

Artist Course Begins Weekend Activities, Is To Feature Soprano Jennie Tourel

Initiating Homecoming activities for the weekend will be the first Artist Course of the year, featuring Jennie Tourel, mezzo-soprano, Friday at 8 p.m. in the Lubbock high school auditorium.

Miss Tourel has received acclaim as an expert recitalist in South America, Europe, Canada and the United States. She made her first concert appearance in the United States in 1942.

Russian Parentage

Of Russian parentage, Miss Tourel was reared in France and Switzerland. She considers herself "Russian by background, French by education and American by adoption."

At the age of six Miss Tourel began her music lessons on the flute. Two years later she was taking piano and at sixteen was an accomplished pianist well on her way to a concert career.

Begins Hobby

During her early life she sang at parties as a hobby. Musical friends began urging Miss Tourel to take voice lessons and after only a few years of serious study she became an artist that all Europe was proud to claim.

Miss Tourel made her debut in the United States, portraying Ju-

liet in the Philharmonic Symphony's presentation of Berlioz' "Romeo and Juliet." She is now on her seventh concert tour of the United States.

Students Admitted Free

Tech students will be admitted to the concert by presenting their activity books. Seats that are not taken by 8 p.m. will then go on sale to Tech Exes and the public.

Other artists to appear on the Artists Course series this year will be Helen Traubel, dramatic soprano; Rudolf Firkusny, pianist; Claudio Arrau, pianist; Jascha Heifetz, violinist, and Giuseppe di Stefano, tenor.

Raiders Sent Wire By 4,600 Techsans

"It's men like you who make our college great. Texas Tech student body is with you 100 percent. Good luck." These words were the theme of a telegram sent to the Tech Red Raiders by the student body, preceding the Tech-Baylor game.

The telegram, which was signed with the names of 4,600 students, was the largest ever to be sent by the local Western Union office. The wire, sponsored by the Saddle Tramps, cost about \$60, according to J. O. Sexton, Western Union manager.

The huge message, printed on a continuous roll of paper, was about 150 feet long, and contained about 9,200 words. It was to be delivered to the team on the field preceding the game, but due to objections by school officials to taking it on the field, it was delivered in the dressing room instead, said Aubrey Shouse, director of public information at Tech.

Plans are now being made by Bill Holmes, athletic publicity director, and Charles Joplin, Saddle Tramp president, to have the telegram preserved in the Museum.

Council Of Exes Sets \$25,000 Goal For Student Union Building Fund Drive

Twenty-five thousand dollars is a lot of money!

Manners and methods of raising that amount was the chief topic of discussion when the Texas Tech exes held their annual council meeting Friday at 2:30 p.m. in the recreation hall Green room. The council made plans for a fund drive to raise \$21,000 for the new Student Union building.

"This fund will be the exes' project for the year," said D. M. McElroy, executive secretary for the Ex-Students association. It is hoped the money will be raised by next February. Plans are to get this amount through contributions from the ex-students.

No Dues Required

No dues are required for membership in the association. Each person gives what he wants to give. The only requirement for membership is to have attended Tech.

Letters are sent to former students by the Ex-Students office explaining the current project.

Personal contact will be this year; 1,000 exes will reach 10 people apiece for a minimum contribution of \$5 each.

The meeting was held to elect new council officers and to discuss the fund. The council representatives included for the first time a father-son team, Chick McElya, class of '31, and Hal McElya, class of '51. Council delegates, including members of classes from 1927 to 1951, are chosen by their various chapters.

Scholarship Fund

"Our next hoped-for project is a scholarship fund for Tech," continued McElroy, "unless the college calls on us for something else that will have priority."

There are approximately 50,000 exes of Texas Tech trying to help the college in various projects with their time, money and efforts. They make up the unofficial "advertising department" of Tech by trying to spread the school's name and fame.

Vol. XXVI Texas Technological College, Lubbock, Tuesday, October 23, 1951 No. 10

Final Homecoming Plans Made

Parade, Reunion Are Among Scheduled Events Saturday

Tarbox Is Chairman

Program for the 1951 Homecoming celebration and members of the Homecoming committee were announced Monday by D. M. McElroy, executive secretary of the Ex-Students association.

Harold Brannan of Dimmitt is the chairman of the Homecoming committee. Other members and their duties are as follows: Bryan Boyett of Moran and Rodney Balke of McLean, parade arrangements; Jane Foster of Bellevue, ex-student luncheon; Nancy Davis of Lubbock and Jane Foster of Bowie, registration of exes; Melvin Brock of Plainview, campus lighting.

The AIEE and the Engineering show committee will be in charge of lighting the campus.

Festivities Begin Oct. 26

Homecoming festivities for the exes will begin Oct. 26, at 4 p.m. when they will register in downtown hotels and principal campus buildings.

At 7:30 there will be a pep rally and bonfire. After the pep rally, class reunions will be held at designated spots according to graduation year.

The "oldtimers" reunion, classes of '26 to '38, will be held in the Lubbock hotel at 9:30 p.m. with Miss Kathryn Weaver and Mrs. Dorothy Vandagriff Cone as co-chairmen.

Goodyear Representative To Be On Campus Friday

Interviews with a representative of the Goodyear Tire and Rubber company will be slated Friday upon the filing of an application blank in the placement office.

Requirements for the position stipulate 1952 graduates in chemical, civil, electrical, industrial and mechanical engineering or mechanical engineering with an aeronautical option or physics. Additional information may be obtained in the placement office.

Classes of '39 to '43 will meet in Sneed Hall at 8:15 p.m. with Elmer Tarbox as chairman.

