No. 53

Workshop Begins Tomorrow

Solution of prepared case studies and their application to Tech problems will be the highlight of the Panhellenic Workshop tomorrow in the Union Ballroom from 10 a.m. until 3:30 p.m.

Between 80 and 90 sorority officers for 1956-57 are expected to take part in the annual Tech Panhellenic Association's event, which will include a luncheon and discussion groups.

The opening address will be given by Mrs. E. Richard Heine-man, City Panhellenic president, who will discuss alumnae and sorority problems and activities.

After lunch, the delegates will divide into discussion groups according to chapter positions, which include presidents, pledge trainers, scholarship chairmen, social chairmen, senior and junior Panhellenic delegates, chapter alumna advisors, and alumnae counselors for fall rush. Each group will be presented particular problems prepared in advance and will discuss possible solutions, as well as problems occurring in Tech chapters.

Miss Jacqueline Sterner, assistant dean of women, is Panhellenic advisor. Assisting her with arrangements for the workshop are: Julia Reed, Pi Beta Phi, chairman of workshop committee; Ruth Ann Cummings, Zeta Tau Alpha, program; Jackie Brooks, Delta Gamma, arrangements; Dana MacNaughton, Alpha Chi Omega, luncheon; and Joan Knight, Gamma Phi Beta, publicity.

Riley Is Chairman Of Cancer Crusade

Ray Joe Riley, agriculture senior, has been named chairman and coordinator of the Tech Student Cancer Crusade to be conducted on campus this week. Monday at 5 p.m. has been set as deadline for reports from the organizations participating in the campaign, according to Prof. Ted Alexander of the foreign languages department. Professor Alexander is in charge of the faculty campaign.

Forty representatives of student organizations met for the formation of the Tech campaign last Thursday. The organization are planning their own programs.

"This is the first major college or university in Texas to launch a cancer drive on a campus-wide basis," Riley said.

Film strips, posters and other publicity can be obtained by contacting Riley in the Student Council office.

Alpha Chi Omega Returns From Cloudcroft Retreat

Alpha Chi Omega members and pledges held a retreat at Cloudcroft, N.M., recently to plan the activities for the coming year.

Sponsors who accompanied the group were Miss Jackie Sterner, Assistant Dean of Women, and Miss Annah Jo Pendleton, faculty sponsor.

THIS 'SWEET' EXPRESSION won first place for Burl Hubbard in the faculty division of the WUS sponsored baby contest recently. Hubbard is an assistant professor of Business management. The votes, which cost one cent each, were cast in the Union.

AWS Honor Nominees Named

Nine Tech coeds have been nominated for AWS Woman of the Year. They are Ann Collins, Norma Chapman, Betty McGeehee, Virginia Carr, Huda Hassen, Josephine Garcia, Gayle Hays, Sandra Shook, and Nancy Lawlis. Voting will take place all day Tuesday.

The identity of the Woman of the Year will be revealed at the Women's Day Banquet Tuesday night, at 6 p.m. in the Union Ballroom. The banquet will climax Annual Women's Day, the day that all Tech women wear white.

Miss Jacqueline Sterner, assistant dean of women, will be the guest speaker for the banquet. The subject of her speech will be "Think On These Things."

Miss Sterner, who is a native of Fort Wayne, Indiana, holds an A.B. degree in speech, and a Master of Science in Student Personnel from Indiana University.

While in college, Miss Sterner belonged to the Student Senate, Mortar Board, AWS Council, Varsity Debate, and was president of the Panhellenic Council.

After graduation, she was on the staff of Dean of Women as a counselor in the dormitories at Ohio State University. Before coming to Tech last year, Miss Sterner served two years as executive secretary of the Intercollegiate Association of Women Students.

Banquet tickets are \$1.50 and

may be purchased from any AWS Council member. Approximately 600 girls attended the affair last spring.

New members of women's hon-

Jefferson Named Campus Ugly Man

Joe M. Jefferson, junior B. A. major of Lubbock, according to the majority of \$100 worth of votes, is "Ugliest Man on the Campus" for 1956.

Jefferson, sponsored by Sigma Chi was honored last night during an all-star softball game at Tech's softball diamond. Runners-up in the penny-a-vote contest were Bob Bachman, Throckmorton, representing Alpha Tau Omega, second; and Charlie Fleming, Baytown, Kappa Sigma, third.

The actual contest is sponsored by Alpha Phi Omega, national service fraternity, which announced that proceeds of the contest will be added to the \$280 collected last year to finance the building of bleachers for the lighted softball diamond.

Other contestants and their sponsoring organizations were Mike Joplin, Delta Gamma; Jimmie Nelson, Alpha Epsilon; and Wick Alexander, Drane Hall.

Jefferson will receive a drinking mug as a "consolation" prize, and his fraternity will be awarded a trophy.

ANNUAL TRACTOR CONTEST BEGINS HERE

The annual Future Farmers of America tractor operators contest for Lubbock County began here today at 1 p.m., according to Ira Williams, Tech agricultural engineering department head.

The meet includes three main

phases; oral explanation of tractor servicing, explanation of gauges and demonstration of safe and correct tractor operation, including implements hitching and adjusting a plow and demonstrating it in the field.

The Matador Song rang from the Administration Building tower this morning announcing the tapping of 16 girls for Forum, senior women's honorary organization.

The girls, were tapped as a procession of Forum members filed to the class of each girl elected and placed the symbolic black collar around her neck. Then, each new member elect joined the processional.

