VOL. 4 TEXAS TECH, LUBBOCK, TEXAS, WEDNESDAY, OCTOBER 17, 1928 NUMBER 5

Student Association Membership Will Be Completed By Election; Annual Mgr. To Be Elected Also

To Be Made Up Of Nineteen Members Who Represent Every Class In Every School

NO ANNUAL MGR. NOW

Position Made Vacant After Carter Resigns To Enter Law School Of Chicago University

Election of officers to complete the personnel of the Student Council will follow one of the all-college pep meetings this week according to Jack Maddox, president of the Student's Association.

When the Council is complete it will contain 19 members. Three members—the president, the vice-president and the secretary-treasurer were elected by the student body at the close of school last year. Class presidents with the exception of the freshman president who is an honorary member automatically become members of the council.

Then, according to the constitution of the council, each sophomore, junior and senior class from each school is privileged to elect a member to the body. This makes twelve members to be elected by the body. This makes twelve members to be elected by the classes. Adding to this number the three officers who have already been elected, and the four class presidents the Council becomes complete.

The organization will be perfected after one of the pep meetings which will be held this week.

Maddox asks that each class of each school separate itself immediately after the pep meeting and proceed to elect its representative on the Council.

La Ventana Manager to Be Elected

Resident of the elections to complete the Council there will probably be an election of a business manager for La Ventana. Guy Carter was elected to this position last year but he resigned to enter the Law School of Chicago University. Whether the new manager will be elected during the assembly or whether he will be elected by secret ballot later, has not been decided. Students are notified however that the election will be held soon.

Announcements

All-College Pep Meeting Friday, 7:30 P. M.

An invitation is extended to every student of geology to attend the reception to be given by Dr. and Mrs. Leroy T. Patton, at their home, 215 S. 10th, from 8 to 10 o'clock this evening. The reception is in honor of Dr. and Mrs. Sidwell and Dr. Robinson. Dr. Sidwell and Dr. Robinson are new members of the geology faculty. Moving pictures on the summer geological field trip will be shown.

Next Thursday afternoon at four o'clock in room 308, engineering building, the architectural society will hold its first meeting of the year. Plans for a departmental "get-together" and welfare rally will be discussed.

Newly elected officers of the Aggie Club called a meeting Wednesday, Oct. 17 at 7:30, agriculture building, room 109. All agriculture students and faculty members are urged to be present. A special program has been arranged.

On Thursday Oct. 18, the Faculty club will meet in room 208 of the Engineering building. President Benedict of T. U. will speak to the club.

Hall County club will meet Tuesday, October 22.

Madeline Canova Writes About Work

Madeline Canova, Tech reference librarian from the library school of the University of Illinois where she is working on a library degree. She is taking courses in reference work, cataloging, accessioning, book selection, etc., and is doing part time work in the University library. In the recent letter she says that the library there is splendid, and that the reading room is so large that one feels like a wandering soul. She thinks that if the building is completed while she is still there, she will have to drop her studies and go to work in order to find her way out. She seems intensely interested in her work and is reading and studying related phrases most of her spare time.

Las Chaparritas Hold Open House

Las Chaparritas entertained in home of their patroness, Mrs. W. R. Griffith, 2205 Broadway, Saturday evening, October 13th, with open house honoring the pledges of this year, from 7:30 to 9:30.

Those who assisted the club members with the house party were Mrs. J. H. Hankins, Mrs. H. H. Griffith, Mrs. Mary Doak, Misses Frances Ford, Beth Wulfsberg, Mary Lois Campbell, Dorothy Watkins, Thelma Hensley and Mrs. Jimmy Allen.

The tea table was decorated with yellow and orchid flowers. New members are: Zella Riegel, Edna Christian, Irene Frukka, Lela Jo Dunham, Virginia Murray, Marjorie Answorthing, Gladys Green, Shirley Perry, Faye Hunt, Sue Bryan, Sarah Michie, Mary Jo Underwood, Mary Lois Henson, Flossie Burkholder, Ruth Hutchinson and Gertrude Terrell.

25 Men Report For Basketball

Equipment Issued and Practice Begun; Others Expected To Report For Training Soon

Twenty-five men reported to Coach Payne for the initial basketball meeting last week at which time equipment was issued for the coming season.

Following this meeting was the first workout which was held Tuesday night. Workouts have been scheduled for every Tuesday and Friday night at 7:30.

The letter men who reported for the first meeting were: Coppage, Hunter and Reeves. Other letter men are expected to report at the end of football season. Men who reported, besides the letter men, were: Patterson, Geo. Dalton, Bucklett, Lee, Tadlock, Wilkins, Rawlings, Hill, Knowles, Watson, Taylor, Robinson, Hardberger, Fincher, Harris, Davis, Walker, Mapp, Sowell and Bergfeldt.

University Coach Talks To Council

Dr. D. A. Penick, coach of tennis at Texas University, talked to the Athletic Council during a dinner last week at Hotel Lubbock.

Dr. Penick has a successful record as coach of tennis at the University. He encouraged the Athletic Council in its tennis endeavors at Tech.

Hal Yount, agriculture sponsor went to Greenville to the Methodist Student Federation Conference.

Dean Doak Gives Lecture To 160 On Good Manners

Series Of Lectures On Personality, Etiquette, Hygiene, etc., to Follow by Other College Women

Dean Mary Doak, in her lecture to 160 girls in Freshman Orientation Thursday, showed the necessity and charm of good manners. Each student has a responsibility on her campus, and by meeting his responsibility he helps to make the campus life pleasant for everyone. Consideration of the rights of others, and the desire to do the right thing, are the fundamental basis of good manners, Dean Doak said.

Freshman Orientation courses are new in the college, and the lectures that are given each Tuesday and Thursday at one o'clock seem to be very popular.

