MATADORS GET REVENGE ON JACKETS

Hairy Engineers To Clash With Agg Hay Makers

FIRST INTER-CLASS GAME CREATES KEEN SPIRIT OF RIVALRY AT TECH

The first intramural game will be played Saturday. Tech will see a hot contest between two powerful teams when the Hairy Engineers and Soil turning Aggies clash on Matador field at two o'clock.

For several weeks sentiment has been running high over the first inter-class football game. This will be the beginning of sports which all students will be able to participate. The reason for the game is not to create a fierce rivalry between schools but to give every student an opportunity to play in a gridiron contest. There will in all probability, be a

CANYON BUFFALOES WILL NOT SHAVE TIL THANKSGIVING

The Canyon Buffaloes are going to have a big time. They are not going to shave until after the Tech game, Thanksgiving day. They are destined to have a hard time of it and whiskers can not win them a ball game from the Bull Fighters. We have been up against all kinds of animals and reptiles this year, including Frogs, Indians, Cowboys, Hill Bullies, Wild-cats, Bulldogs and Yellow Jackets and so we do not fear a mere Buffalo with long whiskers.

Those teachers are going to put up a nasty scrap, however, and we must all be there to see the carnage. We acknowledge that they have a good team but they do not have what it takes to beat the Tech Matadors. It will be a great day for the Canyonites as determined to seek revenge for the drubbing we gave them last year and they are to be our hosts during the while, they will hate to do it, but they are good sports and we prophesy a great time.

Pre-Law Students Organize Tuesday

A group of 16 or 18 young men who aspire to be the future presidents, governors, Clarence Darrows, William Jennings Bryans of the United States, braved the blasts of a real West Texas sander Tuesday evening for the purpose of forming Tech's first Pre-Law club.

Dr. W. A. Jackson, head of the government department, gave the call. Due to the suddenness and the inclement weather, which was the cause of several prospective numbers to be absent, no definite action was taken except the appointment of a committee to draw up a constitution and a set of by-laws. The men present elected to let Dr. Jackson assume the responsibilities of organizer.

He appointed a committee consisting of Carter, chairman; Edleman and Jackson to draw up a constitution and set of by-laws to be presented to the assembly next Tuesday evening at 4 o'clock at which time a club will be organized, officers elected and other preliminaries cared for. There are 42 men who have signed cards who admitted intentions of studying law. As membership will be confined to these persons, every pre-law student is urged to see Dr. Jackson at his office between now and next Tuesday if they wish to become members.

It is the census of opinion of the group and the organizer, that this is to be no bunch of Kangaroo court adherents, proficient liars or any other bunch of disreputables. It will be a club that is organized for business and to help the individual who intends to study law as a profession. There will be entertainments to be sure, but of the approved kind. Every pre-law student meet in room 221 Tuesday evening at 4 o'clock, November 23. You will miss it if you miss it.

Panhandle Club To Be Organized

A meeting has been called for tonight at 7:30 in room 209 of the administration building for the purpose of organizing a North Panhandle Club. All students who live north of Amarillo are eligible for membership. There are a number of students who are from this section of the state and a good club is expected to be formed from the lot.

This makes a good addition to the list of home town and sectional clubs in the Tech and friendly competition is being experienced in the work. Their main object is to influence students to come here in later years.

good crowd out to see the game and certainly it will repay all who attend.

Coach W. L. Stangle says that his team will be light and fast but he would give no information as to the players he would use. However it is expected that the two teams will use different tactics. The Engineers who have much more material and heavier men will use straight football while the Aggies will resort to an overhead attack and to end runs.

The Aggies will be handicapped by lack of material as they have only a few substitutes. Many of those that have never played football but are loyal to their school and so are willing to give it a try. They have a real spirit and the Hairy Engineers will have to do their best to down the Hay-Makers. The Aggies will be very light on the wings and the back field will not average over 150 pounds. They have never scrimmaged because of lack of uniforms and so little is known of their strength. Stangle gives this as his probable line-up: ends, J. H. Burroughs and Williams; tackles, Atkinson and Logan; guards, Kirk and Brown; center, Frasier; halves, Pace and Dean; full, King.

