THE FOUR FRESHMEN . . . a concert and a prom

FOR PROM, CONCERT . . .

Four Freshmen Appear Friday

By CATHY DICKINSON

Tickets are completely sold out for the Junior-Senior Prom Friday, featuring The Four Freshmen, one of the country's fastest rising vocal and instrumental groups, but space is still available for the quartet's afternoon concert.

Because the Union Building Ballroom capacity is 300, ticket sales for the Prom had to be limited despite the demand, ac-

ording to Larry Byrd, junior class president.

Friday afternoon the Freshmen will present a 45-minute program in the Ballroom, accompanied by The Kingsmen's Combo of Texas Tech. Tickets will be sold for \$1 at the Union Concession Stand until concert time, then at the door.

Tickets may also be obtained from Dale Roberts, West Hall; Sylvia Young, Horn Hall or Byrd.

Byrd said that the dance from 7:30-11:30 would be semi-formal, with no corsages. He suggested that girls wear "formals or cocktail dresses, and the boys, suits and ties, rather than tuxedos."

The Freshmen, who recently joined Ray Anthony, Stan Kenton, Les Paul and Mary Ford, and other artists on the Capitol label, won the same praise on the West Coast that they received in New

York on the Steve Allen television show. MGM recently featured them with Jane Powell and Vic Damone in the new musical, "Rich Young and Pretty."

Tech Infirmary Awaits New Equipment

The two-day move to Tech's new Len and Harriet McClellan Memorial Infirmary was completed Friday according to Jack Thompson, administrative assistant to College Vice-President Marshall Pennington.

The new \$295,000 health center was open for students' use on Friday morning.

None of the new equipment has arrived yet. Thompson stated that 50% of the equipment has been ordered and should be shipped by the manufacturer by April 1.

Election Slated For SC Posts

Officers and representatives for next year's Student Council, and cheerleaders will be picked by election April 11, Council Secretary Huda Hassen announced today.

Petitions must be in the Student Council office by 5 p.m. April 4. Candidates for executive offices and cheerleaders must have 325 signatures, while representatives must have 100. Petition forms are available at present in the Council office.

Offices to be filled include president, vice president, secretary and business manager of the Student Association.

Representative offices are Agriculture, 3; Arts and Sciences, 7; Business Administration, 5; Engineering, 6; and Home Economics, 2.

Three boys and two girls will be picked as cheerleaders. The boy receiving the most votes will become head cheerleader.

To qualify for the various positions a candidate for president or vice president must have 90 semester hours. Business manager, secretary and cheerleaders must have 60. Representatives must have 30 hours, and be enrolled in the division which they intend to represent.

All Council members must have a 1-point grade average, which must be maintained while serving on the Council.

Third European Tour Announced

A third European tour has been announced for Techsians — This one conducted by Prof. Arne Randall.

Randall, an art education authority and accomplished sculptor, will lead his group aboard a Trans-World Airline's "Constellation" June 30. Return date is set for August 17.

Diamond cutting, glass blowing, and wood carving will be observed by the group.

Art centers in Britain, France, Belgium, Holland, Germany, Switzerland, Austria, Italy, Spain are listed on the visitor's schedule.

Foundation Income Doubled

Donations to the Texas Tech Foundation's income for academic purposes during the first six months of this school year is double that of the corresponding period last year, according to Executive Director William H. Crenshaw.

The total donations are 68 per cent ahead of last year's figures. The academic contributions showed a 100 per cent jump, while Red Raider Club donations were increased by 25 per cent. Academic gifts to date total \$105,516.82, while the academic gifts for the first six months of the last school year totaled only \$52,633.67.

The foundation's total income for this school year is now \$146,161.93. This year's total income shows an increase of \$58,962.13 over the first six months of last school year.

These figures were released Saturday at a Board of Director's meeting.

Tech president Dr. E. N. Jones discussed some of the problems facing the school next fall.

Dr. Jones called the shortage of housing facilities "very critical"

and mentioned that a new men's dormitory was expected to be completed in 1958. He added that the school expects to let the contract for the new physical education gym April 18.

Oddo Will Star In 'Teahouse' Here

Jerry Oddo, understudy to film star Larry Parks in the roadshow production of "Teahouse of the August Moon," stepped into the role permanently last week following Parks' resignation from the cast.

"Teahouse" is scheduled for three performances in Lubbock Auditorium March 30 and 31. Oddo will carry the role of Sakini, Okinawan government interpreter. Other leading roles are played by Thomas Coley and Reito Sato.

