

ELIAS BADAWI, Egyptian newspaper editor is touring the country on an exchange visit and is shown here with two Tech students, La Doyce Lambert and Harold Cresswell, during his visit to the campus.

Egyptian Newspaper Editor Visits Tech During Exchange Tour of United States

Elias Ibrahim Badawi, editor of the oldest newspaper in Egypt, spoke to Tech journalism classes during his brief stay in Lubbock the past week.

In conferring with Dr. Hall, journalism department head, about the differences between Egyptian and American papers, Badawi stated that his paper had at least 165 persons on the editorial staff, which would be a tremendous number of employees for a complete newspaper staff in America.

Speaking about his newspaper's policy, Badawi said it always included a full page of pictures each day in addition to two or three photos per page.

Tuesday Badawi made a tour of the Tech campus with Dr. G. E. Giesecke, vice president of Tech. Along with visits to the museum, the textile engineering department, and the agriculture department, he discussed student self-government with James G. Allen, dean of student life, and lunched with student members of the International Relations Club. Tuesday night he attended the

Distribution Date Set for Yearbooks

La Ventana '55 will be ready for distribution sometime during the week of May 23, Linda Hudson, editor, announced today.

Books will not be mailed, stressed the editor, with the exception of those students who have dropped out of school or were graduated in January. Students leaving Tech before regular distribution of the annual tentatively set at May 26, will have to make private arrangements to pick up their books.

Miss Hudson recently returned from Iowa City with a report on the book's progress.

GARDENIA GIRL NAMED

Carol Crisler, Lubbock freshman, has been named Gardenia Girl for the month of May by the Pi Kappa Alpha Fraternity. She was serenaded last night by the fraternity, and presented a Gardenia by Truman Powers.

Student Union awards banquet with Dean and Mrs. Allen.

As a participant in the foreign leader program of the International Exchange Service of the U. S. Department of State, the 41-year-old bachelor left today to tour other parts of the country.

Gwen Williams Gets Rushing Award At Student Union Recognition Banquet

Gwen Williams, Tech senior from Lubbock, Tuesday night added the W. B. Rushing award to her collection of virtually every major award given coeds this year at the annual awards banquet held in the ballroom of the Student Union.

Gwen received the Rushing wall plaque award for having made the most outstanding contribution this year to the Union program. Named Tech's "Outstanding Woman of the Year" just a week ago, Gwen earlier in the year was selected by the student body as "Miss Texas Tech" of 1954-55.

Trophies for outstanding contributions to the Union were presented by William D. Scott, Union director, to: Gwen Williams, Melvin Deardorff, Ladon Sheats, Glenn Rainer, all of Lubbock, and Ann Collins, Plainview. Amil Angerson, assistant director, awarded keys for outstanding service to: Freeman Gross, Odessa; Chuck Strehli, Donnie Owens, Virginia Carr, Pat Harkleroad, Sylvia Dietering, all of Lubbock; Jack Pruitt, Odessa; Anne Rathjen, Canadian; Jackie Beckner, Littlefield, and Pat Broyles, Muleshoe. Miss Carol Seibert, program director for the Union, presented certificates for meritorious service to: Ruth Ann Cummings, Lubbock; Shirley Dupriest, Waco; Charlene Williamson, Fort Worth; Ann Hogg, Monahans; Ann Davidson, Wichita Falls; Bill Surber, Lubbock; Dorothy Briggs, Tulia; Shirley Caldwell, Lubbock; and Beth Van Maanen, Dallas.

LAST ISSUE

This will be the last issue of The Treador for this semester.

Student Council Adopts 1955-56 Budget; Site for Out-of-Town Football Game Set

By WAYNE JAMES
Treador Staff Writer

The 1955-56 Student Association budget was adopted at the last meeting of the year by the Student Council Monday night.

Other business included the selection of the University of Houston as the site of next year's official out-of-town football game. The game will be played in Houston at 8 p.m. October 22.

Only one change was made in the budget as proposed by the budget committee. This change was the transfer of .015 from the Tech Chamber of Commerce to the Student Council. This transfer cut the Chamber of Commerce from the budget. Last year it was cut from .025 to .015. Wayne Davis, Tech Chamber of Commerce president, explained to the Council some of the group's plans for next year in a discussion preceding the transfer of the proposed allotment.

The only new organization to sponsor a portion of the activity fee next year is the Saddle Tramps. They were allotted .02 for next year. In the past several years they have been omitted from the budget.

