

# Married Students Housing Development Begins Here

By **BILL HEARD**  
Toreador Copy Editor

Beginning construction this week is a project designed to benefit the students of Texas Tech—a 1.3 million dollar married student housing development.

Howell G. Killgore and Michael Grinnell, Lubbock builders are erecting Tech Village Inc., a seven-building, 200-unit project one block north of the National Guard Armory.

Tech Village is a private corporation belonging to Killgore, Grinnell, and David Grinnell, all local men. The mortgage and financing for the corporation was secured through Hurlbut and Holder Real Estate and Loans representing The Connecticut Mutual Life Insurance Co. The project was designed by Houston Miller, also of Lubbock.

**WHEN COMPLETED**, the project will have seven two-story brick and steel buildings. Four of the buildings will have 32 apartments and three will have 24 each. Each unit will comprise 600 sq. ft. of floor space.

Between the buildings will be lawns, patio areas and a play area 120 by 240 ft. with sandbox, tunnels, swings, etc. In the south-east corner of the project a 30 by 60 ft. swimming pool surrounded by a lawn will invite attention in the summer.

In the center of the development a combination laundromat-club room will be open for the convenience of tenants. Washing machines and dryers will be the standard coin operated type.

**PARKING LOTS** will surround the whole development.

The apartments themselves will be arrangements of one bedroom, bath, living room, and a kitchen-dinning room combination. Six closets will be placed throughout the apartment.

Complete modern furnishings will be provided along with wall-to-wall carpeting in bedroom and living room. A refrigerator, built-in range, oven, and dispose-all will be in each kitchen. Every apartment will have year-round temperature control by General Electric.

The walls between apartments will be insulated with sand so that no sounds will escape the apartment.

The southeast corner building is scheduled for completion sometime in December and its 32 apartments will be rented as soon as it reaches that stage. Each apartment will rent for a maximum of \$80 a month with all bills paid. The entire development should be complete by spring and will be ready for summer school, according to Killgore.

**EACH BUILDING** will be rented at its completion.

If the project is successful, land is available for an additional 200-unit development adjacent to the one now being built.

Only married Tech students will be allowed to rent the apartments. More information about the apartments, including whom to contact, rental terms, and completion schedules will be published in the TOREADOR.

## SMU To Visit Tech On All-School Trip

An estimated 1,000 SMU students will converge on the Tech campus for the Oct. 27 Homecoming football game.

Charlie Aycock, Student Assn. president, announced Monday that final arrangements have been completed for Tech to host the SMU students on their annual school trip.

Aycock reported that David Bray, SMU student government president, contacted him and said the SMU student government had decided to make Tech their school trip instead of the University of Arkansas.

Bray said they felt their students would enjoy the trip to Tech much more and that it would strengthen the relationship between the two schools.

The SMU Mustang Band, drill team and school student officers will participate in Tech's Homecoming parade. SMU students will arrive at 9 a.m. Saturday morning via train.

After the parade, a reception for the SMU officers will be in the Tech Union sponsored by the

Tech Student Council. A reception is also planned for the student body. If the students arrive in time, a pep rally is planned for them.

"I would like to encourage all organizations that are having receptions after the game to invite the SMU students. This especially applies to fraternities and sororities," Aycock said.

After the football game, SMU students will be guests of Tech at the Homecoming dance. They will leave for Dallas by train around midnight.

Commenting on the SMU visit, Aycock said, "We are certainly proud to have the opportunity to serve as hosts to SMU because we believe this will be Tech's finest Homecoming."

"I would like for them to receive a warm, hospitable welcome," he added. "This is a good opportunity for us to show that we are qualified to be the recipient of the Southwest Conference trophy."

TCU made Tech their school trip last year, but it has been several years since SMU visited the campus as a student body.

## What's This? Now You Gotta Be Female If You Want Immunization

Several male Techsians were understandably nonplussed Sunday when they were denied Sabin oral polio vaccine at an off-campus clinic.

They were underage. Each needed a parent's signature on his registration form.

