

Crop Judgers Take National, International

Cop Firsts At Chicago, Kansas City

Texas Tech's Crop Judging Team placed first at both National and International Crop Judging Contests last week.

AT THE International Contest in Chicago which ended last Saturday, the Tech team made a over-all score of 5246 points from a possible score of 5400 points.

Nearest competition for the Tech team were the University of Kansas with 5098.2 points and the University of Nebraska with 5061.6 points. Texas A&M placed ninth in the contest. They were the only other Texas team placing in the top ten.

INDIVIDUAL members of the team were the top three individuals in scoring in all three phases of the contest, seed identification, commercial grading and crop judging.

Team members are Bobby Burnett, senior from Hobbs, N.M.; Dicky Hardee, junior from Snyder and Ed Clark, senior from Crowley. Steve Noble, senior from Lubbock, is alternate. Cecil Ayers, assistant professor of agronomy, has coached the team since 1947.

THE TEAM scored 5185.8 points from a possible 5400 at the national contest in Kansas City, Mo., which was a few days before the international contest. Oklahoma State University was in second place with 5098.4 points.

Tech teams and individuals during the past seven years have set 22 of 24 possible "all time" records in the various phases of the contest. At this time, word has not been received telling whether Tech has set any more records.

TECH is the only college to win both the national and international contests 5 times consecutively. This was done in the 1952-1956 contests.

Not only are teams judged on the basis of selection of quality seeds, but they must spell correctly the names of the seeds and the Latin terminology. Any misspelling counts off two-tenths of a point.

IN SEED identification, teams have 400 possible combinations to identify. They must grade according to quality, insect and

Page 3, CROP JUDGERS . . .

FESTIVAL DATE SET

David Steinman, vice president of the Student Council, has announced the dates for the spring festival as April 10 and 11. Other plans for the annual Tech affair will be announced later.

FOR YOUNG FAN

Raiders Score Big 'Victory'

by JAMES HAMM

"Bear our banners far and wide . . ."

. . . says the Matador Song. Tech's official school song, and the Red Raider football team has done just that — at least as far as Farmersville, a town located northeast of Dallas.

ONE OF the Raider football team's most ardent fans lives in that small town, and by making that young fan happy, the Raiders turned a dismal, losing season into a winning one, despite dropping most of the games played this season.

FOR BEAUTIES

Deadline Is Today

Deadline for the 1959 LA VENTANA Beauty Revue entrants is 5 p.m. today.

ENTRANTS should turn in their application blanks to J101.

Walking instructions will be given at a special meeting of Revue entrants at 7 p.m. Thursday in the Aggie Engineering Auditorium. Jane Perry of the women's physical education department will instruct the entrants.

PRELIMINARY elimination will be held at 1 p.m. Friday in the Tech Union ballroom. Entrants must come prepared for a bathing suit revue.

The preliminary revue will be closed to all except the judges and entrants. Final selection of the top 10 beauties is scheduled

at 8 p.m. Friday in the Municipal Auditorium.

FOLLOWING the first elimination entrants will have a special rehearsal in the Auditorium at 4 p.m. Friday.

Tickets for the Revue are priced at 50 cents for Tech students with identification cards and \$1 for adults.

LA VENTANA EDITOR, Billy Ellis, said the host and hostess for the revue will be John O'Brien, of the West Texas Television Network and Margaret Talkington of Margaret's Women's Shop.

The top winner of the Revue

PAT NOAKES TAKES JUMP SHOT
. . . Tech defeated West Texas 93-67

Noakes Tallies 18 Points

Texas Tech's Red Raiders, ragged in spots, opened their 1958-59 campaign with an easy 93-67 win last night, before 7,400 fans in the Lubbock Municipal Coliseum.

Coach Polk Robison substituted freely throughout the game allowing all 13 who suited up to see action.

Big 6-9 Center Pat Noakes led the Raiders with 18 points, followed by Leon Hill, 13, Charley Lynch, 12 and Gerald Myers, 10.