The 16 girls named for membership are: Frances Allison, Home Economics major, Carthage; Sandra Casstevens, pre-med, Brownfield; Robie Dale Davis, Business Administration, Kilgore; Sylvia Dietering, English, Lubbock; Juanita Haseloff, Business Administration, Vernon; Joanne Holmes, Business Administration, Lubbock.

Lu Anne McNeil, elementary education, Lubbock; Mary Randal, home economics, Lubbock; Kay Robinson, home economics, Plainview; Edwina Schovajsa, home economics, Littlefield; Barbara Smith, home economics, Lubbock; Kathleen Veazey, music, Lubbock; Alice Wells, elementary education, Fort Worth; Marian Jo Wilson, home economics, Hereford; Mariana Wilson, physical education, Coleman; and Beverly Wood, home economics, Spur.

The installation ceremony will be held Sunday morning at a breakfast in the Caprock Hotel, after which the group will attend the First Methodist Church services.

Forum is the Tech equivalent of Mortar Board, national honor society, and membership is considered the highest honor that can be given women students, according to Forum Vice President Marilyn Sneath.

The girls will wear the symbolic black color, black skirt, and white blouse to all their Saturday classes.

Pins will be given to each new member at the AWS Women's Day banquet Tuesday.

Greek War Orphan 'Adopted' by ZTA

The 65 members of Zeta Tau Alpha have recently "adopted" Helen Prodrinou, a 12-year old Greek orphan.

Helen was "adopted" through the Foster Parents Plan for War Children. Through the adoption, which becomes effective immediately, the group will furnish Helen with a monthly cash grant of \$9.00 plus food and clothing. In addition she will receive a 100 per cent wool blanket.

The girl is one of four members of a Greek family — widowed and orphaned by a Bulgarian Communist massacre — who live on 585 drachmae (\$19.50) per month.

Before the second World War, Helen's father supported his family "quite comfortably" serving as a priest and as a field worker cultivating his mother's land.

He was killed as he and his family were returning to Greece after the German occupation ended.

Personal contact between the members of the Zeta chapter and the girl will be established in the next weeks. Plans now call for a number of additional personal gifts from the members of the group.

Miss Kay Hauge, junior arts and sciences student from San Antonio, is chairman of the service committee which made the arrangements and contacts prior to the adoption.

ELECTION OF THREE COMPLETES COUNCIL

With the election Wednesday of three more representatives, the 1956-57 Student Council has been completed.

Mary Ellen Carr and Joan Knight were named as the final two representatives from the Arts and Sciences Division as they defeated Dan Law, Wayne James and Dan Creson. Jim Cloyd, winner over Richard Ligon will be an Agriculture Division representative.

The new council will officially take office at the annual Student Council banquet scheduled for the first part of May.

IEE Representative To Speak Here

Mrs. Alice Reynolds Pratt of Houston, assistant director of the Institute of International Education's Southwest Office, will visit Tech and Lubbock today and tomorrow.

First event on her schedule will be a conference with the Lubbock Chamber of Commerce foreign visitors committee and others at 3 p.m. Friday in the Chamber of Commerce building.

She will be honored with an informal coffee by Tech's Cosmopolitan Club, international student's organization, at 7 p.m. Friday in the home of Dr. and Mrs. William E. Hall, 2501 19th Street.

Mrs. Pratt will deliver the principal address at the Cosmopolitan Club's Second International Dinner, scheduled at 7 p.m. Saturday in the First Christian Church fellowship hall.

The dinner will feature native dishes from the Middle East, Eu-

rope and Asia prepared by Tech students from those areas.

Mrs. Pratt is an authority on campus and community programs for international students. She visits colleges and universities in Texas, Oklahoma, Louisiana and Arkansas for conferences on those subjects.

The Institute, which she represents, currently is an informational and service agency for more than 4,000 students, teachers, and technicians who are studying in countries other than their own.

A University of Oklahoma graduate, she was a newspaper reporter and specialist in advertising and public relations before joining the Institute in 1952.

She is a member of Theta Sigma Phi, women's honorary journalistic fraternity, College Women's Club, League of Women Voters, and the advisory board of the United Nations Council of Houston.

And the File's Clean . . .

With only one more Friday editorial after this, we cleared out the file marked "Editorial Subjects" and found a multitude of things on which we had meant to write but which were pushed aside in favor of something else more current or apropos.

So, in order to get at least some of them in this year, we're going to depart a bit from tradition and lump a few into one editorial.

CUTS—It seems to us that if a college level student isn't mature enough to realize how much he or she can cut, it's pretty well time to start learning. We've never been able to see why a student with a 90 average and 10 cuts should receive any less grade than a student with a 90 average and no cuts.

To put it another way—if we're not old enough to know how many cuts we can or should take and still keep our grades up, we're certainly old enough to start finding out.

* * *

Another thing about which we've wondered for the past few registration sessions is why the instructor's name isn't put on the schedules. We think it would serve two purposes. First, it would usually permit the student to get a teacher which he would enjoy and consequently under which he would probably learn more. Second, it would give the higher-ups in the administration a pretty good indication which of the instructors were getting through to the students.

* * *

Another thing about which we wondered is the validity of the current AWS's point system. If a girl is good enough to hold a large number of positions, why not let her hold them? Why arbitrarily lower the level of leadership in order to "pass around" some of the top spots? It's really not fair to the girls who get a position because the better qualified girl couldn't run. She won't find it that way on the "outside."