A committee is being appointed to handle arrangements for the classes of '44 to '48, McElroy said. The meeting place is Doak hall at 8:15 p.m.

The Lubbock chapter of the Ex-Students association will be the host for the classes of '49, '50 and '51 who will meet in Drane hall at 8:15 p.m.

Saturday the Homecoming parade will be held at 10:45 p.m. It will start at the courthouse downtown and come out Broadway to Tech. "We expect close to 40 floats to enter," McElroy said.

Registration Ends Saturday

Registration for former students will end at 12 noon on Saturday.

Luncheon for the Tech Exes will be held in the Tech Gym at 12:15 p.m. by Furr Food stores and the Texas, New Mexico and Oklahoma Coaches, Inc. This luncheon is usually the only time most of the exes see and talk to each other, McElroy said. "Last year about 2,400 people were served in one hour." After the luncheon there will be an introduction of the Ex-Students association officers.

The exes will watch Tech battle Arizona university at 2:30 p.m. that afternoon. From 6 p.m. until 9 p.m. will be reserved for organizations having open houses and other social events.

Dance At 9 P.M.

The Homecoming dance at 9 p.m. will end the celebration. Burl Hubbard's orchestra will furnish the music for this dance through the courtesy of the Lubbock Avalanche-Journal and radio station KFYO.

Tech's first football game was a 0-0 tie with McMurry college, Abilene, Oct. 2, 1925.

Tech To Observe United Nations Week With Speeches, Sale Of UN Cookbooks

Radio programs, meetings, the sale of United Nations cookbooks and exhibits will help acquaint students with the meaning of United Nations week, Oct. 21 to 27 and United Nations day, Oct. 24.

Dr. E. N. Jones, vice-president, will speak to two grade schools Wednesday in observance of United Nations week.

He will speak in the Guadalupe school at 10, and in the Roscoe Wilson school at 11:15.

Tech library will have documents concerning the United Nations on display Wednesday.

Radio Program Scheduled

James F. Adams, instructor; Sterling H. Fuller, assistant professor and S. M. Kennedy, instructor in the government department will present a radio program Wednesday evening over KFYO. They will discuss what the United Nations was designed to do, what it is doing and the program that it may develop in the future.

The music department plans to give a musical program assisted by radio speech and radio journalism students. It will be broadcast over KCBW Wednesday.

Future Teachers of America club will have a car decorated with a United Nations motif in the Homecoming parade.

Cookbooks To Be Sold

United Nations cookbooks are being sold by the home economics division. The books are on sale at Hemphill-Wells and the United Nations information office in the Hilton hotel. They will be sold in the Home Economics building during Homecoming.

United Nations week, supported by 60 nations, is sponsored by the United Nations Educational, Scientific and Cultural organization. Its purpose is to focus the attention of individuals and communities on the objectives of the UN and the principles upon which it was founded.

Deadline For Varsity Show Scripts Set, Johnson Installed By Student Council

Deadline for Varsity show scripts was announced Monday night in a regular meeting of the Student council.

Scripts must be turned in immediately after the Christmas holidays, according to the council Varsity show committee.

Council approval was given for ringing the bells in the Administration building towers Wednesday at 10 a.m. in accordance with a city-wide movement to honor United Nations day.

Johnson Installed

Richard Johnson, junior agriculture student from Old Glory, took the oath of office of the Student council. Johnson was the only candidate for the post, so no election was necessary.

Nancy Crosby, junior home economics student from Lubbock, gave the specifications for all

posters to be placed on the council bulletin boards. These rules are securing council approval in Ad-116, being of a standard size (12 x 15 inches), and being put up not earlier than a week ahead of the event and being taken down not later than a day after the advertised event.

Permission was granted to Women's Dorms III and IV for the annual Washbowl game of girls' football to be played in Jones stadium.

Committee Still Working

Rodney Balke announced that the committee investigating the eating situation in Men's Dorm IV was still working. Two recommendations have been suggested to the committee to relieve the crowded conditions.

One idea is that part of the West hall residents, who are now eating in Dorm IV, be allowed to eat in Men's Dorm III. The other suggestion is that a longer time be allotted to each meal.

Brian Boyett was named chairman of a committee to investigate pins or keys for Student council members. Others serving on the committee are Johnson and Miss Crosby.

Card Stunts Are Planned For Game

The Rally committee, a newly formed group to promote school spirit, will be in charge of card stunts at the game. "Anyone sitting in the top half of section O will be expected to help out," Joplin said. The section will hold 1,089 people.

Freshman boys are urged to wear old shoes to the football game Saturday afternoon according to Charlie Joplin. The reason for this is the annual freshman shoe race.

The shoe race will take place after the band half-time activities if time permits.

Boys in charge of the newly formed committee are Joplin, Larry Bedford, Bob "Porky" Parkinson.

Turner Announces Officer Appointments For 56 Air Science Cadets Thursday

Col. Ollen Turner, professor of air science and tactics, has announced the appointment of cadet officers for the present school year. The appointments were effective Thursday.

Appointments are made at the first of every year and if cadets make a good showing in the temporary positions they are promoted to that rank permanently. All the cadets mentioned are seniors who are not expected to graduate in January, Col. Turner said.

Cadet Lt. Col. Charles O. Hamilton was relieved from assignment and duty with Group "A" and assigned to Group "B" with duty as group commander.

Cadet Lt. Col. Gerald R. Loeffler was relieved from assignment and duty with Group "B" and assigned to Group "A" with duty as group commander.