Ticket sales for the Lubbock engagement, which will open the huge new 3,000-seat auditorium, are reported brisk by Manager David Blackburn. They are on sale at the box office at prices ranging from \$2 to \$4.50.

Experts Select Beauties

The eight most beautiful girls at Texas Tech, in the opinion of three Hollywood beauty experts,

Which Lovely Lass Lost Her Loafers?

Pictures of Tech's top 20 beauties, from which selection of the final eight is being made in Hollywood, Calif., were made by Toreador Photography Editor Harold Creswell at Holmes House of Photography, 1003 16th Street.

According to Jo Holmes, co-owner of the studio, a number of articles were left by the girls when they had their pictures made. Some have been claimed, but still at the studio are a silk scarf, a comb, a compact and a pair of black loafers, size 6A—complete, says Mrs. Holmes, with socks.

"The girls may pick them up anytime," she said.

will be revealed in the Toreador, Wednesday, March 28.

Chosen from a field of 20 finalists the beauties' pictures also will appear in the 1956 La Ventana.

Pictures of the coeds were sent for final judging to the head cameraman for Metro-Goldwyn-Mayer Studios, Clarence S. Bull. He was assisted in judging by William Tuttle, chief MGM make-up artist and Al Trescony, chief talent scout for MGM.

The top twenty are Carolyn Andrews, Mary Alice Braselton, Mary Jo Cappelman, Jean Crass, Patsy Harris, Revis Jordan, Sue Meason, Mary Jane Miller, Peggy Miller, Billie Jo Moorman, Sharla Pepper, Sandra Shields, Sandra Shook, Diana Smith, Sonja and Yvonne Strand, Sylvia Thompson, Gail Ward, June Wiley, and Charlene Williamson.

TECH NEWS IN BRIEF . . .

MIDC Picks Officers; Meetings, Banquets Scheduled; Play Continues

MIDC OFFICERS

Glynn McGee, Doak Hall, was elected president of the Men's Inter-Dorm Council last night. Richard Ridgway, of Sneed, vice president; Bob King of Bledsoe, secretary; Wayne Gibbons of West treasurer; and Maurice Sharp of Gordon, sponsor. Next meeting is scheduled April 9.

WORLD TRAVELER . . .

A colored slide tour of Brittany, a province on the Atlantic coast of France, will be the feature of a World Traveler program at 7 p.m., Thursday in Room A of the Tech Union.

Dr. William Roberts, Assistant Professor of foreign languages, will show the slides and give explanations, Leah Lewis, World Traveler Committee representative stated.

Brittany is one of the most picturesque and traditional provinces in France, Miss Lewis said.

The slides will include pictures of scenic landscapes, costumes, and ancient folklore of the people of this province who have clung to the customs of their heritage.

'INFERNAL MACHINE' . . .

Last performances of the speech department's production of Jean

Cocteau's "The Infernal Machine" will be given at 8 p.m. today and tomorrow.

The play, which is an adaptation of the old Greek drama, "Oedipus the King," is being presented in the Speech Auditorium. Reservation can be made by calling Tech extension 356. Admission is \$1.25 or activity books.

COSMOPOLITAN CLUB . . .

The Cosmopolitan Club will meet at 8 tonight in the Student Union Building.

Agit Shangkhi, Tech student from India, will give an informal talk.

Non-members are invited to attend as guests, said club presi-

dent Karen Habeb.

HOME EC BANQUET . . .

Tickets at \$1.35 per person, will be on sale all day Thursday and Friday in the Home Ec Building for the annual Home Economics Banquet March 27 in the Student Union Ballroom.

Theme for the banquet is "Woman in the Atomic Age." Main speaker for the program is Willa Vaughn Tinsley, Dean of Home Economics, who will talk on "The Challenge of Being a Woman Today."

Special music will be harp selections by Miss Billie Wolfe, assistant professor of home management.

Ticket chairman Barbara Thruston urged all home economics majors to attend and bring guests. "Tickets will also be available before Thursday from home economics students in the dormitories," she said.

MUSEUM ART EXHIBIT . . .

Paintings submitted by the primary and intermediate grades of Lubbock public schools and an exhibit of International Children's Paintings from Smithsonian Institute will hang in the Museum March 22 through April 15.

Judges will be members of the architecture and allied arts faculty. The Tech Art Institute will sponsor the display.

LITTLE MAN ON CAMPUS

by Dick Bibler

'HEY, FELLAS! COME SEE WORTHAL'S NEW PIN-UP.'

