VOL. 5

TEXAS TECH, THURSDAY, MAY 15, 1930

NUMBER 33

Celebration Held By Tech Class Of '33 On Fish Day

YEARLINGS BECOME MASTERS OF CAMPUS FOR ANNUAL DAY OF FREEDOM

Brooks Re-Elected

HAZELWOOD, SHEELY, MADDOX ALSO SELECTED FOR CLASS OFFICERS

"Every dog has his day,"—and the freshmen of Texas Tech had theirs Saturday, May 10. Upperclassmen gave over their paddles to the fish at 12:01 o'clock on Saturday morning. Freshmen Day proper began at 7:30 o'clock when a special Santa Fe train left Lubbock with about 500 freshmen aboard. At 9:00 o'clock the train arrived at Crosbyton, where the Chamber of Commerce furnished transportation to Silver Falls. Skating, swimming, dancing, and boating were enjoyed until noon, when the freshmen were guests of the Methodist women of Crosbyton at a turkey dinner.

Activities of the afternoon were opened by a very lively class meeting in which the officers for the coming year were elected. Fruit Brooks, who has very capably filled the office of president of the class this year, was re-elected; Tedo Hazelwood is vice president; Mary Beth Sheely, secretary; and Frank Maddox treasurer. Several interesting talks were made including one by Lonnie Langston and one by Miss Ruth Pirtle, sponsors of the class.

A feature of the afternoon was when candidates and newly elected officers made speeches on roller skates.

Music for dancing was furnished by the Rhythm Stompers of Lubbock, from 2:30 until 9:00 o'clock. The train left Crosbyton at 6 o'clock, and soon after its arrival in Lubbock a big shirt tail parade was staged, closing the program for the day.

Members of the faculty who made the trip, other than Miss Pirtle and Mr. Langston, were Miss Zella Riegall and Mr. W. R. Waghorne.

ELLSWORTH GIVES BOOKS TO LIBRARY

In commemoration of the centennial celebration of the founding of the Church of Latter Day Saints, Dr. J. O. Ellsworth, head of the department of agricultural economics, has presented to the Tech Library a copy of the book of Mormons for the general use of the public.

The Book of Mormons is an unusual one in many respects, purporting as it does to be the record of the ancestors of the American Indian. The book has been translated into seventeen languages, published in fifteen, and is now being translated into two more. The book is distributed throughout the world in quantities of nearly 100,000 yearly. Its wide translation and distribution are thought to be a record for any book coming from this continent.

The Bull Wheel

Although in the Junior "Infestive" Charley Woodriddle willed his "good looks, his success and his ability as a football player" to Buddie Brothers, it is interesting to note that Buddie doesn't seem to be the do would be to ditch the wroile least bit stuck up about it all. And although Fruit Brooks was willed the right to amend the constitution to his heart's desire, Fruit is inclined to believe that the easiest thing to do would be to ditch the whole thing and write a new one.

W. O. Jones says that the most patient objects in the shape of humanity are statues. The first day of Adam's life was the longest because it had no eye.

Gordon Treadaway says he wants to be a lawyer, so he can be a lazy man and yet work with a will.

Tech Senior Gets Good Appointment

Hattie Mounts, senior in the School of Home Economics, has received an appointment to an excellent teaching position in Wellington, according to announcement by Miss Margaret W. Weeks, dean of the school of Home Economics. Miss Mounts will succeed Stell Shepherd, graduate of this college, who has taught home economics in the Wellington school for the past two years.

Miss Mounts, in addition to her regular salary, will receive State and Federal aid through the Smith-Hughes act providing for compensation for teachers of agriculture and home economics under certain conditions. Texas Tech with five of its graduates benefiting from the Smith-Hughes funds, is one of the five schools in the state to be so recognized. This recognition, which is now being extended for the third year, increases the value of a diploma from the college because of the additional remuneration it brings.

Tech Yearbooks Expected To Be Here Next Week

1,750 COPIES OF LA VENTANA PRINTED TO SUPPLY BIG DEMAND

Shipment of 1,750 copies of La Ventana, the college yearbook, will be made by freight from the Economy Printing Company, Iowa City, Iowa, tomorrow, according to Holmes Webb, editor of the publication.