The Treador, Engineering Show, and KITC were each given a .02 increase over last year's allotment. They will receive .90,

.22, and .045 respectively next year.

The engineering organizations and the Student Council both received cuts in their allotments. The engineering organizations were cut .06 and the Council was cut .02. However the transfer of .015 from the Chamber of Commerce to the Council gives it a total cut of only .005. The engineering organizations and the Council will receive .05 and .345 respectively next year.

Other organizations that will receive allotments from the budget include: band, .60; home economics, .06; choral, .09; Student Religious Council, .02; Associa-

tion of Women Students, .02; International Relations Council, .02; dramatics, .08; Forensic, .08; aggressive judging teams, .31.

The total is \$2.86 which is the Student Council's share of each \$15 fall activity fee.

The Council unanimously approved by a roll-call vote a proposal that the Council recommend to the president of the college that the profits from non-dormitory vending machines on the campus be allocated to the Student Council. If the Council should receive this money it would be distributed among the organizations that receive money from the activity fee. This motion had been made in each of the last two council meetings. Both times it was tabled for further study.

Roy Smith reported to the Council on the Varsity Show. The Varsity Show made \$230.35 profit besides the rental fee on the auditorium.

Swimming Party To Feature Food, Contests, Dancing

Hey kids! The Union Program will sponsor Tech's first all-college swimming party tonight beginning at 6:30. Besides swimming, there will be dancing, contests, and food.

The big event of the party will be the Miss Venus contest. A form will be set up in the shape of a girl standing sideways. The girl who fits into this form will be named Miss Venus of Texas Tech.

The party will be held at Mackenzie Park pool from 6:30 p.m. to 9:30 p.m. A record dance will be held on the patio, and coffee and donuts will be served. Entrance cost is fifty cents and refreshments will be extra.

Transportation will be provided for those who want it. Plans are now being made for vans to pick up students at the girls' dorms.

The boys, and some girls, will be interested in the clown diving contest. Sweat suits will be provided for protection and a prize will be given for the craziest stunt diver. Lifeguards will be on hand for the occasion.

Rodeoers' Conduct Shuts Down Union

"Have we gone too far this time?" Tech rodeoers are asking themselves this week after a show of boisterous conduct caused the Union Building to be closed last Thursday before the first performance of the Tech Rodeo.

The request for closing the Union came from both Block and Bridle and the Rodeo Association.

Breakable dishes and polished furniture had been removed from the Union Building beforehand in anticipation of an "out-of-the-ordinary" celebration during rodeo week, but high spirited cowhands proved to be too rough, even for temporary fixtures.

"The sum total of Rodeo activities should be reorganized and rechanneled to create the proper school and rodeo spirit among the student body," said President E. N. Jones.

LOST AND FOUND

May 23 to May 25 has been set as the dates for claiming lost articles. They may be claimed in the directors office of the Student Union building.

GWEN WILLIAMS

Staff Applicants Needed for Paper

Students wishing to apply for staff positions on The Treador for 1955-56 were asked today by Bob Rooker, editor-elect, to turn in their names within the next two weeks.

"A large and vigorous staff will be needed to produce two issues a week, as planned for next year," Rooker said. He plans to make the staff representative of all fields of student activity.

Rooker suggested that in many cases the reporters designated by student organizations may wish to work as a member of The Treador staff, in order to assure better coordination in preparing organizational publicity.

Those who want to be a part of the enlarged Treador were asked to turn in their names directly to Rooker, or leave them in the Treador's mail box in the first-floor corridor of the Journalism Building. Applicants should add the type of activity they prefer, their address and telephone number.

Among staff positions to be filled are: assignment editor and assistant, cartoonist, sports editor, sports columnist, sports writer, society editor, society writer, social news columnist, music editor and assistant, drama editor, book review editor, religious activities editor, copy-desk chief, copyreaders, proofreaders, exchange editor, editorial writer, campus topics columnist, general assignment reporters and rewrite men.

Also needed are reporters for such special activities as student government, religious activities and Student Union events.

RECITALS ARE SCHEDULED

Sunday and Monday will be big evenings for three Tech music students. Margaret Ammer, violinist, and Wayland Stephens, bass-baritone, will be presented in a Junior Recital at 8:15 p.m. Sunday in the Music Building auditorium. Alice Ann Yates, soprano, will have a recital Monday night at the same hour and place in a Senior Recital. Piano accompanists will be: Margaret Schindler for Ammer, Martha Judah for Stephens, and Phyllis Elson for Yates.

