**FAMILY AFFAIR**—Delmar L. Daniel and his daughter, Carroll, take time out from a busy schedule of attending Tech classes to discuss their various assignments. The unusual father-daughter, college student set-up is in its first year.

## Dad, Daughter Attend Tech

Father and daughter are attending Tech.

Delmar L. Daniel, senior agriculture major, and his daughter, Carroll, freshman art advertising and design major, are attending Tech for the first time. Daniel, retired from the Air Force after 22 years of service, went to Tarleton State College before coming to Tech. Carroll graduated from Monterey High School in Lubbock.

"Before entering college," Daniel said, "my formal education had ended in the eighth grade. I saw there was a need for a good education, so I started to college. While in the Air Force, I took General Education tests which enabled me to enter college." Now in school, Daniel receives both Veteran's and Service retirement pay.

"Carroll attended 18 schools before coming to Tech," Mrs. Daniel reported. "She had gone to schools in several states, the Philippine islands and Japan. The school in Japan was American, but the children from countries other than Japan attended it. Although constantly changing schools, she was able to maintain higher than average grades."

After graduation in June, Daniel plans to work for the soil conservation service. Agronomy with soils option is his main course of study. Miss Daniel has only one thing in mind, to continue her studies in art and design and work in that field after graduation.

"The Israelites weren't ignorant of the situation that existed in the Russian satellite countries which prevented the Soviets from taking an active part in any Middle Eastern conflict," Dr. Fuller pointed out.

"Then too, is the fact that they knew of the English desire to get back control of the Suez Canal."

Dr. Fuller predicts that war will mark an end to the rule of Egypt's iron-handed dictator, Colonel Nasser.

"It wouldn't make sense for the Egyptians and Nasser to put up more than token resistance against such well-trained and well-equipped armies as those of France and Britain," he stated.

When queried as to his opinion on the future of the vital Suez waterway under British control, Dr. Fuller said he thought that it would be internationalized like it was several months before the Egyptians took over sole control.

Dr. Fuller believes United States foreign policy has faltered by not backing the two European allies in their earlier moves to assume control of the canal.

He noted that it could have been done in a trade whereby we supported English policies in the Middle East in return for increased backing in American Far Eastern affairs.

Dr. Casey Fine, acting head of the animal husbandry department, has spent two years in one of the troubled Arab-League countries as a technical advisor for a United States foreign aid program. He was in Iraq from July, 1954 until the same month in 1956 working for the International Cooperation Association.

Dr. Fine reviewed the situation of Jewish migration to the British mandate of Palestine following World War I and then with its increased activity after World War II.

By moving into Palestine, the Jewish nation had to push out almost 250,000 Arabian refugees who now make their homes in the infamous Gaza Strip.

Despite the fact that the Arabian nations and the United Nations support the refugees, (See Middle East Page 4)

## Parade Plans Proceed

Chairmen of the 20 or more float committees met Tuesday with

Merwin Downey, overall parade chairman, to draw for positions and receive final instructions for Saturday's Homecoming parade.

## Tech Professors Analyze Middle Eastern Situation

By **FLOYD WOOD**  
Toreador Issue Editor

With over one half of its population eligible for military service and in the other half in various positions to be drastically affected, Texas Tech took a close look this week at the explosive situation in the war-torn Middle East.

A Wednesday evening speech by President Eisenhower assured the American people that the government would not take an active part in the conflict which has pitted the armies of England, France and Israel against Egypt.

Two Tech professors, one in agriculture and the other in government, analyzed the situation with agreement on many points and variations on others.

Dr. Sterling H. Fuller, associate professor of government, said he did not agree with the charge that Israel's attack followed an agreement between the three warring powers.

"The Israelites weren't ignorant of the situation that existed in the Russian satellite countries which prevented the Soviets from taking an active part in any Middle Eastern conflict," Dr. Fuller pointed out.

"Then too, is the fact that they knew of the English desire to get back control of the Suez Canal."

Dr. Fuller predicts that war will mark an end to the rule of Egypt's iron-handed dictator, Colonel Nasser.

"It wouldn't make sense for the Egyptians and Nasser to put up more than token resistance against such well-trained and well-equipped armies as those of France and Britain," he stated.