Receipt of the books is expected within a very short time, probably by the latter part of next week.

Although only 1,750 copies of the annual are being printed, the demand for it has increased to considerably more than that number since the order was sent in, according to Webb.

This year's sale of La Ventana has eclipsed all previous records.

R. A. Mills, chairman of the faculty publications committee, spent most of last week in Iowa City reading proof and making final corrections for the annual. The trip was made in order to insure that the books would be ready to distribute on scheduled time through avoiding the delay ordinarily required in mailing and returning proofs and suggestions.

Besides being supported by the largest sale in the history of the publication, this year's issue sets a record in other respects. It is a 360-page book, including all inserts, has one of the largest feature sections in the United States, and is for the most part, the product of student art work. The entire book is printed on ivory paper, with duotone ink being used on all beauty pages and other special sections.

Edna Houghton has done the color work for the book, John A. Davis has had charge of working out the borders, and Culver Hill has prepared the sub-division pages.

Commissions To Be Given Friday

MEDALS AND LETTERS GIVEN DESERVING CADETS AND RIFLEMEN

In a ceremonial tomorrow night in the patio commissions will be awarded to Cadet Colonel Earl Cain, Cadet Majors W. L. Chapman and Stewart Galloway, Cadet Captains Charles Adams, S. M. Badwell, E. L. Perry, M. P. Vannoy, and T. W. Haymes, and to Second Lieutenants Hugh Russell and F. M. Gunn. At the same time gold medals will be given to Cain, A. F. Fisher, and Galloway as the best riflemen in the corps. T. M. Moody and B. H. Jenkins, chosen as the best cadets in the corps will also receive gold medals.

Members of the freshmen rifle team, Fisher, R. E. Rogers, F. M. Gunn, J. R. Brennard, and L. A. White, who placed in the order named were awarded bronze medals at a meeting of the Rifle club Tuesday night. At the same time letters were awarded to Cain, Galloway, E. K. Hester, Fisher, W. L. Chapman, and

EMISON AND MARSHALL PICKED TO EDIT THE TOREADOR AND LA VENTANA IN RUN-OFF ELECTION

Seniors Lead In Fun-Making At Last Assembly

LOCAL CHAPTER OF D. A. R. PRESENTS FLAG TO COLLEGE

Forsaking their customary dignity, the members of the graduating class made merry at their special convocation at the gym yesterday morning. Charley Woodriddle, president of the Senior class, supervised the fun.

Proceeding the program offered by the seniors was a short service in which Mrs. William Dingus, head of the department of Latin, representing the national council of the Daughters of the American Revolution, presented a large flag of the United States to the college. Mrs. Dingus called attention to the outstanding events in the life history of the flag and also emphasized the aims and ideals of the organization she represented. Dean J. M. Gordon made a short speech of acceptance for the college.

Although the program of the Senior class was offered strictly in fun in the main, Warren Huff, vice president of the class, gave a discussion partly humorous, of the purposes and hopes of the drive for the student union building, the project initiated by the class as a parting gift to the college.

"The Inharmonious Male Quartet" composed of Bud Lehr, Bob Webb, Warren Huff, and Holmes Webb, offering an interesting contrast in stature as well as in voice, rendered in high comedy "We're Sorry We're Going Away." Their selection called forth much merriment.

Continuing the humor of the occasion with mock severity and seriousness, Elmer Moore read the "Junior Infestive," in which he "carried out" a number of well known persons on the Tech campus.

Analyze Needs Of Hale County Farm

ELLSWORTH'S CLASS MAKES RECOMMENDATIONS FOR REVISED SET-UP

Senior students in the Dr. J. O. Ellsworth's class in agricultural economics seminar visited a farm in Hale County last Saturday for the purpose of making investigations that would furnish grounds for a revised business and crop set-up. The farm visited consisted of 640 acres on which wheat, cotton, and grain sorghums had been grown. The land is owned by a man living in California and is under the supervision of a tenant at present.

Recommendations will be made by the members of the class and Dr. Ellsworth relative to changed policies that would result in a larger income. All phases of the situation will be considered including the statistical position of different crops on the markets, facilities for marketing and the economic and agronomic resources at the command of the tenant. This is the first work of this kind that seniors in the school have done. However it is expected to furnish good laboratory practice as well as furnishing the farmers of the Plains the benefits of the agricultural economic analyses.