A delightful program was given at which the constitution was read, amended and adopted. A solid committee and a snap shot scout were appointed. The Colorado Club was glad to learn of the San Saba club organization. With the enthusiastic membership that it now possesses no reason can be seen why the club isn't set for a period of great activity. Stay in there "Ace" of clubs.

As you may well suppose, the Colorado Club reluctantly adjourned until the next regular meeting two weeks hence.

Texas Tech Music Club Organized

The Music Club of Texas Tech met with Mrs. Thad Thomas and Mrs. Wagner at the home of Mrs. Wagner on Saturday evening.

The Engineers, whose Coach is Prof. Shelton are heavy and have been at it for some time. They will have three teams and Coach Shelton says that he intends to play every man and so was not ready to give a line up.

The meeting adjourned and our hostess served dainty refreshments of lemon jello with whipped cream and cake. Everyone reported a good time.

The members of the club are: Rose Mary Nelson, Josephine McBride, Evelyn Wilson, Hazel Graves, Miriam Cross, Cleo Hendricks, Gusie Suggs, Marjorie Leaverton, Larue Sawyer, Norma Hulme, Iris Crawford, Lorraine Pass, Lillian Hopping, Allen Wells and Miss Niles.

The music club will give a recital honoring the ladies of the Tech faculty at four o'clock Saturday, Nov. 20, at the home of Mr. and Mrs. Paul Barber.

Inners Disport at the Palace

Just how the beautiful co-eds of our dormitories managed to convince Mrs. Doak that they were needed at the Palace theatre this past week is beyond my conception. The display itself was marvelous, although Earl Carroll is reputed to put more, or perhaps I should say less, stuff on his "Varieties". The country boys who wear ties in their shirts and walk on the hard pavement of Broadway (Lubbock main drag) were out en masse and the slimes of Texas Tech cooperated with their boisterous applause and loud shouting. If the country boys and slimes continue to raise hades every time an added attraction is put on the Palace bill, Lubbock will soon be in the market for a nice new and very strong theatre.

Just how the three musketeers of College Inn managed to evade the person directing the program is not known. Hutto, Fletcher, and Tom Miller have forced the management to hang out the dusty sign "Sold Out". Probably the fact that they were "benched" interfered some, but I hardly think these three young ladies would let a little thing like that worry them.

But back to the main topic of cussing hooligans at the Doak. It is walking on College Inn gals evade the iron-bound rule. The policy laid down after the notorious Fort Worth trip was one of iron and blood. Mrs. Doak is reputed to have pounded the desk in her office with a gloved fist, and made clear as well as emphatic that special privileges were things of the past. Tears were of no avail at that time for the weeping and wailing and gnashing of teeth was clearly audible over the entire campus; yet, truth is stranger than fiction, and hence the entire country side viewed with delight the spectacle of the ages last Wednesday.

PINEY WOODS CLUB CALLS A MEETING

ALL EAST TEXANS ARE URGED TO ATTEND MEETING MONDAY NIGHT

The Piney Woods club will meet next Monday night in room 221 of the main building. There is much of importance to be discussed and plans will be laid for the club banquet which will occur in the near future. Many towns are represented but not all. There are many in Tech from East Texas and the piney woods who have not joined so everybody that knows a real tree when you see it or a chinkapin turn out for the meeting. The time is eight o'clock.

Famous Doak Hall Hold Colorado Meet

The Colorado Club met in the parlor of Doak Hall Monday evening. Needless to say, all the male members of the club were present and on time. Most all the girls from Colorado going to Tech stay at Doak and upon their invitation and with the kind consent of the matron of the dormitory the club met there.

A snappy program was given after which the constitution was read, amended and adopted. A solid committee and a snap shot scout were appointed. The Colorado Club was glad to learn of the San Saba club organization. With the enthusiastic membership that it now possesses no reason can be seen why the club isn't set for a period of great activity. Stay in there "Ace" of clubs.

As you may well suppose, the Colorado Club reluctantly adjourned until the next regular meeting two weeks hence.