Their confusion grew when girls

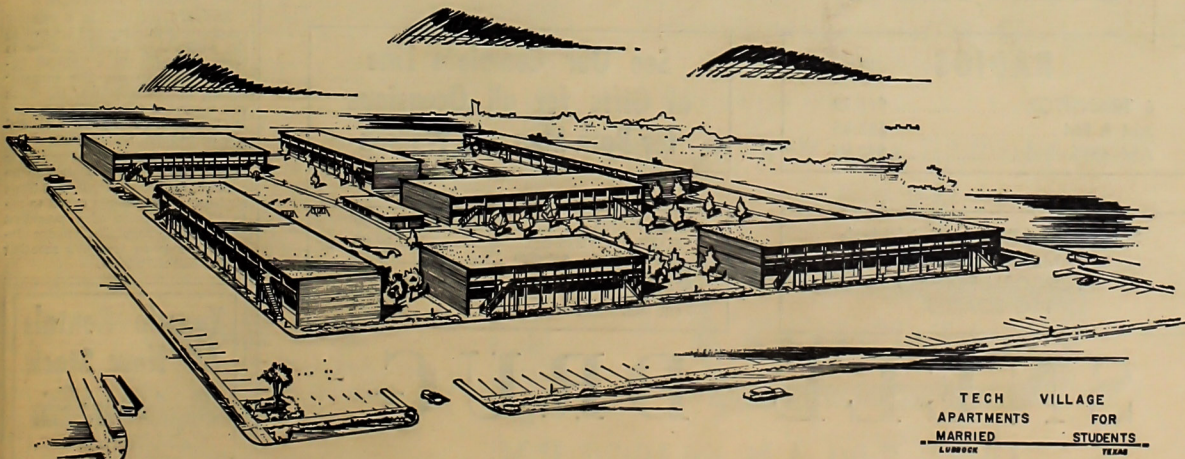

— known to be the same age —  
marched through the line to get the

drug-coated sugar cubes.

Masculine pride notwithstanding, a man must be 21 to sign his own form. Coeds may sign at 18, according to Texas law.

The moral? Trade at home. Parents' signatures are not needed for on-campus administration at Tech infirmary.

TECH VILLAGE  
APARTMENTS FOR  
MARRIED STUDENTS  
LUBBOCK TEXAS

FOR MARRIED TECHSANS—This drawing is a preview of the new housing project for married students which

is now beginning construction north of the National Guard Armory. The plan is a private undertaking, but

only Texas Tech couples will be allowed to rent the apartments. First unit completion is due in December.

# Fiji Olympic Torch Will Flame Sunday

The Olympic torch will be burning and the natives will be restless Sunday when the 1962 Olympics hit Tech campus — the Fiji Olympics, that is. This annual event which usually occurs in the spring will be held on the green in front of Drane Hall from 2 to 5 p.m.

The Fiji Olympics which consist of such events as the tug-of-war, egg toss, stilt race, sack race, and the wheel barrow race are open to girls only. Each sorority can enter girls to compete in any or all events.

The sorority which wins the most events or has the most accumulated points receives a trophy. The trophy is kept by the winner for

the year. If the trophy is won by the same group three years consecutively it is theirs to keep permanently. Pi Beta Phi sorority won the trophy last spring for the third time.

In addition to the winners trophy, ribbons are given to each team member for first, second and third place winners in each event. Also a sportsmanship trophy is awarded for the largest participation.

Phi Gamma Delta fraternity, sponsor of the event, decided last spring to hold the Olympics at the beginning of the school year so that there would be more participation by the sororities with their new pledges.

# Union's First Jam Session Slated Today

A jam session will get the Tech Union entertainment plans underway in the snack bar at 4 p.m. today. The session will be played by "The Velvetens."

The combo is directed by Mike Acheson, a graduate of Monterey High, Lubbock. He is now an animal husbandry major at Tech. Mike plays the lead guitar. Danny and Tim Acheson, Mike's brothers are also members of the combo. Danny plays drums while Tim plays the saxophone. Both boys attend Monterey High School.

