

Study Group Urges Tech Define College Purposes

Editor's Note: This is the first in a series of DAILY TORREADOR articles which will explain the findings of the Southern Assn. of Colleges and Schools' visitation committee at Tech. The administration's reactions to the report also will be discussed in a later edition.)

By JODY ALLEN
Torreador Copy Editor

Need for more funds . . . greater clarification of objectives . . . more intellectual approach . . . academic coordination between students and college personnel . . .

THESE ARE a few of the myriad of recommendations released this week in a 45-page report by the visitation committee representing the Commission on Colleges of the Southern Assn. of Colleges and Schools on its visit to Texas Tech.

The committee, composed of 11 members from various institutions of higher learning throughout the United States, visited Tech Nov. 4-7, 1962, in accordance with the college's two-year self-study analysis and the Commission's Periodic Visitation Program.

Pearce Appointed

Dr. W. M. Pearce, academic vice president appointed by President R. C. Goodwin to conduct the self-study program evaluated by the committee, commented that the current study is the only one

of its magnitude conducted in the history of Tech.

PEARCE POINTED out that much of the committee's findings reflected similar conclusions to those of the college's own self evaluation. Tech's self-study report is a 289-page extensive survey compiled from voluminous research papers which fill a large file case in Pearce's office. Each department was kept up to date on various findings during the entirety of the two-year study project, Pearce explained.

Significant Suggestion

Perhaps the most all-encompassing recommendation of the visitation committee, which was also an evaluation by the self-study group, was that the faculty continue in its effort to define the college's purpose. This point was emphasized throughout the report, particularly in consideration of the various schools within the college.

Although the visiting committee did recommend further study concerning the exact purpose of the college, it gave special consideration to a statement prepared by various members of the self-study committee which served as a guideline for the study.

THE STATEMENT, in part, defined

the purpose and goals of the college, saying, ". . . Texas Technological College can best serve the future by striving to be a multipurpose state university of the first class, the center of learning in West Texas which provides opportunity for a liberal education and professional training at the undergraduate and graduate levels."

Name Change Recommended

The report indicates that "The Visiting Committee concurs with the philosophy expressed and with the suggestion that a more appropriate name for the institution should be considered, a name more nearly reflecting the functions of the College."

It also revealed that the committee believes Tech is strategically located to be a significant center of learning in the West Texas area, serving the region as a fully developed university in the Texas system of higher education.

EXTENSIVE attention was given to Tech library in the report. The library was presented in the light of a central focal point for "intellectual climate on the campus." Much praise went to library personnel, coordination, quality literary collections and well-functioning service.

It was stressed, however, that further facilities and equipment are already

necessary for the new library. The committee also recommended penetration into the over-all educational and research life of the campus to determine additional resource needs. Tech is now second among Southern Assn. schools only to the University of Texas in the size of its literary collection.

College Board Scores

Concerning itself with admission standards of Tech, the committee noted that College Board scores now required for all students applying for admission are not used as a criterion for acceptance.

The committee recommended that ". . . these (College Board scores) may become a basis for selective admission, pointing to the expected increase in enrollment."

ONE OF TECH'S newer facilities, the television station, was presented as an area deserving extensive future development. The committee recommended formalizing the relation of the station to the college to effectively provide for the interests and abilities of faculty and students.

Another special educational area analyzed by the committee was the use of night courses for continuing education. It suggested extended use of night courses appealing to the more mature person.

★ ★ ★ 'Good Kids,' But Apathetic

Students of Texas Tech are "attractive, well-groomed, wholesome, friendly . . ." but they are "apathetic . . . about the need or desirability to be further involved in responsibilities associated with their own life and government, as well as with the general functions of the College."

Such are the findings of the visitation committee to Tech representing the Commission on Colleges, Southern Assn. of Colleges and Schools. These opinions are recorded in the "Student Personnel" division of the committee's general report.

Impressed With Students

Despite some criticism, the committee seemed very much impressed with Tech students, as a group and as individuals, and their "concern of their college and their fellow students." The committee noted that students are "motivated generally by strong professional ambitions and defined goals of vocational success."

Apathy, according to the report, was cited by several students as being the result of the "paternalistic attitude" of the administration and faculty toward student life.

The committee regarded this situation as one of the factors which has developed a student cultural climate not supportive of the central purposes of Tech. In other words, students concentrate on a wide variety of activities (some educationally rewarding, others bordering on "trivia"), rather than being culturally guided and encouraged through unified goals of the college.

Clarify Responsibilities

The report indicated that a major student need is clarification of responsibilities in residence halls so dormitories could become more than merely a place for the student to live. This development would be a step toward unification of college functions.

Development of the role played by student life personnel to coordinate academic and activity programs was recommended by the committee. It also urged appointment of a vice president for Student Life who should report directly to the president on areas normally related to a program of student activities.

Further centralized functioning of student life was encouraged in the suggestion of the creation of an effective guidance and counseling program for the college both in academic advisement (home economics excluded) and in the student personnel area.

Counseling Office

The report cited that this need will become increasingly important as the college continues to grow.

Stress was placed on the fact that present counseling facilities are seldom used by students. The counseling office is staffed with two part-time persons. A charge of \$12.50 per person is required for each student who uses its services.

Tech Slates Albee Plays

Tech theater goes will have a Dream" and "The Zoo Story," chance to view two Edward Albee plays, each an hour long. May 6-11. The plays, each an hour long, are in rehearsal now, under the direction of Ronald Schulz, associate professor of speech.

"The American Dream" was praised in *The New Yorker* for its "wholly original comic inventiveness that is by turns ridiculous, satiric, sarcastic and sensibly surrealistic. No sooner has a Sophoclean dismemberment been mentioned than it is illumined by a comic sense that often resembles that sense of Gertrude Stein, Lewis Carroll, and Jacques Tati. . . . This is a play for the resilient young and the wise old."

Cast for "The American Dream" include Marilyn Marek, Dale Karpe, Judy Eaton, Michele Roberts and Charles Benton.

"The Zoo Story" is a story of two young men who meet in New York City's Central Park, and of the attempt of one to communicate with the other in dialogue baring the frustrations of man's loneliness.

Fred March and Jim Slaughter comprise the two member cast.

Sounding Board

Poll Reveals Concern Over Traffic Ordeal

By ROBANNA SUMRELL
Toreador Staff Writer

A limited sampling of student opinion on the Student Council's proposed plan to halt traffic on the Circle between classes shows a slight majority of persons against the present plan.

A plan to halt traffic the week of April 22-27 for the ten-minute period was suggested March 21 by the Council's Student Traffic Committee as part of a study to examine measures of pedestrian safety on campus. The administration gave its approval.

"Sounding Board" approached students with the question, "What is your reaction to the Traffic Committee's proposed plan to stop traffic on the Circle between classes?"

'Got To Do Something'

Sue Johnson, freshman, Midland — "I think it's a good idea to at least try this. It's hard to get across the street and they've got to do something."

Kay Vick, senior, Dumas — "I don't feel that's the answer, because it will cause too many complaints from people. It's unfair to off-campus students who have to drive. I do feel that students should have the right-of-way between classes."

'No Big Problem'

John Hahn, freshman, Fort Worth — "I don't see that there's any big problem now. They have stop lights. No one's been run over lately, have they?"

Donna Aigner, sophomore, Dallas — "If there's some way to alleviate the problem of drivers who must have cars to get to class, I definitely think it's a good idea."

Arlos Moore, junior, Crowell — "It would work a hardship for those who have to drive their cars across campus for some reason during that time."

Kay Dudley, sophomore, Dallas — "It seems like it would clutter up traffic more on other parts of the campus. It would cause so much trouble."

Tommy Williamson

Tommy Williamson, freshman, Lubbock — "I think the reaction is according to whether you drive a car or walk. It's inconvenient for the people who have to drive through the area several times a day."

Bill Heard, junior, Lubbock — "It's not the cars that jeopardize the students; so far, it's been the students running into the cars. On that basis, we should get rid of the students. It sounds silly, but it's as logical as what the Traffic Committee proposes to do."

'Jay-Walking Less Dangerous'

John Tarvin, freshman, Richardson — "I like it for people who have classes from one end of the campus to the other and have to worry about being late. It would make jay-walking less dangerous."

Alfred Kirke, senior, Fort Worth — "I don't feel that pedestrian injuries over the last few years would justify it."

John King, senior, Lubbock — "I frankly don't see why they need to do it. If the problem is that the cars aren't obeying signals, they need to put some policemen out there."

Jimmy Willard, freshman, Quanah — "I think it's good because people are often late to class. If they didn't have to stop for cars, they might not be late."

