

Candidates Reveal Plans To Dormitory Residents

Athletic integration, various aspects of dormitory and campus life, the traffic problem and the proposed tuition hike Wednesday night highlighted presentation of Student Council platforms to men dormitory residents.

Candidates for Student Council offices and cheerleaders, Wednesday followed a Tuesday night tour of the girls' dormitories with a tour of the boys' dorms, speaking informally before small, attentive gatherings.

Inform Students

The presentation of platforms to the dorm students was sponsored by the Student Council in an effort to better acquaint Techsians with the candidates.

Royal Furgeson, candidate for president, told a handful of men in Bledsoe Hall Wednesday that the Student Council is "a spokesman for all the students of Tech." In a brief talk, Furgeson pledged to work to support a many-faceted Council program.

"Academic recruiting needs to be continually stressed," he said. "Speaker convocations need to be improved and intensified. We need on the spot, first hand information."

Furgeson also pledged to work toward a one-day break between dead week and final examinations, because he felt students now spend most of dead week "trying to catch up."

Concerning the name change, Furgeson said that "We need a determined effort" in that direction."

Lack Communication

Communications was listed by the candidate as another weakness which he hoped to alleviate. "I think students want to know."

Furgeson also touched on the need for closer association with other Southwest Conference schools and the need for continued work on the traffic problem. In answer to several questions, he outlined the need for work to-

ward athletic integration and a re-evaluation of the mid-semester grade issuance policy.

"I have heard that they (mid-semester grades) are only used to excite parents — and they usually do," he quipped.

Gary Strickland, Furgeson's only opponent for the president's post, prefaced his platform statements with a plea for everyone to vote.

15-Point Platform

Strickland listed briefly a 15-point platform, covering a wide variety of proposals which he pledged to support.

First, he proposed a president's column, which "could express, through me, the way the Student Council feels."

He continued by proposing a continued study of the traffic problem, and outlined the need for lights on the dorm parking lots.

"I'm not completely against the tuition hike," Strickland

said. He explained that if the added money from the hike could be used more directly, it could benefit Tech. But this, he said, was the only way he would support the raise.

Student Discounts

Work toward obtaining student discounts at local theaters, improvement of dorm food and re-evaluation of restriction on dormitory girls were also cited by Strickland.

On the name change, Strickland said that "My term will see something done about it. We won't waste a year."

An evaluation of class officers, campus speakers, the need for an improved name marker and increased participation between the Student Council and the IFC and Panhellenic were also included in Strickland's platform.

Gibbins, Cole Speak

Doug Gibbins and James Cole, opposing each other for the vice president spot, also outlined and evaluated their platforms.

Gibbins called for more research on the tuition hike, and a push for athletic integration. "At Tech we have the possibility of initiating integration within the SWC," he said.

He also said he would work for the proposed sorority and fraternity lodges, and would ask for a clearer definition of the duties of class officers.

More Publicity

More publicity for student attendance at Student Council meetings, a name change and several other items were cited by Gibbins in his platform outline.

Cole told the gathering that "It's been apparent . . . that students don't have a lot of voice in determining academic policy . . ."

I propose to increase our representation."

He also stressed the need for compulsory teacher evaluation by the student body, joint student-faculty boards for evaluation of courses and more communication between the administration and the student body.

Name Change Stressed

Cole further pledged to be "real active in the name change campaign" and work toward an improved freshman orientation program.

Talks by candidates for cheerleaders and Council business manager were scheduled to follow those by the candidates for president and vice president.

PRESIDENTIAL HOPEFULS—Royal Furgeson, left, and Gary Strickland engage in a friendly discussion of campaign platforms Wednesday night before beginning a tour of the men's dormitories. UIL Literary Meet Begins Here Friday

High school students in conferences AA, A and B will convene at Tech Friday and Saturday for a Region I University Interscholastic League meet.

Several Events Included

Included in the literary and sports contests are: track and field, tennis, golf, girls' volleyball, one-act play, debate, journalism and ready writing.

Other contests will be in typewriting, shorthand, number sense, slide rule, science, prose reading, poetry interpretation, persuasive speaking and extemporaneous speaking.

Director-General

Director-general for the meet will be Dr. Holmes A. Webb, associate professor of education.

A Tech intra-squad football game will follow the final track and field event Saturday. Students and sponsors from visiting schools may attend the game between the "red" and "white" teams at no admission charge.

Open House Slated

In conjunction with the meet, Tech will stage an open house featuring entertainment and educational displays. Contestants are invited to the engineering and science show.

Tech student service organizations will conduct an information service, serve as guides, gather results and post information on the progress of the contests.

Tech groups helping with the meet include Alpha Phi Omega, Junior Council, Circle K and Women's Service Organization.

Campaigning Swings Into Last Day

By SALLY LONG
Toreador Staff Writer

Campaigning for Student Council officers and cheerleaders swings into its last day before Friday elections with a debate in the Union, speeches in government classes, a rally, cheerleader tryouts, and platform and nomination speeches on today's agenda.

PRESIDENTIAL AND vice presidential candidates will express their views on "What's Wrong With Texas Tech" in a noon debate today in Tech Union, room 205. After talks from Gary Strickland and Royal Furgeson, presidential candi-

dates, and James Cole and Doug Gibbins, vice presidential candidates, questions from the audience will be entertained.

Before 10 a.m. today meal tickets may be obtained at the Union newsstand. Unless a student plans to eat, a ticket to the debate is unnecessary.

PLATFORM SPEECHES in government classes will be concluded today. Opposing candidates spoke before as many classes as they were able to schedule together this week.

The Pre-Law Club, in cooperation with the government department, sponsored

the appearances to help inform more students as to whom and what they will be voting for Friday. John M. Comper, president of the Pre-Law Club said, "The club plans to make this a tradition and hopes that it will expand to other classes in the future."

CAMPAIGNING becomes more intense at 5 p.m. today when the election rally begins on the Municipal Auditorium parking lot. Booths, bands and horses will combine to create a carnival-like atmosphere.

At 7 p.m. the rally will move into the auditorium for platform and nominating

speeches. Cheerleader candidates will perform. Candidates for representatives will also be introduced.

KAREN ANDERSON, Student Council secretary and election chairman said, "We hope that the whole student body will come out to the rally. It will be a good opportunity to become familiar with candidates for Student Council officers, and the only opportunity to see which cheerleader candidates are most qualified."

ELECTION DAY campaigning Friday will include stunts and verbal campaigns on the campus and in Tech Union.

Students Say Campaign Speeches Draw Most Votes

By JUDY FOWLER
Toreador Staff Writer

Friday is the day when Techsans go to the polls to vote for Student Council officers and cheerleaders.

A small cross-section of the student body was asked how they chose a candidate, if speeches and

campaigns were effective, and how the system could be improved.

Mike Pinkston, sophomore — "I'm from Lubbock and I usually know many of the people running. If I don't, I ask someone. I don't get to the rallies, but it's just like voting for the national President. Campaign speeches are the only way of finding a candidate's qualifications."

Sally Slayden, freshman — "There's really no way of knowing enough about the candidates. There are so many. I think they should make as many personal appearances as possible."

Tom Fisher, sophomore — "If I don't recognize any candidate, I sometimes pick at random. Rallies are at bad times and I seldom have the time."

Becky Hortenstine, junior — "I usually vote for the person and try to attend rallies. I think campaigns could be improved if more information were given at the election speeches."

Sue Bachlor, freshman — "First, I look for the person best qualified. If I don't know any personally, I vote for a sorority candidate. Campaigns would be more effective if they were publicized more. A few posters in several buildings aren't enough."

Pat Deason, sophomore — "Speeches are the most important. Candidates should be judged on the action they want to take. All you can vote on is their earnestness."

Of 12 interviewed, seven students felt that they did not know enough about the candidates. Most of them, however, indicated that campaign speeches were the best way of getting to know the contestants.

