

# Spring Registration Continues To Mount

A total of 7,006 students had taken out permits for registration at 5 p.m. yesterday. This number includes juniors and seniors who pre-registered.

An increase in enrollment is shown over last spring's total of 6,430. The final number will be announced after registration has been completed, according to Miss Evelyn Clewell, assis-

tant registrar and statistician.

One-hundred and eighteen entering freshmen have taken the required entrance exams. The tests will be scheduled again for a later date as many were unable to be here because of unsatisfactory weather conditions.

February 6 is the last day for

regular students to finish registration.

Night students may register 5-7 p.m. February 4-7. The deadline is from 8 a.m. til noon February 9. These students may also register during regular registration.

Fees for night courses are \$10.00 for a three semester hour course or less; \$12.00 for four

semester hour course; and a \$7.00 property deposit that is refundable.

Classes meeting Saturday only will meet for the first time on

February 9. All other courses will begin Monday.

Approximately 300 students are expected to register for night classes this semester.

THE TEXAS TECHNOLOGICAL COLLEGE

Vol. 32

Lubbock, Texas, Friday, February 1, 1957

No. 41

## 155 Attend Snow Festival

Skiing, parties, the selection of a Snow Queen, and a quick tour of Santa Fe highlighted Tech's first Snow Festival held Jan. 26-29 at Bishop Lodge near Santa Fe, N.M.

A total of 155 Tech students attended the festival, according to director Jess McIvain. Eighty-one of these went on the chartered buses, and the rest went in private cars.

The buses left Tech at 2 p.m. Saturday and arrived at Bishop Lodge at 8:30. That night there was a dance in the lodge for the students.

Sunday was designated Tech Day on the ski slopes by the lodge where lessons were provided by

the lodge's professional instructors.

At the party Sunday night, Carol Foster was crowned Snow Queen. Other nominees included Gail Petersen, Peggy Miller, Ann Hills and Mary Sue Wilson. Nominations were made from the floor, and voting was by secret ballot.

Chuck Strehli was in charge of the going away party held in the lodge Monday night. Tom Holman did a pantomime entitled "The Little Men" and Bill Jones and Don McGuire performed a skit. Strehli did a satirical sermon on school and student life. Dick Sewell led the group in songs.

Before returning to Lubbock Tuesday, the group took a brief

tour of Santa Fe. They left around 10:30 a.m. and arrived at Tech at 6:30 p.m.

Sponsors for the festival included Jacqueline Sterner, assistant dean of women, Mary Gerlach of the homemaking department and John Dennis of the geology department.

Five accidents occurred during the festival, resulting in only minor injuries.

### DR. JONES RECEIVES THREE APPOINTMENTS

Dr. E. N. Jones, Tech president, will serve as chairman of the Texas Heart Fund for 1957. He has also received appointments from two educational agencies, American Council on Education and Southern Association of Colleges and Universities.

Texas Heart Association, an affiliate of American Heart Association, will conduct its drive this month.

Dr. Jones goes to Washington Feb. 21 to serve on an advisory committee of college and university presidents who will help ACE plan a new Office of Statistical Information and Research.

President Jones accepted a three-year term on the Association's Commission on Colleges and Universities, which deals with academic accreditation and other matters concerning higher education.

## James To Head Toreador, New Issue Editors Selected

Wayne James, New Deal senior, has been named by the Publications Committee as editor of the Toreador for the spring semester.

Named by James to fill vacant issue editor posts are Paul Foraker, Kermit senior and Dale Johnson, junior from Wolforth.

James will fill the position left vacant by the graduation of Ross Short, who will join the staff of the Lubbock Avalanche-Journal.

James was an issue editor of the Toreador most of last fall. He

is vice-president of the Saddle Tramps and a former member of the Student Council. James also is past president of Sneed Hall and is a member of the Future Teachers of America, the Press Club, and is a Mason.

Foraker will replace James as issue editor. He was assistant editor of the Toreador last fall and is president of the Press Club.