When queried as to his opinion on the future of the vital Suez waterway under British control, Dr. Fuller said he thought that it would be internationalized like it was several months before the Egyptians took over sole control.

Dr. Fuller believes United States foreign policy has faltered by not backing the two European allies in their earlier moves to assume control of the canal.

He noted that it could have been done in a trade whereby we supported English policies in the Middle East in return for increased backing in American Far Eastern affairs.

Dr. Casey Fine, acting head of the animal husbandry department, has spent two years in one of the troubled Arab-League countries as a technical advisor for a United States foreign aid program. He was in Iraq from July, 1954 until the same month in 1956 working for the International Cooperation Association.

## Debators Enter National Tourney

Student speakers and debate teams put Tech in the top four schools participating in the Intercollegiate Debate and Discussion Meet at Tech last Friday and Saturday.

Ten schools were represented by 95 persons in attendance at the meet.

Discussion topic was "What should be the role of the United States in the Middle East." Debate subject was "Resolved: That the United States should discontinue direct economic aid to foreign nations."

Johnny McIver, Tech sophomore from Hereford, received the single "superior" rating of 34 participants in the discussion program. Excellent ratings were given Gordon Stalleup, Dale Karpe and Winona Herrin.

In the debate section of the meet, ratings of "excellent" were awarded Barbara Van Horn, Virginia Bray, Willis Taylor and Jack Gibson, all members of the Tech debate team.

Other schools which placed in the top four were Southeastern State of Durant, Okla., Abilene Christian College and Hardin-Simmons University.

Director of the Meet was Jim Brennan, new debate coach and director of the Tech Forensics Union. Assistant director was Jack Gibson, Forensics president.

## Wednesday Vote Elects Queen

Tech's Homecoming queen of 1956 was elected last night and will be crowned by Wallace Wilson, student body president, in coronation ceremonies at 7:15 p.m. Friday, in front of the Science Building.

The queen, one of the five finalists, will begin her reign with the Homecoming activities and will be presented at half-time at the Tech-Oklahoma A&M game Saturday.

The five finalists were chosen from a field of 22 candidates by a panel of 15 members each from the Tech Veterans Club and the Double-T Association. The contestants selected were on the basis of personality, beauty and appearance.

Following the coronation of the queen, an effigy of an Oklahoma A&M Aggie will be lit, kicking off the pep-rally.

Vying for the spot of honor were, Donell Phillips of Plainview, Lucinda Birtciel of Level-land, Eva Garza of Kermit, Revis Jordan of Lubbock, and Shirley DuPriest of Waco.

The queen's picture will appear on the front page of Friday's Toreador, which will be distributed Friday night at the pep-rally and will be thrown from the Press Club float during Saturday's parade.

Miss DuPriest, the daughter of Mr. and Mrs. Earl DuPriest, of Waco, is a senior education major.

Miss Jordan, junior home economics major from Lubbock, is the daughter of Mr. and Mrs. C. Doyle Jordan of Lubbock.

Miss Garza, daughter of Mr. and Mrs. J. A. Garza, is a senior business education major from Kermit.

Miss Birtciel, daughter of Mr. and Mrs. J. S. Birtciel of Level-land, is a senior home economics education major.

Miss Phillips, daughter of Mr. and Mrs. Don Phillips of Plainview, is a senior business administration major.

The Homecoming queen will have a place of honor in the parade at 10:30 a. m. Saturday, and will join with other students and exes Saturday at 8 p.m. for the Homecoming dance in the Lubbock Coliseum.

Before responsibility of the show is given completely to the Union the following provisions must be accepted by the Union Board and the Program Council:

1. After this year the responsibility is returned to the Student Council.

2. If profit is made it will be placed in the Varsity Show funds set up by the Student Council for backing future Varsity Shows.

3. If a loss is incurred it will be repaid from Varsity Show profits.

4. The Tech Union will have the prerogative to discontinue the show if the returns from the Homecoming Dance are not favorable, or at any time the financial success of the show is jeopardized through insufficient planning.

If the Union discontinues production of the Show before it is finished the debt incurred will not be paid back. However, if the Show is completed, the debt incurred will be repaid from Varsity Show profits.

