## Tech Is Included In Nation Survey By Famous Dean

Rev. C. E. McAllister Is Tech Campus Guest

The Very Reverend Charles E. McAllister, Dean of the Cathedral of St. John the Evangelist, who has received a year's leave of absence to make a nationwide study and survey of state colleges and universities, will visit Tech campus today.

During the survey, under the sponsorship of the National Association of Governing Boards of State Universities and Allied Institutions, of which he is president, Dean McAllister will visit 85 colleges and universities, both private and state owned.

Among the problems which Dean McAllister will discuss during his visit here are:

Preservation of state control of state colleges and universities; protection of higher education from political influences; widening the scope of research opportunities; the promotion of cooperation between state colleges and universities and privately endowed institutions; establishment of adequate academic requirements; resistance to pressure groups which threaten interference with orderly conduct of state higher education; development of improved methods of presenting state educational needs to state legislatures; furnishing accurate information to congress with reference to legislation involving the welfare of state higher education; consideration of methods to strengthen the cultural and spiritual aspects of state colleges and universities.

Dean McAllister, a member of the board of regents of the State College of Washington, also serves on various regional and national boards of the Episcopal Church, active in civic work and is a prominent speaker both on the radio and on the public platform.

He holds two honorary degrees, Doctor of Letters from St. John's College in Annapolis, Maryland, and Doctor of Divinity from the University of Maryland. He is a graduate of St. Stephens College in Annandale, New York with a Bachelor of Divinity degree from General Theological Seminary and a Master of Arts degree from Columbia University, both in New York City.

McAllister

## Men Needed For Field Events

Success of Texas Tech's track team this spring will depend materially on more men reporting for field events, Coach Walker Nichols indicated this week.

"We have over 40 boys out for the team," Nichols said, "but we need some more candidates for the javelin throw, pole vault, shot put and discus throw. Any student who has any experience in these events or believes he could do well in them is urged to come out for the team."

The coach said practice will be held daily from 3 to 6 p. m., with ample practice time allowed for students with afternoon classes.

"Just a little over an hour a day will be required to get a track man into shape and to keep him in shape," Nichols commented.

Indications are, it was pointed out, that there will be a strong field at Tech in the quarter mile, especially, and that some good men are out for the sprints and distance events. Last year Tech took the mile relay and 100-yard dash championships of the Border conference and placed in other events.

"We all hope Tech will have one of the strongest teams this year," the coach said further. "This early in the season it looks like the Raiders will do well in some events. But a winning team must be a well-rounded one. We must have other candidates in field events to augment those already out. A lot of meets will be won over the country solely on ability of teams to pick up second, third and fourth places. We hope to have winners and also men who will come in to add those points down the line."

# Favorites To Be Re-Chosen

## Serious Sheepskin Shortage Studied

By WINIFRED LARABEE  
Toreador Staff Writer

Getting the well-known sheepskin is not so easy even when college work is completed, as the senior class discovered in its meeting Tuesday.

Just exactly what was discovered is not too clear, but this is the story:

S. T. Cummings, purchasing agent for Tech, told the class that sheepskin has not been available for several years so the diplomas

furnished to state schools by the State Board of Control are engraved on linen paper. Speaking in behalf of President Whyburn, Cummings said that Tech wants to provide diplomas that graduates can keep all their lives. A sufficient supply of smaller size sheepskins are available at the Star Engraving Company in Houston.

So far so good. The touching news was broken gently. If the graduates wait sheepskins, they must pay for them.

To put it mildly and discreetly, a heated discussion followed. Some students were happy to part with \$3.75 in order to get the best in the west; an 8 x 10 engraved sheepskin in a black, genuine calfskin folder was broken gently. The name of the college in gold-leaf lettering and the college seal would be on the folder.

Other students were willing, if not happy, to pay for their diplomas. But they insisted on having the free diploma from the State as well.

A third faction opposed paying for diplomas. They said such an action would go against the spirit, if not the letter, of the Pollard-Fee Bill passed by the legislature to prevent state schools from charging students for their diplomas.

Orville Alderson, president of the senior class, suggested that the question of leather-folders-with-sheepskin-diplomas should be decided immediately, and that the question of receiving two diplomas be postponed until the next class meeting.

A motion was made, seconded amended, and passed by an unanimous vote: Tech's graduates this year will buy their sheepskins.

At least one individual left the meeting muttering under his breath, "They'll have a hard time getting \$3.75 from me."

## IRC Members Plan Delegation For N. M. Conference

Activities of International Relations Clubs will be climaxed this semester by the attendance of Tech representatives to the annual New Mexico, West Texas State Teachers College conference, to be held at Silver City, New Mexico, March 28 and 29. S. M. Kennedy, Jr., sponsor of the club stated.

The speaker this year will be Prof. Conway Snyder of the department of physics, at California Institute of Technology. His address will be on "National and International Control of Atomic Energy." A series of papers will be presented, followed by round table discussion. Among the subjects to be discussed will be, "World Reconstructions," "International Relations of the Western Hemisphere," "American Diplomacy in Transition," "Status of International Organizations," and other topics of international concern.

Kennedy stated that the Tech delegation expects to take an active part in the conference. The International Relations Clubs were established as part of the Carnegie Endowment for International Peace. The endowment provides for speakers who are distinguished in their fields, to address the conference.

All persons interested in international affairs and club membership in the Tech International Relations club may contact Joe Gibson or Peggy Weiss, or attend the regular meeting next Monday night, February 10, room 210, Ad building, at 7:30 p. m.

## Ex-Students Organize Elect Officers For One Hundred Club

One Hundred Club, composed of ex-students of Texas Technological College, elected directors for the club at an organization meeting Friday, Jan. 31. There are 120 members in the club, and about 150 people attended the meeting.

