

Dr. Sockman Begins '62 Willson Lectures

By CAROLINE ENGLISH
And MICHAL RAMSEY
Toreador Staff Writers

Dr. Ralph W. Sockman, internationally famous theologian, lecturer and author, will present the first of his four 1962 Willson Lectures, "Prisoners of Ourselves," Monday at 9 a.m. in the Municipal Auditorium.

Classes will be dismissed for the lectures at 8:45 a.m. on Monday only.

The lectures Monday and Tuesday will begin at 9 a.m. and those Wednesday and Thursday start at 10 a.m.

Dr. Sockman, being brought to Texas Tech as a Willson lecturer after a three-year effort to schedule him, will also speak at a banquet for faculty, administration and invited student leaders at 6:30 p.m. Wednesday in the Tech Union Ballroom.

"I predict that students hearing this man will be affected more by him than any other speaker at Tech," James G. Allen, dean of student life, commented.

"He's one of the finest speakers that we've ever had as a Willson lecturer. Many people will be driving in from out of town to hear him."

Now in its fifteenth series, the Willson Lectures were set up in 1946 by an endowment from Mr. and Mrs. J. M. Willson of Floydada to bring outstanding religious speakers to the Tech campus each year. Fifteen similar lectureships in colleges over the country have been set up by the Willson family.

Amon Burton, president of the Campus Religious Council, said, "We're very fortunate to get a man of Dr. Sockman's caliber. I hope the Tech student body will take advantage of his presence on campus and attend the lectures." The Council is composed of faculty and students from the denominations represented by campus religious groups.

If students are unable to attend or want to hear the lectures again, tape recordings of the lectures will be made by members of KTXE, Tech's FM radio station, reports Marilyn Caplinger, program director.

The lectures will be broadcast Feb. 18, 20, 22 and 25. Program time has not yet been announced. Tapes may be obtained by contacting Charles Buzzard, extension 380.

On Tuesday Dr. Sockman will speak on "The Growing Edge of Life." Subject of his Wednesday talk is "Life's Fifth Dimension." The talks will be concluded Thursday with "American Morals."

Master of ceremonies Monday will be Dean Allen. The Rev. Cecil Matthews, minister to students at the Tech Wesley Foundation, will give the invocation.

The Tech men's chorus, under the direction of Gene Kenney, will sing "A Song of Joy," by Gretchaninoff.

Introducing Dr. Sockman will be Dr. William M. Pearce, academic vice president.

Benediction will be given by the Rev. Ralph Macy, chaplain of the Episcopal Student Center here.

DR. RALPH W. SOCKMAN

... begins his series of lectures at 9 a.m. Monday.

Techsans Will Elect New Representatives

Techsans will go to the polls Monday to elect four new representatives to the Student Council. A total of 22 candidates have filed for office and have begun their campaigning.

From the School of Arts and Sciences, 11 candidates are campaigning to fill two vacancies. Nine candidates are seeking election from the School of Business Administration, where there is a single vacancy. In the School of Engineering, there is a two-man race for one vacancy.

Ballot boxes will be located in the Ad, C&O, Tech Union and East Engineering Bldgs. Voters must present their I.D. cards to the election clerks.

The candidates from the School of Arts and Sciences are Carolyn Buxton, John Compere, Carolyn Davis, Karla Dickson, Carlton Flowers, Bill Fouts, Sydney Gibbs, Jari Kendall, Charles

Steinman, Beverly Truett and Tom Arnold.

Filing from the School of Business Administration are Phil Berryman, Ann Brown, Gary Cook, Larry Gibbs, Jay Henderson, Wynette Johnson, Mark Taylor and James L. Wilkerson.

The two candidates from the School of Engineering are Brownie Higgs and Bill Pearce.

All candidates have met the required qualifications for a Student Council office. Each is enrolled for at least 12 semester hours and has a 1.00 average for last semester and all preceding semesters.

The election polls will be open from 8 a.m. to 5 p.m. Monday. Ballots will be counted that night. A run-off election will take place Wednesday, if necessary.

Installation of the new representatives will take place at the first meeting of the Council following the election.

Montoya's Audience Demands Encores

By BILL MCGEE
Toreador Amusements Editor

Carlos Montoya played to 2,500 in the Municipal Auditorium Thursday night.

The alternate pounding and delicate singing of his flamenco guitar brought the large audience to its feet twice during the concert.

To which Montoya responded with an eloquent "Thank you" and a rousing set of encores.

From the first number, "Alegrias Flamencas," the best-known of flamenco forms, to the "for finish 'St. Louis Blues' a la flamenco," Montoya displayed technical virtuosity in seventeen programmed numbers and three encores. His incredibly small hands, with unbelievably long fingers, flew over the six strings of his beautiful guitar with indescribable speed.