West Texas, also making their debut, was paced by Center Jim Farren with 12 points. Junior Fitts, Max Miller, Keith Blair and

After a shaky start the Picaadors defeated the West Texas Freshmen 66-59 to win their first home game of the current season.

The Picaadors overcame a 7 point lead the West Texas team owned and the score was 32-31 at the half with West Texas still in command.

Tom Sims all had 10 for the Buffs. Fitts injured his ankle in the second half but was believed to be in good condition.

The Raiders led from the opening minutes and were never headed, although rather erratic at times. Robison cleared his bench, allowing Wade Wolfe, Dale McKeenan, Gene Arrington, Harold Hudgens, Chuck Key, Steve Lee, Don Apple, Sid Seligman and James Wiley to all see action.

In the first half the early attack was led by Charlie Lynch, who accounted for the first 7 Raider points on 2 drives, a jump and a charity toss for a 7-2 lead early in the period.

Center Noakes then stole the act from Lynch with 2 lay-ins and a free throw to up the lead to 12-3. Pat's first two-pointer came after a brilliant pass from guard Gerald Myers.

PODD HILL gave the Raiders a 20-9 lead at 12:52 with a jump shot and then the Buffs narrowed the count to 20-15 on two long one-handers from the corner by Miller and another one-hander by King.

Myer got Tech going again with a jump at 10:16 for 22-15 advantage, followed with a free throw, then stole the ball from Blair and drove home for a 25-15 lead at 9:00.

THEN, WITH Robison substituting freely, the Raiders advanced their lead to 33-18, at 5:21, following a lay-in by Hudgens, who took a key pass wide open and scored.

The Raiders upped this lead on a drive by Key, two free tosses by Seligman and a falling jump by Wolfe for a 39-18 lead at 2:59.

THEN THE Buffs, led by Reid, Fitts, and Blair, narrowed the count to 39-29. Wiley's lay-in made it 41-29, but Miller hit with a one-hander to slash this to 42-31. Wiley hit a 2-pointer and then added a free throw with 20 sec.

RAIDERS DROP, Page 4 . . .

LV STAFF MEETS

All LA VENTANA staff members will meet at 5 p.m. today in the Reading Room of the Journalism Building.

A 10-year-old cerebral palsy victim, Ed Conner Hickman, who lives at Farmersville, follows the Raider fortunes with avid interest. Recently he wrote to the Dallas Morning News, expressing a desire to have a Raider helmet autographed by the Tech squad.

FRANK TOLBERT, a Tech exe employed by the Morning News, mentioned this request in his column, "Tolbert's Texas", and Wayne James, assistant executive secretary of the Tech exes association, read it and brought it to the attention of head coach DeWitt Weaver.

Feeling that such loyalty should be rewarded, Coach Weaver had his entire squad and coaching staff autograph a helmet to send to young Hickman, and also let him have the football from the Texas A&M game, with the 15-14 score penciled on it.

TOUCHED BY the spirit shown by Hickman, whose father died recently, spearheaded by James and Joe Winegard of the memoir department, Techsans began gathering other souvenirs to send to him.

The Raider basketball team and staff autographed a basketball to

send to Hickman, and the sports publicity department, headed by Bill Holmes offered brochures, programs and pictures of Tech athletes.

"THE POWER and The Glory", a book on Southwest Conference football, and a pennant were contributed by the Student Council, and the Red Raider Club made Hickman an honorary member giving him a membership card and plaque.

Other techsans contributed tee shirts, a Tech bulletin board and a 1957 La Ventana. Winegard

Tech Student Wins Methodist Election

Arthur Berg, Tech senior, was elected one of the vice presidents of the Texas Methodist Student Movement at a conference during Thanksgiving holidays.

BERG, an agronomy major from New Deal, was one of six Tech students and three adults who attended the meeting at Huston-Tillotson College in Austin.

Others from Tech who went are Mary Herrington, Jerry Matthews, Gwinn Lovel and Jennice Marks. Rev. and Mrs. Cecil R. Matthews and Rev. Fred M. Holt of the Methodist Student Center also journeyed to Austin.