JIM PHETTA THI

The Jim Phetta Thi fraternity was organized Monday night at 2321 16th street, with H. B. Bryan and Jim Stanford, two of Tech's most prominent slimes, as the members. The first business to be brought before this new club was the selection of a name. The name Jim Phetta Thi was finally agreed upon as the name, since Bryan never has a date with a girl. The next business was the election of officers. Since no agreement as to the division of the offices could be made, the method of cutting the cards was used. The following officers were elected: H. B. Bryan, president; by drawing the Jack of clubs over Stanford's eight of spades; Jim Stanford, vice-president; by drawing the ace of spades over the eight of diamonds; H. B. Bryan, scavenger; by drawing the ten of clubs over the six of hearts. The object of the Jim Phetta Thi frat is matrimony. Stanford bet Bryan \$25 that he would be married to the best looking girl in Tech by Christmas. The following program was rendered by the club members: "The Faults of the World," by Stanford. Stanford says the trouble with the world is too much wine, women and song, and that he is trying to do his bit to make the world better by not singing. Bryan then made a very fine discussion of "Boommies". One of the points brought out in this speech was the fact that Jim Stanford talked too much, especially about marriage, and Bryan told the club that he was going to have to find himself a new roommate if his fellow club member, Jim Stanford, did not cease his endless prattle about matrimony. After the business and program, refreshments were served, consisting of a jar of fresh spring water, and a brand new package of Camels. The Jim Phetta Thi frat meets Monday night at all hours, and as the membership is limited, all who wish to affiliate themselves with this Tech's newest club, should be at the next meeting.

Faculty Club To Entertain Tonight

The November meeting of the Faculty club will be held tonight at the college cafeteria, with Mrs. W. J. Miller as chairman of the program committee. No information was given out as to the nature of the program, but a good program is scheduled and the members will be assured of a joyful time. All members of the Faculty are invited to become members of the club.

The Soviet Naptha Syndicate is seeking to establish on the Bosphorus in Turkey a warehouse having 14,000 tons capacity.

An American company will have entire charge of construction of the highway from Medellin, Columbia, to the Pacific Ocean.

IMPORTANT NOTICE!

December 1st is the last day set for making pictures for La Ventana. It is absolutely necessary, due to the contract made with the studio, that every picture that is to appear in La Ventana be made on or before that date. All upper-classmen and those freshmen who have not had their pictures made, please go to Daniels studio and have their portraits made at once. Don't have to tell your friends you went to Texas Tech. Show them your La Ventana, and let them discover your picture spots. If you belong to several clubs, then by all means, don't fail to have your picture made and placed in the pages of the clubs to which you belong. Think of how you can impress the folks back home as to what a valuable man (or woman!) you are in college. Remember that the biggest thing you will get out of your college education, anyhow, is the fact that you can go home next summer and set all the girls (or boys) hearts a-flutter with the thrilling (and sometimes partially true) tales of your adventures in college. And with your picture in a few places in La Ventana to prove what a prominent school citizen you are, and how high you rate with the student body, think of the conquests you can make. But remember that you only have two weeks left. So borrow your roommate's best end all of his hair oil and go down to the Daniels studios tomorrow and get that picture made.

HAYWOOD CANDY CO. MOVES ITS QUARTERS

Haywood brothers who have been operating a candy kitchen on Avenue I, have moved to new and larger quarters at 1116 Broadway, in the building formerly occupied by the Lubbock printing company. These young men have been in Lubbock for almost five years, and have many friends who will be glad to know that their business has grown until a larger building was necessary.

On another page in this issue of the Avalanche is a formal announcement of their change and a welcome to visit them at their new home.

HE SAYS CRIMINALS SHOULD WORK, NOT DIE

DENTON, Texas, Nov. 18.—A sentence of labor rather than one of death should be meted out to the desperate criminal, is the opinion of Charles Brandon Booth, national field secretary of the Big Brother and Big Sister Federation, Inc., who spoke at the college of Industrial Arts this week.

Batching Way Through College Is Great Stuff

LIKE SIR CAWAIN, He SMELLS OF PANS

Beans Are The Great Brain Food! Makes "Ds"

This batching is a great life if you don't weaken but I am weakening fast. Garages are the hotsy-totsy if they are built on the ground, but deliver me from these tall ones that rock and give one sea sickness every time of blows strong. It has been many long years since I was rocked to sleep but once again I am experiencing the sensation. Mother Nature seems to take it upon herself not to rock me to sleep, but also to toss me unceremoniously from the bed.