Willie Redden, who plays the rhythm guitar, was originally from Borger, but is now married and lives in Lubbock. Willie is an allied arts major at Tech.

The fifth and final member of "The Velvetens" is Doug Walding, a Tech student from Floydada. Doug is an allied arts major. Recording star, Bruce Channel, has cut one of Doug's songs, "Somewhere in this Town," which has just been released.

"The Velvetens" have been playing together for three years and are beginning their fourth.

The Tech Union jam sessions are used to audition bands for further Union activities, as well as for entertainment, according to Union program director, Karen Moore. The jam sessions are under the direction of the entertainment committee which is headed by Barbara Sue Owen.

Today's session is the first in a series. The second will be played Oct. 3 at 10 a.m. by "The Sharps."

A KINGSIZE REMINDER on a kingsize phone is given to all Tech students by Carolyn Pohl, junior from Matador, to give your extension number to your friends. The new directories will be out soon but faster service will result with the dialing of the correct number.

# Raider Roundup

## STUDENT COUNCIL MEETING

There will be a Student Council meeting today at 7:30 p.m. in room 209 at the Student Union. All council members are to attend.

## LA VENTANA

Distribution of the 1962 La Ventana will continue today through Friday in room 1 in the basement of the Journalism Bldg., from 2-5 p.m. only. Persons desiring to obtain another person's yearbook must present written permission from that person.

## KTXT-FM

KTXT-FM, Tech's radio station, is having a recruitment night Wednesday at 7 p.m. in the Student

Union, room 209. The jobs of program director, announcer, news man, and programmer are open.

## SIGMA DELTA CHI

Sigma Delta Chi, professional journalism society, will meet at noon Thursday in room 208 of Tech Union. Members planning to attend must sign up at the newstand by 10 a.m. Thursday. Cost of the luncheon will be \$1.

# Young Demos Meet Tonight

The Lubbock County Young Democrats will have their first meeting today at 7:30 p.m. at the West Texas Democrat headquarters.

Tonight's meeting is a regular membership meeting and is open to the public. A membership drive is being opened with a contest between the members. The member signing up the most new members will receive a trip to Washington, D. C., and the other prizes awarded will be two \$75 scholarships.

Anyone in Lubbock between the ages of 16 and 35 is eligible to be a Young Democrat. Interested Tech students are especially urged to attend. Sally Parks, vice president of the group says that anyone desiring a ride to tonight's meeting should call SW9-1816.

# Liston Remains Favorite In Title Match Tonight

CHICAGO (AP) — Sonny Liston, the hostile challenger with the big left hand punch, remained a 3-2 favorite over Floyd Patterson Monday as interest mounted in tonight's 15-round world heavyweight title fight at Comiskey Park.

Prospects of fair, cool weather encouraged the promoters to expect a crowd of 35,000 paying about \$750,000 with a \$100 top for the "live" show at the ball park of the Chicago White Sox.

However, the ball park was only the studio for a vast audience to see the bout on closed circuit television which had over one million seats available at prices ranging from \$4 to \$10. Ring time is 9:30 p.m. EST and the fight will go on, even if there is a drizzle.

If the promoters' forecasts hold up, the total gate will be close to

\$5 million, counting ticket sale, theater TV, radio receipts of about \$400,000 and movie rights of \$200,000. Chicago and a 100-mile area is blacked out on theater TV. The nation will hear the radio (ABC) account.

Patterson may receive the richest purse of any fighter in history with a chance of pocketing \$1.7 million to Liston's \$400,000. The old record is the \$990,445 that Gene Tunney was paid for beating Jack Dempsey in the famous "long count" fight in Soldier Field, Chicago, Sept. 22, 1927.

Despite the odds favoring the hulking 6-1, 212-pound Arkansas-born challenger from Philadelphia, a poll of newsmen covering the bout showed a 60 per cent preference for Patterson on a 51-32 edge of 83 votes. The pick here is Patterson in 15 rounds.

