TEXAS TECH, LUBBOCK, TEXAS, WEDNESDAY, NOVEMBER 14, 1928

NUMBER 9

World Famous Band Will Be Here Tomorrow Afternoon

Simmons And Tech Clash Saturday To Be Western Supremacy Classic; Cowboys Coming On Special Train

The football classic of West Texas Saturday afternoon, will be the Simmons-Tech clash on the Tech gridiron. The Cowboys are coming to Lubbock determined to avenge the defeat handed them by the Matadors last season. Thus far the Cowboys have made a very impressive record on the gridiron. They have lost only one conference game—to Austin College.

The Matadors can expect to meet a very tricky team, one that can never tell just what a Bridges coached aggregation will do, and facts show that they generally do the unexpected. According to comparative scores, the teams are about evenly matched, Simmons holding a possible advantage. Both teams have tied Daniel Baker and both have lost to T. C. U. The Frogs beat the Cowboys 19-3, and conquered the Matadors 28-6. Furthermore, any team that can hold the powerful S. M. U. team—Red Hume and all—is certainly worthy of serious consideration.

Is West Texas Contest For Supremacy

This game is one of the most important of the 14 games that the Simmons crew have on their schedule. While it is not a conference affair for the Cowboys, it means much toward determining the football supremacy of West Texas. It will also be remembered that the Matadors and Cowboys are both battling for Southwestern Conference membership. This will tend to make the contest a holy waged affair. Simmons has made a slight better record with Southwestern Conference schools than has Tech this year.

Only Monday a large crowd of West Texas fans saw the Cowboys run roughshod over the Trinity Tigers for a 32-6 victory. And it will be remembered that in former years Barry Bolton's bunch has reigned supreme in this annual clash.

Coming On Special Train The Simmons team will be accompanied by their special train on a special train. This will have the only special train of the season during the present football season. Due to the fact that this is the last football game of the season on the home field, the Matadors will be playing before the largest crowd of the season.

During the four years that Frank Bridges was mentor of the Baylor University team, the Bears won the conference championship one year and were high in ratings the other three years. It was Bridges who introduced the "laying out" trick and the "laying out" trick into Texas football. He always puts out a clever fey, and tricky team. One of Bridges' favorite methods of playing football is to punt on the first and second downs with men watching the game. The most accurate method of describing Bridges' method is: "He always does the unexpected thing."

Cowboys Have Two Evenly Divided Teams

As in the case of former games, it will be a battle of Tech line against a lightning backfield of Simmons. Percy Walker will find an able opponent in punting in the person of Goodson Sellers, an Abilene high school product. It was Sellers who won so many games for Abilene high by his superior punting. Roy Moore, a Texas Conference end, will be playing his last year for the Cowboys. Besides these men Bridges will have a host of fresh men to run into the game at any time they are needed. The Cowboys have two teams that are about evenly matched in defensive and offensive strength. Coach Bridges developed this system in order to play through the strenuous season of 14 games that the Cowboys have carded this season.

Faculty Textbook Has Third Edition

A third edition of "Drafting for Engineers," a text book by Carl Lars Svensen, head of the Department of Engineering Drawing, has just come off the press. This book is published by the D. Van Nostrand company of New York. Mr. Svensen is well known for his contributions to the literature of mechanical drawing and mechanical engineering. His other books include: "A Handbook on Piping," "Essentials of Drafting," "Machine Drawing," "The Art of Lettering," and "Mechanical Drawing."

NOTICE

The Treador is still delivered in the old way in order that you may receive the news while it is news. Readers probably noticed the name of someone else stamped on their paper last week. The papers were mailed through the College post office last week but when it looked as if the papers would not be filed and ready for distribution on time, a member of the Treador staff called for them and placed them in the postoffice. It is likely that the papers will continue to be delivered in the old way.

Whatley Tells Club Of Visit To Spain

An illustrated lecture on Spanish customs was a feature of the Spanish Club meeting Friday evening. Miss Frances Whatley, instructor in the Spanish department, who has just spent a year abroad, was the speaker. During the course of the talk she showed pictures of Spain and parts of Spanish costumes. She also played several musical selections on a pair of "castanuelas," which is a common musical instrument of Spain.

Other talks on the program were: "Granada" by Canon Clements, "Segovia" by George B. Long, "Cordoba" by Holmes Webb, and "Sevilla" by Lizzie Belle Clements. At the close of the program Spanish songs were sung by members of the club with Mrs. T. C. Gray leading.

At the meeting Friday Canon Clements was elected club reporter and Lloyd Croslin was elected chairman of the program committee. Every program of the club is to deal with a certain phase of the Spanish world. Each member is supposed to answer the roll call by giving a Spanish proverb. All Spanish students who have had two years of Spanish or who are taking second year Spanish are eligible to join the organization.

Local Judge Will Address Pre-Law

Judge Clark M. Mullican of the 99th District Court will be a speaker on the program of the Pre-Laws in a meeting tonight at 7:30. Judge Mullican will speak on the Jury system and needed reforms. He will discuss the subject in light of his experience as a judge.

The Pre-Laws have extended a special invitation to members of the Debating Club to hear this discussion. All fish, transfers, and old students who intend to join the Pre-Law club this year are urged to place their application at once. It is said that applications will be received tonight.

All old members are asked to remember that the official regalia of the club is the Joe Bailey collar and the black bow tie. Reports are to the effect that the members who fail to wear such official gear are at the mercy of the Supreme Court.

Baptist Students Have Church Party

Sixty Baptist students attended a "Harvest" party at the First Baptist Church on Friday evening, November 9th. The harvest theme was carried out by having the room decorated with hales of hay, watermelons, lanterns and sheaves of feed. This work was done by Thomas Chapman, J. W. Hill and Newburn Owens. Games were planned by Myrtle Gibbs, George Long, and Newburn Owens. Pumpkin pie with whipped cream and hot punch were served by the teachers of the girls' classes in the Student Department, namely Mrs. J. H. Hankins, Mrs. E. W. Provens and Mrs. Litton. The girls attending this party wore aprons and the boys wore overalls.

New Machine Is In Use On Farms

Recently Warren B. Johnson invented and patented a machine for heading milk maize. One of these machines is at work on one of the Tech farms. Although the machine is in a crude form now it is quite evident that it will be very practical and a solution to one of the great problems of harvesting row feeds.

Edelman, editor of La Ventana, has received pictures of the Tech-T. C. U. football game which will be played in the annual.

Much Interest Shown In Forensics As Debate Subjects Are Selected; 34 Are On Squad, Ten Are Girls

Much interest is being shown in forensics this year. There are thirty-four members on the debating squad, ten of whom are girls. At present the squad is working on two questions. The first of these is: "Resolved, That a parliamentary form of government is superior to the presidential form." The second is: "Resolved, That a substitute for trial by jury should be adopted."

While there will be one or two debates before Christmas, most of them will occur in the winter term, and a few in the early part of the spring term.

Members of the squad are selected by Miss Anna Jo Pendleton, director of debate, and the members of the teams are then selected from the squad. At least one team will be sent through the central and western part of the state, and probably other teams will be sent on

tours. The plans for these trips are tentative as yet. William Sewell, forensics manager, attends to correspondence with other schools in regard to debates and assists in arranging schedules.