GOING MY WAY?—Karen Day, sophomore, is ready for the trip that Tech's Angel Flight will take to the Air Force Academy this week end. The coat and gloves are for emergencies similar to the blizzard which snow-bound the Angel Flight that went to Colorado two years ago. —Staff Photo

Little 500 Deadline Revealed

Deadline for entries in Tech's fourth annual "Little 500" Bicycle Race is set for 5 p.m. Friday April 26. Entries, accompanied by a \$5 fee, are to be turned in to the Student Council office.

Race Is May 4

The race is scheduled for 1 p.m. May 4 at Memorial Circle.

Time trials to determine pit positions and starting order will be 2 p.m. April 27 at Memorial Circle. Convocation for both boys' and girls' teams will be 5:15 p.m. May 1 in Chemistry Bldg. room 101.

Teams consisting of four riders and two pit men will have numbers corresponding to starting positions. Any campus organization may enter two teams.

Rules Cited

Riders may take as many laps as they wish, changing riders only in the pit. Exception is in the case of an accident when a new rider may start from the place of the accident.

All changes and repairs must be made in the team's pit. Riders may use their discretion as to clothing.

Sportsmanship Important

A rider may not move in front of another rider unless he is more than one bike length ahead of him. Unsportsmanlike conduct will be penalized by the judges.

Bicycles must meet requirements specified in official rules for the race. Team captains are urged to pick up copies of the rules in the SC office before time trials begin.

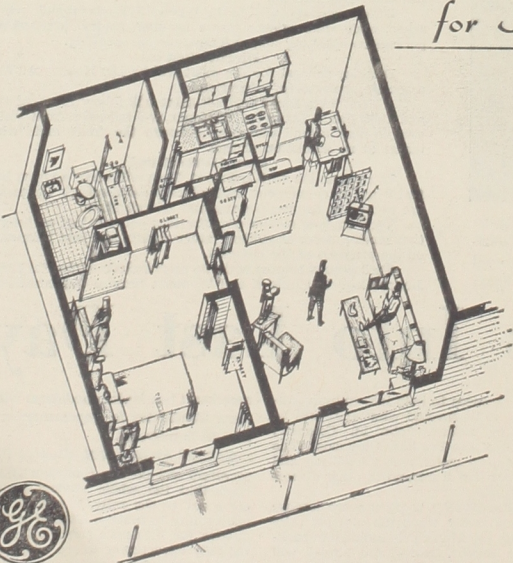

Trophies for the three top teams, winner of the sportsmanship award and the travelling trophy for a three time race winner will be on display in Tech Union.

Trophies Awarded

Larry Maddox is race director and Jay Vars is chairman of the coordinating committee. Publicity for the race is being handled by Circle K. Sponsors of the race are Saddle Tramps, Circle K, Alpha Phi Omega and WSO.

Prejudging Slated Saturday

Contest Entries Due

Noon Friday is the new deadline for entries to the campus art contest.

CAC, an annual event directed by the Tech Union Art and Design Committee, enables campus artists to display or sell their work, and to receive recognition or prizes.

The prejudging will be Saturday, and entrants will be notified of acceptance or rejection by April 22. The final judging will be April 27, and winners will be announced at a reception April 28. The exhibit will remain on display through May 3.

The divisions are watercolor, oil, drawings and prints, sculpture and photography. Individuals are limited to five entries in each division.

Collection Gets New Donation

Texas Tech's Southwest Collection received its first donation in its new quarters when R. Wright Armstrong of Fort Worth presented more than 9,000 of his personal papers and documents.

The Collection of regional history has been moved from the West Texas Museum to expanded quarters in Social Science Bldg.

Armstrong, a Tech director, spent his business career with Burlington Lines railroad. A veteran of two wars, he served as a captain in World War I and a major in World War II. He is an active worker in West Texas Chamber of Commerce and other civic activities.

The addition to the Collection was the first presentation of Armstrong's papers. Other pieces will be turned over to the Collection later.

Work must be presented in a form ready for display. Work available for sale from the exhibition should be marked accordingly. Any work may be presented if an instructor has not helped with the project.

Prizes for each division are first place, \$10 and a blue ribbon; second, \$5 and a red ribbon; third, a white ribbon; and honorable mention, a yellow ribbon.

Winners in each division will have their names engraved on a permanent plaque for display in the Union.

Administrator Heads Group

Dr. Sabe M. Kennedy, dean of arts and sciences, was recently elected president of the Lubbock County Tuberculosis Association at the Association's annual meeting.

As president of the Association, Dr. Kennedy will organize and direct campaigns to detect and eradicate the disease, and to keep the public informed on its problems.

Legislators Cite Band

The Tech Band has been cited by the Texas legislature for its performance in the Inaugural Parade Jan. 15.

The House resolution was introduced by state representatives Reed Quilliam, Bill Parsley and J. Collier Adams. The Senate concurred in the resolution, which was signed by Gov. John Connally.

The resolution, numbered H.C.R. number 7, reads, "Whereas, Texas was genuinely proud of the rhythmic excellence and precision marching of the Texas Tech Band from Lubbock when it performed in the Inaugural Parade, Tuesday, January 15, 1963; and

"Whereas, smartly uniformed in black and red, this 250-member musical group, ably directed by Dean Killion, was the official escort for Lieutenant Governor Preston E. Smith; now therefore, be it

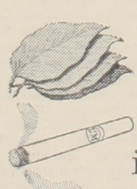

"Resolved by the House of Representatives of the Fifty-Eighth Legislature, the Senate concurring, That the Texas Tech Marching Band receives the sincere congratulations and the appreciation of the Legislature for its part in a great celebration."

The resolution is signed by Smith, as president of the Senate; Byron Tunnell, speaker of the House; and Gov. Connally.

Letter To The Editor

Texas U. No. 2?

Editor,

Can you either verify or discredit a couple of disturbing rumors?

(1) That a petition with 600 names of female residence hall occupants—a petition asking merely for an open forum to discuss dormitory rules and policies has been flatly turned down by Dean Phillips.

(2) That coins tossed into the fountain in our library's lobby are going into the general fund over in the business office, rather than into a library fund.

Can either of these appalling rumors be even partly true? It is unthinkable that such things could be going on at this learned institution, is it not?

Joe Stewart

(Editor's Note: In answer to the first question, Dean Florence Phillips said Wednesday she had rejected such a petition, signed by more than 500 girls. She gave as her reason the Association of Women Students constitution, which, she said would be violated by terms of the petition asking the deans of women to discuss and reconsider the women's dormitory regulations. This is the responsibility of the Women Residence Council. One of the five girls who presented the petition to Dean Phillips was in attendance at a recent AWS meeting, but remained silent when the presiding officer asked for complaints on residence hall regulations.

(According to the AWS constitution, any complaints should be channeled in turn through dormitory legislators, the WRC, the AWS and finally the Dean of Women. Dean Phillips emphasized, however, that a study of the regulations is being planned for the very near future.

(For the second question, we refer you to the Mar. 16 issue of THE DAILY TOREADOR, which pointed out that the coins in the fountain would go to the World University Service for the week of that drive. Since that time, all coins have gone to Alpha Phi Omega to help finance the service organization's campus projects.)

The TOREADOR is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor represent the views of their writers and not necessarily those of the TOREADOR. Letters must be signed, but may be published without signatures in justifiable instances. The views of the TOREADOR are in no way to be construed as necessarily those of the administration. The TOREADOR, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published daily, Tuesday through Saturday.

LITTLE MAN ON CAMPUS

"THIS SPRING IS THE MOST DISGUSTING TIME OF THE YEAR ON THIS CAMPUS."

It seems common practice at Texas Tech for pleas for progress to be shoved aside behind excuses.

THE DAILY TOREADOR has remained virtually silent on the name change proposal for a long period, largely on the strength of the cry of its proponents that "We'd rather see it done without a lot of publicity. We're working on it; it's a lead pipe cinch."

