

# 'Women Of Year' Elections Set

Tech coeds will vote for Woman of the Year and Faculty Woman of the Year candidates Monday.

Thirteen senior coeds have been nominated for Woman of the Year honors, and 13 faculty members have received Faculty Woman of the Year nominations.

Winners of the top honors will be announced at the annual Women's Day Banquet Tuesday night, climaxing Women's Day activities.

## Nominees Chosen

Nominees for the awards were chosen by campus women's organizations. To be eligible for Woman of the Year, the nominee must be a senior and have a 2.5 cumulative

grade point average. Her selection should be based on record of service and participation at Tech.

Faculty women who have not previously received the award of Faculty Woman of the Year are eligible for nomination. Previous faculty winners include Miss Dorothy Hoyle, 1961; Dr. Beatrix Cobb, 1962; Dr. Mary Louise Brewer,

**Poling places for Women of the Year elections will be in all women's dorms, the Union, the Home Ec Bldg. and the Ad Bldg. All coeds will need ID cards to vote.**

1963; and Mrs. Nancy Boze, 1964. Nominees for Faculty Woman of the Year and the organizations nominating them are the following:

## Faculty Women

Mrs. Meredith Aker, Delta Gamma, Weeks Hall, Drane Hall and Delta Delta Delta; Miss Mildred Bettencourt, Zeta Tau Alpha; Dr. Faye Bumpass, Hulen Hall; Miss Marie Carano, Home Economics Club; Dr. Mary Sue Carlock, Pi Beta Phi, Kappa Kappa Gamma, Gamma Phi Beta, President's Hostesses, Women's Residence Council, Mortar Board, and Junior Council. Dr. Mary Dabney, Gates Hall, Chi Omega, Alpha Phi; Mrs. John-

ny Dorsey, Alpha Lambda Delta; Dr. Mina Lamb, Phi Upsilon Omicron; Dr. Elizabeth Sasser, Kappa Alpha Theta, Doak Hall, Knapp Hall, Women's Service Organization; Miss Margret Stuart, Horn Hall; Mrs. Ruth Tracey, Clement Hall; Dr. Oliver Wheeler, Phi Mu; and Mrs. Vera Young, Alpha Chi Omega.

Nominees for Woman of the Year, their sponsoring organizations, grade point and campus activities are as follow:

**TOMMIE ALLEN** — Sigma Kappa, President's Hostesses; 3.39; Mortar Board, Mu Phi Epsilon president, Junior Council, chairman President's Hostesses, Sigma Kappa scholarship chairman, Pi Kappa Phi, Sigma Tau Delta, Who's Who in American Colleges and Universities.

**MARY BEHRENDIS** — Home Economics Club, Kappa Kappa Gamma, Drane Hall, Phi Upsilon Omicron, Knapp Hall; 3.21; Mortar Board, Junior Council, President's Hostesses, Phi Upsilon Omicron, Phi Kappa Phi, Kappa Kappa Gamma scholarship chairman, Association of Women Students president, Who's Who in American Colleges and Universities.

**EMILY CROOM** — Alpha Phi; 3.87; Sigma Delta Pi, Phi Alpha Theta secretary-treasurer, Alpha Phi activities chairman, Phi Kappa Phi, Junior Council, Mortar Board, Women's Day publicity chairman, Horn Hall legislator, president.

**SHARON KAY DUDLEY** — Delta Gamma; 2.55; Angel Flight, Delta Gamma, Student Council, recipient of commendation award by Lt. Col. Hull, professor of Air Science.

**ANN KOLLENBERG** — Clement Hall; 3.15; Clement Hall AWS representative, Weeks Hall advisory, West Hall legislator.

**NELDA LANEY** — Kappa Alpha Theta; 3.58; President's Hostesses, Junior Council, Mortar Board vice president, AWS third vice president, Kappa Alpha Theta, Phi Kappa Phi.

**KATHRYN LODAL** — Women's Service Organization; 3.0; WSO president, African bloc leader, MUN 1965, Pi Sigma Alpha, Phi Alpha Theta, President's Hostesses.

**LYNN McELROY** — Pi Beta Phi; 3.75; Home Economics Club president, Phi Kappa Phi, Pi Beta Phi president, Women's Day co-chairman, Junior Council, Mortar Board, AWS treasurer, Phi Upsilon Omicron, Supreme Court of Texas Tech, Who's Who in American Colleges and Universities.

**BETTY NEWBY** — Alpha Chi Omega; 3.29; AWS vice president, Sigma Tau Delta, Phi Alpha Theta, Panhellenic treasurer, Phi Kappa Phi, cheerleader, Junior Council, President's Hostesses.

**LOYS ANNE SLAUGHTER** — Gamma Phi Beta, Weeks Hall; 3.84; Gamma Phi Beta president, Weeks Hall president, President's Hostesses, Mortar Board, Junior Council, Phi Kappa Phi, Sigma Tau Delta outstanding senior English student, Phi Alpha Theta, Pi Delta Phi, Women's Residence Council.

