Oil and Gas Wells Provide About \$6.7 Million a Year In Coleman Co.

Oil and gas wells provide approximately \$6.7 million a year of Coleman County's economic output, according to statistics released this week by Texas Mid-Continent Oil and Gas Association.

Based on most recent U. S. Bureau of Mines production figures, the Association compilation showed that Coleman County produced crude oil valued at \$5.4 million in 1966 and natural gas worth \$1.3 million.

Texas oil production in 1967, responding to demands for more domestic crude as a result of the Israeli-Arab conflict, totaled 1,050,000,000 barrels, a statewide increase over 1966 of about 5 per cent. Production last year varied widely among state Railroad Commission districts, however, ranging from 3.5 per cent below 1966 to 15 per cent above.

"Production from Coleman County last summer helped prevent any oil scarcity for U. S. consumers at a time when one-third of world's supply was cut off," said Corbin J. Robertson, Houston, Association president. "We must keep in mind, however, that it may be difficult for Texas fields to sustain production in future emergencies if the discovery of new reserves continues to lag, due to lack of exploratory drilling."

The annual study showed that Coleman County ranked 112th among Texas counties in total value of its production of some 1.8 billion barrels of oil and 10 billion cubic feet of natural gas.

Texas oil men, according to Rinehart's yearbook, drilled 57 wells in the county risking some \$1.2 million. Forty six per cent of them were dry holes, costing about \$418,000.

County landowners and others with mineral interests cashed royalty checks totaling about \$832,000 during the year. Likewise, the county's flow of oil and gas generates \$337,000 a year in production taxes paid by producers and royalty owners to the state treasury.

Reports from Texas Employment Commission show some 118 persons directly employed by the oil and gas industry in the county, with an annual payroll of \$504,000.

Plants which convert crude oil and natural gas into useful products also add to the value of a county's output.

HemisFair Stamps Now At Post Office

The Oil and Gas Journal lists two gas processing plants, with a total capacity of 8 million cubic feet a day for the county.

A new supply of the HemisFair Commemorative Postage Stamps was received at the post office early this week, according to Acting Postmaster John C. Gregg. They can be obtained from any of the windows now.

Mr. Gregg said they received a shipment of the stamps several weeks ago, but the demand for the stamp was much greater than expected and they went in a hurry. The new supply was ordered soon after the original supply was exhausted, and because of the heavy demand throughout Texas, it took a good while to get the new stamps.

It is expected that the number received will be enough to take care of all needs for the next few weeks.

THE FAMILY LAWYER

Instant Insurance
Step number one, after you buy a car, is to buy insurance. But it might take the insurance company several days—or even several weeks—to consider your application. In

the meantime, the company may give you a "binder" for temporary protection.

How good is a binder? Does it really protect you in case of an accident?

Generally speaking, a court will indeed enforce a binder—even an oral one (although that kind is harder for you to prove). While a binder lacks most of the details to be found in a formal insurance policy, the courts are willing to read in what is missing—provided that can be done with reasonable accuracy.

Consider this case:

A motorist was involved in an accident shortly after taking out a binder for "10-10" liability coverage. In a court test, this was held to mean that the man had coverage of \$10,000 for each accident and \$10,000 for each injury—because that is how such a phrase would ordinarily be understood in the insurance business.

On the other hand, your binder probably will not stand up in court if it leaves some essential fact in real doubt. Omitting the amount of coverage, or the type, or the term, could mean that court would have to use guesswork to figure out what the parties had in mind. Then, the binder would lack that "meeting of the minds" necessary to constitute a legal contract.

Furthermore, a binder, just like a formal insurance policy,

may be cancelled in most states if it was obtained by false representation.

In one case a motorist, applying for a binder, was asked if he had had any traffic violations in the preceding three years. His answer was "No."

But after he had a collision, the insurance company found out that his answer should have been "Yes." In

fact, his record showed no less than five moving violations in the three-year period.

Result: no insurance protection. As the judge put it, his deception was "material to the risk"—that is, important enough for the insurance company to have turned down his application if it had known the truth.

