
 Elmer Hugh Favin,  
 Norman.

Squadman returning to  
 Tech in the raps are ends  
 Soman, Bobby Stratford;  
 Billy Woodin; guards Ar-  
 thur, Harold Goodson, John  
 center Lynn Elliott; quar-  
 terbacks Wick Alexander,

## Enroll At Mid-Term

An All-American quarter-  
 back and six other footballers ha-  
 ve enrolled at Tech at mid-term.

Quarterback Floyd Dellinger  
 LaVega, a star at Victoria  
 Junior College under Rusty  
 for the past two years, en-  
 rolled at mid-term and will be  
 the only unanimous choice  
 for the All-American spot. He  
 was named on the Dellinger,  
 Center College, Williamson  
 and Kalamazoo Index teams.

Other transfers are tackle  
 Pendergast of Tupelo, Miss.;  
 Barbara Junior College (Ar-  
 izona), fullback Richard St-  
 of Temple, from Midwestern  
 quarterback Bob Witucki of  
 Notre Dame; Pendergast  
 three years of eligibility while  
 Dellinger and Witucki have three.

Three freshmen have al-  
 ready enrolled for the next semester.  
 They are Billy Davis of Pampa,  
 a graduate of Roswell, N. M.,  
 and Paul.

### Echoes Pacing Freshmen

The Texas Tech freshmen  
 are Coach Gene Gibson  
 have been scoring in double figures  
 after games last week.

Robert Echoes of Amarillo  
 is pacing the team this  
 week with a 15.9 average.  
 Following are Pat Nookas of  
 North Perry, 15.1; Gene Arr-  
 of Palo Duro, 13.4 and Dal-  
 of Sweetwater, 13.  
 of Lubbock Monterey  
 starter, has a 9.4 av-

The Raiders have a 7-1 ma-  
 record to the West Texas  
 game at Canyon last month.

 Raiders Thursday ni-

# Raiders Open Spring Practice Tomorrow

Spring football practice for the Texas Tech Red Raiders starts tomorrow with approximately 72 candidates expected to report to Head Coach DeWitt Weaver and his assistants.

Of that group there will be 15 lettermen, four of whom were starters last year, 15 squadman, 41 freshmen and one junior college transfer. The Raiders lost 14 lettermen, six of whom were starters, from the 1956 edition that posted a record of two wins, seven losses and one tie.

### 15 Lettermen Return

Those returning lettermen include end Pat Hartsfield; tackles Phil Williams, Charlie Moore, Jim Henderson; guards Floyd Hood, Tim Stone, Jim Collins; centers Don Barber, Jack Henry; quarterback John Riddle; halfbacks Duke Frisbie, Bobby Kyzar and fullbacks Doug Duncan, Gene Bentley, Charles Dixon.

Weaver will be seeking to replace ends Dan Law, Jimmy Clark, Bobby Young, Ken Vakey; tackle Bob Kilcullen; guards Hal Broadfoot, Doug Campbell, Ray Howard; center Barton Massey; quarterbacks Buddy Hill, Don Williams and halfbacks Ronnie Herr, Hugh Fewin, M. C. Northam.

Squadman returning to try and fill in the gaps are ends Gerald Seeman, Bobby Stafford; tackle Billy Woodin; guards Arthur Bybee, Harold Goodson, John Johnson; center Lynn Elliott; quarterbacks Wick Alexander, Jerry Bell and halfbacks Floyd Cole, Bobby McCune, Jimmie Knox, Milton Vaughn, Carlos Lerma, Jim Berly.

The junior college transfer is quarterback Floyd Dellinger from La Vega (Victoria Junior College).

## Seven Gridders Enroll At Mid-term

An All-American quarterback and six other footballers have enrolled at Tech at mid-term.

Quarterback Floyd Dellinger of La Vega, a star at Victoria Junior College under Rusty Russel for the past two years, enrolled at mid-term and will be eligible for varsity play next fall. He was the only unanimous choice on the Los Angeles Times junior college All-American and in addition, was named on the Dellinger, National Junior College, Williamson and Gridiron Index teams.

Other transfers are tackle Dave Pendegest of Tupelo, Miss., from Tawaba Junior College (Fulton Miss.), fullback Richard Stafford of Temple, from Midwestern and quarterback Bob Witucki of Tulsa, from Notre Dame. Pendegest has two years of eligibility while Stafford and Witucki have three each.

Three freshmen have also enrolled for the next semester. They are Billy Davis of Pampa, John England of Roswell, N. M. and Paul Aduech.

### Schools Pacing Freshmen

The Texas Tech freshman Picadors of Coach Gene Gibson boast our men scoring in double figures after games last week.

Robert Echois of Amarillo Palo Duro is pacing the team through eight games with a 15.9 average. Following are Pat Noakes of Fort Worth Poly, 15.1; Gene Arrington of Palo Duro, 13.4 and Dale McCeehan of Sweetwater, 13. James Wiley of Lubbock Monterey, the fifth starter, has a 9.4 average.

The Picadors have a 7-1 mark after losing to the West Texas State Braves at Canyon last month. The freshmen meet the Hardin-Simmons freshmen Thursday night.

DEWITT WEAVER

### Freshmen To Battle

Last year's freshmen battling for positions include ends Charles Burkins, Todd Henson, Bill Gumbert, Jimmy Allison; tackles Howard Lynch, Charles Flanagan, Don Hansen, Homer Rosenbaum, Hamilton Jenkins, Bobby Cline, Larry Ricker, Jerry Stockton, Ed

Strickland, Billy Sisk; guards David Slack, Miller Matthews, Gene Lay, Juan Delgado, Winston Booker, Shelby Hudson, Eddie Bloomfield; centers Ray Gressett, Harlan Scott, Joe DeWayne Smithwick, Paul Ward, Sherman Glass; quarterbacks David Bourland, Joe House, Kenneth Talkington, Ronnie Rice; halfbacks Tom Taylor, Hubert Schulz, Dwayne Powell, Mickie Barron, Jerry Creager, Lawrence Barber, Joe Leggette, Robert Benton and fullbacks Wallace Miller, Glen Schmanke, Ralph Reed.