The confident rumor has also been floating around that if Texas Tech were to attain university status within the next 10 years, it would come during this session of the Texas Legislature.

If that's so, it looks like it will be 1974 before Tech reaches university status. Apparently everyone who was pushing it so hard the first of the year has given up the ship.

It's a farce when Hardin-Simmons, Midwestern, North Texas and West Texas wear the tag of "university" while Tech is still dubbed with the "college" moniker. If nothing else, we must truly be unique; we are one of the few colleges—in name, anyway—left in the Lone Star state.

A few weeks ago we came out with one thought we now wish to restate.

Being a university would be one of the better things that ever happened to Tech, but if all reason is being shrugged aside to pick "any" name for the sake of getting the university tag, we're pursuing the wrong purpose.

There are two key reasons, in our opinion, that the name of Texas University of Arts, Sciences and Technology is being pushed as the "proposed" new title of our school.

One is that it will permit the retention of the words "Texas Tech" and at the same time, as stated just above, give the school a university label.

The second and probably greater reason for the big push is that it's a name that will satisfy the ex-students.

Last spring, a poll showed Texas State University the top choice of the student body—the ones who should have the main say. Yet the ex-students, whose main objection sometimes seems that their sheepskins won't have the new name on them, have protested loudly and stubbornly enough to the extent that no proposed change has even come up before the Tech Board of Directors.

It's time for a little more power in the hands of the student body. It's time the students had a voice on campus.

Charles Richards
—Daily Toreador Editor

A Play In One Act

(Scene.—The interior of a student union building on a small Texas college campus. A boy sits at a table, apparently engrossed in a magazine. Another boy, dressed in western attire, rushes up to the table and waves a newspaper excitedly.)

Second boy — They did it! They passed the bill — we're a four-year college now!

First boy — Nothing to get so excited about. It just took a good "talkathon" or two in the Senate. The state seems to be a darned generous mood lately.

Second boy — Oh, I wouldn't say that. My brother goes to Tech, and he was griping in his last letter about how the appropriations that had been granted them were a lot less than they actually need. They're building some new dorms and a lot of other stuff.

First boy — Well, the legislature did pass that \$3,088-million appropriations bill the other day. The only thing is they're spreading the money out over a larger area than it actually can cover.

Second boy — Well, do you or don't you want us to be four-year, state-supported? I sure as heck don't want this place to stay a junior college forever.

First boy — I don't either. But darn it, are we ready? Are we actually ready academically,

athletically, or any other way? Some of our courses are so darned mucky mouse that the credits from them won't even transfer to other schools. It makes me mad for kids from larger colleges to call us a "glorified high school," but we really are that when you get right down to it.

Second boy — That's why we need the money. We need it so we can improve ourselves.

First boy — Friend, I think we'd better become a good junior college first. And those other colleges that they're tacking on for four-year support, too. They're not ready either, in my opinion.

Second boy — Aw, you sound just like my brother. He kept saying in his letter that in order for colleges in Texas to be really good, the state should improve the ones it's supporting now, instead of adding new ones to its list.

First boy — He's so right. I like this school just as much as anybody else who goes here does, but I think they're rushing us into something we can't handle.

Second boy — Look at the large area we serve, though. A lot of kids couldn't even go to college if this school weren't here.

First boy — That's right, too, but just how much is their degree going to be worth if they graduate from here? Half the people in Texas don't even know this college is here, much less people in other states. Man, I don't know about you, but I sure wouldn't crave to try and get a job in any town but this one if I got my degree from here.

Second boy — Well, they've done it, so it won't do any good to worry about it now.

First boy — They won't stop with us, though. It won't be long before every little non-descript, out-of-the-way junior college in this state will be four-year. Just watch the academic standards of four-year colleges as a whole go down in Texas.

Second boy — Gotta go to class now, bud. Probably won't be much of a lecture, though—kind of like a holiday I guess. There'll be some happy professors on this campus today. (Exits)

First boy — Yeah. I just hope the professors—and the legislature—know what they're doing.

Dwight Young Speaking of Tech...

By Jacque Gill
Toreador Staff Writer

"I wouldn't trade the experience for anything," said Dwight Young Wednesday of his February appearance on College Bowl.

In discussing the controversial religious question that contributed to Tech's narrow defeat, Young said, "To tell the truth, when he asked the question, I guessed and said Zen Buddhism."

"I really don't see that there was much difference in the two answers."

One Lubbock citizen who wrote the producers of the show asking if Tech might be given another chance on the program, received a reply, Young said.

The reply explained that the inflection of the moderator's voice when he said "No, not Zen Buddhism," was indeed a mistake and unfair, but nothing could be done since the moderator made the error.

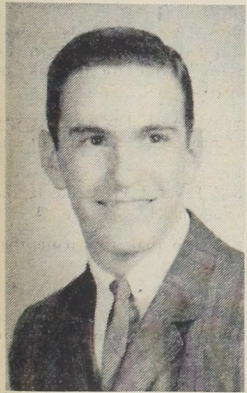

Young said he received one let-

ter from Philadelphia (home of Drexel) who said the incident had "cast a cloud over Drexel's victory."

Young feels that College Bowl is certainly a worthwhile program. "If a team does well, this is good for the school. Many good schools just aren't known and College Bowl is a good way to get publicity."

In comparison with other colleges and universities, "Tech is right up there with the best," Young said.

However, he feels that Tech needs a name change badly. For example, he said, "The Drexel team was amazed when we talked about our schools of Arts and Sciences, Agriculture, Business Administration, etc. They had assumed they were meeting another technological school."

However, he feels that Tech needs a name change badly. For example, he said, "The Drexel team was amazed when we talked about our schools of Arts and Sciences, Agriculture, Business Administration, etc. They had assumed they were meeting another technological school."

Young Demos Operate Booth

Tech Young Democrats will maintain a booth in the Union today through Friday to register interested students in the group's activities for next year.

The registration is designed to obtain a mailing list to be used next year and no fee will be charged, according to Jerry Rankin, acting chairman.

Candidate objectives and platforms will be circulated through the mailing list to enable students to form their own political opinion during 1964's campaigns, he concluded.

Those interested in obtaining this information as well as students interested in the club are invited to register.

The booth will be open from 8 a.m.-5 p.m. today and from 8 a.m. until noon Friday in the main foyer of the Union.

Science Show May Attract 5,000 Viewers To Campus

About five thousand people are expected to visit the Science and Engineering Show on the Tech campus this weekend.

The show this year will be the 31st annual exhibit featuring displays built by science and engineering students at Texas Tech.

The purpose of the show is to acquaint visitors with the science and engineering curricula offered at Tech.

A Thor-Able missile in the science quadrangle and a replica of Bell Telephone system's Telstar satellite are expected to be popular exhibits. These are in addi-

tion to the exhibits displayed by the various departments in the schools of science and engineering.

Tapestry and fancy woven materials will be displayed by the Textile engineering department.

Petroleum engineering will have both indoor and outdoor exhibits, including a logging truck, two model rigs, and a permanent display showing various types of drill bits.

A model farm of the future, featuring advanced electronic devices, will be shown by the agricultural engineering department. Electrical engineering will have

a remote control model car, and mechanical engineering will open their shop, and also have an exhibit showing gasoline engines in operation.

Civil engineering will have a pre-stressed concrete bridge model and an exhibit on the Canadian River project.

Royalty In Clothing Class?

Nope, Just Term Project

Nan Signor and Glenda Link, home economics clothing students, gave their classmates a peek at the 18th century Wednesday, through dramatization of a semester project.

Miss Signor, senior, was dressed as Madame Pompadour and Miss Link, senior, portrayed King Louis XV of France, as they presented information about the apparel, social and economic data of the era to their class in history of cus-

tumes. Photos of typical period costumes were shown by an overhead projector, a new teaching device in the clothing department.

