# Tech To Present Research Plans To Texas Officials

By ROBANNA SUMRELL

Treador Staff Writer

Elo J. Urbanovsky, head of the horticulture and park management department, has announced plans for the presentation of two years' research on the Texas park system to important state government officials here Friday.

Through Lt. Governor Preston Smith of Lubbock, Tech has invited the officials to hear the report. Expected to attend the session are the House Appropriations Committee, the Senate Finance Committee, Smith, Speaker of the House Bryan Tunnell of Tyler, Attorney General Waggoner Carr, State Parks Board, Texas Re-

search League, Lubbock Representatives Reed Quilliam, J. Collier Adams, and Bill Parsley, Representative Gibbens from Breckenridge, Representative Pendleton from Andrews, Tech Board of Directors, and city and college officials.

Lubbock Chamber of Commerce is hosting the event.

The research was made following a request by the State Parks Board for a comprehensive survey of Texas parks—past, present, and future. Tech graduate students were instrumental in assembling the report by making illustrative materials, doing research, and actually presenting the information to officials. Much of the report was taken from master's

theses of students in the department.

Graduate students contributing were Alan Tolbert, Ben Philcher, Paul E. Schlimper and Elmer Thompson.

The report will include a 30-foot film screen using panoramic slides, relief maps, illustrations, U.S. Corps of Engineers Maps, and oral descriptions. This will be the final showing of the report for the approval of the Parks Board.

This is essentially the same report given to Gov. John Connally when he visited here Jan. 4 to view a comprehensive report on the park system and hearing recommendations.

At that time Connally told the research team, "You are setting a pattern

for the kind of job that can be done by an educational institution for the state." Connally expressed praise for the recommendations and optimism that the legislature would be willing to work on the plan.

The report will be presented in the Union Ballroom after a luncheon Friday at 12:15. While here the visitors will attend a reception at the Lubbock Country Club and tour the campus and city.

City officials, headed by Mayor Jack Strong, will attend the function to emphasize the city and state co-operation in the state's future. Thirteen members of the Tech faculty and administration will also attend.

## Willson Lectures

Dr. Charles L. Allen, one of Houston's most popular ministerial speakers, will open Tech's 16th annual Willson lectures Monday.

Tech classes will dismiss at 9:45 a.m. Monday so students may attend Dr. Allen's lecture on "The Seven Wonders of the Spiritual World" in Lubbock Municipal Auditorium.

Allen also will speak at 10 a.m. Tuesday and 9 a.m. Wednesday and Thursday in the Tech Union Ballroom. (See editorial on Page 4.)

# Connally Proposes Tech Budget Slash

Governor John Connally has recommended Tech's budget request be cut \$2,300,000. Tech requested roughly \$21.5 million for 1964 and 1965. Connally's suggested budget figure was about \$19 million.

### Four Recommendations

This is the last of four such recommendations that will be considered by the legislature. Connally's request is \$2 million more than the Legislative Budget Board's recommendation, but \$400,000 less than that of the Texas Commission on Higher Education and former Gov. Price Daniel.

The Senate Finance Committee and the House Appropriations Committee take over from here. Each of these will make a recommendation to its branch of the legislature. A free conference committee will eventually work out a compromise bill that, once submitted, cannot be altered from the floor. It must be either accepted or rejected.

### Hits Building Fund

Connally's recommendation hit hardest at building rehabilitation. For 1964 Tech had requested \$260,879 and was allotted \$30,000. Connally approved \$8,033 to convert the Agriculture Engineering Bldg. into large classrooms; \$8,762 to convert the Agriculture Auditorium into large classrooms; \$1,925 to raise the arcade floor in the West Engineering Bldg.; \$6,682 to replace light fixtures in 31 classrooms; \$2,550 for air circulating units in the Home Economics Bldg; and \$2,805 to install acoustical tile in 15 classrooms.

