

Senate Endorses Teacher Evaluation

THE DAILY T O R E A D O R

TEXAS TECHNOLOGICAL COLLEGE

Vol. 41

Lubbock, Texas, Wednesday, February 23, 1966

No. 90

★ ★ ★ ★ Committee Authorized To Formulate Proposal

The Student Senate Tuesday night endorsed the teacher evaluation proposal and authorized the Course and Instructor Evaluation Committee to formulate a detailed plan for Senate approval.

Committee chairman Gary Rose said his committee has researched evaluation methods used by other colleges and universities and will utilize these in forming an effective system for Tech. He was unable to say when the proposal will be ready for Senate approval.

The plan calls for a campus-wide evaluation of teachers and courses at the end of the semester. The Senate would process the opinions, publish the findings and make them available to students.

Similar Plans

Rose said both Rice University and the University of California have similar evaluation plans and have had success with them. He further commented the University of California sells more than half as many evaluation booklets as they have students and these booklets are often loaned to fellow students.

"The purpose is to do both students and teachers a service," Rose said. "We hope to give students an idea of the course and instructor before they enroll. Although there is always the risk of false evaluations, the committee feels the majority of students will evaluate instructors honestly and fairly. These evaluations will not include personal complaints but will cover such things as the type of lectures, type and effectiveness of quizzes and what the student feels he got from the course."

Cheerleader Problems

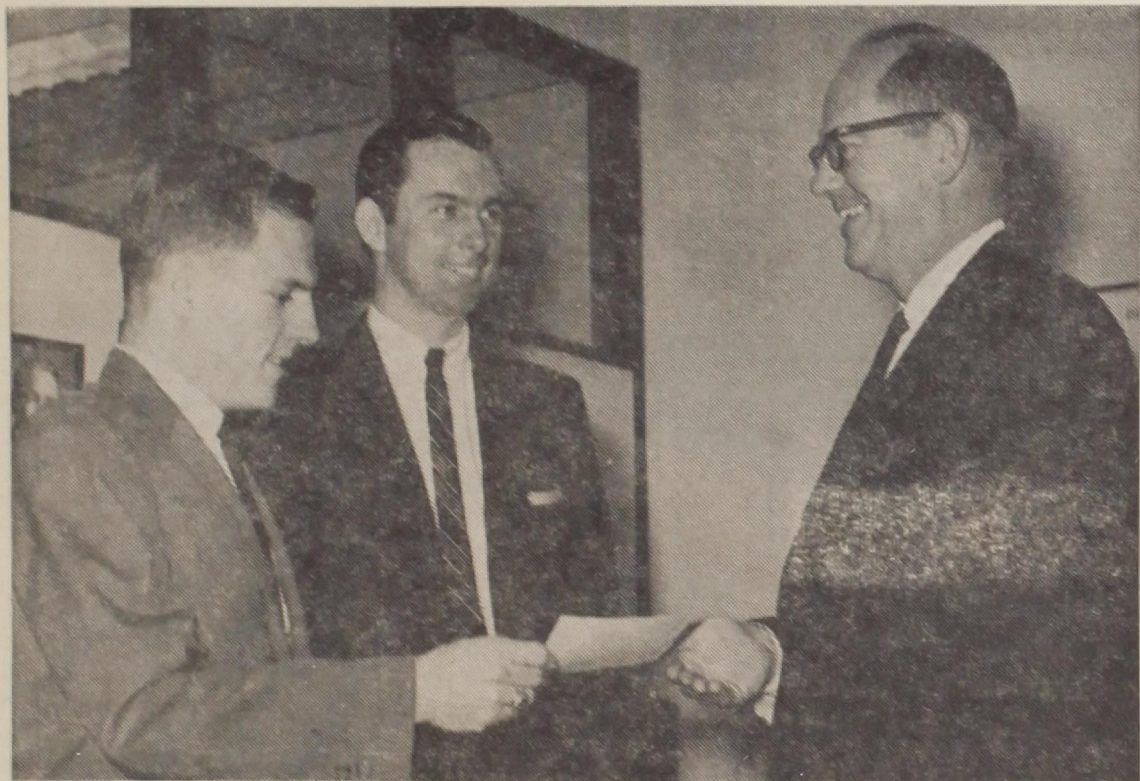

The Senate appointed a committee headed by Ziggy Nicholson to research problems cheer-

leaders have experienced over the past years and report possible solutions to the Senate. The Senate was specifically referring to cheerleaders not making their grades (2.00 overall average) and transferring during the school term. Other members of the committee are Marcia White, Susan Waits and Richard Edwards.

The first Senate luncheon for this semester is scheduled today from 12 to 1 p.m. James Allen, dean of student life, will meet with senators. Today's luncheon will mark the first in a series with senators meeting with administrators and college officials.

Jay Carter of the Food Committee reported a recent meeting between student representatives and Marshall Pennington, vice president for business affairs, and Mrs. Shirley Bates, director of food service. Carter said the group met for four hours discussing student complaints and proposed changes in food service. A report on this meeting will be published later in the Toreador.

Five senators were installed at the meeting.

EMERGENCY LOAN—Tom Jones, chairman of the Men's Residence Council loan fund and A.J. Senchack, president of MRC, present Bill Parsley,

vice president for development, with a check for \$250 for the emergency loan fund male students who have lived in a dorm for one semester.

Student Loans:

Unpublicized College Aid

EDITOR NOTE'S: This is the first in a series of articles on student finances for their college education. The second of the articles will deal with scholarships.

By TERRY WILLIAMSON
Staff Writer

There are many ways that Tech students get financial aid for their college education, but one of the less publicized means is the student loan.