Miss Signor was elaborately clad in a crimson Du Barry costume, featuring fitted bodice with low neckline and eschelle down the front, elbow length sleeves with ruffles and a full length skirt padded at the hips with panniers.

A heart shaped patch on her cheek and powdered hair completed

her costume. She chose to portray Madame Pompadour partially because "Madame Pompadour was to the eighteenth century fashion world what Jacqueline Kennedy is to our fashion world."

Miss Link's attire portrayed the typical man's clothing of the day. Her apparel featured a brocade waist coat, vest with steinkirk at the neck, ruffled sleeves, knee length satin breeches, and a tricorne hat.

IS THIS A NEW FAD?—Nan Signor, left, portrays Madame Pompadour to Glenda Link's King Louis XV of France, as they appeared in a home economics clothing class. —Staff Photo

Raider Nine Meets Eastern New Mexico

In Saturday Doubleheader

By ARTIE SHAW
Toreador Staff Writer

A group of galloping Greyhounds from Eastern New Mexico University invade Lowery Field in Lubbock Saturday trying to extend their current win skein.

The Greyhounds, fresh from a pre-Easter twin-killing of Wayland Baptist College, will meet Tech's Raider nine in a doubleheader at 1 p.m.

The Raiders meanwhile, have split a twin-bill with tough ACC at Hodges Field.

ENMU, sporting a mediocre 4-6 standard, copped its first two-for-the-price-of-one wins at Plainview, when they downed the Pioneers, 6-0 and 6-3.

Billy Adams, Esley Williams, Dennis Hoy and pitcher Freddie Lott paced the 'Hounds as they blasted round-trippers against the ill-fated Baptist nine.

Bragg Top Hitter

Hard-hitting first sacker Ken Bragg leads the 'Hounds with a 409 wood-splitting pace. Jimmy Boyd, who catches and plays right, follows Bragg with 379.

Hoy, who leads in doubles and stolen bases, is third in batting averages, with a .355 standard.

Lowell Fairbanks, who has seen the most action for the 'Hounds, will be on the mound in the first contest. His record is 1-3. Coach

Jack Nowka will probably choose either Lott, Tony Ferrell, or Wayne Moore, all of whom are 1-1, for the second contest.

Lott and Fairbanks, both of whom picked up a win against Wayland, lead the twirling staff with 19 KO's each.

Huffman Names Fox

Coach Berl Huffman has named Joe Fox, a sophomore just returned from basketball, to start the first game. Fox has not made an appearance this season.

Ramey Brandon, who has lost two tough games and been routed by TCU, while winning over Highlands, will probably start the second game.

Morris (Moose) Dudley, sporting a 1.60 ERA and an even 2-2 record, will be used in relief. Dudley has beaten Southwestern College of Oklahoma and ACC for his wins, while losing to Sul Ross and TCU.

Probable Lineup Named

Huffman named Doug Cannon at backstop, with Bob Fielder at first, Ronnie Ayers at second, Foy

Williams at short and Richard Perry at third.

Yippy Rankin will start in left with Darwin Hilliard in center. Bob Davis rounds out the Tech outfield in right.

Doug Cannon leads the Raiders with four homers and six RBI's, while Foy Williams paces the team at the plate with a .375 standard.

Raiders Improving Rapidly

After losing their first two games to TCU by lopsided scores, the Raiders improved steadily. They now stand at 5-8, having lost two to TCU, three to nationally ranked Sul Ross, two to ACC and one to Southwestern College of Oklahoma. Their wins have come at the hands of Highlands of New Mexico, ACC and Southwestern.

Golfers Pull Upset

Texas Tech's linksmen pulled the golf upset of the SWC year last weekend by placing second in the All-American Intercollegiate Invitational golf tourney at Houston's Pine Forest Country Club.

The Raiders were slammed in the finals by Houston's reigning champion Cougars, 6-0.

In the overall ratings, Tech placed fifth, with 46, behind North Texas State, Oklahoma State, Texas A&M and Houston. The Cougars won with 129 points.

Earlier in the competition, Tech had pulled two major upsets by downing North Texas State and Texas A&M. A&M had beaten Tech earlier in the season.

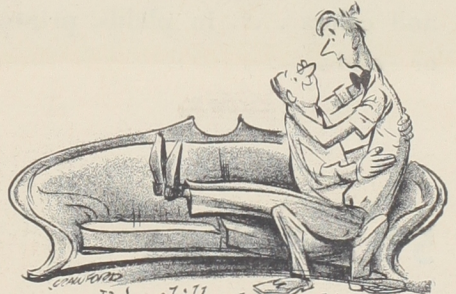

FILLING A WELL-NEEDED GAP

Although my son is a college freshman, I am glad to say that he is still not too old to climb up on my lap and have a heart-to-heart talk when things are troubling him. My boy is enrolled at Harvard where he is studying to be a fireman. From the time he was a little tiny baby he always said he wanted to be a fireman. Of course, my wife and I believed that he would eventually grow out of it, but no sir, the little chap never wavered in his ambition for one minute!

So here he is at Harvard today taking courses in net holding, mouth-to-mouth breathing, carbon tetrachloride, and Dalmatian dogs. It is a full schedule for the young man, and that, in fact, is exactly what we talked about when last he climbed upon my lap.

He complained that every bit of his time is taken up with his major requirements. He doesn't have so much as one hour a week to sample any of the fascinating courses outside his major—history, literature, language, science, or any of the thousand and one things that appeal to his keen young mind.

I am sure that many of you find yourselves in the same scholastic bind; you are taking so many requirements that you can't find time for some appealing electives. Therefore, in today's column I will forego levity and give you a brief survey in a subject that is probably not included in your curriculum.

He's still not too old

I have asked the makers of Marlboro Cigarettes whether I might employ this column—normally a vehicle for innocent merriment—to pursue this serious end. "Of course you may, crazy kid," they replied kindly, their grey eyes crinkling at the corners, their manly mouths twisted in funny little grins. If you are a Marlboro smoker—and what intelligent human person is not?—you would expect the makers of Marlboro to be fine men. And so they are—wonderful guys, every man-jack of them—good, generous, understanding, wise. They are each tipped with a pure white filter and come in soft pack or Flip-top box.

But I digress. We were going to take up a topic you are probably unable to cover in your busy academic life. Let us start with the most basic topic of all—anthropology, the study of man himself.

Man is usually defined as a tool-making animal, but I personally do not find this definition entirely satisfactory. Man is not the only species which makes tools. The simians, for example, make monkey wrenches.

Still, when you come to a really complicated tool—like a linotype, for instance—you can be fairly sure it was made by Homo sapiens—or else a very intelligent tiger. The question one should ask, therefore, is not *who* made the tool, but *what* did he do with it.

For example, in a recent excavation in the Olduvai Gorge a large assortment of hominoid fossils was found, all dating back to the Middle Pleistocene Age. Buried with the fossils was a number of their artifacts, the most interesting being a black metal box which emitted a steady beeping sound. Now, of course, zoologists will tell you that tree frogs make such boxes which they employ in their mating activities (I can't go into detail about it in this family newspaper) but the eminent anthropological team, Mr. and Mrs. Walther Sigafos (both he and she are named Walther) were convinced that this particular box was made not by tree frogs but by Neanderthal men. To prove their point, they switched on the box and out came television, which, as everyone knows, was the forerunner of fire.

If there is anything more you need to know about anthropology, just climb up on my lap as soon as my son leaves.