## Home Economics Division Places Four Fall Grad

Four January graduates from the Division of Home Economics secured positions recently, says Dean Margaret Weeks. Among them are Billie Jo Bechtol, Nina Mae Ater, Betty Jo Crisler, and June Sayles.

## Engineering Show To Have Preview

Preview exhibits of the Engineering Show will be presented at the Engineering Society meeting Feb. 10, at 7:30 p. m. in the Engineering auditorium.

## Forum Will Discuss Need For Religion

"Why a Religion in Our Day and Time, Anyway?" will be the topic of discussion in the forums that will be held in the four dormitories and at St. John's Methodist Church on Thursday evening, Feb. 13.

## Whyburn Attends Chemurgic Council

President W. M. Whyburn will attend the Texas Chemurgic council meeting in San Antonio next week. He will preside over the Friday afternoon session, during the meeting of the section discussing Texas raw materials being studied in chemurgic research, such as cotton burrs, stalk.

## Atom Bomb Shows Decrease In Cost Tech Prof States

J. H. Rush, former student and instructor in the physics department of Texas Tech, figured prominently in the national news picture this week when he made a statement concerning the atom bomb.

## Varsity Directors Selected Tomorrow

Varsity Show directors will be selected tomorrow at 2 p. m. in Jone Hutchinson reading room, second floor of the journalism building, according to Jamie Trainer, general director of the show. Positions to be filled are dramatics, dance, and music directors; costume and set designers; make-up supervisor; stage, lighting, and program managers.

## Journalism Students Will Attend Fort Worth Convention In April

Fifteen Tech students of journalism and two faculty members will attend the Southwestern Journalism Congress which meets in Ft. Worth at Texas Christian University April 21 and 22. Representatives will be sent from all other schools belonging to this organization, and prominent men in the field of journalism will be present.

## Journalism Students Will Attend Fort Worth Convention In April

Meetings of this organization were discontinued during the war, and this is its first meeting since the war. Mr. Horne, head of the Department of Journalism, stated, "A very interesting program will be given each of the two nights for the delegates attending."

## Forum Will Discuss Need For Religion

"Why a Religion in Our Day and Time, Anyway?" will be the topic of discussion in the forums that will be held in the four dormitories and at St. John's Methodist Church on Thursday evening, Feb. 13.

## Whyburn Attends Chemurgic Council

President W. M. Whyburn will attend the Texas Chemurgic council meeting in San Antonio next week. He will preside over the Friday afternoon session, during the meeting of the section discussing Texas raw materials being studied in chemurgic research, such as cotton burrs, stalk.

## Whyburn Attends Chemurgic Council

The chemurgic council is actively supporting the Chemurgic Industrial Research Committee, composed of the presidents of Tech, Texas A&M, and Texas U.

## Whyburn Attends Chemurgic Council

The 49th State Legislature created the committee as a development of the cotton research committee and as recognition of the excellent work done by the cotton research group.

All members of APO are urged to attend the first regular meeting of the Spring semester Sunday afternoon at 2 in room 220 of the Ad building, says Harold Tunnel, president.

## Freshmen Reelect Annual Favorite At 5 p. m. Today

Freshman favorite will be elected today at 5 p. m. in the Aggie auditorium at freshman class meeting.

Nominees are Carolyn Baldwin, Mary Alice Christian, Norma Schuler, Beverly Holt, and Pattie McDonald.

Voting will be by secret preferential ballot. The meeting will be supervised by faculty sponsors of the freshman class, Sam Lefeste and Miss Mary Frances Hill.

Troy Davidson, president of the Student Council, and the Student Council Election committee, Alice Meading, editor, will represent La Ventana.

The freshman favorite election held in December was ruled illegal by Texas Tech Supreme Court last month, after complaints were made to the Election committee concerning the presence of three non-freshmen at that election.

## Berl Huffman Offered Position By Little, Coach At Columbia

Berl Huffman, assistant football coach and head basketball coach of Texas Tech, may be offered a job at Columbia university in New York, Lou Little, head coach of the

COACH HUFFMAN

## Atom Bomb Shows Decrease In Cost Tech Prof States

J. H. Rush, former student and instructor in the physics department of Texas Tech, figured prominently in the national news picture this week when he made a statement concerning the atom bomb.

## Varsity Directors Selected Tomorrow

Varsity Show directors will be selected tomorrow at 2 p. m. in Jone Hutchinson reading room, second floor of the journalism building, according to Jamie Trainer, general director of the show. Positions to be filled are dramatics, dance, and music directors; costume and set designers; make-up supervisor; stage, lighting, and program managers.

## Journalism Students Will Attend Fort Worth Convention In April

Representatives will be sent from all other schools belonging to this organization, and prominent men in the field of journalism will be present.

## Journalism Students Will Attend Fort Worth Convention In April

Meetings of this organization were discontinued during the war, and this is its first meeting since the war. Mr. Horne, head of the Department of Journalism, stated, "A very interesting program will be given each of the two nights for the delegates attending."

## Council Directs New Elections After Toreador Cites Illegality

Elections for all class favorites will be held a second time, as a result of the Toreador's editorial question:

"If any elections are held over, why not hold them all over according to regulations set down in the constitution?"

The Student Council Election committee Wednesday declared invalid the December elections of sophomore, junior and senior favorites.

## Barton Willingham Gets Agriculture Scholarship

Barton C. Willingham, senior student in Agronomy and Farm Machinery, was awarded the 1946 Borden Agriculture Scholarship for achieving in all college work preceding his senior year the highest average grade among students of agriculture completing two or more dairy subjects.