David Whight

David Whight, senior, Houston — "I think it's a fine plan. Those who drive a car can reach all of the parking lots in other ways than by driving around the Circle."

'Hard To Cross'

Linda Ayers, freshman, Plainview — "I think it's a good idea because there's so much traffic between classes. It's hard to cross the street unless you get to a light at that time."

Jim Potter, junior, Fort Worth — "I don't think the plan should come because too many people are adjusted to present conditions. They should start in the summer or fall after a period of education. I think we've been lucky that no one's been hit."

ALPHA LAMBDA DELTA

Girls pledging Alpha Lambda Delta, women's honorary fraternity, are: Frans Bloodworth, Ann Boyd, Anita Brady, Linda Jo Casleberry, Zafar Cokinaya, Sarah Childress, Carol Cochran, Joy Cox, Celeste Craig, Rhonda Eaves, Mary Alice Evans, Mary Freeborn, Judy Glover, and Mary Alice Evans.

Also Carolyn Graff, Ann Kemp-hill, Louann Hollingsworth, Karen Hutzaluk, Betty Johnson, Debra Johnson, Karon Koger, Evelyn Kuhn, Connie McMillan, Linda McSpadden, Sandra Mathews, Donna Miller, Anne Moore, Lola Page, Norma Ruth Richardson, and Sue Richmond are pledging.

Others are Nancy Shoemaker, Jame Ann Sides, Betty Smith, Mary Tamahill, Kay Taylor, Judy Thomas, Suzanne Thornton, Lynn Walton, Martha Welch, Betsy Wilson, Judy Wimbish, Marcia Winkelman, and Jean Young.

PHI ETA SIGMA
New pledges of Phi Eta Sigma, men's freshman honorary fraternal-

ity, are William Abraham, Billy Allison, John Baumgardner, Jack Box, Jerry Brown, Barry Browne, Gary Burk, George Camp, Terry Carpenter, Mickey Carter, Lloyd Clomburg.

Also Richard Garlitz, Stephen Glenn, Richard Grady, Jimmy Harkins, Bruce Herlin, Leroy Hill, Woodrow Hitchcock, John Hoest-enbach, Jerry Hudson, Clark Huff, Roy Ivy, Jerry Jones and David Kee are pledging.

Also David Legg, Jack Meek, James Moore, Wesley Nelson, Glenn Parker, James Phillips, Ray Robbins, Stephen Scott, Brooke Smith, Keith Smith, William Snellgrove, James Stephenson, Wells Teague, Russ Wilkinson and Walton Williamson are pledges.

Music Recital Set For Today

George Osborne, Tech voice instructor, will be featured in a free faculty recital at 8:15 p.m. Saturday in the Music Bldg., room 1.

Osborne, a graduate of Oklahoma City University, received his M.A. at Indiana University, where he sang leading roles in several operas. In 1960, Osborne studied in Rome on a Fulbright scholarship. He has been at Tech since September, 1962.

Assisted by Thomas Mastroanni, piano instructor, Osborne will perform "Schwanengesang" by Schubert; "Di Provenza il Mar" from La Traviata and "Il Balen Del Suo Sorriso" from Il Trovatore, by Verdi; "The Call" by Vaughn Williams; "The Sally Gardens" arranged by Benjamin Britten; and "I Hear An Army" by Samuel Barber.

'Woman's World' Style Show Slated Tuesday

Interest is high among Tech coeds when it comes to spring fashions, and certainly a style show is in order.

"Woman's World of Fashion" is the title of a style show to be presented at 7:30 p.m. Tuesday in the Coronado Room of Tech Union. Tech coeds will model fashions from five leading Lubbock stores.

Carol Lou Burden, sophomore, will serve as commentator. Style show co-ordinator is Johnnie Lu Raborn, society editor of THE DAILY TOREADOR.

Models are Val Garner, Linda Nolan, Carolyn McDuff, Jan Cone, Ethel Glasscock, Carolyn Hulse-

ler, Susan Manning, Jodi Conway, Sandy Assiter and Clarie Adamson.

There is no admission charge to the style show.

MONSTER CONTEST

sponsored by the
PARKER PEN PEOPLE

20 ★ TWENTY ★ 20 MONSTER RALLY KITS

GIVEN AWAY **FREE!**

TO COLLEGE GROUPS
Fraternities, Sororities, Chowder & Marching Societies, etc.
JUST FOR COLLECTING SIGNATURES (see below for complete rules)

EACH KIT CONTAINS:

1 BULL HORN
... throws the sound of your leader's voice a country mile

20 COUNT 'EM 20 MEGAPHONES!!
... for keeping order amongst the rank and file

50 NOISEMAKERS from Las Vegas
... for keeping disorder amongst the rank and file

Do-it-yourself Effigy
... a bald-headed store dummy who can look like almost anybody

60 YARDS OF BUNTING
... the good, colorful kind

300 BLANK BUTTONS
... fill in your own cause

HERE'S ALL YOU DO TO WIN A MONSTER-RALLY KIT FOR YOUR GROUP:

- 1 Pass the hat and buy one Parker Arrow pen or borrow one—the new clean-filling, smooth-writing cartridge pen. It only costs \$3.95.
- 2 Use this pen to acquire at least 200 (two hundred) signatures of fellow students. They need not be perfectly legible and we'll even accept artful aliases. Neatness does not count, but length does (the 20 longest lists of names win). Duplicate prizes in case of ties.
- 3 Mail your list to: Monster Contest, P.O. Box 5049, St. Paul, Minn. We'll mail kits to winning groups, within 30 days. Sorry, but only one kit to a college or university and only 20 kits nationwide. Be sure to appoint a group leader and include his or her name and address with your entry.
- 4 Consolation prizes will be awarded to each group submitting 50 signatures or more. You'll receive one FREE Parker Quink cartridge for each name (we're no dopes, they'll all have to buy Parker Arrow pens to put 'em in).
- 5 Decisions of judges final. All entries become the property of Parker. Contest void in Nebraska, Wisconsin, and anywhere else prohibited by law. All entries must be post-marked on or before midnight, Nov. 9, 1962, and received on or before Nov. 16, 1962.

U. N. BEGINS SESSION

Hottelet Addresses U.N. Today

Richard C. Hottelet, CBS United Nations correspondent, will address the Texas Tech Model U.N. today on the future of the U.N.

He will discuss whether or not the U.N. is still considered an effective force by the member nations.

Hottelet, a correspondent with an extremely interesting history about him, will also discuss whether the United Nations is more influential in economic and social fields, or whether its main power rests in the political domain.

In his many years of commenting, Hottelet has trudged aside Nazi troops during the day of the Third Reich power, been imprisoned by those same Nazis, been an acute observer of the American political scene and become CBS' top man in the U.N.

Hottelet spent many years in Germany, where he was assigned to cover Bonn in 1951, and returned to the United States in Au-

Soviets Storm Out; Portugal Rebutted

By ARTIE SHAW
Toreador Staff Writer

The first day of Texas Tech's initial Model United Nations was highlighted by the exodus of several of the Communist bloc nations and an almost unanimous denunciation of Portuguese colonialism in Angola.

This imperialistic policy, called by Indonesia's Tony Costa "colonialism in its most brutal manifestations," was denounced in much the same way by almost every nation. Each stated Portugal had taken the right of self-determination away from the Angolose, had inflicted brutal repressive measures and had made no considerations in respect to Angola's social, economic and educational conditions.

Portugal, in supporting herself, could only refer to certain portions of the Charter of the United Nations.

The day got off to a colorful start, as the Russian element picketed the Tech Union, scene of the Model U.N., with posters proclaiming the USSR's desire Angola be free and independent. Some of the posters said: "Russia Says Independence," "Russia Wants Angola Free," "Liberty For Angola" and "Down With Slave Labor."

Moeser Opens Session

The first day of the Model U.N. opened with simple ceremonies presided over by President Amon Burton. Tech's ROTC presented the colors, both those of the United States and the United Nations, and John Moeser, Secretary-general, welcomed the assembled delegates and audience.

Moeser said, "You will be observing and participating in a highly technical operation."

He continued, "Nations other than our own face these same problems, and therefore we must be willing to acquire knowledge of these countries — their histories, customs and economic problems peculiar to them."

Resolution Debated

The resolution before the Model United Nations of Texas Tech demands Portugal cease repressive measures in Angola, and "begin extensive reforms with a view to transfer of power to the people of Angola."

The U.N. resolution is based on a "time" project—one that will not become effective immediately, but upon the maturation of the Angolose to a degree with which they could rule themselves properly. However, a resolution submitted by the USSR demands "immediate and complete liberation of the Angolose people."