* * *

And the cheating situation . . . The way some tests are given and the extremely elaborate devices concocted to prevent cheating on them may have an opposite effect on the students. It presents a real challenge, a temptation just to see if one can get by with it.

Most students respond pretty much to what is expected of them, and when the prof expects them to cheat, well . . .

* * *

Ah, and the Southwest Conference. If we don't make it this time, maybe we shouldn't feel too badly. Just look at Hawaii. They were refused statehood, and they've got hula girls . . .

* * *

And finally segregation or desegregation. No matter which side we're on, let's try a little more light, and a little less heat. Might help.

Bob Rooker

Baptists Tops in Number . . .

Baptists form more than one-third of Tech's student body, according to figures recently released by the Office of the Registrar. Total number of Baptists is 2,723. Methodists rank second with 2,018, and Church of Christ third with 744.

Of the 7,922 students enrolled for the 1955-56 long session, Presbyterians ranked fourth with 530. Other of the 26 denominations represented include: Christian, 347; Catholic, 288; Episcopal, 195; Lutheran, 96; Assembly of God, 43; Christian Science, 39; Nazarene, 30; Hebrew, 15; Unitarian, 11; Latter Day Saints, 10.

TOREADOR

The Toreador, student newspaper of Texas Technological College, is published each Tuesday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising, and subscriptions.

LITTLE MAN ON CAMPUS by Dick Bibler

Tech Has 3000 'Long distance' Students

In addition to Tech's approximate 6,500 regularly enrolled students, over 3,000 are enrolled in correspondence courses, according to J. H. Millikin, director of the division of extension.

A relatively small number of those taking correspondence courses are Tech students. During 1954-55, a total of 4,503 people enrolled in correspondence courses and Millikin expects the 1956 total to surpass that because all monthly enrollments are increasing. Last year 375.3 was the average number to enroll per month. During May, June and July the largest numbers enroll.

The college offers approximately 250 courses for correspondence study. Courses taken by correspondence may be used for credit toward degrees or teaching certificates, as well as improving one's general knowledge. Only 18 hours of the work required for a bachelor's degree and one-half of the work required for a teacher's certificate may be completed by correspondence study.

The course that is most in demand to be taken by correspondence is Government 233, a state requirement for all college students. Education and math are the next most sought after courses.

One of the most regular customers for the extension division is an American girl who lives in Viet Niam, Sigon, and has been completing her high school work for the past two years, all by correspondence study from Tech.

The largest number of correspondence enrollments from a foreign country come from Mexico City, explained Millikin.

Just recently Tech has begun offering correspondence courses for the military personnel of the Armed Forces. There are 20 to 25 men a month who have enrolled in courses, said Millikin. Interestingly enough 90 per cent of these enrollments are from training bases all over the U. S. and very few are from Reese Air Force Base located in Lubbock. Most of those from Reese who do take correspondence study are Tech graduates. These correspondence courses are conducted in the same way as for regular college students except that the rates are cheaper and the government pays for each lesson.

Publications Heads Named . . .

Editors and business managers for the 1957 La Ventana and Toreador were selected Wednesday at a meeting of the Publications Committee. The position of editor for each publication was unopposed.

Barbara Pearce was named editor of the La Ventana, and Helene Edwards was chosen business manager for the yearbook. Ross Short will be editor of the Toreador, and the business manager is Bill Morrow.

Each applicant was questioned before the committee made their selections. Only student members on the Publications Committee had a vote in the final decision.

Both Miss Pearce and Miss Edwards are juniors from Amarillo, majoring in English and minoring in journalism.

Short, a junior journalism major from Post, served as business manager for the Toreador the past year. Morrow is a sophomore from Dallas majoring in advertising.

COLLEGE GRAPEVINE . . .

Simple Subtraction Gets The Solution

By CLAYNELLE ROOKER

Ames, Iowa — (ACP)— There aren't as many people actually working as you may have thought. At least, not according to this survey included in the Iowa State Daily:

"The population of the country is 160 million, but there are 62 million over 60 years of age, leaving 98 million to do the work. People under 21 total 54 million which leaves 44 million to do the work.

Then there are 21 million who are employed by the Government and that leaves 23 million to do the work. Ten million are in the armed forces, leaving 13 million to do the work. Deduct 12,800,000, the number in state and city offices, and that leaves 200 thousand to do the work. There are 125 thousand in hospitals, insane asylums and so forth and that leaves 74 thousand people to do the work. But 62 thousand of those are bums or others who will not work, so that leaves 12 thousand to do the work.

Now it may interest you to know that there are 11,998 people in jail, so that just leaves just two people to do all the work. And that is you and me, brother, and I'm getting tired doing everything by myself.

SO LET'S GET WITH IT!"

In a letter to the editor of The Daily Texan, University of Texas, a student suggested that "something drastic should be done toward removing the 'Keep Off the Grass' signs which abound on our campus."

Continuing, he said the signs were "a menace" to the students because hardly a day goes by that someone doesn't "trip over one of these deathtraps so cleverly hidden in the grass."

If you have, or know where you can get live bedbugs, you may earn for yourself an automatic "A" for one quiz in medical entomology class. . . . if you happen to be attending the University of Oklahoma. Dr. C. E. Hopla, assistant professor of zoology, needs the bugs to study the causes of diseases and the reactions of animals exposed to the insects.

Dr. Hopla reports that with the advent of DDT and other bug-destroying chemicals, bedbugs have become increasingly fewer and farther between. Had you noticed?

This story which took place in Utah popped up in the pages of the Washington State College Daily Evergreen.