Following is given a schedule of the lectures which are to follow:

- 1.—Personality as expressed in the college girl's dress, Miss Delaney, Oct. 18-19.
- 2.—Personal grooming, Miss Erwin, Oct. 20-26.
- 3.—General summary of women's work on the campus—presidents, H. E. Club, W. A. A., Forum, Y. W. C. K., Nov. 1-2.
- 4.—Essential facts regarding foods and nutrition for college girls, Miss Weeks, Nov. 8-9.
- 5.—Table etiquette and simple table service, Miss McCree, Nov. 15-16.
- 6.—How to use the library, Miss West, Nov. 22-23.
- 7.—Social hygiene, Miss League, Dec. 6-7.
- 8.—Social Hygiene, continued, Dec. 13-14.
- 9.—Examination over work done in the course. By regular schedule.

Dean Elliott Makes Public Addresses And Holds Private Interviews While At Tech

Dad Elliott, traveling secretary of the Y. M. C. A., made a clearcut presentation of spiritual and moral issues confronting Tech students and faculty members during the four days he was on the campus last week. During that time Dad was in some fifteen meetings with people who were interested in the development of Tech and of Lubbock.

Expected Criticism

From the first Dad stressed the point that he did not intend to be "oussyfoot." He anticipated criticism by saying, "I do not expect you to agree with everything I say. If you did I would be back working in my own Alma Mater where they do not agree." Working on the ground that everyone is interested in making a success, Dad challenged Tech students to consider whether or not the things they were preaching and tolerating on the campus would aid them in being one of the fifteen who, from statis-

Jeerful Seraph

think to stay awake in class that I might see just how it seems. I can't remember the grades but I'm sure in my wishful dreams.

Three Artists Who Will Appear At Tech This Year

LAUBA T. MCCOY Soprano

ALBERTO ALVA Harpist

CYRENA VAN GORDON Prima Donna

University Head Will Speak Here

Dr. Benedict to Address College On "Scholarship and Success" At Convocation Thursday

"Scholarship and Success" will probably be the subject which Dr. H. Y. Benedict, president of Texas University, will use in speaking to students and faculty members Thursday at eleven o'clock. A special convocation has been called at the eleven o'clock hour in order that all may hear Dr. Benedict.

L. H. Hubbard, president of O. I. A. and C. E. Evans, president of the State Teachers' College of San Marcos will probably be here on the eighteenth also.

Seniors Elect Class Officials

At a meeting of the Senior class Thursday night after the pep rally, class officers were elected and plans for La Ventana were discussed. Scott Fikes was chosen president, Vaughn Corley vice president, and Jane Mast secretary-treasurer. Dr. Jackson and Mr. Ford were chosen class sponsors. All of the class officers have been in the college since it opened in the fall of 1925, and have been prominent figures on the campus, while the sponsors were with the class in freshmen days. The class has an historical interest because it is the first four-year class to have gone through Tech.

Wilbur Edelman, editor of La Ventana, put before the class the matter of cap and gown pictures for the annual. As he has spent much time studying large college yearbooks, he is convinced that he can put out a more artistic book in accord with the standard of work set by other colleges. If the seniors do not have their pictures made in cap and gown, after much discussion of the matter, the class voted to support the editor.

Co-Eds Will Play Soccer And Tennis

A call has been made by Miss Reigel, director of co-ed athletics, for all women students who intend to play tennis or soccer. Miss Reigel wants especially the junior and senior girls who do not take any form of physical training, to take part in these games.

A soccer court has been finished and balls have been ordered. Thirteen girls have already signed up for this game.

Tennis seems to be attracting many eds. At different times during the term, girls will contest for the honor of being the best tennis player in Tech.

Miss Reigel will offer all sports in season. Next term several other new games will be offered.

Slime Archie Powell, of Spur, spent last week-end at the Dallas Fair.

Many Ex-Students Subscribe For The College Newspaper

Many ex-students of Tech are subscribing for The Treador. Among those who have written for the paper recently are: Roy Killingsworth, Paducah, Texas; Curtis Reese, Ballinger, Texas; H. K. Hunt, Claude, Texas; Claude Denham, Ozona, Texas; Irvin Hancock, El Paso, Texas; Zed Gilmp, Burnet, Texas; Elton Mims, Water Valley, Texas; Houston Eggen, Norse, Texas; Virgil Hobby, El Paso, Texas; Jeff Newton, Sanatorium, Texas; Fernal Roark, Marathon, Texas; and Sylvan Sumner of La Feria, Texas.

Former Student Is Official At T. C. U.

Sterling Brown, former Tech student, has been elected president of the Young Men's Christian Association of T. C. U. according to a news article which appeared in a recent issue of The Skiff, T. C. U. student newspaper.

Brown graduated from Lubbock high school where he made a racketeer. Then he entered Tech. He is studying for the ministry. Hence his reason for going to T. C. U. last year.

NOTICE

Due to congestion in the business office of the college the mailing list of The Treador has not been completed.

About half of the subscribers have been typed from the ledger of the office. Within a few days the list will be complete and will be submitted to the printers who will make a mailing list. Then, The Treador will be sent to the students and faculty members through the college post office.

Three Artists Who Will Appear At Tech This Year

Pre-Law Hold First Meeting

Pre-Law club met Monday evening for the first meeting of the year with Wilbur Edelman, president of the club, in charge. A large number of old members were present, with an even greater number of new members.

Mr. Pender, the club's faculty advisor, gave a review of the past activities of the club and pointed out some of the possibilities for the future.

As a feature of entertainment, several speeches were made by Freshmen members.

Silney Knowles was accorded the honor of being the first student to be elected into club membership this year.

The Pre-Law club extends an invitation to all students who contemplate the study of law. The date for the next meeting is to be announced.

Prof. Camp Returns From Textile Meet

Prof. E. W. Camp, head of the Department of Textile Engineering, has recently returned from a meeting of the Textile Association at Dallas. At this convention textile manufacturers from throughout the state got together and discussed activities and events in the Textile World during the past year. Mr. Robert W. Philip, editor of "Cotton" an Atlanta magazine, announced that the Southern Textile Exposition will be held at Greenville, South Carolina, Oct. 15-20. The latest improvements in textile manufacturing methods and equipment will be shown at this exposition, and if Tech should have a representative there, as now seems likely, she has a good chance of getting some valuable equipment free.

