

# Legislators Promise Support For Tech Requests

## Vocation Or Home Making?

HOME ECONOMICS NOW IS BROAD EDUCATION

By MISS MARGARET W WEEKS  
Dean of the School of Home Economics.

Education in home economics prepares a young woman for a definite profession and at the same time offers her a broad general education based on collegiate standards.

The most natural thing in the world for a girl to be is a home maker—yet most girls wish to test their powers and prove to themselves that they are capable of earning their own living before they take over the more responsible position of home making. Fortunately it is that so many vocational opportunities grow out of home-making activities so that a course which prepares a girl for home making may at the same time prepare her for a specific vocation in which she may engage during the time she leaves college and the time when she takes over the management of a home.

Formerly a home economics course meant little else than learning to cook and to sew. Now, however, it means much more. It means learning to administer a home wisely and happily and to occupy a fitting place in community life. It means learning and applying the laws of health to one's daily life. It means learning to spend money and time wisely. It means learning how to find and enjoy beauty in one's daily surroundings and to maintain social relationships with other people.

One hundred and eighty-five term hours are required for graduation from any major of the school of home economics of these a student must earn 75 term hours. The subjects of such fundamental subjects as English, history, psychology, chemistry, biology, sociology or economics and mathematics. She must earn 69 term hours in the various departments of home economics and 16 term hours in elective subjects selected from any department of the college. If a student wishes to prepare herself for a teacher of home economics the elective credits must be taken in education.

Offer Vocational Training  
Each of the four departments of the school of home economics, applied art, clothing and textiles, foods and nutrition

## Pre-Law Banquet Will Come Friday

Thursday Noon Is Last Date to Purchase Tickets for Annual Affair, at our Cafeteria.

Everything is set, including the table of the banquet room, for the third annual Pre-Law banquet, according to J. W. Jackson, Holmes Webb and Ed Knowles, who compose the committee in charge.

District Judge Clark M. Mullican, George W. Dupree, District Attorney Bradley, County Attorney Vaughn E. Wilson, and Truett B. Smith will be honor guests at the banquet to be held at our Cafeteria on the evening of Friday, April 12, at 8 p. m.

Building lawyers are now either dated or making attempts to be dated with Tech's fairest for this, the elite event of the third year. Although the number of co-eds is far from limited, the time for purchasing of tickets is, Thursday at noon is the last minute in which to make reservations for a plate.

Tickets may be purchased from any of the following: J. W. Jackson, Holmes Webb, Solon Clements, Clarence Whitesides, James Abernathy and Donald Boggs.

## Tech Scores High At Dairy Exhibit

Freshman and senior students in animal husbandry were taken on a field trip last week to the Panhandle-Plains dairy show, at Plainview. Tech scored high in dairy exhibits.

The Lubbock Chamber of Commerce cooperated with the college in providing transportation to Plainview for the students.

Tech took first place in butter, third place in cheese, and fifth place in milk in the judging contests. A dairy short course is planned for next year in connection with the show.

## Senior Class to be Guests at Home Economics Reception Thursday

Will Mark First Social Fete Since Class Recognition

Receiving Line to Include Faculty Members and Seniors in School of Home Economics.

Members of the 1929 Senior class will be honor guests at a reception to be given by seniors in the School of Home Economics at the Tech. The reception will take place tomorrow evening from 8 until 10 o'clock and the scene will be the practice house.

The college orchestra, seated on the patio, will furnish music for the occasion.

HOME ECONOMICS SENIORS  
Lila Allred, Floy Anglin, Blanche Brown, Ira Burleson, Anna Belle Collins, Bonnie Lee Cook, Frances Ferguson Davenport, Willie Hawkins, Aurea Huffstader, Mary Hazel Horn, Oueda Middleton, Pauline Roach, Marian Sansom.

The receiving line will be made up of seniors and faculty members in the home economics school.

Members of the house party will be Dean Margaret W. Weeks, Misses Gable, Lucile Moss, Leta Alvie Cross and Flora Goforth. Mrs. Mary Deak will preside at the picnic bowl.

The reception will be the first official function of the senior class following its formal recognition at Monday's convocation.

## Band Concert Is Given Last Night

A crowd of several hundred people, including many from the city of Lubbock, last night heard a varied selection of music from the Tech band, which is directed by Harry Le Maire.

Featuring the concert, an annual event, was appearance of the Tech Saxophone band, which includes the following members:

Hazel Grover, baritone sax; Jimmie Thornhill, bass; Lois Margum, Alyne Odell, Louise Teague, Flora Goforth, tenor; Mary Francis Gale, C melody; Dolores Lynn, Robert Spivey, E. J. Pearson, Molly Green, Opal McClellan, Mrs. Harry LeMaire, alto; Alline Houston, soprano.

## Girls' Glee Club To Present Ballet

Part of the commencement program this year will be ballet music by Faust, rendered by the Girls' Glee Club. The name of the song is "May the Maiden" and it is to be sung and danced by the girls. They will be dressed in beautiful Green costumes.

TWO PRIZES OFFERED  
COLORADO SPRINGS, Colo., April 10—As a result of an unusual amount of collegiate interest in the Alexander Eaglerock awards for 1929, both an Eaglerock airplane and an aeronautical scholarship will be awarded this year to college students, according to an announcement by J. Don Alexander, head of the Alexander Aircraft company here.

## Outdoing Cupid At His Own Game

Archery, a sport made famous by Robin Hood and Daniel Cupid (as some Tech co-eds will hasten to add) is being practiced by a class of 34 girls under direction of Miss Zella Riegel.