"If you found two tombstones on your lawn, you'd probably conclude pranksters had hauled them from a nearby cemetery . . . right?"

That's what a Provo, Utah, resident thought and so did the local police. But they were wrong. They checked and the sexton of the cemetery said no tombstones were missing.

Painstaking investigation finally disclosed that a group of students had needed more weight in their truck "for a trip through deep snow." They borrowed the tombstones from a relative's monument firm, but more friends showed up for the ski trip than anticipated. The result . . . too much weight. So over-board went the tombstones — on the neighbor's lawn."

And finally, there's the Macal-ester student who took a baby-sitting job for three dollars and wound up with an extra 70 bucks. Seems that while she was taking care of the youngster, a television quiz master called the house and she was able to answer the question.

Students To Get Writing Experience

Eleven Tech journalism students will spend the summer months gaining actual experience in newspaper writing and related fields, according to an announcement made today by Dr. William E. Hall, head of the department.

Three of the journalists are to participate in the summer internship program of the Texas Daily Newspaper Association, for which 20 news and advertising students from major colleges and universities in the state are selected yearly.

Ross Short, Post junior, will work for the Wichita Falls Publishing Co.; Helene Edwards, Amarillo senior, is to report to the Amarillo Globe-News Publishing Co.; and Cathie Dickinson, La-Marque senior, will be employed by the Snyder Daily News. They represent the largest number of students ever sent out from Tech at one time under TDNA sponsorship.

Summer jobs have also been arranged for Nita Hedleston, Big Spring freshman, with the Big Spring Herald; and Joan Abel, Lubbock freshman, who will work with several West Texas weeklies. Miss Abel will begin her internship June 1 with the Gaines County News at Seagraves. Paul Foraker,

Kermit junior, is to work for a radio station in his home town.

Bill Lambert, Hobbs, N.M., freshman, Dan Perkes, Lubbock junior, LaDoyce Lambert, Abernathy senior, Kenneth Bennett, Neely, San Saba junior, will continue employment with the Lubbock Avalanche-Journal during the summer.

Several other part-time summer jobs are being contemplated, ac-

ording to Dr. Hall, but arrangements are not yet complete.

Graduating seniors Bob Rooker, Toreador editor, and Alton Slagle, Toreador managing editor, have also accepted positions. Dr. Hall revealed. Rooker is to report for work May 29 with the Associated Press in Albuquerque, N.M. Slagle will spend his second summer on the staff of the Amarillo Globe-Times.

'The Harbinger' Available Tuesday

The Harbinger, Tech's first literary magazine, is due to go on sale in the Union Tuesday, according to Kenneth W. Davis, sponsor of Sigma Tau Delta, honorary English society which is preparing the publication. The price has been set at 35 cents.

Featured in the 65-page mimeographed magazine will be short stories, poems and plays written by students from practically every division, Davis said. Also included will be winning articles in the 1956 Sigma Tau Delta creative writing contest. Prize-winners in that event were: short story, Ronald Wetherington, first; Dick Moore, second; and Alvin Gregg, honorable mention; one-act play—Moore, Wetherington and Gregg; poetry—Jean Cox Archer, Don Jacobs. Gregg and Mrs. Archer tied for honorable mention.

The printed magazine cover will be plain, with the title appearing

in black on a white background. The Harbinger was selected as a title, Davis explained, because the word "indicates a promise of better things to come. That's what we hope for the magazine."

Arrangements are being directed by a Sigma Tau Delta publications committee consisting of Gregg, Herbert Sitz, Cynthia Loveless, Larry Cook and Jo Ann Addison.

VICEROYS are Smoother

Here is the reason: Only VICEROY has 20,000 filters in every tip—twice as many filters as the other two largest-selling filter brands—to give that smoother taste—that VICEROY taste!

VICEROYS are Smoother than any other cigarette. Because Viceroy's have twice as many filters as the other two leading filter brands!

THE MOST FILTERS FOR THE SMOOTHEST TASTE

The exclusive Viceroy filter is made from pure cellulose—soft, snow-white, natural!

Museum Shows 3 Art Collections

Three art collections are currently on exhibit in the Museum. They are: Latin American Prints, The Fifth Annual South Plains Art Guild Members' Show and the Texas Fine Arts Preliminary Exhibition, according to Miss Dorothy Rylander, secretary of The Museum.

The collection of Latin American Prints is being shown by the International Business Machines Corporation in the Rotunda Gallery. It contains 38 prints from 16 South and Central American countries.

The South Plains Art Guild Show contains approximately 150 entries from members of the Guild and regional artists representing a 30-county area.

The Texas Fine Arts Preliminary Exhibition contains the paintings of the South Plains Art Guild group which won prizes in the regional contest. These paintings will be sent to Austin and judged in the Texas Fine Arts Show, June 15-Aug. 15. The winning art of that competition will be chosen for statewide circuit by the Texas Fine Arts Assn.

Both the South Plains and Texas Fine Arts exhibits are in the Art Gallery.

Slagle Is Named 'Aggie of Year'

Alton H. Slagle, agricultural economics major from Lubbock, was named "Aggie of the Year" Tuesday night at the Aggie Club's annual spring barbecue at the K. N. Clapp Party House.

Slagle was presented a certificate and scroll by W. L. Stangel, dean of agriculture.

An engraved gavel was presented to Jimmy Dean Smith, fall president of the club by current President Weyland Mullins.

Mullins made a welcoming address to some 100 agricultural students and faculty.