Austin, Texas — Presently there are two major topics of speculation in capitol corridors:

1. When will Gov. John Connally call the legislature into special session?
2. Who will win the gubernatorial runoff race . . . Conservative Preston Smith or Liberal Don Yarborough?
As for Item No. 1, Governor Connally must call the lawmakers back to the capitol by mid-June at the latest to pass a 1969 budget and a new tax bill ranging in the \$125,000,000 a year bracket. Congressional approval of the 10 per cent federal income tax surcharge may drive the state tax requirement even higher. This because a reduction in income will affect the sales tax revenue in Texas.

Legislators mention June 4, June 10 and June 11 as probable starting dates. Rumors were widespread at last week's Legislative Budget Board meeting that Connally was considering calling the session before the June 1 runoff election.

Lt. Gov. Preston Smith told reporters that he feels it will be "difficult" for the legislature to pass a major tax bill in a 30-day special session, starting cold.

House Appropriations Committee Chairman W. S. Heatly of Paducah noted that never before have lawmakers been called to pass a complete general appropriations bill in a botched session. He said he would like to start his committee to work unofficially on budget proposals even

before the session begins, in hope of meeting the deadline.

As if the legislature did not have its hands full with financial matters, liquor by the drink advocates are urging Connally to submit that red hot issue to the special session. Passage of a May 4 referendum favoring mixed-drinks-sales by a narrow margin added impetus for the early consideration by legislators.

Smith and key lawmakers feel that the referendum was not conclusive enough numerically to be of any great benefit in winning legislative approval of mixed drink sales. As for No. 2, Smith and Yarborough now are engaged in a runoff battle to determine who will be the Democratic candidate for governor of Texas.

Yarborough led by 36,000 votes in the first primary. But Smith quickly picked up the wholeheartedly endorsement of third place candidate Waggoner Carr and fifth place runner Eugene Locke.

Classic liberal-conservative lines are drawn in the Yarborough-Smith class. Researchers contend that continuing disinterest and a light turnout on June 1 could prove disastrous to Smith.

Republican gubernatorial nominee Paul Eggers, who won hands down in light vote GOP primary, plans a serious, well-financed general election campaign against the winner of the Yarborough-Smith runoff.

Ben Barnes won the Democratic nomination for lieutenant governor over two opponents, State Rep. Don Gladden and former Rep. Gene Smith, both of Fort Worth. Barnes near-record majority (exceeding 76 per cent) means that he will be a key figure in the state government during the next two years.

District Judges Tom Reavley of Austin and Sears McGee of Houston are new justices-elect of the State Supreme Court. They won the Democratic nomination and are unopposed by Republicans.

VETERAN DPS CHIEF DIES

Col. Homer Garrison, Jr., 66, Texas' top police officer and head of the vast Department of Public Safety for 30 years, died of cancer.

All of the state's highest officials joined in mourning his loss.

"He was one of the most capable and effective law enforcement administrators in America," said Governor Connally. "Under his leadership, the Texas Department of Public Safety has become recognized throughout the nation as a symbol of law and order. Its reputation will live as a personal tribute to Colonel Garrison."

Wilson E. Speir is serving as acting director of DPS.

COURTS SPEAK

The U. S. Supreme Court has postponed a suit which would require the State of Colorado to meet the obligations of downstream discharges from the Rio Grande as long as the state meets compact requirements for supplying water to Texas and New Mexico. Suit can be resumed any time Colorado fails to comply.

The State Supreme Court upheld a \$44,400 damage verdict favoring a Jefferson County woman who claimed she suffered back injuries when a 200-pound bill collector for a loan company pushed her against a wall by forcing open a door. Over-zealous collector came to collect a car note.

The High Court set June 12 for review of an insurance company's claim that it is not obligated to pay on its bond covering a building contractor for concrete sold directly to the owner of a new apartment complex that's

under construction.

Travis County 126th District Court continued its temporary injunction against the Liquor Control Board enforcing the ban on cash sales in private bottle clubs. Case will be heard in July.

NEW BAR OFFICERS

State Bar Association reports that Josiah Wheat, 39-year-old Woodville attorney, is the new president elect of the State Bar of Texas. He defeated Bar Vice-President R. E. Schneider Jr. of George West in mail balloting among the state lawyers. He will assume the presidency July 1, 1969.