It is rumored that the girls are out to emulate Mr. Cupid and one of them even declared:

"I'll bet even Cupid never hit the mark as much as three times out of a possible 24, as I have been just finished doing."

The archery class is open to any Tech girl who wishes to sign up for it, although it is intended primarily for those physically unable to undergo the straight physical training course. A field has been fitted up in front of the gymnasium.

GOING TO RUIDOSA  
Dean Leidigh, Prof. Mahoney and Prof. Russell are leaving south for Ruidosa, N. M., which is a national forestry reserve.

## Elizabethan Theme to Predominate At Tech's Annual Pageant on May 17

Nine Hundred Will Participate In Colorful Fete

Motif for Texas Tech's annual pageant, to be presented this year on May 17, will be Elizabethan and this event, always colorful, will have the added attraction this year of a number of Old English ballads and dances.

At least 600 students, and 300 townspeople will take part in the pageant. The event will be given on the green before the cloisters of the Tech. All women members of the faculty are cooperating with Miss Ruth Pirtle, pageant master, in its staging.

Dances and ballads are being arranged by Miss Zella Riegel and fencers are being trained by Dr. Patton.

Women of the faculty are also taking measurements for costumes. All the costumes this year are being rented from Robert Schmidt, The Costumer, 206 South 4th street, St. Louis, Mo., for \$2.00 each. This means a costume complete with hat, and shoes of the Elizabethan period. The costumes will range from those of Queen Elizabeth and her procession of attendants, courtiers, famous people of her day to beggars, shepherds, haymakers, venders, milkmaids, sword dancers, Robin Hood and his men and various other traditional groups of the festival days.

The pageant is the one annual affair in which all the students take part. There will be only two rehearsals for each group except the specialties which are already being worked up.

It is urged that each student who is going to take part in the pageant watch the bulletin board in the east rooms of the administration building for notices of rehearsals and anything else pertaining to the event.

Besides the student body, the board of regents of Tech and all faculty members and about 200 Lubbock townspeople will take part in the pageant as patrons of the pageant. Their names will be announced as they enter.

ALL "A" GRADES  
Donald R. Boggs, Lubbock, Mrs. J. T. Howell, Lubbock, Hal B. Lary, Clovis, N. M., Robert Spivey, Jacksboro

AVERAGE  
Arvord Abernathy, Canadian, Frank Beauchamp, Turkey, Laurens Bussey, Lubbock, Canon Clements, Lubbock.

## Parade to Herald Aggie Fair May 3

Floater Will Feature Procession Through Downtown District; to Give Exhibition Polo Game.

Heralded by a parade through the downtown district, in which elaborately-decorated floats will carry out a theme depicting the evolution of agriculture, a fair is to be staged on Friday, May 3, by the Tech school of agriculture.

The parade will be given in the afternoon and floats will be representative of all departments in the college.

The fair, proper, will take place in the stock judging pavilion and will be featured by exhibits from all departments in the Tech. The exhibits will be arranged in unique and interesting ways, it is promised by those having charge of the fair.

Vaudiville To Feature  
Entertainment during both afternoon and night at the fair. Miss Ruth Pirtle will direct the vaudiville stunts, and the acts will be presented in the auditorium of the chemistry building.

Booths, open to any Tech organization wishing them, will be placed around the stock judging pavilion and the entire fair will be set in a carnival atmosphere.

In the afternoon, at the athletic field an exhibition polo game will feature.

Support for the Tech stock judging team on its jaunt next year to the International Livestock show at Chicago is the purpose of the fair. This year, Tech stock judges placed eighth at the Chicago event.

## Matador Band Is Planning Picnic

Social committee of the Matador band, composed of Maurice Van Noy, Mary Frances Gale and Hazel Gruver have planned a big picnic to be held at "Tumble N" park Tuesday evening, April 16. The picnic is to be the first of a series of good times to be held by the band, reports say.

Each member of the band is privileged to invite a guest.

## All-College Frolic Planned

Annual Event, More Elaborate Than Heretofore, is to be given in Gymnasium Latter Part of April

An All-College frolic, more varied and elaborate than any staged at Tech heretofore will be given during the latter part of this month at the College gymnasium.

The Women's Forum is to have charge of the event and although details have not yet been completed, those in charge promise a variety of entertainments that will have something of interest for everyone.

Stunts are being prepared by campus organizations for presentation at the frolic.

Townpeople are invited to this event and every student is urged to take part.

## Winter's Winds Make No Change In Number of Tech Honor Students; 323 Rate High Classification for Term

Scholarship Is Constant at College for Past Two Terms; Basis for Selection is Altered.

Scholarship, as revealed by the honor roll for the last two terms seems to remain constant at between 320 and 325. For the fall term 321 students made the roll, whereas 323 came in for the honors at the ends of the winter term.

The basis for classification has been changed slightly, being figured upon the number of hours carried rather than upon the number of courses taken. This change makes little difference with reference to who makes the honor roll, but does have some importance in classifying students.

Honor roll, Winter Term, 1929, students carrying 18 term hours or over:

ALL "A" GRADES  
Donald R. Boggs, Lubbock, Mrs. J. T. Howell, Lubbock, Hal B. Lary, Clovis, N. M., Robert Spivey, Jacksboro

AVERAGE  
Arvord Abernathy, Canadian, Frank Beauchamp, Turkey, Laurens Bussey, Lubbock, Canon Clements, Lubbock.

## 2000 Expected at District Tournney

Tech to Provide Lodging and Entertainment for Visitors from Over 18 South Plains Counties.

From 2000 to 2500 more people will learn of the magnitude of Texas Tech on April 19 and 20, when the district meet of the Interscholastic League is held at the college. Visitors, who will compete in the various events on the meet calendar, are expected from 18 counties.