Get Cadet Captain Ratings
The following cadets were appointed to the temporary grade of cadet captain and assigned duties as indicated: James E. A. Kovach, wing adjutant; Junior F. Dozier, Wing A-2; Dorrance H. Guy, Wing A-3; James E. Klemm, Wing A-4; Jim K. Choate, deputy commander Group "A"; Robert L. Miller, deputy commander Group "A"; Donald L. Hamill, adjutant Group "A"; Richard A. Armstrong, adjutant Group "B"; Frank W. Payn, commanding officer Squadron E; Allen Bennett Jr. commanding officer Squadron F; Jimmie L. Howell, commanding officer Squadron G; and Billy R. Ricketts, commanding officer Squadron H.

Cadet First Lieutenants
The following cadets were appointed to the temporary grade of cadet first lieutenant and assigned duties as indicated: Samuel W. Wahl, S-3 Group "A"; Charles A.

Accounting Society Holds Fall Picnic At Mackenzie

The Accounting society held its annual fall picnic Oct. 16 in Mackenzie park.

Members attending were Maurice McWhirter, Jim Roop, Jean Friddy, William Speer, Joe Hipp, John Starnes, Bruce Fielder, Craig Wilkerson, Thomas Friday, Tammie Argo, Wanda Ramsey, N. D. Durham, Tommy Allison, Wilson Youngblood, Donald Bagwell, Jimmie Mason, Homer Clements, Garland Lloyd, Donald Ferguson, Ernest W. Gibson.

Messrs and Mesdames Brad Beedy, Newell Burk, Reginald Rushing and Fred Norwood.

Meetings of the organization will be held the first Monday of each month; next regular meeting will be held at 7:30 p.m. Nov. 1. Meeting-place will be announced later.

Ross, S-3 Group "B"; William S. Huntley, executive officer Squadron E; William G. Barbee, executive officer Squadron F; Rayburn H. Williams, executive officer Squadron G, and Jerry N. Nislar, executive officer Squadron H.

Appointed to the temporary grade of cadet first lieutenant were: David M. Zachary, Dan K. Williams, James D. Walden, Robert B. Wilson, Max L. Garrett, M. R. Sell, Vernon L. Allman, Billy F. Harris, Curtis D. Coxon, Kenneth L. Leonard and James E. Cavaness.

Second Lieutenants Named
Cadet Second Lieutenant Jim B. Young was promoted to the temporary grade of cadet first lieutenant and assigned duty as flight commander, Squadron H.

The following cadets were appointed to the temporary grade of cadet second lieutenant: Dudley K. Montgomery, Fred C. Stanley, Robert C. Schlagal, William B. Boyett, Earl R. Hutcherson and Troy A. Powell.

Cadets also appointed to the grade of cadet second lieutenant were: Donald J. Hart, Hylton R. Brown, John H. Caulfield, Orrin K. Howe, Bryan Pollard, Bobby C. Headen, Carl E. Bright and Johnny M. Sims.

The following cadets were appointed to the temporary grade of cadet warrant officer: George R. Duey, H. C. Copeland, David N. Jerome, John R. Garner, Steve H. Mize, Garland R. Lloyd, Charles E. Ferguson, Don G. Pass, Earl A. Vestal and Walter Krenek Jr.

EX-TECHSAN TO INTERVIEW

Joe Morris, ex-Techsan, class of '49, is scheduled to interview 1952 accounting graduates for Peat, Marwick, Mitchell and Company on Thursday.

Morris received his master's degree in accounting from Texas A&M college in 1950.

Theta Sigs Initiate Four Pledges Friday Into Alpha Upsilon Chapter

Theta Sigma Phi, national honorary women's journalism fraternity, initiated four women as pledges at 5 p.m. Friday in the home of Mrs. James G. Allen, 3110 21st.

Junior women who were initiated into Alpha Upsilon chapter are Joy Penrod, Lubbock; Pat Edwards, Fort Worth; Shirley Johnson, Lubbock, and Maurine Denton, Midland.

Report on the national convention held in June at Kansas City, Mo., was given by Pat Johnson.

New Press Club Officers To Be Selected Thursday

A called meeting of the Press club is scheduled for 5 p.m. Thursday in J105; according to J. Russell Heitman, sponsor.

Business for the meeting will include election of officers and accepting memberships in advance of La Ventana deadline for Press club page.

All persons interested in becoming members of the organization are invited to attend, Heitman stated.

Tech Geology Club Hears Redline Speak On Grad's Job Possibilities

Job possibilities in geology were discussed by R. L. Redline, geologist for Livermore, inc., Lubbock, in a meeting of the Tech Geology club Oct. 16.

Committees were appointed for the club's float in the Homecoming parade. Plans were also made for the group to sponsor the printing of decals, which will be signed by club members. The decals will be sold at the Tech Bookstore.

SOCIETY

Fatted Calf Is Killed For Ex-Techsans; Handshakes, Dancing Fill Out Schedule

Returning exes will be honored with breakfasts, coffees and dinners given by the different campus organizations.

Registration will begin at 4 p.m. Friday. A pep rally and bonfire will be held at 7 p.m. and all classes since '26 will hold reunions at 8:15 p.m. The first Artist Course of the year will be presented at 8 p.m. in the auditorium of Lubbock senior high school and will feature Jennie Tourel, mezzo-soprano.

Students To Register
Former students will continue to register Saturday morning and the main event of the morning will be the Homecoming parade at 10:30 a.m.

Furr Food stores and the Texas New Mexico and Oklahoma Coaches, Inc. will be hosts at a buffet luncheon at 12:15 p.m. in the Gym. The Homecoming dance will be held in the Gym at 9 p.m. with the Varsityians furnishing the music.