Comparison of Montoya with other flamenco guitarists proves his statement that today there are "many players and few artists."

Montoya plays only flamenco. At the command of his instrument is a larger repertoire of this musical

form than is possessed by any other guitarist.

If asked about playing "classical" guitar music, he will reply "... para mi, no. I love it but do not feel it." He is a man dedicated to his art.

The depth of his feelings for this particular music was illustrated in his haunting "Zambra," in the pulsing "Bolera" and the melodic "La Rosa."

He will say, "I like to be free. No 1-2-3-4-5 in my music." He demonstrated this point, too, with the fandango "Huelva"—a free, poetic composition, unlike the driving rhythm of most flamenco.

Attempting to explain the difference between the flamenco and classical guitars, Montoya is likely to become confused with his limited use of English, spread his hands, and say, "crazy ... I no can explain."

Yet, he demonstrated that the difference is not so great with his sensitive rendition of the intricate "Rodena."

He will say that his form makes very much of "feeling" as the guitarist improvises on a basic flamenco theme. He will say, "No es easy."

But he makes it look quite simple by the ease with which he plays "Farruca," a difficult flamenco form. This pyrotechnical composition is perhaps the most popular of all flamenco rhythms.

People ask him to play "Solidades" the way he played it at the New York concert, or at the Dallas concert. He will say, "I no remember. Every time is different. Is improvisation."

Some numbers from Montoya's last concert here were included on Thursday night's program. They were different.

Asked about the "guitaristas contemporarios" he will make a wry face and say, "No comment."

His is a position unique among musicians, guitarists and flamenco guitarists. He is the master of the flamenco form. His guitar speaks for the soul of all that is Spanish in the world, and he, Carlos Montoya, is the sole spokesman for this exciting music.

His audience hopes he will return.

Committee Announces Song Change Plan

By BRONSON HAVARD
Toreador Staff Writer

In an unexpected move Friday, an ambitious new plan for giving Texas Tech an official school song and for immortalizing zealous Techsans was announced by the Student Council Name Change Committee.

Wayne Underwood, Student Assn. vice president, declared in the announcement that "O, College Mother Beautiful" was Tech's official school song and not the Matador Song.

Explaining that neither song had won the support of the student body, Underwood said that the Council will embark on a campuswide project to find from among Techsans a song that will eventually become a popular school song.

Remarking that Tech has exactly three known songs which can be called its own, Underwood said the Council will ask Techsans to join in an effort to solve the song issue which developed into a controversy last semester.

According to the plan, the Council will urge Techsans to put into words some of their ideas about Tech and then submit them in verse form to the Council. The music department will cooperate with the Council by supplying the music and other technical help.

Each song submitted, after the music has been written, will be played at various Tech events. The most popular songs will eventually evolve as original Tech songs. Out of these songs will come the official school song.

The Techsan who supplies the words for a song will receive recognition and if his song is the most popular, it will become the official school song. "The student will become immortalized and his song will last as long as Tech," Underwood said.

"I think this is a move and a start," he said in explaining the plan for finding real Tech songs.

About the official school song, "O, College Mother Beautiful," Underwood said that it was written in the early days of Tech and has since been forgotten.

Techsans "with words to a Tech song" are urged by Underwood to write them down and take them to the Council office in the Ad Bldg.

"Both the Student Council and the music department will give any help necessary—all we need is the words," Underwood commented.

Friday's announcement resulted from weeks of study on the school songs by the Name Change Committee of the Council. The committee will go before the full Council Feb. 15 and present its proposals.

Raider Roundup

HOME ECONOMICS CLUB

Home Economics Club will meet at 7 p.m. Monday in Rm. 105 of the Home Economics Bldg. Group pictures for the La Ventana will be made at this meeting.

BLOCK AND BRIDLE CLUB

Texas Tech Block and Bridle Club will meet at 7:30 p.m. Monday in the Aggie Auditorium. Prof. J. H. Baumgardner will speak with illustrated slides concerning the recent Chamber of Commerce tour of Arizona and California feed lots.

LOST AND FOUND

A movie camera was found on bus two of the Tech Ski Trip. The owner is requested to identify the camera in the office of Ruth Cowart, government department.

Clubs Install New Leaders

Tau Beta Sigma, honorary band sorority, and Alpha Delta Sigma, men's advertising fraternity, recently announced newly installed officers.

The newly elected officers of Tau Beta Sigma include Tommie McCall, president; Sharon Morgan, first vice president; Cindy Parker, second vice president; Rozanne Cannon, secretary; and Judy Key, treasurer.

Other new officers are Janet Leachman, AWS representative; Kay Castleberry, reporter; and Sandra Wolf, parliamentarian.