The United Arab Republic, also submitting a resolution, proposed that the liberation of the Angolose be enacted on a slower, more deliberate basis, but that certain measures should be carried out immediately.

New Zealand added still another resolution for consideration.

Belgium Supports Portugal

Peggy Brownlow, speaking for the Belgium delegation, said, "The uneducated people of this underdeveloped country would be laid open to wider communist infiltration and aggression, problems already too prominent on the African continent. . . . Portugal's measures are to be considered guidance, and not repression."

In defending its colonialistic tendencies, Portugal stated she "condemns the resolutions now before the General Assembly as a mockery of the letter and spirit of the idea which presided at the founding of the United Nations."

Miss Kirby continued, "Portugal has been a unitarian nation for many years. . . . Angola is one of the overseas provinces of this unitarian nation."

"All the parts of this nation . . . are independent with the independence of the nation."

Russians Leave

During the speech by Portugal's Miss Kirby, Russia's delegation began pounding the table in protest, and later left the room.

As they passed the rostrum (interrupting the Portuguese delegate) Burton said, "Take your seats or leave the room!"

Background

Time, Hard Work Made U.N. Reality

By ARTIE SHAW
Toreador Staff Writer

Tech Union's "biggest project" came to life Friday as the first day of the Model United Nations was completed.

An idea that first came into being midway last semester developed into what Karen Moore, Union program director, called "The largest, if not the most important effort ever undertaken by Tech Union."

After much complicated and time-consuming background work, the details of the U.N. began to appear.

Late in the fall semester, Richard C. Hottelet, CBS United Nations correspondent, agreed to be the featured speaker.

Orientation Held

On Thursday, Feb. 21, a mass orientation meeting was held in the Coronado Room and the respective delegates and delegations began to realize the size of the undertaking they had become involved in.

Mrs. Moore summed it up well: "The success of the program depends on each delegation. I think

other than word of mouth. Mrs. Moore said this was to give each bloc an equal chance to get its candidate elected.

After each candidate had given a short campaign speech, stating his qualifications and why he should be elected, a short interval of "politicking" was begun.

Burton Elected

On March 20 Burton was elected first president of Tech's Model United Nations.

Before the election of the president, a Chet Humbley documentary, "Angola, Journey to War," was shown to the assembled delegation heads and members.

Organization of the U.N. is due directly to the work of several isolated individuals and the efforts of the steering committee. The steering committee made up the rules and constitution, chose the subject, engaged a speaker, planned, worked and toiled until every last detail of the Model U.N. had been planned.

Mrs. Moore answered the very pertinent question, "Why?"

"We don't look at it so much as learning about the United Nations, but about international problems, and what we hope the campus will receive is a deeper understanding of the 'what and why' about colonialism, and what can be done about it."

Purpose Manifest

The purposes of the program are manifold, and include an effort to reach participating students about countries of the world.

Although the intricacies of the actual United Nations are of secondary importance, the Model U.N. will facilitate in learning of the problems faced by international negotiators and the methods used to solve them.

Today the solution to the problem of colonialism will be decided—at least on this level it will be decided, and with it comes a fuller understanding of the problem itself—the goal of the Model United Nations.

RICHARD C. HOTTELET

gust, 1956, to assume a major role in reporting an election year. Viewers witnessed his acute observations on the American political scene throughout the convention, election and inauguration.

Before his return to the United States, he lived in Europe for a dozen years. He first entered that country as a student at the University of Berlin after earning his B.A. at Brooklyn College.

After covering the major news stories that led to World War II, he joined the German troops marching on Czechoslovakia. He continued on to be one of the first group of correspondents that entered Poland after the German take-over.

Before too long, the German government found Mr. Hottelet too outspoken for their political tastes, and in 1941 arrested him. The charge was a trumped-up accusation of espionage. After four months of solitary confinement he was exchanged for a Nazi newsman being held by the Department of Justice.

Since the war he has travelled the world over in search of the newsworthy events of the day; he was at the Geneva Summit Conference; travelled with Khrushchev and Bulganin during their visit to Yugoslavia; and covered the move toward independence in Poland after the Hungarian Revolution.

Now based at home after 20 years of foreign correspondence, Richard Hottelet spotlights the activities of the United Nations and other stories of long-range importance on his program. In his series of analysis on the CBS radio network he interprets the day's news in the light of the background and meaning of that news.

JOHN MOESER

Footnotes

by Miller

Well, summer is upon us, in spirit if not in season. The signs are everywhere — sprinklers that shoot jets of water across the shortest way to class, little birds that congregate on the sidewalk and flash away at the last moment to avoid smashing, and muted curses at the coke machines when they fail to deliver either change or drink.

And with summer comes the silly season. The silly season is marked by a wave of insanity that prompts the human race to do everything from prophesying the end of the world to flagpole sitting, in a frenzy to find new and different activities.

Not liking to be left out, and figuring anything for a laugh, we would like to help the silly season get off to a roaring start. And so, borrowing from the "Dodo" humor magazine of the Air Force Academy, we would like to present the **Footnotes Believe It Or Don't.**

1. The Dean of Women is really a man.
2. The Drama Dept. is presenting a stage version of "Tropic of Cancer."
3. The Ad Bldg. was designed by Frank Lloyd Wright.
4. Billie Sol Estes is lecturing to the Man and the World class.
5. The Caprock is really an extinct volcano.
6. Culottes are a form of underwear.
7. "The Matador Song" is really

"The Star Spangled Banner" played backwards.

8. The West Engineering Bldg sinks two inches per year.

9. IFC put ten people to death last year for violations of fraternity rushing rules.

10. The Student Council has solved the parking problem.

11. The water fountains in the Home Ec Bldg. do not give water, they give beer.

12. The Tech Union game room is run by the Mafia.

Happy silly season, and to the Carpetbaggers, we appreciate your support.

MANAGEMENT

Tuesday at 8 p.m. will be the first official meeting of the Society for the Advancement of Management, a new organization on campus.

Kenneth Hobbs, Lubbock lawyer, will speak on "Advantages of Professional Life." Hobbs received his first two degrees from Tech and has made numerous speaking engagements.

The meeting will be in the Chemistry Bldg., room 101.

Attention SENIOR and GRADUATE MEN Students who need some **FINANCIAL HELP** in order to complete their education during this academic year and will then commence work.

Four Freshmen Slated For Concert At Tech

The Four Freshmen are appearing here Thursday night.

Sponsored by the Tech Union Special Events Committee, the popular quartet will present a concert at 7:30 p.m. Thursday in the Municipal Auditorium.

The Four Freshmen began their career in the big time in 1950, when Stan Kenton heard their performance in Dayton, Ohio. He was so impressed with their fresh style that he talked Capitol Records into awarding them a recording contract.

Before their discovery by Kenton, the Four Freshmen were in perpetual motion on the night-club circuit in the Midwest. Wherever they went, they amassed loyal followings. But it was not until that night in Dayton that they graduated to national fame.

Since 1955, they have been firmly established as one of the top acts in show business. They have played engagements at most of the country's leading night clubs and concert halls, including the Paladium and the Hollywood Bowl. They have also presented concerts at nearly every major college in the United States and

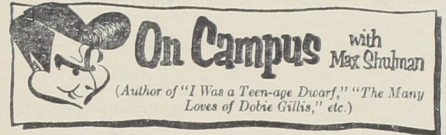

dozens of state fairs and conventions.

A performance by the Four Freshmen is marked by versatility. They can blow, strum or thump seven instruments as well as sing.

The Four Freshmen are replacing "A Wilde Evening with

Shaw," which had previously been scheduled on the Union calendar for Thursday.

Tickets to the Four Freshmen are \$7.50 for Tech students, \$1 for other students and faculty and \$2 for general admission. They will be on sale at the Tech Union starting Monday.

HOW TO GET EDUCATED ALTHOUGH ATTENDING COLLEGE

In your quest for a college degree, are you becoming a narrow specialist, or are you being educated in the broad, classical sense of the word?

This question is being asked today by many serious observers—including my barber, my roofer, and my little dog Spot—and it would be well to seek an answer.

Are we becoming experts only in the confined area of our majors, or does our knowledge range far and wide? Do we, for example, know who fought in the Battle of Jenkins' Ear, or Kant's epistemology, or Planck's constant, or Valsalva's maneuver, or what Wordsworth was doing ten miles above Tintern Abbey?

If we do not, we are turning, alas, into specialists. How then can we broaden our vistas, lengthen our horizons—become, in short, educated?

Well sir, the first thing we must do is throw away our curricula. Tomorrow, instead of going to the same old classes, let us try something new. Let us not think of college as a rigid discipline, but as a kind of vast academic smorgasbord, with all kinds of tempting intellectual tidbits to savor. Let's start sampling tomorrow.