Two Cancer Films Scheduled Today

Two cancer films will be shown to Tech faculty members at 4 p.m. today in Room 262 of the Home Economics building as part of Tech's annual cancer drive.

Dr. W. R. Cashion, Lubbock x-

ray and radium specialist, will be present to answer any questions about cancer that the two films might raise, according to Miss Mary Gerlach, assistant professor of clothing and textiles, who is handling arrangements.

Newman's Dance Open To Techsans

Tomorrow night's the night for the Texas Tech Newman Club's annual "Spring Dance."

Open to everyone on the campus, the semi-formal dance will be held at 8:30 p.m. in the Lubbock Hotel Ballroom. Furnishing music will be the "Personalities."

Tickets, priced at \$1.60 per couple, may be purchased from Charles Johnson in Gordon Hall. They will also be on sale at the door.

ALPHA EPSILON DELTA INITIATES 5 MEMBERS

Five new members who were recently initiated into Alpha Epsilon Delta, national honorary pre-medical fraternity are: Fred Barrett, Lewis Baxter, Philip Duvall, Bill Jones and George Marcom.

Officers elected following the initiation ceremony are: Don Elliott, president; Joe McIlhane, vice-president and program chairman; Philip Duvall, secretary; Bob Laughlin, treasurer; Smith Sobill, historian; and Ted Trippe, editor and Scapel reporter.

Don Riggs Awarded Scholarship Key

Don Riggs, Delta Sigma Pi graduating senior with the highest grade-point average for the last three years, was presented the award of the Scholarship Key at the annual fraternity Honor and Recognition Service luncheon held yesterday in the Union Ballroom.

The presentation of the key which is given annually to all colleges and universities by the Central Office of Delta Sigma Pi, was made by President E. N. Jones. Approximately 60 guests witnessed the ceremony.

Recognized at the luncheon were the members of the Advisory Committee of the local chapter of Delta Sigma Pi. Outstanding students on the campus introduced by Joe Heifner, local insurance business man, were Glen Cary, president of the Student Associa-

tion; Ronnie Clark, BSO president; Jim Ethridge and John Hutchins, BA representatives to the Student Association; and Jack Pruitt, director of the Varsity Show.

Petitions Are Made For Phi Alpha Beta

Petitions are being made, according to Dr. David Martell Vigness, assistant professor of history, for a Tech chapter of Phi Alpha Beta, honorary organization whose purpose is to recognize scholarship in the field of history.

Dr. Vigness, who is sponsor, says undergraduate students must have completed at least 12 semester hours of history, and graduate students one-third of the requirement for their master's degrees. Minimum grade-point averages are 2.00 in history with an overall average of 1.5.

There is a "lot of interest" being shown concerning the organization, Dr. Vigness states. It is hoped, he says, that the chapter can be begun by fall. There is no limit on the number of members who may be admitted.

Organizations Plan Picnic At Buffalo Lakes Sunday

The Phi Gamma Nu and Delta Sigma Pi annual picnic is slated for Sunday at Buffalo Lakes. The group will leave the Administration Building parking lot at 2 p.m. Sunday.

Games, boatrides, and other types of amusement will be under the direction of Fred Schmidt. A picnic lunch will be served after the games are concluded.

Kappa Kappa Psi 'Stork Club' Dance On Tap Tomorrow

The 9th annual club finale-dance, with the theme of "Stork Club," will climax social events for Tech's chapter of Kappa Kappa Psi, honorary band fraternity, at 8 o'clock tomorrow night in the choir room of the music building.

The dance is the oldest traditional dance on the campus, according to social chairman for the fraternity, Ken Briden. The room will be decorated to simulate the actual Stork Club in New York City, with low ceiling and pictures of storks on the walls and curtains.

The program will be provided by the fraternity's pledges, with assistance from the band sorority pledges, Tau Beta Sigma. The program will be in three parts, each about 10 minutes.

Article By Prof. Elliott In April 'Musical Journal'

An article by Prof. Raymond P. Elliott entitled, "The History of Music Is the History of Education," is appearing in the April issue of "Musical Journal," national music magazine published in New York City.

The article was held for this issue, which is dedicated to the national music educators conference just finished in St. Louis, Mo.

5 TROPHIES TO BE GIVEN

Sneed Hall 'Awards Picnic' Is Sunday

Trophies will be awarded to five residents of Sneed Hall at the Awards Picnic to be held at 6 p.m. Sunday at the Little Party House in Mackenzie Park.

Awards to be made are to "Mr. Sneed Hall," the outstanding intramural sports player, and to the outstanding members of the basketball, football and softball teams.

"Mr. Sneed Hall" is selected as the outstanding citizen of the dorm. The outstanding intramural sports player will be selected from the following candidates: Corky Black, Enoch Dawkins, Hoot Gibson, Wilbur Jarrett and Darrell Summers.

Food for the expected crowd of 200 will be furnished by Underwood's.

Frat Opens Course To Train Officers

In order to insure a staff of insure a staff of adequately trained officers for next year, Delta Sigma Pi, professional business fraternity, has established a full-scale officers' training course.

Under the supervision of Ronny Clark, outgoing president, the training program will prepare each new officer of the fraternity to fill his respective position as a well-trained executive.

Faculty members of the fraternity play an important part in the course. Burl Hubbard, Harry Walker and Dr. Howard E. Golden are scheduled to give lectures pertaining to organization, unity and advancement of the fraternity in the field of business.

The training course will continue until the installation of new officers.