Four Varsity Debates Already Scheduled.

Varsity debates have been arranged with the West Texas State Teachers' college, Simmons university, T. C. U., and Baylor university, and negotiations are on hand for other debates.

In addition to the varsity debates, several contests for the girls, including debates with Simmons and Baylor. Inter-collegiate debates have been agreed upon, with freshmen debating against freshmen, but as yet none of the schedules are complete, and definite

Musical Conductor For Fifty Years

LT. COMMANDER JNO. PHILIP SOUSA

Lt. Com. John Philip Sousa, who this season is observing 50 years of activity as a musical conductor, began his career as a violinist. He went on the road with theatrical and operatic companies and then in 1880 was notified that he had been appointed head of the U. S. Marine Corps Band. "I had rather looked down upon bands—being a fiddler," he said recently. "But it wasn't long before I realized that the band had great possibilities. I decided to develop them. At the same time I determined to improve the repertoire of the band. Those pieces that were in the band's library were badly arranged and there was a dearth of good compositions. For instance there wasn't any representation of Wagner, Tchaikowski, Berlioz and others of that type. Today they are in every good band's program list. I soon had the great masters represented in the Marine music and I managed to lift the band out of the rut of polkas, cavatinas and national airs."

Press Stands As Public Guardian Local Editor Tells Pi Gamma Mu; Explains Phases Of Journalism

"The press stands as the guardian for the public and upholds religion, education and government, the three principal cornerstones of civilization," said Charles A. Guy in an address on "The Press and Its Relation to Society" at the meeting of Pi Gamma Mu Friday night, November 9.

Mr. Guy, who is managing editor of the Avalanche-Journal, stated that the local papers are willing and ready to co-operate with the college faculty and students and asked for better cooperation on their part. The speaker admitted that there are mistakes made by the newspapers, but maintained that such would be the case since the writing of news, set up and printing are done by humans.

A comparison was made of the papers of Horace Greeley's time which were opionated and contained highly individualized editorials with those of today which endeavor to present both sides of a question to their readers.

Mentioning the adverse criticism of newspapers, Mr. Guy stated that much of it may be laid to the doors of the outsiders and malcontents. The "Unholy Triumphant" of the Journalism world; Sinclair Lewis, H. L. Mencken and Upton Sinclair, were referred to and an explanation of the reasons for these men quitting the newspapers was given.

The speaker also named and explained various syndicates and the Associated Press, which is connected with the local papers, was given consideration on the stand which it took during the recent presidential campaign.

Following the address the meeting was thrown open for questions and discussion, with the young editor answering technicalities concerning the makeup of news, and the newspaper world.

At the next meeting of this organization, Miss Mary Hope Westbrook, is to lecture on Modern Negro Poetry.

Civil Engineers Survey Canyon

Juniors in the department of civil engineering are making a topographical survey of the canyon at the Lubbock County park. They have found that there is only 50 feet of difference in the elevations of the top of the canyon slope and the lake at the bottom. The students are making trips to the canyon in the college bus twice weekly. After they have finished their surveying, they will make a topographical map of their findings.

Two Deans Attend Meeting At Dallas

Dean Miller of the Engineering School and Dean Leidigh of the School of Agriculture attended the meeting of the Texas State committee on the Relation of Electricity to Agriculture last Saturday in Dallas. This committee is composed of representatives from colleges, farmers' organizations and power companies.

The objective of the committee is to make possible more use of electricity on the farm. The committee has been in existence for about two years. Annual general meetings and frequent sub-committee meetings have been held since its first organization. Much work along the line mentioned has been done, including the employing of a full time research man with headquarters at the Texas A. and M. college.

Dean Gordon Makes Armistice Address

Dean Gordon made an Armistice day address at the Presbyterian Church of Dimmitt, Texas, Saturday morning at 11:00. His theme was, "All Things are Yours."

While in Dimmitt, Dean Gordon visited in the home of his sister, Mrs. M. A. Ferguson.

S. E. A. Inspector To Be Here Soon

According to word from the president's office, an inspector for the Southern Educational Association will visit Tech within the next few days relative to Tech's application for membership in the association.

Tech is now a member of the Texas College association, composed of the larger colleges of the state; and she is rapidly reaching the big school stage, and is due membership in the Southern association, which is composed of educational institutions of all the Southern states, Dr. Horn stated.

Only Part Of Bldg. To Be Ready Jan. 1

Because of delay in the stone work the new Chemistry building will not be ready for occupancy as soon as was planned when construction began. It is hoped, however, that the first and second floors of the building will be ready by January 1.

The new building will cost \$275,000 completely equipped with offices, lecture rooms, laboratories, and recitation rooms. The departments of Geology, Physics and Biology will also be temporarily housed in the new building, thereby adding to the present efficiency of those departments and partly relieving the crowded conditions in the Administration building.

On the keystones of the cloisters are carved the symbols used by leading chemists up until the beginning of the present chemical age. All the rooms have ventilators built in the walls where gases are drawn out at the top of the building.

Timely Laboratory Is Being Installed

A new laboratory for testing high materials, in which a large amount of testing apparatus is being installed by civil engineering students, puts Tech in a position to add to the amount of knowledge relative to highway construction in Texas. This new equipment is in line with the concerted drive for paved roads being made by interested citizens of Lubbock county.

At present more than \$1,500,000,000 is being spent on road improvement annually in this country, and this huge amount of expenditure makes scientific equipment for the study of road building more important than ever before.

Dancers will be admitted only by bid. Members of the Engineering School may secure two bids from the officials of the Engineering Society.

Refreshments will be served.

BULLETINS ARE PRINTED

The winter bulletins of the college have been printed and will be in Cecil Horne's office the first of the week. These books are largely of an informative nature and contain announcements for the winter term. The catalogs will be sent to anyone desiring them and students may receive them at the college.

If you write at all, try to write a college song.

John Philip Sousa Makes First Visit To West Texas As He Tours Union; Will Judge School Band Contest

Tech will have the opportunity, Thursday of this week, of hearing the most famous band in the world, that band under direction of John Philip Sousa.

Lieut-Commander Sousa has visited the State numbers of times before, but this is his first visit to West Texas. At this time, he is making a tour of all the States in the Union, and it is probable that after the completion of this tour, he will retire from the service.

Sousa's marches and other musical compositions are known the world over. The title "The March King" has been his for many years; and his band has been heard over the entire globe.

With The Band

MISS MARJORIE MOODY Soprano Sousa Band

J. C. Granberys Entertain At Tea

Dr. and Mrs. J. C. Granberys entertained students in Dr. Granberys' classes from two to four Wednesday afternoon of last week with a tea at the Granberys home at 1622 Ave. X.

Mrs. Mary W. Doak and Mrs. W. R. Washburn presided at the tea table, assisted by Misses Dorothy Knipp, Margaret Turner, and Margaret Williams.

The program of the afternoon was informal.

Record Attendance Is Set By Bobbins

The Textile Engineering Society, the Bobbins, met last week in the reading room of the Textile Building. The President, Rudd Hardesty, called the meeting to order at 7:15 p. m., and a short business session followed. The entire membership of twelve, including nine old members and three new ones, were present.