The latest improvements in textile machinery to the first colleges represented who want to sign up for it. This is done in order to promote the advancement of knowledge in the textile industries.

Party Is Planned By Lubbock Club

On October 23, the Lubbock High School club plans to have a party. This club held its first meeting last Friday evening with Dorothy Knipp presiding. Mr. Ray Massey of the Agriculture School and formerly of Lubbock high school is sponsor.

Regular meetings will be held every second and fourth Tuesday at 7:30 in room 302. However the next meeting will be Friday evening, October 19, in room 302. All Lubbock high school graduates are eligible for membership and are urged to attend these meetings.

Traveling Secretary Of Y. M. C. A. Spends Four Days At The College; Works With Students On Problems

Dad Elliott, traveling secretary of the Y. M. C. A., made a clearcut presentation of spiritual and moral issues confronting Tech students and faculty members during the four days he was on the campus last week. During that time Dad was in some fifteen meetings with people who were interested in the development of Tech and of Lubbock.

He kept statistics.

Dad was keenly interested in causing Tech students to realize that they were not merely preparing for life but that they were living in the fullest sense of the word. Out of two hundred ex-students of a certain college with whom he has kept in touch, only seven ever changed their standards of life after leaving college.

Tech freshmen were warmly praised by Dad for their open-mindedness and readiness to live the truth. His interest in freshmen was demonstrated by the numerous meetings and private talks he held with them.

Dines With Freshmen.

At a dinner with freshmen girls and later at a breakfast with freshmen boys Dad emphasized the freshmen's opportunity for molding college tradition and for developing a wholesome college spirit.

Dad's experience in some 21,000 personal interviews has enabled him to analyze individual problems accurately and helpfully. Many Tech students interviewed Dad privately.

Famous Artists Will Be At Tech

Salvi, Cyrena Van Gordon, And William Allen White To Appear On Artist's Course

Tickets for the Artists Course at the college will go on sale November 1, with tickets also for Sousa's famous band, which appears at the Tech Gymnasium November 15. All students will be admitted on presentation of the identification card.

They may purchase reserved seats for the entire season by presenting these cards and one dollar. The following program has been scheduled.

Wm. Allen White, famous newspaper writer and lecturer, Dec. 8; Cyrena Van Gordon, prima donna, appearing in a joint recital, Feb. 23; The Coffey-Miller Players of Chicago, return this year with two plays—Mollere's "The Imaginary Invalid" and Goldsmith's "The Stoops to Conquer" will most likely be presented two evenings, Feb. 25 and 26; Cyrena Van Gordon, the prima donna Mazzo-Contralto of the Chicago Civic Grand Opera company, April 19.

Miss Van Gordon has sung with the Chicago Grand Opera company since 1913 and has become famous to thousands of theater goers. She is the highest paid attraction appearing at the college for this season with the exception of Sousa's band, which is not included on the course.

Alberto Salvi, the phenomenal harp virtuoso, has appeared many times in Texas and is well known. Miss McCoy, who accompanies him as a soloist for many years was associated with Sousa's band and is highly praised by Mrs. Schumann-Henk.

Tickets for the Artists Course are offered for sale at a low price. General admission will be \$2.50 and reserved seats \$3.50. The committee hopes that all will avail themselves of these musical numbers and also the Coffey Miller Players and Wm. Allen White.

Prof. Camp Returns From Textile Meet

Prof. E. W. Camp, head of the Department of Textile Engineering, has recently returned from a meeting of the Textile Association at Dallas. At this convention textile manufacturers from throughout the state got together and discussed activities and events in the Textile World during the past year. Mr. Robert W. Philip, editor of "Cotton" an Atlanta magazine, announced that the Southern Textile Exposition will be held at Greenville, South Carolina, Oct. 15-20. The latest improvements in textile manufacturing methods and equipment will be shown at this exposition, and if Tech should have a representative there, as now seems likely, she has a good chance of getting some valuable equipment free.

The latest improvements in textile machinery to the first colleges represented who want to sign up for it. This is done in order to promote the advancement of knowledge in the textile industries.

Millers Entertain New Eng. Faculty

New members of the engineering faculty were entertained with a two-course evening October 13, in the home of Dean and Mrs. W. J. Miller, 2323 Eighteenth.

Meadames Horne, Kimbro, Bledsoe and Miss Weeks were at the table in the rooming house. Mr. and Mrs. Miller, Mr. and Mrs. Kelmanski, Mr. and Mrs. Bolter, Mr. and Mrs. Nelson, Mr. and Mrs. Herd, Mr. and Mrs. Helwig, Mr. and Mrs. Long.

Members of the house party were: E. W. Camp, J. J. Maudsley, Carl Suenson, Mr. and Mrs. Dyer, Mr. and Mrs. W. N. Young, Mr. and Mrs. O. V. Adams, J. Come Hartgrave, Mr. and Mrs. F. L. McCree, Mr. and Mrs. Shelton, Mr. and Mrs. Farris, Mr. and Mrs. J. C. Street, Miss Ruth Horn, Evelyn Knipp, Elizabeth Camp, Sophia Hardgrave.

Calendar

- Wednesday 17:
 - Geology students' reception honoring new faculty members of the department, 1415 19th, 8-10 o'clock.
 - Press Club, room 214, 8 o'clock.
 - Aggie Club, room A102, 7:30 o'clock.
 - Arma-Ritas, Gym, 5 o'clock.
- Thursday 18:
 - Faculty Club, Engineering building.
 - Band rehearsal, English building, 8 o'clock.
 - Boys' Glee Club, room 210, 4 o'clock.
 - Arma-Ritas, Gym, 5 o'clock.
- Friday 19:
 - Caps y Espada, Room 310, 7:30 o'clock.
 - Arma-Ritas, Gym, 5 o'clock.
- Saturday 20:
 - McMurry and Tech football, Tech Field.
 - All-College Mixer, Gym, 5 o'clock.
- Monday 22:
 - Forum, Room 102, 8 o'clock.
 - Band rehearsal, English building, 8 o'clock.
- Tuesday 23:
 - Debate Club, room 203, 8:30 o'clock.
 - Reception by Forum for all women students, 8-10 o'clock at Dr. and Mrs. Horn's home, Hill County Club.
 - Boys' Glee Club, room 310, 4 o'clock.
- Wednesday 24:
 - Pre-Law Club, room 217, 7:30 o'clock.
 - Y. M. C. A., room 202, 4 o'clock.
 - Treador Staff meeting, office.