Among early morning activities Saturday will be breakfasts given by the Block and Bride club at 6:30 a.m.; Dairy Manufactures club at 7:30 a.m.; D.F.D. social club at 9:30 a.m., and Double T association at 7:30 a.m. Theta Sigma Phi will honor alumnae with a buffet breakfast at 7:30 in the Colonial Room of the Hilton hotel.

Coffee Honors Exes
Home Economics exes will be honored with a coffee at 9 a.m. and the speech department will have a coffee Saturday from 9 to 10:30 a.m.

Former members of Kemas social club will register at 9 a.m. in the Pine room of Hotel Lubbock and attend a dance given by the club at 9 p.m. at the Cotton club. Las Vivarachas social club will hold an open house for their alumnae immediately following the Texas Tech-Arizona University football game.

College Club will entertain Exes with a reception from 5 to 8 p.m.

Men's Music Club Will Discuss Affiliation With National Sinfonia

Affiliation with Phi Mu Alpha Sinfonia, national honorary music fraternity, will be discussed at a called meeting of Tech Men's Music club from 2 to 5:30 p.m. Tuesday in X3-A.

Dr. T. Smith McCorkle, province governor of Phi Mu Alpha and dean of fine arts at Texas Christian university, will discuss chartering the chapter.

Men students enrolled in any music class are welcome to attend. Membership is not closed.

TEACHES HOME ECONOMICS

Campus Interviews on Cigarette Tests

No. 26
THE ROOSTER

You have to get up early in the morning to put one over on this cock-of-the-walk! When it came to making "quick-trick" experiments of cigarette mildness, he stated flatly, "That's strictly for clucks"! How 'ya going to keep 'em down on the farm—when they know there's one convincing way to prove cigarette mildness!

It's the sensible test . . . the 30-day Camel Mildness Test, which simply asks you to try Camels as a steady smoke—on a day after day basis. No snap judgments. Once you've enjoyed Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why . . .

After all the Mildness Tests . . .

Camel leads all other brands by billions

Tech's Own Cave Men . . .

The art of the cave man has not vanished! When the last cave man died, scientists feared that his unique art—carving strange marks, and pictures on his surroundings—would perish with him. But, happily, it isn't so.

In fact, we've been told that a good number of these early day artists still exist—and are right here on the Tech campus. In the absence of cave walls to draw on, these ingenious ones have discovered that the walls of campus buildings and that the smooth tops of classroom desks make a pretty good substitute.

We here at Tech are proud of our cave men. What could be more attractive than a classroom where every desk-top is adorned with the work of our fellow artists?

Carved up desks make note-taking an adventure, too. Anyone can write on the smooth metal topped dormitory desks but only those students who go to class can have the fun of punching holes in their themes as the desk suddenly disappears into a deep rut beneath the paper. Teachers also say they like to see their students carving on desks. It gives them something to do besides just listen to the lecture.

Tech is so proud of their talented undergraduates that they have recently bought quite a few new desks just so the students will have more room to be artistic. When the desks become too scared up, the school can have them refinished so that the arty ones will have a clean slate to draw on. All of this costs money, of course, but nothing is too good for our prehistoric painters.

Comme on, students, let's beautify our campus. Here's to more and better carving!—Pat Edwards

Under The Breezeway

By SHIRLEY JOHNSON
Toreador Associate Editor

Our breezeway that this column is named after is getting well underway now. In a few weeks students will probably stop asking, "What is the breezeway?"

For the benefit of all those (99.99% of the student body) who don't know, it's the covered archway between the Library, new Science building and the Chemistry building.

Know what last Saturday was? No? The Sweetest Day of the Year. The following paragraphs are part of a feature written by one of our reporters. Because of the sudden influx of news, we didn't have room for it, but we felt that such talent should not be wasted. So—read on.

When you wake up in the morning you should feel angelic. If you don't, there's something wrong, because Saturday is the Sweetest day of the year. That's right—sweetest. Yeah, yeah, when we found it in the Associated Collegiate Press Service, we didn't believe it either, so we went over to the library and looked it up and it's true all right. It's even sponsored by the Council for the Promotion of Sweetest Day, Inc., no less.

We had wild ideas on what it might mean, such a day to eat nothing but candy, but we found out it means just a day to make someone happy. So when your roommate turns on the light in your face in the morning, check that impulse to throw a book at her and smile. Pamper your teachers; go to class on time for once. If your boy friend tells you that he has to study and can't make that date tonight, hold back that snarl and tell him nicely that it's all right. Boys, when your date keeps you waiting in the lounge for 30 minutes while she adds those last touches, restrain that act of violence and tell her politely that you enjoy watching the people go in and out of the lobby.

Be just as sweet as you can because, just think, when this day is over (and it only lasts 24 hours, at least part of which you'll be asleep) then you can be nasty for 364 more days.

Discussions can nearly always be found in the office and the other day was no exception. At that time a metropolitan charac-

ter was discussing the differences between his hometown and Tech life.

One of the first things he took issue with was the way the students interpreted dance bids and the way they dressed for the occasion.

"At home a sport dance calls for a sport jacket and tie. Here it could be anything from levis to tennis shorts," he maintained.

According to him, the same thing goes for semi-formal dances. "The first semi-formal dance I attended up here," (here he shuddered reminiscently), "was horrible for me."

When he went to pick up his date, he was shocked when she came downstairs in a floor-length formal. At home the practice was for girls to wear dressy street-length dresses.