J. E. Spear, members of the student rifle team, and to Dr. E. F. George, Dr. W. L. Ray, Dr. W. M. Young, Dr. E. L. Thompson, and Cecil Horne, members of the faculty rifle team. The medals were given by Frank Brothers uniform equipment company of San Antonio and have been placed on display in the military bulletin boards in the rotunda of the Administration building.

Claunch And Coker New Business Managers

Frank Emison was elected editor of the Toreador, and R. C. Marshall, editor of La Ventana in the run-off election held last Monday under the supervision of the Student council.

Emison, with a total of 604 votes was winner over H. Y. Price, with 557 votes, while Marshall won with 655 votes to 453 for Claudine Cook. These officers will serve during the year 1930-31.

No run-off was necessary in determining the business manager of La Ventana, due to the fact that F. M. Coker won over Eugene Adair by a vote of 736 to 328 in the primary.

Byron Claunch and Wayne Castleberry were candidates scheduled for a run-off as business manager of the Toreador, following the primary elections May 5 and 6, but Claunch was named to the office when Castleberry withdrew after being elected president of the student body.

EMISON CALLS FOR WORKERS

Frank Emison, newly elected editor of the Toreador, requests that all persons interested in working for the paper next year report to the office of the Toreador on the third floor of the Administration building immediately. Assignments for the next and final issue of the Toreador will be made to prospective staff members and selection of associate editors, news editors, sports editors, feature editors, their assistants, and reporters will be largely made on the basis of the work done in handling these assignments.

Fresh man Stock Judging Team To Be Selected Soon

SENIORS AND OUTSIDE JUDGES TO SUPERVISE SATURDAY COMPETITION

The fourth annual freshman livestock judging contest will be staged on Saturday, May 17, by the department of animal husbandry in the school of agriculture. Students eligible for this contest must have completed the freshman year of animal husbandry work, must be either freshmen or sophomore students, and must not have had any additional courses in animal husbandry.

The criterion of selection for students in this contest is determined on the basis of theory and practice grades in the freshman animal husbandry courses, which are A. H. 131, 132, and 121. At present there are 70 of these students, but approximately only 40 per cent of these will be in the contest.

This contest will be managed entirely by senior students. Curtis Grimes, a member of Tech's first international judging team, will be superintendent of the occasion. O. N. Burroughs and Frank Main will be section leaders.

Outside Judges Because of the fact that all of the instructors in the animal husbandry department have taught these students, outside judges will be selected to judge the contest. Judges that have been announced are as follows: W. T. McGee, county agent of Hookley county, and former instructor of R. C. Mowery; R. B. Davis, county agent of Terry county; and R. C. Tom, graduate of Texas Tech.

While the six men in this contest will be designated in the freshman livestock judging contest, only one man will receive any reward. The reward this year will be a gold medal which will be presented by the college book store. High men in the three preceding contests are Grady Shep-

Methodists Lead In Church Groups

Methodist students with a total attendance of 501 in Tech for the year 1929-30, have a slight lead over any other denomination, although Baptist students are a close second with 724 students. These figures are given in statistics recently released by the president's office.

The largest remaining group of students, according to these figures, is classified as "No preference expressed," the members of this group numbering 262.

The complete list of denominations in alphabetical order is as follows: Assembly of God, one; Baptist, 724; Catholic, 12; Christian, 153; Christian Science, 7; Church of Christ, 145; Congregational, 3; Episcopal, 23; Greek Catholic, one; Hebrew, one; I. R. S. A., one; Latter Day Saints, three; Lutheran, 15; Methodist, 801; Nazarene, four; Presbyterian, 189; Seventh Day Advent, one; Unitarian, one; No Preference expressed, 262.

Education Board Delays Action On Proposed Budget

WILL MAKE RECOMMENDATIONS TO BOARD OF CONTROL IN JULY

Action on the budget needs of Texas Tech for the biennium, presented for consideration to the State board of education, has been postponed until July. The needs listed in the proposed budget for the college totaled \$3,345,430.

