Texas Technological College, Lubbock, Wednesday, Sept. 23, 1953

No. 1

THE INTERNATIONAL SET—Some of Tech's foreign students pause by the Library's new \$800 globe to point out the country each calls home. Left to right, they are: Richard S. de la Vega, Guatemala; Edward F. Quevedo, Guatemala; Donald David Gray, Netherlands West Indies; Fernando Luis Egana, Venezuela; Ann Salman, Lebanon; Kareem Aziz Habeeb, Jordan; and Ahmad A. H. Kayyali, Palestine. The globe is being housed temporarily in the Reference Room.

SAE to Install Tech's Adelphi As Texas Alpha

Adelphi, youngest of Tech's men's social clubs, will be installed Oct. 3 as Texas Alpha chapter of Sigma Alpha Epsilon. The Club's charter was granted Aug. 25 at the fraternity's convention in Chicago.

SAE's leadership school, a course in the management of fraternity chapters, preceded the convention. Representing Adelphi at the school were George Hargrove; Gregory Keys; Troy Powell; Jerry House; and Donal Hamill, president of the club. Those representatives were joined for the convention by Jerry Rann, James Gray and H. L. Simon. Members of the local SAE alumni organization who attended were Tom. O. Murphy and William Oden. Sessions of the convention were held in Chicago's Edgewater Beach Hotel.

The group was the first from Tech to attend a fraternity's national convention.

The fraternity also granted charters to organizations at Memphis State College, Tennessee; Marshall College, West Virginia; and Kent State University, Ohio. Installation of the four new groups will give SAE a total of 136 collegiate chapters.

Students Number 4,866 on Tuesday

A total of 4,866 students had registered at Tech as of noon yesterday, according to figures released by Warren G. Harding, assistant registrar.

Arts and Sciences is leading with 1,435 while Engineering is second with 1,226. Business Administration is a close third with 1,028.

The count Monday night showed an increase of 333 students over the count made at the same time a year ago.

Men outnumber women by more than two to one with 3,551 males registered, and 1,315 females. Exact ratio of men to women—2.7004.

The registration broken down into divisions is as follows:

Div	Men	Women	Total
Arts & Sciences	845	590	1,435
Engineers	1,188	38	1,226
Business Adm.	697	331	1,028
Agriculture	674	5	679
Home Eco.	25	251	276
Graduate	147	100	247

Dr. G. E. Giesecke Named Vice Prexy Will Supervise Faculty, Student Work

A native Texas, who attained his education the hard way by "slinging hash" and serving as a waiter, is the new vice president of Tech. Dr. G. E. Giesecke will be vice president in charge of academic administration. He is a native of Marble Falls, Tex.

Dr. Giesecke, whose major was foreign languages, with emphasis on German, has had many interesting experiences abroad. In 1931-32, during the beginning of the Nazi regime, he studied at the University of Marburg, Germany, on a fellowship awarded by the Institute of International Education. He was again in Europe in 1945, in time to see Germany fall. At this time, Dr. Giesecke was a member of the U. S. Naval Technical Mission, which interrogated enemy scientists and technicians. He later received a commendation for this duty.

Louise, Dr. Giesecke's wife, was also in Germany during World War II. Mrs. Giesecke went to Europe to study on a fellowship granted by the Institution of International Education, but on the onset of the war, joined the American Foreign Service. She was overseas from 1939 to 1941, and was evacuated along with other Americans in Germany.

Dr. Giesecke's duties as vice-president include supervision of faculty and student work. He will also serve as chairman of the Council of Deans.

The new vice-president has three degrees, A.B., M.A. and Ph.D., from Leland Stanford University at Palo Alto, Calif.

Dr. Giesecke taught German at Stanford and at the University of Illinois. At Illinois U. he was a counselor in the Student Personnel Bureau.

After serving in the Navy four years, Dr. Giesecke returned to Illinois U., where he established the first counseling program in the residence halls divisions, served as assistant dean of the College of Liberal Arts and Sciences. Later he was assistant dean of the Galesburg Undergraduate Division.

Before coming to Tech, Dr. Giesecke was Dean of the College of Applied Arts and Sciences at North Dakota Agricultural College, where he founded, and was made executive secretary of, the North Dakota Institute of Regional Studies. This institution collects and preserves material relating to the resources and cultures of North Dakota and the Northern Great Plains area.

Dr. and Mrs. Giesecke have two children, Mark, 5, and Helene, 6 weeks old.

DR. GIESECKE

Jones Appointed New Dean of Men

Addition of one office and several other changes in the student life have been announced recently.

Lewis N. Jones, formerly assistant dean of student life, is now dean of men. He is the third to hold this position at Tech. Dr. J. M. Gordon, Dean of Arts and Sciences, was first dean of men. Then the present dean of student life, James G. Allen, became dean of men, and served in that capacity until he took over his present duties.

Bill Geisert has been added as assistant dean of men and senior supervisor of men's dorms. He comes from Indiana University, where he was head counselor of men's dorms.

Mrs. Carol Collins is the new secretary to the dean of men.

Jim Whitehead, who was assistant dean of men at the University of Cincinnati, is assistant dean of student life. He was senior supervisor of men's dorms at Tech year before last. Mrs. Jene Maniss is secretary for Dean of Student Life James G. Allen.

The new addition in the Dean of Women's office is Miss Frances Freese, who replaces Mrs. Nancy Innis. She is an assistant professor of psychology and assistant dean of women.

Basso To Open Artists Course

Jerome Hines, Metropolitan Opera basso, will open the 1953-54 Artists Course series with his concert Wednesday, Oct. 7 at 8 p.m. in the High School auditorium.

Student admission will be by activity fee receipts or by individual tickets purchased at the boxoffice for \$1. Dr. Gene Hemmle of the Tech Artists Course Committee announced today.

Yearbook Photos Now Being Made

Class pictures for the 1954 La Ventana are being taken at Koen's Studio, 2222 Broadway, announces Editor Ted Harrison. He urges that students have the pictures taken early.

Fee for the picture was included in the price of La Ventana paid at registration. Students who did not pay for a copy then may have their pictures taken for \$1. The studios are open from 9 a.m. to 6 p.m. daily except Sunday.

Those interested in jobs on the staff of La Ventana may see the editor at 5 p.m. Monday in J201. Typists, layout editors, copywriters and copyreaders are needed. Experience is not required, but those who have worked on yearbooks previously are particularly needed.

Harrison reports good progress on the work of preparing the annual, which will be issued next spring.

Class Elections To Be Held Wednesday at Convocation

Tech class officers for 1953-1954 will be elected in student convocation from 10 to 12 a.m., Wednesday, Sept. 30. Tentative plans call for this meeting to assemble in the gym, according to J. C. Chambers, president of the Student Council.