Johnson replaces Cathy Dickinson, who graduated in January and who also is becoming an Avalanche-Journal staff member. Joan Abel is the other issue editor.

## B.S.O. Deadline Set For Monday

Monday is the deadline for reservations for the third annual Board of Student Organizations sponsored leadership retreat at Clouderoft, N. M. The date for the retreat is March 1-3.

Each organization must have the name of its representative and expense money in the Office of the Dean of Student Life by Feb. 18, said Carolyn Tapp, chairman of publicity for BSO.

The bus will leave at 8 a.m. Friday, March 1, and will return to Lubbock at 10 a.m. Sunday.

Committees and final arrangements will be announced later.

### TECH SENIOR GIVEN PRIZE FOR DESIGN

Julian C. Derrick, senior advertising art major from Monahans, recently won a \$25 prize in the third annual Pollock Folding Carton Design Contest for College Students. The announcement was made in Dallas by Lawrence Pollock, president of the Pollock Paper Corporation.

Derrick won the \$25 University Prize for Texas Tech for his distinctively designed clothing box. He is a student of Prof. Roderick Parkins in the Architecture and Allied Arts department.

**EARLY REGISTRANTS** — Ten members of the Tech Forensics Society were allowed to register early for the spring semester before leaving for Waco yesterday. The group will compete in debate, and in extemporaneous and oratory speaking today and tomorrow at the Baylor University Speech Tournament. Seated is Marlys Harris, and standing, left to right, are Barbara Van Horn, Boone Brackett, and Virginia Bray. Other team members who made the trip are Willis Taylor, Pat Worley, Joe Ben Hudgens, Don Ludwig, Tommy Reager, Jack Gibson and sponsor James E. Brennan.

## Fire Damages Tech Nursery; Loss Estimated At \$4,000; No Injuries

Fire struck the Nursery School Building at 9 a.m. yesterday and heavily damaged the kitchen and dining room. There were no children at the school at the time and the only occupant was Mrs. F. T. Jarrett, housekeeper of the nursery. She was not injured.

"The fire started in the kitchen and swept into the dining room, causing a damage of \$2,500-\$3,000 to the building and \$1,000 in equipment," said Vernon E. (Jack) Thompson, assistant comptroller at Tech.

"I was in the patrol car watch-

ing traffic," said Patrolman "Chris" Christesson, "when I saw smoke coming from the corner of the building. I called the fire department and when they arrived the building was blazing on the south side."

"The nursery normally houses 18 children in the morning and in the afternoon, but they aren't there during finals and registration week," said Willa Vaughn Tinsley, dean of Home Economics.

The nursery is located north of the Tech Bookstore.

## School Favorites To Be Selected

Petitions are now being taken out for candidates for Mr. and Miss Texas Tech. Selection will be made Feb. 20 by popular vote of the student body at the same time elections are held for the selection of class favorites.

The petitions must contain 300 names and must be in the Student Council office by 5 p.m., Feb. 11. The candidates must be of senior classification and active in campus affairs. No campaigning will be allowed.

The election also will fill vacancies on the Student Council for the engineering and arts and sciences divisions.

## Fraternity Gives Two Scholarships

Graduating seniors who plan to work for graduate degrees and who are members of Phi Eta Sigma, freshman honor society, may apply for two \$300 scholarships, it was announced today.

Applicants should get in touch with Dean James G. Allen, faculty adviser of Phi Eta Sigma, at room 167 in the Ad Building.

Only members of Phi Eta Sigma are eligible for these gift scholarships. Deadline for applications is Feb. 20.

**TECH'S FIRST ANNUAL SNOW FESTIVAL**—Assistant Dean of Women Jacqueline Sterner and Mary Gerlach of the homemaking department, two sponsors of Tech's first snow festival, ride the ski lift at Bishop Lodge near Santa Fe where 155 Techsians attended the festival. Shown at right is

Carol Foster, sophomore from Pampa, who was crowned Snow Queen Sunday night. The lodge designated Sunday as Tech Day, and ski lessons were provided by professional instructors. Only five minor injuries were suffered during the week.

