TEXAS TECH

NUMBER 1

New Members Are Added To College Staff

Three Professors Leave To Study In Other Colleges And Universities During Year

Many Changes

Six New Appointments Made In Division Of Arts And Sciences; Two In Music

ELEVEN new faculty members have received appointments for the ensuing academic year, according to official announcement from the president's office. Three professors have been granted a year's leave of absence.

Eugene Bule, assistant professor of agricultural engineering, is the only new faculty member in the division of agriculture. He has a B. S. degree from Texas A. and M. Graduate on Faculty.

James Atcheson, Tech graduate in the division of engineering, has been appointed part-time instructor in Elements of Architecture.

Two new professors have received appointments in the division of home economics. Elizabeth E. Hawley, who holds two degrees, one from Oberlin and one from Columbia university, will serve as part-time instructor. Miss Mozelle Craddock, who will be head of the department of institutional management and business manager and dietitian of both dormitories. She holds a masters degree from the University of Chicago.

Plank Added To Staff

There are six new appointments in the division of arts and sciences. E. H. Plank is acting professor in the department of economics and (Continued on page six)

Plans Outlined For Toreador

Staff Appointments Are Not To Be Made Until The Opening Of School; Features Added

With the opening of school approaching, staff members of The Toreador, official college publication, are making preparations for the coming year.

Staff appointments by Lomer Nelson, editor, are not yet complete, pending beginning of school. David Rutledge, business manager, has not definitely selected his business staff. The four schools of the college will receive complete coverage and will be represented by a special reporter who will cover all news in their respective schools.

A Student Forum

The paper will carry a student forum this year as a regular feature and the students will have an opportunity to voice their opinions on all subjects. Special art heads have been designed for the sports page by Everett Fairchild, artist.

A staff meeting is scheduled for October 1 in the Toreador office in the basement of the engineering building, October 1 at 1:00 p. m. The first regular issue of the paper will appear on Thursday, October 4.

The staff will be selected from the following: Clay Thompson, Finis Mothershead, Bob Tracy, Elizabeth Dryden, Lloyd Glover, Lorena Childers, Ruth Hurmence, Jim Lindsey, G. W. Durham, Elmer Fortner, Ed Weaver, Josephine Powell, James Etheridge, Lorenz Oliphant, Doris Mullins, Opal McMahon and Edith Young.

All others interested in journalism are urged to attend the first staff meeting.

Students Homesick For A Rolling Campus Will Follow Trail To Tech

By RUTH HURMENCE

THERE'S a trail a-winding back to Tech this fall, and hundreds of students, homesick for a rolling campus, will be following it soon. All through September the college on the plains had only empty buildings and a lonesome campus, but October will bring back the rhythm of hurrying feet and a bevy of eds and co-eds in gay collegiate clothes, eager to greet old friends and make new ones.

College Comes To Life

Book-laden students will once more litter the cloisters. Hugs in the halls, and flirt at the bookstore. Husky football players again will crash through the enemy's lines. Bands will blare and feet will dance. Professors will get out frayed lecture notes. Hitchhikers will haunt Broadway. Tech freshmen will flaunt green caps. Midnight oil will burn, just before exams. And the library will still be too small.

The campus is all dressed up for

New Tech Dormitories Are Nearing Completion

Work Is Expected To Be Finished By School Time In October; Officials For Capacity Of The Dormitories—Live In The Dormitories.

COMPLETION of Tech's two new dormitories, which will house approximately 650 students this year, is expected before school opens on October 1.

The two imposing structures, flanking the College Avenue entrance to the campus, were built as a result of a Public Works Administration loan of \$672,000.

Appointments Made

Announcement of the appointment of Miss Mozelle Craddock who holds bachelor's degrees from the University of Texas and C. I. A. and a master's degree from the University of Chicago, as dietitian and manager of the two dormitories, was made by President Knapp. President Knapp also announced the appointment of Miss Elizabeth H. Young, of Fort Worth, as housemother of the women's dormitory and Mrs. Fred S. Buford, of Dallas, as housemother of the men's dormitory.

Regulations adopted by the Tech Board of Regents require that all students who do not live in the city of Lubbock must—to the full

capacity of the dormitories—live in the dormitories.

Buildings Well-Furnished

The buildings are of fireproof construction and are well-furnished and equipped with modern facilities.

Each room in the new dormitories will be equipped with a double study table, individual study lamps, 9 x 12 Axminster rugs, arm chairs, individual beds which will fold into the closets during the day, dressers in the girls' rooms and chest of drawers in the boys' rooms.

In addition to a large dining room in each dormitory, there is a lounge or parlor to promote the social life of the students.

The rates for room and board in the dormitories are to be \$2.50 per student for regular double rooms. Corner rooms, which have windows on two sides are \$2.50.

Regulations Cited

The board of directors adopted the following regulations affecting these dormitories:

"The college considers it a distinct advantage to the students to live in the dormitories on the campus. It is not intended that these dormitories should be exclusively occupied by freshmen. They will be used by the administrative authorities in charge of them to improve the social and educational life of those who occupy these two new buildings."

Two New Ticket Booths Are Built On Campus

Two new ticket booths, one at each entrance to Matador field on the south, have been erected to replace the old wooden structures.

The booths conform in architectural style with the other buildings on the campus. They are constructed of brick with a steel reinforced concrete foundation and a red tile roof.

According to the contractor, W. G. McMillian, total cost of the two booths will approximate \$400.

Texas Steers Working Daily For Tech Tilt

Score Of Seasoned 1933 Lettermen Fight To Hold Places; Chevigny Pessimistic

Austin, Sept. 13 (Special)—Coach Jack Chevigny and Tim Moynihan are hustling their big herd of Texas university Steers through two stiff workouts daily in preparation for the encounter with the Texas Tech Matadors at Lubbock, September 22.

Sixty-five huskies are now undergoing training and jumping to the barking orders of coaches. A score of seasoned lettermen from last year are fighting to hold their places.

Chevigny Talks

A cloud of pessimism hovers over the Longhorn camp when possibility of stopping the Matadors is mentioned.

"We're opening the season with one of the toughest teams on our schedule," Chevigny said when queried regarding the game with the Plainsmen, "and our chances of upsetting the Red Raiders are not any too good. We know we are in for trouble and plenty of it."