MAIN SPEAKERS were Dr. Albert Outler, professor of theology at SMU, and Dr. Eduardo Mondlane, a native of South Africa who is working with the Trusteeship Council of the United Nations.

Theme of the conference was "Long Division" which was brought out in speeches and discussions about the division of man from God, man from man and nation from nation.

ONE OF THE highlights of the meeting was a drama, "Lost in the Stars," presented by a group

Phi Mu Alpha Sings to Coed

Members and pledges of Phi Mu Alpha Sinfonia, national music fraternity, serenaded the newly elected chapter sweetheart, Karen Schwab, last Tuesday night.

A freshman from Levelland, the new sweetheart was presented with a bouquet of red roses as the Sinfonians sang the traditional sweetheart song.

Other finalists in the sweetheart election were Mary Jane Campbell, Rule; Jill Jost, Marlin; and Betty Townsend, Amarillo. The dorms where these girls lived were also serenaded.

TOREADOR MEETING

There will be a meeting for the entire TOREADOR editorial staff at 5 p.m. today in Journalism 206.

Recently several things have arisen about which the staff, especially the paid staff, needs to be informed. The meeting will conclude in time to eat in the dormitories.

Tech Adds Choral Group

Texas Tech has recently added another choral group, the Tech Singers.

The group is the fifth such organization at Tech. The other singing groups at Tech are the Tech Choir, the Madrigal Singers,

the Festival Chorus and the Men's Glee Club.

The Singers made their initial appearance with the Tech Choir and the Tech Orchestra in a performance of the "Requiem."

A Christmas music program is planned for the 15th of December. The location is not yet known.

The first out of town performance will be in February 1959, in Amarillo.

The Tech Singers were formed for the general student who has an interest in singing. The organization will afford the student some training in choral work. They meet five days a week from 2-3 p.m.

The choral group is under the direction of Gene Kenney, faculty member of the music department. Kenney also directs the other choral groups at Tech.

Soloist Presented In Campus Concert

Ronald Lemon, a junior Music Education major of Lubbock, will be presented in a concert of French horn music Dec. 5 at 8 p.m. in the Music Building Auditorium.

This is the first of the solo recitals given by juniors or seniors this year. Lemon will be assisted by Mrs. Gertrude Post, pianist, and Mr. Charles Post, tenor.

Lemon studied music for ten years and under the direction of Robert Deahl, Robert Taylor, J. W. King and the late Guy Knowles. Lemon has played in the Lubbock Symphony for five years and is a member of the Tech Band and Tech Orchestra.

ADVENTURES IN SOCIAL SCIENCE: NO. 1

"The proper study of mankind is man," said Geoffrey Chaucer in his immortal *Casey At the Bat*, and I couldn't agree more. In these tangled times it is particularly proper to study man—how he lives and works. Accordingly, this column, normally devoted to slapdash waggery, will from time to time turn a serious eye on the social sciences.

In making these occasional departures, I have the hearty approval of the makers of Philip Morris Cigarettes, whose interest is not only in providing young Americans with fine cigarettes, matchlessly blended of vintage tobaccos, grown with loving care and harvested with tender mercy, then cured with compassionate patience and rolled into firm tasty cylinders and brought to you in long size or regular, in soft pack or flip-top box, at prices which wreak no havoc on the most stringent of budgets, but who are equally concerned with broadening the minds and extending the intellectual vistas of every college man and woman!

I, for one, am not unmoved by this great-heartedness, and though I know it is considered chic these days to disparage one's employers, I shall not. Indeed, I shall cry "Huzzah!" for the makers of Philip Morris. I shall cry "Huzzah!" and "Viva!" and "Ole!" and "Ochichoonya!"

But I digress. For our first lesson in social science, let us turn to economics, often called the queen of the social sciences. (Sociology is the king of the social sciences. Advertising is the Jack.)

Economics breaks down into two broad general classifications: 1) coins; 2) folding money. But before taking up these technical aspects, let us survey briefly the history of economics.