The student loan is based on the financial need of the student, and few other requirements are needed to obtain such a loan.

The student loans are administered by the college, and come from sources ranging from the government to Tech exes that desire helping students obtain a college education. At Tech there are 40 different loan funds.

Thomas Stover, advisor for student loans, expels the myth that student loans are easily acquired. "At the present time, we (Tech) just don't have the money for many loans, and it presents a problem."

A student must fill out an application and go through a personal interview with an advisor in order to get a loan. When the student's loan is expired, he must pay back the loan at a two to four per cent interest. The money is then returned back to the loan fund, and is reissued.

Stover reports that they have no problems in getting the loans back, but that too many students apply for the loans who could 'get by' without them. The student is then discouraged by his advisors not to apply for the loans, but then help him find other ways of financial help.

For instance, a student may have a car that he does not need, or he may be capable of working part time. The student loan was not meant for these students, but is intended for the student that could not go to college without the loan.

"The loans are lacking in money, and we have to be very selective when we give out a loan. We have many more worthy applicants than we have money for," Stover said.

The loan fund grows with the age of the institution. Tech's loan fund has increased 30 per cent since 1958. The reason is that no fund ever dies. The money is paid back at interest, and there are more interested donors as the college grows in prestige.

Tech is able, therefore, to help more students yearly, but there are more problems even after the student receives the loan.

Many of the loans are given to high school students before entering college. All students are required to maintain a 2.00 grade point average unless it's a government loan which requires a 2.50 g.p.a.

Approximately 95 per cent of the entering college students with loans file for them when they register. Thirty per cent of these students do not file for them the second semester. This group has a high rate of drop outs or fail to maintain the minimum grade requirements.

The loans issued to upper-classmen usually prove to be more successful. Stover said that almost 100 per cent of the loans were paid back, and there was very little trouble with the students meeting their obligation when they were called on.

The student loan service at Tech is a worthy enterprise, but the time has not come to where it can help all the students that need this service. The time will probably never come, and it will send many students searching and maybe never finding finan-

cial support for a college education.

Freshmen Vote Today For Class Constitution

Freshmen vote today on ratification of a new class constitution and three representatives to fill vacant positions in the Freshman Council.

If passed, the new constitution will permit the Freshman Council president to appoint representatives to fill vacated positions in the council. Under the present constitution special elections must be held late in the year to fill these positions.

The proposed constitution would broaden the powers of council officers and clear up much of the wording in the present constitution. Freshman Council President Wesley Wallace said a revision was needed because the present constitution was antiquated.

"Each freshman class inherits a constitution someone else drew up," Wallace said, "and it must be revised periodically to meet the changing demands of the students."

The constitution has been approved by the Freshman Council and the Student Senate. If ratified by the freshman class, it will go into effect immediately.

One representative from Wall Hall, one from Gates Hall, and one off-campus representative will be elected today. Polls for ratification and representative voting will be open from 10 a.m. to 4 p.m. in the Tech Union, Gates and Wall lobbies.

Off-campus candidates are Janice Ogle, Sandra Fitzgibbon, and James White; Gates candidates: Chris Pate, Paula Leathers, Kathie Alexander, Judy Grant, Norma Larson, Betty White, and Barbara Langley.

Wall candidates: Sara Jane King, Barbara Reed, Cathy Cotner, Dinah Doyle, Donna Snyder, Marilyn Bradley.

SKI QUEEN—Rita Gostin, Tech Freshman, was named Winter Ski Queen at the Ski Carnival in Albuquerque, N.M. last weekend. She is Miss Stretch Pants in Lubbock.

**LEADERSHIP
WHAT IS IT?**

Leadership is a rare quality, thrust on some and seized by others.

No matter how it is obtained, it must be exercised with wisdom and a strong sense of responsibility.

The nation, the state, the local community, the industrial complex all have a place for those who are willing to carry the burden of leadership.

It often calls for sacrifice—sometimes self-sacrifice—never for greed.

Its personal rewards are not always great, but its deeds usually live on to inspire others.

Leadership is born in time of need. It is nourished by adversity and manifests itself in time of decision.

It calls for objective thinking and the courage of convictions.

Leadership does not wield authority, but rather inspires.

It does not coerce but stimulates and develops.

The Nation seeks leaders, the State seeks leaders, the Community seeks leaders and Industry seeks leaders.

Being a part of the industrial complex, we are continually alert for men with leadership qualities.

We pledge ourselves to the development of industrial leadership by example.

**Former Criminal, Jim Vaus,
To Speak On YDI Work**

Nationally-known speaker Jim Vaus, founder of Youth Development, Inc. (YDI) will speak on campus March 2. Vaus is a law-breaker turned youth worker in New York's Spanish Harlem.

A Reader's Digest article about Vaus and his work has said, "In the vortex of violence that is Spanish Harlem, New York's toughest district, Jim Vaus, a husky 285 pounds, moves quietly among 40 or more gangs.

"Time and time again he heads off boppings" (gang fights) and dissuades young toughs from the crimes that might send them to

prison for life."

Vaus himself was convicted for armed robbery, was court-martialed for helping himself to government property in World War II and was an electronics expert and wire tapper for Mickey Cohen's crime syndicate.

Today Vaus attempts to work with the leaders of Harlem's gangs, acting as peacemaker and warding off trouble among rival gangs. Vaus began his work in Harlem in 1958, establishing himself in a small brown store-front building on Second Avenue in the heart of Harlem.

