## Mountain Echoes

By  
Barbara  
Kingsbery

Call it curiosity or just plain nosy-- I have always wanted to see the "Opera House", the upstairs portion of the old Stockard building at the downtown intersection.

When work was being done on the building recently, I was given permission to go upstairs to look around and was surprised to see no large auditorium, but partitions for offices, etc.

At what time the opera house was renovated for other use, I do not know. The only hint to the past use was a hand-lettered sign above a door noting "Dr. Tyson".

Sorry I ruined the day for some local people last week. Seems they did not want to be reminded of the starting of the school term, that is just three (or less) weeks away. I promised I wouldn't mention it again.

There always seems to be a shortage of housing in our town. Anyone with a house for sale or rent is urged to have it listed or advertise in the NEWS.

So far as is known, there has been little if any response to the housing survey and inquiry about interest in rental duplex units for the community. The forms are still available at City Hall, Chamber of Commerce and several other places in town.

### Famed Pitcairn More Isolated Following Fire

Pitcairn Island, famed home of descendants of mutineers from the HMS Bounty, narrowly escaped annihilation this week when fire broke out less than hundred feet from a shed full of dynamite.

The fire started in the electrical plant for the island, and when the islanders arrived on the scene flames were shooting 20 to 30 feet high.

Tom Christian, reporting by short wave from Pitcairn, said that the first warning of anything wrong was a blackout about an hour after the generator began operation at 5:30 p.m. Before the men could do anything, sparks had ignited the brush all around the building. Two days before, ten 55-gallon barrels of diesel fuel had been moved near the generator. Two of these exploded before they

could be moved, causing fiery geysers.

Christian reported that the men shoveled a trench around the generator building, extinguished the burning brush, and contained the fire, but they were unable to save the equipment that provided the island with electricity.

The greatest fear was that the stored dynamite might be set off, so intense was the heat. Christian said the dynamite had been stored by the British, to use in blasting the reef for expansion of the Bounty Bay Jetty. At the present ships must anchor far out from shore and small boats must cross the reef on the crest of waves in order to reach the island.

The island's only remaining source of electrical power is a wind generator and five private 3-kilowatt generators donated by the Voice of Prophecy international radio broadcast, operated by Seventh-day Adventists of Glendale, California. The islanders on Pitcairn have been Adventists for more than half a century.

### GOOD NEWS

By WRIGHT PRICE, Pastor

Too often it is the Christian who is living a frustrated, defeated, unhappy and unproductive life. Too often we forget that the Christian is "The Temple of the Holy Spirit." We are not our own and bought with an awesome price (our crucified Lord). The Christian is commanded to "Glorify God in our body." I Cor. 6:19-20.

Jesus said: "I am the vine, you are the branches. He that lives in me and I in him bringeth much fruit, because without me you can do nothing."

How different many of us are from the Apostle Paul who declared "I can do all things through Christ which strengtheneth me," Phil. 4:13. We are always failures to the extent that we leave Christ out of our lives and our thinking.

All things that God wants you and me to do are possible: but only through Christ.

Quite a difference between "Nothing" and "All things." Christ makes the difference. He supplies our every need. Phil. 4:19.

# MY HOME TOWN

OLD T. T. PERRY HOME  
Surrounded by huge oak trees

By Mrs. John C Hunter  
One of the most interesting older houses is the one family home now owned by Mrs. Lone Caton at 1203 Mahoney St.

When Mr. and Mrs. T. T. Perry of Kinney County, Texas, came to Santa Anna in 1890 with their two young daughters, Ida Perry Jones and Sadie Perry Taylor, they lived in a cove at the foot of the West Mountain and Mrs. Perry was disturbed about all the wild varmints—snakes, skunks, wolves and what-have-you, on account of her children, and would look toward the south, with very little town between. One Sunday afternoon they visited the place of the majestic oaks and Mrs. Perry remarked, "I'd like to build a house under this tree."

The next morning Mr. Perry contacted George W. Mahoney, president of the Santa Anna Livestock and Land Company, and a Warranty Deed was made to T. T. Perry, June 18, 1891, signed by Mr. Mahoney, president, Chapman Bradford, secretary, Ben H. Pittman, clerk of District of Coleman County, Texas, recorded by H. D. Walker, County clerk Squire Boone, Deputy—filed for record 18, June 1891 at 5 o'clock and 50 minutes, p.m.

Building of the new home was started in 1892. The original house had four rooms and a large back porch; a second story of five rooms was added in 1908. The house was constructed of beaded ceiling and walls, and square nails were used. It isn't remembered where the lumber was bought.

Later Floss Perry Davis and Anzo Perry McHorse and lone Perry Caton joined the family.

Mr. Perry was a stone mason, working most of the rocks in the local buildings still standing—Limestone from a quarry in Santa Anna Mountain was used for the unusual decorations around his home—one is a large stone

encircled with a grape vine with huge clusters of grapes at each end that is dated 1905. He probably carved many grave stones in nearby cemeteries.

Mr. Perry died June 17, 1943, and Mrs. Perry died September 20, 1955, Mrs. Perry the surviving parents, deeded the home to a daughter, lone Caton, July 25, 1955.

Mrs. Caton has her home filled with treasures, one is an oil painting, by Mrs. Sylvia Herring of the old rock building on wallis Ave. now being razed. The house has most of the original furniture. Other treasures include a Hume China vase, made in Germany, for S. H. Phillips Drug Store. It is decorated with a picture of the first Santa Anna Public School building, another is a heavy, clear glass small medicine bottle with "S. H. Phillips, Registered Druggist," in raised letters. There is also an ashtray of heavy clear glass, made of Santa Anna Sand, which had been shipped to Mexico. The tray shows a diamond shape at any angle. There is a glass walking stick made by R. W. Stemmell who later moved to Long Beach, Calif.

Another favorite is a lifelike, large doll, given by her parents, Christmas 1912, named "Mary Tom" for her parents. It was made in Germany and bought from S. H. Phillips Drug Store.

There is an interesting lawn swing bought in 1910 not to mention all of the needlepoint and other handicraft Mrs. Caton has made for her treasured one family home, located among the giant Oak Trees—In Our Home Town.

By Mrs. Oscar Boenicke

Our Community received more rain last week and Sunday. We have received over nine inches this month, and some may have gotten more than we.

He was in the last war and was gone two years and had married since he came back, and every time they planned to come to see us, something would happen. He said he was going to come by this time. He is Bill and Doris Shield's youngest son. We enjoyed their short visit so much.

### Bobcat Business Very Profitable

Three young bobcats, approximately 12 weeks old, rode air freight to California Monday where they will become someone's pets. The bobkittens were trapped near the Colorado River Sunday and were sold by Henry Sorrells to a California dealer.

One of the three kittens seemed more gentle than the others during the over-night captivity. The three were fed raw rabbit meat before embarking on the journey.

Although the predatory animals have been destroyed by area stockmen for many years, they are of monetary value now. The three wild kittens brought \$100 each, and bobcat hides in season are also valuable.