We will begin the day with a stimulating seminar in Hittite artifacts. Then we will go over to marine biology and spend a happy hour with the sea slugs. Then we will open our pores by drilling a spell with the ROTC. Then we'll go over to journalism and tear out the front page. Then we'll go to the medical school and autograph some casts. Then we'll go to home economics and have lunch.

And between classes we'll smoke Marlboro Cigarettes. This, let me emphasize, is not an added flip to the broadening of our education. This is an *essential*. To learn to live fully and well is an important part of education, and Marlbors are an important part of living fully and well. What a sense of completeness you will get from Marlboro's fine tobaccos, from Marlboro's pure filter! What flavor Marlboro delivers! Through that immaculate filter comes flavor in full measure, flavor without stint or compromise, flavor that wrinkled care derides, flavor holding both its sides. This triumph of the tobaccoist's art comes to you in soft pack or Flip-Top box and can be lighted with match, lighter, candle, Welsbach mantle, or by rubbing two small Indians together.

When we have embarked on this new regimen—or, more accurately, *lack* of regimen—we will soon be cultured as all get out. When strangers accost us on the street and say, "What was Wordsworth doing ten miles above Tintern Abbey, hey?" we will no longer sink away in silent abashment. We will reply loud and clear:

"As any truly educated person knows, Wordsworth, Shelley, and Keats used to go to the Wilddicombe Fair every year for the poetry-writing contests and three-legged races, both of which they enjoyed lyrically. Well sir, imagine their chagrin when they arrived at the Fair in 1776 and learned that Oliver Cromwell, uneasy because Guy Fawkes had just invented the spinning jenny, had cancelled all public gatherings, including the Wilddicombe Fair and Liverpool. Shelley was so upset that he drowned himself in a butt of malmsuey. Keats went to London and became Charlotte Bronte. Wordsworth ran blindly into the forest until he collapsed in a heap ten miles above Tintern Abbey. There he lay for several years, sobbing and kicking his little fat legs. At length, peace returned to him. He looked around, noted the beauty of the forest, and was so moved that he wrote Joyce Kilmer's immortal *Trees*... And that, smart-apple, is what Wordsworth was doing ten miles above Tintern Abbey."

Dean's Staff Selects Casa Linda Officers

Casa Linda's house director and business manager for 1963-64 have been selected by the Dean of Women's staff.

Juanice Vewbill was selected as house director and Diane Nesloney as business manager.

Miss Vewbill is a sophomore speech major from Brownfield. She is vice president of Sock and Buskin and a member of the Junior Council. She works for the campus radio station KTXF. She has lived in Casa Linda for two years and was assistant business manager last semester.

Miss Nesloney is a freshman secretarial administration major from Orange Grove. She served on the decorations committee for the Homecoming tea at Casa Linda this year.

The house director is similar

to a counselor in the dormitories. Her duties are to enforce college and AWS regulations in Casa Linda.

The business manager is responsible for purchasing groceries, making menus and for the general physical condition of Casa Linda.

Girls holding a position must have an over-all grade point average of 2.5 and a good citizenship record. Nominations are submitted to the Dean of Women's staff by the members of Casa Linda for selection.

Barbara Hardcastle, sophomore from Sudan was selected as assistant business manager and Roberta Shodgrass, freshman from Plains was selected as president.

Other officers will be elected next fall.

4149 Tickets In February

Citations Show Rise

By LEO BROWN
Toreador Staff Writer

The brown- and gray-clad officer gave the ticket a final look, slipped it under the windshield wiper and returned to his car.

Thus, the Tech traffic-security department issued the 4149th ticket for the month of February.

The officer is one of ten full-time patrolmen who issued 16,423 parking tickets for the 1961-62 academic year. The pace this year was only slightly higher than last year's until February, according to officials. An increase of 1319 tickets over February of last year shows a sharp rise. The department offered no explanation for the higher number of tickets issued.

\$60,000 Budget

On a budget of \$60,000 a year traffic-security is in charge of the parking, driving, and criminal violations on the campus. "We put 25 people in jail last year. We pick up drunks, window peepers, and other violators," said Bill Daniel, chief of Traffic-Security.

"All Tech patrolmen are commissioned Lubbock police officers. They can make arrests and issue tickets anywhere in Lubbock. However, they hardly ever do this off campus," said Daniel.

Troublesome Lots

Asked whether certain parking

lots were more troublesome than others, Daniel answered, "We have more trouble with the Ad Bldg. lot, the lot behind the West Engineering Bldg., and the Social Science Bldg. lot."

Comparing the Tech parking situation with other schools Daniel said, "As far as I know Tech is the only school in the United States that doesn't charge for parking tickets. We wouldn't have to write so many tickets if students had to pay for them."

However, Daniel stated that towing cars off the campus did exert some control over violators. "If a car is restricted and is brought on the campus and we find it, we will tow it off. If we couldn't tow cars away there

wouldn't be any reason for having parking rules." Eighty cars were towed away last month.

MWF Busiest Days

Patrolman Eldon Beesinger said, "Our busiest time is 9-11 a.m. and 2-3 p.m. everyday. MWF days are our busiest, especially Monday and Wednesday."

The rash of thefts that had been taking place on the campus has slackened somewhat, Daniel said. "We haven't had near as many thefts. We have been running two cars at night instead of the usual one. We can cover the campus much better. If we had all the lots lighted, it would cut thefts in half."

The department has three late model cars to patrol the campus. These cars are maintained by the college and are traded every third year. Presently traffic-security has a 1963 Ford, a 1962 Chevrolet and a 1961 Chevrolet. The cars normally have about 50,000 miles when traded in for new ones.

Traffic-Security Statistics

- The most tickets in one day—594.
- The least number of tickets in one day—50.
- Students who lost parking permits last year—700.
- Cars towed away last year—205.

As a final word of warning to students prior to spring vacation Daniel said:

"Don't load your car for a trip and leave it on the parking lot all night. You are just asking someone to steal if you do."

Women Try Magic Touch On Toreador

Tuesday is our day, gals. Tech women, garbed in white, will rule — it's the annual Women's Day.

Powder puffs and perfume will also prevail Monday in THE DAILY TOREADOR newsroom as women students, directed by Theta Sigma Phi, women's professional journalistic society, edit Tuesday's issue.

Jeannie Bookout will be editor for the day. Gayle Machen will be managing editor and Jody Allen, news editor. Celeste Hardy will remain copy editor for the day, while Jeannie Stark serves as sports chief. Lynn Buckingham will be society editor, and Nancy Miller will perform her regular role as amusements editor. Freda McVay will serve as professional advisor.

So look for something different Tuesday. The girls may even perfume the printer's ink.

Raiders Divide Squad For Full Scrimmage

With spring training now at the halfway mark, the tough are getting tougher and the hard are getting harder.

Coach J T King can only single out three players at present who appear to have their 1963 jobs sewn up. Starters from the 1962 squad, left end David Parks; right guard Bill Shaha and center C. C. Willis are the only players outstanding enough to be pointed out as starters.

King pointed out that there are "bitter dogfights brewing for right end and left defensive tackle."

Candidates for the defensive tackle spot are Buck Washerlesky, Ray McWilliams, Richard Willis and March Bryant. Right end hopefuls are David Rankin, Jerry Don Balch, Charles Gladson and Tommy Doyle.

Netters Meet ACC, H-SU

Texas Tech tennis team will be seeking their first win of the season as they engage Abilene Christian here at 2 p.m. today.

They will travel to Abilene Monday to meet Hardin-Simmons in the morning and ACC again in the afternoon.

Coach George Philbrick will choose his starters from senior Daryl Allison of Lubbock; junior Beau Sutherland of Kerrville; junior Don Draper of Houston; sophomore Greer Kothmann of Junction and sophomore Robert Peterson of Wichita Falls.

The Raider netters dropped both of their first two matches with Trinity 6-0 and 7-0.

April 6 the tennis team will begin the first of its conference rounds with a match here against Baylor.

All Tech tennis matches are played on the varsity tennis courts east of the new gym.

FIRST NIGHT GAME

Texas Tech's first game in Lubbock under lights was the 1931 opener, a 21-20 win over West Texas State.

TYPING: Experienced typing of all kinds. 2619 40th St., SW3-1765.

It is not really possible to tell just who will start, even after spring training is over, King said. "But we'll know just about how the boys stand in relation to starting positions next fall."

At 2:30 p.m. today in Jones Stadium, King will divide the teams into equal sides for the second game-type scrimmage of the

spring workouts. Instead of starting each series of downs on the 35 yard line as in last week's scrimmage, King will allow his charges to kick off after each touchdown.