Workouts thus far indicate that the Longhorn line will be composed mostly of experienced players. At the pivot post Co-captain Charley Coates is expected to bulwark the forward wall. Strongest candidates for the guard position are Marshall Pennington and Joe Smartt, regulars last season. Other men who may break into the starting lineup under the Chevigny regime include Rex Phillips, Woodie Weir, and Butter Wyman.

Plenty Tackles

Tackles likely to see the most service against the Matadors are Big Jim Tober, Fred Beatty, Louis Oliver, Paul Taylor and Clint Small, jr. With the shifting of Charley Coates the tackle posts are open to newcomers. The wingmen who seem destined for starting berths are lanky Jack Gray and Phil Sanger, both regulars of 1933. Other prospective ends include Jack Collins, Homer Tippen, and Harris Van Zandt.

The secondary that will take the field behind a fairly powerful line (Continued on page six)

New Courses Are Offered To Students

Geophysics Is Listed In Geology Department; General Course Will Be Offered Again

Subjects Named

Clay Modeling Has Been Added To Department Of Architecture And Engineering

MANY new courses have been added to the college curriculum and will be instituted during the first and second semesters.

A new course, geophysics, has been added in the geology department and will be offered in the last semester. "Principles of Geology," which was introduced last year, will be offered again this fall. It is intended for students who desire a course in geology for cultural purposes only.

There are three options in textile engineering—chemistry, dyeing, textile and design option and the regular four-year engineering course. There is a general course in textiles designed for everybody. There is no prerequisite and a big enrollment is expected.

Many new courses are listed in mechanical and architectural engineering. New courses in mechanical engineering include general wood work, sheet metal work, welding practice, farm shop work and air conditioning.

New courses listed in architecture are clay modeling, "History of Sculpture" and "History of Civilization."

A new course in rural engineering and farm machinery has been added in the division of agriculture.

A course in typography will be offered for the first time by the journalism department during the second semester.

Large Band Is Predicted By New Tech Director

Wiley Expects 100-Piece Organization For Current Year

TECH will probably have an active 100-piece band this year, according to D. O. Wiley, new director and former leader of the famous Cowboy band of Hardin and Simmons university.

Practice began Tuesday for approximately 50 Matador musicians and this number is expected to increase with the opening of school. The band is rehearsing early in order to play at the Tech-Texas game Sept. 22.

Uniformed Band

The band will be uniformed this year although the type of uniform to be used has not yet been determined but it is probable that the costume chosen will carry out the Spanish theme of the school. Uniforms will not be available for the Texas game but will be ready within the next few weeks.

"I don't know yet whether the band will make any trips with the football team or not," Wiley said. "It all depends on whether the necessary funds can be raised. We hope, however, to be able to make at least one trip with the Matadors."

Oliver (Chick) McElya is the present manager of the band. Other officers for the organization are to be selected when school opens.

Headquarters Made

Headquarters for the Matador musicians are in room 105 of the textile building. The room has been completely renovated with the idea of eliminating unnecessary sounds and echoes. The band will hold its regular practice sessions there.

Fish Caps Go On Sale At Hemphill-Wells October 1

Fish caps will go on sale October 1 at Hemphill-Wells.

The caps this year are green with red letters and button. The price is one dollar, all of which is returned to the school. Fifty cents goes to the student loan fund and fifty cents to the Matador club.

Band Leader

D. O. WILEY

Second Yaqui Party Leaves On Expedition

Dr. Holden Heads Group; Plan Further Study Among Indians Of Rio Yaqui Region

Another Texas Tech expedition left Lubbock Thursday bound for the Rio Yaqui region in the lower end of the state of Sonora, Mexico. This is the second Tech party to move into the primitive Yaqui Indian country under the direction of Dr. Holden, professor of history and anthropology.

Those making the trip from here in addition to Dr. Holden are Dr. E. A. Studhalter, head of the department of biology; Dr. C. B. Qualla of the department of foreign languages; and Dr. C. J. Wagner of the West Texas hospital staff.

Wells To Make Trip

The party enroute will pick up Philip Wells, University of Arizona student who was born in Mexico, to act as interpreter.

Dr. Holden will make a further study of the social institutions of the Indians while Dr. Wagner will further his medical investigations among the natives. Dr. Studhalter plans to collect more data on their primitive agricultural methods to complete his report.

The party will return September 30, and while in Mexico will make its headquarters in the village of Torin.

This journey into Yaqui country is a follow-up of the successful expedition made by the Tech group headed by Dr. Holden last April which brought back many valuable scientific discoveries from the Indian land which no organized party had ever before entered.

Artist Creates Collegiate Kids For 1935 Annual

Frankenstein made a monster. Everett Fairchild, 1933 editor of La Ventana and art editor of this year's annual, now creates Oscar and Ophelia, two typical collegians.

Wide-eyed, fun-loving personalities subject to finger tip control, they will perform at various times and at familiar places as the college calendar becomes history.

Oscar would crash a dance, join a club, make the winning touchdown, live in the girls' dormitory and talk back to Prexy or traffic cops—over the telephone.

Ophelia desires a room near the fire escape, dates, make-up, attention, fun, activity and athletics. Watch her go!

There will be no coming out party for this couple; but if you see staff members playing with mud dolls, whitening soap or making doll clothes you are on the trail and may get a prelude of the two. Their college year will be recorded with yours in Howard Reed's and Hal Hitchcock's 1935 La Ventana.

Texas Exes Will Dine At Hilton Before Game

William H. Evans, president of the local association of Texas Exes, has planned a "Longhorn" supper at the Hilton hotel Saturday night, September 22, to celebrate the first appearance of the Texas university team in Lubbock.

After the supper the party will go to Matador field where they will see the Longhorn-Matador football game.

Tenth Session Opens At Tech On October 1

Freshmen Will Register On October 1; Upperclassmen And Sophs On October 2

Study Catalogue

Physical Exams Required Before Registration; Lubbock Sanitarium To Conduct Tests

TEXAS Tech begins its tenth year on October 1 and the second year under the semester plan. Enrollment this fall is expected to be at least equal that of last year, according to Dr. Bradford Knapp, president of the college.