Drane And The 'Hostess' System . . .

Folks used to the usual run of "Keep Your Feet Off The Furniture" signs will be pleasantly surprised by a new system inaugurated at Drane Hall. The girls call it the "hostess system."

Dismayed by damages to lounge furniture, Drane coeds banded together to form a cooperative system whereby one girl is on duty in the lounge during open hours. Most residents seem enthusiastic about the plan, and each is willing to give up at least one night during the semester to serve as "hostess."

"The girl's duty will not be to police the lounge, as some might first believe, but to welcome guests and make them feel more at home," said a dorm representative.

A committee made up of junior legislators was appointed by Dorm President Anita Hope to work out details of the new system. The plan calls for each dorm wing to furnish coeds during a designated week. The work is voluntary.

"Hostesses" thus far report their job enjoyable and practical. They study, watch television, or just sit and talk with guests.

It appears to be a mature, diplomatic solution for an unfortunate situation. A "hostess" will in all probability receive much more thoughtful consideration than the more conventional "Keep Your Cotton Pickin' Feet Off The Coffee Table" signs usually found in such circumstances.

—Alton Slagle

Sister of Techsan, '55 Grad Killed

Funeral services were held yesterday and today for a sister of a Tech coed and a 1955 Tech graduate killed in a grinding head-on collision near Hobbs, N.M. Saturday night.

June Wampler, 17, sister of Doris Wampler, died at 2 p.m. yesterday, to become the third fatality of the collision. Virginia Hartsfield, 15, and Tech graduate Lennie Jean Boyers, 21, were killed Saturday.

The younger girls were both students of Monterey High School

here, and Miss Boyers was a teacher at Maedgen Elementary School. The group was returning from a high school speech tournament in El Paso at the time of the accident.

Funeral services for Miss Boyers and Miss Hartsfield were held Monday, and services for Miss Wampler were conducted at 2 p.m. today.

One other victim of the collision remained in critical condition in Lea County General Hospital in Hobbs. Two other students and the driver of the other car involved in the accident were reported improving.

100 Expected Here For Dietetic Meet

More than 100 dietitians from all over Texas are expected on the Tech campus Thursday through Saturday for the 1956 Texas Dietetic Association Convention.

First scheduled function for the meeting is a reception for all delegates at 7:30 Thursday evening. Registration is Friday morning.

Special events on Friday include a morning address, "Interest Appeals in Foods Affect Food Habits," by Miss Helen Corbitt of Neiman Marcus in Dallas. At a luncheon Friday the Texas Tech Choir will sing and the advanced pattern design class will present a style show.

Dr. Ercell Eppright, Senior Delegate at Large from ADA, will speak in the afternoon on Association Affairs. "Variety Is the Spice of Life," will be discussed by Miss Rita Campbell, of the National Livestock and Meat Board.

Mary Jane Hartley, food and nutrition major, will sing the invocation for the dinner session, and dinner music will be provided by Miss Billie Wolfe, assistant professor of home management.

"Food Habits and National Health" is the evening address, by Dr. William H. Gordon, Lubbock heart specialist.

During the convention, exhibits from various food supply houses will be shown in the Rec. Hall, according to Dr. Mina W. Lamb, TDA president and head of Tech's food and nutrition department.

JOURNALISM CLASS TO PUBLISH SLATONITE

Seven members of Dr. William E. Hall's community journalism class will gain some first-hand experience April 6-14 when they publish an issue of Slaton's weekly newspaper, The Slatonite.

The class has been set up as the regular staff of a weekly publication for the project according to Dr. Hall, with LaDoyce Lambert as editor. Ross Short will be copy editor and Nancy Kaisner, society editor. Other assignments are Edward Swenson, sports; Paul Foraker, governmental units; Kenneth Bennett, photographer; and Joe Harrison, Swenson and Bennett, general reporters.

The group is to relieve the regular editorial staff of all duties for the April 14 issue, assuming complete responsibility. They will be excused from classes, but those who work will return in the afternoons when necessary.

During the week, the newspaper advertising class will take over all Toreador advertising, handling selling, layout, and otherwise servicing accounts, according to Adrian Vaughan, instructor.

INSPECTORS NAMED

Announcement was made today by Headquarters Fourth Army, Fort Sam Houston, Tex., of the names of officers who will compose the team which will conduct the annual Army ROTC inspection of Texas Tech on April 5.