At first efforts to communicate with the young toughs and hoodlums of the area failed, Vaus finally gained some measure of their confidence by giving an electronics demonstration at a nearby boys junior high school. Before long it became a mark of distinction to be invited to the store where Vaus had installed his electronics gear and let the boys experiment.

Vaus continued his work and gave it a name—YDI. At first an organization run at his own expense, Vaus' work has attracted the support of about 500 "stockholders"—business leaders, churches and sympathetic citizens.

Vaus will speak about his experiences both with the syndicate and his work in Harlem at 4:15 in the Coronado Room of the Union and at 7:30 in the First Baptist Auditorium.

Universities Prepare For Veteran Surge

NEW YORK (AP) — U.S. colleges and universities—many already bursting at the seams—are bracing for a surge of student veterans under the new GI bill. Estimates of the number of ex-servicemen who may take advantage of the educational benefits by next fall range up to 250,000. The total is expected to mount steadily for years. A peace settlement in Viet Nam could create severe educational overcrowding.

Reaction to these and other possibilities were brought out by an Associated Press survey of institutions of higher learning throughout the nation.

Many schools are short of classroom space and housing and can handle few extra applicants. Others foresee that the government's

tougher policy on draft deferments will ease the crush by removing second-rate scholars.

In general, authorities throughout the country voiced determination to fit the GIs into their student bodies somehow.

School officials predicted that the leavening of veterans would raise the over-all quality of campus thinking. One who expressed his view, based on experience with veterans under the World War II and Korean GI bills, was Dean Clarence C. Walton of Columbia University's School of General Studies.

"We called them 'no-nonsense' students," said Dean Walton. "They were hard-working, intellectually curious, ready to question accepted ideas—in short, fine students."

The brunt of the enrollment increase is likely to fall on tuition-free schools supported by the states, because unlike past GI bills the new one does not provide for tuition fees. It gives the veterans \$100 a month—just about enough for room and board at most institutions.

Cross Pleads For Sentence

AUSTIN (AP)—A defense lawyer said Tuesday in a final, impassioned plea that James C. Cross Jr. wants to go to the penitentiary for the July slaying of two pretty University of Texas coeds.

"I'm not going to ask you to say he's not guilty," Perry Jones, chief defense counsel, said as final arguments spun to a close.

"You may be surprised to know he does not want you to find him not guilty."

"He wants to go to the penitentiary . . . his life is gone . . . he is dead . . ."

Jones said Cross, 23, son of a Fort Worth advertising executive, wants to teach Mexican and Negro boys at Huntsville "who have never gone beyond the fifth grade."

The defense centered its case on its assertion that Cross was insane when he strangled Shirley Ann Stark and Susan Rigsby and dumped their bodies on a vacant lot. Both Dallas girls were 21.

Placement Interviews Slated

Good clean '61 Chevy Biscayne standard '67", \$495, SW5-9145 after 4 p.m.

MISCELLANEOUS

Alterations, Men's ladies, knits. Fittings by appointment, your home or mine. Nadine Berry, 3117 Jarvis, PO2-8566.

Math Tutor: Certified experienced teacher. Full time tutoring by appointment. 3117 22nd, SW5-2632.

I gather and compile research bibliographies for Tech students and professors. SW5-7707.

I do sewing and ironing for students, also dress making and alterations of all kinds. Mrs. Sanchez, 2422 Baylor, PO3-6001.

Will do ironing and mending. SH4-2572, 1309 25th St.

Wanted: Sewing, alterations and re-weaving. Western wear a specialty. PO3-0121.

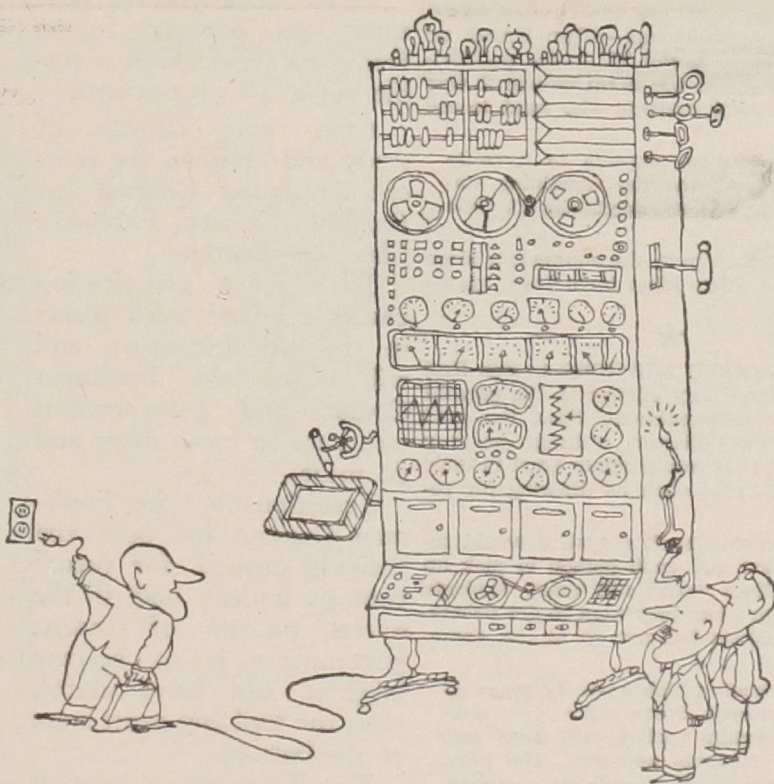

German tutoring offered by native speaker. Phone PO5-6453 after 6 p.m.

LOST AND FOUND

Man's prescription glasses in brown case found in classroom of Journalism Building. Identify in Room 102, Journalism Building.