Registrar W. P. Clements has almost completed registration plans. Registration is scheduled for October 1 and 2 in the college gymnasium. The entire staff of the college, including the deans, will be on duty these days. Freshmen will enroll on October 1 and sophomores and upperclassmen on the following day. All students are urged to enroll on these days and those who defer registration after these dates will encounter conflicts due to closed sections and large classes. All classes will begin promptly at 8:00 o'clock on Wednesday, October 3.

Requirements

All former students will be required to have a gradebook and all new students and transfers will be required to present an entrance card, which is issued by the registrar's office. Gradebooks have not been mailed out except on special request, and former students are (Continued on page six)

College Prexy Greets Studes

President Knapp Extends Welcome To Old And New Students For The Coming Academic Year

Our big family is coming home for a reunion on October 1; school opens on that day. The older children of the family will be here, of course, and the lusty hundreds of new ones will be joining with us for a year's work. I am sure all of us will be happy to be back on the old familiar campus. We will have our vacation experiences to recount to each other, and will all be looking forward to the new spirit of the new year—the tenth year of the history of Texas Tech.

I extend to everyone of you a cordial, earnest and affectionate welcome. Back to school where work and play, and companionship and growth can all be intermingled in proper proportions to develop here our capacity for the lives which lie before us.

Sincerely,
BRADFORD KNAPP,
President.

Notices Of Approval For FERA Jobs Sent Students

Notices of approval for the U. S. Federal Emergency Relief Administration for student aid were sent to 216 students Friday morning. More than a thousand students applied for this work.

Each student is required to fulfill the following specifications: To enroll and pay fees not later than October 2; enroll for and do creditable work in a minimum of 12 semester hours; discharge the duties assigned to the satisfaction of the faculty supervisor; private life and method of living must be consistent with application; and the student must comply with the rules and regulations in Texas Technological college.

Studes Are Asked To Sign Pledges

Students enrolling in Tech this fall will be asked to sign the following pledge attached to registration cards:

"In becoming a student of Texas Technological college, I hereby pledge myself as a student to the laws of the State of Texas, the United States of America, and the regulations of the Texas Technological college. I pledge conformity to those highest standards of conduct which are universally recognized in good society and among honorable men and women. I especially pledge obedience to the laws of the State of Texas against hazing, and to refrain from encouraging, aiding or assisting any other person in any hazing enterprise."

Tech's Tenth Anniversary

TEXAS Tech is turning into its tenth year with a future that looks as bright as any of the previous years. With the completion of the 1934-35 session, the "baby school" of the state will have rounded out a decade of educational service.

Tech has set records during the past and it will continue to shatter records in the future. Enrollment figures each fall have always surpassed those of the previous year, and this one promises to be no exception. Despite adverse conditions over which we have no control, Tech will continue to march forward.

Judging by the flood of inquiries concerning matriculation, Dr. Knapp predicts that the enrollment will at least equal the high mark of last year. There is every indication that it will go ahead.

One hears on every side cries of hard times, drouth, empty coffers, and the land that once flowed with milk and honey is now purported to be barren and unproductive with recovery very uncertain. This is indeed a gloomy picture for youth seeking an education. But it takes more than a few depressions and drouths to deter the growth of Texas Tech.

The Toreador urges all prospective students to start the new college year off properly; prompt registration and payment of fees will prevent confusion and waste of time.

Be here and ready for registration day, ready to cooperate in every way to make the tenth anniversary of Texas Tech a memorable one.

Welcome to our campus, freshmen. Welcome back, old students.

A "New Deal" For the Band

ONLY a few more days and Prof. D. O. Wiley's Tech band will be playing the Matador song and other stirring tunes at the opening football battle with the University of Texas.

A band is as necessary to a football game as is the referee. A good band inspires a team and is really the "twelfth man." Nothing helps more to promote and preserve college spirit than does a group of well-trained musicians.

A well-organized, neatly uniformed band reflects to the credit of any school and for this reason, if for no other, the student body should take pride in its band.

Band members started rehearsing for the coming year the next day after football training got underway, and they will continue to practice regularly for the rest of the year. As in football, it requires much hard work to produce a good band. Tech is gaining renown for its crack football teams. With Wiley at the helm, it won't be long until the school becomes equally as famous for its good bands.

Tech is fortunate in having a band leader who can "deliver the goods." Under Wiley's direction, the Simmons and Hardin university Cowboy band became internationally known. With help he can do the same for Tech. Under his leadership it means a "new deal" for the college musicians.

What could be a better advertisement for Tech than to send the band to Los Angeles, Oklahoma City or to Tucson with the Matadors? A well-drilled band would help further to spread the fame of Tech.

But then the band must have material aid to function properly and smoothly. Heretofore members of the band have had to pay their expenses if that organization accompanied the football squad to out-of-town games. In some instances the band has had to sponsor campaigns to raise money, or to accept donations from supporters of the band.

As has been the case in the past, finances are at a low ebb as far as the band is concerned. Uniforms must be purchased and if the musicians are to travel with the Matadors, a certain amount of money must be raised.

Why shouldn't this worthy organization receive aid from each student and faculty member of the college. Since assistance doesn't seem forthcoming from any other agency, it is up to the students to aid the cause.

Why not establish a \$1 fee, similar to that of the artist course, and by this means the band would have a sinking fund for all expenditures. This would be the wisest investment that one interested in the support of the football team, and recognition the college would receive, that could be made.

The band needs your support.

Our New Dormitories

TWO imposing gray-brick structures are now nearing completion on the campus and a long felt need at Texas Tech has been realized. When the Public Works Administration at Washington granted a loan of \$650,000 to the college for the dormitories it meant another step forward in the development of the school.

It means that at last Tech is getting something that has been needed since it opened its doors to students in 1925. Dormitories located on the campus proper will solve many problems that have been in existence for nearly a decade.

First, it will go a long way toward solving the housing problems of a student body of more than two thousand. More than six hundred students will be banded together for one purpose—to get an education.

College authorities can now mobilize a majority of the students in comparatively quick time whereas in the past it was difficult to muster a few.

But construction of the dormitories means more than just physical advantages. They will unite the student body in a closer bond of fellowship which is not so evident in the various boarding houses.