**BARBARA SPERBERG** — Mortar Board, Phi Mu, Alpha Lambda Delta, Doak Hall; 3.77; Phi Mu, Mortar Board president, Alpha Lambda Delta senior advisor, Mu Phi Epsilon, Tau Beta Sigma, Tech Band, Orchestra, Sigma Tau Delta, Phi Kappa Phi, Doak Hall advisory, legislator.

**BETTY JOE WHITE** — Delta Delta Delta; 2.95; Student Council, Phi Upsilon Omicron, Phi Mu.

**SUSAN WOOD** — Junior Council, Women's Residence Council, Chi Omega, Horn Hall, Hulen Hall, Gates Hall; 3.52; Mortar Board, Junior Council senior advisor, Women's Residence Council president, AWS first vice president, Supreme Court of Tech, Phi Kappa Phi, Phi Alpha Theta vice president, Sigma Tau Delta, Chi Omega president.

DR. BERNICE MOORE

## Dr. Moore To Address Coeds

Dr. Bernice Milburn Moore of the Hogg Foundation, Austin, will be an honored guest at Texas Tech's 33rd annual Woman's Day Tuesday and will be principal speaker at a 6 p.m. banquet in the Union climaxing the day's events.

Her lecture subject will be "Woman — Fallacies, Facts and Her Future."

The day's program, designed for women only, also will include a luncheon honoring the guest speaker in the dean of women's office from 1:30-4 p.m.

In her 20 years' association with the Hogg Foundation, Dr. Moore has become widely known for her work in the areas of family life, personality and mental health.

She currently is serving as associate director of Philanthropy in the Southwest, a study in community action for youth, and as assistant to the director of Community Programs and Professional Education for the Hogg Foundation.

Her other experiences have included working as a newspaper reporter, a magazine editor, a farmer, and as an advisor for an industrial youth group.

# THE DAILY TRIBUNE

TEXAS TECHNOLOGICAL COLLEGE

Vol. 40

Lubbock, Texas, Saturday, April 24, 1965

No. 127

**I BELIEVE THIS IS MY DANCE** — So says Lynn Barbin as he tries to recover his partner, Deborah Collier, from John Skearton. It seems that John's partner, Judy Kay Bryant, has very little to say

about the whole matter. The foursome is preparing for the Pajama Dance tonight in the Fairpark Coliseum featuring "The Panthers." Admission is \$1 per couple.

## 'Copter Maneuver Opens Engineering Extravaganza

Two air rescue helicopters from Reese Air Force Base performed maneuvers and landed Friday adjacent to the West Texas Museum to officially open Tech's 33rd Annual Science and Engineering Show.

Thousands paused between classes to watch the 'copters maneuver above campus and hover above the Ad Bldg. and land within feet of a pre-arranged smoking marker.

Exhibits provided by the Army, Air Force and Navy, along with college exhibits from the science and engineering departments will be featured through today.

The Army will provide a display of the "Man on the Moon" project. Field radios and portable radar equipment and four types of missiles, (Sergeant, Pershing, Hercules and Hawk) are key exhibits.

A "force platform," a unique device for measuring force, is a new addition to the show. This device can measure the amount of force exerted in accomplishing a given chore. This is believed to be one of three kinds of devices in existence.

"Milestones in Space," an added attraction, presented by NASA illustrates the story of peaceful exploration of outer space by the United States. This exhibit covers 5,000 square feet in the Museum's upstairs gallery.

The civil engineering department features displays in hydraulics, mechanics, concrete, materials,

soils, water treatment, surveying, structures and highways. A small computer illustrates the effects of a rough road on the shocks and chassis of a car.

The electrical engineering department exhibit features three computer systems in the Computer Bldg.

Mechanical engineering display includes a gyro, a cut-away view of a turbo jet engine, a light polarizer, the Ajax engine, a wind tunnel and a York Trainer.

"Careers in Microbiology" is the theme for the Bacteriology Society.

The architecture and allied arts department presents a sculpture display by allied arts majors in the Architecture Bldg. and the plaza between it and the Electrical Engineering Bldg.

"The Chemical Industry on the South Plains" is the theme of the chemical engineering department. Various chemical producing plants along with samples of plant produced chemicals will be featured at the exhibit.

The physics department presents a hearing test, Van de Graff Generator, charge to mass ratio of the electron, a Geiger-Mueller tube and the Millikan oil drop experiment for measuring the charge on an electron.

All exhibits will be open to the public from 10 a.m. to 10 p.m. today.

## UIL, Science Fair In Operation Today

The University Interscholastic League regional competitions and South Plains Regional Science Fair attracted thousands of visitors to the Tech campus Friday and today.

Action began in the Interscholastic League competitions with one-act play contests of Conference B high school dramas Thursday in the University Theater. Plays in Conference A were presented Friday. Entries in Conference AA will be presented today at 3 p.m.

### Athletic Events

Athletic events, including golf, girls' volleyball, tennis and track and field events, will continue through today.

Golf for all three conferences, AA, A and B, began Friday at Meadowbrook Golf Course.