### Alpha Phi To Hold Workshop Sunday

Members of Alpha Phi social sorority will attend a workshop at Mackensie Terrace Sunday, according to Diana Smith, president. The purpose of the workshop, which will begin at 9:30 and will last all day, is to make plans for sorority activities during the spring semester. Betty Taylor is in charge of arrangements.

## WE GOOFED!

The TOREADOR Business Office doesn't have any copies of the last edition — Friday, January 11th.

If you have a copy of that issue, won't you please bring it by the Journalism Building. It will be highly appreciated.

### "An Evening With Johann Strauss" To Feature Operetta Selections

"An Evening With Johann Strauss" will be presented by Civic Lubbock, Inc. Saturday night at the Lubbock Auditorium.

The program, which will be presented in concert form, will be unusual in that all lyrics have been translated into English. Ruth and Thomas Martin have assembled a touring company of four soloists from New York City opera and Broadway, a choral ensemble, narrator and a two-piano team to present extensive portions from Strauss' three most popular operettas—"The Gypsy Baron", "Die Fledermaus" and "A Night in Venice."

Short selections from "Princess Ninetta", "Prince Methusalem", "The Merry War" and "The Queen's Lace Handkerchief" will be played. The individual numbers of the program will be introduced by Michael Steel, actor of Broadway motion pictures and television.

Tickets for the Lubbock appearance are priced at \$3, \$2.50, \$2 and \$1. They may be bought at the Auditorium box office.

### Union Schedules "Carmen Jones"

"Carmen Jones" will be presented as the regular Monday night movie at the Union next week. The movie uses much of the original score of the opera "Carmen". However, new lyrics were added by Oscar Hammerstein to bring the story up to date.

"Carmen Jones" stars Dorothy Dandridge, Harry Belafonte, and Pearl Bailey. Showing time is 7 p.m.

### PLEDGES INITIATED INTO PHI MU ALPHA

The Zeta Sigma chapter of Phi Mu Alpha recently initiated ten pledges into membership. Men who were initiated were Fritz Munzinger, Leslie Warner, James Caggin, Jim Owens, Olen Petty, Jean Paul, Gregory Lamb, Stan Pittman, Wayne Crowley, and Stan Hoefler.

After the ceremony members met at the new Night Owl for a breakfast in honor of the new members.

## On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

### THE DRESS PARADE

What will the American college student wear this spring? Gather round, you rascals, and light a good Philip Morris Cigarette, and puff that rich, natural tobacco, and possess your souls in sweet content, and listen.

As we know, college fashions have always been casual. This spring, however, they have become makeshift.

The object is to look madly improvised, gaily spur-of-the-moment! For example, girls, try a peasant skirt with a dinner jacket. Or matador pants with a bridal veil. Or Bermuda shorts with bronze breastplates. Be rakish! Be impromptu! Be devil-take-the-hindmost!

And, men, you be the same. Try an opera cape with sweat pants. Or a letter-sweater with kilts. Or a strait-jacket with hip boots. Be bold! Be daring! Be a tourist attraction!

Rock and Roll is giving way to the Minuet

But all is not innovation in college fashions this spring. In fact, one of the highlights of the season turns time backward in its flight. I refer to the comeback of the powdered wig.

This charming accoutrement, too long neglected, has already caught on with style-conscious students all over the country. On hundreds of campuses rock-and-roll is giving way to the minuet, and patriotic undergraduates are dumping British tea into the nearest harbor. This, of course, does not sit well with old King George. For that matter, a lot of our own people are steamed up too, and there has even been some talk of revolution. But I hardly think it will come to that. I mean, how can we break with the mother country when we are dependent on her for so many things — linsey-woolsey, minie balls, taper snuffers, and all like that? She, on the other hand, relies on us for turkeys, Philip Morris, Cinemascope, and other valuable exports. So I say, if Molly Pitcher and those other Bryn Mawr hotheads will calm down, we may yet find an amicable solution for our differences. But let not our British cousins mistake this willingness to negotiate for weakness. If fight we must, then fight we will! Paul Revere is saddled up, the rude bridge arches the flood, and the ROTC is ready!