Exes To Observe 'Texas Tech Day'

Texas Tech will reign supreme Saturday when "Texas Tech Day" is observed throughout the South-west.

Forty or 50 chapters of the Tech Ex-Students Association have scheduled meetings in honor of the event, according to L. C. Walker, executive secretary of the association.

A tape recording is to be broadcast by some 20 stations concerning Tech's growth and future prospects as related to an alumnus revisiting the college. The recording is available for club meetings and for radio stations desiring to broadcast it in connection with the day's activities.

Mr. Walker requests that any group of ex-students interested in obtaining the recording contact him at the earliest possible date. In Lubbock, the program may be heard at 5 p.m. Saturday on KFYO.

July 1 is Deadline For Scholarship

Interested sophomore women students have until July 1 to make application for a \$100 scholarship being offered by Alpha Lambda Delta, honorary freshman women's sorority.

To be eligible the girl must be a sophomore and have a minimum 2.5 grade point average on freshman work; she must maintain a minimum of 2 point grade average during her first semester to keep the scholarship the second semester, and she will be judged on her participation and leadership in campus organizations.

The scholarship will be divided over the two semesters giving the winner \$50 per semester.

Application blanks may be obtained from Jane Holman or Helen Stafford of the biology dept. in the new science building.

McGEE TO HEAD DOAK ASSN.

Glynn McGee was elected president of the Doak Dormitory Association for next fall last week. Other officers elected for next fall include George Nixon, vice president; Lynn Libby, secretary-treasurer; and Roy Thompson, athletic director.

Dietering Named Next Year's Head Of Junior Council

Sylvia Dietering, Lubbock, was elected president of the 1955-56 Junior Council, honorary organization for outstanding junior women.

Twenty girls were tapped for next year's Junior Council. Other officers elected were: Mary Randal, Lubbock, vice president; Joanne Holmes, Lubbock, secretary; Carol Chancey, Fort Worth, treasurer; Janet Yancy, Lubbock, historian; and LuAnne McNeil, Lubbock, AWS representative.

Other new members of the Junior Council are Ferne Asher, Athens; Frances Allison, Carthage; Margaret Ammer, Mohahans; Beverly Bennett, Lubbock; Janice Cox, Carlsbad; Shirley DeShazo, Lubbock; Gwen Gracey, Roscoe; Juanita Haseloff, Vernon; Margaret Schindler, Monahans; Edwina Schovajsa, Amherst; Patricia Stooksberry, Amarillo; Kathryn Veazey, Lubbock; Beverly Wood, Spur; and Sally Wood, El Paso.

Carthel Elected Sneed Hall Prexy

Teddy Carthel, Arts and Science sophomore, was elected president of Sneed Hall dormitory in an all-dorm meeting last week.

Other officers include vice president; Rob Brown, freshman; secretary-treasurer, Randolph Swindle, sophomore; athletic director, Wilbur Jarrett, sophomore; and social chairman, Dean Lee, freshman.

Two trophies for the league championship in basketball and football were presented to Sneed Hall by the Inter-dorm Senate.

Sneed Hall displayed a new trophy case, the first of its kind in any dormitory. The glass fronted case stands six feet in height and will stand in the Sneed Hall lounge.

Mack Price Heads SAE Next Year

Mack Price, senior journalism major from Follett, has been elected president of Sigma Alpha Epsilon for the fall semester.

Other officers chosen May 5 to serve with Price are: Frank Calhoun, vice president; Gerald Clark, treasurer; Larry Marks, recorder; Roy Giddens, warden; Bill Eastland, chronicler; Bill Bynum, correspondent; Dan Creason, chaplain; Bob King, herald.

Scabbard and Blade Unit Names D Company Officers

Joe Bennett, senior Army Signal Corps ROTC student from Mineral Wells, was elected captain of Scabbard and Blade here last week.

Elected first lieutenant in the ROTC honorary society was Joe Teal, junior AFROTC student from Lubbock. Jim War, Bovina, was named first sergeant of D Company.

Holmes To Head Business Sorority

Joanne Holmes, Lubbock sophomore was named at a recent meeting to head Tech's chapter of Phi Gamma Nu, national honorary business sorority for the coming year.

Miss Holmes and newly elected vice president, Nita Haseloff, Vernon sophomore will attend the national convention in Atlantic City, June 16-19. Alternate delegates are Christine Foster and Shirley Crook.

Plans for the formal initiation of spring pledges were also discussed at the meeting. The group decided to hold its initiation at 5:30 p.m. tomorrow in the Student Union.

