

THE TORREADOR

Freshmen Select Seven Nominees For Queen

Techsans To View Movies Of Beauties

Students To Judge Selznick's Choice For Yearbook Beauties

Colored movies of *La Ventana* beauties, which were made in the fall to send to David O. Selznick for judging, will be shown Saturday at 2 o'clock in the Engineering auditorium. All who are interested in the basis on which beauties were chosen are invited to come.

Along with this feature will be several short sound musicals. Lena Horne will be starred in "Boogie Woogie Dream." The Cabin Kids will appear in an amateur radio program and two or three cartoons will be shown.

"This movie of the beauties is being shown in order that every student may judge for himself whether or not Selznick is a judge of beauty," says Merrilyn Snider, editor. These shows are being sponsored by *La Ventana* staff and in order to cover expenses an admission price of 10 cents per person will be charged.

Lucille Burns, freshman from Houston, was chosen for first place by Selznick and his staff. Second place was given to Hope Cade, junior from Sundown. Frances Cloninger, freshman from Vernon, was chosen for third place and Charlene Fisher, sophomore from Slaton, was given fourth place.

The next four places were given equal rating. The girls chosen are: Ruth Anthony, sophomore from Lubbock; Virginia Anthony, sophomore from Lubbock; Dolores Bizzell, junior from Lubbock; and Earlyne Reid, sophomore from Coahoma.

Runners-up are also given equal ratings. They are: Dorothy Brown, Lubbock freshman; Marilyn Gibson, freshman from Vernon; Elyette McKnight, freshman from Elyette; Corinne Payne, Lubbock freshman; Elizabeth "Umpy" Robinson, junior from Spade; Jerry Shaw, junior from Phillips; Norma Lee Thornton, Hamilton sophomore; and Jackie Wilkinson, senior from Frisco.

Selznick said that he was certain that had the studio been asked to make the selection, the result would have been entirely different. He said also that the girl who photographs best is not necessarily the girl who is most attractive in person.

Beauty candidates are selected by popular nomination and 168 were chosen this year by the student body. The list was narrowed down to 32 by a committee of judges, which was elected by the student body by preferential ballot.

The final eight beauties will be given full page pictures in the personalities section of the 1945 *La Ventana* and runner-up pictures will have half-page pictures. The beauties were presented at the all-college Homecoming dance.

Aggies Exhibit Labor-Saving Devices Here

Labor-saving devices which are beneficial to both farmers and their wives will be displayed at the Labor Saving Device show held tomorrow in the Aggie pavilion. The smaller items will be shown in the pavilion and the larger ones in the area west of the Agriculture building. Materials will be on display from 10 until 4 o'clock. From 2 to 3 o'clock, demonstrations will be held by various individuals showing their inventions.

H. P. Clay, associate professor of agricultural engineering, and O. T. Ryan, assistant professor of agricultural education, have been appointed by Dean A. H. Leidigh of the division of agriculture to serve on the county-wide committee which is planning and staging this demonstration.

"Lubbock county is one of the most mechanized counties in the state of Texas and farmers are extremely mechanical-minded having developed many devices which do save labor in connection with their tractors and other implements," according to Dr. A. W. Young, head of the department of plant industry, who is assisting in the meeting.

Sixty entries had been verified Saturday and many more came in. These include the baby incubator, bug blaster, several types of insect dusters, various kinds of cotton harvesters which originated around Lubbock, and some motion pictures and demonstrations on cotton defoliation. State leaders from College Station, Austin, and agricultural editors will attend.

This county-wide meeting is being sponsored by the Lubbock County Agricultural Extension service, with Jason O. Gordon, county agent, in charge.

WILEY ATTENDS CLINIC

Prof. D. O. Wiley, director of Tech band, left Tuesday to attend band clinic in Crain, Odessa and Monahans. He plans to return for classes Monday.

33 Percent Men Students Hold Part Time Jobs

Average Joe College Earns 57c Per Hour In Varied Positions

Of 482 men students enrolled in college, 162 work part time, according to a recent employment report from Dean of Men James G. Allen. This is 33 per cent of the men students in college that are working, as compared to a total of 27 per cent employed for 1944. Last year there were 521 men enrolled in school, 142 of which held part time jobs.

Ninety-four of the men students, or approximately 41 per cent employed this year are working for the college. Last year 76 of the 142, approximately 54 per cent, were employed by the college.

Average working hours this year are 8.8 per student per month, in 1944 the average working hours were 8.7. In spite of this difference in number of working hours, the average salary this year is \$47.33 per month, a slight decrease as compared to the monthly average of \$47.39 for last year. This shows an increase in average wage from approximately 5 cents per hour received last year to 57 cents an hour this year.

In a 30-day month, the average working hour per day is 2.76; last year's average was 2.74. This shows an increase in average wage from approximately 5 cents per hour received last year to 57 cents an hour this year.

Total hours of all students working per month is 13,455, for which they receive a combined monthly salary of \$7,667.75.

Reports reveal that 30 students are employed by the athletic department, 16 work as student assistants, 13 as waiters, and 12 as laboratory assistants. Eight students are sales clerks; 6 in the power plant; 5 are employed in clerical work; 4 each as bellboys, delivery boys, fountain workers, mechanics, and washers. Three student seach are employed in drafting, janitor work, as pastors, student advisers, technicians, and theatre doormen. Types of work in which two Tech men are employed include: funeral assistants, graders, grocery clerks, orchestra members, printers, projectionists, research workers, and pin setters.

There is one student each employed as a bookkeeper, butcher, shoe clerk, stock clerk, cashier, director of boy's club, electrician, farmer, florist's helper, hauler, historian, mail carrier, hotel clerk, missionary, photographer, radio announcer, radio operator, repairman, teacher, theatre manager, truck driver, window assembler and yardman.

Twenty-one students of the 71 enrolled in the division of agriculture, or 29 per cent are employed; arts and sciences, 150 enrolled, 53 employed, 35 per cent; commerce, 45 enrolled, 15 employed, a total of 33 1/3 per cent; engineering, 216 enrolled, 73 employed, or 34 per cent. The division of arts and sciences has the largest per cent of enrolled students working.