Ralph Brite of San Antonio takes over the presidency at the Bar convention in Houston on July 3-6.

OIL-GAS LEASES SOLD

Sale of 34,366 acres of State oil and gas leases the first week in May brought \$1,400,000 in new revenue to the state's coffers. So reports Land Commissioner Jerry Sadler.

The biggest single bid was \$211,235 for 640 acres in Ward County by Humble Oil and Refining Company. Bids on 1,590 acres of sulphur leases brought \$155,267. Highest of these bids was by Duval Corporation for \$76,918 on 40 acres in Culberson County.

KINDERGARTEN STANDARDS

For the first time, the State Board of Education has adopted professional standards for Texas kindergarten teachers. This step could be in the direction of recent suggestions of public, state-supported kindergartens.

The Board also took note of the state's desegregation problems by approving the appointment of two more staff members to the Texas Education Agency to work solely with local school districts in complying with federal law and court decisions on the subject.

Also getting the Board's endorsement was a preliminary plan to study how best to make use of Texas' educational manpower and to assess pupils needs. Study is being made in conjunction with the U. S. Office of Education to help TEA coordinate programs supported by some \$129,000,000 federal funds.

SHORT SNORTS

The Constitutional revision committee suggests that Texas' top state appellate judges be appointed rather than be elected.

General revenue fund dipped into the red to the tune of \$73,200,000 on May 1, but will be coming up soon with franchise and quarterly sales tax collections, says State Comptroller, Robert S. Calvert.

The American Party of Texas now claims a membership of 90,000 or nearly six times the needed 14,000 member strength to get Alabama George Wallace on the November ballot as a presidential candidate.

Legislative Budget Board has recommended a \$657,000 appropriation to build and equip a veterinary diagnostic laboratory on the Texas A & M University campus. Democratic and Republican

executive committees met in Austin Tuesday, May 14, to canvas statewide primary election returns.

Kyle Thompson, veteran UPI newsman who broke in on the Wichita Falls Record-News, is new press secretary to Governor Connally.

During the month of March 1,873 criminal complaints were filed by the Liquor Control Board, with 1,688 convictions, nine jail sentences and fines totalling \$61,236.

State Auditor George W. McNeil named Lee H. Ashmore of Fort Worth as First Assistant State Auditor.

Attorney General Martin has ruled that it is illegal for commercial airlines to serve liquor or beer on flights over Texas.

Also Attorney General Martin reports that his office won 261 lawsuits out of 263 cases tried in April. During the fiscal year 2,297 cases were won by the state and 54 lost. A total of 3,132 cases are still pending.

CROP PROFIT NOTEBOOK Vegetable Plants Now Protect Themselves Against Insect Damage

Vegetable growers throughout the country are adopting a new method of insect control. Sprayed on the plant in the usual manner, Cygon 267 insecticide is actually absorbed by the foliage. In this way it provides three-way insect control: on contact as a surface residual, and systemically from within the plant itself.

At the same time authorities have found that no harmful residues remain when the crop is ready for harvest as long as growers follow application instructions.

Latest registrations make it possible to use Cygon 267 on the day of harvest to control aphids, leafhoppers, leaf miners, mites and lygus bugs on green, snap, lima and dry beans; aphids on peas; and aphids and leaf miners on peppers.

A 3-day-before harvest restriction has been placed on applications of Cygon to control aphids on cabbage.

One-week restrictions apply to the use of Cygon to combat aphids on cauliflower and broccoli; aphids, leafhoppers and leaf miners on head lettuce and leaf miners on potatoes, tomatoes and watermelons.

A two-week restriction applies in the case of aphids, leafhoppers and leaf miners on leaf lettuce, spinach, collards, Swiss chard, kale, mustard greens, endive and turnips.

An additional benefit to growers is the fact that Cygon's low mammalian toxicity makes it possible to handle this material without wearing cumbersome protective clothing.

This method of long-lasting systemic insect control provides economical weatherproof protection against damage to our vital produce.

Applications of Cygon 267 may be made on peppers and 20 other crops to provide three-way insect protection.

Outdoors In Texas

Fishermen in the Texas Panhandle long have boasted that they are right in the middle of the best fishing in the world—namely halfway between the Atlantic and the Pacific.