Twenty-five events will be held, including declamation, debate, extemporaneous speaking, essay writing, tennis, rural pentathlon, and in track and field contests.

The meet starts at 10 o'clock Friday morning. Finals in literary events are scheduled for Friday afternoon and Friday night. The meet closes with the finals in athletics on Saturday afternoon.

Entertainment Planned.  
Arrangements have been made to provide contestants with free lodging and entertainment during their stay in Lubbock. A free movie will be shown.

## Why Study Home Economics? Lucrative Field Is Offered

"Are you majoring in home economics? Oh, I'd never want to teach foods or clothing!" These are remarks that are heard among students almost daily. The fact that teaching is only one of the many positions open to a person trained in home economics isn't realized by many even among those in the school of home economics.

"Oh, yes," I hear you say, "they can be homemakers; the future wives and mothers of Texas!" This is true! But to be an efficient and effective wife and mother in a typical American home requires as much specialized training, skill and talent to fit one for an occupation or profession you may mention—yes, more.

Big Field In Dietetics.  
Home economics trained women are fitted to enter many different fields of work and each year more fields of work are opening for them. There is the big field of institutional work, cafeteria managers in school or college cafeterias, dormitories or club houses or in cafeterias established by business concerns

## Many Socialities Face Tech's First Four Year Class

Receptions, Theater Party, Dance and Other Events On Calendar; Senior Day Is May 10.

Texas Tech's 168 seniors are facing a crowded social schedule during the weeks which ensue before Commencement week. Receptions, theater parties and other social events are planned.

Following convocation on Monday morning at which time the first four year class of Texas Tech was formally recognized, the senior class program is to be as follows:

Thursday evening, April 11, the senior class of the School of Home Economics will be hostesses to the remainder of the 1929 class at a reception in the Home Economics practice house from 8 until 10.

Thursday, May 10, has been set aside as Senior Day and a holiday for those concerned. The morning program will include a special convocation after which a class tradition will be established. In the afternoon the class will be guests of the Lindsey Theatre at a matinee party.

In the evening a formal reception for faculty members and friends will be held at the Hotel Lubbock, followed by a dance.

Saturday evening, May 25, the 1929 class will turn their reins over to the junior class, after which will be their presentation of a gift to the college.

Sunday morning, May 2, will be the recollaborate sermon at the gymnasium.

Monday morning, May 27, will be the presentation of scholarships and the graduation exercises.

## Dallas-Amarillo Clubs Plan Party

Members of both the Dallas and Amarillo clubs, on account of the great success which is said to have crowned their good-will party of a few weeks ago, will hold another joint party tomorrow night at the home of Madeline Ingerton at 2904 Twenty-first street, beginning at 7:30 o'clock. It has been announced that there will be both dancing and bridge at this party, as well as games and refreshments.

Miss Flora McGee, sponsor of both organizations, has stated that she will be unable to be present, so Captain Ingerton will act as chaperon. According to officers of the clubs, a small charge to defray expenses of a refreshment party will be made, and each member is invited to bring a guest if he cares to.

## Publications Vote Will Be Taken Soon

Jack Maddox has issued the statement that two weeks from next Thursday, April 25, officials for the college publications will be elected. Candidates are requested to file their names, accompanied by fifty endorser before the Student Council ten days beforehand. Ballot boxes will be placed in the administration and engineering buildings on that day.

On 15th Tuesday in May the vice-president, and secretary-treasurer, of the student body, together with a representative to the student council, will be elected at convocation.

## Boys' Glee Club To Give Programs

The Boys' Glee club is giving a number of programs in nearby towns. They will appear in Ralls on April 12, and then again April 24 at Tahoka for the West Texas Chamber of Commerce convention.

## Prima Donna To Be Here April 19

Cyrena Van Gordon, prima donna mezzo-contralto, of the Chicago Civic Opera Company is to appear here on April 19. She is one of the best singers in America today. One unusual thing about her is that she received her chief musical training in this country.

## Los Gauchos To Meet

Los Gauchos meet at 7:30 tomorrow in room 214 Ad building. Initiation of pledges will be held.

## School Loan Fund Handiwork Sold To Furnish Money

Handiwork of students in the home economics school eventually is finding its way into a fund which makes it possible for other girls to obtain the benefits of a college education.

Products of the Tech food, clothing and designs department, Christmas each year are sold at a Christmas sale, and proceeds are placed in a Home Economics Club Loan Fund.

The fund was started the first year of the college and some \$50 or \$75 was added the first year. At present the fund aggregates about \$300. Seven loans are now outstanding. Money is loaned upon recommendation of the Home Economics club council and with the approval of Dean Margaret Weeks. Four per cent interest is charged.

## Service Rendered Lubbock Women From H. E. School

Short Course, Style Show And Cooking Demonstrations Given Past Year Here.

The School of Home Economics, during the past year, has sought to amplify its service to the women of Lubbock and in this connection held a short course during the winter term, at which 37 women from Lubbock and Lubbock county attended.

Prior to the short course, questionnaires were mailed to women of the town, asking them to list topics they wished discussed at the course. Success of the first such course has brought the statement that it will be made an annual function on the college calendar.

The school comes in close contact with the various home demonstration clubs of the county, since it works in close alignment with the home demonstration agent of Lubbock county.

Demonstrations of various kinds are given during the year. One of the most popular of these is the style show, which is sponsored by the clothing department. At this show, women of Lubbock not only get an insight into work being accomplished by the department but hear instructive lectures on appropriate dress, as well.