Other officers for the spring semester include: Betty Scarborough, Petersburg sophomore, secretary; Christine Foster; Vigo Park sophomore, treasurer; Shirley Crook, Childress junior, scribe; Ima Jane Griffith, Hale Center sophomore, historian; Glenna Rutherford, Earth freshman, parliamentarian; Kay Squires, Lubbock sophomore, A.W.S. representative; and Molly Morrison, Sweetwater sophomore, pledge trainer.

Wallace Wilson Installed As Phi Delt President

Wallace Wilson, Lubbock engineering sophomore, was installed last Wednesday night as president of Phi Delta Theta social fraternity.

Other officers installed were: Grey Lewis, reporter; Roy Middleton, secretary; Dane Grant, treasurer; Jim Polk, warden; Dennis Calvert, chaplain; Bruce Weaver, historian; Roy Miller, alumni secretary; and Ross Cass, chorister.

Jesse Adams Installed As Sigma Nu Commander

Jesse Adams, agriculture senior from Fort Worth, was installed as commander of Sigma Nu social fraternity Saturday night.

Other officers elected include: Bruce Campbell, lieutenant commander; Garland Thornton, recorder; Eddie Reinauer, treasurer; Jack Cloud, marshal; Robert Dinjar, chaplain; Jim Parker, sentinel; James White, historian; Noah Lee Cromer, reporter; and Troy McNeil, alumni contact officer.

Chi Sigma held its annual Big Brothers-Little Brother breakfast, Sunday at the Restaurant Walden. Marilyn Chesher, Chi Sig sweetheart, and G. F. Warn,

SPANISH CLUB ELECTS

Mary Randal, Lubbock sophomore, was elected president of Sigma Delta Pi, honorary Spanish faculty sponsor, were guests of the fraternity.

fraternity.

Other officers elected in the final meeting of the year were: Hector Zamorano, vice president; Josephine Garcia, secretary; and Martha Kissinger, treasurer.

TEXAS TECH COLLEGE BOOKSTORE

"On The Campus"

AN OPEN LETTER TO ALL STUDENTS OF TEXAS TECH:

Within a few short days you will begin packing for your trip home and deciding what items you will dispose of and what you will keep.

Among your possessions, TEXTBOOKS will doubtless loom large and heavy. You will recall to your mind the cash you spent for them. Although we are in the book business—in fact we make a considerable portion of our profit from buying and selling books—we hope you will keep the ones you feel will be useful to you in the future. By the same token we hope you will bring those you want to dispose of to us.

Here is our policy regarding buying back TEXTBOOKS.

First: All TEXTBOOKS currently in use or that have been used in the Fall Semester and which Professors have told us they will re-use we will pay One-Half (1/2) price cash for them.

Second: For all TEXTBOOKS that have been discontinued for use in the future as well as any other old books you may have accumulated we will have an out-of-town buyer in the Bookstore all during exam week to purchase such books. The out-of-town buyer is buying for a wholesale Textbook company and generally pays 25 per cent of the list price of a book.

We hope this letter will encourage you to sell us a lot of used books that we can re-sell to the 1955-56 Texas Technans.

Wishing for all of you a pleasant and profitable summer, we are,

Sincerely,

Texas Tech College Bookstore

W. C. Cole

AN EDITORIAL

What People Won't Do!

A newspaper office, by the nature of the business conducted there, receives various and sundry publications from people and organizations hoping to have themselves quoted in print. This week, The Toreador will gratify two such organizations.

From Stockton, California, came a small newspaper, billed as "The Forum," which made the modest claim that the reader could "get from these two pages a more accurate understanding of economics than you can get from any college in the world." Sample definition: "capitalist — an owner of capital."

And from Prague, Czechoslovakia, arrived a bulletin of the International Union of Students. This bulletin makes the claim that "the change in China, where they have rid themselves of foreign domination, owes much to the student movement of that nation." Students are obviously the objects of much attention in Communist countries. In Peking, there is even a sanatorium for "the well-being of students in Asia."

Toot! Toot!

Kappa Sigs Honor Reynolds, Seniors; Hudson Named Prexy for Next Year

Joe Jack Reynolds, Roosevelt, was named outstanding senior and presented a plaque at a Kappa Sigma banquet honoring the graduating seniors May 4, at the Aztec Inn.

Don Dilley, president, acted as toastmaster. Each senior commented on his college fraternity life.

