### Tech Bond Goal Is Set At \$30,000 In Seventh War Loan

Drive Begins May 14; April, May And June Purchases To Count

A goal of \$30,000 has been set for college employees in the Seventh War Loan drive, according to Ray C. Mowery, chairman of the War Bond committee and professor of animal husbandry. Actual dates of the drive are May 14 to June 30; however, purchases made during the months of April, May, and June will be counted in this drive.

Members of the war bond committee are the same as during the last drive: Administration building, first floor, S. S. McKay; second floor, J. T. Shaver; third floor, T. F. Wiesen, Home Economics building, Miss Vivian Johnson; bookstore, W. C. Cole; Engineering building, L. J. Powers; gymnasium, Morris Jennings; Library and Journalism buildings, A. B. Cunningham; Chemistry building, W. M. Craig; Military building, Maj. C. F. Hartman; campus, George Long; Agriculture building, Mowery; student representative, Maxine Craddock.

A total of \$4,250 was collected by this committee during the other drive, the goal being \$25,000. "This committee urges all faculty members and college employees to buy additional bonds as soon as you can, and to maintain your regular purchases," states Mowery. "A committee check will probably be made at the close of the present semester."

"We are especially reminded of the fact that the European phase of the conflict is nearing a close, and that the funds obtained in this drive are not for future expenditures, but for the enormous costs already made in the supreme effort to assist the blood of our brothers, sweethearts, fathers and sons in bringing the war to a successful conclusion. The committee members urge everyone to purchase bonds to the extent of your ability, and report them to us at the time the final canvass is made," he says.

No special effort has been made to obtain information relative to student bond purchases, or purchases made for students by their parents, Mowery says.

"Recent bond purchasing information, advises that attention be brought to parents that one of the finest graduating gifts that can be made is a war bond. It would be a fine thing for the war effort as well as for students for some concerted publicity to be given to parents in this respect. These purchases should be brought to the attention of the student representative of the war bond committee."

### Moore Presents Ira Aten Memoirs To Tech Museum

"Six and One-Half Years in the Ranger Service," a copy of the memoirs of Ira Aten published in a limited edition by *The Frontier Times* of Bandera has been presented to West Texas Museum on the campus by Ben Moore of O'Donell.

Ira Aten, as a Texas Ranger, was outstanding in capturing horse and cattle thieves, Mexican bandits, fence cutters and murderers. During the "Jay Bird and Woodpecker War," he was sheriff of Fort Bend county. He left the Ranger service to become sheriff of Castro county and later accepted a position with the Capitol syndicate. Aten was instrumental as director of the Imperial Irrigation district in legislation to build the Boulder Dam and the All-American canal.

### Ex-Techsans Visit Campus

Several engineering graduates and ex-students have visited on the campus this week, and last. Lt. Harold W. Deats, who graduated in 1941, majoring in petroleum engineering, was here Tuesday. He has been in the European theater about three years and since his return to the states has finished a course in Chinese at California university. Capt. J. D. Morgan, chemical engineering graduate of 1941, was on the campus Monday. He has served three years in England, North Africa and Italy. He will be reassigned to Santa Barbara, Calif. Wendell Coffey was here the first part of the week. He is taking radar training in the Navy. He is stationed in California and when last in school here in the spring of 1944 was a mechanical engineer.

## One-Half Students Go To Polls Tuesday

### Troy Caldwell Will Head Student Council For 1945-46

Approximately 50 per cent of the student body cast votes at the student polls for elections of student council and Association of Women students officers Tuesday. This shows a 36 per cent improvement over the number of votes cast at the last student polls for publications offices in February, and is largely accredited to the work of Alpha Phi Omega in its campaign to get students to vote.

Troy Caldwell, junior commerce student from Quitman, was the unopposed candidate for the office of president of Student council. He succeeds Maxine Craddock, who will graduate this spring.

### Museum Exhibits Children's Arts, Offers Awards

Seventh annual Children's art exhibition will open Saturday in West Texas museum and will be shown until Saturday, May 26. The exhibition is sponsored each year by Tech Art institute for children in the first to eighth grades in the territory surrounding Lubbock.

This year children in each grade selected one picture from their class to be shown in the exhibit and parents selected one. There will be about 180 drawings in the exhibition, according to Robert I. Lockard, associate professor in architecture.