Well, back of the subject of batching, it is a great life, if you have a metallic digestive system. Weak little freshmen and campus shleeks could not thrive on the menu we have. However I guess it is the cheapest and that is the main idea—get by as cheaply as you can. To be collegiate, one has to act up town, even if the old exchequer is depleted. I can manage to borrow enough to get a pretty decent attire. Most collegians go around on an empty stomach, the mind functions on an empty stomach. Cassius has a lean and hungry look, poor boy, that Cassius guy, I am beginning to look like him. I am like him for I stay so hungry that to sleep at night is impossible.

Our cook is by no means a Frenchy, but he does know his stuff when it comes to cooking beans and slicing bread. I can not thank him much for his attempts to bake biscuits. They are so hard and solid, for even myself to masticate, and that is some hard. Everything we have is brain food, according to his idea and I don't notice that my aching head is limbing any. Same old "Ds".

My clothes are beginning to take on the odor of the kitchen. I know how Gawayn of old felt when the pretty dame told him he was a kitchen knave and that his clothes reeked of the odor of pots and pans. The co-eds

ANDERSON BROS TO PRESENT A TROPHY

MOST VALUABLE MAN ON MATADOR SQUAD TO BE AWARDED SILVER TROPHY

Tech students it is time that you voted for the most valuable man on the Matador squad. Anderson Bros. are giving a trophy to the best man on the team. The most valuable man is the man that plays a consistent game and would be most missed if the team.

There have been a great number voted but nothing like the number that should. The trophy is a beautiful silver statue of Victory holding aloft a wreath symbolizing glory. It is a beautiful creation and the man that it is awarded to may well be proud of it. The Tech students are the ones that should decide the question as to who is the most valuable man on the Matador squad and it is not for us to sit and let the citizens vote, for they are not in a position to know who is the most valuable man.

Anderson Bros. are loyal Tech supporters and we should show them the courtesy to cast our ballots. They are doing their part to put Tech on the map and the way we can show our appreciation is to go down and vote for the man we consider most valuable to the Matador warriors.

Do not vote for a man just because he is in the back field and shows up a great deal by spectacular runs but remember that in the line are valuable men also, for they prepare a way for the backs to go.

Special Train to Go to Canyon

Next Thursday is when we play our big game against the Buffaloes. The Buffaloes are going to give all of us a hard time. Therefore, every loyal Techian should accompany those fighting Matadors to Canyon for that game, and yell for them, keeping up that old Tech spirit. The Santa Fe has granted special rate of \$2.35 for the round trip, and since we get only one day for Thanksgiving, no one will have time to go home, and there will be nothing in Lubbock for you, so let's be on that train when it pulls out of Lubbock Thursday morning. Show Canyon the kind of a college Tech is, and show those Matadors that you are behind them and want them to fight to win. Slay the Buffaloes!

Practically every one of the more than 700 tractors in Porto Rico were made in America.

YELLOW JACKETS GO DOWN UNDER A HARD HEEL OF SCARLET MATADORS

MATADORS HAVE SWEET REVENGE ON YELLOW JACKETS, WIN IN A WALK

Well, the Yellow Jackets went down. In every phase of the game they were outclassed from the very outset the visitors were in the hole, but they fought a great battle.

Throughout the contest there was too much Walker—he ripped off many brilliant runs and made two of the Tech touchdowns. Hill also played his steady game of hitting low and hard; several times he made first downs through the line. Woodrige at quarter, showed a classy, fast game and out-punted the Yellow Jackets. Hamilton made many hard tackles and Archibald who went in for him threw heel dust into the eyes of the Jackets. In the line Red Smith was the bulwark that could not be passed—his first down was seen to come out of all parts of the field. Woodrige and Westerfeldt fought a good game and White, at his old wing position, was very much in evidence. It was his beautiful catch that made possible the last score when he ran fifty yards across the line. Barfoot also proved himself an invaluable man to the Matadors. Aldridge and Corley who substituted for Westy and Calloway were powerful in both offense and defense.