LOST: COAT. Brown suede with fur collar. Lost at Kappa Sigma Party 2-19-66. I have a green suede with white fur hood in exchange. Ext. 5232.

"Let's unplug the computer, boys! Start thinking!"

A lot of people believe that someday computers will do all their thinking for them.

Well, a funny thing is going to happen on the way to the future:

You're going to have to think harder and longer than ever.

Computers can't dream up things like Picturephone service, Telstar® satellite, and some of the other advances in communications we have made. Of course, we depended on computers to solve some of the problems connected with their development. But computers need absolutely clear and thorough instructions, which means a new and tougher discipline on the human intelligence.

And it will take more than a computer to create a pocket phone the size of a matchbook, let's say... or find

a practical way to lock a door or turn off an oven by remote telephone control, or to make possible some of the other things we'll have someday.

It takes individuals... perhaps you could be one... launching new ideas, proposing innovations and dreaming dreams.

And someday, we're going to have to find a way to dial locations in space.

Makes you think.

[assistant managing editor's notes]

EVERY YEAR ABOUT THIS TIME students are inclined to get up in arms about seating at athletic events. They wonder why they pay good money for seats and then are guaranteed no seats, especially at basketball games, or why they even pay any money to support the athletic program at all. To make a long story short, they want some system enacted which will make everyone happy all the time.

Well, there ain't no such thing. The Athletic Department and several student committees have batted the problem around considerably and have come up with the solution that the best thing to do is to leave things as they are, at least for the time being. There are many reasons for this which, without attempting to say whether they are right or wrong, we present below with the belief that both sides of an issue should be known.

The Athletic Department is an auxiliary enterprise, which means that it receives no financial support from the college itself. It maintains an eight-sport program, of which only football and basketball produce any revenue from gate receipts. Total expenditures last year amounted to \$707,000, of which only one-fifth came from the student activity fee.

Most of the activity fee money is used to support non-revenue sports, with the remainder being split 60-40 between football and basketball.

Sources of revenue include the Red Raider Club, splits from the Southwest Conference and concessions, in addition to gate receipts. Hence, gate receipts from football and basketball must carry a large share of the financial burden.

Money received from reserved seat sales to the general public at basketball games now just allows the basketball program to break even financially. More sections have been added to student seating each year, but for this reason the allotment will probably not be increased in the future.

The ticket office reports that 5,031 seats are available to students at every basketball game and only once, against Texas this year, has this number ever been exceeded. Average student attendance for conference games is about 3,500.

Thus far no student with a valid ID has been refused admittance to the Coliseum, although not all have been guaranteed seats. "But we can't guarantee that it will remain that way," cautions Athletic Director Polk Robison, looking toward an increasing future enrollment.

For this reason, the Athletic Department has either leased or bought equipment to show games on closed circuit TV in the auditorium. So far the program has lost money, but the main reason it was begun and is being maintained is to protect students who want to see basketball games in the future.

For eventually the Athletic Department expects to have to limit student admission to the Coliseum, and the remaining students wanting to see the game will have to watch via the TV tube on a 10x20 foot screen.

Only a few students have viewed games from the auditorium since the closed circuit television began last year. Most have been townspeople paying \$1.50 per person.

OF COURSE, THERE ARE ALTERNATE METHODS to this first come, first served basis, but we wonder if any change in the present situation wouldn't just lead to more discontentment. Now, the avid student fan can get a decent seat in the Coliseum, although he may have to line up at 4 p.m. to get it. Most fans would rather trust in their own initiative than resort to a pot-luck plan such as drawing for reserved seats.

If reserved tickets were issued students, such a system would require distribution in one central location and each person to pick up his own ticket. To a certain extent, lines would still exist. Students would have to take their dates with them when they went to get tickets. Also, some students would pick up tickets but not go to the game, leaving empty reserved seats.

There are other plans used at schools which have the pleasant problem of overflowing basketball crowds. Some sell season tickets entitling the holder to sit in a certain section, but these cost considerably more than what Tech students now pay. The most widespread plan is to allow students to attend alternate games, issuing transferable tickets. For instance, at Ohio State, students can only attend four home basketball games unless they use someone else's ticket.

The entire seating controversy boils down to a question of finances, from the Athletic Department's point of view. The dollar question makes the problem one which cannot be viewed merely through the student's eyes, for without sufficient funds for its athletic program, Texas Tech would not be the school it is today.

HEREIN LIES AN ANSWER to the question, Why pay a student fee for athletics in the first place? Whether we like to admit it or not, athletics is one of the main reasons for a school's prestige. To put this another way, "What is good for athletics is good for Texas Tech."

Not one out of a hundred persons could tell you how many doctorate programs are offered at Tech. But a good percentage of those would know that Tech played in the Gator Bowl last year, or that its basketball team was favored to win the Southwest Conference. To the average person, Tech's reputation is its reputation in athletics.

Having a degree from a Southwest Conference school certainly swings more weight than a degree from some unknown independent. And it cannot be denied that SWC admittance was and is a major factor in Tech's growth.

So, in a sense, the student is paying for this reputation and nationwide prestige when he helps support athletics through the student service fee. Whether or not he ever attends a game, he is benefiting from it indirectly through the stature added to his degree by a successful athletic program.

The Constitutional Vote...

FRESHMEN will have their chance at the polls today to provide future freshmen classes with a stable form of government.

After long months of study and revision, the present Freshman Council has finished the new Freshman Class Constitution.

The new constitution covers a lot of weak places in the old document, and will allow the Freshman Council and governmental structure to mean more and do more.