Bill Worley, halfback letterman will not see action in the drill, and Jim Ellis will see signal-calling duty, but will not be hit.

Golfers Begin SWC Competition At A&M

Texas Tech's golfers swing into their Southwest Conference schedule against Texas A&M, the defending champion, at College Station today and against Rice University at Houston Monday.

Coach Jay McClure's Red Raiders won their only dual match to date, taking Texas Western 6 1/2-1/2 here Wednesday.

Tech's linksmen on the trip will probably include three lettermen—Housty Brewer of Andrews,

Bruce Dobie of Worcester, Mass., and Jim Davidson of San Angelo—junior Richard Yates of Corpus Christi, state amateur champion, and Gary Littlejohn, Midland senior.

Incidentally, the Raiders' first two opponents were the only ones Tech defeated last year. Tech, sixth last spring, downed Rice 4-2 and upset A&M 5-1 in the season's final. Lost from the 1962 team are lettermen Charles Bis-hop and Mack Tubb.

SPORTS

Williams Tops Tech

Sophomore shortstop Foy Williams leads Tech baseballers after the first six games with a lofty .444 average on eight hits for 18 trips to the plate.

Moose Dudley, sophomore right-hander and Frank Ray, junior southpaw, have grabbed one win each to account for the wins for the Raiders.

Second baseman Ronnie Ayers follows Williams in batting with a .333 average on six hits and 18 times at bat. Co-captain Billy Wilson is next with a .250 average on 3 for 12.

Dudley has had two hits in eight trips to lead the pitchers. He also leads pitchers in base on balls given up with 10 and on strike outs with 11. Ray has nine strike outs.

Ayers, Doug Cannon and outfielder Cagle Davis lead the Raiders in runs batted in with two apiece.

The Raiders will remain idle until Friday when they begin the first of a two day battle with New Mexico Highlands before retiring for spring vacation.

TECH FACULTY CHAIRMEN

Texas Tech has had only two faculty chairmen of athletics. Dean W. L. Stangel served from 1925 until 1948, when Dr. J. William Davis succeeded him. The late Dr. W. A. Jackson served as acting chairman while Dean Stangel was on leave during the 1930's.

Techsans In Race For Trip

Tech students James Perry and Jerry Tonroy are the first applicants in the 1963 Community Ambassador program. Lubbock Chamber of Commerce announced Wednesday.

The two will compete with about 18 other applicants for an expense-paid trip to Spain this summer as Lubbock's goodwill ambassador. The successful applicant will spend eight weeks touring Spain and living with a typical Spanish family.

Perry, a 1960 graduate of Monterey High School, is a junior general business major. He is vice president-elect of the Board of Student Organizations, vice president of the junior class, and a member of the Tech Union relations council. Perry also serves as vice president of the college department of First Methodist Church. The oldest of six children, he worked as a counselor at Boy Scout camps, including Philmont Scout Camp in New Mexico, and is past district vice president of Boy Scouts.

Math, Spanish Major

Tonroy, a 1961 graduate of Monterey, is a sophomore majoring in math and Spanish. The oldest of four children, Tonroy is a member of Phi Eta Sigma Scholastic Honor Society, National Honor Society, the naval reserve, and is president of his Sunday school class at Trinity Baptist Church.

Deadline for entries in the program is April 3. Application forms may be obtained at Lubbock Chamber of Commerce office, 902 Lubbock. Residents between the ages of 19 and 30 are eligible to apply.

Gordon Paces Men's Dorms In GPA Race

Grade-point averages for men's residence halls for the fall semester show a below-passing average.

The GPA for 2,383 men in the residence halls was 1.97. Only three halls posted a 2. or better. Gordon, with a 2.081, was high, followed by Sneed, 2.051, Carpenter, 2.025, Bledsoe, 1.996; Gaston, 1.956; Wells, 1.949; and Thompson, 1.905.

There were 13.1 average cuts per man, while the average number of hours taken was 15.46.

Gordon also had the fewest cuts per person with 11.9, while Carpenter had the highest, 14.5.

Ex-Student's Secretary Resigns Post

A. W. "Tony" Gustwick has resigned, effective this month, as field secretary of the Texas Ex-Student Association.

Gustwick will enter the Medical Service Corps of the U.S. Army as a second lieutenant this month for a two-year tour of duty.

A 1962 Tech graduate, Gustwick joined the association staff last June.

He is a member of Alpha Phi Omega, Texas Tech Century Club and Masonic Lodge. In 1960 Gustwick was student chairman of the Homecoming Committee.

ECONOMICS AND FINANCE

The Economics and Finance Society's regularly scheduled meeting has been postponed.

"A meeting date will be announced soon after spring vacation," said Ken Reoh, society president.

Executive Platforms Voiced

Furgeson Seeks One-Day Break

In many conversations with Tech students across the campus, I have found a desire for strong programs and for new ideas from the Student Council. With this in mind, I have tried to develop a platform to meet the desired needs of the student body.

Presently Tech is accelerating its academic growth just as fast as its physical growth. In this realm I feel the Student Council can promote activities.

The speaker convocation should be greatly intensified in order that Tech students can get a first hand report on national and international activities. These convocations could help us coordinate our in-class instruction with practical, on-the-spot information.

Since I have mentioned the classroom, let me explain another idea I have in relation to academics. At Tech and at other universities in this nation, grades are of chief importance. Since the pressure to make high grades is so great and since final examinations usually determine a grade to a large extent, I feel that we, as students, should have longer to prepare for our tests.

With this explanation I propose to work for a one-school-day break between dead week and final exam week.

I feel that Tech is definitely a university, and next year, I will work to bring university status to our name. These above four programs are the ones I plan to stress in the realm of academics.

Another realm of the Student Council which has not been examined closely in the past is the area of communications between the Council and the student body. I would like to remedy this problem by printing a column in THE DAILY TOREADOR from the Council.

I also feel that we need to have the executive officers before the students for criticisms and suggestions. This could be accomplished by having monthly meetings in the Union composed of the officers and all students who wish to attend. We would also have these mass meetings in the dorms.

Another area where I feel communications need to be improved is between Tech and other Southwest Conference schools.

With these other programs I have mentioned, I would like to emphasize some of the established programs of the Student Council. The Traffic Program is one that needs continual work and supervision. Our Athletic Recruiting Program is also one which can add strength to our athletic system in future years.

All these programs are the ones that I feel Tech needs to enable it to continue to keep pace with the changing times. Since they are important, I have made them the basic points in my platform.

NOT EVEN WIND CAN STOP 'EM—A strong West Texas wind seemingly proved no obstacle to this couple attending Thursday's campaign rally. Perhaps the girl received a lift to obtain a better view of campaign proceedings or merely to provide a balance against the winds. —Staff Photo

Strickland Sees Small Minority

Will we ever have another chance? If so, when? Do you really care if we have another chance? If so, read on.

Will we let a small minority of students set the policies and procedures of this campus for another term of office? I hope not. Will we continue to permit the leaders to blame the lack of voting on students' indifference? Again I hope not.

The main question is, will we face the following true fact?—We have never had a real reason to vote, mainly because of the self-centered policies and practices of this small minority.

As you read you will be able to understand how my platform isn't constructed to make me sound popular — because frankly, I'm not for everything that is "popular." I stand for the issues that back the rights of every Tech student.

First, I will inform students with a President's Column in THE DAILY TOREADOR, giving factual information of Student Council and administrative decisions and viewpoints.

Secondly, I will earnestly seek possible solutions to the growing parking problem.

Thirdly, I am not completely against a tuition hike if scholarships and other benefits are provided to balance the extra expense, but I will personally lead a campaign against any action that does not enhance the Tech student.

Fourthly, I will use any influence I have to obtain student rates at local theaters.

Other areas of my platform are: further stressing of honors program, hush discontentment about dorm food, reconstruct girls' restriction codes and eliminate out-of-date restrictions, ballot boxes in each dorm, something done about the name change, obtain athletic intergration if Techsians want it and continue study of purposes of class officers.

My platform also includes: unifying Tech organizations to work for advancement of Tech, obtain big - name speakers, raise money for name marker at campus entrance, make Model UN an annual event and work with IFC and Panhellenic to promote TB fund drive.

Let me ask you to study each candidate's platform and make a decision on your own. Then vote.