Bearing with him all data regarding the needs of the college, Tom Gardner, Lubbock, left this city Sunday for Austin to submit the items for the consideration of the State board, and Dr. Paul W. Horn, president of Tech, arrived in Austin Monday to support these needs.

Following action and recommendations by the State board of education will be the consideration by the State board of control, which in turn makes its recommendations concerning the budget to the State legislature.

A number of new building improvements including a library, a dairy products unit, and an enlargement of the Administration building, are provided for in the request of \$1,221,300 for building proposed.

The main divisions of the budget to be acted on by the State board of education are as follows:

For buildings	\$650,300	\$556,000
Equipment	167,500	98,550
General expenses	71,250	70,250
Maintenance	81,500	845,350
Administrative salaries	119,740	119,740
Instructors' salaries	654,755	656,675

BOOKSTORE TO BUY SECOND-HAND BOOKS

W. C. Cole, manager of the college bookstore, announces that all students desiring to sell second hand books used for study here may dispose of them for cash at his office Thursday and Friday, May 22 and 23. Mr. Cole also announces that a few caps and gowns have been left over for persons who failed to get in their order in time, and that those who desire them should arrange for their use at once.

D. F. D. members will entertain Friday evening May 16, with swimming, supper and dancing at the Country club from 6:30 to 12 o'clock.

herd, Hale Center, E. Y. Freeman, Lubbock, and Buford Browning, Snyder.

Judge In Morning The contest will consist of judging dairy cattle, beef cattle, sheep, hogs, and horses. All of Saturday morning will be devoted to placing the livestock, and reasons will be given in the afternoon.

As an added feature to stimulate interest in this contest, the students will be divided into five or six teams, which will compete against each other. It will give the contest the same aspect as college contests at Ft. Worth, Wichita Kansas, Kansas City, and Chicago, in which Tech senior and junior students participate.

Athletes Will Be Housed In Cheri-Casa Next Year

TECH ATHLETIC COUNCIL SIGNS CONTRACT WITH MANAGERS OF ESTABLISHMENT

Cawthon Makes Plan COACHES ALSO TO STAY WITH MATADORS UNDER NEW AGREEMENT

All football men and possibly other athletes will room and board in a special dormitory next year according to a contract between the college athletic council and the management of Cheri Casa dormitory for room and board. The dormitory is one of the most up to date in the state and, having been recently refurnished throughout, will provide excellent housing quarters for the athletes. There are thirty two-capacity rooms and five apartments. This will accommodate some sixty athletes, as well as two of the coaches. The coaches will occupy two of the larger apartments.

According to the present plan, if there are not enough athletes to fill the building in the fall term, others will be admitted to the dormitory only by special permission from the college.

The idea of having the football men and coaches under the same roof was advanced by Pete Cawthon and is regarded by many as the most progressive move yet advanced in the bettering of Tech Athletics, and in enforcing training rules.

Racketmen Drop Finals To Cowboys

HENRY AND EMISON REGISTER ONLY TECH WIN IN ABILENE MATCH

The Tech tennis squad dropped the final match of the season to the racket hurlers of Simmons university in a dual meet played at Abilene Saturday, Dalton, Pfluger, Henry, and Emison composed the Tech team.

The Simmons netters copped all four of the single matches to cinch the meet early. Steakley of Simmons defeated Dalton of Tech, 3-5, 6-0. McCullom of Simmons defeated Pfluger of Tech, 4-5, 10-8. Gregg, Simmons, defeated Emison, of Tech, 7-5, 6-3. Coney, Simmons, defeated Henry of Tech, 6-0, 6-3.

In the double plays Dalton and Pfluger playing the ranking match were defeated by Steakley and Gregg. The score was close at 3-6, 6-2, 6-3. Henry and Emison registered the only Tech day when they defeated Scott and Coney, 6-0, 3-6, 6-3.

Ralph Brandenburg, business manager of La Ventana, announces that a list of fines owed by students who have signed over their library deposits to the annual will be posted not later than Friday, May 16, on the bulletin boards in the east and west corridors.

Erase The Signs

Student elections are over. Al-
though the student officers of the
school have been determined for an-
other year, there are certain memo-
ries connected with the elections that
need to be erased. That statement is
meant literally; for, although there
are personal and, possibly, group en-
mities that have been created and
which ought to be forgot as far as
possible without sacrifice of ideals
and honorable purposes at stake, the
memories that ought to be erased are
of a more visible nature than those
of the mind.

