

The deadline for registration in two of the college credit television courses has been extended to Saturday, Homer Millikin, director of Tech's extension division, announced Wednesday.

The courses in Chemistry 334 and Physics 344 are being telecast on Tech's educational television station, KTXT Channel 5. The courses will be held open until 9:30 a.m. Saturday.

Anyone interested in registering for the courses should contact the extension office for further details.

McNamara Says Offensive Cuban Weapons Removed

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara said Wednesday that he believes "beyond reasonable doubt" that all offensive weapons systems "have been removed from the island of Cuba and none have been reintroduced."

McNAMARA led off at a special, hurriedly arranged news conference that was a part of an administration effort to clear the air on the current situation in Cuba.

McNamara noted questions have been raised about offensive weapons in Cuba, and stated his belief that such weapons have been removed.

He said that since July 1 over 400 reconnaissance flights have been flown over Cuba by U.S. aircraft. He said this formed the basis for national decisions taken by the country in October, the military decisions to support those decisions, and the evidence to document the evidence.

THE FLIGHTS recorded the removal of the weapons and continue to show such weapons have not been reintroduced, he said.

McNamara then introduced John Hughes, an assistant, to give a photographic explanation to the reporters.

Hughes, special assistant to the director of the Defense In-

telligence Agency, said the Soviet offensive buildup in Cuba led to "one of the most intensive military reconnaissance efforts" ever directed against a single area.

HE SAID THE U.S. reconnaissance effort has continued up to the present time.

The Soviets were building nuclear weapons storage areas at each of their missile sites, Hughes said.

"We will illustrate how the United States was able to monitor the dismantling of Soviet offensive bases" and check on removal of the weapons, Hughes said.

He promised a review of surface to air missiles sent to Cuba by Russia, other missile facilities and MIG fighters.

This report was in direct contradiction to a speech made Tuesday to Techsians by Sergio Rojas, a onetime Castro supporter.

Rojas told Techsians Tuesday that Cuba, with aid from the Soviet Union, has a giant offensive army on hand, poised as a serious threat to the security of the U.S.

He said intelligence reports indicated the presence of a large Russian army and several missiles capable of carrying nuclear warheads.

HUGHES SAID there were also certain problems of unique military interest to which he invited particular attention.

He listed among these the remarkable speed with which the Soviets were able to bring and install military equipment in Cuba, the high degree of camouflage used in efforts to hide these installations, and the U.S. capability nevertheless to detect the buildup in detail.

Hughes said that fixed launching facilities for Soviet intermediate range ballistic missiles (IRBM) were still under construction when Soviet Premier Khrushchev agreed to dismantle them.

SOVIET JET bombers also never were in operational status, he said, and only seven reached a flyable status. Hughes said there is little doubt, however, that the Soviet Union in September embarked upon a major military construction program, to achieve clandestinely a full operational capability by early De-

ember, to present the United States with an accomplished fact.

THIS WAS NEVER achieved, he said, because of the evidence provided by the photography.

Hughes said photographs showed the Soviets chose four areas of Cuba for offensive missile sites.

Using a large map of the island, Hughes pointed to the missile sites set up, most of them in the Havana area.

There were nine Soviet offensive missile sites in Cuba, he said. Six were for medium range ballistic missiles (MRBM,) and three were for IRBMs, each including four launch positions.

SCHOLARSHIP WINNER—Bill Dunn, left, Sanderson sophomore, is the winner of the \$250 Men's Residence Council scholarship. Dunn received the award Wednesday from Council President Johnny Miller, right, in the office of Assistant Dean of Men Leo Jennings, center. Dunn won the award over 11 other applicants. —Staff Photo

Miss Playmate Entries Due

Any all-male organization on campus planning to enter a co-ed in La Ventana's "Miss Playmate" contest must do so by 5 p.m. today.

Entry blanks are available in room 102 of the Journalism Bldg., where the \$1 entry fee and photographs of the contestants must be submitted. Photographs should be 8x10 glossy prints of the coed in a swim suit. Her name, home town, classification, major and measurements should be penciled on the back.

Entries will be judged from these photographs, and each will appear in a swim suit during the La Ventana Extravaganza at 8 p.m. Saturday in Municipal Auditorium. The winner will not be disclosed until that time.

Library Modifies Check-Out System

New steps were taken by Library officials Friday to curtail theft of books, after several thefts were discovered by students using their own date stamps to by-pass the check-out table in the Library foyer. The thefts were reported to R. G. Janeway, Tech librarian, by student employees of the library.

Under the new checking system, students are required to fill out the card and have books stamped in the lobby rather than in the departments. Janeway said that "students always try to beat the system" and the workers always expect some difficulty with a new system.