Dr. Eunice Gates To Review "Rebellion In The Backland"

Rebellion in the Backland, translated from *Os Seroes*, by Euclides da Cunha, will be reviewed by Mrs. Eunice Gates at the next meeting of Book Reviewers club, Tuesday afternoon at 5 o'clock.

The annual review to be given by a faculty member. In the fall Miss Lucile Gill, professor in the English department, gave a review of World War II poems.

Used Clothing Drive Begins Here April 9

A drive for collection of good used clothing for free distribution to needy and destitute men, women and children in war-devastated countries will be held April 1-30 all over the nation, and on Tech campus the week of April 9, according to F. A. Kleinschmidt, chairman of the city-wide collection committee. This collection is a cooperative effort on the part of United Nations Relief and Rehabilitation administration and various voluntary war relief agencies of the United States.

Professor Kleinschmidt has appointed John Oliver to be in charge of the collection in Women's Dormitory II and Luween Putnam, in Women's Dormitory I. Both are senior engineers. Quota for Lubbock has been set at five pounds for every man, woman and child and this will total 200,000 to 250,000 pounds.

An organization meeting was held Thursday night in Hilton hotel for the various committees, publicity, gathering, sorting, etc.

"When students are at home for the Easter holidays they might bring back any old clothing they no longer have any use for," Professor Kleinschmidt says. "What is needed is good substantial used clothing, for both winter and summer wear. Although clothing need not be in perfect repair, it must be clean and the people who will receive it. Underclothing and all types of cotton garments should be washed before they are donated, but need not be ironed. Evening dresses, tuxedos and dress suits cannot be used."

\$1,600 Given To Red Cross

Over \$1,600 was contributed by Tech to the Red Cross War fund in the drive on the campus last week. Dr. J. W. Davis, chairman of the committee, announces a total of \$238.82 was collected from students living in the dormitories and by the Tech War Veterans association. Residents of Doak hall contributed \$101.25; residents of Dorm 2 contributed \$50.16; and the veterans collected \$77.41 from residents of Sneed hall and those who contributed at booths on the campus Wednesday.

Staff members who assisted Dr. Davis in the collection of funds were: H. L. Burgess, Dr. Agnes True, Mrs. Luta Eaves, Dr. E. L. McBride, Dean R. Parker, Dr. A. L. Strout, Cecil Home, L. J. Powers, and Miss Mayme Twyford.

Tech Steer Wins Fort Worth Prize

Sir Cosmos, an Aberdeen-Angus steer, bred by the department of animal husbandry, won his class and became Reserve Aberdeen-Angus champion at the Southwestern Exposition and Fat Stock show held in Fort Worth March 9 through Sunday. The other Tech steers, which were judged Monday, placed second, third, fourth and sixth.

This championship was the second highest awarded in the show, being exceeded only by Grand Champion, W. H. Rodgers, farm superintendent, and L. B. Miers, beef cattle herdsman, accompanied the cattle to Fort Worth. W. L. Stangel, head of the division of animal husbandry, was a judge in the show.

Museum Features Chinaware Exhibit

West Texas museum on the campus is featuring four cases of furnishings and chinaware from England, France and Germany. These have been collected by Mrs. Vernon Brown of Lubbock.

The first case is entitled "Parlor Furnishings in 1890 and early 1900." A nineteenth century bronze and marble table stands in the middle of the case. This was bought in Paris in 1938. On either side of the table are plaques representing war and peace. The one picturing war shows a god of war, portrayed by a naked man flying through air with flaming torch and drawn sword. The plaque representative of peace pictures a maiden dressed in pastels against pastoral background. These were purchased in England.

The second case, which contains various pieces of china, has an interesting history. Bottger, a chemist, promised King Augustus that he would make gold for him. The king accepted Bottger's offer and asked him up so as to be sure to get all the gold he might make. Bottger succeeded not in making gold, but in finding china—first of reddish and brown color, and later pure white. The art-loving king attracted modelers and painters, and shortly afterwards china made at the royal palace of Meissen became famous. In France it was called "porcelaine de Saxe" and in England and other English-speaking countries, "Dresden China." Soon, similar factories were erected in Berlin, Vienna, Florence and Sevres.

In Dresden, capital of Saxony, a number of painters started decorating white china which the Meissen factory sold to them as being of inferior quality. One of the best-known painters was Helena Wolfsohn, whose wares were often sold as genuine old Dresden.

The type of china shown in this case is useful for decorative purposes, but has no value in a collector's eye. There is a Meissen bowl the design being a copy of Kaiser Wilhelm's dinnerware pattern. This pattern was not released to the public until after the kaiser's exile. Also in the case is a Bavaria perforated dish, a Dresden shoe and a china perforated comport.

The third case exhibits a fish platter bought in the thief's market in Mexico City. Porcelain wine bottles made in Rouen, France in 1542 and bought in Paris, and Staffordshire bone dishes made in Burslem, England.

The last case holds an Epergne, a vase of Venetian glass with a base of bronze from Paris, and two candleholders from Paris. A pair of marbles and metal with a ruby glass shade adorns the middle of a small table covered by a linen table cloth made in Bordeaux, France.

Scroll And Key Initiate 11 Men

The 11 students who have been named eligible for membership in Scroll and Key, men's freshman honor society, will be initiated at 7 o'clock Wednesday night in room 114 of the Administration building, according to Dean of Men James G. Allen.

At that time officers for the spring term will also be elected. New members are: Richard E. Anderson, from Marshall; Benter, Jack Chambers, Bob Deavenport, Ben Donegan, Carl Arthur Dwyer, Cecil Gholson, Nolan Gregston, Wendell Nutt, Zack Reynolds, and Joe Simmons.

May 5 Is Scheduled For Annual Fish Day

Tommie Bell Will Replace Kennedy As Vice-President

Seven nominees for class queen were selected at freshman class meeting Friday. Also a vice-president was elected and plans for Fish Day were discussed.