In a recent election of officers the members of Alpha Delta Sigma elected David Swaringen president and Weldon Maxey vice president. Other officers include Gary Chisholm, secretary; Greg Spickard, treasurer; Don Peel, pledge trainer; and Jim Vick, BSO representative.

PIKES TOGA PARTY—A group of "hailing Romans" herald the Pi Kappa Alpha Toga Party scheduled for tonight from 8-12 in the Pike Lodge. Members, pledges, rushees and dates are invited, but, as the invitation reads: "Bring Your Own Grapes."

L-V Extravaganza Opens February 23 In Auditorium

KDUB disk-jockey Gene Price will emcee the La Ventana Beauty Extravaganza, slated for Feb. 23 in the Lubbock Municipal Auditorium.

Tickets will go on sale in the Tech Union on Monday, Feb. 18.

Any Tech coed is eligible to compete in the Miss Mademoiselle contest by turning in her entry blank and \$1 to Sigma Delta Chi, Rm. 101, Journalism Bldg., by Friday. The 25 finalists for the contest will be chosen Friday and Saturday in the Aggie Engineering Auditorium.

Any all-male organization on campus may enter a Miss Playmate contestant by submitting an 8x10 glossy, black and white photograph of the girl to Sigma Delta Chi.

Included are all fraternities and men's residence halls, plus Alpha Phi Omega, Alpha Delta Sigma, Delta Sigma Pi and the Saddle Tramps.

Tickets cost \$1 per student or \$1.50 per couple, John Petty, producer of the Extravaganza, announced.

Tech Competes In Tournament

Texas Tech will be one of 200 colleges and universities throughout the country participating in the 1962 National Intercollegiate Bridge Tournament Feb. 18 - 26.

Timber Floyd will serve as tournament director for Tech during the competition, which will be sponsored by the Association of College Unions.

All play will be by mail and will be conducted on the individual campuses on a date fixed by the tournament director between Feb. 18 and 26.

The hands will be judged by William Root, contract bridge authority, and Charles Goren, noted bridge expert. They will determine the campus regional and national winners.

Tech is in Region 9, along with schools from Texas, Mississippi, Oklahoma and Arkansas. There are 11 national regions.

Weekend Movies Offer Variety

By BILL MCGEE
Toreador Entertainment Editor.

Unless you're following the mob to see "King of Kings" (Hallelujah), this weekend promises some better-than-average films for the Lubbock viewer.

There's Rita Hayworth and Rex Harrison in "The Happy Thieves" at the Tejas. Hilarious happenings highlight this harrowing "who-done-it" as an unlikely crime ring plunders some oversized artwork.

There's also F. Scott Fitzgerald's "Tender Is the Night" at the Lindsey. Few films with a cast including Jennifer Jones, Jason Robards, Joan Fontaine and Tom Ewell could be very bad...and this one happens to be very good.

Perhaps the best of the lot is Tennessee Williams' "The Roman Spring of Mrs. Stone" playing at the Arnett Benson. Vivian Leigh (who should never be called anything but "Scarlett") has the title role. Warren Beatty, of "Splendor in the Grass" renown, portrays the opportunistic "Paolo." The grand old lady of "Threepenny Opera," Lottie Lenya, plays a perfectly hideous "Contessa."

Full of characteristic Williamsonian symbolism...not to the extent, however, of "Sweet Bird of Youth"...this screenplay expresses the author's didacticism clearly without resorting to the usual uncomfortable sordidness. The ugly message is there without so much ugly wrapping.

Mrs. Stone is an aging actress undergoing "The Change" who finds herself enroute to Rome with a newly deceased husband. Her return as a Shakespearean actress hasn't gone according to expectations, so she decides to take an apartment and stay.

Museum Sponsors Heritage Concert

Twilight Music Hour presents a Music Heritage Concert at 3:30 p.m. Sunday in the Museum Auditorium.

The concert, sponsored by the West Texas Museum, will include music for piano, strings and wind instruments in selections from Haydn, Beethoven and Mozart.

There will be no admission charge for the concert.

Her apartment is located, Williams tells us, "...over the cascading series of stairways where assignments of every kind are made..." In a beautifully directed pre-credit sequence, the viewer is given an unmistakable indication of the kind of neighborhood this is.

Dogged every moment by a mysterious ragamuffin who represents her "inner desires" to which it's obvious she will surrender, Mrs. Stone sets up housekeeping in her palatial hermitage, and mourns her mate.

Lurking here and there is the Bohemian "Countess" who has a vicious little racket running—helping rich widows through their loneliness by furnishing suitable "beautiful young men" in return for half the take bestowed upon the boy beautiful by his benefactors.

She introduces Paolo to Mrs. Stone who's only too happy to fall headlong—hook, line and fortune.