"Sure am glad I held my tongue. I started to tell the girl that she was dressed all wrong. Then we got to the dance, and it was me that was all wrong," he added.

A bird has an automatic lock mechanism in its foot which keeps it on its perch while it is asleep.

The eagle can look at the sun unharmed, because it can draw a thin membrane over its eyes.

BACKTALK

Dear Editor:

This year the interview season seems to be starting a little earlier. Companies will be sending representatives to the campus for interviews with the students from now on. We should like for you and your staff to know that the notices about these interviews, which you print, are of great value to use and to the students. It is one of our best mediums of communication. Although the announcements are posted in a good many places about the campus, we find that the students may miss the bulletin boards, but they do not fail to read the TOREADOR.

Sincerely yours,
Jean A. Jenkins
Director, Placement Service

Texas Tech Talk

Fireworks Planned For Homecoming

From all indications the Homecoming festival this year will be one of the most colorful events Tech has seen in a long time.

Saddle Tramps, we hear, are planning a giant fireworks display to be shot off just before or during the Homecoming bonfire. The spectacle is to consist of practically every type of multi-color sky rocket.

They are to be shot from College Avenue back toward the Gym. Walkie-talkie radio sets from the military science department may be used during the fireworks display and bonfire to assure that any mishap can be reported quickly.

Both Saddle Tramps and Alpha Phi Omega, honorary service

About The Campuses

It seems that Oklahoma isn't too happy about the things happening in Texas. According to the Daily Texan, University of Texas newspaper, Governor Allen Shivers received a telegram from Oklahoma City which requested the Texas head to close all liquor stores between Oklahoma and the Cotton bowl in Dallas.

Reason: "If the Sooners get the unusual rotten brand of officiating they do in Texas, they will be tempted to get drunk and make a shambles of the whole northern part of your semi-civilized state." The telegram was signed "Oklahoma Bone Dry Enforcement association incorporated."

Oklahoma Daily of the University of Oklahoma was slightly fed up with the famous journalistic adage readers love to see their names in print. In one edition this appeared in a box at the top of the paper: "It is the fervent wish of the Daily to make all its readers happy, therefore, in compliance with an age-old demand, the Daily is publishing today the name of every student in the university, Amen."

According to the Trinitonian at Trinity university the museum has received a new heirloom, a 9-foot ebony Eyley piano. The piano belonged to Count Jean Batiste La-Coste about 114 years ago when he had it especially made and shipped to San Antonio from Paris, France.

fraternity, are turning the campus upside down in search for a mascot. As far as we know, neither organization has located one yet, but the search continues.

The mascot idea is not a new one for Tech. The team has had several good luck tokens over the years.

Years ago when Tech's football squad was known as Matadors, a costumed Matador would parade out on the field before the team. Later the team used a small boy son of a member of the Tech faculty, for their good luck charm. He was dressed in a miniature football outfit.

We have heard several suggestions for a mascot. Some students say a red caped rider on a white horse would symbolize the Red Raider and also fit our Spanish tradition.

Others want a Brahma bull to symbolize Tech's power. Such a mascot would be expensive to buy and expensive to keep, but if funds are available, it sounds like a good idea to us.

In our last column we mentioned a suggestion by Harold Alschuler that the American Flag be flown during all football games and that the audience sing the national anthem as it is played by the band.

Several students called to our attention the fact that military usage demands that the Flag be lowered at sunset.

Since the custom of flying the flag at night games is practiced in many parts of the country, we investigated to see just what tradition permits. It seems that though the Flag must be lowered at sunset if it has been flying during the day, there is no set rule against raising it during a night event.

At least the custom of flying

Quotables—

Too many parents are not on spanking terms with their children.

Stand a little closer to your razor when you shave.

Dieting is the triumph of mind over platter.

She literally worships her new husband—places burnt offerings before him three times a day.

Members of the younger generation are alike in many respects.

With The Colors

Phillip Sterling Crumpler, August graduate of Tech, recently signed with the Navy. He was sent to San Diego, Calif., for 1 weeks of basic training.

Jack Schnell, spring of 195 graduate in mechanical engineering, has been commissioned a second lieutenant in the air force. He is stationed at Fort Belvoir, Md.

Headed for Lyantey, French Morocco, is Charles L. Birdwell of Lubbock. Birdwell is a Builder 3rd class in the Seebees. Before joining the Seebees last June, he was an architect student and a member of Kemas, men's social club.

Lyantey is on the West coast of Africa. Birdwell is to go to Germany before continuing his trip to French Morocco.

Seaman apprentice Paul M. Nettles, who attended Tech before enlisting in the navy, has been chosen honor man of his recruiting company at the San Diego Naval Training center.

Cpl. Jackie Cook, who attended Tech three semesters before volunteering for the air force, will report to Camp Kilmer, N.J., after spending a leave in Lubbock with his parents. Cook was formerly stationed at Denver's Lowry Air Force base.

H. Bertice Tankersley, who holds a BS degree and post-graduate credits from Tech, has been appointed a first lieutenant in Women of the Air Force. L. Tankersley, who is a veteran of the WAVES, will be stationed with the WAF's at Lackland Air Force base in San Antonio.

Old Glory at special night occasions is practiced in various parts of the nation and we see no reason why flying the Flag at night football games would be direct violation of military procedure.

Cadets To Name Sweetheart Winner

Air force ROTC students will meet Thursday afternoon at 3 p.m. in the Gym to select sweethearts for this year, according to Major Melvin Burnett.

They will choose four squadron sweethearts, two group sweethearts, a band sweetheart and a wing sweetheart.