Types of drawings that are represented are water colors, crayon, pen drawings, cut paper work, spatter work, finger painting, cut cloth work and pastels. Different types of subject matter are represented and all drawings are original works of art by the children.

## APC Draws The Line

MEMBERS of Tech's Beta Sigma chapter of Alpha Phi Omega are planning to paint safety lanes across campus streets. This will provide quite a noteworthy improvement and it behooves all of us to make use of such safety devices by staying in the proper sphere, whether walking or driving.

Closely allied with APC's campaign is the recent appearance of ropes across certain prominent paths on the campus which students, despite all requests, persist in using. In this situation, it seems that the thoughts and actions of many people on our campus are definitely out of balance. We designate funds for campus beautification; we talk about how much an attractive campus would mean to Tech, but we just simply will not give nature a chance to make her contribution. Surely, with the lanes to be provided by Alpha Phi Omega and with the sidewalks, we can find ample walking space without "blazing trails."

To help APC make this project a success, a cooperation on the part of the student body must be given. Contrary to the rules of safety, some students are prone to go speeding around the circle or start their automobiles off with great bursts of speed just as classes are dismissed without remembering that there are other people all around who, like they, have the right to use public streets.

The lanes are being painted for the benefit of the students and the students should gladly give their help in making the project a success. By staying in the designated paths, collegians will find that they can cross the streets with much more speed and safety. And we certainly can't hope to receive any consideration from drivers if we, in turn, refuse to cooperate and obey regulations. Nor can we hope to have a beautiful campus if we constantly form new paths and trample in flower beds.

Let's walk and drive where we are supposed to. We can help ourselves and the campus, too.—V. M.

## Postwar Peace Plans

NOW that the fall of Berlin is imminent, the time is fast approaching when definite action must be taken toward the reconstruction of Germany. So far a wide variety of plans have been submitted and discussed, but with V-E Day not too far in the future we must decide on one of these. Waiting until after Germany is defeated to decide what action should be taken only result in a serious waste of time.

According to many polls taken and most round table discussions, a surprisingly large percentage of people seem to favor the "brass knuckle policy." Many think that the only way to handle Germany is completely to annihilate her and place her under allied military rule.

The best safeguard for an everlasting peace is to open the doors of opportunity to the citizens of Germany. People who view the future with fear and doubt rather than hope breed fanatical leaders who seek to divert nations from their ills and disappointment by promising military glory and conquests. If the people are contented and satisfied, there is little chance that they would be swayed by the teachings of such leaders.

If the people were given the opportunity to raise the standards of living by their own ingenuity and foresight, they would certainly take more pride and interest than if they were forced to obey strict rules enforced by allied armies of occupation. Of course, they would have to be taught democratic ways of life, but is it true democracy to force them to accept these without question? Would it not be better to educate them to democratic principles and let them work out their own government under supervision instead of force?

If the people of Germany were given the assurance that as soon as they prove that they have completely cast aside their Nazi philosophy they would be given the same opportunity as other nations, then they would feel that they have something to work for. Without a goal to work toward, there is no real incentive for labor.

Some people believe that a strong Germany would be a threat to world peace. More likely, however, is the fact that a strong and prosperous country would not be frustrated. It would have a way to achieve a rising standard of living. If it were prosperous, it would become dependent upon other countries for products and supplies, and would realize that it would have these only as long as peace was maintained.

No conquered nation which is suppressed will be happy, and happy people are usually not dangerous people.—B.D.R.

## What About The Men?

FOURTEENTH Women's Recognition service will take place on the Ad green Tuesday. The ceremony was instituted in 1932 by Forum, at a time when women were more likely to be discriminated against than they are today in filling high campus offices and in being recognized as contributing factors of the college.

Therefore, Forum inaugurated the service "to honor women students who had done outstanding academic work and who had demonstrated their leadership and co-operation in extra-curricular activities." Since then it has achieved a dual purpose by giving honor where it is due and by serving as an incentive to women students.

However, in the years since 1932, women have gained responsible places on the campus in competition with men students. They have been elected to high offices—as president of the student body, editors and business managers of La Ventana and The Toreador, class officers and other positions open to both men and women students. They have gone to the top ranks in scholarship by hard work, and without any special consideration.