Earnest supporters of candidates
for office, and candidates for office
are not always responsible for the
nature and location of their campaign
literature, have seen fit during the
past few weeks to do their best to
alter the original plans of the college
architects by remodeling the campus
with the brightest paint and most
conspicuous signs. These remnants
of the struggle ought to be removed
not in a spirit of hatred, but in a
spirit of reverence for the beauty of
the campus.

Unfortunately, some of these signs
have been so securely painted and
pasted that they will not readily yield
to the janitor's efforts. It is to be
hoped that future generations of poli-
ticians will be less destructive of
beauty as well as that of ideals.

Scholastic Standards

In an interview on the subject of
the scholastic standards of Tech, Dr.
A. L. Carter, head of the English de-
partment, expressed the opinion that
the "cream of the students is of the
highest quality, but that the "skim
milk" is capable of much improve-
ment. That is, while the students in
the more advanced classes hold to
a high standard of work that may be
compared favorably with the work
in other colleges, the work of the
Freshmen and sophomores is not held
up to standard, because there is not
enough flunking out of the poor stu-
dents.

The upholding of scholastic stand-
ards is a matter for the students them-
selves to control. The only way in
which real scholarship will be achiev-
ed will be by the ideas of competent
workmanship gradually assuming an
important place in the thought of the
student body. There must be an "es-
prit de corps" in the students them-
selves.

The main difficulties in the way of
high scholarship at Tech are, first, the
fact that many students are trying
to work and go to school at the same
time, and second, that there are too
many extra-curricular activities which

occupy the student's time and inter-
ests. A large number of these activi-
ties, especially so many clubs and
organizations, is characteristic of a
high school, but out of place in a col-
lege like Tech. Another probable
difficulty is the waste of time in rid-
ing around in cars. At many of the
large colleges and universities the
students are forbidden to own cars.
A college life is peculiar to itself;
there is something in it that wars
against any other activity. In order
to get the most out of it, a student
must concentrate every effort to that
purpose.

In the department of English a ma-
jor difficulty is the necessity for
having too large classes, especially
in the freshman classes. A class of
thirty is too large to give each stu-
dent individual attention.

The future good name of Tech will
depend on its sending out a few real-
ly capable students. At present we
owe a particular debt to the best few,
because they will carry on the name
of the college to other colleges of the
country.

(Interview from Dr. A. L. Carter
by a member of the Southern Scholash-
ip Society.)

Faculty Members Make Addresses

Baccalaureate addresses and ser-
mons to graduates of a number of
schools of this region are being made
and will be made by Tech instructors
and professors. The demand for Tech
people to serve in this capacity has
been very strong this year.

Dr. J. C. Granberry, head of the de-
partment of history, spoke to the
graduates at Bradshaw, and Dean J.
M. Gordon spoke to the graduates at
Levelland Sunday. Dr. A. B. Cunn-
ingham, member of the department of
English, addressed the seniors at
Dickens last night. Dr. J. O. Ells-
worth, head of the department of ag-
ricultural economics, will go to Sny-
der, Friday, May 16, to deliver the
commencement address. Dean A. H.
Leidigh of the School of agriculture
will speak to the graduating class of
Spring Lake high school at Earth
Tuesday, May 20. W. P. Clement,
member of the department of educa-
tion, will speak at Big Spring Friday
May 23.

Dr. W. A. Jackson, head of the de-
partment, was the principal speaker
at the dedication of the new school
building at Parnell Tuesday.

Engineers Plan Farewell Picnic

Assembling in final session for the
year, the Engineering society met
Monday night to hear Hubert A. Al-
len of the Texas Utilities company
and others speak and to make final
plans for the farewell event of the
year, the annual spring picnic to be
given for the departing seniors to-

night at Tumble-N.
Mr. Allen gave an interesting talk
on the part the engineer plays in the
industrial development of the public
utilities of the country. He stated
that the engineer must serve two
masters, the financial sources and
the public. Hugh Hancock, a senior
in the department of civil engineer-
ing, gave a talk in behalf of the grad-
uating members of the society.