Named as candidates for queen are Dorothy Brown, arts and sciences major of Lubbock, who is a member of Ko Shari; Billie Furr, commerce student of Childress, who is a member of Sans Souci and Tech Chamber of Commerce; Mae Mitchell, commerce division whose home is Iowa Park, a member of Las Chaparritas and Home Economics club; Bobby Childers, arts and sciences student of Tulia, who is a member of Las Vivarachas and is freshman representative to WSGA from Women's Dorm 1;

Tentative Cast Of Spring Play Begins Rehearsal

Try-outs are completed and a tentative cast has been chosen for "Ring Around Elizabeth" the spring play to be presented by the speech department, Thursday evening, April 19. Miss Heleine Blattner, director, plans to begin rehearsal as soon as the eligibility of the cast has been confirmed in accordance with Student council requirements. All members must have a C average for the preceding semester, and a C average in all college work.

Student activity tickets will serve as admission for college students at the public performance to be given in the Senior High school auditorium.

"Ring Around Elizabeth" is a comedy built around Elizabeth Cherry and her family, which includes husband, two young daughters, mother and father-in-law. In the Broadway production of the play a few years ago, Jane Cowl played Elizabeth, and McKay Morris was Ralph. Andy Blayne, the play-boy of the comedy, was Barry Sullivan, who later played opposite Gertrude Lawrence in "Susan and God."

Dr. Stainbrook examined shales from the Independence area and studied fossils in the strata. From surface outcrops, artificial exposures such as quarries, wells and shafts and formational positions, he concluded that the Independence shale was a distinct formation prior to Upper Devonian formations. He also discovered that the strata extended through central Iowa into Nebraska as a sub-formation, and down into northern Missouri.

His article is the eighty-sixth scientific paper which has been published by members of the Tech geology department.

M. A. Stainbrook Publishes Article

M. A. Stainbrook, professor of geology and petroleum engineering, has just received reprints of an article, "Stratigraphy of the Independence Shale of Iowa" which first appeared in the *American Journal of Science*, February and March of this year. The reprint includes parts I and II.

Dr. Stainbrook examined shales from the Independence area and studied fossils in the strata. From surface outcrops, artificial exposures such as quarries, wells and shafts and formational positions, he concluded that the Independence shale was a distinct formation prior to Upper Devonian formations. He also discovered that the strata extended through central Iowa into Nebraska as a sub-formation, and down into northern Missouri.

32 Tech Instructors Now In Service

By JIM HENNINGER
Torreador Staff Writer

Former instructors and professors of Tech who are now in the armed services or doing defense work are listed.

Agriculture
Lt. Jamie Caviness, '42 instructor in animal husbandry, is now serving in the personnel department of the Army Air corps in Boca Rica. He received his BS and MA degrees at Tech in 1942.

Lt. George O. Elle, '43 instructor in horticulture, is now assigned in infantry organization at camp Howse in anti-aircraft artillery. Elle is a graduate with BS degree received from Oregon State college and MS degree from Tech in 1940.

Lt. (j.g.) Neil Casey Fine, '42 assistant professor of animal husbandry, has experienced active service in the South Pacific. Fine received his BS degree at Tech in 1935 and his MS degree from Iowa State college in 1937.

Lt. James William Huffman, '42 instructor and creamery superintendent, and brother to George Bert Huffman, former head coach of varsity basketball, is now serving in the signal corps somewhere in the Southwest Pacific. He received his BS degree in Tech in 1941.

now serving in the Navy in the Southwest Pacific. Leach received his BS degree in 1937 and his MS degree in 1939 from Tech.

Band
James B. Nevins, '33 assistant band instructor, is now in the Army enlisted reserve. He has been ground instructor at various air fields up until December of last year.

Commerce
Capt. Trent Campbell Root, '37 professor of economics and business administration, is now in combat intelligence in the air corps attached to Gen. Patton's army. His job is to interview officers, soldiers and prisoners, and pass information on for future plans. He received his BA degree at Baylor and his BMA at Harvard.

Sgt. Haskell Grant Taylor, '37 instructor in economics and business administration, is in the finance division and stationed in Paris. He received both his BBA and his MA degrees at Tech.

First Lt. Reginald Rushing, '40 assistant professor of economics and business administration, is now at Sheppard Field ground school. He received his BA at Southwest and his MBA at Texas university.

First Lt. Hugh Allen Anderson, '39 instructor in economics and business administration, is at the San Antonio Army Air corps. Kelly

field, Anderson is instructor of the ground school and is in charge of scheduling of classes. He received his BA and MA degrees at Simmons university.

Lt. Clarence King Whiteside, '38 instructor in business administration and part time associate professor of finance, is in Navy procurement work.

Foreign Languages
First Lt. Douglas William Alden, '38 instructor in French, is now with the Army Air forces stationed in England. Alden received his BA degree at Dartmouth and his MA and Ph. D. at Brown university.

Speech
W/O John N. Watson, '41 assistant professor of radio speech is in the special service department headquarters of the AAFTC in Fort Worth. Watson established the first school for illiterate service men at LAAP after entering the Army in 1942. He received his BS degree at North Texas State Teachers college, and his MA degree at Southern California.

Richard Flowers, '39 instructor in speech is at Camp Brownwood. Flowers received his BS degree at North Texas State Teachers college, and his MA degree at Louisiana.

Government
Capt. J. W. Jackson, '39 associate professor of government, is now with the Army Air forces stationed

in Rapid City, N. D. Jackson received his BS and MA degrees from Tech in 1929, and was on the faculty until he enlisted in the air corps in 1942.

Lt. Benjamin Beck, '40 government instructor, is now in school of military government. He received his BS degree from the College of the City of New York, his MA degree from George Washington university and his Ph. D. degree from Iowa university.

Dr. Byron R. Abernethy, '43 instructor in government, is now employed as regional director of wage stabilization with the National War Labor board in Dallas. He received his BA degree from State Teachers college, Dickinson, North Dakota, his MA from the University of North Dakota, and his Ph. D. from Iowa university.

Lt. Donald R. Larson, '41 instructor in government, is now in the Coast Guard and at sea. He received his BA degree from Augustans college and his MA degree from the University of Texas.