The three new members were initiated. The Bobbins are now in full swing, and with twelve active members, much is predicted for the society.

President Makes 2 Holiday Talks

Dr. Paul W. Horn made two addresses Armistice Sunday: the first was from the pulpit of the First Methodist church at Pampa in the morning, the second in the high school auditorium at Crosbyton Sunday evening, where the Armistice program was made a community affair.

Dr. Horn returned to Lubbock Sunday night.

Stock Judging Team And Coach, Who Are In Wichita Kansas Today, Will Enter Royal Show Saturday

Tech's Senior Stock Judging team, composed of John Burroughs, R. C. Tom, J. A. Jackson, Vaughn Corley, Curtis Grimes, and Bernis Carmichael, accompanied by Coach R. C. Mowery, left Lubbock at 5 a. m. Sunday to participate in stock judging contests. The team is making the trip in cars belonging to Bernis Carmichael and Professor Mowery.

It was the plan of the coach to have the team work out on the college livestock at Stillwater, Oklahoma, on Monday and Tuesday. On Wednesday they drive to Wichita, Kansas, visiting several livestock farms en route. The team enters the contests at the Kansas National Livestock Show at Wichita Thursday.

To Enter More Contests Saturday Texas A. & M. won first place and had high point man at this contest last year. Texas Tech had second high point man, Glen Blackmon, and won fourth place. The team will go to Kansas City Friday, visiting stock farms on the way. There they will take part in the contests at the Royal Stock Show Saturday.

After three days of additional working contests, the team is making the trip in cars belonging to Bernis Carmichael and Professor Mowery. It was the plan of the coach to have the team work out on the college livestock at Stillwater, Oklahoma, on Monday and Tuesday. On Wednesday they drive to Wichita, Kansas, visiting several livestock farms en route. The team enters the contests at the Kansas National Livestock Show at Wichita Thursday.

To Enter More Contests Saturday Texas A. & M. won first place and had high point man at this contest last year. Texas Tech had second high point man, Glen Blackmon, and won fourth place. The team will go to Kansas City Friday, visiting stock farms on the way. There they will take part in the contests at the Royal Stock Show Saturday.

An afternoon concert will start at 3 p. m. and will last until about 5 p. m. The band will play in the Tech gymnasium. As soon as the concert is over, a contest will be held between bands from West Texas high schools. Mr. Sousa will judge the contest, and will present a silver loving cup, the gift of Tech College, to the band which he considers the best. Mr. Le Maire, Tech band director, has written to all high schools of West Texas, and a number of bands are expected to participate, although nothing is known definitely as to which bands will be here. The closing number of the program will be the playing of Bigelow's march, "Our Director," by one of the high school bands. Mr. Sousa will select a matched band to play this number, and will lead it himself.

The evening concert starts at 8 p. m. General admission will be one dollar and two dollars. The Tech band will play several numbers after the evening concert. Members of the band will be admitted free.

The admission for the afternoon performance will be seventy-five cents and one dollar and fifty cents. All high school students will be admitted to both performances for fifty cents.

Slaton Is Hostess To Sans Souci Club

Ruth Slaton was hostess to members of the Sans Souci club Monday afternoon. Games of bridge were played throughout the afternoon, with Jenn Mitchell winning first prize; a pair of silk hose, Helen Womack cut high and received a bracelet.

Refreshments were served. The guests included: Jamie Tatum, Anna Belle Collins, Lucille Maxley, Zana Siles, Kate Boyd, De Anna Sammons, Jane Mast, Helen Womack, Donna Vaughn, Geraldine Smith, Alma Sikes, Mrs. Charles A. Guy, and Louise Pierce.

Victims Of Wreck Recovering Rapidly

J. M. Dyer and Jim Lindsey Tech students who received injuries in the automobile wreck which happened two weeks ago on the Slaton-Lubbock highway, are recovering rapidly, according to reports from Lubbock.

Lindsay is able to go home last week but Dyer is still in the Sanitarium. It is believed that he will be able to go to his place of residence this week, however.

Home EC Teachers Will Meet At Tech

Home Economics teachers of Lubbock and adjoining towns will hold a regional meeting in Lubbock, December 7 and 8, the first day at the High School and the second day at the college.

Miss Weeks will be director of the meeting.

Miss Lillian Peek, State Supervisor of Home Economics, will be in Lubbock for the event.

The object of this meeting, according to Miss Weeks, is to promote professional growth and to discuss problems dealing with the teaching of Home Economics.

Calendar

Wednesday, 14th
Freshman Council entertaining all Freshman girls, Gym, 8 o'clock.
Texas Tech Chamber of Commerce, room 208-E, 7:00 o'clock.
Men's meet, Ad 220, 7:30.
Thursday 15th
Sousa's Band, Gym, 3 o'clock.
Sousa's Band, Gym, 8 o'clock.
Saturday 17th
Matador-Simmons football game, Tech Field, 3:00 o'clock.
Monday 19th
Forum, room 102, 5 o'clock.
Band rehearsal, Engineering building, 8 o'clock.
Tuesday 20th
Y. W. C. A. Cabinet, room 203, 5 o'clock.
Dramatic Club, room 202, 7:30.
Wednesday 21st
Ag. Club, A. 109, 7:30.

BRAIN AND BRAIN TRAINING

Brain, that invisible thing of which we see so much evidence, is something which is said to be innate. Some men comb their hair with their fingers until late at night trying to make the mechanism of the head produce an original idea. Other men seem to be able to produce, to construct, or to create without very much effort. Now, this difference could not be a matter which depends entirely upon the training of the brain. Surely training has something to do with it. But what individual is not acquainted with a neighbor who has a well trained brain. Yet the neighbor is just another member of humanity who goes to make up the composite whole of humanity. The last statement does not mean to discount the value of the average layman and contend that the only things worth while are those which are above the realm of the average individual. Certainly there is lots of truth in the editorials and essays which are common in modern periodicals that champion the cause of the average man. Yet because the average man is essential to progress and to the mainstay of a college or of a nation, the fact remains that most people would like to be the possessor of a master brain. The ambition is probably all right. It makes for the training of that brain which every individual possesses. And, it is the master brain which is well trained that contributes new things to the world.

A THOUGHT ON EFFICIENCY

A man is often at a loss to tell just what cuts down his efficiency. He may realize that his hard work is not yielding as good results as that of the man who works beside him who has no more brain or physical strength than he. Yet he is unable to locate the loss of energy, whether physical or mental. In a case like this, there is one thing that is almost invariably found to be true. That is, that his inferior results are the outcome of some very small, apparently insignificant handicap. To illustrate the point: There was a typist who was doing her best to equal a nearby typist both in respect to the quality of work turned out and in respect to the amount of work turned out. She really strived until she was almost ready to admit inferiority. She found one day, however, that she was using a desk which was so high that it cut her ability about twenty percent. A little thing, all will probably admit. But it meant championship for this particular typist.

Fourth Catalogue To Be Ready Soon

Tech's fourth annual catalogue will be ready for distribution by February 1, 1929, according to the printer. The last material for the catalogue will be turned over to the printer not later than January 1st. Owing to a great demand, the number of copies to be made has been increased to ten thousand. Last year seven thousand copies were printed. Each dean plans an all department copy, which will be ready by December 22nd. Department heads have been asked to have their material in the dean's hands by November 15th.