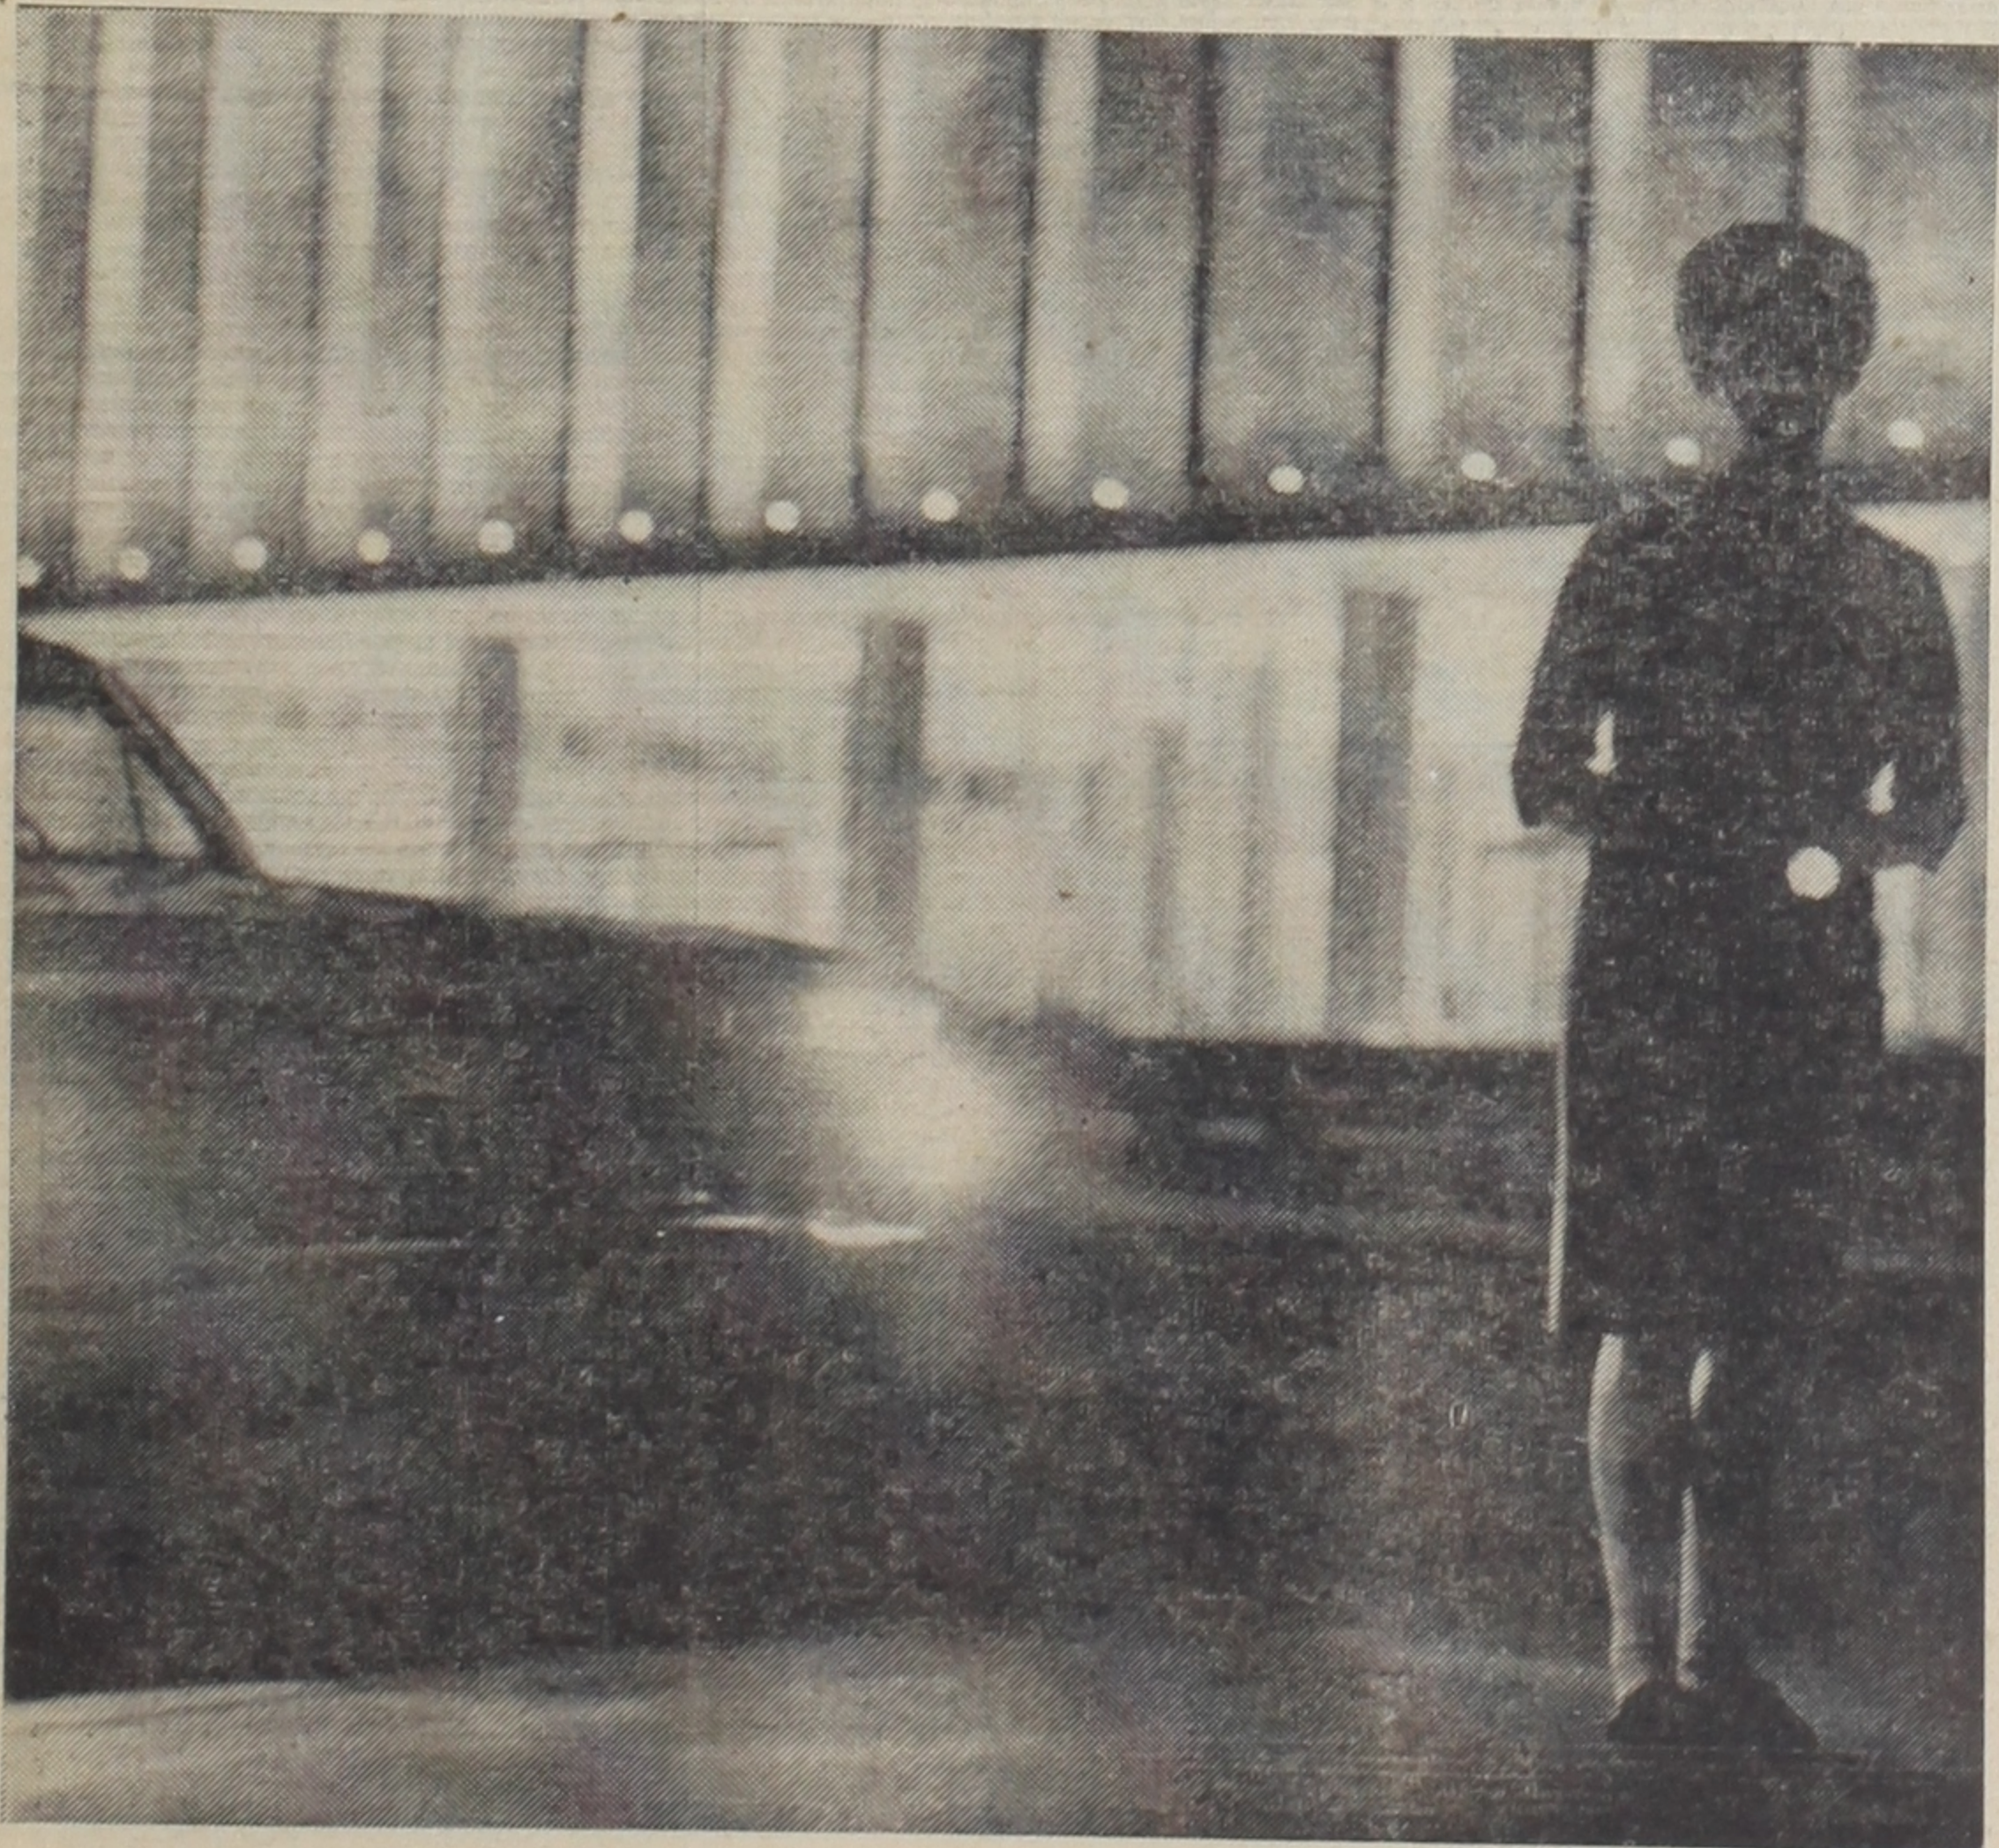

Items included in the \$231,000 that Tech would not receive were \$133,000 to air condition the second and third floors of the Ad Bldg.; \$61,950 to air condition the Social Science Bldg.; \$15,000 for lighting the campus; \$6,105 for extending sidewalks; \$7,030 to replace fixtures and tile in restrooms, and \$4,122 to extend irrigation.

### 1965 Request

Tech requested \$180,392 for building rehabilitation for 1965. Connally recommended this item be cut out of the budget. Among the things refused for that year are identical to the 1964 requests for air conditioning for the Ad Bldg., lighting sidewalks, irrigation and restroom fixtures. Also included was a \$21,950 request for an equipment elevator for the West Engineering Bldg.

Tech requested \$440,000 for building rehabilitation for 1964-1965 and were allotted \$30,000—a cut of \$410,000.

Tech officials declined comment pending final action by the legislature. The legislature usually acts on higher education budget bills late in the session.

OUT OF THE NIGHT—With the aid of a flashlight, Judy Tritico, Houston sophomore, edges her way across the street as a car darts out of the night to bear down on her. Street lights in front of the Library were included in the part of Tech's budget request disapproved by Connally.

## Tops In Beauty Offered In New Women's Dorm

By ELAINE COOK  
Toreador Staff Writer

Convenience, comfort and beauty are the key notes in the new \$3,713,000 women's dorm. The dorm will provide eight hundred and eight Tech coed rooms this fall.

The six story building is actually two identical dorms joined by a common dining hall and formal lounge. One dorm is reserved for upperclassmen and the other for freshmen.

The red tile roof and Spanish architecture are traditional on Tech campus. Electric lattens will be used for outside lighting in place of the spot-lights now used on other dorms.

There will be music-while-you-eat in the glass front dining hall which overlooks the formal lounge and the front lawn. Steps on each side of the formal lounge lead to walnut paneled informal lounges. Mail boxes and check out desks may be reached from the first floor hall rather than the lobby.

Self-operated elevators provide transportation to all floors. There are two elevators in each dorm. Noisy neighbors will be no problem since the new dorms are sound proof.

The neutral-colored rooms leave girls freedom to use thier imagination for color schemes and decoration. Built-in maple furniture includes two half-beds with a storage space beneath. Folding closet doors make all closet space easily available. Each girl will have her own desk with a maple bookcase and a cork bulletin board over it. Two built-in dressers and closed-in shelves above closets provide lots of storage space.

The dorm is completely air conditioned for those hot west Texas days.

A small chapel is on the second floor of each dorm for the benefit of those who want a quiet place for prayer and meditation.

For special teas and parties a kitchenette is provided on the second floor.

A laundry and dry cleaning pick-up station has been installed to save long jaunts across campus. Ironing rooms are provided on each floor equipped with three built-in ironing boards and coin-operated hair dryers. A laundry room is located in each basement with coin-operated washing machines and dryers.

Noise caused by soft drink and candy machines will be isolated in special areas next to the informal lounges.

There is ample parking space including a special escorts parking area.

The first payment for the new dorms will be \$179.32. Thereafter regular monthly payments will be \$80.

## Nominees Picked In Mock U.N.

Each UN block, except the Soviet, has selected its candidates for president of Tech's model UN, to be held March 29 and 30.

Delegates will be chosen March 20 from among these candidates: Middle East bloc — Saadallah Saadallah, United Arab Republic (Cosmopolitan Club); Western bloc — Amon Burton, Denmark (Phi Delta Theta); Latin American bloc — Gary Gore, Cuba (Alpha Phi Omega); Asian bloc — James Cole, India (Agriculture Economics Club); African bloc — Larry Gibbs, (Kappa Sigma).

### Campaign Restrictions

Campaigning will be by word of mouth as the steering committee ruled there would be no posters, handbills, name tags or money used in the campaign. Karen Moore, Union program director, said this ruling was to equalize the blocs' chances and to prevent too much emphasis on the campaign.

Two-minute speeches will be given by each of the candidates Wednesday and Thursday nights. This will be followed by 15 minutes of "politicking."

### Chet Huntley Film

The speeches will be preceded by Chet Huntley's documentary film, "Angola, Journey to War," which will begin at 7 p.m. in the Coronado Room of the Union.

Concerning the general state of the model UN, Mrs. Moore said she was pleased with the way it was developing. "The success of the program depends on each delegation. I think they realize that in addition to all the fun and personal benefit it can be, it is also a lot of work. They are seeing that they can't speak on or represent a country spontaneously."

### Delinquent Delegations

Some delegations have not been represented at the meetings, however. According to Mrs. Moore, if they do not submit an explanatory statement to the steering committee or do not attend the next bloc meetings, "appropriate action will be taken."

**During Spring Holidays**

# Mexico Trip To Relieve Tension

By **ROBANNA SUMRELL**  
Toreador Staff Writer

Hasta luego means "see you later" in Spanish. That's what almost 56 Tech students will be saying as they leave for four days of spring vacation in Monterrey, Mexico, in an all-school trip planned by the Entertainment Committee of Tech Union.

A color movie accenting the trip will be shown Monday at 4 p.m. in the Mesa Room of the Union. Representatives from Felsher Travel Agency and Mexican Air Lines will be present to answer questions.

**Tour Planned**

April 7, 8, 9 and 10 will be filled with horse and buggy tours of Monterrey. A day tour will include the state capitol, Federal Building, Bishop's Palace, University City, a leather factory and

a market place. There also will be a night club tour and a tour to scenic Horsetail Falls.

At Wednesday's committee meeting, John Felsher of the travel agency said, "We're not telling a lot of the exact things the students are going to see because we want them to have the surprise of seeing it themselves."

**Trip Purpose**

"The purpose of the trip is to provide a cultural and entertainment opportunity at a reasonable cost," said Pam Franklin, assistant chairman of the Entertainment Committee.

Eugenia Condray, Lubbock freshman, Tuesday was the first person to sign up.

"Thirty is the minimum that can sign and still be enough to warrant going through with the trip. We hope that it will lead to a better program of such events. We're waiting to see the success of this one," said Barbara Sue Owen, committee chairman.