Prexy Candidates List Qualifications

Royal Furgeson QUALIFICATIONS

- ✓ Two-year member of the Student Council, serving on Publications Committee and Athletic Recruiting Committee
- ✓ Saddle Tramps
- ✓ Who's Who in American Colleges and Universities
- ✓ Varsity Basketball Letterman
- ✓ Interfraternity Council
- ✓ Honors Program in English
- ✓ Leadership Recognition in All-College Service
- ✓ High School Senior Class President
- ✓ Sports Editor of High School Annual
- ✓ National Honor Society
- ✓ High School Varsity Basketball

Gary Strickland QUALIFICATIONS

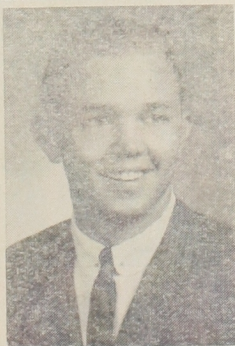

- ✓ Engineering Representative on Student Council
- ✓ Chairman of Class Committee Student Council
- ✓ Co-Chairman of WUS
- ✓ President of Sophomore Class (61-62)
- ✓ Vice President of social Fraternity
- ✓ Activities Chairman of social Fraternity
- ✓ Member of IFC
- ✓ Member of BSO
- ✓ Member of Alpha Phi Omega (service fraternity)
- ✓ On Committees at BSU
- ✓ Participation in advance ROTC
- ✓ Cheerleader in High School
- ✓ Student Council in High School

President's Duties

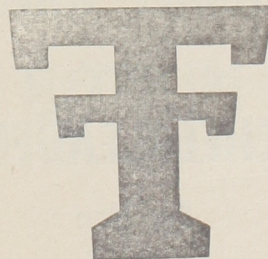

- Preside over meetings of the Student Association.
- Serve as presiding officer for the Student Council.
- Be chairman of the Executive Committee.
- See that rules and regulations are executed.
- Appoint all committee personnel not otherwise provided for in the Constitution.

STRICKLAND

ROYAL FURGESON FOR

PRESIDENT COMPARE AND VOTE

VP Hopefuls Give Platforms

James Cole

I propose to work for a compulsory evaluation of the faculty in the hope that such evaluations, if required, will make department heads more aware of teacher deficiencies. I also propose to work for increased student voice in the area of determining, to some degree, academic policy.

I propose to do this by working for joint student-faculty committees on which student opinion is voiced as to departmental policies. I propose to work for ad-

ministrative convocations at which the administration explains its policies and then subjects itself to question and answer periods about administrative matters.

I propose to work this summer on the feasibility and value of a book swap and then incorporate it next year if it is a good proposal for Tech students. I propose a very active name change program to the point of student referendum votes.

I propose to study our freshman orientation program and try to come up with a better orienta-

tion into the areas of campus activity, student life, and school spirit.

My qualifications are as follows:

President of Wells Hall in 1961-62, vice president of Men's Residence Council in 1961-62, member of Saddle Tramps, president of BSO in 1962-63, student council in 1962-63, chairman of the traffic committee, member of the elections committee, Who's Who in American Colleges and Universities, 1962-63, College Awards Board member, Tech Union Board member, committee on student organizations member.

Doug Gibbins

I would like to decrease student apathy through more student participation in Student Council and student government.

I propose to do pioneer work toward athletic integration. I also propose to continue and improve upon the athletic academic recruiting program.

I propose to study fraternity and sorority lodging plans and formulate some ideas and plans that would be workable in the future. Also, I would like to find more definite and satisfactory reasons for the tuition hike before we let it be put into effect.

My qualifications are as follows:

Chairman of the special events committee, in charge of the Freshman Dance and Freshman Convocation during freshman year; Games and Tournaments Committee at Tech Union; Wells Hall Social chairman in 1960; Campus Religious Council in 1961; secretary of the Double T Assn.; president of junior class in 1962-63; member of Phi Delta Theta; member of the Saddle Tramps; member of Phi Epsilon Kappa.

Botkin, Cornell Compete

Ronnie Botkin

The position of Business Manager of the Student Association is usually greatly underrated by the average student. Only at election time is anything really heard about the office. The position requires a great deal of work, and only with prior experience on the Student Council and a working knowledge of the duties of the office would anyone be able to do the job correctly and efficiently.

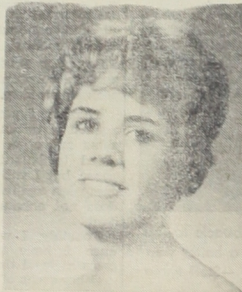

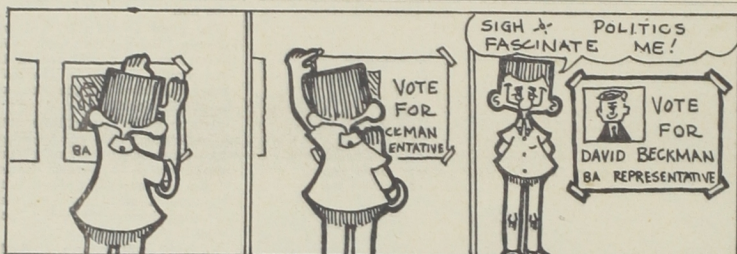

I feel that by being a member of the Student Council and working on the Allocations Committee I have gained the needed experience and knowledge. The responsibilities of the position are great and I think that I will be able to deal with any situation that might arise with the best interest of the students and Texas Tech in mind.

If you choose to select me as Business Manager of the Student Association, I will serve you and this 'university' to the best of my ability.

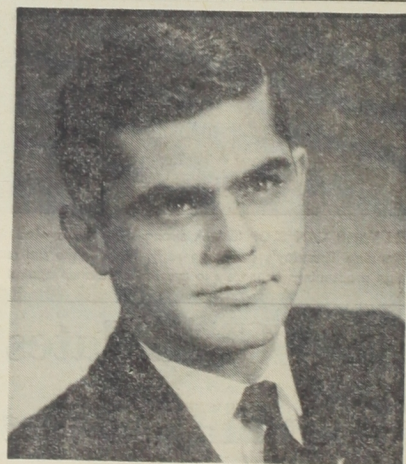

Jess Cornell is also a candidate for Student Council business manager. His platform does not appear as he failed to submit it to the Toreador by Thursday's deadline.

VP Duties

- Perform the duties of the President in the event of his absence or inability;
- Succeed to the Presidency in the event that the office should become vacant;
- Perform such duties as designated by the President or the Council;
- Be in charge of the annual school trip.
- Keep a complete and accurate record of all financial transactions of the Student Association.
- Serve as chairman of the Allocations Committee of the Student Council.
- Direct the financial activities of the varsity yell leaders.
- Educate all yell leader candidates in regard to the responsibilities and limitations of their positions.
- Be responsible for the approval of all money-making activities of the four undergraduate classes.
- Write an article to be printed in the TOREADOR during the month of December of each year to inform all students graduating at the end of the first semester of the deadline for submitting requests to the office of room reservations for the return of their room deposits.

REMEMBER...
TO VOTE!

Pat Hamilton
Secretarial Candidate

In both leadership and service capacities, I have served and am serving Texas Tech:

Through school — I have worked in the Home Economics Club,

and am past CANDLE Editor and incoming President of Phi Upsilon Omicron.

Through organizations — I am a member of President's Hostesses, will be a legislator of Doak Hall, and have recently been selected to membership in Mortar Board.

Through Student Council — I have served on the Elections, Current Events, and Allocations committees.

If elected your Secretary, I would like to accomplish the following things during my term of office.

- Continue the present secretary's program of opening up the campaigns and putting the candidates in front of the voters.
- Make arrangements so that all counting of votes can be done by IBM computer. This would insure fast and accurate tabulation of votes.
- Hold Freshman Council elections as early as possible in the fall so they may work on a more united freshman class; they could reserve a section of the football stadium for the freshmen whose enthusiasm might boost our school spirit.

Cecile Camp
Secretarial Candidate

My qualifications for Student Council secretary are: EXTENSIVE secretarial training, GOVERNMENT minor, EIGHT consecutive year's service on student councils.

My platform is:
 Ready to serve YOU in:
 1. Better communications for a better Tech—

- Council members should report back to their organizations
- Minutes of meetings should be printed in the TOREADOR

DOR

2. Fairer elections for a better Tech—

- Re-evaluation of officer qualifications
- Filling cheerleader and class officer vacancies

3. More special events for a better Tech—

- Another all-school program such as the Model U.N.
- Top national speakers

4. Safer traffic for a better Tech—

- Let the students decide

Judy Price
Secretarial Candidate

Qualifications:
 Student Council 62-63, Elections Committee 62-63, Recognized by Student Council for leadership.

Freshman Council 60-61, Junior Council, Sigma Kappa, Phi Gamma Nu, Pi Delta Phi, President's Hostesses.

As Secretary of the Association, improved communications would be one of my goals. As a member of the election committee this year, lack of student interest in campus elections has been painfully evident. Campus positions are often filled by a very small percentage of voters. Integration of students into Tech's student government could be achieved through a coordinated program with the TOREADOR.