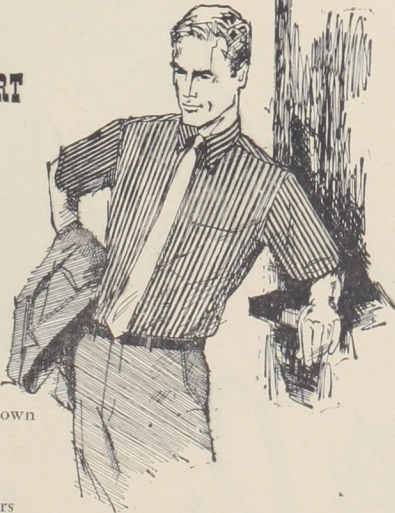

© 1963 Max Shulman

The makers of Marlboro Cigarettes who sponsor this column, often with trepidation, are not anthropologists. They are tobaccoists—good ones, I think—and I think you'll think so too when you sample their wares—available wherever cigarettes are sold in all fifty states.

Executive Platforms Voiced

Furgeson Seeks One-Day Break

In many conversations with Tech students across the campus, I have found a desire for strong programs and for new ideas from the Student Council. With this in mind, I have tried to develop a platform to meet the desired needs of the student body.

Presently Tech is accelerating its academic growth just as fast as its physical growth. In this realm I feel the Student Council can promote activities.

The speaker convocation should be greatly intensified in order that Tech students can get a first hand report on national and international activities. These convocations could help us coordinate our in-class instruction with practical, on-the-spot information.

Since I have mentioned the classroom, let me explain another idea I have in relation to academics. At Tech and at other universities in this nation, grades are of chief importance. Since the pressure to make high grades is so great and since final examinations usually determine a grade to a large extent, I feel that we, as students, should have longer to prepare for our tests.

With this explanation I propose to work for a one-school-day break between dead week and final exam week.

I feel that Tech is definitely a university, and next year, I will work to bring university status to our name. These above four programs are the ones I plan to stress in the realm of academics.

Another realm of the Student Council which has not been examined closely in the past is the area of communications between the Council and the student body. I would like to remedy this problem by printing a column in THE DAILY TOREADOR from the Council.

I also feel that we need to have the executive officers before the students for criticisms and suggestions. This could be accomplished by having monthly meetings in the Union composed of the officers and all students who wish to attend. We would also have these mass meetings in the dorms.

Another area where I feel communications need to be improved is between Tech and other South-west Conference schools.

With these other programs I have mentioned, I would like to emphasize some of the established programs of the Student Council. The Traffic Program is one that needs continual work and supervision. Our Athletic Recruiting Program is also one which can add strength to our athletic system in future years.

All these programs are the ones that I feel Tech needs to enable it to continue to keep pace with the changing times. Since they are important, I have made them the basic points in my platform.

NOT EVEN WIND CAN STOP 'EM—A strong West Texas wind seemingly proved no obstacle to this couple attending Thursday's campaign rally. Perhaps the girl received a lift to obtain a better view of campaign proceedings or merely to provide a balance against the winds. —Staff Photo

Strickland Sees Small Minority

Will we ever have another chance? If so, when? Do you really care if we have another chance? If so, read on.

Will we let a small minority of students set the policies and procedures of this campus for another term of office? I hope not. Will we continue to permit the leaders to blame the lack of voting on students' indifference? Again I hope not.

The main question is, will we face the following true fact?—We have never had a real reason to vote, mainly because of the self-centered policies and practices of this small minority.

As you read you will be able to understand how my platform isn't constructed to make me sound popular — because frankly, I'm not for everything that is "popular." I stand for the issues that back the rights of every Tech student.

First, I will inform students with a President's Column in THE DAILY TOREADOR, giving factual information of Student Council and administrative decisions and viewpoints.

Secondly, I will earnestly seek possible solutions to the growing parking problem.

Thirdly, I am not completely against a tuition hike if scholarships and other benefits are provided to balance the extra expense, but I will personally lead a campaign against any action that does not enhance the Tech student.

Fourthly, I will use any influence I have to obtain student rates at local theaters.

Other areas of my platform are: further stressing of honors program, hush discontentment about dorm food, reconstruct girls' restriction codes and eliminate out-of-date restrictions, ballot boxes in each dorm, something done about the name change, obtain athletic intergration if Techsians want it and continue study of purposes of class officers.

My platform also includes: unifying Tech organizations to work for advancement of Tech, obtain big - name speakers, raise money for name marker at campus entrance, make Model UN an annual event and work with IFC and Panhellenic to promote TB fund drive.

Let me ask you to study each candidate's platform and make a decision on your own. Then vote.

Prexy Candidates List Qualifications

Royal Furgeson QUALIFICATIONS

- ✓ Two-year member of the Student Council, serving on Publications Committee and Athletic Recruiting Committee
- ✓ Saddle Tramps
- ✓ Who's Who in American Colleges and Universities
- ✓ Varsity Basketball Letterman
- ✓ Interfraternity Council
- ✓ Honors Program in English
- ✓ Leadership Recognition in All-College Service
- ✓ High School Senior Class President
- ✓ Sports Editor of High School Annual
- ✓ National Honor Society
- ✓ High School Varsity Basketball

Gary Strickland QUALIFICATIONS

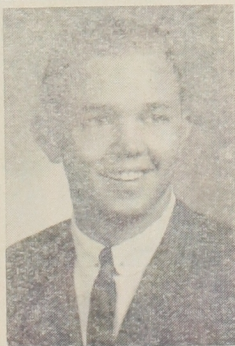

- ✓ Engineering Representative on Student Council
- ✓ Chairman of Class Committee Student Council
- ✓ Co-Chairman of WUS
- ✓ President of Sophomore Class (61-62)
- ✓ Vice President of social Fraternity
- ✓ Activities Chairman of social Fraternity
- ✓ Member of IFC
- ✓ Member of BSO
- ✓ Member of Alpha Phi Omega (service fraternity)
- ✓ On Committees at BSU
- ✓ Participation in advance ROTC
- ✓ Cheerleader in High School
- ✓ Student Council in High School

President's Duties

- Preside over meetings of the Student Association.
- Serve as presiding officer for the Student Council.
- Be chairman of the Executive Committee.
- See that rules and regulations are executed.
- Appoint all committee personnel not otherwise provided for in the Constitution.

STRICKLAND

ROYAL FURGESON FOR

PRESIDENT COMPARE AND VOTE

VP Hopefuls Give Platforms

James Cole

I propose to work for a compulsory evaluation of the faculty in the hope that such evaluations, if required, will make department heads more aware of teacher deficiencies. I also propose to work for increased student voice in the area of determining, to some degree, academic policy.

I propose to do this by working for joint student-faculty committees on which student opinion is voiced as to departmental policies. I propose to work for ad-

ministrative convocations at which the administration explains its policies and then subjects itself to question and answer periods about administrative matters.

I propose to work this summer on the feasibility and value of a book swap and then incorporate it next year if it is a good proposal for Tech students. I propose a very active name change program to the point of student referendum votes.

I propose to study our freshman orientation program and try to come up with a better orienta-

tion into the areas of campus activity, student life, and school spirit.

My qualifications are as follows:

President of Wells Hall in 1961-62, vice president of Men's Residence Council in 1961-62, member of Saddle Tramps, president of BSO in 1962-63, student council in 1962-63, chairman of the traffic committee, member of the elections committee, Who's Who in American Colleges and Universities, 1962-63, College Awards Board member, Tech Union Board member, committee on student organizations member.

Doug Gibbins

I would like to decrease student apathy through more student participation in Student Council and student government.

I propose to do pioneer work toward athletic integration. I also propose to continue and improve upon the athletic academic recruiting program.

I propose to study fraternity and sorority lodging plans and formulate some ideas and plans that would be workable in the future. Also, I would like to find more definite and satisfactory reasons for the tuition hike before we let it be put into effect.

My qualifications are as follows:

Chairman of the special events committee, in charge of the Freshman Dance and Freshman Convocation during freshman year; Games and Tournaments Committee at Tech Union; Wells Hall Social chairman in 1960; Campus Religious Council in 1961; secretary of the Double T Assn.; president of junior class in 1962-63; member of Phi Delta Theta; member of the Saddle Tramps; member of Phi Epsilon Kappa.