Newly-elected officers of the Sneed Hall Dormitory Association are: Sonny Henry, president; Harold Elledge, vice president; Enoch Dawkins, secretary-treasurer; Dean Alexander, social chairman; and Wilbur Jarrett, representative to the food council.

PI OMEGA PI INITIATES 7 MEMBERS, 3 HONORARY

Pi Omega Pi, honorary business education sorority, initiated Nancy Sue Carter, Melba Coldevey, Sharon Seeliger and Josephine Sloan Tuesday night. Honorary members initiated were Mrs. Isabelle Branum, Mrs. Nelda Coats and Mrs. Charlotte Ewing.

Officers installed were Robby Dale Davis, president; LaVerne Dierschke, vice president; Jerry Denton, secretary-treasurer; and Claudie Carpenter, reporter-historian.

Following the initiation and installation officers, a banquet was held in the Student Union. Harry Walker presented the address.

New Fraternity Installs Members

Installation of a new engineering fraternity, Eta Kappa Nu, was made last Saturday when 24 charter members, three faculty members, and nine pledges became members.

The local chapter was the Electrical Engineering Honor Society.

It became Gamma Nu chapter when installation teams from Texas A&M and University of Oklahoma inaugurated the students. The faculty members in the chapter are Professor and head of electrical engineering, C. V. Bullen, Profs. Tom Stenis and Harold A. Spuhler. Spuhler is the sponsor.

A. B. Zerby, national executive secretary from Dillsbury, Pa., and Dr. J. D. Ryder, dean of engineering at Michigan State University, assisted in the installation. Ryder also gave a speech on the coming famine-shortage of materials, energy, and manpower in the world.

Graduating Senior Women Honorees At Delta Delta Delta 'Pansy' Tea

Graduating senior women and engaged senior women will be complimented with a "Pansy" tea and style show at 2 o'clock Sunday afternoon in the Tech Union Ballroom, sponsored by Delta Delta Delta.

Three complete wedding ward-

robes from the announcement tea to honeymoon sports clothes, including wedding gowns, will be modeled in the style show.

Models are Mr. and Mrs. Doyle Jordan, Mrs. C. W. Cooper, W. C. Overton, Dennis Atkins, Don Roberson, Jerry Clark, and 17 Tri Deltas: Sandra Cooper, Mary Alice Braselton, Nancy Unger, Anita Hope, Tookie Wade, Sue Hendricks, Margaret Hagen, Joyce Tharp, Peggy Miller, Mary Jimm Stinson, Marion Nickelson, Revis Jordan, Donell Phillips, Charlene Williamson, Leonene Hunt, Sharla Pepper and Gail Ward.

Special vocal selections will be presented by Robbie Dale Davis and Carole Jean Delaney. Bette Rhea Moxley will narrate.

Doris Dudley, Tri Delt social chairman, is in charge of arrangements.

Fashions for the style show are being furnished by Margaret's and Hemphill-Wells.

Invitations have been sent to Tech senior women, the deans of women, and alumnae and patronesses of the sorority.

ANDERSON TO SPEAK AT TECH WEDNESDAY

Development of a child guidance center will be discussed by Dr. Robert P. Anderson of Tech at an Amarillo City Mental Health Society meeting Wednesday.

Dr. Anderson, an assistant professor of Psychology, will relate experiences of the Lubbock Society for Mental Health and its efforts to establish a community guidance center.

He also will explain work of the juvenile detention home committee in Lubbock and how it relates to a child guidance center.

What young people are doing at General Electric

Young chemical engineer works on new ways to make silicones

Silicones are a new class of man-made chemicals with very unusual properties. Made from sand, they assume the form of rubber, grease, oil and resin. Under extremes of heat and cold, the rubber stays rubbery, the oil oily. Silicones added to fabrics make them exceptionally water-repellent. Silicone makes waxes spread easier... paints almost impervious to weather.

One of the men responsible for finding new ways to produce silicone products is 26-year-old Frank V. Summers.

Summers' Work Interesting, Important

As process engineer of the Silicone Products Department, Frank Summers first compares the results of small-scale, pilot-plant experiments with the production methods in actual use. Then, using his own knowledge of chemical-engineering principles, he designs faster, more efficient and more economical methods of producing silicone products. Frank Summers' excellent training, diversified experience and outstanding personal qualifications make him a valuable contributor to this engineering team.

25,000 College Graduates at General Electric

When Frank Summers came to General Electric in 1949, he already knew the kind of work he wanted to do. Like each of our 25,000 college-graduate employees, he was given his chance to grow and realize his full potential. For General Electric has long believed this: Whenever fresh young minds are given the freedom to make progress, everybody benefits—the individual, the company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

FRANK V. SUMMERS joined G.E. in 1949 after receiving a B.S. in Chemical Engineering at Iowa State University the same year. He also graduated from G.E.'s Process Technology program and other specialized courses.

1103 COLLEGE PO 5-8721

Red, White Squads Clash Tonight In Jones Stadium

Only 1 Champion To Be Named

Tech's intramural softball program has reached the play-off stage, with champions already crowned in three of four leagues.

Only clear-cut champion is Kappa Sigma in the Fraternity League who breezed through their schedule with an 8-0 record.

In the Dorm League, Doak and Sneed tied over the regular season, each sporting a 3-1 slate. Doak won the playoff game Wednesday, 7-1, to gain the playoff

birth.

In the Independent League No. 1, AIA (American Institute of Architects) tied with the Sluggers with a 4-1 record. The Sluggers won the championship in Wednesday's playoff game 15-11.