Paolo may be pretty but he's no catch—even for a lonely widow anxious to spend a lot of lire. He treats her terribly (she seems to enjoy it), cheats on her (she cries and kisses him) and brags about the mercenary aspects of the relationship (she buys him a new suit).

Vivian Leigh has faded somewhat since "Gone With the Wind," but her acting ability is as apparent as ever. She's lost none of the fire and vigor of younger roles, and has matured into the type of actress for which there are always many parts available.

Warren Beatty is a formidable newcomer whose deep absorption with a role has been likened to performances of James Dean. Lottie Lenya defies description.

Department Joins Federation, Emphasizes Theater Research

Texas Tech's speech department has been admitted to associate membership in the International Federation for Theater Research. The department is also being considered for membership in the Texas Educational Theater Association.

Associate membership in the Federation requires that an organization devote part of its activity

to theater research, be endorsed by its national representative and be accepted by officers of the Federation.

In connection with the Texas Educational Theater Association, Ronald Schulz, associate professor of speech at Tech, is attending the group's annual meeting at Howard Payne University at Brownwood today.

Career Cues:

"The broader your knowledge, the greater your chance of success!"

Edwin J. Ducayet, President
Bell Helicopter Company

"As I look back, graduating from college in the depth of the depression was a blessing in disguise. It was difficult to get a job, and even more difficult to hold it. It proved to me early in life that to succeed in business requires constant struggle.

"I found that the truly successful individual never stops learning, that a formal college education is the foundation on which we continue to build the knowledge and experience required to get ahead.

Tech's Drill Teams Compete In Arizona

Tech's Tyrian Rifles and Sabre Flight flew to Tucson, Ariz., this week to compete in the National Aero-Space Exhibition.

Approximately 26 drill teams representing the Army, Air Force and Navy ROTC will compete in this annual exhibition.

The teams will compete in regular Army drills as well as independent precision drills. These will be carried out according to Army regulations along with drills created by the teams.

Inspections in ranks with and without arms will be included in the competition.

The Tyrian Rifles, Army ROTC drill team, last year was rated in the top third and according to Capt. Charles Brown, shape advisor, "we're in tip-top shape this year."

The Sabre Flight, Air Force ROTC drill team, is in good form this year and has hopes of bringing the winning trophy back to Tech. Lt. Col. William Wilson is faculty advisor and is being accompanied by Dr. Paul Woods, member of the ROTC college liaison committee.

Approximately 50 students make up the two Tech drill teams. Throughout the semester the teams participate in military parades and inspections.

Cadet Capt. Jerry Brown calls

cadence for the Tyrian Rifles and Cadet S/Sgt. John Womble leads the Sabre Flight.

The two teams will participate in an all-units parade through downtown Tucson before returning to Lubbock Sunday afternoon.

Union Offers Dance Class

One, two, three, cha-cha. How would you like to learn the latest dances?

Karen Moore, Tech Union program director, has announced a follow-up of the first semester course and also another beginning course. Emphasis in the advanced class will be placed upon cha-cha, rumba, foxtrot, jitterbug, waltz, and the new dance craze, the twist.

Bill and Sherry McGee, who have had professional experience, will conduct the classes in Rm. 205 of the new Tech Union addition. Classes will begin at 6:30 p.m. Feb. 14-15.

Eight dollars per person or fifteen dollars per couple is the cost of both five-lesson courses. Advanced students must have had at least one semester of social dance from the P.E. department or have taken the beginning course at the Union.

"Even in today's age of specialization, a man eventually reaches a point where breadth of knowledge is necessary. The engineer must understand accounting and marketing. The marketing man must know his product. The financial man must be sympathetic to engineering development and sales programs. Management must have a working knowledge of all phases of the complex and highly competitive business world.

"Therefore, even though specializing, a student should make his college curriculum as broad as possible, and diversify his outside activities. Authoritative surveys have shown that only a small percentage of individuals end up in the field in which they specialized in college.

"Widen your world. Broaden your interests right now. Since graduation from college I've discovered that those who are really succeeding today are the ones who do more and keep on learning from what they do. The broader your college interests are now—the steeper your ladder of success tomorrow!"

Musical Review Gives Picture Of Old Vienna

'VIENNA ON PARADE' ... comes to Lubbock Sunday.

Old Vienna, with its lilting waltzes, joyous marches and lovely operettas, will come to Lubbock at 2:30 p.m. Sunday when Civic Lubbock, Inc., presents the colorful Deutschmeister Band in "Vienna on Parade."

The group has been paid official tribute by various organizations for its contribution to international good will.

The world famous Deutschmeister Band has earned fame through two centuries of musical tradition. It was originally a military band used to stimulate the troops on parade and in battle. It has since developed into one of the leading bands of all Europe with its assorted singers, dancers and string musicians.

Tickets are now on sale in the Auditorium box office from 9-5 daily.