The four classes will then adjourn for separate meetings. Nominations will be made from the floor. Candidates are not required to file in advance.

The basso seasons his talent, intelligence, hard work, personality and luck with hypnosis which has contributed greatly to his success. Mr. Hines explains that through hypnotism he is able to become sensitive to the reactions of his colleagues during a performance. This sensitivity enables him "to cope with any emergency" that might arise during a stage performance, he says. The knowledge of hypnosis also enables Mr. Hines to understand the art of relaxing completely, which attributes to his unusual composure during his many hours of performances.

Jerome Hines is familiar to both TV and radio audiences through such programs as "Toast of the Town" and "The Voice of Firestone."

Mr. Hines' engagement here is one of 45, in addition to his Metropolitan performances, during his current seventh nationwide tour. He has just returned from extensive European and South American tours where he appeared as guest artist at the Vienna State Opera, Buenos Aires Teatro Colon, the Glyndebourne Festival and the Edinburgh Festival.

The California-born artist first made his public debut at the age of 18—only two years after he had taken his first voice lesson from Gemaro Gucci as a result of an influential 16-year-old girl next door. Mr. Hines explains, "I wanted to sing duets with her."

Mr. Hines holds a B.A. degree from the University of California at Los Angeles. He is greatly interested in the intricate phases of mathematics and chemistry, frequently contributing scholarly articles to such scientific publications as The National Mathematics Magazine.

JEROME HINES

Initiation Services Held By Sororities

Three of the five Greek-Letter sororities on the Texas Tech campus held initiation services during the weekend.

Delta Delta Delta rituals were read in the home of Mrs. R. C. Goodwin, 3324 21st Street, at 7:00 o'clock Sunday evening. Thirty-seven rushes were initiated. Alumnae Advisor Mrs. Kathryn Fain and Mrs. Earnestine Stewart attended the ceremonies.

St. John's Chapel was the scene of the Kappa Alpha Theta services for 33 initiates beginning at 2 Sunday afternoon. Alumnae attending included Mrs. Ed Napier, alumnae pledge trainer; Mrs. Lee Jackson, advisory board; and Mrs. C. G. Cailloux.

Twenty-six rushes were initiated to the Pi Beta Phi sorority at St. John's Methodist Church Sunday evening from 2 to 5 p.m. Mrs. James W. Spears, rush and pledge advisor; Mrs. David Weaver, and Mrs. Charles Cathey were the alumnae present.

Techsans To Get Reports on X-rays

More than 1300 reports on lung x-ray pictures will be mailed out to Techsans in about three weeks. On Sept. 14 and 15, students and staff members totaling 1,340 were given the x-ray examinations free at the Administration Building.

The x-ray picture had been announced as compulsory for freshmen for the first time in Tech's history. However not all freshmen appeared for the tests. It is expected that loopholes will be plugged by next year, and that 1954's new students will be examined 100 per cent, announced James G. Allen, dean of student life. Tech will ask to use the machine during the entire first week of the fall semester of 1954, Dean Allen added.

The Association of Women Students furnished five members for the program's secretarial help during the two days. The Double T Association was in charge of unloading the machine and loading it again when the program ended.

Tech Band Will Perform At County Celebrations

Tech Band will perform at two county celebrations within the week.

They will be guests at the Sudan Fall Festival Saturday in Sudan. A parade at 11 a.m. will highlight the event for the 105 band members and will be followed by an afternoon performance.

At 2 p.m. Monday the band will march in the Panhandle-South Plains Fair held in Lubbock.

"Although we are few in old members, we are great in quality," said Band Director D. O. Wiley. Of the 105 members, 55 are freshmen students.

Fraternities Plan Fall Rush Week

Dates for fraternity rush activities will be set Sunday when the Inter-Fraternity Council meets at 1:30 p.m. in the Student Life Conference Room. Other arrangements concerning spring functions, tentatively set at last Sunday's meeting, are expected to be completed and definite plans begun.

Presidents representing the eight men's social organizations at Sunday's meeting were: Allan Tomlinson, Pi Kappa Alpha; Dave Thomas, Alpha Tau Omega; Moody Alexander, Phi Delta Theta; Max Von Roeder, Kemas; Hermon Caskey, Kappa Sigma; Raymond Mires, Sigma Nu; Donal Hamill, Adelphi, and Bob Pyle, Phi Kappa Psi.

Union to Operate On \$5 Student Fee

Remember when you paid your registration fee last week?

Perhaps you were wondering about the one marked "Student Union Fee," the one that cost you \$5.

It's nothing new. Other student union buildings on other campuses have done it for some time. It will be used for the operation of Tech's own Student Union Building.

Eight per cent of the money will be set aside for depreciation, repairs, and to replace equipment. The rest will be used for salaries, custodian services and entertainment. Only the snack-bar and the concession stand are self-supporting.

As Bob Scott, the Union's new director put it, "the students by virtue of paying the fee become stock holders in their Student Union Building."

PROMOTION ANNOUNCED

Hampton Green, professor of military science and tactics at Tech, has been promoted from lieutenant colonel to full colonel. He received his orders giving him his promotion Sept. 1.

Col. Green came to Tech Oct. 3, 1952.

The promotion gives Tech two full colonels in its ROTC program. The second colonel is Col. Ollen Turner, professor of air science and tactics.

Two Sororities Accept Invitations To Colonize

Delta Gamma and Alpha Chi Omega, Greek letter sororities, have accepted invitations to colonize on the campus this fall. Dean of Women Marjorie Neely said this week that she is corresponding with national officers of the organizations, hoping that initial steps can take place the latter part of the semester.

Alpha Chi Omega is comprised of 76 active chapters and 107 alumnae clubs. Founded at DePauw University, Greencastle, Ind., it was one of ten sororities which founded the National Panhellenic Association. Its charity work has included care for 157 French war orphans after World War I, aid to British children in World War II, and at present, aid to children afflicted with cerebral palsy. Contributions to fine arts scholarships are made annually. Only one other chapter exists in the state at present, at the University of Texas. Chapters at West Texas State and Texas Tech will be formed this fall.

Delta Gamma has 77 active chapters and 200 alumnae clubs. It was founded at Lewis School

in Oxford, Miss. As a national philanthropy, it devotes aid to sight conservation and to the blind. The Nursery School for the Visually Handicapped is maintained at Los Angeles, Calif. Scholarships are provided for training of specialists to work with the blind.

Freshmen Men Will Form Red Shirt Organization

Red Shirts, an organization for encouraging school spirit among freshman men, will be organized by the Saddle Tramps at meetings held at 6:30 tonight in each men's dormitory.

Freshmen in each dorm will elect a president, announces E. J. Tarbox of the Saddle Tramps. Assistants will be chosen for each wing in a dormitory.