But I digress. We were smoking a Philip Morris Cigarette — O, darlin' cigarette! O, happy smoke! O, firm! O, fresh! O, fragrant! O, long-size! O, regular! O, get some! — and talking of new spring fashions, let us turn now to the season's most striking new feature: pneumatic underdrawers. These inflatable rubber garments make every chair an easy chair. Think how welcome they will be when you sit through a long lecture! They are not, however, without certain dangers. Last week, for example, Rimbaud Sigafos, a University of Pittsburgh sophomore, fell out of an 18th story window in the Tower of Learning. Thanks to his pneumatic underdrawers, he suffered no injury when he struck the sidewalk, but the poor fellow is still bouncing and it is feared that he will starve to death.

© Max Shulman, 1957

Fashions come, fashions go, but year after year the Philip Morris Company, sponsors of this column, bring you the tastiest, pleasiest cigarette your money can buy — Philip Morris, of course!

"ON THE CAMPUS"

# Raiders Nudge Bears 68-65

Leon "Podd" Hill's 25 points and 20 rebounds led the Texas Tech Red Raiders to their first win over a Southwest Conference foe since joining the conference in a wild and woolly 68-65 win over the Baylor Bears here Wednesday night before 5,000 well-pleased fans.

Ned Underwood, who scored 14, and Bobby Wilson with 13 aided Hill in off-setting the mighty efforts of Baylor star Jerry Mallett, who dropped in 27 points.

It might not have been the Raiders best performance of the season but it was probably the sweetest tasting victory thus far for Polk Robison's Techsians.

The favored Bears took an early lead after Tech tied the game 2-2 on Wilson's set shot at 18:37. Mallett led the early Bear attack with deadly sets and hooks from the side. But the Raider's Hill and Wilson started on their own scoring rampage on long sets and pulled Tech into a lead they never lost.

It was Hill's shot at 2:59 of the half that put the Raiders into a 20-29 lead and Baylor never again recaptured an advantage. Tech led at the half 35-32.

The Raiders came back in the second half red hot and built up a 16-point lead. During this spurt "Podd" hit for 10 of those 25 points.

Baylor, in an effort to play catch up, moved into a zone and finally a man to man defense and managed to narrow the margin. But time ran out on the Bears just after brother Hill added icing to the cake with a crisp that made it 68-65.

Bear guard Charley Pack countered with a long fielder, but before the Bruins could work the ball down court again time ran out.

It was a rough and hectic game that often got out of the hands of officials Ed Haley and Don Rossi. Haley once called a jump ball between two players who weren't even close to the action and Rossi called Raider Charlie Lynch into a jump affair when Lynch was completely out of the play.

Baylor coach R. E. (Bill) Henderson remained calm throughout most of the affair, admitting that he wasn't too happy but nothing can be done about it.

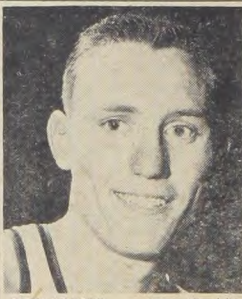

The opener between the Picadors and the Ince Oilers was another thriller with the Oilers taking a 63-61 win on Gerald Roberts free throws after the game had ended. Pat Noakes and Robert Echols led the Frosh with 19 points each and Carl Ince led the Oilers with 18.

Underwood opened the half with two free tosses, followed by Hill's jump shots, two free throws and a tip-in. Harry Scaling then hit on a lay-up after stealing the ball, was fouled, and added the charity toss. Seconds later Hill connected on a long set to make it 50-34 and

produce the 16-point lead. During this Raider drive the lone Baylor points came on two charity throws by John Moore.