# October Deadline Set For Award Nominees

Nominations for the 1963-64 Woodrow Wilson national fellowship awards must be submitted by Tech faculty members no later than Oct. 31, according to Dr. D. M. Vigness, history department head.

Those eligible for the fellowships are outstanding seniors or graduates who are not presently enrolled in a graduate school. Winners receive a stipend of \$1500 for an academic year. There is an additional allowance of \$500 for married students.

Any Tech faculty member may nominate a candidate for a fellowship if he believes that the candidate gives promise of becoming a valuable member of the academic profession.

A nominator should carefully weigh the student's qualifications such as undergraduate preparation, competence in foreign languages and other required subjects such as mathematics, ability in writing

essays and reports on independent work accomplished.

"The nominee must be planning rather definitely to be pursuing a higher degree," said Dr. Vigness. "We have a number at the college who will qualify for the fellowship."

The candidate's name, address and proposed field of graduate study should be sent to the regional chairman, Dean John R. Hubbard, Newcomb College, 1229 Broadway, New Orleans 18, La.

The latest recipient of the fellowship from Tech was John Vance Gilbert, now a teaching fellow in the music department.

# Brothers Four Appear Friday

The Brothers Four are returning to Tech Friday night.

John Paine, Bob Flick, Dick Foley and Mike Kirkland, four young men who have never had any formal musical education, will play once again to Techsians and Lubbockites in a special concert from 8:30 to 10:30 Friday night in the Lubbock Municipal Coliseum.

The four boys met as fraternity brothers at the University of Washington. They began playing at parties for kicks, and made their first record, "Greenfields," after their discovery by manager Mort Lewis.

"Greenfields" zoomed to number one on the nation's bestselling lists, and the Brothers Four were launched. Other records rapidly followed, all of which scored high on the charts.

Tickets for the concert are on sale at the Tech Bookstore and the Hi-D-Ho drive-ins. They are \$2 and \$3 for advance sale, and \$2.25 and \$3.25 at the door.

# Freshmen Pick Council Spots

Freshman council elections for dormitory and off-campus representatives will be Friday.

One representative will be elected from each of the nine residence halls, and off-campus students will elect an equal number of representatives.

Ballot boxes for off-campus students will be in the lobby of the Tech Union and the central hall of the Administration Bldg. all day Friday. Polls for dorm representatives will be open in the dining halls during the noon and evening meals. The election is open to freshmen only, and fee slips must be presented in order to vote.

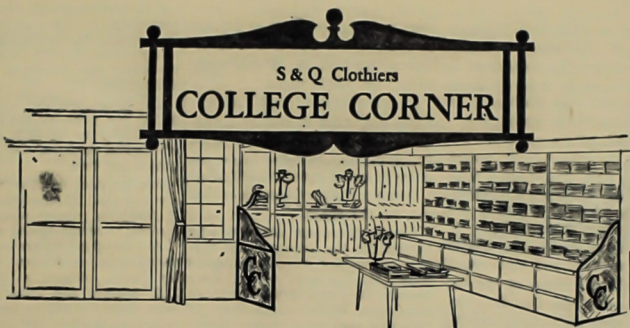

Twelve representatives at large will be elected to the council Oct. 10 from the defeated candidates of Friday's election, bringing the total number of council members to 30.

Election restrictions forbid electioneering within 15 feet of the polls and require elected candidates to remove campaign posters.

Members of last year's freshman council, who are to man the ballot boxes in the election, are to meet Thursday at 4 p.m. in Ad. 172 to review election procedures.

Freshman council is designed to give new students experience in student government. Students who are enrolled for 12 semester hours, are classified as freshmen, and have a two-point grade average are eligible to hold office.

# Welcome to Texas Tech

Come in and browse thru College Corner, a separate department devoted exclusively to fashions created for College Men and Young Men in business, featuring Natural Shoulder Apparel.

## INSTANT CREDIT To College Students

As soon as you are registered and officially a student you are immediately eligible for a continuous COLLEGE ACCOUNT charge plan of continuous credit.