His name has just recently been placed on the Borden bronze plaque which hangs in the Agriculture building.

The award was offered for the first time in 1945 and was won by James A. Welch.

## Berl Huffman Offered Position By Little, Coach At Columbia

Berl Huffman, assistant football coach and head basketball coach of Texas Tech, may be offered a job at Columbia university in New York, Lou Little, head coach of the

eastern institution, has indicated. Little, one of the leading coaches of the nation, said at a recent meeting of the rules committee of the National Collegiate Athletic Association in Knoxville, he is interested in having Huffman with him, after receiving high recommendations of the Red Raider mentor.

Huffman today said he had received a telegram from Coach Little recently, asking if he would be interested in going to Columbia. He said the telegram came as a surprise to him and nothing definite has been worked out on the deal, Coach Little stating that he must take further steps at his school before making an offer.

Coach Huffman came to Tech in 1929 as a freshman football coach and head basketball coach. Previously he had served as head coach at White Deer high school and coach at Lubbock high school. For several years since he came to Tech, Huffman also was track coach.

He was in the Army from 1942 until December, 1945, serving as coach at Keeler field in 1943 and 1944 and as assistant coach of the Fort Worth Skylanders in 1945. His 1944 football team was undefeated and untied in its schedule and his 1944-45 basketball team won the Gulf Coast Service league championship.

## W. M. Whyburn Represents College At Convention

President W. M. Whyburn attended the American Council of Education meeting in Washington, D. C., two weeks ago. He represented Tech and the Mathematical Association of America.

President Whyburn said that the council considered four problems which the decisions will be announced later. The problems were: (1) Universal Military Training, (2) Federal Aid to Education, (3) U.N.E.S.C.O., (4) Cabinet position in the President's cabinet for a director of education.

## Varsity Directors Selected Tomorrow

Varsity Show directors will be selected tomorrow at 2 p. m. in Jone Hutchinson reading room, second floor of the journalism building, according to Jamie Trainer, general director of the show. Positions to be filled are dramatics, dance, and music directors; costume and set designers; make-up supervisor; stage, lighting, and program managers.

## Journalism Students Will Attend Fort Worth Convention In April

Fifteen Tech students of journalism and two faculty members will attend the Southwestern Journalism Congress which meets in Ft. Worth at Texas Christian University April 21 and 22. Representatives will be sent from all other schools belonging to this organization, and prominent men in the field of journalism will be present.

## Council Directs New Elections After Toreador Cites Illegality

Elections for all class favorites will be held a second time, as a result of the Toreador's editorial question:

"If any elections are held over, why not hold them all over according to regulations set down in the constitution?"

The Student Council Election committee Wednesday declared invalid the December elections of sophomore, junior and senior favorites.

Troy Davidson, president of the Student Council, said the question of re-holding all four elections would never have been mentioned but for a Toreador editorial criticizing the council's actions at the time the Supreme Court ruled on the freshman election. Davidson favored holding all favorites elections again.

Illegality of the elections was based on three constitutional provisions which were not fulfilled. The Election committee did not superintend the elections; did not secure one faculty member to supervise each election box; and failed to provide council members and a minimum of two faculty members to count votes. These duties of the Election committee are given in the Student Council Constitution, section 504, (a), (e), and (g).

Arrangements are being made to carry out all these provisions in the forthcoming elections, Panze Butler said.

The presence of three non-freshmen at the first freshman favorite election was reported to the Election committee, which then requested from the Supreme Court a decision as to the validity of that election. La Ventana asked that the first election be allowed to stand, as it was held under La Ventana authority.

The unanimous Supreme Court opinion, written by Associate Justice Amos Howard, ruled that the election was subject to regulation by the Election committee, and the court recommended that a second election be held. The court opinion stated that no one was accused of any illegal practices.

Whether the three non-freshmen in question actually voted in the election, or if so, for whom they voted, cannot be ascertained as those students are not in school this semester.

Since none of the favorites elections were supervised by the Election committee, the Toreador took the stand that all, or none, of the elections should be held again. Subsequently the Student Council decided to consider the validity of the sophomore, junior and senior elections. Davidson said this decision was within the scope of the Election committee and required no Supreme Court ruling.

The Election committee voted unanimously that second elections must be held for all favorites. Members of the committee are Panze Butler, Robert Baumgardner, Gene Hardy, J. C. Bartlett, Eugene Hopper and Frank Neal.

Nominees for class favorites are: Senior: Lotta Beas Baldwin, Bea Green, Lometa Hodge, and Jamie Trainer.

Junior: Loy Catherine Barnett, Pauline Lokey, Jean McGregory, Vera Maas, and June Stine.

Sophomore: Martha Harris, Mary Jane Hinchey, Joan Nidar, Mary Jane Stucker, and Jayne Thompson.

Freshman: Carolyn Baldwin, Mary Alice Christian, Norma Schuler, Beverly Holt, and Pattie McDonald.

Freshman election will be held this afternoon at 5 p. m. in Aggie auditorium. Other elections will be Monday at 5 p. m., sophomore in C101, junior in Ad220, and senior in Ad320.

## KAM Plans Show, Elects Officers

Plans for the presentation of a Spring Print Show sponsored by Kappa Alpha Mu, national honorary photography fraternity, were discussed at the Thursday meeting of the organization.

Jane Watson, photography instructor and sponsor of KAM, said that the members of the organization planned to attend the 50-Print National Collegiate Exhibition which is to be held at the University of Missouri during National Journalism Week, May 6-10.

Newly elected officers of Kappa Alpha Mu are: Mary King, president; Bob Williams, vice-president; and Billie Jean Burrell, secretary-treasurer.