Traditionally, the Freshman Council has been the training ground for future campus leaders, and if the overall picture of student government is to become brighter and more useful, then the building must start at the bottom.

The Toreador is running the proposed constitution today as a public service, so every freshman can study the proposal before voting. But the important thing is that they do vote.

PREAMBLE
We, the students of the Freshman Class of Texas Technological College, do ordain and establish this constitution.

ARTICLE I — THE FRESHMAN CLASS
Sec. 100—Name: The name of this organization shall be the Freshman Class of Texas Technological College.

Sec. 101—Membership: The Freshman Class shall consist of all undergraduate students who have less than thirty-two (32) semester hours, and who are enrolled in their first or second semester at Texas Tech.

Sec. 102—Meetings: The Freshman Class shall meet at such times and places as shall be provided by the Freshman Council and may be called for special meetings by the President of the Freshman Class or by the Student Senate.

ARTICLE II—EXECUTIVE OFFICERS
Sec. 200—President: The chief officer of the Freshman Class shall be the President.

Clause A—Qualifications: The President shall:
(1) be enrolled for his/her first long semester in college when elected
(2) maintain at least a two-point

(2.00) average for all college work during his term.

Clause B—Duties: The President shall:
(1) preside over all meetings of the Freshman Class and Freshman Council, voting only in case of a tie.
(2) have the power to call special meetings of the Freshman Class and the Freshman Council and, with the aid of other executive officers, appoint all committees of the Freshman Class and Freshman Council.
(3) recommend such measures to the Council as he shall judge expedient and perform any and all other duties properly incumbent on the Chief Executive of the Freshman Class.

Sec. 201—Vice President: There shall be a Vice President of the Freshman Class whose manner of election and qualifications shall be the same as those for the President.

Clause A—Duties: The Vice President shall:
(1) act as President during the absence or inability of the President.
(2) be a member of the Council with a voice and vote therein.

Sec. 202—Secretary: There shall be a Secretary of the Freshman Class who shall serve as Secretary of the Freshman Council and whose manner of election and qualifications shall be the same as for the President.

Clause A—Duties: The Secretary shall:
(1) be a member of the Council with a voice and vote therein.
(2) keep accurate and complete minutes of all meetings of the Freshman Class and Council.
(3) furnish copies of the minutes of all meetings to the President and shall keep a permanent file of all minutes and record to be filed in the Student Senate office at the close of the school year.

Sec. 203—President Pro-Tempore: There shall be a President Pro-Tempore of the Freshman Class whose manner of election and qualifications shall be the same as those for the President.

Clause A—Duties: The President Pro-Tempore shall:
(1) act as President during the absence or inability of both the President and the Vice President.
(2) be a member of the Council with a voice and vote therein.

Sec. 204—AWS Representative: The Freshman Council shall elect an AWS Representative whose qualifications shall be those provided by the Association of Women Students.

Clause A—Duties: The AWS Representative shall:
(1) be a member of the Council with a voice and vote therein.
(2) attend all AWS meetings and give an accurate report to the Council of such meetings.

Sec. 205—Election: The executive officers of the Freshman Class shall be elected from and by the membership of the Freshman Council at the second meeting of the Council.

Sec. 205—Succession
Clause A—The Vice President shall assume the office and duties of the President should a vacancy occur in that office.
Clause B—Should the Vice President not be eligible to succeed the President if he vacates his office the President Pro-Tempore shall assume the office and duties of President.
Clause C—Should a vacancy occur in the office of Vice President, Secretary, President Pro Tempore, or AWS Representative the Council shall elect from its membership a replacement.

ARTICLE III—FRESHMAN COUNCIL
Sec. 300—Membership and Election: The election of the representatives of the

Council shall be divided into two parts:
(1) Freshman Representatives elected from each dorm by the freshmen living in that dorm and in proportion to the number of freshmen living in that dorm. (The proportion of representation shall be determined annually by the Election Committee of the Student Senate, in the first month of the fall semester, immediately preceding the election.) There must be at least one representative from each dorm in which there are freshmen living. Elections in the dorms shall be under the direction of the respective dorm councils.
(2) Freshman Representatives elected by the freshmen living off campus; the number of representatives elected shall be in proportion to the number of freshmen living off campus and shall be determined annually by the Elections Committee of the Student Senate in the first month of the fall semester, immediately preceding the election.

Clause A—Head Freshman Cheerleader: The Head Freshman Cheerleader shall be a member of the Council with a voice and vote therein.

Clause B—Term of Office: The regular term of office shall be the fall and spring semesters of the academic year in which elected. Representatives elected in fall-in elections shall serve until the end of that academic year.

Clause C—Change of Residence: If a member of the Council moves out of the area from which he was elected he shall be disqualified from the Council.

Sec. 301—Qualifications: Any member of the Freshman Class enrolled for at least twelve (12) semester hours of residence credit courses in a long term shall be eligible for election to the Council. A representative must maintain at least a two-point (2.00) grade average during his term of office.

Sec. 302—Duties:
Clause A—The Freshman Council shall, with the advice and consent of the Student Senate, carry out projects of importance to the Freshman Class and shall also conduct elections for Freshman Cheerleaders in the fall of the year.
Clause B—All Freshman Council members shall:
(1) attend all meetings of the Freshman Class and the Freshman Council and all meetings of committees of which a member.
(2) present problems and suggestions to the Council brought up by any member of the Freshman Class and carry out projects of the Council.

Sec. 203—Meetings: The Council shall meet at the discretion of the President or the executive committee. Meetings shall be held at least once a month. All meetings of the Council shall be open to all members of the Class.