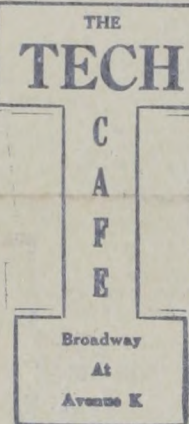

It is planned for the engineering
picnic to be held at the city park at
Tumble-N this evening. This affair
is given without additional expense
to club members, and each member is
allowed to bring some other friend.
Transportation to and from the pic-
nic grounds will be provided, with
the cars leaving the engineering
building at 5:30 and 6 o'clock. One
of the features of the varied enter-
tainment offered will be a baseball
game between the seniors and the
faculty.

Hemphill To Teach Voice Next Term

TEACHER OF EXPERIENCE AND
TRAINING TO BE HERE
SIX WEEKS

Andrew Hemphill, teacher of voice,
will join the faculty of the Texas
Technological college for the first
term of summer school, according to
an announcement from the office of
the president.

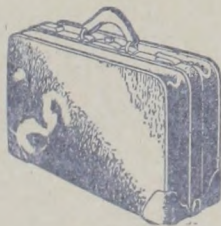

This announcement states that Mr.
Hemphill has had the best musical
advantages that the world affords.
He has spent a number of years in
New York and Chicago studying and
teaching. He was in Paris, France,
three years, under the great opera
singer and teacher, Jean de Reszke,
and also did teaching and choir work.
The announcement further states that
he has continued to keep in line with

Mary W. Doak, sponsors of Las Leales
will entertain at their home, 2421
Broadway, at 8:15 o'clock, Sunday
morning.

NEWELL-RAYZOR MARRIAGE ANNOUNCED

Friends of the bride will be inter-
ested to learn of the marriage of
Margaret Rayzor, Tech freshman to
Charles Newell, in Clovis New Mex-
ico on Sunday, March 30.

Mrs. Newell is the daughter of Mr.
and Mrs. W. H. Rayzor, of Perryton.
She is a member of Las Vivarachois,
a social club in Tech.

Mr. Newell is the son of Mr. and

Mrs. J. O. Newell of Hereford. Mr.
and Mrs. Newell will be at home in
Hereford after June 1.

Stangel Judges In Stillwater Contest

Prof. W. L. Stangel, head of the de-
partment of animal husbandry, left
Monday afternoon for Stillwater,
Oklahoma to act as judge for a stu-
dent judging contest at Oklahoma A.
and M. College.

This contest is similar to the fresh-
man contest to be held here next Sat-
urday, with the exception that senior
and junior students will participate.

HERE THIS WEEK

Miss Lillian Peck, state supervisor
of home economics, is expected to be

on the campus the latter part of this
week, according to Miss Margaret W.
Weeks, dean of the School of Home
Economics.

JACKSON MAKES ADDRESSES

Dr. W. A. Jackson, head of the de-
partment of government, was one of
the principal speakers of the evening
last Tuesday night in Parnell where
he took part in the dedication of a new
high school building.

Dr. Jackson will deliver the com-
mencement address to the seniors of
the Southland High School tonight
and Friday night he will speak to the
Seniors of the Ralls High School.
Next week he will deliver a com-
mencement address to the seniors of
the Olney High School.

Mackaill Shines Alone As Star Of "Hard To Get"

A picture filled with fun and delicious satire and love and a number of other things, called "Hard to Get," is coming to the Palace Theatre at Slaton.

It is said to be splendid entertainment and it is important because of the fact that it is Dorothy Mackaill's first independent film since her cinematic separation from Jack Mulhall, who used to appear with her in so many First National-Vitaphone offerings. Mulhall is also starring independently now.

The man who's making love to Miss Mackaill in "Hard to Get" is another Irish lad, however, Charles Delaney.

"But he has a quite a different technique!" says Dorothy.

Louise Fazenda, Edmund Burns, Jack Oakie, Clarissa Selwynne, and other well-known supporting artists enliven the cast of "Hard to Get." William Beaudine directed this rollicking comedy-drama, which deals with a shapely manikin on a hunt in the jungles of Fifth Avenue, New York.