Prof. Leo C. Rietthmayer in 1924-25 was executive specialist in the government's division of US Bureau of Census, Washington, D. C. He has since returned from his leave of absence. He received both his BA and MA degrees at Tech in 1938.

Noontime Lament

WITH the closing of the Bookstore lunch counter last Saturday came many sighs of regret, for it had become the favorite meeting place of Techs during off periods. But an even more serious problem than this must be considered—where will the students who live in town eat lunch?

Many, who have classes until noon and have to be back by 1 o'clock, live too far away from the campus to go home; others, even though they have the time, do not live near a city bus route and with an A card they cannot spare the gasoline to make an extra trip each day. Even while the Bookstore served food, lunch counters on College avenue were overcrowded and they cannot possibly accommodate a larger noontime rush.

Since no solution has been offered, students have attempted to solve this problem in their own way. Some have been bringing their lunches, and a few, who have only one afternoon class, have been drinking cokes and skipping lunch until later. Others have made a frantic dash home, returned to class about ten minutes late and suffered from indigestion the rest of the day.

A more satisfactory solution than these would be to open a cafeteria on the campus. Of course this, too, will meet with complications, for there are not many places which would be suitable for this purpose. But why couldn't the dining room of West hall be reopened? It could be converted into a cafeteria without too much effort and the labor shortage could be solved by hiring a few Tech students to serve the trays. This would not only benefit students and faculty members, who find it impossible to go home at noon, but the college could open it as a money-making project as well. At present, guest charges in the dormitories are only 50 cents for lunch, and the majority who have been eating on the campus would be willing to pay at least this much if not a little more if they could continue doing so.

For years there has been talk of opening a student union center on the campus, but plans have been abandoned until after the war. Of course, we realize that it is impossible to start work on a new building of this sort now, but why not open a temporary one? If the dining room and lounge of West hall were opened, campus organizations and social clubs would be glad to rent it for dances and banquets. A coke machine could be installed and students could gather there for informal chats and bridge games during the week.

Techs need a place on the campus to call their own. If students do not have some place to gather, the little bit of school spirit which has been displayed this year will disappear. Each club and organization could pay rental fee for the use of club-rooms, and a small additional charge could be added to activity tickets or deducted from breakage deposits for hiring a supervisor and a few people for the general upkeep of the building.

Since West hall closed last semester, it has not been used for anything. So instead of letting it remain idle for the duration, why not let Techs enjoy it as a student center and cafeteria. —B. D. R.

Civil War In Texas

TEXANS are rightfully proud of "the biggest state" and there is not one of us who doesn't straighten up in his seat when reference is made to it in movies and magazines.

We have even learned to smile when a yankee says, "I hear Texas has joined the war," or "I asked for foreign service and they sent me to Texas." And perhaps those remarks are not entirely undeserved, because we are somewhat inclined to think of our state as a nation in itself.

After the war boys from all parts of the United States will be coming back to Texas, and some who took part of their army training here, or were stationed at one of the Lubbock Air fields, will be coming back to go to Tech.

By returning they are paying us a compliment; so let's reciprocate by welcoming them wholeheartedly. We can do this not only by refraining from fighting the Civil War again and by not making remarks about their home states, but by making them feel that we like to have them.

The United States is made up of individuals and even the smallest things will count in keeping it firmly united.—K. P.

Exams And Midnight Oil

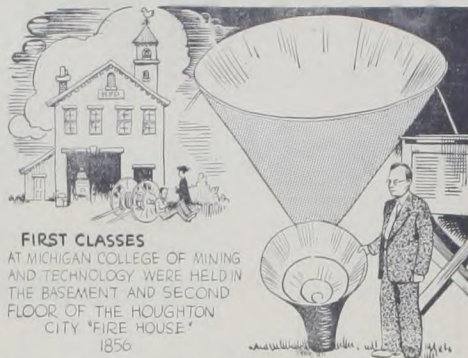

MID-SEMESTER quizzes and themes have interrupted the smooth, tranquil course of school days with the none-too-gentle reminder that the dreaded mid-semester reports are due in the registrar's office Monday, March 19. Even without a calendar schedule to call our attention to the fact that nine weeks of the present semester are over, one would not have to go very far to find some evidences of the fact. Deep, dark circles under students' eyes; collegians' slow ambling gait, characteristic of fatigue; other students' high, hilarious giggles—all indicate that a few of our fellow students have been burning the midnight oil.

But is there enough evidence of effort on the part of the students? Some think not. The per cent of students who do not feel the strain of mid-semester exams is very small indeed. But there are some who come in this category. However, there are more who have to resort to last minute cramming to get them over the mark; and there are still a greater number who should find some type of remedy for their sad condition before their parents receive the form notifications of unsatisfactory work.

The nine weeks that remain in the semester mean that there are 54 more school days this year. The coming spring weather will leave little excuse for cutting classes. Students have an excellent chance to try to retrieve some of the time they carelessly lost during cold winter.

Those who are to graduate are doing their last bit of school work for some time to come, and naturally they want to make the last semester count to the best possible advantage. Others have hopes of graduating some day, so it is best not to throw opportunity away. Let's get the most we can out of these last few weeks, both socially and educationally.—V. M.

Tech Art Institute Sponsors Lecture

The third in a series of art lectures, "Pictorial Composition," will be given Sunday afternoon at 3:30 o'clock by Prof. F. A. Kleinschmidt in the Engineering auditorium. These lectures are sponsored by the Tech Art Institute.

"Color in Pictures" was the subject of the last art lecture given March 4 by Kleinschmidt, head architect and allied art department. He said that the alphabet of painting is color and that when the alphabet is learned, then words and sentences are formed. To understand painting one must begin at the beginning and learn the alphabet.

"The painter in painting a picture is concerned with the organization of color on his canvas. This organization is a difficult problem," he says. "It has been said that color cannot be taught in schools on the same basis as other subjects because discrimination of color is purely a matter of taste."

"Certain aspects of color are a matter of taste and the same is true of literature and music, but a large part of it is a matter of knowledge. The mathematical relations of color waves have been calculated as accurately as the relations of sound waves. Color harmony may be figured out with mathematical precision."