Scheduled to make its first appearance at the pep rally preceding the Tech-AAM game, the organization will be identified by the red shirts and arm bands worn by its members. All freshman men are eligible to join.

Five Sororities Pledge 140 Coeds This Fall

Texas Tech's five newly nationalized sororities have indicated that 140 coeds will be on their pledged programs for 1953.

Names of the women students who have received bids were released this week. Eta Beta Phi will pledge 26; Delta Delta Delta, 37; Kappa Alpha Theta, 33; Kappa Kappa Gamma, 23; and Zeta Tau Alpha, 21.

Two hundred and twenty-nine rushes participated in the opening phase of rush week program. Of the 50 coeds who signed up for open rush, some participated in regular rush week and some did not.

"Open Rush" means simply that the sororities are given the opportunity to entertain the rushes at will and can also pledge them at will.

Pledge rosters of the groups are as follows:

Delta Delta Delta: Kathy Kerbow, Sweetwater; Janice Cox, Carlsbad, N. M.; Phyllis Emory; Lamesa; Carolyn Keeling Odessa; Joan McGee, Hereford; Janet Johnson, Frankfort; Le Nell Enochs, Clifton; Donis Stone, Talpa; Jane Carol Brown, Jeri Anglin, and Done Phillips, all of Plainview; Jane Jackson, Petersburg; James McKinley, Dallas; Gayle Webb, Elaine Russey, Carolee Williamson and Phyllis Swartout, all of Fort Worth; Joyce Thorpe, Littlefield; Carolyn Dennis, Whiteface.

Pi Beta Phi: Gladys Bain, Sylvia Dietering, Joanne Holmes, Diane Honey, Nelda Vaughter, and Joanne Roberts, all of Lubbock; Carol Chancey and Gladys Crandall, both of Fort Worth; Annette Cochran, Childress; Patricia Derrick, Idalou; Deanie Edwards, Tahoka; Marie Fox, Uvalde; Patsy Mathis, Longview; Helen Norris, Plainview; Marguerite Paschal, Vernon; Jane Taylor, Seymour; Beverly Wood, Spur.

Kappa Alpha Theta: Beverly Bennett, Kansas City, Mo.; Grace Boles, Ardith Campbell, and Dolie Hart, all of Midland; Vivian Brake and Ann Perkins, both of Pampa; Barbara Bridges, Dallas; Beverly Brooks, San Angelo; Jim-

mie Lou Brown, Levelland; Carol Clark, Bureson; Joan Chesher; June Coker, Betsy Fonville, Dorothy Kelly, Cherrille Lemon, Patsy Loke, Dale Mahon, Gioretta Reynolds, and Janet Yancy, all of Lubbock.

Shirley DuPriest, Waco; Marlon Evans, Carolyn Fritchman, and Kittie Ann Logan, all of Fort Worth; Marilyn Graham, Hobbs, N. M.; Mary Gristy, Wichita Falls; Dorcas Morrison, Garland; Patty Panson, Forney; Pat Randolph, Abilene; Pat Tinney, Bowie; Charlene Willoby, Amarillo; Elizabeth Wilson, Quail; Betty Wood, Wellington; Sally Wood, El Paso.

Phi Beta Phi: Gladys Bain, Sylvia Dietering, Joanne Holmes, Diane Honey, Nelda Vaughter, and Joanne Roberts, all of Lubbock; Carol Chancey and Gladys Crandall, both of Fort Worth; Annette Cochran, Childress; Patricia Derrick, Idalou; Deanie Edwards, Tahoka; Marie Fox, Uvalde; Patsy Mathis, Longview; Helen Norris, Plainview; Marguerite Paschal, Vernon; Jane Taylor, Seymour; Beverly Wood, Spur.

Delta Delta Delta: Kathy Kerbow, Sweetwater; Janice Cox, Carlsbad, N. M.; Phyllis Emory; Lamesa; Carolyn Keeling Odessa; Joan McGee, Hereford; Janet Johnson, Frankfort; Le Nell Enochs, Clifton; Donis Stone, Talpa; Jane Carol Brown, Jeri Anglin, and Done Phillips, all of Plainview; Jane Jackson, Petersburg; James McKinley, Dallas; Gayle Webb, Elaine Russey, Carolee Williamson and Phyllis Swartout, all of Fort Worth; Joyce Thorpe, Littlefield; Carolyn Dennis, Whiteface.

Kappa Kappa Gamma: Sandra Bailey, Brownfield; Carolyn Coe,

Robin Huff, Gail Scott, Vera Kinkler, Katie Mathieu, and Muriel Brann, all of Lubbock; Daisy Holby, Post; Jeannine Hooper and Rita Danenburg, both of Roswell, N. M.; Pat Lynes and Darlene Mulherin, both of Amarillo.

Zeta Tau Alpha: Zelma Barrett, Troup; Whitred Bureson, Lamesa; Lynn Garter, Pat Crews, Joyce Davidson, Nancy McKisack, Mary Jane Miller and Pat Scott, all of Lubbock; Jo Ann Farr, Fort Worth; Pat Frack, Midland; Jean Colett, Abilene; Ann Graham, Pecos; Gale Hays, Ballinger; Jana Heber, Austin; Beita Martin, Plainview; Jean Mobley, Kilgore; Gloria Patterson, Lorenzo; Cecilia Pamber, Portales, N. M.; Marilyn Sneath, Plains; Mary Ann Tongate, Waco; Sandra Yarbrough, Ysleta.

MONDAY ENDS

Monday will be the last day on which a course may be added, according to the official calendar. It will also be the last day to register and pay fees except in the evening program.

Freshmen Introduced to College Ways With Week of Campus Social Activities

Freshmen began their college careers with a rush of activities last week.

A freshman mixer was held on the Ad Building Green Monday morning. J. C. Chambers, president of Student Council, was master of ceremonies.

A reception honoring freshmen students was given Monday night in the Union Ball Room. Pres. E. N. Jones, administrative officers, and deans of the divisions were introduced. Junior Council members and the Student Union Hospitality Committee served as hosts.

Tech personalities were presented to freshmen Tuesday night in the Recreation Hall. President Jones delivered the address. The Student Council, with J. C. Chambers acting as master of ceremonies, was sponsor.

The AWS Big Sister-Little Sister party for freshman women was held in the Student Union Building Wednesday night while freshman men students had a stag party in the Recreation Hall. Lena Schmidt, AWS president, was master of ceremonies for the women's party, and Hardy Clements, Saddle Tramps president, was master of ceremonies for the men's party. A get-acquainted dance for all freshman students followed the parties.

Techsians attended open houses honoring new students at 15 local churches Thursday night.

Freshmen got their first glimpse of college spirit in action when a pep rally for all students was held in the gymnasium Friday night. The football team and coaches were introduced.