Names of the wing and group sweethearts will be kept secret until the military ball to be held Dec. 15. Squadron sweethearts will be announced soon after election.

Candidates will be presented Tuesday night when the Texas Tech Military association meets in the Extension auditorium at 7:30 p.m. for a smoker.

Lots of people have heard the whippoorwill, but comparatively few have seen the bird, for it rarely flies in the daytime.

Pi Epsilon Tau To Sponsor Smoker Thursday At Hilton

A smoker will be held at 7:30 p.m. Thursday in the Colonial room of the Hilton hotel by Pi Epsilon Tau, honorary petroleum engineering society, according to Kenneth Hill, second vice president.

Speaker for the smoker will be Jim B. Thomas, 1949 petroleum engineering graduate at Tech.

Shades Of The TV Age! Radio To Guard Bonfire

Field telephones and FM radios will be used by Tech students this year to guard the Homecoming bonfire from possible premature firing.

The signal corps branch of the ROTC is loaning several field telephones and two mobile FM units, according to Maj. Victor B. Penuel, assistant professor of military science and tactics.

The mobile units are being installed in cars and the field telephones will be set up at roads leading into the campus.

Senior members of the signal corps will operate the equipment, Penuel said. A headquarters will be set up in one of the men's dorms.

On The Campus

Dear Buck,

Here we are again and it is just four days until Homecoming. This weekend is really going to be a lot of fun with all the dances and parties going on.

I dropped by Larrymore's the other day and there are several people from the college over there wanting to start some dance classes in modern dance. If just a few more would go over, there would be enough to really have some fun as well as

Why don't you write me a letter and quit fooling around. This weekend alone, I know of three dances to go to. If you will write and tell me when you will be here I will make arrangements to start the lessons.

Well darling, I have to get busy with Homecoming plans. I know, sweetheart, that my picture is comforting while you are away but you realize of course that it is quite flattering. I just hope you will still care for me as much when you return as you did before.

Lovingly,
Wing

Tired Of Books, Boyfriends? Try Library's Light Reading

If you're a typical Tech student, the library probably means one of two things to you. Either it's a place to rendezvous with a dull book (forcibly), or it's a place to rendezvous with a not-so-dull handsome brute or goodlooking gal (no force evident).

Drag yourself away from that book or boyfriend sometime, and get to know us, the recreational books and periodicals. We're quite interesting and we have personalities just as people do. There are some of us you'll like, and some you won't, but after exploring our little world thoroughly, you'll probably like it.

One of our leading citizens is Progressive Farmer. You Aggies will like him, because he's very much like you. He likes to wear blue jeans and big hats, and dislikes ties and formal affairs.

Scholastic Coach is also a likeable person. He's strict on the football field or the basketball court. He knows he has to be to have a winning team, but he has a sense of humor, too. Any sports fan would enjoy knowing him.

You'll find characters that seem

to belong in Greenwich Village, too, when you read Poetry and Players Magazine; and there will be some in our world that you won't like at first, because you won't understand them. Philosophical Magazine and International Organization are those kinds of magazines, but they prove to be more likeable when you really get to know them.

There are ministers, doctors, businessmen—men in our family of every profession. And we have the entertainers, who live in a world of their own. These actors, detectives, dancers and singers are found in the recreation reading room. You'll find the stars like "Leave Her to Heaven" and "Prince of Foxes," the undiscovered talent and even the "dance-hall" personnel.

Why don't you visit us sometime, and really get to know us? Perhaps we can even help you get to know yourselves and your fellowmen better.

This tale is just a product of a writer's imagination, but it is a nice way of saying, "You're a missing something."

"There are approximately 1,700 different periodicals in that northeast corner of the library," reports R. C. Janeway, librarian. "We tell all freshmen—and anyone else who will listen—that periodicals provide a great deal of usable material, and the recreation material is just what the name implies—for recreation," added Janeway.

There are some old-timers among the periodicals, too. Just which is the oldest can't be determined, for the college has bought issues to magazines which date back to the years before Tech was founded, Janeway continued.

Applied Arts Workshop Selects Officers; White Is Named Prexy

Sue White, senior education major from Lubbock was recently elected president of the Applied Arts workshop.

Other officers named were Bilye Weiss, senior from Lubbock, vice-president; Mona Powell, sophomore from Lubbock, secretary-treasurer, and Mary Swenson, senior from Spur, publicity chairman. The women are applied arts majors.

The workshop meets at 7:30 p.m. the first and third Thursdays of each month in HE275. Members are now completing mahogany lamps for the new student lounge in the Home Economics building.

Ethel J. Beitler, assistant professor of applied arts, is sponsor of the organization.

Delta Sigs Choose Rose Candidates

Candidates for the "Rose of Delta Sig" were chosen at member initiation services of Delta Sigma Pi, honorary business fraternity, last Tuesday in the Hilton hotel.

Candidates are Nancy Moran, sophomore music education major from Waco; Joan Osborne, freshman drama major from Levelland, and Charlyne Hannum, freshman advertising art and design major from Waco. The "Rose," who will be chosen at a later date, will be entered in the national contest where she will compete with women from 80 other chapters.

New members initiated were Robert Campbell, Donald Davis, Jerry Davis, Tony de Shazo, Gayle

Ferguson, Max Garrett, Perry Gullett, Sammy Hale, J. M. Hill, Robert Jones, Jimmy La Munyon, Robert L. Miller.