Demonstrations, to which the public is invited, are given frequently by the foods department.

## Terracing Display Is Given at Tech

A demonstration of terracing, a process of great value in land and water conservation, was given near the Tech poultry farm yesterday under auspices of B. M. Whiteaker, representing the West Texas Chamber of Commerce.

## Diploma Fee Levied By Board Directors

To the members of the graduating class:  
At a meeting last year the board of directors ordered the college to collect a graduating diploma fee of \$4.50. This fee should be paid to the business office before May 10, so that your diploma may be lettered in time for the graduating exercises. Kindly give this matter your attention.

Yours very truly,  
E. W. PROVENCE,  
Business Manager, Texas Technological College.

## UNDERGOES OPERATION

Carey Lodel recently underwent an operation.

## MARRS VISITS PRACTICE HOUSE

On Tuesday night, March 19, State Superintendent S. M. N. Marrs, President and Mrs. Horn, and Miss Margaret Weeks were guests to dinner at the practice house.

## EASTER EGG HUNT

Girls at the practice house were hostesses on Sunday, March 31, at an Easter Egg hunt followed by a breakfast served to four guests.

## Senate Members Have High Praise For College Here

Score or More From Both Houses of Legislature Spend Day as Guests of Tech and City.

All apparently is to be rosy for Texas Tech when the senate finance committee two weeks hence, makes its report to the special session of the legislature. For, after a day in which Tech and Lubbock exerted every means to show a true welcome, the score or more legislators composing the group visiting the city left chanting the praises of the college and of Lubbock.

Students, individually, and collectively entertained the legislators while they were here and the city gave a banquet at the evening hour, for which more than 300 Lubbock business men and citizens bought tickets.

Although no official statement was forthcoming from any of the legislators, individuals expressed unqualified support for the college in whatever it may undertake.

The banquet climaxed the all day and night visit of members of the Senate finance and Texas-Oklahoma boundary committees, which included detailed inspection of the Texas Technological college and the state agricultural experiment station. Included in the visiting party were several senators not members of the two committees, several representatives, a member of the State Board of Control, the wives of three of the visiting senators and two reporters.

Finance Committee Busy  
Headed by Hon. Thomas G. Pollard, Tyler, the Senate finance committee made here its first of a series of inspection tours which before disbanding will take its members to every state educational and emergency institution. Members of the committee include Eugene Miller, Weatherford; Carl Hardin, Stephenville; Edgar Thomas, Nacogdoches; Nat Patton, Crockett; John Hornsby, Austin; Ed Westbrock, Sherman; and Cline Small, Wellington.

Recorded by Dr. Paul W. Horn, president; John W. Carpenter, Dallas; R. A. Underwood, Plainview; Clifford B. Jones, Spur; and Henry T. Kimbro, Lubbock, members of the board of regents, the committees spent most of the day in inspecting the Tech properties. The visitors were united in their approval.

## Home Economics Club Plans Picnic

Annual Event to Be Held Later in Spring; Club Federation on Campus Suggested at Meeting.

Plans for the annual picnic of the Home Economics club, which is an outstanding social event on the college calendar each spring, were formulated at the regular session of the club held last Friday night at the Practice House.

The picnic will be in honor of club members who are seniors.

A picnic committee consisting of Janie Ruth Shepard, who will have charge of entertainment; Mozelle Gable, who will have charge of refreshments, and Evelyn Hardin, supervising conveyances, was appointed by Vice-President Nora Cooke, who presided over the meeting.

Messrs. James Jackson, Claude Hope, and Senter, representatives of the Aggie club, announced the Aggie picnic.

Subscription covered by Student Activity Fee. By subscription \$1.50 per school year.

### FEDERATION AND COOPERATION

A federation of the numerous social clubs and organizations on the campus has been promulgated.

From a strictly non-partisan view point, federation—which generally means cooperation—should be beneficial. It would provide a means by which any movement campus-wide in scope might secure general endorsement and the assurance that all college organizations would unite for its success.

A federation which did not serve as a vehicle for cooperation but which would merely create another campus "organization" would fill little purpose.

In the sense that federation means cooperation, the Toreador—or at least this issue of it—pledges support.

### IT SOUNDED GOOD, ANYWAY

The score or more members of the Texas Legislature—those boys that wield the power when it comes to money for Texas Tech—who were here this week stated, almost without exception, that they were behind the college in anything it undertook.

Since a building program is right now about the most important thing being undertaken by the college their statements may be interpreted so as to mean an endorsement of the college plans of expansion.

No official word was forthcoming from any of those making the visit here. In fact, any official comment would have been improper. But, individually, almost without exception, Tech possesses staunch friends in the present senate finance committee.

### MISS WEEKS

The School of Home Economics has made a remarkable record during the years of its establishment.

A wise man has said that any great institution is but the shadow of the man or woman who directs it—those or not the exact words, but that at least is the thought desired to be conveyed.

Dean Margaret W. Weeks deserves all credit for the record of the Home Economics School. It is not often that the students in the departments have opportunity of expressing their appreciation for the loyal and untiring and unselfish service of their dean.

They take this means of showing their gratitude.

## Thelma Caraway Is Junior Queen

Coronation Made In Brilliant Setting Last Friday Night at Gym. Large Crowd Attend Fete

In a brilliant and resplendent setting Miss Thelma Caraway of Spur was crowned junior prom queen last Saturday night at the annual promenade held in the college gymnasium.

Identity of the queen, who was selected by a vote of the class, had been kept secret until the time for coronation. Dennis Vinzant was the escort.