They are Colonel Avery J. Cooper, Jr., and Major Joseph H. Eastmead, Infantry of the G-3 section, Headquarters Fourth Army; Lieutenant Colonel Dalton L. Nordyke, Infantry, of the G-1 section, Headquarters Fourth Army; and Lieutenant Colonel Merle F. Finley, Infantry, of the Engineer section, Headquarters Fort Sam Houston.

On Campus with Max Shulman. (Author of "Barefoot Boy With Cheek," etc.)

ADVENTURES IN SOCIAL SCIENCE: NO. 3

Today, ranging again into the fascinating world of social science, let us take up the subject of anthropology — the study of man and his origins.

The origin of man was indeed a vexing question until the Frenchman, Jean-Louis Sigafoos, discovered the skull and shinbone of Pithecanthropus Erectus in Java in 1891. (What Sigafoos was doing in Java is, incidentally, quite an odd little story. Sigafoos was a Parisian born and bred. By day one could always find him at a boulevard cafe, sipping Biere de Racine and ogling the girls; each night he went to a fashionable casino where he gambled heavily at roulette and jacks; in between times he worked on his stamp collection.

... The study of man and his Origins ...

(Well sir, one summer Sigafoos lost his entire fortune gambling at the casino, and he was seriously contemplating suicide when a ray of hope appeared in an unexpected quarter. It seems that Sigafoos, through the international stamp collectors journal, had long been in correspondence with a girl in Java, a mission-educated savage named Lotus Petal McGinnis, herself an enthusiastic stamp collector. The nature of their correspondence, though friendly, had been entirely philatelic. Now, suddenly, a new kind of letter came from Lotus Petal. She declared that although she had never laid eyes on Sigafoos, she loved him and wanted to marry him. She said she was eighteen years old, beautiful, and her father, the richest man in his tribe, would give half his fortune to the husband of her choice. Sigafoos, in his reduced circumstances, had no alternative; he sold his last few belongings and booked passage for Java.

(The first sight of his prospective bride failed to delight Sigafoos. She was, as she said, beautiful — but only by local standards. Sigafoos had serious doubts that her bright red pointed teeth and the chicken bones hanging from her ear lobes would be considered chic along the Champs Elysees.

(But sobering as was the sight of Lotus Petal, Sigafoos had an even greater disappointment coming when he met her father. The old gentleman was, as Lotus Petal had represented, the richest man in his tribe, but, unfortunately, the medium of exchange in his tribe was prune pits.

(Sigafoos took one look at the mound of prune pits which was his dowry, gnashed his teeth, and stomped off into the jungle, swearing vilely and kicking at sticks and stones and whatever else lay in his path. Stomping thus, swearing thus, kicking thus, Sigafoos kicked over a heap of old bones which — what do you know! — turned out to be the skull and shin of Pithecanthropus Erectus.)

But I digress . . . From the brutish Pithecanthropus, man evolved slowly upward, growing more intelligent and resourceful. By the Middle Paleolithic period man had invented the leash, which was a remarkable technical achievement, but frankly not terribly useful until the Mesolithic period when man invented the dog.

In the Neolithic period came far and away the most important development in the history of mankind — the discovery of agriculture. Why is this so important, you ask? Because, good friends, without agriculture there would be no tobacco, and without tobacco there would be no Philip Morris, and without Philip Morris you would be without the gentlest, mildest, sunniest, pleasantest, happiest smoke that money can buy, and I would be without a job.

That's why.

To their Neolithic ancestors, the makers of Philip Morris extend a grateful salute. And so will you when you try today's new gentle Philip Morris in today's new pack of red, white and gold.

Advertisements on the right edge of the page including: '11 Initiated Into...', 'Winder To Attend Canada Meeting', 'Coca-Cola for you', and 'BOTTLED UNDER AUTHORITY LUBBOCK COCA-COLA'.

11 Initiated Into Phi Upsilon Omicron

Eleven home economics majors were initiated into Phi Upsilon Omicron, home economics honorary fraternity, Sunday at a sunrise service.

Following initiation, the old and new members had a breakfast in the Skyline Dining Room at the Lubbock Municipal Airport, then attended services at the First Methodist Church.

Incoming members are Ann Barron, sophomore from Meadow; Patricia Curry, sophomore from Arlington; Atha Lea Grice, sophomore from Hamlin; Frances Henry, graduate from Sao Paulo, Brazil; Rowena Jackson, junior from Lubbock; Myrna Marshall, sophomore from Lubbock; Nancy McClendon Phillips, senior from Lubbock; Carolyn Reynolds, sophomore from Bula; Kay Robinson, junior from Plainview; Sharlene Smith, junior from Phillips; and Dixie Templeton, junior from Lorraine.