**Trip Cost**

Sign-ups for the 56 places will be closed March 15. The \$130 fee includes air transportation, accommodations in a first class hotel, several meals and the tours. The fee is due March 15 and can be refunded until March 25.

Not included in the cost are tourist cards, some of the meals, tips, personal articles, wines, liquors or mineral waters. Up to \$100 worth of articles can be brought back duty-free.

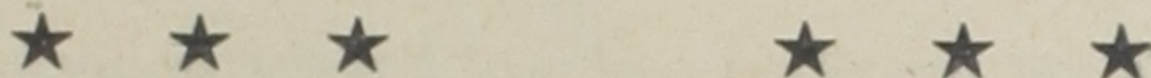

**Track Team**

Felsher is going to Monterrey with the students to personally

check accommodations and the tour. During the trip the Tech track team will be in the city for a track meet.

Miss Owen emphasized, "The impression American tourists make on Mexico is their impression of our country. By our conduct we can do something to further goodwill relations. This is an opportunity for students to get out and actually do something."

Reservations may be made and itineraries picked up at the Union's Program Council Office.

**THIS IS NO BULL**—There really will be a trip to Mexico during spring vacation but there is some doubt that girls will be placed in such dangerous situations as Barbara Sue Owen, Odessa sophomore, seems to be in here. —Staff Photo by Vernon Smith

# Class Officers Sponsor Spaghetti Meal Sunday

The class officers are sponsoring a spaghetti dinner Sunday from 5:30 p.m. to 7 p.m. The dinner is to promote class spirit and fellowship. Proceeds will go to the various class funds.

Hill, AWS representative are the junior officers.

Senior officers are President Larry Maddox, Secretary Ann Morrow and AWS representative Barbara McMurry.

**300 YEAR-OLD PAPER**

Authentic issues of a London newspaper, the Gazette, over 300 years old will go on display next week in the Journalism Bldg.

This collection was purchased by Tech's journalism department for \$1,200 from the Scribner collection of over 1500 issues. The display is to be permanent, but the issues on display will be changed periodically.

"These issues are very interesting and go back as far as 1665, however, most of the issues are from the colonial period of the 1730's to the early 1800's," said W. E. Garets, head of the journalism department.

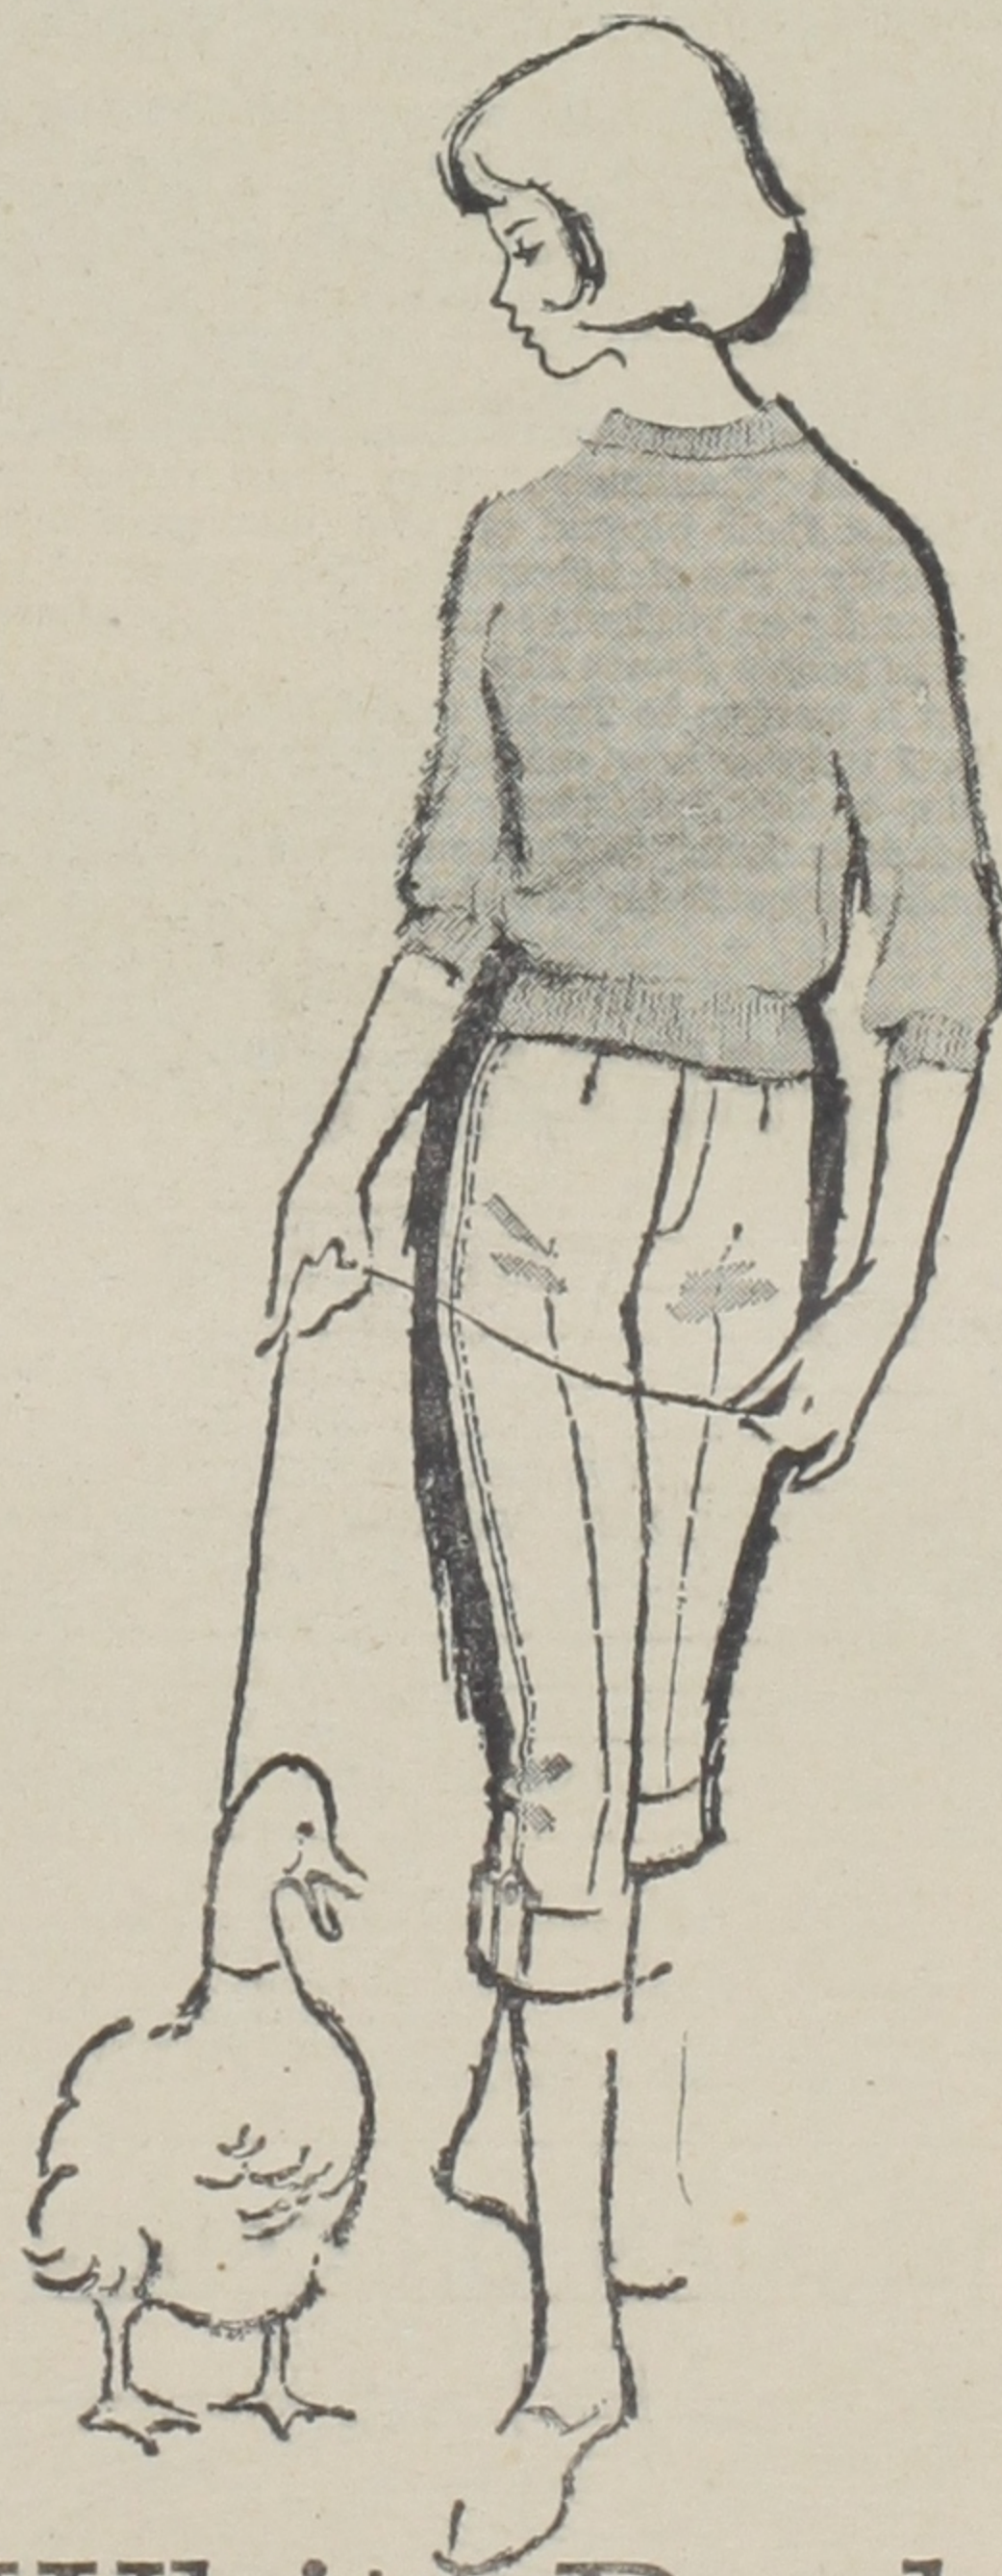

The Alpine Trio will make a table-to-table serenade. Jan Cone, vocalist, and Nan Bacon, folk singer, will be featured in a special stage program.

Tickets will be sold in the Student Council Office and Tech Union for \$1.25 per person.

Sponsoring the dinner are freshmen officers Joe Murfee, president, Craig Sutton, vice president, Dawn Taylor, secretary and Kitty Mayo, AWS representative.