Clause A—Absences: An excess of three unexcused absences shall result in dismissal from the Council.
(1) two unexcused absences from a committee meeting of which a member shall constitute one unexcused absence of the Council.
(2) two unexcused tardies of the Council by a member shall constitute one unexcused absence of the Council.
(3) the executive committee shall be responsible for excusing absences.

Clause B—A quorum shall consist of at least two-thirds of the Council's membership.

Sec. 304—Replacement of Council Members: Should a vacancy occur in the Council, new members shall be elected

Raider Roundup

Nation's Outstanding Girl Sought In Queen Contest

MUN
Economic and Social Committees of Model United Nations will meet in the Union Ballroom, today at 7 p.m.

AWS
There will be a General Council meeting today in the Anniversary Room of the Union at 5 p.m.

CATHOLIC STUDENT CENTER
Owen W. Gurrigan will speak today on chemical evolution. Rev. Gene Sorley will speak on teachings of the Methodist Church in Light of the Ecumenical Movement on Monday.

The National College Queen Contest is underway to select "the nation's most outstanding college girl." The winner will receive more than \$5,000, a trip to Europe and an automobile.

Tech undergraduate women from freshman to senior year are eligible and may nominate themselves or be nominated by classmates, friends, fraternities, sororities or campus organizations.

Applications may be obtained by writing National College Contest Committee, 1501 Broadway, New York City, N.Y.

This annual pageant gives recognition to students for their academic accomplishment rather than being "just a beauty contest." Judging is based on attractiveness, charm, personality and academic achievement. Local winners compete to represent the state. State winners win a trip to New York City to compete in national finals June 10-20 where the national winner will be selected. The national contest is part of the "New York Is A Summer Festival" sponsored by the New York Convention and Visitors Bureau. The student's academic record, her volunteer activities and her hobbies are important.

Constitutional Vote...

(Continued from Page 4)

with the Election Committee of the Student Senate setting the time, place, and procedure for such election. Each representative to or officer of the Council must forfeit his position immediately upon his failure to comply with the requirements of his office. Upon the failure of any member to make a two-point (2.00), the member must vacate his office upon the arrival of his grades at the office of his academic dean.

ARTICLE IV—AMENDMENTS

Sec. 401—Any amendments to this Constitution must be submitted in writing to the Freshman Council and be read aloud under new business in the meeting in which it is presented. In the next Council meeting the question of the necessity of the amendment shall be voted on. At least two-thirds (2/3) of the Council must approve the necessity of the amendment. The amendment shall then be submitted to the Class for a vote at the next Class election. The amendment shall be valid as part of this Constitution when ratified by three-fourths (3/4) of the votes cast by the Class on the prescribed voting day and when approved by the Presidents of the College and the Student Association.

Sec. 501—This constitution shall go into effect when ratified by three-fourths (3/4) of the votes cast by the members of the Freshman Class at a general election after having been approved by the Freshman Council and the Student Senate. The President of the College must approve this Constitution before it shall go into effect.

AMENDMENT I

Treasurer: There shall be a treasurer of the Freshman Class who shall also serve as Treasurer of the Freshman Council and whose manner of election and qualifications shall be the same as those for the President.

Clause A: Duties: The Treasurer shall:

- (1) be a member of the Council with a voice and vote therein.
- (2) keep accurate and complete records of all income and expenditure of the Class and Council.
- (3) issue a report concerning the financial condition of Class and Council at the request of the President or a majority of the Council.

AMENDMENT II

Should a vacancy occur in the Council, the President, with the consent of the Council, shall appoint a new representative from that area of representation in which the vacancy exists.

TOWN GIRLS' CLUB
Donna Upshaw will speak on "Brazil, the Walking Giant," at the Town Girls' luncheon today. The luncheon will be in the Union and there will be a \$1 charge.

PRE-MED
Pre-Med club will meet Thursday at 7 p.m. in Chemistry Bldg., C2. Dr. R. Louise Stout, obstetrician and gynecologist will speak on "The Daily Challenge of Medical School."

HEATHER WOODALL

Faculty Recital Features Soprano Heather Woodall

A Faculty Recital at 8:15 p.m. Friday will feature Miss Heather Woodall, mezzo-soprano, a voice instructor in the Texas Tech Department of Music.

Miss Woodall received her Bachelor of Music degree from the Oberlin Conservatory of Music. While there, she was soloist in the Musical Union presentation of the Mozart "Mass in C Minor" and "Jeann D'Arc au Bucher."

She has also studied at the Academy Morzartem in Salzburg, Austria. She is a member of Pi Kappa Lambda, music honorary.

At Tech, Miss Woodall has appeared as soloist with the Tech Opera Theater and in performances of the Mozart "Requiem" and "C Minor Mass" with the

Tech Symphony Orchestra and Choir. She has served as musical director and coach for productions of the University Theater.

The program for the Friday concert, open to the public free of charge in the Music Bldg., Room 1, will include "Maria Stuart Lieder (Schiller)" by Schumann, "Au Bord de l'Eau" by Faure, "Parto, Parto" from "La Clemenza di Tito" by Mozart and "To This We've Come" from "The Consul" by Monotti, among others.

Miss Woodall will be assisted by Charles Lawrie at the piano and D. Keith McCarty playing the clarinet. The recital is a presentation of the Music Department.

Off The Bored Worley

Excuses are like noses, so they say, and this writer has been abundantly endowed with both.

But so many of the former are not quite as necessary today, and instead a little bragging is in store for the record of a few predictions made a couple of weeks ago—namely as regards that annual cinematic competition out west.

The official list of nominations for Academy Awards was released Monday, bringing with it a near-perfect slate as far as we are concerned, both personally and crystal ball-wise.