Many painters to achieve satisfaction in their color organization strive for uniformity of value, or intensity of color, he explained. One might use yellows alone or might combine it with a range from red orange to yellow, or from green to blues or violets. The Venetian painters used this principle very well.

"In one of Rembrandt's studies of a head he used only Venetian red and black and the reason we have harmony is because of that narrow restriction. Some water colorists will use a very low intensity of blue and yellow in his talk Kleinschmidt showed color slides and demonstrated the highlights of his talks as reflected in the paintings.

ASTP To Give Techs Exams

Examinations for the Army Specialized Training Reserve program will be given to Tech applicants who were born after Sept. 30, 1927, and before Sept. 1, 1928.

Application for taking the examination must be made to Dr. H. L. Kent, room 215 of the administration building, not later than March 15. Only those who have made application may take the examinations, Dr. Kent says.

Taking the examination does not constitute a promise to enlist in the reserve, but those who pass will be allowed to enlist if they wish to take training at ASTP schools during July, August or September of 1945, and continue as long as their records are satisfactory or until the course is completed.

In recent years labor has come within striking distance of capital.

Best leave your son good character than great riches.

By COUNT MEOUT

CHRISTINA ELLER is happier these days since she received word that she can expect JACK TIPPET to see her this week-end.

The Count wishes MARVIN BERRY and BETTY HALLMARK a short engagement and a very long, happy marriage.

Due to ARTHUR SHAHAN'S recent interest in boxing, some of the boys have bought him a pair of boxing gloves for his birthday. Put them to good use, SHAHAN.

Have you noticed the new couple cutting Silver Dollar rugs lately. It couldn't be DON DUDLEY and BOBBY HAYS, could it?

Attention, girls! We hear that the handsome Casanova EUGENE BILLS is in the market for a new girl friend. It seems he lost the last one at an auction.

BOB HOLT was seen hanging around the marriage bureau recently. We would like to know who the girl is, Bob. Couldn't you come across and tell us?

Someone says that FRANKIE CUMMINGS is engaged. Her boy friend, who is stationed at Amarillo, was down for the week-end and it seems that they got the important question all settled.

BUDDY ARNETT and JACKIE LEWIS made a very charming couple at the Band dance Friday night.

From out of the rumors and grumbles comes a very pointed question. Who is BYRON BENNETT going to date this week?

JANE WATSON went to see the picture "Wilson" this weekend and looked only at her companion. We don't blame you for looking, Janie. He was nice to look at.

Sounds as though PAT CROUCH is making a hit as a trumpet player. More power to you, Pat.

Ask ANN BATES about the pleasant surprise she had last weekend. From the information the Count gathered, it seems as though there was a bracelet and necklace involved.

Belles of the ball at the Band dance apparently were the beaux. However, LOMETA HODGE and JUNE STINE seemed to have held their own.

Correction . . . The Gargoyle club is to celebrate Friday night with a gay nineties ball. We still think it sounds like lots of fun. Last week, we were just a wee bit enthusiastic about when it was to be.

PEGGY WHEATSTONE and LA VERNE HENDERSON believe in having their share of the fun. Home one weekend . . . visit friends the next. That's the spirit, kids.

NORMA CROXTON, former Tech student, became Mrs. Robert I. McGrath in the chapel at Sheppard Field recently.

All the best people will be seen at the Tech Round-up Saturday night at 8 o'clock. The jamboree is sponsored by the Home Ec department and the tickets are on sale for 25 cents. There will be dancing and a floorshow.

CHRISTINE MAXWELL was married to Newell Squyres in a recent ceremony at Tahoka. After VIVI Presentation approximately four Wranglers and Centaurs were standing beneath an upstairs window. A pitcher of water was pitched with sobering effects.

You will shout when it hits you, yes, indeed! It hit ELBERT RANKIN and HOLICE PRUETT hard, for they went down and talked the draft board into taking them as soon as possible. They leave on the 27th of this month.

The first lie detector was made from the rib of a man.

"RIVAL DE SU HIJA"

LLANOS TEATRO

T'es le bienvenu, vieux frere... Have a Coke

(GREETINGS, OLD MAN)

... a way to show friendship to a French sailor

Even foreigners visiting our shores for the first time respond to the friendliness in the phrase *Have a Coke*. There's the good old home-town American spirit behind it... the same as when you serve Coke at home. Coca-Cola stands for the pause that refreshes, — has become a bond of sympathy between kindly-minded folks.

Tech Rifle Team Wins First Place In Small Bores

Sharpshooters Outrank Oklahoma, Texas Aggies, Louisiana State University

Texas Tech's ROTC rifle team won first place in the Eighth Service Command Intercollegiate Small Bore match for 1945, according to a letter received from Eighth Service command headquarters in Dallas, last Saturday.

High scorer for the senior division ROTC in the match was Texas Tech, with a total of 3,683 points, ranked above Oklahoma A&M college, Oklahoma Military academy, Louisiana State university, and Texas A&M college. The final scores were close, as Oklahoma A&M was 10 points below Tech, the team's total being 3,673.

Team members participating in the match for Tech were: Edward Graf, James Springer, Avery Jackson, Charles Sylvester, James Burris, Roy Dunlap, Joe Farabee, Walter Walthall, Nolan Gregston, Jack Barnett, James Cunningham, Lloyd Rudolph, Earl Sears, Norland Hayran, and James Hewlett. Scores for each man in each position were submitted, the ten high scores in each position counting in the totals for the match. The positions were prone, sitting, kneeling and standing. Springer led with a total of 381 points.

Major Charles F. Hartman, professor of military science and training, says, "Credit for the excellent showing of the Texas Tech Rifle team goes to S/Sgt. George W. Chavis, team coach. He has put in long hours with the boys. We are proud of the results the team has achieved."

Victory in the match has entitled the team to compete in the National Intercollegiate Small Bore match for 1945, firing for which will begin very soon.