Matadors Meet McMurry Indians, First School They Ever Played, In Fourth Game Of This Season

El Toro

Soon we expect to hear some freshman complain that he has used all his convocation tickets. But we would cheer his veridical despondency by reminding him that special passes may be had from most any upper classman. As soon as some three thousand years ago, "Train ye the Freshman in the way he should go to convocation, and when he has become a senior he may renege from it gracefully."

Last Saturday's game convinced us Tech's student body has finally acquired some real spirit. Even our visitors felt it. But we realize that College Spirit should not be cheapened by forever prating about it. So we'll all just feel proud of our team all by ourselves, sort of knowing that the next fellow is feeling the same way we do.

And while we think of it—we believe that it should be made traditional that our College be called "TECH" and not "Tech." Somehow, "the Tech" sounds so offish and foreign. Let's have our Slimes say, "I'm going to TECH"—not "I'm going to The Tech."

Perhaps we are too "air-minded" to bend to mortals and philoplatinizing, but we believe that Tech was entirely right when he said that Tech was going a reputation as a democratic school. We are not attempting a pun on political affiliations either. However, Tech has developed most wholesome attitude toward students who are obliged to work in order to maintain themselves at college. We need a sense of classlessness in Tech; but we want it to be of a wholesome nature. Too much college politics may ruin a school. It is the primary cause of enmity and dissatisfaction. Let's keep our minds off single tracks, and be able to see as much of the whole switchyard as possible.

Ladies and gentlemen, it ill-becomes anyone to be "color" but to us it seems a little off-color to post graduate students to be lending paternal advice to the existing senior class. Perhaps we are old-fashioned enough to want to ask for what we get.

This column is called "EL TORO" hence our readers are rather lenient concerning our remarks. However, this has been upon our chest for some time. Why doesn't our team get more publicity in Texas newspapers. When we do get a write-up, even after a brilliant hard fought game, it amounts to only three or four column-inches. In one of Texas' largest papers last Sunday, Tech-Str. Edward's game was barely listed. In the parlance of salesmanship, what are we doing to "sell" our school and team to the South and to Texas?

Indians Were T. I. A. A. Champions Last Year; Have Practically Same Line-up As Last Year

The Matadors, in their fourth game of the season, take on the McMurry Indians of Abilene, Saturday at Tech Park. The Indians were T. I. A. A. champions last year and although they are not going strongly this season, they have a powerful squad. They have been beaten by Daniel Baker and Randolph, a Junior College, of Cisco. It is true that they trimmed the Canyon Buffs, but everybody is doing that this year. On the surface it would seem that Tech is due for one of the easiest games of the season but it must not be forgotten that McMurry has about the same squad with which she won the conference championship last year. They may get going at most any time. After a bad start they are due for improvement. Also it will be remembered that no matter what the relative strength of the teams are on paper, the tussles are always hard fought.

In 1925, when Tech presented her first edition of Matadors, it was McMurry, who had the honor to oppose her. The game ended in a scoreless tie. The next year the two teams tangled up in Abilene, at the West Texas Fair, in dust something like knee deep. Archibald grabbed up the ball after an Indian had laid it down and before the referee could blow his whistle, he carried the ball over for the lone score of the game. The Indians let out a howl and a whoop that is still traveling in the ether. Last year the two institutions did not meet. The War Whoop, college paper of McMurry, carried stories of the Tech machine that were fairly ludicrous in their attempt to discredit the Tech team. It is reported that 14 states were represented on the squad, in addition to conveying the impression that all members of the team were men who had played their allotted time in schools of the north. Tech has been more successful with McMurry in both basketball and basketball than in any other sport. She has not forgotten this. Adding it all up, it is easy to see that a band of blood thirsty warriors are going to face Tech Saturday. And they have a notorious reputation of living up to their name. No matter who wins or what the score may be it will be a real fight between the two toughest institutions of higher learning in Texas. McMurry is only a year or two older than Tech.

21 Departments Of The College Offer Extension

Night Classes Being Organized at Request of Local Citizens and Teachers Of Nearby Places

Upon the request of a number of local citizens and teachers in the vicinity of the college, the committee on extension has recently approved the policy of organizing night classes in the college buildings. This is a policy which has been followed for several years by the University of Texas, Southern Methodist University and other colleges of the state.

The Department of Extension has the cooperation of twenty-one departments of the college in securing a representative list of courses which will be offered to the public in night classes. A geology class of eleven members has been organized with Dr. Raymond Sidwell as instructor. It meets every Friday evening for four hours.

Courses will be offered for both credit and non-credit work, in some cases; and the advanced courses, for graduate credit, in some instances. The fee for any course per term will be \$10.00. The courses available include: agriculture, economics, education, English, German, French, Spanish, Latin, government, history, home economics, music, public speech, biology, chemistry, geology, physics, and sociology. Upon the request of a reasonable number, usually ten persons, the Department of Extension will make preliminary arrangements for the organization of a class in the subject requested, if available.

Some preparation was made for the Engineers' dance which is to be held on the twenty-fourth of November. A committee was appointed to make some arrangements. This year, bids to the dance will be \$1.25 each.

Engineers Elect New Officials

Discuss Plans For Annual Engineer's Ball; Report On Loan Fund; Talk Of Getting Society Pins

Monday evening at seven-thirty the engineer's society met for the purpose of electing officers. Ray Thomas was elected president; Barney Brady, vice-president, and June Hewitt, secretary and treasurer.