# Melpar to Interview Engineers, Physicists and Mathematicians

## Representative of South's Largest Electronic R&D Firm on Campus Soon

## Melpar Locales Offer Fine Living Conditions

Mechanical and electronic engineers, as well as those majoring in physics and math will want to investigate the unusual opportunities for rapid professional growth and advancement offered by Melpar, Inc., the South's leading electronic research and development organization.

A subsidiary of Westinghouse Air Brake Company, Melpar is now engaged in a program of expansion involving both increases in staff and facilities. The organization's headquarters laboratory is located in Fairfax County, Virginia, suburban to Washington, D. C.

## Melpar Growing Consistently

Founded in 1945, Melpar has doubled in size every 18 months for the past 11 years. Recently it completed erection of a complete new headquarters laboratory in Northern Virginia, and is presently making substantial additions to its Watertown, Mass. laboratory (6 miles west of Boston), and to its research department in Boston.

Melpar's R & D operations are centered near and in Washington, D. C. and Boston, Mass. Both are rich in cultural and educational facilities. The Northern Virginia area in which Melpar's headquarters laboratory is located is within easy driving range of beaches, lakes, mountains, as well as other recreational and scenic points. The climate allows outdoor recreation 215 days of the year. Fine homes and apartments in all price ranges are readily available.

Melpar's Boston area plants allow engineers to enjoy the pleasant tempo of New England living coupled with Boston's splendid cultural and educational advantages. Melpar pays re-location expenses.

## University Courses Offered at Melpar

Melpar staff members, both holders and non-holders of degrees, may take advantage of the many fully-accredited courses in engineering subjects which are offered at Melpar's headquarters laboratory.

## No Formal Training Period at Melpar

The college or university graduate who joins Melpar is not required to undergo a formal training program. Instead he immediately becomes a member of a project group and is assigned to work with an experienced engineer whose guidance and assistance enable him to advance rapidly. Members of Melpar project groups gain experience in all phases of engineering problems by free and frequent interchange of ideas during group meetings. Such experience is valuable in leading to eventual managerial responsibility.

## Company Benefits

Melpar's personnel policies and salary structure compare most favorably with those of the industry as a whole. The Company maintains a liberal program of benefits too extensive to detail in this space.

## Financial Assistance Offered by Melpar for Graduate Work

The list of universities located near Melpar laboratories that offer graduate and undergraduate courses in engineering subjects includes: Georgetown University, George Washington University, American University, Catholic Uni-

## Performance Determines Advancement at Melpar

At Melpar there is no waiting period for "automatic" advancement. Instead, an engineer, regardless of his age or tenure, may move ahead as rapidly as his skill and performance dictate. Each engineer's achievement is reviewed at least twice a year. In this manner engineers deserving advancement can be quickly "spotted" and promoted. As soon as an engineer is ready for more complex responsibilities they are given him.

## Qualified Graduates Offered Company Paid Inspection Trips

After a personal interview on their campus, qualified candidates may be invited to visit Melpar's headquarters laboratory at Company expense. Information on opportunities available for graduates together with details on living conditions in Northern Virginia is available by simply writing: Mr. William Schaub, Melpar, Inc., 3000 Arlington Blvd., Falls Church, Virginia.

## Booklets Available

An attractive, fully-illustrated booklet describing living conditions prevailing in the Northern Virginia Area can be obtained from your campus Placement Officer.

## Choose Your Assignments From Varied Fields

Engineers who join Melpar may choose their assignments from one or more of these challenging fields:

- Flight Simulators • Radar and Countermeasures • Network Theory • Systems Evaluation • Microwave Techniques • Analog & Digital Computers • Magnetic Tape Handling • UHF, VHF, or SHF Receivers • Packaging Electronic Equipment • Pulse Circuitry • Microwave Filters • Servo-mechanisms • Subminiaturization • Electro-Mechanical Design • Small Mechanisms • Quality Control & Test Engineering