Topping the honors with 10 nominations each in the once again foreign and especially British-laden race are "Dr. Zhivago" and "The Sound of Music," the latter already credited with being one of the most popular movies ever made according to box offices and critics everywhere.

As for our personal score, it was four out of five winners in three categories.

Julie In

Julie Andrews got her much-deserved if not too hopeful second nomination, for Best Actress, as did Simone Signoret for "Ship of Fools." Samantha Eggar for "The Collector" and Julie Christie for "Darling" round out the correct guesses here. The fifth nominee, and the only American, is Elizabeth Hartman whose nomination is for "A Patch of Blue," her first film.

Another four out of five was for Best Director, including David Lean for "Dr. Zhivago," Robert Wise for "The Sound of Music," John Schlesinger for "Darling" and William Wyler for "The Collector." Our only misser was a surprise nomination, Hiroshie Teshigahara for "Woman in the Dunes," first Oriental to receive the nomination.

Still another winner for us was in the category of songs, the nominations being "The Shadow of Your Smile," "Cat Ballou," "The Sweetheart Tree," "I Will Wait for You" and one which we included with typewriter in cheek, "What's New Pussycat?"

Best Actors

The only category in which we made a major goof was in that of Best Actor, and one reason might have been the failure to see Laurence Olivier in "Othello" before listing these possibles. He is quite deservedly included, along with Richard Burton for "The Spy Who Came In From the Cold," Viennese Oskar Werner for "Ship of

Fools," and, the U.S. faring better here, Rod Steiger for "The Pawnbroker" and Lee Marvin for "Cat Ballou."

Our only suggestion for supporting actor—barring Marvin whom we classified here rather than in Best Actor—was Michael Dunn for his role as the dwarf in "Ship of Fools." Martin Balsam for "A Thousand Clowns," Frank Finlay for "Othello," Ian Bannen for "The Flight of the Phoenix" and Tom Courtenay for "Dr. Zhivago" were the other nominees.

Our guesses Peggy Wood for "The Sound of Music" and Ruth Gordon for "Inside Daisy Clover" came out on top, and the completed list also includes Shelley Winters for "A Patch of Blue," and Maggie Smith and Joyce Redman for "Othello."

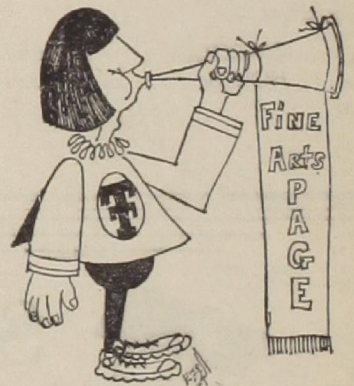

"Ship" Third

Of the top three movies included "Ship of Fools" running behind the other two with eight nominations, only one has not come to Lubbock yet, and it is hopeful, though doubtful, that "Dr. Zhivago" might make it here in time for the April 18 awards date. At any rate, we are going to give it, as well as several of the other films mentioned, a chance for viewing before we make what is an already prejudiced and therefore even more hazardous guess at the outcome of the race.

Until then, however, we'll just have to be satisfied with the local fare, including things like the omitted, erroneously of course, "Dr. Goldfoot and The Bikini Machine."

ALL-GIRL'S RIFLE TEAM

Any girl interested in joining the Girl's Rifle Team should contact Earle H. Hamilton in SSc room 12 this week. Experience with a .22 rifle is preferred but is not necessary.

Fine Arts Reminders

"Bell 'Antonio," the International Interest Committee's fourth and last presentation in its Foreign Film Series, will be shown at 7:30 p.m. Thursday in the Coronado Room of Tech Union.

The film stars Marcello Mastroianni and Claudia Cardinale. It is the provocative and intimate story of a young man reputed by his friends to be a Don Juan and in reality impotent with his wife.

Tickets are now on sale for the March 6 performance of Ferrante and Teicher, famed piano duo with such top recordings to their credit as "Exodus" and "Tonight."

They will appear in the Lubbock Municipal Auditorium as a presentation of Tech Union. Tickets for the program are priced at \$1.25 for students, \$2 for faculty and \$3 for the general public.

Stewardesses

Fly With

Pan American World Airways

"World's Most Experienced Airline"

'Hardy' Bears Stun TT, 83-82

Raiders Fall From SWC Title Chase

WACO—Baylor gushed forth with a "Hardy" performance Tuesday night stunning Texas Tech, 83-82 and in doing so, ushered the Raiders to the sidelines for the remainder of the SWC basketball title chase.

Led by all-conference candidate, Darrell Hardy, who scored 24 points and snatched 15 rebounds, the Bruins hit the court with revenge in their eyes for the 115-77 dunking handed them by the Raiders in the first meeting Jan. 4

They charged from an eight-point deficit midway through the first half to take a 44-38 lead at halftime and hung on tenaciously in the second stanza as the Raiders surmounted a rally that fell just one point shy at the final buzzer.

Title Hopes Gone

Ironically, a victory over the second-division Bears would have kept the Raiders in the running for the title as SMU knocked off Texas A&M, 82-65, forcing a two-way tie between the two continents.

Tech scrambled back from a six-point deficit at halftime to take a brief lead of 78-76 with a mere two minutes left in the contest.

But the aroused Bears eventually tied it at 80-all and while the Bruins were stalling for one final shot before the game ended, Billy Tapp fouled Jimmy Turner and the lanky sophomore dumped in both shots for the insurmountable margin.