Botkin, Cornell Compete

Ronnie Botkin

The position of Business Manager of the Student Association is usually greatly underrated by the average student. Only at election time is anything really heard about the office. The position requires a great deal of work, and only with prior experience on the Student Council and a working knowledge of the duties of the office would anyone be able to do the job correctly and efficiently.

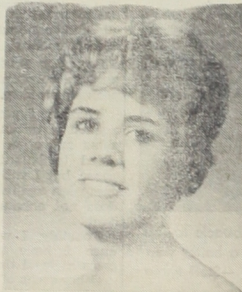

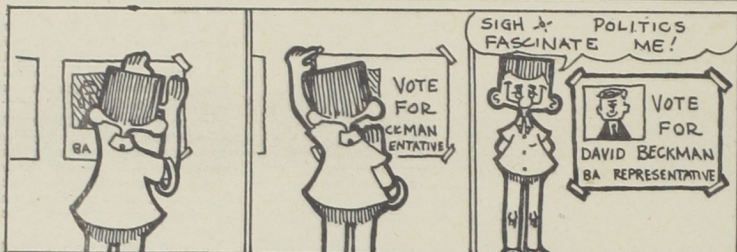

I feel that by being a member of the Student Council and working on the Allocations Committee I have gained the needed experience and knowledge. The responsibilities of the position are great and I think that I will be able to deal with any situation that might arise with the best interest of the students and Texas Tech in mind.

If you choose to select me as Business Manager of the Student Association, I will serve you and this 'university' to the best of my ability.

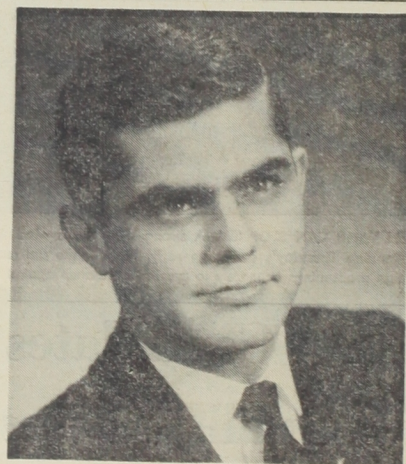

Jess Cornell is also a candidate for Student Council business manager. His platform does not appear as he failed to submit it to the Toreador by Thursday's deadline.

VP Duties

- Perform the duties of the President in the event of his absence or inability;
- Succeed to the Presidency in the event that the office should become vacant;
- Perform such duties as designated by the President or the Council;
- Be in charge of the annual school trip.
- Keep a complete and accurate record of all financial transactions of the Student Association.
- Serve as chairman of the Allocations Committee of the Student Council.
- Direct the financial activities of the varsity yell leaders.
- Educate all yell leader candidates in regard to the responsibilities and limitations of their positions.
- Be responsible for the approval of all money-making activities of the four undergraduate classes.
- Write an article to be printed in the TOREADOR during the month of December of each year to inform all students graduating at the end of the first semester of the deadline for submitting requests to the office of room reservations for the return of their room deposits.

REMEMBER...
TO VOTE!

Pat Hamilton Secretarial Candidate

In both leadership and service capacities, I have served and am serving Texas Tech:

Through school — I have worked in the Home Economics Club,

and am past CANDLE Editor and incoming President of Phi Upsilon Omicron.

Through organizations — I am a member of President's Hostesses, will be a legislator of Doak Hall, and have recently been selected to membership in Mortar Board.

Through Student Council — I have served on the Elections, Current Events, and Allocations committees.

If elected your Secretary, I would like to accomplish the following things during my term of office.

- Continue the present secretary's program of opening up the campaigns and putting the candidates in front of the voters.
- Make arrangements so that all counting of votes can be done by IBM computer. This would insure fast and accurate tabulation of votes.
- Hold Freshman Council elections as early as possible in the fall so they may work on a more united freshman class; they could reserve a section of the football stadium for the freshmen whose enthusiasm might boost our school spirit.

Cecile Camp Secretarial Candidate

My qualifications for Student Council secretary are: EXTENSIVE secretarial training, GOVERNMENT minor, EIGHT consecutive year's service on student councils.

My platform is:
Ready to serve YOU in:

1. Better communications for a better Tech—
 - Council members should report back to their organizations
 - Minutes of meetings should be printed in the TOREADOR

2. Fairer elections for a better Tech—
 - Re-evaluation of officer qualifications
 - Filling cheerleader and class officer vacancies

3. More special events for a better Tech—
 - Another all-school program such as the Model U.N.
 - Top national speakers
4. Safer traffic for a better Tech—
 - Let the students decide

Judy Price Secretarial Candidate

Qualifications:
Student Council 62-63, Elections Committee 62-63, Recognized by Student Council for leadership,

Freshman Council 60-61, Junior Council, Sigma Kappa, Phi Gamma Nu, Pi Delta Phi, President's Hostesses.

As Secretary of the Association, improved communications would be one of my goals. As a member of the election committee this year, lack of student interest in campus elections has been painfully evident. Campus positions are often filled by a very small percentage of voters. Integration of students into Tech's student government could be achieved through a coordinated program with the TOREADOR.

I would also work this summer with IBM in the Engineering Department to set up a program for elections. All elections then would be held on IBM cards and counting would be done electronically.

Office Duties

The secretary's duties are:
KEEP the minutes of meetings of the Student Association and of the Student Council; BE responsible for the maintenance and preservation of the official version of the Student Association constitution and all rules and regulations of the Student Association; SEE that a copy of the official version of the constitution and all rules and regulations of the Student Association remain on file in the office of the president of the college; SEND a copy of the minutes of each meeting to the following: President of the College, Dean of Student Life, Dean of Men, Dean of Women, Student Council sponsor, Vice President and Comptroller, Academic Vice President.

AT all times maintain and preserve the official copies of the Student Association constitution and bylaws in the Student Council office.

WHO WILL IT BE? — Techsians voting by secret ballot today will choose three boys and three girls from the 18 candidates for cheerleaders to rally students behind the Raiders next fall. Run-off elections are set for Monday. —Staff Photo

Cheerleader Candidates

And Duties

Candidates for cheerleader are Carolyn Buxton, Linda Edie, Carol Fursman, Gay Gillespie, Jeannine Jones, Nelda McQuien, Camella Moore, Kathy Osthoff, Sandy Sample and Jami Steinhoff.

head cheerleader who shall be a male student and shall serve as their chairman.

Other candidates are Myrna Stephenson, Lynn Wallace, Dennis Ashmore, Mike Bohn, Smiley Irvin, James Perry, John Ward and Bobby King.

Those persons elected will:

- Be responsible for all Texas Tech pep rallies
- Coordinate the generation of enthusiasm at all recognized college athletic events
- Be responsible for furnishing a representative to the Southwest Conference Sportsmanship Committee
- Encourage good sportsmanship on the campus
- Be responsible to the business manager for the management of their finances
- Elect, from their number, a

PRICE IS RIGHT for SEC.

It Takes More Than Yelling To Be A Tech Cheerleader

Lots of people can yell and cheer with gusto when the Red Raiders go over for a touchdown. Quite a few can turn flips, inspire enthusiasm and attend all athletic events.

But there are a few special qualities, perhaps best classified under the term, gung-ho, that sets a good cheerleader apart from the football crowd.

Special qualities don't include regular cheerleader duties such as coordinating pep rallies and being on hand at ballgames.

One Tech cheerleader called it a year-round job. "A cheerleader must attend teas for visiting athletes, entertain visiting yell leaders and when away, attend all planned functions at other schools," she said.

High on her list on what makes a cheerleader really go is being able to perform yells well, en-

thusiasm, and devotion.

"A good cheerleader above all to develop sportsmanship and his enjoys cheerleading," she reflects. "He should at all times strive to develop sportsmanship and his own potential to its fullest."

Industrial Engineers Win First

Industrial engineering department took its fifth straight first place in the recent Science and Engineering Show.