Major Hartman says that Tech's team has also won first place among senior units where military science is not compulsory in the recent nation-wide Hearst Trophy Rifle competition. In the early part of the season, the team lost two paper matches against Oklahoma A&M and the Naval ROTC unit at the University of Texas. These matches were fired by a five-man team composed of Springer, Sylvester, Graf, Dunlap and Farabee.

The team of ten men has recently defeated New Mexico A&M with a score of 1,859-1,684, and University of Arkansas by a forfeit.

Girls' PE Club Has Game Party

Major and Minor club had a meeting last Tuesday night in the gym. A games party was held from 7 to 9 o'clock and the following were played: badminton, volley ball and ping-pong. Refreshments were planned by the club's officers, Yvonne Westmoreland, president; Ruth Griffin, vice-president; Ruth Spikes, secretary-treasurer. About 30 persons attended, including two staff members, Mrs. Harrison and Mrs. Sorenson.

WRA requests that the girls planning to be initiated in this organization March 22 should be sure their points are turned in to the secretary by March 16.

Jimmy Closson's dancing school was a success. There were 367 persons enrolled, and at each meeting the gym was filled. Mr. Closson has gone back to his war job at El Paso until he can get another furlough from his work. Then he will again make a trip to teach square dancing to some other community in Texas.

Southwestern Opposes Tech In Grid Opener

Opening gridiron game of next season has been scheduled with Southwestern university, according to Coach Dell Morgan. The game will be played at night in Tech stadium.

Morgan's Red Raiders have met Southwestern's Pirates once previously, losing 21-19. The Pirates have played on Tech's grid one other time when they tangled with South Plains Army Air field last fall.

Five home games have been scheduled for Tech's grid in 1945. Orange Bowl Champion Tulsa university follows Southwestern in the stadium on Oct. 13. The following week-end, Tech encounters Baylor university. West Texas State Teachers' college and Texas Christian university are the Raiders' final home opponents.

Of the five night games to be played, four are to be held in Lubbock. The exception will be the game with Texas Christian which probably will be the homecoming game. The other night match is to be in San Antonio against Texas A&M college.

Other schools which will face Tech during the coming season are New Mexico university at Albuquerque, Oklahoma A&M at Oklahoma City, Rice institute at Houston, and powerful Texas university. Texas has never played Tech although the Raiders have long sought a clash with the Longhorns from the state's largest college.

Morgan's rough and rugged schedule is certain to make Tech figure in national headlines.

Pfc. David Storey Killed In Action

Pfc. David Storey, Tech graduate of 1943, was killed in action in France on Feb. 21, according to a message from the War Department to his parents who reside at Littlefield.

Storey graduated from Littlefield High school, and entered Tech in the fall of 1939. He received a degree in agricultural economics in May, 1943, and had a high scholastic average in all his work. He made three letters in tennis during the spring semesters of '41, '42, and '43. Storey was president of Alpha Phi Omega for two years; vice-president of Sneed Hall during the same time; and was a member of the Double T association.

He entered service in the summer of '43, and first trained at Fort Sill, Okla. He attended the ASTP at Lehigh university, was in the transportation division and later worked in the Quartermaster's department.

He went overseas to England in July of '44, and was sent to the southern sector of France as an infantry replacement. He had been at the front only a short time when he was reported killed.

Former Basketball Star Now Stationed In India

Sgt. Norman Volz, former ace basketball standout at Texas Tech and LAAP, is now in India. Volz is on duty in the China-India-Burma area, having been there for the past six months. He is now believed to be working in an engineering office near Assam, India.

He was prominent in the basketball seasons of 1940, '41 and '42 at Tech, and played for LAAP in the early part of '43.

Life With The Exes

Pvt. J. E. Harris, '42 mechanical engineering student, writes his mother and father, Mr. and Mrs. W. J. Harris, Lubbock, that he is now in Cambridge, Mass., studying at Harvard university AAF Electronics school. Mrs. W. J. Harris is the college nurse.

Alvin V. Ball of Fluvanna has been promoted from sergeant to staff sergeant as announced at an Eighth Air Force Bomber station in England. Ball is an AAF gunner. He was formerly a student at Tech and employed in a local dry cleaning company.

First Lt. James N. Cathey recently talked with his wife, Second Lt. Nana S. Cathey, who is stationed on the island of Leyte while he is in Britain. When Cathey was in London for the round-table discussion of crew-training problems he broadcast on the Blue network which had been re-broadcast later by the American Forces network in Britain. His wife, a nurse, has served the Army in New Guinea and landed several days after General MacArthur's troops went ashore in the Philippines. He has served the forces as a B-17 Flying Fortress bombardier, flying missions with the 100th Bombardment group, a unit of the Eighth Air force's Third Air division, and lately has been in charge of bombardier training of the 100th group.

Capt. Richard A. Bosworth, son of Mr. and Mrs. Ernest A. Bosworth of Tahoka is a pilot of a 15th AAF B-24 Liberator bombardment plane based in Italy. Bosworth was awarded the Air Medal with three bronze oak leaf clusters, and has been flying with a group which has staged 210 combat missions in the Mediterranean theatre of operations.

Marine Capt. Lonnie L. McCurry recently was awarded the Purple Heart. McCurry was struck in the hand when a land mine exploded on the beach 20 minutes after he landed during Guam's D-day.

Hal C. Mays, son of Mr. and Mrs. O. C. Mays of Kermit, has been promoted from first lieutenant to captain. Mays is a B-17 Flying Fortress pilot in the veteran 410th Bomb group commanded by Lt. Col. W. T. Seawell, a unit of the 1st Air division.

Lt. Col. Clure E. Smith is now a deputy commander of the 366th Fighter group and is enroute to Skellytown on a leave of absence, according to headquarters of the Ninth Air force public relations office. Smith has been awarded the Distinguished Flying Cross, the Silver Star, the Air Medal with 20 clusters and the Distinguished Flying Cross Unit Citation ribbon. He is a P-47 Thunderbolt fighter-bomber pilot in a tactical air unit.