On Various Subjects

Readers Voice Opinions

Dear Ralph:

Reference to your article in the February 8 Toreador, let's get a few things straight:

1. The petition you mentioned that the Lubbock Jaycees were working on, has not been approved or even voted on.

2. This certainly is not a publicity stunt. However, we don't intend to sit on our posteriors and not take a stand if we come to a decision which we as citizens feel is right.

3. We certainly have no desire to censor the American viewing media.

I feel we have the right and the duty to take a stand on any issue we please, and to tell the world about it. The Junior Chamber of Commerce is an organization which will take a stand and defend it

if the majority thinks that is the thing to do.

It is my opinion that "bartering" for television time with the office of the President is no good. Keep in mind that Khrushchev will not give a true account of himself on T.V. It will be a twisted bunch of lies. As college people, we can see the loopholes in his lies, but think of the unlearned people in this nation who might easily be swayed.

On the other hand, we will be playing right into their hands if we refuse him television time here. As you said, this is serious business. The petition will be brought to the general membership of the Club next Monday at our noon luncheon and will be voted upon at that time. The petition has been disapproved by our Board of Directors.

Whether we vote for or against the petition is still to be determin-

ed. But, in either case, we, as American citizens, feel it is some of our business.

Very truly yours,
Earl P. Fitts
Lubbock Junior C.C.

Dear Ralph,

One problem which continues to annoy even the most tolerant of coeds is the inconsistent time on campus. I am the first to admit this is a local problem, but for the dorm residents it is an important problem.

Most students recognize the need to be on time; indeed most people recognize the need to be punctual. For this reason Central Standard Time was created. Nevertheless, Texas Tech insists upon having Horn time, West time, Weeks time and Knapp time in addition to C&O time, Administration Building time, Textile Building time, Engineering Building time, etc. I do not object to being on time, but what time is it?

This lack of consistency creates needless confusion, avoidable embarrassment, and annoying situations. Nearly anyone can readily call to mind situations of embarrassment associated with not knowing the correct time. All we, as students, are asking is that the campus use correct Central Standard time. Is it fair to anyone to use any other time; much less use a variety of times and expect that to be fair treatment?

Sincerely,
Wynette Johnson

Editor,

The question has been brought up on the legality of the ball being tipped in by a second player and whether our contemporary player from Froggie-land had shot before the bell sounded, is all left up to the better judgment of the so-called officials.

I just don't see how the ball can be brought in from midcourt, passed to another player, who dropped the ball, dribbled it a few times, then passed it to Reynolds, who in turn bounced it once or twice, then shot, can all be done in two seconds.

The game should have been over long before Reynolds ever got the ball!

Coach Gibson didn't say anything about a protest after the game over the radio, but I just hope something is done about it. At least a new buzzer puncher should be found. I know of at least 10,000 who would volunteer.

Bobby Muller

Dear Editor:

What time do you have? 9:55? 10:00? 10:05? That is the number one question on the Tech campus. Who's sure who has the correct time?

To me this seems to be the main topic of conversation and thought. Nobody has the same time. The dormitory clock is ten minutes faster than central standard time, and everybody else's time falls somewhere in the happy media. So what is done? Everyone sets their watches by the fastest time on the campus (which usually turns out to be the dorm clock) and goes on their merry way hoping to be on time.

What are the purposes of the clocks on this campus? Are they to give out as many late minutes as utterly bearable, or are they to make double sure that everyone is early to class? Who knows?

The only possible way to end this problem is to set every clock on campus by the correct universal time and keep them that way.

Can't we please synchronize our clocks and watches?

Sincerely yours,
Marianne Melzer

We're looking forward to meeting you

We'll be on the campus on the dates listed below, ready to give engineering and science seniors information on space-age careers in a dynamic industry. If you are looking for a company offering assignments on programs of unique interest and career potential, you'll be interested in the advantages Boeing can offer you.

Boeing, for instance, is a major contractor on such advanced programs as the Saturn S-1B advanced first stage booster, the Dyna-Soar manned space glider, the solid-fuel Minuteman ICBM, and the Bomarc defense missile system. Boeing is also the world's foremost designer and builder of multijet aircraft, including the eight-jet B-52H missile bomber, the KC-135 tanker-transport, the C-135 cargo-jet, and the famous Boeing 707, 720 and 727 jetliners. In addition, Boeing's Vertol Division is one of America's leading builders of helicopters.

Research projects at Boeing are under way in such advanced fields as celestial mechanics, solid state physics, nuclear and plasma physics, flight sciences, space flight and propulsion.

Expanding Boeing programs offer exceptional opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electrical-electronic and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

Drop in to your Placement Office and arrange for an interview. We're looking forward to meeting you!