MISS WEEKS ENTERTAINS HOME EC. GRADUATES

A profusion of spring flowers was attractively employed in decorating the home of Miss Margaret Weeks, 2421 Broadway, Saturday afternoon, when members of the graduating class of the School of Home Economics and their guests were entertained with a bridge party.

At the close of the games mortar boards were bent as favors on dainty refreshment plates. Each senior girl was presented with a piece of Rockwood pottery.

Graduating students present were: Hattie Mounts, Nora Cocks, Faye Kemp, Bettye Stuart, Ruth Frod, Mabel Howell, Nannie Mae Gains, Lucille Moses, and Mesdames Annie

Ellsworth, and Finis Cook Lindley. Guests in attendance were Miss Mabel Erwin, Miss Dorothy McFarlane, Miss Mayme Teyford, Miss Jean Dorrel, Miss Vivian Johnson, Miss Katherine Harper, Mrs. Edna Buster, Miss Blanche Bacon, Miss Johnnie Gilkerson, Mrs. R. M. Chitwood, Mrs. Mary W. Doak, Miss Ruth Link, Ruth Sparks, Ethel Brown, Eufala Wise, Lula Mae Martin, Pauline Hargrove, Christine Shaw, Lovie Warnock, Jessie Walker, Mrs. Billie Pearl Eubank, Mrs. A. B. Cunningham, Mrs. E. M. Barnett, and Miss Ella Mae Lyle.

"T" CLUB MEN GIVE ANNUAL DANCE

"T" club men were hosts to two hundred guests at an annual dance last Friday evening in the college gym. Mr. and Mrs. Grady Higginbotham and Mr. and Mrs. Vic Payne were named honor guests for the affair, and was presented table lamps by the 1930 letter men.

The ballroom was decorated with scarlet "T's" and the letter men were "T" to distinguish them from the guests.

This year "T" men who were present were Dennis Vinzant, Red Walker, Edgar Cappleman, Percy Walker, Ameral Payne, Charles Woodbridge, Floyd Woodbridge J. H. Dallas, Cordell Reeves, Orville Brothers, Elmer Moore, Alma Pace, Basil Hill, G. D. Waters, J. H. Wingo, Bill Sewell, Harlan Howell, C. A. Cole, Leon Fisher, Clarence Hodges, Bill McWilliams, George Langford, Walter Nixon, Simmons, Jack Durham, and Orville Burroughs.

Out-of-town lettermen and those of past years were Marlin Hayhurst, Kenneth Hemphill, Raymond Marshall, Buck Weaver, Bruce Reed, and Hurley Carpenter.

CENTAURS HONOR GRADUATING MEMBERS

Orval Burroughs, Holmes Webb, Foster Davis, Thomas Taylor, and Robert Webb, the graduating members of the Centaur club were complimented Monday evening with a formal banquet and dance at the Hotel Lubbock.

Bill Sewell, president of the club, introduced the toastmaster, Traitt Brooks, who gave a toast to friendship, after which the group sang the club song, "Purple and Gold." Wayne Castleberry and Foster Davis made short talks, and Johnnie Cook gave a piano solo.

Lonnie Langston, sponsor of the Centaurs' then gave a toast to the ladies, to which Marie Butler responded. Bill Sewell made a tribute to the graduating members. Each honoree was introduced.

At each plate was a silk handkerchief with the club emblem hand-painted in the corner. After the banquet two hours of dancing were en-

joyed. Guests of the club members were: Lena Bert Medlin, Alma Ralls, Wilma Parks, Helen Womack, Mrs. Orval Burroughs, Brilla Mae Willis, Annie Lee Owens, Frances Ford, Kathleen Conrad, Elizabeth Pickett, Veta Stafford, Sarah Price, Patti Hopping, Mary Chauveaux, Catherine Jameson, Francis Gunn, Vonelle Gilkerson, Dorothy Oxsheer, Donna Vaughn, Mary Ann Thompson, Clara Mae Bishop, Marie Butler, Irene Ernska, Fay Foote, Mildred Price and Mary Allen.