Court members and their escorts were Miss Mary Lou Bayless and A. V. Weaver, Jr., Mrs. J. W. Robert and Dick Busby, Miss Jean Mitchell and Hogue Williams, Miss Edna Christman and Carl Pluger, Miss Anabel Pool and Roy Taylor, Miss Lucille Moxley and Clarence Wiggington, Little Nancy Siles was crown bearer.

Lucille Walker gave a feature dance after the queen had been crowned.

Daily programs were given to the guests for dances which preceded the coronation and later in the evening there was tag dancing. College furnished music for this affair.

Pastel colors were used in elaborate decorations in the gym. Members of the senior class at Tech were honor guests at this dance.

Clarice Holt knows all about being a mummy and she tells us it isn't a very pleasant experience.

### Getting Our Names In the Paper

A joke is one that can be pulled on someone other than ourselves, so Juanita Meredith thinks.

With Miss McFarlan's daily inspection glasses were found to be "not quite clean," when Miss McFarlan held them up for Juanita to inspect.

Juanita thinking they were some of her neighbors, readily replied, "No. They're not clear."

Whereupon Miss McFarlan informed her, that they were her own. "You should have seen that look on Juanita's face!"

Dean Weeks and Nora Cooke have new pets these days. White Rats; and really they are not afraid of them.

"Keep thou thy dreams. The tissue of all things. I wove first of them. Of dreams are made All precious and imperishable things Whose loveliness lives on and shall not fade."

—Selected.

## Class Room Lore Put Into Practice

Girls Learn by Doing at Home Economics House; Housework Assignments Rotated Weekly.

The Practice house is operated by the school of home economics for three main purposes: first, to serve as a home where the students may apply in practice knowledge gained in the classroom; second, to serve as a practical laboratory for classes in home furnishings, home management, and home nursing; and third, to be used as a center for social activities of the school of home economics girls majoring in teacher training in home economics are required to live in the house for one term, for which work six hours credit is given. It is desired that other H E majors do this work, and many do, however, it is not compulsory.

Each term four or five girls and one instructor live in the house. This term the "family" consists of Miss Maxine Tynford, instructor in food; Willie Hawkins, Lottie May Heath, Christine Shaw and Hattie Mounts. The work of running the household is divided into four divisions: housekeeper, waitress, cook and general helper. These assignments rotate weekly, making possible each girl's serving in the same position twice each term.

The house is open to guests each afternoon from 4 to 6, except Saturday and Sunday. Special friends of the family may call at any time.

## 13,000 Pamphlets Wealth Of Data In Library Volumes

Since the Library has taken over the old chemistry laboratory, the staff has for the first time found room in which to unpack a generous gift of some 13,000 pamphlets received about three years ago from the government. They consist largely of federal and state experiment station bulletins which will be of much value as soon as more shelves can be added to the Library equipment so the papers

can be made available. In addition to the need for more shelves there is a need for some equipment for the cataloging and general work room which is located where the old chemistry stock room was. The study space for faculty members and graduate students will be fitted up as soon as some chairs and tables can be secured. Jim Cloud was here from Spur last week-end. Floy's face was all smiles. LOST—During last ten days standard size I. P. note book, embossed black with Tech seal, worn on edges, containing ledger accounts and miscellaneous class notes. Reward for return to Toreador office.

## Things To Remember

Whenever a gas bill is abnormally large there is always a complete explanation for it, when all the facts and circumstances connected with the case are known.

For instance, when you find a sudden or unusual increase in your bill, ask yourself:

- Does the bill cover the same number of days as the previous bills with which the current bill is compared?
- Has the weather been to blame?
- Have I had company during the period?
- Has there been sickness in the house?
- Have the servants or others used more gas than I am aware of?
- Have any additional gas appliances been installed during the period?
- Have I been wasting gas because my appliances need adjusted?

If you recall no reason, come to the gas office and we will do our utmost to help you locate the cause. If we find a mistake has been made, we will cheerfully correct the error.

## West Texas Gas Company

*"Not too modern, please!"*

Imagine the governor all set for a solid evening of comfort in his cozy old library—and finding that the women folks had "modernized" it with triangular sofas, conical armchairs, and July 4th rugs! Now, imagine you bought some cigarettes, and discovered that they were supposed to do almost everything in the world except what you bought them for, i. e., satisfy your taste for tobacco. Maybe it's the modern idea, but—oh, well, let's talk about something else! Chesterfields, now. They satisfy. Their only "specialty" is high tobacco quality. Friendly as your most comfortable armchair, as full of flavor as your favorite book. A splendidly made and blended cigarette. And—maybe we are old-fashioned—recommended to you for that very reason.

## Tech Track Team Downs Canyon

### Prospects Good For Victorious Squad This Year

Victory Over Buffaloes is Decisive; Team Meet Daniel Baker Billie This Week-end.

Prospects for a winning track team at Texas Tech this year are looking very favorable, following the decisive victory registered by Matador thinly-clad over the Canyon Buffaloes last week-end. Coach Payne's men ran up a total of 92 points while the visitors were counting only 39.

Twelve of the fifteen first places went to wearers of the scarlet uniforms. In addition to these, the Matadors took enough second and third places to outclass their plains rivals as they have never before outclassed.

In three events, the Tech thinly-clad swept through with all three places. These were the 120-yard high hurdles, the javelin throw and the broad jump. The locals carried off the mile relay with little trouble. On the first lap, Lawrence of Tech brought the baton in ahead of Terry and the following three Matadors gradually widened the distance between the two teams. Lawrence, Cole, Corley and Dallas covered the distance in the order named for Tech while Terry, Crowder, Barrett and Carter were the members of the Canyon team. Dallas, the Tech anchor man finished fully 75 yards ahead of the Canyon finalist, Tadlock High Man.