In the first quarter there was plenty of action and when Tech made her first score the rooting section went wild, for Tech has been laying for the Yellow Jackets ever since last year when they were the only ones to defeat Tech. The Howard-Payne score was made on a fluke or rather a fumble. On an attempted double pass the ball went wide and a Howard-Payne end picked it up and rushed down the field, thirty yards for a touchdown.

Matadors Learn Shift

But this shift system was not as effective as last season—only for the fact that the Freedland man had gained knowledge sufficient enough to stum the drive; and repeatedly the linemen of the Bleader eleven stopped the charging Jack backs on the line of scrimmage, and forced the Brown-wood Institution crew to an almost exclusive passing game. It was the same line that proved too much for Simmons, A. C. C., and others that have tried to make any attempt for yardage on line plays that hurried the Amisen back.

In all departments of the clash the Matadors displayed superiority, and put up a dazzling exposition of both straight football and aerial attacks. Higginbotham's backfield netted yard after yard on offense drives and made 11 first downs to the Jackets' 5.

The Matadors counted in the second period after the big end of a punting duel favored the Scarlet and Black and the Matadors gained possession of the ball on the Jack's 37 yard line. Walker and Hill slashing, ripping and tearing through the Payne line advanced the ball to the Jacket 21 yard line where on a dazzling run by Walker, who skirted the left end for 21 yards, made the first center of the game. The first half ended with a count of 7-0.

Zarafonets Races 70 Yards for Touchdown

Early in the opening of the second half the Freedlandmen again had the ball on the Jacket 30 yard line; but with an attempt of a lateral pass, Hill to Walker, behind the line of scrimmage, Zarafonets, the flash of the visiting performers, swooped the pass off the ground and chased for 70 yards, unhampered, for their only counter.

Coming back with a terrific display of end runs and off tackle plays, the Matadors soon scored another touchdown. Taking the ball from mid-field the Matadors marched down the grid within 11 yards of another touchdown, from this point, Walker, in this usual method of fleetness and ability of sidestepping, crossed the Jacket goal line. Archibald, who shared much credit for this counter, had advanced the ball for 15 yards with his rare display of broken field running. Hill kicked the ball low and it struck the cross bar for extra point.

The third counter chalked up by the warriors of the Scarlet and Black came for this counter, but advanced the ball for 15 yards with his rare display of broken field running. Hill kicked the ball low and it struck the cross bar for extra point.

Walker, in a steady sidestepping fashion, crashed through and chased 35 yards. Cottle, safety for the Jackets, stopped him on the H-P 33 yard line. Hill hit through right side of line for 3 yards followed with 2 yards by Hamilton at right guard; A pass Walker to Hill, incomplete. At this point Walker crashed through and chased 35 yards. Cottle, safety for the Jackets, stopped him on the H-P 20 yard line. Murrah to Casbeer, a forward pass, was grounded. Murrah punted 35 yards.

PLAY BY PLAY First Quarter

Cook, acting captain of the Jackets, won the toss and chose to defend the south goal. Tech kicked off to Murrah, who returned for 20 yards. Howard-Payne's initial drive attempted by the Jackets, they were penalized 5 yards; offside; Murrah plowed Tech line for 2 yards; when Murrah made a long pass Woodrige blocked it. It fell to Jennings on the Jacket 48 yard line. Walker drove through for 2 yards. Hill hit through center on two attempts for 3 yards and a first down. Tech's ball on the Howard-Payne 34 yard line. Tech offside, 5 yard penalty. A pass, Hill to Walker, netted 10 yards, then Hill ripped off 7 yards at right tackle on the Jacket 23 yard line. Walker skirted off tackle for 5 yards. Woodrige was held by Cagle and Brown for no gain; a pass, Woodrige to Walker, incomplete; on bad pass from Calloway to Hamilton Tech 3 yards and the ball went to the Jackets on their 35 yard line.

McAtee hit left side of line for 1 yard; Jackets offside, 5 yard penalty. A pass, Murrah to Casbeer, incomplete. Murrah punted for 51 yards out of bounds on the Tech 33 yard line.