Now, however, fishing is a little closer to home. Today, one of the newest and most interesting lakes in Texas is in the process of filling. Lake Meredith is created by the Sanford Dam across the Canadian River, only a few miles out of Borger.

It is a new glory for this city, which first became famous about 40 years ago with the discovery of oil.

At that time and during the intervening years the Canadian River, which cuts across the Panhandle north of Amarillo, was mostly a dusty stream that went wild with torrential rains and flooded its valley. Then came the wind and sun and the river dried up again in spots.

Now that has been changed! After years of talk and planning and the expenditure of almost a hundred million dollars, Lake Meredith has been completed and the stored water will be carried by a 35 mile aqueduct to serve the nearby cities of Borger and Pampa.

Another aqueduct carries the water to Amarillo and a half-dozen other high-plains cities, which for years have depended entirely upon underground water for domestic purposes and agriculture.

the new lake with walleyes. Just a year ago some 2,000,000 fry were released in the lake. The baby walleyes were carried to the lake from Iowa, in an exchange agreement between the two states.

Lake Meredith also has been stocked with black bass, crappie and catfish. The Canadian itself long has been a good catfish haven and natives have caught many fine cats from the river in the years gone by.

The walleye experiment has been most promising. After the first release of 500,000 in 1965, netting samples from the lake indicated good survival. Fishing for walleyes has been closed in Lake Meredith until such time as it has been shown the fish are well established.

Fine cooperation is expected from sportsmen from the area because the Panhandle long has been famous for its wildlife conservation programs. Most of the fresh water fishing that has been available to these residents has been in Colorado, New Mexico and Central Texas. So Panhandle anglers know the value of this conservation and will give it all the help possible.

Information about Lake Meredith can be obtained from the Chambers of Commerce in Borger, Pampa or any of the nearby towns all of which are extremely interested in this newest development in the Panhandle area.

Federal Tax Questions And Answers

This column of questions and answers on Federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q—My baby is due next month. When can my husband start claiming an additional withholding exemption?

A—Your husband can make this change in his withholding any time after the baby is born. The change should be made on the Form W-4 he files with his employer. Keep good records of your medical expenses this year.

so you will have them if you decide to itemize deductions on your 1968 tax return.

Q—I'm moving soon. Should I do anything about my refund if it doesn't come before I leave?

A—If your refund hasn't arrived before you move, don't forget to file a change-of-address card with your postmaster. Then your refund can be delivered at your new address.

Lack of up to date mailing address is a major reason why refund checks are delayed in getting to taxpayers each year.

Q—I can't find the new tax deposit forms I'm supposed to use for the income and social security taxes I withhold from my employees' wages. What should I do?

A—Additional forms can be obtained by contacting either your district office or regional service center. When you request the forms, give your name, your address, employer identification number, type of tax and tax period to which the deposits relate.

If these forms do not arrive before your next tax deposit is due, send your deposit direct to the IRS office where you file your return. Make your deposit payable to the Internal Revenue Service and be sure to give your name, address, etc.

Q—I'm thinking of buying some U. S. savings bonds and putting them in my son's name. If I do that, will I have to pay tax on the interest?

A—If the bonds are issued solely in the child's name, or in his name with you as beneficiary, then he will be liable for tax on the income they earn, not yourself. Unless income from the bonds and other sources add up to \$600 or more, then no return need be filed for your child.

Q—I'm selling my home. What can I deduct as a sell-

ing cost?

A—A broker's commission, advertising expenses, and legal fees are some of the costs you may deduct from the sales price. Records of these items should be kept for tax purposes.

Further information is contained in IRS Document No. 5017, "Selling Your Home." Send a post card to your District Director for a free copy.

Q—I hold down two jobs. Is there any way I can get one of my bosses to stop taking out for social security?

A—No, the law requires each employer to withhold social security tax on the first \$7,800 of wages paid to each employee. If more than \$343.20 is withheld for 1968, claim a credit for the excess social security tax on your income tax return next year.

Pioneer Barber, Masonic Leader, E. E. Polk, Dies

Enos Erastus Polk, pioneer settler of Brady, and a barber here for more than half a century, died at 3:30 p. m. Tuesday in Brady Hospital after a long illness. He was 94.