Steve Mize, Steve Nagy, Robert Payne, Robert Price, Garnet Reeves, Don Rener, Carl Sanders, William Satterwhite, Chloice Shafner, John Speer, John

Starnes, Elmer Stevens, Hayes Tucker, Lee Vandergriff, Joe Weatherby, Edward Weyman, James Wilder and Richard Wilkie.

Isbell Aerials Bear Victory Following Early Raider Lead

Larry Isbell, Baylor's All-American quarterback, teamed his strong right arm with the grasping fingers of a bevy of pass-snagging receivers to smother a hard-fighting Tech team 40 to 20.

It looked for a while as though Tech would make a repeat of last week's game. Raider linemen smothered Isbell as the game opened and Raider offense clicked like a well oiled machine.

Tech's red-shirted warriors scored first after Kenneth Elmore had blocked an Isbell punt.

The Raiders went 35 yards in 10 plays, climaxed by Turner's three-yard scoring slant. Whitaker's conversion attempt was blocked.

That's the way the first quarter ended. At this point Dame Luck turned her favor to the green-shirted lads and kept it there until late in the game.

In a short span of five minutes, Baylor had scored three times and led the encounter 20 to 6.

Baylor scored first on a 75-yard drive going 56 of the 75 yards on the strength of two penalties.

Two plays later, Arterburn fumbled on the Tech 21 and it took only three plays for Baylor to score, which came on an eight-yard pass from Isbell to end Bob

Trout. Again Tech failed to get going following the Baylor kick-off. After the punt, Baylor pushed 62 yards for the third tally, aided by three Isbell passes accounting for 47 yards. It took just seven plays, the last one being a nine-yard toss to end Stanley Williams for the score.

Isbell proved his excellence in passing during the first half by completing 10 of 11 attempts. Baylor came back strong in the second half to bite twice more in rapid succession.

A Raider punt was blocked on

the Tech 29-yard stripe and was recovered by Baylor on the Raider's own two-yard line. Francis Davidson scored over right guard, making the count 27 to 6 after the try from placement.

On the first play following the Baylor kickoff, Baylor covered another Tech fumble. Four plays later, Dick Parma made it 34 to 6, Brocato converting.

Baylor's final points came when Jimmy Davenport, second line quarterback, threw to Williams, who threaded his way 55 yards

Baptists Settle Presbyterians, 19 To 6, As Bums Score Twice On Interceptions

Alert pass defense on the part of the Baptist Student union set back the Westminster Student Fellowship 19 to 6 in their first encounter of the season in Independent touch football league play.

Two pass interceptions were turned into scores for the BSU Bums early in the first half. Abe Turner scored the first Bum t.d. when he intercepted a pass from Walker Hart and ran 30 yards to pay dirt. Tom Brown took an extra point pass from George Worrell.

Shortly after the kickoff Earl Hutcherson intercepted another WSF pass and ran 20 yards for a score.

BSU scored again in the first half, their last counter of the game. It was a pass from Worrell to Hutcherson that accounted for the tally.

But, in the second half BSU

went scoreless while Walker Hart passed to Rodney Balke, Ike Tremble and Bob Schmidt for WSF gains.

Hart completed a series of four passes in a scoring drive. First he aeriaded 20 yards to Tremble, then 15 yards to Emmett Adair. A second pass to Adair put the ball on the two-yard line, from where Balke scored as he took Hart's fourth-down pass in the end zone.

Another passing drive of the Presbyterians was stopped when Tom Brown intercepted a WSF aerial late in the period.

Rec Hall Tourney To Open Wednesday; Deadline Today

Deadline for entering the Recreation hall-intramural ping pong tournament is 5 p.m. Tuesday, Dan Purcell, Rec hall director, has announced.

The tournament is being conducted for men and women in both singles and doubles matches. There are six contests, singles and doubles for men, for women and for men and women.

Through Monday 20 persons had registered in the tournament. Play is scheduled to open Wednesday, Purcell said.

Unknowns Forfeit To Dairy Club

The Unknowns were forced to forfeit to the Dairy Manufacturers club in their first intramural touch football game Friday due to lack of reserves.

When Don Davis was removed from the game because of injuries, the Unknowns were without substitutes with which to complete the game. They had played deep into the second half before the game was forfeited.

Wakefield's Flowers

The Signal Caller

By JOHN LEE

Tech's freshman-laden team went to Waco with the intention of beating the Baylor Bruins and even though the score testified overwhelmingly to the fact that they failed in this aim it didn't give any inclination to the heart-break and work and sweat indulged in by the inexperienced Raiders.

Except for a torrential flow of bad breaks the likes of which this

writer has never seen, the story could have been much different.

In Coach Weaver's words, "We made too many mistakes, and when you're facing a quarterback like Larry Isbell, you can't do that and stay in the game. Baylor has the kind of squad that can ruin a young team, since the Bears not only throw well but also have a lot of deception."

"Player of the Week" for the Baylor game was selected and plans are to run the cartoon in the Friday issue.

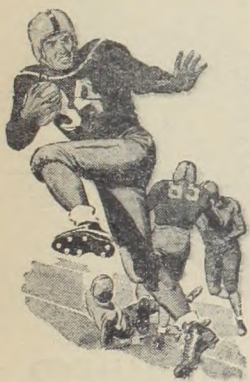

Ray Howard won the honor on the basis of his fine defensive work. He was way ahead of his teammates in tackles made against the Bears.

Baylor turned two fumbles into scores. They scored once after recovering a blocked punt on Tech's two-yard line. The Bruins needed only 19 yards after two consecutive penalties had brought the ball 56 yards to put it into scoring position another time. Stanley Williams, the standout Baylor end, scored on one 55-yard pass play after being stopped but not brought down by three different Raiders.