Malouf's

for men

Are you "fashion-wise". Not unless you shop our "strictly new" campus clothes . . . The "fashion-wise" man always shops MALOUF'S first.

1108 Ave. K

Inventory . . .

Both the grinning optimist and the grimacing pessimist are off the mark when they try to evaluate Tech to the new student. The truth lies between the two points of view.

What does Tech have and what does it lack?

On the credit side of the ledger are items like the campus itself, with its mood of unity and order—qualities not found on older campuses that have "just grown." There are the dormitories to consider: many other colleges, particularly some in the West Texas area, envy the accommodations which Tech offers its residents. The college offers the student a wealth of organizations and other activities, including the Artist Course programs, which cannot be duplicated by any city or any other college nearby. Less tangible assets are the college's reputation, created by its prestige as an engineering school and by its constantly improving faculty, and the distinction lent the school by the national fraternities—both social and honorary—that have chapters here.

In the debit column of the book are items like the barn which serves Tech as a gymnasium and the controversial dormitory meals. Tech lacks a solution to its traffic problem, adequate enthusiasm among the students for pep rallies and elections, and organized independents.

Neither of the above lists—the "Has" and the "Has Not"—are complete; many items could be added to both.

After thinking about Tech for a time, the new student will likely realize that the outlook is neither black nor white, but an intermediate shade of gray. He will see, however, that the shade is closer to white than to black.

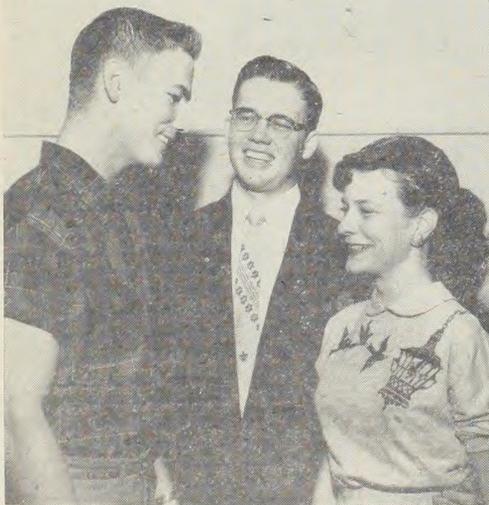

Announcement . . .

This year's Toreador will be a weekly newspaper, published each Wednesday afternoon. Deadlines for news from campus organizations is 5 p.m. Monday unless other arrangements are made with the editor. Final deadline for all copy is 5 p.m. Tuesday.

Not Forgotten . . .

The college has fielded its first team of administrators and students to welcome those persons coming to Tech for the first time. That's as it should be.

But an even heartier welcome is hereby extended to those returning to Tech for the first, second, third or more times.

SENIOR AND SOPHOMORE MEET SLIME—Getting acquainted on one of the fall semester's opening days are, in the usual order, Gerald Clark, Corpus Christi sophomore; J. C. Chambers, Lubbock senior; and Willida Wells, Ft. Stockton freshman. Chambers is president of the Student Association and a member of Phi Delta Theta. Clark is pledging Adelphi.

(Avalanche-Journal photo)

TECHnicalities the foreador

RALPH SHELTON

Toreador Editor

The final period of initiation into a fraternity is often dubbed "Hell Week" by the initiates involved. There is no longer any doubt in our minds, however, that the genuine week of that sort is composed of the days spent in preparing for the semester's first issue of a college newspaper.

Since some sort of defense mechanism has already mercifully made us forget most of the duties that had to be performed before this issue could be turned over to the print-shop, we won't try to burden you with an account of the labors.

The point of all this is that we hope you will pardon us for not trying to write a column on some profound and significant subject, one which would arouse the student body to think and change the course of destiny. The deathless prose can come later; until now it's been too busy and too hot.

Campus Sounds Picked Up By a Roving Recorder:

Football talk in the Student Union (a new sound for Tech, since the Union is in its first fall season) . . . Saturday night's victory bells ringing in the Ad Building tower . . . social conversation centering around organizations with Greek-letter titles instead of

the familiar social club names . . . surprised comments from persons catching sight of Tech's most luxurious beard (see page 10) . . . heated debates about the absence regulations that go into effect this semester . . . gasps when the man in the Bookstore names the total price on those texts (the gasps will be louder when he buys them back at the end of the year) . . . the wild, wonderful voice of Cheerleader Joyce Matthews at Saturday's game . . . and last, just the greater volume of voices that the increased enrollment has brought to the campus.

All students, we wish to emphasize, are eligible and welcome to work on The Toreador. We can find a job for any student, Journalism major or not, who has a few hours to spare. Especially needed are cartoonists and photographers.

Another reminder: the Backtalk or Letters-to-the-editor column is your best means of sounding off to the whole college. Almost anything you need to ask or tell can be put into your letter. No profanity, though, please; our copy-readers shock easily. The Toreador does not print anonymous letters; but your name will be withheld from print if you so request.

THE TOREADOR, student newspaper of Texas Technological College is published each Wednesday on the campus at Lubbock by the associated students of the College.

Slime Cap Funds

Eight Students Announced Winners Of Annual Sophomore Scholarships

The winners of eight sophomore scholarships at Tech were announced last week and include two from Odessa and Lubbock and one each from Levelland, Lampasas, Quitaque, and Pass Christian, Miss.

Dean of Student Life James G. Allen, in announcing the winners, said the students would receive \$125 during the next nine-month school year. They were selected for outstanding scholastic achievements, character, and leadership abilities.

The sophomore scholarship fund is raised annually by the Hemp-hill-Wells Company from the sale of freshman "beanie" caps. All money from the cap fund goes toward the scholarships.

Awards

Winners of the 1953-54 awards are James H. Knight and Charles R. Faulkner, both of Odessa; Millie Janell Hay and James C. Wine, both of Lubbock; Royal M. Hagerty, Jr., Pass Christian, Miss.; Bobby McGehee, Lampasas; Monte Joe Wise, Quitaque; and Dan Green, Levelland.

major, is a member of Phi Eta Sigma, freshman honor society, and the Air Force ROTC. He had a grade-point average of 2.73 during his first year at Tech. Faulkner, a chemical engineering major, was sixth among 225 freshman engineers at Tech last year. His grade-point average was 2.72.

Miss Hay, an English major, worked part-time as an assistant in foreign languages. Her grade-point average was 2.79. Wine, the only married sophomore of the eight, maintained a grade-point average of 2.82 in electrical engineering and held a part-time job as a draftsman for a local construction company.

APO Member

Hagerty was a member of Phi Eta Sigma, pledged Phi Delta Theta, and was a member of Alpha Phi Omega, service organization for former Boy Scouts. His grade-point average in electrical engineering was 2.82. Green, a pre-medical student, was in Phi Eta Sigma and had an average of 2.93.