Masonic funeral services were held at 6 p. m. Wednesday in Wilkerson Memor-

ial Chapel, the Rev. Evans Burleson of Cherokee, conducting. Burial was in Live Oak Cemetery.

Born June 17, 1873 in Bradon, Rankin County, Miss., Mr. Polk came to Texas in 1891 and settled at Santa Anna. He moved to Brady five years later. While in Santa Anna, he learned the barbering trade which he followed here over 50 years.

Mr. Polk married the former Annie Ogden, "the first white girl born in Brady," on Sept. 13, 1899 in Brady. She preceded him in death on March 23, 1956.

His barber shop, prior to his retirement in the mid-forties, was located in the old Queen Hotel and later in Hotel Brady. Mr. Polk's partner at the latter shop was the veteran Curtis Reynolds.

Mr. Polk was active in Masonic work and received the 50-year Masonic Service Pin in August 1960. He was a member of Brady Lodge No. 628.

Survivors include a son, John A. Polk of Brady; a granddaughter, Mrs. Mary Ann Sutherland of Saugus, Calif.; five grandchildren and several nieces and nephews.

THE SANTA ANNA NEWS

Established In 1886

SPORTS AFIELD

Years ago, when the do-it-yourself technique burgeoned coast to coast, the art came into vogue of converting a truck or heavy-duty automobile into a walk-through, self-contained and self-propelled home on wheels. It was

known as a "house car." A particularly picturesque house car was built by Ertle Stanley Gardner, then a practicing lawyer and later to become the famed mystery writer—on the chassis of a Model T Ford truck. The unit was by no means streamlined, being of lofty stature and with a terrific road clearance. It had lots of windows, a bed and a camp stove, and Garner equipped it with an icebox and means to carry plenty of water, groceries and other supplies. Whenever he could escape from the demands of his practice, he would drive off in the rig for several days in his beloved California desert. He had room in this cozy, mobile nest for a typewriter, and he may have created some of his early stories camped by some remote desert water-hole in the shade of a Joshua tree.

The modern "house car" is the motor home. It is not

a pickup camper coach, van home, mobile home, travel trailer, camping trailer or expandable trailer. It is a unique outfit, approximately 20 to 30 feet long, resembling more than anything else, a bus.

As vehicles, motor homes are full-power—power steering, power brakes—and have an automatic transmission. The truck chassis upon which they are constructed is the "cabover" type. The windshield is big, like that of a transcontinental bus, and as there is no hood in front of you, you have excellent vision. The rigs cruise very stably; there is no sensation of a "truck" ride.

Inside, observes John Johnson, Camping Editor of the Sports Afield Magazine, the better models are as plush and self-contained as a suite at a modern hotel. Bigger ones have a separate bedroom, a comfortable living room, a comfortable living room, a dining nook with a picture window, at least two full-size closets with full-length mirrors and thick, resilient carpeting. You will also find a large refrigerator, gas range, twin sinks, hot and cold pressure water lines and a bathroom with flush toilet and shower.

These motor homes necessarily do not initially come cheap, though the price trend is downward as modern mass-production techniques are applied. If you are in that rapidly growing segment of youngish taxpayers who like and can afford the ultimate in travel, or if you are retired and want to convert some scratch to gracious living afield, you will be well advised to see a few motor-home dealers, carefully examine the products and by all means take a test drive. You will have a world of fun with a motor home—though perhaps none of us will have more rewards from our space self propelled homes than Ertle Stanley Gardner did from his original do it yourself "house car" on a Model T Ford chassis.

AS IT LOOKS FROM HERE

Omar Burleson, M. C. Washington, D. C. — "Citizens' Crusade Against Poverty," a self-appointed agency sponsored by Walter Reuther, has just released a 100-page report entitled "U.S.A.—Hunger." The group under the agency is called the "Citizens' Board of Inquiry into Hunger and Malnutrition in the United States."

The report found shocking examples of hunger in all parts of the nation but primarily "in the south and the southwest."

The document identifies 256 counties that are so "distressed as to warrant a Presidential declaration naming them as hunger areas," where this Board recommends that new emergency food programs should be immediately instituted.