Sophomore officers are President James Ellis, Secretary Lynn McElroy and AWS representative Tommie Allen.

Doug Gibbons, president; James Perry, vice president; Christie Brown, secretary and Mary Alice

TAPS FOR CHICKEN LITTLE

By LEROY CEBIK  
Guest Columnist

Once upon a time there was a man who did not know what the United Nations was. Because he was an inquisitive man, he decided to ask his neighbors to tell him about the U.N.

Neighbor A told him the U.N. was an evil subversive organization. When the man asked him what the U.N. did that made it evil, Neighbor A replied it was trying to give away the United States.

The man asked another question: Why was the U.N. trying to give away the U.N.? Neighbor A replied that the reason was that the U.N. was an evil and subversive organization.

The man was now confused, but he still wanted to know what the U.N. was. When he asked his question to Neighbor B, the reply he received was this: the U.N. is a Communist conspiracy. The man, of course, asked what a Communist conspiracy was. Neighbor B said a Communist conspiracy is something that tries to take away the United States.

The man shook his head, for now he did not know if the U.N. was trying to give away or take away the United States.

When the man came to me, he had talked to many people. As a result of his questions, he knew that the U.N. was either trying to take away, give away, put away, hide away, steal away, or throw away the United States. Yet, he still did not know what the United Nations was.

In my best rhetorical style I began. "The United Nations is a group of . . ." I tried again. "The U.N. is an organization for the . . ." Then I realized that I did not know what the U.N. was. The man shrugged his shoulders, thanked me for my time, and wandered off into the night, asking everyone he met what the U.N. was. He may be wandering still.

Tech has a U.N., although it is only a model. The purpose is to learn how's, what's, and why's of the world organization. The model may not be exact, but it will be similar enough to the U.N. so that anyone who wishes to know what the U.N. is will have a good chance to find the knowledge they seek.

However, there are those who wish to stop Tech's model U.N. For some reason they prefer to limit their knowledge and that of Tech students to an ambiguous collection of meaningless epithets, such as "evil," "conspiracy," and "Communist." They would rather that Tech students blindly adopt their bigoted opinions than have them learn the facts before making moral judgments. They speak of academic freedom to learn, insofar as students learn all the nasty names to call the things that some people do not like.

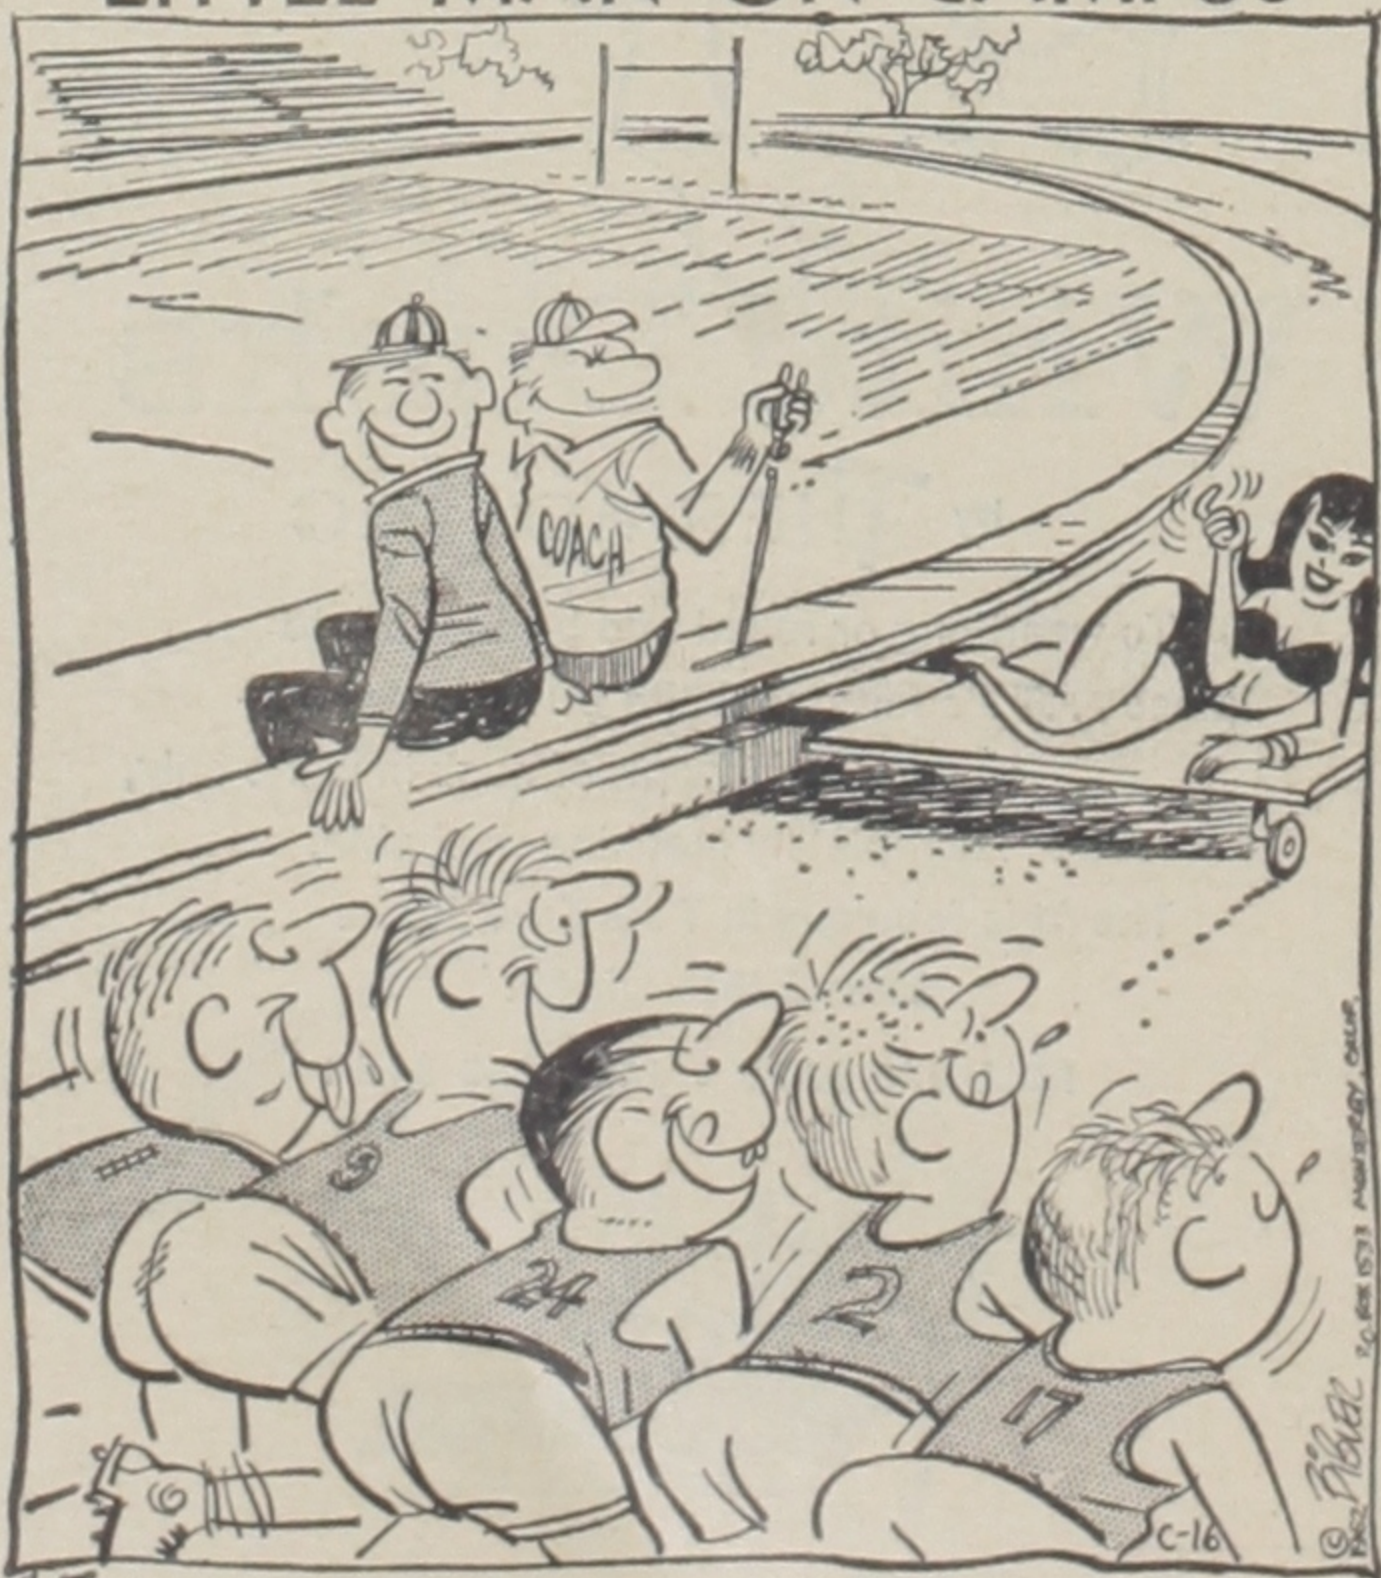

The little man is coming to Tech's model U.N. in order to learn what the U.N. is. I wonder how many students will attend for the same reason. I also wonder how many will stay away because they have been told that it is "evil," "a Communist conspiracy." Is ignorant opinion to overshadow a quest for knowledge?

LITTLE MAN ON CAMPUS

I THINK WE'RE TRAINING THE NUMBER ONE TRACK TEAM IN THE NATION, COACH.

Serving Texas Tech Since 1925

WELCOME!

It's not too often a school has the opportunity to serve as host for thousands of visitors from other universities, but such is the case with Texas Tech today.

Some frenzied fans arrived Friday and others are still coming in today to cheer their respective basketball squads to success on the ladder that eventually leads to the highest honor in college basketball—the national championship.

The occasion is the NCAA pre-regional playoff beginning in Municipal Coliseum at 7 p.m. today. Colorado State and Oklahoma City meet then, followed by a 9 p.m. match between Texas Western and the University of Texas. Another tournament at Lawrence, Kan. awaits the two winners.

We're proud of our school, and we hope that our visitors have a chance to see our facilities, including our recently-completed Library, Student Union and other new features on our campus, one of the largest in the world.

To Colorado State, Oklahoma City and Texas Western go our congratulations for their past performances and best wishes for the contests today. Our sympathies lie, of course, with our conference champions—the Texas Longhorns—in hopes the Southwest Conference will go far in the playoffs.

From Texas' second largest university of 11,000 students to four outstanding schools, we again say WELCOME!

CHARLES RICHARDS  
—Daily Toreador Editor

Time Well Spent . . .