McGehee, an agronomy major, was an honor student in Lampasas High School. He held a

Absence Changes Put Responsibility On Each Student

Responsibility for class attendance this year will be placed on the shoulders of the individual students, says Pres. E. N. Jones. The revised absence regulations, effective Sept. 19, divide students into two classes—those doing satisfactory work and those who are not.

The student doing satisfactory work is responsible for his own class attendance until his absences add up to two weeks of classes or until he misses a week of classes consecutively. Then a notice will be sent to the dean of his division.

The instructor reports the state scholarship and a scholarship from the Sears Foundation, plus a part-time job on the Tech Dairy farms, during his first year. His average was 2.63. Wist, the highest ranking freshman in the agriculture division, will switch majors from veterinary science to chemical engineering this year.

Eight of Original Faculty Remaining

When Texas Tech opened on Sept. 20, 1925, the faculty was composed of thirty-five educators. Eight of that number began the twenty-eighth annual session of the college this fall.

dent doing unsatisfactory work when the total number of absences in the course, consecutive or otherwise, equals one week of classes, or when the total number of absences becomes sufficient to jeopardize his standing in the course. It is up to the instructor to decide when this point has been reached.

The new regulations discontinue negative hours, double cuts, and make-up cards.

"Records of Eligibility for Out-of-Town Trip" slips will continue to be used. Also, clinic, infirmary, and dormitory illness slips will continue to be used. Although there is no such thing as an "excused absence," these slips will help the instructor decide whether he will permit work to be made up. The student is responsible for all work of the course, whether present or not.

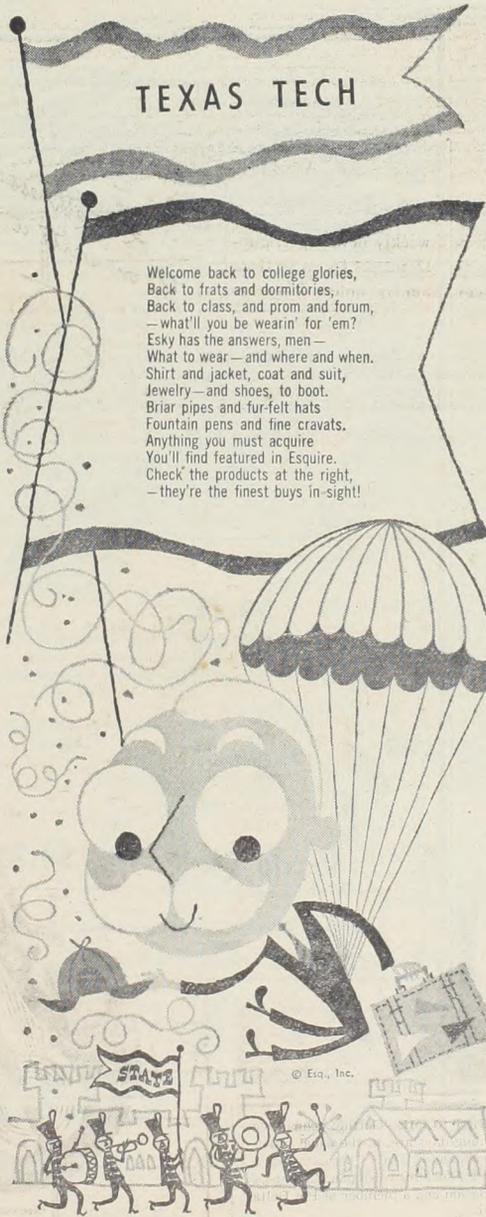

The original faculty members still teaching are: W. L. Stangel, dean of the Division of Agriculture; Dr. W. B. Gates, dean of the Division of Graduate Studies; Dr. R. A. Studhalter, professor of botany; Dr. C. B. Qualla, professor and former head of the department of foreign languages; Dr. C. D. Eaves, professor of history; J. H. Murdough, professor and head of the department of civil engineering; Dr. Eunice Gates, professor of foreign languages; and Mrs. Joannie Michie, professor and head of the department of foods and nutrition.

Several members of the original faculty live in the Lubbock area, but only the eight listed are still at Tech.

Dolores Ketchersid, Tech graduate, is now employed as a newspaper reporter in Galveston. She received her BA degree in journalism in August, 1952.

Red Raiders Will Be Out for Blood In Saturday's Tangle With Miners

With revenge as their motive, Tech's Red Raiders will be out for blood when they tangle with the Miners of Texas Western College in El Paso Saturday night.

Last year the Miners pulled the biggest upset of the 1952 Border Conference race by knocking off the Raiders, 20-14. It was Tech's only conference loss in two seasons and the first decision for Western over Tech since 1939.

While an alert, aggressive Tech eleven blasted out a 40-14 victory over West Texas State last Saturday night, the Miners were also flexing their muscles, downing Sul Ross of Alpine, 26-7. Playing at home, Texas Western had little trouble rolling to touchdowns in each period. Sul Ross scored in the fourth quarter.

Standing in the way of Coach DeWitt Weaver's hopes for revenge is the fact that Miner teams generally are extra rugged for Tech in El Paso. Tech's 1949 Border Conference champions barely gained a 13-0 decision, and the 1951 titlists took a 27-7 victory that part way through the third period easily could have gone to the Miners.

Trainer Landon Westbrook reported Tuesday that as far as lack of injuries is concerned, the Tech squad is in great shape.

"We actually came out of the West Texas game in better shape than we went into it," he said. "A few of the players who had minor injuries, principally pulled muscles, were improved by the fast action of the game."

Library Stacks Open to Students Under New Policy

Library stacks are now open to all students.

The new policy is being initiated this fall to enable students to browse through the books that are shelved according to relationship.

"Related books were often overlooked in the subject catalog system," says Assistant Librarian J. E. Platz.

Helpful lists have been posted in the stacks giving directions and explanations of call numbers. The student will fill out a new card which replaces the paper call slips; select his book from the stacks, being guided by the call number; and return to the counter in the outer lobby to be checked by a librarian.

The new card system also replaces former book cards serving the dual purpose of call slip and date-due file card. The holes along the left of the card are for date due data and the holes along the right are to be used for the faculty alphabetical file. Otherwise the information is similar to that required by the former call slips.

Books will be returned as usual in the slot in the counter. Mr. Platz urges students not to shove books themselves because "a book out of place is a book lost."

Approximately 1650 books have been added to the library collections. They include many valuable reference books.

Miller New Coach For Frosh Cagers

Bill Miller, son of W. A. Miller, director of athletics and head basketball coach at West Texas State College of Canyon, has accepted the position of assistant basketball coach at Texas Tech. He will be working with the first-year men.