Ex-president Street gave a report on the loan fund of the society. He stated that there was now \$189,000 in the fund.

The society went into a discussion of the advisability of getting Society pins. Professor Kleinenschmidt suggested that a prize be offered for the best design for a pin. This matter was carried over until the next meeting.

Some preparation was made for the Engineers' dance which is to be held on the twenty-fourth of November. A committee was appointed to make some arrangements. This year, bids to the dance will be \$1.25 each.

Mathematics Club Holds First Meet

The Math club held its first meeting for the fall term Thursday evening at 7:30 in room 306 of the Administration building.

Several talks were made by members of the Mathematics Department and plans for an organization were discussed.

Joe Fisher, a last year Agriculture Junior is visiting here.

Agriculture Boys Fill College Silo

For three days last week the "bum" of the silage grinder at the dairy barn could be heard from almost any part of the campus. Sweet sorghum was used in filling the silo. It took one hundred and twenty ton to fill it.

The silage will be ready for use in about six weeks. It is used in the dairy ration of the dairy cattle, beef cattle and sheep.

The "bum" of the grinder could be heard from the outside but within the silo the six or seven Aggie students not only saw, "Tramp, Tramp," but they actually did go the "Tramp Tramp" for several weeks each day.

CONFERENCE IDEALS

Tech's entrance into the Southwestern Conference does not depend on any one particular game. Nor does it depend on any particular athletic record over a period of one year. Of course games are scheduled at times which seem to carry more chances for conference approval than others. For instance the Texas University game, in the eyes of many sport writers, gave Tech a good chance to be invited into the Conference.

But we dare say that if Tech had won the game she would have had little, if any, better chance for an invitation into the Conference than she has with the score as it now stands.

Anyone who thinks that the Southwestern Conference is going to accept a new member simply because some outside team makes a higher score than some member college, fails to give the Conference credit for its high ideals.

What the Southwestern Conference wants is a team which plays consistently throughout a period of years—not a team which might happen to play a brilliant game once in a while. What the Southwestern Conference wants is a team which is made up of men (from year to year) who have scholastic standing and potential ability.

IS TECH A MINOR COLLEGE?

Judging from college press comment we are to a certain extent a minor college. A clipping from the Daily Texan says about as much:

Freeland has been driving his charges hard for the clash today, and he is bringing 35 big huskies down from the West Texas highlands to fight the Steers on their own grazing grounds in an effort to stampede them, and gain entrance to the Southwestern Conference, an honor coveted by all minor colleges.

Another clipping from the S. M. U. Semi-Weekly Campus says:

Texas Tech will be nothing for the Texas University Longhorns and the Steers should make six touchdowns.

What the other college editors think doesn't matter so much if what they think is untrue. Yet we would like to have them acknowledge that we "fooled" them on October 6.

We would tell them that they will have to change their opinion about our being a minor college or they will miss their predictions again. We would ask them to investigate:

1. The efficiency of our faculty.
2. The scholarship of our students.
3. The record of our athletics.
4. The record of our forensics.

After the investigation we would ask if the foregoing "Big Four" doesn't go a long ways toward making a major college. If it does not, we would ask these editors to enumerate other essentials in order that we may offer them a chance to find out whether or not we possess such essentials.

DAD ELLIOTT'S VISIT TO TECH

Dad Elliott's visit is heartily appreciated. We know by a large majority of the student body and the faculty of the College. In the first place Dad took a week out of a very busy schedule to come to Tech and to Tech alone. That's appreciated. In the second place Dad Elliott is a college man and knows college people as few men know them. He knows student problems in the classroom, on the athletic field, in clubs and boarding houses. He appreciates the problems of the student who enters college as a freshman, of the one who is just one year removed from his first days in college, and of the upper classmen. In the third place, he has been a sympathetic and careful observer of the output of colleges and universities for the past twenty-five years, and is therefore able to place an intelligent evaluation on college life.

Finally and best of all, he believes in college people, both men and women, nor does he think that they are all traveling a straight road to perdition.

What are some of the truths that Dad effectively impressed upon us. These are some of our impressions:

1. Worthwhile attitudes in college must be initiated by the students themselves. A certain amount of wise direction may be given by sympathetic college officials but in a very large measure students themselves set their own standards. To that end groups of students of the college were encouraged to band themselves together to study certain phases of college life as it relates to them and to their associates so that intelligent attitudes might be assumed and right actions of conduct result.
2. Student life must be filled with habits and experiences that make for true manhood and womanhood so that there may be no place for destructive influence. Cigarettes are taboo. Were you surprised? Or had you simply taken the attitude that every body smokes including

father, and outstanding athletes, actors and actresses, noted opera singers and others? And yet Dad scarcely failed to make his case for efficiency when smoking is left out. The character of pictures adorning our walls as well as other contents of our rooms have much to do with forming correct attitudes and habits of life.

3. The most impressive, however, was this: College life is life in reality and not merely preparation for life. What does this mean? Everyday, every hour, we are building attitudes of honesty, of perseverance, of egotism or altruism, that immediately become a part of us and that are destined definitely or influence us throughout life. If we listen to good music it becomes a part of us. Likewise, if we cut classes, "fritter" away our time until the term is practically over and then "crum" for examination; if we depend on our neighbor for help on examination or use other unfair means, this attitude of dishonesty carries over and becomes a part of our life in college and out.

Dad Elliott's careful observation of two hundred college men for practically twenty five years to find only seven appreciably changed in their attitude after leaving college—this ought to be most convincing to us all that COLLEGE LIFE IS LIFE.

To Mr. McCullough and certain young men and young women of the student body is due much credit for the fine outcome of Dad Elliott's visit. The influences thus set in motion must continue in motion to the end that the finest and best shall always come into the lives of our students and to all the interests served by our much loved Texas Tech.

Student Opinion

My Reaction to Dad Elliott's Visit.
Why did every member of this student body come to college? This is the question that many serious thinking persons have asked themselves during the past week. Some have discovered a satisfactory answer and many have not, but nevertheless life remains a challenge in some form to every one of them.