Tennis competitions for both boys and girls, singles and doubles, will be staged at the Tech and Lubbock High courts.

Finals in the track and field events will be at the Tech track, south of the Municipal Coliseum.

Twelve literary events will be today in various classrooms on campus. Events in this division will include debate, journalism, poetry interpretation, prose reading, extemporaneous speaking, ready writing, persuasive speaking, typewriting, shorthand, number sense, slide rule and science.

Results of the UIL competitions

will be available at an information service center in the Union manned by a staff of Tech's information department and members of student service groups, Alpha Phi Omega and Women's Service Organization.

### Science Fair

Future scientists from surrounding public schools will display talents at the South Plains Regional Science Fair in the Science Building.

The array of individual and classroom exhibits will be open to the public from 8 a.m. - 8 p.m. today.

## Positions Open For '66 MUN

Applications are due Monday for the top leadership positions at next year's Model United Nations.

The positions are president, secretary-general and bloc leaders.

Application blanks may be picked up in the Union program office and are due by 5 p.m.

# Lola Causes Spring Havoc

SOUTH BEND, Ind. (AP)—Lola brushes her shoulders, was met at was just a memory Friday to the campus bus station Thursday spring-feverish University of Notre evening by campus security police. Dame students who objected boisterously Thursday night when She had danced Tuesday night police escorted the 16-year-old girl Wednesday night in a nonalcoholic rathskeller. The students off the campus. The girl, whose brown hair liked her performances.

Somebody shouted, "She's here!" when the bus arrived Thursday evening. The girl, in a leopard skin-pattern raincoat, and the police were surrounded by about 300 students.

The security officers put the girl in a taxicab which finally got away with boing students pounding the hood and trunk.

The protesting group swelled to about 1,000 students who started on a 1½-mile march to the police station chanting, "We want Lola!"

Motorists were forced to detour. Residents complained students were mashing their lawns.

The students either vanished or pretended to be spectators and the demonstration was over.

# Ole Miss Students Demonstrate Again

OXFORD, Miss. (AP)—Shouting University of Mississippi students demonstrated late Thursday night outside a dormitory where three white persons from predominantly Negro Tougaloo College were staying.

Before university officials broke up the gathering, some of the demonstrators smashed out windows and punctured the gas tank of a car belonging to the Tougaloo professor and two male students.

Estimates of the number of students involved ranged from under 100 to over 500.

One Ole Miss student suffered a head cut from splattering glass

as a soft drink bottle slammed against the car. Rocks also were hurled at the vehicle. Efforts were made to turn the car over.

The Tougaloo visitors were here for the opening of the Southern Literary Festival today. The demonstration did not spread to another dormitory where three Negro coeds from Tougaloo were quartered.

Dean of Students Franklin Moak rushed to the noisy scene on this rolling, tree-shaded campus and urged the students to go to bed. He explained the Tougaloo group came at the invitation of the festival.

Campus Police Chief Burns Tatum began taking up student identification cards and the demonstrators dispersed.

Witnesses said only about 20 students participated in the attack on the car.

Ole Miss. was the scene of rioting in the fall of 1962 when James H. Meredith enrolled as the university's first Negro student. Two persons were killed and several hundred were injured.

## Institute Will Study Resources

Texas Tech will open its campus to a special meeting of the West Texas Water Institute Monday, to be specifically concerned with federal programs affecting the future of West Texas water resources.

Dr. Gerald W. Thomas, chairman of the Institute, indicated that many key state and national political figures would be present when the meeting convenes at 10 a.m. This group is headed by Utah's Sen. Frank E. Moss and Texas' Congressman Walter Rogers of Borger.

The institute chairman added that the Texas Tech Institute of Science and Engineering will be a co-sponsor of the one-day seminar in the Tech Union.

Primary item on the meeting agenda will be several discussions on the North American Water and Power Alliance (NAWAPA). The NAWAPA project, conceived by researchers and engineers of the Los Angeles-based Ralph M. Parsons Co., would affect 33 states as well as several Canadian provinces and Mexican states.

This plan proposes that run-off water from Canadian rivers would be carried via a system of coastal canals, siphons, locks, and giant water pumps and dumped into such "dry land" reservoirs as the Pecos and Canadian Rivers in Texas. Some of this water could also be used for re-charge of the Ogallala Formation, Dr. Thomas said.

## English Group Honors Three

Three members of Sigma Tau Delta, English honorary, were honored at the chapter's banquet Thursday night in the Union.

Loys Ann Slaughter, Houston senior was honored as the English senior with the highest grade point average. Mrs. Carolyn Hoggins of Plainview was recognized as author of the best master's thesis. Her subject chosen was "The Nightmare World of Dylan Thomas."

Kay Crownover of Big Spring received the outstanding service award for her performance as editor of the society's literary magazine, The Harbinger.

Speaker for the event was Dr. Monroe Spears, professor of English at Rice University.