Prior to this report the Department of Agriculture recently issued a survey on hunger and malnutrition which contradicts testimony given by Department officials before the Committee on Agriculture of the House of Representatives.

Officials of the Department had testified before the Committee last fall that they had all the authority needed to feed hungry people anywhere they might find them and that they had the money with which to do it. The Agriculture Committee felt that under these circumstances it was unwise to establish another program to do the same thing, but another committee of the Congress has authorized an additional program which duplicates what is already being done.

Following the issuance of the report of the private "Citizens' Crusade Against Poverty," Chairman of the Agriculture Committee, Congressman W. R. Poage of Waco, wrote health officers and other officials of the 256 counties, which this group found to be deficit in food,

asking for a report and their opinion on local conditions. Chairman Poage has received 77 responses already and more are coming in. Local health officials say that in no case do they find any actual starvation but do find instances of malnutrition. Most of them have amplified their responses to say that malnutrition can occur in cases where food is plentiful and that it is a matter of balanced diet. This may occur in any home of an affluent society. Most of them commented that from their observations many people preferred to be on relief with a limited supply of food than to accept jobs which were available.

Chairman Poage wrote specifically, (1) "I would greatly appreciate it if you would immediately advise me whether you have any personal knowledge of any actual starvation in your county. (2) Do you have any personal knowledge of any severe hunger in your county occasioned by inability of the individual to either buy food or receive public assistance?" None have thus far replied in the affirmative.

Of course there are instances of people who are too old or too sick to work and these are the people who are entitled to assistance and who will get it, if this is their condition.

Now coming out of these reports is a move on to ask the President to appoint another commission to look into the matter. The Chairman of the Agriculture Committee says that if anyone knows of any facts needed to relieve conditions of hunger, the Committee will welcome such information and will do something about it.

The Chairman says "there is simply no need to spend millions of dollars to review the work which has already been done by the Committee, based on the head-line seeking group which has made the fantastic report of widespread hunger and starvation in the country."

Everyone knows there are people who need help—those who cannot help themselves. Those people will be helped, but to categorically find that an entire county is poverty stricken and people starving cannot be supported by official inquiry. But seemingly it can be readily determined by a group made up principally of professionals in other parts of the country who must labor with imagination and general statistics to prove their case. These would likely be the people appointed on a governmental commission if one is authorized.

Mr. and Mrs. Pete Simmons and son of Cotton Center are moving to Santa Anna for the summer, while Mr. Simmons is attending Howard Payne in Brownwood. He is coach at Cotton Center.

Mrs. Silvia Edwards reports her son, Claud James Baker, was injured in Viet Nam a few days ago. He is in the hospital and doing satisfactorily, and hopes to be home soon.

Mr. and Mrs. W. C. Newman of Portales, N. M., visited last week with her sister and family, Mr. and Mrs. D. L. Wallace. Mr. and Mrs. O. J. Martin of Trickham visited all of them Thursday.

Harrell Cupps was dismissed from Hendricks Hospital Saturday. He had a bone graft on large bone and a pin in small bone. Mr. Cupps fell seven months ago and broke his leg just above the ankle, receiving a compound fracture. Mrs. Cupps has been with him in Abilene.

TAX MAN SAM SEZ: Having a maid is probably not as popular as it was a few years ago for many reasons.

If your maid, your lawn boy, baby sitter, or other household help, earns more than \$50 per quarter, you have to have an employer identification number from the IRS Service Center—you have to pay Social Security tax on the employee or employees each quarter. You must have the employee's Social Security number.

The way the lawn has been growing lately, won't take long for the lawn boy to collect \$50 off of you. Check it, and get Circular H from IRS.

GRADUATE TO TOTAL ELECTRIC OPERATION

"You'll have to hunt a long time to find a better banking facility," President Lowell Littleton says of the modern all-electric Ozona National Bank. All of the employees like it very much. From 2,700 square feet of space to 6,300 on the first floor and 4,300 square feet in the basement is a considerable jump in space. "Per square foot—the cost of operation is reasonable," Littleton says.