One of the outstanding privileges of a college year is the contact with and the influence of great personalities that have become great through a process that every student wants to know. How do you get that way? How do you get that way? Many times this has been asked.

The great personality of Dad Elliott has been with us, and regardless of the reactions of a large part of the student body, many lives will be different, and the spirit of a number of groups of students will be left to the extent that some things that were happening on the campus will not happen, and some things that were not happening will happen.

It is true that many of us could not go all the way with Dad, all of which means that we are missing something, however, it is possible that this something will come some other way provided the way includes the applied principles of Jesus. We are happy that Dad came and we believe that his being here has helped us in taking one step, and perhaps many, toward the kind of campus we want Tech campus to be because we see more clearly what this life should be.

We are ready to say, without reservation, that he has something that we would like to have yet are we ready to play the same life by the rules that he laid down for us? We bow reverently before the memory and influence of him and say that he is a star in the game of life, because he first had a desire to live the Jesus way of life. We say that life is indeed darkness save where there is light. And all urge is blind in the dark. We have knowledge and all knowledge is vain save where there is work, and all work is empty save where there is love. And when you work with love, you bind yourself to yourself and to one another and to God. Dad talked to us about this creative love, but many of us did not understand what he was talking about, but every student who gave himself the opportunity to hear him, did become thoughtful.

Dad was different, wasn't he? He did not tell us the many nice complementary things most speakers do but instead he dared to tell us some of the ugly things about ourselves. Do we love him any the less? The least is for each one of us to give ourselves.

—IVO WILSON.

The Pep Rallies.

There is nothing like a good snappy pep rally to chase away the blues. The rallies held in the gym last Thursday and Friday nights were full of pep and the students who attended showed plenty of the Tech spirit. Students who fail to attend these rallies are missing one of the most important campus activities. The pep meetings are not prolonged, they last only from twenty to thirty minutes and the student body as a whole could be there if they would only make it a point to do so. Let's all form the habit of going. Be there at the next meeting. Do your part toward making a reputation for Tech's spirit. Let's go!

Y. W. C. A. Cabinet Convenes Thursday

A meeting of the Y. W. C. A. cabinet was held last Thursday afternoon and plans were made for the different phases of work to be carried on this year. It was decided that there would be no membership fee. Members of the cabinet are: Mary Hope Westbrook, president; Ruth Lafforge, vice-president; Lillian Nelson, secretary; Lizelle Belle Clements, treasurer; and Margaret Cooper, Margaret Williams, Iva Burleson, Francis Ferguson, and Margaret Turner.

Regular meetings of the association will be held Thursday afternoon at 5:00 in room 310 and all girls of the college are cordially invited to attend.

Tech Tacks

An upperclassman is a freshman who has lost his ability to be amazed.

Many strong, silent men are that way because they got "stood up."

Some men attain greatness; others play bridge all night.

Although we're stopped thanking God that we are not as other people are, we still like to feel that way about it.

It's funny; egotism makes some neopis very friendly and makes some others very cold and aloof.

Wonder if Shakespeare was talking about "necking" when he said: "A surfeit is the sweetest thing the deapest loathing to the stomach brings."

After all, too cynical an attitude toward life has never crossed any oceans or grown potatoes.

The Megaphone

Several loyal supporters of the Matadors have been lamenting the fact that the Saints chalked up so many more first downs last Saturday than did the Scarlet Warriors. Now far did it from us to underestimate the splendid offense displayed by the Saints, but it is evident, as the score indicates, that this offense was stopped when the Tech goal was neared. All the first downs in the world cannot win a ball game unless they carry the oval across the little white line.

This week we will be favored by an Indian invasion from the south west. Although little serious damage is expected, the Matadors are getting primed for the attack. You never can tell just what an Indian will do, so the Matadors, just to be on the safe side will be ready for anything.

The Matadors have met McMurry twice. The first encounter was in 1925, and resulted in a scoreless tie. The following year the Scarlet and Block copped from the Indians 7-0.

So far in the T. I. A. race the Indians have won one and lost one. They defeated the Canyon Buffaloes, and last week they were defeated by the Hill Billies of Daniel Baker, 13-0.

At any rate it will be safe to say that the Indians will put up a stiff battle, and the Matadors will have plenty to do if they come out on the long end of the score.

Yell Leader Poage has called for an All-College Pep Rally Friday night at 7:30. Poage says that he is highly pleased with the brand of yelling displayed at the St. Ed game, and says that he has heard much favorable comment about it from the outside.

We are glad to report that the attendance at All College Pep Meetings is increasing. This is very gratifying to the team and to the yell leaders. Let's make the increase still larger by turning out 100 per cent Friday night. These remarks we address particularly to the Slimes. Freshmen representation at pep meetings is not what it should be and Slime Bohannon, Fish yell leader, appeals to all Freshmen to show their loyalty and turn out for the pep meetings.

It has not been our policy to cross bridges before we get to them, but we can't help mentioning the fact that Friday week the Tech Special leaves for Fort Worth. We would like to urge everyone who possibly can to go on this trip. The Matadors are going to need lots of support in the T. I. A. encounter, and we would like to see at least 700 rosters there to help them down the Frost.

Home-Ec Seniors Bake Some Pies

Cafeteria Offered To Students and Faculty Members For Committee And Council Meetings

Pies! Pies are the specialty at the College Cafeteria this week. All the pies are being made by the Home Economic senior girls, namely: Marion Sammons, Martha Forter, Ouida Middleton, Mrs. Annie Eldsworth, Ethel Covington, Willie Hawkins, and Hattie Mounts. The management announces that at all times the cafeteria has clean, good food, superior in quality, to be had at a minimum cost. The noon meal is served from 11:15 to 1:30, taking care of all noon classes. Meal books may be had for five dollars, saving students the trouble of carrying change. These books may be left at the cafeteria.

The cafeteria is a college institution, the building being furnished by the state. Miss Katherine Harper is in charge.