Winder To Attend Canada Meeting

Marguerite Winder, newly-elected president of Delta Gamma, has been selected by the sorority as delegate to the national Delta Gamma convention to be held in Quebec, Canada, June 26-July 1.

Other officers of the sorority are: Pat Stooksberry, first vice president and pledge trainer; Frances Allison, second vice president and standards chairman; Sara Sheveland, recording secretary; Martha Ellen Smith, treasurer; Jackie Brooks, scholarship chairman and senior Panhellenic representative; Atha Lea Grice, junior Panhellenic representative; Rebecca Wilson, rush chairman; Betty Alice Lovelace, assistant rush chairman; Suzie Miller, social chairman; Cindy Bowser, historian; Nita Wood, public relations chairman; Sondra Stone, chaplain; and Mary Ellen Carr, parliamentarian.

28 Pledges Initiated Into Phi Kappa Psi In Friday Service

Phi Kappa Psi initiation was held Friday, March 9 in the Lubbock National Bank Recreation Room.

The 28 initiates were John Bacus, Thomas Beard, Freddie Blake, Tony Briggs, Ed Childs, Paul Edwards, Richard Estes, Gilbert Finnell, Ray Granbery, Ted Hannah, Jerry Houchin, Robert Key, James Lake, William Lewis, David Lindsay, Ted Long, Gene Miles, Ray Moore, William Morgan, Willis Powers, Charles Rainwater, Bill Richmond, Claude Rogers, Darryl Sanders, Delbert Sanders, Billy Guy Thomas, James Thompson and Borden Worsham.

Phi Eta Sigma Sets Initiation In April

Phi Eta Sigma, freshman men's scholastic honor fraternity, will hold their annual initiation banquet Saturday, April 7, at 6:30 p.m. in the Student Union ballroom.

The banquet will be held in conjunction with that of Alpha Lambda Delta, freshman women's scholastic honor fraternity. The speaker for the occasion will be Dr. James P. Cornette, president of West Texas State Teachers College in Canyon.

Dean Allen, sponsor of the organization, requests that all those who feel qualified to be a member of Phi Eta Sigma but did not receive an invitation to become a member notify him as soon as possible.

Alpha Phi Announces Diana Smith President

Newly-elected officers of Alpha Phi sorority are: Diana Smith, president; Hazel Gasey, treasurer; Nancy Jones, secretary; Karen Noteware, pledge trainer; Karen Mankins, scholarship chairman; Carolyn McDermott, standards chairman; Jessica Baggett, social chairman; Sharon Dudley, song chairman; and Beth Butler, activities chairman.

A Campus-to-Career Case History

Winfield J. Giguere, here tuning the coils of an IF strip on an experimental FM receiver that uses the new high-frequency transistor.

"Our business is new ideas, new developments"

Winfield J. Giguere, or Gigs as he is known, graduated in 1954 from the University of New Hampshire with a B.S. in Electrical Engineering. Shortly after graduation he joined Bell Telephone Laboratories in Murray Hill, New Jersey.

"Experience has come my way in a hurry," says Gigs. "I've worked on carrier system amplifiers, speech transmission problems, and experimental types of coaxial cable. The Labs are always pushing ahead, trying new ideas, exploring new developments.

"For example, right now I'm working with 'the transistor that smashed a frequency barrier.' This new transistor has a cut-off frequency of at least 500 mc and can be used to amplify 2500 separate telephone conversations simultaneously. It will make possible broadband, high-frequency amplification in many fields using subminiature components.

"There are thousands of other fascinating projects underway at the Bell Labs. You see, at the Labs our business is new ideas, new developments, and that's one reason why I like working here. It's exciting. If there are better ways to communicate, you can bet the Labs are looking for them."

Winfield Giguere is typical of the many young men who are finding careers in Bell Telephone Laboratories. Many other career opportunities exist in the Bell Telephone Companies, Western Electric and Sandia Corporation. Your placement officer has more information about these companies.

Tech Netters Win 2 Matches

Although blanked by the strong SMU Mustangs, the Tech Red Raider netters came through with victories over Abilene Christian College, Texas Christian and tied powerful ETSTC on last weekend road trips.

The Raiders started off the journey with a 5-2 win over the Christians at Abilene. The netters then went to Commerce to battle the talent-laden East Texans. After rain set in they were forced to move the contest indoors, and the Raiders managed to tie 3-3 by virtue of a late doubles victory by Dick Spiers and Scott Cantine.