"Life With Father," the Lindsay and Crouse play based on the book by the same name by Clarence Day, will be interpreted by Joe Burson, instructor in the Speech department Sunday, Feb. 16 at 5 p. m. in the Aggie Auditorium. This will be the first of a series of four reading hours to be presented this semester by Alpha Psi Omega, national honorary dramatics fraternity and are free of charge, according to Burson.

## SERIES PRESENTED BY APO

# Editorial . . .

## Negative Hours or Freedom

Have you ever wondered why you get 17 unexcused and unexplained cuts, the 18th one giving you a negative hour? Lots of students have, and so far as we can tell, the only answer, that the students know, is that students who don't go to class ought to be punished.

Surprise! We are now college students. And we should be treated as such.

This is merely to send out feelers, to see what the average student thinks on the subject. It seems to us, however, that when a student knows that he will miss something if he cuts a class, he won't. But the student who can pass a course without listening to a single lecture, or even half of them, should not receive a negative hour by cutting that class.

The University of Chicago does not count cuts. Perhaps they feel that students, who are interested enough or who derive anything from the lectures, will be there. Why must Tech be in the "horse and buggy days" when other schools have changed to motor vehicles?

Some professors will inevitably count off for lack of attendance. The student knows this, and if it is worth grade points for him to study or even play cards out of the class room during lecture, he need not get negative hours, too.

No doubt you have your own ideas on this subject, too. If you know how we can declare student independence at Tech along these lines, let us know.

## Why Not Baseball?

Why does Tech not have a baseball team? That is a very good question but one that the Toreador sports department is not prepared to answer, although we can think of innumerable reasons why there should be one.

There are enough qualified players enrolled in Tech to make up several baseball teams but as things stand it looks as if their talents will have to go begging.

There has been some mention of picking a team from the intra-mural teams on the campus to play several of the West Texas-New Mexico league teams. This sounds like a very commendable project but the question arises that if a team can be organized from an intra-mural program why can a team not be organized as a separate unit? It takes the same amount of equipment, the same weather and the same amount of players whether it be intra-mural or inter-collegiate. There are three baseball teams in Abilene and one at the University of Arizona as well as several of the teams in the WT-NM league in the vicinity to provide competition until such time as the rest of the schools in the Border conference should decide to follow our example and organize a border conference league.

We have several veteran players enrolled now who would show up well in any league. As an example we might mention Sam Mabica or Joe Forten of the Lamesa ball club. Mabica plays third base and Forten is an outfielder and one of the leagues leading hitters last year.

Not only would a good baseball team be of monetary and publicity value to the school but it would also provide recreation for a good many boys who will be unable to receive any otherwise.—B.K.S.

# TOUCHE

By VIRGIL MIERS

Seldom a day passes that we do not hear some Tech girl bemoaning the fact that she has too many restrictions placed on her social life while a student at this college. But after reading the rules for girls at other colleges, we cannot sympathize with our bewailing Techsians. And as evidence, we present the following quotations from the instructions for girls attending Abilene Christian college:

"6. Only one 'dinner date' permitted per week.  
"7. Lights are to be turned out in individual rooms at 3rd flash at 10:30 p. m. except on Saturday night by 11:00 p. m.  
"8. Girls may go to town twice per week to do shopping. More than this number of times must be only by special permission.  
"11. Daily inspection will be made of rooms. A penalty will be given for more than 2 inspections of unkept rooms per month.  
"13. Young ladies are not permitted to smoke while students at ACC.  
"15. Permission to receive calls from gentlemen not attending ACC is given by the hostess, only after special request (stating name and address of gentlemen caller) has been sent by parents or guardian direct to the hostess.  
"16. Before young ladies go on dates in cars, they should receive permission from the hostess. They are not to sit in cars after returning to campus.  
"21. Boarding students of ACC are not permitted to attend Sunday movies.  
"22. Young men and young women are not to be together for any social engagement from 2:00 to 4:00 p. m. daily."

Sticking Our Neck Out: Look in the near future for the return to the campus of the once infamous Alumni Club, the pre-war secret organization whose sole purpose was to run Tech politics.

Our spies tell us that one of the submitted varsity shop scripts was mighty mighty naughty, and that several faculty members were rather shocked at some of the dialogue.

The newly-inaugurated Texas governor might not be acquainted with this college as much as some would like to believe. During recent official correspondence, Mr. Jester referred to this college as "Lubbock Tech."

'Tis not generally known, and it will come as bad news to many, that President Whyburn is decidedly in favor of national fraternities and sororities on this campus. However, there are three important Tech officials that are agin' them. It will be interesting to watch the outcome.

# Letters To Editor . . .

Dear Editor:

Why isn't something done about the traffic situation on the campus? Practically everybody in Tech has had a narrow escape from being moved down while crossing one of the streets, and it isn't our idea of fun to have to leap for our life every time we go to class. And of course, the campus drivers don't enjoy the traffic snarls caused by so many cars trying to go the same way at the same time with no restriction on passing.  
Well, what could be done? Would traffic lights on the circle solve the

problem? Or maybe if there was some cooperation between the Lubbock City Police and the college, we could have a cop stationed at a strategic point to straighten out the mix-up of pedestrians and automobiles. At any rate, we need something to assure us a feeling that we may get to class in one piece.  
So far, we don't know of anyone being badly hurt yet, but there is always the possibility. So here's hoping that no student will be injured till something, anything, is done about Tech's dangerous traffic problem.

Sincerely,  
David Buckingham

## Fashion Artists Offered Tuition By Dept. Store

Neiman-Marcus of Dallas will offer an \$850 scholarship for a year's tuition at the Tobe-Coburn School for Fashion Careers in New York City. Stanley Marcus, executive vice president of the famous Dallas specialty store, announced Saturday.