HALL COUNTY CLUB PLANS PARTY

Several new members were admitted to the Hall County club at its meeting last Wednesday night. Any student who has ever attended a high school anywhere in Hall County is eligible for membership in this club. Plans were discussed at the meeting for a party which will be held sometime in the near future at the home of Clayton Read. The date has not been set.

Dick Davis, two letter man in track, is among the last year's students who are not in school this fall. Dick was at the game Saturday, however. He expects to be back in school after Christmas. Dick reports that he is growing like a staple cotton. He says that the hair of his first hair measured one and one-eighth inches.

Los Cauchos performed a clever little trick at the game Saturday. And, it didn't take them long to do it. It was snappy. Frank, next to the piano playing like the work of your pop squad best.

General new railway lines are being built in the state of Sao Paulo, Brazil.

English majors will place its annual issue on a horsepower.

Ladies and gentlemen, we put one of our hands in our pockets and raise the other to address you in the gestures of oratory. Our comment, which will be oratorical comment, will be on varied subjects. We may talk for awhile on the pyramids of Egypt. Then we may shift to the colleges of America. So if our eloquence shows that we possess a profound knowledge of the universe and its subservient evils, you should not become alarmed. We know so much because we have been to so many places. Not only have we been to places but we have seen things. Hence the SOURCE of our knowledge. It came through the sense of sight. And because men learn easiest through one of the senses, we are going to talk to you—all who listen for the rest of the monologue.

Several of the college papers of Texas are carrying editorials and news articles which praise their own teams to the top notch. We're sure that all the teams are going to win over all the other teams. We base the statement on the investigation which we have made of these papers. They are all trying to BEAT someone. "IT CAN BE DONE," SMEAR—(we omit the name. Supply any school and any team), "BEAT," "TRIDE," "DOWN," "TRIM," "BEAT," "TROUNGE," and so on. You've heard the story. It sounds good on your own campus but when you see another paper printing the same thing (and you are an impartial observer) the thing doesn't go over SO BIG. You wonder what the winners in the long run who beats. Rather wrong way to look at it we admit. But we remember you agreed to hold on if you could. Are you holding?

Shifting the scenery, the gravelled roads between the buildings of the Tech campus and the avenues called College are in fine condition, is it not so? We dare say that the subject is mentioned several times per day. Yet nothing is done about it. We know of one man who threatens to make his daughter walk home for lunch—con if something is not done about the matter. He says that it would not be so had it there was not a lot of money being spent on the campus. He does not object in the least to the expenditure. But he is of the opinion that some of the money is needed in filling the series of dry lakes that exist for what it is being spent in some cases. In other words: Tech's crying need, as he sees it, as we see it, and as all see it, is a little levelling of the highway—the driveway. Are you holding out? Do you agree? Is the orator correctly poised? A voice from the throng tells him that he is.

It must be a great thing to be able to philosophize. For instance, you could stand in the halls of the old building and water the genuines of the future go by. You could see serious ones and frivolous ones. (Notice the use of ones. They are all ONES. They may not all be students.) Perhaps one of them will be president some day, who can tell? One may be the organizer of a new political party. Another will probably be a farmer of the Middle West. Still others will be football coaches and school teachers. Some of the others will probably be ditch diggers. Seems unreasonable, but it is true that some will be ditch washers. O-h-ho-ho-rows some pretty little thing cries. She little realizes that the cute thing to which she speaks may miss his mark and fall to be the best physician in the United States some day. She little dreams the worst mistake of her life is REAL; that it is a he-man's world and none but he-men and she-women are able to withstand the sandsterns which blow across the paths of men on earth.

It would be a poor philosopher who would discourage any young ONE though. Let the young student think that the world has what he thinks it has—pleasure—just as the freshman thinks college has just what it takes to make life complete. Every student has an attitude toward life called Optimism. The student who has optimism is the type who could believe that a dean never worried about discipline but sat, with a cigar in his mouth, in an office which was shielded by three secretaries. He can see a smile on the countenance of Cronie Gripe.

Ladies and gentlemen, adieu.

WHERE TECH IS
Where the wind is gently blowing
Across the broad wending plains,
Where the horizon is never broken
By effeminate flowered lanes,
Where one can look as far as one
can see
There's where old Tech is
and there's where I want to be.

Where the air is full of freedom
And the people are like the air,
Where an enjoyment of the world
is mingled with some care,
There's where the old school reigns,
Where the wind is gently blowing,
On the broad expansive plains.
—Jave Velin.

L. E. Brooks, graduate of '28, who is teaching science in the Plainview high school was at Tech Saturday night for the game and to visit with friends.

Announcements

Men of the college are called to meet in room 220, administration building, 7:30 Wednesday.

De Molay meeting 7:30, Thursday night, Masonic Temple, Citizens National Bank building. All Tech De Molays are urged to attend.

Judge Clark M. Mullican will speak to the Pro-Laws tonight on the subject, Resolved, That a Substitute for the Jury System Should Be Adopted. Members of the debating club are invited to attend the Pre-Law meeting and hear this discussion from a practical standpoint.

A meeting of the Sophomore class will be held Wednesday, November 14, 7:30 p. m., 302 Administration building. It is very important that all Sophomores be present.

WANT FINGER PRINT EXPERT

Several citizens of Shallowater were at the college last week looking for a finger-print expert, who might be able to ascertain who it was that stole two safes from there not long since, took them out in the country and blew them up. A Tech student registered his name at the sheriff's office, who is able to read finger prints. The name has been lost, however, and Cecil Horne has sent out a call for the boy to come to his office at once and he will be given the job.

Three hundred and twelve new locks have been put on lockers in the engineering drawing department.

Athletic Items

Hooray! The Canyon Buffaloes have at last won a football game. The Teachers did the impossible last Saturday, when they beat New Mexico Military Institute, a junior college, 27-0. It is the middle of the week and all is well.

But they better be happy while they have the opportunity. On Saturday they meet A. C. C. If they show just half to Canyon what they demonstrated to the Matadors here last Saturday, it will be a treat to meet held in November. They beat A. C. C. last year and the Wildcats have not forgotten it either.

The week following holds the biggest assignment of the year for Canyon. They have the Mustangs 19-0, Turkey day and a chance to beat Tech reigns supreme in their minds.

Texas A. & M. had to upset the dope bucket again last Saturday. The dopesters had it all figured out who was to win the Southwestern Conference title. The dopesters were going to give it to S. M. U. without a doubt. The Army game was the only one that they were requiring the Ponies to lose or tie all season. The Aggies did not know when to quit and as a result tied the Mustangs 19-0.

Despite the fact that the game ended in a tie and that Redman Hume was out of the game the Mustangs made 22 first downs and rolled up a total of 450 yards gained from scrimmage. But they lost just the same.

But they deserved to lose. Any team that makes 22 first downs and has 450 yards rolled up from scrimmage and then fails to win, deserves to lose. Given just 50 yards of that

yardage last Saturday at opportune times and Tech would have won in a very comfortable manner. Or for that matter A. C. C. would have been able to run up 10 or 15 more points, that is provided they could have gotten the yardage as they needed it.