Walker, in a steady sidestepping fashion, crashed through and chased 35 yards. Cottle, safety for the Jackets, stopped him on the H-P 33 yard line. Hill hit through right side of line for 3 yards followed with 2 yards by Hamilton at right guard; A pass Walker to Hill, incomplete. At this point Walker crashed through and chased 35 yards. Cottle, safety for the Jackets, stopped him on the H-P 20 yard line. Murrah to Casbeer, a forward pass, was grounded. Murrah punted 35 yards.

Yesterday was "Satchel" Hill's day

—he ripped and tore big holes in the Yellow Jacket line, gained yard after yard on the highly heralded Texas Conference leaders and was very instrumental in counting in many of the Matador scoring plays. The toe of "Satchel" added three points to the accumulated score registered by the Matadors. He was truly as effective on defense as on offense, and his manner in backing the line flashed out time and again in the game.

Then there was Walker, who has burst forth in game after game with his fashionable manner of skirting the opposing ends, for long gains; who like his running mate put up a most spectacular offense exhibition. The big and fast Higginbotham back received off touchdowns with his shifty side-stepping to score two of the Scarlet counters.

And "Dopie" White, an underrated man of the Tech crew brought forth another counter, with only two minutes to go, by receiving a pass. He followed his interference in a very effective way, cutting back only to follow another group of husky protectors, to race for 3 yards for a touchdown. This was one of the most characteristic features of the afternoon's contest.

Barfoot, who was sent in to relieve Jennings in the last quarter, put up a very brilliant attack on the Jackets, and especially in the defense. He became the initial and in plays that meant more to them they were stopped or carried back by the Toreador line.

The line-up:

| | | |
|---------------|--------------|------------|
| Jennings | Left end | Casbeer |
| Westerfeldt | Left tackle | Brown |
| Reed | Left guard | Cagle |
| Calloway | center | Price |
| Smith | Right guard | Urban |
| Carpenter (c) | Right tackle | Ethridge |
| White | Right end | Butcher |
| Woodrige | Quarterback | Murrah |
| Hamilton | Left half | Zarafonets |
| Walker | Right half | Cottle |
| Hill | Fullback | McAtee |

Hamilton; DeWitt for Smith; Corley for Calloway; Aldridge for Westerfeldt; Barfoot for Jennings.

Howard-Payne; Johnson for Cottle; Officials: Vene (Carls) referee; Boyton (Williams) umpire; Ettlinger (Washington, Harvard) line judge; Mowery (Texas A and M) field judge.

PLAY BY PLAY First Quarter

Cook, acting captain of the Jackets, won the toss and chose to defend the south goal. Tech kicked off to Murrah, who returned for 20 yards. Howard-Payne's initial drive attempted by the Jackets, they were penalized 5 yards; offside; Murrah plowed Tech line for 2 yards; when Murrah made a long pass Woodrige blocked it. It fell to Jennings on the Jacket 48 yard line. Walker drove through for 2 yards. Hill hit through center on two attempts for 3 yards and a first down. Tech's ball on the Howard-Payne 34 yard line. Tech offside, 5 yard penalty. A pass, Hill to Walker, netted 10 yards, then Hill ripped off 7 yards at right tackle on the Jacket 23 yard line. Walker skirted off tackle for 5 yards. Woodrige was held by Cagle and Brown for no gain; a pass, Woodrige to Walker, incomplete; on bad pass from Calloway to Hamilton Tech 3 yards and the ball went to the Jackets on their 35 yard line.

McAtee hit left side of line for 1 yard; Jackets offside, 5 yard penalty. A pass, Murrah to Casbeer, incomplete. Murrah punted for 51 yards out of bounds on the Tech 33 yard line.

Walker, in a steady sidestepping fashion, crashed through and chased 35 yards. Cottle, safety for the Jackets, stopped him on the H-P 33 yard line. Hill hit through right side of line for 3 yards followed with 2 yards by Hamilton at right guard; A pass Walker to Hill, incomplete. At this point Walker crashed through and chased 35 yards. Cottle, safety for the Jackets, stopped him on the H-P 20 yard line. Murrah to Casbeer, a forward pass, was grounded. Murrah punted 35 yards.