The Baptist Student Union and SEPM tied in the Independent League number two, with identical, 4-1 marks. They are scheduled

to settle the championship this evening, when they meet in a playoff game.

After all league champions have been determined, a college championship tournament is planned, with semi-finals to be played Tuesday in the form of a double-header. The two winners will then meet on Thursday for the all-college championship.

A tight defensive game may be on tap tonight when the Red Raiders divide into Red and White squads to meet in the Annual intra-squad football game. The contest is set for 8 p.m. in Jones Stadium and will close spring training for Tech.

Bud Sherrod and Junior Arterburn will guide the Red squad which holds an edge in the series. The White team coached by Beattie Feathers and "Red" Phillips won last year's battle, however. Tom Hamm will work with both teams.

Saturday Is Entry Deadline for Meet

Saturday is deadline for entries in Tech's intramural track meet, according to J. D. Snyder, meet director. Those interested are urged to see Snyder, or call him at PO2-2481.

All track managers are to meet in the gym Tuesday to decide on entries and discuss the rules of the meet.

The meet is scheduled for Saturday, May 8, on the Tech track.

Big Red Raider Relays Meet Here Saturday

Approximately 30 teams, including over 100 outstanding Texas and New Mexico high school athletes, are expected to attend the second annual running of the Red Raider Relays Saturday, according to meet director Everett Peel.

The Relays are sponsored by the Lubbock Amateur Athletic Association and will be held on Tech's red cinder track. Preliminaries will be run Saturday morning.

Some of the strongest powers—including Region 1 champions Amarillo, Stinnett and Dumas—are entered in the big meet, which will be the last competition before the state meet in Austin, May 4-5.

The meet will feature first and second place winners in the regional meets of Texas and New Mexico. All classes, AA, A and B, will compete in one division.

Miniature track shoes will be awarded to each first, second, third and fourth-place winner in each event, including one for

every member of the first four relay teams. In addition, relay teams will receive a relay trophy and each school scoring the most points will receive a team trophy. Coaches of the winning teams will be awarded wrist watches.

Ad Building's Wet Paint Preventative Maintenance

Yes, it is wet paint. For those who don't believe in signs, the walls of the Administration Building are wet with paint. It is part of the preventive maintenance program of the college, according to Robert L. Mason, over-all manager of maintenance.

"Over \$200,000 is spent annually by the college for all types of repairs from electrical to plumbing," states Mason, "\$8,000 alone for painting."

Scaling Wins Over Barnett In 2nd Round Of Meet

Play began last week in Tech's intramural golf tournament.

In the opening round, Don Barnett was awarded a forfeit over his opponent, Monte Hasie. He advanced to the second round, where he met Harry Scaling, who had received a first-round bye. Scaling defeated Barnett 1-up in 19 holes, to take the lead in second round play.

In the only other first-round match completed, Joe Ben Turner defeated Van Hall, 4-3, to advance to the second round of play.

Three previously injured griders are ready for tonight's game. Returning to the lineup will be halfbacks Dixon and Knox and quarterback Wick Alexander. Still on the casualty list are tackle Jimmy Clark and Reece Washington, center Ray Gressett and halfbacks Milton Vaughn and Hug Fewin.

With Buddy Hill still out with a knee injury it will probably be Williams and Riddle starting at the opposing quarterback positions.

Admission to the game for Tech students may be activity card ticket. Ducats are on sale for 5 cents each and may be obtained at the gate.

Highlighting the halftime activities will be crowning the queen of the Red Raider Round-up. She will be selected from a field of candidates which includes Charlene Williamson, Eva Garza, Kay Weems, Grace Vick and Kare Campbell.

The queen is being selected from a vote of members of the Double-T Association. Last year queen, Shirley King of Plainview is a teacher at Big Spring.

Looks like they're putting ahesive on the tax cut.

Coach Feat Hardin-Sim

With the season final encounter, the baseball team plays across starting yesterday ending this afternoon.

Golfers W

Texas Tech's golf team defeated Texas Christian 4 1/2 to 1 1/2 in Fort Worth Wednesday.

John Farquhar won 5-4 while John P. King lost 1-up. In a Farquhar and King 2-2 tie.

In a No. 3 match, King won 5-4 and Bobby Feat lost his opponent and Kaplan team doubles game 6-5.

Stadium

Coach Feathers' Squad To Meet Hardin-Simmons Cowboys Today

With the season nearing the final encounter, the Red Raider baseball team played a two-game series starting yesterday afternoon and ending this afternoon, against

the Hardin-Simmons Cowboys in Abilene.

Assistant Coach Bill Nance, substituting for Beattie Feathers, coach in the annual Red-White football game to be played tonight, was expected to send either Paul Hawkins, Ronnie Bradley or Leo Chase against the Cowboys. All three were well-rested. The remainder of the line-up would remain intact, according to Feathers.

Last weekend the Raiders split with the Sheppard Air Force Base Senators, losing last Friday afternoon, 10-6 and recovering to beat the Senators in the series finale Saturday 5-4.

Their season's record standing at 6-6, the team will close out the season May 3-4 here against the Cowboys from Hardin-Simmons.

Tennis Team Defeats ACC 4-3

Victories in the final matches of the afternoon—two doubles contests—enabled Texas Tech to edge Abilene Christian College 4-3 in tennis here Thursday afternoon.