Miller, recently has served in the Air Force as a first lieutenant. Before entering the service he was a four-year letter man at West Texas. He later coached the Dalhart High School team and served as base athletic director of Amarillo Air Force Base where he was player and coach of the Amjets.

"We are very fortunate in obtaining Miller's service. He will help us a lot in the stepped up schedule of this and future seasons," said Coach Robinson.

C of C Manager Enters Tech

Lamesa's Chamber of commerce assistant manager resigned his position to enter Tech this fall. Joe Stephens will major in animal husbandry in preparation of a vocational agriculture career.

Picadors Kick-Off Tomorrow Night

The Picadors, freshman football team, will meet the Clovis Air Force Base Volunteers in Jones Stadium at 8 o'clock tomorrow night. The team, coached by Bob Kellogg, will play a full schedule this year including New Mexico Institute and Hardin-Simmons University.

Starters for tomorrow's tilt will be: ends, Lester Bruner and Hal Byrd; Tackles, J. B. Turner and Jim Collins; guards, Quincy Hodges and Bill Harrowood; center, Doug Campbell; quarterback, Charlie Osborne; halfbacks, M. C. Northam and Dick Wall; and fullback, Charles Johnson.

Students will be admitted with activity books or 50 cents. Adult tickets will cost \$1.

Tech Opponents Lose Grid Bouts

Texas Tech's opponents in the Border Conference got a cold reception from non-conference teams last weekend.

All seven teams were in action, five against non-conference opponents.

Arizona State College at Tempe, placed on two-year probation last August for violations of the association's athletic code, was vanquished 19-14 by San Diego Naval Training Center.

Red Raiders Defeat Buffaloes; Game Seen By 14,000 Fans

Tech's Red Raiders, playing a hard, aggressive ball, smashed through to a 40-14 victory over the West Texas State Buffaloes in a grid contest in Jones Stadium last Saturday night. A crowd of 14,500 fans watched the Raiders come surging from behind to overcome a 7-0 Buff lead and go on to stack up 20 points, getting hotter as the game progressed. Jack Kirkpatrick clinaxed the Raider scoring when he took a Buff kickoff in the final quarter and raced 100-yards for the tally. The touchdown sprint mashed a former record of 97 yards by Frank Graves against New Mexico in 1951.

Six Raider backs took part in the scoring. Jim Sides drove 36 yards for Tech's second touchdown to give the Raider crew the lead, nine seconds deep in the second quarter. Halfbacks Skeeter Lewis, Norman James, Bobby Cavazos, Walter Bryan and Jack Kirkpatrick accounted for the other Tech allies. Bob Whelchel chalked up the first West Texas touchdown, with Joe Walden scoring the final ally. Both scores came on short plunges. The twelve Tech backs unleashed by Coach Weaver had a field day. Each racked up a net gain average in two figures. Sides was on ground gainer with 61 yards in four carries, followed by Fullback Rick Spinks and Halfback Pat Green, each with an average of 10 yards a carry. Other leading ball carriers for Tech were Jerry Johnson with a six-yard average, Bobby Cavazos with three and Lewis with a five-yard average.

Tech's quarterbacking showed remarkable improvement over last year, with Johnson, Kirkpatrick and Buddy Hill turning in impressive performances. In Tech line, Tackle Jimmie Williams was a standout on both offense and defense. Tech rolled up 398 yards rushing, 232 of them on the ground. Most of West Texas' total of 173 came in the air, the Buffs finding a few holes in Tech's aerial defense late in the game. The Buffs, surprising the Raider eleven with unexpected power, scored first in the initial stanza. The Buff tally climaxed a 71-yard march on 12 plays, with a Raider penalty to push them along. West Texas' second tally came at the end of a 69-yard drive that took up 11 plays, three of these being passes. The Raider Crew bounced back to tie the score early in the second quarter. Center Billy Rickerts recovered a Buff fumble on the 38. Janes pried up a couple

yards, then Sides powered his way 36 yards for the TD. Janes climaxed a 63-yard drive with a four-yard smash over left tackle to close out the second quarter scoring.

Genuine SHELL CORDOVAN

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response—right now! Chevrolet's improved brakes are the largest in the low-price field.

I figure this demonstration saved me many hundreds of dollars!

I expected to pay that much more for a new car until I discovered I was better off in every way with this new Chevrolet!

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

You get greater getaway with the new Powerglide*

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p. "Thrifty-King" engine.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

SEE YOUR CHEVROLET DEALER FOR ALL YOUR AUTOMOTIVE NEEDS!

Conveniently listed under "Automobiles" in your local classified telephone directory

Parking Regulations Go Into Effect Next Week; Each Student To Use Own Space 8 A.M. to 12

Dormitory students accustomed to riding to classes will find themselves on foot this semester as new campus parking regulations go into effect. Cars of such students must be parked in lots assigned to their dormitories, and no where else on the campus.

Applications which were passed out to car owners during registration announced that a parking fee of \$1 will be charged. These applications must be filled out and returned to the office of the dean of men by Oct. 1.

In a effort to relieve the traffic and parking congestion on the campus a traffic committee has been created which will assign each driver a definite parking place.

The parking privileges will be enforced from 8 a.m. through 12 noon daily except Sundays and holidays.

Vehicles found parked on the campus without the permit will be given a courtesy ticket which is a reminder to the driver that a violation has occurred and asking his cooperation.

If a vehicle is found parked repeatedly on the campus without the parking permit it will be identified and proper action will be taken to remedy the violation in the future.

Eight areas have been assigned as follows:

1. West of West and Gordon Halls, north of Gordon and Bledsoe Halls; for students in West Hall, Sneed Hall, Bledsoe Hall, Gordon Hall; for Museum, East Engineering Building, X3, 4, 5, and 31.

2. West and south of Doak Hall; for students in Doak Hall; for bookstore, nursery, Home Economics Building, psychology laboratory and testing center, Home

Economics Practice House, and Casa Linda.

3. East of Drane and Horn Halls, and west of Knapp Hall; for students in those three halls.

4. South of Administration Building, between Library and chemistry buildings, and south of Music Building; for Administration, Student Union, and Music buildings.

5. South of Science Building and South of Extension Building; for Agriculture, Agriculture Engineer-

ing, Veterinary Science, Speech, Speech Extension, and Speech Workshop buildings, new and old greenhouses, pavilion, and X17, 18, 19, 20, and 21.

6. West of Journalism Building; for Science, Library, Journalism, and Infirmary buildings.

7. West of West Engineering building; for West Engineering, Petroleum, and ROTC buildings, and X9, 10, 11, 12, 13, and 14.