# Raider Roundup

## HONORS SEMINAR

Ronald E. Schulz, associate professor of speech, will address the Interdepartmental Honors Seminar this week. His topic, "A Perspective on Stanislavski," will present a discussion of the Moscow Art Theater, with emphasis on Stanislavski and his "method acting." The seminar meets at 11 TTS in the Ad Bldg., room 206, and is open to all persons.

## WOMEN'S DAY

Tickets for the Women's Day Banquet are on sale in the Dean of Women's Office, in the Union during the lunch hour and in the women's dormitories during the lunch and dinner hours.

Tickets are \$1.50. The banquet will be April 27 at 6 p.m. in the Union Ballroom. Speaker will be Dr. Bernice Milburn Moore, who is connected with the Hogg Foundation for Mental Health. All women students and faculty members are invited to attend.

## SOCIETY FOR ADVANCEMENT OF MANAGEMENT

The society for the Advancement of Management will meet Tuesday at 7:10 p.m. in the Blue Room of Tech Union. Officers will be elected and La Ventana pictures taken.

## KTXT-FM RADIO

KTXT-FM is running the "Finest Hours" A story of Sir Wins-

ton Churchill's life Sunday from 5-7 p.m.

## HORN OFFICERS

Susan Childs, San Antonio freshman, has been selected president of Horn Hall for the school year 1965-66 by a special screening committee of the Women's Residence Council.

Other officers chosen were Pat Ramsey, vice president and Carla Matthews, AWS representative.

Legislators are Betty Eloff, Martha Mills and Carolyn Schmidt.

Officers were selected by WRC because Horn Hall will become a freshman hall next year.

SEVEN LAST WORDS OF CHRIST — This oil painting by Rod Parkinson, of the allied arts faculty, is one of the works being exhibited in the all-faculty art show in the rotunda of West Texas Museum.

## Tech Art Professors Show Oils, Sculpture

Brass, stone, scrap metal and oil paint are some of the tools used by four members of Tech's faculty in art being exhibited in the West Texas Museum.

The exhibitions of contemporary art are in connection with the 14th Annual Symposium of Contemporary Music sponsored by the music department.

Three of the exhibitors, Hugh Gibbons, James Howze, and Rod Parkinson, are members of the allied arts faculty. James Anderson teaches in applied arts.

Anderson works in cast brass, using a new process he has developed during the last two years. With it, he can cast ultra-thin sections of brass using styrofoam molds.

His works include "Urschleim II," an abstract work based on the theory of primordial evolution. "Urschleim" is a German word for the slime at the bottom of oceans. Some scientists believe life began in this slime.

His "Butterfly Form" uses cast brass in an abstraction of a butterfly form with plexiglass wings.

Parkinson's works include several examples of "stone art," in which pictures are drawn on rounded stones. He is also exhibiting an example of "junk sculpture" using scrap metal as a medium. Also on display is Parkinson's "Seven Last Words of Christ," an oil painting based on the Crucifixion.

Hugh Gibbons is displaying three huge oils which he calls "Bursts." One of these is used for the cover of the symposium program.

Howze's works include "Ancient Bird at Burning Tree," and "A Chorus of Musicians," both oil paintings.

All the art is abstract and many of the works are for sale. Prices range from \$12.50 for a Parkinson "Rock Drawing" to \$1,200 for Anderson's brass work, "The Conversion of Saul."

## Welcome To Texas Tech

TODAY TEXAS TECH welcomes thousands of visitors to the 33rd annual Science and Engineering Show, University Interscholastic League regional competitions and the South Plains Regional Science Fair.

The UIL competition will be in 12 events—debate, journalism, poetry interpretation, prose reading, extemporaneous speaking, ready writing, persuasive speaking, typewriting, shorthand, number sense, slide rule and science.

Youthful scientists from the public schools will display their talents for the science fair in the Science Bldg.

While the high school students are on campus we hope they will take the opportunity to tour the university's many fine facilities.

They undoubtedly will find Texas Tech a mighty big place but one with numerous attractions.

If anyone has difficulty in locating someplace he wishes to see, then the best thing to do is ask a Techsan.

Tech students will be glad to help visitors and answer any questions they might wish to ask about Texas Tech.

Of course, we as college students are proud of our school and hope the visiting students will like Texas Tech.

We would be more than pleased for every high school student visiting today to give serious consideration to enrolling here after graduation.

We hope you enjoy your visit, and come back at any time.

## Askit ★ Questions Answers

ASKIT is a regular feature of The Daily Toreador, published once a week. Persons desiring to ask questions about anything concerning Texas Tech may do so. Questions should be sent to ASKIT, The Daily Toreador, Texas Tech.

**ASKIT—Have the new dorm hours been approved by the Dean of Women and will they be in effect for the summer session?—K.L.**

The new hours have been approved, according to a secretary in the Dean's office. The new policy, extending week night hours for first semester freshmen girls to 9 p.m. and upperclassmen's curfew to 10:30 p.m. will go into effect in the fall of 1965.

**ASKIT—How long will the space exhibit remain at the West Texas Museum?—L.L.**

"Milestones in Space," sponsored by the National Space Administration, will be on display until May 9.