## Dismissal Set

Saturday classes will be dismissed at 10 a.m. to enable students to attend the Downtown Homecoming parade at 10:30, according to Dean of Student Life, James G. Allen. The band and ROTC will be dismissed at 9:30 in order to prepare for the parade.

sent at the 5 p.m. meeting held in the workroom of the Student Union Building.

Drawing for parade positions followed roll call with the campus-wide organization representatives drawing first and the national organizations drawing second.

A position plan was distributed which obtained a street diagram showing where each float, by number, is to form.

"By 10:15 a.m.," Downey said, "the drivers of the floats should be in place. Numbers will be marked on the streets, showing where each float is to be placed, according to the number its representative drew."

Floats with the numbers from one to twenty-two are to assemble in numerical order from the corner of Main and Ave. M. and end on the corner of Main and Ave. Q, Downey said.

"Those with numbers from 23 to 30 are to assemble on the left side of Main Street starting at the intersection of Main and Ave. M," he said.

The parade begins at 10:30 Saturday morning, led by Reese Air Force Base Drill Team, followed by the Tech Band, President and (See Parade, Page 3)

## Tech Coeds Enter Cotton Maid Race

Entrants for the South Plains Maid of Cotton contest have until Friday, Nov. 9, to get an entry form in to the Lubbock Chamber of Commerce, according to Gordon Rose, contest director.

As of Wednesday morning there had been 12 entries from Tech in the contest. The Tech entries are: Kay Robinson, Plainview senior; Jane DeWald, Snyder junior; Melba Neely, San Saba senior; Sharla Bickett, Amarillo sophomore; Diane Wilson, Ballinger sophomore; Linda Shile, Amarillo sophomore; Marilyn Abbott, San Angelo junior; Mary Catherine Birkelbach, El Paso sophomore; Mary Ruth Plunkett, Roscoe sophomore; Mary Jo Cappleman, Dallas junior; Martha Ellen Smith, Waco junior; Janna Murray, Pampa junior.

Girls wishing to enter are reminded that they need not go to the expense of having a picture made especially for the contest. A class picture or snapshot will do nicely for the local contest.

Entrants must be willing and able to meet people, and are reminded that background, personality and appearance are of equal importance in the selection of the South Plains Maid of Cotton.

Those entering must be willing and able to make an international tour beginning early in January and lasting until August. If employed, the winner necessarily would have to obtain leave of absence, or if in school, would have to suspend her studies for the duration of the tour.

Girls must be willing to travel by air on regular commercial airlines, realize that the purpose of the entire program is to stimulate interest in cotton, and agree to travel with a chaperon designated by the National Cotton Council of America.

Entrants are reminded that there is no financial remuneration, except that all expenses of the winner will be paid during the training period and the tour. Entrants agree to appear before the audience at the contest finals in cotton apparel; to appear before the judging committee (not before the audience) in a bathing suit; and agree, if selected to appear in the finals of the contest to be in Memphis on Dec. 27 and 28.

## Statistical Leaders Not Changed

Texas Tech's Red Raiders will be headed by the same statistical leaders in their game with Oklahoma A&M here Saturday as they had for their win over Arizona last week.

Only change among leaders was the addition of quarterback Don Williams of Graham to the top scoring spot. He made seven in Tech's 21-7 victory over Arizona to share the scoring leadership with Buddy Hill of Lubbock with 15 apiece. Hill was held out at Tucson to protect a knee injury.

Otherwise, the leaders remain: rushing—fullback Doug Duncan of Wellington, 139 yards on 33 tries; punting—Hill, 38.3-yard average on 15 kicks; passing—Hill, 18 completions of 38 passes for 219 yards; pass interceptions—guard Ray Howard of Childress, 3 for 71 yards return; pass receiving—end Ken Vahey of San Antonio, 7 for 94 yards; kickoff returns—halfback Ronnie Herr of Muenster, 24.5-yard average on 4; and punt returns—Williams, 6 for 12.5 yards.

Williams would have boosted his punt return average considerably, but a 67-yard return was called back for clipping.

Although three Raiders—Duncan, fullback Gene Bentley of Panhandle, and halfback Hugh Fewin of Burkburnett—gained more than 50 yards each, the Arizona game was more of a defensive triumph.