J. H. Tadlock carried individual scoring honors of the day with 14 points. The lanky Matador trackster placed first in both the 120 high and 220 low hurdles. His extra four points came when he tied with Pace for first and second place in the high jump. The performance of Freeland, Dallas and Pace was also far above the ordinary. Freeland former Lubbock high school distance man, walked off with first places in both the mile and two-mile runs, coming in far ahead of the field in both events. A stiff man prevented the Tech star from recording his best time in the long distance races, but his superiority over the other joggers was decided. These two first places put Freeland in a tie with Kieth of Canyon for second high scoring honors.

How it happened: 100-yard dash—Keith, Canyon, first; Bennett, Canyon, second; Dallas, Tech, third, Time 10 flat.

120-yard high hurdles—Tadlock, Tech, first; Payne, Tech, second; Wilkins, Tech, third, Time 15.9.

Mile run—Freeland, Tech, first; Doak, Canyon, second; Head, Canyon, third, Time, 5 minutes, 3 3-5 seconds.

220-yard dash—Keith, Canyon, first; Dallas, Tech, second; Cole, Tech, third, Time, 21.9 seconds.

Shot put—Reed, Tech, first; Westertelt, Tech, second; Miller, Canyon, third, Distance, 38 feet, 9 3-4 inches.

220-yard low hurdles—Tadlock, Tech, first; Bennett, Canyon, second; Cole, Tech, third, Time, 21.9 seconds.

Shot put—Reed, Tech, first; Westertelt, Tech, second; Miller, Canyon, third, Distance, 38 feet, 9 3-4 inches.

220-yard low hurdles—Tadlock, Tech, first; Bennett, Canyon, second; Pace, Tech, third, Time, 24.9 seconds.

Discus throw—Payne, Tech, first; Miller, Canyon, second; Sanders, Canyon, third, Distance, 123 feet, 8 inches.

Two mile run—Freeland, Tech, first; Penick, Canyon, second; Crane, Canyon, third, Time, 13 minutes, 30.5 seconds.

Pole vault—Lowes, Canyon, first; Davis and L. Walker of Tech tied for second and third at 11 feet, 6 inches.

400-yard dash—Corley, Tech, first; Dallas, Tech, second; Barrett, Canyon, third, Time 53.7 seconds.

High jump—Tadlock and Pace of Tech tied for first and second; Hin-

## Learning And Laundering

The process which dissolves the soil of your clothes and enables us to return the clothes to you clean, sanitary, and fabric-perfect is the result of many years of study in a national association which spent many thousands of dollars in determining what is best for the particular locality in which you live.

The machinery we use is developed for a particular task—whether for softening Plains water or pressing the cuff of your shirt or your lawn handkerchief.

We are one of the laundries in Lubbock which are holding open house during April, and Tech people as well as other town people are invited to come and see for yourselves how we serve you.

STUDENTS' IDEAL SERVICE

### Majority of Home Economics Grads Are Now Teaching

One is Dietician; News From Ten Who Were Graduated From School Last June.

Of the 10 girls who were graduated from the home economics school last year, three are in Lubbock. Mrs. E. M. Barnett and Ella Maye Lyle are teaching home economics in Lubbock high school. Miss Lula Belle Rushing is now Mrs. C. E. Moreman and lives in Lubbock.

Estelle Sheppard is teaching home economics in the Wellington high school.

Ella B. Brown teaches in the Hope, N. M., schools.

Merle Williams, queen of the 1928 pageant, is dietitian in Barnes hospital at St. Louis.

Faye Brooks is teaching home ec-

### Even Archery W. A. A. Members Seek Honors

Members of the Women's Athletic Association are now working for points in various ways. Some of the means of gaining points are riding horseback, playing tennis, hiking, archery, volley ball. An attempt is being made to start track work soon.

When 300 points are gained, the member receives a pin; when 500 points are gained the member receives a small letter, and 1000 points entitles one to a large letter.

onomics in Jacksboro.

Nina Robinson, until recently a teacher in the Bledsoe school, is now county demonstrator of Hunt county.

Rena Smith teaches home economics in Levelland.

Mrs. Roy Sides teaches home economics at Morton.

### Legislators

(Continued from Page One)

val of the college's record and its plans and almost to the man promised as much financial support as possible. A convocation, at eleven o'clock, found all faculty members, the entire student body and many townspeople present to feel the legislators.

Chitwood's Memory Praised  
Praise for the services of R. M. Chitwood, former representative from Sweetwater, one of the fathers of the college and who later died here while serving as its first business manager, marked the program which followed the banquet. Former Senator W. H. Bledsoe and Pink L. Parrish, present Senator from this district were also roundly applauded for their work and their ability expended in behalf of this district in the upper house.

The address of welcome was made by former Senator W. H. Bledsoe, who with Representative Chitwood championed the bill providing for Texas Technological college. Mr.

Bledsoe was introduced by Mayor Harley D. Woods of Lubbock, and in his brief but pithy address dwelt principally upon the statewide and nation-wide scope of Texas Tech. Stirring praise for the work of Representative Chitwood, who died about three years ago, while filling the position of business manager at the college, was paid by Mr. Bledsoe.

Telegram Received  
Senator Pink Parrish, toastmaster, read telegrams expressing best wishes and support to the Tech and regrets at inability to attend the banquet, from Representative Carl J. Rountree, Lamesa; Senator Thomas B. Love, Lieut.-Governor Barry Miller and Governor Dan Moody. Mr. Parrish brought out the fact that the bill first appropriating funds for the Tech, the largest appropriations measure ever passed by a Texas legislature, was approved by a unanimous vote in both branches of the law-making body.