As Parties Campaign

Tech Politics 'Jump'

Tech's contribution to the slogans, slanders and general political buffoonery of the gubernatorial race are two eager groups of young Republicans and Democrats. Both parties plan participation in the race besides their regular activities.

Neither party expresses a preference in candidates before the primary, but let individuals support whom they choose. Although independent of the major parties, these groups have aligned themselves with party principles and co-ordinated their efforts.

The Young Demos, headed by Don Jones on campus, and the

Young Republicans, headed by Kip Glasscock, work for all the candidates of their party on every level. Each group has tentative plans for candidates to visit the area.

"Daniel will be the man to beat," Jones commented, "but Connally will get stronger." Of the other candidates entered, Jones indicated Yarborough as a major contender.

The Republican field is dominated by Jack Cox. He polled 43% of the votes in the last election as a Democrat and is contested by only Roy Whittenburg and Harry Diehl. Republican strength has been increased in late elec-

tions giving to the race more contention than in recent years.

After the primaries decide the two men to run, both parties will line up to battle out the issues. The campus parties will work with county and local affiliates in the campaigning.

Speech Staff Adds Members

The Tech Speech department has two new faculty members this semester. Mrs. Sam Hildreth and Mrs. David Dean have been hired to work part time, said Dr. P. Merville Larson, head of the department.

Spring 'Harbinger' Sets Deadline

Deadline is March 9 for entries in the "Harbinger," according to Grover Lewis, editor.

Categories for the magazine include fiction, poetry, formal and informal essays, satire, translations, original art work and gallery photography.

Entries are to be turned in to C&O 126. Under-graduates, graduates and ex-students are eligible to submit their work.

Two of the judges for the material have been selected. Larry McMurtry, instructor at TCU and author of the book "Horseman, Passby," will judge the fiction. Poetry judging will be done by Dr. James Brown, instructor at North Texas State.

Burnett Will Interview Prospective Graduates

Richard M. Burnett, associate director of personnel for Albuquerque Public Schools, will interview all interested 1962 graduates majoring in Elementary and Secondary Education Tuesday.

Dr. Charles Romine, personnel director, Jefferson County Public Schools, Lakewood, Colo. will begin interviews Thursday, Feb. 15.

Interviews Thursday for teaching positions in high schools for students with majors in English, and Spanish-French combinations; in junior high schools for students with majors in English, social sciences or women's physical education; and in elementary schools will be with Norland W. Strawn, superintendent of schools, Tucumcari, N.M.

Jerry D. Holland, director of personnel services, Baldwin Park, Calif., will begin interviews Saturday — for persons with majors in all levels of elementary education; mathematics, English, science and home economics in secondary education.

Appointments for interviews may be made at the placement office on or after Tuesday at 1:15 p.m.

Thespian Group Will Reveal Cast

The speech department will announce the cast for its new play, "The Cave Dwellers," by Saroyan, 7 p.m. Monday in the Theatre Green Room. The names of the cast will appear in the Toreador Tuesday.

Placement Office Asks Grads To File Information Blanks

Graduates for 1962 are requested to turn in Personnel Information Forms at the placement office on Feb. 12, 13 and 14, if they have not previously done so. Students are requested to turn in the forms to permit the Placement Service to proceed immediately with file processing.

Filing of the forms with two glossy print photographs, size 2" x 3," is a requirement for graduation. Photographs may be filed later. If a personnel form has been filed previously, students may come to the office to make revisions.

The forms may be secured from the offices of the deans of the schools or from the Placement Service, Room 252, West Engineering Bldg.

THE TRUE AND TRAGICAL TALE OF HAPPY JACK SIGAFOOS

Who would have thought that Happy Jack Sigafoos, the boy who never tettered on the edge of a life of crime?

Certainly there was no sign of it in his boyhood. His home life was tranquil and uplifting. His mother was a nice fat lady who hummed a lot and gave baskets to the poor. His father was a respected citizen who could imitate more than 400 bird calls and once saved an elderly widow from drowning in his good suit. (That is, Mr. Sigafoos was in his good suit; the elderly widow was in swimming trunks.) Happy Jack's life was nothing short of idyllic—till he went off to college.

Here Happy Jack quickly became a typical freshman—tweedy, seedy, and needy. He learned the joys of rounding out his personality, and he learned the cost. His allowance vanished like dew before the morning sun. There were times, it grieves me to report, when he didn't even have enough money for a pack of Marlboro Cigarettes—and you know how miserable that can be! To be deprived of Marlboro's matchless flavor, its easy-drawing filter, its subtly blended tastiness, its refreshing mildness, its ineffable excellence, its soft pack or flip-top box—why, it is a prospect to break the heart in twain!

Marlboro-less and miserable, Happy Jack tried to get more money from home. He wrote long, impassioned letters, pointing out that the modern, large-capacity girl simply could not be courted on his meager allowance. But all Jack got back from

home were tiresome homilies about thrift and prudence.