**ASKIT—When will the exam schedule be posted?—N.G.**

A tentative schedule will be released Monday provided it is passed by the Exam Committee.

**ASKIT—I read Steve George's address in the Toreador. Could you tell me something about him, and if his address came as a surprise to student leaders?—T.C.**

Steve George, the retiring president of the Tech Union, is a senior mathematics major from Houston. He is a former member of the Student Council and a former vice president of the Honor's Council.

He is in the Arts and Sciences honors program. George was named to "Who's Who in American Colleges and Universities," and has received numerous scholastic and leadership honors.

He was one of the first to advocate changes in student government, and to establish a Speaker's Board.

George's address came as no surprise to student leaders because his views are well known. Several of his friends may have read his address in advance, but the views expressed were entirely his own formed after extensive research.

**ASKIT—How many students does the registrar's office predict will be enrolled in Tech next fall?—R.L.**

The registrar foresees an enrollment of 15,000 for Tech next year.

**ASKIT—How many teams have entered the bike race so far?—P.S.**

The Student Council office reports 24 teams have entered as of Friday.

## About Mailing Letters

Students desiring to send "Letters to the Editor" for publication in The Daily Toreador may use the intra-campus mailing service.

Envelopes should be marked: Editor, The Daily Toreador, Campus.

Letters are encouraged and any subject may be discussed providing it is not libelous. The Daily Toreador reserves the right to reject any letter on these grounds.

# Voice Of The People

## President-Elect Poses Question

Dear Editor:

Your recent article on runoff elections was very interesting and thought provoking, but I feel that you deleted some important points.

While a runoff election is troublesome and possibly unfair, would it not be more unfair to do completely away with these runoffs?

Let me pose this circumstance: Five candidates were to be elected out of a field of 15 for one school; in the first election, candidate X was in fifth place with 120 votes, while candidate Y was in sixth place with 119 votes.

Would it be fair to declare candidate X elected over candidate Y with a plurality of 1 extra vote?

We in the Student Council agree, especially after the disorder of the recent elections, that our campaigns and elections must be revised and corrected.

But since there is no easy solution to this problem, it will require time and study. The revision of the Election Code will be a primary situation for next year's Student Senate to consider.

Sincerely,

Roland Anderson  
President-Elect

**(EDITOR'S NOTE: Mr. President, may I call your attention to the recent runoff election in which Sen. Jerry Bawcom won the 19th position with only three more votes than his nearest opponent. In the cheerleader election Dick Ostott, according to Vice President Hance, won by only seven votes more than his opponent. Is it fair to declare these candidates winners with a mere plurality amounting to a handful of votes? Yes, it is. My point is the circumstance you pose does happen. It happens once in the first election and again in the second with often one candidate winning the former and losing the latter when less people vote. This brings us back to the original question, Are runoff elections fair to either the candidate or the voter? Thank you for considering this question.)**

## Transfer Ponders Value Judgments

Dear Editor:

Events of the past week have caused me to wonder about the soundness of value judgments of students on this campus.

For a week, this campus has been the scene of a series of demonstrations unsurpassed in ludicrousness of purpose and action by any adult activity to which I have previously been a witness. It seems incongruous to the point of absurdity that so many students should so enthusiastically support cheerleading, and at the same time be so unconcerned with the election of a student to represent them in determination of policies which could be of the utmost importance to their existence as students on this campus.

Of greater significance however, is the uproar over cheerleading when contrasted with the complacency exhibited by students here in the face of gross violations of their personal and academic freedoms. If only a small portion of that time, energy and money that was expended on the election of cheerleaders was channeled into efforts to correct these unjust situations which exist here, the effects would do much to raise the status of Tech in the eyes of both prospective students and faculty and incidentally, the A.A.U.P.

Actions by the administration here, in loco parentis, may be justified in the case of students under the age of 21, but it's all too frequent actions in effect, "in loco individuum," in the case of adults, whose parents do not even have legal control over them, can never be justified. Likewise, restrictions of one's mode of dress,

place of residence, extracurricular activities etc., by an agency of the state, are obviously contradictory to the principles of personal freedom on which this nation was founded, and are therefore illegal. The argument on the part of the administration that such regulations are necessary to maintain academic standards, is nullified in view of the record of the University of Minnesota, and all other major State universities in the East, North and West, all of which have very high academic standards, but few, if any, such rules.

Perhaps it is because their students have less interest in cheerleading, and more interest in preservation of their personal and academic freedoms, and concomitantly, the pursuance of academic knowledge.

Respectfully,  
Margaret E. Smith  
Junior  
Transfer Student  
from U. of Minn.

## Offers Criticism Of Interpretation

Dear Editor:

Miss Judy Fowler's treatise on existentialism resounds with poor sources, illogical presentation, and biased personal opinion. However, some pardon can be extended because of the complex nature of existentialism which renders it difficult to evaluate in five-hundred words.

In her article, one wonders where personal opinion and fact merge or separate. Such statements as "There are no moral values because there is no God to set them" succeed in making existentialism appear amoral. It is not amoral.