Senator Walter C. Woodward of Coleman, reviewed the founding of the Tech and pledged his vote and efforts to any move for West Texas' advancement. He predicted that Tech would eventually become the greatest school of its kind in all the world.

Traveling in a special bus the party were due to leave this morning at 6 o'clock. After an inspection of the Teachers college at Canyon they will visit Amarillo. From there the finance committee will go to Wichita Falls to spend Tuesday night and the boundary committee will go to Wellington before starting its investigation of the disputed territory on the Texas-Oklahoma border line.

## To The School of Home ECONOMICS

HOME economics is little different from economics of the business world. Problems of economy and utility arise equally in both. Economy demands saving of time, material and money.

SAVE—So that when an emergency arises you will be "sitting pretty" with money in the bank. So that you will always have a handy reserve fund.

SAVE—because thrift has a supporting effect upon one's morals—getting one into a productive state of mind.

SAVE—because dollars have a desirable habit of growing and developing other dollars.

SAVE—fore wise spending.

SAVE—at this bank, where you are safeguarded by our reputation for reliability, efficiency and safety.

### Home Economics Exhibits Shown

School brings Various Displays of Artistic Handicraft to Campus During School Year.

In order that the students of the college might be brought in contact with the finer things of life the school of home economics and the Home Economics club have at different times during this school year, sponsored exhibits of various kinds.

During the fall term, the Home Economics club and the Art Department of the school of home economics sponsored an exhibit and sale of brass, Japanese prints and etchings. These exhibits were shown in the tea room.

**Sell Hand-Made Jewelry.**  
An exhibit and sale of hand-made jewelry, and other articles was sponsored by the art department, near the close of the winter term. This exhibit consisted of rings, pendants, bracelets, brooches, trays and boxes, lacquer, enamel and cloisonne. The articles were made by "La Boheme Studio" of New York City.

#### Hand-Woven Articles Shown.

At present an exhibit of hand-woven articles from the hands of mountain women of Kentucky and Tennessee is being shown by the clothing department. This exhibit, which is being shown in the hall of the home economics building in its new exhibit case recently purchased by the clothing department, consists of hand-woven scarfs, chokers, bags, handkerchief cases, towels and baby blankets. The articles may be purchased.

Next week an exhibit of needle point, tapestry, petit point and other hand-work will be shown by the clothing department. The exhibit will be furnished by Fannie Andrews, owner of an art and gift shop in Austin. It will be on display at the home economics building.

Dorothy Rushing carries the loveliest biscuits, cakes and pies, too.

### Calendar

#### WEDNESDAY 10

Girls' Glee Club, room 310, 4 o'clock; Pre-Law Club, room 217, 7:30; Theban Club, room 202, 4 o'clock; Tech Rifle Club, room in Gym, 7:30; Lag Leales, 7:30; W. A. A., Gym, 7 o'clock.

#### THURSDAY 11

Boys' Glee Club, room 310, 4 o'clock; Math Club, room 206, 7:30; Scurry County Club, room 314, 7:30; Students Council, room 209, 7 o'clock; Dallas-Amarillo bridge party and dance, 2504 21st.

#### FRIDAY 12

Lubbock Club, room 302, 7:30; Capay Espada, room 310, 7:30; Pi Gamma Mu, room 204, 8 o'clock; Stag Bridge Club, dance, Gym, 9 o'clock; Pre-Law Club banquet, Our Cafeteria, 7:30.

#### MONDAY 15

Howard Payne-Tech debate; Girls' Glee Club, room 310, 4 o'clock; Forum, room 102, 7:30; Y. W. C. A., room 214, 5 o'clock.

#### TUESDAY 16

Boys' Glee Club, room 310, 4 o'clock; Dramatic Club, room 202, 7:30.

#### WEDNESDAY 17

Girls' Glee Club, room 310, 4 o'clock; Hall County Club, room 209, 7:30; Press Club, room 214, 7 o'clock; Ag. Club, room A109, 7:30; Central Texas Club, room 310, 7:30.

### Miss Weeks

(Continued from Page One)

and general home economics has definite contributions to make towards training for home making and also offers training for a definite vocation.

The Department of Applied Art aims to develop standards of good taste and appreciation of the beautiful. The work of this department instead of being based on drawing and painting is founded on elementary design—the science of line, space and color. This department should touch the lives of all girls in the college and incidentally the homes of this portion of the state. A year's work in Applied Art is required of all majors in the School of Home Economics and for those students especially talented in art there are courses which prepare for the work of costume designer and interior decorator.

The Department of Clothing and Textiles aims to give a student enough skill in construction so that she can make her own clothes if she cares to do so and in addition to give her the power to select and planing and household furnishings wisely and carefully and to keep within a limited income.

**Food in Relation to Health.**  
The foods and nutrition department stresses food in relation to health. Some one has said that "The health and morals of a people depend mainly on the food they eat and the homes they live in." Food selection in relation to income is also stressed in this department. Many vocations grow directly out of activities which are directly connected with food and with clothing.

The School of Home Economics has been approved by the state and federal boards of vocational education. Graduates of the School of Home Economics who have completed the work of the teacher training major will receive in addition to the 3, S. degree the Smith-Hughes Home Economics Certificate. This certificate is awarded by the State Department of Education and entitles the holder to teach home economics under the Smith-Hughes plan.