I would also work this summer with IBM in the Engineering Department to set up a program for elections. All elections then would be held on IBM cards and counting would be done electronically.

Office Duties

The secretary's duties are:
 KEEP the minutes of meetings of the Student Association and of the Student Council; BE responsible for the maintenance and preservation of the official version of the Student Association constitution and all rules and regulations of the Student Association; SEE that a copy of the official version of the constitution and all rules and regulations of the Student Association remain on file in the office of the president of the college; SEND a copy of the minutes of each meeting to the following: President of the College, Dean of Student Life, Dean of Men, Dean of Women, Student Council sponsor, Vice President and Comptroller, Academic Vice President.

AT all times maintain and preserve the official copies of the Student Association constitution and bylaws in the Student Council office.

PRICE IS RIGHT for SEC.

FOR A & S

REPRESENTATIVE

As your representative I will stand for (1) a name change for the school (2) more power for student government (3) and other measures which I feel will make Tech "FIRST" nationally and in the Southwest Conference.

RONNIE BOTKIN

for
Business Manager

WHO WILL IT BE? — Techsians voting by secret ballot today will choose three boys and three girls from the 18 candidates for cheerleaders to rally students behind the Raiders next fall. Run-off elections are set for Monday. —Staff Photo

Cheerleader Candidates

And Duties

Candidates for cheerleader are Carolyn Buxton, Linda Edie, Carol Fursman, Gay Gillespie, Jeannine Jones, Nelda McQuien, Camella Moore, Kathy Osthoff, Sandy Sample and Jami Steinhoff.

Other candidates are Myrna Stephenson, Lynn Wallace, Dennis Ashmore, Mike Bohn, Smiley Irvin, James Perry, John Ward and Bobby King.

Those persons elected will:

- Be responsible for all Texas Tech pep rallies
- Coordinate the generation of enthusiasm at all recognized college athletic events
- Be responsible for furnishing a representative to the Southwest Conference Sportsmanship Committee
- Encourage good sportsmanship on the campus
- Be responsible to the business manager for the management of their finances
- Elect, from their number, a

head cheerleader who shall be a male student and shall serve as their chairman.

PRICE IS RIGHT for SEC.

It Takes More Than Yelling To Be A Tech Cheerleader

Lots of people can yell and cheer with gusto when the Red Raiders go over for a touchdown. Quite a few can turn flips, inspire enthusiasm and attend all athletic events.

But there are a few special qualities, perhaps best classified under the term, gung-ho, that sets a good cheerleader apart from the football crowd.

Special qualities don't include regular cheerleader duties such as coordinating pep rallies and being on hand at ballgames.

One Tech cheerleader called it a year-round job. "A cheerleader must attend teas for visiting athletes, entertain visiting yell leaders and when away, attend all planned functions at other schools," she said.

High on her list on what makes a cheerleader really go is being able to perform yells well, en-

thusiasm, and devotion.

"A good cheerleader above all to develop sportsmanship and his enjoys cheerleading," she reflects. "He should at all times strive to develop sportsmanship and his own potential to its fullest."

Industrial Engineers Win First

Industrial engineering department took its fifth straight first place in the recent Science and Engineering Show.

Industrial engineering exhibits demonstrated techniques in production control, plant design, materials handling, work measurement, statistical quality control, product design, manufacturing analysis and organizations research.

Displays in the 31st SE annual show were judged on appeal to the public, explanation of department curriculum and presentation of exhibits.

The industrial engineering display received 3,705 points of a possible 4,000.

Bud Lanham was chairman of the department's exhibit. American Institute of Industrial Engineers and Alpha Pi Mu set up the displays.

READY TO STOMP—Judy Richards, junior, and Bob Fouts, senior, are all decked out for the Phi Mu western dance 8-11:30 p.m. today. Jimmy Heap's Band will play for the open dance at Vann's Catering Service. —Staff Photo

Delegations Plan Trips

Delegates from Tech's history department will scatter to state and regional history meetings in Austin and Albuquerque this weekend and next.

Four faculty members will represent Tech at the Texas State Historical Assn. meeting this weekend. The Austin meet begins today and continues through Saturday. Dr. David Vigness, department head; Dr. Ernest Wallace, professor; Billy Mac Jones, instructor and Richard Marcum, teaching assistant, will attend.

Tech's chapter of Phi Alpha Theta, history honorary, will send five representatives to a regional meeting in Albuquerque, N.M., Friday and Saturday, May 3-4.

Attending will be Dr. Paul Woods, history professor, and Lt. Col. George R. Hull, professor of air science.

Ronald Benson, teaching assistant, will present a paper on the Hay-Pauncefote treaty.

Nancy Vincent, Alpha Theta president, and Sarah Gaston, Austin junior, are Tech's student representatives.

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to: Reading, 835 Diversey Parkway, Dept 9894, Chicago 14, Illinois. A postcard will do.

Zsa Zsa Stars In Union Show

Mel Ferrer and Zsa Zsa Gabor star in "Lili," a technicolor movie, at 4 p.m. and 8 p.m. today and 2:30 p.m. Sunday in Tech Union Coronado Room. The Special Events Committee is sponsor.

Grads Discuss Negro Novelist

Grover Lewis and Nolan Porterfield, graduate English students, will lead the discussion at today's Noon Forum in the Tech Union Blue Room.

Discussion topic is contemporary Negro novelist, James Baldwin. Baldwin is author of "Another Country."

Purdue Prof Lectures On European Market

Competition from the European Common Market will force the U.S. to move rapidly if it is to hold onto its world markets or consider expanding them, according to Dr. James Greene, industrial engineer and visiting lecturer at Tech.

His ideas may carry some special weight since he has recently been a consultant to the European Production Agency, a division of the Common Market's organization.

"The U.S. must find ways to produce goods with more efficiency," he declared. "This presents a challenge to our industrial engineers."

Dr. Greene, a Purdue University professor, is spending three days, Monday through Wednesday, at Tech. He is conducting seminars in general industrial engineering research, production control and operations research.

Positions Open For L-V Staff

Applications are now being accepted for associate editor, copy editor and staff artist for next year's La Ventana.

Students interested in these positions should write a letter giving their qualifications, past experience on an annual or newspaper, why they want the job and any new ideas they may have for next year's La Ventana.

Past experience is not necessary, but preferable. Applications should be turned in to the La Ventana office or to either Johnnie Lu Raborn or Travis Peterson by May 1.

These are paid positions, and applicants should be willing to put in a great deal of time.

HONORARY MEETS

Psi Chi, psychology honorary, will meet at noon today in Tech Union, Elmer's Lounge. The group will initiate members and present a slate of officers. Those attending must sign up in the psychology office, X-31.

SURROUNDED—Carol McCormick, Ennis sophomore, was surrounded by cadets from England's Royal Air Force after their captain said, "If I were you blokes, I wouldn't let these ladies sit alone."

As I see it . . .

by johnnie lu raborn

"You think we speak the same language, but we don't," said one cadet from Cranwell, the Royal Air Force Academy in England. I had to agree with him.

Tech's Angel Flight was visiting the Air Force Academy in Colorado Springs. Some were dated with English cadets, who were also visiting. It was a real education.

For years, I've heard the English stereotype came out with "jolly good," "old chap" and "ra-ther." They are all true with the addition of an occasional "quite" and "Oh, my yes."

In England, you are not "out to lunch" but "around the corner." When we have a lousy date he is called "cull" or "bad head," but Cranwell calls them "grimmies."

'MAKING OUT'

It is a mystery how they got it but "cupeake" is said for "making out." Tennis shoes are called "blimp shoes," and a resounding "dash it" means darn or damn.

We Americans take much for granted. These cadets had never seen a drive-in movie or drive-in restaurant. Motels were also new, for they don't exist in England. Some of the guys got their first taste of pizza, Mexican food and pretzels. They didn't like it.

'STATUS SYMBOL'

It is a status at our Air Force Academy for the "firsties" or seniors to have Sting Ray Corvettes. That vast parking lot is full of them. I didn't see five cars under two years of age. The Cranwell "chaps" find it "marvelous" to get to ride bicycles when seniors. They do have cars, but generally these are somewhere in the 30's models. A car 10 years old is relatively new.

I did notice one thing about the cadets as a group. They abounded with national pride. One said, "There will always be an England." To which some of the U.S. cadets sort of laughed. A Cranwell "troop" recounted with a "Don't scoff at it, national pride is a wonderful thing." Their pride was so emphasized that it made me wonder if we "came over" the same way about our country.