Economics was discovered by the Englishman, Adam Smith. He published his findings in 1786, but everybody giggled so hard that Smith, blushing hotly, gave up the whole thing and went into the cough drop business with his brother.

For long years after that economics lay neglected while the world busied itself with other things, like the birth of Victor Hugo, the last days of Pompeii, and the Bunny Hug.

Then one day while flying a kite during a thunderstorm, the American, Henry George (also called Thorstein Veblen), discovered the law of diminishing returns, and then, boy, the fat was in the fire! Before you could say "knife" the Industrial Revolution was on! Mechanization and steam power resulted in prodigies of production. For example, before the Industrial Revolution, a Welsh artisan, named Dylan Sigafoos, used to make horse-shoes by hand at the rate of four a day. After the Industrial Revolution, with the aid of a steam engine, Sigafoos was able to make entire horses!

And so it went—factories rising from the plains, cities burgeoning around the factories, transport and commerce keeping pace—until today, thanks to economics, we have smog, recessions, and economics textbooks at \$7.50 per copy.

The makers of Philip Morris are no economists, but they do understand supply and demand. Some people demand filter cigarettes, so they supply the finest—Marlboro, of course! Great flavor, improved filter—a lot to like!

Young Fan Receives Helmet From Raiders

(Continued from page one) has committed to memory," asserts James. "He gave me a brief history of each of the Tech players when we looked through the 1957 La Ventana."

Although Hickman can't indulge in physical activity to a large extent — he hasn't taken a step because of his illness — he has shown an amazing aptitude in other fields.

"HE IS IN the fifth grade at Farmersville elementary school, and carries a straight "A" average," James said.

Hickman, although several years away from college, has shown more spirit than many Tech students. Hats off to a true Tech-football team that Ed Hickman

worked out for the spirited youth to attend the Tech-Texas A&M football game next year.

Arrangements to present the gifts to Hickman were made through Rev. and Mrs. Jack Gray. Reverend Gray is the pastor of the Methodist Church attended by Hickman, and Mrs. Gray is the former Revis Jordan, a Tech executive.

"IT IS surprising the amount of information about the Raider football team that Ed Hickman

Tickets Left For Play

Tickets are still available for tonight's presentation of the play "The Diary of Anne Frank" in the Lubbock Auditorium. Tech students are offered a special ticket price of \$1.

THE SINGLE performance of the play begins at 8 p.m. Pauline Hahn plays the title role in the production and Francis Lederer plays the role of Otto Frank, Anne's father.

This production is sponsored by Civic Lubbock, Inc. Regular ticket prices are \$4, \$3.50, \$3, \$2.50, \$2, \$1.50. Tickets remain on sale today in the Auditorium Box Office.

Contest Is Friday

(Continued from page one) Friday will be named "Cover Girl" of the 1959 annual.

FOR THE first time this year, the LA VENTANA Beauty Revue will be based on the Miss America theme. Previously, pictures of the beauties were sent to a noted actor who chose the winner from the photographs.

The top 10 winners of the Revue will be guests of LA VENTANA and Texas Tech Men's Press Club at Hondo Lodge in Taos, N.M., which is located in the Taos Ski Valley.

JUDGES for the contest will be Mrs. Herbert Leaverton, former fashion model; Harold Creswell, editor of the Artesia (N.M.) Daily Press; and Jay Vaughn, of the Hondo Ski Lodge.

The naming of the LA VENTANA "Cover Girl" will highlight the evening's program.

TICKETS for the event are on

sale at the Tech Union, J101 or from members of the Tech Men's Press Club. They will also be available at the Auditorium box office Friday night preceding the Revue.

Each beauty chosen in the contest will have a full page in the 1959 annual. These pictures will be taken at local department stores.

A Campus-to-Career Case History

**"I wanted a job I could grow with
— and I've got it"**

H. James Cornelius graduated from Swarthmore College in 1954 with a B.S. in Electrical Engineering. He's been "growing" ever since with the Bell Telephone Company of Pennsylvania.