You determine your own credit limit depending upon what monthly payment is convenient with you. Then 6 times that amount is yours in the form of Credit. This is how it works:

S and Q Clothiers will extend you continuous Credit up to	\$30	\$60	\$90
If you can pay each month	\$ 5	\$10	\$15

If you want to raise or lower your Credit Limit after Your College Account has been opened, just stop in at our Credit Department.

All you need now is your registration slip. ID cards will do when they are issued.

# 2156 Techsans Take Polio Vaccine Here

A total of 2,156 Tech students, faculty and staff munched vaccine treated sugar lumps Sunday in an all-out community effort to stamp out polio. Dr. Fred Kallina of the Tech infirmary announced today.

A battery of volunteer workers including the student health personnel, Lions Club, Pink Ladies, members of the President's Hostesses and Alpha Pi Omega quickly processed the hundreds applying.

Dr. Kallina emphasized that all faculty, students and staff should receive all three doses of the vaccine. He cited the Canadian incident of some polio cases occurring concurrent with administration of vaccine as no more than regrettable publicity.

It is his belief that the three-million-to-one chance of contracting polio through the drug is far outweighed by the proven protection provided.

"Most important from the standpoint of community protection," he said, "is to guard against unknown carriers of the disease." All persons taking the three treated sugar lumps are guaranteed life-time immunity from the three types of polio. It also guards against becoming a "Polio-Polly."

Oct. 28 type II vaccine will be given. Makeup date for this is

Nov. 4. Immunization type III will be administered Dec. 9. This makeup will be Dec. 16. "Please come early," Dr. Kallin urged.

Students missing last Sunday's S.O.S. are urged to stop by a physician's office for type I. Types II and III may be taken in reverse order at any of the scheduled dates.

Donations from students helped pay for the drugs.

Some off-campus students who applied for the dosage in the various elementary schools set up as clinics Sunday were turned away because they lacked their parent's signatures. While women over 18 may sign their own consent forms, male students must be 21. This ruling is waived at the Tech infirmary because of blanket medical permission.

## Professor Emeritus Dies Here Monday

Professor Emeritus Albert B. Cunningham, 2601 21st St., member of Tech English department for 17 years, died Monday following an apparent heart attack. Dr. Cunningham taught at Tech from 1929 to 1946. Three years after retirement he was made professor emeritus.

Cunningham, known at Tech for his dry wit and encouragement to fledgling writers, was a successful novelist in his own right. Under the pen names Garth Hale and Estil Dale, he wrote books, short stories and created the Jess Roden detective series.

## Schmidt Seeks Applicants for Danforth Aid

Outstanding senior or graduate men students preparing for college level teaching, counseling or administrative careers are eligible for a four-year Danforth Graduate Fellowship.

The grant provides a maximum \$1,500 per year for single men, a \$500 allowance for each dependent of married students, and also pays tuition and fees.

Applications for the fellowship are due Oct. 28, announced Dr. C. C. Schmidt, physics professor and campus Danforth liaison officer.

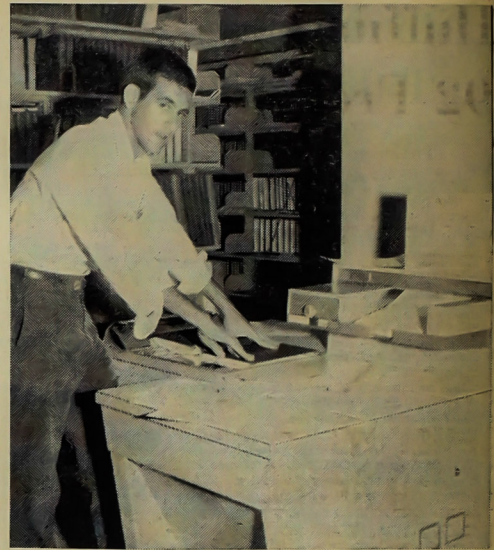

About 100 grants are available to outstanding candidates nominated by liaison officers at accredited U.S. colleges and universities this year. Selection will be based on intellectual promise and personality, integrity, genuine interest in religion and high potential for effective college teaching.