Can Be Used For Committee and Council Meetings.

The college offers the cafeteria to students and faculty for committee and council meetings. The dining room is open any afternoon, and may be had for the asking in advance to avoid conflicts. The dining room is quiet, cheery, and cozy. Each group can decorate to suit itself. Everyone seems happy to know that such a place is being provided on the campus and by the college.

The Freshman Council were the first ones to take advantage of this opportunity, having met there Wednesday afternoon.

Dr. F. L. Thomas, state entomologist, West College Station Experiment Station visited here during the past week.

Dean Leidigh was in Spearman last week, where he appeared on the West Texas Chamber of Commerce program.

Dr. F. L. Thomas, state entomologist, West College Station Experiment Station visited here during the past week.

Rifle Club Formed To Promote Firing

A Tech Rifle club was organized by a number of students on Friday, October 12, last week. The purpose of the club is to promote rifle shooting as a sport. The club is affiliated with the National Rifle Association through which guns and ammunition can be secured from the W. Department.

Twenty-seven charter members met up at the first meeting. The following officers were elected: H. E. Cain, president; Albert Harstmann, vice-president; W. S. Gallows, secretary; F. S. Ford, treasurer; K. W. Flournoy, officials officer.

Anyone interested in joining the squad should see one of these officers. It is announced. Fees for the year are \$1.50. Credit in Military Training may be secured for work in the club by arrangement with Lieutenant Killin.

Try To Get Contests With Other Schools.

The club is trying to get matches for its team with the following: University of Arizona, John T. Austin Aggie, New Mexico Military Institute, Texas A. M., and several of the Fort Worth high schools.

Fish And Sophs Begin Planning

Mancel Hall, president of the Sophomores, announces a meeting of the class in the Gym, October 17 at 7:30.

Since this is the first class meeting of the year after election of officers it is said to be highly important that every Sophomore be present to help formulate plans for the year.

James Whitesides, president of the Freshman class, states that his plans are as yet indefinite. He hopes to call a meeting of the class one day this week to complete the election of officers and arrange plans for the year. President Whitesides asks the support of the entire freshman class through the year. He says: "This Freshman class will be the peepshow that Tech has ever had if we all stand together." His ultimate hope is to build up a school and class spirit that will last throughout the four years of college life.

It has not been our policy to cross bridges before we get to them, but we can't help mentioning the fact that Friday week the Tech Special leaves for Fort Worth. We would like to urge everyone who possibly can to go on this trip. The Matadors are going to need lots of support in the T. I. A. encounter, and we would like to see at least 700 rosters there to help them down the Frost.

Squad Personnel Is Now Complete

Both Boy's and Girl's Squad Perform Between Halls At The Game Saturday

"Los Gauchos" meaning "the outlaws" is the new name for the boys pep squad. This group of boys performed for the first time this year at the game Saturday. Among their formations were the double-T Texas Tech and the "up in the air" stunt, the triangle.

Members of the squad are: Bayless, Berry, Bohannon, Carter, Cole, Donley, Gillett, Hall, Harrell, Hobbs, Johnson, Jones, Maloney, Marcon, Mitchell, Fenny, Powell, Pritchard, Rhodes, Rousell, Seitz, Scott, Strawn, Startton, Taylor, Williams, and Hart.

"The Arenas Ritas," girls pep squad, performed at the game Saturday also.

Members of the "Arenas Ritas" are: Christine Viles, Myrme Lou Butler, Stiel Ledger, Billie Jones, Velma Eubank, Pauline Hughett, Mary Frisell, Lena Medlin, Dorothy Harris, Polly Porter, Sally Hollowell, Eunice Leary, Volita Roberts, Lovie Warrago, Estery Jo Underwood, Irene Vermillar, Charlotte Elms, D'Aunn Sammons, Jean Mitchell, Ruby Jim Mixon, Helen Warrmack, Iva Burleson, Blanche Groves, Bill Poage, Bertie Aldrege, Nora Cooke, Mozelle Gable, Claudie Ledger, Tom Hamilton, Emma Jean Martin, Evelyn Baker, Juanita Merideth, Marion Pol, Gladwell Mulkins, Irene Reeves, Beas Boverie, Jone McCellum, Evelyn Richards, Audrey Stiles and Estelle Hutto.

And The Old Mule Ran Away An Account Of A Chariot Race With The Campus Hay Rake!

Whoa! Whoa! I say Whoa! Nowe back up.

Oh! that line out from under that mule's tail afore he commences to run again. I say, that was some runaway. Now don't you?

The weeds had been cut on the campus and they were being raked up in long "ricks." It was at one particular stage of the game that the old mule got excited and attempted to pull the teeth out of the rake.

Queer form of dentistry it was. Don't you think so? But we must remember that a mule will be a mule until he dies. Furthermore, this campus mule—the one which was pulling the campus rake—was far from being dead. He drove across the campus, pulling the rake behind him, as if he had been a former sweepstake animal.

The mule was scattering hay. The "raker" was yelling her. It was a hay day. From the Gym to the Ad building the atmosphere carried a humidity of green grass which minded one of the tumbleweed sandstorms of the western plains of Texas.

For the performance the old mule had an audience of some of Tech's fairest co-eds. He was really holding their attention. They gathered on the south end of the stadium and looked toward the south as the old animal sped toward the "mule barn" via the Ad building. At the same time another group of co-eds gathered at the third floor windows of the Ad building and looked north as the chariot (rake) swept toward them. Surely their minds must have turned to the gallant heroes of the chariot in days gone by. Surely these little girls enjoyed the race. And—even more—they must have giggled in true school girl complexion fashion as the "raker" lifted the old mule's tail from over the engaged line.

Athletic Items

The Saints came here with the reputation of being a great offensive team. While here they strengthened that reputation. They left with the reputation of being a great defensive team also.

Lockhart played the best game he has displayed this season. He came into the game at the beginning of the second half with blood in his eyes. And the plays he spoiled was all evidence of his great defensive game.