8. South and north of Textile Building.

Success of New English Class System Shown by Drop in Freshman Failures

A definite drop among freshmen flunking basic English courses at Texas Tech has been noted following a year in which a new system of student-grouping was in force.

A preliminary inventory of the year's work, conducted by the Department of English at Tech, shows that, when placed in special sections, students less skilled in English made much better grades.

Tech's English department set up a program for "slower" English students, based on their guidance and counseling test grades. Students with less background in English were placed in special classes meeting five times a week rather than the customary three.

More advanced English students were in regular classes. At the end of a term, both the five-day and three-day classes had covered the same material.

Dr. Truman Camp, head of the department, said 42 per cent of

the less informed freshmen students flunked English in the spring of 1952 before the new system went into effect. In the spring of 1953, only 23 per cent failed and 25 per cent made a "C", or average grade, compared to 13.5 per cent under the old system. There were no "As" or "Bs" in 1952 among the slower freshmen, but 2.5 per cent made "B" under the new system. There were still no "As".

"The added time gives the instructor more opportunities to diagnose the individual student's shortcomings, and carry out a remedial program," according to Dr. G. E. Giesecke, academic vice president.

Fulbright Grant to Benefit Seniors, Grad Students

Seniors and beginning graduate students at Texas Tech have until Oct. 31 to apply for foreign study grants under the Fulbright Act and the Buenos Aires Convention for 1954-55.

Dr. G. E. Giesecke, academic

vice president and campus Fulbright representative, announced the opening of study opportunities abroad. Details concerning grants and applications can be obtained at his office.

In general the Fulbright Act will cover transportation, expenses of a language refresher or orientation course abroad, tuition, books, and maintenance for one academic year. The allowance is based on living costs in the country in which the award is tenable—and in the currency of the country. Transportation and maintenance of dependants are the responsibility of the grantee.

Before making application, applicants are expected to have a study plan which can be carried out profitably in a year.

Selection of students for grants under the two programs is based on the applicant's personal qualifications, academic record, value of proposed study or research, and suitability for placement in an institution of higher learning abroad. Sweden has withdrawn from the program for 1954-55.

"The college wishes to encourage its graduating seniors, graduates, and faculty to investigate such study grants," Dr. Giesecke said.

"We feel that such experiences will broaden the individual, making him a better teacher and giving him a better understanding of world problems."

Drane Hall Takes 180-Man Surplus

An increase in male enrollment this fall has resulted in the assignment of 180 single men to the second and third floors of Drane Hall. This dormitory has been used primarily in the past for married couples, faculty members, and staff personnel who are now occupying only the first floor.

Drane men have been assigned to Doak, Horn, and Knapp Halls for their meals.

William H. Crutcher, cashier in the housing office, stated that dormitory rooms probably will be plentiful after freshmen progress reports go out. There are no immediate plans for increasing the number of dormitories, he added.

The new system students are placed back in the regular academic program after their freshman year. Since the program is only a year old, results of their development in advanced courses are not available.

Coeds From Coast-To-Coast "Aye" Arrow Gordon Oxfords

Gals acclaim neatness and style appeal of these campus favorites

The ladies' vote is unanimous: Arrow Gordon Oxfords do much for a guy's appearance. Taking their cue from this coed consensus, Arrow dealers are now featuring the largest selection ever of Arrow Oxfords in many smart collar styles.

Air Force ROTC To Issue Certificates In Lieu of Commissions, Based on Need

All AF ROTC contact students will be continued with the understanding that some may receive a certificate of completion in lieu of a commission, according to Col. Ollen Turner, professor of air science and tactics. Certificates will be dependent on active duty needs of the Air Force at the time of graduation.

Students who qualify for flight training and desire it, will be commissioned upon graduation, information received by Col. Turner from the Air University at Montgomery, Ala., states. Students who hold certificates of completion will be eligible for a commission if they complete in an enlisted status the same period of active duty as required of selective service inductees, which is two years.

Air Force policy contemplates permitting these AF ROTC graduates to enlist for a two-year period in the grade of A/2c (formerly corporal), based on certificates of completion of the AF ROTC course.

The number of freshmen and

sophomores will not be changed, states Col. Turner. Any freshman interested in the Air Force ROTC is encouraged to enroll as there is no restriction or control over the basic course including the freshman and sophomore years, he emphasized.

Outside of a few AF ROTC students, whose specialties in engineering and science are needed by the Air Force, the only students who may take the last two years of AF ROTC work are those meeting the physical and mental qualifications for flight training.

A recent report that the Department of Air Force said "some" Air Force ROTC juniors may not get contracts in 1953-54 made the headlines. Col. Turner was later informed that all seniors would continue under the Air Force contracts, but some would receive certificates rather than commissions upon graduation.

Baylor, Tech Plan Joint Curriculum

Baylor University and Texas Technological College jointly announced last month a co-operative five-year program in engineering.

The student would study three years at Baylor, and then would attend Texas Tech for two years and a summer session, majoring in some branch of engineering.

At the end of the five years, the successful student will receive both the Bachelor of Arts degree from Baylor and the Bachelor of Science degree in the appropriate branch of engineering from Texas Tech.

"This program will afford a broader opportunity for a more general education than is offered in the regular four-year curriculum in engineering," President W. R. White of Baylor and President E. N. Jones of Texas Tech said in their joint statement.

"The plan gives the engineering student ample opportunity to take a substantial amount of work in the humanities and other nontechnical studies, meeting a demand of industry for engineers with a broader background," the statement continued.

Dr. White pointed out also that if at the end of three years the student decides he does not wish to continue in engineering, he may attend Baylor for an additional year and receive a Bachelor of Arts degree.

Dr. Jones said that the co-operative plan is similar to a program which went into effect at Texas Tech in September whereby the student earns both the Bachelor of Arts and Bachelor of Science degrees in five years and a summer.

Dr. White said it parallels a plan in effect between Baylor and the engineering divisions of University of Texas and Texas A. and M. College.

FACULTY WOMEN TO MEET
Faculty Women's Club will have its first meeting Wednesday, Oct. 7. The club will meet at 3 p.m. in Drane hall. Mrs. Richard Heineman is president of the organization.

Tech Department Directs Broadcast

A new radio program, "Monday Night Forum," began on KSEL, Lubbock, Monday night, putting the spotlight on community problems.

Under the direction of the Adult Education Program of Texas Tech, the series of 13 weekly programs will be broadcast at 9 p.m. each Monday beginning Sept. 21. Community leaders and college staff members will participate as panel members.

The first four programs will be discussions of the following questions: "Does Lubbock Have a Traffic Problem?," Sept. 21; "Are We Heading For a Depression?," Sept. 28; "How Fare Lubbock Youth?," Oct. 5; and "Do We Work Well Enough With Our Neighbor Towns?," Oct. 12. From the fourth forum on the radio audience will decide what problems are to be discussed.