It is estimated that only one-tenth of one percent of the student enrollment has been involved in the stealing of books. An accurate count of the books stolen is impossible, Janeway said, because the Library holds more than one-half million items, and an inventory during the school year would be impossible.

Some students were expelled from school two years ago, for stealing books, and Janeway said, "this would probably be the consequence now. Such punishment would seem severe, but the act is comparable to stealing an ash tray from a home in which you are an invited guest."

Council Meets Tonight

The Student Council meets today at 7:30 p.m. in the Anniversary Room of the Union to discuss the feasibility of relaxing campaign rules for the spring elections and hear committee reports.

Academic recruiting will be discussed when a committee reports on a number of high school honor societies which will visit Tech Friday.

The College Awards Board Committee will report on the annual spring awards program and the World University Service Committee will discuss

the spring fund raising drive to aid other universities.

Other committee reports will be given by the Current Events Committee on the convocation, the Summer Employment Committee and the Texas Intercollegiate Student Assn.

Karen Anderson, council secretary, said that other business will be discussed as representatives present new proposals.

The council meetings are open to everyone.

Coed Trio To Live In European Homes

By ARTIE SHAW
Toreador Staff Writer

"I hope I can present the United States in such a way as to let them understand our way of living—to let them understand and accept America and Americans."

This is what Carolyn Wood, Dallas junior, said about the upcoming

"Experiment in International Living," in which she will participate. Miss Wood is one of three Tech women taking part in the "Experiment," to be inacted this summer. The other women are Lynn McElroy, Lubbock junior, and Ann Dennison, Liberty junior.

Their itinerary includes living with a European family as a regular member of the household, traveling throughout Europe as a member of a European-American group, and sightseeing in various parts of the Continent after the experiment itself has been completed.

Begun In 1924

The primary purpose of the "Experiment in International Living," which was begun in 1924, is to promote a better understanding between the countries visited by the students and the United States. The "Experiment" includes over 30 countries, with several "pioneer countries" such as India, Pakistan, and Israel having been added in the past few years.

Another goal of the "Experiment" is to educate participating students in the ways and cultures foreign to their own.

Meet People

Ann Dennison added, "The 'Experiment' is a marvelous way to get to know how people in other countries live today, and not how they lived centuries ago, as most of our textbooks tend to emphasize. We will get a chance to see

how they live today and compare it with our own way of living."

Carolyn Wood, who speaks Spanish and is studying Italian by records in preparation for her stay with an Italian family, stated that the students must pay their own fares to and from their destination, but will live with the families at the families' expense, and function as a regular member of that home.

Ann Dennison pointed out that the "Experiment" began in 1924 with a group of men students going to Europe and living in a sort of commune, but not actually coming in contact with Europeans as much as was desired. Slowly the present situation came about, and now students from all over the United States live with families all over Europe and Asia. What once began as an experiment for males only has now developed into a coeducational program. As Lynn McElroy said, "There was opposition to girls in the beginning, but the sponsors soon found that girls could work as well, if not better, than the boys could."

Ann Dennison said, "I chose Switzerland because I've always heard the people are friendly, and I've always wanted to see the beautiful scenes. When this came up I jumped at the opportunity. I'm also interested in how the Swiss government compares with ours, as I've always heard they have the model democracy over there, and I'd like to make the comparison first-hand."

Traveled To Mexico

Lynn McElroy, who will live with a family in Spain said, "When I was in high school we took a trip to Monterrey, Mexico, and went in many homes and met many families. They were so nice and so glad to find out for themselves that all Americans don't look down on all other national-

ities, as they had thought for so long. I enjoyed that trip so much that I would like to go to Spain, the origin of the Mexican people, and make a kind of comparison. I feel that they have many aspects in their culture that would be of benefit to us, and I would like to learn about them."

Carolyn Wood summed it up perfectly, "It is a chance to learn of the culture, ways, thinking and history of people in other countries, and I wouldn't have missed this chance for the world."

EX NAMED MANAGER

Ralph Earhart, a former Red Raider, has been named directory sales manager in St. Louis for Southwestern Bell Telephone Co. Earhart, a 1948 Tech graduate, earned a B.S. degree in Education. He received Tech letters in football and track.

TOYS GIVEN

Toys were presented to the Lubbock Children's Home Wednesday by the pledge class of Delta Sigma Pi business fraternity.

EUROPE BOUND—Ann Dennison (left) and Lynn McElroy (right) are two of three Tech Coeds participating in the "Experiment in International Living." Lynn will live with a family in Spain, and Ann will live with a Swiss family. —Staff Photo

Speech Contest Monday

Entries are being accepted through Friday by J. G. Robbins, director of forensics, for the second round of the Intramural Speech Contest scheduled for 7 p.m. Monday night in the Aggie Auditorium.