AGGIE NEWS BRIEFS

Through the efforts of the Ag. club and the cooperation of the agricultural faculty the School of Agriculture made an impressive showing in the Parade on Armistice day. The need for diversification and the progress in agriculture was shown by a comparison of facts and figures concerning the cost of production and net return on the livestock on the farm and an amount of cotton of equal value.

It is reported that the stark judging position will now be supplied with heat and cold feet and fingers will not be so prevalent at the meetings held there. Where there's heat there's energy and maybe the pop squad can absorb some of this and put it out via the "rah rah" route. Mr. Warlick and Mr. Eppin are to be thanked for their efforts in securing the operation of the heating system there.

The harvest of the HEM proceeds is about over on the Tech farm and preparation of the seed bed for next year will soon be started. 104 tons of alfalfa and over 125 tons of bundle stuff have been harvested with 50-75 tons of seed feed yet to be brought in. The farm labor of the last few days has been turned to the cultivation of the tree rows and plants on the campus.

Upon their request Bob and George Hazhurst have been given an honorable discharge from the school of agriculture because of the present cotton situation.

It is rumored that the Aggies are going to give the Home Evers a picnic in the near future. Last year the students in the School of Agriculture and the School of Home Economics stood together on several burning questions. Perhaps the feeling of sentiment was caused by the relative small number of students enrolled in each of the two schools as compared with those in the other schools. Rally all ye Aggie freshmen to the Home Makers; they are for you, and if one should become your loving wife you should soon have plenty of this world's goods, because you would be combining economy with production.

The Aggie football team has been working hard lately and are getting in some good practice in tackling. Engineers, you had better use your calculations concerning your Aggie slide rule well and make all known opponents.

Mr. Mahoney of the Horticulture Department has moved and is now living at 2420 Broadway, just off the campus.

The night watchman wishes to thank the person or persons who gave him the sandy overcoat. He says that he was the most pleased man on the campus last Friday night, when it was handed to him by Mr. Warlick. An overcoat is an overcoat, this wintry weather.

It is planned to have a representative of the Portland Cement Assn. to speak to the Aggie freshmen, Saturday at the regular lecture period, on the use of concrete and cement to the farm.

Model Questions for Freshmen: Are fish crazy when they go in pairs? Does a ship have eyes when it goes out to sea? Does the paper sound make a noise?

Authorities on classical music have announced that the most popular hit this season is "Shake that thing in the middle of the night then I'll be happy."

I have heard of mixed blood. Tim Mix, something being all mixed but mixed pallidians seem to be the most popular.

It's over six months until the fourth of July, but some of the Tech boys are certainly hot after these firecrackers.

The explanation of the miraculous growth of slatons is said to lie in the fact that nearly all the larvae leave early in the morning, and naturally making lots of noise, and its too early for the townsmen to get up, and they can't go back to sleep, hence the large numbers of young offspring.

Fine for Fighting: Amarillo Men Convicted of Striking Negro in Dispute Over Small Sum of Money.

H. L. Baskin and W. C. Kidd, who gave Aggieville as their home, were arrested by members of the police department Wednesday night and lodged in the city jail. Thursday they were transferred to the county and charges of assault and battery were filed against them.

The young men are alleged to have struck a negro in a local hotel during a dispute over a small sum of money.

Fines of \$12.70 were paid by the defendant in Justice Clark's court.

OPTOMETRISTS TO MEET HERE TODAY

TWO-DAY SESSION OF EYE-MEN STARTS AT 1 O'CLOCK THIS AFTERNOON

Gathering for further study in meeting the demands of the public for better eyesight service, more than 125 optometrists of West Texas will arrive in Lubbock today for the first post graduate clinic on the Plains of the Texas optometric association. Zone two, from Abilene north and west, will have representatives in the two-day meet here.

The clinic will be held in the Lubbock hotel and activities will begin at 1 o'clock, following the registration in the morning. The clinic will be conducted by Drs. J. E. Christian, Temple and Harold M. Block, Dallas, conducting both lectures and demonstrations of the clinic. Besides the regular study of the profession, the problems of publicity and others will be taken up in the meetings.

The local optometrists have made preparations for a good entertaining program which will be climaxed with a banquet at the hotel.