A meeting followed the banquet and new officers for the fall semester were elected. New officers are: Bill Hudson, Port Arthur, president; Jim Ashley, Roby, vice president; William Jones, Littlefield, grand master of ceremonies; Cordell Custer, Post, and Mike Bayless, Irving, guards; Jimmy Jones, Anton, treasurer; and Clay B. Cummins, Fort Worth, secretary.

Seniors honored at the banquet were: Lowell Richardson, Lorraine; Tommy Robinson, San Angelo; Jack Moore, Amarillo; Howard Parker, Eldorado; Roger Brooks, Smithfield; Joe Jack Reynolds, Roosevelt; Willie Dunnam, Paris; Tim Russell, Beaumont; Jack

McCracken, Hereford; Grady Jenkins, Temple; and Graves Nelson, Brownfield.

Doak Scholarship Applications Due By Next Friday

Applications for the \$80 Mary W. Doak scholarship for women in education should be made to Miss Sue Rainey, associate professor of women's physical education, not later than Friday, May 20.

Purpose of the scholarship, sponsored by the Alpha Sigma chapter of Delta Kappa Gamma, honorary sorority for women teachers, is to help in the recruitment of promising young women for the teaching profession, Miss Rainey said.

Applicants must be of sophomore or junior standing, have been on the campus at least a year, and rank above average scholastically. Emphasis is also placed upon the candidate's participation in school activities.

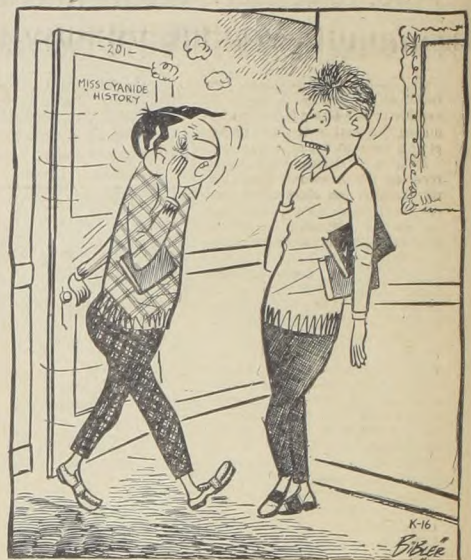

The 1955-56 Doak winner will be announced prior to the close of the spring term.

DOAK HAS STEAK FRY

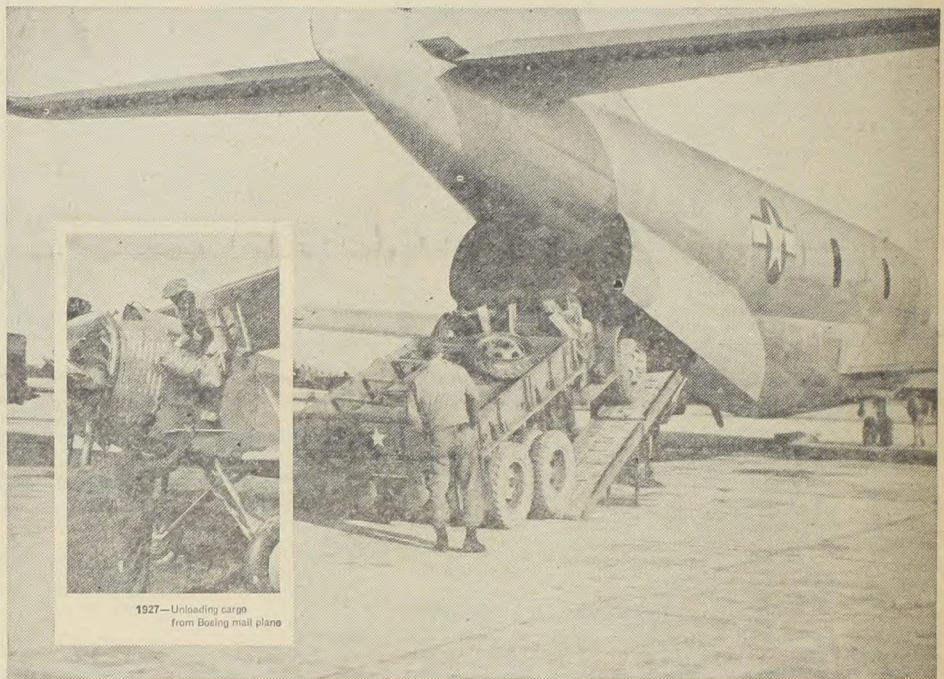

Residents of Doak Hall and their dates recently had a steak fry at Johnston's Ranch near Buffalo Lakes.