Dance guests were: Carl Culwell, Warren Huff, J. W. Timmons, Theo Hazelwood, W. R. Fickas, Jr., R. C. Marshall, Edwin Spacek, Raymond Pfluger, Carl Pfluger, Earl Fuson, Earl Fuson, Alfredo Navarro, Edgar Cappleman, J. D. Jenkins, Chuch Williams, L. E. Waldrop, Leroy Vaughn, Charles Carter, Travis Daniels and Tom Watson.

DRAMATIC AND DEBATE CLUBS HAVE PICNIC

One of the most enjoyable outings of the season was given Tuesday evening when members of the Sock and Buckskin and Debate clubs met in a joint picnic at Buffalo Springs. Swimming, dancing, games, and exploring preceded the spreading of a delicious supper of ham, buns, potato salad, fruit, eskimo pies, cakes soda pop, and other picnic accessories.

Members attending were Martha Knight, Felice Dockray, Byron Claunch, Lele Fay McIntyre, Turitt Brooks, Wayne Castleberry, Johnnie Mae Patterson, Claudine Cook, Virginia Smallwood, Ross Aires, E. B. Fincher, Kate Pressley, James L. Gordon, Hal Lary, Lennis Baker, Alton Sneed, Warren Huff, Langford Shaw, Lillian Hopping, Willie Pearl Dockray, Hilma Bartlett, Nora Cocks, Stell Ledger, Ameral Payne, Vernon Smith, Burline Boynton, Miss Ruth Pirtle, Miss

Annah Jo Pendleton, and Mr. and Mrs. Ray Mowery.

JACKSON ANNOUNCES GOVERNMENT FACULTY

Teachers and work in the government department for the two terms of summer school have been announced as follows: Dr. W. A. Jackson, head of the department, will teach American government and contemporary legislation; F. T. McCullom, who received his master's degree from George Washington university will teach American government and international law; and Miss Mamie Wolforth will teach American government.

Montel E. Ogdon, member of the department during the past year, will spend the summer studying in the

University of Illinois. The subject of his doctor's Dissertation on which he will work, is "The Legal Basis of Diplomatic Immunity."

Dr. Craig took 120 pounds of this lead residue and obtained from it 60 grams of gallium, purifying it by chemical means, heating and distillation. The gallium itself is very expensive, costing around \$50 per gram.

COLE GIVES PLAQUE TO PRESIDENT HORN

A beautiful hard-wood plaque mounted with metal plates bearing the seal of the college and a dedication to Dr. P. W. Horn, is hanging in the office of the president as a birthday gift from W. C. Cole, manager of the bookstore. The gift was presented to Dr. Horn on the occasion of his birthday celebrated April 30.

Tells Of Work On Weight of Gallium

"Determination of the Atomic Weight of Gallium," was the subject of a talk by Dr. W. M. Craig at the meeting of the Science club Thursday evening. This title was taken from an article by that name written by Dr. Craig and published in the Journal of the American Chemical Society in 1923. Completion of the experiments, which resulted in establishing the atomic weight of gallium at 69.72, required several years work

at Harvard university. The results are now officially accepted by the International committee on Atomic Weights.

A very complicated piece of apparatus was used, including no rubber tubing, but 150 feet of glass tubing all sealed together. About a thousand pounds of dross lead that had been obtained from distillation of 5,000,000 pounds of zinc were used by Dr. Craig. This distillation had been done by an American shell company for use in strengthening shell-cases used by Italian and Russian companies during the World War.

W. A. A. SPONSORS ALL-GIRLS' DANCE

Girls of the college, dressed as boys' and escorting dates, made the dance sponsored Wednesday evening by the W. A. A. at the gym an all-girls affair. The first semi-formal

dance of this kind, it scored a decided success, with about a hundred couples attending.

Music was furnished by Frank Stone's Collegians.

Proceeds will go toward making the down payment on the girl's camp site.

We Are Celebrating Our Fifth Anniversary Five Years of Service to Tech and Lubbock

FOR NOTHING

With every \$2.00 bundle of laundry accompanied with a suit of clothes, picked up and delivered at the same time, we will dry-clean and press the suit for nothing. This is good at all of our laundries: the Lubbock Laundry-Family Service and Model Laundry.

Why Is It Possible For Us To Do This?

We do appreciate your patronage, and have the modern equipment and facilities necessary to give you the extra service. We are happy to give you the benefits of the plant and our whole-hearted service.