Art Luppino, twice the nation's leading rusher, was held to 33 yards on 10 carries. Third in total offense, quarterback Ralph Hunsaker made only 39 yards for the night. Arizona, ranked 11th nationally on team total offense with 353 yards a contest, was held to 80 yards rushing and 65 passing for a 145-yard total. The Arizona passing attack, averaging 130.2 yards a game, had been rated 15th nationally.

## PARADE...

(Continued from Page 1)  
 Mrs. E. N. Jones, members of the Board of Directors and the first four floats.

After the parade ends and the floats have been parked on the west half of the Administration Building Parking Lot, winners will be announced over the public address system on the truck.

Downey said that the organizations are to have someone with the float until the announcement of winners. The winners representatives are to report to the sound truck after this announcement.

After the parade, a free buffet luncheon will be held at noon in the Gymnasium. Following this is the Tech vs. Oklahoma A&M football game starting at 2 p.m. in Jones Stadium.

Saturday evening one of the largest dances in the history of Texas Tech will be held in the Coliseum with Woody Herman and his famous Third Herd furnishing music.

Registration for former students will begin Friday afternoon in the Tech Union Building and major downtown hotels. Tech exes are urged to make hotel and motel reservations as soon as possible as facilities are expected to be sold out by the weekend.

# Unusual Major Of Two Tech Coeds Proves To Be Embarrassing, Interesting

By DEANIE KILLION  
Toreador Staff Writer

How does it feel to be one of two coeds among so-o many men? This is the question asked of Marilyn Floeck, senior from College Station, and Perry Mary Thompson, freshman from Houston, who are the only female agriculture majors among 817 males.

"When I registered my freshman year," states Marilyn, "I was surprised that there weren't more girls and almost changed majors, but I'm used to it now."

"I don't turn red any more," says Perry, "I stay that way."

It is surprising enough to note that neither of the girls is from the country and neither has parents who are farmers. Interest in growing plants helped Marilyn decide to major in horticulture. After graduation, she is thinking about going into the landscaping field. Perry's love for ranches and horses helped decide her major in animal husbandry. When she completes her education, she plans to be a farm agent.

A number of articles have been written about Marilyn during her college career, including one in The Avalanche-Journal, which

she points to with pride in her scrapbook.

The girls often take a lot of teasing from the other aggies. "I'm called the 'she aggie,' a lot," says Perry, "but my only pet peeve is when the professor is calling the roll. He calls the last names only until he reaches my name, then he adds Miss."

Both girls take an active interest in campus activities. Marilyn is vice president of Alpha Phi social sorority, vice president of the Horticulture Club and a member of the Tech Orchestra. Perry, equally as active, is a pledge of Zeta Tau social sorority, and is a member of the Rodeo Association and Aggie Club.

## 20 Students Pledge EE Honor Society

Twenty junior and seniors with 2-point averages are pledging Eta Kappa Nu, honor society for electrical engineers.

Senior pledges are Jerry Bedingsfield, Dave Denton, Ben Gilbreath, Leonard Grigsby, William D. Love, William T. Jones, Harold Sanders, and Joe Snead.

Junior pledges are Ladmir Brosta, J. Gerald Doggett, Donald E. Hay, Harold N. Henning, Carol D. McBiles, Robert A. Meadows, Robert D. Meeks, Don Pilkinton, Richard Price, Norman Rhoton, Presley Sheppard, and Walter Warren.

## CASA LINDA SLATES QUARTERLY CLUB TEA

Residents of Casa Linda are making plans for a tea Nov. 18, for members of the Quarterly Club, organization of women faculty members who inspired and fostered the original cooperative housing unit for young women at Texas Tech.

Plans have also been completed for Casa Linda's annual Halloween Party Oct. 30.

### MIDDLE EAST...

the Arabs are in deplorable condition, according to Dr. Fine, because they have no steady source of income.

Dr. Fine definitely is not in agreement with the action taken by the British in occupying the Suez Canal.

"My chief worry," he said, "is that the Arabian people will be inclined to take reprisal action against English citizens living in other Middle Eastern countries."

Dr. Fine concluded by saying that he concurred with the President's decision to keep the United States out of the conflict.