A distinguished author, clergyman and lecturer inaugurates the 16th annual Willson lectures at 10 a.m. Monday with an address on "The Seven Wonders of the Spiritual World" to the student body.

Dr. Charles Allen's visit to the Tech campus will bestow an honor upon this institution. Too, it will give Techsians an opportunity to hear a man who has gained national recognition for the eloquence of his words and the thoughts they provoke.

Indeed, there is no better place for ideas to be born than in the minds of those who come to the campus seeking knowledge. The student who fails to take advantage of programs nurturing ideas falls short of this goal.

During the academic year many programs are offered to promote the attaining of knowledge. Some are of great value; others are not, and are discontinued. Those that do continue have proven their value. The annual Willson lectures have done so.

Classes will be dismissed at 10 a.m. so all Techsians may hear Dr. Allen's initial address in Lubbock Municipal Auditorium.

The program is well worth the free time being granted Techsians so they may reap the benefits of a renowned clergyman's ideas for a happy life.

Let's give Dr. Allen a good old-fashioned Tech welcome.

BRONSON HAVARD  
—Asst. News Editor

LETTERS TO THE EDITOR

Editor,

For a long time now it has been no longer necessary for this university to use the crutch — "Texas Technological College." It has been my understanding that the main reason that the college was called a technological college was that such a college was the only kind of college that the State Legislature was willing to establish at the time.

IF NOT, THE position of technology must have been betrayed by 1928. That year the college conferred three Master of Arts degrees in the School of Liberal Arts and three B.S. degrees in the School of Engineering. By this time the college had established the Master of Arts degree in eight fields in the School of Liberal Arts. Since then the School of Engineering has gained greatly in the conferring of degrees; the total number through 1961 was slightly more than half of the

Arts and Sciences degree total (through 1928; Eng.—3 Liberal Arts—108).

THIS COLLEGE has become a well established institution, and it is very unlikely that the State Legislature would all the students to pack up and go home if it were decided that their university is not a technological college and if the college would admit the fact. This institution no longer needs a crutch; it is now well able to stand on its own two feet.

Another crutch — the idea that with a change of name would come the end of the Double T tradition — is also unnecessary. Texas Tech is not the official name of the institution, and it is doubtful that, with a changing of the name, the State Legislature would outlaw or ban the use of the term "Texas Tech" in connection with sports activities, etc. Freedom of speech would be violated if the use of the name

"Texas Tech" were prohibited, but the traditions of the Double T must not be very strong if it is necessary to write them on every degree given by the institution and if traditions must be made official in order to insure their existence.

UNFORTUNATELY, Most people and companies that require a degree for a job do not know enough about the college to know the name — Texas Technological College — is not really correct. They may wonder what a person is doing with a Ph.D. in English from Texas Technological College.

It is not really necessary for this university to have "Texas Tech" or the catalog of the university (Texas Western Institute of Science and Technology, or other similar analytical expressions) included in the name.

Jerry Tonroy  
Junior A&S

BY THE BOOK—Looking over plans for Women's Day April 2 are Ann Orrick, Wichita Falls junior and Decorations and Food Chairman and Arminta Kemp, senior and Chairman of Womens' Day.

## Junior Council Petitions Available For Women

Junior Council applications are available in the Dean of Women's office.

Any woman student having a 3.0 over-all average is eligible. Included in this is any transfer student whose grades would not be available to the council.

Applications are due March 14. Junior Council is a women's service honorary in recognition of scholastic achievement and leadership in campus activities.

## Chi O Initiates Pledge Class

Chi Omega initiated 19 pledges in ceremonies at the lodge. Those girls initiated were: Pam Bodoi, Austin; Patricia Champion, Brownsville; Eugenia Condray, Lubbock; Genie Culberston, Arlington; and Kaitha Davis, Dimmitt.

Others taken were Pam Hughes, Houston; Betty Jamison, Sweetwater; Bettye Lowder, Wichita Falls; Judy Mack, Fort Worth; Mary Jo Maki, Houston; Patty Pearson, Austin; Patty Pownder, Fort Worth and Robin Raquet, San Antonio.

Concluding the list are Sally Slayden, Fort Worth; Nancy Sowell, Cleburne; Linda Venema, Houston; Laine Whitcomb, Lubbock; Judy Wimbish, Fort Worth and Carol Wright, Midland.

## Raider Roundup

Tuesday

6:15 p.m. — Senior Class meeting — Chemistry Bldg., room 101 — nominations for class favorites. Groups or individuals may nominate.

6:30 p.m. — Junior Class meeting Aggie Engineering Auditorium — nominations for class favorites.

## Women's Day Plans Begin Taking Shape

An avalanche of plans is snowballing into action as committees meet to discuss the 31st annual Women's Day. The event, honoring women students, is set for April 2, with the theme "Challenge of the Day."

The traditional "all white" will be worn throughout the day's activities, which include a tea and banquet. Two "Women of the Year" — one faculty and one student — will be named at an evening banquet in the Tech Union.

Mrs. Miram Cole Houghton, of Red Oak, Iowa, will be featured speaker.

Nominations for "Women of the Year" are due by March 22 in the Dean of Women's office. Last year's honorees were Dr. Beatrix Cobb and Mary Jo McClain.

Academic awards for the dormitories and sororities will be given at the banquet and scholarship winners announced.

The afternoon tea will be in the Dean of Women's office.

Theta Sigma Phi, national women's journalism fraternity, will publish THE DAILY TOREADOR April 2.

SANDY SANDIFER . . . will play for the Old South Night Club Dance in the Tech Union Ballroom beginning at 7 p.m.

### VISITS AHEA OFFICES

Miss Lola Marie Drew, associate professor of home and family life department, will attend the national council on consumer information, Thursday through Saturday, in Washington, D.C.

Miss Drew will visit the American Home Economics Association headquarters. She will also tour the White House.

# 10th Anniversary GOSPEL MEETING

VANDELIA VILLAGE CHURCH of CHRIST

2002  
60th St.

MARCH 3-10

Lubbock  
Texas

## FEATURED SPEAKER FOR THE WEEK

**ROY OSBORNE**  
SAN FRANCISCO, CALIF.

Powerful in his appeal, Roy Osborne brings a distinctive presentation of the Gospel to Lubbock. He has been enthusiastically received in four previous meetings in this city. He is a noted author, a competent psychologist, and sought after lecturer. We are happy to bring him to Lubbock and commend his preaching to the people of the South Plains. During March 3-10 he will preach three times daily at 7:00 and 10:00 A.M. and 7:30 P.M.

## TO DIRECT CONGREGATIONAL SINGING

**BOB HOOVER**

Bob Hoover, the local evangelist for the Vandelia Village Church of Christ, will direct congregational singing during this 10th Anniversary Meeting. Hoover has directed singing in this area since his early years. He regularly does the preaching for some six to 7 meetings yearly in addition to the local work in Lubbock. Now in his ninth year with the Vandelia congregation, he has led singing for several other of these annual Gospel meetings. You will enjoy singing God's praises under his able direction.

March 10th is annual homecoming day and open house at Vandelia Village. These special events and teachers are designed to encourage you to be one of 1550 in Bible classes at 8:40 and 9:40 A.M. You can be a part of Dedication Day for our new Educational Facilities. This will include dinner on grounds in the new 4500 sq. ft. Fellowship Hall.

**DON H. MORRIS**

## TO TEACH SPECIAL MAN'S CLASS IN FELLOWSHIP HALL

Don H. Morris will teach a special class for men in the new fellowship hall. With room for 300 men at 8:40 and 9:40. Don Morris is president of Abilene Christian College. He is a world traveler and capable speaker. He regularly lectures and makes public appearances throughout the nation. He is an educator who was the first ex-student to become president of A.C.C., a position he has held since 1940. Men of this area will want to hear this eminently qualified speaker.

**JOHN THOMPSON**

## TO TEACH SPECIAL CLASS FOR TEENAGERS

Johnny Thompson is the aggressive young minister of the Eastside congregation in Graham, Texas. He holds a Master's degree from A.C.C. and has been widely acclaimed for his work and special research among the young people of the churches of Christ. This is his second appearance at Vandelia Village and the Young People of this area will want to hear him.

**BECKY TILOTTA**

## TO TEACH SPECIAL LADIES CLASS IN FELLOWSHIP HALL, AT 8:40 & 9:40

Becky Tilotta, of Houston, is one of the editors of the Christian Bible Teacher Magazine. She has taught many classes for ladies all across South Texas and various Christian colleges. Mother of a son, 20, and daughter, 18, she plans to appeal to women on the South Plains with the subject—"How To Give Your Daughter Away". In recent years she has done extensive work in Mexico and Guatemala. In those places she has directed special classes in the hospitals and church groups. She has a message of importance to South Plains women.

## THE ABILENE CHRISTIAN COLLEGE ACADEMIA CHORUS

## TO BE HEARD AFTER DINNER ON THE GROUNDS IN THE FELLOWSHIP HALL

This widely known chorus is one of the five major organizations of the music department at A.C.C. It is believed to be the second oldest such chorus in Texas and had its beginning in 1932 under blind conductor, the late Dr. Leonard Burford. The restricted membership is selected each year through competitive auditions. We know you will enjoy their presentation. The chorus is directed by Mr. Rollie Blondeau.

# Executions Discussed In Forum

By JEANNIE BOOKOUT  
Toreador News Editor

Capital punishment was the issue spotlighted Friday before Noon Forum listeners when Kenneth Hobbs, Lubbock attorney, delivered a hard hitting speech directed at both sides of the subject.

Early in his address Hobbs pointed out that Tech students should be concerned over punishment by death for crimes.

"You are the future leaders of society," he said. He also warned that many students of today will be called to serve on capital juries of tomorrow.

Swinging at those who would abolish capital punishment, the veteran campus speaker said they are "not consistent" in their stands.

### Where Were Abolitionists?

Citing the big cry heard the world over when Caryl Chessman was executed, Hobbs asked, "Where were the abolitionists when Chessman was killed?"

Hobbs believes that those who crusade to abolish capital punishment "identify with the convicted," said Hobbs. "The poor and underprivileged identify with those like Chessman but not with Eichmann who killed 6,000,000. They should be consistent."

The lawyer declared that those opposing capital punishment should crusade for world peace to preserve the lives of the masses instead of individuals.

### What About Hiroshima?

"What about the child standing in the streets of Hiroshima?"

On the other hand, Hobbs objects to capital punishment because the social issues at stake outweigh the legal.

"Over half of those executed yearly are Negroes, many of whom are penniless," he said. "It makes a great deal of difference who you are and what you are—this is the real weakness in the death penalty. It is not the moral issue. It is not intrinsically wrong to take life."