Entry fees for organizations and individuals not entered in the first round are \$7 and \$2 respectively. Events are poetry reading,

humorous interpretation and extemporaneous speaking. Contestants will be graded on a point system and first place winners will be awarded trophies. A sweepstakes trophy will be presented to the organization accumulating the largest number of points.

Organizations may enter a maximum of six contestants. Individuals may enter one contest in each round.

Open Only To Students On This Campus

HOWARD TOURS

THE ORIGINAL
STUDY TOUR IN THE PACIFIC

HAWAII TOUR

SIX UNIVERSITY CREDITS

56 DAYS . . . \$589 Plus \$9 Tax

Attend University of Hawaii summer session. Includes jet roundtrip between West Coast and Hawaii, residence accommodations, and the greatest diversification of dinners, parties, shows, cruises, sightseeing events, beach activities, and cultural entertainment; plus all necessary tour services. Steamship passage and neighbor island visits available at adjusted tour rates. 1963 "Big Summer in Hawaii"—the biennial year of the Trans-Pacific Yacht Race from Los Angeles to Hawaii.

ORIENT TOUR

SIX UNIVERSITY CREDITS

67 DAYS \$1989

San Francisco State College summer session program. Hawaii, Japan, Formosa, Hong Kong, Philippines, Vietnam, Thailand, and Singapore—fabulous program for sophisticated travelers whose intellect, adventurous spirit, and previous travel make them ready for one of their most exciting travel experiences. Includes combination steamship-air travel between West Coast and Orient, plus all first class services ashore—hotels, all meals, sightseeing, all tips, and the most extensive schedule of special dinners, cosmopolitan entertainment, evening events, and social functions; plus all necessary tour services. Also available—21 day extension Around the World Study Tour; 3 university credits.

SO. AMERICA

SIX UNIVERSITY CREDITS

45 DAYS \$1799

San Francisco State College summer session program. Panama, Colombia, Ecuador, Peru, Chile, Argentina, Uruguay, and Brazil—highlighted by excursions to the Andean highlands, the lost cities of the Incas, Iguassu Falls, and Brasilia; a great educational and adventurous experience. Includes air roundtrip from Miami, and very best hotels, meals, sightseeing, evening activities, social functions, and special events; plus all essential tour services.

EUROPE TOUR

SIX UNIVERSITY CREDITS

43 DAYS \$1499

San Francisco State College summer session program. England, Holland, Germany, Switzerland, Austria, Italy and France—a continental vacation encompassing exciting and traditional highlights of Europe, with many fascinating "off the beaten path" excursions—a truly Grand Tour. Includes jet roundtrip from New York, meals, sightseeing, tips, all necessary tour services.

AFROTC Semester Officers Announced

Cadet Col. Larry B. McBride, ROTC Cadet Wing at Texas Tech. Wing executive officer for the Brownwood, has been named wing commander of the 820th Air Force

industrial management major from Colorado Springs, Colo. Cadet Lt. Col. John D. Ayers, senior industrial management major from Pampa, will serve as operations officer, and Cadet Lt. Col. John S. Murphy, senior architectural design major from Mineral Wells, administrative officer.

New material officer is Cadet Lt. Col. James Spennath, senior entomology major from Boerne. Cadet Lt. Col. William Mercer, senior engineering physics major from Fort Worth, will be the new inspector general.

The personnel officer, Cadet Lt. Col. Joe Dettrich, is a senior mechanical engineering major from Jonesboro. Cadet Maj. Serge Chernay, senior finance major from Orange, Calif., will serve as information officer, and Cadet Maj. Mark Taylor, senior finance major from Winnsboro, will be comptroller.

LEADERSHIP RETREAT

Alpha Phi Omega, national men's service fraternity, had its spring leadership retreat on Feb. 3 and 4 in Post. Lewis N. Jones, dean of men, gave the keynote address on "Opportunities of Leadership." Frankie Claunts, chapter president, in the closing address challenged the members to make this semester their best at Tech.

Adenauer Takes Issue With De Gaulle's Stand

BONN, Germany (AP)—In a plea for Western unity, German Chancellor Konrad Adenauer took issue Wednesday with President Charles de Gaulle of France by urging Britain's admission into the Common Market and strengthening of the North Atlantic Treaty Organization under U.S. leadership.

Avoids Criticizing

The West German leader avoided criticizing the French president in a policy statement to the Bundestag (parliament). But Adenauer's words carried the ring of a stern reminder to his old French friend.

"Europe knows that it cannot defend itself without the support of the United States," he said.

"I therefore, declare with all emphasis that to us there can never be anything but close cooperation between free Europe and the United States."

Squeeze Attempt

De Gaulle's policy has been widely viewed as an attempt to squeeze the United States out of the powerful position it holds both economically and militarily in Europe.