The Danforth Fellowship may be held concurrently with other scholarships, such as the Woodrow Wilson, Fulbright, Rhodes and National Science grants.

## Judge Charges 13 Professors

NEW ORLEANS, La. (AP) — An Appeals Court judge held Monday that federal court contempt had been proven against the 13 men who run the University of Mississippi.

Chief Judge Elbert Tuttle of the 5th U.S. Circuit Court of Appeals then said the time has arrived for the Mississippi College Board to show why they shouldn't be cited.

XEROX 914 . . . is being put to good use by David Weber, sophomore from San Angelo, as he makes a copy of a page. The copier a new addition to Tech's library.

## New Xerox 914 Helps Students Copy Material

By EUGENE YOUNG  
Toreador Staff Writer

Press a button, wait about eight seconds and boom, you have a perfect reproduction.

A modern era and a modern building requires modern machinery, and what could be more modern than the new \$18,000 Xerox 914 office copier located on the second floor of the fabulous new library?

Four easy steps is all it takes for any student, graduate or faculty member to have a perfect black and white reproduction of pages of books, charts, tables of numbers, maps, three-dimensional objects — car keys, watches, coins — or any original copy.

The four easy steps are: (1) Place the original document or copy face down on the scanning glass; (2) Dial the number of copies desired — one through fifteen, or M for multiple copies; (3) Push the "print" button; and (4) Receive the finished copy, ready for use.

After pushing the "print" button the Xerox 914 office copier operates by itself without any adjustments to make. There are exposure settings to make, and it will shut off automatically when the designated quantity is reached.

Other features of the 640 pound copier are: It will make up to seven prints per minute; copies are made on ordinary paper, using no wet chemicals; and it will copy from all colors — blue (ball point ink), yellow (traffic forms) or red (rubber stamps).

The Xerox 914, rented from the Xerox Corporation, is being offered as one of the many services of Tech and is free to its users as long as it is not misused in any way, according to Mr. James Edward Platz, associate librarian. "We are offering it on a trial basis and we hope that it will discontinue the destructive clipping from our books and periodicals," Platz said.

The new machine is now in use and can prove very helpful in research work, copying of quotations and hard-to-copy material.

No extensive note taking will be allowed and copy written material such as songs can not be copied. Only a few pages of copywritten books can be copied. Students and others should check with a librarian before copying from copywritten books as well as from old dated material.

Johnnie Lu Raborn, Society Editor

DALLAS (Special) — Three Southwest Conference teams managed to outgain the opposition was Tech, which had a total offense of 385 yards in bowing to West Texas State, which managed a 30-27 victory with a yardage total of 324.

Front-runner statistically was Arkansas, one of the defending champions, which amassed an impressive yardage total of 431 in whipping Oklahoma State, 34-7. 412 yards against the same school.

The 34 points, tops for a conference team last week, was Arkansas' best opening tally since the surprise championship year of 1954, when Tulsa was dumped, 41-0.

Only two of the other five conference teams seeing action Saturday entered the scoring column. Texas tallied 25 in a come-from-

DALLAS (Special) — The losers grabbed the spoils in individual statistics on opening day of the 1962 Southwest Conference football season, with Quarterbacks Johnny Lovelace of Texas Tech and Don Trull of Baylor setting the pace.

The 6-5 Lovelace emerged as the rushing leader in Saturday inaugurals with 83 yards in 15 carries and he gained enough overhead (46 yards on two completions) to share total offense honors with Arkansas' Billy Moore on aggregates of 129.

Trull led in pass completions, hitting on 11 of 27 attempts as Baylor bowed to Houston. The most proficient, however, were Sophomore Bill Gray and Moore of Arkansas and Johnny Genung of Texas. Gray hit on 4 of 5 attempts and 3 of his completions were good for touchdowns. Moore connected on 7 of his 9 attempts, one of which was good for a touchdown, while Genung threw two scoring passes and also passed successfully for conversions after Texas' first two touchdowns.