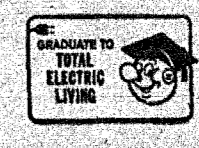

- 20 Tons of cooling • 89.5 KW of strip heating in the ducts
- 40 gallon water heater • All electric snack bar • 29 KW of lighting
- Estimated operation—\$258.05 per month average.

Convert to total-electric business operation—It's the world's most modern!

"Total-electric operation is wonderful! We have the best lighted work space in the state!" — Lowell Littleton, President, Ozona National Bank.

They celebrated Mother's Day and

"I would like to take this means to express my deep appreciation to the over 5,000 voters who went to the polls on May 4th, and cast their votes for me for State Representative. Of course, mere words cannot express the gratitude I feel toward the countless numbers of friends who worked so diligently for us throughout the district. I am especially proud of the tremendous confidence in me that was expressed by the people of Brown County; for in Brown County my home, where people know me best, I was substantially in the lead. I shall always have a warm place in my heart for all my fine Brown County friends, and for my friends throughout the district many of whom I met for the first time during this campaign. I want to make it very clear that I would not presume to attempt to influence the votes of those who supported me in the first primary by publicly asking them to support either of the two candidates in the run-off. Therefore, I will not publicly endorse either candidate, but rather I will go to the polls as each voter should, and cast my vote for the candidate of my choice. It is my sincere hope that, as I have urged from the beginning the next State Representative from the 64th District of Texas will be selected on the basis of ability and on the issues in this campaign. Thanks to each of you so much. Bert Massey.

Genia's birthday together. Mr. and Mrs. Jerry Haynes and children of Farmington, N. M. and Mr. and Mrs. R. L. Estes and girls of Brooksmith visited the Fred Haynes last week on Sunday. Mr. and Mrs. Jim Linebery of Midland were Sunday guests. Billy Don Haynes and Donnie York returned home from Sul Ross College in Alpine last Wednesday. We are proud of Sherrie McIver, she was valedictorian of the 8th grade Monday at their graduation exercises and Mark Wise of Rockwood was salutatorian. We congratulate these young people on their achievement. A number from our community attended baccalaureate service at Santa Anna Sunday night. We have only one senior from here this year, Wendell Rice. The Marion Fords have a grandson, Ted Ford of Santa Anna, graduating. Mrs. Beulah Kingston of Bangs Rest Home asked me to thank each one that sent her cards or remembered her in any way on her 88th birthday, May 15. She received 50 cards and several gifts. Mr. and Mrs. Howell Martin and their granddaughters Ann and Janice Martin, A. J. Martin, Russie James and Mr. and Mrs. Talmadge McClatchey, Jr., and girls attended the baccalaureate service at Bangs Sunday night and went to Brownwood after this to a program at H. P. College, Good News program for young people. Russie said it was good for anyone to hear. Jeanie McClatchey will be a senior in Bangs High School this year, she is valedictorian of her class. Congratulations to her. A number from Trickham attended the funeral for Mrs. Ellie Sheffield at the Bangs Methodist Church Sunday at 4 p. m. She died Saturday at 1:20 p. m., in Brownwood Memorial Hospital after a long illness. Her four children have been at her bedside most of the time lately. She was such a jolly person it made you feel good after you visited her. She was a good friend to us all, and we loved her. Another friend, Mrs. Ernest Wylie, was buried Monday. She died early Sunday at the Brownwood Memorial Hospital. Her funeral was at the First Christian Church in Santa Anna at 3 p. m., with burial in Bangs by her husband, Brother Wylie, who preached here at Trickham and at Santa Anna many years passed. Mr. and Mrs. Doyle Laughlin and children of Spur visited his parents, Mr. and Mrs. Roy Laughlin Sunday and attended Mrs. Sheffield's funeral services. Mr. and Mrs. Evan Wise of Rockwood visited Tuesday with Mr. and Mrs. Ray Caldwell.

DID YOU KNOW THAT?

From his perch in a fire tower, a crewleader with the Texas Forest Service can, on a clear day, scan an area of about 150,000 acres. There are 98 towers used by the Service to spot forest fires as they occur in the pine-hardwood area of East Texas. By triangulation from two towers a fire is located and a two man crew rushes to suppress it in a radio equipped truck-tractor unit. Airplanes are also used by the Service, as a supplement to towers, to locate fires.