Tech's inability to control the rebounding and Baylor's hot outside shooting hand dashed any faint hopes the Raiders might have had of sneaking in the back door for the title. The Raiders are now 6-5 with three games remaining. Baylor is 5-6.

The rebounding duel between Hardy and Tech's Bob Glover failed to materialize as Norman Reuther led TT rebounders with nine and Hardy snatched 15.

And it was Reuther who kept the Raiders close with his 26 points, tops for the game. Glover scored 15 points and got seven rebounds.

Dub Malaise, who left the game shortly in the first half, dropped off his 44.3 points per game for the last three outings, with 16,

Pics Challenge WTU Frosh

Texas Tech's freshman basketballers, paced in scoring by a Panhandle schoolboy product, invade that region Thursday night, tackling the West Texas State Calves at Canyon.

Larry Lewis, 5-10 guard from Phillips, is averaging 25.1 points a game for the Picadors, who defeated West Texas 87-77 here in December.

Coaches Glen Hallum and Gerald Cappedge will probably round out their starting lineup with another Panhandle graduate, 6-5 Bob Cunningham of Dalhart (9.8), 6-7 Benny Wiggins of Lawton, Okla. (16.0), 6-3 Robert Evans of Schenectady, N.Y. (14.0) and Miles Johnson of Richardson (2.1) or 6-3 Fred Green of Texarkana, Ark. (7.5).

rounding out double-figure scorers for Tech.

It was a complete team effort for Baylor with all five starters hitting in double figures. Tommy Hatfield scored 18, Turner hit 17, and Wickey McCaleb and Russell Kibbe scored 10 apiece.

Tech Outrebounded

Team rebounding went to Baylor, 34-27, despite a surge on the boards by Tech in the second half.

Tech was able to muster a lead as the sluggish first half began but it was immediately noticeable that the Raiders weren't up to the steam with which they had stormed through the last three games.

The Raiders set up in the same zone press that had been so successful against Texas only three days before, but the results were different.

Tech jumped to a 6-2 lead in the early minutes but the aroused Bears tied it at 6-6 and briefly led before the visitors caught fire and jumped to their biggest lead of the first 20 minutes, 22-14 with 13 minutes showing.

But the Raiders' scoring attack took a downward swing from that eight-point lead and with 3:40 showing, the Bears had completely erased the lead and took 32-31 on a bucket by Hatfield.

The Bruins hung onto the advantage and went into the dressing room with a six-point, 44-38 lead.

Hardy established his supremacy on the boards early, leading Baylor to an 18-11 margin over Tech in rebounding. Hardy had nine and McCaleb backed him up with five. Reuther snagged six to led Tech's grabs.

All-Girl Rifle Team

Any girl interested in joining the Girls' Rifle Team should contact Earle H. Hamilton in Social Science, Room 12 this week. Rifle experience is preferred but is not necessary.

ACCOUNTING SOCIETY AND BETA ALPHA PSI

There will be a joint meeting Thursday for a field trip to Time Motor Freight. The group will meet in the center foyer of the BA Bldg. at 7:30 p.m. Visitors are welcome.

Trumpeter Hirt Wins Audience

By BARBRA WORLEY
Fine Arts Editor

"This is one of the best audiences we've played for. I don't see how you people can be so enthusiastic on a Sunday afternoon."

The man was describing the jam-packed group of people who filled Lubbock Municipal Auditorium Sunday to see one of the best road-show attractions to play Lubbock.

The man? The "King" himself—Al Hirt.

Audience Favorites

Hirt's mere presence on the stage was almost enough to keep the audience happy, even before he began playing the golden trumpet that changed him from a local favorite in New Orleans to an international personality.

But "enthusiastic" is almost too tame a word to describe the audience reaction when Hirt began to blow such favorites as "Java," "Sugar Lips" and the more recent Oscar-favored "Shadow of Your Smile."

Ended Too Soon

The more than two-hour show ended much too soon for the eager audience, but the ending itself was the highlight of the afternoon, with Hirt soloing on "Carnival of Venice" and adding at the end an improvisation which gave the effect of three trumpets playing simultaneously.

"It's called triple-tonguing," Hirt said. And he added, "With only one tongue."

After the show Hirt lost none of the enthusiasm which had appealed to the audience. Signing autographs backstage, he charmed his way into at least five invitations to return to Lubbock from aspiring young trumpeteers who had come to meet their idol.

As he greeted his fans, Hirt talked about the members of his Sextet, four of whom have been with him for only three weeks.

Real Swingers

"They're all young guys in their early twenties," Hirt said in the thick New Orleans, "and we're very excited about the show they put on. I like to give the younger fellows a chance to make good, and these have really caught onto the swing of things."

And from the Santa Claus of the swing set, it was a real compliment.

Talking about future plans, Hirt said he planned to return to his home in the Crescent City for Mardi Gras.

Lists Future Plans

"I only get to spend about six or seven months out of the year in New Orleans," he said, but added his club there (Al Hirt's Place on Bourbon Street) was doing quite well and listed among future attractions such headliners as the Ramsey Lewis Trio and Tiny Little.

As for his own bookings, he has just completed taping an Andy Williams show and will be going from New Orleans to Florida and back west to Lake Tahoe at the end of March.

A pretty busy schedule for a man who, when asked about fan club connections, replied, "Fan clubs, I don't think I have any of those."

He couldn't have proved it by the audience Sunday.

Brewer Gives Sandwich Talk

Ann Brewer, senior English major from Houston, is the speaker at the Sandwich Seminar at noon today in the Blue Room of Tech Union. Her topic for the Ideas and Issues Committee-sponsored program is "Playwrights of the Theater of the Absurd."

This second in the Seminar series is open to the public.