In view of these facts, having a separate recognition service to honor outstanding women students on the campus no longer seems necessary. To have a special service recognizing women implies that they are not capable of competing fairly with the general student body and is, in these modern times, bending

## Life With The Exes

Lt. James J. Vickers, '41 arts and sciences student, is here on leave. Vickers has been in India nine months. In Tech he was a member of Los Camadaras. His wife, Mrs. Patricia Vickers, is a Tech student. Zelma Geraldine Robinson, '40 physical education major, is now in the WAVES. Miss Robinson was in Lubbock Sunday visiting friends and relatives. She is to leave soon for overseas duty in Hawaii. Lt. John D. Branton, '38 textile engineering major, is a transport pilot. He took part in the invasion of France. First Lt. Joe H. McFatter has flown more than 50 missions as first pilot with a Mitchell bomber squadron. McFatter is a member of a veteran B-25 group which holds the Air Force record for precision bombing. Elmer Lavern Hargrove has been commissioned an ensign in the Naval reserve and assigned to the Naval aviator recently at the Naval Air Training base, Pensacola, Fla. Prior to entering the service, Hargrove attended Tech for two and a half years where he was a member of the varsity football, track and baseball teams.

Rev. Oscar Wells, '39 English graduate, will hold services at a local church during the months of May and June. Wells is a graduate of the Bible Baptist seminary in Fort Worth and one in Grand Rapids, Mich. He was sent as a missionary to Shanghai, China, and at the outbreak of the war he and his wife were captured by the Japanese and sent to a concentration camp. In December, 1943, they were released as repatriates and returned to the states on the Gripsholm. Darrel Kirkpatrick and Marvin Baggett, sophomore engineering students, have obtained jobs with the United Geophysical company and will work in Caracas, Venezuela. They have withdrawn from college and will leave for South America some time within the next four months. Kirkpatrick is from Dalhart and Baggett from Lubbock. They have signed up to work for two years. Cpl. Jesse C. Evans, '41 student, was recently awarded the Air Medal "for meritorious achievement in aerial flight while participating in sustained operational activities against the enemy." An aerial gunner with a heavy bomber crew, Evans is stationed in Italy with a veteran B-24 Liberator squadron that has flown more than 500 long range bombing assaults against key industrial and transport targets throughout central and southern Europe. William L. Telford, '39 graduate in accounting, has been promoted

to the grade of corporal. Telford, who is a personnel clerk in a service group headquarters of the Fifteenth Air Force service command, was a bookkeeper in civilian life for a lumber company in Tulsa, Okla. He is authorized to wear the good conduct ribbon and the European-African-Middle East theatre of operations ribbon with one battle star. Lt. Roger K. Owen, '43 chemical engineering student of Vernon, is now in the Army Air forces as a Pilot flying a B-29 Flying Fortress; Ens. Walter T. Clark, '43 petroleum engineering major of Lubbock is stationed on the USS Chicago; and Ens. James Stokes, '43 government major from Littlefield, was a member of the Centaur and was president of the sophomore class, visited the campus this week. M/Sgt. Roy H. Chapman, '40 agriculture student, and son of Mr. and Mrs. E. M. Chapman of Ralls, has added a second battle star to his theatre of operations ribbon. It signifies participation by the squadron in the Normandy campaign. His first star represents the group's participation in the air offensive over Europe. Chapman is a laboratory chief for one of the photo squadrons. The group is one of Brig. Gen. Elliott Roosevelt's 325th photo wing units. He entered the Army May 19, 1941, and has been in the European theatre of operations since November, 1943. Avin Bell, '42 dairy manufactures student, was reported killed in the Southwest Pacific area. His parents, Mr. and Mrs. William Bell, informed Dean A. H. Leidigh, First Lt. Richard V. Turnbaugh, '43 agriculture graduate from Meadow and pilot on an Eighth Air force B-17 Flying Fortress, has been awarded the third Oak Leaf Cluster to the Air Medal "for meritorious achievement" during bombing attacks on Nazi military and industrial installations and in cooperation with Allied ground forces.