The award to be made on the basis of written test topics and personal qualifications, is open to young women under 30, who have completed at least two years of college, and who are residents of Texas, Oklahoma, Louisiana, Arkansas, or New Mexico or who are enrolled in colleges in that area.

Applicants may secure contest rules, registration forms and information on the Tobe-Coburn School by calling in person at the Contest Booth on the store's second floor February 1, 7, and 8 or by writing to the Tobe-Coburn Scholarship Secretary, Neiman-Marcus, Dallas, 1, Texas. Contest forms are to be returned to the store by February 12, at which time test topics will be sent. Announcement of the winner will be made on April 15.

The scholarship will cover a year's tuition, the course beginning on August 27, 1947, with graduation May 26, 1948. The winner must be able to finance her living and incidental expenses for the year in New York City. Local judges selected by Neiman-Marcus will determine the six outstanding entries. Final selection will be made in New York by the Tobe-Coburn School.

The course is designed to train young women for careers in the fashion field—as stylists, fashion coordinators, buyers in retail stores, promotional representatives, personnel executives, display decorators, advertising copy writers, and account executives—under the direction of recognized professional and business leaders in fashion through classroom work supplemented by periods of full-time work in New York stores or on assigned projects.

## VET INSURANCE

Veterans who have allowed their GI insurance to lapse may reinstate their policies by making payments for the month in which the insurance was dropped and for the month of February. Regardless of the length of time since the insurance was dropped, only payment for two months is necessary, according to C. E. Gatlin, veterans coordinator.

So far, we don't know of anyone being badly hurt yet, but there is always the possibility. So here's hoping that no student will be injured till something, anything, is done about Tech's dangerous traffic problem.

Sincerely,  
David Buckingham

Dear Editor:

Recently I have heard some complaint about the manner in which the Texas Tech basketball team has been losing. There has been some criticism, in fact, a lot of criticism.

Could it be that the boys feel the students generally don't care whether they win or lose? More than twice as many students bought away books than there are seats. And yet, all the seats weren't filled up at any game up to the time this was written.

Furthermore, when the football team shoved off on a trip there was a send-off delegation, even a small band on hand, though the departure was early in the day and the breezes were chill.

But where has the support for the basketball team been? The Red Raiders have gone on four trips this season—but not a single student has been on hand to cheer them away. Not a single foot of a horn has been given, not a solitary cheer.

At the games up to this week not a cheer-leader has appeared, not a single drum or flute or brass has been around.

There has been a lot of griping around the campus this year. Maybe you might call this a gripe. But it would seem to us there can be no griping about the basketball team not winning when the student support has been so feeble.

Yours for cheer-leaders who work, O. U.

Dear Editor:

Recently I noticed eight students playing tennis on Tech's courts. Of the eight, six had on ordinary shoes. These soft tennis courts will last

## Toreador Staff Depleted By Five Resignations

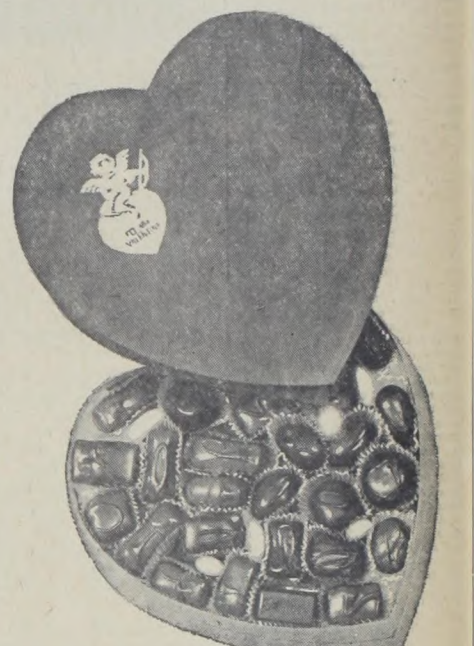

The Toreador is losing several of its staff members for the spring semester. Bea Green, editor announced Wednesday. Mary Troy, associate editor is resigning because she will be carrying twenty hour in order to graduate in June.

Sam Malone, Jr., the sports editor will be working for the Avalanche Journal and taking nine hours a Tech, which will leave no time for the Toreador.

Paul D. Bertholet, the former TWA reporter, graduated. Dori Reed Barnes will not be enrolling for the spring semester. Lotta Bes Baldwin has dropped her staff membership.

It is estimated that the Veterans' Memorial Loan Fund would have a capital of \$60,000 in 1960. If students of Tech start now donating books. Give a book and help a veteran's child get an education!

We know a girl who is so dumb she thinks South Bend is an exercise.

# HURRY! DON'T BE LATE

## The Know

By TWO WHO DO

Only last week, this column was calling itself "What's Buzzing, Cousins?" but the bee in the buzz was confused by some unthinking people with the BEA who is editor. And after all, BEA is a more human and can hardly stand so much. There was also some unfavorable discussion by some persons who were drunk on coffee and couldn't have known what they were saying about the use of the word "commentators." In the future, this stuff will be written, not by two commentators, but by two people who will merely snoop and comment.

Halls Of Learning: The whole Shakespeare class nodded approval Monday when RALPH EARHART who was sitting out in the hall penciled a big note which said, "Let's go!" All the girls nodded when he added "Snaking", but when he said "Tonight" everyone got back to Shakespeare. Everyone except CORLEEN CLARY. Well anyone, what did Shakespeare know about snaking? MARJORIE TISDALE is in love with her schedule. Pretty dull, but maybe because it doesn't conflict with Denzil.