Citing instances in other colleges it is found that the spirit of friendship and loyalty is stronger in schools that have their own housing facilities than in those that do not. The college atmosphere is more prevalent in dormitories and students naturally feel more at home. If students are scattered to the four corners of the city it is probable that they will meet and mingle with only a small per cent of their fellow classmates. The dormitories signify more to Tech than just a mass of brick, concrete and steel.

Erection of these buildings is an achievement that deserves the highest of praise and The Toreador at this time wishes to commend those responsible—Dr. Bradford Knapp and the board of directors of Texas Tech.

Prexy's Paragraphs

By BRADFORD KNAPP
1934-35 will go down in history as the year Texas Tech took a step in advance. The new dormitories will mean a lot to the social life and scholarship at this institution; they will serve the purpose of bringing all of us closer together. Part of our education we get from books, from class rooms, laboratory and library, part of it we get from the personal ability of our teachers, and a very important part of our education we get from our association together. For these reasons whatever promotes social contact among the students of an institution contributes to the education of the student body.

The college freshman is taking possibly one of the most important steps in his or her life. For the first time in your life, as a rule, you will be out from under the immediate control and direction of your parents. You will be on your own responsibility, you will have the opportunity of making new friends. For the first time you must face the problem of making your own decisions—you must not be led around by the nose. You need constantly to pray that old prayer: "Lead us not into temptation, but deliver us from evil." At some time in one's life this step has to be taken; at some time you will have to learn to stand on your own feet, and develop your own character.

The new year presents an opportunity for further growth and development of the college itself. Our job here is to develop men and women, to help them to expand and add to their own capacity, intellectually, morally and spiritually. I pray that the year ahead of us may be one of continued success in the great field of education.

Bradley's Band Returns From Long Engagement

Ned Bradley's collegian dance band has returned to Lubbock from Ruidosa, New Mexico where it played a 13-weeks' engagement at Navajo Lodge.

The band played its local opening engagement Saturday, September 8 at the Hilton hotel. The band will play for the T. K. O. annual dinner dance, September 17, and for the annual homecoming dance October 1.

A new member, Jack Littlejohn of Amarillo, has joined the orchestra. He does vocals and novelty stunts and of late has been with Largent-Peret.

The personnel of the band in addition to Bradley and Littlejohn consists of: Colby Delaney, Wilmet Eaton, Richard Godecke, Robert Kornegay, Gerald Geyer, K. Carter, Felix Walker, and Harold Humphries.

Miss Mary Leidigh has gone to Oklahoma City where she is enrolled for an eight month's course at the University hospital.

Among the Alumni

Texas Tech alumni held a banquet and business meeting at the Hilton Hotel June 4. New officers were elected and changes in the constitution made.

Officers elected were: Mart G. Pederson, president; J. Doyle Settle, first vice-president; Bill Collins, second vice-president; J. W. Jackson was reelected as alumni representative to the Athletic Council; R. C. Middleton was elected to serve on the board of directors for a three year term; J. E. Spear, president of the Alumni last year, was retained as a member of the board of directors; Miss Mamie Wolfarth was appointed secretary-treasurer of the association.

Constitution Changed
An amendment to the constitution was made whereby all ex-students are eligible to membership in the association. Hence the name was changed to Alumni and Ex-students association.
A big homecoming celebration is

being planned for the DePaul game here October 16. At this time plans will be made for Tech's Tenth Anniversary celebration which will probably be in the fall of 1935.

The association has a larger membership than ever before at this time of year.

All alumni and ex-students are urged to pay their dues which is one dollar. The Toreador will be

mailed out this year to all those who are members of the association. An activity ticket for the year can be purchased at student prices.

All ex-students are requested to write the secretary of the association for further information.

Carroll Thompson, Jr., is planning to attend the law school at Texas university.

Here And There With Techsters

Rob O'Hair and John Vickers are to study law at the University of Texas. Both are Tech graduates.

Miss Coleta Baker is to attend State University this fall.

Miss Eleanor Halbert is to enroll as a student in the University of Texas this fall.

Miss Martha Gholson is to attend Texas university.

J. Preston Conner is in Boston where he is to do graduate work at Massachusetts Institute of Technology.

Bob Tracy, editor of The Toreador last year, is at home in Houston after attending both sessions of summer school. He is to arrive in Lubbock about September 20.

Miss Lorene Childers, society editor of The Toreador, is visiting in Fort Worth.

Jim Lindsey, Toreador staff member, has been working in Amarillo this summer.

Forrest Weimhold of Tech Press is attending A Century of Progress in Chicago.

Paul Eubanks spent the summer selling Hollands' magazines. He visited in 13 states.

Sara Tom Jones, who was in Tech last year, will teach school in Morton this fall.

Roscoe Clark, Craig McNeese, Newell Hughes and W. T. Stokes are working with the Geophysical Research Corporation in Hobbs, N. M. They will enroll in Tech again this fall and will be here for the Texas game.

Leta Finley, sophomore home ec student from Meadow, is now married to Carl McCarty and living in Fritch, Texas.

Elizabeth Dryden, of the Toreador staff, is at her home in Best, Texas. She went to Mexico City this summer with the Tech archaeologists.

Garland Smith, who graduated in June and is now employed in Lon A. Smith's office in Austin, is to attend the University as a law student.

Parker Taulman has been working for the Tech Press all summer. He will not be back in school this fall.

Roberta Myrick is to study at the University of Texas this fall.

Roger Knapp, son of President and Mrs. Bradford Knapp, is a medical student at Tulane university in New Orleans, La.

Charles A. Crenshaw is studying law at George Washington university in Washington, D. C. Billy Crenshaw is to study law at Texas university.

Miss Billie Bob Jones is to be a sophomore student at the University of Maryland.

Katherine Klett is to attend the University of Texas this year.

Bob Crawford, Rosemary Leaverton Are Married

Robert Crawford and Miss Rosemary Leaverton, daughter of Mr. and Mrs. D. N. Leaverton, 1812 13th street, were wed September 1 in Plainview at the home of the Rev. and Mrs. Walter P. Jennings. The couple is now at home at 1723-B 13th street.

Mrs. Crawford was a student in Tech last year. She has been president of the Sans Souci girls club for two years.