The biggest payoff, however, was Sonny Gibbs' 12-yard pass to end Tom Magoffin. It accounted for the 6-3 edge over Kansas.

Each of the seven schools participating Saturday had a quarterback among the eight total offense leaders, Arkansas grabbing two spots through the efforts of Moore and Gray.

Fullbacks Coolidge Hunt of Tech, Conference champion as a sophomore in 1960, and Tommy Crutcher of TCU ranked second and third, respectively, behind Lovelace in ball-carrying honors. Lovelace's rushing total was the lowest opening day figure in the Conference since 1952, but Trull's completion total was the best since 1956, when Chuck Curtis of TCU and Vince Matthews of Texas hit 13 each.

behind conquest of impressive Oregon, while TCU made one touchdown stand up in a 6-3 victory over Kansas. Three teams (A&M, Baylor, SMU) were white washed in their inaugurals.

Texas Tech captured opening-day rushing laurels with 288 yards against the Thundering Herd of Canyon. Arkansas was the leader overhead, gaining 241 yards on 12 completions, the best inaugural passing performance since 1956, when TCU gained 279 on 14 completions against Kansas.

Ironically, the teams yielding the fewest yards were those who suffered the most decisive setbacks (199 by Baylor and 244 by A&M). TCU took defensive honors for the day, however, being the only con-

ference team that kept its goal line uncrossed.

SMU managed the greatest number of completions (13 of 25) among conference teams but Arkansas was the most proficient, hitting 12 of 19 attempts. SMU also ran the greatest number of plays, totaling 84 with 59 ground and 25 overhead. That was two more plays than Maryland ran in gaining a yardage superiority of 478 to 160 over the Mustangs.

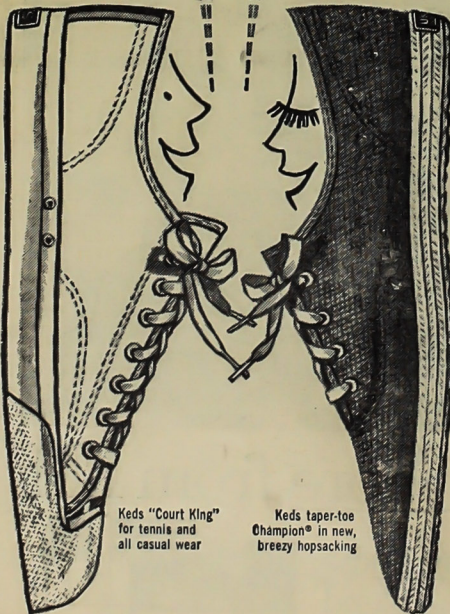

SMU and Texas were the only conference teams that gained a punting edge over the opposition. Sophomores achieved the superiority in each instance, as Danny Thomas averaged 42.6 on seven punts and Ernie Koy hit a 42.5 mean on eight kicks.

It's your tapered shape and your hopsacking look that get me...

Mother always told me to look for the blue label!

The Shoe of Champions

Keds "Court King" for tennis and all casual wear

Keds taper-toe Champion® in new, breezy hopsacking

Nobody's really suggesting romance will be yours if you wear U.S. Keds. But it is true that Keds are the best-fitting, the most comfortable, good-looking and long-wearing fabric casuals you can buy. Because Keds are made with costlier fabrics. With an exclusive shockproofed arch cushion and cushioned innersole. In short, with all those "extras" that make them your best buy in the long run. Head for your nearest Keds dealer. Get that Keds look, that Keds fit... GET THAT GREAT KEDS FEELING!

# WORLD NEWS

**Students Protest Segregated Club**  
**AUSTIN** — Student battle against a segregated club across the street from the University of Texas campus waned this week after the faculty-staff advisory board of the organization was abolished.

The plush Forty Acres Club was established chiefly to house student and faculty guests visiting the university, but there have never been any official ties between the club and school.

The advisory board was composed entirely of university faculty and staff members, however, and University of Texas students picketed several times in protest during the summer. The University of Texas is integrated.