The Story Tellers: DICK COPE.

LAND told the old, old story about the veterans to the Asbury Methodist Ladies Missionary Society. Amen . . . PANZY BUTLER and others smoked a peace pipe to the tune of no, no, it couldn't be true in the La Vent Office this week. Four yawns to the cub and his news item . . . DAN TARPLEY spoke to a small audience at Press Club Tuesday. The CHAPS had a rush function . . . EARLINE REID will take a bubble bath in the 1947 La Ventana. There are a few extra copies and the line forms at five aye.

Who's New: MICHAEL MALONE, eight pounds and a lot of ounces, belongs to SAM MALONE since Saturday.

Shouldn't-Happen-To-A-Dog Department: LARUE MALOUF will be happy if she never sees another cop. Seems she was waving like mad at one and driving down the street at the same time when there was this terrific noise, much confusion, and she had three cops on her hands. They didn't just come over to wave back.

# Tech Basketball Team Defeats H-SU Quintet

## Raiders Drop Two Border Conference Cage Encounters

The Texas Tech Red Raiders led by big Don Grove defeated the Hardin-Simmons Cowboys in the Tech gym Tuesday night 53-42.

The contest, marked by frequent fouling, and in some instances by questionable officiating, was close throughout most of the game. Only in the last 10 minutes were the Raiders able to pull away.

Don Grove was easily the stand-out performer of the night. He dropped in 16 points to lead both teams in scoring, besides controlling the rebounds off both baskets. Grove started under-the-goal shooting several under-the-goal shots but in the second half found the range. In addition to his point making play, Grove, who is only a sophomore, showed promise of developing into one of the cleverest centers in the loop in handling the ball on the pivot-post type play.

Gene Harvey with eight points, played one of his best games of the season as did Roland Nabors until he had to retire from the game with an injured ankle. Garland Head, held to one point the previous night at Canyon, got back into the loop scoring picture with 11 points.

Jack Martin, with 10 points, showed up well for the losers. His long set shots were accurate and his ball handling flawless.

A total of 48 personal fouls were called in addition to two technical fouls on Hardin-Simmons players for roughing the officials and objecting to a decision. Four players had to leave the game on personal fouls.

The box score:

Texas Tech (53)	FG	FT	PF	TP
Harvey, f	3	2	3	8
R. Williams, f	0	0	5	0
Grove, c	8	0	0	16
Nabors, g	3	1	0	7
Head, g	3	5	5	11
Banks, f	0	0	0	0
Churchill, f	0	0	0	0
Barton, g	1	4	5	6
Gibson, c	0	0	2	0
Bowles, f	0	4	0	4
Hawkins, f	0	1	0	1
Totals	18	17	20	53

Hardin-Simmons (42)

FG	FT	PF	TP	
Burroughs, f	1	1	3	3
Foster, f	4	1	4	9
Preston, c	3	2	4	8
Martin, g	3	4	3	10
Braselton, g	2	0	0	4
Pinson, f	0	1	2	1
Leffinwell, f	0	0	0	0
R. Williams, f	0	0	2	0
Burris, g	0	3	5	3
Scott, k	0	1	0	1
Harvey, g	1	1	1	3
Totals	14	14	24	42

Halftime score: Texas Tech 24, Hardin-Simmons 24.

**Two Defeats**

The Red Raider basketball team continued to lose ground in the Border conference race this week by dropping two hard-fought contests on the road to Hardin-Simmons 44-47 and to West Texas State Teachers college 36-41.

The Raiders got away to a good start in the Hardin-Simmons game, holding leads of 11-1 and 18-6 early in the game but faltered in the closing minutes despite three successive long shots by Garland Head. The Raiders led 39-38 with five minutes left to play.

Garland Head scored 17 points to reach the form he showed earlier in the season against Oklahoma A. & M. when he scored 19 points. Don Grove, making his first appearance at center for the Raiders this season, scored eight points.

In the West Texas State game as in the Hardin-Simmons game, the Raiders stayed in the thick of the fight until the final three minutes before the Buffs surged ahead.

Metz Lafollette 6 foot, 5 inch Buff center was a standout for the winners defensively and offensively, holding Garland Head to a single free throw while dropping through 11 points for scoring hon-

DON GROVES back with the Tech cagers after a term in the service. He's averaged 8 points per game since returning.

## Seven New Rules Listed For 1947 Football Season

Seven new changes in football rules will go into effect when players return to the gridiron next fall as a result of revisions made by the rules committee of the National Collegiate Athletic Council in a meeting at Kerrville, Texas Feb. 2.

The average fan will take little notice of these new changes which are designed to speed up the game as well as to make it safer for the players.

The major changes are the revision in the substitution rule which allows a team to send in a player while the ball is dead although time is still in, barring of the running shift by ruling that a shift play that resembles a running play will be penalized as a false start and the softening of shoulder and thigh pads, and helmets to cut down injuries.

Other changes include: (1) bringing the ball in one-third the width of the field after an out-of-bounds play (this will put the ball approximately 18 yards instead of the usual 15 yards in from the sideline), (2) on a blocked kick in a point after touchdown try the ball will be dead and cannot be run or passed, (3) on a disqualification foul the offending player will be removed from the game, but instead of a penalty of half the distance to the goal post a 15-yard penalty will be inflicted, (5) the rules governing illegal use of the hands and unnecessary roughness were clarified.

## NATIONAL CONVENTION

Work began today for the students of the University of Chicago and others over the nation who are drawing up plans for a gigantic national convention of college and university students to be held during the summer of 1947. Jim Smith, new President of the temporary committee for the summer convention and also President of the Students' Association of the University of Texas, predicted that at least 1500 delegates representing at least 800 campuses will attend the meeting, which will probably be held during the month of September.