The center of morality does not come from an anthropomorphic being shrouded in mysticism and nurtured in ignorance, rather it is originated within the individual.

Fault could also be found in the statement "for a philosophy to really be of value, it must give answers." The key to most philosophy, with the exception of Christianity, is the search for answers and not falling into the trap of stagnancy of ideals that are not adapted for present situations.

A survey of existentialism would be best left to those more qualified in philosophy and less distinguished in bigotry.

Ann Brewer  
104 Drane Hall

**(EDITOR'S NOTE: The article's purpose was to provide a basis for stimulating thought by encompassing both objectivity and subjectivity. If we left philosophy to the 'experts' and students here never among themselves discussed any philosophical ideas, how could the intellectual environment be promoted?)**

## Seeks Suggestions For Ideas-Issues

Dear Editor:

As chairman of Ideas and Issues Committee of the Tech Union for the coming year, I would like to provide an opportunity for all interested students to voice an opinion concerning what they would desire in the way of campus speakers.

Student interest in the vital area of campus activity is necessary for three reasons: obtaining speakers of notable quality, demonstrating support in order that more money will be appropriated in the area for better speakers, AND one might accidentally learn something.

A campus is only as interesting as its students are willing to make it, and constructive support goes further toward an attainable end than constructive criticism.

Anyone having suggestions may address their inquiries to Box 87, Drane Hall or contact me personally.

Thank you.

Beverly Barlow

## Finds Mistakes In Smoking Story

Dear Editor:

This letter is in regard to the article about the smoking-anxiety experiment which appeared in the TOREADOR, Thursday, April 22.

One or two errors in an article may be accepted as human. Consistent and serious mistakes throughout a story are in our opinion, irresponsible and completely uncalled for.

The entire preparation of the article was conducted in an improper manner. First of all the interview was carried on over the telephone with only one of the two experimenters present.

Since the subject matter concerned a scientific study with which the staff writer had no first hand knowledge, the experimenters requested that the final copy be held until they could proof-read it. Our motives were not to censor, but to correct any misunderstanding. We set up a definite appointment with her to do this. No staff writer appeared.

We can't go into detail in this letter about the erroneous implications but to list a few of the obvious mistakes we cite: Miss Sally Long is Mrs. Sally Jones. Len Schneck is Lynn Schenck. There is no such test as an Alpha Test. However, we are using the FAP test designed by Dr. Albert Sweney. Both of the experimenters are seniors rather than juniors.

Are not our complaints justifiable? We feel that amends should be made by a rewritten, corrected article.

Please print our letter.

Sincerely,  
Lynn Harvey Schenck  
Sally Jones

**(EDITOR'S NOTE: Justified. Our apology extended.)**

## War Threats Widen Split

WASHINGTON (P) — U.S. officials see some signs that the growing strains and dangers of war in Viet Nam are widening the split between the Soviet Union and Red China — instead of pushing them into a tighter common front against the United States.

The situation is similar in some respects to the growing rift between the United States and France over the Southeast Asian war. An important difference seems to be, however, that the Western Allies, being loosely organized in the first place, seem more able to tolerate disagreement than can the Communists, who have a dogmatic devotion to a need for unity.

De Gaulle's purpose possibly is to clear away for a joint Vietnamese peace effort with the Soviet Union. The Soviet foreign minister, Andrei A. Gromyko, is due in Paris next week, and his scheduled trip helps to dramatize the dilemma in which the Soviet government finds itself with respect to the Vietnamese war and the conflict with Communist China.

**UNIVERSITY SING TROPHIES** — Anne and Jo Ann Reed look longingly at two of the trophies to be presented at the Phi Mu Alpha University Sing. The small trophy is for first place to be presented to a sorority or fraternity. The large trophy is for fraternities only and is a traveling trophy. The event will take place Saturday night in Municipal Auditorium at 7 p.m. The admission is 50 cents for students and \$1 for others.