On Saturday night, a formal ball was given for our flight, Cranwell and first classmen (seniors) at the academy.

The British boys taught us one way to live up a rather stiff dance. During one of the songs, one Cranwell "troop" yelled "Ants." The cadets immediately fell down on the floor, rolled over on their backs and kicked their feet and arms into the air. At the sound "dead ants," the legs and arms went stiff. Rather quaint, I'd say, but still effective enough to break everyone up.

GHOUL POOL

The Angels with U.S. Academy dates were wondering that night if they were included in the "ghoul pool." It goes like this. The academy hosts arrangements for blind dates for the formals. Cadets within each squadron enter a "pool" for 25 cents. At the dance, squadron officers act as judges and dance with the dates of each cadet entered in the pool. Afterwards, these officers decide which had the worst date and he wins the money. If we did it here, I would be rich.

AS I SEE IT

Sigma Kappa will choose a "Mr. Pledge" at 8 p.m. today in the National Guard Armory. Mr. Pledge will be chosen from fraternity pledges. The Caravans will play for the all-school dance.

Phi Mu will have a western stomp, 8-11:30 p.m. at Vann's Catering Service. The open dance will feature Jimmy Heap's band. Tech Union also is having a western dance from 8-11:30 p.m. in the Ballroom. Jimmy Mackey is playing.

KAPPA KAPPA GAMMA

An informal "German Beer Garden" will be the setting for the Kappa Kappa Gamma dinner dance at 6:30-11:30 p.m. today.

Delta Sigma Pi will have its Rose Dance from 7:30-12 p.m. Saturday at the Pioneer Hotel.

Newman Club will go on a picnic Sunday to Palo Duro Canyon.

Red-White Skirmish Ends Spring Training

Scarborough, Ben Elledge Opposing QBs

By ARTIE SHAW
Toreador Sports Editor

A pair of shining freshman quarterback prospects will be opposing each other at 4 p.m. in Saturday's final spring training scrimmage.

Featured will be Danny Scarborough of Quanah and Ben Elledge of Brownwood.

The annual contest is the rubber game of the series, as the Reds jumped to a quick two-game advantage, only to have it taken away from them in the last two outings by the underdog Whites.

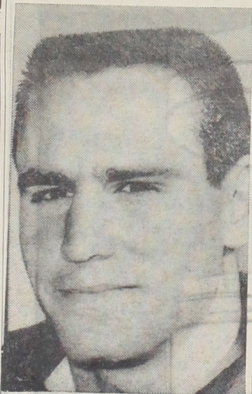

Two upperclassmen quarterbacks, Bill Worley of Midland and James Ellis of Lubbock, underwent knee surgery in December and will probably not see action, although they will be suited.

Statisticians Overworked

With both the Reds and the Whites threatening to "loosen-up" their previously tight offenses, the stress could be worse on the statisticians than on any one else.

Last week the Reds gathered 364 yards of total offense in a losing cause, while the Whites haled and threw for 277 in their 20-12 victory.

Long gainers have been the word of the day thus far, and any

BILL WORLEY

. . . Will not see action

more would be just icing for the cake.

Jim Zanios, Albuquerque full-back, for example, took a handoff from Red quarterback Ben Elledge and raced 52 yards off tackle in a spectacular gainer.

Elledge connected on two long passes, one to all-Southwest Conference end, David Parks, for 44 yards and another to Stimmert half-back, Donny Anderson, for 41 yards.

For the rubber game, each having won two contests, lineups will be exactly the same as last week. There may be a trade at half-back between David Baugh of Rotan, a Red last week and Jimmy Edwards of Roysie City, who played for the White squad last week.

Admission is \$1 for adults, 50 cents for students and Tech students will be admitted by showing their identification cards.

Traffic and Security

The staff is comprised of a chief, 10 commissioned officers, one night sergeant, two radio operators, one secretary, one clerk and two part-time employees. There are three radio-controlled patrol cars. In October, 1962, there were 6,240 cars registered to park on campus.

Tech Linksmen Meet UT At Meadowbrook

Texas Tech, in an effort to get back into the Southwest Conference golf race, engages the University of Texas here on Lubbock's Meadowbrook golf course today.

Tee-off time at Meadowbrook is 12:30 p.m.

Coach Jay McClure's linksmen, 4½-1½ losers to Texas Christian University here Monday, will also be motivated by a desire for revenge. Texas sports five lettermen from the squad that downed the Red Raiders 5-1 in Austin last year.

Texas Tech currently has a 14½-9½ standard. The Raiders lost to Texas A&M, knocked off Rice 6-0 and defeated Baylor 5-1 before dropping the match to TCU.

Texas' players will probably be Bill Munn of Midland, Randy Geiselman of Houston, Oscar Goode of Austin and Pat Thompson of Mission.

Texas Tech golfers for the match will probably be Bruce Dobie of Worchester, Mass., Richard Yates of Corpus Christi, Housty Brewer of Andrews and Jim Davidson of San Angelo.

Yates is Texas amateur champ, and lost his first-SWC match of the year to Jack Montgomery of TCU last week.

Tech Netters Challenge Rice, Texas In Important Matches

Texas Tech tennis players, in their next two matches, have a chance to influence the outcome of the Southwest Conference championship campaign.

In successive matches—against Rice University here Saturday and against University of Texas in Austin Monday—the Red Raiders tackle the teams currently sharing the lead.

Coach George Philbrick's netters, besides playing the role of potential spoilers will be out to guarantee or better their own third place position. Tech is 14-4 following wins over Baylor University 5-1 and Texas Christian University 6-0 and a split with Southern Methodist University 3-3.

Raiders' netters will be Daryl Allison of Lubbock, Greer Kothmann of Junction, Beau Sutherland of Kerville and Robert Peterson of Wichita Falls.

Rice University is led by the 1962 Southwest Conference finalist in both singles and doubles, Fritz Schunck. The Owls, coached by Sammy Giamalva, are defending Southwest Conference team champions.

Last year Rice downed Tech 6-0, and the Longhorns battled the Raiders to a 3-3 draw.

A re-match of last year's SWC finals doubles match, won by Allison and Sutherland over Schunck and DeEdward Greer, has been virtually ruled out by re-pairings on both teams.

Matches, on the Varsity Courts, will start at 1:30 p.m. The public is invited free of charge, Coach Philbrick pointed out.

GEORGE PHILBRICK
... Tech tennis coach

Pics Down AFB, 20-12

Texas Tech's Picadors picked up their eighth win of the season Wednesday as they ran away from Reese Air Force Base, 20-12.

The game, which took three hours and twenty minutes to play, was called at the top of the ninth inning due to darkness. Tech slammed out 17 hits, as converted basketballer Dadid Schmidly picked up his first mound victory of the season. Schmidly pitched the first four innings and left the game with a 15-5 lead. In his four innings stint, Schmidly allowed only four hits, while striking out six and walking three.

The Picadors were led at the plate by second-baseman Buzz Henderson, who collected four hits out of five at bats. Jim Murrell and Ronnie Holly drove in the most runs with five RBI's apiece.

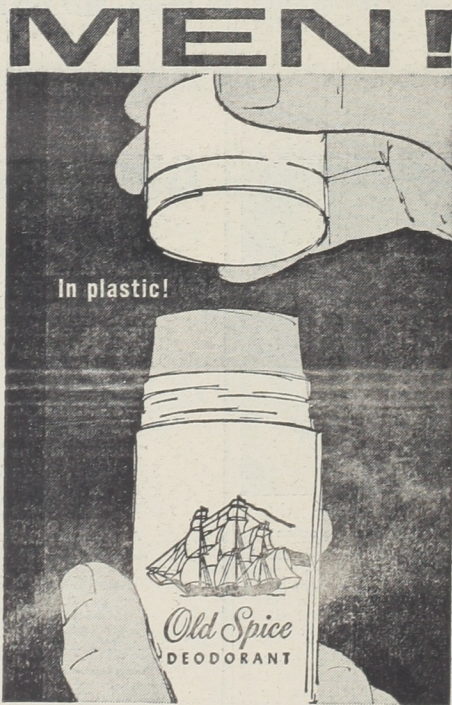

"FLORA-SCENT" makes The Perfect MOTHER'S DAY Gift

Raiders Visit Highlands Nine

Two improved baseball teams—Texas Tech and Highlands University—clash in a doubleheader at Las Vegas today.

Since Texas Tech posted a pair of wins, 5-2 and 3-0, here earlier this month, the Cowboys have won six straight and now are 10-10 for the season.

The Red Raiders have a three-game streak, and five of the six, going for them. Their only loss came at the hands of the Abilene Christian College nine. Other wins are the twin-killing of Highlands and a double victory over ENMU.