Wayne University of Detroit and the University of Wisconsin have already offered their facilities, and other universities of the middle west region will be contacted in order to select the best possible location for the large gathering, Smith announced.

Tech students today can make the going a little easier for the students of the future... give a book to the Veterans Memorial Loan Fund.

# CPA Gives OK For Stadium Construction

## Material Shortage Causes Revisal Of Building Plans

Texas Technological college's application for construction of a \$250,000 football stadium was approved Monday by the Civilian Production Administration, Walter Camp, district CPA manager, announced.

The new structure, which will be located northwest of the present stadium, will have a permanent seating capacity of 15,000 and temporary stands can be erected in the north end zone to seat a total of 17,500 for the 1947 season if construction is completed on schedule in September. Building plans permit future enlargement to accommodate 45,000 persons.

The present stadium's west stands, part of which burned in 1944, and the playing field will be maintained for track and practice games. Wooden stands on the east and north will be razed and lumber obtained will be used as forms in construction, according to the agreement between CPA and Tech Foundation fund, applicant.

Cost of the stadium was reduced from \$300,000, the amount raised for construction, because plumbing and electrical wiring are unobtainable. Those materials will delay flooring and other minor installations, but seating capacity will not be affected.

The structure will be reinforced steel and concrete, and will thus require no critical building materials, according to Earl Collins, chairman of the stadium committee.

Collins announced that sealed bids for the construction addressed to Dr. Clifford B. Jones, chairman of the board of directors of the Tech Foundation fund and President Emeritus of Tech, will be received until 10 a. m. Feb. 26 in the Yaqui room of the Hilton hotel.

The new stadium grounds will provide parking facilities for more than 2,300 automobiles in addition to the present parking space south of the stadium.

## Beakley Announces Fencing Matches For March, April

An intramural fells fencing tournament, open to all students of Texas Tech, has been launched and will be continued until all matches are fought, George Beakley, fencing coach, announced this week. Beakley asked that all interested students get in touch with him at the athletic department.

The tournament was started after Baylor university had requested postponement of a scheduled intercollegiate match between Baylor and Tech here. Baylor officials pointed out examinations are in progress in Waco and it would be impossible for the team to come to Lubbock tomorrow, as planned.

The match will be held late in March or early in April. Beakley said Texas has agreed to send its fencing team to Tech for a match this month and details on a date are being worked out. He said efforts are also being made to obtain a match with New Mexico, but indications are they will not accept.

The Tech fencing team traveled to Austin and defeated the Baylor and Texas teams, in December.

## EXPERIENCE IS THE BEST TEACHER

# EXPERIENCE TAUGHT MILLIONS

the Differences in Cigarette Quality

... and now the demand for Camels—always great—is greater than ever in history.

DURING the war shortage of cigarettes... that's when your "T-Zone" was really working overtime.

And today more people are smoking Camels than ever before in history.

But, no matter how great the demand:

Camel quality is not to be tampered with. Only choice tobaccos, properly aged, and blended in the time-honored Camel way, are used in Camels.

Your "T-ZONE" will tell you... T FOR TASTE... T FOR THROAT... That's your proving ground for any cigarette. See if Camels don't suit your "T-ZONE" to a T.

NEWS ITEM, 1944 Cigarette shortage spreads... Counters jammed... Millions try different brands—any brand they can get.

According to a recent Nationwide survey:

# MORE DOCTORS SMOKE CAMELS

than any other cigarette

Doctors too smoke for pleasure. And when three independent research organizations asked 113,597 doctors—What cigarette do you smoke, Doctor?—the brand named most was Camel!

## Frat To Sponsor Annual Night Club

"Club Scarlet," a college night club sponsored by Theta Sigma Phi, a national honorary fraternity for women journalism students, will be March 7, in the basement of the Press Building at which time Tech's most handsome boy will be elected by applause. Letters will be sent to the various organizations of the campus explaining particulars of the contest.

"Club Scarlet" is an annual event and everyone on the campus is invited. Bea Green, president of Theta Sigma Phi, stated that a limited number of tickets will be sold and that two floor shows will be presented. Committees appointed by the president of this organization to work on the night club are as follows: program, Lometa Hodge and Bobby Childers; decorations, Calla Mae Deaton and Vera Maas; refreshments, Lotta Bess Baldwin; letters to the boy's organizations, Lucile Burns and Winifred Larabee; and tickets and publicity, Maureen Smith.

**VETERAN'S AFFAIRS**  
Disabled veterans, taking training under Part VII of Public Law, are reminded that they are to report to their training officers every two weeks in Room 109 of the Ad building.

A representative of the Contact office of the Veteran's Administration will be at Tech every Monday and Friday morning from 8 to 12 to help veterans with problems of insurance, pensions and other problems not directly related to training. Training problems will still be handled by the training officers located in room 109, Ad building.

## AAF Approves Weather Officer Training By ROTC

Army Air Forces has approved and established a program for training weather officers at civilian universities, according to Lt. Col. R. P. Riordan, assistant professor of military science and tactics. Former officers who are qualified for this training may request recall to active duty for the purpose of attending courses at the University of Chicago, Massachusetts Institute of Technology, New York University, and the University of California at Los Angeles. Quotas for the next summer and fall semesters are planned.

### Non-Credit High School Courses To Be Offered

Veterans or other students who have not met the requirements for courses that they should have had in high school are required to take these courses through extension, according to Mr. J. Homer Millikin, Director of the Division of Extension. Education 338 will be taught on the campus by Prof. J. T. Shaver and the same course will be taught at Morton with Dr. Doyle D. Jackson. A class in Secretarial Studies 131, known as "Elementary Short-hand" will be taught by Mrs. Ethel Terrel. Also offered this spring semester will be three pre-college courses in math.