Industrial engineering exhibits demonstrated techniques in production control, plant design, materials handling, work measurement, statistical quality control, product design, manufacturing analysis and organizations research.

Displays in the 31st SE annual show were judged on appeal to the public, explanation of department curriculum and presentation of exhibits.

The industrial engineering display received 3,705 points of a possible 4,000.

Bud Lanham was chairman of the department's exhibit. American Institute of Industrial Engineers and Alpha Pi Mu set up the displays.

READY TO STOMP—Judy Richards, junior, and Bob Fouts, senior, are all decked out for the Phi Mu western dance 8-11:30 p.m. today. Jimmy Heap's Band will play for the open dance at Vann's Catering Service. —Staff Photo

Delegations Plan Trips

Delegates from Tech's history department will scatter to state and regional history meetings in Austin and Albuquerque this weekend and next.

Four faculty members will represent Tech at the Texas State Historical Assn. meeting this weekend. The Austin meet begins today and continues through Saturday. Dr. David Vigness, department head; Dr. Ernest Wallace, professor; Billy Mac Jones, instructor and Richard Marcum, teaching assistant, will attend.

Tech's chapter of Phi Alpha Theta, history honorary, will send five representatives to a regional meeting in Albuquerque, N.M., Friday and Saturday, May 3-4.

Attending will be Dr. Paul Woods, history professor, and Lt. Col. George R. Hull, professor of air science.

Ronald Benson, teaching assistant, will present a paper on the Hay-Pauncefote treaty.

Nancy Vincent, Alpha Theta president, and Sarah Gaston, Austin junior, are Tech's student representatives.

Why Do You Read So Slowly?

A noted publisher in Chicago reports there is a simple technique of rapid reading which should enable you to double your reading speed and yet retain much more. Most people do not realize how much they could increase their pleasure, success and income by reading faster and more accurately.

According to this publisher, anyone, regardless of his present reading skill, can use this simple technique to improve his reading ability to a remarkable degree. Whether reading stories, books, technical matter, it becomes possible to read sentences at a glance and entire pages in seconds with this method.

To acquaint the readers of this newspaper with the easy-to-follow rules for developing rapid reading skill, the company has printed full details of its interesting self-training method in a new book, "Adventures in Reading Improvement" mailed free to anyone who requests it. No obligation. Simply send your request to: Reading, 835 Diversey Parkway, Dept 9894, Chicago 14, Illinois. A postcard will do.

Zsa Zsa Stars In Union Show

Mel Ferrer and Zsa Zsa Gabor star in "Lili," a technicolor movie, at 4 p.m. and 8 p.m. today and 2:30 p.m. Sunday in Tech Union Coronado Room. The Special Events Committee is sponsor.

Grads Discuss Negro Novelist

Grover Lewis and Nolan Porterfield, graduate English students, will lead the discussion at today's Noon Forum in the Tech Union Blue Room.

Discussion topic is contemporary Negro novelist, James Baldwin. Baldwin is author of "Another Country."

Purdue Prof Lectures On European Market

Competition from the European Common Market will force the U.S. to move rapidly if it is to hold onto its world markets or consider expanding them, according to Dr. James Greene, industrial engineer and visiting lecturer at Tech.

His ideas may carry some special weight since he has recently been a consultant to the European Production Agency, a division of the Common Market's organization.

"The U.S. must find ways to produce goods with more efficiency," he declared. "This presents a challenge to our industrial engineers."

Dr. Greene, a Purdue University professor, is spending three days, Monday through Wednesday, at Tech. He is conducting seminars in general industrial engineering research, production control and operations research.

Positions Open For L-V Staff

Applications are now being accepted for associate editor, copy editor and staff artist for next year's La Ventana.

Students interested in these positions should write a letter giving their qualifications, past experience on an annual or newspaper, why they want the job and any new ideas they may have for next year's La Ventana.

Past experience is not necessary, but preferable. Applications should be turned in to the La Ventana office or to either Johnnie Lu Raborn or Travis Peterson by May 1.

These are paid positions, and applicants should be willing to put in a great deal of time.

HONORARY MEETS

Psi Chi, psychology honorary, will meet at noon today in Tech Union, Elmer's Lounge. The group will initiate members and present a slate of officers. Those attending must sign up in the psychology office, X-31.

SURROUNDED—Carol McCormick, Ennis sophomore, was surrounded by cadets from England's Royal Air Force after their captain said, "If I were you blokes, I wouldn't let these ladies sit alone."

As I see it . . .

by johnnie lu raborn

"You think we speak the same language, but we don't," said one cadet from Cranwell, the Royal Air Force Academy in England. I had to agree with him.

Tech's Angel Flight was visiting the Air Force Academy in Colorado Springs. Some were dated with English cadets, who were also visiting. It was a real education.

For years, I've heard the English stereotype came out with "jolly good," "old chap" and "ra-ther." They are all true with the addition of an occasional "quite" and "Oh, my yes."

In England, you are not "out to lunch" but "around the corner." When we have a lousy date he is called "cull" or "bad head," but Cranwell calls them "grimmies."

'MAKING OUT'

It is a mystery how they got it but "cupeake" is said for "making out." Tennis shoes are called "blimp shoes," and a resounding "dash it" means darn or damn.

We Americans take much for granted. These cadets had never seen a drive-in movie or drive-in restaurant. Motels were also new, for they don't exist in England. Some of the guys got their first taste of pizza, Mexican food and pretzels. They didn't like it.

'STATUS SYMBOL'

It is a status at our Air Force Academy for the "firsties" or seniors to have Sting Ray Corvettes. That vast parking lot is full of them. I didn't see five cars under two years of age. The Cranwell "chaps" find it "marvelous" to get to ride bicycles when seniors. They do have cars, but generally these are somewhere in the 30's models. A car 10 years old is relatively new.

I did notice one thing about the cadets as a group. They abounded with national pride. One said, "There will always be an England." To which some of the U.S. cadets sort of laughed. A Cranwell "troop" recounted with a "Don't scoff at it, national pride is a wonderful thing." Their pride was so emphasized that it made me wonder if we "came over" the same way about our country.

On Saturday night, a formal ball was given for our flight, Cranwell and first classmen (seniors) at the academy.

The British boys taught us one way to live up a rather stiff dance. During one of the songs, one Cranwell "troop" yelled "Ants." The cadets immediately fell down on the floor, rolled over on their backs and kicked their feet and arms into the air. At the sound "dead ants," the legs and arms went stiff. Rather quaint, I'd say, but still effective enough to break everyone up.

GHOUL POOL

The Angels with U.S. Academy dates were wondering that night if they were included in the "ghoul pool." It goes like this. The academy hosts arrangements for blind dates for the formals. Cadets within each squadron enter a "pool" for 25 cents. At the dance, squadron officers act as judges and dance with the dates of each cadet entered in the pool. Afterwards, these officers decide which had the worst date and he wins the money. If we did it here, I would be rich.

AS I SEE IT

Sigma Kappa will choose a "Mr. Pledge" at 8 p.m. today in the National Guard Armory. Mr. Pledge will be chosen from fraternity pledges. The Caravans will play for the all-school dance.

Phi Mu will have a western stomp, 8-11:30 p.m. at Vann's Catering Service. The open dance will feature Jimmy Heap's band. Tech Union also is having a western dance from 8-11:30 p.m. in the Ballroom. Jimmy Mackey is playing.

KAPPA KAPPA GAMMA

An informal "German Beer Garden" will be the setting for the Kappa Kappa Gamma dinner dance at 6:30-11:30 p.m. today.

Delta Sigma Pi will have its Rose Dance from 7:30-12 p.m. Saturday at the Pioneer Hotel.

Newman Club will go on a picnic Sunday to Palo Duro Canyon.

Red-White Skirmish Ends Spring Training

Scarborough, Ben Elledge Opposing QBs

By ARTIE SHAW
Toreador Sports Editor

A pair of shining freshman quarterback prospects will be opposing each other at 4 p.m. in Saturday's final spring training scrimmage.