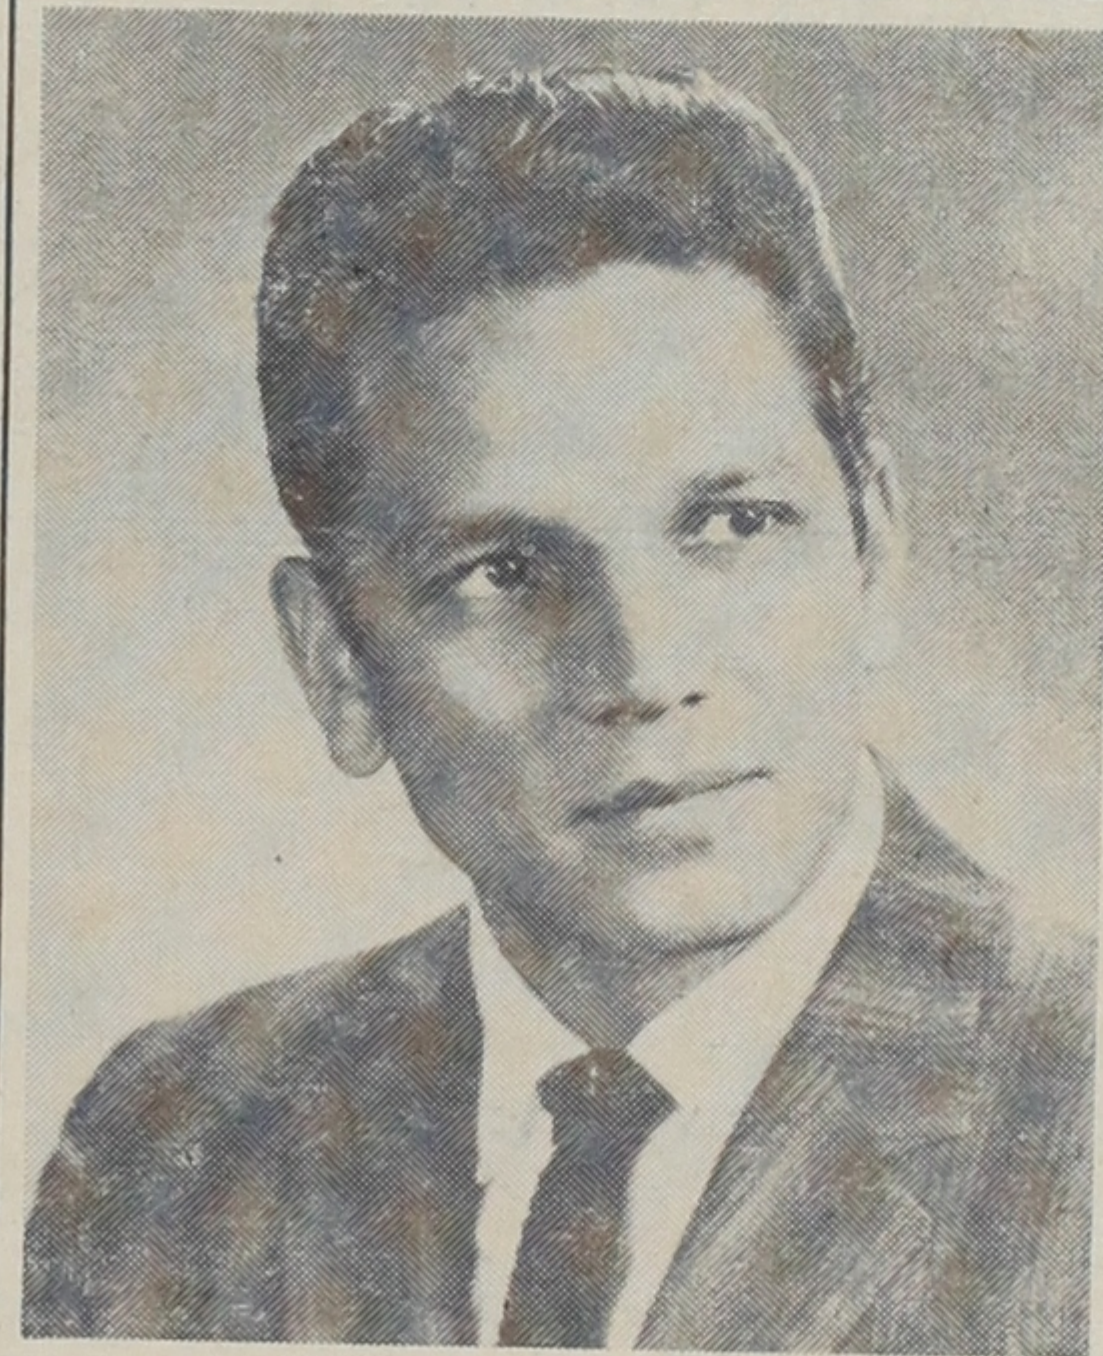

## Hartley To Speak At Council Dinner

Dr. Delmar Hartley, associate professor of finance, will speak on "Student Government—Past, Present and Future." at the spring Student Council banquet.

In the speech he will trace the history of student government at Tech from inception to the present. Dr. Hartley will stress changes that have been made this year and their significance. He will also comment on the revision of the constitution and the operation of the new organization of student

Suggestions to the newly elected student senate will conclude the address. Ronnie Botkin, Student Association president will install officers for the coming year. These officers will in turn install members of the Student Senate.

Roland Anderson will be installed president; Scott Allen, vice president; Sara Cox, secretary; and Jerry Rawls, business manager. The banquet will be at the Holiday Inn East, on Sunday at 7 p.m.

THROUGH MAY 2**

... and Fritz Smith Sings!

## University Sing Scheduled Today

Interscholastic League contestants are invited to the University Sing tonight at 7 p.m. in the Municipal Auditorium, according to Danny Hood, Sing chairman.

The annual event is sponsored by Phi Mu Alpha, men's music honorary, and will feature 12 participating sororities and fraternities staging and singing their own selections.