Second Lt. William D. Knight has been assigned to the 95th Bombardment group, commanded by Col. Jack E. Shuck of Casper, Wyo., and Monroe, Conn., and now is taking an orientation course on flying procedure in the European theatre of operations, prior to beginning combat duty in the air. Knight is a member of the Eighth Air Force Fortress group which led the first American bombing attack on targets in Berlin, and which was cited by the President for its bombing assault on railroad marshalling yards at Munster, Germany, in October, 1943, according to a press release from an Eighth Air Force Bomber station in England.

Bruce E. Stewart, son of Mrs. Jessie Stewart of McLean, has been promoted to first lieutenant. Commissioned at Moore field, Mission, Feb. 8, 1944, Stewart now wears the Air Medal and one oak leaf cluster. He is also authorized to wear the blue and gold Distinguished Unit badge on his right breast, indicative of the award for the contribution his group made in assisting the heavies to successfully bomb the enemy aircraft factories at Steyr, Austria.

Pvt. Nelson Gay Terry of Lubbock, has been selected to attend the Field Artillery officer candidate school according to a recent announcement by the officer candidate board of the Field Artillery Replacement Training Center at Fort Bragg, N. C. Inducted July 10, 1944, Terry completed basic training at Battery A, 12th Battalion, 4th Training regiment, at the FARTC.

Cecil R. (Shorty) Turner of Smyer, son of Mr. and Mrs. T. H. Turner of Lubbock, has been commissioned a second lieutenant upon completion of the officer candidate course at Fort Benning Infantry school. He was inducted into the Army Feb. 10, 1943, and served with the coast artillery, air corps and infantry before going to officer candidate school.

Pfc. Jason H. Allen is now serving with the Navy in the South Pacific area. Allen was recently wounded by shrapnel while he and his unit were resisting a strong German patrol on the first day of their counter-offensive near Monschau, Germany. He is a rifleman.

Maj. Hubert L. Allensworth, '39 graduate in government, the son of Mr. and Mrs. John C. Allensworth, Lubbock, has been awarded the Legion of Merit "for exceptionally meritorious conduct in the performance of outstanding services in Sicily, Italy and Corsica from Jan. 15, 1943, to Oct. 1, 1944." Allensworth is a senior staff officer with a veteran Fighter group, and was transferred into the Air Force in 1941 after holding a reserve officer's rank of first lieutenant in the infantry for five years. Overseas since July 16, 1942, he has seen 31 months of foreign service. In addition to the Legion of Merit and numerous campaign ribbons, Allensworth is authorized to wear the War Department Unit Citation badge with two oak leaf clusters as evidence of his achievements in El Alamein. In civilian life, he was an attorney with the Department of Justice in Washington, D. C.

Sgt. Allen H. Smith conducts classes for the men in the 367th Fighter-Bomber group of the Ninth Air force at a bomber base somewhere in France. A former school teacher at Lake Arthur High school, where he taught mathematics, Smith now conducts three classes weekly in trigonometry and contemplates opening other classes in accounting, chemistry and physics, according to headquarters report from public relations office, Ninth Air force, European theatre of operations.

First Lt. R. Hood Chatham has recently been awarded the Air Medal and two oak leaf clusters "for meritorious achievement in aerial combat." Chatham, who is a lead navigator on a B-17 Flying Fortress heavy bomber, has participated in 25 daylight bombing assaults against the Nazi war machine in Europe. He has been serving with the 35th Bombardment group.

Lt. Donald R. Booker, son of Mr. and Mrs. Robert S. Booker, Lubbock, has made 24 ocean crossings and accumulated 1,450 flying hours in the air according to public relations office, Miami Army Air field, Miami, Fla.

M/Sgt. Lowell G. Webb of Midland, has a brother in the Air forces at Sheppard field. A graduate at Tech, he was employed by West Texas Gas company, Midland, when he enlisted in July, 1942.

Second Lt. Patrick L. Moore of Griffin, Ind., formerly of Iranan, has been credited with shooting down one plane of a German pick-up combination on the way home from a flight over Berlin recently. Before entering the AAF, Moore was a loftman at the Hoozer Lamp and Stamping company, Evanson, Ind. Now he flies a P-51 Mustang in the 55th Fighter group. He wears the Air Medal with one oak leaf cluster "for meritorious service over enemy territory."

Ko Shari To Hold Presentation Dance

Arnett And Orchestra Will Furnish Music

Ko Shari will hold its annual presentation dance tomorrow evening at 8 o'clock in the main ballroom of Hotel Lubbock. Decorations will center around the club colors, silver and turquoise; and the club song, "Indian Love Call," will be played during the presentation. Buddy Arnett and his orchestra will furnish the music. The dance will be a program dance.

Pledges to be presented include Marian Benson, who will be escorted by Frank Clayton. Her dress will be of white net with a train chosen by La Nell Doshier. She will carry a bouquet of white orchids in her hair.

Dorothy Brown's gown is of American Beauty marquisette with a full skirt and drop shoulders, sprinkled with sequins. Marshall Ehea will present her. Miss Brown will carry an arm bouquet of Japanese irises.

A pink strapless dress with a sequined bust line and a skirt of paper-shell taffeta covered with flowing marquisette has been chosen by La Nell Doshier. She will carry a bouquet of iris. Barton Willingham is her escort for the affair.

Verne Dumont will present Laura Lou Johnston, who will have a bouquet and matching corsage of yellow jonquils. Her dress is of blue chiffon sprinkled with gold sequins; it has a tight waist, drop shoulders and full gathered skirt.

Pastel tinted gardenias will be carried by Peggy Lewis to match her dress of pastel colors. It is of net with drop shoulders and full gathered skirt. R. L. Heith is to present Miss Lewis.

Jean Martin's frock is of pink taffeta and net, appliqued with tufted flowers outlined with gold thread. Bill Puryear will escort her. She will have an arm bouquet and crown of pink roses.

Presented by Harold Brockett, Kathryn Paterson will don a dress with drop shoulders of princess point lace, tucked bodice of pink net and full skirt with a deep ruff.

Harris Tweeds

The tweed you love—so soft, so warm so right for casual wear. Here it is in your beloved chesterfield with elephant ear lapels and lavish flap pockets—at a price you never dreamed of.

Home Economics Club Sponsors Roundup Sat.