S/Sgt. William B. Griffin, '42 bachelor of science in animal husbandry, who won the Silver Star for gallantry in Tunisia, is home on furlough and is visiting on the campus after 32 months of combat duty in North Africa and Italy. Griffin served in the medical department of a 34th Division infantry battalion and was decorated while serving as a leader of a litter squad in February, 1943. Then a private, he led the squad up the steep slopes of a hill to recess a badly wounded French soldier. The journey was made hazardous by constant artillery and machine gun fire. He also holds the Distinguished Unit Badge, awarded the battalion for a heroic four-day

mountain stand in Italy last November. Second Lt. William D. Knight of Lubbock, navigator of a B-17 Flying Fortress of the 95th Bombardment group, has been awarded the Air Medal for "meritorious achievement" while participating in Eighth Air force bombing attacks on Germany and on Nazi airfields, supply dumps and gun emplacements in conjunction with advances by Allied ground forces on the continent. T/Sgt. Arvin V. Ball of Fluvanna, engineer and gunner on a B-17 Flying Fortress, has been assigned to the 95th Bombardment group, and now is taking an orientation course on flying procedure in the European theatre of operations, prior to beginning combat duty in the air.

over backward. In fact, it is hardly fair that outstanding men students have no formal recognition ceremony if women are to receive this special attention each year.

It used to be the custom at Tech at commencement time each spring to honor those men and women students who had won scholarships and prizes, but last year this custom was dropped on the ground that commencement service was for seniors only. Instead, an Awards and Honors convocation was held on Parents' Day to recognize students for outstanding record in scholarship and leadership on the campus. A similar convocation, planned this spring, will not be held. The Toreador believes that these two ideas might be merged, extending the present Women's Recognition service, with all of its color and ceremony, to include both men and women who deserve recognition, thus making it an all-college affair. The time, late spring, the hour, 5 o'clock, and the place, the green south of the Ad building, would incite greater interest than would a regular convocation in the gymnasium.—K. P.

Last week it was a fraternity pin she was wearing, but this week MARY MIXON is wearing a beautiful diamond, a great big one, for her captain. He's from San Diego. ARTHUR SHAHAN says he is going steady with LOU BURNS, but it seems as if he is spending most of his time with SUE OSBORN.

Again last week-end Sodier JACK CHRISTIE was here to see MARY FRANCES POWERS. He comes often.

LT. and MRS. KENNETH ALLEN have gone to Topeka, Kan., where he is to be stationed. Both are former Techsians; Mrs. Allen was ONITA BELLE HUFSTEDLER before her marriage. Lt. Allen recently returned from overseas.

Together most of the time are Marine RAYMOND REASON-OVER, just back from more than two years in the Pacific, and OPAL HALL.

Musical CHARLES WILEY even has a small band on the tanker on which he rides around the Pacific. His brother, NORMAN WILEY, a Navy flyer, is stationed in Fort Worth. Both the Wileys are ex-Techsians.

Getting around together now are EMMA GENE TONN and JOE FITCHETT.

MARY FRANCES BARNARD and JAMES JOHNSON are still going strong.

In the mail Monday was a lovely engagement ring for CHARLENE TAYLOR. It was from HARRY RUNYON who is in gunnery school in Florida.

For one of the most likable boys in Tech, nominations this week are for DON DUGGAN, possessor of a personality that is known everywhere.

HOPE CADE, some people are wondering who your new admirer is—he lives in Sneed hall. Seems that he was smitten sometime last week.

BILLY OGDEN is getting a little over enthusiastic about this semester's being over. But who could blame him? Some of his vacation plans — jemmie, he is really going places.

DAVID BURGESS likes to go home every weekend. He says he doesn't go just for the trip—we wonder — could it be that he has a deep interest in a hometown girl? Girls in the southeast corner of Dorm II think it's a case of taffy between CAROLYN HARRISS and JAMES SPRINGER.

Because JOY ROBINSON is campused this week BOB DEAY-EMPORT sent her a half dozen carnations and a half dozen roses. We venture a bet that some of the other girls are wishing they would get campused too.

Just waiting for the tanks to come in is GWEN EDWARDS. On one of the tanks is CLIFF DAVIDSON.

DEAN WOODS and PHERBA JORDAN go a lot of places together these days. . . . There are those who wonder about these things.