Position Interviews Set For Graduates

January petroleum geology graduates and 1952 accounting graduates are to be interviewed regarding jobs Friday and Saturday, respectively.

Petroleum geology applicants, to be interviewed by representatives of the Superior Oil company, are requested to take their transcripts to the interviews. In addition, they should have completed mathematics courses through calculus. If time allows, a few spring graduates may schedule appointments.

Representatives of Peat, Marwick, Mitchell and company from Dallas will interview graduates in accounting, following a general meeting at 8 a.m. Saturday in Ad 305.

Representatives of Boeing Airplane company will be at Tech Thursday and Friday to interview 1952 engineering graduates concerning positions.

Mechanical, civil, electrical and architectural engineering students are eligible. The Seattle and Wichita engineering divisions of Boeing are the locations of employment.

A general meeting will be held at 7 p.m. Wednesday in the Engineering auditorium.

Interested persons should report to the placement office immediately to schedule interviews.

Management Association Elects Beaumont Senior Club Chairman

Allen Smith, Beaumont senior, was elected chairman of the Tech Management association at their Oct. 16 meeting.

Other officers elected were Bruce Autry, junior from Amarillo, vice-president; Steve Mize, senior from Big Spring, secretary; Bennie McKinney, junior from Hobbs, N.M., treasurer; Paul Cato, Amarillo junior, director of education, and Charles Joplin, senior from Littlefield, director of public relations.

The Association will meet the first and third Monday of each month at 7:30 p.m. in Ad208.

PRIZE WINNERS—Above Bob Womble, right of Womble Olds gives prizes of \$350 and \$150 to John Norcross and San Anderson, respectively. Norcross, left, a senior journalism major and Anderson, center, '51 journalism graduate, were awarded the prizes for writing winning feature advertisements for the company.

Sight, Sound Add Interest To Lectures In Military Science Training Program

ROTC students are learning that sight and sound play a great part in the making of a soldier in Uncle Sam's modern army.

Tech's military science department declares that books are not the only means of teaching and that lectures can be made more interesting by the use of modern training aids.

Movies, graphs, demonstration boards and actual army equipment are just a few of the helps which ROTC students have to take the work out of learning.

Army ROTC seniors have just completed a ten-hour course on military teaching methods. During the course, emphasis was placed on use of training aids and illustrations.

The vu-graph is one of the devices used by military science

teachers. This training aid is a machine which projects transparencies on a screen. With this machine, the teacher is able to point out objects on the screen with a pointer without leaving his desk. The vu-graph also allows the instructor to draw a diagram at his desk on the machine while it is being projected on the screen.

Another interesting piece of equipment is the complete working model of an airplane motor. This motor shows by the use of lights the firing of each piston.

ROTC students also have access to radios, transmitters, walkie talkies, and numerous other pieces of communication equipment.

Thousands of army training films are available to military science classes. These films are not only speed learning, but also create interest.

Isbell Aerials —

to pay dirt. At least three Raider defenders had their hands on Williams but seemed unable to bring him down.

With the score 40 to 6, Dame Luck took pity on the Raiders and turned her back on the Bruins for a while as the Raiders redeemed themselves somewhat by turning the slaughter into a fairly decent spectacle.

Baylor had just punted to the Tech 11-yard stripe. On the first play from that spot, halfback Bobby Cavazos broke through, headed for the right sideline, raced to the Baylor 35 before cutting back and then outdistanced the two remaining defenders to go all the way for Tech's second tally.

The Raiders weren't through yet. Guard Ray Howard recovered a Baylor fumble on the 49 and the

Raiders fought furiously to score again.

Arterburn passed to Turner for 14 yards, then he passed to Bill Bryan for 11 yards and on a fake pass Arterburn went 17 yards. Then Turner slipped over right guard for six yards and the touchdown. Whitaker kicked the extra point from seven yards out as a result of an off-sides penalty against Tech.

The game ended one minute and 38 seconds later with the final score standing Baylor 40 to Tech 20.

Radio Prof Builds Houses, Dreams Of Campus Station

Here's the information for you girls who've been wondering who that tall, good-looking instructor with the wonderful voice is. He is Wallace R. Jackson, new speech instructor, and you can get into one of his classes by signing up for a radio course.

Jackson, who has brown hair and ditto eyes, hails originally from Midland but he received his BA in dramatics from Abilene Christian college and his MA in radio from Northwestern university in Illinois.

Jackson has spent nine years in radio, where he says he worked on "all phases except management." He thinks Tech "is a very good school" right now but dreams of having a campus radio station operated by the speech department and thus being able to teach more specialized courses in radio.

In addition to being radio instructor, Jackson also has another title, that of technical director for speech department productions. He estimates that this has involved him so far in about 15 hours work per week on the set for the forthcoming play, "My Heart's in the Highlands."

The main problem in this set, Jackson said, is building a house on the stage. Since the Tech stage is small, it is impossible to build a large house on it. The script, however, demands that the audience be able to see both the exterior and interior of the house. Jackson has solved the problem by building the structure on a one and one-half foot platform, covering the east and back sides of the house with flats and using only cheesecloth to mask the west and front sides.

Another difficult problem is

lighting. Since the house cannot be moved from the stage, it must remain onstage even while another scene is being played in some other area. This means that some way must be found to completely black out the house while another area of the stage is lighted. Jackson hasn't figured that one out yet, but he's working on it.

When asked about his hobbies, Jackson smiled. He collects long playing records—when he has time for it.

Ponce de Leon discovered Florida on Easter Sunday, March 27, 1513.