Double T Roundup, sponsored by the Home Economics club, will be held in the gymnasium at 8 o'clock Saturday night. There will be a floor show, dancing and card games. Decorations and floor show will have a Western motif.

Refreshments will be on sale and a 25c admission will be charged. Tickets are on sale at the Administration and Home Economics buildings.

In the floor show, Peggy Williams and Marilyn Anderson will tap dance, Frankie Cummins will present a skit—a three act play with one character, and Josie Lee Eberhart will play the piano.

Students are invited to come with or without dates. A large group of boys from the air base have been invited.

Theta Sigs Hold Pledge Service

Dorris Peeler and Ernestine Gibson, both junior journalism majors, were pledged to Theta Sigma Phi, national honorary society for women journalism students, in a candlelight ceremony at the home of Mrs. Louise C. Allen, sponsor, last night.

A brief orientation program covering the aims, history and rules of the organization was given by members to acquaint the pledges with Theta Sigma Phi. Refreshments were served to the two pledges and the following members: Eleanor Cotton, Jane Gilmore, Bernadine Grabber, La Verne Henderson, Ricky Martin and Betty Ricks. Marilyn Snider and Jane Watson.

TOURS DE DEPARTMENT

A class of students from the Roscoe Wilson school made a tour of the Textile Engineering building Wednesday afternoon. Betty Grace Pugh, laboratory student assistant, conducted the tour.

HEALTH NOTE: He who laughs, lasts.

narrow stripes of satin. Bryan Miller will present her. She is to carry an arm bouquet of mixed flowers.

Pink net over taffeta with ruffled drop shoulders describes the gown chosen by Gloria Ramsey. Mixed flowers will form her bouquet. Bill Underhill is to escort Miss Ramsey.

Ko Shari members and dates include Jane Oliver and A. J. Lair, Maxine Hennesdorf and Wayne Tibbs, Mary V. DeLooney and Dan Young, Francine Young and Owen Glibbreath, Mary Jean Webb and Thomas Bandy, Genelle Patty and Ed Bates, Margie Hackbarth and Herman Quinius, Ann Cox and Alvin Hanley, Dorothy Cliff and Charles McElree, Betty Norman and Bryan Austin, Moreene Roberts and Clyde Wright, Norma Lee Thornton and Oliver Ramsey.

Jane Russell and Wynn Baker, Betty Huckabee and Lt. Michael Richards, Jane Watson and Harold Kiger, Betty Boulter and Frank Murray, Anita Hale and John Bloodworth, Jean Gibbons and Macey Pinson, Jane Burns and Lt. Fred Walker, Barbara Bedford and Dick Anderson, Elizabeth Schmidt and Hoyle Moss, Adele Bentley and F/O Frank Porpora, Marie Valdez and Terry Erille, Marian Coolidge and Lt. Jack Barth, Ernestine Wallace and A. J. Kerr.

Pledges and dates are Shirley Womack and Bob Nash, Betty Renner and Marvin Standefer, Joan Marsh and A. D. Brown, Nan Bradburn and Keith Huckabee, Virginia Anthony and Troy Caldwell, Beas Campbell and Lt. Jack Galt, Jean Peeler and Royce Blankenship, Barbara Livingston and Jimmy Williamson.

Chaperones for the evening will be Dr. and Mrs. Clifford B. Jones, Mr. and Mrs. A. B. Strehl, Dr. and Mrs. W. C. Holden, Miss Dorothy Rylander, club sponsor and Joe Herbst, Ko Shari patronesses are invited.

"Know Your Neighbors" New HE Club Slogan

"Know Your Neighbors" will be the theme of the Home Economics club meeting Tuesday evening in Annex G of the Home Economics building. The Easter theme will also be a part of the program.

Speakers are Maria Valdez of Mexico, Prof. Jules DeLaunay of French Morocco, Mary Stewart, a student of Portuguese under Mrs. Eunice J. Gates, and Mary New, junior from Skellytown.

Miss Vivian Johnson, head of home economics education, is the sponsor. Katie Pettyjohn is the program chairman.

Techsans Place In Debates, Speech, In Oklahoma Meet

Maxine Hennesdorf received third place in the radio speaking contest, Jane Wilson went to the semi-finals of the poetry reading contest and Mary Findley and Imogene Bagwell went out at the end of their fifth debate in the inter-collegiate speaking contests, held at Southeastern State college, Durant, Okla., March 2-3.

This is the first year Tech has been represented at inter-collegiate contests since 1942, because of the difficulty of arranging transportation. Miss Annah Jo Pendleton says.

Instructors—

Godeke Reports On Distribution Of War Surplus

Possible distribution of war surplus materials to colleges was topic of discussion of a joint meeting last Saturday of Diesel Engine Manufacturers association and Southwestern Engineering Education council in Dallas. O. V. Adams, dean of engineering, and H. F. Godeke, head of mechanical engineering were the representatives from Tech to attend the meeting.

Relations of educational institutions to the diesel engine industry were also discussed. The question of how colleges can train their graduates to help the industry and how the industry can be of benefit to colleges was brought up. A list of about 60 topics which should be investigated by colleges and industry through research were presented. One thing which was brought out was the lack of knowledge on the part of educational institutions concerning the diesel industry.

Authorities in charge of distributing surplus war equipment to colleges at the present time have no definite orders or instructions from congress as to the distribution of the materials. Before there is any action taken in this matter congress will either have to pass a new bill ordering the distribution, or give a more liberal interpretation to the present bill.

HM Girls Give Incoming Party

Incoming residents of the Home Management house will be entertained tonight at 8 o'clock by those who have completed nine weeks residence there. Refreshments will be served and the guests will be shown through the house and allowed to draw for the rooms they will occupy.

Guests are Dora Gaither, Frankie Nixon, Margaret Leonard, Dolores Snodgrass, Emma Gene Tom and Ethel Burns. Old residents are Maude Alice Zorns, Margaret Hiatt, Arline Birdwell, Oleeta Cummings, Josie Lee Barnett, Lucille Melton and Marthella Cunyus.

It's an everlasting struggle to keep money coming in and teeth and hair from coming out.