Tech won the top two singles matches but dropped the three lower ranked singles to trail 2-3 going into the doubles. Coach George Philbrick's No. 1 duo of David Kent and Billy Ed Gowan eased past Jerry Crawford and Jerry Griffiths 6-2 and 6-2, and a few minutes later the Raiders' other doubles team, Dick Spiers and Johnny Kniffen took the rubber match from Ronnie Walcher and James Tudor 6-4 and 6-1.

Kent's No. 1 singles victory over Crawford was a hard-fought 6-3, 5-7, 6-2 affair. Billy Ed Gowan of Tech had less difficulty with Wal-

cher winning 6-1 and 6-1. But Coach Dwayne Hart's Wildcat's swept the other No. 3, 4 and 5 singles contests.

Tudor took Spiers in straight sets 7-5 and 6-2, Griffiths rallied to down Kniffen 3-6, 7-5 and 6-2,

and Syd Wyatt finally won an extended match from Scott Cantine 6-4, 4-6 and 9-7.

Tech beat ACC 5-2 earlier this spring at Abilene. The Raiders are host to West Texas State this afternoon.

Golfers Whip TCU

Texas Tech's golf team defeated Texas Christian University's squad 4½ to 1½ in matches held in Fort Worth Wednesday.

John Farquhar won his match 3-2, while John Paul Cain was losing his 1-up. In a doubles match Farquhar and Cain tied with a TCU duo.

In a No. 3 match Don Kaplan won 5-4 and Bobby Westfall defeated his opponent 7-6. Westfall and Kaplan teamed to win a doubles game 6-5.

Chemical Changes In Cotton Revealed

Cotton, kept too long in the field before harvest undergoes harmful chemical changes, according to research by Dr. Lyle E. Hessler, Tech textile engineering professor.

But these changes are diminishing by early harvesting, Dr. Hessler reports.

His findings demonstrate that two types of chemical changes,

biological and oxidative, cause degradation in field-weathered cotton.

Biological decay, due to heavy rain or fog during harvest causes no harm to South Plains cotton, Dr. Hessler said.

But oxidative degradation, because of sunlight, wind and dust, causes color changes in the area staples, he added.

TECH NEWS IN BRIEF . . .

Gym Construction Date Announced; MIDC Meet

Construction on a new gymnasium for Tech is slated to begin May 14 and the new building is scheduled for completion in July, 1957, the Office of Supervising Architect has announced.

Hays Construction Co. of Lubbock will handle the construction. A men's gym, a natatorium, locker space, class rooms and a projection room will be included in the building which is to be located directly in front of the present gymnasium.

Tech's newest student organization, Mens Inner Dorm Council, held its first official meeting this week.

The Committee on Student Organizations approved the MIDC Constitution last week and gave it permission to function on a trial basis.

The MIDC is a coordinating group for all the different men's dormitory organizations. Each dorm has 3 representatives on the council.

The freshman class will go to the polls Monday to ratify the class constitution, according to class president, Jim McLaughlin.

In a class meeting Wednesday afternoon, it was decided to hold the election all day Monday, April 30, with a table set up in the Student Union Building.

The constitution, dealing primarily with the selection, duties, and regulations of the Freshman Council, has been the main project of this year's Council.

All class members are urged to get out and vote, in order that the final approval may be stamped on the framework for future Freshman classes.

The population of Tech campus was multiplied several times its normal size Friday and Saturday of last week.

Main attractions were the Interscholastic League Regional Meet, Engineering Show and Home Economics Open House.

Approximately 5,000 visitors and contestants were drawn to the campus by the Interscholastic League literary and athletic events, according to Dr. P. M. Larson director-general of the regional meet.

Winners of these contests qualified for the state meet to be held in Austin May 3-5.

Estimates on the persons who attended all events were un-official, but totalled to 12,000 to 15,000 for the two-day period.

A series of conferences on West Texas community problems was climaxed here today with a regional Program Planners Institute. The West Texas Council on

Adult Education is sponsoring the conferences and the Institute with the cooperation of the Texas Tech Adult Education Program.

The Rocky Mountain Council on Latin American Studies will hold its 1957 conference next spring at Texas Tech.

Raymond D. Mack of the Tech government department will be in charge of arrangements for the meeting, which will attract representatives from colleges and universities in Texas, New Mexico, Arizona, Colorado, Utah, and Wyoming.

Winning and meritorious carton designs in the Fall 1955 Folding Carton Design Contest for college students in the Southwest, will be on display throughout the week of May 1 at Tech. The contest is sponsored each semester by Pollock Paper Corporation.

Forty-three cartons, for such items as ice cream, ice cream cones, bacon, butter, rolls, and tea, will be shown while the exhibit is in Lubbock.

Monday has been set as the release date for a new novel written by Curry Holden, director of the Tech Museum.

"Hill of the Rooster", a story of love, hate and violence of the proud Yaqui Indians, will go on the book store counters all over the nation, and Henry Holt & Co., publishers, say they are very optimistic about the book's success.

The search for the nation's most beautiful and brainy college girl is now underway with the launching of the fourth annual National College Queen Contest which will stage its national grand finals in Asbury Park, N. J. over Sept. 7-9, 1956. The contest is sponsored by the City of Asbury Park and the Knitted Outerwear Foundation.

Undergraduate college girls be-

tween the ages of 17 and 24 years are eligible to enter the contest. Free entry blank forms and contest information may be obtained by writing to: College Queen Contest Director, Convention Hall, Asbury Park, N.J. The contest committee announced that judgments at the local, state, sectional and national levels, will be based on 50% for beauty and 50% for brains.

On this mountain in Mexico