A. & M. is regarded as an in and out team during the entire season. Last Saturday it was apparently IN. J. C. U. claims that Rice was also IN. And Tech KNOWS that A. C. C. was very much IN.

Saint Edwards is also an in and out team. But they were out last Saturday. Howard Payne let 'em have it in the neck in Austin. The Yellow Jackets passed them into submission 16-0.

Canyon has built the first unit of their wood and steel stadium this year. Incidentally she is in debt and needs funds, as badly as she needs football victories. And from all indications they intend to have both Thanksgiving Day. The business management has placed a price of only \$3.75 per seat for all tickets for the Turkey day game with Tech. Practically every school in West Texas has recently received invitations to see the game—at only \$3.75 per person. It is not known whether they intend to stick Tech students and faculty members that much or not. If they do the attendance will be reduced to a considerable extent, not only from Lubbock but from all over West Texas.

Another thing is also in doubt in the minds of the fans. Canyon has not announced whether or not they intend to have a sandstorm this year. The last time Tech visited the home of the Buffs a sandstorm that broke all records rocked the sands till it seemed that all of the bleachers were infected with the St. Vitus' dance.

Tech students and fans have seen Captain Ramona Walden fight and try harder than he has in the Wildcat game last Saturday. It is a conceded fact that Walden is a marked man in every game he enters. And he was doubt marked in that game. And it is a good thing for the opposition that he is marked. When he is stopped, a mighty good per cent of the Tech offensive threat is stopped.

Tech is disappointed that the A. C. C. student body was not allowed to charter a special to the scene of the clash Saturday. The student body of A. C. C. was anxious to come but the school authorities would not otherwise. Nevertheless, about 20 or 50 came anyway and they kept up a constant howling cheer for their representatives on the field.

In speaking of attendance, one may fail to notice the lack of it in the games at home this fall. The fans on the west side of the field were not more than one-third full Saturday. Attendance at the college games have not been at all what they should have been. The football fans of Lubbock are not supporting the Matadors in the way they did the first three years. Fans are reminded that they have only one more chance to see the Matadors in action this year on their home field. This final chance comes Saturday when Tech is host to the Simmons Cowboys.

Many people are insisting that the game be held on Friday instead of Saturday. They base their argument on the fact that the business men are too busy on Saturdays to attend the game. Probably they are right but they must remember that if a game were played on Friday it would bar many traveling salesmen, as well as former students and alumni, from seeing the game.

The town was closed up Monday and if the game had been postponed

To Class! Then Where?

The College Cafeteria is the next place. Meet your breakfast, dinner and supper. Everything at a minimum cost, meats, breads, vegetables, salads and desserts. Come and make yourself at home. The Cafeteria is on the Campus and belongs to each of you. If you can not go to your own home for your meals, eat at the next best place—

The College Cafeteria

You will enjoy the light, airy, cheerful and sanitary conditions of the Cafeteria and also the flowers which make it a spot of beauty. Enjoy life by eating where good food, service and accuracy are to be found during every meal, every day in the week.

College Cafeteria

Breakfast, 7-10
Dinner, 11:15-1:30
Supper, 5:00-6:30

all then more money would have been taken in. At the same time many students would have been out of town. College students take advantage of holidays to visit home occasionally.

College Cafeteria

From a financial standpoint, Friday games would probably be better, but where will you find the student that relished the idea of watching a football game one day and attending classes the next. It simply does not work that way. It has grown rather high-schoolish to play intercollegiate games on Friday.

High school circles are all excited over the Corsicana-Waco game of last Friday. Waco lost. It has been whispered all over the state that Waco had nothing this year but a lot of beef. But fans paid no attention, because Paul Tyson's occupation is to make state champions out of beef. And he is so good at it that it is a whale of a good team that beats his.

Eastland is beaten as often in the Oil Belt as Rice is in the Southwestern Conference. Saturday San Angelo gave Eastland a neat trimming to the tune of 39-0.

No student Is Complete Without a Remington Portable

—It is the student's favorite typewriter—for the best of reasons . . . n

It is the smallest, it is the lightest, it is compact beyond comparison with any other standard keyboard typewriter—for it fits in a case only six inches high. You can carry it anywhere and use it anywhere—on your lap if you wish.

Wildcats R Over
An aggregation of big, super-charging athletes Christian their way to a 7-0 lead over the Tech gridiron. A noted pass from Chick Hicks did the trick. Boy Stephens around the end for 20 yard play. Owens right tackle in 3 yards and the ball 23 yards away. The remaining 24 yard touchdown of the kicked goal. Little is Galbed by Wilcox team was through the serial ro. It is true that the trophy only over by (turned out, only one was needed—the first Wildcat gained all through the Matador. Except for Ramona. The game was almost a tie. The Matadors were on paper and had strength, but a. crumpled interference their ball to gain to yards. Tech ball practically no interference. On their way to here!

780,000 Chesterfield cigarettes are now sailing South-Polewards with the Byrd Antarctic Expedition. We are officially informed that the selection of Chesterfield resulted from the individually expressed preferences of a majority of the expedition's members. When it is recalled that these are—in superlative sense—picked men... selected not only for bravery, ability and experience, but also by searching tests of physical fitness... we may be forgiven for our considerable pride in their vote. And something of this pride, we believe, will be shared by all Chesterfield smokers. It is another of the many proofs piling up that the surest way to earn popularity is to deserve it!

Freshmen Crash Through Simmons Reserves For A 25-13 Victory; Crites Makes Historical Touchdown

Junior Matadors Outcharge Outfight, and Out-general Simmons Who Scores On Passes

To Gene Alford goes the honor of being the first Matador to score a point for Tech. That happened when Tech trimmed Montezuma College in 1925 to the tune of 20-0. To Crites, goes the honor of being the first Tech freshman to score a point for the Tech fish team last Friday on the tune of 25-13.

0	12	6	1	
0	2	1	3	
0	97	76	53	

The following is not a complete summary of the game but it only goes to show the impressive number of plays in each quarter and the amount of each play as well as the

pass Levi Walker to Hill is incomplete. Another pass to Payne is incomplete. It is A. C. C.'s ball on her own 36 yard line. Stephens hits the tackle for a yard. Cheeves is a yard through the line. A. C. C. is penalized 15 yards. The ball is placed on their 23 yard line. Stephens rushes left end for 3 yards. Cheeves fails to gain. Stephens punts 35 yards to Walker, who returns the ball to Tech's 43 yard line. Percy Walker loses 1 yard on an attempted right end run.