Vin Zant, also was there on the defense. It was this boy from Lamesa who threw Parne, crack half, for a 11 yard loss in the fourth quarter. This was the largest loss of the game. Vin Zant started this in the Texas game and continued it in the Saint game. And from all indications he will continue.

Persistence seems to be the middle name of every Saint back. If he did not make yardage on a play he tried the same play the very next time. For instance if he tried center and failed to gain he tried it again on the next play. If he gained, say 3 yards, he was not satisfied but hit center again. However they soon learned that Ox Reed and Carpenter were waiting for them on the second and third

Phone 1072-W

charges, much to their regret and sorrow.

In reading the account of the game, do not blame the linotype operator for a typographical error. The names of those Saints were just that if not worse. The names Young and James were the only Christian ones in the whole squad.

Dr. Ettinger, who refereed the game is a math professor in the University of Texas. Beginning Dec. 1 he becomes director of athletics of the University of Texas. That is provided Theo Belmont resigns. The board of regents recently asked the resignation of Mr. Belmont and he has not complied with their request as yet.

Shorty Hayhurst, who is coaching this year at Brownfield, always manages to see all the Tech games played at Lubbock. He was up for the Saint game after his team had lost to Lamesa 7-0.

T. C. U. continues to win all of their games by three touchdowns. They do not kick all of the goals afterwards but they always manage to score three (no more and no less) touchdowns every game. Here is hoping they quit such mischievous pranks by the time we play them a week from Saturday. They have won four straight games by three touchdowns and their goal line has never been crossed.

The Canyon Buffs are having hard sledding in their games. Up till the present time that FAST BACKFIELD has not scored a single point.

Tom Morrison and Hugh Anderson, Profs in the University of Lamesa were spectators at the Saturday game. They admit going to Sunday school every Sunday but deny that they have a class.

Many fans seem to think that the passing game of the Saints was the equal if not better than that of the Aggie game last year. It is admitted that they possessed a powerful scoring punch via aerial route, but the Matadors were better coached this year on breaking up such plays. The Saints did not have such men as Feigy, Sikes, Akabrook to catch passes or Joel Hunt or Ish to toss them. Two lateral passes were uncorked which netted 25 and 28 yards respectively, with James, quarter, on the carrying end. These were beautifully executed.

The Saints showed the best interference that has been exhibited on Tech field in a long time. It was those long sweeping end runs that proved the value of good interference. And had it not been for such men as Knowles, Percy Walker, Vin Zant, Lockhart, Hill and Levi Walker, those end runs would have been converted into scores.

Satch Hill, who played full for Tech, the first two years, got into the game for the first time in Saturday. Hill did not get a chance to prove his offensive ware but he played a whole of a game on the defense. Bad teeth has kept Hill from rounding into condition.

Ameral Parne caught the best, the most difficult, and the longest pass of the game. It looked as if the ball was going over his head by several feet. But just as it went over his head, Parne leaped into the air and brought the pigskin down safely into his arms. His track ability in the high jump served him well in leaping into the air as he did. One will probably wait a long time before he sees another one as spectacular as that one.

Sidney Knowles is a man who is improving with every game. This is not said because he made the winning touchdown last Saturday either. Knowles has been one of the outstanding men of the game if he had not made this score. The score only goes to show he was

playing heads-up ball. Time after time he broke through to smear a perfectly good play before it was well started. There is not a man on the squad who fights harder than Knowles. And to say that his work is appreciated is putting it in a rather mild way.

Substitutions were rather conspicuous by their absence in the Saint Edwards game, so far as the line was concerned. Only one substitution was made. Smith went in for DeWitt. This of course does not include the change at the ends.

Tubby Vermillion, Clarence Hodges, and Doc Barfoot were unable to enter the game on account of injuries received in the Longhorn encounter. Capable reserve material, however, filled their places well.

The biggest weakness of the team as a whole showed was a lack of co-ordination. Individually every man played well. But there was little team work. In the line plays the backs usually found no holes at all. Interference was sadly lacking and woefully scattered on all offensive plays. On the defense it was only one man at a time who stopped the thrusts of the Saint's forward line. Sixteen first downs for Saint Edwards to 3 for Tech.

Pats Cranfill, line coach of Simmons University, was present for the game. Simmons plays both Tech and Saint Edwards later in the season. Whether Mr. Cranfill gained anything by his observations, aside from two powerful lines, is known to no one, except himself.

Jessie Harper, former coach of Notre Dame, was another notable present for the Saint game. Knute Rockne was his pupil in days gone

by. He was a guest of Coach Jack Meagher, who coaches the Notre Dame of the South, as Saint Edwards is often called.

Uncasy lies the head that wears a crown. That must be true in regard to Clyde Littlefield. He, if he holds his job, must pilot the Longhorns to a successful season. Already he has incurred the enmity of the students and alumni by two games. First he allowed Tech to hold his proteges to 12-0. Then he allowed Vanderbilt to beat Texas last Saturday. Only the future can tell what the results of coming crucial conference tests will be. If A. Littlefield will go the way of all other Longhorn coaches. Already, on the campus of Texas University, you hear the name of Doc Stewart as the next Steer football mentor.

The Tech band did its stuff for the St. Edwards game—the best of the year. Harry LeMaire and some seventy seven of the band kept up good music during the entire game; and when St. Ed. was trying to make so many aerial gains, the band played "Canton" "Acro" "March." When Sid broke down the field for his 70 yards, the musicians told the truth with "Hot Time in the Old Town Tonight."

A rather complicated situation exists in the Texas Conference this year, in regard to the championship. The constitution of that body says that for a team to win the pennant it must play each of the other five members of the loop. This provision eliminates Saint Edwards and Austin College.

Another rule is that at the annual meeting to be held on the first Thursday after the first Monday in December the pennant will be awarded. It happens that the meeting this year comes on December 6. It also happens that Simmons and Howard Payne do not engage in their annual tussle till December 8. That eliminates those two schools, leaving only Southwest and Trinity eligible for the conference championship if rules are strictly adhered to.