In the statistics-filled talk, Hobbs said that there are 31 capital offense punishments in the U.S. today. They range from murder, treason and kidnapping to killing by colliding with steamboats, dueling and burning railroad bridges.

### Life Is Cheap

Because of the murder without malice clause in Texas "life is cheap here," the attorney said. "Average conviction for homicide in Texas is about three years while robbery by firearms usually gets about 18 years."

Before launching into arguments for and against capital punishment, Hobbs said the trend is toward repeal. Executions for homicide averaged 150 per year through the 1930's and 60 per year in 1950's.

"Only one out of every 115 convicted of homicide are given the death penalty and not all of these are executed," Hobbs said.

### Ideas Based On Beliefs

He pointed out that those who are for and against capital punishment base their ideas on faith or beliefs they think can be proven.

"Empirical arguments are not born out by statistics," Hobbs said. "For example, the argument that the death penalty operates as a deterrent has too many statistical errors."

He said the deterrent argument is no good because the death penalty is so seldom used.

### Statutes Should Be Revised

Quoting James Bennett, Director of the U.S. Bureau of Prisons, Hobbs agreed that the statutes should be revised to include only five capital punishment offenses.

These are murder for hire, murder for killing a law enforcement agent while on duty, kidnapping and injuring a child, treason, bombing an airplane, school or church filled with innocent persons.

# See Europe For 6 Credits; Tour Spaces Still Available

By FRANKIE FITZNEBON  
Toreador Staff Writer

"I have just a few places left," said Mrs. Alan Strout, assistant professor of English, of her Tech sponsored Fifth Biennial European Tour.

The past two years the maximum of 34 students have participated in this 58 day "English class."

Six hours of credit are available in conjunction with the tour. Classes meet once a day en route to Europe, but there are no classes while in Europe. An essay concerning the trip must be handed in by October.

The group will sail from New York June 8 on the SS. Aurelia, an all student boat chartered by the Council on Student Travel. Students going by jet will leave from New York June 16.

"You can swim all the way across the Atlantic," said Mrs. Strout, because the Aurelia has a swimming pool. The shipboard program includes language classes, lectures, movies, sports and entertainment.

Languages classes are offered in any language that "someone is interested in learning, and some-

one else can speak," remarked Mrs. Strout.

"Art lectures are offered to help students appreciate the masterpieces they will see in Europe.

"I'm very pleased that we are going to Norway and Denmark for the first time in several years. We will be in Copenhagen on July 4, and that will really be interesting, for the Danish people really like the Americans; they'll give a big dinner for all of us."

The tour will stay in a university dormitory in Copenhagen, that is a hotel run by the college each summer. In Norway they will visit the back country which is steeped in folklore and traditions.

"This is the land of the trolls which are Norwegian goblins," said Mrs. Strout. "The distinctive feature of trolls is that they always have a tail."

In Heidelberg, Germany, they will lunch at Red Ochsen-Student Inn, which is the university's ancient "SUB."

In England the tour will include visits to three theaters: the Old Vic Theater, the Shakespeare Memorial Theater, and in York, the York Mystery Plays, written in 1350.

They will go to an opera at the

ruins of the Baths of Caracalla in Rome.

"Caracalla was a Roman emperor who built fabulous baths which were somewhat like a fancy men's club of today. A stage has been built across the ruins," said Mrs. Strout.

Other stops will be made in Scotland, Switzerland, Austria, Monaco and France.

Anyone interested in taking the tour should contact Mrs. Strout in the English department.

## April 1st Singsong Deadline

April 1 is the deadline for entry into the annual interfraternity sing song scheduled for April 19. This year's sing song will be at the Lubbock Municipal Auditorium from 7:30-10 p.m.

Recent entries include 11 sororities and six fraternities. Each group will sing two songs and be judged on intonation, style and stage presence.

First, second and third place trophies will be awarded to the sororities and fraternities receiving the highest ratings. The fraternity winning first place will receive a traveling trophy which can be kept if won three consecutive times. Last year's winners were Gamma Phi Beta and Phi Kappa Psi.

While the judges deliberate, Phi Mu Alpha, men's music fraternity and Mu Phi Epsilon, women's music sorority, will sing selections from "West Side Story."

Choral directors from three area high schools will judge the singing. They are Dr. Robert Clinton, Snyder; Joe L. Carroll, Roswell; and A. V. Wall, Brownfeld.

## Tech Past Shows Interest, Humor

By JAN STOCKTON  
Toreador Staff Writer

In a recent check on the history of Texas Tech, these interesting and informative facts were brought into view.

Dr. Eunice Joiner Gates, professor of foreign languages, and Dr. William Bryan Gates, dean of graduate school, are the only Tech professors remaining of the original 1925 faculty.

Alfred J. Van Dyke was the first engineer to enroll at Tech, in the summer of 1925. Van Dyke is a 1930 Civil Engineering graduate, and is now employed as chief highway engineer of the Foreign Operations Administration of the United States government.

The first classes at Tech were held Oct. 1, 1925.

The fall semester of 1925 saw 914 students enrolling, 730 freshmen and 184 sophomores. There were 642 males and 272 women. There were 287 Lubbock residents in the first class. Out of state students numbered 24, coming from five different states.

The first buildings ready for use were the Administration, Home Economics, Textile Engineering, Dairy Barn, Stock Judging Pavillion, and President's residence.

The 2,008 acre campus had no sidewalks, but "cow railings."

In 1931 a story ran in the TOR-

EADOR rejoicing that a student could now walk from the Textile Building to the Chemistry Building without getting off the sidewalk.

The first president of Tech, Paul W. Horn, wore a one dollar suit made by the Textile Engineering Department.

The first chemistry manuals, the printer being unfamiliar with new scientific terms, referred to "ions," as "irons," "beakers," as "breakers," and "complex ions" as "complexions."

The first Tech Band made its debut at the first football game, at Fair Park. The game was with McMurry College and ended in a scoreless tie.

## Tech Receives Lab Equipment

A magnetometer and a gravity meter were given to the Tech Seismological Observatory by the Electro-Technical Labs of Houston.

Total value of the equipment was set at \$5,200 by Electro-Technical Labs, a division of Mandrel Industries, Inc. However, D. H. Shurbet, observatory director, said replacement costs would be considerably higher.

## Tank Team Whips ENMU Swimmers

Tech swimmers gained a revenge victory Thursday over Eastern New Mexico University, 56-39. ENMU had earlier in the year, defeated the Raiders, 60-35 in Portales.

The victory gave the Raiders a 9-9 record with an opportunity for the tankers to go over the .500 mark when they meet Baylor today at 1 p.m., in the conclusion to their dual meet season.

The swimmers will go to Austin next week for the Southwest Conference meet.

Three Tech pool records were bettered in the meet Thursday.

Phil Simpkins beat, by over a second, his own 200 meter individual medley record, with a time of 2:11.3.

Ron Grim took down one of his own records too, as he swam to a 2:14.3 in the 200 yard butterfly. The old mark was 2:16.5.

Grim and Simpkins joined Jon Kott and David Wight in the 400 yard medley relay for another record. The four swam to a 4:01.5 record, bettering the old record of 4:08.4.

Dick Haase won the 200 yard freestyle in a time of 2:01.8. The 50 yard freestyle was won by Bill Schmidt in 23.2. Rick Baird took honors in the diving competition.

Simpkins became an individual double winner with a 51.9 time in the 100.

Simpkins took honors with a high score of 11 3/4 points.

## Delts Play WTS Rams 2nd Time

Delta Tau Delta finished the season in fraternity intramural play as undefeated champions, with only two losses to their credit and those being in tournament play.

The Delt season record is 14-2. Monday they will go to West Texas State for the second round of play with the "Rams," West Texas' intramural all-college champs. In the first round Tech's Delts smashed the "Rams," 79-66.

Bobby Powers leads the Delts in season scoring with a total of 219 points for a 13.6 average. Other players are Ron Siler, Mike Kunstadt, David Dean, Kent Kance, Ward Williford, Tom Arnold, Steve Henderson, David Woods and Kennedy Whitely. The Delts are coached by Buddy Peel.

According to Peel, the reason for the Delts' success is "good material, desire and willingness to work from the beginning of the season."

## Girls End 'Mural Basketball Season

Women's intramural basketball tournaments are in the semi-final stage this week.

Independent League games Monday and Tuesday will pit the Town Girls against Bible Chair, with the winner to play West I, with that winner playing Knapp II for the independent championship.

Wednesday and Thursday Pi Beta Phi II will play Alpha Chi Omega IV and Delta Gamma will play Chi Omega. The winners will oppose each other for the sorority crown.

The league champions will play for the All-School championship Monday, March 18.

### McADOO ADVANCES

AUSTIN (AP) — Speedy McAdoo and smooth-working Nacona Prairie Valley barged into the finals of Class B in Texas schoolboy basketball Friday.

McAdoo shut off Talpa-Centennial 49-36. Nacona took a 46-42 win over defensive-minded Blum.

### FIRST NCAA TOURNEY

When the NCAA tournament begins at 7 p.m. today in the Municipal Coliseum, it will mark the first time that a Texas city besides Dallas has had the pre-regional tourney.

## 'Defeated' 'Horns Might Stampede

By CHARLES RICHARDS  
Toreador Editor

When trail driver Harold Bradley brings his herd of Longhorns into Lubbock's Municipal Coliseum for an NCAA test with Texas Western, spectators better hold onto their hats.

The Steers are ripe and rarin' for a stampede. This particular trail driver probably would not try to stop the stampede, either, since he assumes the role of a coach when his players don the basketball uniforms. And his outfit had its pride busted this week.

The Texas Western Miners may have to "dig up" something special if they are to stop the stampede. The two teams clash in the finale of a two-game NCAA playoff program at 9 p.m. today. Oklahoma City University and Colorado State University meet at 7 p.m.

The Longhorns, even though they sacked up the Southwest Conference crown by a four-game margin, were bulldogged by lowly Baylor, 55-48, Tuesday night. The loss kept Texas from becoming the 10th team in SWC history to go through loop play undefeated.

Prior to that, a full 14 games ago, the last loss Texas suffered was to this same Texas Western, 45-40, in a defensive battle in the finals of the Sun Bowl Tournament at El Paso.

The Longhorns have improved rapidly since then, trodding steadily along with more reserve power than it has been able to use. The 14-game streak was the longest since the 1947 campaign when they

rolled by 17 consecutive opponents en route to a 26-2 mark. They finished this season with an 18-6 record.

Mike Humphrey, a 6-8 junior center from Midland, and Jimmy Gilbert, a 5-9 senior guard from Beaumont, were named to the all-SWC team and will lead the Longhorns into the NCAA tilt. It's the third straight season for the SWC representative to have a couple of all-conference performers. Ironically, the physical attributes are similar also. It was Texas Tech's 6-9 Harold Hudgens and 5-10 Del Ray Mounts in 1961 and 1962.