Adenauer framed his remarks in an attempt to still opposition at home to signing a new treaty of cooperation with France after De Gaulle blackballed Britain from the Common Market.

Repercussions Felt

As Adenauer spoke, repercussions to De Gaulle's policy continued to be felt in Europe.

At a meeting of the Common

Market's Assembly — the trading bloc's parliament—in Strassbourg, France, P. J. Kapteyn, a Socialist member of the Dutch Parliament, implied that the Dutch might slow up the Common Market operation unless the French leader drops his ban on Britain.

'Cannot Agree'

"We cannot now agree to speed up the removal of internal tariffs, and we will have to take a new look at proposals for a common external tariff," he said.

Unanimous votes are required on such issues, and the Dutch could veto the tariff proposals, just as France vetoed Britain's entry.

French delegates sat on their hands as the Assembly approved without dissent a resolution urging the six market partners and Britain to meet at regular intervals to facilitate the application of Britain and others for membership.

- Want a ride to El Paso. Two adults. Feb. 11 or 12, SW 9-8912.

Art Show Displayed On Union Sun Porch

An Art exhibit by Thelma Clark Griggs, former Tech student, is being presented by the Art and Design Committee on the Sun Porch of the Union through February.

Paintings on display include oil portraits, still lifes, florals and a seascape, done in Mrs. Griggs' classical style.

Mrs. Griggs, whose home is in Lubbock, is a member of the South Plains Art Guild and the Women's Council of Fine Arts Committee of the West Texas Museum. Since she began painting about 10 years ago, the artist has had five one-artist shows in Lubbock in addition to other shows in southwestern states. A recipient of several awards and commendations, she has commissions in private collections in the Southwest, New York and Tennessee.

SOPHOMORE SIMPKINS STARS—Tech's top freestyler, Phil Simpkins, demonstrates his form in leaving the blocks. His specialties are the 50 and 100 yard free style, in each of which he owns the school record. —Staff Photo

Simpkins Sets Two New SMU Records

Southern Methodist swimmers hold nine of Texas Tech's pool records, but a Red Raider sophomore, Philip Simpkins, may have started a trend in reverse. Naturally, Simpkins' marks at Dallas constitute Tech school records. He set the old records of 22.6 and 49.9 last year as a freshman.

Simpkins now holds two of the Mustangs' pool marks. SMU won the dual meet with Tech in Dallas last week, but Simpkins' time of 22.2 in the 50-yard free style and 49.0 in the 100-yard event are the best ever attained there. In fact, the Houston soph's time in the 50 is among the nation's best this year.

Both times bettered the Southwest Conference record, but such marks can be set only at the SWC Meet, scheduled March 14-16 in Austin. Simpkins already holds Tech pool records in both events, but

he'll be out to better them when the Raiders are hosts to Kansas State of Emporia at 7:30 p.m. Friday.

Coach Jim McNally saw another Tech record fall in the dual with SMU as the 400-yard free style relay team was clocked in 3:29.71. In the quartet were Ron Grim, Terry Schmidt, Dick Haase, and Simpkins. All are from Houston high schools.

Texas Tech's swimmers won't be able to relax after the Friday night meet. They're hosts to University of Texas at 3 p.m. Saturday.

Texas Tech's swimmers won't be able to relax after the Friday night meet. They're hosts to University of Texas at 3 p.m. Saturday.

Swim Team Holds Dual Meet Here

By **ROBIN BUTLER**
Toreador Sports Writer

Texas Tech's swimming team will meet Emporia State College and University of Texas in a dual-meet at 7:30 p.m. Friday and Saturday nights at the Tech pool.

Emporia State of the Central Missouri Conference who visits Friday has never had a losing season in swimming. Coach Don McCollough's charges are noted for their fine sprinters. Among these are Charles Alkire and Dan Norman.

Norman will challenge Tech's Phil Simpkins, who broke the conference record in the 50 yard free

style with a 22.2 last weekend at SMU.

The whole Texas team swimming Saturday is outstanding. Top swimmers include Andy Smith, Houston, in the individual medley; Richard Worthington, Houston, in the breast stroke and Jim Graves, Austin. Texas' diver is Gordon Beavers, who placed sixth in the NCAA finals last year.

Texas has toppled Oklahoma this year by a 50-45 score, while the Sooners beat the Raiders 67-22.

Tech coach Jim McNally expects strong competition from Emporia State and trouble from Texas.

Meeting Scheduled By Baseball Coach

Baseball coach Berl Huffman announced today that there will be an organizational meeting Friday night at 7 p.m. in the lecture room of the Stadium for baseball players.

The meeting will be to fill out eligibility forms and to take publicity proofs. All athletes, either freshmen or varsity candidates, are to be at the meeting, Huffman said.