LITTLE MAN ON CAMPUS

by Dick Bibler

"I thought I'd be considerate and tell her that her hose were wrinkled — but she wasn't wearing hose."

1927—Unloading cargo from Boeing mail plane

1955—Loading Boeing C-97 Stratofreighter

There's plenty of variety in Boeing engineering careers

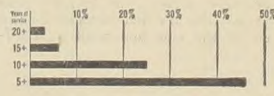

America's pioneer passenger-cargo aircraft, the 40A, was a Boeing. So is the Air Force's versatile tanker-transport, the C-97 Stratofreighter shown above.

During the company's 38-year history, Boeing engineers have blazed new trails in the design of aerial freighters and tankers, commercial airliners, flying boats, fighters, trainers and bombers. Today Boeing continues to offer engineers a wide variety of opportunities in Research, Design and Production.

Students sometimes are surprised that Boeing's engineering staff includes those with civil, electrical, mechanical, aeronautical and other engineering degrees. Yet all find application in aviation. For

example, the civil engineer may work on airframe structure or stress. Electrical engineers find challenge in the complicated electrical and electronic systems of modern jet bombers and guided missiles. Other engineers will find similar application for their talents.

The high degree of stability in careers at Boeing is reflected in this chart.

It shows that 46% of Boeing engineers have been with the company five or more

years; 25% for 10 or more years, and 6% for 15 years.

Boeing promotes from within, holds regular merit reviews to assure individual recognition. Engineers are encouraged to take graduate studies while working and are reimbursed for all tuition expense.

Current Boeing programs include: six and eight jet bombers; America's first jet transport—the 707; F-99 Bomarc pilotless interceptor (guided missile)—and advanced projects such as the application of nuclear power to aircraft.

For further Boeing career information consult your Placement Office, or write: RAYMOND J. B. HOFFMAN, Admin. Engineer Boeing Airplane Company, Wichita, Kansas

14 Air Force Cadets Receive Awards For Superior Work in ROTC Program

Col. William A. Schulgen, professor of air science, presented 14 awards to Air Force ROTC cadets during the final review and parade of this year at 4 p.m. today.

Charles A. Holmquest, Lubbock, received the Armed Forces Communications and Electronics Association Honor Award and Gold Medal as outstanding AFROTC student majoring in electrical engineering.

The National Defense Transportation Society Citation to the AFROTC senior for superior leadership, academic standing, aptitude for military service and promotions of the aims of the society went to George A. White, Vernon.

Theo G. Lofton, Hillsboro, was awarded the General Dynamics Corporation, Convair Division, Award of Merit and Trophy for outstanding ability in the AFROTC program.

The Texas Society of the Sons of the American Revolution Medals of Honor for outstanding senior cadets were presented to Joe R. Goodin, Claude; Bobby Waddle, Cedar Hill; Louis Garth, Lubbock; Don Mason, Lometa; Charles Holmquest, Lubbock; Dayle Clark,

Lubbock; Richard C. Zeek, Lamesa; Bobby Day, Lubbock; and Theo G. Lofton, Hillsboro. These awards were presented by Temple H. Morrow of Lubbock on behalf of the Society.

FOUND—CIGARETTE CASE

Missed your cigarette case lately?

If so, it might be in Drane Hall. Mrs. Alice May, resident hostess at Drane, reports that a case containing money has been turned in to her, and may be claimed by the owner upon description of the case and its contents.

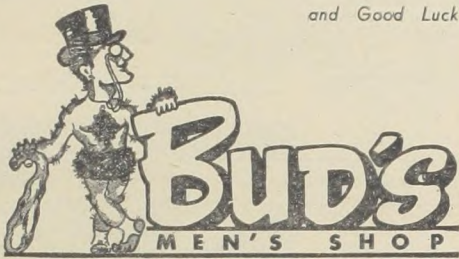

TO THE MEMBERS OF THE

May '55 Class . . .

We extend our sincere good wishes and take this opportunity to say

THANKS

and Good Luck

Petroleum Show Gets First Place

The petroleum engineers, for the third consecutive year, walked away with first place honors in the Tech Engineer's show after an engineering awards meeting in Union last night.

First prize included a \$75 cash award and permanent possession of a five-year-old plaque presented by the Ex-Students Association for a three-year winning record. The award was made to the Tech chapter of the American Institution of Mining Engineers, petroleum departmental society, for their scale model of an off-shore drilling rig.

The \$50 second place award was given to the Agricultural Engineering Society for its scale model of an irrigated farm.