Songs will include patriotic, folk, hits from Broadway musicals, fraternity and sorority selections, and spirituals. Proceeds will go toward a scholarship fund.

Phi Mu Alpha and Mu Phi Epsilon will present an arrangement of songs from "Sound of Music."

Admission for the affair is fifty cents for students, and \$1 for adults. It will be over in time for Tech students to attend the Kappa Sig Pajama Dance.

Winner of the contest will be selected by the judges, Mrs. Robert Newton, choral director at Monterey High School; Jack Sheridan, fine arts editor of the Lub-

bock Avalanche-Journal; and Jack Hutton, choirmaster of the First Methodist Church.

## Arlington State Now Under UT

AUSTIN (AP) — Gov. Connally signed into law Friday a bill placing Arlington State College under the University of Texas System.

About 75 persons packed the governor's reception room and applauded Connally.

Connally said the school has "fantastic potential. It serves a dynamic part geographically—part of a growing, vibrant, exciting part of the state."

"Arlington is a symbol of change for the better in the educational environment," Connally said

# Highlands Sweeps Twin Bill

ALBUQUERQUE, N. M. (Special)—Highlands University jumped on the Texas Tech Red Raider baseballers here Friday and bopped the Techsans 6-0 and 7-5 in a doubleheader.

The Raiders close out their season today with a single game against the New Mexico school.

It was sweet revenge for Highlands, which had been victim of Raider victories on three other occasions this season.

Highlands did away with the Raiders in the fourth inning of the first game, tallying five runs to

match their lone score in the second.

Tech hurler Donny Anderson helped the New Mexico school's cause by walking the first two men up. Enrique Gonzalez then singled to load the bases. Ron Humpert then followed suit with another single that scored a run.

With the bases still loaded Dean Beeman blasted a double that cleaned the bases. He later stole home for the fifth run of the frame.

Tech's only noise in the second contest came from the bats of Bob

Fielder and Richard Perry who connected for back to back home runs.

Fielder's round-tripper came with Eldon Frost on base. No one was aboard for Perry's whack.

Highlands displaced the Raiders' efforts, however, with four runs in the sixth inning.

With the bases loaded, pinch hitter Rich Warner sacrificed Dick Reynolds home. Gonzalez then slapped out a single to bring in Dena Skeens. Humpert came up next and slammed a double that brought home two scores.

Tech managed six hits in the second match. Highlands had seven. Each team committed three errors.

The losses left the Raiders, 7-15 for the season. Highlands is now 13-7.

### UNION MOVIE

"Come September," a recent movie will be shown in the Union Coronado Room Sunday at 3 and 7 p.m. The movie stars Rock Hudson, Gina Lollobrigida, Sandra Dee and Bobby Darrin. Admission is 25 cents for students and 50 cents for others.

ONE MORE STROKE — Tech golfer Rick Rodgers shoots toward the green in Friday's match against SMU at Meadowbrook Golf Course. Rodgers, three down with seven holes to play, played the last seven holes two under to come from behind to win his match and help Tech down SMU, 4-2.

## Raider Netters Sink Mustangs

DALLAS (Special) — Coach George Philbrick's Red Raider netters gave SMU little solace here Friday afternoon, blanking the Mustangs, 6-0.

Tech's No. 1 singles player, Robert Peterson, had the hardest time registering a victory, as he was forced to three sets by Dave Ferhelder before taking the match, 2-6, 6-1, 6-2.

Greer Kothman won No. 2 singles for the Raiders, downing Charles Dancy, 6-4, 6-3. Dub Malaise zipped past Charles Hooper, 6-2, 6-2 and Charles Bower stopped John Ramsey, 6-1, 6-0 for Tech's other singles wins.

Peterson and Kothman teamed up to blast Ferhelder and Hooper, 8-6, 6-2 in a hotly contested first set.

Malaise and Bower eased past Dancy and Ramsey, 6-1, 6-4 for the day's sweep.

The Raider victory string carried over into the freshman division where Rudy Gutierrez and Pat Acton won singles matches. Gutierrez had to go three sets before downing Harvey Davis, 4-6, 6-3, 7-5. Acton cut down Norman Brown, 6-2, 6-2.

Gutierrez and Acton shut out Davis and Brown, 8-0 in a pro set doubles match.

## Houston Astros Test Tinted Dome

HOUSTON (AP)— The Houston Astros tested the tinted skylights of the Astrodome during an afternoon workout Thursday and said they believe the glare problem has been solved.

"Only about one-half of the dome has been painted so far, but I'm sure afternoon games can be played without difficulty," said Manager Luman Harris.

"You can see the ball now," Staub said. "Before they started painting, you couldn't see it at all."

Houston outfielders had difficulty following the ball because of the sun glaring through the 4,596 plastic skylights when they held their first workouts in the \$31.6 million stadium the afternoons of April 7 and 8. Most wore their batting helmets to protect themselves against fly balls lost in the glare.

Astro officials announced Monday architects and engineers had decided the problem could be solved painting the plastic sections with a thin coat of off-white paint.