Featured will be Danny Scarborough of Quanah and Ben Elledge of Brownwood.

The annual contest is the rubber game of the series, as the Reds jumped to a quick two-game advantage, only to have it taken away from them in the last two outings by the underdog Whites.

Two upperclassmen quarterbacks, Bill Worley of Midland and James Ellis of Lubbock, underwent knee surgery in December and will probably not see action, although they will be suited.

Statisticians Overworked

With both the Reds and the Whites threatening to "loosen-up" their previously tight offenses, the stress could be worse on the statisticians than on any one else.

Last week the Reds gathered 364 yards of total offense in a losing cause, while the Whites haled and threw for 277 in their 20-12 victory.

Long gainers have been the word of the day thus far, and any

Tech Linksmen Meet UT At Meadowbrook

Texas Tech, in an effort to get back into the Southwest Conference golf race, engages the University of Texas here on Lubbock's Meadowbrook golf course today.

Tee-off time at Meadowbrook is 12:30 p.m.

Coach Jay McClure's linksmen, 4½-1½ losers to Texas Christian University here Monday, will also be motivated by a desire for revenge. Texas sports five lettermen from the squad that downed the Red Raiders 5-1 in Austin last year.

Texas Tech currently has a 14½-9½ standard. The Raiders lost to Texas A&M, knocked off Rice 6-0 and defeated Baylor 5-1 before dropping the match to TCU.

Texas' players will probably be Bill Munn of Midland, Randy Geiselman of Houston, Oscar Goode of Austin and Pat Thompson of Mission.

Texas Tech golfers for the match will probably be Bruce Dobie of Worcester, Mass., Richard Yates of Corpus Christi, Housty Brewer of Andrews and Jim Davidson of San Angelo.

Yates is Texas amateur champ, and lost his first-SWC match of the year to Jack Montgomery of TCU last week.

BILL WORLEY

. . . Will not see action

more would be just icing for the cake.

Jim Zanios, Albuquerque full-back, for example, took a handoff from Red quarterback Ben Elledge and raced 52 yards off tackle in a spectacular gainer.

Elledge connected on two long passes, one to all-Southwest Conference end, David Parks, for 44 yards and another to Stimmert half-back, Donny Anderson, for 41 yards.

For the rubber game, each having won two contests, lineups will be exactly the same as last week. There may be a trade at half-back between David Baugh of Rotan, a Red last week and Jimmy Edwards of Roysie City, who played for the White squad last week.

Admission is \$1 for adults, 50 cents for students and Tech students will be admitted by showing their identification cards.

Traffic and Security

The staff is comprised of a chief, 10 commissioned officers, one night sergeant, two radio operators, one secretary, one clerk and two part-time employees. There are three radio-controlled patrol cars. In October, 1962, there were 6,240 cars registered to park on campus.

Tech Netters Challenge Rice, Texas In Important Matches

Texas Tech tennis players, in their next two matches, have a chance to influence the outcome of the Southwest Conference championship campaign.

In successive matches—against Rice University here Saturday and against University of Texas in Austin Monday—the Red Raiders tackle the teams currently sharing the lead.

Coach George Philbrick's netters, besides playing the role of potential spoilers will be out to guarantee or better their own third place position. Tech is 14-4 following wins over Baylor University 5-1 and Texas Christian University 6-0 and a split with Southern Methodist University 3-3.

Raiders' netters will be Daryl Allison of Lubbock, Greer Kothmann of Junction, Beau Sutherland of Kerville and Robert Peterson of Wichita Falls.

Rice University is led by the 1962 Southwest Conference finalist in both singles and doubles, Fritz Schunck. The Owls, coached by Sammy Giamalva, are defending Southwest Conference team champions.

Last year Rice downed Tech 6-0, and the Longhorns battled the Raiders to a 3-3 draw.

A re-match of last year's SWC finals doubles match, won by Allison and Sutherland over Schunck and DeEdward Greer, has been virtually ruled out by re-pairings on both teams.

Matches, on the Varsity Courts, will start at 1:30 p.m. The public is invited free of charge, Coach Philbrick pointed out.

GEORGE PHILBRICK

Pics Down AFB, 20-12

Texas Tech's Picadors picked up their eighth win of the season Wednesday as they ran away from Reese Air Force Base, 20-12.

The game, which took three hours and twenty minutes to play, was called at the top of the ninth inning due to darkness. Tech slammed out 17 hits, as converted basketballer Dadid Schmidly picked up his first mound victory of the season. Schmidly pitched the first four innings and left the game with a 15-5 lead. In his four innings stint, Schmidly allowed only four hits, while striking out six and walking three.

The Picadors were led at the plate by second-baseman Buzz Henderson, who collected four hits out of five at bats. Jim Murrell and Ronnie Holly drove in the most runs with five RBI's apiece.

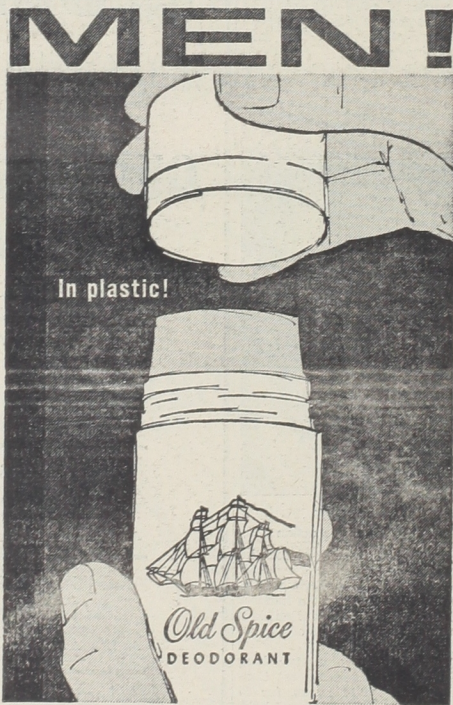

"FLORA-SCENT" makes The Perfect MOTHER'S DAY Gift

Raiders Visit Highlands Nine

Two improved baseball teams—Texas Tech and Highlands University—clash in a doubleheader at Las Vegas today.

Since Texas Tech posted a pair of wins, 5-2 and 3-0, here earlier this month, the Cowboys have won six straight and now are 10-10 for the season.

The Red Raiders have a three-game streak, and five of the six, going for them. Their only loss came at the hands of the Abilene Christian College nine. Other wins are the twin-killing of Highlands and a double victory over ENMU.

If a sports fan wants to stay busy here this weekend, he won't have much difficulty.

Touching off the crowded schedule was an NRA Rodeo, which begins at 8 p.m. Thursday. Other night sessions are carded for tonight and Saturday night. One is also slated for 2 p.m. Saturday afternoon.

★ ★ ★

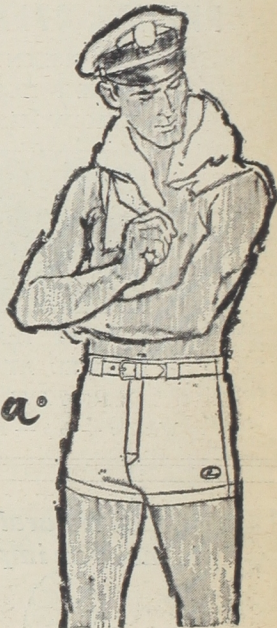

A football clinic gets underway at 2 p.m. today and continues through Saturday. It is being hosted in conjunction with the annual Red-White scrimmage and will include a barbecue tonight and sessions Saturday morning. Head Coach J T King and his staff are holding this clinic for high school coaches.

★ ★ ★

Starting at 1 p.m. Saturday will be finals in the Red Raider Relays, open to state track and field meet qualifiers. The strongest events prior to the start of the Relays appear to be the 100-yard dash, pole vault and high jump.