Then one dark day a sinister sophomore came up to Jack and said, "For one dollar I will sell you a list of fiendishly clever lies to tell your father when you need some extra money."

He gave Jack the list of fiendishly clever lies. Jack read:

1. A bunch of us fellows are getting together to buy a new house for the Dean of Men.
2. A bunch of us fellows are getting together to buy a headstone for Rover, our late beloved dormitory watchdog.
3. A bunch of us fellows are getting together to endow a chair of Etruscan Art.
4. A bunch of us fellows are getting together to build our own particle accelerator.

For a moment poor Jack was tempted; surely his father could not but support all these laudable causes. Then Jack's good upbringing came to the fore. He turned to the sinister sophomore and said, "No, thank you. I could not deceive my aged parent so. And as for you, sir, I can only say—fie!"

Upon hearing this the sinister sophomore broke into a huge grin. He whipped off his black hat and pasty face—and who do you think it was? None other than Mr. Sigafoos, Happy Jack's father, that's who!

"Good lad!" cried Mr. Sigafoos. "You have passed your test brilliantly." With that he gave Happy Jack a half million dollars in small bills and a red convertible containing power steering and four nubile maidens.

Crime does not pay!

© 1962 Max Shulman

Money and girls haven't changed Happy Jack. Except for the minor bulge in his cashmere jacket caused by (1) a pack of Marlboros and (2) a box of Marlboros, he's the same old Sigafoos.

Buy Tech Ads

Is this the only reason for using Mennen Skin Bracer?

Skin Bracer's rugged, long-lasting aroma is an obvious attribute. But is it everything?

After all, Menthol-Iced Skin Bracer is the after-shave lotion that cools rather than burns. It helps heal shaving nicks and scrapes. Helps prevent blemishes. Conditions your skin.

Aren't these sound, scientific virtues more important than the purely emotional effect Skin Bracer has on women? In that case, buy a bottle. And—have fun.

Tourney Winners Leave for Austin

LEAVING FOR AUSTIN THURSDAY

...standing, left to right, Jim Wilkerson, Skipper Gilliam, Ronnie Odom, Ralph Posey. Seated, Berry Orr, Eddie Minterand and Dallas Biggers, trip sponsor.

(Staff Photo)

Eight Texas Tech students will depart Thursday for Austin as a result of performances turned in during two Tech Union tournaments run off last weekend.

Six of the students will be representing Tech in the regional inter-collegiate bowling tournament and the other two will be the Tech representatives in the regional inter-collegiate billiards tourney.

In the local tournaments, which ran from Jan. 31 through Feb. 4, Berry Orr and Eddie Minter won the top two places in the billiards tournament and Ralph Posey, Marvin Henderson, Amos Greer, Skip Gilliam, Ron Odom and Jim Wil-

kerson were the top six in the bowling eliminations.

Should any of the Tech students finish in the top four of their respective tournaments at Austin, they will win expense-paid trips to the national tournament. The bowling finals will be at the University of Iowa this year, with final billiards competition at the University of Indiana.

Last year Tech students won three places at the regional meet at Texas A&M and sent one student, Henderson, to the national finals. The medals won last year were for second in team competition, third in doubles and first in singles.

Swimmers Face Texas In SWC Meet Today

With the conference meet only a month away, Coach James McNally and his Tech swimmers are currently looking toward upcoming dual clashes with the University of Texas and Texas A&M at Austin and College Station today and Monday respectively.

Although the Southern Methodist tankmen are expected to win the Southwest Conference crown by the largest point total ever, the battle for second place between Tech, A&M and Texas could turn

out to be a real donneybrook.

So far the Longhorns have lost their only meet of this campaign to Oklahoma, 61-34. According to Coach McNally - the Texas team possesses the conference's two best divers in Gordon Beavers and Earl Beaty. This event could be a particular hardship for the Raiders in that their No. 1 diver, Richard Vawter, probably is out for the season with a knee injury. Sophomore Rick Beard has been doing a fine job but lacks experience.

Also making a strong showing for Texas will be freestyler Jack Smith and breastroker Richard Wirthington. Team captain Jack Shipley and Glenn Shoup will probably oppose Smith for Tech.

Carroll Henderson, an outstanding all-around swimmer, will also be a tough foe for the Raiders. Coach McNally feels that if Tech tankers can top Henderson in his events, the Raiders' chances of racking up their first swimming victory in history over Texas will be greatly magnified.

The Aggies, whom Tech will meet on Monday, were victorious in their lone meet thus far this year over Gustavus Adolphus of Minnesota.