Fourth Quarter. The ball is on Tech's 43 yard line. Walker ripped off... at right tackle. It is third down and three with the ball on the 50 yard line. Hill makes 2 yards at right guard. With it fourth down and one to go, Wortham throws Smythe for a 7 yard loss. It is A. C. C.'s ball on the 43 yard line. Stephens makes 1 yard around right end. Rowland failed to gain. It is the third down and 9 to go. A pass is incomplete. Stephens punts 26 yards out of bounds to the Tech 13 yard line. Percy Walker makes 9 around the line. Hill makes it a first down through the line. It is Tech's ball on her own 29 yard line. Percy Walker made 3 through the line to place the ball on the 32 yard line. Archibald was tackled hard after he made a yard at tackle. A pass Percy Walker to Walker is incomplete. Percy Walker punts 47 yards to the A. C. C. 19 yard line. Rowland hit right tackle for a yard. With the ball on the Christian 20 yard line A. C. C. punts 45 yards to Walker. He returns to the A. C. C. 47 yard line. Percy Walker hits the tackle for 4 yards. Percy Walker passes to Hill for 12 yards for another first down. Hill runs right guard for 1 yard. On a lateral pass Percy Walker loses 1 yard after he fumbles and recovers. It is third down and 10 to go. Brothers fails to gain. A pass Lassiter to Percy Walker is incomplete.

total. The figures do not include passes: First Second Third Fourth 19 plays 13 plays 13 plays 17 plays

Again we see that penalties were in their favor also. The Simmons cowhands were penalized 6 times for a total of 59 yards. All penalties they drew were a result of their inability to complete passes. The Tech freshmen drew two penalties of 5 yards each for being offside. This should not be charged against them because when a team is penalized two or three times for offside it proves they are on their toes and playing heads up ball.

After the smoke of battle had cleared away it was found that the fish had made 21 first downs to 4 for Simmons. And two of those by Simmons were made when they completed two passes for touchdowns. Both Simmons markers came by the serial route; Byron to Weatherby. The star of the game from a Simmons standpoint was Marshall, giant fullback, who played

got his man practically every time on the defense. But the best work in the line was exhibited by the tackles, Sides and Simmons. Time after time they rushed through to throw the opposing backs for a loss. And very little if any yardage was made through their part of the line, while they were in the game. Crites, captain, together with Hill, who peddles cokes at the Tech Drug, make a whale of a backfield with Buckler and Smith, who in times past paraded his wares for Lubbock high school. High is another half who is a clever man. Only one time was the Simmons bunch able to hold Tech for downs. Tech either made the necessary yardage or punted. Passing is a rough spot that needs to be ironed out before the fish have a well-balanced offense.

Live men for Tech include two ends, Whiteside and Strickel. It was due to the work of these men that the Simmons off tackle thrusts and end runs were stopped. Hutcherson, a cousin of Claude Hutcherson, who graduated here last spring, was a tower of strength at guard. If he makes as good a man for Tech as Claude did as a boxer, Tech will have another Ox Reed. Swift, an all state center for Waco last year,

Line-up And Summary

TECH	Pos.	A. C. C.
Hempel	Left End	Pippen
Carpenter	Left Tackle	Bullock
DeWitt	Left Guard	Sanders
Corley	Center	Wortham
Smith	Right Guard	Ewing
Knowles	Right Tackle	Livingston
Vinzant	Right End	Hendricks
Lassiter	Quarterback	Keyes
R. Walker	Left Half	Cheeves
Brothers	Right Half	Rowland
Hodges	Fullback	Stevens

Officials: Emlinger, (Harvard), referee; Swenney, (Bethany), umpire; McMillan (A. & M.), headlinesman; Mahoney (Arizona) timer. Score by quarters: Tech..... 0 0 0 0-0 A. C. C..... 7 0 0 0-7 Yardage gained on running plays—Tech: 199 yards on 29 plays; A. C. C.: 166 yards on 43 plays. Fumbles: Tech—Attempted 23, 4 complete for 53 yards, 16 incomplete, 3 intercepted; A. C. C.—Attempted 6, 3 completed for 74 yards, 3 intercepted. Punts: Walker (Tech) 9 times for average of 47 yards; Ewing (A. C. C.) 14 times for average of 33 yards. Yardage lost from scrimmage: Tech, 38; A. C. C., 9. Held for no gains: Tech, 5 times; A. C. C., 10 times. Return of punts: Tech, 5 for 68 yards; A. C. C., 3 for 33 yards. First downs: Tech, 7; A. C. C., 10. Held for downs: Tech, 2; A. C. C., 1. Fumbles: Tech 1; A. C. C., 4, recovered 1.

"On the Campus"

ed last year with Floydada High school. Old students remember him as the man who threw all of the weights in the district meet here. Flockers, a tackle, also showed up well for the Cowboys; as well as his running mate, Davidson, on the other side of the line. Byron, speedy little quarter, also showed up to an advantage. Sides and Simmons Star. Live men for Tech include two ends, Whiteside and Strickel. It was due to the work of these men that the Simmons off tackle thrusts and end runs were stopped. Hutcherson, a cousin of Claude Hutcherson, who graduated here last spring, was a tower of strength at guard. If he makes as good a man for Tech as Claude did as a boxer, Tech will have another Ox Reed. Swift, an all state center for Waco last year,

What We Owe You

We realize that we owe it to you and to the public generally to give the most telephone service and the best at the lowest possible cost. This we are seeking to do. Your service today is faster and more accurate than it was a year ago. Last year 100,000 more local calls per day were completed on the first attempt than in 1926. The average time for handling long distance calls has been reduced from over 4 minutes to almost 2 minutes. We owe it to you to continually extend and improve telephone service just as we owe it to our stockholders to safeguard their savings and to insure an adequate return on their investment.

Wildcats Rush Way To A Victory Over Matadors On Tech Gridiron

An aggregation of fighting, clawing, super-charging Wildcats from Abilene Christian College rushed their way to a 7-0 victory over the Matadors here last Saturday on the Tech gridiron. A beautifully executed pass from Cheeves to Hendricks did the trick. This came after Roy Stephens had galloped around the end for 20 yards on the first play. Cheeves made 3 yards at right tackle in 3 attempts and then passed the ball to Hendricks 23 yards away. Hendricks stepped the remaining 24 yards for the only touchdown of the game. Stephens kicked goal.

Little Is Gained By Aerial Route. Neither team was able to gain through the aerial route consistently. It is true that the Wildcats attempted only seven but as the game turned out, only one completed pass was needed—the first one. The Wildcats gained almost at will through the Matador forward line except when the ball was under the shadow of the Matador goal. Here the line held as it does in all games. In fact the Wildcats made over half of their yardage by line bucks, accompanied by a crushing interference. Roy Stephens, the fast fullback of the Christian team ripped off gain after gain around the ends, with an occasional thrust at the line.

Finding the A. C. C. forward wall as stiff as their own is to the opposition the Matadors took to the aerial route, but with little success. Only 5 passes were completed out of 23 attempts. And 4 were intercepted by the Wildcat secondary defense. Except for occasional short gains by Ransome Walker and Hodges through the line, the Matador offense was almost helpless before the smashing charging defensive play of the Morrismen. The difference is this: Tech has a better team on paper and more potential strength, but A. C. C. had a crushing interference that enabled their backs to gain the necessary yardage. Tech ball toters had practically no interference at all. The lack of adequate interference on the part of the Matadors was the cause of their defeat.

Percy Does Good Puntings. The punting of Captain Percy Walker was the bright spot of the game for Tech. He punted 11 times for an average of 49 yards. A. C. C. averaged 35 yards on 13 kicks. It was the kicking of Walker that kept the ball out of the Matador territory. The Wildcats would advance the play deep into Matador territory and lose the ball by the stone wall defense of the line. Walker would then kick deep into Wildcat grounds for the setback. The last half was a duel with the Wildcat backs on the one side and Walker punting on the other.