Mr. Crawford, son of Mrs. A. H. Crawford, 2426 20th street, lettered on the Matador football team last year and was formerly a star athlete at Lubbock High school where both bride and groom were graduated. Mr. Crawford is with the Phillips Petroleum company.

Marriage Ceremony Read For Rosamond Langdon

Miss Rosamond Langdon, former Texas Tech student, and Charles Collins, Jr., of Fort Worth, were married September 8 in Glenrose with the Rev. A. H. Boaz officiating.

The bride attended Texas Technological college last year and was an active member of Ko Shari social club. She is the daughter of Mr. and Mrs. G. M. Langdon of Glenrose. Mr. Collins is the son of Mrs. Olive Collins of Fort Worth.

Miss Oma Wright was one of the bridesmaids. Miss Lorene Childers of this city was a guest at the wedding.

Charles O'Neal and Manuel DeBusk, Tech graduates, are to attend George Washington university in Washington, D. C. this fall.

Seven Dances Are Listed For Year

Seven official all-college dances are listed on the Tech social calendar for the year 1934-35. A. W. S. sponsors the opening dance on Oct. 6 and the last dance of the academic year is scheduled for April 13 with the Student Council as sponsor.

The complete list follows:
Oct. 6—Sponsored by A. W. S.
Oct. 27—Sponsored by engineers.
Dec. 1—Sponsored by Aggie club.
Jan. 5—Sponsored by the band.
Jan. 26—Sponsored by Home Economics club.
March 23—Sponsored by W. A. A. Council.
April 13—Sponsored by Student Council.

PROGRAMS PRINTED
Tech Press is printing 11,000 13-page football programs for "Bo" Williams, graduate athletic business manager. Three thousand programs are for the Tech-Texas game.

Miss Johnnye Gilkerson, George Langford Wed

Miss Johnnye Gilkerson and George Langford of Brady were married September 1 with the Rev. Walter P. Jennings of Plainview officiating.

After a wedding trip to Monterey, Mexico, the couple is now at home in Lubbock.

Mrs. Langford is associate professor and head of the department of physical education for women at Tech. She is a sponsor of Las Chaparritas club of which she is a former member.

Mr. Langford, a former Matador football player, is employed by the West Texas Gas company.

April 13—Sponsored by Student Council.

Athletic Tickets Placed On Sale

According to "Bo" Williams, graduate manager of athletics, Tech student season tickets will go on sale Sept. 24 and may be obtained at the business office.

The athletic department announces that student activity tick-

ets will not admit students to the opening game here Sept. 22 with the University of Texas. Season coupon books for non-students have been on sale for several days. Duets for the Texas game were available Monday and will be sold downtown and at the field until game time.

Student activity tickets this year will admit owners to six games and will sell for \$5 plus tax. The McMurry clash was added to the

schedule to have six games in Lubbock when the athletic department found that it would be impossible to allow students to see the Texas game with season athletic tickets.

Ray Moore, president of the student body last year, is at home in Hamilton after attending both sessions of summer school. He will be employed in Cecil Horne's office this fall.

"Cushioned" safe dainty glasses

FUL-VUE NO-SCRU

Lenses are "cushioned" to resist strain and breakage. And No-Scru—that means no screws through the lenses—and no risk to the lenses, because there are no screws to loosen! Rimless glasses, always daintiest and more beautiful, are now wonderfully practical!

TO A FLYING START AT OLD TEXAS TECH!

You are missing a lot—you who have not yet gotten here for the fall 1934 term—

Already activity is apparent on every hand on the old campus—Hurry all you can, for you don't want to miss anything.

The Matadors are here and what a sweet bunch they are this season—work-outs morning and afternoon are fast rounding big fast men into condition—

You'll want to be here of course for the first game—State University will be here on September 22—

The new Dormitories are receiving the final finishing touches—and what a great big addition they are to the roomy campus—A new center of activity with new traditions to be made this season—

Yes—things are fast rounding into shape to welcome you back—and no organization will be more anxious to see you again than this one will—Truly, we have missed you through all the long hot summer and as is always the case, we are looking forward to greeting you, talking with you and having some small part in your activities—

Hemphill-Wells Co

Texas Steers

(Continued from page one)

is a question mark, especially the signal chanter. The only man certain of a place is the "galloping ghost" of the Southwest conference, Co-captain Bohn Hilliard at one of the halfback posts. The list of prospective field generals includes Ney Sheridan, Jimmie Hadlock, Mike Collie, Buster Baebel, and Jim Phipps.

None of the men are especially outstanding at the position and all lack varsity experience with the exception of Baebel who called signals some last year.

Other potentialities for the half and fullback positions include Buster Jurecka, Jay Arnold, Neville Hargrave, Hugh Wolfe, Red Prehisch, Tommy Wetzel and Irvin Gilbreath.

New Members

(Continued from page one)

business administration. He has two degrees from the University of Oregon.

Miss Arnes True has been appointed acting associate professor of education. She takes the place of Miss Bonnie K. Dysart who is on leave of absence to do graduate work at the University of Chicago.

Robert Brittain, instructor in English, succeeds Kenneth L. Knickerbocker who resigned to accept a

Home Ec Club To Sell Date Books

Home Economics club will offer a date book for sale to all students during registration this year.

The book contains a place for the name and address of the purchaser, a complete college calendar, football schedule, messages from Dr. Knapp, the school song, list of all school clubs with the date of their meetings, and a place for the listing of expenses in addition to two lines for each calendar day during the school session to be used as a date memorandum.

Strehl Returns

Alfred E. Strehl, assistant professor of Spanish, returns to the college after a year's leave of absence. Miss Frances Whatley, of the Spanish department, has been granted leave of absence for 1934-35 to do graduate work at Columbia university.

Julian Paul Blitz, professor and head of the music department, takes the place of W. R. Wagborne, resigned. D. O. Wiley is the new director of the band and assistant professor of music. He holds a degree from Simmons university.

Archle J. Bahm has been added to the staff as an instructor in philosophy. He is the holder of a Ph. D. degree from Michigan.

Annual Editor Makes Plans

Howard Reed Announces Contracts Have Been Awarded For 1935 La Ventana

Plans for 1934 La Ventana are nearing completion, according to Howard Reed, editor. He and a few members of his staff have been working on the book all summer.