Tech, Baylor Play In Waco

WACO—Texas Tech's Red Raiders, cut down to an even par with other Southwest Conference teams by lowly TCU Tuesday, try to take their vengeance on another of the conference's "cellar dwellers" at 8 p.m. today in Heart O' Texas Coliseum here.

Their opponents are the Baylor Bears, who won their first conference game of the season Tuesday against Arkansas on the same floor as tonight's game.

Before Tuesday's action, Texas Tech was riding high and mighty after a successful road trip that saw them rack up impressive victories over Southern Methodist and Arkansas.

But Texas Christian's Horned Frogs put a damper on the Raiders' hopes where Coach Gene Gibson's cagers had gone unbeaten for almost two years against more

respected foes. It took a disputed field goal by Phil Reynolds to do it, but the Frogs beat the Raiders, 65-63.

It will be the second meeting of the year between the two SWC foes. Tech won the first, in Lubbock's Municipal Coliseum, by only four points, 55-51, so the Raiders are feeling none too cocky about the match here.

Although Texas Tech has been successful in its games with Baylor at Lubbock, the Raiders have had trouble running over the Bears in the matches here. Tonight's game will break a tie, since the two clubs stand 2-2 here.

If there's anything to gain from the contest, the Raiders probably claim it. They're currently in a first place tie with Texas A&M and need a win to stay in close contention for their second straight

title. The Aggies play SMU at Dallas tonight, so there's a good possibility that Tech could take over undisputed possession of the lead again if they overcome the Bears.

A slightly different lineup greets the Raiders in the second meeting. Wayne Bailey and Herb Barrett led Baylor in scoring in the first match, and they'll be on hand again tonight, but in Don Brownlee, a 6-1 junior guard, the Bears have an added threat the Techsans didn't see much of last time. Roy

Wolfe and Meadow's Harold Hensons round out the Baylor starting five.

For reserve strength, the Bears can turn to Bill Moore, 6-4 junior; Ronnie Phelps, 6-2 sophomore; and Galen Schwaner, 6-4 sophomore.

To oppose Coach Bill Menefee's Bears, Texas Tech probably will stick with its usual starting unit—6-10 center Harold Hudgens, 6-3 senior forward Mac Percival, 6-4 forward Bobby Gindorf, 6-4 guard Roger Hennig and 5-10 guard Del Ray Mounts.

To aid Tech's front line are juniors Milton "Mo" Mickey and Gilbert Varnell and sophomores Sid Wall, Mike Farley, Mike Gooden and Royal Furguson.

Tech's record stands at 11-5 after last week's loss, while Baylor is 4-13. Prior to the Arkansas win, Baylor had dropped 11 straight.

In other SWC games today, Texas A&M plays Southern Methodist at Dallas, Arkansas plays TCU at Fayetteville and Texas plays Rice at Austin.

Tech Sees Action In Fort Worth Meet

Texas Tech's track team will see heavy action again today, as Coach Don Sparks and nine Red Raider cindermen have journeyed to Fort Worth to take part in the Will Rogers Indoor Games tonight.

The mile relay foursome, winner of one indoor meet already this year, has the highest hopes of any Tech entries. Curtis Hart of Andrews, Don Mason of Brownfield, Guy Golden of Stephenville and Norman Donelson of Stanton carry the ribbons for the Raiders in this event.

One member of this relay team,

however, has ambitions of duplicating in this meet his performance in the Lubbock Invitational meet Feb. 27. Golden entered the 600-yard dash here and won first place honors. He's one of the favorites in the field for the Fort Worth race.

Other Tech athletes entered are Ronny Biffle of Anton and Bob Swafford of Abilene in the hurdles, Franklin Wood of Stephenville in the 60-yard dash, Gary Don Bowe of Happy in the 1000-yard run and Roger Gill of San Antonio in the broad jump.

Johansson Wins On Knockout To Start Up Comeback Trail

GOTEDORG, Sweden (AP)—Ingemar Johansson, former world heavyweight champion, knocked out Joe Bygraves in the seventh round Friday night and took the first step in his comeback campaign.

It was the first time that Johansson had fought since being knocked out by Floyd Patterson, current heavyweight king, last March 13, Bygraves, a Jamaican, is the former British Empire heavyweight champion and is making

a comeback of his own following the fracture of a leg last year. Johansson had said prior to this fight that if he lost he'd hang up his gloves for good.

On the Associated Press card, Bygraves took the first round but Johansson took the rest.

Midway of the second round, Johansson landed a short right smack on Bygraves' jaw. Bygraves went down for a count of four and never fully recovered from that knockdown.

Tapa Prints

The bark cloth prints of the Hawaiian Islands inspired us to design a new collection of shirts completely different in coloring and pattern.

We are sure you will want to add one or more of these fine shirts to your casual wardrobe.

Tailored so well it looks personally measured. Button-down collar-tapered waistline.