Last semester nine pre-college classes in algebra and plane geometry were offered. "Every Teacher's Problem" (Education 338) was offered at Lamesa by Dr. L. E. Cooper and at Levelland by Dr. A. Barnett. Dean James G. Allen had one course in English 3316, Millikin says.

### CHANGE OF ADDRESS

James G. Allen, Dean of Men, requests that all students who have changed their address the second semester file their new address in his office immediately. The registrar's office will begin printing the spring student directory soon.

## Quiz Program Held Is Club Feature

"Stump the Experts" was the program presented to the members of the Texas Tech Accounting Society, Feb. 4 under the direction of the membership committee, composed of Marion Sprague, chairman, Billy Phillips, Max Schulze and Irene Kittley.

Haskell Taylor, assistant dean of the Division of Commerce, Reginald Rushing, associate professor of Accounting and Finance, and Bill Laine, student assistant, assumed the role of experts to be stumped by questions submitted from the members of the Society. Prizes were awarded to those whose questions stumped the accounting professors.

Rayford Moody, president, welcomed into the organization the following members: Doyce Barrett, Novella Beaver, Myrtle Brown, Norman Huff, Barbara Huyck, Irene Kittley, Bill Laine, William McCrary, Billy Phillips, H. V. Rice, Max Schulze, W. J. Thomas, Oran G. Wilson, Marion Sprague, Charles Bell, and Marion Land.

The newly re-organized Society is inaugurating an extensive membership campaign among accounting majors who are honor students. Membership is limited to advanced accounting majors with a "C" average in the college and a "B" average in accounting courses taken.

A woman's promise to be on time carries a lot of weight.

# TWVA Sponsors Fund

## Books Collected During Drive To Aid War Orphans

Under the plan of the newly-organized Veteran's Memorial Fund, veteran's children will be eligible to borrow as much as \$250 per semester while attending Tech. Children of veterans killed during the last war will be given preference.

The Fund, a non-profit corporation sponsored by the TWVA, has placed boxes for the collection of used books in all the main College buildings. These books will be sold through the Tech Bookstore and the money placed in the fund.

Donors of \$5 or more will become voting members of the Veteran's Memorial Fund; less than \$5 will make the donor an honorary member, according to Troy Davidson, member of the Board of Directors of the Fund.

Three TWVA members Floyd Reed, James Conely and Troy Davidson, and two ex-Techsans, Dub Rushing and Lucian Thomas, are members of the Board.

## Tolmachoff Talks To Liederkrantz

Prof. I. T. Tolmachoff, a native of Russia and a professor in the Geology department, was the guest of Liederkrantz, German departmental club, at its first meeting of the semester, Tuesday, Feb. 4. Prof. Tolmachoff discussed the celebration of Christmas in Russia, and enumerated several customs practiced at that season. Only the smaller, more remote communities still celebrate Christmas according to old traditions, but these old customs are being revised, says Tolmachoff. Tolmachoff also told several legends which are told and retold during the Christmas season.

Officers of Liederkrantz are Jackie Matthews, president, H. A. Mahle, vice president, Avanelle Moss, secretary, John Deberley, treasurer, and Richard Reiden, program manager. The next meeting of the club is scheduled for the first Tuesday in March according to Prof. Carl Henninger, co-sponsor of the club with Ted Alexander, instructor in the Department of Foreign Language.

## Press Club Hears KSEL News Editor

Dan Tarpley, radio station KSEL news editor, discussed preparation of news programs from wire services at Press club meeting Tuesday. Tarpley, former Lubbock Journal wire editor, also explained difference in news sent by press services to newspapers and radio stations.

## Money Reported Stolen From March Of Dimes

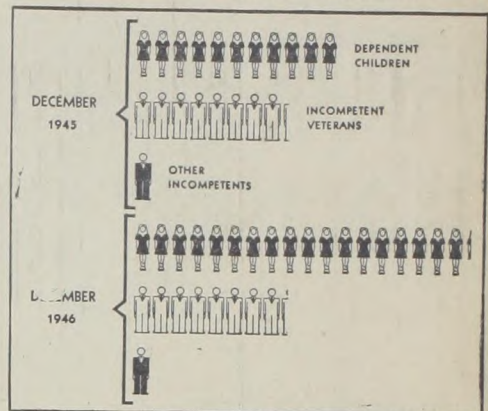

Theft of four March of Dimes collection boxes from the campus and College Avenue was reported by Darwood D. Malton who was in charge of the city-wide March of Dimes campaign. Boxes were stolen from the administration and engineering buildings, and from the Co-op and Tech drugs.

Collections totaled \$110.24 from 25 boxes distributed by Beta Sigma chapter of Alpha Phi Omega, according to Pat Garrett who was in charge of APO's first project of the spring semester.

First regular meeting of APO will be held Sunday at 2 p. m. in Ad 220.

**THOMPSON'S Barber and Beauty Shop**  
1113 College Ph. 2-1561

## MORE DEPENDENT CHILDREN ARE BECOMING WARDS OF THE VETERANS ADMINISTRATION

The number of dependent children that are becoming wards of the Veterans Administration has shown a steady increase during 1946. This total jumped from 55,296 in December, 1945, to 90,716 in December, 1946. During the same time the number of incompetent veterans increased only from 41,022 to 41,806, and the number of other incompetents from 4,656 to 5,206.

We've never been able to understand how it happened that a bunch of married men wrote the Declaration of Independence. As we grow older we discover that good manners and soft words will solve many a difficult situation.