The tenth anniversary annual will be the regular university size with as many pages, if not more, as last year's annual. The engraving contract has been awarded to Southwestern Engraving company at Fort Worth. Printing on the book has been let to Economy Advertising company at Iowa City, Iowa, and the photography contract to Brown's studio of Lubbock.

The theme of the annual is not to be revealed until later on in the year, although it has already been worked out.

Everett Fairchild, editor of 1933 La Ventana will serve as art editor on this year's book. Bruce Zorn, 1934 La Ventana editor, will also be a member of the staff, according to Reed.

Tech Will Open

(Continued from page one)

urged to call for them before registration.

Students are urged to make a careful study of the catalogue and decide on the course of study before registration day. All freshmen and sophomores, and in some instances, upperclassmen, will be required to follow a master schedule in choice of subjects. Students who are working will be required to get special permission from Cecil Horne or Dean Mary W. Doak before special schedules will be granted.

Physical Examination

All students will be required to have a special physical examination before the day of registration. Lubbock Sanitarium will again

Homesick Students

(Continued from page one)

pendent between the towers of the Ad building, the All-college dances, and the formals with their soft lights, lovely gowns, and tuxedos? These memories are the lure of college. And as Johnny hears the call and remembers the sweet coed he used to court and the roommate who used to help him with his calculus, he grins and gets ready to hit the trail for Tech. And as Betty Co-ed remembers the stag line and the midnight lunches and the good-looking clothes, her eyes shine and she begins to pack.

Football Again

Football practice has begun already, and enthusiastic athletes with plenty of brawn as well as brain are getting in shape for the opening game with the Texas Longhorns, September 22.

In a few more days the trek will begin. Students new and old will begin to arrive by train, by auto and by thumb, leaving at home fathers with empty pockets and worried mothers with advice still on their lips: "Now, Dorothy, please don't try to live on hamburgers and coca cola!" And "Willyam, don't get your feet wet, if you can help it. You know you nearly had pneumonia last winter, and the doctor said—"

Miss West Names Library Staff

Personnel of the Tech library staff for the coming school year has been announced by Miss Elizabeth H. West, librarian.

Members of the staff are Emma L. Main, assistant librarian and head cataloguer; Lula Stine, assistant cataloguer; Miss Ray Stillwell, reference librarian; and Mrs. Olive Holden, assistant in charge of loans.

Student assistants receiving appointments are Carl Harper, Jim Allee Hart, Cecil Key, Berry Duff, C. E. Mitchell and Madeline Neves, secretary to Miss West.

Further details of registration will be worked out before the beginning of school.

Calendar For 1934 Released

Registration Will Begin October 1; Reception Will Be Given By Dr. And Mrs. Knapp

The 1934 college calendar for the fall semester has been released as follows:

October 1-2, Monday, Tuesday: Entrance examinations and registration of all students.

October 3, Wednesday: Fall semester classes begin 8:00 a. m.

October 3-4, Wednesday-Thursday: Freshman orientation; will consist of one hour lecture each day at 11:00 a. m.

October 5, Friday: Open house for all students by the churches of Lubbock.

October 7, Sunday: Annual opening sermon for the college; 8:00 p. m., college gymnasium.

October 9, Tuesday: Opening convocation for students and faculty, college gymnasium, 11:00 a. m.

October 10, Wednesday: Last day students may register for full work.

October 12, Friday: Reception to student body by President and Mrs. Knapp and the Administrative Council; women's dormitory, 8:00 p. m.

October 17, Wednesday: Last day students may register in fall semester except by special permission of the Administrative Council.

November 29, Thursday: Thanksgiving—a holiday. Classes will be continued on November 30 and December 1.

December 21, Friday: Christmas holidays begin 5:00 p. m.

January 1, 2, 3, 4, 5, 6, and 7, Friday-Thursday: Final examinations for the first semester.

February 8-9, Friday-Saturday: Registration for the second quarter.

Miss Dysart Is To Study In Chicago This Winter

Miss Bonnie K. Dysart, associate professor of education, is to study in the University of Chicago this winter and work on her doctor's degree. During her leave of absence granted by the college for the 1934-35 session, Miss Agnes A. True, formerly of the University of Michigan, Ann Arbor, will fill her place.

C. B. Sorter of Fort Worth has been appointed as assistant to Dr. Bradford Knapp. Mr. Sorter succeeds Dean W. Kuykendall.

New Course Is Added In Division Of Agriculture

A new course in rural engineering and farm machinery has been added in the division of agriculture, Dean A. H. Leidigh announces.

Eugene C. Bule joins the faculty as assistant professor of agricultural engineering. Professor Bule is the second instructor to be added within a year, Arthur Prichard, instructor in dairy manufacturing and superintendent of the college creamery having been added last fall.

Faculty Members Spend Vacations In Many Places

Many and varied are the experiences of faculty members during the summer. Several have spent most of their vacation in Lubbock. Many have visited the World's Fair in Chicago while others have done research work or attended school in various places. Practically all members of the faculty taught at least one term of summer school.

Probably the most interesting and exciting trip was the one taken by Dr. and Mrs. W. C. Holden and the archaeologists when they went to Mexico, D. F.

Make Survey
Dr. E. L. Reed and M. F. Landwer have spent a part of their leisure time in making a survey of West Texas plants. According to Dr. Reed they found many interesting specimens in the Palo Duro canyon.

Miss Annah Jo Pendleton, professor of speech, did six weeks graduate study in the University of Iowa, Iowa City.

Mrs. George Langford, the former Miss Johnnie Gilkerson, had a vacation and honeymoon in Mont-errey.

Mr. and Mrs. H. M. Crain visited friends in Socorro, New Mexico for a few days.

Mr. and Mrs. Earl Heard and two sons spent the month of August with friends and relatives in Alabama.

Visits Denver
Miss Margaret Weeks, dean of the division of Home Economics, was a visitor in Denver, Colorado for a few days.

Mr. and Mrs. R. A. Mills attended the World's Fair and visited friends in Chicago for several weeks.

Dean J. M. Gordon and Cecil Horne have not had much of a vacation as they have been busy interviewing prospective students.

Langston Studies
Miss Ruth Firtle, head of the department of speech, had a few days' vacation in Ruidosa, N. M.