Cunningham Is Aggie of the Year

Charles Cunningham, agriculture senior from Garden City was named "Aggie of the Year" during the Aggie Club barbecue Wednesday evening at Mackenzie Park. The award, presented by Dean of Agriculture W. L. Stangel, is given each year to an outstanding agriculture major.

Jimmy Smith, newly elected club president, awarded engraved gavels to past presidents Charles Wales and Charles Cunningham as part of the evening's program.

According to Wales, approximately 65 members and guests attended the final Aggie Club social of the year.

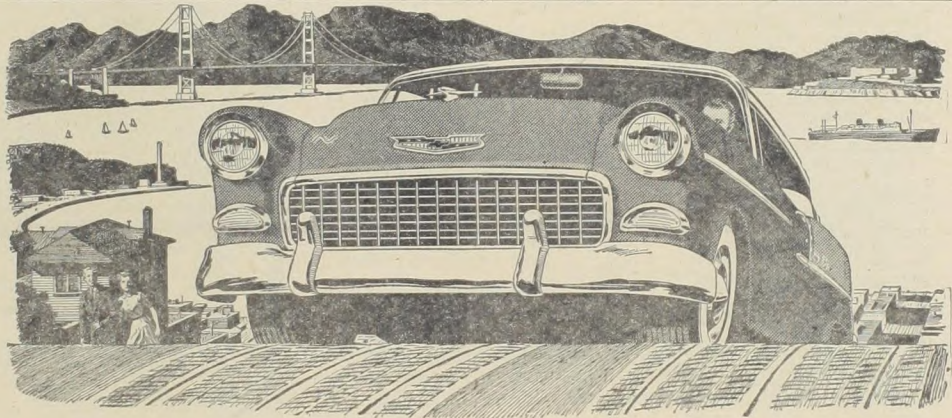

DEARDORFF HEADS AFROTC

Meivin Deardorff, Lubbock junior arts and science student, has been appointed wing commander of the Air Force Reserve Officers Training Corps, it was announced today.

HERBERT TAREYTON CIGARETTES Filter Tip MODERN SIZE FILTER TIP TAREYTON Charcoal-Filtered for Mildness PRODUCT OF THE AMERICAN TOBACCO COMPANY

Punch-line to the year's hottest power story - Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chev-

rolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at

extra cost) puts 180 h.p. under your loel

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

CLYDE RHODES, SR.

★ ★ ★

Mature Student Wins Success As Music Major

A grandfather who has already completed a successful career in farming is showing the young whippersnappers around Tech that you can "teach old dogs new tricks."

Clyde Rhodes, Sr., of Abernathy, is 60 years old and is a sophomore music major. He entered Tech on a trial basis in January 1954.

Mr. Rhodes showed a great deal of enthusiasm in his music work and, as Raymond Elliott, associate professor of music says, "He is a constant challenge to his younger classmates and an inspiration to his teachers."

A full four decades separated the time Mr. Rhodes finished high school and resumed his formal education. During this time he became a leading cream producer, the father of 11 children, and a self-accomplished musician.

Mr. Rhodes was already a well-known musician in Hale and Lubbock counties before entering Tech, and his teachers have great respect for him for wanting to increase his knowledge. As Herbert Colvin, instructor of piano says, "We have admiration for a man such as Clyde Rhodes. He is one of the hardest working students we have and is consistently above the average of the class."

Currently Mr. Rhodes is maintaining a B average in classes of piano, organ, music appreciation and music theory. Mr. Rhodes has expressed his gratitude to his teachers for tolerating a grandpa in their classes but his teachers have assured him that they find it gratifying to see a full grown man so eager to become a skilled musician.

Slagle Chosen To Head Aggie Economics Club

Alton Slagle, agriculture economics junior from Lubbock, has been elected to head the Aggie Economics Club next fall.

Other officers to serve with Slagle are: Don Dilley, vice president; Richard Reed, secretary; Sam McKnight, treasurer; and Jim Alexander, Aggie Club representative.

Sponsor of the club is Archie Leonard, professor of agriculture economics.

No 'Summer Slump'

Summer Union Programs To Include Broadway Actor, Dancer and Pianists

Union program activities won't slow down a bit during the summer according to Carol Siebert, Union program director.

Four special event programs will be spotlighted. The first of these will be Daniel Reed, considered by many critics to be one of Broadway's most accomplished character actors. Mr. Reed will present a program June 10 ranging from the poetry of Benet and Sandburg to discussions of contemporary theatre life. Mr. Reed has appeared in such Broadway plays as "Come Back Little Sheba" with Shirley Booth, and "Mary Rose" with Helen Hayes.