The faculty and staff members in the club will be asked by officials of the Forty Acres Club to join another advisory board, which will be made up of Austin citizens.

## Search Plane Sights Wreckage

**KODIAK, Alaska**—The burned wreckage of a Navy patrol plane that carried 10 men was sighted by a search plane today on an island on the southern coast of Alaska.

The Navy said there was no sign of any survivors. Three bodies were seen near the wreckage, the Navy reported.

The search plane radioed Navy headquarters at Kodiak that the wreckage was spotted near Cape Cleare.

A ground search party was dispatched but there was no estimate of its time of arrival.

The wrecked P5M plane, with a crew from Patrol Squadron 42, San Diego, Calif., was last contacted by radio near the island Saturday.

## Kennedy Greet Pakistan Official

**NEWPORT, R.I.** — President and Mrs. Kennedy gave a cordial welcome today to President Mohammed Ayub Khan of Pakistan who made an unofficial visit to Newport.

Full military honors were accorded the Pakistan president even though his visit was billed as unofficial.

## Search For Missing Continues

**LONDON**—Slim hopes were still held Monday night for 21 persons—including women and two children—missing from a chartered airliner ditched in the storm-tossed North Atlantic with its load of American servicemen and their families.

The flight was enroute to Frankfurt, Germany.  
 The Swiss freighter Celerina rescued from raging seas 49 survivors of the Flying Tiger airliner—some seriously injured and all suffering from shock in the crash landing Sunday night.

Capt. John D. Murray, 44, Oyster Bay, N.Y., veteran pilot of the four-engine Super Constellation, was reported among those saved.

Six bodies were recovered.  
 One rescue ship radioed sighting a raft with survivors clinging to the side, but hours later as darkness fell no further word was heard about the report.

Pilots returning from the crash scene 500 miles west of Ireland reported the missing had a reasonable chance of survival if still aboard a liferaft.

## Exes' News

**BURLINGAME, KANS.** (Special) — A 1950 graduate of Texas Tech, Jerry Stoltz, was killed Friday when the light plane in which he was riding crashed near Burlingame. Three other persons, including Mrs. Stoltz, died as a result of the accident.

Stoltz, 39, who lived in Lovington, N.M., was a widely known editor and publisher on the South Plains. A onetime publisher of the Lovington Leader, he had worked with Littlefield, Brownfield and Hereford papers.

Mr. and Mrs. Stoltz were enroute to Chicago to attend a weekend convention.

**COLORADO CITY (Special)** — Funeral services for Mrs. Mildred Moon, mother of Phil Orman, director of student publications at Tech, were held at 2 p.m. Monday. Mrs. Moon, a longtime resident of Andrews died here Saturday.

Birds fly closer to the ground than usual in damp weather, seeking insects unable to rise far with moist wings.

## Billie Sol Faces Court As Legal Action Starts

**TYLER (AP)** — Court action started today in the case of Billie Sol Estes, whose extensive agricultural empire collapsed in bankruptcy and indictments. But at a late hour there remained some question of whether he would go on trial.

Estes' attorney was expected to make a lengthy series of motions before selection of a jury could begin. A motion for delay was expected.

Estes did not appear in the small courtroom in this East Texas city at the start, delaying his entrance while attorneys argued motions.

John D. Cofer, noted attorney specializing in crime cases, is chief of the defense.

Cofer's first motion was to ban cameras of all types from the

courtroom. But Judge Otis D. Dunagan turned down this plea, although he ruled against use of cameras outside the courtroom on the same floor.

The hearing was televised. Judge Dunagan ruled that the trial also can be covered by television, radio and newsreels in the courtroom.

Estes' first appearance in the courtroom came shortly before the TV-radio-newsreel ruling.

Dunagan expressed his belief that the court could find an impartial jury and ordered the trial started.

Among the witnesses were M. E. Danbom of KTBB, Tyler; Bruce Neal, KXOL, Fort Worth, representing six stations; Jim Pratt, WFAA-TV, Dallas; and Bill Duke, KRLL-TV, Dallas.