Livingston and Sanders were the outstanding linemen for the Christians. It was these men who rushed and threw the Tech backfield for so many losses. Keyes, quarterback for the Abilene college, never carried the ball during the entire afternoon but did splendid work in shaping and mapping out the play of his mates. Weatherfield, DeWitt, Corley and Carpenter are true to form. Weatherfield, DeWitt, and Corley together with Carpenter were playing their consistent dependable

brand of football. They starred in this game as they usually do in every game. Red Smith also played the best game he has displayed this year.

Entering the game with the odds 2-1 against them the lighter Wildcat machine outfought their opponents the entire game. They weakened in the latter stages of the game, handicapped by a lack of reserve strength. It might be added that the Matadors have never met a team that fights from beginning to end like the Wildcats.

Coaches Payne and Freeland sent a continuous stream of substitutes to turn the tide of battle but the Christians had already scored the points that ultimately won the game. On two other occasions the Abilene visitors tried for field goals but missed.

THE GAME PLAY BY PLAY First Quarter DeWitt kicks off to Rowland on his own 10 yard line. Stephens promanaded around left end to the 50 yard line before he was stopped. Cheeves tried the same play but failed to gain. He then hit right tackle but Sid Knowles was in the way and he was forced to stop. As though he was determined to gain he hit tackle and this time made three yards. Stephens passed 23 yards to Hendricks, who ran 24 more to score the only touchdown of the game. Stephens kicked goal.

DeWitt kicked off to Captain Lubbock of the Cats, who returned the ball 9 yards to his own 42 yard line. Rowland lost 3 yards. Ewing punted 35 yards to Lassiter, who was downed in his tracks on the 22 yard line. Percy Walker sidestepped through center for 16 yards carrying 1 or 5 Wildcats clinging to his knee. Walker again hit the line but made only 1 yard on this attempt. Hodges was nailed before he could cross the line of scrimmage. Ransome Walker punted 22 yards to the Wildcats on their own 43 yard line. Cheeves hit center for 6 yards. Cheeves went over center for 3 more. Stephens rammed the center of the line for 4 more and a first down. Stephens failed to gain around the end after a bad get-away. He tried it again and made 3 yards. The A. C. C. interference is functioning in a wonderful way. Vinzant recovers a Wildcat fumble. Ransome Walker bucks it over center for 4 yards. A pass Brothers to Walker is incomplete. Another pass is incomplete. Walker punts 50 yards to the Cats who returned the ball to their 15 yard line. Rowland makes 2 over right tackle.

Ewing punts 65 yards out of bounds. Hodges made a yard through the line. Hodges rammed center for 9 more and a first down. He made 1 yard over center again. It is Tech's ball on her own 33 yard line. Brothers is nailed—no gain. Walker makes 1 yard through right tackle. Percy Walker punts 44 yards to the Cats. Walker forces Stephens out of bounds after a 10 yard gain. Rowland hits the line for 3 yards. He made three more through right tackle. Cheeves hit the other tackle for 1 yard. A pass is completed but Sanders is penalized 15 yards for tripping. A. C. C. chose to take the gain. The ball went over. Second Quarter Percy Walker hit right tackle for

1 yard. Hodges add 4 more at center. A pass Percy to Alexander nets 4 yards. Percy punts 52 yards to the Christian's 10 yard line. Ewing promptly punted back 45 to the Matadors. Alexander failed to gain at center. A pass is incomplete. Stephens intercepts a pass on his own 43 yard line. Cheeves makes 1 yard at the line. Stephens add 7 at right tackle. It is the Christian's ball on the 50 yard line. Rowland fails to gain. Ewing punts 11 yards to Tech's 39 yard line.

Alexander lost 1 yard. Percy lost 3 more. The Wildcat forward wall is breaking through on every play. A pass Percy Walker to Hodges nets 23 yards. Ewing intercepts a Tech pass, and is downed in his tracks. Cheeves makes a yard through the line. Tech is penalized 5 yards for offside. Stephens makes it first down when he circles right end for 5 yards. Cheeves fails to gain. A. C. C. fumbles and Carpenter recovers for Tech. It is Tech's ball on the Wildcat 39 yard line. Walker fails to gain. Walker loses 4 yards, when a Cat breaks through the line to down him before he can move out of his tracks. Percy Walker passes to Vinzant for 6 yards. Percy Walker punts over the Christian goal line.

It is A. C. C.'s ball on her own 20 yard line. Stephens brushes right tackle for 3 yards. Rowland breaks through the line for 16 yards. He almost got away for a touchdown. Carpenter nails Stephens for a yard loss. It is the Christians ball on their own 40 yard line. Rowland went over right tackle 1 yard. Ewing punts 3 yards to Walker, who returns 16 to his 37 yard line.

Percy Walker makes 2 yards at right tackle. He circled right end on the next play for 5 more. He failed to gain at the same place. With 3 to go and fourth down, Hodges bucks it over for first down. It is Tech's ball on her own 47 yard line. A pass Percy Walker to Marr is incomplete. Another goes the same way. Walker punts 42 yards to the Christian 23 yard line. Corley threw Stephens for a 3 yard loss. Corley recovers a fumble on A. C. C.'s 23 yard line. The half has only a few seconds to go and Tech is trying desperately to complete a pass. Four passes fail and

the gun sounds to end the half. Third Quarter. Hendricks kicks off to Marion on his own 20 yard line. He returns 17 yards to his own 37 yard line. Levi Walker makes 7 yards at center. On the next play he made 3 more at center and a first down. It is Tech's ball on her 47 yard line. Percy Walker breaks away for another first down when he is nailed on the Christian's 40 yard line. He covered on this play 13 yards. Marr fails to gain at center. A. C. C. recovers a fumble. Stephens dived over right tackle for 6 yards. Rowland made 3 more over the same place. Rowland busted center for the yard and the coveted first down. Cheeves breaks loose for 25 yards and reaches the Tech 23 yard line before Percy Walker steps in to down him. Stephens makes 2 at center. He tried the end but failed to gain. Cheeves passed 15 yards to Hendrick. Stephens gained 2 yards around left end to place the ball on Tech's 4 yard line. Rowland fails to gain. Stephens gets 2 at right tackle to place the ball on the Matador 2 yard line. Stephens fails to complete a fish goal. It is Tech's ball on her 20 yard line. Percy punts 60 yards to Cheeves, who returns 25 to A. C. C.'s 45 yard line. Rowland tears away at left tackle for 5 yards. A pass is incomplete. Stephens rips the line for 3 more, to place the ball in midfield. A. C. C. punts 30 yards to Walker, who returns the ball to his own 35 yard line. before he is forced out of bounds. Hodges loses two yards.

the gun sounds to end the half. Third Quarter. Hendricks kicks off to Marion on his own 20 yard line. He returns 17 yards to his own 37 yard line. Levi Walker makes 7 yards at center. On the next play he made 3 more at center and a first down. It is Tech's ball on her 47 yard line. Percy Walker breaks away for another first down when he is nailed on the Christian's 40 yard line. He covered on this play 13 yards. Marr fails to gain at center. A. C. C. recovers a fumble. Stephens dived over right tackle for 6 yards. Rowland made 3 more over the same place. Rowland busted center for the yard and the coveted first down. Cheeves breaks loose for 25 yards and reaches the Tech 23 yard line before Percy Walker steps in to down him. Stephens makes 2 at center. He tried the end but failed to gain. Cheeves passed 15 yards to Hendrick. Stephens gained 2 yards around left end to place the ball on Tech's 4 yard line. Rowland fails to gain. Stephens gets 2 at right tackle to place the ball on the Matador 2 yard line. Stephens fails to complete a fish goal. It is Tech's ball on her 20 yard line. Percy punts 60 yards to Cheeves, who returns 25 to A. C. C.'s 45 yard line. Rowland tears away at left tackle for 5 yards. A pass is incomplete. Stephens rips the line for 3 more, to place the ball in midfield. A. C. C. punts 30 yards to Walker, who returns the ball to his own 35 yard line. before he is forced out of bounds. Hodges loses two yards.