Inesita, Spanish dancer, will appear on June 17. Called by Walter Terry of the New York Herald-Tribune, "The most amazing female Spanish dance virtuoso I have seen," Inesita is known for her rapid heel-beat tempo and her use of castanets.

The third Union special event program will be Stecher and Horowitz, duo-pianists, on July 6. This young duo-piano team has played on the concert stage, in supper clubs, with symphony orchestras, and recently, they have

appeared at Radio City Music Hall.

The Bostonians, a male quartet, will be at the Union July 29. They are considered different because of their new and original arrangements.

Bobo, the Magician, will close out the summer special event shows on August 9 with his feats of magic.

Other than these special event programs, the Union will continue its Monday night movies. During the summer months the movies will begin at 8 p.m. "Strangers on a Train" will begin the summer run of movies on June 6, and will be followed by such shows as "We're Not Married", "West Point Story" and "Only the Valiant."

There will be weekly dances in the Union this summer on Wednesdays at 8:30 p.m. The dances will feature such bands as Burl Hubbard and the Esquires. Square dances will be held each Thursday at 8 p.m.

Games and tournaments will be announced throughout the summer and Toastmaster members may look forward to continuing their activities.

What young people are doing at General Electric

Young scientist works on new ways to handle "hot" radioactive fuel

Whenever uranium is "burned" in an atomic reactor, certain valuable elements such as plutonium are left behind in the "ash."

These products are highly radioactive, but they must be recovered because of their great value to the atomic energy program.

This is the job of 31-year-old H. Ward Alter, Supervisor of the Separations Chemistry Unit at the AEC's Knolls Atomic Power Laboratory, which General Electric operates in Schenectady, N. Y.

Alter's Work Is Vital, Important

Alter is doing his job well. He has already received the Coffin Award, General Electric's highest honor, for developing an apparatus that makes possible faster, safer, and more efficient recovery of the valuable elements in the "ash."

The work done by Alter and his group helps lower costs, increase efficiency and expand our knowledge of the chemical processing of spent radioactive fuels.

25,000 College Graduates at General Electric

When Alter came to General Electric in 1943, he already knew the work he wanted to do. Like each of the 25,000 college-graduate employees, he was given his chance to grow and realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

H. WARD ALTER joined G.E. in 1943 at Knolls Atomic Power Laboratory after receiving a B.A. in 1943 and Ph.D. in Chemistry in 1948 at U. of California. He served with the Manhattan Project at Oak Ridge, 1944-46.

Progress Is Our Most Important Product

ROTC Final Review Set for Today

Tech's Army ROTC unit will hold its final review, postponed last week by rain, and final drill today on the drill field south of the president's home.

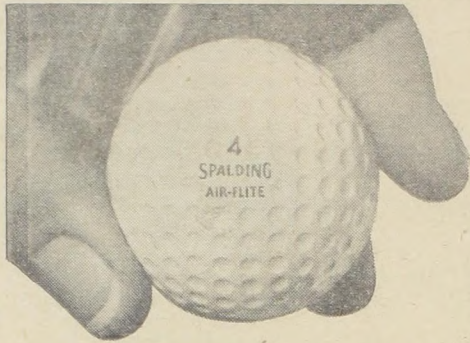

Graduating seniors will pass in review for the last time this year under the leadership of newly-

appointed cadet officers of the junior class, according to Col. Hampton L. Green, professor of military science and training.

The first hour of drill will consist of completion of the Phillip McGee Memorial Field Day com-

petitions during which cadets will vie for top regimental honors in drill, assembly and disassembly of the M-1 rifle, guidon bearer competition, grenade throwing and squad and platoon drill.

The field day is named for Tech student Phillip McGee, killed in an automobile accident earlier this year. His father, Sam McGee, has been invited to present the Armed Forces Communications and Electronics gold medal award to an outstanding Signal Corps cadet.

This new AIR-FLITE will last longer than any other high-compression ball ever made!

No other high-compression ball can resist scuffing like the new DURA-THIN* covered AIR-FLITE. This exclusive Spalding cover adheres to the ball with a new strength to defy cutting up . . . even on high-iron and explosion shots.

It's a more compact ball, too . . . offers you longer play and real economy.

Play your next round with this great new Spalding AIR-FLITE. You can expect AND GET new uniformity in distance and accuracy . . . better shot control . . . better golf.

SPALDING sets the pace in sports