After an initial 44-week inter-departmental training course, Jim was made Facility Engineer in charge of the fast-growing Norristown-Pottstown area. In that capacity, he engineered over half a million dollars' worth of carrier systems and cable facilities between major switching centers.

Today, he is one of 50 young engineers from the Bell Telephone Companies chosen to attend a special Operating Engineers Training Program at Bell Lab-

oratories. This 19-month course of study — with full pay — deals with advanced techniques and new concepts in electronics which signal a new era in telephony. It involves both classroom theory and practical laboratory applications.

When Jim and his colleagues return to their companies, they'll review major engineering projects. This will assure the best use of equipment for current engineering, as well as for expected new developments in communications.

"I wanted a job I could grow with," says Jim, "and I've got it. I can't think of a better place than the telephone company for an engineering graduate to find a promising future."

Many young men like Jim Cornelius are finding rewarding careers with the Bell Telephone Companies. Look into opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.

Raiders Drop Buffs

(Continued from page one) ends left for a half-time score of 44-31.

Tech came back and never left the issue in doubt from the opening moments of the half. Hill scored on a jump and two lay-ins and Noakes added a jump to up the lead to 52-33.

Moments later Noakes connected on two free throws, Lynch hit a free toss and Hill another for a 56-37 lead. Lynch then gave the Raiders their biggest lead thus far with a drive following a pass from Arrington and a 58-37 lead at 15:10.

Noakes added to this with two

free throws and gathered an extra point on a technical foul call.

At 11:43 Noakes put the Raiders in a 25-point lead with a free toss for a 68-43 and Wolfe's jump at 8:17 made it 27 points at 77-50. Wade was fouled on the shot and added the extra charity toss for Tech's longest lead of the night 78-50.

Again Robison freely substituted the rest of the game and the subs battled the Buffs on even terms till the end, closing out with the 93-67 win.

Tomorrow night the Red Raiders journey to Norman, Oklahoma, for another inter-sectional battle with the Oklahoma Sooners.

Water Polo Team Debuts Saturday

Texas Tech's new water polo team, a first in West Texas, will be divided up for an intra-squad battle Saturday in the Men's Gym pool at 1:30 p.m.

There is only one other collegiate team in Texas playing water polo—at Texas A&M. The Raiders are scheduled to meet the Aggie in the distant future.

Tech is coached in the new sport by Dr. R. W. Kirellis in connection with the Raider swimming team.

The first performance of the swimming team will be in the Southwest Conference Relays to be held in Lubbock Dec. 19. The freshmen do not open until January.

Tech Attack Shines; Score Is Still Dim

Even though they closed out the season with their most impressive offensive attack to date, Texas Tech's Red Raiders still ended it on a losing note, 20-17, to Houston.

In all, Tech quarterbacks threw 37 times and completed 25 for 211 yards and one touchdown.

Quarterback Jerry Bell closed out his career with a brilliant performance—23 completions on 35 attempts for 199 yards and a touchdown. But in the end the Raiders couldn't hold Houston's speedy backs.

Coach DeWitt Weaver praised the fine spirit and fight of his boys admitting that Houston's speed hurt a great deal. When questioned about some of the officiating Weaver simply replied that the officials were closer to the play than he and let it go at that.

Later, when the Raiders were desperately driving for a TD which would have won the game,

officials failed to give Dellinger any forward motion at all and a first down was missed by inches.

Several records were set Saturday. Dellinger's six pass receptions upped his total for the year to 20 for a new record and end Bob Witucki broke his own record with seven receptions, high for one game. Bell's 23 completions set a new record and the team total was broken also with 25 completions.

Fullback Doug Duncan is Tech's leading rusher for the year with 247 yards on 60 carries and a 3.93 average. Halfback Ronnie Rice finished second with 285 on 67 for a 3.9 record.

Bell was the leading passer with 48 out of 92 for 435 yards and three scores. Dellinger and Witucki tied as the leading pass receivers. Dellinger had 213 on 20; Witucki, 213 on 17.

Dellinger and Rice tied for the total offensive lead with 360 yards each.