Other Longhorn starters will be Joe Fisher, a 6-7 junior forward from Beaumont; Larry Franks, a 6-5 sophomore from Nacogdoches; and Jimmy Puryear, a 6-1 junior guard from Santo.

John "Mutt" Heller, a senior forward from Tyler, and John Paul Fultz, a 6-8 sophomore center from Dallas, haven't been starting, but they have been playing almost as much as those who do.

These seven will be the nucleus of Texas hopes in post-season play. It marks the first trip to the NCAA for the Longhorns since its 1947 season when it lost to Oklahoma at Kansas City. The Longhorns were in the National Invitational Tourney in 1948 and lost to New York University in the first round.

The winner of the Texas-Texas Western contest will advance to the NCAA Midwest Regional Tourney at Lawrence, Kan., where it will play defending national champion Cincinnati March 15. The Oklahoma City-Colorado State victor will play the Big Eight champ, also at Lawrence.

ALL-SWC — Leading scorer for the University of Texas Longhorns this season, Mike Humphrey with 11.8 points per game led his teammates to a 13-1 league record and the Southwest Conference title and was named on the all-conference team.

NATION'S TALLEST TEAM

Sky-High Chiefs Play CSU

CHIEF'S BIG GUN—6-5 junior guard Bud Koper has been the big gun of the Oklahoma City Chiefs all year. He leads the team in scoring with 594 points for an average of 22.8 and is the top free thrower with 80 for 100 and an .800 percentage.

By RAY FINFER  
Toreador Sports Editor

When the tree-tall Oklahoma City University Chiefs take to the floor at 7 p.m. today against Colorado State in the first round of the NCAA playoffs, Lubbock fans will be treated to seeing the nation's tallest basketball team.

Tallest man on the Chiefs is 7 foot junior center, Eddie Jackson from Waco, Texas. Following Jackson in height on the starting five is 6-9 senior Bill Johnston, forward, from Ponca City, Okla. His running mate at forward is rugged 6-6 junior Jim Miller, from Parkersburg, W.Va. The two guards are the small fellows on the starting team. They are 6-5 junior Bud Koper, and 6-4 senior Gary Hill, both from Rocky, Okla.

The team averages 6-7.

The Chiefs completed the season with a commendable 18-8 record including a 13 game winning streak. Five of the eight defeats of the Chiefs occurred in the last 10 seconds.

Hill was the team's leader, averaging 21.4 points per game, second only to Koper's 22.8. He directed the attack and spearheaded the Chief's pressing defense. He hit double figures every game of the year and averaged 23.5 after mid-term break.

Koper was the team's scoring leader with a total season average of 22.8 and a 27.1 average since mid-term. His single game highs were 45 points and 20 field goals (of 27 tried) against Centenary. He also hit 41 points against SMU.

Koper became only the second player in Oklahoma major college history to surpass 1000 points in two varsity seasons. His total 1007 points placed him at seventh among all-time OCU players with a full varsity season still ahead of him.

Big Eddie Jackson became eligible at mid-term and did not play in a losing game until the University of Houston dropped the Warriors, 75-73, in the finale of the season. Jackson averaged 10.7 points and 10.9 rebounds in the 11 games he played. Against West Texas State he scored 21 points and pulled down 20 rebounds.

Bill Johnston, steady senior forward, played in all 26 of the Warrior games, being the only man to do so besides Koper. He averaged nine points a game and hauled in 168 rebounds to lead the team in that department.

Miller, who will remind Lubbock fans of former Red Raider star Mac Percival, is especially rugged around the boards. He started the season slow but has come on to really aid the Chiefs.

Although he put in less time than Koper and Johnston, he finished third behind them in rebounds and averaged seven points a game. He broke his hand in next-to-the last game of the season and did not see action against Houston. He may not be ready for the Colorado State tilt.

Top reserves are Bill Stephens, 5-9 senior, who several times gave the team a lift with his ball hawking and play-making. He has tremendous speed, leading Coach Abe Lemons to say, "He looks like he is running at 78 and everybody else at 33 1/3." Manuel Heusman, 6-4 senior is a top aid to the Warriors by his rebounding and quick reactions. Gary White is another first-rate reserve. He is a 6-6 senior who is one of the team's top outside shooters.

The number 13 proved extremely distasteful to Chieftain faithful as the season drew to a close. The Chiefs' 13-game winning streak was broken by Houston, 13 years after the Cougars had broken another 13-game OCU skein. And Gary Hill missed the first end of a one-and-one free throw situation with two seconds left against Houston that would have tied the score. Had he converted both free throws, his three-year point total would be, you guessed it, 1300.

Coach Abe Lemons is in his eighth year as the Oklahoma City head coach and has had only one losing season, a 12-13 season in 1959-60. He has taken three OCU teams to NCAA tournaments and one to the NIT tourney.

Assistant coaches are Paul Hansen and Lyndon Lee.

**Rams Boast Hot-Scoring Team**

**ALL-AROUND PLAYER** — Brian Etheridge, 6-8 center-forward, is one of the Rams' outstanding all-around players. He can drive, tip, shoot short range jumpers, defend and pass with equal effectiveness. He is second only to Bill Green in scoring and rebounding.

**By RAY FINFER**  
Toreador Sports Editor

The Colorado State Rams, led by their All-America center-forward, Bill Green will meet Oklahoma City University in the opener of the NCAA playoffs at 7 p.m. today in the Municipal Coliseum.

Green, averaging an eye-popping 28.6 per game for the season, sparked his team to a 18-4 season mark, the best in the history of the Colorado school.

The graceful 6-6, 233 pounder led the Rams in every category except free throw percentages. He holds a CSU record for most total points in his career, with 1,663 points in 75 games for a 22.1 average. He topped the team in rebounding with 199 total for a 9.1 average.

Green is the nation's third leading scorer this season with 630 points and a 28.6 mean. Coach John Benington of the St. Louis Billikens said that he figured out a way to stop the big scorer: "I'll wait until he graduates."

Coach Jim Williams calls his top player, "The strongest basketball player in the West." Green upholds his coach's claim with his record. This season big Bill scored 20 points or more in 20 of the 22 games he played, 30 points or more in nine ball games and 40 points or more in two games.

Green leads the team in field goal percentage with 209 hits out of 356 tries for a percentage of .587, sixth in the nation.

Coach Williams' team as a whole is the fifth best shooting team in the nation with a team percentage of 49.8.

Brian Etheridge is the second best Ram, scoring 244 points (11.1 average) and pulling down 154 rebounds (average of 7). A big boy at 6-8, 218, Etheridge is a great team player and probably the best all-around player on the team. His exceptional timing and ability to tip shots is his greatest asset to the Rams.

Dave Sigafos, 6-9, 175, is a tall, slender Ram, who probably possesses the best outside shot on the team. He leads free thrower on the squad with 35 of 43 attempts for a .814 mean. As a junior, Sigafos will be the nucleus around which Williams will build his team next season. Green and Etheridge graduate this spring.

Gary Anderson, 6-3, 188, is the team's steadiest player. He can be counted on to play a fine offensive and defensive game time and again. As a guard, he plays superb rebound ball. Coach Williams often assigns Anderson to the opponent's top offensive player, because of his defensive ability. He is scoring at a 6.5 clip per game

with a season total of 144 points. Dennis Foster is the team's smallest and fastest ball player. As floor general, he can handle the ball, pass it, fake and shoot with ease. He is in control of the Rams at all times. As a sophomore, 5-10, 177 pound Foster is a scrapper.

In a game against Texas Western Coach Williams decided to try to get the bigger boys to go after the tip, so he assigned Foster to jump against TWC's giant 6-8 Jim Barnes. Foster looked up at the coach and said, "Who do you want me to tip it to, Coach?"

This fighting spirit and a good sense of the game had made Foster an asset to the Rams.

**THIRD BEST RAM**—Big 6-9 center-forward Dave Sigafos possesses possibly the finest shooting touch of any of the Rams. He is third in scoring and rebounding to Bill Green and Brian Etheridge. He has been known to break up many games when defenders guarded Green and Etheridge too closely.

Other players that see a lot of action on the team are Bill Ellis, 6-4, 182, guard-forward, and Terry Matthews, 5-11, 180 pound guard.

Ellis has developed this season into a top-notch Ram handyman, a number one reserve either at forward or guard. He is a 100 per cent hustler who battles hard for rebounds and loose balls.

Matthews, another little man, started the season slowly, but has come on to play a key role in the backcourt. He is a good passer and drive-shooter, who hustles hard on defense.

Coach Williams is in his ninth season as the Rams' court boss. Under Williams, the CSU team is enjoying its greatest measure of national prominence. His nine-year record at CSU is a commendable 122 wins and 96 losses against some of the nation's best basketball talent.

Williams is an exponent of careful pattern play, offensively and tough man-to-man defense; he consistently develops his material to its fullest capacity, making him one of the country's most respected basketball tutors.

CSU basketball assistants are Irv Ferguson, freshman coach and Boyd "Tiny" Grant.

**CSU'S FIRST ALL-AMERICA**—6-6 Bill Green, Colorado State's first All-America player, scored 630 points in 22 games this year, for an average of 28.9, good enough for third place in the nation in that department.

IN MINERS' HISTORY

**TWC Fields Best Team**

By RAY FINFER  
Toreador Sports Editor

With big Jim Barnes leading the way, the Texas Western College Miners will meet the University of Texas Longhorns in the nightcap of the NCAA playoffs at 9 p.m. today in the Municipal Coliseum.

The Miners will be attempting to show that their 45-40 victory over the Southwest Conference champion, Dec. 29, was no fluke.

Barnes, 6-8, 240 pounds of scoring and rebounding power, leads TWC in both departments. He has scored 482 points for the season for a 19.3 average. He nearly

equaled his scoring output by drawing down 422 rebounds for an average of 16.9 per game, one of the highest averages in the nation.

Barnes was named to the UPI honorable mention All-America team. He is a fine outside shooter as well as a tremendous post. He scored 36 points against New Mexico State, 32 against Los Angeles State and 27 against Arizona State.

The team, as a whole won 19 and lost 6 for the finest record posted in the school's history. Ironically the previous best was reached in 1962 when Coach Don Haskins, in his first year at TWC, led his boys to an 18-6 record.

Haskins arrived on the scene in late summer of 1961, with a team of players who had only reached a .500 mark the previous season. The first thing he did was to go to work garnering junior college transfers.

Despite the skepticism of the fans and students in the El Paso school, Haskins put out a hard-working, crowd pleasing team.

The team was so tough defensively that they were fifth in the nation in that department allowing only 56 points a game, while scoring 70.3.