Picadors Will Be Dressed In Green

Coach Ballard's Picador footballers, true to freshman tradition, will frolic on the turf this year dressed out in natty, new green uniforms. The jerseys are a rich pea-green with white and green stripes on the sleeves, and the socks are "attention-getters" with circular alternate green and white stripes. Regulation pants and brilliant green helmets complete the attire.

The Matadors will also be outfitted in new equipment from helmets to shoes. The new regulation varsity jersey is scarlet trimmed in black with black numerals outlined in white. Another set of jerseys, to be used against teams with the crimson color scheme, is black, trimmed in scarlet. The crimson knit pants are the same as last year, and headgears are new.

College Inn will be the official home of Tech athletes this year, at least temporarily.

Dr. W. B. Gates, associate professor of English and Mrs. Gates, assistant professor of Spanish, did research work for six weeks this summer. Dr. Gates was in Washington, D. C., and Mrs. Gates went to Mexico, D. F.

Kizer Opens School
Noble Kizer, popular leader of the Purdue Boiler-makers of the Big Ten conference, opened the school with lectures dealing with the Notre Dame style of play. Herbert O. "Fritz" Crisler, whose Princeton Tigers enjoyed an undefeated season in Eastern football, set forth his theories on the wing back system the second day of classes. Other "teachers" holding classes the first week of the school were: Henry "Indian" Schulte of the University of Nebraska, track

Tech Coaching School Has Large Attendance

Drawn by an imposing teaching staff, approximately 372 coaches from 21 states were in attendance at the fourth annual Texas Tech coaching school on the campus from July 30 to August 12.

Coaches packed their luggage from widely separated sections of the country to attend Pete Cawthon's and Dutchy Smith's largest coaching school in the world. "Students" hailed from Oklahoma, California, Louisiana, Nebraska, Ohio, New York, Illinois, Missouri, New Jersey, Michigan, Massachusetts, Alabama and Texas.

Kipke Features
Harry Kipke of the famed University of Michigan Wolverines and his equally famous short punt system featured the second week of the school. Harry Newman, Kipke's All-American quarter at Michigan and now a pro with the New York Giants, assisted his former coach with his lectures and demonstrations. Other mentors holding classes were Lone Star Dietz, mentor of the professional Boston Redskins, who lectured on and demonstrated the double wing-back system; George Keogan, basketball instructor at Notre Dame, who illustrated his style of play; and Roy Bullock of the University of Illinois, injuries, taping, etc.

Homer Brumley, manager from Hereford, has announced that the sixth annual Texas Tech Aggie rodeo will be held on the campus about October 19.

Block and Bridle club sponsors the affair each year for the benefit of the Senior Livestock Judging team which will compete in judging contests at the American Royal in Kansas City, October 20, and at the International Livestock show in Chicago, December 1.

Brumley, a senior in the division of agriculture, was assistant manager of the rodeo last year and spent a week at the Fort Worth Fat Stock show last spring getting ideas for this year's rodeo. Present plans call for a horse show during the performances. A free barbecue will be given immediately before the night show.

Plans Announced For Aggie Rodeo

Homer Brumley, manager from Hereford, has announced that the sixth annual Texas Tech Aggie rodeo will be held on the campus about October 19.

Block and Bridle club sponsors the affair each year for the benefit of the Senior Livestock Judging team which will compete in judging contests at the American Royal in Kansas City, October 20, and at the International Livestock show in Chicago, December 1.

Brumley, a senior in the division of agriculture, was assistant manager of the rodeo last year and spent a week at the Fort Worth Fat Stock show last spring getting ideas for this year's rodeo. Present plans call for a horse show during the performances. A free barbecue will be given immediately before the night show.

Mrs. Dingus Leaves For New York To Attend Convention

Mrs. William Dingus, of the college Latin department, is leaving Saturday for New York City to represent the Texas division of the American Association of University Women and the Southwestern section of the A. A. U. W. at the New York Herald Tribune's fourth annual conference on current problems.

The conference will be conducted September 26 and 27 in the ballroom of the Waldorf-Astoria hotel. The meeting will be opened by Mrs. Franklin D. Roosevelt and the first session will be devoted to a discussion of new policies in crime prevention. General subject of the convention has been announced as "Changing Standards."

Mrs. Dingus will go by way of Chicago, stopping in Washington for a short while.

TEXAS TECHNOLOGICAL COLLEGE

Opens The Fall Term of 1934---October 1st, 1934

Presenting

The soon-to-be completed women's and men's dormitories, two grey-tan brick and stone structures, now flank the College Avenue drives. In color scheme and architecture the dormitories are concordant with the other buildings on the campus. The hall floors of Terazzo tiles and the bathrooms are finished in white tile. Both of the buildings are entirely fireproof, heated by steam from the central plant, lighted by electricity, and provided with every modern convenience. Floors of rooms are covered with thick rugs and each student will have a separate roll-away bed of the latest type. The kitchen in both of the buildings is equipped with modern and sanitary features. Ceilings in all rooms are made in a manner to eliminate noise.

Texas Tech is proud of these imposing additions to the biggest college campus in the world.

Tech's 'Red Raiders' Begin Training For 1934 Grid Season

Matadors Work Hard In Preparation For Contest With Texas Longhorns

Tech Grid Candidates Are Shaping Up Well For Opener

TECH'S red-panted Matadors forty-five strong, are rushing through their strenuous pigskin chores twice daily under the watchful eyes of Coaches Pete Cawthon, Dutchy Smith and Virgil Ballard. Training began Monday, September 10.

The whang of leather meeting pigskin and the impact of brawn meeting brawn interspersed with yells and yodels echo over the north campus as the 1934 Matador football edition prepares for the annual gridiron scramble.

Pointing For Steers

Right now, the Scarlets are training their guns on Jack Chevigny's University of Texas Longhorns who rumble into the Tech corral the night of September 22. The Mats have only a week in which to polish up their plays. As a result they are working early and late in anticipation of "getting a Steer."

Although Coach Cawthon is none too optimistic over the prospects for the season, the Matadors are gradually being molded into a machine that bids fair to more than hold its own against competition from six states. Outcome of the battle with the Longhorns, however, remains a big question mark.