Dr. Dea-G. Stensland, head of the Adult Education Program at Tech, will moderate the forum. Members of the first panel will be Lewis Jones, Dean of Men at Tech; Professor E. R. Heineman, chairman of the college traffic committee; L. H. Andrews, Lubbock traffic engineer; and Bill Morgan, executive secretary of the Citizens Traffic Commission.

Tech Graduate Completes NMU Meteorology Courses

Lt. Billy F. Harris, 1952 Tech graduate from Breckenridge, has recently completed an Air Force program in meteorology at the University of New Mexico. The 57 hours of courses he took during his year's stay there was equivalent to two year's college work. The ex-Techian says he has three more years to serve.

He stated that of 66 students starting the courses only 41 finished. Seven of the total participating were Texans. Lt. Harris, agriculture education graduate, stated that about half of those completing the program would be assigned in the states and the other half overseas.

BEAT TEXAS WESTERN

WELCOME STUDENTS

The BOOKSTORE has the welcome mat out for all returning students and for the many new students who are entering Texas Tech for the first time.

In the BOOKSTORE you will be greeted by a friendly, courteous and efficient sales staff. They are especially trained to serve you, and will be glad to assist you in selecting your books and supplies.

In addition to offering and selling articles of merchandise the BOOKSTORE renders various services to the student body—such as—

CHECK CASHING

Personal checks will be cashed in reasonable amounts. Proper identification such as Auditor's receipt must be presented and all checks will be accepted at the Office during regular business hours.

WRAPPING FOR MAILING

The Bookstore realizes that many students have no method of wrapping and mailing packages and we will furnish paper, cartons, twine, labels, etc., absolutely free.

GIFT WRAPPING

Merchandise purchased from us will be gifted wrapped at no charge and this service is maintained the year round.

REPAIR SERVICE

If you have an old leaky pen, defective part to a set of instruments or a slide rule, we can return to the factory for replacement or repair. The only charge is that made by the manufacturer.

SPECIAL ORDER SERVICE

We maintain a special catalog service for any kind of book and various articles of merchandise not ordinarily stocked and can order such items as desired.

WHERE THE PROFITS GO

The College Bookstore originated the Student Union Building Fund by contributing the sum of \$150,000.00 from its reserve fund in 1950. Shortly thereafter the College sold \$250,000.00 in bonds and pledged Bookstore profits for the next ten years to pay off these bonds. Thus, The Bookstore, has contributed a sum of \$400,000.00 to the Student Union Building — a place for your pleasure and recreation.

So in shopping for your college needs, always remember when you make a purchase from your COLLEGE BOOKSTORE, you get full value plus a bonus dividend—for you and all Techsians—in the form of better recreational facilities.

BEFORE

Education Major Grows Chin Grass

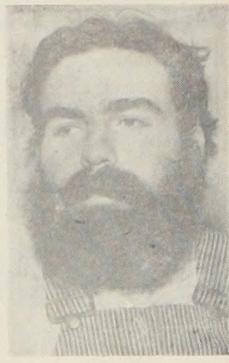

Donald H. Fortenberry's beard was five months old as registration week brought him back to Tech. He doesn't play on the House of David basketball team, he's not a publicity hound—he just doesn't like to shave.

He says shaving made his face raw and his neck break out, so he just quit. Last April 16 was the last time he shaved. Tech's annual Western Days celebration was just beginning, so he had an excuse. Now that he doesn't have an excuse, it doesn't bother him. He just admits that he doesn't like to shave.

Donald, a junior education major from Adrian, combs his beard often, and is not particularly troubled by it.

He sounds like that rugged individualist you hear so much about, but rarely see.

AFTER

Tech Choir Needs Altos, Sopranos

Openings in the Tech Choir, which will perform next spring with the Dallas Symphony Orchestra, were announced yesterday by Dr. Gene Hammle, head of the music department.

The choir has vacancies in its soprano and alto sections, but at present has no vacancies for male singers. It meets Mondays through Friday at 1 p.m.

Dr. Hammle also announced that the Festival Chorus is open to all students without audition. Tenors and basses are particularly needed.

Official musical organizations for the college, other than the two mentioned, are: the Men's Glee Club, the Concert Band, the Women's Glee Club, the "B" Band and the Lubbock Symphony Orchestra. According to the general catalogue, each ensemble allows one hour credit per semester.

Students Invited To Aid in Planning Union Programs

Students interested in registering for planning committees for the Student Union Building may do so Friday in the lobby of the building, it was announced today by Charlie Pipes, Union publicity director.

Those selected will begin immediately to select and execute plans for the future activities of the Union.

Committees to be selected are: dance, movies, hospitality, publicity, planning and decoration, and special events.

Burl Hubbard and his orchestra will play for a dance Friday night from 8:30 to 11:30 o'clock.

A "listening" party for those students unable to attend the game Saturday night will be conducted at 9 p.m. in the Border Student Organization Room (second floor). With the aid of a football map and pins these students will follow the radio broadcast of the game.

"Mr. Belvedere Rings The Bell" will continue a weekly series of movies in the ballroom Monday evening at 7 o'clock. No admission will be charged for these Monday night movies.

Official open house Tuesday from 6:30 to 8:30 p.m. will feature a dancing exhibition by the Arthur Murray School of Dance. Burl Hubbard will play for the 1953-54 open house dance.

Open hours for the coming year have been announced by the Union staff: Monday through Thursday—7:30 a.m. to 10:30 a.m.; Friday and Saturday—7:30 a.m. to 11:30 p.m.; Sunday—2 p.m. to 10:30 p.m. The staff also announced that within the next six weeks two billiard tables and one snooker table will be placed in the recreation room of the building.

Tryouts for Play To End Saturday

Tryouts for "The Miser" by Moliere will continue the remainder of this week in the Speech Building, according to Ronald E. Schulz, assistant professor of speech.

Reading of lines for the speech department's first play of the season began Monday afternoon. Performances of this dramatic production will be presented on the campus Nov. 9-14. The cast will then tour schools of the surrounding area Nov. 16-24.

The play requires 11 male and three female characters. A production staff including workers with scenery, props, costumes, and pub-

Gilmore Installed Prexy Of Dairy Manufacturers

Brian Gilmore, senior dairy manufacturing major from Vernon, was installed Monday night as president of the Dairy Manufacturing Club. Bob Williams was installed as vice president, Lowell Morris as parliamentarian, and Robert Francis as secretary-treasurer. Douglas Degge, elected reporter last spring, was not present.

Plans were discussed for a judging trip to be made Oct. 19 and for participation in the annual Tech homecoming parade.

licity will be selected also. Mr. Schulz expressed a desire to have people from departments other than speech participate in "The Miser."