### Walter Paulson asks:

## Does Du Pont have summer jobs for students?

Walter A. Paulson, honor student at Pratt Institute, Brooklyn, and member of the honorary engineering fraternity, Tau Beta Pi, expects to receive his B.S. in Chemical Engineering in June 1957. He is interested in the professional advantages that a student may derive from technical experience obtained during summer work.

### Bob Carter answers:

Robert G. Carter received his M.S. in industrial engineering from Ohio State in 1951 and joined Du Pont soon afterward. After varied plant experience, he recently undertook an interesting new assignment in the Polychemicals Department at Du Pont's Sabine River Works, Orange, Texas. The major function of his current work is to coordinate cost information as an aid in maintaining cost control.

In addition to the Formal Technical Training Program, we frequently have a number of vacation replacement jobs and other temporary positions which are available to college students.

Last summer we hired a total of 720 students from 171 different colleges and universities. Most of these were juniors, or were graduate students about one year away from permanent employment.

You can see our program is a fairly substantial one, Walt.

Y ou bet we do, Walt! They're part of a regular Technical Training Program which Du Pont has had for years.

Ordinarily we try to assign summer employees to work which ties in with their fields of training in college and with their long-range interests. Informal or formal instruction on Company matters is usually provided.

We're definitely in favor of these summer contacts, for they provide students with practical technical experience and make them more valuable to industry when they graduate. And it gives us a chance to become better acquainted, too, with some of the men we'll be considering for permanent employment, later. It's a program of mutual benefit.

FREE FILM: "Mechanical Engineering at Du Pont" available on loan for showing before student groups and clubs. Write to the Du Pont Company, Wilmington, Delaware.

# Livestock Judgers Win 5th Church Centers Plan Activities

Tech's livestock judging, meats judging and dairy cattle judging teams saw action in the Southwestern Exposition and Fat Stock Show at Ft. Worth last week.

The livestock judging team placed fifth with 4,442 points, preceded by Texas A&M, Iowa State, Oklahoma A&M, and Colorado A&M.

The team received a fourth in beef cattle judging, a fifth in sheep judging and a sixth in hog judging.

In individual rating, Richard Ligon captured third highest in the entire contest, and received first in hog judging, and fourth in cattle judging.

Rob Brown was second in beef cattle judging.

In meats judging the team placed eighth with nine teams

competing. Benny K. Whiteside received a first in carcass grading.

Members of the livestock judging team are: Bob Anthony of Dimmitt, Rob Brown of Throckmorton, Weldon Hankla of Midland, Gerald Lenard of Del Rio, Richard Ligon of Loving and Sidney Long of Goldthwaite. Stanley Anderson is team coach.

Meats judging team members are: Paul Dunks, Kerrville; Charles W. Lewis, O'Donnell; Borden Reeder, Gail; and Benny K. Whiteside, Lubbock. Team coach is Coleman O'Brien.

Participants of the dairy cattle judging team, whose coach is Koy L. Neeley, are as follows: John Brandon, Stephenville; Charles Wallace, Granbury; and Mitchell West, Miles.

Activities in church students centers this week focus on devotions, following Thursday's all-church night.

Tonight at 7 p.m., the Baptist Student Center is having a Kickoff party with the theme of "Students Are Funny". BSU has a morning watch hour each day, 7:28-7:50 a.m., and daily vespers, 6:30-6:50 p.m.

Students at The Church of Christ Choir this week are engaged in conducting a meeting at the Negro Church of Christ, 20th and Birch. Devotionals are held daily at 6:40 p.m.

Each Thursday from 7:15-8:15 p.m. Methodist Student Center has an "All-Methodist Night" which is a get-together of Methodist students who have discussions on various subjects of interest to students. Devotionals are daily 7:30 a.m. to 7:50 a.m.

Presbyterian Student Center offers daily morning prayer at 7:35 a.m. and a Sunday evening gathering at 6 for supper, a program and fellowship. The program this week is to be "What is Worship"?

Christian Student Center holds vesper services 5:10 - 5:30 p.m. daily.

# Tech Debaters Gain Wins In Amarillo Tournament

Tech speakers took one first, three seconds and three thirds in the Golden Spread Debate Tournament held in Amarillo Jan. 11 and 12.

Tech teams swept first, second and third places in the junior debate division, took a third in the senior men's division, added a second in extemporaneous speaking and a second and third in oratory.

Eighteen Techsians took part in the meet with 48 students from eight other colleges and universities. Dr. P. Merville Larson, head of the speech department, and James Brennan, debate coach, sponsored the speakers.

Barbara Van Horn and Virginia Bray, Don Ludwig and Craig Austin tied for first place in the junior debate division. Third place honors in the junior division went to Jerry Fletcher and Tommy Reagor.

Willis Taylor and Jack Gibson garnered third place in the senior men's debate. Reagor won second in extemporaneous speaking, Miss Bray took second place in oratory and Taylor got third place in oratory.

# Stangel Invited To Judge In Cuba

Texas Tech Agriculture Dear W. L. Stangel has accepted an invitation to judge beef cattle at Cuba's National Livestock Exposition Feb. 23-26 in Havana.

This is the Tech Dean's second invitation to participate in the Cuban Exposition. He was a show judge there four years ago. Dear and Mrs. Stangel are scheduled to fly to Havana Feb. 21 and fly home Feb. 27.