18 Lettermen

Out of 30 lettermen that composed Tech's championship football array last fall, 18 are in camp, bolstered by capable reserves and squadmen from last season. The best-looking crop of freshman graduates to come up in years is the situation confronting varsity members, causing some of them no little worry.

At present, indications are that the Bullfighters will have more brawn in the line and backfield than they have had in years. Coach Cawthon is especially gifted with a veteran secondary with speed, power and deception to spare. But "Dutchy" Smith is not so fortunate with his line as far as experience is concerned, although he has the quantity and apparently the quality. Out of 13 lettermen lost by graduation and other causes, at least nine were regular performers in the forward wall.

Captain "Moon" Back

One end slot will be capably manned with Captain "Moon" Martin a permanent fixture. Matt Hitchcock's post will perhaps be the hardest position to fill of all. The Gilmore brothers, Braxton and Will, Sam Jones, Bob Hale, Lewis Spears, and a newcomer, Robert Rader, of West Virginia, are seeking this berth. Braxton Gilmore and Jones are lettermen.

The scramble for tackle position is keen despite the fact that only two lettermen are back. They are Woodrow Wilson and G. B. Morris. Other candidates for this hole are Bert Williams who played with the shock troops last year; Joe Barlow, a reserve last season and formerly with the Haskell Indians; "Bull" Katrola, a likely-looking prospect who was a mainstay with the Pleadors during the 1933 campaign; and several newcomers. They are Murphy, Schreiner Institute; "Tiny" Thornton, 245-pounder from Tyler Junior college; Cloyd Briden from Weatherford junior college; Lennox and Gessel.

A Fight For Guard

A merry scrap is also in progress for guard honors although there are not so many candidates for that position. Big Gaines Davis and hard-hitting little Walter Nichols, lettermen from last year, and "Foley" Owen star tackle for the Matadors in 1932 but who has been shifted to a guard post, appear to be the strongest contenders for the position.

Competition grows hotter for the pivot position. Elmer Fortner and Larry Priddy are the only regulars but Tox Wington, Pleador graduate, is pushing them for a job.

Competition Hot

Meanwhile the battle for backfield positions, particularly as regards the quarterback and full-back holes, rages furiously. "Bear" Curfman, Ted Wilson, and Winfred Baze, who looked very promising in spring training, are in line for backfield positions.

Ed McKeever, J. V. Beauchamp, "Toy" Clark, lettermen, and Charlie Duvall, up from the freshman

He Leads 'Em

MALCOM "MOON" MARTIN

Captain Malcom (Moon) Martin will be found on the firing line the night of Sept. 22 when the Matadors face Jack Chevigny's University of Texas Longhorns at Tech field. Martin, one of the greatest wingmen in the Southwest, is playing his third and last season with the Scarlet.

ranked, are after the signal-caller role.

Craek halfbacks are in abundance. "Mule" Dowell, D. M. McElroy, "Stud" Harris, regulars last season, and from the freshman team come Jim Nell, big cruising halfback, "Nubbin" Reese and George Winters, who are in line for halfback positions. Hickman, a triple-threatener from Marshall Junior college, also shows promise.

Davis Is Named Matador Manager

Trenton (Cotton) Davis, senior arts and sciences student from Saint Jo, has been appointed athletic manager of the Matadors for the year by Coach P. W. Cawthon. Davis was junior manager last year. He succeeds Cy LaMaster. Ed Klein, Warco, junior student in the division of arts and sciences, will serve as junior manager. Sophomore and freshman managers have not yet been selected.

Tech Will Play Ten Grid Tilts

Tech Gridsters To Open Season September 22 Against University Of Texas Steers

Tech's red-robed Matadors, facing an ambitious schedule, will make their debut in the 1934 football wars against the University of Texas Steers and thereafter will combat nine more foes from five states in addition to the Longhorn state. Pete Cawthon's and Dutchy Smith's Red Raiders will make seven home stands during the season and the remainder of the time they will ramble to the Pacific coast, Oklahoma City and to Tucson, Arizona.

Open with Steers

The Mats will officially unveil the season under the arcs at Tech field Sept. 22 when Coach Jack Chevigny brings his revamped Longhorns of the Southwest conference to the Plains for the first time. Since the Notre Dame system has been installed at Texas university it will be a case of Greek meets Greek when the two eleven line up for battle. Longhorns and Matadors were introduced properly one hot afternoon several years ago in Austin with the Steers getting the best of the deal with a 12-0 score.

On Sept. 29 McMurry's Indians will stalk the Matadors in the Tech corral. The Indians are not considered a "breather" in any sense of the word.

Baylor Here

Baylor university's gold and green Bears will lumber into Lubbock again for the third straight year, hoping to break the two-year winning streak of the Bullfighters. Baylor will be the second and last Southwest conference club on the

1934 card seeking to uphold the prestige of that loop. On Oct. 12 the Scarlet will run into stormy pigskin weather when they attempt to rout the Oklahoma City university Goldbugs in the capital of the Sooner state. Gridiron crystal gazers are afraid to predict the outcome of this one.

Two weeks later, on Oct. 26, the Red Raiders will rove into the far west to engage Tony Lieb's Loyola university Lions at Los Angeles in what is known as a football "natural".

Muckers Next

The following week-end the Cawthonmen return to home precincts to meet Mack Saxon's Texas Muckers from down El Paso way. This will be the last night game at home for the Mats.

On Nov. 9 the Matadors will renew an old feud with their traditional rivals, the Simmons university Cowboys from Abilene. It will

be remembered that the Ranchers delight in overturning dope buckets. DePaul university of Chicago comes to Lubbock Nov. 16 to feature homecoming day at Tech. It will be the first time that the Matadors have met a team from the "windy" city in athletic combat.

Another "Foreigner"

Another "foreigner", North Dakota State, makes its appearance at Tech field Nov. 23 in the last game on the schedule.

Tech will move into Tucson Nov. 29 to clash with the University of Arizona Wildcats in the only Border conference set on the 1934 Matador card. The Arizona invasion will write "finis" for the Matadors on the gridiron until 1935 rolls around.

Lonnie Langston, assistant professor of mathematics, studied in the University of Iowa, Iowa City,

doing graduate work in mathematics. He is a married man now.