Bobby Lesley, Texas Western's floor general, has played five seasons for Haskins. Lesley played for Haskins at Hedley, Texas, High School for three years, joining his former coach last year at TWC. He is the team's second leading scorer with 293 points and an average of 12.2. He is the leading Miner in field goals percentage with 515.

Nolan Richardson, one of the greatest athletes ever produced in El Paso, is the third leading star for TWC. He has scored 273 points for a per game average of 10.9. His high score for the season was 20 points against Utah.

Willie Brown, dead-eye shooting Yankee from the Bronx, New York, has proved to be one of the best outside shooters ever to play at Texas Western. He scored 271 points this season to average 10.8.

Danny Vaughn, one of the usual starters for TWC, is the most accurate free thrower on the team. He has hit 29 of 34 for the year for a percentage of .853. He is the team's third leading rebounder with 111 points to his credit.

Another player who sees a lot of action for the Miners is 6-3 sophomore Tony Toren, who saw action in 23 of the team's 25 games.

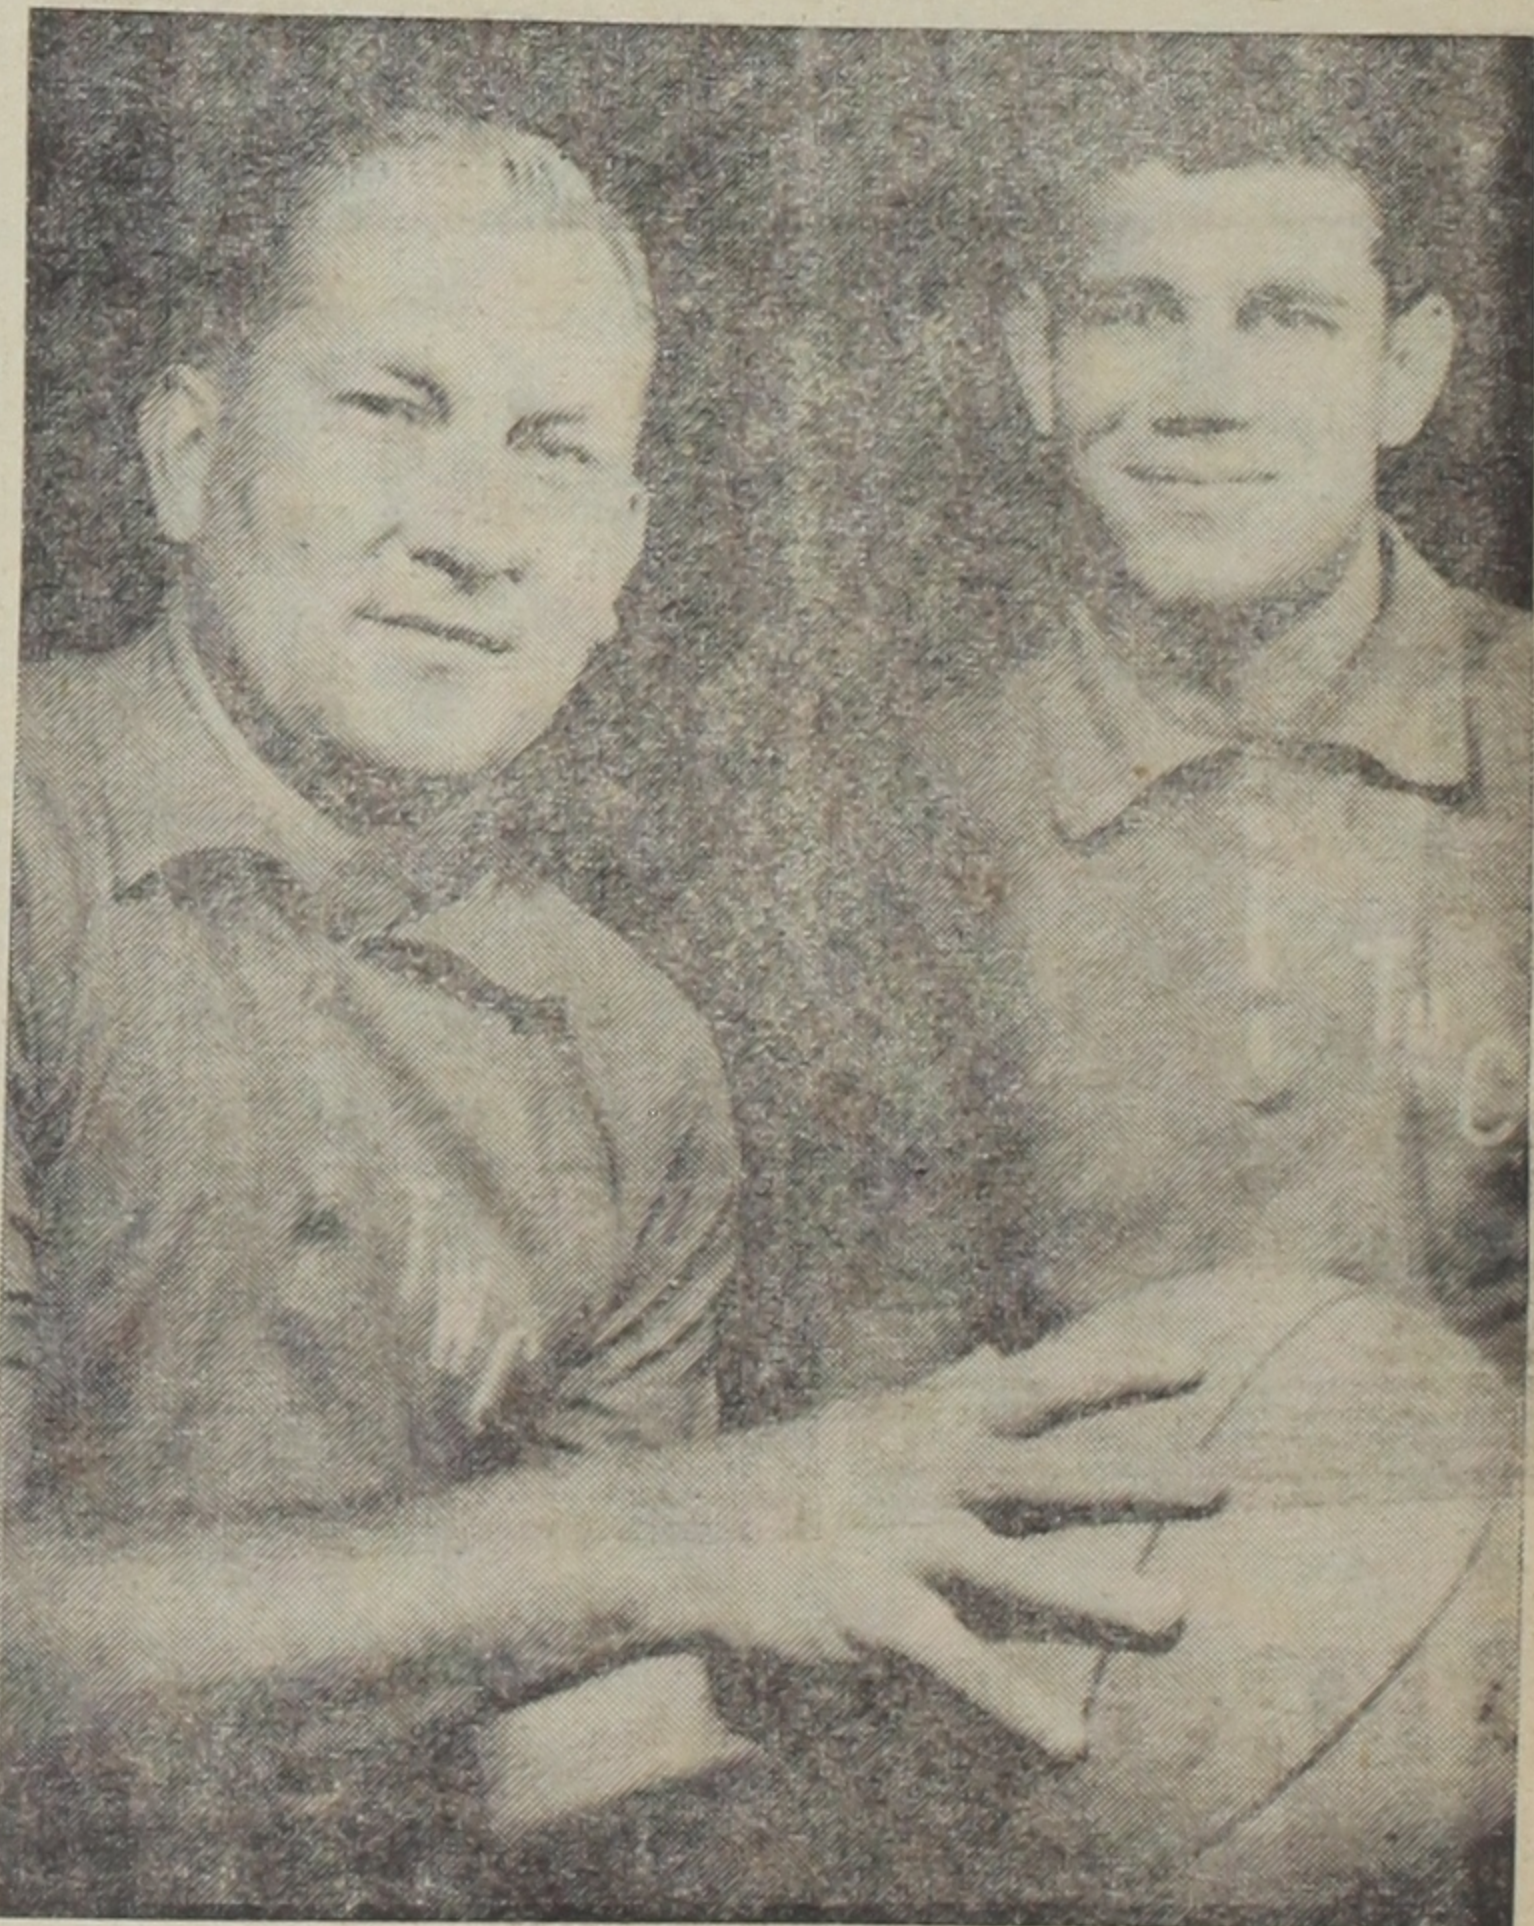

When TWC hits the floor today against the powerful Texas Longhorns, it will be one of the best offensive and defensive basketball shows possible.

WILLIE BROWN . . .  
. . . team spark plug

BOBBY LESLEY . . .  
. . . Miner floor general

MINER COACHES—Don Haskins, left, and his assistant, Moe Iba, directed Texas Western to the best record in the school's history—19-6. In two seasons at Texas Western he has compiled a 37-12 record. Iba, son of the famed Hank Iba at Oklahoma State, joined Haskins this year at TWC.