Disaster struck the netters as they hit Dallas and a powerful SMU squad led by two Argentina Davis Cup players. The Mustangs took a 6-0 win for their third consecutive of the year.

Saturday, the Raiders got even with the Southwest Conference by tripping TCU 5-2. Featuring this seemingly easy victory was the fine all-around play by Tech's first three singles players David

Kent, Billie Edd Gowan, and Dick Spiers.

Out of 26 matches played over the weekend the Techs managed to win 13 therefore breaking even after the shutout by SMU.

The won and lost records by individuals and doubles teams are as follows:

Singles	won	lost
David Kent, No. 1	2	2
Billie Ed Gowan, No. 2	3	1
Dick Spiers, No. 3	3	1
Johnny Kniffen, No. 4	1	3
Scott Cantine, No. 5	1	1
Doubles	won	lost
Kent-Gowan, No. 1	2	2
Spiers-Kniffen, No. 2	0	1
(at ACC)		
Spiers-Cantine, No. 2	1	2
Totals	13	13

The next home match will be with Texas Western at 1:30 p.m. Saturday at the Tech Courts.

Texas Tech Fencers Enter NCAA Tourney

Texas Tech's fencing team takes part in the National Collegiate tournament at the U. S. Naval Academy at Annapolis Friday and Saturday.

It will be the fifth such participation in six years for Tech, whose Red Raiders this year have compiled a winning mark in Amateur Fencing League of America competition. Highest Tech has been ranked by the NCAA was 17th in 1953.

With Captain Ken Gullett of Olton will be Frank Griffin of Cooper and Gene Brown of Amarillo.

Gullett, junior economics major, will enter the saber division. Defending junior AFLA champion of the Southwest, Gullett has won

a first in a meet at Abilene and second in the "Tournament of the North" at Chihuahua, Mexico.

In the foil division will be Griffin, sophomore arts and sciences major. He has been first in three tournaments—at Abilene, Dallas, and Lubbock.

Champion fencer of the Dallas Invitational tournament, Brown will enter epee. The sophomore pre-medical student has also taken firsts at Denton and Lubbock.

Columbia University is defending champion.

Melpar needs men to do jobs that have never been done before

They say younger minds are often the best minds : : : creative, unafraid to explore and open to challenge. We at Melpar fully agree.

What's more, Melpar needs the creative younger minds, because we are charting courses in areas never before explored. To us it's a constant adventure, and an expedition into the unknown.

We wish you could watch the progress of the young men in our research laboratories. Men who only yesterday, it seems, came to us from the universities and are now engaged in vital projects in our applied research and development programs.

We think it would help you evaluate the various opportunities which present themselves and to decide you belong in an organization which recognizes not only your abilities, but your long range ambitions as well. We have found that the best means of helping our men achieve these ambitions is to let them work from the start on small congenial project teams led by experienced engineers. Achievement is quickly recognized and rewarded.

We believe an engineering graduate is ready to apply his knowledge. If, however, you desire to pursue advanced study while on the job, we invite you to join any of our many accredited in-plant courses, or enroll at one of the many universities in the Greater Washington Area.

You will find the Washington Area an ideal place in which to live and work. Free of heavy industry, virtually depression proof, close to Government agencies and other research sources, the suburban area in which Melpar is located provides a stimulating environment for professional and intellectual growth under conditions of minimum stress.

Melpar is a subsidiary of Westinghouse Air Brake Company, and devoted primarily to electronics research and development. Our new ultra-modern plant, 10 miles from Washington, D.C., encompasses 265,000 square feet, and is one of the most complete research facilities in the country.

Our work is in the following fields:

- Network Theory
- Systems Evaluations
- Microwave Technique
- UHF, VHF or SHF Receivers
- Analog Computers
- Magnetic Tape Handling
- Digital Computers
- Radar and Counter-measures
- Packaging Electronic Equipment
- Pulse Circuitry
- Microwave Filters
- Flight Simulators
- Servomechanisms
- Subminiaturization
- Electro-Mechanical Design
- Small Mechanisms
- Quality Control and Test Engineering

MELPAR REPRESENTATIVE ON CAMPUS THURSDAY, MAR. 22

Get several booklets about Melpar and the Washington, D.C., Area from your Placement Officer today. Make arrangements for a personal interview with the Melpar representative. Qualified applicants will be invited to inspect our laboratories at company expense.