W. T. C. C. BATTLES WITH HOG CHOLERA

WILL TAKE STEPS TO COMBAT EPIDEMIC SPREADING TO PANHANDLE

STAMFORD, Nov. 18.—At this time, the most severe outbreak of hog cholera ever known to the corn belt is raging. Shortage of hog cholera serum with which to combat the disease has added to the seriousness of the situation. Spread of the epidemic is due entirely to activities of unscrupulous hog dealers and to Texas buyers who are not sufficiently particular as to the source of their hog stocker purchases. The West Texas Chamber of Commerce, in co-operation with the livestock sanitary board is making extended efforts to combat the disease.

Reports to the West Texas body indicate that the cholera is quite prevalent in Oklahoma, especially along the Texas border line, and that the hog plague is rapidly spreading to West Texas and the Panhandle with resulting serious losses. Diseased Oklahoma swine are being trucked across the line into Texas, according to information sent in to the West Texas Chamber of Commerce headquarters office, and these hogs are spreading cholera on every premises where they find lodgment. At the same time, New Mexico stocker hogs have been driven across the state line into the Panhandle of Texas causing further introduction of the plague into West Texas localities.

The livestock sanitary board and the federal department of agriculture are making every effort to abolish this practice and unscrupulous work in north Texas and are attempting to enforce the rules and regulations governing the movement of hogs which were promulgated at the solicitation of the West Texas chamber of commerce.

Officials of the West Texas regional body, believing public sentiment to be as strong as law and regulation, is appealing to the entire citizenry in communities served by it, to observe the strictest supervision over hog sales in their localities. A list of ten imperative suggestions as to effective means to safeguard sections in which the swine restocking movement is going on has been sent out to nearly 1,000 towns in West Texas through the service department of the West Texas Chamber of Commerce. Efforts being made by the regional organization in regard to hog "bootlegging" are already proving a check on lawlessness.

PLANS PIPE ORGAN FUND FOR GIRLS' COLLEGE

DENTON, Nov. 18.—A proposed plan to establish a fund for a pipe organ at the College of Industrial Arts is outlined in a letter from Mrs. L. R. Brooks, of Rio Grande City, to president L. H. Hubbard. Mrs. Brooks suggests that the instrument be made a gift from the mothers of C. I. A. students to their daughters, only mothers being allowed to contribute.

ELECTION ORDERED

LEVELLAND Will Vote December 22 On \$75,000 Bond Issue for Water, Sewer and Fire Protection

LEVELLAND, Nov. 18.—An election was yesterday ordered here for December 22, on issuance of \$75,000 in bonds for water, sewer and fire department equipment. A sewer survey has already been made.

EIGHT DRIVERS TAGGED

Two policemen stationed at the corner of 14th street and Avenue Q last night handed tickets to eight automobiles for violation of the city button regulation. The policemen had quite a gallery of small boys and residents of the neighborhood.

PLAINVIEW LITTLE THEATRE TO SHOW

"CHICKEN FEED" PRESENTED NEXT FRIDAY NIGHT BY LITTLE THEATRE

PLAINVIEW, Nov. 18.—The Plainview Players, little theatre group of Plainview, will present "Chicken Feed" Friday night for the opening play of the season. It will be presented under the direction of E. B. Miller, of Plainview and will be held in the city auditorium. The play is produced by special arrangement with Samuel French, of New York and will be the first of a group of plays to be presented by the Plainview Players this winter.

The cast of characters includes the following: E. B. Miller, Ann Kelly, Fannie Cash, Walter Klinger, Jack Woodward, Billie Shelton, Brodus Saffre, Frank Brown, Ed Haxton, Jane Miller and Ada Mae Pierson.

FIRE DAMAGES COTTON IN WATERS AND DEAN OFFICES

Fire at 4 o'clock yesterday afternoon damaged the cotton offices of Waters and Dean on the second floor of the Hodges building on Broadway. Firemen with gas masks entered the smoking rooms and applied the chemicals to the blazing cotton, soon bringing the blaze under control with but little damage, except to the samples loose in the room. The blaze is said to have started when someone stepped on a match in the floor. Slight damage was incurred to the building. The samples can be replaced by pulling another set.