Percy Walker punts 40 yards to Stephens, who returns the ball to the Wildcat 25 yard line. Cheeves tries center and makes one yard. Cheeves punts 29 yards out of bounds on the Tech 47 yard line. Percy is nailed for a yard loss. Rowland intercepts a pass and returns 15 yards to Tech's 33 yard line. A pass is incomplete over the goal line. It is Tech's ball on her own 20 yard line. Percy Walker punts 72 yards out of bounds on A. C. C.'s 8 yard line. A. C. C. punts out of bounds on her own 39 yard line. The punt carried 31 yards. Livingston throws Walker for a 2 yard loss in a hard tackle. Percy ripped 3 yards through left tackle without any interference. A

Senior Student Marries Friday

In a simple service at the home of the bride's parents, a nuptial ceremony was read at 10 o'clock last Friday morning for Miss Novelle Hemphill and Lovie L. Thompson with Dr. W. R. White, pastor of the First Baptist church officiating. The bride was attired in a three-piece tailored ensemble in light brown and was attended by Mrs. Henry Mobley, who was also gowned in brown.

Solo Is Given

Preceding the entrance of the nuptial party Miss Virginia Johnson, Tech student, sang, "If God Left Only You," accompanied at the piano by Mrs. Marlin R. Smith, who also played the wedding march. The groom was attended by his brother, H. S. Thompson.

Following a short honeymoon Mr. and Mrs. Thompson will be at home at 2409 10th street. Mrs. Thompson, who is a Senior in Tech, is president of Sans Souci club, a social organization, and has been prominent in campus activities. Before attending Tech she was a student at Baylor Belton.

Mr. Thompson is a graduate of S. M. U. at Dallas, and is a member of Sigma Phi fraternity. He is district manager of the Texas Employers Insurance Association.

Debate Subjects

(Continued From Page One)

dates have not been set. This will be attended to later.

Six of Old Squad Back
Six old members are out for debate this year. They are: Alvin R. Allison, Clarence Whiteside, Hal Lary, Wilburn Edleman, William R. Sewell, and J. W. Jackson. Several upper-classmen have come out for debate this year for the first time; they are Sidney Knowles, Chester Smith, R. L. Burdette, L. W. Hayhurst, and Howard Baker. The members of the girl's debate squad are: Lucille Lilledahl, Dillie Mae Chance, Doris L. Johnson, Eloise Cook, Lizette Belle Clements, Doris Rollins, Gladys Leary, Lois Harkey, Lois Gable, and Mary Lilledahl. Freshmen who have made the squad

include the following: Alvis Ellis, Willard M. Nott, Lankford Shaw, J. V. Shook, Maurice Van Noy, Jerry Westmoreland, Royal Furgerson, E. B. Fincher, Wayne Castleberry, Robert A. Taylor, Donald Weileman, Ewell Lawrence and Ross Ayers. There is an active debating society on the campus; Sidney Knowles is president of this society. It fosters interest and ability in debate. It meets every second and fourth Tuesday each month.

AG Club Discusses Judging Team Trip

"We don't know definitely whether we will be able to send this team to Chicago or not," were the words used by Professor W. L. Stangel at an Aggie Club meeting last Wednesday. In answer to these remarks the president said, "If the college can't send the team we will," and from the roar that followed it appeared that he had plenty of backing. All of these statements were made in reference to the livestock judging team going to the Royal Livestock Show at Kansas City and to the International at Chicago, which is the greatest livestock show in the world; twenty-six collegiate teams competing.

Plans were made for the annual "pig roast," a precedent set by students of former years to give the team a send-off. Ag students seem confident that if this team has the opportunity to make the Chicago trip, "Texas Tech will have another star in her crown."

Reports from committees were called for, followed by a talk from C. E. Russell, associate professor of Horticulture, on "Where I Was Last Year." Mr. Russell was formerly an instructor at McDonald College of Montreal, Canada.

Club Will Roast Weiners Tonight

The President of the Central Texas Club announces that a weiner roast will be held by that organization at the Lubbock Country Club Wednesday evening Nov. 14. Members and visitors will leave from the Administration building at 5:30.

At the last club meeting the constitution and by-laws of the society were read and a social committee, consisting of Frank Maddox, W. I. Nettles, Evelyn Clark and Miss D. Davidson was appointed.

Girls Will Hike To Park For Meeting

Members of the Home Economics club will hike to the County Park on Friday of this week where they will have a weiner roast. This meeting at the park will take the place of the regular meeting at the college. At this time new members will be initiated into the club. A bulletin will be placed on the bulletin board, where all planning to attend this picnic may sign their names.

Dues for the club may be paid to Marion Sanson, treasurer, or to Avena Hufstetler, chairman of the membership committee, at a table placed in the hall for the purpose, this week.

All the girls in the college who are interested in this work are invited to become members; however, dues must be paid this week.

If it happens in connection with Tech it should be in the Toreador. Report it.

Catering Class Serves Hostesses

A Home Economics class in Catering is doing quite a bit of cooking for Tech and for Lubbock hostesses. A hostess calls the class and tells the members just what she desires to serve. The class then prepares the food in the laboratory, takes it to the home of the hostess, and serves it.

Recently the class has served dinners to the Y. W. C. A. Cabinet members, and to the Board of Regents of the college.

MATH CLUB MEETS

The Math Club met last Thursday evening at 7:30 in room 206 of the Administration building. Talks were made by Bryan, Vardy and Rosen. The club now meets on the first Thursday in each month.

C. A. Goodspeed of the Van Nostrand Publishing company visited Mr. Svensen's office in the engineering drawing department last week.

STUDENTS

You Will Welcome Our "Change of Policy!"

When you see in this store under our new Cash policy, that you can buy your clothing needs cheaper than at any other place you will be more than glad to bring your cash here to get them with. When your allowance check comes in, bring it to us and see how much more it will buy under this new plan.

AND THE GIRLS TOO!

We have not left you out in this store wide resolution of prices. All our up to the minute stock of new styles in Dresses, Coats and lingerie are at your disposal at a complete new arrangement of prices, and it's all because—

"We Sell For Cash" Make this store your headquarters and save.