**Give Active Experience.**  
Believing that training for home making would be most incomplete without actual home making experience, the Home Management House was erected on the campus. The function of the house is threefold: first, to serve as a home where the student may put into practice the knowledge gained in the class room; second, to serve as a practical laboratory for classes in home furnishing, design, home management and home nursing; and third, to be used as a center for social activities of the School of Home Economics.

It is hoped that the house will function very importantly in the education of the home economics student. The experience should develop managerial skill and ability to work with others as well as an appreciation of the social and situational qualities which are as important as the material side of home making.

### Home Economics

(Continued from Page One)

The Fair, which will be held May 3, 1929, in front of the Aggie building. The Home Economics club was invited to have a booth at the fair and Owens Hufstodler was appointed chairman of the committee to consider this.

A report on the standing of the treasury was read by Miss Erwin. Miss Hattie Mae Mounts was appointed chairman of a committee to investigate the attitude of the club toward division of the money in the treasury. The following are on this committee: Miss Hattie Mae Mounts, chairman; Miss Roxana Ruth Ford, and Miss Ella Mae Blanton.

**Those Present.**  
The following members were present: Misses Hattie Mae Mounts, Eula Fay Hayes, Ella Mae Blanton, Rosa Lee Rush, Mollie Edwards, Adel Alsup, Anne Bell Collins, Janie Ruth Sheppard, Willie Hawkins, Nellie Brown, Christine Shaw, Jessie A. Walker, Roxana Ruth Ford, Elouise Wilke, Orene McAllan, Bettie Stuart, Faye Richardson, Rose Davis, Irene

### Club Federation At Tech Planned

Executive Members From Campus Organizations Are Guests at Tea Last Friday Afternoon.

For the purpose of discussing the unity of the various women's clubs on the campus and the possible federation of these clubs, the Las Leales club entertained the executive members of other organizations with a seated tea Friday afternoon in the home economic tea rooms.

Following a program announced by Miss Eufaula Wise, representatives of the clubs spoke, as well as Mrs. Doak and Miss Weeks.

Mrs. Doak talked on the value of unity in all the clubs on the campus after which Margaret Cooper, newly elected president gave the purpose of the "Y" which was changed last spring at a meeting at Sacramento, California.

#### 'Forum' Work Told.

Miss Margaret Williams gave a talk on the purpose of the Forum and told of a few accomplishments of that organization, after which Miss Weeks discussed the Home Economics club and Anna Belle Collins, the Arena-Ritas, Tech girls' pep squad.

Miss Mary Jean Owen gave an interesting talk on the value of fellowship and read "Touching Shoulders."

After the discussions a social half hour was held and punch was served. Those in attendance from the Las Leales club were Misses Ira Wilson, Pearl Harrison, Eufala Wise, Naomi Allison, Mary Jean Owen, Justina Law, Orene McClellan, Elizabeth Rodgers, Anna Jo Duvall, Mrs. Billie Pearl Eubanks, Mrs. Rosa Buford; Miss Sylvia Wilson, president of the Forum and representatives Misses Margaret Williams and Margaret Turner; Miss Margaret Cooper, president of the Y. W. C. A.; Miss Anna Belle Collins, leader of the Arena-Ritas and Pauline Huggett; Miss Margaret Basken, president of the W. A. A.; Miss Flora Goforth, president of the Home Economics club, and representatives Misses Hattie Mounts and Marian Sansom.

### Why Study?

(Continued From Page 1)

such as teas, receptions, banquets, etc. offers another field where a woman who has a home and children to care for may start on a small scale and work up as much business as she can handle; a business that will bring very good returns for her work if she has the business ability to handle commercial work.

In 1923 manufacturing concerns began advertising by having women take their products to the stores and homes to show housewives the value of them and how to use them. These demonstrators were women who had a pleasing appearance and voice and had learned a sales talk. The housewives asked questions about these products and the ways of using them that the untrained women could not answer so within a year women trained in home economics were being offered these positions as demonstrators. Now practically all of the manufacturers of food products and many others employ home economics trained women to advertise their products by means of lectures and demonstrations given either in the homes, stores or schools. The manufacture of cooking utensils and cook stoves and other household equipment employ the same means of putting their products before the housewives. This work appeals to the young woman who likes to travel and meet different types of people. Many of these manufacturing establishments and distributors of food products maintain home economic departments in which trained women compile recipes, make menus using these products and send out other advertising material telling of the value of the products in the diet and other interesting facts concerning the product. Many of these companies put out material that is educational and can be used in teaching. This could not be done if persons trained in that line of work were not hired to get together this material.

Government jobs for home economics specialists are as numerous as the branches of work elsewhere. These positions cannot be filled by anyone who has been trained for the work. Those who are interested in research work and feeding experiments find a field of work here for them.

Concerns which are interested in savings and thrift such as life insurance companies, banks, and building and loan companies, employ women to give advice to housekeepers on budget making, buying of food and clothing and the use of the family income.

Jane Mast left last week for Dimmit, Texas, where she has accepted a position in the school. She plans to be back for the graduation exercises in June.

Ruth Officer left for her home in Turkey last week. She will not be in school again this term because of ill health.

Foods 133 has progressed rapidly. Miss McFarlan finds that pasteurized milk is produced by turning the cows out to pasture.

Faye Rutledge's greatest desire, "to meet that eight o'clock class on time." Somehow those eight o'clocks just come too early.

**LOST**—During last ten days, standard size I. P. note book, embossed black with Tech seal, worn on edges, containing ledger accounts and miscellaneous class notes. Reward for return to Toreador office.

Jackson, Joelle Vannoy, Arvona Hufstodler, Lola Maye Roselle (visitor) and Misses Burin Weeks, Harper and Twyford.

The freshmen and juniors will be in charge of the next program.
